SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES AND EXCHANGE ACT
OF 1934

For the Quarterly Period Ended December 31, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934

For the Transition Period from _____ to _____

Commission File Number 000-50924

BEACON ROOFING SUPPLY, INC.

(Exact name of registrant as specified in its charter)

Delaware 36-4173371
(State or other jurisdiction of (I.R.S. Employer

Incorporation or Organization) Identification No.)

505 Huntmar Park Drive, Suite 300, Herndon, VA 20170

(Address of Principal Executive Offices) (Zip Code)

(571) 323-3939

(Registrant's telephone number, including area code)

Edgar Filing: BEACON ROOFING SUPPLY INC - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities and Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes
No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act:

Large accelerated filer

Accelerated filer

Non-accelerated filer (do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of January 31, 2018, 68,011,206 shares of common stock, par value \$0.01 per share, of the registrant were outstanding.

BEACON ROOFING SUPPLY, INC.

Notes to Condensed Consolidated Financial Statements

(Unaudited; In thousands, except share and per share data or otherwise indicated)

1. Company Overview

Beacon Roofing Supply, Inc. (the “Company”) was incorporated in the state of Delaware on August 22, 1997 and is the largest publicly traded distributor of residential and non-residential roofing materials and complementary building products in the United States and Canada. The Company operates its business under regional and local trade names and, as of December 31, 2017, the Company serviced customers in 48 states within the United States and 6 provinces in Canada. The Company’s material subsidiaries are Beacon Sales Acquisition, Inc., Beacon Canada, Inc. and Beacon Roofing Supply Canada Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

Beacon Roofing Supply, Inc. (the “Company”) prepared the condensed consolidated financial statements in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and the requirements of the Securities and Exchange Commission (“SEC”). As permitted under those rules, certain footnotes or other financial information have been condensed or omitted. The balance sheet as of December 31, 2016 has been presented for a better understanding of the impact of seasonal fluctuations on the Company’s financial condition.

In management’s opinion, the financial statements include all normal and recurring adjustments that are considered necessary for the fair presentation of the Company’s financial position and operating results. The results for the three-month periods ended December 31, 2017 are not necessarily indicative of the results to be expected for the twelve months ending September 30, 2018 (“fiscal year 2018” or “2018”).

The three-month periods ended December 31, 2017 and 2016 each had 61 business days.

These interim Condensed Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements and Notes thereto contained in the Company’s fiscal year 2017 (“2017”) Annual Report on Form 10-K for the year ended September 30, 2017.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in these consolidated financial statements and accompanying notes. Significant items subject to such estimates include inventories, purchase price allocations, recoverability of goodwill and intangibles, and income taxes. Actual amounts could differ from those estimates.

Recent Accounting Pronouncements—Adopted

In July 2015, the FASB issued ASU 2015-11, “Inventory: Simplifying the Measurement of Inventory.” This guidance applies to inventory valued at first-in, first-out (FIFO) or average cost and requires inventory to be measured at the lower of cost and net realizable value, rather than at the lower of cost or market. This new standard is effective on a prospective basis for annual and interim reporting periods beginning after December 15, 2016. The Company adopted this guidance effective October 1, 2017 and the standard did not have a no material impact on the Company’s financial statements and related disclosures.

In March 2016, the FASB issued ASU 2016-09, “Compensation—Stock Compensation: Improvements to Employee Share-Based Payment Accounting.” This guidance is intended to simplify several aspects of the accounting for share-based payment transactions, including the accounting for income taxes, forfeitures and statutory tax withholding requirements, as well as classification in the statement of cash flows. The provisions of this standard are effective for reporting periods beginning after December 15, 2016 and early adoption is permitted in any interim or annual period. The Company adopted this guidance effective October 1, 2017. As a result, the Company now records excess tax benefits (or deficiencies) as income tax benefits (or expenses) in our consolidated statements of operations rather than as additional paid-in-capital in its consolidated balance sheets. ASU 2016-09 allowed for this guidance to be applied prospectively or retrospectively. The Company elected to apply this guidance prospectively, and recognized \$2.4 million of excess tax benefits in our consolidated statement of operations for the three months ended December 31, 2017 related to equity award transactions executed in the period. To align with the prospective treatment in our consolidated statements of operations, the Company now classifies excess tax benefits (or deficiencies) along with accrued income taxes in operating activities within our consolidated statements of cash flows. The Company elected to retain its historical approach to

accounting for forfeitures and statutory tax withholding requirements, therefore these specific aspects of the new guidance had no impact on its financial statements and related disclosures.

In November 2016, the FASB issued ASU 2016-18, “Restricted Cash.” This guidance standardizes the presentation of changes to restricted cash on the statement of cash flows by requiring that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amount generally described as restricted cash or restricted cash equivalents. The provisions of this standard are effective for reporting periods beginning after December 15, 2017. Early adoption is permitted in any interim or annual period, and the guidance is required to be applied retrospectively. The Company adopted this guidance effective October 1, 2017. As a result, the Company included restricted cash within its consolidated statements of cash flows for the three months ended December 31, 2017 and 2016, and also included the required disclosures within the related footnotes.

Recent Accounting Pronouncements—Not Yet Adopted

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers.” This guidance requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers, and will replace most existing revenue recognition guidance when it becomes effective. This new standard is effective for public business entities for annual and interim reporting periods beginning after December 15, 2017, and early adoption is permitted for annual reporting periods beginning after December 15, 2016. The standard permits the use of either the full retrospective or modified retrospective adoption methods. The Company is continuing to perform a detailed evaluation, using a five-step model specified in the guidance, to assess the impacts of the new standard and expects to apply the guidance using the modified retrospective method. Based on the Company’s knowledge of its revenue transactions, the Company does not expect the adoption of this new guidance to have a material impact on its financial statements, but does expect that it will result in additional revenue recognition disclosures.

In February 2016, the FASB issued ASU 2016-02, “Leases.” This guidance will replace most existing accounting for lease guidance when it becomes effective. This new standard is effective using the modified retrospective approach for annual and interim reporting periods beginning after December 15, 2018 and early adoption is permitted. The guidance will require the Company to record a right of use asset and a lease liability for most of the Company’s leases, including those currently treated as operating leases. The Company is in the process of evaluating the impact of the standard and has decided that it will use the practical expedients outlined in the transition guidance. The scope of the overall impact on the Company’s financial statements and related disclosures is still being quantified.

In June 2016, the FASB issued ASU 2016-13, “Financial Instruments – Credit Losses: Measurement of Credit Losses on Financial Instruments.” This guidance is intended to introduce a revised approach to the recognition and measurement of credit losses, emphasizing an updated model based on expected losses rather than incurred losses. This new standard is effective for annual and interim reporting periods beginning after December 15, 2019 and early adoption is permitted. The Company is currently evaluating the impact that this guidance may have on its financial statements and related disclosures.

In January 2017, the FASB issued ASU 2017-01, “Business Combinations: Clarifying the Definition of a Business.” This guidance is intended to assist entities when evaluating when a set of transferred assets and activities constitutes a business. This new standard is effective for annual and interim reporting periods beginning after December 15, 2017 and early adoption is permitted. The Company does not expect the adoption of this new guidance to have a material impact on its financial statements and related disclosures.

In January 2017, the FASB issued ASU 2017-04, “Simplifying the Accounting for Goodwill Impairment.” This guidance is intended to introduce a simplified approach to measurement of goodwill impairment, eliminating the need for a hypothetical purchase price allocation and instead measuring impairment by the amount a reporting unit’s carrying value exceeds its fair value. This new standard is effective for annual and interim reporting periods beginning

after December 15, 2019 and early adoption is permitted. The Company does not expect the adoption of this new guidance to have a material impact on its financial statements and related disclosures.

In May 2017, the FASB issued ASU 2017-09, "Scope of Modification Accounting." This guidance is intended to provide clarity and reduce both diversity in practice and cost and complexity when applying the guidance in Compensation – Stock Compensation, to a change to the terms or conditions of a share-based payment award. This new standard is effective for annual and interim reporting periods beginning after December 15, 2017 and early adoption is permitted. The Company does not expect the adoption of this new guidance to have a material impact on its financial statements and related disclosures.

3. Acquisitions

During fiscal year 2017, the Company acquired 23 branches from the following five acquisitions:

On December 16, 2016, the Company purchased certain assets of BJ Supply Company, a distributor of roofing and related building products with 1 branch serving Pennsylvania and New Jersey and annual sales of approximately \$4 million. The Company has finalized the acquisition accounting entries for this transaction.

On January 3, 2017, the Company acquired American Building & Roofing, Inc., a distributor of mainly residential roofing and related building products with 7 branches around Washington State and annual sales of approximately \$36 million.

On January 9, 2017, the Company acquired Eco Insulation Supply, a distributor of insulation and related accessories with 1 branch serving Connecticut, Southern New England and the New York City metropolitan area and annual sales of approximately \$8 million.

On March 1, 2017, the Company acquired Acme Building Materials, Inc., a distributor of residential roofing and related building products with 3 branches in Eastern Michigan and annual sales of approximately \$13 million.

On May 1, 2017, the Company purchased certain assets of Lowry's Inc., a distributor of waterproofing and concrete restoration materials with 11 branches operating in California, Arizona, Utah and Hawaii and annual sales of approximately \$76 million.

The Company recorded the acquired assets and liabilities related to these transactions at their estimated fair values as of the respective acquisition dates, with resulting goodwill of \$53.0 million (all of which is deductible for tax purposes) and \$47.4 million in intangible assets associated with these other acquisitions.

For those acquisitions where the acquisition accounting entries have yet to be finalized, the Company's allocation of the purchase price is subject to change on receipt of additional information, including, but not limited to, the finalization of asset valuations (intangible and fixed) and income tax accounting.

4. Net Income per Share

Basic net income per common share is computed by dividing net income by the weighted-average number of common shares outstanding during the period. Diluted net income per common share is computed by dividing net income by the weighted-average number of common shares and dilutive common share equivalents then outstanding using the treasury stock method. Common share equivalents consist of the incremental common shares issuable upon the exercise of stock options and vesting of restricted stock awards.

The following table presents the basic and diluted weighted-average shares outstanding for each period presented:

	Three Months Ended December 31,	
	2017	2016
Weighted-average common shares outstanding, basic	67,825,430	59,943,264
Effect of dilutive securities:		
Stock options	914,724	649,644
Restricted stock units	504,524	400,172
Weighted-average common shares outstanding, diluted	69,244,678	60,993,080

The following table includes the number of shares that may be dilutive common shares in the future. These shares were not included in the computation of diluted net income per share because the effect was either anti-dilutive or the requisite performance conditions were not met.

	Three Months Ended December 31,	
	2017	2016
Stock options	288,275	561,741
Restricted stock units	-	247,559

5. Stockholders' Equity

The following table presents the activity included in stockholders' equity during the three months ended December 31, 2017 (in thousands, except share amounts):

	Common Stock		Additional	Retained	Accumulated	Total
	Shares	Amount	Paid-in	Earnings	Other	Stockholders'
			Capital		Loss	Equity
Balance at September 30, 2017	67,700,858	\$ 677	\$ 1,047,506	\$ 748,186	\$ (14,563)	\$ 1,781,806
Issuance of common stock, net of shares withheld for taxes	271,525	2	(147)	-	-	(145)
Issuance costs related to secondary offering of common stock			(429)			(429)
Stock-based compensation	-	-	3,459	-	-	3,459
Other comprehensive income	-	-	-	-	57	57
Net income	-	-	-	67,596	-	67,596
Balance at December 31, 2017	67,972,383	\$ 679	\$ 1,050,389	\$ 815,782	\$ (14,506)	\$ 1,852,344

Common and Preferred Stock

The Company is authorized to issue 100 million shares of common stock and 5 million shares of preferred stock. As of December 31, 2017, September 30, 2017, and December 31, 2016 there were 67,972,383, 67,700,858 and 60,030,516 shares of common stock issued and outstanding, respectively, and no preferred stock outstanding as of any period end.

Accumulated Other Comprehensive Loss

Other comprehensive income (loss) is comprised of certain gains and losses that are excluded from net income under GAAP and instead recorded as a separate element of stockholders' equity. The Company's other comprehensive income (loss) consists of foreign currency translation adjustments as well as unrealized gains or losses on the Company's derivative contracts.

The following table summarizes the components of and changes in accumulated other comprehensive loss (in thousands):

	Accumulated	
	Foreign	Other
	Currency	Comprehensive
	Translation	Loss
Balance as of September 30, 2017	\$ (14,563)	\$ (14,563)
Other comprehensive income before reclassifications	57	57
Reclassifications out of other comprehensive loss	-	-
Balance as of December 31, 2017	\$ (14,506)	\$ (14,506)

6. Stock-based Compensation

On February 9, 2016, the shareholders of the Company approved the Amended and Restated Beacon Roofing Supply, Inc. 2014 Stock Plan (the “2014 Plan”). The 2014 Plan provides for discretionary awards of stock options, stock awards, restricted stock units, and stock appreciation rights (“SARs”) for up to 5,000,000 shares of common stock to selected employees and non-employee directors. The 2014 Plan mandates that all forfeited, expired, and withheld shares, including those from the predecessor plans, be returned to the 2014 Plan and made available for issuance. As of December 31, 2017, there were 3,638,039 shares of common stock available for issuance.

Prior to the 2014 Plan, the Company maintained the amended and restated Beacon Roofing Supply, Inc. 2004 Stock Plan (the “2004 Plan”). Upon shareholder approval of the 2014 Plan, the Company ceased issuing equity awards from the 2004 Plan and mandated that all future equity awards will be issued from the 2014 Plan.

For all equity awards granted prior to October 1, 2014, in the event of a change in control of the Company, all awards are immediately vested. Beginning in fiscal 2015, equity awards contained a “double trigger” change in control mechanism. Unless an award is continued or assumed by a public company in an equitable manner, an award shall become fully vested immediately prior to a change in control (at 100% in the case of a performance-based restricted stock award). If an award is so continued or assumed, vesting will continue in accordance with the terms of the award, unless there is a qualifying termination within one-year following the

change in control, in which event the award shall become fully vested immediately (at 100% in the case of a performance-based restricted stock award).

Stock Options

Non-qualified stock options generally expire 10 years after the grant date and, except under certain conditions, the options are subject to continued employment and vest in three annual installments over the three-year period following the grant dates.

The fair values of the options granted during the three months ended December 31, 2017 were estimated on the dates of grants using the Black-Scholes option-pricing model with the following weighted-average assumptions:

Risk-free interest rate	2.10 %
Expected volatility	26.43 %
Expected life (in years)	5.46
Dividend yield	-

The following table summarizes all stock option activity for the three months ended December 31, 2017 (in thousands, except share, per share, and time period amounts):

	Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value ¹
Balance as of September 30, 2017	2,084,228	\$ 28.84	6.1	\$ 46,714

Balance as of December 31, 2017	2,196,025	\$ 32.44	6.4	\$ 68,776
Vested and expected to vest after December 31, 2017	2,168,798	\$ 32.25	6.4	\$ 68,339
Exercisable as of December 31, 2017	1,582,337	\$ 27.40	5.4	\$ 57,537

¹ Aggregate intrinsic value as represents the difference between the closing fair value of the underlying common stock and the exercise price of outstanding, in-the-money options on the date of measurement.

During the three months ended December 31, 2017 and 2016, the Company recorded stock-based compensation expense related to stock options of \$1.1 million and \$1.3 million, respectively. As of December 31, 2017, there was \$8.0 million of unrecognized compensation cost related to unvested stock options, which is expected to be recognized over a weighted-average period of 2.3 years.

The following table summarizes additional information on stock options for the period presented (in thousands, except per share amounts):

	Three Months Ended December 31,	
	2017	2016
Weighted-average fair value of stock options granted	\$ 15.86	\$ 14.21
Total fair value of stock options vested	3,773	4,887
Total intrinsic value of stock options exercised	5,448	2,750

Restricted Stock Units

Restricted stock unit (“RSU”) awards granted to employees are subject to continued employment and generally vest after three years. The Company also grants certain RSU awards to management that contain an additional vesting condition tied directly to a defined performance metric for the Company. The actual number of RSUs that will vest can range from 0% to 150% of the grant, depending upon actual Company performance below or above the established target level. The Company estimates performance in relation to the target when determining the projected number of RSUs that will vest and calculating the stock-based compensation cost related to these awards.

RSUs granted to non-employee directors are subject to continued service and vest after one year (except under certain conditions). Generally, the common shares underlying the RSUs are not eligible for distribution until the director's service on the Board has terminated. For non-employee director RSU grants made prior to fiscal year 2014, the share distribution date is six months after the director's termination of service on the board. RSU grants made in fiscal year 2014 and thereafter have no such holding period requirement. Additionally, beginning in fiscal year 2016 non-employee directors holding common stock and outstanding vested unexercised/unsettled equity awards with a fair value that is greater than or equal to five times the annual cash retainer may elect to have future grants settle simultaneously with vesting.

The following table summarizes all restricted stock unit activity for the period presented:

	RSUs	Weighted-Average Grant Date Fair Value
Balance at September 30, 2017	770,973	\$ 38.95
Granted	160,510	55.17
Performance awards ¹	41,440	39.56
Released	(184,771)	31.31
Canceled/Forfeited	(7,206)	40.65
Balance at December 31, 2017	780,946	\$ 44.11
Vested and expected to vest after December 31, 2017	748,271	\$ 43.92

¹ Additional restricted stock units outstanding as a result of the satisfaction of a performance vesting condition prior to the ascribed time-based vesting condition (release date).

During the three months ended December 31, 2017 and 2016, the Company recorded stock-based compensation expense related to restricted stock units of \$2.4 million and \$2.5 million, respectively. As of December 31, 2017, there was \$18.2 million of unrecognized compensation cost related to unvested restricted stock units, which is expected to be recognized over a weighted-average period of 2.1 years.

The following table summarizes additional information on RSUs for the period presented (in thousands):

	Three Months Ended December 31,	
	2017	2016
Weighted-average fair value of RSUs granted	\$55.17	\$47.40
Total fair value of RSUs vested	5,786	1,002
Total intrinsic value of RSUs released	10,683	1,096

7. Goodwill and Intangible Assets

Goodwill

The following table sets forth the change in the carrying amount of goodwill for the Company during the three months ended December 31, 2017 and 2016, respectively (in thousands):

Balance at September 30, 2016	\$1,197,565
Acquisitions	774
Translation and other adjustments	(789)
Balance at December 31, 2016	\$1,197,550
Balance at September 30, 2017	\$1,251,986
Acquisitions	-
Translation and other adjustments	(161)
Balance at December 31, 2017	\$1,251,825

The change in the carrying amount of goodwill for the three months ended December 31, 2017 was driven by foreign currency translation adjustments.

Intangible Assets

In connection with transactions finalized during fiscal year 2017, the Company recorded intangible assets of \$47.4 million (\$42.7 million of customer relationships, \$4.6 million of amortizable trademarks, and \$0.1 million of beneficial lease arrangements). Intangible assets consisted of the following (in thousands, except time period amounts):

	December 31,	September 30,	December 31,	Weighted- Average Remaining Life ¹
	2017	2017	2016	(Years)
Amortizable intangible assets:				
Non-compete agreements	\$ 2,824	\$ 2,824	\$ 2,824	3.10
Customer relationships	609,984	610,026	567,157	17.36
Trademarks	10,500	10,500	5,900	8.17
Beneficial lease arrangements	1,060	1,060	960	8.65
Total amortizable intangible assets	624,368	624,410	576,841	
Less: Accumulated amortization	(286,561)	(268,391)	(205,681)	
Total amortizable intangible assets, net	\$ 337,807	\$ 356,019	\$ 371,160	
Indefinite lived trademarks	73,050	73,050	73,050	
Total intangibles, net	\$ 410,857	\$ 429,069	\$ 444,210	

¹ As of December 31, 2017

For the three month periods ended December 31, 2017 and 2016, we recorded \$18.2 million and \$20.1 million of amortization expense relating to the above-listed intangible assets, respectively. The intangible asset lives range from 5 to 20 years and have a weighted-average remaining life of 17.1 years as of December 31, 2017.

The following table presents the estimated annual amortization expense for these intangible assets (in thousands):

Year Ending September 30,	
2018 (Jan - Sept)	\$53,374
2019	58,774
2020	47,754
2021	38,234
2022	30,289
Thereafter	109,382
	\$337,807

8. Financing Arrangements

The following table summarizes all financing arrangements the Company has entered into (in thousands):

¹ Effective rates on borrowings are 1.50% as of December 31, 2017; 2.00% as of September 30, 2017; and 3.13% as of December 31, 2016

² Effective rates on borrowings are 3.70% as of December 31, 2017; 3.70% as of September 30, 2017; and 3.20% as of December 31, 2016

³ Interest rate of 4.06% as of December 31, 2017; 3.50% as of September 30, 2017; 3.71% as of December 31, 2016

⁴ Interest rate of 6.38% as of December 31, 2017, September 30, 2017 and December 31, 2016

⁵ Interest rate of 4.88% as of December 31, 2017

⁶ Fixed interest rates ranging from 2.33% to 3.25% as of December 31, 2017, September 30, 2017, and December 31, 2016

⁷ Fixed interest rates ranging from 2.72% to 10.39% as of December 31, 2017, September 30, 2016, and December 31, 2016

Financing - Allied Acquisition

On October 25, 2017, in connection with the financing for the Allied Acquisition (see Note 14), Beacon Escrow Corporation, a wholly owned subsidiary of the Company (the "Escrow Issuer"), completed a private offering of \$1.30 billion aggregate principal amount of 4.875% Senior Notes due 2025 (the "2025 Senior Notes") at an issue price of 100%. The 2025 Senior Notes bear interest at a rate of 4.875% per annum, payable semi-annually in arrears, beginning May 1, 2018. Management anticipates repaying the notes at the maturity date of November 1, 2025.

The net proceeds from the 2025 Senior Notes were deposited into a segregated escrow account with U.S. Bank National Association, as escrow agent (the “Escrow Agent”), subject to the satisfaction of all conditions precedent to the consummation of the Allied Acquisition and certain other conditions set forth in an escrow agreement (the “Escrow Agreement”) with the Escrow Agent. There are conditions that must be satisfied prior to releasing these proceeds from escrow; therefore, these escrowed funds have been presented as restricted cash on the Company’s consolidated balance sheet as of December 31, 2017. The following table provides a reconciliation of cash, cash equivalents, and restricted cash from the Company’s balance sheet to the same amounts shown in the Company’s consolidated statement of cash flows for the three months ended December 31, 2017 (in thousands):

	December 31, 2017
Cash and cash equivalents	\$ 63,827
Restricted cash	1,300,000
Total cash, cash equivalents, and restricted cash	\$ 1,363,827

Per the terms of the Escrow Agreement, the net proceeds from the 2025 Senior Notes remained in escrow until they were used to fund a portion of the purchase price of the Allied Acquisition payable at closing on January 2, 2018. On the same date, (i) the Escrow Issuer merged with and into the Company, and the Company assumed all obligations under the 2025 Senior Notes; and (ii) all existing domestic subsidiaries of the Company (including the entities acquired in the Allied Acquisition) became guarantors of the 2025 Senior Notes.

As of December 31, 2017, the outstanding balance on the 2025 Senior Notes, net of debt issuance fees, was \$1.28 billion.

Financing - RSG Acquisition

On October 1, 2015, in connection with the RSG Acquisition, the Company entered into various financing arrangements totaling \$1.45 billion. A "Senior Secured Credit Facility" was entered into that is comprised of an asset-based revolving line of credit ("ABL") of \$700.0 million (\$350.0 million of which was drawn at closing) and a new \$450.0 million term loan ("Term Loan"). The Company also raised an additional \$300.0 million through the issuance of senior notes (the "2023 Senior Notes").

The proceeds from the Senior Secured Credit Facility and Senior Notes were used to provide working capital and funds for other general corporate purposes, to refinance or otherwise extinguish all third-party indebtedness for borrowed money under Company's and RSG's existing senior secured credit facilities and RSG's unsecured senior notes due 2020, to finance the acquisition, and to pay fees and expenses associated with the RSG acquisition. The Company incurred financing costs totaling approximately \$31.3 million.

Asset-based Line of Credit ("ABL")

On October 1, 2015, the Company entered into a \$700 million ABL with Wells Fargo Bank, N.A. and a syndicate of other lenders. This ABL consists of revolving loans in both the United States ("U.S. Revolver") in the amount of \$670.0 million and Canada ("Canada Revolver") in the amount of \$30.0 million. The ABL has a maturity date of October 1, 2020.

The ABL has various borrowing tranches with an interest at rate of LIBOR plus a margin 125 basis points, 150 basis points or 175 basis points, based on the total outstanding balance of each tranche. The LIBOR rates can be fixed at one, three, six, or twelve month intervals and any non-fixed LIBOR amounts revert to a 4.75% base rate. As of December 31, 2017, the total balance outstanding on the ABL was immaterial, and the weighted-average interest rate was 1.50%. Unamortized debt issuance costs of \$4.9 million related to the ABL are classified in "other assets, net" on the Company's consolidated balance sheet as of December 31, 2017. The Company also has outstanding standby letters of credit related to the U.S. Revolver in the amount of \$10.7 million as of December 31, 2017. The current unused commitment fees on the ABL are 0.25% per annum.

There is one financial covenant under the ABL, which is a Consolidated Fixed Charge Ratio. The Consolidated Fixed Charge Ratio is calculated by dividing consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) by Consolidated Fixed Charges (as defined in the agreement). Per the covenant, the Company's Consolidated Fixed Charge Ratio must be a minimum of 1.00 at the end of each fiscal quarter, calculated on a trailing four quarter basis. The covenant is only applicable when the borrowing availability is less than 10% of the maximum loan cap or \$60.0 million. The ABL is guaranteed jointly, severally, fully and unconditionally by the Company's active United States subsidiary.

Term Loan

On October 1, 2015, the Company entered into a \$450.0 million Term Loan with Citibank N.A., and a syndicate of other lenders. The Term Loan requires quarterly principal payments in the amount of \$1.1 million, with the remaining outstanding principal to be paid on its maturity date of October 1, 2022. The interest rate paid is based on a LIBOR rate (with a floor) plus a fixed spread. The Company has the option of selecting a LIBOR period that determines the rate at which interest can accrue on the Term Loan as well as the period in which interest payments are made.

On September 16, 2016, the Company refinanced its Term Loan, lowering the LIBOR floor by 25 basis points and lowering the spread by 25 basis points. As a result of the refinancing, the Company wrote off \$1.6 million of debt issuance costs in interest expense. As of December 31, 2017, the outstanding balance on the Term Loan, net of debt issuance fees, was \$433.8 million. The Term Loan is guaranteed jointly, severally, fully and unconditionally by the Company's active United States subsidiary.

2023 Senior Notes

On October 1, 2015, the Company raised \$300.0 million by issuing senior notes due 2023 (the “2023 Senior Notes”). The 2023 Senior Notes have a coupon rate of 6.38% per annum and are payable semi-annually in arrears, beginning April 1, 2016. There are early payment provisions in the indenture in which the Company would be subject to “make whole” provisions. Management anticipates repaying the notes at the maturity date of October 1, 2023. As of December 31, 2017, the outstanding balance on the 2023 Senior Notes, net of debt issuance fees, was \$292.6 million. The 2023 Senior Notes are guaranteed jointly, severally, fully and unconditionally by the Company’s active United States subsidiary.

Equipment Financing Facilities and Other

As of December 31, 2017, the Company had a \$14.4 million outstanding under equipment financing facilities, with fixed interest rates ranging from 2.33% to 3.25% and payments due through September 2021.

As of December 31, 2017 the Company had \$19.0 million of capital lease obligations outstanding. These leases have interest rates ranging from 2.72% to 10.39% with payments due through November 2021.

9. Commitments and Contingencies

Operating Leases

The Company mostly operates in leased facilities, which are accounted for as operating leases. The leases typically provide for a base rent plus real estate taxes. Certain of the leases provide for escalating rents over the lives of the leases and rent expense is recognized over the terms of those leases on a straight-line basis.

For the three months ended December 31, 2017 and 2016, rent expense was \$15.2 million and \$14.2 million, respectively. Sublet income was immaterial for each of these periods.

Contingencies

The Company is subject to loss contingencies pursuant to various federal, state and local environmental laws and regulations; however, the Company is not aware of any reasonably possible losses that would have a material impact on its results of operations, financial position, or liquidity. Potential loss contingencies include possible obligations to remove or mitigate the effects on the environment of the placement, storage, disposal or release of certain chemical or other substances by the Company or by other parties. In connection with its acquisitions, the Company’s practice is to request indemnification for any and all known material liabilities of significance as of the respective dates of acquisition. Historically, environmental liabilities have not had a material impact on the Company’s results of operations, financial position or liquidity.

The Company is subject to litigation from time to time in the ordinary course of business; however the Company does not expect the results, if any, to have a material adverse impact on its results of operations, financial position or liquidity.

10. Geographic Data

The following tables summarize certain geographic information for the periods presented (in thousands):

	Three Months Ended	
	December 31,	
	2017	2016
Net sales		
U.S.	\$1,076,262	\$960,235
Canada	45,717	41,949
Total net sales	\$1,121,979	\$1,002,184

	December 31,	September 30,	December 31,
	2017	2017	2016
Long-lived assets			
U.S.	\$ 488,137	\$ 507,236	\$ 507,295
Canada	13,225	13,446	12,716
Total long-lived assets	\$ 501,362	\$ 520,682	\$ 520,011

11. Fair Value Measurement

As of December 31, 2017, the carrying amount of cash and cash equivalents, accounts receivable, prepaid and other current assets, accounts payable and accrued expenses approximated fair value because of the short-term nature of these instruments. The Company measures its cash equivalents at amortized cost, which approximates fair value based upon quoted market prices (Level 1).

As of December 31, 2017, based upon recent trading prices (Level 2 — market approach), the fair value of the Company's \$300.0 million Senior Notes due in 2023 was \$320.0 million and the fair value of the \$1.30 billion Senior Notes due 2025 was \$1.31 billion.

As of December 31, 2017, the fair value of the Company's Senior Secured Credit Facility approximated the amount outstanding. The Company estimates the fair value of its Senior Secured Credit Facility by discounting the future cash flows of each instrument using estimated market rates of debt instruments with similar maturities and credit profiles (Level 3).

12. Income Taxes

On December 22, 2017, the U.S. federal government officially signed into law the Tax Cut and Jobs Act of 2017 ("TCJA"). ASC 740, Accounting for Income Taxes, requires companies to recognize the effect of tax law changes in the period of enactment even though the effective date for most provisions is for tax years beginning after December 31, 2017, or in the case of certain other provisions, January 1, 2018. Though certain key aspects of the new law are effective January 1, 2018 and have an immediate accounting effect, other significant provisions are not effective or may not result in accounting effects for September 30 fiscal year-end companies until October 1, 2018.

Given the significance of the legislation, the SEC staff issued Staff Accounting Bulletin No. 118 ("SAB 118"), which allows registrants to record provisional amounts during a one year "measurement period" similar to that used when accounting for business combinations. Per SAB 118, the measurement period is deemed to have an earlier end date when the registrant has obtained, prepared and analyzed the information necessary to finalize its accounting. During the measurement period, impacts of the updated tax law are expected to be recorded at the time a reasonable estimate for all, or a portion, of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared or analyzed.

SAB 118 states, that at each reporting period, companies must disclose the effects of the TCJA for areas where accounting is complete, disclose provisional amounts (or adjustments to provisional amounts) for the effects of the TCJA areas where accounting is not complete but a reasonable estimate has been determined, and confirm areas where a reasonable estimate of the effects cannot yet be made, and therefore taxes are reflected in accordance with law prior to the enactment of the TCJA.

As of December 31, 2017, the Company was still assessing the overall impact that the TCJA will have on its financial statements and related disclosures; however, the Company was able to make the following reasonable estimates on the impact of the corporate taxation changes from the TCJA:

- The company has a blended federal corporate income tax rate for fiscal year 2018 of 24.5%. This transitional tax rate stems from Section 15 of the Internal Revenue Code that states if the tax rate changes in during a tax year, the tax rate for the full year is calculated using the prior and revised tax rates on a proportional basis using the number of days under each legislated rate. For 2019, the Company will have a federal corporate income tax rate of 21%.
- The Company remeasured its deferred tax assets and liabilities based on the revised corporate tax rate (21%). As a result, the Company recognized a provisional \$47.4 million decrease of its deferred tax liabilities related to this remeasurement, which also resulted in the recognition of an income tax benefit for the same amount in its consolidated statement of operations for the three months ended December 31, 2017. The Company is not a calendar

year-end filer; therefore it is required to determine which deferred taxes will be realized during fiscal year 2018 at the blended federal corporate income tax rate of 24.5% and which will be realized in future years at the federal corporate income tax rate of 21%. The Company will continue to refine its deferred tax remeasurement calculation and assess the related impact, which potentially could result in additional adjustments.

The Company estimated the impact of the mandatory repatriation transition tax on the net accumulated earnings and profits of the Company's foreign subsidiary, Beacon Roofing Supply Canada Company ("BRSCC"). As a result, the Company recognized a provisional expense for the one-time transition tax liability of \$0.9 million in its consolidated statement of operations for the three months ended December 31, 2017. The Company has not yet finalized its calculation of the repatriation transition tax, as it continues to analyze of the amount of BRSCC earnings held in cash and other specified assets that had been previously deferred from U.S. federal taxation.

17

State conformity to the TCJA law changes has not been communicated by the state and local jurisdictions at this time; therefore, the Company has not made any provisional adjustments related to the potential impact in its financial statements. The Company will continue to account for items where a reasonable estimate of the impact could not be assessed as of December 31, 2017 under the guidance that was in effect immediately prior to the enactment of the TCJA, ASC 740, Accounting for Income Taxes.

13. Supplemental Guarantor Information

All of the Senior Notes issued on October 1, 2015 are guaranteed jointly and severally by all of the United States subsidiaries of the Company (collectively, the “Guarantors”), and not by the Canadian subsidiaries of the Company. Such guarantees are full and unconditional. Supplemental condensed consolidating financial information of the Company, including such information for the Guarantors, is presented below. The information is presented in accordance with the requirements of Rule 3-10 under the SEC’s Regulation S-X. The financial information may not necessarily be indicative of results of operations, cash flows or financial position had the non-guarantor subsidiaries operated as independent entities. Investments in subsidiaries are presented using the equity method of accounting. The principal elimination entries eliminate investments in subsidiaries and intercompany balances and transactions. Separate financial statements of the Guarantors are not provided as the consolidating financial information contained herein provides a more meaningful disclosure to allow investors to determine the nature of the assets held by, and the operations of, the combined groups.

14. Subsequent Events

On January 2, 2017 (the “Closing Date”), the Company completed its previously announced acquisition (the “Allied Acquisition”) of all the outstanding capital stock of Allied Building Products Corp. and an affiliated entity (together, “Allied”), pursuant to that certain Stock Purchase Agreement, dated August 24, 2017 (the “Stock Purchase Agreement”), among the Company, Oldcastle, Inc., as parent, and Oldcastle Distribution, Inc., as seller, for approximately \$2.625 billion in cash, subject to a working capital and certain other adjustments as set forth in the Stock Purchase Agreement (the “Purchase Price”).

In connection with the Allied Acquisition, on the Closing Date the Company entered into (i) a new term loan agreement with Citibank, N.A., providing for a term loan B facility with an initial commitment of \$970.0 million and (ii) an amended and restated credit agreement with Wells Fargo Bank, N.A., providing for a senior secured asset-based revolving credit facility with an initial commitment of \$1.30 billion. Base borrowing rates on these facilities will be at LIBOR plus 1.25% and LIBOR plus 2.25%, respectively.

In connection with the Allied Acquisition, on the Closing Date, the Company completed the sale of 400,000 shares of Series A Cumulative Convertible Participating Preferred Stock, par value \$0.01 per share (the “Preferred Stock”), with an aggregate liquidation preference of \$400.0 million, at a purchase price of \$1,000 per share, to CD&R Boulder Holdings, L.P., pursuant to that certain Investment Agreement, dated as of August 24, 2017, with CD&R Boulder Holdings, L.P. and Clayton, Dubilier & Rice Fund IX, L.P. (solely for the purpose of limited provisions therein) (the “Convertible Preferred Stock Purchase”). The \$400.0 million in proceeds from the Convertible Preferred Stock Purchase were used to finance, in part, the Purchase Price. The Preferred Stock is convertible perpetual participating preferred stock of the Company, with an initial conversion price of \$41.26 per share, and will accrue dividends at a rate of 6.0% per annum (payable in cash or in-kind, subject to certain conditions).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with Management's Discussion and Analysis included in our 2017 Annual Report on Form 10-K and our condensed consolidated financial statements and the notes thereto included elsewhere in this document. Unless otherwise indicated, references to "2018" refer to the three month periods ended December 31, 2017 being discussed and references to "2017" refer to the three month periods ended December 31, 2016 being discussed. We do not undertake, and specifically disclaim, any obligation to update any forward-looking statements to reflect the occurrence of events or circumstances after the date of such statements except as required by law.

Overview

We are the largest publicly traded distributor of residential and non-residential roofing materials in the United States and Canada. We also distribute complementary building products, including siding, windows, specialty exterior building products, insulation, and waterproofing systems for residential and non-residential building exteriors. We are among the oldest and most established distributors in the industry. We purchase products from a large number of manufacturers and then distribute these goods to a customer base consisting of contractors and, to a lesser extent, general contractors, retailers, and building materials suppliers.

As of December 31, 2017, we operated 382 branches in 48 states throughout the United States and 6 provinces in Canada. We stock one of the most extensive assortments of high quality branded products in the industry, with over 50,000 SKUs available across our branch network, enabling us to deliver products to serve nearly 70,000 customers on a timely basis. For 2017, approximately 96% of our net sales came from customers located in the United States.

Effective execution of both the sales and operating plans enables us to grow beyond the relative strength of the residential and non-residential roofing markets we serve. Our business model is a bottom-up approach, where each of our branches uses its regional knowledge and experience to assist with the development of a marketing plan and stocking a product mix that is best suited for its respective market. Local alignment with overall strategic goals provides the foundation for significant ownership of results at the branch level.

Our distinctive operational model combined with significant branch level autonomy differentiates us from the competition. We provide our customers with value-added services, including, but not limited to, job site delivery, custom designed tapered roofing systems, metal fabrication, and trade credit. We consider customer relations and our employees' knowledge of roofing and exterior building materials to be vital to our ability to increase customer loyalty and maintain customer satisfaction. Our customers' business success can be enhanced when they are supported by our efficient and effective distribution network. We invest significant resources in professional development, management skills, product knowledge and operational proficiency. We pride ourselves on providing these capabilities developed on a foundation of continuous improvement driving service excellence, productivity and efficiencies.

We seek opportunities to expand our business operations through both acquisitions and organic growth (opening branches, growing sales with existing customers, adding new customers and introducing new products). Our main acquisition strategy is to target market leaders that do business in geographic areas that we currently do not service or that complement our existing regional operations. Our recent success in delivering on our growth strategy is highlighted by the following:

- On December 16, 2016, the Company purchased certain assets of BJ Supply Company, a distributor of roofing and related building products with 1 branch serving Pennsylvania and New Jersey and annual sales of \$4 million.
- On January 3, 2017, the Company acquired American Building & Roofing, Inc., a distributor of mainly residential roofing and related building products with 7 branches around Washington State and annual sales of \$36 million.
- On January 9, 2017, the Company acquired Eco Insulation Supply, a distributor of insulation and related accessories with 1 branch serving Connecticut, Southern New England and the New York City metropolitan area and annual sales of \$8 million.

On March 1, 2017, the Company acquired Acme Building Materials, Inc., a distributor of residential roofing and related building products with 3 branches in Eastern Michigan and annual sales of \$13 million.

On May 1, 2017, the Company purchased certain assets of Lowry's Inc., a distributor of waterproofing and concrete restoration materials with 11 branches operating in California, Arizona, Utah and Hawaii and annual sales of \$76 million.

In addition, we opened 4 new branches in 2017. These new branch locations have allowed us to penetrate deeper into our existing markets and establish a greater presence. Although these new greenfield locations impact our operating cost structure slightly in the near-term, we believe our greenfields are strategically located within markets that possess strong dynamics, which presents us with an opportunity to quickly establish our presence and gain local market share.

Results of Operations

Comparison of the Three Months Ended December 31, 2017 and 2016

The following tables set forth selected consolidated statement of operations data and such data as a percentage of total revenue for each of the periods indicated:

	Three Months Ended	
	December 31,	
	2017	2016
	(In thousands)	
Net sales	\$1,121,979	\$1,002,184

Gross profit	269,753	251,067
Operating expense	220,657	204,110
Income from operations	49,096	46,957
Interest expense, financing costs, and other	22,568	13,574
Income before provision for income taxes	26,528	33,383
Provision for (benefit from) income taxes	(41,068)	12,953
Net income	67,596	20,430

	Three Months	
	Ended	
	December 31,	
	2017	2016
	% of Net Sales	
Net sales	100.0%	100.0%
Cost of products sold	76.0 %	74.9 %
Gross profit	24.0 %	25.1 %
Operating expense	19.7 %	20.4 %
Income from operations	4.3 %	4.7 %
Interest expense, financing costs, and other	2.0 %	1.4 %
Income before provision for income taxes	2.3 %	3.3 %
Provision for (benefit from) income taxes	(3.7 %)	1.3 %
Net income	6.0 %	2.0 %

In managing our business, we consider all growth, including the opening of new branches, to be organic growth unless it results from an acquisition. When we refer to growth in existing markets or organic growth, we include growth from existing and newly opened branches but exclude growth from acquired branches until they have been under our ownership for at least four full fiscal quarters at the start of the fiscal reporting period. When we refer to regions, we are referring to our geographic regions.

As of December 31, 2017, we had a total of 382 branches in operation. Our existing market calculations include 359 branches and exclude 23 branches because they were acquired after the start of the first quarter of fiscal year 2017. When we refer to our net product costs, we are referring to our invoice cost less the impact of short-term buying programs (also referred to as “special buys” given the manner in which they are offered).

Edgar Filing: BEACON ROOFING SUPPLY INC - Form 10-Q

The following table presents a summary of our results of operations for the periods presented, broken down by existing markets and acquired markets:

	Existing Markets		Acquired Markets		Consolidated	
	Three Months Ended December 31,		Three Months Ended December 31,		Three Months Ended December 31,	
	2018	2017	2018	2017	2018	2017
	(Dollars in thousands)					
Net sales	\$1,083,211	\$1,000,271	\$38,768	\$1,913	\$1,121,979	\$1,002,184
Gross profit	\$259,348	\$250,743	\$10,405	\$324	\$269,753	\$251,067
Gross margin	23.9	% 25.1	% 26.8	% 16.9	% 24.0	% 25.1
Operating expense ⁽¹⁾	\$210,571	\$203,737	\$10,086	\$373	\$220,657	\$204,110
Operating expense as a % of net sales	19.4	% 20.4	% 26.0	% 19.5	% 19.7	% 20.4
Operating income (loss)	\$48,777	\$47,006	\$319	\$(49)	\$49,096	\$46,957
Operating margin	4.5	% 4.7	% 0.8	(2.6 %)	4.3	% 4.7

¹ During 2018 and 2017, we recorded amortization expense related to intangible assets recorded under purchase accounting of \$18.2 million (\$1.7 million from acquired markets) and \$20.1 million (immaterial amount from acquired markets), respectively. In addition, total operating expense for 2018 and 2017 included non-recurring charges of \$23.8 million (\$1.7 million from acquired markets) and \$21.3 million (immaterial amount from acquired markets), respectively, for the recognition of costs related to acquisitions.

Net Sales

Consolidated net sales increased \$119.8 million, or 12.0%, to \$1.12 billion in 2018, up from \$1.00 billion in 2017. Existing market sales increased \$82.9 million, or 8.3%, over the same comparative period. We believe the increase in our 2018 existing market sales was influenced primarily by the following factors:

- strong demand across all three primary product categories;
- high demand in Florida and Texas following hurricanes Irma and Harvey; and
- strong growth within complementary products, particularly in the Western U.S.;

partially offset by:

- higher prior year net sales in certain regions related to multiple hail storm events and hurricane Matthew.

Net sales within our acquired markets were \$38.8 million in 2018, an increase from 2017 due to the impact from recent acquisitions.

We estimate the impact of inflation or deflation on our sales and gross profit by looking at changes in our average selling prices and gross margins (discussed below). Average overall selling prices in existing markets were up less than 1% in 2018 compared to 2017, driven primarily by a 4% increase in complementary pricing year-over-year, as well as a slight increase in non-residential selling prices. These increases were partially offset by a slight decrease in the average selling prices of residential products in the comparative periods.

Existing markets net sales by geographical region increased (decreased) from 2017 to 2018 as follows: Northeast 2.9%; Mid-Atlantic (1.4%); Southeast 24.0%; Southwest (1.0%); Midwest 8.3%; West 25.2%; and Canada 9.0%. These variations were primarily caused by short-term factors such as local market conditions, weather conditions and

storm activity.

30

Product group sales for our existing markets were as follows:

	Three Months Ended December 31,		2016		Change	
	2017		Net Sales	%	\$	%
	Net Sales	%	Net Sales	%		
	(Dollars in thousands)					
Residential roofing products	\$580,649	53.6 %	\$529,851	53.0 %	\$50,798	9.6 %
Non-residential roofing products	323,765	29.9 %	310,288	31.0 %	13,477	4.3 %
Complementary building products	178,797	16.5 %	160,132	16.0 %	18,665	11.7 %
Total existing market sales	\$1,083,211	100.0 %	\$1,000,271	100.0 %	\$82,940	8.3 %

For 2018, our acquired markets recognized sales of \$8.1 million, \$5.2 million and \$25.5 million in residential roofing products, non-residential roofing products and complementary building products, respectively. The combination of our 2018 existing market sales of \$1.08 billion plus the sales from acquired markets of \$38.8 million equals our total 2018 sales of \$1.12 billion. We believe the existing market information is useful to investors because it helps explain organic growth or decline.

Gross Profit

Gross profit and gross margin for our consolidated and existing markets were as follows:

	Three Months Ended		Change ¹	
	December 31,		\$	%
	2017	2016		
	(Dollars in thousands)			
Gross profit - consolidated	\$269,753	\$251,067	\$18,686	7.4 %
Gross profit - existing markets	259,348	250,743	8,605	3.4 %
Gross margin - consolidated	24.0 %	25.1 %	N/A	(1.1 %)
Gross margin - existing markets	23.9 %	25.1 %	N/A	(1.2 %)

¹ Percentage changes for dollar amounts represent the ratable increase or decrease from period-to-period. Percentage changes for percentages represent the net period-to-period change in basis points.

Our consolidated gross profit increased \$18.7 million, or 7.4%, to \$269.8 million in 2018. Existing market gross profit increased \$8.6 million, or 3.4%, over the same comparative period and gross profit within our acquired markets was \$10.4 million. Consolidated gross margins were 24.0% in 2018, a 1.1% decrease from the prior year, and existing market gross margins decreased 1.2% over the comparative periods, to 23.9%. The decrease in gross margin was primarily driven by the following factors:

- timing of certain vendor incentives earned in fiscal year 2017 that occurred prior to the start of 2018;
- a shift in the 2018 geographic sales mix; and
- an average 1% to 2% increase in net product costs year-over-year that were not fully offset by price increases implemented by Beacon due to the timing of manufacturer price increases.

Direct sales (products shipped by our vendors directly to our customers), which typically have substantially lower gross margins (and operating expense) compared to our warehouse sales, represented 13.5% and 14.1% of our net sales in 2018 and 2017, respectively. We believe variations in direct sales activity to be primarily caused by

short-term factors such as local market conditions, weather conditions and storm activity. None of these variations were driven by material regional impacts from changes in the direct sales mix of our geographical regions.

Operating Expense

Operating expense for consolidated and existing markets was as follows:

	Three Months Ended		Change ¹	
	December 31, 2017	2016	\$	%
	(Dollars in thousands)			
Operating expense - consolidated	\$220,657	\$204,110	\$16,547	8.1 %
Operating expense - existing markets	210,571	203,737	6,834	3.4 %
% of net sales - consolidated	19.7 %	20.4 %	% N/A	(0.7%)
% of net sales - existing markets	19.4 %	20.4 %	% N/A	(1.0%)

¹ Percentage changes for dollar amounts represent the ratable increase or decrease from period-to-period. Percentage changes for percentages represent the net period-to-period change in basis points.

Operating expense in our existing markets increased by \$6.8 million, or 3.4% in 2018, to \$210.6 million, as compared to \$203.7 million in 2017, while operating expense within our acquired markets was \$10.1 million in 2018. The following factors were the leading causes of the increase in operating expense in our existing markets:

- an increase in payroll and employee benefit costs of \$10.2 million due to higher sales commissions, delivery wages, and overtime payouts; partially offset by:

- a decrease in amortization expense of \$3.6 million due to the scheduled declining run-rate of intangible asset amortization related to the RSG acquisition.

During 2018 and 2017, we recorded amortization expense related to the intangible assets recorded under purchase accounting within our existing markets of \$16.5 million and \$20.1 million, respectively. Our existing markets operating expense as a percentage of the related net sales in 2018 was 19.4%, compared to 20.4% in 2017.

Interest Expense, Financing Costs and Other

Interest expense, financing costs and other expense was \$22.6 million in 2018, as compared to \$13.6 million in 2017. The primary driver of this increase is the higher average outstanding debt balance over the comparative periods.

Income Taxes

There was an income tax benefit of \$41.1 million in 2018, as compared to a \$13.0 million income tax provision in 2017. The 2018 tax benefit was primarily due to the net \$46.5 million beneficial impact recognized in 2018 as a result of the enactment of the Tax Cuts and Jobs Act of 2017 (see Note 12), partially offset by a \$7.7 million tax provision calculation, excluding any discrete items. The effective tax rate before discrete items decreased to 29.0% in 2018, compared to 38.8% in 2017. This decrease was primarily driven by the reduction of the federal corporate income tax rate from 35% to a blended rate of 24.5%. We expect our fiscal year 2018 effective tax rate, excluding any discrete items, will be approximately 29.0-30.0%.

Non-GAAP Financial Measures

To provide investors with additional information regarding our financial results, we prepare certain financial measures that are not calculated in accordance with generally accepted accounting principles in the United States (“GAAP”),

specifically:

• Adjusted Net Income (Loss)/Adjusted EPS

• Adjusted EBITDA

We define Adjusted Net Income (Loss) as net income that excludes non-recurring costs related to acquisitions and the amortization of intangibles, as well as the non-recurring effects of tax reform. Adjusted net income per share (“Adjusted EPS”) is calculated by dividing the Adjusted Net Income (Loss) for the period by the weighted-average diluted shares outstanding for the period.

We define Adjusted EBITDA as net income plus interest expense (net of interest income), income taxes, depreciation and amortization, stock-based compensation and non-recurring acquisition costs. EBITDA is a measure commonly used in the distribution industry.

32

We use these supplemental measures to evaluate performance period over period and to analyze the underlying trends in our business and to establish operational goals and forecasts that are used in allocating resources. We expect to compute our non-GAAP financial measures consistently using the same methods from quarter to quarter and year to year.

We believe these measures are useful because they allow investors to better understand year-over-year changes in underlying operating performance. We believe that these non-GAAP measures provide investors and analysts with a measure of operating results unaffected by differences in capital structures and capital investment cycles among otherwise comparable companies. Further, we believe these measures are useful to investors because they improve comparability of results of operations since they eliminate the impact of purchase accounting adjustments that can render operating results non-comparable between periods.

Although we believe that these non-GAAP financial measures are useful in evaluating our business, this information should be considered as supplemental in nature and is not meant as a substitute for the related financial information prepared in accordance with GAAP. You should not consider any of these measures as a substitute alongside other financial performance measures presented in accordance with GAAP.

The following table presents a reconciliation of net income, the most directly comparable financial measure as measured in accordance with GAAP, to Adjusted Net Income (Loss)/Adjusted EPS for each of the periods indicated (in thousands, except per share amounts):

Adjusted Net Income (Loss)/Adjusted EPS

	Three Months Ended December 31,			
	2017		2016	
	Amount	Per Share	Amount	Per Share
Net income	\$67,596	\$0.98	\$20,430	\$0.33
Company adjustments				
Acquisition costs ¹	25,633	0.37	13,970	0.23
Effects of tax reform ²	(46,492)	(0.67)	-	-
Adjusted Net Income (Loss)	\$46,737	\$0.68	\$34,400	\$0.56

¹ Acquisition costs for the three months ended December 31, 2017 include \$17.8 million of non-recurring charges related to acquisitions and \$18.2 million of amortization expense related to intangibles, both net of \$10.4 million in tax in total. Acquisition costs for the three months ended December 31, 2016 include \$2.7 million of non-recurring charges related to acquisitions and \$20.1 million of amortization expense related to intangibles, both net of \$8.9 million in tax in total.

² Impact of the Tax Cuts and Jobs Act of 2017 – see Note 12 for further discussion.

The following table presents a reconciliation of net income, the most directly comparable financial measure as measured in accordance with GAAP, to Adjusted EBITDA for each of the periods indicated (in thousands, except percentages):

Adjusted EBITDA

	Three Months Ended December 31,			
	2017	2016		
Net income	\$67,596	\$20,430		
Acquisition costs ¹	5,569	1,160		
Interest expense, net	23,516	13,239		
Income taxes	(41,068)	12,953		
Depreciation and amortization	26,904	28,425		
Stock-based compensation	3,459	3,816		
Adjusted EBITDA	\$85,976	\$80,023		
Adjusted EBITDA as a % of net sales	7.7	%	8.0	%

¹ Acquisition costs reflect non-recurring charges related to acquisitions (excluding the impact of tax) that are not embedded in other balances of the table. Certain portions of the total acquisition costs incurred are included in interest expense, income taxes, depreciation and amortization, and stock-based compensation.

Seasonality and Quarterly Fluctuations

In general, sales and net income are highest during our first, third and fourth fiscal quarters, which represent the peak months of construction and re-roofing, especially in our branches in the northern and mid-western U.S. and in Canada. We have historically incurred low net income levels or net losses during the second quarter when our sales are substantially lower.

We generally experience an increase in inventory, accounts receivable and accounts payable during the third and fourth quarters of the year as a result of the seasonality of our business. Our peak cash usage generally occurs during the third quarter, primarily because accounts payable terms offered by our suppliers typically have due dates in April, May and June, while our peak accounts receivable collections typically occur from June through November.

We generally experience a slowing of our accounts receivable collections during our second quarter, mainly due to the inability of some of our customers to conduct their businesses effectively in inclement weather in certain divisions. We continue to attempt to collect those receivables, which require payment under our standard terms. We do not provide material concessions to our customers during this quarter of the year.

We generally experience our peak working capital needs during the third quarter after we build our inventories following the winter season but before we begin collecting on most of our spring receivables.

Certain Quarterly Financial Data

The following table sets forth certain unaudited quarterly data for fiscal year 2018 (ending December 31, 2017) and fiscal year 2017 which, in the opinion of management, reflect all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of this data. Results of any one or more quarters are not necessarily indicative of results for an entire fiscal year or of continuing trends.

	2018	2017			
	Qtr 1	Qtr 1	Qtr 2	Qtr 3	Qtr 4
	(Dollars in thousands)

Liquidity

Liquidity is defined as the current amount of readily available cash and the ability to generate adequate amounts of cash to meet the current needs for cash. We assess our liquidity in terms of our cash and cash equivalents on hand and the ability to generate cash to fund our operating activities, taking into consideration available borrowings and the seasonal nature of our business.

Our principal sources of liquidity as of December 31, 2017 were our cash and cash equivalents of \$63.8 million and our available borrowings of \$680.8 million under our asset based lending revolving credit facility.

Significant factors which could affect future liquidity include the following:

- the adequacy of available bank lines of credit;
- the ability to attract long-term capital with satisfactory terms;
- cash flows generated from operating activities;

34

acquisitions; and
capital expenditures.

Our primary capital needs are for working capital obligations and other general corporate purposes, including acquisitions and capital expenditures. Our primary sources of working capital are cash from operations and cash equivalents supplemented by bank borrowings. In the past, we have financed larger acquisitions initially through increased bank borrowings and the issuance of common stock. We then repay any such borrowings with cash flows from operations. We have funded most of our capital expenditures with cash on hand or through increased bank borrowings, including equipment financing, and then have reduced those obligations with cash flows from operations.

We believe we have adequate current liquidity and availability of capital to fund our present operations, meet our commitments on our existing debt and fund anticipated growth, including expansion in existing and targeted market areas. We seek potential acquisitions from time to time and hold discussions with certain acquisition candidates. If suitable acquisition opportunities or working capital needs arise that require additional financing, we believe that our financial position and earnings history provide a sufficient base for obtaining additional financing resources at reasonable rates and terms. We may also choose to issue additional shares of common stock or preferred stock in order to raise funds.

The following table summarizes our cash flows for the periods indicated (in thousands):

	Three Months Ended December 31,	
	2017	2016
Net cash provided by (used in) operating activities	\$(40,456)	\$78,123
Net cash used in investing activities	(7,003)	(8,730)
Net cash provided by (used in) financing activities	1,272,396	(27,705)
Effect of exchange rate changes on cash, cash equivalents, and restricted cash	640	197
Net increase in cash, cash equivalents, and restricted cash	\$1,225,577	\$41,885

Operating Activities

Net cash used in operating activities was \$40.5 million in 2018, compared to \$78.1 million provided by operating activities in 2017. Cash from operations decreased \$118.6 million, mainly due to an incremental cash outflow of \$117.4 million stemming from changes to our net working capital.

Investing Activities

Net cash used in investing activities was \$7.0 million in 2018, compared to \$8.7 million in 2017. The \$1.7 million decrease was due to \$1.9 million of acquisitions in 2017, partially offset by a \$0.2 million decrease in capital expenditures over the comparative periods.

Financing Activities

Net cash provided by financing activities was \$1.27 billion in 2018, compared to \$27.7 million used in financing activities in 2017. The increase of \$1.3 billion was primarily due to the new financing agreement that we entered into in connection with the Allied Acquisition that closed on January 2, 2018 (see Note 8). Proceeds from the issuance of common stock increased by \$0.3 million in 2018, to \$3.8 million. This increase is due to the additional stock option exercise activity that occurred as a result of the Company's comparatively higher stock price versus 2017.

Capital Resources

As of December 31, 2017, we had access to the following financing arrangements:

- an asset-based revolving line of credit in the United States;
- an asset-based revolving line of credit in Canada;
- a term loan; and
- two separate senior notes instruments

Financing - Allied Acquisition

35

On October 25, 2017, in connection with the financing for the Allied Acquisition (see Note 13), Beacon Escrow Corporation, one of our wholly owned subsidiaries (the “Escrow Issuer”), completed a private offering of \$1.30 billion aggregate principal amount of 4.875% Senior Notes due 2025 (the “2025 Senior Notes”) at an issue price of 100%. The 2025 Senior Notes bear interest at a rate of 4.875% per annum, payable semi-annually in arrears, beginning May 1, 2018. Management anticipates repaying the notes at the maturity date of November 1, 2025. As of December 31, 2017, the outstanding balance on the 2025 Senior Notes, net of debt issuance fees, was \$1.28 billion

Per the terms of the Escrow Agreement, the net proceeds from the 2025 Senior Notes remained in escrow until they were used to fund a portion of the purchase price of the Allied Acquisition payable at closing on January 2, 2018 (see Note 8). On the same date, (i) the Escrow Issuer merged with and into us and we assumed all obligations under the 2025 Senior Notes; and (ii) all our existing domestic subsidiaries (including the entities acquired in the Allied Acquisition) became guarantors of the 2025 Senior Notes.

Financing - RSG Acquisition

In connection with the RSG acquisition on October 1, 2015, we entered into various financing arrangements totaling \$1.45 billion. These arrangements allowed us to refinance our existing debt and substantially pay off all the RSG debt at closing. Prior to the RSG acquisition, we had a credit facility with a syndicate of commercial banks that included a revolver and a long term note. As of the date of the RSG acquisition, approximately \$185.6 million was outstanding on the long-term note payable and approximately \$11.2 million was outstanding under the revolver.

We entered into a “Senior Secured Credit Facility”, comprised of an asset-based revolving line of credit (“ABL”) of \$700.0 million (\$350.0 million of which was drawn at closing) and a new \$450.0 million term loan (“Term Loan”). We also raised an additional \$300.0 million through the issuance of senior notes (the “2023 Senior Notes”).

Asset-based Line of Credit (“ABL”)

On October 1, 2015, we entered into a \$700.0 million ABL with Wells Fargo Bank, N.A. and a syndicate of other lenders. This ABL consists of revolving loans in both the United States (“U.S. Revolver”) in the amount of \$670.0 million and Canada (“Canada Revolver”) in the amount of \$30.0 million. The ABL has a maturity date of October 1, 2020.

The ABL has various borrowing tranches with an interest rate of LIBOR plus a margin of 125 basis points, 150 basis points or 175 basis points, based on the total outstanding balance of each tranche. The LIBOR rates can be fixed at one, three, six, or twelve month intervals and any non-fixed LIBOR amounts revert to a 4.75% base rate. As of December 31, 2017, the total balance outstanding on the ABL was immaterial, and the weighted-average interest rate was 1.50%. Unamortized debt issuance costs of \$4.9 million related to the ABL were classified in “other assets, net” on our consolidated balance sheet as of December 31, 2017. We also have outstanding standby letters of credit related to the U.S. Revolver in the amount of \$10.7 million as of December 31, 2017. The current unused commitment fees on the ABL are 0.25% per annum.

There is one financial covenant under the ABL, which is a Consolidated Fixed Charge Ratio. The Consolidated Fixed Charge Ratio is calculated by dividing consolidated earnings before interest, taxes, depreciation and amortization (EBITDA) by Consolidated Fixed Charges (as defined in the agreement). Per the covenant, the Consolidated Fixed Charge Ratio must be a minimum of 1.00 at the end of each fiscal quarter, calculated on a trailing four quarter basis. The covenant is only applicable when the borrowing availability is less than 10% of the maximum loan cap or \$60.0 million. The ABL is guaranteed jointly and severally and fully and unconditionally by our active United States subsidiary.

Term Loan

On October 1, 2015, we entered into a \$450.0 million Term Loan with Citibank N.A., and a syndicate of other lenders. The Term Loan requires quarterly principal payments in the amount of \$1.1 million, with the remaining outstanding principal to be paid on its maturity date of October 1, 2022. The interest rate paid is based on a LIBOR rate (with a floor) plus a fixed spread. We have the option of selecting a LIBOR period that determines the rate at which interest can accrue on the Term Loan as well as the period in which interest payments are made.

On September 16, 2016, we refinanced our Term Loan and lowered the LIBOR floor by 25 basis points and lowered the spread by 25 basis points. As a result of the refinancing we wrote off \$1.6 million of debt issuance costs in interest expense. As of December 31, 2017 the outstanding balance on the Term Loan, net of debt issuance fees, was \$433.8 million. The Term Loan is guaranteed jointly and severally and fully and unconditionally by our active United States subsidiary.

2023 Senior Notes

We also raised \$300.0 million in Senior Notes, which mature on October 1, 2023. These notes bear interest at the rate of 6.38% per year, payable semi-annually in arrears on April 1 and October 1 of each year, beginning April 1, 2016. There are early

payment provisions in the Senior Note indenture in which we would be subject to “make whole” provisions. Management anticipates repaying the notes at the maturity date of October 1, 2023. As of December 31, 2017 the outstanding balance on the Senior Notes, net of debt issuance fees, was \$292.6 million. The Senior Notes are guaranteed jointly and severally and fully and unconditionally by our active United States subsidiary.

Equipment Financing Facilities and Other

As of December 31, 2017, we had \$14.4 million outstanding under equipment financing facilities, with fixed interest rates ranging from 2.33% to 3.25% and payments due through September 2021.

As of December 31, 2017, we had \$19.0 million of capital lease obligations outstanding. These leases have interest rates ranging from 2.72% to 10.39% with payments due through November 2021.

Cautionary Statement for Purposes of the “Safe Harbor” Provisions of the Private Securities Litigation Reform Act of 1995

Our disclosure and analysis in this report contains forward-looking information that involves risks and uncertainties. Our forward-looking statements express our current expectations or forecasts of possible future results or events, including projections of future performance, statements of management’s plans and objectives, future contracts, and forecasts of trends and other matters. You can identify these statements by the fact that they do not relate strictly to historic or current facts and often use words such as “anticipate,” “estimate,” “expect,” “believe,” “will likely result,” “outlook,” “project” and other words and expressions of similar meaning. No assurance can be given that the results in any forward-looking statements will be achieved and actual results could be affected by one or more factors, which could cause them to differ materially. For these statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act.

Certain factors that may affect our business and could cause actual results to differ materially from those expressed in any forward-looking statements include those set forth under the heading “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended September 30, 2017.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company's market risk disclosures set forth in Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk" of its 2017 Annual Report on Form 10-K have not changed materially during the three month period ended December 31, 2017.

Item 4. Controls and Procedures

As of December 31, 2017, management, including the CEO and CFO, performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Act")). Based on that evaluation, management, including the CEO and CFO, concluded that as of December 31, 2017, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and to ensure that information required to be disclosed by us in the reports that we file or submit under the Act is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure. We maintain a system of internal control over financial reporting that is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States. Based on the most recent evaluation, we have concluded that no significant change in our internal control over financial reporting occurred during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 6. Exhibits

Exhibit Number	Description	Incorporated by Reference			
		Form	File No.	Exhibit	Filing Date
3.1	<u>Certificate of Designations, Preferences and Rights of Series A Cumulative Convertible Participating Preferred Stock of Beacon Roofing Supply, Inc.</u>	Form 8-K	000-50924	3.1	January 5, 2018
