Notes to Financial Statements

March 31, 2016

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited financial statements of CKX Lands, Inc. (“Company”) have been prepared in accordance with United States generally accepted accounting principles for interim financial information. They do not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. Except as described herein, there has been no material change in the information disclosed in the notes to the financial statements included in our financial statements as of and for the year ended December 31, 2015. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included in the accompanying financial statements.

Interim results are not necessarily indicative of results for a full year. These financial statements and accompanying notes should be read in conjunction with the Company’s Form 10-K for the year ended December 31, 2015 and Form 10-Q for the quarterly period ended March 31, 2016.

Note 2. Income Taxes

In accordance with generally accepted accounting principles, the Company has analyzed its filing positions in federal and state income tax returns that remain subject to examination, generally 3 years after filing. The Company believes that all filing positions are highly certain and that all income tax filing positions and deductions would be sustained upon a taxing jurisdiction’s audit. Therefore, no reserve for uncertain tax positions is required. No interest or penalties have been levied against the Company and none are anticipated.

Note 3. Company Operations

The Company’s operations are classified into three principal operating segments that are all located in the United States: oil and gas, surface and timber. The Company’s reportable business segments are strategic business units that offer income from different products. They are managed separately due to the unique aspects of each area.

2. OF OPERATIONS**

Results of Operations

Revenue

Comparison of Revenues for the three months ended March 31, 2016 and 2015 follows:

	2016	2015	\$ Change	% Change
Oil and Gas	91,721	230,222	(138,501)	(60.16)%

Surface	83,752	22,719	61,033	268.64%
Total	288,308	252,941	35,367	13.98%

Oil and Gas

CKX leases its property to oil and gas operators and collects income through its land ownership in the form of oil and gas royalties and lease rentals and geophysical revenues. A breakdown of oil and gas revenues follows:

	2016	2015	\$ Change	% Change
Oil	67,022	158,193	(91,172)	(57.63)%
Gas	24,699	63,418	(38,719)	(61.05)%
Lease and Geophysical	--	8,611	(8,611)	(100.00)%
Total	91,721	230,222	(138,501)	(60.16)%

CKX received oil and/or gas revenues from 90 and 100 wells during the three month period ended March 31, 2016 and 2015, respectively.

The following schedule summarizes barrels and MCF produced and average price per barrel and per MCF.

	2016	2015
Net oil produced (Bbl) ⁽²⁾	1,907	2,753
Average oil sales price (per Bbl) ^(1,2)	\$32.09	\$53.43
Net gas produced (MCF)	10,208	15,498
Average gas sales price (per MCF) ⁽¹⁾	\$2.42	\$4.09

Notes to above schedule:

⁽¹⁾ Before deduction of production and severance taxes.

⁽²⁾ Excludes plant products.

Oil and Gas revenues declined by \$138,501 from 2015 revenues. As indicated from the schedule above the decline was due to reductions in the barrels of oil produced, the average price per barrel, MCF of gas produced, and the average price per MCF.

**Item MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS
2. OF OPERATIONS (continued)**

There were no lease and geophysical revenues in 2016, a decrease of \$8,611 from 2015 amounts. These revenues are dependent on oil and gas producers' activities, are not predictable and can vary significantly from year to year.

Management believes oil and gas activity is driven by the current and forecasted commodity prices, demand for oil and gas, and upstream and downstream industry activity. Based on available public information, management believes that oil and gas activity which includes oil and gas production as well as lease rentals and geophysical will continue to be depressed when compared to 2015 reported amounts.

During the first quarter of 2016, the Company received timber revenues of \$112,835 from a stumpage agreement executed in 2014. The Company entered into another stumpage agreement in 2016 with a 24 month term and received an advance payment of \$52,300 to be applied as the subject timber is harvested.

Surface revenue increased due to a pipeline right of way agreements being executed in 2016. As previously noted by management, pipeline, utility and other right of ways are not unusual to the Company; however these types of revenue are not predictable and can vary significantly from year to year.

Costs and Expenses

Oil and gas production costs, primarily severance taxes, decreased by \$5,403 in 2016. With the reduction in oil and gas revenues, the decrease was expected.

General and administrative expenses increased by \$13,759 primarily due to increase property manager fees for preparation of timber sales bid packages, land acquisition consultation, and surface lease and right of way agreement negotiations.

Other costs and expenses incurred for the three months ended March 31, 2016 were materially consistent with 2015 reported amounts.

Financial Condition

Current assets totaled \$6,359,993 and current liabilities equaled \$185,501 at March 31, 2016. Management believes available cash and certificates of deposit together with funds generated from operations should be sufficient to meet operating requirements and provide funds for strategic acquisitions. Additional sources of liquidity include an available bank line of credit of \$5,000,000. The Company is currently renewing this line of credit and will reduce the availability to \$3,000,000 due to lack of need.

In determining whether a dividend will be declared, the Board of Directors will take into account the Company's prior fiscal year's cash flows from operations and current economic conditions among other information deemed relevant.

Pursuant to a dividend reversion clause in the Company's Articles of Incorporation, dividends not claimed within one year after a dividend becomes payable will expire and revert in full ownership to the Company and the Company's obligation to pay such dividend will cease. During 2016 the Company received \$6,507 in dividend reversions and none in 2015.

Issues and Uncertainties

This quarterly report contains forward-looking statements. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those discussed below, which, among others, should be considered in evaluating the Company's financial outlook.

Revenues from oil and gas provide a significant portion of the Company's net income and cash flows. These revenues come from wells operated by other companies on property owned by CKX Lands, Inc. Consequently, these revenues fluctuate due to changes in oil and gas prices and changes in the operations of these other companies.

Item 3. Not applicable.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of the period covered by this report. Based on the evaluation, performed under the supervision and with the participation of the Company's management, including the President, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by the report.

Changes in Internal Control Over Financial Reporting

There were no significant changes with respect to the Company's internal control over financial reporting or in other factors that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the quarter covered by this report.
