☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal quarter ended September 30, 2017

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-35475

REXNORD CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

20-5197013

(State or Other Jurisdiction of Incorporation or Organization) (I.R.S. Employer Identification No.)

247 Freshwater Way, Suite 300, Milwaukee, WI

53204

(Address of Principal Executive Offices)

(Zip Code)

Registrant's telephone number, including area code: (414) 643-3739

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by checkmark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§229.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐

Non-accelerated filer ☐ Smaller reporting company ☐

Emerging growth company ☐

Edgar Filing: Rexnord Corp - Form 10-Q

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2). Yes ☐ No ☒

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at October 27, 2017
Rexnord Corporation Common Stock, \$0.01 par value per share	103,925,122 shares

Private Securities Litigation Reform Act Safe Harbor Statement

Our disclosure and analysis in this report concerning our operations, cash flows and financial position, including, in particular, the likelihood of our success in developing and expanding our business and the realization of sales from our backlog, include forward-looking statements. Statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates” and similar expressions are forward-looking statements. Although these statements are based upon reasonable assumptions, including projections of orders, sales, operating margins, earnings, cash flows, research and development costs, working capital and capital expenditures, they are subject to risks and uncertainties that are described more fully herein and in our Annual Report on Form 10-K for the year ended March 31, 2017, in Part I, Item 1A, “Risk Factors” and in Part I under the heading “Cautionary Notice Regarding Forward-Looking Statements.” Accordingly, we can give no assurance that we will achieve the results anticipated or implied by our forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by law.

General

Our fiscal year is the year ending March 31 of the corresponding calendar year. For example, our fiscal year 2018, or fiscal 2018, means the period from April 1, 2017 to March 31, 2018, and the second quarter of fiscal 2018 and 2017 means the fiscal quarters ended September 30, 2017 and September 30, 2016, respectively.

Rexnord Corporation and Subsidiaries
Notes to Condensed Consolidated Financial Statements
September 30, 2017
(Unaudited)

1. Basis of Presentation and Significant Accounting Policies

The unaudited condensed consolidated financial statements included herein have been prepared by Rexnord Corporation ("Rexnord" or the "Company") in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

In the opinion of management, the condensed consolidated financial statements include all adjustments necessary for a fair presentation of the results of operations for the interim periods. Results for the interim periods are not necessarily indicative of results that may be expected for the fiscal year ending March 31, 2018. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company's fiscal 2017 Annual Report on Form 10-K.

The Company

Rexnord is a growth-oriented, multi-platform industrial company with what it believes to be leading market shares and highly-trusted brands that serve a diverse array of global end markets. The Company's heritage of innovation and specification have allowed it to provide highly-engineered, mission-critical solutions to customers for decades and affords it the privilege of having long-term, valued relationships with market leaders. The Company operates in a disciplined way and the Rexnord Business System ("RBS") is its operating philosophy. Grounded in the spirit of continuous improvement, RBS creates a scalable, process-based framework that focuses on driving superior customer satisfaction and financial results by targeting world-class operating performance throughout all aspects of its business. The Process & Motion Control platform designs, manufactures, markets and services a comprehensive range of specified, highly-engineered mechanical components used within complex systems where our customers' reliability requirements and costs of failure or downtime are high. The Process & Motion Control portfolio includes motion control products, shaft management products, aerospace components, and related value-added services.

The Water Management platform designs, procures, manufactures, and markets products that provide and enhance water quality, safety, flow control and conservation. The Water Management product portfolio includes professional grade water control and safety, water distribution and drainage, finish plumbing, and site works products for primarily nonresidential buildings and flow control products for water and wastewater treatment infrastructure markets.

Recent Accounting Pronouncements

In August 2017, the the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-12, Derivatives and Hedging - Targeted Improvements to Accounting for Hedging Activities, which expands and refines hedge accounting for both non-financial and financial risk components and aligns the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. ASU 2017-12 is effective for the beginning of the Company's fiscal 2020, with early adoption permitted, and must be applied prospectively. The Company is currently evaluating the impact this guidance will have on its consolidated financial statements upon adoption.

In January 2017, the the FASB issued ASU 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment ("ASU 2017-04"). The amendments in ASU 2017-04 allow companies to apply a one-step quantitative test and record the amount of goodwill impairment as the excess of a reporting unit's carrying amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit. ASU 2017-04 is effective for the beginning of the Company's fiscal 2021, with early adoption permitted, and must be applied prospectively. The Company is currently evaluating the timing of adoption; however, it does not believe the adoption of ASU 2017-04 will have material impact on the Company's consolidated financial statements.

In February 2015, the FASB issued ASU 2016-02, Leases (Topic 842) ("ASU 2016-02"), which requires lessees to recognize lease assets and lease liabilities for all leases on the balance sheets. ASU 2016-02 is effective beginning for the Company's fiscal 2020 and interim periods included therein on a modified retrospective basis. The Company is currently evaluating the impact this guidance will have on its consolidated financial statements upon adoption.

Table of Contents

In July 2015, the FASB issued ASU No. 2015-11, Simplifying the Measurement of Inventory ("ASU 2015-11"). ASU 2015-11 requires inventory to be measured at the lower of cost and net realizable value, which is defined as the estimated selling price in the ordinary course of business less reasonably predictable costs of completion, disposal and transportation. Under existing guidance, net realizable value is one of several calculations needed to measure inventory at lower of cost or market and as such, the new guidance reduces the complexity in measurement. The Company adopted ASU No. 2015-11 prospectively effective April 1, 2017 and there was no impact to the Company's condensed consolidated financial statements.

In March 2017, the FASB issued ASU No. 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which changes how employers that sponsor defined benefit pension or other postretirement benefit plans present the net periodic benefit cost in the income statement. The new guidance requires the service cost component of net periodic benefit cost to be presented in the same income statement line item(s) as other employee compensation costs arising from services rendered during the period with only the service cost component eligible for capitalization in assets. Other components of the net periodic benefit cost are to be stated separately from the line item(s) that includes the service cost and outside of operating income. The standard is required to be adopted for annual periods beginning after December 15, 2017, including interim periods within that annual period, which is the Company's fiscal year 2019. The amendment is to be applied retrospectively. The Company is currently evaluating the impact this guidance will have on its consolidated financial statements upon adoption.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"), now referred to as Accounting Standards Codification Topic 606 ("ASC 606"), in order to develop a common revenue standard for U.S. GAAP and International Financial Reporting Standards. The guidance specifies revenue should be recognized in an amount that reflects the consideration the company expects to be entitled to in exchange for the transfer of promised goods or services to customers. The guidance provides a five-step process that entities should follow in order to achieve that core principal. ASC 606 will be effective for the Company on April 1, 2018. Companies can use either a full retrospective or modified retrospective method to adopt the standard. Under the full retrospective method, the requirements of the new standard are applied to contracts for each prior reporting period presented and the cumulative effective of applying the standard is recognized in the earliest period presented. Under the modified retrospective method, prior periods are not updated to be presented on an accounting basis that is consistent with information for fiscal 2019. Rather, a cumulative adjustment for the effects of applying the new standard to periods prior to fiscal 2019 is recorded to retained earnings as of April 1, 2018. The Company expects to adopt the new standard using the modified retrospective approach.

The Company is assessing the impact of the new standard on its consolidated financial statements by reviewing its current accounting policies and practices, including detailed reviews of customer contracts, to identify potential differences that would result from applying the requirements of the new standard to its revenue contracts. In addition, ASC 606 will require more comprehensive disclosures about revenue streams and contracts with customers. The Company is currently evaluating potential changes to its processes, information systems and internal controls related to the preparation of disclosures required under ASC 606. The Company will provide additional disclosure as its ongoing assessment progresses.

Table of Contents

2. Acquisitions

Fiscal Year 2017 Acquisitions

On June 1, 2016, the Company acquired Cambridge International Holdings Corp. ("Cambridge") for a cash purchase price of \$213.4 million. The purchase price consisted of an enterprise value of \$210.0 million, excluding transaction costs and net of cash acquired, plus additional consideration of \$3.4 million related to the acquisition of certain tax benefits and real property classified as held for sale at the acquisition date. Cambridge, with operations in Cambridge, Maryland and Matamoros, Mexico, is one of the world's largest suppliers of metal conveying and engineered woven metal solutions, primarily used in food processing end markets, as well as in architectural, packaging and filtration applications. The acquisition of Cambridge expanded the Company's presence in consumer-driven end markets in the Process & Motion Control platform.

The Company's results of operations include the acquired operations subsequent to June 1, 2016. Pro-forma results of operations and certain other U.S. GAAP disclosures related to the Cambridge acquisition have not been presented because they are not material to the Company's condensed consolidated statements of operations and condensed consolidated balance sheets.

The acquisition of Cambridge was accounted for as a business combination and recorded by allocating the purchase price to the fair value of assets acquired and liabilities assumed at the acquisition date. The excess of the acquisition purchase price over the fair value assigned to the assets acquired and liabilities assumed was recorded as goodwill. The purchase price allocation resulted in non-tax deductible goodwill of \$129.4 million, other intangible assets of \$80.6 million (includes tradenames of \$16.8 million, customer relationships of \$58.3 million and patents of \$5.5 million) and other net assets of \$3.4 million.

In fiscal 2017, the Company acquired the remaining non-controlling interest in a Water Management joint venture for a cash purchase price of approximately \$0.3 million, net of cash acquired and excluding transaction costs. The acquisition of the remaining minority interest was not material to the Company's condensed consolidated statements of operations or financial position.

Table of Contents

3. Restructuring and Other Similar Charges

During fiscal 2018, the Company has continued to execute various restructuring actions. These initiatives were implemented to drive efficiencies and reduce operating costs while also modifying the Company's footprint to reflect changes in the markets it serves, the impact of acquisitions on the Company's overall manufacturing capacity and the refinement of its overall product portfolio. These restructuring actions primarily resulted in workforce reductions, lease termination costs, and other facility rationalization costs. Management expects to continue executing initiatives to optimize its operating margin and manufacturing footprint, as well as select product-line rationalizations. As such, the Company expects further expenses related to workforce reductions, potential impairment or accelerated depreciation of assets, lease termination costs, and other facility rationalization costs. The Company's restructuring plans are preliminary and related expenses are not yet estimable.

The following table summarizes the Company's restructuring and other similar charges during the three and six months ended September 30, 2017 and September 30, 2016 by operating segment (in millions):

	Restructuring and Other Similar Charges		
	Three Months Ended September 30, 2017		
	Process & Water Motion Control	Management	Consolidated
Employee termination benefits	\$1.4	\$ 2.3	\$ 3.7
Contract termination and other associated costs	1.1	0.3	1.4
Total restructuring and other similar charges	\$2.5	\$ 2.6	\$ 5.1
	Restructuring and Other Similar Charges		
	Six Months Ended September 30, 2017		
	Process & Water Motion Control	Management	Consolidated
Employee termination benefits	\$1.9	\$ 2.7	\$ 4.6
Contract termination and other associated costs	2.8	0.4	3.2
Total restructuring and other similar charges	\$4.7	\$ 3.1	\$ 7.8
	Restructuring and Other Similar Charges		
	Three Months Ended September 30, 2016		
	Process & Water Motion Control	Management	Consolidated
Employee termination benefits	\$2.1	\$ 1.2	\$ 3.3
Contract termination and other associated costs (1)	1.5	(0.4)) 1.1
Total restructuring and other similar charges	\$3.6	\$ 0.8	\$ 4.4
	Restructuring and Other Similar Charges		
	Six Months Ended September 30, 2016		

	Process & Water Motion Management Control		Consolidated
Employee termination benefits	\$4.5	\$ 3.7	\$ 8.2
Contract termination and other associated costs (1)	1.5	0.3	1.8
Total restructuring and other similar charges	\$6.0	\$ 4.0	\$ 10.0

During the second quarter of fiscal 2017, the Company received a \$1.0 million cash payment in connection with the execution of an agreement to sell certain Rodney Hunt® Fontaine® ("RHF") related intellectual property, (1) which was fully impaired during fiscal 2016 when the Company announced its decision to exit this product line. The gain on the disposition of this intellectual property was recorded as a reduction of restructuring and other similar charges in the second quarter of fiscal 2017 within the Water Management platform.

Table of Contents

The following table summarizes the activity in the Company's restructuring accrual for the six months ended September 30, 2017 (in millions):

	Employee termination benefits	Contract termination and other associated costs	Total
Restructuring accrual, March 31, 2017 (1)	\$ 11.0	\$ 1.0	\$12.0
Charges	4.6	3.2	7.8
Cash payments	(7.3)	(3.7)	(11.0)
Restructuring accrual, September 30, 2017 (1)	\$ 8.3	\$ 0.5	\$8.8

(1) The restructuring accrual is included in Other current liabilities in the condensed consolidated balance sheets.

In connection with the ongoing supply chain optimization and footprint repositioning initiatives, the Company has taken several actions to consolidate existing manufacturing facilities and rationalize its product offerings. These actions require the Company to assess whether the carrying amount of impacted long-lived assets will be recoverable as well as whether the remaining useful lives require adjustment. As a result, the Company recognized accelerated depreciation of zero and \$1.0 million during the three and six months ended September 30, 2017, respectively. The Company recognized accelerated depreciation of \$0.8 million and \$1.4 million during the three and six months ended September 30, 2016, respectively. Accelerated depreciation is recorded within Cost of sales in the condensed consolidated statements of operations.

During fiscal 2016, the Company decided to exit product lines sold under the RHF tradename and the Company completed the exit of the RHF product line in fiscal 2017. The Company evaluated the requirements for the presentation of discontinued operations in connection with the decision to exit its flow-control gate product line and determined the product line did not meet the definition provided within the authoritative literature as discontinued operations. Pre-tax loss from operations associated with this non-strategic RHF product line was \$2.2 million and \$6.7 million in the three and six months ended September 30, 2016, respectively. Pre-tax loss included restructuring and other similar charges of \$0.3 million and \$1.9 million in the three and six months ended September 30, 2016, respectively.

Table of Contents

4. Income Taxes

The provision (benefit) for income taxes for all periods presented is based on an estimated effective income tax rate for the respective full fiscal years. The estimated annual effective income tax rate is determined excluding the effect of significant discrete items or items that are reported net of their related tax effects. The tax effect of significant discrete items is reflected in the period in which they occur. The Company's income tax expense is impacted by a number of factors, including the amount of taxable earnings derived in foreign jurisdictions with tax rates that are generally lower than the U.S. federal statutory rate, state tax rates in the jurisdictions where the Company does business and the Company's ability to utilize various tax credits and net operating loss ("NOL") carryforwards.

The Company regularly reviews its deferred tax assets for recoverability and establishes valuation allowances based on historical losses, projected future taxable income and the expected timing of the reversals of existing temporary differences, as deemed appropriate. In addition, all other available positive and negative evidence is taken into consideration for purposes of determining the proper balances of such valuation allowances. As a result of this review, the Company continues to maintain valuation allowances against the deferred tax assets relating to certain foreign and state net operating loss carryforwards. Future changes to the balances of these valuation allowances, as a result of this continued review and analysis by the Company, could result in a material impact to the financial statements for such period of change.

The income tax provision was \$14.8 million in the second quarter of fiscal 2018 compared to an income tax provision of \$4.4 million in the second quarter of fiscal 2017. The effective income tax rate for the second quarter of fiscal 2018 was 33.2% versus 15.2% in the second quarter of fiscal 2017. The effective income tax rate for the second quarter of fiscal 2018 was below the U.S. federal statutory rate of 35% primarily due to the recognition of net tax benefits associated with an accrual for the Domestic Production Activities Deduction (DPAD) and the recognition of certain foreign branch-related losses for U.S. income tax purposes, partially offset by an increase in valuation allowances relating to certain foreign net operating losses. The effective income tax rate for the second quarter of fiscal 2017 was below the U.S. federal statutory rate of 35% primarily due to the recognition of net tax benefits associated with U.S. research and development credits, the recognition of a bad debt deduction for U.S. income tax purposes relating to an insolvent foreign subsidiary and the recognition of certain foreign branch-related losses for U.S. income tax purposes. The income tax provision recorded in the first six months of fiscal 2018 was \$23.0 million compared to an income tax benefit of \$1.5 million in the first six months of fiscal 2017. The effective income tax rate for the first six months of fiscal 2018 was 29.0% versus (3.6)% in the first six months of fiscal 2017. The effective income tax rate for the first six months of fiscal 2018 was below the U.S. federal statutory rate of 35% primarily due to the recognition of net tax benefits associated with an accrual for the DPAD, the recognition of excess U.S. foreign tax credits, the recognition of certain foreign branch-related losses for U.S. income tax purposes and the recognition of certain previously unrecognized tax benefits due to the lapse of the applicable statutes of limitations, partially offset by an increase in valuation allowances related to certain foreign net operating losses. The income tax benefit recognized on income before income taxes for the first six months of fiscal 2017 was primarily due to excess tax benefits associated with share-based payments (in conjunction with the early adoption of ASU 2016-09), the recognition of net tax benefits associated with U.S. research and development credits, the recognition of a worthless stock and bad debt deduction for U.S. income tax purposes relating to an insolvent foreign subsidiary and the recognition of excess U.S. foreign tax credits.

At September 30, 2017, the Company had an \$18.5 million liability for unrecognized net income tax benefits. At March 31, 2017, the Company's total liability for unrecognized net income tax benefits was \$18.1 million. The Company recognizes accrued interest and penalties related to unrecognized income tax benefits in income tax expense. As of September 30, 2017 and March 31, 2017, the total amount of gross, unrecognized income tax benefits included \$5.1 million and \$4.7 million of accrued interest and penalties, respectively. The Company recognized \$0.3 million of net interest and penalties as income tax expense during both the six months ended September 30, 2017 and September 30, 2016.

The Company conducts business in multiple locations within and outside the U.S. Consequently, the Company is subject to periodic income tax examinations by domestic and foreign income tax authorities. Currently, the Company is undergoing routine, periodic income tax examinations in both domestic and foreign jurisdictions (including a

review of a few specific items on certain corporate income tax returns of the Company's Netherlands subsidiaries for the tax years ended March 31, 2011 through 2015). In addition, the U.S. Internal Revenue Service is currently examining the Company's U.S. consolidated federal income tax return and related amended return for the tax year ended March 31, 2015. During the third quarter of fiscal 2017, the Company completed an examination of certain of its Italian subsidiaries' corporate income tax returns for the tax years ended March 31, 2014 through 2016 and paid approximately \$0.7 million upon the conclusion of such examination. In addition, during the fourth quarter of fiscal 2017, the Company completed an examination of certain of its German subsidiaries' corporate income and trade tax returns for the tax years ended March 31, 2011 through 2014 and paid approximately \$0.4 million upon conclusion of such examination. It appears reasonably possible that the amounts of unrecognized income tax benefits could change in the next twelve months upon conclusion of the Company's current ongoing examinations; however, any potential payments of income tax, interest and penalties are not expected to be significant to the Company's consolidated financial statements.

Table of Contents

With certain exceptions, the Company is no longer subject to U.S. federal income tax examinations for tax years ending prior to March 31, 2014, state and local income tax examinations for years ending prior to fiscal 2013 or significant foreign income tax examinations for years ending prior to fiscal 2012. With respect to the Company's U.S. federal NOL carryforward (which was fully utilized for the tax year ended March 31, 2015), the short tax period from July 21, 2006 to March 31, 2007 (due to the change in control when Apollo Management, L.P. acquired the Company) and the tax years ended March 31, 2008 through March 31, 2013 are open under statutes of limitations; whereby, the Internal Revenue Service may not adjust the income tax liability for these years, but may reduce the NOL carryforward and any other tax attribute carryforwards to currently open tax years.

5. Earnings per Share

The following table presents the basis for income per share computations (in millions, except share amounts):

	Three Months Ended September 30, 2017		Six Months Ended September 30, 2017	
	2017	2016	2017	2016
Numerator:				
Net income	\$ 29.8	\$ 24.6	\$ 56.3	\$ 43.5
Less: Dividends on preferred stock	(5.8)	—	(11.6)	—
Net income attributable to Rexnord common stockholders	\$ 24.0	\$ 24.6	\$ 44.7	\$ 43.5
Denominator:				
Weighted-average common shares outstanding, basic	103,812	102,728	103,753	102,207
Effect of dilutive equity awards	1,728	1,880	1,690	2,222
Weighted-average common shares outstanding, dilutive	105,540	104,608	105,443	104,429

The computation of diluted net income per share for the three and six months ended September 30, 2017 excludes 2.8 million and 5.1 million shares, respectively, related to equity awards due to their anti-dilutive effects. The computation of diluted net income per share for both the three and six months ended September 30, 2016 excludes 5.2 million shares related to equity awards due to their anti-dilutive effects. The computation for diluted net income per share also does not include shares of preferred stock that are convertible into a weighted average of 16.7 million and 17.0 million common shares for the three and six months ended September 30, 2017, respectively, because to do so would have been anti-dilutive.

6. Stockholders' Equity

Stockholders' equity consists of the following (in millions):

	Preferred Stock	Common Stock	Additional Paid-In Capital	Retained Deficit	Accumulated Other Comprehensive (Loss) Income	Total Stockholders' Equity
Balance at March 31, 2017	\$ 0.0	\$ 1.0	\$ 1,262.1	\$ (55.5)	\$ (137.0)	\$ 1,070.6
Total comprehensive income	—	—	—	56.3	36.4	92.7
Stock-based compensation expense	—	—	10.8	—	—	10.8
Exercise of stock options	—	—	2.8	—	—	2.8
Preferred stock dividends	—	—	(10.8)	(0.8)	—	(11.6)
Balance at September 30, 2017	\$ 0.0	\$ 1.0	\$ 1,264.9	\$ —	\$ (100.6)	\$ 1,165.3

Preferred Stock

During the third quarter of fiscal 2017, the Company issued 8,050,000 depository shares, each of which represents a 1/20th interest in a share of 5.75% Series A Mandatory Convertible Preferred Stock (the "Series A Preferred Stock"), for an offering price of \$50 per depository share. The Company issued an aggregate of 402,500 shares of Series A Preferred Stock in connection therewith. Unless converted earlier, each share of Series A Preferred Stock will convert automatically on the mandatory conversion date, which is November 15, 2019, into between 39.702 and 47.642 shares of the Company's common stock, subject to customary anti-dilution adjustments. The number of shares of common stock issuable upon conversion will be determined based on a defined average volume weighted average price per share of the Company's common stock preceding November 15, 2019. Holders of the Series A Preferred Stock may elect on a voluntary basis to convert their shares into common stock at the minimum exchange ratio at any time prior to the mandatory conversion date.

Table of Contents

Dividends accumulate from the issuance date. Rexnord may pay such dividends in cash or, subject to certain limitations, by delivery of shares of the Company's common stock or through any combination of cash and shares of the Company's common stock as determined by the Company in its sole discretion. Any unpaid dividends will continue to accumulate. Dividends are payable quarterly, ending on November 15, 2019. The shares of Series A Preferred Stock have a liquidation preference of \$1,000 per share, plus accrued but unpaid dividends. With respect to dividend and liquidation rights, the Series A Preferred Stock ranks senior to the Company's common stock and junior to all existing and future indebtedness.

The net proceeds from the offering were approximately \$389.7 million. The Company used \$195.0 million of the proceeds to prepay a portion of the then-outstanding term loan indebtedness under its credit agreement, with the remainder retained for general corporate purposes. During the three and six months ended September 30, 2017, the Company paid \$5.8 million and \$11.6 million of dividends, respectively. As of September 30, 2017, there were no dividends in arrears on the Series A Preferred Stock.

Common Stock Repurchase Program

In fiscal 2015, the Company's Board of Directors approved a stock repurchase program (the "Repurchase Program") authorizing the repurchase of up to \$200.0 million of the Company's common stock from time to time on the open market or in privately negotiated transactions. The Repurchase Program does not require the Company to acquire any particular amount of common stock and does not specify the timing of purchases or the prices to be paid; however, the program will continue until the maximum amount of dollars authorized have been expended or until it is modified or terminated by the Board. No shares were repurchased during the six months ended September 30, 2017 or September 30, 2016. A total of approximately \$160.0 million remained of the existing repurchase authority at September 30, 2017.

7. Accumulated Other Comprehensive Loss

The changes in accumulated other comprehensive loss, net of tax, for the six months ended September 30, 2017 are as follows (in millions):

	Interest Rate Derivatives	Foreign Currency Translation	Pension and Postretirement Plans	Total
Balance at March 31, 2017	\$ (9.5)	\$ (99.3)	\$ (28.2)	\$(137.0)
Other comprehensive (loss) income before reclassifications	(0.4)	34.1	—	33.7
Amounts reclassified from accumulated other comprehensive loss	3.3	—	(0.6)	2.7
Net current period other comprehensive income (loss)	2.9	34.1	(0.6)	36.4
Balance at September 30, 2017	\$ (6.6)	\$ (65.2)	\$ (28.8)	\$(100.6)

The following table summarizes the amounts reclassified from accumulated other comprehensive loss to net income during the three and six months ended September 30, 2017 and September 30, 2016 (in millions):

	Three Months Ended September 30, 2017		Six Months Ended September 30, 2016		Income Statement Line
Pension and other postretirement plans					
Amortization of prior service credit	\$(0.5)	\$ (0.4)	\$(1.0)	\$ (0.9)	Selling, general and administrative expenses
Provision for income taxes	0.2	0.1	0.4	0.3	
Total net of tax	\$(0.3)	\$ (0.3)	\$(0.6)	\$ (0.6)	

Interest rate derivatives

Net realized losses on interest rate hedges	\$2.6	\$ 2.6	\$5.4	\$ 5.2	Interest expense, net
Benefit for income taxes	(1.0)	(1.0)	(2.1)	(2.0)	
Total net of tax	\$1.6	\$ 1.6	\$3.3	\$ 3.2	

Table of Contents

8. Inventories

The major classes of inventories are summarized as follows (in millions):

	September 30, 2017	March 31, 2017
Finished goods	\$ 160.2	\$ 139.9
Work in progress	43.5	44.4
Purchased components	80.8	74.0
Raw materials	56.7	47.7
Inventories at First-in, First-Out ("FIFO") cost	341.2	306.0
Adjustment to state inventories at Last-in, First-Out ("LIFO") cost	8.4	8.9
	\$ 349.6	\$ 314.9

9. Goodwill and Intangible Assets

The changes in the net carrying value of goodwill for the six months ended September 30, 2017 by operating segment are presented below (in millions):

	Process & Motion Control	Water Management	Consolidated
Net carrying amount as of March 31, 2017	\$1,068.8	\$ 249.4	\$ 1,318.2
Currency translation adjustment and other	1.9	5.8	7.7
Net carrying amount as of September 30, 2017	\$1,070.7	\$ 255.2	\$ 1,325.9

The gross carrying amount and accumulated amortization for each major class of identifiable intangible assets as of September 30, 2017 and March 31, 2017 are as follows (in millions):

	Weighted Average Useful Life	September 30, 2017 Gross Carrying Amount	September 30, 2017 Accumulated Amortization	September 30, 2017 Net Carrying Amount
Intangible assets subject to amortization:				
Patents	10 years	\$47.5	\$ (38.6)	\$ 8.9
Customer relationships (including distribution network)	13 years	688.3	(490.5)	197.8
Tradenames	12 years	29.9	(6.9)	23.0
Intangible assets not subject to amortization - tradenames		317.2	—	317.2
Total intangible assets, net	13 years	\$1,082.9	\$ (536.0)	\$ 546.9
	Weighted Average Useful Life	March 31, 2017 Gross Carrying Amount	March 31, 2017 Accumulated Amortization	March 31, 2017 Net Carrying Amount
Intangible assets subject to amortization:				
Patents	10 years	\$47.0	\$ (37.7)	\$ 9.3
Customer relationships (including distribution network)	13 years	685.8	(475.2)	210.6
Tradenames	12 years	29.5	(5.3)	24.2

Intangible assets not subject to amortization - tradenames		314.5	—	314.5
Total intangible assets, net	13 years	\$1,076.8	\$ (518.2)	\$ 558.6

Intangible asset amortization expense totaled \$8.0 million and \$16.2 million for the three and six months ended September 30, 2017, respectively. Intangible asset amortization expense totaled \$10.5 million and \$25.1 million for the three and six months ended September 30, 2016, respectively.

The Company expects to recognize amortization expense on the intangible assets subject to amortization of \$32.4 million in fiscal year 2018 (inclusive of \$16.2 million of amortization expense recognized in the six months ended September 30, 2017), \$32.2 million in fiscal year 2019, \$32.0 million in fiscal year 2020, \$30.6 million in fiscal year 2021 and \$26.2 million in fiscal year 2022.

Table of Contents

10. Other Current Liabilities

Other current liabilities are summarized as follows (in millions):

	September 30, March 31,	
	2017	2017
Customer advances	\$ 12.0	\$ 10.9
Sales rebates	26.0	25.5
Commissions	6.7	6.3
Restructuring and other similar charges (1)	8.8	12.0
Product warranty (2)	7.2	7.5
Risk management (3)	9.2	8.9
Legal and environmental	4.4	4.4
Taxes, other than income taxes	8.4	10.5
Income tax payable	17.5	17.8
Interest payable	6.3	5.7
Other	26.7	17.9
	\$ 133.2	\$ 127.4

(1) See more information related to the restructuring obligations within Note 3, Restructuring and Other Similar Charges.

(2) See more information related to the product warranty obligations within Note 14, Commitments and Contingencies.

(3) Includes projected liabilities related to losses arising from automobile, general and product liability claims.

11. Long-Term Debt

Long-term debt is summarized as follows (in millions):

	September 30, March 31,	
	2017	2017
Term loan (1)	\$ 1,577.8	\$ 1,584.5
Other subsidiary debt (2)	37.9	38.2
Total	1,615.7	1,622.7
Less current maturities	16.3	16.5
Long-term debt	\$ 1,599.4	\$ 1,606.2

(1) Includes an unamortized original issue discount and debt issuance costs of \$16.5 million and \$17.9 million at September 30, 2017 and March 31, 2017, respectively.

Other subsidiary debt consists primarily of a \$36.9 million loan payable associated with the New Market Tax Credit incentive program as of September 30, 2017 and March 31, 2017. The Company also invested an aggregate (2) of \$27.6 million in the form of a loan receivable. The aggregate loan receivable is presented within Other assets on the condensed consolidated balance sheets as of both September 30, 2017 and March 31, 2017. Also includes unamortized debt issuance costs of \$0.5 million as of both September 30, 2017 and March 31, 2017.

Senior Secured Credit Facility

The Company's Third Amended and Restated First Lien Credit Agreement (the "Credit Agreement") is funded by a syndicate of banks and other financial institutions and provides for (i) a \$1,606.4 million term loan facility that matures on August 21, 2023 (the "Term Loan") and (ii) a \$265.0 million revolving credit facility that matures on March 15, 2019. At September 30, 2017, the borrowings under the Term Loan had a weighted-average effective interest rate of 4.06%, determined as the London Interbank Offered Rate ("LIBOR") (subject to a 1.00% floor) plus an applicable margin of 2.75%. The weighted-average interest rate for the period ended September 30, 2017, was 4.02%, determined as LIBOR (subject to a 1.0% floor) plus an applicable margin of 2.75%. No amounts were borrowed under

the revolving credit facility at September 30, 2017 or March 31, 2017; however, \$9.3 million and \$14.6 million of the revolving credit facility was considered utilized in connection with outstanding letters of credit at September 30, 2017 and March 31, 2017, respectively.

As of September 30, 2017, the Company was in compliance with all applicable covenants under its Credit Agreement, including compliance with a maximum permitted total net leverage ratio (the sole financial maintenance covenant under the revolving credit facility) of 6.75 to 1.0. The Company's total net leverage ratio was 3.1 to 1.0 as of September 30, 2017.

Table of Contents

Accounts Receivable Securitization Program

The Company maintains an accounts receivable securitization facility (the “Securitization”) with Wells Fargo Bank, N.A. Pursuant to the Securitization, Rexnord Funding (a wholly owned bankruptcy-remote special purpose subsidiary) has granted the lender under the Securitization a security interest in all of its current and future receivables and related assets in exchange for a credit facility permitting borrowings of up to a maximum aggregate amount of \$100.0 million outstanding from time to time. Such borrowings will be used by Rexnord Funding to finance purchases of accounts receivable. The Securitization constitutes a “Permitted Receivables Financing” under Article 1 and Article 6 of the Credit Agreement. Any borrowings under the Securitization are accounted for as secured borrowings on the Company's condensed consolidated balance sheets.

As of both September 30, 2017 and March 31, 2017, the Company's available borrowing capacity under the Securitization was \$100.0 million, based on the then-current accounts receivables. No amounts were borrowed under the Securitization at September 30, 2017 or March 31, 2017; however, \$9.9 million and \$4.6 million was considered utilized in connection with outstanding letters of credit at September 30, 2017 and March 31, 2017, respectively. As of September 30, 2017, the Company was in compliance with all applicable covenants and performance ratios contained in the Securitization.

See Note 11 to the audited consolidated financial statements of the Company's fiscal 2017 Annual Report on Form 10-K for further information regarding long-term debt.

Table of Contents

12. Derivative Financial Instruments

The Company is exposed to certain financial risks relating to fluctuations in foreign currency exchange rates. The Company currently selectively uses foreign currency forward exchange contracts to manage its foreign currency risk. All hedging transactions are authorized and executed pursuant to defined policies and procedures that prohibit the use of financial instruments for speculative purposes.

Foreign Exchange Contracts

The Company periodically enters into foreign currency forward contracts to mitigate the foreign currency volatility relative to certain intercompany and external cash flows expected to occur. These foreign currency forward contracts were not accounted for as cash flow hedges in accordance with ASC 815, Derivatives and Hedging ("ASC 815"), and as such were marked to market through earnings. The amounts recorded on the condensed consolidated balance sheets and recognized within the condensed consolidated statements of operations related to the Company's foreign currency forward contracts are set forth within the tables below.

Interest Rate Derivatives

The Company utilizes three interest rate swaps to hedge the variability in future cash flows associated with a portion of the Company's variable-rate term loans. The interest rate swaps, which became effective in fiscal 2016, convert \$650.0 million of the Company's variable-rate term loans to a weighted average fixed interest rate of 2.55% plus the applicable margin (inclusive of a 1% LIBOR floor). The interest rate swaps have been designated as cash flow hedges in accordance with ASC 815 and will mature on September 27, 2018.

In addition, the Company utilizes two interest rate caps to further mitigate the Company's exposure to increasing interest rates on its variable-rate interest loans. Those interest rate caps were effective beginning in fiscal 2015, with a maturity of October 24, 2018, and they cap the interest on \$750.0 million of the Company's variable-rate interest loans at 3%, plus the applicable margin. In executing the interest rate caps, the Company paid a premium of \$5.8 million. The interest rate caps have been designated as cash flow hedges in accordance with ASC 815. When combined with the Company's existing interest rate swaps, the Company has hedged approximately 88% of its outstanding variable rate term loans with a weighted average interest rate that cannot exceed 2.79% plus the applicable margin of 2.75%.

The fair values of the Company's interest rate derivatives are recorded on the condensed consolidated balance sheets with the corresponding offset recorded as a component of accumulated other comprehensive loss, net of tax. See the amounts recorded on the condensed consolidated balance sheets related to the Company's interest rate derivatives within the tables below.

The Company's derivatives are measured at fair value in accordance with ASC 820, Fair Value Measurements and Disclosure ("ASC 820"). See Note 13 for more information as it relates to the fair value measurement of the Company's derivative financial instruments. The following tables indicate the location and the fair value of the Company's derivative instruments within the condensed consolidated balance sheets segregated between designated, qualifying ASC 815 hedging instruments and non-qualifying, non-designated hedging instruments.

Fair value of derivatives designated as hedging instruments under ASC 815 (in millions):

	September 30, 2017	March 31, 2017	Balance Sheet Classification
	Asset Derivatives		
Interest rate caps	\$ —	\$ 0.0	Other assets
	Liability Derivatives		

Interest rate swaps	\$6.6	\$ —	Other current liabilities
Interest rate swaps	\$—	\$ 10.3	Other liabilities
Fair value of derivatives not designated as hedging instruments under ASC 815 (in millions):			
	September 30, 2017	March 31, 2017	Balance Sheet Classification
	Liability Derivatives		
Foreign currency forward contracts	\$0.6	\$ 0.1	Other current liabilities

Table of Contents

The following table segregates the location and the amount of gains or losses associated with the Company's derivative instruments, net of tax, within the condensed consolidated balance sheets (for qualifying ASC 815 instruments) and recognized within the condensed consolidated statements of operations (for non-qualifying ASC 815 instruments).

		Amount of loss recognized in accumulated other comprehensive loss on derivatives			
Derivative instruments designated as cash flow hedging relationships under ASC 815 (in millions)		September 30, 2017			
Interest rate swaps		\$ 4.1			
Interest rate caps		\$ 2.5			
		Amount recognized as expense			
		Second Quarter Ended		Six Months Ended	
Derivative instruments not designated as hedging instruments under ASC 815 (in millions)		September 30, 2017		September 30, 2016	
		Condensed Consolidated Statements of Operations Classification			
Foreign currency forward contracts		Other expense, net			
		\$0.6		\$ 0.2	
				\$ 0.4	
				\$ 0.5	

As of September 30, 2017, there was no ineffectiveness on the Company's designated hedging instruments. The Company expects to reclassify approximately \$10.3 million of losses related to its interest rate derivatives recorded within accumulated other comprehensive loss into earnings as interest expense during the next twelve months.

13. Fair Value Measurements

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed assumptions about the assumptions a market participant would use.

In accordance with ASC 820, fair value measurements are classified under the following hierarchy:

• Level 1- Quoted prices for identical instruments in active markets.

• Level 2- Quoted prices for similar instruments; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable.

• Level 3- Model-derived valuations in which one or more inputs or value-drivers are both significant to the fair value measurement and unobservable.

If applicable, the Company uses quoted market prices in active markets to determine fair value, and therefore classifies such measurements within Level 1. In some cases where market prices are not available, the Company makes use of observable market-based inputs to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally developed models that use, where possible, current market-based parameters. These measurements are classified within Level 3 if they use significant unobservable inputs.

Fair Value of Derivative Instruments

The Company transacts in foreign currency forward contracts, interest rate swaps, and interest rate caps. The fair value of foreign currency forward contracts is based on a pricing model that utilizes the differential between the contract price and the market-based forward rate as applied to fixed future deliveries of currency at pre-designated settlement

dates. The fair value of interest rate swaps and interest rate caps is based on pricing models. These models use discounted cash flows that utilize the appropriate market-based forward swap curves and interest rates.

The Company endeavors to utilize the best available information in measuring fair value. As required by ASC 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Foreign currency forward contracts and interest rate swaps reside within Level 2 of the fair value hierarchy. There were no transfers of assets or liabilities between levels for the periods presented. The following table provides a summary of the Company's assets and liabilities recognized at fair value on a recurring basis as of September 30, 2017 and March 31, 2017 (in millions):

Table of Contents

	Fair Value as of		
	September 30, 2017		
	Level 1	Level 2	Level 3 Total
Liabilities:			
Interest rate derivatives	\$—	\$6.6	\$— \$ 6.6
Foreign currency forward contracts	—0.6	—	0.6
Total liabilities at fair value	\$—	\$7.2	\$— \$ 7.2
	Fair Value as of		
	March 31, 2017		
	Level 1	Level 2	Level 3 Total
Assets:			
Interest rate caps	\$—	\$0.0	\$—
Total assets at fair value	\$—	\$—	\$—
Liabilities:			
Interest rate swaps	\$—	\$10.3	\$— \$ 10.3
Foreign currency forward contracts	—0.1	—	0.1
Total liabilities at fair value	\$—	\$10.4	\$— \$ 10.4

Fair Value of Non-Derivative Financial Instruments

The carrying amounts of cash, receivables, payables and accrued liabilities approximated fair value at September 30, 2017 and March 31, 2017 due to the short-term nature of those instruments. The fair value of long-term debt as of September 30, 2017 and March 31, 2017 was approximately \$1,640.2 million and \$1,644.6 million, respectively. The fair value is based on quoted market prices for the same issues.

Long-lived Assets and Intangible Assets

Long-lived assets (which includes property, plant and equipment and real estate) may be measured at fair value if such assets are held-for-sale or when there is a determination that the asset is impaired. Intangible assets (which include patents, tradenames, customer relationships, and non-compete agreements) also may be measured at fair value when there is a determination that the asset is impaired. The determination of fair value for these assets is based on the best information available that resides within Level 3 of the fair value hierarchy, including internal cash flow estimates discounted at an appropriate interest rate, quoted market prices when available, market prices for similar assets and independent appraisals, as appropriate. For real estate, cash flow estimates are based on current market estimates that reflect current and projected lease profiles and available industry information about expected trends in rental, occupancy and capitalization rates.

In connection with the ongoing supply chain optimization and footprint repositioning initiatives, the Company has taken several actions to consolidate existing manufacturing facilities and rationalize its product offerings. These actions require the Company to assess whether the carrying amount of impacted long-lived assets will be recoverable as well as whether the remaining useful lives require adjustment. During fiscal 2017 and 2018, the Company recognized both impairment charges and accelerated depreciation of certain assets to place the assets at net realizable value. Net realizable value of these assets was determined using independent appraisals, classified as Level 3 inputs within the fair value hierarchy. As of September 30, 2017 and March 31, 2017, these assets were recorded at net realizable value on the condensed consolidated balance sheets within property, plant and equipment in the amount of \$10.1 million and \$7.0 million, respectively.

Table of Contents

14. Commitments and Contingencies

Warranties:

The Company offers warranties on the sales of certain products and records an accrual for estimated future claims. Such accruals are based upon historical experience and management's estimate of the level of future claims. The following table presents changes in the Company's product warranty liability (in millions):

	Six Months Ended	
	September 30, 2017	September 30, 2016
Balance at beginning of period	\$ 7.5	\$ 6.8
Acquired obligations	—	0.4
Charged to operations	2.2	2.0
Claims settled	(2.5)	(2.4)
Balance at end of period	\$ 7.2	\$ 6.8

Contingencies:

The Company's subsidiaries are involved in various unresolved legal actions, administrative proceedings and claims in the ordinary course of business involving, among other things, product liability, commercial, employment, workers' compensation, intellectual property claims and environmental matters. The Company establishes accruals in a manner that is consistent with accounting principles generally accepted in the United States for costs associated with such matters when liability is probable and those costs are capable of being reasonably estimated. Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss or recovery, based upon current information, management believes the eventual outcome of these unresolved legal actions, either individually or in the aggregate, will not have a material adverse effect on the financial position, results of operations or cash flows of the Company.

In connection with its sale of the Company, Invensys plc ("Invensys") provided the Company with indemnification against certain contingent liabilities, including certain pre-closing environmental liabilities. The Company believes that, pursuant to such indemnity obligations, Invensys is obligated to defend and indemnify the Company with respect to the matters described below relating to the Ellsworth Industrial Park Site and to various asbestos claims. The indemnity obligations relating to the matters described below are subject, together with indemnity obligations relating to other matters, to an overall dollar cap equal to the purchase price, which is an amount in excess of \$900 million.

The following paragraphs summarize the most significant actions and proceedings:

In 2002, Rexnord Industries, LLC ("Rexnord Industries") was named as a potentially responsible party ("PRP"), together with at least ten other companies, at the Ellsworth Industrial Park Site, Downers Grove, DuPage County, Illinois (the "Site"), by the United States Environmental Protection Agency ("USEPA"), and the Illinois Environmental Protection Agency ("IEPA"). Rexnord Industries' Downers Grove property is situated within the Ellsworth Industrial Complex. The USEPA and IEPA allege there have been one or more releases or threatened releases of chlorinated solvents and other hazardous substances, pollutants or contaminants, allegedly including but not limited to a release or threatened release on or from the Company's property, at the Site. The relief sought by the USEPA and IEPA includes further investigation and potential remediation of the Site and reimbursement of USEPA's past costs. Rexnord Industries' allocated share of past and future costs related to the Site, including for investigation and/or remediation, could be significant. All previously pending property damage and personal injury lawsuits against the Company related to the Site have been settled or dismissed. Pursuant to its indemnity obligation, Invensys continues to defend the Company in known matters related to the Site and has paid 100% of the costs to date.

Multiple lawsuits (with approximately 300 claimants) are pending in state or federal court in numerous jurisdictions relating to alleged personal injuries due to the alleged presence of asbestos in certain brakes and clutches previously manufactured by the Company's Stearns division and/or its predecessor owners. Invensys and FMC, prior owners of the Stearns business, have paid 100% of the costs to date related to the Stearns lawsuits. Similarly, the Company's Prager subsidiary is a defendant in two pending multi-defendant lawsuits relating to alleged personal injuries due to the alleged presence of asbestos in a product allegedly manufactured by Prager. Additionally, there are numerous individuals who have filed asbestos related claims against Prager; however, these claims are currently on the Texas

Multi-district Litigation inactive docket. The ultimate outcome of these asbestos matters cannot presently be determined. To date, the Company's insurance providers have paid 100% of the costs related to the Prager asbestos matters. The Company believes that the combination of its insurance coverage and the Invensys indemnity obligations will cover any future costs of these matters.

Table of Contents

In connection with the Company's acquisition of The Falk Corporation ("Falk"), Hamilton Sundstrand provided the Company with indemnification against certain products-related asbestos exposure liabilities. The Company believes that, pursuant to such indemnity obligations, Hamilton Sundstrand is obligated to defend and indemnify the Company with respect to the asbestos claims described below, and that, with respect to these claims, such indemnity obligations are not subject to any time or dollar limitations.

The following paragraph summarizes the most significant actions and proceedings for which Hamilton Sundstrand has accepted responsibility:

Falk, through its successor entity, is a defendant in multiple lawsuits pending in state or federal court in numerous jurisdictions relating to alleged personal injuries due to the alleged presence of asbestos in certain clutches and drives previously manufactured by Falk. There are approximately 100 claimants in these suits. The ultimate outcome of these lawsuits cannot presently be determined. Hamilton Sundstrand is defending the Company in these lawsuits pursuant to its indemnity obligations and has paid 100% of the costs to date.

Certain Water Management subsidiaries are also subject to asbestos litigation. As of September 30, 2017, Zurn and numerous other unrelated companies were defendants in approximately 7,000 asbestos related lawsuits representing approximately 17,000 claims. Plaintiffs' claims allege personal injuries caused by exposure to asbestos used primarily in industrial boilers formerly manufactured by a segment of Zurn. Zurn did not manufacture asbestos or asbestos components. Instead, Zurn purchased them from suppliers. These claims are being handled pursuant to a defense strategy funded by insurers.

As of September 30, 2017, the Company estimates the potential liability for the asbestos-related claims described above as well as the claims expected to be filed in the next ten years to be approximately \$37.0 million, of which Zurn expects its insurance carriers to pay approximately \$28.0 million in the next ten years on such claims, with the balance of the estimated liability being paid in subsequent years. The \$37.0 million was developed based on actuarial studies and represents the projected indemnity payout for current and future claims. There are inherent uncertainties involved in estimating the number of future asbestos claims, future settlement costs, and the effectiveness of defense strategies and settlement initiatives. As a result, actual liability could differ from the estimate described herein and could be substantial. The liability for the asbestos-related claims is recorded in Other liabilities within the condensed consolidated balance sheets.

Management estimates that its available insurance to cover this potential asbestos liability as of September 30, 2017, is approximately \$241.8 million, and believes that all current claims are covered by insurance. However, principally as a result of the past insolvency of certain of the Company's insurance carriers, certain coverage gaps will exist if and after the Company's other carriers have paid the first \$165.8 million of aggregate liabilities.

As of September 30, 2017, the Company had a recorded receivable from its insurance carriers of \$37.0 million, which corresponds to the amount of this potential asbestos liability that is covered by available insurance and is currently determined to be probable of recovery. However, there is no assurance that \$241.8 million of insurance coverage will ultimately be available or that this asbestos liability will not ultimately exceed \$241.8 million. Factors that could cause a decrease in the amount of available coverage include: changes in law governing the policies, potential disputes with the carriers regarding the scope of coverage, and insolvencies of one or more of the Company's carriers. The receivable for probable asbestos-related recoveries is recorded in Other assets within the condensed consolidated balance sheets.

Certain Company subsidiaries were named as defendants in a number of individual and class action lawsuits in various United States courts claiming damages due to the alleged failure or anticipated failure of Zurn brass fittings on the PEX plumbing systems in homes and other structures. In fiscal 2013, the Company reached a court-approved agreement to settle the liability underlying this litigation. The settlement is designed to resolve, on a national basis, the Company's overall exposure for both known and unknown claims related to the alleged failure or anticipated failure of such fittings, subject to the right of eligible class members to opt-out of the settlement and pursue their claims independently. The settlement utilizes a seven year claims fund, which is capped at \$20.0 million, and is funded in installments over the seven year period based on claim activity and minimum funding criteria. The settlement also covers class action plaintiffs' attorneys' fees and expenses. Historically, the Company's insurance carrier had funded the Company's defense in the above referenced proceedings. The Company, however, reached a

settlement agreement with its insurer, whereby the insurer paid the Company a lump sum in exchange for a release of future exposure related to this liability. The Company has recorded an accrual related to this brass fittings liability, which takes into account, in pertinent part, the insurance carrier contribution, as well as exposure from the claims fund, opt-outs and the waiver of future insurance coverage.

Table of Contents

15. Retirement Benefits

The components of net periodic benefit cost are as follows (in millions):

	Three Months Ended September 30, 2017		September 30, 2016		Six Months Ended September 30, 2017		September 30, 2016	
Pension Benefits:								
Service cost	\$0.2	\$ 0.4			\$0.4	\$ 0.9		
Interest cost	6.1	6.3			12.2	12.6		
Expected return on plan assets	(6.6)	(6.5)			(13.2)	(13.2)		
Amortization:								
Prior service cost	—	0.1			—	0.1		
Net periodic benefit (credit) cost	\$(0.3)	\$ 0.3			\$(0.6)	\$ 0.4		
Other Postretirement Benefits:								
Interest cost	\$0.2	\$ 0.3			\$0.4	\$ 0.6		
Amortization:								
Prior service credit	(0.5)	(0.5)			(1.0)	(1.0)		
Net periodic benefit credit	\$(0.3)	\$ (0.2)			\$(0.6)	\$ (0.4)		

During the first six months of fiscal 2018 and 2017, the Company made contributions of \$2.9 million and \$4.6 million, respectively, to its U.S. qualified pension plan trusts.

In accordance with the Company's accounting policy for defined benefit pension and other postretirement benefit plans, actuarial gains and losses above the corridor are immediately recognized in the Company's operating results. The corridor is 10% of the higher of the pension benefit obligation or the fair value of the plan assets. This adjustment is typically recorded annually in the fourth quarter in connection with the Company's required year-end re-measurement of plan assets and benefit obligations, or upon any off-cycle re-measurement event.

See Note 16 to the audited consolidated financial statements of the Company's fiscal 2017 Annual Report on Form 10-K for further information regarding retirement benefits.

16. Stock-Based Compensation

The Rexnord Corporation Performance Incentive Plan (the "Plan") is utilized to provide performance incentives to the Company's officers, employees, directors and certain others by permitting grants of equity awards (for common stock), as well as performance-based cash awards, to such persons to encourage them to maximize Rexnord's performance and create value for Rexnord's stockholders. ASC 718, Compensation-Stock Compensation ("ASC 718"), requires compensation costs related to share-based payment transactions to be recognized in the financial statements. Generally, compensation cost is measured based on the estimated grant-date fair value of the equity instruments issued. Compensation cost is recognized over the requisite service period, generally as the awards vest. For the three and six months ended September 30, 2017, the Company recognized \$5.4 million and \$10.8 million of stock-based compensation expense, respectively. For the three and six months ended September 30, 2016, the Company recognized \$3.7 million and \$6.0 million of stock-based compensation expense, respectively. As of September 30, 2017, there was \$34.7 million of total unrecognized compensation cost related to non-vested equity awards that is expected to be recognized over a weighted-average period of 2.0 years.

Table of Contents

Stock Options

During the six months ended September 30, 2017 and September 30, 2016, the Company granted stock options to executive officers and certain other employees, which vest over a weighted-average term of three years. The fair value of each option granted under the Plan during the six months ended September 30, 2017 was estimated on the grant date using the Black-Scholes valuation model utilizing the following weighted-average assumptions:

Six Months Ended September 30, 2017

Expected option term (in years)	6.5
Expected volatility factor	31%
Weighted-average risk-free interest rate	1.99%
Expected dividend rate	0.0%

The Company estimates the expected term of stock options granted based on the midpoint between when the options vest and when they expire. The Company uses the simplified method to determine the expected term, as management does not have sufficient historical exercise data to provide a reasonable basis upon which to estimate the expected term due to the limited period of time its common stock shares has been publicly traded. The Company's expected volatility assumption is based on its historical volatility. The weighted-average risk-free interest rate is based on the U.S. Treasury yield curve in effect at the date of grant. Management assumes expected dividends of zero. The weighted-average grant date fair value of options granted under the Plan during the six months ended September 30, 2017 was \$8.11.

A summary of stock option activity during the first six months of fiscal 2018 and 2017 is as follows:

Six Months Ended

September 30, 2017		September 30, 2016	
Shares	Weighted Avg. Exercise Price	Shares	Weighted Avg. Exercise Price

Number of common shares under option:

Outstanding at beginning of period	7,770,670	\$ 18.73	7,854,685	\$ 15.10
Granted	1,164,713	23.14	2,591,028	19.72
Exercised	(212,783)	12.54	(1,284,775)	5.06
Canceled/Forfeited	(101,985)	23.35	(338,233)	23.70
Outstanding at end of period (1)	8,620,615	\$ 19.42	8,822,705	\$ 17.58
Exercisable at end of period (2)	5,029,677	\$ 17.72	3,950,120	\$ 13.00

(1) The weighted average remaining contractual life of options outstanding at September 30, 2017 is 6.6 years.

(2) The weighted average remaining contractual life of options exercisable at September 30, 2017 is 5.2 years.

Restricted Stock Units

During the six months ended September 30, 2017 and 2016, the Company granted restricted stock units ("RSUs") to its non-employee directors and certain employees. RSUs granted during the six months ended September 30, 2017 and 2016 generally vest ratably over three years. The fair value of each award is determined based on the Company's closing stock price on the date of grant. A summary of RSU activity during the six months ended September 30, 2017 and 2016 is as follows:

Six Months Ended

September 30, 2017		September 30, 2016	
Shares	Weighted Avg. Grant Date Fair	Shares	Weighted Avg. Grant Date Fair

Edgar Filing: Rexnord Corp - Form 10-Q

		Value		Value
Nonvested RSUs at beginning of period	322,142	\$ 20.59	125,307	\$ 24.67
Granted	242,581	23.10	168,695	19.78
Vested	(57,644)	22.80	(33,579)	25.96
Canceled/Forfeited	(19,716)	22.59	(21,026)	22.11
Nonvested RSUs at end of period	487,363	\$ 21.50	239,397	\$ 21.26

Table of Contents

Performance Stock Units

The Company grants performance stock units (“PSUs”) to its executive officers and certain other employees. PSUs have a three-year performance period and are earned and vest, subject to continued employment, based in part on performance relative to metrics determined by the Compensation Committee. The number of PSUs earned, which can range between 0% and 200% of the target awards granted depending on the Company's actual performance during the three-year performance period, will be satisfied with Rexnord common stock. A summary of PSU activity during the six months ended September 30, 2017 and 2016 is as follows:

	Six Months Ended		September 30,	
	September 30,		September 30,	
	2017		2016	
	Shares	Weighted Avg. Grant Date Fair Value	Shares	Weighted Avg. Grant Date Fair Value
Nonvested PSUs at beginning of period	259,930	\$ 24.74	49,136	\$ 28.57
Granted	193,071	26.58	219,266	23.95
Vested	—	—	—	—
Canceled/Forfeited	—	—	(4,200)	28.57
Nonvested PSUs at end of period	453,001	\$ 25.53	264,202	\$ 24.74

The fair value of the portion of PSUs with vesting based on free cash flow conversion is determined based on the Company's closing common stock price on the date of grant. The fair value of the portion of PSUs with vesting based on relative total shareholder return is determined utilizing the Monte Carlo simulation model and the weighted-average fair value of awards granted during the six months ended September 30, 2017 was \$31.25. Assumptions used to determine the fair value of each PSU were based on historical data and standard industry valuation practices and methodology. The following weighted-average assumptions were used for the PSUs granted during the six months ended September 30, 2017:

	Six Months Ended September 30, 2017
Expected volatility factor	31%
Weighted-average risk-free interest rate	1.45%
Expected dividend rate	0.0%

Table of Contents

17. Business Segment Information

The Company's results of operations are reported in two business segments, consisting of the Process & Motion Control platform and the Water Management platform. The Process & Motion Control platform designs, manufactures, markets and services a comprehensive range of specified, highly-engineered mechanical components used within complex systems where customers' reliability requirements and costs of failure or downtime are high. The Process & Motion Control portfolio includes motion control products, shaft management products, aerospace components, and related value-added services. Products and services are marketed and sold globally under widely recognized brand names, including Rexnord, Rex, FlatTop, Falk, Link-Belt and Cambridge. Process & Motion Control products and services are sold into a diverse group of attractive end markets, including food and beverage, aerospace, mining, petrochemical, energy and power generation, cement and aggregates, forest and wood products, agriculture, and general industrial and automation applications. The Water Management platform designs, procures, manufactures, and markets products that provide and enhance water quality, safety, flow control and conservation. The Water Management product portfolio includes professional grade water control and safety, water distribution and drainage, finish plumbing, and site works products for primarily nonresidential buildings and flow control products for water and wastewater treatment infrastructure markets. Products are marketed and sold under widely recognized brand names, including Zurn, Wilkins, and VAG. The financial information of the Company's segments is regularly evaluated by the chief operating decision maker in determining resource allocation and assessing performance. Management evaluates the performance of each business segment based on its operating results. The same accounting policies are used throughout the organization (see Note 1).

Business Segment Information (in millions):

18. Subsequent Event

On October 4, 2017, the Company acquired World Dryer Corporation (“World Dryer”) for a preliminary cash purchase price of \$50.0 million, excluding transaction costs and net of cash acquired. The preliminary cash purchase price is subject to customary post-closing adjustments for variances between estimated working capital targets and actual acquisition date working capital. World Dryer is a leading global manufacturer of commercial electric hand dryers. The combination of World Dryer’s eco-friendly hand dryers and Zurn’s water-efficient plumbing products is expected to bring even greater value to commercial building owners in the form of lower operating costs. As of the date of this filing, the Company has not completed the preliminary allocation of the purchase price to the assets acquired and liabilities assumed. The Company’s financial position and results from operations will include World Dryer as part of its Water Management platform subsequent to October 4, 2017. This acquisition is not expected to have a material impact on the Company’s condensed consolidated financial statements.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

Rexnord is a growth-oriented, multi-platform industrial company with what we believe are leading market shares and highly-trusted brands that serve a diverse array of global end markets. Our heritage of innovation and specification have allowed us to provide highly-engineered, mission-critical solutions to customers for decades and affords us the privilege of having long-term, valued relationships with market leaders. We operate our Company in a disciplined way and the Rexnord Business System ("RBS") is our operating philosophy. Grounded in the spirit of continuous improvement, RBS creates a scalable, process-based framework that focuses on driving superior customer satisfaction and financial results by targeting world-class operating performance throughout all aspects of our business.

RBS initiatives employ a framework and various processes across multiple operations and geographies, and are intended to drive customer satisfaction, performance and operating results. Savings from our RBS initiatives reflect benefits from a wide variety of ongoing efficiency, productivity and process improvements. Unless individually significant, it is not practicable to disclose each RBS activity or change that generated savings.

The following information should be read in conjunction with the audited consolidated financial statements and notes thereto, along with Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") in our Annual Report on Form 10-K for the fiscal year ended March 31, 2017.

Fiscal Year

Our fiscal year ends on March 31. Throughout this MD&A, we refer to the quarter ended September 30, 2017 as the "second quarter of fiscal 2018" or the "second quarter ended September 30, 2017." Similarly, we refer to the quarter ended September 30, 2016 as the "second quarter of fiscal 2017" or the "second quarter ended September 30, 2016."

Critical Accounting Policies and Estimates

The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"), which require us to make estimates and assumptions that affect the reported amounts of assets and liabilities on the date of the financial statements and revenues and expenses during the periods reported. Actual results could differ from those estimates. Refer to Item 7, MD&A of our Annual Report on Form 10-K for the fiscal year ended March 31, 2017 for information with respect to our critical accounting policies, which we believe could have the most significant effect on our reported results and require subjective or complex judgments by management. Except for the items reported below, management believes that as of September 30, 2017 and during the period from April 1, 2017 through September 30, 2017, there has been no material change to this information.

Recent Accounting Pronouncements

See Item 1, Note 1 Basis of Presentation and Significant Accounting Policies regarding recent accounting pronouncements.

Acquisitions

On June 1, 2016, we acquired Cambridge International Holdings Corp. ("Cambridge") for a cash purchase price of \$213.4 million. Cambridge, with operations in Cambridge, Maryland and Matamoros, Mexico, is one of the world's largest suppliers of metal conveying and engineered woven metal solutions, primarily used in food processing end markets, as well as in architectural, packaging and filtration applications. The acquisition of Cambridge expanded our presence in consumer-driven end markets in the Process & Motion Control platform. Our results of operations include the acquired operations subsequent to June 1, 2016.

On October 4, 2017, subsequent to the end of the second quarter of fiscal 2018, we acquired World Dryer Corporation ("World Dryer") for a preliminary cash purchase price of approximately \$50.0 million, excluding transaction costs and net of cash acquired. World Dryer is a leading global manufacturer of commercial electric hand dryers with the largest worldwide installed product base. The combination of World Dryer's eco-friendly hand dryers and Zurn's water-efficient plumbing products is expected to bring even greater value to commercial building owners in the form of lower operating costs. Our results of operations will include the acquired operations as part of our Water Management platform subsequent to October 4, 2017.

Restructuring

During fiscal 2018, we continued to execute various restructuring initiatives focused on driving efficiencies, reducing operating costs by modifying our footprint to reflect changes in the markets we serve, the impact of acquisitions on our overall manufacturing capacity, and refining our overall product portfolio. We expect these initiatives to continue, which may result in further workforce reductions, lease termination costs and other facility rationalization costs, including the impairment or accelerated depreciation of assets. At this time, our full repositioning plan is preliminary and related expenses are not yet estimable.

Table of Contents

For the three and six months ended September 30, 2017, restructuring and other similar charges totaled \$5.1 million and \$7.8 million, respectively. For the three and six months ended September 30, 2016, restructuring and other similar charges totaled \$4.4 million and \$10.0 million, respectively. Refer to Note 3, Restructuring and Other Similar Charges for further information.

Product Line Divestiture

During fiscal 2016, we decided to exit the non-strategic Rodney Hunt Fontaine (“RHF”) flow control gate product line. We completed the exit of the RHF product line in fiscal 2017. For purposes of comparison in the following discussion of results of operations, the RHF net sales for the three and six months ended September 30, 2016 was \$5.5 million and \$12.0 million, respectively. Loss from operations for the three and six months ended September 30, 2016 was \$2.6 million and \$7.1 million, respectively. The RHF product line exit did not impact results for the three and six months ended September 30, 2017.

Results of Operations

Second Quarter Ended September 30, 2017 compared with the Second Quarter Ended September 30, 2016:

Net sales

(Dollars in Millions)

	Quarter Ended		Change	% Change	
	September 30, 2017	September 30, 2016			
Process & Motion Control	\$300.4	\$ 286.9	\$ 13.5	4.7	%
Water Management	210.4	204.1	6.3	3.1	%
Consolidated	\$510.8	\$ 491.0	\$ 19.8	4.0	%

Process & Motion Control

Process & Motion Control net sales increased 5% year over year to \$300.4 million in the second quarter of fiscal 2018. Core sales increased 3% year over year, excluding a 2% favorable impact from foreign currency translation. The increase in core sales is the result of favorable demand trends across the majority of our served end markets.

Water Management

Water Management net sales were \$210.4 million in the second quarter of fiscal 2018, an increase of 3% year over year. Core sales increased 5% year over year, excluding a 3% adverse impact associated with last year’s exit of the RHF product line and a 1% favorable impact from foreign currency translation. The year-over-year increase in core sales reflects favorable demand trends in our nonresidential construction and water and wastewater infrastructure markets.

% of net sales	12.9	% 10.7	% 2.2	%	

Process & Motion Control

Process & Motion Control income from operations for the second quarter of fiscal 2018 was \$44.7 million, or 14.9% of net sales. Income from operations as a percentage of net sales increased by 200 basis points year over year, primarily due to the increase in core sales, lower amortization expenses, and benefits resulting from RBS-led

productivity improvements, partially offset by higher incentive compensation accruals and incremental investments in our innovation, market expansion, and footprint repositioning actions.

Table of Contents

Water Management

Water Management income from operations was \$32.5 million for the second quarter of fiscal 2018, or 15.4% of net sales. Income from operations as a percentage of net sales increased by 270 basis points year over year, as benefits from core sales volume growth, favorable project mix, and ongoing cost reduction and productivity initiatives more than offset incremental investments in our innovation and market expansion initiatives.

Corporate

Corporate expenses were \$11.4 million in the second quarter of fiscal 2018 and \$10.6 million in the second quarter of fiscal 2017. The increase in corporate expenses is primarily associated with higher year-over-year compensation-related costs (primarily stock-based compensation) relative to the second quarter of fiscal 2017.

Interest expense, net

Interest expense, net was \$20.2 million in the second quarter of fiscal 2018 compared to \$22.8 million in the second quarter of fiscal 2017. The decrease in interest expense is a result of the impact of lower outstanding borrowings in the second quarter of fiscal 2018 following a \$195.0 million prepayment made on our term loan in the third quarter of fiscal 2017. See Item 1, Note 11 Long-Term Debt for more information.

Other expense, net

Other expense, net for the second quarter of fiscal 2018 consisted of foreign currency transaction losses. Other expense, net for the second quarter of fiscal 2017 consisted of foreign currency transaction losses of \$0.2 million and other miscellaneous expenses of \$0.5 million.

Provision for income taxes

The income tax provision was \$14.8 million in the second quarter of fiscal 2018 compared to an income tax provision of \$4.4 million in the second quarter of fiscal 2017. The effective income tax rate for the second quarter of fiscal 2018 was 33.2% versus 15.2% in the second quarter of fiscal 2017. The effective income tax rate for the second quarter of fiscal 2018 was below the U.S. federal statutory rate of 35% primarily due to the recognition of net tax benefits associated with an accrual for the Domestic Production Activities Deduction (DPAD) and the recognition of certain foreign branch-related losses for U.S. income tax purposes, partially offset by an increase in valuation allowances relating to certain foreign net operating losses. The effective income tax rate for the second quarter of fiscal 2017 was below the U.S. federal statutory rate of 35% primarily due to the recognition of net tax benefits associated with U.S. research and development credits, the recognition of a bad debt deduction for U.S. income tax purposes relating to an insolvent foreign subsidiary and the recognition of certain foreign branch-related losses for U.S. income tax purposes.

On a quarterly basis, we review and analyze our valuation allowances associated with deferred tax assets relating to certain foreign and state net operating loss carryforwards. In conjunction with this analysis, we weigh both positive and negative evidence for purposes of determining the proper balances of such valuation allowances. Future changes to the balances of these valuation allowances, as a result of our continued review and analysis, could result in a material impact to the financial statements for such period of change.

Net income attributable to Rexnord common shareholders

Net income attributable to Rexnord common shareholders for the second quarter of fiscal 2018 was \$24.0 million, compared to net income of \$24.6 million in the second quarter of fiscal 2017, as a result of the factors described above. Diluted net income per share attributable to Rexnord common shareholders was \$0.23 in the second quarter of fiscal 2018, as compared to \$0.24 in the second quarter of fiscal 2017. Diluted net income per share of common stock in the second quarter of fiscal 2018 also reflects the effect of \$5.8 million of dividends paid on shares of cumulative preferred stock.

Table of Contents

Six Months Ended September 30, 2017 Compared with the Six Months Ended September 30, 2016:

Net sales

(Dollars in Millions)

	Six Months Ended				
	September 30, 2017	September 30, 2016	Change	% Change	
Process & Motion Control	\$588.1	\$ 550.6	\$37.5	6.8	%
Water Management	410.4	412.2	(1.8)	(0.4)	%
Consolidated	\$998.5	\$ 962.8	\$35.7	3.7	%

Process & Motion Control

Process & Motion Control net sales were \$588.1 million in the first six months of fiscal 2018, up 7% year over year. Excluding a 2% increase from the acquisition of Cambridge and a 1% favorable impact from foreign currency translation, core net sales increased 4% year over year. The increase in core sales is the result of favorable demand trends across the majority of our served end markets.

Water Management

Water Management net sales were \$410.4 million in the first six months of fiscal 2018 compared to \$412.2 million in the first six months of fiscal 2017. Core net sales, which excludes a 3% adverse impact associated with the exit of the RHF product line and a 1% favorable impact from foreign currency translation, increased 2% during the first six months of fiscal 2018. The year-over-year increase in core sales reflects favorable demand trends in our nonresidential construction and water and wastewater infrastructure markets.

Income (loss) from operations

(Dollars in Millions)

	Six Months Ended				
	September 30, 2017	September 30, 2016	Change	% Change	
Process & Motion Control	\$84.4	\$ 62.7	\$21.7	34.6	%
% of net sales	14.4	% 11.4	% 3.0	%	
Water Management	60.1	48.7	11.4	23.4	%
% of net sales	14.6	% 11.8	% 2.8	%	
Corporate	(23.5)	(20.3)	(3.2)	(15.8)	%
Consolidated	\$121.0	\$ 91.1	\$29.9	32.8	%
% of net sales	12.1	% 9.5	% 2.6	%	

Process & Motion Control

Process & Motion Control income from operations for the first six months of fiscal 2018 was \$84.4 million, or 14.4% of net sales. Income from operations as a percentage of net sales increased by 300 basis points year over year in the first six months of fiscal 2018 primarily as a result of leverage on improved core sales volume, a reduction of amortization expense, and RBS-led productivity improvements.

Water Management

Water Management income from operations was \$60.1 million for the first six months of fiscal 2018, or 14.6% of net sales. Income from operations as a percentage of net sales increased 280 basis points year over year, as benefits from core sales volume growth, favorable project mix, and ongoing cost reduction and productivity initiatives more than offset incremental investments in our innovation and market expansion initiatives.

Corporate

Corporate expenses were \$23.5 million in the first six months of fiscal 2018 and \$20.3 million in the first six months of fiscal 2017. The increase in corporate expenses is primarily associated with higher year-over-year compensation-related costs (primarily stock-based compensation) relative to the first six months of fiscal 2017.

Table of Contents

Interest expense, net

Interest expense, net was \$40.2 million in the first six months of fiscal 2018 compared to \$46.5 million in the first six months of fiscal 2016. The year-over-year decrease in interest expense is primarily a result of lower outstanding borrowings in the first six months of fiscal 2018 following the \$95.0 million voluntary prepayment made on our term loan during the first quarter of fiscal 2017 and the \$195.0 million prepayment made on our term loan in connection with the term loan refinancing completed in the third quarter of fiscal 2017. See Item 1, Note 11 Long-Term Debt for more information.

Other expense, net

Other expense, net for the first six months of fiscal 2018, consisted of foreign currency transaction losses of \$1.6 million, partially offset by other miscellaneous income of \$0.1 million. Other expense, net for the first six months of fiscal 2017, consisted of foreign currency transaction losses of \$1.1 million and other miscellaneous expense of \$1.3 million, partially offset by \$0.2 million gain on the sale of long-lived assets.

Provision (Benefit) for income taxes

The income tax provision recorded in the first six months of fiscal 2018 was \$23.0 million compared to an income tax benefit of \$1.5 million in the first six months of fiscal 2017. The effective income tax rate for the first six months of fiscal 2018 was 29.0% versus (3.6)% in the first six months of fiscal 2017. The effective income tax rate for the first six months of fiscal 2018 was below the U.S. federal statutory rate of 35% primarily due to the recognition net tax benefits associated with the accrual for the DPAD, discussed above, the recognition of excess U.S. foreign tax credits, the recognition of certain foreign branch-related losses for U.S. income tax purposes and the recognition of certain previously unrecognized tax benefits due to the lapse of the applicable statutes of limitations, partially offset by an increase in valuation allowances related to certain foreign net operating losses. The income tax benefit recognized on income before income taxes for the first six months of fiscal 2017 was primarily due to excess tax benefits associated with share-based payments (in conjunction with the early adoption of ASU 2016-09), the recognition of net tax benefits associated with U.S. research and development credits, the recognition of a worthless stock and bad debt deduction for U.S. income tax purposes relating to an insolvent foreign subsidiary and the recognition of excess U.S. foreign tax credits.

Net income attributable to Rexnord common shareholders

Net income attributable to Rexnord common shareholders for the first six months of fiscal 2018 was \$44.7 million, compared to \$43.5 million for the first six months of fiscal 2017, as a result of the factors described above. Diluted income per share attributable to Rexnord common shareholders was \$0.42 in both the first six months of fiscal 2018 and fiscal 2017. Diluted net income per share of common stock in the first six months of fiscal 2018 also reflects the effect of \$11.6 million of dividends paid on shares of cumulative preferred stock.

Non-GAAP Financial Measures

Non-GAAP financial measures are intended to supplement and not replace financial measures prepared in accordance with GAAP.

Core sales

Core sales excludes the impact of acquisitions (such as the Cambridge acquisition), divestitures (such as the RHF product line exit) and foreign currency translation. Management believes that core sales facilitates easier and more meaningful comparisons of our net sales performance with prior and future periods and to our peers. We exclude the effect of acquisitions and divestitures because the nature, size and number of acquisitions and divestitures can vary dramatically from period to period and between us and our peers, and can also obscure underlying business trends and make comparisons of long-term performance difficult. We exclude the effect of foreign currency translation from this measure because the volatility of currency translation is not under management's control.

EBITDA

EBITDA represents earnings before interest, taxes, depreciation and amortization. EBITDA is presented because it is an important supplemental measure of performance and it is frequently used by analysts, investors and other interested parties in the evaluation of companies in our industry. EBITDA is also presented and compared by analysts and investors in evaluating our ability to meet debt service obligations. Other companies in our industry may calculate

EBITDA differently. EBITDA is not a measurement of financial performance under U.S. GAAP and should not be considered as an alternative to cash flow from operating activities or as a measure of liquidity or an alternative to net income as indicators of operating performance or any other measures of performance derived in accordance with U.S. GAAP. Because EBITDA is calculated before recurring cash charges, including interest expense and taxes, and is not adjusted for capital expenditures or other recurring cash requirements of the business, it should not be considered as a measure of discretionary cash available to invest in the growth of the business.

Table of Contents

Adjusted EBITDA

Adjusted EBITDA (as described below in “Covenant Compliance”) is an important measure because, under our credit agreement, our ability to incur certain types of acquisition debt and certain types of subordinated debt, make certain types of acquisitions or asset exchanges, operate our business and make dividends or other distributions, all of which will impact our financial performance, is impacted by our Adjusted EBITDA, as our lenders measure our performance with a net first lien leverage ratio by comparing our senior secured bank indebtedness to our Adjusted EBITDA (see “Covenant Compliance” for additional discussion of this ratio, including a reconciliation to our net income). We reported net income available to Rexnord common shareholders in the six months ended September 30, 2017 of \$44.7 million and Adjusted EBITDA for the same period of \$184.1 million. See “Covenant Compliance” for a reconciliation of Adjusted EBITDA to GAAP net income.

Covenant Compliance

Our credit agreement, which governs our senior secured credit facilities, contains, among other provisions, restrictive covenants regarding indebtedness, payments and distributions, mergers and acquisitions, asset sales, affiliate transactions, capital expenditures and the maintenance of certain financial ratios. Payment of borrowings under the credit agreement may be accelerated if there is an event of default. Events of default include the failure to pay principal and interest when due, a material breach of a representation or warranty, certain non-payments or defaults under other indebtedness, covenant defaults, events of bankruptcy and a change of control. Certain covenants contained in the credit agreement restrict our ability to take certain actions, such as incurring additional debt or making acquisitions, if we are unable to meet certain maximum net first lien leverage ratios of 7.75 to 1.0 and, with respect to our revolving facility, also require us to remain at or below a maximum total net leverage ratio of 6.75 to 1.0 as of the end of each fiscal quarter (it was 3.1 to 1.0 at September 30, 2017). Failure to comply with these covenants could limit our long-term growth prospects by hindering our ability to borrow under the revolver, to obtain future debt and/or to make acquisitions.

“Adjusted EBITDA” is the term we use to describe EBITDA as defined and adjusted in our credit agreement, which is net income, adjusted for the items summarized in the table below. Adjusted EBITDA is intended to show our unleveraged, pre-tax operating results and therefore reflects our financial performance based on operational factors, excluding non-operational, non-cash or non-recurring losses or gains. In view of our debt level, it is also provided to aid investors in understanding our compliance with our debt covenants. Adjusted EBITDA is not a presentation made in accordance with GAAP, and our use of the term Adjusted EBITDA varies from others in our industry. This measure should not be considered as an alternative to net income, income from operations or any other performance measures derived in accordance with GAAP. Adjusted EBITDA has important limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. For example, Adjusted EBITDA does not reflect: (a) our capital expenditures, future requirements for capital expenditures or contractual commitments; (b) changes in, or cash requirements for, our working capital needs; (c) the significant interest expenses, or the cash requirements necessary to service interest or principal payments, on our debt; (d) tax payments that represent a reduction in cash available to us; (e) any cash requirements for the assets being depreciated and amortized that may have to be replaced in the future; or (f) the impact of earnings or charges resulting from matters that we and the lenders under our credit agreement may not consider indicative of our ongoing operations. In particular, our definition of Adjusted EBITDA allows us to add back certain non-cash, non-operating or non-recurring charges that are deducted in calculating net income, even though these are expenses that may recur, vary greatly and are difficult to predict and can represent the effect of long-term strategies as opposed to short-term results.

In addition, certain of these expenses can represent the reduction of cash that could be used for other corporate purposes. Further, although not included in the calculation of Adjusted EBITDA below, the measure may at times allow us to add estimated cost savings and operating synergies related to operational changes ranging from acquisitions or dispositions to restructurings, and/or exclude one-time transition expenditures that we anticipate we will need to incur to realize cost savings before such savings have occurred.

The calculation of Adjusted EBITDA under our credit agreement as of September 30, 2017 is presented in the table below. However, the results of such calculation could differ in the future based on the different types of adjustments that may be included in such respective calculations at the time.

Table of Contents

Set forth below is a reconciliation of net income to Adjusted EBITDA for the periods indicated below.

(in millions)	Six months ended September 30, 2016	Year ended March 31, 2017	Six months ended September 30, 2017	Twelve months ended September 30, 2017
Net income attributable to Rexnord common stockholders	\$ 43.5	\$ 66.8	\$ 44.7	\$ 68.0
Interest expense, net	46.5	88.7	40.2	82.4
Dividends on preferred stock	—	7.3	11.6	18.9
Income tax (benefit) provision	(1.5)	7.9	23.0	32.4
Depreciation and amortization	53.3	105.4	43.6	95.7
EBITDA	\$ 141.8	\$ 276.1	\$ 163.1	\$ 297.4
Adjustments to EBITDA:				
Restructuring and other similar charges (1)	10.0	31.6	7.8	29.4
Stock-based compensation expense	6.0	13.4	10.8	18.2
LIFO (income) expense (2)	(0.1)	(2.3)	0.5	(1.7)
Acquisition-related fair value adjustment	4.3	4.3	—	—
Loss on the extinguishment of debt	—	7.8	—	7.8
Actuarial gain on pension and postretirement benefit obligations	—	(2.6)	—	(2.6)
Loss on RHF product line exit (3) (excluding restructuring and related charges)	4.7	12.2	—	7.5
Other, net (4)	2.6	6.0	1.9	5.3
Subtotal of adjustments to EBITDA	\$ 27.5	\$ 70.4	\$ 21.0	\$ 63.9
Adjusted EBITDA	\$ 169.3	\$ 346.5	\$ 184.1	\$ 361.3
Consolidated indebtedness (5)				\$ 1,128.6
Total net leverage ratio (6)				3.1

Represents restructuring costs comprised of workforce reductions, impairment of related manufacturing facilities, (1) equipment and intangible assets, lease termination costs, and other facility rationalization costs. See Item 1, Note 3 Restructuring and Other Similar Charges for more information.

(2) Last-in first-out (LIFO) inventory adjustments are excluded in calculating Adjusted EBITDA as defined in our credit agreement.

The operating loss (excluding restructuring and related charges included in their respective adjusting lines above)

(3) related to the RHF product line exit is not included in Adjusted EBITDA in accordance with our credit agreement.

The exit of the RHF product line was completed in fiscal 2017.

(4) Other, net for the periods indicated, consists of:

(in millions)	Six months ended September 30, 2016	Year ended March 31, 2017	Six months ended September 30, 2017	Twelve months ended September 30, 2017
Other expense (income)				
(Gain) loss on sale of long-lived assets	\$ 0.2	\$ —	\$ —	\$ (0.2)
Loss on foreign currency transactions	1.1	3.7	1.6	4.2
Other miscellaneous expenses (income)	1.3	1.5	(0.1)	0.1
Total other expense	\$ 2.6	\$ 5.2	\$ 1.5	\$ 4.1
Other non-cash adjustments				
Other non-cash charges (benefits)	—	0.8	0.4	1.2

Total other, net	\$ 2.6	\$ 6.0	\$ 1.9	\$ 5.3
------------------	--------	--------	--------	--------

(5) Our credit agreement defines our consolidated indebtedness as the sum of all indebtedness (other than letters of credit or bank guarantees, to the extent undrawn) consisting of indebtedness for borrowed money and capitalized lease obligations, less unrestricted cash, which was \$487.1 million (as defined by the credit agreement) at September 30, 2017.

(6) Our credit agreement defines the total net leverage ratio as the ratio of consolidated indebtedness (as described above) to Adjusted EBITDA for the trailing four fiscal quarters.

Table of Contents**Liquidity and Capital Resources**

Our primary sources of liquidity are available cash and cash equivalents, cash flow from operations, borrowing availability of up to \$265.0 million under our revolving credit facility, and availability of up to \$100.0 million under our accounts receivable securitization program.

As of September 30, 2017, we had \$531.3 million of cash and cash equivalents and \$345.8 million of additional borrowing capacity (\$255.7 million of available borrowings under our revolving credit facility and \$90.1 million available under our accounts receivable securitization program). As of September 30, 2017, the available borrowings under our credit facility and accounts receivable securitization were reduced by \$19.2 million due to outstanding letters of credit. As of March 31, 2017, we had \$490.1 million of cash and cash equivalents and approximately \$345.8 million of additional borrowing capacity (\$250.4 million of available borrowings under our revolving credit facility and \$95.4 million available under our accounts receivable securitization program). Both our revolving credit facility and accounts receivable securitization program are available to fund our working capital requirements, capital expenditures and for other general corporate purposes.

Cash Flows

Net cash provided by operating activities was \$60.5 million and \$59.0 million in the first six months of fiscal 2018 and 2017, respectively. The increase in cash provided by operating activities is primarily driven by incremental profit generated from higher sales, partially offset by higher trade working capital.

Cash used for investing activities was \$14.1 million in the first six months of fiscal 2018 compared to \$240.7 million in the first six months of fiscal 2017. Investing activities in the first six months of fiscal 2018 included \$15.9 million of capital expenditures, partially offset by the receipt of \$1.8 million in cash for the disposal of long-lived assets.

Investing activities during the first six months of fiscal 2017 included \$213.7 million of net cash associated with the acquisition of Cambridge and \$28.9 million of capital expenditures, partially offset by the receipt of \$1.9 million in cash for the disposal of long-lived assets.

Cash used for financing activities was \$17.0 million in the first six months of fiscal 2018 compared to cash used for financing activities of \$93.8 million in the first six months of fiscal 2017. During the first six months of fiscal 2018, we utilized \$8.2 million for payments on outstanding debt and \$11.6 million for the payment of preferred stock dividends. The first six months of fiscal 2018 also includes \$2.8 million of cash proceeds associated with stock option exercises. During the first six months of fiscal 2017, we utilized \$99.9 million of cash to prepay amounts due on our then-outstanding term loans. The first six months of fiscal 2017 also includes \$6.4 million of cash proceeds associated with stock option exercises.

Indebtedness

As of September 30, 2017 we had \$1,615.7 million of total indebtedness outstanding as follows (in millions):

	Total Debt at September 30, 2017	Short-term Debt and Current Maturities of Long-Term Debt	Long-term Portion
Term loan (1)	\$ 1,577.8	\$ 16.1	\$ 1,561.7
Other subsidiary debt (2)	37.9	0.2	37.7
Total	\$ 1,615.7	\$ 16.3	\$ 1,599.4

(1)Includes an unamortized original issue discount and debt issuance costs of \$16.5 million at September 30, 2017.

(2)Includes unamortized debt issuance costs of \$0.5 million at September 30, 2017.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk during the normal course of business from changes in foreign currency exchange rates and interest rates. The exposure to these risks is managed through a combination of normal operating and financing activities and derivative financial instruments in the form of foreign currency forward contracts, interest rate swaps and interest rate caps to cover certain known foreign currency transactional risks, as well as identified risks due to interest rate fluctuations. There have been no material changes in market risk from the information provided in "Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in our Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

We maintain a set of disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

We carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Based on that evaluation as of September 30, 2017, the Chief Executive Officer and Chief Financial Officer concluded that, as of such date, the Company's disclosure controls and procedures are adequate and effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act and that such information is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, in a manner allowing timely decisions regarding required disclosure. As such, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the period covered by this report.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of the changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

There have been no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See the information under the heading "Commitments and Contingencies" in Note 14 to the condensed consolidated financial statements contained in Part I, Item 1 of this report, which is incorporated in this Part II, Item 1 by reference.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In fiscal 2015, the Company's Board of Directors approved a stock repurchase program (the "Repurchase Program") authorizing the repurchase of up to \$200.0 million of the Company's common stock from time to time on the open market or in privately negotiated transactions. The Repurchase Program does not require the Company to acquire any particular amount of common stock and does not specify the timing of purchases or the prices to be paid; however, the program will continue until the maximum amount of dollars authorized have been expended or until it is modified or terminated by the Board. No shares were repurchased during the second quarter of fiscal 2018. A total of approximately \$160.0 million remained of the existing repurchase authority at September 30, 2017.
