Unallocated expenses include payroll and benefits, depreciation and other costs associated with headquarters-related support services. Unallocated expenses increased \$9.2 million for the six months of 2012 compared to the six months of 2011, primarily due to higher stock-based compensation and other corporate support services spending. Unallocated assets decreased \$152.2 million primarily related to a decrease in cash and cash equivalents.

Assets for reportable segments include net accounts receivable and first-in, first-out inventory which are provided to the Company's Chief Operating Decision Maker. Unallocated assets include non-operating cash and cash equivalents, certain prepaid expenses and property, buildings and equipment-net.

8. CONTINGENCIES AND LEGAL MATTERS

As previously reported, in December 2007, the Company received a letter from the Commercial Litigation Branch of the Civil Division of the Department of Justice (DOJ) regarding the Company's contract with the General Services Administration (GSA). The letter suggested that the Company had not complied with its disclosure obligations and the contract's pricing provisions, and had potentially overcharged government customers under the contract.

Discussions with the DOJ relating to the Company's compliance with its disclosure obligations and the contract's pricing provisions are ongoing. The timing and outcome of these discussions are uncertain and could include settlement or civil litigation by the DOJ to recover, among other amounts, treble damages and penalties under the False Claims Act. Representatives of the Company and the DOJ are scheduled to engage in non-binding mediation in the 2012 third quarter to explore the potential for reaching a negotiated settlement of this matter. Due to the uncertainties surrounding this matter, an estimate of possible loss cannot be determined. While this matter is not expected to have a material adverse effect on the Company's financial position, an unfavorable resolution could result in significant payments by the Company. The Company continues to believe that it has complied with the GSA contract in all material respects.

As previously reported, the Company received a subpoena dated August 29, 2008, from the United States Postal Service (USPS) Office of Inspector General seeking information about the Company's pricing compliance under the Company's contract with the USPS to provide Maintenance, Repair and Operating supplies (MRO Contract). The Company has provided responsive information to the USPS and to the DOJ.

As previously reported, the Company received a subpoena dated June 30, 2009, from the USPS Office of Inspector General seeking information about the Company's pricing practices and compliance under the Company's contract with the USPS covering the sale of certain janitorial and custodial items (Custodial Contract). The Company has provided responsive information to the USPS and to the DOJ.

Discussions with the USPS and DOJ relating to the Company's pricing practices and compliance with the pricing provisions of the MRO Contract and the Custodial Contract are ongoing. The timing and outcome of these discussions are uncertain and could include settlement or civil litigation by the USPS and DOJ to recover, among other amounts, treble damages and penalties under the False Claims Act. Representatives of the Company and the DOJ are scheduled to engage in non-binding mediation in the 2012 third quarter to explore the potential for reaching a negotiated settlement of these matters. Due to the uncertainties surrounding these matters, an estimate of possible loss cannot be determined. While these matters are not expected to have a material adverse effect on the Company's financial position, an unfavorable resolution could result in significant payments by the Company. The Company continues to believe that it has complied with each of the MRO Contract and the Custodial Contract in all material respects.

As previously reported, the Company has been conducting an inquiry into alleged falsification of expense reimbursement forms submitted by employees in certain sales offices of Grainger China LLC, a subsidiary of the Company. In the course of the investigation the Company learned that sales employees may have provided prepaid gift cards to certain customers. The Company's investigation included determining whether there were any violations of laws, including the U.S. Foreign Corrupt Practices Act. The Company retained outside counsel to assist in its investigation of this matter. On January 24, 2012, the Company contacted the U.S. Department of Justice and the Securities and Exchange Commission (SEC) to voluntarily disclose that the Company was conducting an internal investigation, and agreed to fully cooperate and update the DOJ and SEC periodically on further developments. The results of the investigation, which have been submitted to the DOJ and the SEC, did not substantiate initial information suggesting significant use of gift cards for improper purposes. The Company cannot predict at this time

whether any regulatory action may be taken or any other potential consequences may result from this matter.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Item 2.

General

Grainger is a broad-line distributor of maintenance, repair and operating supplies, and other related products and services used by businesses and institutions. Grainger's operations are primarily in the United States and Canada, with an expanding presence in Europe, Asia and Latin America. Grainger uses a multichannel business model to provide customers with a range of options for finding and purchasing products utilizing sales representatives, catalogs and direct marketing materials and eCommerce. Grainger serves approximately 2.0 million customers worldwide through a network of highly integrated branches, distribution centers, multiple websites and export services.

Business Environment

Several economic factors and industry trends tend to shape Grainger's business environment. The overall economy and leading economic indicators provide insight into anticipated Company performance for the near term and help in forming the development of projections. Historically, Grainger's sales trends have tended to correlate with industrial production and non-farm payrolls. According to the Federal Reserve, overall industrial production increased 4.7% from June 2011 to June 2012. This improvement has positively affected Grainger's sales growth for the six months of 2012.

In July 2012, Consensus Forecasts-USA projected 2012 Industrial Production growth of 4.2% and GDP growth of 2.1% for the United States. In addition, Consensus Forecasts-USA projected 2012 GDP growth of 2.1% for Canada.

The light and heavy manufacturing customer end-markets have historically correlated with manufacturing employment levels and manufacturing output. According to the United States Department of Labor, manufacturing output increased 1.1% from June 2011 to June 2012 while manufacturing employment levels increased 1.9%. Grainger's heavy and light manufacturing customer end-markets outperformed these indicators as sales to these customer end-markets increased in the low double digits and high single digits, respectively, for both the second quarter and six months ended June 30, 2012.

Outlook

On July 18, 2012, Grainger reiterated the 2012 sales growth guidance of 12 to 14 percent and raised earnings per share guidance to a range of \$10.50 to \$10.80 from the previous 2012 guidance of \$10.40 to \$10.80. Sales in the second half of 2012 are expected to grow in the 10 to 13 percent range. Gross profit margins for the remaining two quarters of the year are expected to remain relatively consistent with the 2012 second quarter gross profit margins.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Other Income and Expense

Other income and expense was a net expense of \$3.3 million in the second quarter of 2012, an increase of \$1.8 million compared to \$1.5 million of expense in the second quarter of 2011, primarily attributable to interest expense on the euro denominated bank term loan used to finance part of the Fabory acquisition.

Excluding the 2011 tax benefit, the effective tax rate decreased from 38.2% to 37.9% primarily due to higher earnings in foreign jurisdictions with lower tax rates and a lower blended state tax rate.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Other Income and Expense

Other income and expense was a net expense of \$5.1 million in the six months of 2012, an increase of \$2.2 million compared to \$2.9 million of expense in the six months of 2011, primarily attributable to interest expense on the euro denominated bank term loan used to finance part of the Fabory acquisition.

Income Taxes

Grainger's effective income tax rates were 37.6% and 37.0% for the six months of 2012 and 2011, respectively. The 2011 effective tax rate benefited from the tax adjustment recorded in the second quarter of 2011.

Financial Condition

Cash Flow

Cash from operating activities continues to serve as Grainger's primary source of liquidity. Net cash provided by operating activities was \$238.2 million and \$309.5 million for the six months ended June 30, 2012 and 2011, respectively. The primary contribution to cash flows from operating activities was net earnings in the six months ended June 30, 2012 of \$382.6 million compared to \$330.7 million in 2011. Offsetting these amounts were changes in operating assets and liabilities, which resulted in a net use of cash of \$246.1 million in the six months of 2012 compared to \$108.3 million in the six months of 2011. The net use of cash in 2012 was primarily attributable to higher accounts receivable tied to sales growth. In addition, other current liabilities decreased due to higher annual cash payments for bonuses and profit sharing paid in 2012.

Net cash used in investing activities was \$116.7 million and \$79.8 million for the six months ended June 30, 2012 and 2011, respectively. The increase in net cash used in investing activities was due to the business acquisition in Brazil and higher cash expended for additions to property, buildings, equipment and capitalized software in the six months ended June 30, 2012.

Net cash used in financing activities was \$208.4 million and \$85.5 million for the six months ended June 30, 2012 and 2011, respectively. The \$122.9 million increase in cash used in financing activities for the six months ended June 30, 2012 was due primarily to higher treasury stock purchases and dividend payments for the six months ended June 30, 2012 versus 2011.

Working Capital

Working capital consists of current assets (less non-operating cash) and current liabilities (less short-term debt and current maturities of long-term debt).

Working capital at June 30, 2012, was \$1,672.0 million, an increase of \$233.6 million when compared to \$1,438.4 million at December 31, 2011. The working capital assets to working capital liabilities ratio increased to 2.9 at June 30, 2012 from 2.4 at December 31, 2011. The increase primarily related to higher accounts receivable and lower compensation and benefits and profit sharing accruals due to the timing of annual payments.

Debt

Grainger maintains a debt ratio and liquidity position that provides flexibility in funding working capital needs and long-term cash requirements. In addition to internally generated funds, Grainger has various sources of financing available, including bank borrowings under lines of credit and commercial paper. Total debt as a percent of total capitalization was 15.9% at June 30, 2012, flat compared to December 31, 2011. In May 2012, the Company entered into a \$300 million, unsecured bank term loan. The proceeds were used to refinance existing debt and for general

corporate purposes.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Critical Accounting Policies and Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the financial statements. Management bases its estimates on historical experience and other assumptions, which it believes are reasonable. If actual amounts are ultimately different from these estimates, the revisions are included in Grainger's results of operations for the period in which the actual amounts become known.

Accounting policies are considered critical when they require management to make assumptions about matters that are highly uncertain at the time the estimates are made and when there are different estimates that management reasonably could have made, which would have a material impact on the presentation of Grainger's financial condition, changes in financial condition or results of operations. For a description of Grainger's critical accounting policies see Grainger's Annual Report on Form 10-K for the year ended December 31, 2011.

Forward-Looking Statements

This Form 10-Q contains statements that are not historical in nature but concern future results and business plans, strategies and objectives and other matters that may be deemed to be "forward-looking statements" under the federal securities laws. Grainger has generally identified such forward-looking statements by using words such as "anticipated, believes, continues, could, earnings per share guidance, estimate, estimated, expected, guidance, had potentially, intended, intends, help in forming, historically correlated, may, not expected to have a material adverse effect, possible, projected, projections, provide insight, range, reasonably likely, sales growth guidance, scheduled, should, tended, tended to correlate, tend to shape, trends, unanticipated, uncertainties, and will" or similar expressions.

Grainger cannot guarantee that any forward-looking statement will be realized although Grainger does believe that its assumptions underlying its forward-looking statements are reasonable. Achievement of future results is subject to risks and uncertainties which could cause Grainger's results to differ materially from those which are presented.

Factors that could cause actual results to differ materially from those presented or implied in a forward-looking statement include, without limitation: higher product costs or other expenses; a major loss of customers; loss or disruption of source of supply; increased competitive pricing pressures; failure to develop or implement new technologies or business strategies; the outcome of pending and future litigation or governmental or regulatory proceedings; investigations, inquiries, audits and changes in laws and regulations; disruption of information technology or data security systems; general industry or market conditions; general global economic conditions; currency exchange rate fluctuations; market volatility; commodity price volatility; labor shortages; facilities disruptions or shutdowns; higher fuel costs or disruptions in transportation services; natural and other catastrophes and unanticipated weather conditions.

Caution should be taken not to place undue reliance on Grainger's forward-looking statements and Grainger undertakes no obligation to publicly update the forward-looking statements, whether as a result of new information, future events or otherwise.
