BRIGHT HORIZONS FAMILY SOLUTIONS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. ORGANIZATION AND BASIS OF PRESENTATION

Organization—Bright Horizons Family Solutions Inc. (“Bright Horizons” or the “Company”) provides workplace services for employers and families throughout the United States and the United Kingdom, and also in Puerto Rico, Canada, Ireland, the Netherlands, and India. Workplace services include center-based child care, education and enrichment programs, elementary school education, back-up dependent care (for children and elders), before and after school care, college preparation and admissions counseling, tuition reimbursement program management, and other family support services.

Basis of Presentation—The accompanying unaudited condensed consolidated balance sheet as of March 31, 2016 and the condensed consolidated statements of income, comprehensive income and cash flows for the interim periods ended March 31, 2016 and 2015 have been prepared by the Company in accordance with accounting principles generally accepted in the U.S. for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required in accordance with generally accepted accounting principles for complete financial statements and should be read in conjunction with the audited financial statements included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015.

In the opinion of the Company’s management, the Company’s unaudited condensed consolidated balance sheet as of March 31, 2016 and the condensed consolidated statements of income, comprehensive income and cash flows for the interim periods ended March 31, 2016 and 2015, reflect all adjustments (consisting only of normal and recurring adjustments) necessary to present fairly the results of the interim periods presented. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year.

Stock Offerings—On January 30, 2013, the Company completed an initial public offering (the “Offering”) and, after the exercise of the overallotment option on February 21, 2013, issued a total of 11.6 million shares of common stock. Subsequent to the Offering, certain of the Company’s shareholders sold shares of the Company’s common stock in secondary offerings (“secondary offerings”) totaling 9.65 million, 15.9 million, and 9.8 million in the years ended December 31, 2015, 2014 and 2013, respectively. The Company did not receive proceeds from the sale of shares in the secondary offerings. The Company purchased 2.1 million and 4.5 million of the shares sold in the secondary offerings in 2015 and 2014, respectively, from investment funds affiliated with Bain Capital Partners, LLC at the same price per share paid by the underwriter to the selling shareholders.

As of March 31, 2016, investment funds affiliated with Bain Capital Partners, LLC held approximately 27.6% of our common stock.

New Accounting Pronouncements— In March 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-09: Compensation - Stock Compensation (Topic 718):

Improvements to Employee Share-Based Payment Accounting. The amendments in this update simplify several aspects of the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as classification in the statement of cash flows. The update is effective for annual reporting periods beginning after December 15, 2016, including interim periods within those annual reporting periods with early adoption permitted. The Company is currently evaluating the impact of this update on the consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). This standard amends the existing guidance and requires lessees to recognize on the balance sheet assets and liabilities for the rights and obligations created by those leases with lease terms longer than twelve months. This update is effective for annual and interim reporting periods beginning after December 15, 2018, including interim periods within those fiscal years, and is to be applied using a modified retrospective approach. Early adoption is permitted. The Company is in the process of evaluating the impact this standard will have on the Company’s consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which provides guidance for revenue recognition. The FASB has subsequently issued various ASUs which amend or clarifies specific

areas of the guidance. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In doing so, companies will need to use more judgment and make more estimates than under current guidance. These may include identifying performance obligations in the contract, estimating the amount of variable consideration included in the transaction price and allocating the transaction price to each separate performance obligation. This new guidance is effective for the Company beginning January 1, 2018 and can be adopted using either a full retrospective or modified approach. The Company is currently in the process of evaluating the impact of adoption of this ASU on the Company's consolidated financial statements.

Table of Contents

In 2015, the FASB issued ASU 2015-16, Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments and ASU 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. These standards were effective January 1, 2016, which did not have an impact on the Company's consolidated financial statements.

3. ACQUISITIONS

As part of the Company's growth strategy to expand through strategic and synergistic acquisitions, the Company has made the following acquisitions in the three months ended March 31, 2016 and year ended December 31, 2015. The goodwill resulting from these acquisitions arises largely from synergies expected from combining the operations of the businesses acquired with our existing operations, as well as from benefits derived from the assembled workforce acquired.

2016 Acquisitions

During the three months ended March 31, 2016, the Company acquired three centers in the United Kingdom, which were accounted for as a business combination. The centers were acquired for cash consideration of \$2.3 million. The Company recorded goodwill of \$2.1 million related to the full service center-based care segment, a portion of which will be deductible for tax purposes. Intangible assets of \$0.6 million, consisting primarily of customer relationships that will be amortized over five years, and a working capital deficit of \$0.3 million were also recorded in relation to this acquisition.

The allocation of purchase price consideration is based on preliminary estimates of fair value; such estimates and assumptions are subject to change within the measurement period (up to one year from the acquisition date). As of March 31, 2016, the purchase price allocation for this acquisition remains open as the Company gathers additional information regarding the assets acquired and the liabilities assumed. The operating results for the acquired business are included in the consolidated results of operations from the date of acquisition, which were not material to the Company's financial results.

2015 Acquisitions

On May 19, 2015, the Company acquired Hildebrandt Learning Centers, LLC, an operator of 40 centers in the United States, for cash consideration of \$19.2 million and contingent consideration of \$0.5 million, which was accounted for as a business combination. The Company recorded goodwill of \$13.2 million related to the full service center-based care segment, which will be deductible for tax purposes, and intangible assets of \$5.7 million, consisting of customer relationships that will be amortized over 12 years. The Company also acquired working capital of \$0.3 million, including cash of \$1.5 million, and fixed assets of \$0.5 million.

On July 15, 2015, the Company acquired Active Learning Childcare Limited, an operator of nine centers in the United Kingdom, for cash consideration of \$42.2 million, which was accounted for as a business combination. The Company recorded goodwill of \$31.1 million related to the full service center-based care segment, which will not be deductible for tax purposes, and intangible assets of \$3.8 million, consisting primarily of customer relationships that will be amortized over five years. The Company also acquired a working capital deficit of \$1.8 million, including cash of \$2.8 million, fixed assets of \$9.8 million, and deferred tax liabilities of \$0.7 million.

Our acquisitions of Hildebrandt Learning Centers, LLC and Active Learning Childcare Limited contributed approximately \$14.0 million of incremental revenue in the three months ended March 31, 2016.

During the year ended December 31, 2015, the Company also acquired four additional centers in the United States and four additional centers in the United Kingdom, in six separate business acquisitions which were each accounted for as business combinations. The centers were acquired for cash consideration of \$20.5 million and contingent consideration of \$0.8 million net of cash acquired of \$0.3 million. The Company recorded goodwill of \$18.5 million related to the full service center-based care segment, a portion of which will be deductible for tax purposes. Intangible

assets of \$2.7 million, consisting primarily of customer relationships that will be amortized over five years, were also recorded in relation to these acquisitions. Contingent consideration of \$0.5M related to one of these acquisitions was paid during the three months ended March 31, 2016.

The allocation of purchase price consideration is based on preliminary estimates of fair value; such estimates and assumptions are subject to change within the measurement period (up to one year from the acquisition date). As of March 31,

Table of Contents

2016, the purchase price allocation for seven of these eight acquisitions remains open as the Company gathers additional information regarding the assets acquired and the liabilities assumed. The operating results for the acquired businesses are included in the consolidated results of operations from the dates of acquisition, which were not material to the Company's financial results.

4. CREDIT ARRANGEMENTS AND DEBT OBLIGATIONS

The Company's \$1.2 billion senior credit facilities consist of \$955.0 million in secured term loan facilities and a \$225.0 million revolving credit facility. In conjunction with a debt refinancing in January 2013, \$790.0 million in senior secured term loans were issued, with the subsequent issuance of \$165.0 million in additional term loans in December 2014. The term loans mature on January 30, 2020.

Outstanding term loan borrowings were as follows at March 31, 2016 and December 31, 2015 (in thousands):

	March 31, 2016	December 31, 2015
Term loans	\$927,262	\$ 929,650
Deferred financing costs and original issue discount	(14,497)	(14,439)
Total debt	912,765	915,211
Less current maturities	9,550	9,550
Long-term debt	\$903,215	\$ 905,661

On January 26, 2016, the Company amended its existing credit agreement to increase the revolving credit facility from \$100.0 million to \$225.0 million, to extend the maturity date on the revolving credit facility from January 30, 2018 to July 31, 2019, and to modify the interest rate applicable to borrowings under the revolving credit facility to a range of 1.25% to 1.75% over the base rate and 2.25% to 2.75% over the Eurocurrency rate. There were no borrowings outstanding at March 31, 2016 on the revolving credit facility and there were \$24.0 million in borrowings outstanding at December 31, 2015.

The effective interest rate for the term loans was 3.84% and 4.09% at March 31, 2016 and 2015, respectively, and the weighted average interest rate was 4.05% and 3.91% for the three months ended March 31, 2016 and 2015, respectively. The weighted average interest rate for the revolving credit facility was 4.6% and 5.0% for the three months ended March 31, 2016 and 2015, respectively.

The Company incurred financing fees of \$15.4 million and original issue discount costs of \$9.6 million in connection with debt refinancings. These fees are being amortized over the terms of the related debt instruments. Amortization expense of deferred financing costs and original issue discount costs in the three months ended March 31, 2016 were \$0.6 million and \$0.4 million, respectively, which are included in interest expense. Amortization expense of deferred financing costs and original issue discount costs in the three months ended March 31, 2015 were \$0.5 million and \$0.4 million, respectively.

The future principal payments under the term loans at March 31, 2016 are as follows (in thousands):

Remainder of 2016	\$7,162
2017	9,550
2018	9,550
2019	9,550
2020	891,450
	\$927,262

5. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing net income by the weighted-average common shares outstanding.

Diluted earnings per share is calculated by dividing net income by the weighted-average common shares and potentially dilutive securities outstanding during the period.

Earnings per share is calculated using the two-class method, which requires the allocation of earnings to each class of common stock outstanding and to unvested stock-based payment awards that participate equally in dividends with common stock, also referred to herein as unvested participating shares.

The Company's unvested stock-based payment awards include unvested shares awarded as restricted stock awards at the discretion of the Company's Board of Directors. The restricted stock awards generally vest at the end of three

years.

6. INCOME TAXES

The Company's effective income tax rates were 34.8% and 31.3% for the three months ended March 31, 2016 and 2015, respectively. The effective income tax rate is based upon estimated income before income taxes for the year, by

Table of Contents

jurisdiction, and estimated permanent tax adjustments. The effective income tax rate may fluctuate from quarter to quarter for various reasons, including discrete items such as settlement of foreign, Federal and State tax issues. The Company's unrecognized tax benefits were \$0.8 million and \$0.7 million at March 31, 2016 and December 31, 2015, respectively. There were no interest and penalties related to unrecognized tax benefits at March 31, 2016 and December 31, 2015.

The Company expects the unrecognized tax benefits to change over the next twelve months if certain tax matters settle with the applicable taxing jurisdiction during this time frame, or, if the applicable statutes of limitations lapse. The impact of the amount of such changes to previously recorded uncertain tax positions could range from zero to \$0.8 million, exclusive of interest and penalties.

The Company and its domestic subsidiaries are subject to U.S. Federal income tax as well as multiple state jurisdictions. U.S. Federal income tax returns are typically subject to examination by the Internal Revenue Service ("IRS") and the statute of limitations for Federal income tax returns is three years. The Company's filings for 2012 through 2014 are subject to audit based upon the Federal statute of limitations. An audit of a subsidiary's filing for 2013 began in the second quarter of 2015 and is expected to be settled in 2016.

State income tax returns are generally subject to examination for a period of three to five years after filing of the respective return. The state impact of any Federal changes remains subject to examination by various states for a period of up to one year after formal notification to the states. There was one state audit completed with no material adjustment during the first quarter of 2016. As of March 31, 2016, there were two state income tax audits still in process and the tax years from 2010 to 2014 are subject to audit.

The Company is also subject to corporate income tax at its subsidiaries located in the United Kingdom, the Netherlands, India, Canada, Ireland, and Puerto Rico. The tax returns for the Company's subsidiaries located in foreign jurisdictions are subject to examination for periods ranging from one to seven years.

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company defines fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date and applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement. The hierarchy gives the highest priority to observable inputs such as unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The Company uses observable inputs where relevant and whenever possible.

Level 1—Quoted prices are available in active markets for identical investments as of the reporting date.

Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3—Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The Company's financial instruments consist primarily of cash and cash equivalents, accounts receivable, accounts payable, revolving line of credit, and long-term debt. The fair value of the Company's financial instruments, other than long-term debt, approximates their book value. The carrying value and estimated fair value of the Company's long-term debt as of March 31, 2016 and December 31, 2015 were as follows (in thousands):

March 31, 2016		December 31, 2015	
Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value

Financial liabilities

Long-term debt	\$927,262	\$926,100	\$929,650	\$924,700
----------------	-----------	-----------	-----------	-----------

The estimated fair value of the Company's long-term debt is based on quoted market prices for similar instruments and a model that considers observable inputs. Judgment is required to develop these estimates. As such, our long-term debt is classified as Level 2, as defined by U.S. GAAP.

Financial instruments that potentially expose the Company to concentrations of credit risk consist mainly of cash and cash equivalents and accounts receivable. The Company mitigates its exposure by maintaining its cash and cash equivalents in financial institutions of high credit standing. The Company's accounts receivable, which are derived primarily

Table of Contents

from the services it provides, are dispersed across many clients in various industries with no single client accounting for more than 10% of the Company's net revenue or accounts receivable. The Company believes that no significant credit risk exists at March 31, 2016.

8. SEGMENT INFORMATION

Bright Horizons' workplace services are primarily comprised of full service center-based child care, back-up dependent care, and other educational advisory services. Full service center-based care includes the traditional center-based child care, preschool, and elementary education, which have similar operating characteristics and meet the criteria for aggregation. Full service center-based care derives its revenues primarily from contractual arrangements with corporate clients and from tuition. The Company's back-up dependent care services consist of center-based back-up child care, in-home care, mildly ill care, and adult/elder care. The Company's other educational advisory services consists of the remaining services, including college preparation and admissions counseling, tuition reimbursement program administration, and related consulting services, which do not meet the quantitative thresholds for separate disclosure and are not material for segment reporting individually or in the aggregate. The Company and its chief operating decision makers evaluate performance based on revenues and income from operations. The assets and liabilities of the Company are managed centrally and are reported internally in the same manner as the consolidated financial statements and, as a result, no additional information is produced or included herein.

Special Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q includes statements that express our opinions, expectations, beliefs, plans, objectives, assumptions or projections regarding future events or future results and therefore are, or may be deemed to be, "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (the "Act"). The following cautionary statements are being made pursuant to the provisions of the Act and with the intention of obtaining the benefits of the "safe harbor" provisions of the Act. These forward-looking statements can generally be identified by the use of forward-looking terminology, including the terms "believes," "expects," "may," "will," "should," "seek," "projects," "approximately," "intends," "plans," "estimates" or "anticipates," or, in each case, their negatives or other variations of comparable terminology. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this Quarterly Report and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies, the industries in which we and our partners operate, the impact of accounting principles, pronouncements and policies, the outcome of acquisitions and the subsequent integration and expected synergies, our fair value estimates, the vesting of Company equity, the recognition of compensation expense, unrecognized tax benefits and the impact of uncertain tax positions, our tax rates, the outcome of tax audits and tax liabilities, our credit risk, the impact of seasonality on results of operations, the outcome of litigation and our insurance coverage, the cost, timing and impact of the remediation of our material weakness in internal control over financial reporting, borrowings under our credit facility, the need for additional debt or equity financings and our ability to obtain such financing, our sources of cash flow, our ability to fund operations, make capital expenditures and payments, and complete share repurchases with cash and cash equivalents and borrowings, and our ability to meet financial obligations and comply with covenants of our credit facility.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We believe that these risks and uncertainties include, but are not limited to, those included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 and other factors disclosed from time to time in our other filings with the Securities and Exchange Commission. Although we base these forward-looking statements on assumptions that we believe are reasonable when made, we caution that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and the development of the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this Quarterly Report. In addition, even if our results of operations, financial condition and liquidity, and the development of the industry in which we operate, are consistent with the forward-looking statements contained in this Quarterly Report, those results or developments may not be indicative of results or developments in subsequent periods.

Given these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statement that we make in this Quarterly Report speaks only as of the date of such statement, and we undertake no obligation to update any forward-looking statements or to publicly announce the results of any revisions to any of those statements to reflect future events or developments, except as may be required by law.

Introduction and Overview

The following is a discussion of the significant factors affecting the consolidated operating results, financial condition and liquidity and cash flows of Bright Horizons Family Solutions Inc. ("we" or the "Company") for the three months ended March 31, 2016 compared to the three months ended March 31, 2015. This discussion should be read in conjunction with the Management's Discussion and Analysis of Financial Condition and Results of Operations, and the Consolidated Financial Statements of the Company and Notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Our business is subject to seasonal and quarterly fluctuations. Demand for child care and early education and elementary school services has historically decreased during the summer months when school is not in session, at which time families are often on vacation or have alternative child care arrangements. In addition, our enrollment

declines as older children transition to elementary schools. Demand for our services generally increases in September and October coinciding with the beginning of the new school year and remains relatively stable throughout the rest of the school year. In addition, use of our back-up dependent care services tends to be higher when schools are not in session and during holiday periods, which can increase the operating costs of the program and impact the results of operations. Results of operations may also fluctuate from quarter to quarter as a result of, among other things, the performance of existing centers, including enrollment and staffing fluctuations, the number and timing of new center openings, acquisitions and management transitions, the length of time required for new centers to achieve profitability, center closings, refurbishment or relocation, the contract model mix (profit and

Table of Contents

loss versus cost-plus) of new and existing centers, the timing and level of sponsorship payments, competitive factors and general economic conditions.

Results of Operations

The following table sets forth statement of income data as a percentage of revenue for the three months ended March 31, 2016 and 2015 (in thousands, except percentages):

- Cost of services consists of direct expenses associated with the operation of child care centers, and direct expenses
- (1) to provide back-up dependent care services, including fees to back-up care providers, and educational advisory services. Direct expenses consist primarily of salaries, payroll taxes and benefits for personnel, food costs, program supplies and materials, and parent marketing and facilities costs, which include occupancy costs and depreciation.
- Selling, general and administrative expenses consist primarily of salaries, payroll taxes and benefits (including stock-based compensation costs) for corporate, regional and business development personnel. Other overhead costs
- (2) include information technology, occupancy costs for corporate and regional personnel, professional services fees, including accounting and legal services, and other general corporate expenses.
- (3) Adjusted EBITDA, adjusted income from operations and adjusted net income are non-GAAP measures, which are reconciled to net income below.

Three Months Ended March 31, 2016 Compared to the Three Months Ended March 31, 2015

Revenue. Revenue increased \$34.9 million, or 10%, to \$385.3 million for the three months ended March 31, 2016 from \$350.4 million for the same period in 2015. Revenue growth is primarily attributable to contributions from new and ramping child care and early education centers, expanded sales of our back-up dependent care services and educational advisory services, and typical annual tuition increases of 3-4%. Revenue generated by full service center-based care services in the three months ended March 31, 2016 increased by \$28.5 million, or 9%, when compared to the same period in 2015, due in part to overall enrollment increases of approximately 6%. Our acquisitions of Hildebrandt Learning Centers, LLC, an operator of 40 centers in the United States on May 19, 2015, and of Active Learning Childcare Limited, an operator of 9 centers in the United Kingdom on July 15, 2015, contributed approximately \$14.0 million of incremental revenue in the full service center-based care services segment during the quarter. At March 31, 2016, we operated 936 child care and early education centers compared to 885 centers at March 31, 2015.

Revenue generated by back-up dependent care services in the three months ended March 31, 2016 increased by \$3.5 million, or 9%, when compared to the same period in 2015. Additionally, revenue generated by other educational advisory services in the three months ended March 31, 2016 increased by \$2.9 million, or 34%, when compared to the same period in 2015.

Cost of Services. Cost of services increased \$25.7 million, or 10%, to \$289.5 million for the three months ended March 31, 2016 from \$263.8 million for the same period in 2015. Cost of services in the full service center-based care services segment increased \$21.2 million, or 9%, to \$258.2 million in the three months ended March 31, 2016 when

compared to the same period in 2015. Personnel costs, which typically represent approximately 70% of total cost of services for this segment, increased 10% as a result of enrollment growth at new and existing centers, routine wage and benefit cost increases, and labor costs associated with centers we have added since March 31, 2015 that are in the ramping stage. In addition, program supplies, materials, food and facilities costs, which typically represent approximately 30% of total costs of services for this segment, increased 6% in

Table of Contents

connection with the enrollment growth and the incremental occupancy costs associated with centers that have been added since March 31, 2015. Cost of services in the back-up dependent care segment increased \$3.6 million, or 16%, to \$25.7 million in the three months ended March 31, 2016, primarily for investments in information technology and personnel, and increased care provider fees associated with the services provided to the expanding revenue base. Cost of services in the other educational advisory services segment increased \$0.9 million, or 19%, to \$5.7 million in the three months ended March 31, 2016 due to increases in personnel and technology costs related to the incremental sales of these services.

Gross Profit. Gross profit increased \$9.2 million, or 11%, to \$95.8 million for the three months ended March 31, 2016 from \$86.6 million for the same period in 2015. Gross profit margin as a percentage of revenue was 25% for the three months ended March 31, 2016, which is consistent with the same period in 2015. The increase in gross profit is primarily due to contributions from new and acquired centers, increased enrollment in our mature and ramping profit and loss centers, effective operating cost management, and expanded other educational advisory services.

Selling, General and Administrative Expenses ("SGA"). SGA increased \$3.2 million, or 9%, to \$40.0 million for the three months ended March 31, 2016 compared to \$36.8 million for the same period in 2015, and was 10% of revenue for the three months ended March 31, 2016, which is consistent with the same period in 2015. SGA increased over the comparable 2015 period due to increases in personnel costs including annual wage increases, continued investments in technology and routine increases in other SGA costs.

Amortization. Amortization expense on intangible assets of \$7.1 million for the three months ended March 31, 2016 increased from \$6.9 million for the same period in 2015 due to the acquisitions completed in 2015 offset by decreases from certain intangible assets becoming fully amortized during the period.

Income from Operations. Income from operations increased by \$5.8 million, or 13%, to \$48.6 million for the three months ended March 31, 2016 when compared to the same period in 2015. Income from operations was 13% of revenue for the three months ended March 31, 2016, compared to 12% of revenue for the three months ended March 31, 2015. The increase in income from operations was due to the following:

In the full service center-based care segment, income from operations increased \$4.6 million for the three months ended March 31, 2016 when compared to the same period in 2015. Income from operations increased over the comparable period due to tuition increases and enrollment gains over the prior year as well as contributions from new centers that have been added since March 31, 2015, and effective cost management, partially offset by the costs incurred during the ramp-up of certain new lease/consortium centers opened during 2015 and 2016.

Income from operations for the back-up dependent care segment decreased \$0.6 million in the three months ended March 31, 2016 when compared to the same period in 2015 due to investments in information technology and personnel and increased care provider fees associated with services provided to the expanding revenue base.

Income from operations in the other educational advisory services segment increased \$1.7 million for the three months ended March 31, 2016 compared to the same period in 2015 due to the expanding revenue base.

Net Interest Expense and Other. Net interest expense and other increased to \$10.7 million for the three months ended March 31, 2016 from \$10.0 million for the same period in 2015 due to borrowings on our line of credit for the three months ended March 31, 2016.

Income Tax Expense. We recorded income tax expense of \$13.2 million during the three months ended March 31, 2016 compared to \$10.3 million during the comparable period in 2015 at an effective rate of 35% for the three months ended March 31, 2016 and 31% for the three months ended March 31, 2015. The difference between the effective income tax rates is primarily attributable to a \$1.3 million benefit recorded in the first quarter of 2015 related to the adjustment of certain permanent and temporary items. We expect that the annual effective rate for the full year 2016 will approximate 35%.

Adjusted EBITDA and Adjusted Income from Operations. Adjusted EBITDA and adjusted income from operations increased \$6.9 million, or 10%, and \$6.0 million, or 14%, respectively, for the three months ended March 31, 2016 over the same period in 2015 primarily as a result of the increase in gross profit due to additional contributions from full-service centers, including the impact of new and acquired centers, as well as growth in other educational advisory services.

Adjusted Net Income. Adjusted net income increased \$4.0 million, or 15%, for the three months ended March 31, 2016 when compared to the same period in 2015 primarily due to the incremental gross profit described above, which was offset by increases in interest expense.

Represents amortization of intangible assets, including approximately \$4.5 million and \$5.0 million for the three (a) months ended March 31, 2016 and 2015, respectively, associated with intangible assets recorded in connection with our going private transaction in May 2008.

(b) Represents rent expense in excess of cash paid for rent, recognized on a straight line basis over the life of the lease in accordance with Accounting Standards Codification Topic 840, Leases.

(c) Represents non-cash stock-based compensation expense.

(d) Represents costs incurred in connection with the January 2016 amendment to the Credit Agreement and completed acquisitions.

(e) Represents income tax expense calculated on adjusted income before tax at the effective rate of approximately 35% and 36% in 2016 and 2015, respectively.

Table of Contents

Adjusted EBITDA, adjusted income from operations, adjusted net income and diluted adjusted earnings per common share are not presentations made in accordance with GAAP, and the use of the terms adjusted EBITDA, adjusted income from operations, adjusted net income and diluted adjusted earnings per common share may differ from similar measures reported by other companies. We believe that adjusted EBITDA, adjusted income from operations, adjusted net income and diluted adjusted earnings per common share provide investors with useful information with respect to our historical operations. We present adjusted EBITDA, adjusted income from operations, adjusted net income and diluted adjusted earnings per common share as supplemental performance measures because we believe they facilitate a comparative assessment of our operating performance relative to our performance based on our results under GAAP, while isolating the effects of some items that vary from period to period. Specifically, adjusted EBITDA allows for an assessment of our operating performance and of our ability to service or incur indebtedness without the effect of non-cash charges, such as depreciation, amortization, the excess of rent expense over cash rent expense and stock-based compensation expense, as well as the expenses related to secondary offerings and acquisitions. In addition, adjusted income from operations, adjusted net income and diluted adjusted earnings per common share allow us to assess our performance without the impact of the specifically identified items that we believe do not directly reflect our core operations. These measures also function as benchmarks to evaluate our operating performance.

Adjusted EBITDA, adjusted income from operations, adjusted net income and diluted adjusted earnings per common share are not measurements of our financial performance under GAAP and should not be considered in isolation or as an alternative to income before taxes, net income, diluted earnings per common share, net cash provided by operating, investing or financing activities or any other financial statement data presented as indicators of financial performance or liquidity, each as presented in accordance with GAAP. The Company understands that although adjusted EBITDA, adjusted income from operations, adjusted net income and diluted adjusted earnings per common share are frequently used by securities analysts, lenders and others in their evaluation of companies, they have limitations as analytical tools, and you should not consider them in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

- adjusted EBITDA, adjusted income from operations and adjusted net income do not fully reflect the Company's cash expenditures, future requirements for capital expenditures or contractual commitments;
- adjusted EBITDA, adjusted income from operations and adjusted net income do not reflect changes in, or cash requirements for, the Company's working capital needs;
- adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on debt;
- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future; and adjusted EBITDA, adjusted income from operations and adjusted net income do not reflect any cash requirements for such replacements.

Because of these limitations, adjusted EBITDA, adjusted income from operations and adjusted net income should not be considered as discretionary cash available to us to reinvest in the growth of our business or as measures of cash that will be available to us to meet our obligations.

Liquidity and Capital Resources

Our primary cash requirements are for the ongoing operations of our existing child care centers, back-up dependent care and other educational advisory services, the addition of new centers through development or acquisition and debt financing obligations. Our primary sources of liquidity are our cash flows from operations and borrowings available under our revolving credit facility. There were no borrowings outstanding at March 31, 2016 and \$24.0 million in borrowings outstanding at December 31, 2015.

We had a working capital deficit of \$142.0 million and \$152.6 million at March 31, 2016 and December 31, 2015, respectively. Our working capital deficit has arisen from using cash generated from operations to make long-term investments in fixed assets and acquisitions and from share repurchases. We anticipate that we will continue to generate positive cash flows from operating activities and that the cash generated will be used principally to fund ongoing operations of our new and existing full service child care centers and expanded operations in the back-up dependent care and other educational advisory segments, as well as to make scheduled principal and interest payments and for share repurchases.

The Company's \$1.2 billion senior credit facilities consist of \$955.0 million in secured term loan facilities and a \$225.0 million revolving credit facility. In conjunction with a debt refinancing in January 2013, \$790.0 million in senior secured term loans were issued, with the subsequent issuance of \$165.0 million in additional term loans in December 2014. On January 26, 2016, the Company amended its existing credit agreement to increase the revolving credit facility from \$100.0 million to \$225.0 million as further discussed below under "Debt".

On February 4, 2015, the Board of Directors of the Company approved a \$250.0 million repurchase program of its common stock. The repurchase program has no expiration date and replaced the prior 2014 authorization under which \$221.6

Table of Contents

million was repurchased. The Company repurchased 0.4 million shares of common stock for \$25.5 million in the three months ended March 31, 2016. All repurchased shares have been retired.

We believe that funds provided by operations, our existing cash balances and borrowings available under our revolving credit facility will be adequate to meet planned operating and capital expenditures for at least the next 12 months under current operating conditions. However, if we were to undertake any significant acquisitions or investments in the purchase of facilities for new or existing child care and early education centers, which requires financing beyond our existing borrowing capacity, it may be necessary for us to obtain additional debt or equity financing. We may not be able to obtain such financing on reasonable terms, or at all.

Cash Provided by Operating Activities

Cash provided by operating activities was \$85.8 million for the three months ended March 31, 2016, compared to \$47.3 million for the same period in 2015. The increase in cash provided by operating activities resulted from changes in working capital arising from an increase in deferred revenue due to growth and the timing of collections, lower cash tax payments in the period and the timing of other routine operating expenses. In addition, the increase in net income contributed \$2.2 million, which was partially offset by changes in non-cash items.

Cash Used in Investing Activities

Cash used in investing activities was \$13.6 million for the three months ended March 31, 2016 and was related to fixed asset additions for new child care centers, maintenance and refurbishments in our existing centers, and continued investments in technology, equipment and furnishings, as well as investments in acquisitions. The Company used \$2.9 million primarily to acquire three centers in the three months ended March 31, 2016. Cash used in investing activities was \$18.0 million for the same period in 2015 and primarily related to fixed asset additions. The Company also acquired one center for \$1.1 million in the three months ended March 31, 2015.

Cash (Used in) Provided by Financing Activities

Cash used in financing activities amounted to \$43.8 million for the three months ended March 31, 2016 compared to cash provided by financing activities of \$8.0 million for the same period in 2015. The increase in cash used in financing activities was primarily due to cash used for share repurchases and repayments of borrowings on the revolving credit facility. For the three months ended March 31, 2016 share repurchases totaled \$23.4 million, net repayments of borrowings on the revolving credit facility totaled \$24.0 million, and principal payments on our debt were \$2.4 million. These uses of cash were offset by proceeds from the issuance and sale of restricted stock of \$3.4 million, proceeds from the exercise of options to purchase common stock of \$1.7 million, and the tax benefit of stock-based compensation in the amount of \$1.9 million. Cash provided by financing activities for the three months ended March 31, 2015 consisted principally of proceeds from the exercise of options to purchase common stock of \$4.2 million, proceeds from the issuance and sale of restricted stock of \$3.9 million, and the tax benefit of stock-based compensation in the amount of \$3.1 million, offset by principal payments on our debt of \$2.4 million.

Debt

As of March 31, 2016, the Company's \$1.2 billion senior credit facilities consisted of \$955.0 million in secured term loan facilities and a \$225.0 million revolving credit facility. The term loans mature on January 30, 2020 and require quarterly principal payments of \$2.4 million, with the remaining principal balance due on January 30, 2020.

Table of Contents

Outstanding term loan borrowings were as follows at March 31, 2016 and December 31, 2015 (in thousands):

	March 31, 2016	December 31, 2015
Term loans	\$927,262	\$929,650
Deferred financing costs and original issue discount	(14,497)	(14,439)
Total debt	912,765	915,211
Less current maturities	9,550	9,550
Long-term debt	\$903,215	\$905,661

On January 26, 2016, the Company amended its existing credit agreement to increase the revolving credit facility from \$100.0 million to \$225.0 million, to extend the maturity date on the revolving credit facility from January 30, 2018 to July 31, 2019, and to modify the interest rate applicable to borrowings under the revolving credit facility to a range of 1.25% to 1.75% over the base rate and 2.25% to 2.75% over the Eurocurrency rate. There were no borrowings outstanding at March 31, 2016 on the revolving credit facility and there were \$24.0 million in borrowings outstanding at December 31, 2015.

All borrowings under the credit agreement are subject to variable interest rates. Applicable margin percentages for the loan facilities range from 1.25% to 2.50% per annum for base rate loans and 2.25% to 3.50% per annum for LIBOR rate loans as defined in the credit agreement, provided that the Base Rate for the term loan may not be lower than 2.0% and LIBOR may not be lower than 1%.

All obligations under the senior secured credit facilities are secured by substantially all of the assets of the Company's U.S. based subsidiaries. The credit agreement governing the \$1.2 billion senior secured credit facilities contains a number of covenants that, among other things and subject to certain exceptions, may restrict the ability of Bright Horizons Family Solutions LLC, our wholly-owned subsidiary, and its restricted subsidiaries, to: incur certain liens; make investments, loans, advances and acquisitions; incur additional indebtedness or guarantees; pay dividends on capital stock or redeem, repurchase or retire capital stock or subordinated indebtedness; engage in transactions with affiliates; sell assets, including capital stock of our subsidiaries; alter the business conducted; enter into agreements restricting our subsidiaries' ability to pay dividends; and consolidate or merge.

In addition, the credit agreement governing the senior secured credit facilities requires Bright Horizons Capital Corp., our direct subsidiary, to be a passive holding company, subject to certain exceptions. The revolving credit facility requires Bright Horizons Family Solutions LLC, the borrower, and its restricted subsidiaries to comply with a maximum senior secured first lien net leverage ratio financial maintenance covenant, to be tested only if, on the last day of each fiscal quarter, revolving loans and/or swingline loans in excess of a specified percentage of the revolving commitments on such date are outstanding under the revolving credit facility. The breach of this covenant is subject to certain equity cure rights.

The credit agreement governing the senior secured credit facilities contains certain customary affirmative covenants and events of default. We were in compliance with our financial covenants at March 31, 2016.

Off-Balance Sheet Arrangements

As of March 31, 2016, we had no off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Since December 31, 2015, there have been no significant changes in the Company's exposures to interest rate or foreign currency rate fluctuations. The Company currently does not enter into derivatives or other market risk sensitive instruments for the purpose of hedging or for trading purposes.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of March 31, 2016, the Company conducted an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer (its principal executive officer and principal financial officer, respectively) regarding the effectiveness of the design and operation of the Company's disclosure controls and procedures as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act"). The term "disclosure controls and procedures" means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the Company in

reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the requisite time periods and that such disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to its management, including its principal executive

and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) were not effective as of March 31, 2016 due to the material weakness in internal control over financial reporting described below.

Remediation of the Material Weakness

As disclosed in Item 9A of our Annual Report on Form 10-K for the year ended December 31, 2015, our management concluded that our internal control over financial reporting was not effective at December 31, 2015. As of December 31, 2014, management identified a material weakness in internal control over financial reporting related to information technology general controls in the areas of user access and program change management related to certain information systems that are relevant to the preparation of the Company's consolidated financial statements and system of internal control over financial reporting. While the Company has implemented a number of remediation efforts over the course of fiscal 2015 with respect to the identified deficiencies, as discussed in Item 9A of our Annual Report on Form 10-K, the material weakness had not been remediated as of December 31, 2015.

We are actively engaged in completing the remediation plan that was implemented in 2015 to ensure that controls contributing to this material weakness are designed appropriately and also operate effectively. We expect that our remediation efforts will continue through 2016, although the material weakness will not be considered remediated until the applicable internal controls operate for a sufficient period of time, and management has concluded, through testing, that these controls are operating effectively.

Notwithstanding the identified material weakness and the conclusion above that our disclosure controls and procedures were not effective as of March 31, 2016, management believes that the consolidated financial statements contained in this Quarterly Report on Form 10-Q fairly present, in all material respects, our financial condition, results of operations and cash flows for the periods presented in conformity with accounting principles generally accepted in the United States of America.

Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the quarter ended March 31, 2016 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting, except for our remediation efforts described above.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are, from time to time, subject to claims and suits arising in the ordinary course of business, some of which have not been fully adjudicated. Such claims have in the past generally been covered by insurance. We believe the resolution of such legal matters will not have a material adverse effect on our financial condition, results of operations or cash flows, although we cannot predict the ultimate outcome of any such actions. Furthermore, there can be no assurance that our insurance will be adequate to cover all liabilities that may arise out of claims brought against us.

Item 1A. Risk Factors

Our operations and financial results are subject to various risks and uncertainties, including those disclosed in Part I, Item 1A “Risk Factors” included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015, which could adversely affect our business, financial condition and operating results. There have been no material changes to our risk factors since our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The table below sets forth information regarding the Company's repurchases of its common stock during the three months ended March 31, 2016:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (In thousands) (1)
January 1, 2016 to January 31, 2016	167,791	\$ 62.28	167,791	\$ 111,449
February 1, 2016 to February 29, 2016	133,710	\$ 62.24	133,710	\$ 103,127
March 1, 2016 to March 31, 2016	106,410	\$ 63.35	106,410	\$ 96,386
	407,911		407,911	

(1) On February 4, 2015, the Board of Directors of the Company authorized the repurchase of up to \$250.0 million of its common stock. The repurchase program has no expiration date and replaced the prior share repurchase authorization from March 2014. The share repurchases during the three months ended March 31, 2016 were open market transactions pursuant to the February 2015 authorization. All repurchased shares have been retired.
