The Company is currently a development stage company and does not current have any operations, and therefore no revenues.

Milestones

Our milestones and objectives over the next 12 months are significantly dependent on various factors which the Company may or may not be in control of, including, but not limited to: (a) obtaining adequate financing to sustain and expand our operations; (b) ability to identify suitable acquisition targets; (c) acquiring synergistic business operations to obtain revenue growth; (d) ability to develop new partnerships and distribution channels; (e) launching new marketing and sales strategies; (h) generating adequate cash flow from the sales of the products and services, once acquired, to sustain its operations.

Our plan of operations for the next twelve months is to complete the objectives described under the heading Management's Discussion and Analysis or Plan of Operations .

Capital & Uses of Proceeds

Capital Needs

To implement our plan of operations, we will need to continue to raise capital in an amount between \$500,000 to \$2.5 million in equity from restricted stock sales or other acceptable financing options over the remaining 6 months of year-ending 2013 on terms and conditions to be determined. Management may also elect to seek subsequent interim or bridge financing in the form of debt as may be necessary.

We anticipate the need to raise additional capital beyond the next 6 months of operations, subject to the successful implementation of our initial milestones over the last 180 days of operations of 2013 and our revenue growth cycle thereafter. At this time, management is unable to determine the specific amounts and terms of such future financings.

Proceeds

We foresee the proceeds from capital raised to be allocated as follows: (a) legal, audit, SEC filings and compliance fees; (b) working capital (general and administrative); (c) financing costs; (d) acquisition research and due diligence; (e) new business development and marketing; and (f) reserve capital for costs of acquisition and market expansion.

Competition

The Company conducts its business in an environment that is highly competitive and unpredictable. Competition may have considerable financial resources at their disposal, which could facilitate their access to the market under more favorable terms than the Company and could allow them faster market penetration.

Due to the Company's current position (seeking acquisition targets), the Company does not currently have any direct competitors at this time, however, this does not necessarily mean competition does not exist in terms of bidding for the same acquisition targets.

Employees

Currently, we have no employees in the Company, except for three (3) advisors which one of them is the sole Officer and Director of the Company. Each of the advisors spends on an average of forty percent (40%) of their available time on Company matters.

Other than engaging and/or retaining independent consultants to assist us in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing to complete one or more acquisitions. Currently, our officers / directors do not have any employment agreements with us.

Subsidiaries

As of December 31, 2012, we do not have any operating subsidiaries.

Intellectual Property

We do not currently own any intellectual property.

Patents, Trademarks, and Copyrights

We do not currently have any filed patents, trademarks or copyrights.

There are no restrictions in our articles of incorporation or bylaws that prevent us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

1.
We would not be able to pay our debts as they become due in the usual course of business; or

2.
Our total assets would be less than the sum of our total liabilities plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those receiving the distribution.

Company Overview

Mount Knowledge Holdings, Inc. is a software development and sales company focused on providing innovative technology solutions to the global marketplace.

For more details on the Company and its operations, please refer to **History** and **Company Overview** sections in Item 1. Business section, hereinabove in this filing.

Plan of Operations

Over the 12-months of 2013, we must raise capital and complete certain milestones as described below.

Milestones

The Company anticipates identifying and completing one or more acquisitions and/or mergers over the next 6-12 months, beginning in the third quarter of 2013, for the purposes of obtaining operations and revenues.

Requirements and Utilization of Funds

To implement our plan of operations, including some or all of the above described milestones (objectives), we anticipate the need to continue to raise capital (equity) in an amount between \$500K and \$2.5 million in equity from restricted stock sales or other acceptable financing options over the remaining 6 months of 2013 on terms and conditions to be determined. Management may elect to seek subsequent interim or bridge financing in the form of debt (corporate loans) as may be necessary.

Proceed

We foresee the proceeds from capital raised to be allocated as follows: (a) legal, audit, SEC filings and compliance fees; (b) working capital (general and administrative); (c) financing costs; (d) acquisition research and due diligence; (e) new business development and marketing; and (f) reserve capital for costs of acquisition and market expansion.

Financial Condition, Liquidity and Capital Resources

As of December 31, 2012, we had \$233 cash and cash equivalents. We had limited operations to date and we did not have any revenues during the twelve-month period ended December 31, 2012. We are illiquid and need cash infusions from investors and/or current shareholders to support our proposed marketing and sales operations.

Management believes this amount will not satisfy our cash requirements for the next 12 months and as such we will need to either raise additional proceeds and/or our officers and/or directors will need to make additional financial commitments to our company, neither of which is guaranteed. We plan to satisfy our future cash requirements, primarily the working capital required to execute on our objectives, including marketing and sales of our product, and to offset legal and accounting fees, through financial commitments from future debt/equity financings, if and when possible.

Management believes that we may generate some revenues within the next twelve (12) months, from acquisitions, but that these sales revenues may not satisfy our cash requirements during that period. We have no committed source for funds as of this date. No representation is made that any funds will be available when needed. In the event that funds cannot be raised when needed, we may not be able to carry out our business plan, may never achieve sales, and could fail to satisfy our future cash requirements as a result of these uncertainties.

If we are unsuccessful in raising the additional proceeds from officers and/or directors, we may then have to seek additional funds through debt financing, which would be extremely difficult for an early stage company to secure and may not be available to us. However, if such financing is available, we would likely have to pay additional costs associated with high-risk loans and be subject to above market interest rates.

At such time as these funds are required, management would evaluate the terms of such debt financing and determine whether the business could sustain operations and growth and manage the debt load. If we cannot raise additional proceeds via a private placement of our common stock or secure debt financing we would be required to cease business operations. As a result, investors in our common stock would lose all of their investment.

The staged development of our business will continue over the next 12 months. Other than engaging and/or retaining independent consultants to assist the Company in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing.

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next 12 months unless we obtain additional capital to pay our expenses. This is because we have not generated any revenues and no substantial revenues are anticipated in the near-term. Accordingly, we must raise cash from sources other than from the sale of our products.

Results of Operations

The following summary of our results of operations should be read in conjunction with our audited financial statements for the year ended December 31, 2012 which are included herein.

Our operating results for the years ended December 31, 2012 and 2011, respectively are summarized as follows:

General and Administrative

The decrease in our general and administrative expenses for the year ended December 31, 2012 compared to December 31, 2011 was primarily due to the disposition of our operating subsidiaries. For the purposes of this disclosure, general and administrative fees include the Company's professional fees.

Professional fees include our accounting and auditing expenses incurred in connection with the preparation and audit of our financial statements and professional fees that we pay to our legal counsel. Our accounting and auditing expenses were incurred in connection with the preparation of our audited financial statements and unaudited interim financial statements and our preparation and filing of a registration statement with the SEC. Our legal expenses represent amounts paid to legal counsel in connection with our corporate organization. Legal expenses will be ongoing during fiscal 2012 and 2013, respectively, as we are subject to the reporting obligations of the Securities Exchange Act of 1934, as amended.

Cash Flows

We anticipate that we will incur approximately \$250,000 for operating expenses, including professional, legal and accounting expenses associated with our reporting requirements under the Exchange Act during the next twelve months. Accordingly, we will need to obtain additional financing in order to complete our business plan.

Cash Used in Operating Activities

We used net cash in operating activities in the amount of \$(380,954) during the year ended December 31, 2012 and \$(1,310,554) during the year ended December 31, 2011. Cash used in operating activities was funded by cash from financing activities. The decrease in operating activities in 2012 compared to 2011 was due to the disposal of all the Company's operating subsidiaries.

Cash Used in Investing Activities

We used net cash in investing activities in the amount of \$(2,100) during the year ended December 31, 2012 and \$(41,574) was used or provided in investing activities during the years ended December 31, 2011.

Cash Provided by Financing Activities

We generated \$322,000 net cash from financing activities during the year ended December 31, 2012 compared to net cash from financing activities in the amount of \$1,217,225 during the year ended December 31, 2011. Cash generated by financing activities during 2012 is attributable mainly to capital stock sales, issued notes, and related party borrowings of \$322,000. The decrease in the net cash from financing activities in 2012 compared to 2011 was due to the disposal of all the Company's operating subsidiaries during 2011 and 2012.

Disclosure of Outstanding Share Data

As of December 31, 2012, we had 190,695,096 shares of common stock issued and outstanding.

Going Concern

The financial statements accompanying this report have been prepared on a going concern basis, which implies that our company will continue to realize its assets and discharge its liabilities and commitments in the normal course of business. Our company has not generated revenues since inception and has never paid any dividends and is unlikely to pay dividends or generate earnings in the immediate or foreseeable future. The continuation of our company as a going concern is dependent upon the continued financial support from our shareholders, the ability of our company to obtain necessary equity financing to achieve our operating objectives, and the attainment of profitable operations.

As of December 31, 2012, we had accumulated losses of \$9,335,888 since inception and a working capital deficit of \$3,368,044. We do not have sufficient working capital to enable us to carry out our stated plan of operation for the next twelve months. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should our company be unable to continue as a going concern.

Due to the uncertainty of our ability to meet our current operating expenses and the capital expenses noted above in their report on the financial statements for the year ended December 31, 2012, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

The continuation of our business is dependent upon us raising additional financial support. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Future Financings

We anticipate continuing to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to our existing stockholders. There is no assurance that we will achieve any additional sales of our equity securities or arrange for debt or other financing to fund our planned activities. There is no assurance that the Company will be able to obtain financing to carry on our legal, accounting and reporting needs.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Application of Critical Accounting Estimates

The financial statements of our company have been prepared in accordance with generally accepted accounting principles in the United States (GAAP). Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates, which have been made using careful judgment.

The financial statements have been prepared within the framework of the significant accounting policies summarized below:

Mineral Property and Exploration Costs

Until abandonment of its mineral property on January 23, 2009, we were an exploration stage mining company and had not realized any revenue from its operations. We were primarily engaged in the acquisition, exploration and development of mining properties. Exploration costs are expensed as incurred regardless of the stage of development or existence of reserves.

Costs of acquisition are capitalized subject to impairment testing, in accordance with ASC Topic 360, *Property, Plant and Equipment - Subsequent Measurement*, (formerly SFAS 144), when facts and circumstances indicate impairment may exist, as defined in Note 3, *Newly Adopted Accounting Policies And Recent Accounting Guidance*.

We regularly performed evaluations of any investment in mineral properties to assess the recoverability and/or the residual value of its investments in these assets. Also, long-lived assets were reviewed for impairment whenever events or circumstances change which indicate the carrying amount of an asset may not be recoverable.

Management periodically reviewed the carrying value of its investments in mineral leases and claims with internal and external mining related professionals. A decision to abandon, reduce or expand a specific project was based upon many factors including general and specific assessments of mineral deposits, anticipated future mineral prices, anticipated future costs of exploring, developing and operating a production mine, the expiration term and ongoing expenses of maintaining mineral properties and the general likelihood that the Company will continue exploration on such project.

The Company did not set a pre-determined holding period for properties with unproven deposits; however, properties which had not demonstrated suitable metal concentrations at the conclusion of each phase of an exploration program were re-evaluated to determine if future exploration was warranted, whether there has been any impairment in value and that their carrying values was appropriate.

If an area of interest is abandoned or it is determined that its carrying value cannot be supported by future production or sale, the related costs are charged against operations in the year of abandonment or determination of value. The amounts recorded as mineral leases and claims represent costs to date and do not necessarily reflect present or future values.

Recent Accounting Pronouncements

We do not expect the adoption of any recently issued accounting pronouncements to have a significant impact on our financial position, results of operations or cash flows.

CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2012 AND 2011

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders

Mount Knowledge Holdings, Inc. (A Development Stage Company)

We have audited the accompanying consolidated balance sheets of Mount Knowledge Holdings, Inc. (the Company) as of December 31, 2012 and 2011, and the related consolidated statements of operations and other comprehensive loss, stockholder's deficit and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. Our audits also include examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as, evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mount Knowledge Holdings, Inc. as of December 31, 2012 and 2011, and the results of its operations and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company had an accumulated deficit of \$9,335,888 as of December 31, 2012. These considerations raise substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding those matters are also described in Note 2 which contemplates continued operations of the Company, which in turn is dependent upon the Company's ability to raise additional capital, obtain

financing and to succeed in its future operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.
