Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations.

Material Changes in Financial Condition:

The Company's liquidity is affected primarily by the business success, securities prices and marketability of its investee companies and by the amount and timing of new or incremental investments it makes, as well as the availability of borrowing under its credit lines.

During the six-month period ending December 31, 2005 the investments' value decreased by \$38,665. This change is mainly due to the decrease in trading value of CPVD stock, which closed at \$0.006 per share at December 31, 2005.

The total fair value of CPVD common stock was \$39,911 at December 31, 2005. Also, the fair value of the ProGolf.com investment slightly decreased from \$1.56 per share at June 30, 2005 to \$1.439 per share at December 31, 2005. The total fair value of the ProGolf.com investment was \$215,850 and \$234,000 at December 31, 2005 and June 30, 2005, respectively.

Current liabilities increased by \$53,464, and net assets decreased by \$89,425 during the six-month period ended December 31, 2005.

Liquidity and Capital Resources.

Currently, the Company's investment activity and operations are restricted by its limited working capital position.

Capital required for the Company's investment activities, if available, would be generated from new investments, the sale of portfolio securities or from additional offerings of the Company's restricted and legended common stock, of which there can be no assurance of any success in any of such efforts. The ability of the Company to sell restricted portfolio held securities is dependent on market conditions over which the Company has no control. The Company had no material commitments for capital expenditures, as of December 31, 2005.

Item 2. Management's Discussions and Analysis (Continued)

Results of Operations

Three-months ended December 31, 2005 compared to three-months ended December 31, 2004.

The Company recorded a loss of \$380,194 from the sale of some marketable securities during December 2004. There were no stock transactions during the three-months ended December 31, 2005.

Professional expenses were \$21,930 and \$32,223 for the quarters ended December 31, 2005 and 2004, respectively. The decrease is mainly due to a decrease in legal fees.

The Company recorded \$7,500 in management fees due to Acrodyne for each of the three-month periods ended December 31, 2005 and 2004. Enercorp has an agreement with Acrodyne to pay a \$2,500 per month management fee for office space and services, including accounting and financial reporting. Currently, the Company has no full time employees.

The Company recorded \$5,735 and \$9,536 of interest expense on the secured notes to the August 2004 investors for the quarter ended December 31, 2005 and 2004, respectively. Interest on these notes is accrued based on a 7% rate per annum. The \$9,536 of interest represents interest accrued from August 2, 2004 to December 31, 2004, but it was not recorded until December 2004. In 2005, interest expense was recorded evenly over the six-month period ended December 31, 2005.

Net increase (decrease) in unrealized appreciation (depreciation) on investments was \$(2,492) and \$168,964 for the quarters ended December 31, 2005 and 2004, respectively. This change is mainly due to the sale of some marketable securities in December 2004, and the fluctuations in fair value of the Company's investments in CPVD and ProGolf.com.

Results of Operations

Six-months ended December 31, 2005 compared to six-months ended December 31, 2004.

The Company recorded \$4,448 of miscellaneous income due to some accounts payable cancellation for the six-months ended December 31, 2005.

Item 2. Management's Discussions and Analysis (Continued)

Professional expenses were \$26,269 and \$54,072 for the six-months ended December 31, 2005, and 2004, respectively. The change is mainly due to the decrease in legal fees for this year. Enercorp is not involved in any legal proceedings at this time.

The Company recorded \$15,000 in management fees due to Acrodyne for each of the six-months ended December 31, 2005 and 2004. The Company recorded \$3,285 in travel expenses for the six-months ended December 31, 2005, which was related to the legal case filed in Denver, Colorado. No travel expense was incurred during this current six-month period.

Other general and administrative expenses were \$1,383 and \$3,261 for the six-months ended December 31, 2005 and 2004, respectively. Other general and administrative expenses include telephone, postage, and other miscellaneous expenses. Expenses for the 2004 six-month period were mainly due to shipping and mailing costs incurred in relation with the two annual meetings of shareholders.

The net increase (decrease) in unrealized appreciation (depreciation) on investments was \$(38,665) and \$77,138 for the six-months ended December 31, 2005 and 2004, respectively. This change is mainly due to the sale of some marketable securities in December 2004, and the fluctuations in fair value of the Company's investments in CPVD and ProGolf.com.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There is no material change in the information reported under Part II, Item 7 of our 2005 10-K/A Report.

Item 4. Controls and Procedures.

Evaluation of Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have performed an evaluation of the Company's disclosure controls and procedures, as that term is defined in **Rules 13a-15(e) and 15d-15(e)** of the Securities and Exchange Act of 1934, as amended (the Exchange Act), as of December 31, 2005, and each has concluded that such disclosure controls and procedures are not effective to ensure that the information required to be disclosed in our periodic reports filed under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified by the Securities and Exchange Commission's rules and regulations.

Item 4. Controls and Procedures (Continued)

In connection with its audit of the Company's consolidated financial statements as of and for the year ended June 30, 2005, the Company's auditor advised the Company's management and its Board of Directors that it had identified significant deficiencies which were designated as reportable conditions and collectively constitute a material weakness in the Company's internal controls over financial reporting. Areas requiring improvement include (1) accounting for investments in accordance with FASB Statement No. 115 and EITF 03-01 as it relates to the decrease in fair market value of investments below cost, (2) compliance with or development of method for valuing investments, (3)

recordkeeping and evaluation of deferred tax assets and liabilities and analysis of valuation allowance against net deferred tax assets, and (4) preparation of financial statements and footnotes. In addition, in the past the Company has not filed on a timely basis, certain of its quarterly Forms 10-Q and annual Form 10-K with the Securities Exchange Commission (SEC) within the required due dates, which, under Section 404 of the Sarbanes Oxley Act, constitutes a deficiency in internal controls over financial reporting.

Changes in Internal Controls

There have been no changes in the Company's internal control over financial reporting (as such term defined in **Rules 13a-15(f) and 15d-15(f)** under the Exchange Act) during the period ended December 31, 2005 to which this report relates that have materially affected, or are reasonably likely to affect, the Company's internal control over financial reporting. However, management intends to implement the changes described below. The above items, under Section 404 of the Sarbanes Oxley Act, constitute significant deficiencies and collectively material weaknesses in internal controls over financial reporting. The Company seeks to implement a short and long term correction of these internal control deficiencies and believes it can make progress toward correction of these matters.
