## SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS

This Quarterly Report on Form 10-Q ("Report") contains certain forward looking statements that are subject to various risks and uncertainties. Forward looking statements are generally identifiable by use of forward looking terminology such as "may," "will," "should," "potential," "intend," "expect," "seek," "anticipate," "estimate," "approximately," "believe," "predict," "continue," "plan" or other similar words or expressions.

Forward looking statements are based on certain assumptions, discuss future expectations, describe future plans and strategies, contain financial and operating projections or state other forward looking information. Examples of forward looking statements include the following:

- projections of our revenues, income, earnings per share, capital structure or other financial items;
- descriptions of our plans or objectives for future operations, products or services;
- forecasts of our future economic performance, interest rates, profit margins and our share of future markets; and
- descriptions of assumptions underlying or relating to any of the foregoing expectations regarding the timing of generating any revenues.

Our ability to predict results or the actual effect of future events, actions, plans or strategies is inherently uncertain. Although we believe that the expectations reflected in such forward looking statements are based on reasonable assumptions, our actual results and performance could differ materially from those set forth in the forward looking statements. There are a number of factors, many of which are beyond our control that could cause actual results to differ significantly from management's expectations. Some of these factors are discussed below.

You should not place undue reliance on any forward looking statement and should consider the following uncertainties and risks, as well as the risks and uncertainties discussed elsewhere in this Report and the section entitled "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on March 10, 2016.

Factors that could cause actual results to differ materially from historical results or those anticipated include, but are not limited to:

- the continually changing federal, state and local laws and regulations applicable to the highly regulated industry in which we operate;
- lawsuits or governmental actions if we do not comply with the laws and regulations applicable to our businesses;
- the mortgage lending and servicing-related regulations promulgated by the Consumer Financial Protection Bureau ("CFPB") and its enforcement of these regulations;
- our dependence on U.S. government sponsored entities and changes in their current roles or their guarantees or guidelines;
- changes to government mortgage modification programs;

- the licensing and operational requirements of states and other jurisdictions applicable to our businesses, to which our bank competitors are not subject;
- foreclosure delays and changes in foreclosure practices;
- certain banking regulations that may limit our business activities;
- our dependence on the multi-family and commercial real estate sectors for future originations and investments in commercial mortgage loans and other commercial real estate related loans;
- changes in macroeconomic and U.S. real estate market conditions;
- difficulties inherent in growing loan production volume;
- difficulties inherent in adjusting the size of our operations to reflect changes in business levels;
- purchase opportunities for mortgage servicing rights ("MSRs") and our success in winning bids;
- changes in prevailing interest rates;

Table of Contents

- increases in loan delinquencies and defaults;
- our reliance on PennyMac Mortgage Investment Trust ("PMT") as a significant source of financing for, and revenue related to, our mortgage banking business;
- any required additional capital and liquidity to support business growth that may not be available on acceptable terms, if at all;
- our obligation to indemnify third party purchasers or repurchase loans if loans that we originate, acquire, service or assist in the fulfillment of, fail to meet certain criteria or characteristics or under other circumstances;
- our obligation to indemnify PMT and certain investment funds if our services fail to meet certain criteria or characteristics or under other circumstances;
- decreases in the historical returns on the assets that we select and manage for our clients, and our resulting management and incentive fees;
- the extensive amount of regulation applicable to our investment management segment;
- conflicts of interest in allocating our services and investment opportunities among ourselves and certain advised entities;
- the effect of public opinion on our reputation;
- our recent growth;
- our ability to effectively identify, manage, monitor and mitigate financial risks;
- our initiation of new business activities or expansion of existing business activities;
- our ability to detect misconduct and fraud; and
- our ability to mitigate cybersecurity risks and cyber incidents.

Other factors that could also cause results to differ from our expectations may not be described in this Report or any other document. Each of these factors could by itself, or together with one or more other factors, adversely affect our business, results of operations and/or financial condition.

Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update any forward-looking statement to reflect the impact of circumstances or events that arise after the date the forward-looking statement was made.

PENNYMAC FINANCIAL SERVICES, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1—Organization and Basis of Presentation

PennyMac Financial Services, Inc. ("PFSI" or the "Company") was formed as a Delaware corporation on December 31, 2012. Pursuant to a reorganization, the Company became a holding corporation and its primary asset is an equity interest in Private National Mortgage Acceptance Company, LLC ("PennyMac"). The Company is the managing member of PennyMac and operates and controls all of the businesses and affairs of PennyMac subject to the consent rights of other members under certain circumstances, and consolidates the financial results of PennyMac and its subsidiaries.

PennyMac is a Delaware limited liability company which, through its subsidiaries, engages in mortgage banking and investment management activities. PennyMac's mortgage banking activities consist of residential mortgage loan production (including correspondent production and consumer direct lending) and mortgage loan servicing. PennyMac's investment management activities and a portion of its mortgage loan servicing activities are conducted on behalf of investment vehicles that invest in residential mortgage loans and related assets. PennyMac's primary wholly owned subsidiaries are:

- PNMAC Capital Management, LLC ("PCM")—a Delaware limited liability company registered with the Securities and Exchange Commission ("SEC") as an investment adviser under the Investment Advisers Act of 1940, as amended. PCM enters into investment management agreements with entities that invest in residential mortgage loans and related assets.

Presently, PCM has management agreements with PennyMac Mortgage Investment Trust ("PMT"), a publicly held real estate investment trust ("REIT"), PNMAC Mortgage Opportunity Fund, LLC and PNMAC Mortgage Opportunity Fund, L.P., (the "Master Fund"), both registered under the Investment Company Act of 1940, as amended, an affiliate of these registered funds and PNMAC Mortgage Opportunity Fund Investors, LLC (collectively, the "Investment Funds"). Together, the Investment Funds and PMT are referred to as the "Advised Entities."

- PennyMac Loan Services, LLC ("PLS")—a Delaware limited liability company that services residential mortgage loans on behalf of non-affiliates and the Advised Entities, purchases and originates new prime credit quality residential mortgage loans, and engages in other mortgage banking activities for its own account and the account of PMT.

PLS is approved as a seller/servicer of mortgage loans by the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac") and as an issuer of securities guaranteed by the

Government National Mortgage Association (“Ginnie Mae”). PLS is a licensed Federal Housing Administration Nonsupervised Title II Lender with the U.S. Department of Housing and Urban Development (“HUD”) and a lender/servicer with the Veterans Administration (“VA”) and U.S. Department of Agriculture (“USDA”) (each an “Agency” and collectively the “Agencies”).

· PNMAC Opportunity Fund Associates, LLC (“PMOFA”)—a Delaware limited liability company and the general partner of the Master Fund. PMOFA is entitled to incentive fees representing allocations of profits (“Carried Interest”) from the Master Fund.

The accompanying consolidated financial statements have been prepared in compliance with accounting principles generally accepted in the United States (“GAAP”) as codified in the Financial Accounting Standards Board’s (“FASB”) Accounting Standards Codification (“ASC”) for interim financial information and with the SEC’s instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, these financial statements and notes do not include all of the information required by GAAP for complete financial statements. The interim consolidated information should be read together with the Company’s Annual Report on Form 10-K for the year ended December 31, 2015.

The accompanying unaudited consolidated financial statements reflect all normal recurring adjustments necessary to present fairly the financial position, income, and cash flows for the interim periods, but are not necessarily

indicative of the results of operations to be anticipated for the full year ending December 31, 2016. Intercompany accounts and transactions have been eliminated.

Preparation of financial statements in compliance with GAAP requires management to make estimates and judgments that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reporting period. Actual results will likely differ from those estimates.

Note 2—Concentration of Risk

A substantial portion of the Company's activities relate to the Advised Entities. Fees charged to these entities (generally comprised of fulfillment fees, mortgage loan servicing fees, management fees and Carried Interest) totaled 30% and 26% of total net revenue for the quarters ended March 31, 2016 and 2015, respectively.

Exchanged Private National Mortgage Acceptance Company, LLC Unitholders

The Company entered into a tax receivable agreement with PennyMac's existing unitholders on the date of the IPO that will provide for the payment by PFSI to PennyMac's exchanged unitholders an amount equal to 85% of the amount of the benefits, if any, that PFSI is deemed to realize as a result of (i) increases in tax basis of PennyMac's assets resulting from such unitholders' exchanges and (ii) certain other tax benefits related to entering into the tax receivable agreement, including tax benefits attributable to payments under the tax receivable agreement. Based on the PennyMac unitholder exchanges to date, the Company has recorded a $74.3 million Payable to exchanged Private National Mortgage Acceptance Company, LLC unitholders under tax receivable agreement as of March 31, 2016 and December 31, 2015. The Company made payments under the tax receivable agreement totaling $4.3 million during the quarter ended March 31, 2015. There were no payments made during the period ended March 31, 2016.

Note 4—Earnings Per Share of Common Stock

Basic earnings per share of common stock is determined using net income attributable to the Company's common stockholders divided by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share of common stock is determined by dividing diluted net income attributable to the Company's common stockholders by the weighted average number of shares of common stock outstanding, assuming

all potentially dilutive shares of common stock were issued.

The Company applies the treasury stock method to determine the dilutive weighted average shares of common stock represented by the non-vested unit and stock-based compensation awards. The diluted earnings per share calculation assumes the exchange of these PennyMac Class A units for shares of common stock. Accordingly, earnings attributable to the Company's common stockholders is also adjusted to include the earnings allocated to the PennyMac Class A units after taking into account the income taxes that would be applicable to the shares of common stock assumed to be exchanged.

Table of Contents

The following table summarizes the basic and diluted earnings per share calculations:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |
| | (in thousands, except per share amounts) | |
| Basic earnings per share of common stock: | | |
| Net income attributable to PennyMac Financial Services, Inc. common stockholders | $ 5,175 | $ 9,028 |
| Weighted average shares of common stock outstanding | 22,006 | 21,593 |
| Basic earnings per share of common stock | $ 0.24 | $ 0.42 |
| | | |
| Diluted earnings per share of common stock: | | |
| Net income attributable to PennyMac Financial Services, Inc. common stockholders | $ 5,175 | $ 9,028 |
| Effect of net income attributable to PennyMac Class A units exchangeable to common stock, net of income taxes | 12,671 | 22,762 |
| Diluted net income attributable to common stockholders | $ 17,846 | $ 31,790 |
| Weighted average shares of common stock outstanding | 22,006 | 21,593 |
| Dilutive shares: | | |
| PennyMac Class A units exchangeable to common stock | 54,043 | 53,562 |
| Non-vested PennyMac Class A units issuable under unit-based stock compensation plan and exchangeable to common stock | — | 779 |
| Common shares issuable under stock-based compensation plan | 145 | 116 |
| Diluted weighted average shares of common stock outstanding | 76,194 | 76,050 |
| Diluted earnings per share of common stock | $ 0.23 | $ 0.42 |

The following table summarizes the anti-dilutive weighted-average number of outstanding stock options and performance-based restricted stock units (“RSUs”):

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |
| | (in thousands) | |
| Stock options (1) | 2,106 | 1,397 |
| Performance-based RSUs (2) | 2,567 | 1,870 |
| Total potentially dilutive common stock equivalents | 4,673 | 3,267 |

(1) During the quarters ended March 31, 2016 and 2015, certain stock options were outstanding but not included in the computation of diluted earnings per share because the weighted-average exercise prices of $15.80 and $18.39 per share respectively, were anti-dilutive.

(2) During the quarters ended March 31, 2016 and 2015, certain performance-based RSUs were outstanding but not included in the computation of earnings per share because the performance thresholds had not been achieved.

Note 5—Loan Sales and Servicing Activities

The Company originates or purchases and sells mortgage loans in the secondary mortgage market without recourse for credit losses. However, the Company maintains continuing involvement with the mortgage loans sold in the form of servicing arrangements and the liability under representations and warranties it makes to purchasers and insurers of the mortgage loans sold.

Table of Contents

The following table summarizes cash flows between the Company and transferees as a result of the sale of mortgage loans in transactions where the Company maintains continuing involvement with the mortgage loans:

Note 6—Netting of Financial Instruments

The Company uses derivative financial instruments to manage exposure to interest rate risk for the interest rate lock commitments ("IRLCs") it makes to purchase or originate mortgage loans at specified interest rates, its inventory of mortgage loans held for sale and MSRs. The Company has elected to present net derivative asset and liability positions, and cash collateral obtained from (or posted to) its counterparties when subject to a master netting arrangement that is legally enforceable on all counterparties in the event of default. The derivatives that are not subject to a master netting arrangement are IRLCs.

Derivative Liabilities, Financial Liabilities, and Collateral Held by Counterparty

The following table summarizes by significant counterparty the amount of derivative liabilities and assets sold under agreements to repurchase after considering master netting arrangements and financial instruments or cash pledged that do not qualify under the accounting guidance for netting. All assets sold under agreements to repurchase are secured by sufficient collateral or have fair value that exceeds the liability amount recorded on the consolidated balance sheets.

Note 7—Fair Value

The Company's consolidated financial statements include assets and liabilities that are measured based on their fair values. The application of fair value may be on a recurring or nonrecurring basis depending on the accounting principles applicable to the specific asset or liability and whether management has elected to carry the item at its fair value as discussed in the following paragraphs.

The Company groups its assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the observability of the inputs used to determine fair value. These levels are:

· Level 1—Quoted prices in active markets for identical assets or liabilities.

· Level 2—Prices determined or determinable using other significant observable inputs. Observable inputs are inputs that other market participants would use in pricing an asset or liability and are developed based on market data obtained from sources independent of the Company. These may include quoted prices for similar assets and liabilities, interest rates, prepayment speeds, credit risk and other inputs.

· Level 3—Prices determined using significant unobservable inputs. In situations where observable inputs are unavailable (for example, when there is little or no market activity for an asset or liability at the end of the period), unobservable inputs may be used. Unobservable inputs reflect the Company's own judgments about the factors that market participants use in pricing an asset or liability, and are based on the best information available in the circumstances.

As a result of the difficulty in observing certain significant valuation inputs affecting "Level 3" fair value financial statement items, the Company is required to make judgments regarding these items' fair values. Different persons in possession of the same facts may reasonably arrive at different conclusions as to the inputs to be applied in valuing these financial statement items and their fair values. Likewise, due to the

Table of Contents

general illiquidity of some of these financial statement items, subsequent transactions may be at values significantly different from those reported.

Fair Value Accounting Elections

Management identified all of its non-cash financial assets, its originated MSRs relating to loans with initial interest rates of more than 4.5% and purchased MSRs subject to excess servicing spread financing ("ESS") to be accounted for at fair value so changes in fair value will be reflected in income as they occur and more timely reflect the results of the Company's performance. Management has also elected to account for its ESS financing at fair value as a means of hedging the related MSRs' fair value risk.

The Company's subsequent accounting for MSRs and mortgage servicing liabilities ("MSLs") are based on the class of MSRs or MSLs. Originated MSRs backed by mortgage loans with initial interest rates of less than or equal to 4.5% are accounted for using the amortization method. Originated MSRs relating to mortgage loans with initial interest rates of more than 4.5% and purchased MSRs financed in part by ESS and MSLs are accounted for at fair value with changes in fair value recorded in current period income.

The information used in the preceding roll forwards represents activity for any financial statement items identified as using “Level 3” significant fair value inputs at either the beginning or the end of the periods presented. The Company had transfers among the fair value levels arising from transfers of IRLCs to mortgage loans held for sale at fair value upon purchase or funding of the respective mortgage loans and from the return to salability in the active secondary market of certain mortgage loans held for sale. Such mortgage loans become saleable into the active secondary market due to curing of the loans’ defects through borrower reperformance, modification of the loan or resolution of deficiencies contained in the borrowers’ credit file.

Fair Value of Financial Instruments Carried at Amortized Cost

The Company’s Cash as well as its Carried Interest due from Investment Funds, Assets sold under agreements to repurchase, Mortgage loan participation and sale agreements, Notes payable, Obligations under capital lease, Note receivable from PMT and amounts receivable from and payable to the Advised Entities are carried at amortized cost.

Cash is measured using a “Level 1” fair value input.

The Company has concluded that the carrying value of the Carried Interest due from Investment Funds approximates its fair value as the balance represents the amount distributable to the Company at the balance sheet date assuming liquidation of the Investment Funds.

The Company’s borrowings carried at amortized cost do not have observable inputs and the fair value is measured using management’s estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation. The Company has classified these financial instruments as “Level 3” fair value financial statement items as of March 31, 2016 and December 31, 2015 due to the lack of observable inputs to estimate their fair values.

The Company has concluded that the fair value of the receivables from and payables to the Advised Entities and the Note receivable from PMT approximates the carrying value due to their short terms and/or variable interest rates.

Valuation Techniques and Inputs

Most of the Company’s financial assets, a portion of its MSRs and its MSLs and ESS liabilities are carried at fair value with changes in fair value recognized in current period income. Certain of the Company’s financial assets and all of its MSRs, ESS and MSLs are “Level 3” fair value financial statement items which require the use of unobservable inputs that are significant to the estimation of the items’ fair values. Unobservable inputs reflect the Company’s own judgments about the factors that market participants use in pricing an asset or liability, and are based on the best information available under the circumstances.

Due to the difficulty in estimating the fair values of “Level 3” fair value financial statement items, management has assigned the responsibility for estimating the fair value of these items to specialized staff and subjects the valuation

Table of Contents

process to significant senior management oversight. The Company's Financial Analysis and Valuation group (the "FAV group") is responsible for estimating the fair values of "Level 3" fair value financial statement items other than IRLCs and maintaining its valuation policies and procedures.

With respect to the non-IRLC "Level 3" valuations, the FAV group reports to the Company's senior management valuation committee, which oversees and approves the valuations. The FAV group monitors the models used for valuation of the Company's "Level 3" fair value financial statement items, including the models' performance versus actual results, and reports those results to the Company's senior management valuation committee. The Company's senior management valuation committee includes PFSI's chief executive, financial, operating, risk and asset/liability management officers.

The FAV group is responsible for reporting to the Company's senior management valuation committee on a monthly basis on the changes in the valuation of the "Level 3" fair value financial statement items, including major factors affecting the valuation and any changes in model methods and inputs. To assess the reasonableness of its valuations, the FAV group presents an analysis of the effect on the valuation of changes to the significant inputs to the models.

With respect to IRLCs, the Company has assigned responsibility for developing fair values to its Capital Markets Risk Management staff. The fair values developed by the Capital Markets Risk Management staff are reviewed by the Company's Capital Markets Operations group.

Following is a description of the techniques and inputs used in estimating the fair values of "Level 2" and "Level 3" fair value financial statement items:

Mortgage Loans Held for Sale

Most of the Company's mortgage loans held for sale at fair value are saleable into active markets and are therefore categorized as "Level 2" fair value financial statement items and their fair values are determined using their quoted market or contracted selling price or market price equivalent.

Certain of the Company's mortgage loans may become non-saleable into active markets due to identification of a defect by the Company or to the repurchase by the Company of a mortgage loan with an identified defect. The Company may also purchase certain delinquent government guaranteed or insured mortgage loans from Ginnie Mae guaranteed pools in its mortgage loan servicing portfolio. The Company's right to purchase such mortgage loans arises as the result of the borrower's failure to make payments for at least three consecutive months preceding the month of repurchase by the Company and provides an alternative to the Company's obligation to continue advancing principal

and interest at the coupon rate of the related Ginnie Mae security. To the extent such mortgage loans have not become saleable into another Ginnie Mae guaranteed security by becoming current either through the borrower's reperformance or through completion of a modification of the mortgage loan's terms, the Company measures such mortgage loans along with mortgage loans with identified defects using "Level 3" fair value inputs.

The significant unobservable inputs used in the fair value measurement of the Company's "Level 3" fair value mortgage loans held for sale at fair value are discount rates, home price projections, voluntary prepayment speeds and total prepayment speeds. Significant changes in any of those inputs in isolation could result in a significant change to the mortgage loans' fair value measurement. Increases in home price projections are generally accompanied by an increase in voluntary prepayment speeds.

Table of Contents

Following is a quantitative summary of key "Level 3" fair value inputs used in the valuation of mortgage loans held for sale at fair value:

| Key inputs | March 31, 2016 | December 31, 2015 |
|---|---|---|
| Discount rate | | |
| Range | 2.5% – 8.3% | 2.5% – 9.1% |
| Weighted average | 3.1% | 2.8% |
| Twelve-month projected housing price index change | | |
| Range | 2.1% – 5.1% | 1.8% – 5.0% |
| Weighted average | 3.8% | 3.7% |
| Voluntary prepayment / resale speed (1) | | |
| Range | 0.6% – 18.6% | 0.6% – 20.1% |
| Weighted average | 14.8% | 16.6% |
| Total prepayment speed (2) | | |
| Range | 0.8% – 37.3% | 0.7% – 37.6% |
| Weighted average | 29.1% | 30.9% |

(1)Voluntary prepayment speed is measured using Life Voluntary Conditional Prepayment Rate ("CPR").

(2)Total prepayment speed is measured using Life Total CPR.

Changes in fair value attributable to changes in instrument specific credit risk are measured by reference to the change in the respective mortgage loan's delinquency status at period end from the later of the beginning of the period or acquisition date. Changes in fair value of mortgage loans held for sale are included in Net gains on mortgage loans held for sale at fair value in the Company's consolidated statements of income.

Derivative Financial Instruments

Interest Rate Lock Commitments

The Company categorizes IRLCs as a "Level 3" fair value financial statement item. The Company estimates the fair value of an IRLC based on quoted Agency MBS prices, its estimate of the fair value of the MSRs it expects to receive in the sale of the mortgage loans and the probability that the mortgage loan will fund or be purchased (the "pull-through rate").

The significant unobservable inputs used in the fair value measurement of the Company's IRLCs are the pull-through rate and the MSR component of the Company's estimate of the fair value of the mortgage loans it has committed to purchase. Significant changes in the pull-through rate or the MSR component of the IRLCs, in isolation, could result in significant changes in fair value measurement. The financial effects of changes in these inputs are generally inversely correlated as increasing interest rates have a positive effect on the fair value of the MSR component of IRLC fair value, but increase the pull-through rate for the IRLC, the principal and interest payment components of which have decreased in fair value. Changes in fair value of IRLCs are included in Net gains on mortgage loans held for sale at fair value in the Consolidated statements of income.

| Range | 0.2% – 2.9% | 0.2% – 3.8% |
| Weighted average | 1.3% | 1.5% |

Hedging Derivatives

The remaining derivative financial instruments held or issued by the Company are categorized as "Level 1" or "Level 2" fair value financial statement items. The Company estimates the fair value of commitments to sell and purchase mortgage loans based on observable MBS prices. The Company estimates the fair value of MBS options based on observed interest rate volatilities in the MBS market. Changes in fair value of hedging derivatives are included in Net gains on mortgage loans held for sale at fair value in the consolidated statements of income.

Mortgage Servicing Rights

MSRs are categorized as "Level 3" fair value financial statement items. The Company uses a discounted cash flow approach to estimate the fair value of MSRs. This approach consists of projecting net servicing cash flows discounted at a rate that management believes market participants would use in their determinations of fair value. The key inputs used in the estimation of the fair value of MSRs include the prepayment rates of the underlying mortgage loans, the applicable discount rate or pricing spread, and the per-loan annual cost to service the respective mortgage loans. Changes in the fair value of MSRs are included in Net servicing fees—Amortization, impairment and change in fair value of mortgage servicing rights in the consolidated statements of income.

(1) Pricing spread represents a margin that is applied to a reference interest rate's forward rate curve to develop periodic discount rates. The Company applies a pricing spread to the United States Dollar London Interbank Offered Rate ("LIBOR") curve for purposes of discounting cash flows relating to MSRs.

(2) Prepayment speed is measured using Life Total CPR.

(1) The Company applies a pricing spread to the United States Dollar LIBOR curve for purposes of discounting cash flows relating to MSRs.

(2) For MSRs carried at fair value, an adverse change in one of the above-mentioned key inputs is expected to result in a reduction in fair value which will be recognized in income. For MSRs carried at lower of amortized cost or fair value, an adverse change in one of the above-mentioned key inputs may result in recognition of MSR impairment. The extent of the recognized MSR impairment will depend on the relationship of fair value to the

carrying value of such MSRs.

(3) Prepayment speed is measured using Life Total CPR.

The preceding sensitivity analyses are limited in that they were performed at a particular point in time; only contemplate the movements in the indicated inputs; do not incorporate changes to other inputs; are subject to the accuracy of various models and inputs used; and do not incorporate other factors that would affect the Company's overall financial performance in such scenarios, including operational adjustments made by management to account for changing circumstances. For these reasons, the preceding estimates should not be viewed as earnings forecasts.

Excess Servicing Spread Financing at Fair Value

The Company categorizes ESS as a "Level 3" fair value financial statement item. The Company uses a discounted cash flow approach to estimate the fair value of ESS. The key inputs used in the estimation of ESS fair value include pricing spread and prepayment speed. Significant changes to either of those inputs in isolation could result in a significant change in the fair value of ESS. Changes in these key inputs are not necessarily directly related.

ESS is generally subject to fair value increases when mortgage interest rates increase. Increasing mortgage interest rates normally slow mortgage refinancing activity. Decreased refinancing activity increases the life of the mortgage loans underlying the ESS, thereby increasing ESS' fair value, which is owed to PMT. Increases in the fair value of ESS decrease income and are included in Net mortgage loan servicing fees.

Interest expense for ESS is accrued using the interest method based upon the expected cash flows from the ESS through the expected life of the underlying mortgage loans. Other changes in fair value are recorded in Amortization, impairment and change in fair value of mortgage servicing rights.

Following are the key inputs used in estimating the fair value of ESS:

| | March 31, 2016 | December 31, 2015 |
|---|---|---|
| Carrying value (in thousands) | $321,976 | $412,425 |
| ESS and pool characteristics: | | |
| Unpaid principal balance of underlying mortgage loans (in thousands) | $38,076,993 | $51,966,405 |
| Average servicing fee rate (in basis points) | 34 | 32 |
| Average excess servicing spread (in basis points) | 19 | 17 |
| Key inputs: | | |
| Pricing spread (1) | | |

Note 11—Carried Interest Due from Investment Funds

The activity in the Company's Carried Interest due from Investment Funds is summarized as follows:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |
| | (in thousands) | |
| Balance at beginning of period | $ 69,926 | $ 67,298 |
| Carried Interest recognized during the period | 593 | 1,233 |
| Proceeds received during the period | — | — |
| Balance at end of period | $ 70,519 | $ 68,531 |

The amount of the Carried Interest that will be received by the Company depends on the Investment Funds' future performance. As a result, the amount of Carried Interest recorded by the Company is based on the cash flows that would be produced assuming termination of the Investment Funds at period end and may be reduced in future periods based on the performance of the Investment Funds in those periods. However, the Company is not required to pay guaranteed returns to the Investment Funds and the amount of any reduction to Carried Interest will be limited to the amounts previously recognized.

Management expects the Carried Interest to be collected by the Company when the Investment Funds liquidate. The Investment Fund limited liability company and limited partnership agreements specify that the funds will continue in existence through December 31, 2016, subject to three one-year extensions by PCM at its discretion.

Note 12—Borrowings

The borrowing facilities described throughout this Note 12 contain various covenants, including financial covenants governing the Company's net worth, debt-to-equity ratio, profitability and liquidity. Management believes that the Company was in compliance with these covenants as of March 31, 2016.

Assets Sold Under Agreement to Repurchase

The Company has multiple borrowing facilities in the form of asset sales under agreements to repurchase. These borrowing facilities are secured by mortgage loans held for sale at fair value or MSRs. Eligible mortgage loans and participation certificates secured by MSRs and advances are sold at advance rates based on the collateral sold. Interest is charged at a rate based on the buyer's overnight cost of funds rate for two agreements and on LIBOR for the other four agreements. Loans and MSRs financed under these agreements may be re-pledged by the lenders.

Financial data pertaining to assets sold under agreements to repurchase are as follows:

| Weighted average interest rate | 2.42% | 2.50% |
| Margin deposits placed with counterparties (3) | $ 2,500 | $ 1,500 |

(1) Excludes the effect of amortization of commitment fees totaling $1.8 million and $1.0 million for the quarters ended March 31, 2016 and 2015, respectively.

(2) The amount the Company is able to borrow under asset repurchase agreements is tied to the fair value of unencumbered assets eligible to secure those agreements and the Company's ability to fund the agreements' margin requirements relating to the assets sold.

(3) Margin deposits are included in Other assets on the Company's consolidated balance sheet.

Following is a summary of maturities of outstanding advances under repurchase agreements by maturity date:

| Remaining maturity at March 31, 2016 | Balance (in thousands) |
|---|---|
| Within 30 days | $ 12,696 |

Table of Contents

The amount at risk (the fair value of the assets pledged plus the related margin deposit, less the amount advanced by the counterparty and interest payable) relating to the Company's mortgage loans held for sale sold under agreements to repurchase is summarized by counterparty below as of March 31, 2016:

| Counterparty | Amount at risk (in thousands) | Weighted average maturity of advances under repurchase agreement | Facility maturity |
|---|---|---|---|
| Credit Suisse First Boston Mortgage Capital LLC | $ 789,737 | June 9, 2016 | September 27, 2016 |
| Credit Suisse First Boston Mortgage Capital LLC | $ 44,877 | June 9, 2016 | March 30, 2017 |
| Bank of America, N.A. | $ 52,118 | June 20, 2016 | March 29, 2017 |
| Morgan Stanley Bank, N.A. | $ 14,128 | May 21, 2016 | July 26, 2016 |
| Citibank, N.A. | $ 11,191 | May 14, 2016 | October 20, 2016 |

The Company is subject to margin calls during the period the agreements are outstanding and therefore may be required to repay a portion of the borrowings before the respective agreements mature if the fair value (as determined by the applicable lender) of the assets securing those agreements decreases.

Mortgage Loan Participation and Sale Agreement

One of the borrowing facilities secured by mortgage loans held for sale is in the form of a mortgage loan participation and sale agreement. Participation certificates, each of which represents an undivided beneficial ownership interest in mortgage loans that have been pooled with Fannie Mae, Freddie Mac or Ginnie Mae, are sold to the lender pending the securitization of the mortgage loans and sale of the resulting securities. A commitment to sell the securities resulting from the pending securitization between the Company and a non-affiliate is also assigned to the lender at the time a participation certificate is sold.

The purchase price paid by the lender for each participation certificate is based on the trade price of the security, plus an amount of interest expected to accrue on the security to its anticipated delivery date, minus a present value adjustment, any related hedging costs and a holdback amount that is based on a percentage of the purchase price and is not required to be paid to the Company until the settlement of the security and its delivery to the lender.

The mortgage loan participation and sale agreement is summarized below:

Notes Payable

The Company entered into a revolving credit agreement classified as a note payable, dated as of December 30, 2015, pursuant to which the lenders have agreed to make revolving loans in an amount not to exceed $100,000,000. As of March 31, 2016, $50.0 million was outstanding related to this note payable. Interest on the note payable accrues at an annual rate of interest equal to, at the election of the Company, either an alternate base rate or LIBOR plus the applicable contract margin. The maturity date of the note payable is 364 days following the date of the revolving credit agreement. The proceeds of the loans are to be used solely for working capital and general corporate purposes of the Company and its subsidiaries.

As of March 31, 2016, a second note payable, with a balance of $78.8 million of principal outstanding, is secured by MSRs relating to certain mortgage loans in the Company's servicing portfolio. Interest is charged at a rate based on LIBOR plus the applicable contract margin.

Excess Servicing Spread Financing

In conjunction with the Company’s purchase from non-affiliates of certain MSRs relating to pools of Agency-backed residential mortgage loans, the Company has entered into sale and assignment agreements with PMT which are treated as financings and are carried at fair value with changes in fair value recognized in current period income. Under these agreements, the Company sold to PMT the right to receive ESS cash flows relating to certain MSRs. The Company retained a fixed base servicing fee and all ancillary income associated with servicing the mortgage loans. The Company continues to be the servicer of the mortgage loans and provides all servicing functions, including the responsibility to make servicing advances.

Following is a summary of ESS:

Note 14—Income Taxes

The Company's effective tax rates for the quarters ended March 31, 2016 and 2015 were 11.9% and 11.5%, respectively. The difference between the Company's effective tax rate and the statutory rate is primarily due to the allocation of earnings to the noncontrolling interest unitholders. As the noncontrolling interest unitholders convert their ownership units into the Company's shares, the portion of the Company's income that will be subject to corporate federal and state statutory tax rates will increase, which will in turn increase the Company's effective income tax rate.

Note 15—Noncontrolling Interest

During the quarter ended March 31, 2016, PennyMac unitholders exchanged 3,220 Class A units for the Company's Class A common stock. The effect of the exchanges reduced the percentage of the Noncontrolling interest in Private National Mortgage Acceptance Company, LLC from 71.1% at December 31, 2015 to 71.0% at March 31, 2016.

During the quarter ended March 31, 2015, PennyMac unitholders exchanged 44,000 units for the Company’s Class A common stock. The effect of the exchanges reduced the percentage of the Noncontrolling interest in Private National Mortgage Acceptance Company, LLC from 71.6% at December 31, 2014 to 71.5% at March 31, 2015.

Net income attributable to the Company’s common stockholders and the effects of changes in noncontrolling ownership interest in PennyMac are summarized below:

| | Quarter ended March 31, | |

Note 20—Regulatory Capital and Liquidity Requirements

The Company, through PLS and PennyMac, is required to maintain specified levels of liquidity and equity to remain a seller/servicer in good standing with the Agencies. Such requirements generally are tied to the size of the Company's loan servicing portfolio or loan origination volume.

The Agencies' capital and liquidity requirements, the calculations of which are specified by each Agency, are summarized below:

| | Agency capital / liquidity | | | |
|---|---|---|---|---|
| | March 31, 2016 | | December 31, 2015 | |
| Agency–company subject to requirement | Balance (1) | Requirement | Balance (1) | Requirement |

| Ginnie Mae - PLS | $ 124,788 | $ 97,619 | $ 145,431 | $ 95,868 |

(1) Calculated in compliance with the respective Agency's requirements.

Noncompliance with the respective Agencies' requirements can result in the respective Agency taking various remedial actions up to and including removing PennyMac's ability to sell loans to and service loans on behalf of the respective Agency. PennyMac and PLS had Agency capital and liquidity in excess of the respective Agencies' requirements at March 31, 2016.

Note 21—Commitments and Contingencies

Litigation

The business of the Company involves the collection of numerous accounts, as well as the validation of liens and compliance with various state and federal lending and servicing laws. Accordingly, the Company may be involved in proceedings, claims, and legal actions arising in the ordinary course of business. As of March 31, 2016, the Company was not involved in any legal proceedings, claims, or actions that in management's view would be reasonably likely to have a material adverse effect on the Company.

Note 23—Recently Issued Accounting Pronouncements

In February 2015, the FASB issued ASU 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis (“ASU 2015-02”). ASU 2015-02 affects reporting entities that are required to evaluate whether they should consolidate certain legal entities. ASU 2015-02 modifies the evaluation of whether limited partnerships and similar legal entities are VIEs or voting interest entities, eliminates the presumption that a general partner should consolidate a limited partnership and affects the consolidation analysis of reporting entities that are involved with VIEs, particularly those that have fee arrangements and related party relationships. ASU 2015-02 is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. The Company adopted ASU 2015-02 effective January 1, 2016. The adoption of ASU 2015-02 had no effect on the Company’s consolidated financial statements.

On January 5, 2016, the FASB issued ASU No. 2016-01, Financial Instruments–Overall: Recognition and Measurement of Financial Assets and Financial Liabilities ("ASU 2016-01"). ASU 2016-01 affects the accounting for equity investments, financial liabilities under the fair value option, the presentation and disclosure requirements for financial instruments, and the valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale debt securities.

The classification and measurement guidance will be effective for the Company in fiscal years beginning after December 15, 2017, including interim periods within those fiscal years with early adoption permitted for certain provisions. Company is currently assessing the potential effect that the adoption of ASU 2016-01 will have on its consolidated financial statements.

On February 25, 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842) ("ASU 2016-02"). ASU 2016-02 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). ASU 2016-02 requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase of the leased asset by the lessee. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification.

Table of Contents

ASU 2016-02 is expected to impact the Company's consolidated financial statements as the Company has certain lease arrangements for which it is the lessee. ASU 2016-02 supersedes previous leasing standards. ASU 2016-02 is effective for the Company for reporting periods beginning after December 15, 2018, with early adoption permitted. The Company is currently assessing the potential impact that the adoption of ASU 2016-02 will have on its consolidated financial statements.

In March of 2016, The FASB issued ASU 2016-09, Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting ("ASU 2016-09"). ASU 2016-09 simplifies several aspects of the accounting for share-based payment award transactions, including:

- Modifies the accounting for income taxes relating to share-based payments. All excess tax benefits and tax deficiencies (including tax benefits of dividends on share-based payment awards) will be recognized as income tax expense or benefit in the consolidated income statement. The tax effects of exercised or vested awards will be treated as discrete items in the reporting period in which they occur. An entity will recognize excess tax benefits regardless of whether the benefit reduces taxes payable in the current period. Under current GAAP, excess tax benefits are recognized in additional paid-in capital; tax deficiencies are recognized either as an offset to accumulated excess tax benefits, if any, or in the consolidated income statement in the period they reduce income taxes payable.

- Changes the classification of excess tax benefits on the consolidated statement of cash flows. In the consolidated statement of cash flows, excess tax benefits will be classified along with other income tax cash flows as an operating activity. Under current GAAP, excess tax benefits are separated from other income tax cash flows and classified as a financing activity.

- Changes the requirement to estimate the number of awards that are expected to vest. Under ASC 2016-09, an entity can make an entity-wide accounting policy election to either estimate the number of awards that are expected to vest as presently required or account for forfeitures when they occur. Under current GAAP, accruals of compensation cost are based on the number of awards that are expected to vest.

- Changes the tax withholding requirements for share-based payment awards to qualify for equity accounting. The threshold to qualify for equity classification permits withholding up to the maximum statutory tax rates in the applicable jurisdictions. Under current GAAP, for an award to qualify for equity classification is that an entity cannot partially settle the award in cash in excess of the employer's minimum statutory withholding requirements.

- Establishes GAAP for the classification of employee taxes paid when an employer withholds shares for tax withholding purposes. Cash paid by an employer when directly withholding shares for tax- withholding purposes should be classified as a financing activity. This guidance establishes GAAP related to the classification of withholding taxes in the statement of cash flows as there is no such guidance under current GAAP.

ASU 2016-09 is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted for any organization in any interim or annual period. The Company is

currently assessing the potential effect that the adoption of ASU 2016-09 will have on its consolidated financial statements.

Note 24—Subsequent Events

On May 3, 2016, the Company through its subsidiary, Private National Mortgage Acceptance Company, LLC ("PennyMac"), entered into Schedule Number 002 (the "Schedule") pursuant to that certain Master Lease Agreement, dated as of December 9, 2015 (the "Master Lease"), with Banc of America Leasing & Capital, LLC ("BALC"). Pursuant to the terms of the Master Lease, the Company may borrow funds from BALC on an uncommitted basis for the purpose of financing equipment and/or leasehold improvements described and on the terms set forth in schedules from time to time. The Master Lease is guaranteed in full by the Company's indirect controlled subsidiary, PennyMac Loan Services, LLC. Pursuant to the Schedule, PennyMac is financing equipment with an aggregate cost of approximately $12.7 million. The Schedule has a three-year term and interim rent and base rent is payable pursuant to the terms thereof. At

### Overview

The following discussion and analysis provides information that we believe is relevant to an assessment and understanding of our consolidated results of operations and financial condition. Unless the context indicates otherwise, references in this Quarterly Report on Form 10-Q to the words "we," "us," "our" and the "Company" refer to PFSI.

### Our Company

We are a specialty financial services firm with a comprehensive mortgage platform and integrated business primarily focused on the production and servicing of U.S. residential mortgage loans (activities which we refer to as mortgage banking) and the management of investments related to the U.S. mortgage market. We believe that our operating capabilities, specialized expertise, access to long-term investment capital, and our management's experience across all aspects of the mortgage business will allow us to profitably grow these activities and capitalize on other related opportunities as they arise in the future.

We operate and control all of the business and affairs of Private National Mortgage Acceptance Company, LLC ("PennyMac") and are its sole managing member. PennyMac was founded in 2008 by members of our executive leadership team and two strategic partners, BlackRock Mortgage Ventures, LLC and HC Partners, LLC, formerly known as Highfields Capital Investments, LLC, together with its affiliates.

We conduct our business in three segments: loan production, loan servicing (together, these two activities comprise our mortgage banking activities) and investment management. Our principal mortgage banking subsidiary, PennyMac Loan Services, LLC ("PLS"), is a non-bank producer and servicer of mortgage loans in the United States. PLS is a seller/servicer for the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac"), each of which is a government-sponsored entity ("GSE"). It is also an approved issuer of securities guaranteed by the Government National Mortgage Association ("Ginnie Mae"), a lender of the Federal Housing Administration ("FHA"), a lender/servicer of the Veterans Administration ("VA") and the U.S. Department of Agriculture ("USDA"), and a servicer for the Home Affordable Modification Program ("HAMP"). We refer to each of Fannie Mae, Freddie Mac, Ginnie Mae, FHA, VA and USDA as an "Agency" and collectively as the "Agencies." PLS is able to service loans in all 50 states, the District of Columbia, Guam and the U.S. Virgin Islands, and originate loans in 49 states and the District of Columbia, either because PLS is properly licensed in a particular jurisdiction or exempt or otherwise not required to be licensed in that jurisdiction.

Our investment management subsidiary, PNMAC Capital Management, LLC ("PCM"), is a Delaware limited liability company registered with the Securities and Exchange Commission ("SEC") as an investment adviser under the Investment Advisors Act of 1940, as amended, PCM manages PennyMac Mortgage Investment Trust ("PMT"), a mortgage real estate investment trust, listed on the New York Stock Exchange under the ticker symbol PMT, PNMAC

Table of Contents

Mortgage Opportunity Fund, LLC and PNMAC Mortgage Opportunity Fund, LP, both registered under the Investment Company Act of 1940 ("Investment Company Act"), as amended, an affiliate of these Funds and PNMAC Mortgage Opportunity Fund Investors, LLC. We refer to these funds collectively as our "Investment Funds" and, together with PMT, as our "Advised Entities."

Mortgage Banking

Loan Production

Our loan production segment sources mortgage loans through two channels: correspondent production and consumer direct lending.

In correspondent production we manage, on behalf of PMT and for our own account, the acquisition of newly originated, prime credit quality, first-lien residential mortgage loans that have been underwritten to investor guidelines. PMT acquires, from approved correspondent sellers, newly originated mortgage loans, including both conventional and government-insured or guaranteed residential mortgage loans that qualify for inclusion in securitizations that are guaranteed by the Agencies. For conventional mortgage loans, we perform fulfillment activities for PMT and earn a fulfillment fee for each mortgage loan purchased by PMT. In the case of government insured mortgage loans, we purchase them from PMT at PMT's cost plus a sourcing fee and fulfill them for our own account.

Through our consumer direct lending channel, we originate new prime credit quality, first-lien residential conventional and government-insured or guaranteed mortgage loans on a national basis to allow customers to purchase or refinance their homes. The consumer direct model relies on the Internet and call center-based staff to acquire and interact with customers across the country. We do not have a "brick and mortar" branch network and have been developing our consumer direct operations with call centers strategically positioned across the United States.

For loans originated through our consumer direct lending channel, we conduct our own fulfillment, earn interest income and gains or losses during the holding period and upon the sale or securitization of these loans, and retain the associated MSRs (subject to sharing with PMT a portion of such MSRs or cash with respect to certain consumer direct originated loans that refinance loans for which the related mortgage servicing rights ("MSRs") or excess servicing spread ("ESS") was held by PMT).

Our loan production activity is summarized below:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |

| Unpaid principal balance of mortgage loans fulfilled for PennyMac Mortgage Investment Trust | $ 3,259,363 | $ 2,890,132 |

Loan Servicing

Our mortgage loan servicing segment performs mortgage loan administration, collection, and default management activities, including the collection and remittance of mortgage loan payments; response to customer inquiries; accounting for principal and interest; holding custodial (impounded) funds for the payment of property taxes and insurance premiums; counseling delinquent mortgagors; and supervising foreclosures and property dispositions. We service a diverse portfolio of mortgage loans both as the owner of MSRs and on behalf of other MSR or mortgage owners. We provide servicing for conventional and government-insured or guaranteed mortgage loans (“prime servicing”), as well as servicing for distressed mortgage loans that have been acquired as investments by our Advised Entities (“special servicing”). As of March 31, 2016, the portfolio of mortgage loans that we serviced or subserviced totaled approximately $164.9 billion in unpaid principal balance (“UPB”).

Investment Management

We are an investment manager through our subsidiary, PCM. PCM currently manages the Advised Entities. The Advised Entities had combined net assets of approximately $1.6 billion as of March 31, 2016. For these activities, we earn management fees as a percentage of net assets and incentive compensation based on the entities' performance.

Observations on Current Market Conditions

Our business is affected by macroeconomic conditions in the United States, including economic growth, unemployment rates, the residential housing market and interest rate levels and expectations. The U.S. economy continues to grow, albeit at a slower pace, as reflected in recent economic data. During the first quarter of 2016, real U.S. gross domestic product expanded at an annual rate of 0.5% compared to 0.6% for the first quarter of 2015 and 1.4% for the fourth quarter of 2015. The national seasonally adjusted unemployment rate was 5.0% at March 31, 2016 compared to 5.0% at December 31, 2015 and 5.5% at March 31, 2015. Delinquency rates on residential real estate loans remain elevated compared to historical rates, but have been steadily declining. As reported by the Federal Reserve Bank, during the fourth quarter of 2015, the delinquency rate on residential real estate loans held by commercial banks was 5.1%, a reduction from 6.1% during the first quarter of 2015.

Residential real estate activity appears to be expanding. The seasonally adjusted annual rate of existing home sales for March 2016 was 1.5% higher than for March 2015, and the national median existing home price for all housing types was $222,700, a 5.7% increase from March 2015 (Source: National Association of Realtors®). On a national level, foreclosure filings during March 2016 decreased by 7.8% as compared to March 2015. However, foreclosure activity is expected to remain above historical average levels through 2016 and beyond.

Changes in fixed-rate residential mortgage loan interest rates generally follow changes in long-term U.S. Treasury yields. Thirty-year fixed mortgage interest rates ranged from a low of 3.62% to a high of 3.97% during the first quarter of 2016 while during the first quarter of 2015, thirty-year fixed mortgage interest rates ranged from a low of 3.59% to a high of 3.86% (Source: Freddie Mac's Weekly Primary Mortgage Market Survey). Interest rates generally declined in the first quarter of 2016 and generally increased in the first of 2015. This impacted MSR and other interest rate sensitive asset valuations and production activity.

Mortgage lenders originated an estimated $380 billion of home loans during the first quarter of 2016, down 6.2% from the first quarter of 2015. Total mortgage originations are forecast to be somewhat lower in 2016 versus 2015, with current industry estimates for 2016 averaging $1.6 trillion (Source: average of Fannie Mae, Freddie Mac and Mortgage Bankers Association forecasts).

We believe there is long-term market opportunity for the production of non-Agency jumbo mortgage loans. However, most new jumbo mortgage loans are either being originated or purchased by banks, and the current market for jumbo mortgage loan securitizations is limited, as evidenced by weak demand and inconsistent pricing observed over the past twelve months. Prime jumbo MBS securitizations totaled $1.0 billion in UPB during the first quarter of 2016, a decrease from $4.2 billion during the first quarter of 2015. During the three months ended March 31, 2016, we produced approximately $7 million in UPB of jumbo loans compared to $62 million in UPB of jumbo loans produced during the three months ended March 31, 2015.

In our capacity as an investment manager, we expect to see a continued supply of distressed whole loans; however, we believe the pricing for recent transactions has been less attractive for buyers. We remain patient and selective for PMT in making new investments in distressed mortgage loans and we continue to monitor the market to assess best execution opportunities for distressed portfolio investments held by the Advised Entities.

Net income decreased $20.6 million during the quarter ended March 31, 2016, when compared to the same period in 2015. The decrease in net income during the quarter ended March 31, 2016 was primarily due to a decrease in net mortgage loan servicing fees caused by a significant decrease in fair value and increase in impairment of our MSRs, net of ESS and hedging gains.

Table of Contents

Net Gains on Mortgage Loans Held for Sale at Fair Value

During the quarter ended March 31, 2016, we recognized net gains on mortgage loans held for sale at fair value totaling $91.5 million, an increase of $16.1 million from the same period in 2015. The increase was due to growth in the volume of mortgage loans that we committed to purchase or originate and an improvement in production margins resulting from an increase in volume of our consumer direct channel, which earns higher margins than our correspondent production channel.

Most of our mortgage loan production currently is centered in government-insured or guaranteed loans. Over recent periods, the margins on correspondent government-insured or guaranteed mortgage loans have tended to be higher than those on conventional correspondent production. Government-insured or guaranteed mortgage lending is not as competitive as conventional conforming mortgage lending due to the added complexity involved in the origination and servicing of government-insured or guaranteed mortgage loans. We source the majority of our government-insured or guaranteed mortgage loan production through PMT. PMT is not approved by Ginnie Mae as an issuer of Ginnie Mae-guaranteed securities which are backed by government-insured or guaranteed mortgage loans. We purchase the government-insured or guaranteed mortgage loans that PMT acquires through its correspondent lending activities and pay PMT a sourcing fee of three basis points on the UPB of such mortgage loans.

Our net gains on mortgage loans held for sale at fair value include both cash and non-cash elements. We receive proceeds on sale that include both cash and our estimate of the fair value of the MSRs and mortgage servicing liabilities created and incurred in such transactions. During the quarters ended March 31, 2016 and 2015, the net gains on mortgage loans held for sale at fair value included $95.4 million and $67.0 million, respectively, in fair value of MSRs received as part of proceeds on sales, net of mortgage servicing liabilities incurred. We also recognize a liability for our estimate of the losses we expect to incur in the future as a result of claims made against us in connection with the representations and warranties that we made in the loan sales transactions. During the quarters ended March 31, 2016 and 2015, we included provisions for losses relating to the representations and warranties we provided totaling $2.1 million and $1.5 million, respectively, in our Net gains on mortgage loans held for sale at fair value.

Provision for Losses on Representations and Warranties

We record our estimate of the losses that we expect to incur in the future as a result of claims against us in connection with the representations and warranties we provide to the purchasers and insurers of the mortgage loans we sell in our Net gains on sale of mortgage loans held for sale at fair value. Our agreements with the purchasers and insurers include representations and warranties related to the mortgage loans we sell. The representations and warranties require adherence to purchaser and insurer origination and underwriting guidelines, including but not limited to the validity of the lien securing the mortgage loan, property eligibility, borrower credit, income and asset requirements, and compliance with applicable federal, state and local law.

In the event of a breach of our representations and warranties, we may be required to either repurchase the mortgage loans with identified defects or indemnify the purchaser or insurer. In such cases, we bear any subsequent credit loss on the mortgage loans. Our credit loss may be reduced by any recourse we have to correspondent lenders that sold such mortgage loans and breached similar or other representations and warranties. In such event, we have the right to seek a recovery of related repurchase losses from that correspondent lender.

The method used to estimate our losses on representations and warranties is a function of our estimate of future defaults, mortgage loan repurchase rates, the severity of loss in the event of defaults and the probability of reimbursement by the correspondent mortgage loan seller. We establish a liability at the time loans are sold and review our liability estimate on a periodic basis.

We recorded provisions for losses under representations and warranties as a component of Net gains on mortgage loans held for sale at fair value totaling $2.1 million during the quarter ended March 31, 2016, compared to $1.5 million during the quarter ended March 31, 2015. The increase in provision for losses under representations and warranties during the quarter ended March 31, 2016 compared to the same period in 2015 was primarily due to an increase in the volume of mortgage loan sales activity.

Following is a summary of mortgage loan repurchase and loss activity and the UPB of mortgage loans subject to representations and warranties:

| Less: | | |
| Mortgage loans repurchased by correspondent lenders | 3,265 | 520 |
| Mortgage loans repaid by borrowers or resold with defects resolved | 327 | 373 |
| Net mortgage loans repurchased by PFSI with losses chargeable to liability for representations and warranties | $ 3,321 | $ 3,597 |
| Losses charged to liability for representations and warranties | $ 484 | $ 65 |
| Period end: | | |
| Unpaid principal balance of mortgage loans subject to representations and warranties | $ 63,806,614 | $ 39,624,553 |
| Liability for representations and warranties | $ 22,209 | $ 14,689 |

During the quarter ended March 31, 2016, we repurchased mortgage loans totaling $6.9 million in UPB. We recorded losses of $484,000 net of recoveries from correspondent lenders, as a result of these repurchases. As the outstanding balance of mortgage loans we purchase and sell subject to representations and warranties increases and the loans sold continue to season, we expect the level of repurchase activity to increase.

The level of the liability for losses under representations and warranties is difficult to estimate and requires considerable management judgment. The level of mortgage loan repurchase losses is dependent on economic factors, purchaser or insurer loss mitigation strategies, and other external conditions that may change over the lives of the underlying mortgage loans. Our estimate of the liability for representations and warranties is developed by our credit administration staff. The liability estimate is reviewed and approved by our senior management credit committee which includes the senior executives of the Company and of the loan production, loan servicing and credit risk management areas. We did not record any adjustments to previously recorded liabilities for representations and

warranties during any of the periods presented.

Our representations and warranties are generally not subject to stated limits of exposure. However, we believe that the current UPB of mortgage loans sold by us to date represents the maximum exposure to repurchases related to representations and warranties.

Other mortgage loan production-related revenues

Loan origination fees increased $5.8 million during the quarter ended March 31, 2016, compared to the same period in 2015 primarily due to growth in the volume of correspondent purchases in our loan production activities.

Table of Contents

Fulfillment fees from PMT, which represent fees we collect for services we perform on behalf of PMT in connection with its acquisition, packaging and sale of mortgage loans, are calculated as a percentage of the UPB of the mortgage loans we fulfill for PMT. Fulfillment fees increased $69,000 during the quarter ended March 31, 2016 compared to the same period in 2015. The effect of the increase in volume of mortgage loans we fulfilled for PMT was offset by a reduction in the average fulfillment fee rate we charged during 2016 as compared to 2015 resulting from contractual discretionary reductions in fulfillment fees made to facilitate certain transactions.

Summarized below are our fulfillment fees:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |
| | (in thousands) | |
| Fulfillment fee revenue | $ 12,935 | $ 12,866 |
| Unpaid principal balance of mortgage loans fulfilled | $ 3,259,363 | $ 2,890,132 |

Table of Contents

During the first quarter of 2016, loan servicing fees increased $42.0 million compared to the same period in 2015, primarily due to an increase in mortgage loan servicing fees from nonaffiliates resulting from growth in our portfolio of MSRs.

Amortization, impairment and change in fair value of mortgage servicing rights are summarized below:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |
| | (in thousands) | |
| Amortization and realization of cash flows | $ (49,696) | $ (24,104) |
| Change in fair value of mortgage servicing rights and mortgage servicing liabilities carried at fair value and provision for impairment of mortgage servicing rights carried at lower of amortized cost or fair value | (125,887) | (46,701) |
| Change in fair value of excess servicing spread | 19,449 | 7,536 |
| Hedging gains | 58,720 | 17,121 |
| Total fair value adjustments, net of hedging results | (47,718) | (22,044) |
| Total amortization, impairment and change in fair value of mortgage servicing rights and excess servicing spread | $ (97,414) | $ (46,148) |
| Average mortgage servicing rights balances: | | |
| At lower of amortized cost or fair value | $ 741,686 | $ 414,308 |
| At fair value | 618,992 | 329,117 |
| | $ 1,360,678 | $ 743,425 |
| Mortgage servicing rights at period end: | | |
| At lower of amortized cost or fair value | $ 742,679 | $ 428,998 |
| At fair value | 594,403 | 361,413 |
| | $ 1,337,082 | $ 790,411 |

Amortization, impairment and change in fair value of mortgage servicing rights increased $25.7 million during the quarter ended March 31, 2016, compared to the same period in 2015. This increase was primarily due to increased amortization of a growing mortgage servicing asset and increased impairment of MSRs resulting from the effect on fair value of the decreasing interest rate environment that prevailed during the first quarter of 2016.

Management fees and Carried Interest

Management fees and Carried Interest are summarized below:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |

Table of Contents

Management fees from PMT decreased $1.7 million during the quarter ended March 31, 2016, compared to the same period in 2015. The decrease was primarily due to:

- a decrease in base management fees of $378,000 due to a decrease in PMT's shareholders' equity upon which its base management fee is based; and
- a decrease in performance incentive fees of $1.3 million resulting from a decline in PMT's financial performance over the four-quarter period for which incentive fees were calculated.

Management fees from the Investment Funds decreased $926,000 during the quarter ended March 31, 2016, compared to the same period in 2015. The decrease was due to a reduction in the Investment Funds' net asset values as a result of continued distributions to the Investment Funds' investors following the end of the Investment Funds' commitment period.

Carried Interest from Investment Funds decreased $640,000 during the quarter ended March 31, 2016, compared to the same period in 2015 primarily due to reduced performance of the Investment Funds'

assets during the quarter ended March 31, 2016 as compared to the quarter ended March 31, 2015.

Other revenues

Net interest expense increased $4.6 million during the quarter ended March 31, 2016, compared to the quarter ended March 31, 2015 due to growth in financing of our investments in non-interest earning assets, primarily MSRs.

The results of our holdings of common shares of PMT, which is included in Changes in fair value of investment in and dividends received from PMT are summarized below:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |
| | (in thousands) | |
| Dividends received from PennyMac Mortgage Investment Trust | $ 35 | $ 92 |
| Change in fair value of investment in PennyMac Mortgage Investment Trust | (121) | 15 |
| | $ (86) | $ 107 |
| Fair value of PennyMac Mortgage Investment Trust shares at period end | $ 1,023 | $ 1,597 |

Change in fair value of investment in and dividends received from PMT decreased $193,000 during the quarter ended March 31, 2016, compared to the same period in 2015 due to both a decrease in the fair value of our investment in PMT and a decrease in dividends received from PMT. We held 75,000 common shares of PMT during each of the periods ended March 31, 2016 and 2015.

Expenses

Our compensation expense is summarized below:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |
| | (in thousands) | |
| Salaries and wages | $ 48,113 | $ 35,442 |
| Incentive compensation | 6,330 | 10,350 |
| Taxes and benefits | 8,882 | 6,725 |

| Head count: | | |
| Average | 2,590 | 1,907 |
| Period end | 2,617 | 2,047 |

Compensation expense increased $10.2 million, or 17.5% during the quarter ended March 31, 2016 compared to the same period in 2015. The increase in compensation expense was primarily due to the development of and growth

Table of Contents

in our mortgage banking segments. Incentive compensation decreased primarily due to our reduced profitability during the quarter ended March 31, 2016 as compared to the quarter ended March 31, 2015.

Servicing expense increased $11.2 million during the quarter ended March 31, 2016 compared to the same period in 2015. The increase was primarily due to growth in our mortgage servicing portfolio and to increased servicing advance losses relating to delinquent government-insured or guaranteed mortgage loans that we service.

Technology expense increased $1.9 million during the quarter ended March 31, 2016 compared to the same period in 2015 primarily due to increased software costs as part of our continued investment in loan production and expansion of our servicing infrastructure.

Expenses Allocated to PMT

PMT reimburses us for other expenses, including common overhead expenses incurred on its behalf by us, in accordance with the terms of our management agreement with PMT. The expense amounts presented in our consolidated statements of income are net of these allocations.

Common overhead expense amounts allocated to PMT during the periods ended March 31, 2016 and 2015 are summarized below:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 (1) | 2015 |
| | (in thousands) | |
| Technology | $ 1,145 | $ 1,138 |
| Occupancy | 573 | 479 |
| Depreciation and amortization | 399 | 572 |
| Other | 444 | 540 |
| Total expenses | $ 2,561 | $ 2,729 |

(1) On December 15, 2015, we and PMT amended our management agreement to provide that the total costs and expenses incurred by us in any quarter and reimbursable by PMT is capped at an amount equal to the product of (A) 70 basis points (0.0070), multiplied by (B) PMT's shareholders' equity (as defined in the management agreement) as of the last day of such quarter, divided by four (4).

Provision for Income Taxes

Our effective tax rates were 11.9% during the quarter ended March 31, 2016 compared to 11.5% during the same period in 2015. The difference between our effective tax rate and the statutory rate is primarily due to the allocation of earnings to the noncontrolling interest unitholders. As the noncontrolling interest unitholders convert their ownership units into our shares, we expect an increase in allocated earnings that will be subject to corporate federal and state statutory tax rates, which will in turn increase our effective income tax rate.

| Stockholders' equity | 1,093,213 | 1,062,350 |
| Total liabilities and stockholders' equity | $ 3,981,263 | $ 3,505,294 |

Total assets increased $476.0 million from $3.5 billion at December 31, 2015 to $4.0 billion at March 31, 2016. The increase was primarily due to an increase of $552.8 million in mortgage loans held for sale at fair value, resulting from growth in our mortgage loan production.

Total liabilities increased by $445.1 million from $2.4 billion as of December 31, 2015 to $2.9 billion as of March 31, 2016. The increase was primarily attributable to an increase of $582.2 million in borrowings to fund growth in our inventory of mortgage loans held for sale at fair value and MSRs.

Cash Flows

Our cash flows for the quarters ended March 31, 2016 and 2015 are summarized below:

| | Quarter ended March 31, | | |
|---|---|---|---|
| | 2016 | 2015 | Change |
| | (in thousands) | | |
| Cash flow activities: | | | |
| Operating | $ (516,862) | $ (168,494) | $ (348,368) |
| Investing | 41,755 | (58,386) | 100,141 |
| Financing | 486,195 | 232,656 | 253,539 |
| Net cash flows | $ 11,088 | $ 5,776 | $ 5,312 |

Our cash flows resulted in a net increase in cash of $11.1 million during the quarter ended March 31, 2016. The increase was due to cash used in our operating offset by cash provided by our investing and financing activities exceeding cash used in our operating activities.

Operating activities

Net cash used in operating activities totaled $516.9 million and $168.5 million during the quarters ended March 31, 2016 and 2015, respectively, primarily due to the growth of our inventory of mortgage loans held for sale at fair value.

Table of Contents

Investing activities

Net cash provided by investing activities during the quarter ended March 31, 2016 totaled $41.8 million primarily due to $38.6 million in net settlements of derivative financial instruments received in our hedging of MSRs and to a $18.1 million reduction in short-term investments. Net cash used in investing activities during the quarter ended March 31, 2015 totaled $58.4 million primarily due to our purchase of MSRs during the period.

Financing activities

Net cash provided by financing activities totaled $486.2 million and $232.7 million during the quarters ended March 31, 2016 and 2015, respectively, primarily due to increased financing for the growth in our inventory of mortgage loans held for sale at fair value. In the quarter ended March 31, 2015, financing proceeds were also used for investments in MSRs.

Liquidity and Capital Resources

Our liquidity reflects our ability to meet our current obligations (including our operating expenses and, when applicable, the retirement of, and margin calls relating to, our debt, and margin calls relating to hedges on our commitments to purchase or originate mortgage loans), fund new originations and purchases, and make investments as we identify them. We expect our primary sources of liquidity to be through cash flows from business activities, proceeds from borrowings, proceeds from and issuance of ESS and/or additional equity offerings. We believe that our liquidity is sufficient to meet our current liquidity needs.

Our current leverage strategy is to finance our assets where we believe such borrowing is prudent, appropriate and available. Our borrowing activities are in the form of assets sold under agreements to repurchase, sales of mortgage loan participation certificates, a note payable, a revolving credit agreement, ESS and a capital lease. All of our borrowings other than ESS and the capital lease have short-term maturities and provide for terms of approximately one year. We will continue to finance most of our assets on a short-term basis until long-term financing becomes more available. Because a significant portion of our current debt facilities consists of short-term borrowings, we expect to renew these facilities in advance of maturity in order to ensure our ongoing liquidity and access to capital or otherwise allow ourselves sufficient time to replace any necessary financing.

Our repurchase agreements represent the sales of assets together with agreements for us to buy back the respective assets at a later date. The table below presents the average outstanding, maximum and ending balances:

| | Quarter ended March 31, | |
|---|---|---|
| | 2016 | 2015 |
| | (in thousands) | |
| Repurchase agreements outstanding: | | |
| Average balance | $ 1,039,573 | $ 616,896 |
| Maximum daily balance | $ 1,688,605 | $ 992,187 |
| Balance at period end | $ 1,658,728 | $ 992,187 |

Our secured financing agreements at PLS require us to comply with various financial covenants. The most significant financial covenants currently include the following:

- positive net income during each calendar quarter;
- a minimum in unrestricted cash and cash equivalents of $20 million;
- a minimum tangible net worth of $200 million;
- a maximum ratio of total liabilities to tangible net worth of 10:1; and
- at least one other warehouse or repurchase facility that finances amounts and assets similar to those being financed under of our existing secured financing agreements.

With respect to servicing performed for PMT, PLS is also subject to certain covenants under its debt agreements. Covenants of PLS in PMT's debt agreements are equally or sometimes less restrictive than the covenants described above.

Table of Contents

In addition to the covenants noted above, our revolving credit agreement and capital lease contain additional financial covenants including, but not limited to,

- a minimum of cash and carried interest equal to the amount borrowed under the revolving credit agreement;
- a minimum of unrestricted cash and cash equivalents equal to $25 million;
- a minimum tangible net worth of $500 million;
- a minimum asset coverage ratio (the ratio of the total asset amount to the total commitment) of 2.5; and
- a maximum ratio of total indebtedness to tangible net worth ratio of 5:1.

Although these financial covenants limit the amount of indebtedness that we may incur and affect our liquidity through minimum cash reserve requirements, we believe that these covenants currently provide us with sufficient flexibility to successfully operate our business and obtain the financing necessary to achieve that purpose.

Our debt financing agreements also contain margin call provisions that, upon notice from the applicable lender at its option, require us to transfer cash or, in some instances, additional assets in an amount sufficient to eliminate any margin deficit. A margin deficit will generally result from any decline in the market value (as determined by the applicable lender) of the assets subject to the related financing agreement. Upon notice from the applicable lender, we will generally be required to satisfy the margin call on the day of such notice or within one business day thereafter, depending on the timing of the notice.

We are also subject to liquidity and net worth requirements established by FHFA and GNMA for Agency seller/servicers. Effective December 31, 2015, FHFA and Ginnie Mae have established new minimum liquidity requirements and revised their net worth requirements for their approved non-depository single-family sellers/servicers in the case of Fannie Mae and Freddie Mac and Ginnie Mae for its approved single-family issuers, as summarized below:

- FHFA liquidity requirement is equal to 0.035% (3.5 basis points) of total Agency servicing UPB plus an incremental 200 basis points of the amount by which total nonperforming Agency servicing UPB exceeds 6% of the applicable Agency servicing UPB; allowable assets to satisfy liquidity requirement include cash and cash equivalents (unrestricted), certain investment-grade securities that are available for sale or held for trading including Agency

mortgage-backed securities, obligations of Fannie Mae or Freddie Mac, and U.S. Treasury obligations, and unused and available portions of committed servicing advance lines;

- FHFA net worth requirement is a tangible net worth/total assets ratio greater than or equal to 6%;

- Ginnie Mae single-family issuer minimum liquidity requirement is equal to the greater of $1.0 million or 0.10% (10 basis points) of the issuer's outstanding Ginnie Mae single-family securities, which must be met with cash and cash equivalents; and

- Ginnie Mae net worth requirement is equal to $2.5 million plus 0.35% (35 basis points) of the issuer's outstanding Ginnie Mae single-family obligations.

We believe that we are currently in compliance with the applicable Agency requirements.

We have purchased portfolios of MSRs and have financed them in part through the sale to PMT of the right to receive ESS. The outstanding amount of the ESS financing is based on the current valuation of such ESS and amounts received on the underlying mortgage loans.

We continue to explore a variety of means of financing our continued growth, including debt financing through bank warehouse lines of credit, bank loans, repurchase agreements, securitization transactions and corporate debt.

However, there can be no assurance as to how much additional financing capacity such efforts will produce, what form the financing will take or whether such efforts will be successful.

Off-Balance Sheet Arrangements and Aggregate Contractual Obligations

Off-Balance Sheet Arrangements and Guarantees

As of March 31, 2016, we have not entered into any off-balance sheet arrangements or guarantees.

Contractual Obligations

As of March 31, 2016, we had on-balance contractual obligations of $1.7 billion to finance assets under agreements to repurchase and $246.6 million to finance assets under our mortgage loan participation and sale agreement. We also had contractual obligations of $127.7 million relating to notes payable. Additionally, the Company entered into ESS transactions and a capital lease transaction secured by certain fixed assets and capitalized software of which $12.1 million was outstanding as of March 31, 2016. We also lease our primary office facilities under an agreement that expires on February 28, 2017 and we license certain software to support our loan servicing operations.

Payment obligations under these agreements are summarized below:

| | Payments due by period | | | | |
|---|---|---|---|---|---|
| Contractual obligations | Total | Less than 1 year | 1-3 years | 3-5 years | More than 5 years |
| | (in thousands) | | | | |

| Total | $ 2,660,250 | $ 2,073,183 | $ 58,285 | $ 43,491 | $ 485,291 |

(1) The ESS financing obligation payable to PMT does not have a stated contractual maturity date and will pay down as the underlying MSRs receive the excess servicing fee rate due to PMT.

(2) Software licenses include both volume and activity based fees that are dependent on the number of loans serviced during each period and include a base fee of approximately $820,000 per month. Estimated payments for software licenses above are based on the number of loans currently serviced by us, which totaled approximately 870,000 at March 31, 2016. Future amounts due may significantly fluctuate based on changes in the number of loans serviced by us. For the quarter ended March 31, 2016, software license fees totaled $3.2 million. All figures contained in this footnote are in actual amounts and not in thousands (in contrast to the table above).

Management Agreements

PMT Management Agreement

We externally manage and advise PMT pursuant to a management agreement. Our management agreement with PMT requires us to oversee PMT's business affairs in conformity with the investment policies that are approved and monitored by its board of trustees. We are responsible for PMT's day-to-day management and perform such services and activities related to PMT's assets and operations as may be appropriate. Pursuant to our management agreement, we collect a base management fee and may collect a performance incentive fee.

The management agreement provides that:

- The base management fee is calculated quarterly and is equal to the sum of (i) 1.5% per year of PMT's shareholders' equity up to $2 billion, (ii) 1.375% per year of shareholders' equity in excess of $2 billion and up to $5 billion, and (iii) 1.25% per year of PMT's shareholders' equity in excess of $5 billion.
- The performance incentive fee is calculated at a defined annualized percentage of the amount by which PMT's "net income," on a rolling four quarter basis and before deducting the incentive fee, exceeds certain levels of return on "equity."

The performance incentive fee is calculated quarterly and is equal to the sum of: (a) 10% of the amount by which PMT's net income for the quarter exceeds (i) an 8% return on equity plus the "high watermark," up to (ii) a 12% return on PMT's equity; plus (b) 15% of the amount by which PMT's net income for the quarter exceeds (i) a 12% return on PMT's equity plus the "high watermark," up to (ii) a 16% return on PMT's equity; plus (c) 20% of the amount by which PMT's net income for the quarter exceeds a 16% return on equity plus the "high watermark."

For the purpose of determining the amount of the performance incentive fee:

"Net income" is defined as net income or loss computed in accordance with U.S. GAAP and certain other non cash charges determined after discussions between us and PMT's independent trustees and approval by a majority of PMT's independent trustees.

"Equity" is the weighted average of the issue price per common share of all of PMT's public offerings, multiplied by the weighted average number of common shares outstanding (including restricted share units) in the four quarter period.

The "high watermark" starts at zero and is adjusted quarterly. The quarterly adjustment reflects the amount by which the net income (stated as a percentage of return on equity) in that quarter exceeds or falls short of the lesser of 8% and the average Fannie Mae 30 year MBS yield (the "target yield") for the four quarters then ended. If the net income is lower than the target yield, the high watermark is increased by the difference. If the net income is higher than the target yield, the high watermark is reduced by the difference. Each time a performance incentive fee is earned, the high watermark returns to zero. As a result,

Table of Contents

the threshold amounts required for us to earn a performance incentive fee are adjusted cumulatively based on the performance of PMT's net income over (or under) the target yield, until the net income in excess of the target yield exceeds the then current cumulative high watermark amount, and a performance incentive fee is earned.

The base management fee and the performance incentive fee are both receivable quarterly in arrears. The performance incentive fee may be paid in cash or in PMT's common shares (subject to a limit of no more than 50% paid in common shares), at PMT's option.

Under our management agreement, we are entitled to reimbursement of our organizational and operating expenses, including third-party expenses, incurred on PMT's behalf. Additionally, on December 15, 2015, we amended our management agreement to provide that the total overhead costs and expenses incurred by us in any quarter and reimbursable by PMT is capped at an amount as defined in the management agreement.

The term of the management agreement, as amended, expires on February 1, 2017, subject to automatic renewal for additional 18 month periods, unless terminated earlier in accordance with the terms of the management agreement.

In the event of termination by PMT, we may be entitled to a termination fee in certain circumstances. The termination fee is equal to three times the sum of (a) the average annual base management fee, and (b) the average annual performance incentive fee earned by us, in each case during the 24-month period before termination.

Investment Funds Management Agreements

We have investment management agreements with the Investment Funds pursuant to which we receive management fees consisting of base management fees and carried interest. The Investment Funds will continue in existence through December 31, 2016, subject to three one-year extensions by PCM at its discretion, in accordance with the terms of the limited liability company and limited partnership agreements that govern the Investment Funds.

Loan Servicing Agreements

PMT Loan Servicing Agreement

We have a loan servicing agreement with PMT, pursuant to which we provide loan servicing for its portfolio of residential mortgage loans. The servicing agreement provides for servicing fees payable to us based on the delinquency, bankruptcy and/or foreclosure status of the serviced loan or whether the underlying mortgage property has become REO.

- The base servicing fee rates for distressed whole mortgage loans are charged based on a monthly per loan dollar amount, with the actual dollar amount for each loan based on the delinquency, bankruptcy and/or foreclosure status of such loan or whether the underlying mortgage property has become REO. Presently, the base servicing fee rates for distressed whole mortgage loans range from $30 per month for current loans up to $125 per month for mortgage loans that are in foreclosure. The base servicing fee rate for REO and REO rentals is $75 and $30 per month, respectively. To the extent that we rent PMT's REO under its REO rental program, we collect an REO rental fee of $30 per month per REO and a property management fee in an amount equal to our cost if property management services and/or any related software costs are outsourced to a third-party property management firm or 9% of gross rental income if we provide property management services directly.
- The base servicing fee rates for non distressed mortgage loans subserviced by us on PMT's behalf are also calculated through a monthly per loan dollar amount, with the actual dollar amount for each mortgage loan based on whether the mortgage loan is a fixed rate or adjustable rate loan. The base servicing fee rates for mortgage loans subserviced on PMT's behalf are $7.50 per month for fixed rate mortgage loans and $8.50 per month for adjustable rate mortgage loans. To the extent that these mortgage loans become delinquent, we are entitled to an additional servicing fee per mortgage loan falling within a range of $10 to $55 per month based on the delinquency, bankruptcy and foreclosure status of the mortgage loan or $75 per month if the underlying mortgaged property becomes REO.
- We are required to provide a range of services and activities significantly greater in scope than the services provided in connection with a customary servicing arrangement because PMT does not have any

Table of Contents

employees or infrastructure. For these services, we receive a supplemental servicing fee of $25 per month for each distressed whole loan and, through August 31, 2015, received a supplemental servicing fee of $3.25 per month for each non distressed subserviced mortgage loan. With respect to non distressed subserviced mortgage loans, the supplemental servicing fee was subject to a cap of $700,000 per quarter. The supplemental servicing fee for non-distressed subserviced mortgage loans was eliminated, effective as of September 1, 2015. We are also entitled to reimbursement for all customary, good faith reasonable and necessary out of pocket expenses incurred in performance of our servicing obligations.

- We, on behalf of PMT, currently participate in the Home Affordable Modification Program ("HAMP") of the U.S. Department of the Treasury and U.S. Department of Housing and Urban Development ("HUD") (and other similar mortgage loan modification programs). HAMP establishes standard loan modification guidelines for "at risk" homeowners and provides incentive payments to certain participants, including mortgage loan servicers, for achieving modifications and successfully remaining in the program. The mortgage loan servicing agreement entitles us to retain any incentive payments made to us and to which we are entitled under HAMP; provided, however, that with respect to any such incentive payments paid to us under HAMP in connection with a mortgage loan modification for which PMT previously paid us a modification fee, we shall reimburse PMT an amount equal to the incentive payments.

We also remain entitled to market based fees and charges, including boarding and deboarding fees, liquidation and disposition fees, assumption, modification and origination fees and late charges relating to loans we service for PMT.

Investment Funds Loan Servicing Agreements

We have also entered into loan servicing agreements with the Investment Funds. Our servicing agreements with the Investment Funds generally provide for fee revenue, which varies depending on the type and quality of the loans being serviced. We are also entitled to certain customary market-based fees and charges. This arrangement was modified, effective January 1, 2012, with respect to one of the Investment Funds. At that time, we settled our accrued servicing fee rebate and amended our servicing agreement with such fund to charge scheduled servicing fees in place of the previous "at cost" servicing arrangement.

Mortgage Banking and Warehouse Services Agreement

We have also entered into a mortgage banking and warehouse services agreement (the "MBWS agreement"), pursuant to which we provide PMT with certain mortgage banking services, including fulfillment and disposition-related services, with respect to loans acquired by PMT from correspondent lenders, and certain warehouse lending services, including fulfillment and administrative services, with respect to loans financed by PMT for its warehouse lending clients.

The MBWS agreement provides for a fulfillment fee paid to us based on the type of mortgage loan that PMT acquires. The fulfillment fee is equal to a percentage of the UPB of mortgage loans purchased by PMT, with the addition of

potential fee rate discounts applicable to PMT's monthly purchase volume in excess of designated thresholds. We have also agreed to provide such services exclusively for PMT's benefit, and we and our affiliates are prohibited from providing such services for any other third party.

Presently, the applicable fulfillment fee percentages are (i) 0.50% for conventional mortgage loans, (ii) 0.88% for loans saleable in accordance with the Ginnie Mae Mortgage Backed Securities Guide, and (iii) 0.50% for all other mortgage loans not contemplated above; provided, however, that we may, in our sole discretion, reduce the amount of the applicable fulfillment fee and credit the amount of such reduction to the reimbursement otherwise due as described below. This reduction may only be credited to the reimbursement applicable to the month in which the related mortgage loan was funded.

In the event that PMT purchases mortgage loans with a total UPB in any month greater than $2.5 billion and less than $5 billion, we have agreed to discount the amount of such fulfillment fees by reimbursing PMT an amount equal to the product of (i) 0.025%, (ii) the amount of UPB in excess of $2.5 billion, and (iii) the percentage of the total UPB relating to mortgage loans for which we collected fulfillment fees in such month. In the event PMT purchases mortgage loans with a total UPB in any month greater than $5 billion, we have agreed to further discount the amount of fulfillment fees by reimbursing PMT an amount equal to the product of (i) 0.05%, (ii) the amount of UPB in excess of

Table of Contents

$5 billion, and (iii) the percentage of the total UPB relating to mortgage loans for which we collected fulfillment fees in such month.

PMT does not hold the Ginnie Mae approval required to issue Ginnie Mae MBS and act as a servicer. Accordingly, under the MBWS agreement, we currently purchase loans saleable in accordance with the Ginnie Mae Mortgage Backed Securities Guide "as is" and without recourse of any kind to PMT at its cost, plus accrued interest and a sourcing fee of three basis points, in each case on the UPB of the loan, less loan administrative fees collected by PMT from the seller.

In consideration for the mortgage banking services provided by us with respect to PMT's acquisition of mortgage loans under PLS's early purchase program, we are entitled to fees (i) accruing at a rate equal to $1,500 per year per early purchase facility administered by us, and (ii) in the amount of $35 for each mortgage loan PMT acquires. In consideration for the warehouse services provided by us with respect to mortgage loans that PMT finances for its warehouse lending clients, with respect to each facility, we are entitled to fees (i) accruing at a rate equal to $40,000 per annum for each of the first twenty (20) warehouse lending facilities active in any month and $10,000 per annum for each additional warehouse lending facility active in any month, and (ii) in the amount of $50 for each mortgage loan that PMT finances thereunder. Where PMT has entered into both an early purchase agreement and a warehouse lending agreement with the same client, we shall only be entitled to one $25,000 per year fee and, with respect to any mortgage loan that becomes subject to both such agreements, only one $50 per mortgage loan fee.

The term of the MBWS agreement expires on February 1, 2017, subject to automatic renewal for additional 18 month periods, unless terminated earlier in accordance with the terms of the agreement.

MSR Recapture Agreement

Pursuant to the terms of a MSR recapture agreement, as amended, if we refinance through our consumer direct lending business mortgage loans for which PMT previously held the MSRs, we are generally required to transfer and convey to one of PMT's wholly owned subsidiaries, without cost to PMT, the MSRs with respect to new mortgage loans originated in those refinancings (or, under certain circumstances, other mortgage loans) that have a total UPB that is not less than 30% of the total UPB of all such mortgage loans so originated.

Where the fair value of the aggregate MSRs to be transferred for the applicable month is less than $200,000, we may, at our option, pay cash to PMT in an amount equal to such fair market value instead of transferring such MSRs. The MSR recapture agreement expires, unless terminated earlier in accordance with the agreement, on February 1, 2017, subject to automatic renewal for additional 18 month periods.

Spread Acquisition and MSR Servicing Agreements

Effective February 1, 2013, we entered into a master spread acquisition and MSR servicing agreement (the "2/1/13 Spread Acquisition Agreement"), pursuant to which we previously sold to PMT or one of its wholly owned subsidiaries the rights to receive certain ESS from MSRs acquired by us from banks and other third party financial institutions. We were generally required to service or subservice the related mortgage loans for the applicable agency or investor. We only used the 2/1/13 Spread Acquisition Agreement for the purpose of selling ESS relating to Fannie Mae MSRs. The specific terms of each transaction under the 2/1/13 Spread Acquisition Agreement were subject to the terms thereof, as modified and supplemented by the terms of a confirmation executed in connection with such transaction.

To the extent we refinanced any of the mortgage loans relating to the ESS sold to PMT, the 2/1/13 Spread Acquisition Agreement contained recapture provisions requiring that we transfer to PMT, at no cost, the ESS relating to a certain percentage of the UPB of the newly originated mortgage loans. To the extent the fair value of the aggregate ESS to be transferred for the applicable month was less than $200,000, we were, at our option, permitted to pay cash to PMT in an amount equal to such fair value instead of transferring such ESS.

On February 29, 2016, the parties terminated the 2/1/13 Spread Acquisition Agreement and all amendments thereto. In connection with the termination of the 2/1/13 Spread Acquisition Agreement, we reacquired from PMT all of its right, title and interest in and to all of the Fannie Mae ESS previously sold by us to PMT and then subject to such 2/1/13 Spread Acquisition Agreement.

Table of Contents

On December 19, 2014, we entered into a second master spread acquisition and MSR servicing agreement with PMT (the "12/19/14 Spread Acquisition Agreement"). The terms of the 12/19/14 Spread Acquisition Agreement are substantially similar to the terms of the 2/1/13 Spread Acquisition Agreement, except that we only intend to sell ESS relating to Freddie Mac MSRs under the 12/19/14 Spread Acquisition Agreement.

To the extent we refinance any of the mortgage loans relating to the ESS we sell to PMT, the 12/19/14 Spread Acquisition Agreement also contains recapture provisions requiring that we transfer to PMT, at no cost, the ESS relating to a certain percentage of the UPB of the newly originated mortgage loans. To the extent the fair market value of the aggregate ESS to be transferred for the applicable month is less than $200,000, we may, at our option, pay cash to PMT in an amount equal to such fair market value in lieu of transferring such ESS.

On February 29, 2016, we reacquired from PMT all of its right, title and interest in and to all of the Freddie Mae ESS previously sold by us to PMT and then subject to such 12/19/14 Spread Acquisition Agreement. The 12/19/14 Spread Acquisition Agreement remains in full force and effect.

On April 30, 2015, we amended and restated a third master spread acquisition and MSR servicing agreement with PMT (the "4/30/15 Spread Acquisition Agreement"). The terms of the 4/30/15 Spread Acquisition Agreement are substantially similar to the terms of the 2/1/13 Spread Acquisition Agreement and the 12/19/14 Spread Acquisition Agreement, except that we only intend to sell ESS relating to Ginnie Mae MSRs under the 4/30/15 Spread Acquisition Agreement. The primary purpose of the amendment and restatement to the 4/30/15 Spread Agreement was to evidence the ownership of the ESS under participation certificates and to otherwise incorporate the terms of previously executed amendments.

To the extent we refinance any of the mortgage loans relating to the ESS we sell to PMT, the 4/30/15 Spread Acquisition Agreement also contains recapture provisions requiring that we transfer to PMT, at no cost, the ESS relating to a certain percentage of the UPB of the newly originated mortgage loans. However, under the 4/30/15 Spread Acquisition Agreement, in any month where the transferred ESS relating to newly originated Ginnie Mae mortgage loans is not equivalent to at least 90% of the product of the excess servicing fee rate and the UPB of the refinanced mortgage loans, we are also required to transfer additional ESS or cash in the amount of such shortfall. Similarly, in any month where the transferred ESS relating to modified Ginnie Mae mortgage loans is not equivalent to at least 90% of the product of the excess servicing fee rate and the UPB of the modified mortgage loans, the 4/30/15 Spread Acquisition Agreement contains provisions that require us to transfer additional ESS or cash in the amount of such shortfall. To the extent the fair value of the aggregate ESS to be transferred for the applicable month is less than $200,000, we may, at our option, pay cash to PMT in an amount equal to such fair value instead of transferring such ESS.

In connection with our entry into the 4/30/15 Spread Acquisition Agreement, we were also required to (i) amend and restate the terms of a loan and security agreement (the "LSA") with Credit Suisse First Boston Mortgage Capital LLC ("CSFB"), pursuant to which we pledged to CSFB all of our rights and interests in the Ginnie Mae MSRs we own or

acquire, enabling us to finance certain of such MSRs and servicing advance receivables, and (ii) enter into a separate acknowledgement agreement with respect thereto, by and among Ginnie Mae, CSFB and us. Under the terms of the amendment and restatement to the LSA, the maximum loan amount was increased from $257 million to $407 million. The $150 million increase was implemented for the purpose of facilitating the financing of ESS by PMT. On November 10, 2015, the LSA was further amended and restated to convert the form of the borrowing into a repurchase agreement (as amended and restated, the "MSR Repo"). The aggregate loan amount outstanding under the MSR Repo and relating to advances outstanding with PMT is guaranteed in full by PMT.

Separately, as a condition to permitting us to transfer to PMT the ESS relating to a portion of our pledged Ginnie Mae MSRs, CSFB required PMT to enter into a Security and Subordination Agreement (the "Security Agreement"), pursuant to which PMT pledged to CSFB its rights under the 4/30/15 Spread Acquisition Agreement and its interest in any ESS purchased thereunder. CSFB's lien on the ESS remains subordinate to the rights and interests of Ginnie Mae pursuant to the provisions of the 4/30/15 Spread Acquisition Agreement and the terms of the acknowledgement agreement.

The Security Agreement permits CSFB to liquidate PMT's ESS along with the related MSRs to the extent there exists an event of default under the MSR Repo, and it contains certain trigger events, including breaches of representations, warranties or covenants and defaults under other of PMT's credit facilities, that would require us to either (i) repay in full the outstanding loan amount under the MSR Repo or (ii) repurchase the ESS from PMT at fair

Table of Contents

value. To the extent we are unable to repay the loan under the MSR Repo or repurchase the ESS, an event of default would exist under the MSR Repo, thereby entitling CSFB to liquidate the ESS and the related MSRs. In the event the ESS is liquidated as a result of certain actions 69 or inactions by us, PMT generally would be entitled to seek indemnity from us under the 4/30/15 Spread Acquisition Agreement.

Note Receivable from PMT

In connection with certain of the amendments and restatements described above, we entered into an underlying loan and security agreement with PMT, dated as of April 30, 2015, pursuant to which PMT may borrow up to $150 million from us for the purpose of financing ESS (the “Underlying LSA”).

The principal amount of the borrowings under the Underlying LSA is based upon a percentage of the market value of the ESS pledged by PMT, subject to the $150 million sublimit described above. Pursuant to the Underlying LSA, PMT granted us a security interest in all of its right, title and interest in, to and under the ESS pledged to secure the borrowings.

We have agreed with PMT in connection with the Underlying LSA that PMT is required to repay us the principal amount of borrowings plus accrued interest to the date of such repayment, and we are required, in turn, to repay CSFB the corresponding amount under the MSR Repo. Interest accrues on the note receivable from PMT relating to the Underlying LSA at a rate based on CSFB’s cost of funds under the MSR Repo. PMT was also required to pay us a fee for the structuring of the Underlying LSA in an amount equal to the portion of the corresponding fee paid by us to CSFB allocable to the increase in the maximum loan amount under the MSR Repo resulting from the ESS financing.

Loan Purchase Agreements

We have entered into a mortgage loan purchase agreement and a flow commercial mortgage loan purchase agreement with PMT. Currently, we use the mortgage loan purchase agreement for the purpose of selling to PMT prime jumbo residential mortgage loans originated by us through our consumer direct lending business. We use the flow commercial mortgage loan purchase agreement for the purpose of selling to PMT small balance commercial mortgage loans, including multifamily mortgage loans, originated by us as part of our commercial lending business. Each of the loan purchase agreements contains customary terms and provisions, including representations and warranties, covenants, repurchase remedies and indemnities. The purchase prices paid to us by PMT for such loans are market-based.

Reimbursement Agreement

In connection with the IPO of PMT's common shares on August 4, 2009, we entered into an agreement with PMT pursuant to which PMT agreed to reimburse us for the $2.9 million payment that it made to the underwriters in such offering (the "Conditional Reimbursement") if PMT satisfied certain performance measures over a specified period of time. Effective February 1, 2013, the parties amended the terms of the reimbursement agreement to provide for the reimbursement to us of the Conditional Reimbursement if PMT is required to pay us performance incentive fees under the management agreement at a rate of $10 in reimbursement for every $100 of performance incentive fees earned. The reimbursement of the Conditional Reimbursement is subject to a maximum reimbursement in any particular 12 month period of $1.0 million and the maximum amount that may be reimbursed under the agreement is $2.9 million.

In the event the termination fee is payable to us under the management agreement and we have not received the full amount of the reimbursements and payments under the reimbursement agreement, such amount will be paid in full. The term of the reimbursement agreement expires on February 1, 2019.

Debt Obligations

As described further above in "Liquidity and Capital Resources," we currently finance certain of our assets through borrowings with major financial institution counterparties in the form of sales of assets under agreements to repurchase, a mortgage loan participation and sale agreement, two notes payable, ESS and a capital lease. The borrower under each of these facilities is PLS with the exception of the revolving credit agreement which is classified as a note payable and the capital lease, in which the borrower is PennyMac. All PLS obligations as previously noted are guaranteed by PennyMac.

Table of Contents

Under the terms of these agreements, PLS is required to comply with certain financial covenants, as described further above in "Liquidity and Capital Resources," and various non-financial covenants customary for transactions of this nature. As of March 31, 2016, we were in compliance in all material respects with these covenants.

The agreements also contain margin call provisions that, upon notice from the applicable lender, require us to transfer cash or, in some instances, additional assets in an amount sufficient to eliminate any margin deficit. Upon notice from the applicable lender, we will generally be required to satisfy the margin call on the day of such notice or within one business day thereafter, depending on the timing of the notice.

In addition, the agreements contain events of default (subject to certain materiality thresholds and grace periods), including payment defaults, breaches of covenants and/or certain representations and warranties, cross-defaults, guarantor defaults, servicer termination events and defaults, material adverse changes, bankruptcy or insolvency proceedings and other events of default customary for these types of transactions. The remedies for such events of default are also customary for these types of transactions and include the acceleration of the principal amount outstanding under the agreements and the liquidation by our lenders of the mortgage loans or other collateral then subject to the agreements.

All of the borrowings discussed above have short-term maturities that expire as follows:

(1) The borrowing with Credit Suisse First Boston Mortgage Capital LLC (with a committed amount of $407 million) is in the form of sales of participation certificates representing beneficial ownership in MSRs and ESS under agreements to repurchase. The borrowings with Credit Suisse First Boston Mortgage Capital LLC (with a

committed amount of $300 million), Bank of America, N.A. (with a committed amount of $225 million), Citibank, N.A. and Morgan Stanley Bank, N.A. are in the form of sales of mortgage loans under agreements to repurchase. The borrowing with Bank of America, N.A. (with a total facility size of $250 million) is in the form of a mortgage loan participation and sale agreement. The borrowing with Barclays Bank PLC (with a total facility size of $100 million) is in the form of a note payable secured by MSRs. The borrowings with Barclays Bank PLC (with a total facility size of $300 million) is in the form of sales of assets under agreements to repurchase and a mortgage loan participation and sale agreement. The borrowing with Credit Suisse First AG (with a committed amount of $100 million) is in the form of a revolving credit agreement.

Quantitative and Qualitative Disclosures About Market Risk

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices, real estate values and other market based risks. The primary market risks that we are exposed to are credit risk, interest rate risk, prepayment risk, inflation risk and market value risk.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

In response to this Item 3, the information set forth on pages 70 to 72 of this Report is incorporated herein by reference.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. However, no matter how well a control system is designed and operated, it can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in our periodic reports.

Our management has conducted an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Report as required by paragraph (b) of Rule 13a-15 under the Exchange Act. Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this Report, to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during the three months ended March 31, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 5. Other Information

On May 3, 2016, we, through our subsidiary, Private National Mortgage Acceptance Company, LLC ("PennyMac"), entered into Schedule Number 002 (the "Schedule") pursuant to that certain Master Lease Agreement, dated as of December 9, 2015 (the "Master Lease"), with Banc of America Leasing & Capital, LLC ("BALC"). Pursuant to the terms of the Master Lease, we may borrow funds from BALC on an uncommitted basis for the purpose of financing equipment and/or leasehold improvements described and on the terms set forth in schedules from time to time. The Master Lease is guaranteed in full by our indirect controlled subsidiary, PennyMac Loan Services, LLC. Pursuant to the Schedule, PennyMac is financing equipment with an aggregate cost of approximately $12.7 million. The Schedule has a three-year term and interim rent and base rent is payable pursuant to the terms thereof. At the expiration of the three-year term, we are obligated to purchase the leased equipment on an as-is, where-is basis for a nominal amount. PennyMac has elected to treat the Master Lease as a capital lease obligation as defined in Item 303(a)(5)(ii)(C) of Regulation S-K (17 CFR 229.303(a)(5)(ii)(C)).

The foregoing description of the Schedule and the Master Lease does not purport to be complete and is qualified in its entirety by reference to the full text of the Schedule, which has been filed as an exhibit to this Report, and the full text of the Master Lease, which was filed as Exhibit 10.1 to our Current Report on Form 8-K filed on December 14, 2015..
