TEEKAY CORPORATION REPORTS
SECOND QUARTER 2018 RESULTS

Highlights

Reported consolidated GAAP net loss attributable to shareholders of Teekay of \$28.3 million, or \$0.28 per share (impacted by non-cash items as detailed in Appendix A of this release), and consolidated adjusted net loss attributable to shareholders of Teekay⁽¹⁾ of \$21.6 million, or \$0.21 per share, in the second quarter of 2018.

Generated GAAP consolidated income from vessel operations of \$1.9 million (including \$32.8 million in asset impairments) and consolidated total cash flow from vessel operations⁽¹⁾ of \$164.2 million in the second quarter of 2018.

Entered into contract extensions for Teekay Parent's Banff FPSO unit and two Teekay Offshore FPSO units, the Voyageur Spirit and Ostras.

Since March 2018, Teekay LNG has taken delivery of three LNG carriers, all on long-term charter contracts, and two mid-sized LPG carriers.

Teekay Tankers signed term sheets for two new financings, which upon completion and, combined with the sale-leaseback transaction previously announced, will increase its total liquidity by approximately \$110 million⁽⁴⁾ to approximately \$190 million on a pro-forma basis as of June 30, 2018.

Hamilton, Bermuda, August 2, 2018 - Teekay Corporation (Teekay or the Company) (NYSE:TK) today reported the Company's results for the quarter ended June 30, 2018. These results include the Company's two publicly-listed consolidated subsidiaries Teekay LNG Partners L.P. (Teekay LNG) (NYSE:TGP) and Teekay Tankers Ltd. (Teekay Tankers) (NYSE:TNK) and its equity-accounted investment in publicly-listed Teekay Offshore Partners L.P. (Teekay Offshore) (NYSE:TOO), which was deconsolidated as of September 25, 2017, (collectively, the Daughter Entities) and all remaining subsidiaries and equity-accounted investments of the Company. The Company, together with its subsidiaries other than the Daughter Entities, is referred to in this release as Teekay Parent. Please refer to the second quarter 2018 earnings releases of Teekay LNG, Teekay Tankers and Teekay Offshore, which are available on the Company's website at www.teekay.com, for additional information on their respective results.

(1) For the quarter ended June 30, 2017, Teekay Offshore was consolidated in the Company’s financial statements. As a result of Teekay Offshore’s transaction with Brookfield Business Partners L.P., together with its institutional (2) partners (collectively Brookfield) on September 25, 2017, the Company deconsolidated Teekay Offshore as of that date. For the quarters ended June 30, 2018 and March 31, 2018, Teekay Offshore was accounted for as an equity-accounted investment.

Total cash flow from vessel operations has reduced in the first and second quarter of 2018 primarily as a result of (3) the deconsolidation of Teekay Offshore on September 25, 2017, which Teekay now accounts for using the equity method.

(4) These financings remain subject to customary conditions precedent and the execution of definitive documentation.

CEO Commentary

“Both our consolidated and Teekay Parent's results improved in the second quarter of 2018, compared to the same period of the prior year, due mainly to higher cash flows generated by our directly-owned FPSO units that have upside exposure to oil prices and production,” commented Kenneth Hvid, Teekay’s President and CEO. “I would like to point out, similar to last quarter, when making year-over-year comparisons of Teekay’s consolidated results, it is important to account for the deconsolidation of Teekay Offshore as of September 25, 2017 and the adoption of the new revenue accounting standard as of January 1, 2018⁽¹⁾.”

“At Teekay Parent, I am pleased to report that we have secured a one-year charter contract extension on the Banff FPSO, which will continue to have a fixed-rate component and an upside component linked to oil prices and production. Teekay Parent continues to strengthen its balance sheet with the recent agreement to sell our ownership interest in Sevan Marine ASA (Sevan) for approximately \$28 million and the repurchase of approximately \$53 million of our 8.5% senior notes due in 2020 at an average price below current levels and well below the make whole price.”

“At Teekay LNG, we continue to execute on our portfolio of growth projects with the delivery of two additional LNG carrier newbuildings, both on long-term charters, and the completion of multiple debt refinancings. Looking ahead, we expect to take delivery of seven LNG carrier newbuildings and the Bahrain LNG terminal project to commence over the next 18 months, which we anticipate will help drive further cash flow growth and the delevering of Teekay LNG's balance sheet.”

“At Teekay Tankers, including the sale-leaseback transaction previously announced in May 2018, we have signed term sheets for three financings which, upon completion, are expected to increase Teekay Tankers' net liquidity position by approximately \$110 million.”

“Teekay Offshore has secured new FPSO charter contract extensions on the Voyageur Spirit and Ostras, refinanced its 2019 bond maturities and ordered two additional LNG-fueled shuttle tanker newbuildings, which are expected to further strengthen its position as the leading provider of contract of affreightment (CoA) shuttle tanker services in the North Sea.”

Mr. Hvid concluded, “We continue to make progress on strengthening the financial foundation across the Teekay Group while maintaining our market-leading positions and strong operating platforms and we believe that the Teekay Group is positioning to benefit from a continued broader energy and tanker market recovery.”

(1) Please refer to footnote (1) of the summary consolidated statement of loss included in this release for further details on the deconsolidation and the adoption of new revenue accounting standards.

Summary of Results

Teekay Corporation Consolidated

The Company's consolidated results during the quarter ended June 30, 2018, compared to the same period of the prior year, were positively impacted primarily by higher cash flows from the Banff and Hummingbird FPSO units due to the commencement of oil price-linked production tariffs in those charter contracts on August 1, 2017 and October 1, 2017, respectively, and higher income and cash flows from Teekay LNG as a result of the deliveries of 10 liquefied natural gas (LNG) and mid-sized liquefied petroleum gas (LPG) newbuildings between July 2017 and May 2018 and the commencement of short-term charter contracts for certain of the vessels in Teekay LNG's 52 percent-owned joint venture with Marubeni Corporation (the Teekay LNG-Marubeni Joint Venture).

These increases were partially offset primarily by lower income and cash flows in Teekay Tankers, as a result of lower average spot tanker rates, and lower income and cash flows in Teekay LNG primarily a result of a decrease in earnings in 2018 on seven Multi-gas carriers upon the termination of their previous charter contracts.

Teekay Parent

Teekay Parent Adjusted Cash Flow from Vessel Operations⁽¹⁾, which includes distributions and dividends paid to Teekay Parent from the Daughter Entities in the following quarter and cash flow from vessel operations attributable to assets directly-owned by, or chartered-in to, Teekay Parent, less Teekay Parent's corporate general and administrative expenses, was positive \$16.6 million for the quarter ended June 30, 2018 compared to negative \$6.8 million for the same period of the prior year. This significant improvement was primarily due to: higher revenues from the Banff and Hummingbird Spirit FPSO units due to contractual production tariffs linked to oil prices which commenced in the latter half of 2017; and, as a result of the adoption of the new revenue accounting standard, the recognition of approximately \$2 million of additional annual incentive revenue related to the Foinaven FPSO that was previously recognized annually in the fourth quarter. These increases were partially offset by a reduction in cash distributions from Teekay Offshore as a result of the strategic partnership with Brookfield and the elimination of the minimum dividend payment from Teekay Tankers commencing with the first quarter of 2018 (the variable portion of Teekay Tankers' dividend policy remains intact).

Total Teekay Parent Free Cash Flow⁽¹⁾, which includes Teekay Parent Adjusted Cash Flow from Vessel Operations⁽¹⁾, less net interest expense, was positive \$0.8 million during the second quarter of 2018, compared to negative \$19.6 million for the same period of the prior year for the reasons mentioned above. This improvement was partially offset by no interest income earned for the three months ended June 30, 2018 on a \$200 million loan to Teekay Offshore which Teekay Parent sold to Brookfield in the third quarter of 2017. Please refer to Appendix D of this release for additional information about Teekay Parent Free Cash Flow.

These are non-GAAP financial measures. Please refer to "Definitions and Non-GAAP Financial Measures" and the (1) Appendices to this release for definitions of these terms and reconciliations of these non-GAAP financial measures as used in this release to the most directly comparable financial measures under United States GAAP.

Summary Results of Daughter Entities

Teekay LNG

Teekay LNG's results improved during the quarter ended June 30, 2018, compared to the same quarter of the prior year, primarily due to the deliveries of 10 LNG and mid-sized LPG carrier newbuildings between July 2017 and May 2018 and the commencement of short-term charter contracts for certain of the vessels in Teekay LNG's Teekay LNG-Marubeni Joint Venture. These increases were partially offset by the sale of a conventional tanker and an LPG carrier in the first quarter of 2018, lower rates earned in 2018 on two conventional tankers upon the expiration of their fixed-rate charter contracts in 2017, and lower rates earned in 2018 on seven Multi-gas carriers upon the termination by Teekay LNG of their previous charter contracts due to non-payment of charter hire. Teekay LNG's GAAP net loss for the second quarter of 2018, compared to the same quarter of the prior year, was also negatively impacted by the write-down of four Multi-gas carriers in the second quarter of 2018. Please refer to Teekay LNG's second quarter 2018 earnings release for additional information on the financial results for this entity.

Teekay Tankers

Teekay Tankers' results decreased during the quarter ended June 30, 2018, compared to the same period of the prior year, primarily due to lower average spot tanker rates and the expiry of time-charter out contracts for various vessels, which have subsequently traded on spot voyages at lower average realized rates in the second quarter of 2018 compared to the same period of the prior year. Please refer to Teekay Tankers' second quarter 2018 earnings release for additional information on the financial results for this entity.

Teekay Offshore

Teekay Offshore's results increased during the quarter ended June 30, 2018, compared to the same period of the prior year, primarily due to the contract start-up of the Randgrid FSO and the Pioneiro de Libra and Petrojarl I FPSO units, the redelivery by Teekay Offshore of one in-chartered shuttle tanker in early-2018 and stronger results from the towage segment reflecting higher rates and utilization from a large tow assist and installation project for the Kaombo Norte FPSO. These increases were offset by lower earnings from the Voyageur Spirit and Ostras FPSO units operating at reduced rates upon contract extensions in the first and second quarter of 2018, respectively. Teekay Offshore's GAAP net loss for the second quarter of 2018, compared to the same quarter of the prior year, was also negatively impacted by the write-down of two of Teekay Offshore's FPSO units in the second quarter of 2018. Please refer to Teekay Offshore's second quarter 2018 earnings release for additional information on the financial results for this entity.

Summary of Recent Events

Teekay Parent

In July 2018, Teekay Parent secured a one-year contract extension with Canadian Natural Resources (CNR) to extend the employment of the Banff FPSO on the Banff and Kyle fields to August 2019. The new one-year extension, which took effect in July 2018, has a slightly lower fixed charter rate and an oil and production tariff, which provides potential upside from a formula based on oil price and production.

Since the beginning of March 2018, Teekay Parent has repurchased \$52.6 million of its 8.5% senior unsecured notes due in January 2020 for total consideration of \$54.8 million for an average price of 103.97, which is below the current market price and the current make-whole for the notes. Of the total \$52.6 million of notes repurchased, \$45.8 million of the notes were purchased subsequent to June 30, 2018.

In July 2018, Teekay Parent agreed to sell its 43.5% interest in Sevan Marine ASA for total consideration of approximately \$28 million. The Company expects to record an accounting income/gain on this transaction during the second half of 2018.

Teekay LNG

Growth Projects Update

In July 2018, Teekay LNG's 20 percent-owned joint venture with China LNG Shipping (Holdings) Limited (China LNG), CETS Investment Management (HK) Co. Ltd. (an affiliate of China National Offshore Oil Corporation (CNOOC)) and BW LNG Investments Pte. Ltd., took delivery of one LNG carrier newbuilding, the Pan Europe, which immediately commenced its 20-year charter contract with Royal Dutch Shell (Shell).

In May and July 2018, Teekay LNG took delivery of two M-Type, Electronically Controlled, Gas Injection (MEGI) LNG carrier newbuildings, the Myrina and Megara, which immediately commenced their six to eight-year charter contracts with Shell.

In May and July 2018, Teekay LNG's 50 percent-owned joint venture with Exmar NV (the Exmar LPG Joint Venture) took delivery of its remaining mid-sized LPG carrier newbuildings, the Koksijde and the Wepion, which are currently trading in the spot market.

Financing Update

In May 2018, Teekay LNG's Teekay LNG-Marubeni Joint Venture refinanced an outstanding \$105 million debt facility secured by the Woodside Donaldson LNG carrier, which reduced its financing cost and extended its maturity date from 2021 to 2026.

In June 2018, Teekay LNG refinanced an outstanding \$57 million debt facility maturing in 2018 secured by the Polar Spirit and Arctic Spirit LNG carriers with a new \$40 million debt facility maturing in 2022.

In July 2018, Teekay LNG refinanced an outstanding 107 million Euro (\$125 million) debt facility maturing in 2018 secured by the Madrid Spirit LNG carrier with a new 100 million Euro (\$117 million) debt facility maturing in 2024.

In July 2018, Teekay LNG's 50 percent-owned Exmar LPG joint venture completed a three-year, \$35 million debt facility maturing in 2021 for its final LPG carrier newbuilding, Weipon, which delivered on July 31, 2018.

Teekay Tankers Financing Update

In June 2018, Teekay Tankers signed a term sheet for a sale-leaseback financing transaction relating to six Aframax tankers, which is in addition to the signed term sheet for a sale-leaseback transaction for seven mid-sized tankers announced in May 2018.

In July 2018, Teekay Tankers signed a term sheet for a loan to finance working capital for its revenue sharing arrangement (RSA) pool management operations.

Upon completion, these three transactions are expected to increase Teekay Tankers' liquidity by approximately \$110 million after the repayment of outstanding debt related to the 13 vessels. These transactions are targeted to be completed in the third quarter of 2018 and remain subject to customary conditions precedent and the execution of definitive documentation.

Secured Additional Fixed-Rate Charter

In July 2018, Teekay Tankers entered into a time charter-out contract with a key customer for one Suezmax tanker for a firm period of 12 months, plus an extension option, which is expected to commence by mid-August 2018. The new charter contract is expected to add approximately \$6.4 million in fixed revenues over the initial 12-month period.

Teekay Offshore

Recontracting of FPSO Units

In July 2018, Teekay Offshore secured a further one-year contract extension with Premier Oil to extend the employment of the Voyageur Spirit FPSO on the Huntington field to April 2020. Compared to the current contract, the new one-year extension, which takes effect in April 2019, maintains the same fixed charter rate and oil production tariff elements, but provides additional upside from a formula based on oil price, regardless of production volume, which provides incremental cash flow upside to Teekay Offshore.

In July 2018, Teekay Offshore agreed to a contract extension with Petrobras to extend the employment of the Ostras FPSO to November 2018, with options to extend up to January 2019, at an increased rate relative to the previous contract extension.

In both cases, these contract extensions represent material incremental cash flow contribution with no incremental investment by Teekay Offshore. These activities also extend the timeframe available to secure appropriate future redeployment opportunities and potentially delay or eliminate costs associated with lay-up between employment opportunities. Teekay Offshore continues to explore options for future redeployment opportunities for both assets

Financing Update

In July 2018, Teekay Offshore completed an upsized \$700 million private placement of 8.5% senior unsecured notes maturing in 2023 (the Notes). Brookfield, the holder of approximately 60% of Teekay Offshore's outstanding common units, purchased \$500 million principal amount of the Notes. Teekay Offshore used a portion of the net proceeds from the issuance to (a) repurchase \$225.2 million of the \$300 million aggregate principal of its outstanding 6% senior notes maturing in 2019, (b) repurchase approximately NOK 910 million of the NOK 1,000 million aggregate principal of its NOK senior notes maturing in 2019 (the NOK notes) and settle approximately \$40 million of the cross currency

swaps which were an economic hedge to the NOK notes, and (c) repay at par an outstanding \$200 million 10% promissory note held by Brookfield maturing in 2022 along with an associated \$12 million early termination fee. Following completion of the bond offering, Brookfield exercised its option to acquire an additional 2% ownership interest in Teekay Offshore's general partner (TOO GP) from Teekay, bringing their ownership interest in TOO GP to 51%.

New Growth

In late-July 2018, Teekay Offshore entered into shipbuilding contracts with Samsung Heavy Industries Co. Ltd. to construct two Aframax DP2 shuttle tanker newbuildings. These newbuildings will be constructed based on Teekay Offshore's New Shuttle Spirit design which incorporates proven technologies to increase fuel efficiency and reduce emissions, including LNG propulsion technology. Upon expected delivery in late-2020 through early-2021, these vessels will join Teekay Offshore's CoA portfolio in the North Sea to provide needed capacity to meet its customers' needs.

Arendal Spirit UMS loan extension

In August 2018, Teekay Offshore extended the mandatory prepayment date for the Arendal Spirit UMS debt facility to September 30, 2019 in exchange for a principal prepayment of \$18 million, which is expected to be paid in the third quarter of 2018.

Liquidity

As at June 30, 2018, Teekay Parent had total liquidity of approximately \$446.9 million (consisting of \$229.4 million of cash and cash equivalents and \$217.5 million of undrawn revolving credit facilities) and, on a consolidated basis, Teekay had consolidated total liquidity (excluding Teekay Offshore) of approximately \$1.0 billion (consisting of \$454.9 million of cash and cash equivalents and \$515.7 million of undrawn revolving credit facilities).

Definitions and Non-GAAP Financial Measures

This release includes various financial measures that are non-GAAP financial measures as defined under the rules of the U.S. Securities and Exchange Commission. These non-GAAP financial measures, which include Cash Flow from Vessel Operations, Cash Flow from Vessel Operations - Consolidated, Cash Flow From Vessel Operations - Equity Investments, Adjusted Net Loss Attributable to Shareholders of Teekay, Teekay Parent GPCO Cash Flow, Teekay Parent OPCO Cash Flow, Teekay Parent Adjusted Cash Flow from Vessel Operations, Teekay Parent Free Cash Flow, Net Interest Expense and Adjusted Equity Income, are intended to provide additional information and should not be considered a substitute for measures of performance prepared in accordance with GAAP. In addition, these measures do not have standardized meanings across companies, and therefore may not be comparable to similar measures presented by other companies. The Company believes that certain investors use this information to evaluate the Company's financial performance, as does management.

Non-GAAP Financial Measures

Cash Flow from Vessel Operations (CFVO) represents income (loss) from vessel operations before depreciation and amortization expense, amortization of in-process revenue contracts, write-down and loss on sales of vessels, write-off of deferred revenues and operating expenses and adjustments for direct financing leases to a cash basis, but includes realized gains or losses on the settlement of foreign currency forward contracts and a derivative charter contract. CFVO - Consolidated represents CFVO from vessels that are consolidated on the Company's financial statements. CFVO - Equity Investments represents the Company's proportionate share of CFVO from its equity-accounted vessels and other investments. The Company does not control its equity-accounted vessels and investments and as a result, the Company does not have the unilateral ability to determine whether the cash generated by its equity-accounted vessels and other investments is retained within the entities in which the Company holds the equity-accounted investment or distributed to the Company and other owners. In addition, the Company does not control the timing of such distributions to the Company and other owners. Consequently, readers are cautioned when using total CFVO as a liquidity measure as the amount contributed from CFVO - Equity Investments may not be available to the Company in the periods such CFVO is generated by its equity-accounted vessels and other investments. CFVO is a non-GAAP financial measure used by certain investors and management to measure the operational financial performance of companies. Please refer to Appendices C and E of this release for reconciliations of these non-GAAP financial measures to income (loss) from vessel operations and income (loss) from vessel operations of equity-accounted vessels, respectively, the most directly comparable GAAP measures reflected in the Company's consolidated financial statements.

Adjusted Net Loss Attributable to Shareholders of Teekay excludes items of income or loss from GAAP net loss that are typically excluded by securities analysts in their published estimates of the Company's financial results. The Company believes that certain investors use this information to evaluate the Company's financial performance, as does management. Please refer to Appendix A of this release for a reconciliation of this non-GAAP financial measure to net loss, and refer to footnote (4) of the statements of loss for a reconciliation of adjusted equity income to equity (loss) income, the most directly comparable GAAP measure reflected in the Company's consolidated financial statements.

Teekay Parent Financial Measures

Teekay Parent Adjusted Cash Flow from Vessel Operations represents the sum of (a) distributions or dividends (including payments-in-kind) relating to a given quarter (but received by Teekay Parent in the following quarter) as a result of ownership interests in its consolidated publicly-traded subsidiaries (Teekay LNG and Teekay Tankers) and its equity-accounted investment in Teekay Offshore, net of Teekay Parent's corporate general and administrative expenditures for the given quarter (collectively, Teekay Parent GPCO Cash Flow) plus (b) CFVO attributed to Teekay Parent's directly-owned and chartered-in assets (Teekay Parent OPCO Cash Flow). Teekay Parent Free Cash Flow represents Teekay Parent Adjusted Cash Flow from Vessel Operations, less Teekay Parent's net interest expense and dry-dock expenditures for the given quarter. Net Interest Expense includes interest expense, interest income and realized losses on interest rate swaps. Please refer to Appendices B, C, D and E of this release for further details and reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures reflected in

the Company's consolidated financial statements.

Important Notice to Reader

Deconsolidation of Teekay Offshore and Adoption of New Revenue Accounting Standard

On September 25, 2017, Teekay, Teekay Offshore and Brookfield finalized a strategic partnership (the Brookfield Transaction) which resulted in the deconsolidation of Teekay Offshore as of that date. As a result, Teekay Offshore's financial results are not consolidated by Teekay on or following September 25, 2017. As a result, items such as revenues and CFVO for the three and six months ended June 30, 2018 will be lower compared to the same periods in the prior year since Teekay Offshore is accounted for using the equity method commencing September 25, 2017.

Effective January 1, 2018, the Company adopted the new revenue accounting standard. The following resulting differences had no impact on net loss but a material effect individually on revenues, voyage expenses and vessel operating expenses reported in the first half of 2018:

Teekay Tankers previously presented the net allocation for its vessels participating in revenue sharing arrangements as revenues. Effective January 1, 2018, Teekay Tankers presents the revenue from the voyages these vessels perform in voyage revenues and the difference between this aggregate amount and Teekay Tankers' net allocation from the revenue sharing arrangement as voyage expenses. This had the effect of increasing both revenues and voyage expenses for the three and six months ended June 30, 2018 by \$67.5 million and \$128.8 million, respectively. Teekay Parent previously presented the reimbursement of costs incurred by Teekay Parent for its seafarers onboard vessels owned by its equity-accounted investments and third parties as a reduction to vessel operating expenses. Effective January 1, 2018, Teekay Parent presents the costs of managing these vessels as vessel operating expenses and the reimbursement of such costs as revenue. This had the effect of increasing both revenues and vessel operating expenses for the three and six months ended June 30, 2018 by \$19.6 million and \$41.1 million, respectively.

On September 25, 2017, Teekay deconsolidated Teekay Offshore as part of the Brookfield Transaction and as a result, Teekay Offshore's financial results are not consolidated by Teekay since that date. On January 1, 2018, as a condition of the Brookfield Transaction, Teekay Offshore acquired a 100% ownership interest in seven subsidiaries (1)(the Transferred Subsidiaries) of Teekay Corporation at carrying value. This resulted in a loss on the sale of the Transferred Subsidiaries of \$7.1 million, which is recorded in loss on deconsolidation of Teekay Offshore on the Company's consolidated statements of loss for the three months ended March 31, 2018 and six months ended June 30, 2018.

Effective January 1, 2018, the Company adopted the new revenue accounting standard. The following differences had no impact on net loss but had a material effect individually on revenues, voyage expenses and vessel operating expenses reported in the first half of 2018:

Teekay Tankers previously presented the net allocation for its vessels participating in revenue sharing arrangements as revenues. Effective January 1, 2018, Teekay Tankers presents the revenue from these voyages in voyage revenues and the difference between this amount and Teekay Tankers' net allocation from the revenue sharing arrangement as voyage expenses. This had the effect of increasing both revenues and voyage expenses for the three and six months ended June 30, 2018 by \$67.5 million and \$128.8 million, respectively.

Teekay Parent previously presented the net reimbursement of costs incurred by Teekay Parent for its seafarers for the management of vessels owned by its equity-accounted investments and third parties as revenues. Effective January 1, 2018, Teekay Parent presents the costs of managing these vessels as vessel operating expenses and the reimbursement of such costs as revenue. This had the effect of increasing both revenues and vessel operating expenses for the three and six months ended June 30, 2018 by \$19.6 million and \$41.1 million, respectively.

Write-down and loss on sale of vessels for the three and six months ended June 30, 2018 include the write-downs (2) of four of Teekay LNG's Multi-gas carriers. These vessels were written down to their estimated fair values, using appraised values, as a result of the Teekay LNG's evaluation of alternative strategies for these assets, combined with the current charter rate environment and the outlook for charter rates for these vessels.

Realized and unrealized gains (losses) related to derivative instruments that are not designated as hedges for accounting purposes are included as a separate line item in the consolidated statements of loss. The realized (3)(losses) gains relate to the amounts the Company actually paid to settle such derivative instruments and the unrealized gains (losses) relate to the change in fair value of such derivative instruments, as detailed in the table below:

The Company's proportionate share of items within equity income (loss) as identified in Appendix A of this release is detailed in the table below. By excluding these items from equity income (loss) as reflected in the consolidated (4) statements of loss, the Company believes the resulting adjusted equity income is a normalized amount that can be used to evaluate the financial performance of the Company's equity-accounted investments. Adjusted equity income is a non-GAAP financial measure.

(1) Basic per share amounts.

Reflects the unrealized (gains) losses relating to the change in the mark-to-market value of derivative instruments that are not designated as hedges for accounting purposes, including those investments included in the Company's

(2) proportionate share of equity income (loss) from joint ventures, and hedge ineffectiveness from derivative instruments designated as hedges for accounting purposes.

Foreign currency exchange (gains) losses primarily relate to the Company's debt denominated in Euros and Norwegian Kroner (NOK) and unrealized losses on cross currency swaps used to economically hedge the principal and interest on NOK bonds. Nearly all of the Company's foreign currency exchange gains and losses are unrealized.

(3) Also includes the Company's proportionate share of write-downs and loss on sales of vessels and other operating assets in equity-accounted joint ventures for the three months ended June 30, 2018 (refer to footnote (4) of the summary consolidated statement of loss included in this release for further details). For details on the consolidated write-downs of vessels, refer to footnote (2) of the summary consolidated statement of loss.

(4) Also includes the recovery of restructuring charges related to the closure of offices and seafarers' severance amounts included in revenues in the consolidated statement of loss for the three months ended June 30, 2018.

(5) Other for the three months ended June 30, 2018 includes a decrease in the Company's freight taxes relating to prior periods and a decrease in the Company's deferred tax assets.

(6) Items affecting net loss include items from the Company's consolidated non-wholly-owned subsidiaries. The specific items affecting net loss are analyzed to determine whether any of the amounts originated from a

consolidated non-wholly-owned subsidiary. Each amount that originates from a consolidated non-wholly-owned subsidiary is multiplied by the non-controlling interests' percentage share in this subsidiary to determine the non-controlling interests' share of the amount. The amount identified as "Non-controlling interests' share of items above" in the table above is the cumulative amount of the non-controlling interests' proportionate share of items listed in the table.

Includes Class A and Class B shareholdings. Teekay Tankers' past dividend policy was to pay out 30 percent to 50 percent of its quarterly adjusted net income (as defined), with a minimum quarterly dividend of \$0.03 per share, (3) subject to Teekay Tankers' Board approval. Commencing with the dividend for the first quarter of 2018, Teekay Tanker's Board eliminated the minimum quarter dividend; however, the variable portion of the dividend policy was maintained.

Includes distributions from Teekay Parent's interest in Teekay Offshore's 10.5% Series D Preferred Units acquired in June 2016. The distributions received for the quarter ended June 30, 2017 were paid-in-kind in the form of new (4) Teekay Offshore common units. All outstanding Series D Preferred Units were repurchased by Teekay Offshore in September 2017 as part of the Brookfield Transaction.

(5) Please refer to Appendices C and E for additional financial information on Teekay Parent's cash flow from vessel operations.

Other for the three months ended June 30, 2018 includes \$1.7 million of revenue associated with a customer recovery of prior period restructuring costs relating to Teekay Parent's Australian operations. Includes \$0.4 million (6) for the three months ended June 30, 2017 relating to 50 percent of the CFVO from Teekay Tanker Operations Ltd. (TTOL). Teekay Parent owned 50 percent of TTOL for the period up to May 31, 2017, when Teekay Tankers purchased the remaining 50 percent of TTOL from Teekay Parent.

(7) Excludes corporate general and administrative expenses relating to Teekay Parent GPCO Cash Flow.

Please see Appendix E to this release for a description of this measure and a reconciliation of this non-GAAP (8) financial measure as used in this release to interest expense net of interest income, the most directly comparable GAAP financial measure.

Forward Looking Statements

This release contains forward-looking statements (as defined in Section 21E of the Securities Exchange Act of 1934, as amended) which reflect management's current views with respect to certain future events and performance, including: the completion of Teekay Tankers' expected sale-leaseback financing transactions and working capital loan, and the effect of the transactions on its liquidity; the impact of contract extensions on future cash flows; the timing and certainty of the Company's sale of its interest in Sevan, and the effect on the Company's balance sheet and income statement; the anticipated benefit to the Company's future financial results and balance sheet from the delivery of the remaining LNG projects over the next few years; the timing and cost of delivery and start-up of various newbuildings and other projects and the commencement of related contracts; future forward revenues; the completion and impact of Teekay Offshore's newbuilding order on its position in the North Sea CoA shuttle tanker market, and customer demand in the market; fuel consumption and emissions for the shuttle tanker newbuildings; the ability of the Teekay Group to benefit from a broader energy and tanker market recovery; and the extension of the Arendal Spirit UMS loan facility. The following factors are among those that could cause actual results to differ materially from the forward-looking statements, which involve risks and uncertainties, and that should be considered in evaluating any such statement: changes in exploration, production and storage of offshore oil and gas, either generally or in particular regions that would impact expected future growth, particularly in or related to North Sea, Brazil and East Coast of Canada offshore fields; changes in the demand for oil, refined products, LNG or LPG; changes in trading patterns significantly affecting overall vessel tonnage requirements; greater or less than anticipated levels of vessel newbuilding orders and deliveries and greater or less than anticipated rates of vessel scrapping; changes in global oil prices; issues with vessel operations; variations in expected levels of field maintenance; increased operating expenses; potential project delays or cancellations; newbuilding or conversion specification changes, cost overruns, or shipyard disputes; changes in applicable industry laws and regulations and the timing of implementation of new laws and regulations; the potential for early termination of long-term contracts of existing vessels; delays in the commencement of charter or other contracts; the ability to fund remaining capital commitments and debt maturities; the Daughter Entities' ability to secure or draw on financings; failure to complete the sale of shares in Sevan or Teekay Tankers' expected sale-leaseback financing transactions and working capital loan, at all or in proposed terms; and other factors discussed in Teekay's filings from time to time with the SEC, including its Report on Form 20-F for the fiscal year ended December 31, 2017. Teekay expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in Teekay's expectations with respect thereto or any change in events, conditions or circumstances on which any such statement is based.
