#### Item 2.02 Results of Operations and Financial Condition.

Included below is a release of financial information mailed to stockholders on May 15, 2006. It reflects the financial condition, in a condensed format, for Kansas City Life Insurance Company as of March 31, 2006, and was previously included in the Company's first quarter Form 10-Q report filed on May 5, 2006.

#### Message from the President, CEO and Chairman of the Board

Kansas City Life Insurance Company recorded net income of \$7.2 million or \$0.60 per share in the first quarter of 2006, a 10% decline compared with \$8.0 million or \$0.67 per share in 2005. The decline was primarily attributable to a change in realized investment gains and losses of \$1.6 million. In spite of the change in earnings, the first quarter produced several positive results, including increased new individual life insurance premiums of 13% and new universal life deposits of 10%. In addition, total benefits and expenses declined 2% in the comparison of first quarter 2006 to the prior year.

Life insurance sales results in the first quarter were positive, reflecting strong growth in the individual life products. In addition to the increase in new premiums on individual life products and new universal life deposits, new variable universal life deposits increased 17% in the first quarter and new group accident and health premiums increased 15%. However, total premiums declined 6% primarily due to lower sales of new immediate annuity premiums. In addition, new deposits on fixed deferred annuities and new variable annuities declined as a result of changes in the financial markets and the Company s continued focus on generating a balance of life insurance and annuity business.

Net investment income increased slightly, as investment yields improved in the first quarter of 2006 versus the first quarter of 2005. However, total investment revenues declined 3%, primarily due to a \$0.3 million realized investment loss in the first quarter 2006 compared with a \$1.3 million realized investment gain in 2005.

Policyholder benefits and interest credited to policyholder account balances decreased \$2.9 million for the first quarter. This decline was primarily the result of lower interest crediting costs and reduced reserves for future policy benefits.

The Company s commitment to growing its core life insurance business resulted in a positive start in 2006. The success in new life insurance sales has been the result of improved production from the Company s traditionally strong agencies, the successful contributions of new agencies, continued improvements to competitive products and the ongoing commitment of the Company s associates to provide outstanding service to agents and policyholders. Through continued attention to quality and efficient delivery in all aspects of its business, the Company will continue to pursue its vision of providing Security Assured.

Additionally, the Kansas City Life Board of Directors approved a quarterly dividend of \$0.27 per share to be paid May 16, 2006, to shareholders of record as of May 11, 2006.

#### Notes

Comprehensive loss was (\$21,469) and (\$14,503) respectively.

for 2006 and 2005, respectively. This varies from net income largely due to unrealized gains or losses on investments.

Income per common share was based upon the weighted average number of shares outstanding during the quarter, 11,908,863 shares (2005)

11,928,929 shares).

These financial statements are unaudited but, in management's opinion, include all adjustments necessary for a fair presentation of the results.

Certain amounts in prior years have been reclassified to conform with the current year presentation.
