Table of Contents

G-III APPAREL GROUP, LTD. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Basis of Presentation

As used in these financial statements, the term “Company” or “G-III” refers to G-III Apparel Group, Ltd. and its subsidiaries. The Company designs, manufactures and markets an extensive range of apparel, including outerwear, dresses, sportswear, swimwear, women’s suits and women’s performance wear, as well as women’s handbags, footwear, small leather goods, cold weather accessories and luggage. The Company also operates retail stores.

The Company consolidates the accounts of all its wholly-owned and majority-owned subsidiaries. KL North America BV (“KLNA”) is a Dutch limited liability company which is a joint venture that is 49% owned by the Company. Kingdom Holdings 1 B.V. (“KH1”) is a Dutch limited liability company that is 19% owned by the Company. These investments are accounted for using the equity method of accounting. All material intercompany balances and transactions have been eliminated. Vilebrequin International SA (“Vilebrequin”), a Swiss corporation, which is wholly-owned by the Company, KH1 and KLNA report results on a calendar year basis rather than on the January 31 fiscal year basis used by the Company.

The results for the nine month period ended October 31, 2016 are not necessarily indicative of the results expected for the entire fiscal year, given the seasonal nature of the Company’s business. The accompanying financial statements included herein are unaudited. All adjustments (consisting of only normal recurring adjustments) necessary for a fair presentation of the financial position, results of operations and cash flows for the interim period presented have been reflected.

The accompanying financial statements should be read in conjunction with the financial statements and notes included in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2016 filed with the Securities and Exchange Commission (the “SEC”).

On April 1, 2015, the Board of Directors approved a two-for-one stock split of the Company’s outstanding shares of common stock, to be effected in the form of a stock dividend. The stock dividend was paid to stockholders of record as of the close of market on April 20, 2015 and was effected on May 1, 2015. All share and per share information has been retroactively adjusted to reflect this stock split.

The Company’s international subsidiaries use different functional currencies, which are the local selling currency. In accordance with the authoritative guidance, assets and liabilities of the Company’s foreign operations are translated from foreign currency into U.S. dollars at period-end rates, while income and expenses are translated at the weighted-average exchange rates for the period. The related translation adjustments are reflected as a foreign currency translation adjustment in accumulated other comprehensive income within stockholders’ equity.

Certain reclassifications have been made to the Condensed Consolidated Statements of Cash Flows as a result of the Company’s electing to apply the amendments related to the presentation of excess tax benefits on the statement of cash flows using a retrospective transition method as prescribed by Accounting Standard Update (“ASU”) 2016-09. This change resulted in a $10.5 million decrease in net cash used in operating activities and a corresponding decrease in net cash provided by financing activities in the accompanying Condensed Consolidated Statement of Cash Flows for the period ended October 31, 2015, compared to the amounts previously reported.

Note 2 – Investment in unconsolidated affiliates

In February 2016, the Company acquired a 19% minority interest in KH1, the parent company of the group that holds the worldwide rights to the Karl Lagerfeld brand. The Company paid 32.5€ million (approximately $35.4 million at the date of the transaction). This investment is intended to expand the partnership between the Company and the Karl Lagerfeld brand and extend their business development opportunities on a global scale. The investment in KH1, which is being accounted for under the equity method of accounting, is reflected in Investment in Unconsolidated Affiliates on the Condensed Consolidated Balance Sheets at October 31, 2016.

In June 2015, the Company entered into a joint venture agreement with Karl Lagerfeld Group BV. The Company acquired a 49% ownership interest in KLNA, an entity that holds brand rights to Karl Lagerfeld trademarks for all consumer products (except eyewear, fragrance, cosmetics, watches, jewelry and hospitality services) and apparel in the United States, Canada and Mexico. The Company is also a licensee of the joint venture and has been granted a five-year license (with two renewals of five-years each) for women’s apparel, women’s handbags, women’s footwear and men’s outerwear. The Company began shipping Karl Lagerfeld sportswear, dresses, women’s outerwear and handbags in the third quarter of fiscal 2016 and Karl Lagerfeld women’s footwear in the first quarter of fiscal 2017. The investment in KLNA, which is being accounted for under the equity method of accounting, is reflected in Investment in Unconsolidated Affiliates on the Condensed Consolidated Balance Sheets at October 31, 2016.

Table of Contents

Note 3 – Inventories

Wholesale inventories are stated at the lower of cost (determined by the first-in, first out method) or market which comprises a significant portion of the Company's inventory. Retail inventories are valued at the lower of cost or market as determined by the retail inventory method. Vilebrequin inventories are stated at the lower of cost (determined by the weighted average method) or market. Inventories consist of:

	October 31, 2016	October 31, 2015	January 31, 2016
	(In thousands)		
Finished goods	$489,352	$ 507,602	$ 484,805
Raw materials and work-in-process	1,203	2,772	506
	$490,555	$ 510,374	$ 485,311

Note 4 – Net Income per Common Share

Basic net income per common share has been computed using the weighted average number of common shares outstanding during each period. Diluted net income per share is computed using the weighted average number of common shares and potential dilutive common shares, consisting of unvested restricted stock awards and stock options outstanding, during the period. In addition, all share based payments outstanding that vest based on the achievement of performance and/or market price conditions, and for which the respective performance and/or market price conditions have not been achieved, have been excluded from the diluted per share calculation. Approximately 377,000 shares of common stock have been excluded from the diluted net income per share calculation for the nine months ended October 31, 2016. For the nine months ended October 31, 2016 and 2015, 194,618 and 262,830 shares of common stock, respectively, were issued in connection with the exercise or vesting of equity awards.

On February 1, 2016, the Company adopted the Accounting Standard Update 2016-09 (see Note 7 for further details). The new guidance prescribes that excess tax benefits are no longer recognized in additional paid in capital. The assumed proceeds from applying the treasury stock method when computing net income per share is amended to exclude the amount of excess tax benefits that would be recognized in additional paid-in capital. This change in accounting results in approximately 250,000 additional diluted common shares being included in the diluted net income per share calculation for the nine months ended October 31, 2016.

The following table reconciles the numerators and denominators used in the calculation of basic and diluted net income per share:

	Three Months Ended October 31		Nine Months Ended October 31	
	2016	2015	2016	2015
	(In thousands, except per share amounts)			
Net income attributable to G-III	$70,564	$87,156	$72,042	$106,369
Basic net income per share:				
Basic common shares	45,918	45,311	45,713	45,117
Basic net income per share	$1.54	$1.92	$1.58	$2.36
Diluted net income per share:				
Basic common shares	45,918	45,311	45,713	45,117
Diluted Restricted stock awards and stock options	984	1,215	1,234	1,275
Diluted common shares	46,902	46,526	46,947	46,392
Diluted net income per share	$1.50	$1.87	$1.53	$2.29

Note 5 – Notes Payable

The Company's credit agreement with JPMorgan Chase Bank, N.A., as Administrative Agent for a group of lenders, is a five-year senior secured credit facility through August 2017 providing for borrowings in the aggregate principal amount of up to $450 million. Amounts available under the credit agreement are subject to borrowing base formulas and other advances as specified in the credit agreement. As of October 31, 2016, there was $345.0 million available under the credit agreement.

Borrowings bear interest, at the Company's option, at LIBOR plus a margin of 1.5% to 2.0% or prime plus a margin of 0.5% to 1.0%, with the applicable margin determined based on availability under the credit agreement. The credit agreement requires the Company to maintain a minimum fixed charge coverage ratio, as defined, and, under certain circumstances, permits the Company to make payments for cash dividends, stock redemptions and share repurchases subject to compliance with certain covenants. As of October 31, 2016, the Company was in compliance with these covenants.

Table of Contents

The credit agreement is secured by all of the assets of G-III Apparel Group, Ltd. and its subsidiaries, G-III Leather Fashions, Inc., Riviera Sun, Inc., CK Outerwear, LLC, Andrew & Suzanne Company Inc., AM Retail Group, Inc., G-III Apparel Canada ULC, G-III License Company, LLC and AM Apparel Holdings, Inc.

Amounts outstanding under the Company's credit agreement were $91.3 million at October 31, 2016 and $171.8 million at October 31, 2015 (see note 8 for further details).

Note 6 – Segments

The Company's reportable segments are business units that offer products through different channels of distribution. The Company has two reportable segments: wholesale operations and retail operations. The wholesale operations segment includes sales of products under brands licensed to the Company from third parties, as well as sales of products under the Company's own brands and private label brands. The retail operations segment consists primarily of sales by the Wilsons Leather and G.H. Bass stores, as well as a limited number of Calvin Klein Performance stores.

The following information, in thousands, is presented for the three month and nine month periods indicated below:

	Three Months Ended October 31, 2016

Total Assets	$1,423,441	$ 1,416,492	$ 1,184,070

(1) includes assets not allocated to any reportable segment.

Note 7 – Recent Accounting Pronouncements

Recently Adopted Accounting Guidance

In March 2016, the FASB issued ASU 2016-09, "*Compensation — Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*". ASU 2016-09 simplifies various aspects related to share-based payments. The Company elected to early-adopt ASU 2016-09 with an effective date of February 1, 2016. Under previous guidance, excess tax benefits and deficiencies from stock-based compensation arrangements were recorded in equity when the awards vested or were settled. ASU 2016-09 requires prospective recognition of excess tax benefits and deficiencies in the income statement, resulting in the recognition of excess tax benefits of approximately $3.1 million in income tax expense or $0.07 per diluted share, rather than in paid-in capital, for the nine months ended October 31, 2016. The Company has elected to continue to estimate the number of stock-based awards expected to vest, as permitted by ASU 2016-09, rather than electing to account for forfeitures as they occur.

Accounting Guidance Issued Being Evaluated for Adoption

In October 2016, the FASB issued ASU 2016-16, "*Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory*". The update requires an entity to recognize the income tax consequences of an intra-entity transfer of an asset upon transfer other than inventory, eliminating the current recognition exception. Prior to the update, GAAP prohibited the recognition of current and deferred income taxes for intra-entity asset transfers until the asset was sold to an outside party. The amendments in this update do not include new disclosure requirement; however, existing

disclosure requirements might be applicable when accounting for the current and deferred income taxes for an intra-entity transfer of an asset other than inventory. For public business entities, the amendments in this update are effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods within those annual reporting periods. The Company is currently evaluating the effects of ASU 2016-16 on its financial statements and disclosures.

In August 2016, the FASB issued ASU No. 2016-15, "*Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*", which clarifies guidance on the classification of eight specific cash flow issues. ASU 2016-15 was issued to reduce diversity in practice and prevent financial statement restatements. Cash flow issues include; debt prepayment or debt extinguishment costs, settlement of zero-coupon bonds, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims, proceeds from the settlement of corporate-owned life insurance policies and bank-owned life insurance policies, distributions received from equity method investees, beneficial interests in securitization transactions and separately identifiable cash flows and application of the predominance principle. ASU 2016-15 is effective for public business entities for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Under the provision, entities must apply the guidance retrospectively to all periods presented but may apply it prospectively if retrospective application would be impracticable. The Company is currently evaluating the provisions of ASU 2016-15.

In April 2016, the FASB issued ASU 2016-10, "*Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing*". The guidance clarifies two aspects of Topic 606: (i) identifying performance obligations and (ii) the licensing implementation guidance, while retaining the related principles for those areas. Topic 606 includes implementation guidance on (a) contracts with customers to transfer goods and services in exchange for consideration and (b) determining whether an entity's promise to grant a license provides a customer with either a right to use the entity's intellectual property (which is satisfied at a point in time) or a right to access the entity's intellectual property (which is satisfied over time). The amendments in this update are intended to render more detailed implementation guidance with the expectation of reducing the degree of judgment necessary to comply with Topic 606. The FASB continues to clarify this guidance and most recently issued ASU 2016-08, "*Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*", ASU 2016-10, "*Identifying Performance Obligations and Licensing*", and ASU No. 2016-12, "*Narrow-Scope Improvements and Practical Expedients*", which have the same effective date as ASU 2014-09. These new standards will be effective for public entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. The Company has not yet selected a transition method and is currently evaluating the impact the adoption of these standards will have on its consolidated financial statements and related disclosures.

Table of Contents

In March 2016, the FASB issued ASU 2016-07, "*Investments — Equity Method and Joint Ventures (Topic 323: Simplifying the Transition to the Equity Method of Accounting)*". ASU 2016-07 eliminates the requirement that when an investment, initially accounted for under a method other than the equity method of accounting, subsequently qualifies for use of the equity method, an investor must retrospectively apply the equity method in prior periods in which it held the investment. This requires an investor to determine the fair value of the investee's underlying assets and liabilities retrospectively at each investment date and revise all prior periods as if the equity method had always been applied. The new guidance requires the investor to apply the equity method prospectively from the date the investment qualifies for the equity method. The investor will add the carrying value of the existing investment to the cost of the additional investment to determine the initial cost basis of the equity method investment. ASU 2016-07 is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted in any interim or annual period. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, "*Leases (Topic 842)*". The primary difference between the current requirement under GAAP and ASU 2016-02 is the recognition of lease assets and lease liabilities by lessees for those leases classified as operating leases. ASU 2016-02 requires that a lessee recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term (other than leases that meet the definition of a short-term lease). The liability will be equal to the present value of lease payments. The asset will be based on the liability, subject to adjustment, such as for initial direct costs. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Operating leases will result in straight-line expense (similar to current operating leases) while finance leases will result in a front-loaded expense pattern (similar to current capital leases). Classification will be based on criteria that are for the most part similar to those applied in current lease accounting. ASU 2016-02 may be adopted using a modified retrospective transition, and provides for certain practical expedients. Transactions will require application of the new guidance at the beginning of the earliest comparative period presented. The guidance is effective for public entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. The Company is currently assessing the potential impact of ASU 2016-02 on its consolidated financial statements and expects that it will result in a significant increase to its long-term assets and liabilities.

In January 2016, the FASB issued ASU 2016-01, "*Financial Instruments — Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*". This standard modifies how entities measure equity investments and present changes in the fair value of financial liabilities; simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; changes presentation and disclosure requirements, and clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early application is permitted. The Company is not expecting that the adoption of this ASU will have any impact on its statement of operations.

In November 2015, the FASB issued ASU 2015-17, "*Income Taxes (Topic 740) — Balance Sheet Classification of Deferred Taxes*". Prior to ASU 2015-17, GAAP required an entity to separate deferred income tax asset and liabilities into current and noncurrent amounts on the balance sheet. ASU 2015-17 requires that all deferred tax assets and liabilities, along with any related valuation allowance, be classified as noncurrent on the balance sheet. ASU 2015-17 is effective for annual and interim periods beginning after December 15, 2016 and early adoption is permitted. ASU 2015-17 may be applied either prospectively to all deferred tax assets and liabilities or retrospectively to all periods presented. The Company expects the adoption of this guidance to only affect the balance sheet classification of its deferred tax assets and liabilities.

In July 2015, the FASB issued ASU 2015-11, "*Inventory (Topic 330): Simplifying the Measurement of Inventory*". Under this standard, inventory will be measured at the "lower of cost and net realizable value" and options that currently exist for "market value" will be eliminated. The standard defines net realizable value as the "estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation." No other changes were made to the current guidance on inventory measurement. This guidance is effective for interim and annual periods beginning after December 15, 2016. Early adoption is permitted and should be applied prospectively. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

Note 8 – Subsequent Events

On December 1, 2016, the Company acquired all of the outstanding capital stock of Donna Karan International ("DKI") from LVMH Moet Hennessy Louis Vuitton Inc. ("LVMH") for a total purchase price of approximately $650 million, subject to certain adjustments. The stock purchase agreement provided for the purchase price to be paid by the Company with a combination of (i) cash, (ii) $75 million of newly issued shares of G-III common stock, par value $0.01 per share, equivalent to approximately 2.6 million shares, to the seller and (iii) a junior lien secured promissory note in favor of LVMH in the principal amount of $125 million. The Company plans to pay the cash portion of the purchase price from the proceeds of $350.0 million of borrowings under a senior secured term loan facility ("The Term Loan") and the balance from borrowings under a $650.0 million senior secured asset-based revolving credit facility (the "New ABL Facility").

The Term Loan will mature in December 2022. The Term Loan is subject to amortization payments of 0.625% of the original aggregate principal amount of the Term Loan per quarter, with the balance due at maturity. Interest on the outstanding principal amount of the Term Loan accrues at a rate equal to LIBOR plus an applicable margin of 5.25% or an alternate base rate (defined as the greatest of (i) the "prime rate" as published by the Wall Street Journal from time to time, (ii) the federal funds rate plus 0.5% and (iii) the LIBOR rate for a borrowing with an interest period of one month) plus 4.25%, per annum, payable in cash. The Term Loan may be prepaid, at the option of the Company, in whole or in part, at any time at par plus accrued interest, and, in the case of prepayments from the proceeds of certain refinancings prior to December 1, 2017, subject to a 1% prepayment fee applicable. The Term Loan is required to be prepaid with the proceeds of certain asset sales if such proceeds are not applied as required by the Term Loan Credit Agreement within certain specified deadlines. The Term Loan is also required to be prepaid in an amount equal to 75% of the Excess Cash Flow (as defined in the Term Loan Credit Agreement) of the Company with respect to each fiscal year ending on or after January 31, 2018. The percentage of Excess Cash Flow that must be so applied is reduced to 50% if the Company's senior secured leverage ratio is less than 3.00 to 1.00, to 25% if the Company's senior

secured leverage ratio is less than 2.75 to 1.00 and to 0% if the Company's senior secured leverage ratio is less than 2.25 to 1.00.

11

Table of Contents

Amounts available under the ABL Facilities are subject to borrowing base formulas and over advances as specified in the ABL Credit Agreement. Borrowings bear interest, at the Company's option, at LIBOR plus a margin of 1.25% to 1.75% or an alternate base rate (defined as the greatest of (i) the "prime rate" of JPMorgan Chase Bank, N.A. from time to time, (ii) the federal funds rate plus 0.5% and (iii) the LIBOR rate for a borrowing with an interest period of one month) plus a margin of 0.25% to 0.75%, with the applicable margin determined based on the Company's availability under the ABL Credit Agreement.

Upon closing of the acquisition of Donna Karan, the Company's previous credit agreement (see note 5) was refinanced and replaced by the New ABL Facility.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Unless the context otherwise requires, "G-III", "us", "we" and "our" refer to G-III Apparel Group, Ltd. and its subsidiaries. References to fiscal years refer to the year ended or ending on January 31 of that year. For example, our fiscal year ending January 31, 2017 is referred to as "fiscal 2017". Vilebrequin, KH1 and KLNA report results on a calendar year basis rather than on the January 31 fiscal year basis used by G-III. Accordingly, the results of Vilebrequin, KH1 and KLNA are and will be included in our financial statements for the quarter ended or ending closest to G-III's fiscal quarter. For example, in this Form 10-Q for the nine month period ended October 31, 2016, the results of Vilebrequin, KH1 and KLNA are included for the nine month period ended September 30, 2016. We account for our investment in KLNA and KH1 using the equity method of accounting.

All share and per share data in this Form 10-Q have been retroactively adjusted to reflect our two-for-one stock split effected on May 1, 2015.

Various statements contained in this Form 10-Q, in future filings by us with the SEC, in our press releases and in oral statements made from time to time by us or on our behalf constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations and are indicated by words or phrases such as "anticipate," "estimate," "expect," "will," "project," "we believe," "is or remains optimistic," "currently envisions," "forecasts," "goal" and similar words or phrases and involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from the future results, performance or achievements expressed in or implied by such forward-looking statements. Forward-looking statements also include representations of our expectations or beliefs concerning future events that involve risks and uncertainties, including, but not limited to:

- our dependence on licensed products;
- our dependence on the strategies and reputation of our licensors;
- costs and uncertainties with respect to expansion of our product offerings;
- the performance of our products at retail and customer acceptance of new products;
- retail customer concentration;
- risks of doing business abroad;

- price, availability and quality of materials used in our products;
- the need to protect our trademarks and other intellectual property;
- risks relating to our retail business;
- dependence on existing management;
- our ability to make strategic acquisitions and possible disruptions from acquisitions;
- need for additional financing;
- seasonal nature of our business;
- our reliance on foreign manufacturers;
- the need to successfully upgrade, maintain and secure our information systems;
- the impact of the current economic and credit environment on us, our customers, suppliers and vendors;
- the effects of competition in the markets in which we operate;
- consolidation of our retail customers;
- additional legislation and/or regulation in the United States or around the world;
- our ability to import products in a timely and cost effective manner;
- our ability to continue to maintain our reputation;

Table of Contents

- fluctuations in the price of our common stock;
- potential effect on the price of our common stock if actual results are worse than financial forecasts;
- the effect of regulations applicable to us as a U.S. public company; and
- matters relating to the acquisition of Donna Karan International Inc., including:
  - our ability to integrate the Donna Karan business, to realize the benefits of the Donna Karan acquisition or to do so on a timely basis,
  - our ability to combine our business with the Donna Karan business successfully or in a timely and cost-efficient manner,
  - the increase in our indebtedness as a result of the acquisition,
  - the significant costs we incurred as a result of the acquisition,
  - the significant increase in the amount of our goodwill and other intangibles, and
  - the degree of business disruption relating to the acquisition.

These forward-looking statements are based largely on our expectations and judgments and are subject to a number of risks and uncertainties, many of which are unforeseeable and beyond our control. A detailed discussion of significant risk factors that have the potential to cause our actual results to differ materially from our expectations is described under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended January 31, 2016 and in the Quarterly Report on Form 10-Q for the quarter ended July 31, 2016. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Acquisition of Donna Karan International Inc.

In December 2016, we acquired all of the outstanding capital stock of Donna Karan International Inc. (“DKI”) from LVMH Moet Hennessy Louis Vuitton Inc. (“LVMH”) for a total purchase price of approximately $650 million, subject to certain adjustments. We believe that Donna Karan is one of the world’s most iconic and recognizable power brands. The acquisition of Donna Karan fits squarely into our strategy to diversify and expand our business. We intend to focus on the expansion of the DKNY brand, while also re-establishing DKNY jeans, Donna Karan and other associated brands. We believe that we can also capitalize on significant, untapped global licensing potential in a number of men’s categories, as well as in home and jewelry. We believe that our strong track record of driving organic growth, identifying and integrating acquisitions and developing talent throughout the organization makes the potential of the Donna Karan brand especially appealing.

In connection with the acquisition, we entered into a debt financing agreement with Barclays Bank PLC, JPMorgan Chase Bank, N.A., Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated U.S. Bank National Association, HSBC Bank USA, National Association, HSBC Securities (USA) Inc., Wells Fargo Bank, N.A., Wells Fargo Securities, LLC, KeyBank National Association and Capital One, National Association. The financing agreements provided us with a $650 million principal amount, five-year senior secured asset-based revolving credit facility (the “New ABL Facility”) and a $350 million principal amount six year senior secured term loan facility (the “Term Facility”). The New ABL Facility refinanced and replaced our previous credit facility.

The purchase price was paid by us with a combination of (i) cash, (ii) $75 million of newly issued shares of our common stock, par value $0.01 per share, to LVMH and (iii) a junior lien secured promissory note in favor of LVMH in the principal amount of $125 million. The cash portion of the purchase price was paid from the proceeds of the borrowings under the Term Facility and the balance from borrowings under the New ABL Facility.

The Term Loan will mature in December 2022. The Term Loan is subject to amortization payments of 0.625% of the original aggregate principal amount of the Term Loan per quarter, with the balance due at maturity. Interest on the outstanding principal amount of the Term Loan accrues at a rate equal to LIBOR plus an applicable margin of 5.25% or an alternate base rate (defined as the greatest of (i) the “prime rate” as published by the Wall Street Journal from time to time, (ii) the federal funds rate plus 0.5% and (iii) the LIBOR rate for a borrowing with an interest period of one month) plus 4.25%, per annum, payable in cash. The Term Loan may be prepaid, at our option, in whole or in part, at any time at par plus accrued interest, and, in the case of prepayments from the proceeds of certain refinancings prior to December 1, 2017, subject to a 1% prepayment fee applicable. The Term Loan is required to be prepaid with the proceeds of certain asset sales if such proceeds are not applied as required by the Term Loan Credit Agreement within certain specified deadlines. The Term Loan is also required to be prepaid in an amount equal to 75% of the Excess Cash Flow (as defined in the Term Loan Credit Agreement) with respect to each fiscal year ending on or after January 31, 2018. The percentage of Excess Cash Flow that must be so applied is reduced to 50% if our senior secured leverage ratio is less than 3.00 to 1.00, to 25% if our senior secured leverage ratio is less than 2.75 to 1.00 and to 0% if our senior secured leverage ratio is less than 2.25 to 1.00.

Amounts available under the ABL Facilities are subject to borrowing base formulas and over advances as specified in the ABL Credit Agreement. Borrowings bear interest, at our option, at LIBOR plus a margin of 1.25% to 1.75% or an alternate base rate (defined as the greatest of (i) the “prime rate” of JPMorgan Chase Bank, N.A. from time to time, (ii) the federal funds rate plus 0.5% and (iii) the LIBOR rate for a borrowing with an interest period of one month) plus a margin of 0.25% to 0.75%, with the applicable margin determined based on our availability under the ABL Credit Agreement.

Overview

G-III designs, manufactures and markets an extensive range of apparel, including outerwear, dresses, sportswear, swimwear, women’s suits and women’s performance wear, as well as women’s handbags, footwear, small leather goods, cold weather accessories and luggage. We sell our products under our own proprietary brands, which include Vilebrequin, G.H. Bass, Andrew Marc, Marc New York, Eliza J, Jessica Howard and Black Rivet, as well as under

private retail labels. Effective December 1, 2016, we also started selling apparel under the DKNY and Donna Karan brands.

Table of Contents

We sell products under an extensive portfolio of well-known licensed brands, including Calvin Klein, Tommy Hilfiger, Karl Lagerfeld, Kenneth Cole, Guess?, Levi's and Cole Haan. In our team sports business, we have licenses with the National Football League, National Basketball Association, Major League Baseball, National Hockey League, Touch by Alyssa Milano, Hands High and over 100 U.S. colleges and universities.

We operate in fashion markets that are intensely competitive. Our ability to continuously evaluate and respond to changing consumer demands and tastes, across multiple market segments, distribution channels and geographic areas is critical to our success. Although our portfolio of brands is aimed at diversifying our risks in this regard, misjudging shifts in consumer preferences could have a negative effect on our business. Our success in the future will depend on our ability to design products that are accepted in the marketplace, source the manufacture of our products on a competitive basis, and continue to diversify our product portfolio and the markets we serve.

We report based on two reportable segments: wholesale operations and retail operations. The wholesale operations segment mainly consists of wholesale sales of our licensed products and non-licensed products and includes sales of products under brands licensed to us from third parties, as well as sales of products under our own brands and private label brands. The retail operations segment consists primarily of the Wilsons Leather and G.H. Bass stores, as well as a limited number of Calvin Klein Performance stores.

We have expanded our portfolio of proprietary and licensed brands through acquisitions and by entering into license agreements for new brands or for additional products under previously licensed brands. Acquisitions are part of our strategy to expand our product offerings and increase the portfolio of proprietary and licensed brands that we offer through different tiers of retail distribution.

The sale of licensed products is a key element of our strategy and we have continually expanded our offerings of licensed products over the past 20 years.

In July 2016, we signed a three year extension through March 2020 of our license agreement with the National Football League. This agreement includes men's and women's outerwear, Starter men's and women's outerwear, men's and women's lifestyle apparel, Hands High men's and women's lifestyle apparel, and Touch by Alyssa Milano women's lifestyle apparel.

In April 2016, Vilebrequin entered into a worldwide license agreement for a line of watches. Vilebrequin also entered into a license agreement for a line of sunglasses. Both lines are expected to commence distribution in 2017.

In February 2016, we acquired a 19% minority interest in Kingdom Holdings 1 B.V. (“KH1”), the parent company of the group that holds the worldwide rights to the Karl Lagerfeld brand. This investment is intended to expand the partnership between us and the Karl Lagerfeld brand and extend their business development opportunities on a global scale. In June 2015, we acquired a 49% interest in a joint venture that holds brand rights to the Karl Lagerfeld trademarks for consumer products (with certain exceptions) and apparel in the United States, Canada and Mexico. We are also the first licensee of the joint venture, having been granted a license for women’s apparel, women’s handbags, women’s shoes and men’s outerwear. We began shipping Karl Lagerfeld sportswear, dresses, women’s outerwear and handbags in the third quarter of fiscal 2016 and Karl Lagerfeld women’s footwear in the first quarter of fiscal 2017.

In February 2016, we expanded our relationship with Tommy Hilfiger through a new license agreement for Tommy Hilfiger womenswear in the United States and Canada. This license for women’s sportswear, suit separates, performance and denim is in addition to existing Tommy Hilfiger licenses for dresses, men’s and women’s outerwear and luggage. The new license agreement has an initial term of five-years and a renewal term of four years. Macy’s will continue to be the principal retailer of Tommy Hilfiger in the United States and women’s sportswear will continue to be a Macy’s exclusive offering. In October 2015, we entered into a license agreement for Tommy Hilfiger women’s dresses. The collection was available beginning February 2016 at select department stores, including Macy’s, specialty stores, and e-commerce partners in the United States and Canada. We believe Tommy Hilfiger is an iconic American brand. We intend to leverage our market expertise to help build sales of Tommy Hilfiger women’s apparel. We now ship Tommy Hilfiger dresses, women’s suit separates, women’s performance wear, jeans and luggage. Women’s sportswear will begin shipping during the current fourth quarter.

In October 2015, we also announced the launch of Hands High, a new licensed sports apparel line inspired by Jimmy Fallon. Hands High features professional team logos from the NFL, NBA, MLB and NHL that will be located under a fan's arms. Hands High product was launched in October 2015 at retailers throughout the country, as well as at official team and stadium shops and official league websites. We started to ship Hands High product to over 40 universities in July 2016.

We believe that consumers prefer to buy brands they know, and we have continually sought licenses that would increase the portfolio of name brands we can offer through different tiers of retail distribution, for a wide array of products at a variety of price points. We believe that brand owners will look to consolidate the number of licensees they engage to develop product and they will seek licensees with a successful track record of expanding brands into new categories. It is our objective to continue to expand our product offerings and we are continually discussing new licensing opportunities with brand owners.

Table of Contents

Our retail operations segment consists primarily of our Wilsons Leather and G.H. Bass stores, substantially all of which are operated as outlet stores. As of October 31, 2016, we operated 191 Wilsons Leather stores and 165 G.H. Bass stores, 5 Calvin Klein Performance stores and 1 Karl Lagerfeld store. Two additional Karl Lagerfeld stores opened in November 2016.

Trends

Retailers are seeking to expand the differentiation of their offerings by devoting more resources to the development of exclusive products, whether by focusing on their own private label products or on products made exclusively for a retailer by a national brand manufacturer. Retailers are placing more emphasis on building strong images for their private label and exclusive merchandise. Exclusive brands are only made available to a specific retailer, and thus customers loyal to their brands can only find them in the stores of that retailer.

A number of retailers are experiencing financial difficulties, which in some cases has resulted in bankruptcies, liquidations and/or store closings. The financial difficulties of a retail customer of ours could result in reduced business with that customer. We may also assume higher credit risk relating to receivables of a retail customer experiencing financial difficulty that could result in higher reserves for doubtful accounts or increased write-offs of accounts receivable. We attempt to mitigate credit risk from our customers by closely monitoring accounts receivable balances and shipping levels, as well as the ongoing financial performance and credit standing of customers.

We have attempted to respond to trends in our industry by continuing to focus on selling products with recognized brand equity, by attention to design, quality and value and by improving our sourcing capabilities. We have also responded with the strategic acquisitions made and new license agreements entered into by us that diversified our portfolio of licensed and proprietary brands and helped diversify our business by adding new product lines, expanding distribution channels and developing the retail component of our business. We believe that our broad distribution capabilities help us to respond to the various shifts by consumers between distribution channels and that our operational capabilities will enable us to continue to be a vendor of choice for our retail partners.

Results of Operations

Three months ended October 31, 2016 compared to three months ended October 31, 2015

Net sales for the three months ended October 31, 2016 decreased to $883.5 million from $909.9 million in the same period last year. Net sales of our segments are reported before intercompany eliminations. Net sales of our wholesale operations segment decreased to $794.4 million from $807.0 million in the comparable period last year. Net sales of our wholesale operations segment were negatively impacted by a decrease in shipments of outerwear to certain of our retail customers having excess outerwear inventory levels as a result of the warm weather last fall and winter. The decrease in net sales of our wholesale operations segment is also the result of decreases of $14.8 million in sales of our Andrew Marc line of products, $10.3 million in net sales of Kenneth Cole licensed products, $9.3 million in net sales of Kensie licensed products , $7.7 million in net sales of private label products and $7.7 million in net sales of our Guess licensed products. These decreases were offset, in part, by net sales from our new Tommy Hilfiger women's suits, women's performance wear and dresses product categories ($24.7 million) and net sales from our new Karl Lagerfeld line of products ($11.7 million) as well as increases in net sales of Calvin Klein licensed products ($11.9 million), with the largest increase in women's handbags and sportswear categories. Net sales of our retail operations segment decreased to $107.2 million for the three months ended October 31, 2016 from $124.7 million in the same period last year primarily as the result of a 20.0% decrease in Wilsons' same store sales compared to the same period in the prior year and a 11.1% decrease in G.H. Bass same store sales compared to the same period in the prior year. These decreases are mainly the result of reduction in customer traffic partly attributable to reductions in tourist visitors, greater promotional activity and the warm weather this fall.

Gross profit decreased to $321.5 million, or 36.4% of net sales, for the three months ended October 31, 2016, from $337.1 million, or 37.0% of net sales, in the same period last year. The gross profit percentage in our wholesale operations segment was 34.4% in the three months ended October 31, 2016 compared to 34.7% in the same period last year. The gross profit percentage in our retail operations segment was 45.2% for the three months ended October 31, 2016 compared to 45.9% for the same period last year. Gross margins decreased in our Wilsons businesses as a result of the highly promotional environment and our objective of getting our inventories in line for the upcoming season.

Selling, general and administrative expenses increased to $198.3 million in the three months ended October 31, 2016 from $191.0 million in the same period last year. This increase is primarily due to increased facility costs ($5.6 million) and advertising expenses ($2.6 million). Facility costs increased as a result of increased shipping, storage and processing costs incurred at our third party warehouses, as well as higher rent expense. In addition, we incurred increased promotional expenses related to the launches of Karl Lagerfeld, G.H. Bass and Tommy Hilfiger offset, in part, by a reduction in cooperative advertising. Payroll increases associated with the new divisions were offset by reductions in bonus accruals.

Equity loss in unconsolidated affiliates was $1.4 million as a result of a $2.1 million loss from our 19.2% investment in KH1 offset, in part, by a $616,000 in income from our 49% investment in KLNA. KH1's loss recorded for the three months ended October 31, 2016 represents our share in KH1's loss since the acquisition date.

Table of Contents

Other income was $896,000 in the three months ended October 31, 2015 and related to a gain with respect to the revised estimated contingent consideration payable in connection with the acquisition of Vilebrequin.

Depreciation and amortization increased to $8.0 million in the three months ended October 31, 2016 from $6.6 million in the same period last year. These expenses increased as a result of depreciation and amortization related to the increase in capital expenditures in previous years primarily related to fixturing costs at department stores, as well as remodeling, relocating and adding new Wilsons and G.H. Bass stores.

Interest and financing charges, net, for the three months ended October 31, 2016 was $1.7 million compared to $2.0 million for the same period last year as both borrowings and interest rates were steady over the two periods.

Income tax expense for the three months ended October 31, 2016 was $41.4 million compared to a $51.2 million tax expense for the same period last year. Excluding the tax benefit from the equity awards and other discreet items, our effective tax rate remained the same for both periods at 37.0%. For the period ended October 31, 2016, we recorded a $0.7 million tax benefit realized in connection with the vesting of equity awards subsequent to the adoption of ASU 2016-09.

Nine months ended October 31, 2016 compared to nine months ended October 31, 2015

Net sales for the nine months ended October 31, 2016 decreased to $1.78 billion from $1.82 billion in the same period last year. Net sales of our segments are reported before intercompany eliminations. Net sales of our wholesale operations segment were $1.54 billion in the nine months ended October 31, 2016 and $1.55 billion in the comparable period last year. Our wholesale operations segment had $38.2 million in additional net sales of Tommy Hilfiger licensed products, including dresses, women’s suits and women’s performance wear new product lines, $28.6 million of new Karl Lagerfeld licensed products, as well as a $23.1 million increase in net sales of Calvin Klein licensed products, with the largest increases occurring in women’s handbags and women’s performance wear, and an $13.3 million increase in net sales of Ivanka Trump licensed products. These increases were offset by a $21.1 million decrease in net sales of Kensie licensed products, a $19.6 million decrease in net sales of our Andrew Marc product lines, a $18.4 million decrease in net sales of private label products, a $12.5 million decrease in net sales of Kenneth Cole outerwear licensed products, a $11.9 million decrease in net sales of Guess men’s and women’s outerwear licensed products, a $11.5 million decrease in net sales of our team sport licensed products and a $8.7 million decrease in net sales of Jessica Simpson licensed products . Net sales of our retail operations segment decreased to $302.2 million for the nine months ended October 31, 2016 from $338.7 million in the same period last year primarily as the result of a decrease of 16.9% in Wilsons’ same store sales compared to the same period in the prior year and a decrease of 9.0% in G.H. Bass same store sales compared to the same period in the prior year. These decreases are mainly the result of a reduced demand for outerwear and cold weather products due to lower customer traffic at locations that are frequented by international tourists and a highly promotional outlet and retail environment throughout the year. In addition, sales

were negatively impacted by unseasonably warm weather this fall and in the beginning of the year.

Gross profit was $642.8 million, or 36.0% of net sales, for the nine months ended October 31, 2016, and $659.8 million, or 36.3% of net sales, in the same period last year. The gross profit percentage in our wholesale operations segment was 33.0% in the nine months ended October 31, 2016 compared to 32.4% in the same period last year. This increase was primarily the result of a more favorable product mix, as well as an increase in gross profit of our non outerwear categories, including for the Calvin Klein, Tommy Hilfiger, Eliza J, Jessica Howard, and Ivanka Trump licensed product lines. The gross profit percentage in our retail operations segment was 44.5% for the nine months ended October 31, 2016 compared to 46.3% for the same period last year. The decrease in gross profit percentage was the result of offering deeper discounts in order to maintain acceptable inventory levels.

Selling, general and administrative expenses increased to $504.5 million in the nine months ended October 31, 2016 from $469.6 million in the same period last year. This increase is primarily due to increased facility costs ($13.6 million), personnel costs ($9.9 million) and advertising expenses ($8.8 million), as well as professional fees associated with the Donna Karan acquisition ($3.0 million). We expect to incur significant additional expenses in connection with our acquisition of Donna Karan during the fourth quarter of fiscal 2017. Facility costs increased as a result of increased shipping, storage and processing costs incurred at our third party warehouses, as well as higher rent expense resulting from additional retail stores opened since the prior year. Personnel costs increased as a result of staffing for new product lines under new license agreements, as well as an increase in headcount to staff additional retail stores that opened since last year. Advertising costs increased due to the increase in net sales of licensed products and cooperative advertising. We typically pay an advertising fee and are required to participate in customer cooperative advertising pursuant to many of our license agreements based on a percentage of net sales of licensed products. Additionally, advertising costs increased due to an increase in advertising purchased, an increase in retail stores promotional activities and increased spending in e-commerce initiatives.

Depreciation and amortization increased to $22.9 million in the nine months ended October 31, 2016 from $18.2 million in the same period last year. These expenses increased as a result of depreciation and amortization related to the increase in capital expenditures in previous years primarily related to fixturing costs at department stores, as well as remodeling, relocating and adding new Wilsons, G.H. Bass and Vilebrequin stores.

Equity loss in unconsolidated affiliates was $820,000 as a result of a $2.1 million loss from our 19.2% investment in KH1 offset by $1.2 million in income from our 49% investment in KLNA.

Table of Contents

Other income was $896,000 in the nine months ended October 31, 2015 and primarily related to a gain with respect to the revised estimated contingent consideration payable in connection with the acquisition of Vilebrequin.

Interest and financing charges, net, for the nine months ended October 31, 2016 were $4.0 million compared to $4.1 million for the same period last year as both borrowings and interest rates were steady over the two periods. We expect interest expense to increase on a going forward basis as a result of the additional expense incurred in connection with the debt outstanding and note issue to finance the acquisition of DKI.

Income tax expense for the nine months ended October 31, 2016 was $38.4 million compared to an income tax expense of $62.5 million for the same period last year. Excluding the tax benefit from the equity awards and other discreet items, our effective tax rate remained the same for both periods at 37.0%. For the period ended October 31, 2016, we recorded a $3.1 million tax benefit realized in connection with the vesting of equity awards subsequent to the adoption of ASU 2016-09.

Liquidity and Capital Resources

Our primary operating cash requirements are to fund our seasonal buildup in inventories and accounts receivable, primarily during the second and third fiscal quarters each year. Due to the seasonality of our business, we generally reach our peak borrowings under our asset-based credit facility during our third fiscal quarter. The primary sources to meet our operating cash requirements have been borrowings under this credit facility, cash generated from operations and the sale of our common stock.

We had cash and cash equivalents of $45.0 million on October 31, 2016 and $54.3 million on October 31, 2015. Our contingent liability under open letters of credit was approximately $9.8 million as of October 31, 2016 compared to $8.8 million as of October 31, 2015.

Credit Agreement

We have a five-year senior secured credit facility through August 2017 with JPMorgan Chase Bank, N.A., as Administrative Agent for a group of lenders, providing for borrowings in the aggregate principal amount of up to $450 million. Amounts available under the credit agreement are subject to borrowing base formulas and over advances as specified in the credit agreement. Borrowings bear interest, at our option, at LIBOR plus a margin of 1.5% to 2.0% or prime plus a margin of 0.5% to 1.0%, with the applicable margin determined based on availability under the credit

agreement. The credit agreement requires us to maintain a minimum fixed charge coverage ratio, as defined, and under certain circumstances permits us to make payments for cash dividends, stock redemptions and share repurchases, subject to compliance with certain covenants. As of October 31, 2016, we were in compliance with these covenants.

The credit agreement is secured by all of the assets of G-III Apparel Group, Ltd. and its subsidiaries, G-III Leather Fashions, Inc., Riviera Sun, Inc., CK Outerwear, LLC, Andrew & Suzanne Company Inc., AM Retail Group, Inc., G-III Apparel Canada ULC, G-III License Company, LLC and AM Apparel Holdings, Inc.

As previously discussed, upon closing of the acquisition of Donna Karan, this credit agreement was refinanced and replaced by the New ABL Facility.

Share Repurchase Program

Our Board of Directors has authorized a share repurchase program of 5,000,000 shares. The timing and actual number of shares repurchased, if any, will depend on a number of factors, including market conditions and prevailing stock prices, and are subject to compliance with certain covenants contained in our loan agreement. Share repurchases may take place on the open market, in privately negotiated transactions or by other means, and would be made in accordance with applicable securities laws. No shares were purchased under the program during the three months ended October 31, 2016. As of October 31, 2016, we have approximately 46,031,000 shares of common stock outstanding.

Cash from Operating Activities

We used $117.3 million of cash in operating activities during the nine months ended October 31, 2016, primarily as a result of an increase of $315.4 million in accounts receivable, offset, in part, by our net income of $72.7 million, an increase in income taxes payable of $48.5 million and an increase in accounts payable and accrued expenses of $40.8 million.

The changes in these operating cash flow items are generally consistent with our seasonal pattern of building up inventory for the fall shipping season resulting in the increases in accounts payable. The fall shipping season begins during the latter half of our second quarter resulting in the increase in accounts receivable during the third quarter. The increase in income taxes payable is a result of the timing of tax payments compared to the prior year.

Table of Contents

Cash from Investing Activities

We used $53.8 million of cash in investing activities in the nine months ended October 31, 2016, of which $35.4 million related to our investment in KH1. The remainder of the cash used in investing activities of $18.4 million consisted of capital expenditures related primarily to improving, remodeling, relocating and adding new G.H. Bass, Wilsons and Vilebrequin stores, as well as for additional fixturing costs at department stores.

Cash from Financing Activities

Net proceeds of $83.9 million was provided by financing activities in the nine months ended October 31, 2016, primarily as a result of the net proceeds of $91.3 million in borrowings under our revolving credit line and taxes paid in connection with the net share settlement of certain vested equity awards.

Financing Needs

We believe that our cash on hand and cash generated from operations together with funds available under our credit agreement, are sufficient to meet our expected operating and capital expenditure requirements and any purchases we may make under our recently expanded share repurchase program. Our acquisition of Donna Karan required us to incur significant additional bank financing as described above under “Acquisition of Donna Karan International Inc.” In the future, we may seek to acquire other businesses in order to expand our product offerings. We may need additional financing in order to complete one or more additional acquisitions. We cannot be certain that we will be able to obtain additional financing, if required, on acceptable terms or at all.

Critical Accounting Policies

Our discussion of results of operations and financial condition relies on our consolidated financial statements that are prepared based on certain critical accounting policies that require management to make judgments and estimates that are subject to varying degrees of uncertainty. We believe that investors need to be aware of these policies and how they impact our financial statements as a whole, as well as our related discussion and analysis presented herein. While we believe that these accounting policies are based on sound measurement criteria, actual future events can, and often do, result in outcomes that can be materially different from these estimates or forecasts.

The accounting policies and related estimates described in our Annual Report on Form 10-K for the year ended January 31, 2016 are those that depend most heavily on these judgments and estimates. As of October 31, 2016, there have been no material changes to our critical accounting policies.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There are no material changes to the disclosure made with respect to these matters in our Annual Report on Form 10-K for the year ended January 31, 2016.

Item 4. Controls and Procedures.

As of the end of the period covered by this report, our management, including our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms and (ii) accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure, and thus, are effective in making known to them material information relating to G-III required to be included in this report.

During our last fiscal quarter, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended January 31, 2016 and in "Item-1A. Risk Factors" in our Quarterly Report on Form 10-Q for the quarter ended July 31, 2016, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K and in the Quarterly Report on Form 10-Q are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
