SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549  
FORM 10-Q  
QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE  
SECURITIES EXCHANGE ACT OF 1934  
FOR THE QUARTERLY PERIOD ENDED MARCH 31, 2015  
Commission file number 1-5318  
KENNAMETAL INC.  
(Exact name of registrant as specified in its charter)

Pennsylvania 25-0900168  
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

World Headquarters  
1600 Technology Way  
P.O. Box 231 15650-0231  
Latrobe, Pennsylvania  
(Address of principal executive offices) (Zip Code)

Website: www.kennametal.com  
Registrant's telephone number, including area code: (724) 539-5000

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES  NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES  NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer   
Non-accelerated filer  (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES  NO

Indicate the number of shares outstanding of each of the issuer's classes of capital stock, as of the latest practicable date.

Title of Each Class	Outstanding at April 30, 2015
Capital Stock, par value \$1.25 per share	79,276,283

**FORWARD-LOOKING INFORMATION**

This Quarterly Report on Form 10-Q contains “forward-looking” statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are statements that do not relate strictly to historical or current facts. You can identify forward-looking statements by the fact they use words such as “should,” “anticipate,” “estimate,” “approximate,” “expect,” “may,” “will,” “project,” “intend,” “plan” and other words of similar meaning and expression in connection with any discussion of future operating or financial performance or events. We have also included forward looking statements in this Quarterly Report on Form 10-Q concerning, among other things, our strategy, goals, plans and projections regarding our financial position, liquidity and capital resources, results of operations, market position and product development. These statements are based on current estimates that involve inherent risks and uncertainties. Should one or more of these risks or uncertainties materialize, or should the assumptions underlying the forward-looking statements prove incorrect, our actual results could vary materially from our current expectations. There are a number of factors that could cause our actual results to differ from those indicated in the forward-looking statements. They include: economic recession; availability and cost of the raw materials we use to manufacture our products; our foreign operations and international markets, such as currency exchange rates, different regulatory environments, trade barriers, exchange controls and social and political instability; changes in the regulatory environment in which we operate, including environmental, health and safety regulations; our ability to protect and defend our intellectual property; competition; our ability to retain our management and employees; demands on management resources; potential claims relating to our products; integrating acquisitions and achieving the expected savings and synergies; business divestitures; global or regional catastrophic events; energy costs; commodity prices; labor relations; demand for and market acceptance of new and existing products; and implementation of environmental remediation matters. We provide additional information about many of the specific risks we face in the “Risk Factors” Section of our Annual Report on Form 10-K. We can give no assurance that any goal or plan set forth in forward-looking statements can be achieved and readers are cautioned not to place undue reliance on such statements, which speak only as of the date made. We undertake no obligation to release publicly any revisions to forward-looking statements as a result of future events or developments.

Table of Contents

KENNAMETAL INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1.ORGANIZATION

From its founding in 1938, the McKenna family incorporated Kennametal Inc. in Pennsylvania in 1943. Kennametal Inc. and its subsidiaries (collectively, Kennametal or the Company) are a leading global manufacturer and supplier of tooling, engineered components and advanced materials consumed in production processes. We believe that our reputation for manufacturing excellence, as well as our technological expertise and innovation we deliver in our products and services, helps us to achieve a leading position in our primary markets. End users of our products include metalworking and machinery manufacturers and suppliers across a diverse array of industries, including the aerospace, defense, transportation, machine tool, light machinery and heavy machinery, as well as producers and suppliers in a number of equipment-intensive industries such as coal mining, road construction and quarrying, as well as oil and gas exploration, refining, production and supply. Our end users' applications range from airframes to mining operations, engines to oil wells and turbochargers to processing. We operate two global business segments consisting of Industrial and Infrastructure.

2.BASIS OF PRESENTATION

The condensed consolidated financial statements, which include our accounts and those of our majority-owned subsidiaries, should be read in conjunction with our 2014 Annual Report on Form 10-K. The condensed consolidated balance sheet as of June 30, 2014 was derived from the audited balance sheet included in our 2014 Annual Report on Form 10-K. These interim statements are unaudited; however, we believe that all adjustments necessary for a fair statement of the results of the interim periods were made and all adjustments are normal adjustments. The results for the nine months ended March 31, 2015 and 2014 are not necessarily indicative of the results to be expected for a full fiscal year. Unless otherwise specified, any reference to a "year" is to a fiscal year ended June 30. For example, a reference to 2015 is to the fiscal year ending June 30, 2015. When used in this Form 10-Q, unless the context requires otherwise, the terms "we," "our" and "us" refer to Kennametal Inc. and its subsidiaries.

During the prior quarter, the Company revised its condensed consolidated statement of cash flow for the three months ended September 30, 2014 to correctly present the net cash flow provided by operating activities and effect of exchange rate changes on cash and cash equivalents, resulting in an increase of \$8.4 million to operating cash flows and a corresponding decrease in effect of exchange rate changes on cash and cash equivalents. The Company has evaluated this error and determined that the impact of the error was not material to the previously issued interim and annual financial statements.

3.NEW ACCOUNTING STANDARDS

Adopted

In July 2013, the Financial Accounting Standards Board (FASB) issued new guidance on the presentation in the financial statements of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The guidance takes into account these losses and carryforwards as well as the intended or likelihood of use of the unrecognized tax benefit in determining the balance sheet classification as an asset or liability. This guidance was effective for Kennametal beginning July 1, 2014 and did not have a material impact.

Issued

In April 2015, the FASB issued new guidance on the presentation of debt issuance costs. The guidance requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct reduction from the carrying amount of that debt liability, consistent with debt discounts. This standard is effective for Kennametal

beginning July 1, 2016. The guidance is not expected to have a material effect under our current debt structure. In April 2015, the FASB issued new guidance on accounting for fees paid in a cloud computing arrangement. The amendments in this update provide guidance to customers about whether a cloud computing arrangement includes a software license and accounting for the arrangement as capitalized and amortized as an intangible asset or expensed as incurred as a service contract. This standard is effective for Kennametal beginning July 1, 2016. We are in the process of evaluating the impact of adoption on our condensed consolidated financial statements.

Table of Contents

KENNAMETAL INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

## 4. SUPPLEMENTAL CASH FLOW DISCLOSURES

(in thousands)	Nine Months Ended March	
	2015	2014
Cash paid during the period for:		
Interest	\$23,981	\$22,038
Income taxes	35,700	33,155
Supplemental disclosure of non-cash information:		
Changes in accounts payable related to purchases of property, plant and equipment	6,470	8,600

## 5. ACQUISITION

On November 4, 2013, the Company completed its transaction to acquire the Tungsten Materials Business (TMB) from Allegheny Technologies Incorporated for a purchase price of \$607.0 million, net of cash acquired.

The accompanying condensed consolidated balance sheet as of March 31, 2015 reflects the final allocation of the purchase price. No material adjustments have been made to the allocation in conjunction with the finalization, which was completed in the December quarter.

## Unaudited Pro Forma Financial Information

The following unaudited pro forma summary of operating results presents the consolidated results of operations assuming the TMB acquisition had occurred on July 1, 2012. These amounts were calculated after applying our accounting policies and adjusting TMB's results to reflect increased depreciation and amortization expense resulting from recording fixed assets and intangible assets at fair value, as well as increased cost of sales resulting from recording inventory at fair value. The pro forma results have been presented for comparative purposes only, include no expected sales or cost synergies and are not indicative of future results of operations or what would have occurred had the acquisition been made on July 1, 2012.

Unaudited pro forma summary of operating results of Kennametal, assuming the acquisition had occurred as of July 1, 2012, are as follows:

Nine months ended March 31 (in thousands, except per share data)	2014
Pro forma (unaudited):	
Net Sales	\$2,206,920
Net income attributable to Kennametal	\$151,985
Per share data attributable to Kennametal:	
Basic earnings per share	\$1.93
Diluted earnings per share	\$1.91

## 6. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy consists of three levels to prioritize the inputs used in valuations, as defined below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs that are unobservable.

Table of Contents

## KENNAMETAL INC.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

As of March 31, 2015, the fair values of the Company's financial assets and financial liabilities measured at fair value on a recurring basis are categorized as follows:

(in thousands)	Level 1	Level 2	Level 3	Total
Assets:				
Derivatives <sup>(1)</sup>	\$—	\$9,652	\$—	\$9,652
Total assets at fair value	\$—	\$9,652	\$—	\$9,652
Liabilities:				
Derivatives <sup>(1)</sup>	\$—	\$1,096	\$—	\$1,096
Contingent consideration	—	—	10,000	10,000
Total liabilities at fair value	\$—	\$1,096	\$10,000	\$11,096

As of June 30, 2014, the fair value of the Company's financial assets and financial liabilities measured at fair value on a recurring basis are categorized as follows:

(in thousands)	Level 1	Level 2	Level 3	Total
Assets:				
Derivatives <sup>(1)</sup>	\$—	\$253	\$—	\$253
Total assets at fair value	\$—	\$253	\$—	\$253
Liabilities:				
Derivatives <sup>(1)</sup>	\$—	\$1,053	\$—	\$1,053
Contingent consideration	—	—	14,000	14,000
Total liabilities at fair value	\$—	\$1,053	\$14,000	\$15,053

<sup>(1)</sup> Currency derivatives are valued based on observable market spot and forward rates and are classified within Level 2 of the fair value hierarchy.

The fair value of contingent consideration payable that was classified as Level 3 relates to our probability assessments of expected future milestone targets, primarily associated with product delivery, related to a previous acquisition. The contingent consideration is to be paid over the next 2 years. During the nine months ended March 31, 2015, the Company paid \$4.0 million in conjunction with achieved milestone targets. The Company reassessed this contingent consideration and determined that no adjustment to the fair value of the remaining contingent consideration was necessary and that no changes in the expected outcome have occurred during the quarter ended March 31, 2015.

## 7. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

As part of our financial risk management program, we use certain derivative financial instruments. We do not enter into derivative transactions for speculative purposes and, therefore, hold no derivative instruments for trading purposes. We account for derivative instruments as a hedge of the related asset, liability, firm commitment or anticipated transaction, when the derivative is specifically designated and qualifies as a hedge of such items. Our objective in managing foreign exchange exposures with derivative instruments is to reduce volatility in cash flow. We measure hedge effectiveness by assessing the changes in the fair value or expected future cash flows of the hedged item. The ineffective portions are recorded in other (income) expense, net.

Table of Contents

## KENNAMETAL INC.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The fair value of derivatives designated and not designated as hedging instruments in the condensed consolidated balance sheet are as follows:

(in thousands)	March 31, 2015	June 30, 2014	
Derivatives designated as hedging instruments			
Other current assets - range forward contracts	\$5,862	\$184	
Other current liabilities - range forward contracts	—	(6	)
Other assets - range forward contracts	—	42	
Total derivatives designated as hedging instruments	5,862	220	
Derivatives not designated as hedging instruments			
Other current assets - currency forward contracts	3,790	27	
Other current liabilities - currency forward contracts	(1,096	)	(1,047 )
Total derivatives not designated as hedging instruments	2,694	(1,020	)
Total derivatives	\$8,556	\$(800	)

Certain currency forward contracts that hedge significant cross-border intercompany loans are considered as other derivatives and therefore do not qualify for hedge accounting. These contracts are recorded at fair value in the condensed consolidated balance sheet, with the offset to other (income) expense, net. (Gains) losses related to derivatives not designated as hedging instruments have been recognized as follows:

(in thousands)	Three Months Ended March 31,		Nine Months Ended March 31,		
	2015	2014	2015	2014	
Other (income) expense, net - currency forward contracts	\$3,386	\$(178	)	\$(3,783	)

## CASH FLOW HEDGES

Range forward contracts (a transaction where both a put option is purchased and a call option is sold) are designated as cash flow hedges and hedge anticipated cash flows from cross-border intercompany sales of products and services. Gains and losses realized on these contracts at maturity are recorded in accumulated other comprehensive loss and are recognized as a component of other (income) expense, net when the underlying sale of products or services is recognized into earnings. The notional amount of the contracts translated into U.S. dollars at March 31, 2015 and June 30, 2014, was \$50.5 million and \$91.1 million, respectively. The time value component of the fair value of range forward contracts is excluded from the assessment of hedge effectiveness. Assuming the market rates remain constant with the rates at March 31, 2015, we expect to recognize into earnings in the next 12 months \$4.3 million of income on outstanding derivatives.

In February 2012, we settled forward starting interest rate swap contracts to convert \$150.0 million of our floating rate debt to fixed rate debt. Upon settlement, we made a cash payment of \$22.4 million. The loss is being amortized as a component of interest expense over the term of the related debt using the effective interest rate method. During the three months ended March 31, 2015 and 2014, \$0.5 million and \$0.5 million was recognized as interest expense, respectively. During the nine months ended March 31, 2015 and 2014, \$1.5 million and \$1.5 million was recognized as interest expense, respectively.

The following represents gains and losses related to cash flow hedges:

(in thousands)	Three Months Ended March 31,		Nine Months Ended March 31,		
	2015	2014	2015	2014	

Edgar Filing: KENNAMETAL INC - Form 10-Q

Gains (losses) recognized in other comprehensive loss (income), net	\$3,025	\$(8	)	\$5,738	\$(851	)
(Gains) losses reclassified from accumulated other comprehensive loss into other (income) expense, net	\$(48	)	\$340	\$453	\$1,054	

No portion of the gains or losses recognized in earnings was due to ineffectiveness and no amounts were excluded from our effectiveness testing for the nine months ended March 31, 2015 and 2014.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

## 8. RESTRUCTURING AND RELATED CHARGES AND ASSET IMPAIRMENT CHARGES

## Restructuring and Related Charges

## Phase 1

As previously set forth in the 2014 Annual Report on Form 10-K, we are implementing restructuring actions in conjunction with our Phase 1 restructuring program to achieve synergies across Kennametal as a result of the TMB acquisition by consolidating operations among both organizations, reducing administrative overhead and leveraging the supply chain. These restructuring actions are expected to be completed by the end of fiscal 2016 and are anticipated to be mostly cash expenditures.

The total pre-tax charges for Phase 1 programs are expected to be in the range of \$55 million to \$60 million, which is expected to be approximately 50 percent Industrial and 50 percent Infrastructure. Total restructuring and related charges since inception of \$44.2 million have been recorded for these Phase 1 programs through March 31, 2015: \$27.1 million in Industrial, \$14.9 million in Infrastructure, and \$2.2 million in Corporate.

## Phase 2

As previously set forth in the report for the quarterly period ended December 31, 2014 on Form 10-Q, we are implementing restructuring actions in conjunction with Phase 2 to streamline the Company's cost structure. These initiatives are expected to enhance operational efficiencies through the rationalization of certain manufacturing facilities as well as other employment and cost reduction programs. These restructuring actions are expected to be completed by December 2016 and are anticipated to be mostly cash expenditures.

The total pre-tax charges for Phase 2 programs are expected to be in the range of \$90 million to \$100 million, which is expected to be approximately 75 percent Industrial and 25 percent Infrastructure. Total restructuring and related charges since inception of \$12.0 million have been recorded for these Phase 2 programs through March 31, 2015: \$6.1 million in Industrial, \$5.7 million in Infrastructure, and \$0.2 million in Corporate.

## Combined

During the nine months ended March 31, 2015, we recognized total restructuring and related charges of \$37.1 million, of this amount, restructuring charges totaled \$24.4 million, of which \$0.3 million were charges related to inventory disposals and were recorded in cost of goods sold. Total restructuring-related charges of \$6.5 million were recorded in cost of goods sold and \$6.2 million in operating expense for the nine months ended March 31, 2015.

During the nine months ended March 31, 2014, we recorded restructuring charges of \$5.0 million.

The restructuring accrual is recorded in other current liabilities in our condensed consolidated balance sheet and the amount attributable to each segment is as follows:

(in thousands)	June 30, 2014	Expense	Asset Write-Down	Other <sup>(2)</sup>	Translation	Cash Expenditures	March 31, 2015

## 9. STOCK-BASED COMPENSATION

## Stock Options

The assumptions used in our Black-Scholes valuation related to grants made during the nine months ended March 31, 2015 and 2014 were as follows:

	2015	2014	
Risk-free interest rate	1.5	% 1.3	%
Expected life (years) <sup>(3)</sup>	4.5	4.5	
Expected volatility <sup>(4)</sup>	32.5	% 40.3	%
Expected dividend yield	1.7	% 1.6	%

(3) Expected life is derived from historical experience.

(4) Expected volatility is based on the implied historical volatility of our stock.

Changes in our stock options for the nine months ended March 31, 2015 were as follows:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Life (years)	Aggregate Intrinsic value (in thousands)
Options outstanding, June 30, 2014	2,264,824	\$33.95		
Granted	436,541	40.81		
Exercised	(308,844)	) 26.96		
Lapsed and forfeited	(92,835)	) 41.53		
Options outstanding, March 31, 2015	2,299,686	\$35.88	4.6	\$5,142
Options vested and expected to vest, March 31, 2015	2,256,996	\$35.79	4.5	\$5,142
Options exercisable, March 31, 2015	1,755,765	\$34.31	3.3	\$5,142

During the nine months ended March 31, 2015 and 2014, compensation expense related to stock options was \$3.0 million and \$3.9 million, respectively. As of March 31, 2015, the total unrecognized compensation cost related to options outstanding was \$2.7 million and is expected to be recognized over a weighted average period of 2.7 years.

Table of Contents

## KENNAMETAL INC.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Weighted average fair value of options granted during the nine months ended March 31, 2015 and 2014 was \$10.16 and \$13.76, respectively. Fair value of options vested during the nine months ended March 31, 2015 and 2014 was \$7.4 million and \$5.0 million, respectively.

Tax benefits relating to excess stock-based compensation deductions are presented in the condensed consolidated statements of cash flow as financing cash inflows. Tax benefits resulting from stock-based compensation deductions exceeded amounts reported for financial reporting purposes by \$1.6 million and \$5.2 million for the nine months ended March 31, 2015 and 2014, respectively.

The amount of cash received from the exercise of capital stock options during the nine months ended March 31, 2015 and 2014 was \$8.3 million and \$16.4 million, respectively. The related tax benefit for the nine months ended March 31, 2015 and 2014 was \$1.6 million and \$3.6 million, respectively. The total intrinsic value of options exercised during the nine months ended March 31, 2015 and 2014 was \$4.3 million and \$11.5 million, respectively. Under the provisions of the Kennametal Inc. Stock and Incentive Plan of 2010 (As Amended and Restated October 22, 2013), plan participants may deliver stock, owned by the holder for at least six months, in payment of the option price and receive credit for the fair market value of the shares on the date of delivery. The fair market value of shares delivered during the nine months ended March 31, 2015 and 2014 was immaterial.

**Restricted Stock Units – Time Vesting and Performance Vesting**

Performance vesting restricted stock units are earned pro rata each year if certain performance goals are met over a three-year period and are also subject to a service condition that requires the individual to be employed by the Company at the payment date after the three-year performance period, with the exception of retirement eligible grantees, who upon retirement are entitled to receive payment for any units that have been earned, including a prorated portion in the partially completed fiscal year in which the retirement occurs. Time vesting stock units are valued at the market value of the stock on the grant date. Performance vesting stock units with a market condition are valued using a Monte Carlo model.

Changes in our time vesting and performance vesting restricted stock units for the nine months ended March 31, 2015 were as follows:

	Performance Vesting Stock Units	Performance Vesting Weighted Average Fair Value	Time Vesting Stock Units	Time Vesting Weighted Average Fair Value
Unvested performance vesting and time vesting restricted stock units, June 30, 2014	197,356	\$40.92	743,326	\$39.20
Granted	88,536	43.16	445,366	42.16
Vested	(28,022)	) 38.95	(321,575)	) 36.60
Performance metric not achieved	(65,373)	) 43.16	—	—
Forfeited	(91,252)	) 42.96	(86,131)	) 42.52
Unvested performance vesting and time vesting restricted stock units, March 31, 2015	101,245	\$43.00	780,986	\$41.61

During the nine months ended March 31, 2015 and 2014, compensation expense related to time vesting and performance vesting restricted stock units was \$11.1 million and \$10.8 million, respectively. As of March 31, 2015, the total unrecognized compensation cost related to unvested time vesting and performance vesting restricted stock units was \$15.0 million and is expected to be recognized over a weighted average period of 2.6 years.

#### 10. BENEFIT PLANS

We sponsor several defined benefit pension plans. Additionally, we provide varying levels of postretirement health care and life insurance benefits to some U.S. employees.

During the nine months ended March 31, 2015 we recognized a special termination benefit charge of \$0.5 million and a curtailment loss of \$0.4 million for one of our U.S.-based defined benefit pension plans resulting from a plant closure. The special termination benefit charge was recognized in restructuring expense.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The table below summarizes the components of net periodic pension (income):

(in thousands)	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2015	2014	2015	2014
Service cost	\$1,349	\$1,731	\$4,148	\$5,179
Interest cost	9,575	10,311	29,256	30,795
Expected return on plan assets	(14,797 )	(14,920 )	(44,744 )	(44,632 )
Amortization of transition obligation	18	20	58	58
Amortization of prior service credit	(72 )	(58 )	(213 )	(175 )
Recognition of actuarial losses	871	671	2,809	1,983
Curtailement loss	—	—	358	—
Special termination benefit charge	—	—	459	—
Net periodic pension (income)	\$(3,056 )	\$(2,245 )	\$(7,869 )	\$(6,792 )

The table below summarizes the components of net periodic other postretirement benefit cost:

(in thousands)	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2015	2014	2015	2014
Service cost	\$27	\$14	\$81	\$42
Interest cost	259	251	778	753
Amortization of prior service credit (cost)	(28 )	(28 )	(83 )	(84 )
Recognition of actuarial loss	207	79	621	237
Curtailement gain	—	—	(221 )	—
Net periodic other postretirement benefit cost	\$465	\$316	\$1,176	\$948

The curtailment gain of \$0.2 million during the nine months ended March 31, 2015 was a result of the plant closure discussed above.

## 11. INVENTORIES

We used the last-in, first-out (LIFO) method of valuing inventories for 47 percent and 43 percent of total inventories at March 31, 2015 and June 30, 2014, respectively. Since inventory valuations under the LIFO method are based on an annual determination of quantities and costs as of June 30 of each year, the interim LIFO valuations are based on our projections of expected year-end inventory levels and costs. Therefore, the interim financial results are subject to any final year-end LIFO inventory adjustments.

Inventories consisted of the following:

(in thousands)	March 31, 2015	June 30, 2014
Finished goods	\$345,617	\$371,599
Work in process and powder blends	269,584	308,129
Raw materials	116,160	126,004
Inventories at current cost	731,361	805,732
Less: LIFO valuation	(98,882 )	(101,966 )
Total inventories	\$632,479	\$703,766

Table of Contents

KENNAMETAL INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

12. LONG-TERM DEBT

Our \$600 million five-year, multi-currency, revolving credit facility (2011 Credit Agreement) requires us to comply with various restrictive and affirmative covenants, including two financial covenants: a maximum leverage ratio and a minimum consolidated interest coverage ratio (as those terms are defined in the agreement). We were in compliance with all covenants as of March 31, 2015. We had \$113.9 million and \$287.1 million of borrowings outstanding under the 2011 Credit Agreement as of March 31, 2015 and June 30, 2014, respectively. Borrowings under the 2011 Credit Agreement are guaranteed by our significant domestic subsidiaries. The 2011 Credit Agreement matures in April 2018.

Fixed rate debt had a fair market value of \$712.5 million and \$705.3 million at March 31, 2015 and June 30, 2014, respectively. The Level 2 fair value is determined based on the quoted market price of this debt as of March 31, 2015 and June 30, 2014, respectively.

13. ENVIRONMENTAL MATTERS

The operation of our business has exposed us to certain liabilities and compliance costs related to environmental matters. We are involved in various environmental cleanup and remediation activities at certain of our locations. Superfund Sites We are involved as a potentially responsible party (PRP) at various sites designated by the United States Environmental Protection Agency (USEPA) as Superfund sites. For certain of these sites, we have evaluated the claims and potential liabilities and have determined that neither are material, individually or in the aggregate. For certain other sites, proceedings are in the very early stages and have not yet progressed to a point where it is possible to estimate the ultimate cost of remediation, the timing and extent of remedial action that may be required by governmental authorities or the amount of our liability alone or in relation to that of any other PRP.

Other Environmental Matters We establish and maintain reserves for other potential environmental issues. At March 31, 2015 and June 30, 2014, the balances of these reserves were \$12.2 million and \$11.0 million. These reserves represent anticipated costs associated with the remediation of these issues.

The reserves we have established for environmental liabilities represent our best current estimate of the costs of addressing all identified environmental situations, based on our review of currently available evidence, and taking into consideration our prior experience in remediation and that of other companies, as well as public information released by the USEPA, other governmental agencies and by the PRP groups in which we are participating. Although the reserves currently appear to be sufficient to cover these environmental liabilities, there are uncertainties associated with environmental liabilities, and we can give no assurance that our estimate of any environmental liability will not increase or decrease in the future. The reserved and unreserved liabilities for all environmental concerns could change substantially due to factors such as the nature and extent of contamination, changes in remedial requirements, technological changes, discovery of new information, the financial strength of other PRPs, the identification of new PRPs and the involvement of and direction taken by the government on these matters.

We maintain a Corporate Environmental Health and Safety (EHS) Department to monitor compliance with environmental regulations and to oversee remediation activities. In addition, we have designated EHS coordinators who are responsible for each of our global manufacturing facilities. Our financial management team periodically meets with members of the Corporate EHS Department and the Corporate Legal Department to review and evaluate the status of environmental projects and contingencies. On a quarterly basis, we review financial provisions and reserves for environmental contingencies and adjust these reserves when appropriate.

14. INCOME TAXES

The effective income tax rate for the three months ended March 31, 2015 and 2014 was 64.4 percent (benefit on a loss) and 24.1 percent (provision on income), respectively. The effective income tax rate for nine months ended

March 31, 2015 and 2014 was 5.7 percent (benefit on a loss) and 28.5 percent (provision on income), respectively. The change in both periods was primarily driven by the asset impairment charges recorded in the current and prior quarters and lower relative U.S. current year earnings compared with the rest of the world where the tax rates are generally lower. The current period includes a \$2.1 million tax charge incurred in the quarter related to a change in assertion with respect to a portion of our foreign subsidiaries' undistributed earnings, which are no longer considered permanently reinvested. The remaining undistributed earnings of our foreign subsidiaries are indefinitely reinvested and no deferred taxes have been provided on those earnings.

Table of Contents

KENNAMETAL INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

## 15. EARNINGS PER SHARE

Basic earnings per share is computed using the weighted average number of shares outstanding during the period, while diluted earnings per share is calculated to reflect the potential dilution that would occur related to the issuance of capital stock under stock option grants and restricted stock units. The difference between basic and diluted earnings per share relates solely to the effect of capital stock options and restricted stock units.

For the three and nine months ended March 31, 2015, the effect of unexercised capital stock options and unvested restricted stock units was anti-dilutive as a result of a net loss in the periods and therefore has been excluded from diluted shares outstanding as well as from the diluted earnings per share calculation. For purposes of determining the number of diluted shares outstanding for the three and nine months ended March 31, 2014, weighted average shares outstanding for basic earnings per share calculations were increased due solely to the dilutive effect of unexercised capital stock options and unvested restricted stock units by 1.0 million and 1.0 million shares, respectively.

Unexercised capital stock options and restricted stock units of 1.7 million and 0.2 million shares for the three months ended March 31, 2015 and 2014, respectively, and 1.3 million and 0.3 million shares for the nine months ended March 31, 2015 and 2014, respectively, were not included in the computation of diluted earnings per share because the option exercise price was greater than the average market price, and therefore the inclusion would have been anti-dilutive.

## 16. EQUITY

A summary of the changes in the carrying amounts of total equity, Kennametal Shareholders' equity and equity attributable to noncontrolling interests as of March 31, 2015 and 2014 is as follows:

(in thousands)	Kennametal Shareholders' Equity					
	Capital stock	Additional paid-in capital	Retained earnings	Accumulated other comprehensive loss	Non-controlling interests	Total equity
Balance as of June 30, 2014	\$98,340	\$395,890	\$1,501,157	\$(66,131)	) \$32,352	\$1,961,608

The amounts of comprehensive income attributable to Kennametal Shareholders and noncontrolling interests are disclosed in the condensed consolidated statements of comprehensive income.

## 17. ACCUMULATED OTHER COMPREHENSIVE (LOSS) INCOME

Total accumulated other comprehensive (loss) income (AOCL) consists of net (loss) income and other changes in equity from transactions and other events from sources other than shareholders. It includes postretirement benefit plan adjustments, currency translation adjustments and unrealized gains and losses from derivative instruments designated as cash flow hedges.

The components of, and changes in, AOCL were as follows (net of tax) for the three months ended March 31, 2015 (in thousands):

Attributable to Kennametal:	Postretirement benefit plans	Currency translation adjustment	Derivatives	Total
Balance, December 31, 2014	\$(86,688)	) \$(40,637)	) \$(8,158)	) \$(135,483)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

## 18. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill represents the excess of cost over the fair value of the net assets of acquired companies. Goodwill and other intangible assets with indefinite lives are tested at least annually for impairment. Consistent with the prior year, the Company performed its annual impairment test of goodwill and indefinite lived intangible assets as of March 31st. Historically, we performed this analysis during the June quarter end in connection with our annual planning process; however, this process was accelerated in the current year and finalized during the March quarter end. We also perform specific impairment tests on an interim basis based on the results of an ongoing cumulative qualitative assessment if indicative of impairment of the goodwill for a reporting unit or an indefinite-lived intangible asset. We evaluate the recoverability of goodwill for each of our reporting units by comparing the fair value of each reporting unit with its carrying value. The fair values of our reporting units are determined using a combination of a discounted cash flow analysis and market multiples based upon historical and projected financial information. We apply our best judgment when assessing the reasonableness of the financial projections used to determine the fair value of each reporting unit. We evaluate the recoverability of indefinite-lived intangible assets using a discounted cash flow analysis based on projected financial information. This evaluation is sensitive to changes in market interest rates and other external factors.

Identifiable assets with finite lives are reviewed for impairment whenever events or circumstances indicate that the carrying value may not be recoverable. During the March and December quarter ends, we performed reviews of our identifiable assets with finite lives and determined that the assets were not impaired.

## 2015 December Quarter End Impairment Charge

Late in the December quarter end, the Company experienced an abrupt change in customer demand in the oil and gas markets that is expected to continue into the foreseeable future, coupled with the severe and persistent decline in the earthworks markets. In view of the severe downturn in the global Infrastructure markets in the December quarter ended, we made an assessment of the possible impairment of the goodwill and other long-lived assets of our Infrastructure reporting unit. As a result of this assessment, we determined that the magnitude and duration of the economic downturn of the Infrastructure end markets; the overall financial performance of the Infrastructure reporting unit; a change in composition or carrying amount of Infrastructure net assets and the testing for recoverability of a significant asset group within Infrastructure; and a sustained trend of decrease in the Company's share price necessitated an interim impairment test of our Infrastructure reporting unit. As previously disclosed, we recorded a preliminary non-cash pre-tax impairment charge of \$376.5 million in the Infrastructure segment, of which \$375.0 million was for goodwill and \$1.5 million was for an indefinite-lived trademark intangible asset.

During the March quarter ended, we completed our review of the fair values related to intangibles and property, plant and equipment in relation to the preliminary charge. We recorded an additional \$6.8 million charge for an indefinite-lived trademark intangible asset based upon completion of the December valuation.

## 2015 March Quarter End Impairment Charge

As of March 31, 2015, the Company performed its annual impairment test of goodwill and indefinite-lived intangible assets. We recorded an additional non-cash pre-tax impairment charge of \$152.9 million in the Infrastructure reporting unit, of which \$152.5 million was for goodwill and \$0.4 million was for an indefinite-lived trademark intangible asset. These charges were due to the continued weakening of the overall financial performance of the Infrastructure reporting unit, which is driven by the further decline in the future outlook for the global energy market being more

severe than originally indicated during the second quarter 2015 impairment testing discussed above, coupled with the extended persistence of the downturn in the earthworks markets into the foreseeable future. Since the Infrastructure reporting unit goodwill and indefinite-lived intangible assets were adjusted to their estimated fair values in connection with the impairment charges, and because certain trademarks have subsequently been written down because they were partially impaired (as discussed above), there is not a significant excess of fair value over the carrying values as of March 31, 2015. If current expectations of future growth rates are not met or specific valuation factors outside of our control, such as discount rates, change significantly, then one or more intangible assets might become impaired in the future. The Industrial reporting unit passed the annual impairment test with estimated fair value exceeding carrying values by a material amount.

The further acceleration or extended persistence of the current downturn in the global end markets could have a further negative impact on our business and financial performance. We are currently exploring strategic alternatives for several businesses mostly within the Infrastructure segment, which have total estimated net book values of approximately \$170 million to \$250 million as of March 31, 2015. As the strategic direction has not yet been determined for these businesses, the Company cannot determine if additional impairment charges are either probable or estimable.

Table of Contents

## KENNAMETAL INC.

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

A summary of the carrying amount of goodwill attributable to each segment, as well as the changes in such, is as follows:

(in thousands)	Industrial	Infrastructure	Total
Gross goodwill	\$472,337	\$654,081	\$1,126,418
Accumulated impairment losses	(150,842	) —	(150,842 )
Balance as of June 30, 2014	\$321,495	\$654,081	\$975,576
Activity for the nine months ended March 31, 2015:			
Acquisition	2,984	—	2,984
Translation	(24,910	) (14,267	) (39,177 )
Change in gross goodwill	(21,926	) (14,267	) (36,193 )
Impairment charges	—	(527,500	) (527,500 )
Gross goodwill	450,411	639,814	1,090,225
Accumulated impairment losses	(150,842	) (527,500	) (678,342 )
Balance as of March 31, 2015	\$299,569	\$112,314	\$411,883

The components of our other intangible assets were as follows:

(in thousands)	Estimated Useful Life (in years)	March 31, 2015 Gross Carrying Amount	Accumulated Amortization	June 30, 2014 Gross Carrying Amount	Accumulated Amortization
Contract-based	3 to 15	\$8,509	\$(6,781 )	\$23,446	\$(10,820 )
Technology-based and other	4 to 20	52,186	(28,644 )	54,842	(28,516 )
Customer-related	10 to 21	273,790	(84,640 )	285,751	(76,376 )
Unpatented technology	10 to 30	59,092	(13,679 )	61,867	(12,549 )
Trademarks	5 to 20	18,415	(11,500 )	19,256	(10,984 )
Trademarks	Indefinite	24,193	—	37,259	—
Total		\$436,185	\$(145,244 )	\$482,421	\$(139,245 )

During the nine months ended March 31, 2015, an impairment of \$10.5 million was recorded for a contract-based technology intangible asset that was part of the Infrastructure segment, resulting in a non-cash impairment charge of \$5.5 million and a reduction in a liability of \$5.0 million.

As previously mentioned, we recorded \$8.7 million of impairment charges for an indefinite-lived trademark intangible asset as a result of the impairment tests of our Infrastructure segment.

During the nine months ended March 31, 2015, we recorded amortization expense of \$20.4 million related to our other intangible assets and unfavorable currency translation adjustments of \$12.8 million.

## 19. SEGMENT DATA

Kennametal delivers productivity to customers seeking peak performance in demanding environments by providing innovative custom and standard wear-resistant solutions. To provide these solutions, we harness our knowledge of advanced materials and application development with a commitment to environmental sustainability. Our product offering includes a wide selection of standard and customized technologies for metalworking, such as sophisticated

metalcutting tools, tooling systems and services, as well as advanced, high-performance materials, such as cemented tungsten carbide products, super alloys, coatings and investment castings to address customer demands. We offer these products through a variety of channels to meet customer-specified needs.

The Company has two reportable segments that are defined as its operating segments: Industrial and Infrastructure.

Table of Contents

KENNAMETAL INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Industrial segment generally serves customers that operate in industrial end markets such as aerospace and defense, transportation and general engineering. The customers in these end markets manufacture engines, airframes, automobiles, trucks, ships and various types of industrial equipment. The technology and customization requirements for customers we serve vary by customer, application and industry. The value we deliver to our Industrial segment customers centers on our application expertise and our diverse offering of products and services.

The Infrastructure segment generally serves customers that operate in the earthworks and energy sectors who support primary industries such as oil and gas, power generation, underground, surface and hard-rock mining, highway construction and road maintenance. Generally, we rely on customer intimacy to serve this segment. By gaining an in-depth understanding of our customers' engineering and development needs, we are able to offer complete system solutions and high-performance capabilities to optimize and add value to their operations.

Corporate expenses related to executive retirement plans, the Company's Board of Directors and strategic initiatives, as well as certain other costs, are reported as Corporate.

Our sales and operating (loss) income by segment are as follows:

(in thousands)	Three Months Ended		Nine Months Ended	
	March 31, 2015	2014	March 31, 2015	2014
Sales:

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Kennametal Inc. is a leading global manufacturer and supplier of tooling, engineered components and advanced materials consumed in production processes. We deliver productivity solutions to customers seeking peak performance in demanding environments. The Company provides innovative wear-resistant products, application engineering and services backed by advanced material science serving customers across diverse sectors of industrial production, transportation, earthworks, energy, infrastructure and aerospace. Kennametal solutions are built around industry-essential technology platforms, including precision-engineered metalworking tools and components, surface technologies and earth cutting tools that are mission-critical to customer operations battling extreme conditions associated with wear fatigue, corrosion and high temperatures. The Company's reputation for material and industrial technology excellence, as well as expertise and innovation in development of custom solutions and services, contributes to its leading position in its primary industrial and infrastructure markets. End users of the Company's products include manufacturers, metalworking suppliers, machinery operators and processors engaged in a diverse array of industries, including the manufacture of transportation vehicles and systems; machine tool, light machinery and heavy machinery industries; airframe and aerospace components and systems, defense; as well as producers and suppliers in equipment-intensive operations such as coal mining, road construction, quarrying, oil and gas exploration, refining, production and supply. We believe we are one of the largest global providers of consumable metalcutting tools and tooling supplies.

Our sales of \$639.0 million for the quarter ended March 31, 2015 decreased 15.4 percent compared to sales for the quarter ended March 31, 2014. Operating loss was \$120.4 million, compared to operating income of \$76.8 million in the prior year quarter. Our operating results were negatively impacted by impairment charges of \$159.7 million, organic sales decline, unfavorable currency exchange, unfavorable mix in Infrastructure and increased restructuring and related charges, offset partially by the benefits from restructuring initiatives.

We reported current quarter loss per diluted share of \$0.58, which included \$0.90 per share of goodwill and other intangible asset impairment charges, \$0.12 per share of restructuring and related charges and \$0.02 per share of tax redeployment expense.

We generated strong cash flow from operating activities of \$219.6 million during the nine months ended March 31, 2015. Capital expenditures were \$77.6 million during the quarter.

We invested further in technology and innovation to continue delivering a high level of new products to our customers. Research and development expenses included in operating expense totaled \$11.0 million for the three months ended March 31, 2015.

During the March quarter ended, the Company finalized the non-cash pre-tax impairment charge for its Infrastructure reporting unit previously recognized in the December quarter ended. As a result of this finalization, an additional non-cash pre-tax charge of \$6.8 million, or \$0.04 per share was recorded against an indefinite-lived trademark intangible asset. The Company also performed its annual impairment test of goodwill and indefinite-lived intangible assets. As a result of our test, we recorded an additional non-cash pre-tax goodwill and other intangible asset impairment charge of \$152.9 million, or \$0.86 per share in the Infrastructure reporting unit due to the continued weakening of the overall financial performance of the Infrastructure reporting unit driven by the further decline in the future outlook for the global energy market being more severe than originally indicated during the second quarter

2015 impairment testing, coupled with the extended persistence of the downturn in the earthworks markets into the foreseeable future. The Industrial reporting unit passed the annual impairment test with estimated fair value exceeding carrying values by a material amount. See Note 18 in our condensed consolidated financial statements set forth in Part I Item 1 of this Quarterly Report on Form 10-Q for a description of goodwill and other intangible assets (Note 18).

The permanent savings that we are realizing from Phase 1 restructuring are the result of programs that we have undertaken over the past 18 months. Pre-tax benefits from these restructuring actions reached approximately \$8 million in the current quarter due to rationalization of certain manufacturing facilities and workforce reduction programs, of which approximately \$7 million were incremental to the same quarter one year ago.

The permanent savings that we are realizing from Phase 2 restructuring are the result of programs that we have undertaken over the past 3 months. Pre-tax benefits from these restructuring actions were approximately \$1 million in the current quarter due to employment and cost reduction programs. These benefits were incremental to the same quarter one year ago.

Table of Contents

## Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

In May 2015, we announced additional restructuring actions with Phase 3 of restructuring initiatives. This is estimated to achieve an additional \$25-\$30 million of annualized savings and will incur \$40-\$45 million of pre-tax charges as it is being implemented over the next 24 months. These initiatives are expected to enhance operational efficiencies through an enterprise-wide cost reduction program as well as the consolidation of certain manufacturing facilities. On a combined basis, all restructuring programs are expected to produce annual ongoing pre-tax permanent savings of \$115-\$135 million. Combined, total pre-tax charges for these initiatives are expected to be approximately \$185-\$205 million.

## RESTRUCTURING AND RELATED CHARGES AND SAVINGS

	Estimated Charges	Charges To Date	Estimated Annualized Savings	Savings To Date	Expected Completion Date
Phase 1	\$55M-\$60M	\$44M	\$50M-\$55M	\$20M	6/30/2016
Phase 2	\$90M-\$100M	\$12M	\$40M-\$50M	\$1M	12/31/2016
Phase 3	\$40M-\$45M	—	\$25M-\$30M	—	3/31/2017
Total	\$185M-\$205M	\$56M	\$115M-\$135M	\$21M	

The following narrative provides further discussion and analysis of our results of operations, liquidity and capital resources, as well as other pertinent matters.

## RESULTS OF CONTINUING OPERATIONS

## SALES

Sales for the three months ended March 31, 2015 were \$639.0 million, a decrease of \$116.3 million or 15 percent, from \$755.2 million in the prior year quarter. The decrease in sales was driven by organic decline of 9 percent and unfavorable currency exchange of 6 percent. The decrease in organic sales was primarily due to further deterioration in the energy market, particularly oil and gas, and continuing weakness in the mining sector. Excluding the impact of currency exchange, sales decreased by approximately 20 percent in energy, approximately 15 percent in earthworks, approximately 5 percent in aerospace and defense, approximately 3 percent in general engineering and approximately 1 percent in transportation markets.

Sales for the nine months ended March 31, 2015 were \$2,009.5 million, a decrease of \$55.4 million or 3 percent, from \$2,065.0 million in the prior year period. The decrease in sales was driven by 4 percent organic decline and unfavorable currency exchange of 3 percent, offset partially by 4 percent net increase from acquisition and divestiture activity. The decrease in sales was primarily due to continued weakness in the mining sector and declines in the energy market, particularly oil and gas, in the latter half of the period, offset partially by slightly improved demand from customers in our general engineering end market. Excluding the impact of currency exchange, sales decreased by approximately approximately 10 percent in earthworks, approximately 7 percent in energy, approximately 4 percent in aerospace and defense and increased approximately 1 percent in general engineering, while the transportation market remained relatively flat.

## GROSS PROFIT

Gross profit for the three months ended March 31, 2015 was \$199.5 million, a decrease of \$39.5 million from \$239.0 million in the prior year quarter. The decrease was primarily due to organic sales decline, unfavorable business mix in the Infrastructure segment and unfavorable currency exchange, partially offset by restructuring benefits. The gross profit margin for the three months ended March 31, 2015 was 31.2 percent, as compared to 31.6 percent generated in the prior year quarter.

Gross profit for the nine months ended March 31, 2015 was \$617.0 million, a decrease of \$27.1 million from \$644.2 million in the prior year period. The decrease was primarily due to organic sales decline, unfavorable business mix in the Infrastructure segment and unfavorable currency exchange, offset partially by contributions from the TMB acquisition, restructuring benefits and the benefit of a non-recurring inventory adjustment of approximately \$6 million that occurred in the prior year. The gross profit margin for the nine months ended March 31, 2015 was 30.7 percent, as compared to 31.2 percent generated in the prior year period.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

OPERATING EXPENSE

Operating expense for the three months ended March 31, 2015 decreased \$14.3 million or 9.4 percent to \$138.0 million as compared to \$152.3 million in the prior year quarter. The decrease was primarily due to foreign currency exchange impact of \$9.1 million, restructuring benefits, lower restructuring related charges of \$1.6 million and the impact of cost reduction initiatives.

Operating expense for the nine months ended March 31, 2015 decreased \$11.0 million or 2.5 percent to \$424.0 million as compared to \$435.0 million in the prior year period. The decrease was primarily due to foreign currency exchange impact of \$13.1 million, partially offset by higher employment costs and higher restructuring related charges of \$1.1 million.

RESTRUCTURING AND RELATED CHARGES AND ASSET IMPAIRMENT CHARGES

Restructuring and Related Charges

We have recorded restructuring and related charges of \$16.7 million for the three months ended March 31, 2015. Of this amount, restructuring charges totaled \$15.7 million. Restructuring-related charges of \$0.3 million were recorded in cost of goods sold and \$0.7 million in operating expense for the three months ended March 31, 2015.

We have recorded restructuring and related charges of \$37.1 million for the nine months ended March 31, 2015. Of this amount, restructuring charges totaled \$24.4 million, of which \$0.3 million were charges related to inventory disposals and were recorded in cost of goods sold. Restructuring-related charges of \$6.5 million were recorded in cost of goods sold and \$6.2 million in operating expense for the nine months ended March 31, 2015. Total restructuring and related charges since the inception of our restructuring plans through March 31, 2015 were \$44.2 million. See Note 8 in our condensed consolidated financial statements set forth in Part I Item 1 of this Quarterly Report on Form 10-Q.

Phase 1

We are implementing restructuring actions in conjunction with Phase 1 to achieve synergies across Kennametal as a result of the TMB acquisition by consolidating operations among both organizations, reducing administrative overhead and leveraging the supply chain. These restructuring actions are expected to be completed by the end of fiscal 2016 and are anticipated to be mostly cash expenditures.

Phase 2

We are implementing restructuring actions in conjunction with Phase 2 to streamline the Company's cost structure. These initiatives are expected to enhance operational efficiencies through the rationalization of certain manufacturing facilities as well as other employment and cost reduction programs. These restructuring actions are expected to be completed by December 2016 and are anticipated to be mostly cash expenditures.

Asset Impairment Charges

We have recorded non-cash pre-tax asset impairment charges of \$159.7 million and \$541.7 million for the three and nine months ended March 31, 2015, respectively. See Note 18.

INTEREST EXPENSE

Interest expense for the three months ended March 31, 2015 decreased \$1.1 million to \$7.8 million as compared to \$8.9 million in the prior year quarter. The decrease in interest expense was primarily due to lower year-over-year borrowings.

For the nine months ended March 31, 2015, interest expense stayed relatively flat at \$23.9 million compared to \$24.0 million in the prior year period.

**OTHER (INCOME) EXPENSE, NET**

Other income, net for the three months ended March 31, 2015, was \$0.4 million compared to other income, net of \$0.6 million, for the prior year quarter. The decrease was primarily due to lower interest income, offset partially by gains on derivatives.

Other expense, net for the nine months ended March 31, 2015, was \$0.0 million compared to other expense, net of \$0.9 million, for the prior year period. The decrease was primarily due to gains on derivatives.

Table of Contents

## Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

## INCOME TAXES

The effective income tax rate for the three months ended March 31, 2015 and 2014 was 64.4 percent (benefit on a loss) and 24.1 percent (provision on income), respectively. The effective income tax rate for nine months ended March 31, 2015 and 2014 was 5.7 percent (benefit on a loss) and 28.5 percent (provision on income), respectively. The change in both periods was primarily driven by the asset impairment charges recorded in the current and prior quarters and lower relative U.S. current year earnings compared with the rest of the world where the tax rates are generally lower. The current period includes a \$2.1 million tax charge incurred in the quarter related to a change in assertion with respect to a portion of our foreign subsidiaries' undistributed earnings, which are no longer considered permanently reinvested. The remaining undistributed earnings of our foreign subsidiaries are indefinitely reinvested and no deferred taxes have been provided on those earnings.

## BUSINESS SEGMENT REVIEW

We operate two reportable segments consisting of Industrial and Infrastructure. Expenses that are not allocated are reported in Corporate. Segment determination is based upon the manner in which we organize segments for making operating decisions and assessing performance, the availability of separate financial results and materiality considerations.

## INDUSTRIAL

(in thousands)	Three Months Ended March 31,		Nine Months Ended March 31,	
	2015	2014	2015	2014
Sales	\$354,810	\$399,669	\$1,104,225	\$1,108,546
Operating income	35,311	51,403	121,123	124,441

For the three months ended March 31, 2015, Industrial sales decreased by 11 percent due to unfavorable currency exchange of 8 percent, organic decline of 2 percent and 1 percent from divestiture. Excluding the impact of currency exchange, sales decreased approximately 6 percent in aerospace and defense and approximately 1 percent in general engineering, while transportation increased approximately 2 percent. New project tooling packages in the Asian transportation market offset weakness in Europe and Americas to deliver low single digit growth while general engineering was impacted by very weak global demand in the energy market. On a regional basis sales decreased 6 percent in Europe and 4 percent in the Americas, offset partially by an increase of 12 percent in Asia. The sales decreases in both Europe and the Americas was primarily driven by the performance in the aerospace and defense and transportation end markets and to a lesser extent the general engineering end market. The sales increase in Asia was primarily driven by the transportation end market.

For the three months ended March 31, 2015, Industrial operating income decreased by \$16.1 million, driven by organic sales decline and increased restructuring and related charges of \$7.1 million, offset partially by restructuring benefits and decreased operating expense as a result of cost reduction efforts. Industrial operating margin was 10.0 percent compared with 12.9 percent in the prior year.

For the nine months ended March 31, 2015, Industrial sales remained flat due to unfavorable currency exchange of 4 percent, offset partially by 2 percent organic growth and 2 percent from net acquisition and divestiture activity. Excluding the impact of currency exchange, sales increased by approximately 3 percent in transportation and

approximately 3 percent in general engineering, offset partially by a decrease of approximately 3 percent in aerospace and defense. General engineering strengthened due to continued growth of the indirect channel, while growing softness in Europe and the Americas impacted transportation performance, offset partially by strengthening transportation performance in the Asia region from ongoing demand for tooling packages. On a regional basis, sales increased 12 percent in Asia and 3 percent in the Americas while sales decreased approximately 1 percent in Europe. The sales increase in Asia was driven by the performance in the transportation and aerospace and defense end markets and to a lesser extent the general engineering end markets. The sales increase in the Americas was driven by the general engineering end market. The sales decrease in Europe was driven by declines in the aerospace and defense and to a lesser extent the transportation end market.

For the nine months ended March 31, 2015, Industrial operating income decreased by \$3.3 million, driven by increased restructuring and related charges of \$17.4 million, offset partially by organic and acquisition growth, restructuring benefits and decreased operating expense as a result of cost reduction efforts. Industrial operating margin was 11.0 percent compared with 11.2 percent in the prior year.

## INFRASTRUCTURE

(in thousands)	Three Months Ended		Nine Months Ended	
	March 31,		March 31,	
	2015	2014	2015	2014
Sales	\$284,160	\$355,573	\$905,318	\$956,440
Operating (loss) income	(153,100 )	28,012	(505,799 )	68,305

For the three months ended March 31, 2015, Infrastructure sales decreased by 20 percent, due to a 16 percent organic sales decline and a 4 percent unfavorable currency exchange impact. Excluding the impact of currency exchange, sales decreased by approximately 23 percent in energy and approximately 15 percent in earthworks. Energy sales decreased with an accelerated decline in demand for oil and gas products in all regions. Extended weakening in mining activity, particularly in the U.S. and Asia, coupled with stagnant U.S. road rehabilitation tool demand and reduced project spending globally led to lower earthworks sales. On a regional basis sales decreased 18 percent in the Americas, 15 percent in Asia and 11 percent in Europe. The sales decreases in the Americas and Europe were driven by the performance in both the earthworks and energy end markets. The sales decreases in Asia was driven primarily by the earthworks end market, offset partially by an increase in the energy end market.

For the three months ended March 31, 2015, Infrastructure operating loss was \$153.1 million compared to operating income of \$28.0 million for the prior year quarter. During the quarter non-cash pre-tax goodwill and other intangible asset impairment charges of \$159.7 million were recorded. See Note 18. In addition, operating results were negatively impacted by lower organic sales, unfavorable mix and higher restructuring and related charges of \$6.3 million, partially offset by the impact of raw materials prices, restructuring benefits and decreased operating expense as a result of cost reduction efforts.

For the nine months ended March 31, 2015, Infrastructure sales decreased by 5 percent, due to a 9 percent organic sales decline and a 2 percent impact from unfavorable currency exchange, offset partially by a 6 percent increase from acquisition. Excluding the impact of currency exchange, sales decreased by approximately 10 percent in earthworks and approximately 8 percent in the energy markets. Earthworks sales declined due to persistently weak underground and surface mining markets globally, as well as lower road rehabilitation activity and less infrastructure development in China. Energy sales decreased due to weakening demand in oil and gas markets, coupled with lower activity in power generation and surface finishing projects. On a regional basis sales decreased 12 percent in Europe, 10 percent in Asia and 5 percent in the Americas. The sales decreases in all geographic regions were driven by the performance in both the earthworks and energy markets.

For the nine months ended March 31, 2015, Infrastructure operating loss was \$505.8 million compared to operating income of \$68.3 million for the prior period. In addition to all aforementioned impairment charges, operating results for the current period were impacted by lower organic sales, unfavorable mix and higher restructuring and related charges of \$12.2 million, partly offset by the impacts of the TMB acquisition and restructuring benefits. Prior year operating income included a non-recurring inventory charge of \$5.7 million.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

LIQUIDITY AND CAPITAL RESOURCES

Cash flow from operations is the primary source of funding for capital expenditures and internal growth. Year to date March 31, 2015 cash flow provided by operating activities was \$219.6 million, driven by our operating performance and working capital improvements.

Our five-year, multi-currency, revolving credit facility (2011 Credit Agreement) is used to augment cash from operations and as an additional source of funds. The 2011 Credit Agreement permits revolving credit loans of up to \$600.0 million for working capital, capital expenditures and general corporate purposes. The 2011 Credit Agreement allows for borrowings in U.S. dollars, euro, Canadian dollars, pound sterling and Japanese yen. Interest payable under the 2011 Credit Agreement is based upon the type of borrowing under the facility and may be (1) LIBOR plus an applicable margin, (2) the greater of the prime rate or the Federal Funds effective rate plus an applicable margin, or (3) fixed as negotiated by us. The 2011 Credit Agreement matures in April 2018. We had \$113.9 million of borrowings outstanding on our 2011 Credit Agreement as of March 31, 2015.

The 2011 Credit Agreement requires us to comply with various restrictive and affirmative covenants, including two financial covenants: a maximum leverage ratio and a minimum consolidated interest coverage ratio (as those terms are defined in the agreement). We were in compliance with all covenants as of March 31, 2015. For the nine months ended March 31, 2015, average daily borrowings outstanding under the 2011 Credit Agreement were approximately \$214.1 million. Borrowings under the 2011 Credit Agreement are guaranteed by our significant domestic subsidiaries.

Except as noted below, we consider the unremitted earnings of our non-U.S. subsidiaries that have not previously been taxed in the U.S. to be permanently reinvested. As of March 31, 2015, we have cash and cash equivalents of \$100.0 million and short-term intercompany advances made by our foreign subsidiaries to our U.S. parent of \$17.8 million which are not available for use in the U.S. without incurring U.S. federal and state income tax consequences. We have not repatriated, nor do we anticipate the need to repatriate, funds to the U.S. to satisfy domestic liquidity needs arising in the ordinary course of business or associated with our domestic debt service requirements. Notwithstanding the above, we are planning to redeploy cash from certain non-U.S. subsidiaries to reduce foreign and U.S. debt by approximately \$50 to \$100 million before the end of the fiscal year. As such, the current period includes a tax charge related to this change in assertion with respect to a portion of our foreign subsidiaries' undistributed earnings, which are no longer considered permanently reinvested. The remaining undistributed earnings of our foreign subsidiaries continue to be indefinitely reinvested and would not be available for use in the U.S. on a long term basis without incurring U.S. federal and state income tax consequences.

At March 31, 2015, cash and cash equivalents were \$146.2 million, total debt was \$903.8 million and total Kennametal Shareholders' equity was \$1,371.2 million. Our current senior credit ratings are at investment grade levels. We believe that our current financial position, liquidity and credit ratings provide access to the capital markets. We continue to closely monitor our liquidity position and the condition of the capital markets, as well as the counterparty risk of our credit providers.

There have been no material changes in our contractual obligations and commitments since June 30, 2014.

Cash Flow Provided by Operating Activities

During the nine months ended March 31, 2015, cash flow provided by operating activities was \$219.6 million, compared to \$153.2 million for the prior year period. Cash flow provided by operating activities for the current year period consisted of net loss and non-cash items amounting to an inflow of \$215.6 million and by changes in certain assets and liabilities netting to an inflow of \$4.0 million. Contributing to the changes in certain assets and liabilities were a decrease in accounts receivable of \$34.3 million due to lower sales volume and a decrease in inventory of \$6.6 million. Offsetting these cash inflows were an increase of accounts payable and accrued liabilities of \$21.7 million primarily driven by payroll timing and lower accrued compensation-related accounts, an increase in accrued income taxes of \$9.9 million and a decrease in other of \$5.3 million.

During the nine months ended March 31, 2014, cash flow provided by operating activities consisted of net income and non-cash items amounting to an inflow of \$237.5 million, partially offset by changes in certain assets and liabilities netting to an outflow of \$84.3 million. Contributing to the changes in certain assets and liabilities were an increase in accounts receivable of \$35.8 million primarily due to higher sales, an increase in inventory of \$34.8 million primarily driven by higher work in process and finished goods inventory and a decrease in other of \$11.0 million.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

Cash Flow Used for Investing Activities

Cash flow used for investing activities was \$76.3 million for the nine months ended March 31, 2015, compared to \$719.6 million in the prior year period. During the current year period, cash flow used for investing activities included capital expenditures, net of \$76.3 million, which consisted primarily of equipment upgrades.

For the nine months ended March 31, 2014, cash flow used for investing activities included \$634.6 million used for acquisitions, primarily TMB of \$607.0 million and two other acquisitions in the Infrastructure segment. Capital expenditures, net were \$85.0 million, which consisted primarily of equipment upgrades.

Cash Flow (Used for) Provided by Financing Activities

Cash flow used for financing activities was \$164.8 million for the nine months ended March 31, 2015 compared to cash flow provided by financing activities of \$350.3 million in the prior year period. During the current year period, cash flow used for financing activities primarily included \$129.0 million net decrease in borrowings and \$42.7 million of cash dividends paid to Shareholders. These cash flows were offset by \$11.0 million of dividend reinvestment and the effect of employee benefit and stock plans.

For the nine months ended March 31, 2014, cash flow provided by financing activities included \$385.9 million net increase in borrowings and \$21.5 million of dividend reinvestment and the effect of employee benefit and stock plans. These cash flows were offset by \$42.3 million of cash dividends paid to Shareholders and \$14.1 million used for the purchase of capital stock.

FINANCIAL CONDITION

Working capital was \$816.8 million at March 31, 2015, a decrease of \$145.6 million from \$962.4 million at June 30, 2014. The decrease in working capital was primarily driven by a decrease in accounts receivable of \$80.0 million due to lower sales volume; a decrease in inventory of \$71.3 million due to lower work in process, finished goods and raw materials; a decrease in cash and cash equivalents of \$31.8 million; and an increase in current maturities of long-term debt and capital leases and notes payable of \$19.5 million. Partially offsetting these items was a decrease in accounts payable of \$32.6 million and a decrease in accrued expenses of \$25.0 million driven by payroll timing and lower accrued compensation-related accounts. Currency exchange effects accounted for \$91.8 million of the working capital change.

Property, plant and equipment, net decreased \$71.4 million from \$884.5 million at June 30, 2014 to \$813.0 million at March 31, 2015, primarily due to depreciation expense of \$79.3 million and unfavorable currency exchange impact of \$58.4 million during the current quarter, partially offset by capital expenditures of \$77.6 million, which includes \$6.5 million change in accounts payable related to purchases of property, plant and equipment.

At March 31, 2015, other assets were \$847.7 million, a decrease of \$610.7 million from \$1,458.4 million at June 30, 2014. The primary drivers for the decrease were a decrease in goodwill of \$563.7 million and a decrease in other intangible assets of \$52.2 million. The change in goodwill was due to impairment charges in the Infrastructure segment of \$527.5 million and unfavorable currency exchange effects. The change in other intangible assets was due to amortization expense of \$20.4 million, Infrastructure contract-based technology and other intangible asset impairments of \$19.2 million and unfavorable currency exchange effects of \$12.8 million.

Long-term debt and capital leases decreased by \$177.5 million to \$804.1 million at March 31, 2015 from \$981.7 million at June 30, 2014. This change was driven by the \$173.2 million decrease of borrowings outstanding on our 2011 Credit Agreement.

Kennametal Shareholders' equity was \$1,371.2 million at March 31, 2015, a decrease of \$558.1 million from \$1,929.3 million at June 30, 2014. The decrease was primarily due net loss attributable to Kennametal of \$395.0 million, unfavorable currency exchange of \$161.2 million and cash dividends paid to Shareholders of \$42.7 million, partially offset by capital stock issued under employee benefit and stock plans of \$20.0 million.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

ENVIRONMENTAL MATTERS

The operation of our business has exposed us to certain liabilities and compliance costs related to environmental matters. We are involved in various environmental cleanup and remediation activities at certain of our locations.

**Superfund Sites** We are involved as a potentially responsible party (PRP) at various sites designated by the United States Environmental Protection Agency (USEPA) as Superfund sites. For certain of these sites, we have evaluated the claims and potential liabilities and have determined that neither are material, individually or in the aggregate. For certain other sites, proceedings are in the very early stages and have not yet progressed to a point where it is possible to estimate the ultimate cost of remediation, the timing and extent of remedial action that may be required by governmental authorities or the amount of our liability alone or in relation to that of any other PRP.

**Other Environmental Matters** We establish and maintain reserves for other potential environmental issues. At March 31, 2015 and June 30, 2014, the balances of these reserves were \$12.2 million and \$11.0 million, respectively. These reserves represent anticipated costs associated with the remediation of these issues.

The reserves we have established for environmental liabilities represent our best current estimate of the costs of addressing all identified environmental situations, based on our review of currently available evidence, and taking into consideration our prior experience in remediation and that of other companies, as well as public information released by the USEPA, other governmental agencies, and by the PRP groups in which we are participating. Although the reserves currently appear to be sufficient to cover these environmental liabilities, there are uncertainties associated with environmental liabilities, and we can give no assurance that our estimate of any environmental liability will not increase or decrease in the future. The reserved and unreserved liabilities for all environmental concerns could change substantially due to factors such as the nature and extent of contamination, changes in remedial requirements, technological changes, discovery of new information, the financial strength of other PRPs, the identification of new PRPs and the involvement of and direction taken by the government on these matters.

We maintain a Corporate Environmental Health and Safety (EHS) Department, to monitor compliance with environmental regulations and to oversee remediation activities. In addition, we have designated EHS coordinators who are responsible for each of our global manufacturing facilities. Our financial management team periodically meets with members of the Corporate EHS Department and the Corporate Legal Department to review and evaluate the status of environmental projects and contingencies. On a quarterly basis, we review financial provisions and reserves for environmental contingencies and adjust these reserves when appropriate.

DISCUSSION OF CRITICAL ACCOUNTING POLICIES

There have been no changes to our critical accounting policies since June 30, 2014.

NEW ACCOUNTING STANDARDS

See Note 3 to our condensed consolidated financial statements set forth in Part I Item 1 of this Quarterly Report on Form 10-Q for a description of new accounting standards.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to our market risk exposure since June 30, 2014.

Table of Contents

## ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this quarterly report on Form 10-Q, the Company's management evaluated, with the participation of the Company's Chief Executive Officer and Interim Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). The Company's disclosure controls were designed to provide a reasonable assurance that information required to be disclosed in reports that we file or submit under the Securities Exchange Act of 1934, as amended (Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote. However, the controls have been designed to provide reasonable assurance of achieving the controls' stated goals. Based on that evaluation, the Company's Chief Executive Officer and Interim Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance at March 31, 2015 to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is (i) accumulated and communicated to management, including the Company's Chief Executive Officer and Interim Chief Financial Officer, to allow timely decisions regarding required disclosure and (ii) recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

There were no changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II. OTHER INFORMATION

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS  
ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares Purchased <sup>(1)</sup>	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs <sup>(2)</sup>
January 1 through January 31, 2015	103	\$31.42	—	10,100,100
February 1 through February 28, 2015	2,362	35.42	—	10,100,100
March 1 through March 31, 2015	3,555	33.29	—	10,100,100
Total	6,020	\$34.09	—	

During the current period, 2,131 shares were purchased on the open market on behalf of Kennametal to fund the (1) Company's dividend reinvestment program. Also, during the current period employees delivered 3,889 shares of restricted stock to Kennametal, upon vesting, to satisfy tax withholding requirements.

(2) On July 25, 2013, the Company publicly announced an amended repurchase program for up to 17 million shares of its outstanding capital stock.
