Additional Information

General

At the quarter ended March 31, 2010, we had outstanding indebtedness totaling \$426.600 billion, consisting of notes payable within one year, senior notes payable after one year and subordinated notes payable after one year, and excluding bank deposits and non-recourse borrowings of consolidated securitization entities. The total amount of outstanding indebtedness at March 31, 2010, excluding subordinated notes and debentures payable after one year, was equal to \$417.022 billion.

Consolidated Ratio of Earnings to Fixed Charges

The information contained in the Prospectus under the caption "Consolidated Ratio of Earnings to Fixed Charges" is hereby amended in its entirety, as follows:

	Year Er	nded Decer	nber 31,		Three Months Ended
<u>2005</u>	<u>2006</u>	2007	2008	<u>2009</u>	March 31, 2010
1.66	1.63	1.56	1.24	0.85	0.98

For purposes of computing the consolidated ratio of earnings to fixed charges, earnings consist of net earnings adjusted for the provision for income taxes, noncontrolling interests, discontinued operations and undistributed earnings of equity investees.

Fixed charges consist of interest and discount on all indebtedness and one-third of rentals, which we believe is a reasonable approximation of the interest factor of such rentals.

As set forth above, GE Capitals ratio of earnings to fixed charges increased to 0.98:1 in the first three months of 2010 due to higher pre-tax earnings at GECC, which were primarily driven by lower losses and delinquencies. As of March 31, 2010, the amount of earnings needed to achieve a one-to-one ratio of earnings to fixed charges was \$91 million.
