PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the "Board") of Intergraph Corporation, to be voted at the Annual Meeting of Shareholders to be held May 15, 2003, and at any and all adjournments or postponements thereof. Proposals 1 and 2 will be presented at the Meeting by management. The form of proxy permits approval of all nominees or withholding of votes as to all nominees or specific nominees for director, and permits approval, disapproval, or abstention as to ratification of the Company's independent auditors for the year. If the enclosed form of proxy is properly executed, returned, and not revoked, it will be voted in accordance with the specifications, if any, made by the shareholder and, if specifications are not made, will be voted FOR the nominees to the Company's Board of Directors and FOR the ratification of the appointment of Ernst & Young LLP as the Company's independent auditors for the current year. It is not expected that any matter not referred to herein will be presented for action at the Meeting. If any other matters are properly brought before the Meeting, including, without limitation, a motion to adjourn such Meeting to another time and/or place for the purposes of, among other things, permitting dissemination of information regarding material developments relating to the Proposals, or soliciting additional proxies in favor of the Proposals, the persons named on the accompanying proxy card will vote the shares represented by such proxy upon such matters in their discretion; provided, however, that if the Company proposes to adjourn the Meeting for the purpose of soliciting additional votes in favor of the Proposals, and seeks a vote of shareholders on such adjournment, no proxy that is voted against Proposal 3 (or on which a shareholder elects to abstain on such matter) will be voted in favor of any adjournment for the purposes of soliciting additional proxies in favor of either Proposal. Any other proxy will be deemed to have voted FOR such adjournment proposal. Should the Meeting be reconvened, all proxies will be voted in the same manner as such proxies would have been voted when the Meeting was originally convened, except for the proxies effectively revoked or withdrawn prior to the time proxies are voted at such reconvened meeting.

The cost of solicitation of proxies will be borne by the Company. Proxies may be solicited by directors, officers, or regular employees of the Company in person or by telephone or mail. The Company requests that brokerage houses and other custodians, nominees and fiduciaries forward solicitation materials to the beneficial owners of shares of the Company's Common Stock held of record by such persons, and the Company will reimburse such brokers and other fiduciaries for their reasonable out-of-pocket expenses incurred when the solicitation materials are forwarded. On or about April 3, 2003, the Company will commence mailing this Proxy Statement, the enclosed form of proxy, and the attached Notice to holders of its Common Stock.

Shareholders who sign proxies have the right to revoke them at any time before they are voted by filing with the Secretary of the Company either an instrument revoking the proxy or a duly executed proxy bearing a later date, or by attending the Meeting and voting in person.

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

The close of business on March 19, 2003, has been fixed as the record date for the determination of shareholders entitled to notice of and to vote at the Meeting.

GENERAL

The holders of a majority of outstanding shares of Common Stock as of the record date must be present in person or be represented by proxy to constitute a quorum and act upon the proposed business. Failure of a quorum to be represented at the Meeting will necessitate an adjournment or postponement and will subject the Company to additional expense.

Proposal 1 discussed in this Proxy Statement requires the affirmative vote of a plurality of the votes cast at the Meeting. Proposal 2 discussed in this Proxy Statement and, if applicable, Proposal 3, require the affirmative vote of the holders of a majority of the outstanding shares represented at the Meeting and entitled to vote thereon. The Board of Directors recommends that you vote FOR each nominee for director and FOR Proposal 2 presented in this Proxy Statement.

Votes are counted by the Company's transfer agent. The Company's Certificate of Incorporation and Bylaws contain no provisions concerning the treatment of abstentions and broker non-votes. In accordance with Delaware law, abstentions and broker non-votes will have no effect on the outcome of Proposal 1. Abstentions will have the same effect as a vote cast against Proposals 2 and 3, and broker non-votes will have no effect on the outcome of Proposals 2 and 3. Both abstentions and broker non-votes will be included in the determination of the presence of a quorum.

The purpose of the Nominating Committee is to consider and recommend nominees for director, including those recommended by shareholders of the Company. Any recommendations of a nominee should be submitted to David Vance Lucas, Secretary, Intergraph Corporation, Huntsville, Alabama 35894-0001. The Audit Committee is governed by a written charter that was amended by the Board of Directors on September 17, 2002. For a copy of the charter, refer to Appendix A in this Proxy Statement.

Report of the Audit Committee

The Audit Committee, which is composed of four independent directors as defined under the applicable rules of The Nasdaq Stock Market, oversees the Company's financial reporting process on behalf of the Board of Directors. Management has primary responsibility for the Company's financial statements and reporting process, including the systems of internal controls. In light of certain provisions of the Sarbanes-Oxley Act of 2002 (the "Act"), the Audit Committee reviewed its charter and determined that it was appropriate to amend the charter. A copy of the amended charter is attached as an appendix to the Company's proxy statement. The Audit Committee continues to work with management to implement all changes and procedures required by the Act.

In the performance of its oversight function, the Audit Committee has reviewed and discussed the audited financial statements with management and the independent auditors. The Audit Committee has discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as amended by Statement on Auditing Standards No. 90 (Audit Committee Communications). In addition, the Audit Committee has received from the independent auditors the written disclosures required by the pronouncements of the Independence Standards Board and discussed with them their independence from the Company and its management. The Audit Committee has considered whether the independent auditors' provision of non-audit services to the Company is compatible with the auditors' independence.

The Audit Committee discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Audit Committee meets with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

The foregoing report of the Audit Committee does not constitute soliciting material and shall not be deemed incorporated by reference by any general statement incorporating by reference the proxy statement into any filing by the Company under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers, directors, and persons who own more than ten percent of a registered class of the Company's equity securities, if any, to file reports of ownership and changes in ownership with the SEC and, in the case of the Company, with The Nasdaq Stock Market. Officers, directors, and greater than ten percent shareholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on review of the copies of such forms and any amendments thereto furnished to the Company, or on written representations that no forms were required, the Company believes that during the year ended December 31, 2002, all Section 16(a) filing requirements applicable to its officers, directors, and greater than ten percent beneficial owners were met, except that one late report each was filed by Michael Scott Moore and Mark Woelke, officers of two business units of the Company, with respect to the sale of less than two shares each arising out of the termination of the Company's Stock Bonus Plan.

Non-employee directors receive an annual retainer of \$20,000, paid in quarterly installments, plus \$1,000 for each Board and committee meeting attended. In its October 30, 2002, meeting, the Board of Directors resolved to provide the Chair of the Company's Audit Committee an additional annual retainer of \$5,000 to be paid in addition to the standard annual Board member retainer. The Board also resolved to increase the compensation for Board or committee meeting attendance from \$500 to \$1,000 per meeting, effective October 30, 2002. Other compensation includes mileage paid at \$.30 per mile for each member whose home is more than 25 miles from Intergraph headquarters and \$50 for each hour traveled, computed round trip. In addition, any commercial travel expenses are fully reimbursed. All directors received the full annual retainer in 2002, except for Mr. Cardin who received a pro-rata portion of his annual retainer.

The Intergraph Corporation Nonemployee Director Stock Option Plan was approved at the 1998 Annual Shareholders' Meeting. Under this plan, any new non-employee director is granted an option to purchase 3,000 shares of the Company's Common Stock upon his or her first election to the Board. At each Annual Meeting of Shareholders, each non-employee director re-elected to the Board is granted an option to purchase an additional 1,500 shares of the Company's Common Stock. The exercise price of each option granted is the fair market value of the Company's Common Stock on the date of grant. Options are granted for a term of ten years from the date of grant. Options first become exercisable one year from the date of grant and vest at a rate of

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

33% per year from that point, with full vesting on the third anniversary of the date of grant.

Employment Contracts

Mr. Sallinger holds an employment agreement with one of the Company's European business entities. The employment agreement provides him a fixed base salary, a permanent advance for travel expenses, and a vehicle. The contract is open-ended, but may be terminated by either party giving a notice of six weeks prior to the end of a quarter. A contract penalty equal to the last monthly salary may apply if the employment relationship is terminated prematurely.

Mr. Farrell holds an employment agreement with the Company and one of its Australian business entities that provides him a fixed base salary, supplemental health insurance, supplemental defined contribution pension and life insurance benefits, and expense allowances for a vehicle and other personal expense items. The contract is open-ended, but may be terminated by either party with three months' written notification. The termination provisions of his contract provide for severance benefits calculated as a function of his length of service under the agreement up to a maximum of two years' base salary.

Report of the Compensation Committee

The Compensation Committee of the Board of Directors is composed of all non-employee directors. The following committee report reflects the committee's activities in 2002 with regard to executive compensation. The Compensation Committee held three meetings wherein it made compensation decisions based upon recommendations by the Company's CEO, as well as consideration of corporate and individual performance, independent industry survey results, and its own subjective evaluations. This report also describes the basis for compensation recommendations for 2002, and the objectives that the Compensation Committee followed in reviewing and determining executive compensation for 2002.

Compensation Committee Charter and Objectives

In accordance with its Charter, the responsibilities of the Compensation Committee include the oversight of the Company's executive officer compensation policies and practices. In fulfilling these responsibilities, the committee conducts an annual review of the Company's executive compensation programs and policies in order to attain the following objectives:

- o offer fair and competitive base salaries consistent with the Company's position in the markets in which it competes,
- o reward executive officers for corporate and individual performance through incentive bonus programs,
- o encourage future performance through the use of long-term incentives such as stock options, and
- o encourage executive officers to acquire and retain ownership of the Company's Common Stock.

The Company's executive compensation programs and policies are intended to enable the Company to attract, retain, and motivate

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

the highest quality of management talent. To achieve this objective, the Compensation Committee utilizes annual base salaries together with annual and long-term incentives tied to business unit and corporate performance. As a result, the Compensation Committee works closely with the Administrative Committee of the Company's Employee Stock Option Plan ("the Administrative Committee") in the provision of incentive stock options and non-qualified stock options to executive officers and other key employees of the Company. The Administrative Committee reviews and determines the award of individual employee stock option grants under the Company's Employee Stock Option Plan. See "Compensation Committee Interlocks and Insider Participation" following for a summary of the options granted to the Company's executive officers and directors during 2002.

Executive Officer Compensation for 2002

For 2002, the CEO was responsible for formulating a recommendation for the compensation of all other executive officers of the Company based on the authority and discretion granted the CEO by the Board of Directors. The CEO and the Compensation Committee also reviewed and considered independent industry survey results concerning the compensation practices of similarly situated companies, including, where available, specific regional, industry, and competitor compensation data (including that of the peer companies in the performance graph following this report). Based upon a review of the information received, their own business experience, and the recommendations of the CEO, the Compensation Committee approved the CEO's compensation recommendations.

Each of the Business Unit Presidents participates in a formal bonus plan that is tied to the financial performance of the segment. There is no bonus until the executive officer reaches the income from operations targets established in the segment's Annual Operating Plan. As the executive officer exceeds the planned performance, bonuses are earned. The bonus is capped at twice the executive officer's annual salary. When there are increases in responsibilities due to restructuring or other reasons, the Compensation Committee may occasionally award a bonus to an executive officer if deemed appropriate, even if planned performance targets are not met. There is no formal cash bonus plan for executive officers that are not responsible for a segment or a geographic region, but exceptional individual performance is occasionally rewarded by a cash bonus. Overall corporate performance neither guarantees nor precludes the award of bonuses, but may influence the amount of such bonuses.

The granting of stock options to purchase shares of the Company's Common Stock over a ten-year period at a specified price is the primary means of providing long-term incentive to executive officers to perform in a manner that benefits themselves, the Company, and the Company's shareholders. There were no standard performance factors, applicable to either the individual and his or her job performance or the financial performance of the Company, considered by the Administrative Committee. Decisions to award stock options were based upon subjective evaluations of job performance and expected contribution to the Company. Stock options have also been used to attract new employees. Previous option awards are considered when awarding new options. With respect to incentive stock

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

options, such options may not exceed the amounts permitted under applicable Internal Revenue Code provisions. The Compensation Committee reviewed and approved the recommendations of the CEO with regard to the award of stock options for both existing executive officers and new executive officers retained during 2002.

In the past, the Company has on occasion entered into employment agreements with key executives. Such agreements specified the terms of employment, including duration, separation benefits, and compensation. Under most circumstances, separation amounts do not exceed the balance of compensation due for the remaining unfulfilled term of the agreement. Executives without employment agreements who are terminated through a workforce reduction or job elimination receive severance pay based on standard Company policy applicable to all employees. The CEO did not recommend, nor did the committee approve, any new employment agreements during 2002.

CEO Compensation

There was no change in the base compensation of the CEO for 2002. The Compensation Committee approved a \$300,000 bonus for the CEO for 2002 performance. In determining the amount of bonus to be awarded, the committee considered the improvement in the Company's financial condition and results of operations and such other factors as it deemed appropriate. The Compensation Committee establishes the base compensation for the CEO based on the subjective evaluation of the performance of the CEO and the level of compensation paid to similar executives.

Compensation Committee Interlocks and Insider Participation

The Administrative Committee of the Company's stock option plan, which is appointed by and comprised of all current members of the Board of Directors, may award both incentive stock options and non-qualified stock options to executive officers and other key employees. Members of the Administrative Committee who are also employees of the Company, including James F. Taylor, Jr., Chairman of the Board and CEO, and Larry J. Laster, Chief Financial Officer, are eligible to receive options under the Plan.

During the year ended December 31, 2002, the Administrative Committee awarded options for a total of 120,500 shares of the Company's Common Stock. Of this total, options for 10,500 shares were awarded to directors of the Company under the Nonemployee Director Stock Option Plan. No options were granted to the Named Executive Officers during the year ended December 31, 2002.

Performance Graph

The following graph sets forth, for the five-year period ended December 31, 2002, a comparison of the cumulative total shareholder return to the Company's shareholders with that of the Software and Services Index, and that of the Standard & Poor's 500 Stock Index. The Company uses the Media General Computer Software and Services Index as the best representation of the companies with which its business segments compete. The cumulative total return for this index was provided to the Company by Media General Financial Services. Total shareholder return for each was determined by adding a) the cumulative amount of dividends for a given year, assuming dividend reinvestment, and b) the difference between the share price at the beginning and at the end of the year, the sum of which was then divided by the share price at the beginning of such year. The graph assumes \$100 was invested on December 31, 1997.

AMENDED AND RESTATED AUDIT COMMITTEE CHARTER

I. Organization

This charter governs the operations of the Audit Committee. The committee shall review and reassess the charter at least annually and obtain the approval of the Board of Directors (the "Board") for any changes. The Audit Committee shall be appointed by the Board and shall be comprised of at least three members of the Board. Each director serving on the committee shall meet the independence and experience and other requirements of The Nasdaq Stock Market and other applicable regulatory requirements. Accordingly, all committee members shall be independent as defined by Nasdaq rules and other applicable regulatory requirements, shall be financially literate, or shall become financially literate within a reasonable period of time after appointment to the committee. At least one member shall have accounting or related financial management expertise. The duties of the Chair of the Audit Committee shall be to call meetings of the Audit Committee and to preside at such meetings.

II. Statement of Policy

The Audit Committee shall provide assistance to the Board in fulfilling their oversight responsibility to the shareholders and others relating to the Company's financial statements and the financial reporting process, the systems of internal accounting and financial controls, the internal audit function, and the annual independent audit of the Company's financial statements. In so doing, it is the responsibility of the committee to maintain free and open communication between the committee, the independent auditors, the internal auditors, and management of the Company. In discharging its oversight role, the committee is empowered to investigate (or direct management or internal audit to investigate) any matter brought to its attention with full access to all books, data, records, facilities, and personnel of the Company and to retain outside counsel or other experts at the Company's expense for this purpose.

III. Responsibilities

The committee's duties are those of monitoring and oversight, and it recognizes that the Company's management is responsible for preparing the Company's financial statements and that the independent auditors are responsible for auditing those financial statements. Additionally, the committee recognizes that the Company's financial management, including the internal audit department, as well as its independent auditors, have more knowledge and more detailed information regarding the Company and its financial reports than do committee members; consequently, in carrying out its duties and oversight responsibilities, the committee is not providing any expert or special assurance as to the Company's financial statements or any professional certification as to the independent auditors' work, and is not conducting an audit or investigation of the financial statements nor determining that the financial statements are true and complete or have been prepared in accordance with accounting principles generally accepted in the United States.

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

The directors serving on the Audit Committee of the Company shall have no greater standard of liability in the performance of their duties than the standard of liability applicable to all directors. Audit Committee members who are previously employed by the Company or who have special training or experience in financial or audit matters shall have no greater duty or responsibility as a result of such prior training services or experience. Members of the Audit Committee shall have the full protection against personal liability for breach of fiduciary duties as set forth in Article IX to the Certificate of Incorporation, adopted by the shareholders in the meeting of April 23, 1987. In addition, members of the Audit Committee shall be entitled to be indemnified against liability by the Company as provided in Articles VIII and IX of the Certificate of Incorporation and Article Nine of the By-laws.

IV. Processes

The following shall be the principal recurring processes of the Audit Committee in carrying out its oversight responsibilities. The processes are set forth as a guide with the understanding that the committee may supplement them as appropriate without modifying this charter.

- A. The committee shall have a clear understanding with management and the independent auditors that the independent auditors are ultimately accountable to the Board and the Audit Committee, as representatives of the Company's shareholders. The committee shall have the ultimate authority and responsibility to evaluate and, where appropriate, replace the independent auditors. The committee shall discuss with the auditors their independence from management and the Company and matters included in the written disclosures required by the Independence Standards Board. The committee shall consider whether the provision of non-audit services by the independent auditors is compatible with maintaining the outside auditors' independence. Annually, the committee shall review and recommend to the Board the selection of the Company's independent auditors.
- B. The committee shall discuss with the internal auditors and the independent auditors the overall scope and plans for their respective audits, including the adequacy of staffing and compensation. Also, the committee shall discuss with management, the internal auditors, and the independent auditors the adequacy and effectiveness of the accounting and financial controls. Further, the committee shall meet separately with the internal auditors and the independent auditors, with and without management present to discuss the results of their examinations.
- C. The committee shall review the interim financial statements with management and the independent auditors prior to the public release of such interim financial statements and prior to the filing of the Company's Quarterly Report on Form 10-Q. Also, the committee shall discuss the results of the quarterly review and any other matters required to be communicated

Edgar Filing: INTERGRAPH CORP - Form DEF 14A

to the committee by the independent auditors under generally accepted auditing standards. The Chair of the committee may represent the entire committee for the purpose of this review.

- D. The committee shall review and discuss with management and the independent auditors the financial statements to be included in the Company's Annual Report on Form 10-K (or the annual report to the shareholders if distributed prior to the filing of Form 10-K), and the selection, application and disclosure of critical accounting policies used in such financial statements. The review and discussion shall include their judgment about the quality, not just the acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in such financial statements. Also, the committee shall review and discuss any off-balance-sheet-financing transactions, any related party transactions, and any issues that may affect in any material way the fairness of the financial statement presentation, the financial risks of the Company, and the internal control systems of the Company.
- E. The committee shall, at least annually, meet with the senior officer with oversight of the Company's ethics and compliance policies for a report on such programs.
- F. The committee shall pre-approve all auditing services to be provided by the independent auditors.
- G. The committee shall pre-approve all non-auditing services, including tax services, to be provided by the independent auditors, subject to such exceptions as may be determined by the committee to be appropriate and consistent with applicable federal and regulatory provisions.
- H. The committee shall receive reports from the principal executive and financial officers of the Company regarding (1) all significant deficiencies in the design or operation of internal controls which could adversely affect the Company's ability to record, process, summarize, and report financial data and whether they have identified for the independent auditors any material weaknesses in internal controls; (2) any fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal controls; and (3) whether there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
