HART & SON INDUSTRIES LTD.
 NOTES TO THE FINANCIAL STATEMENTS
 (Cdn\$)

1. NATURE OF BUSINESS AND REPORTING PERIOD

The Company was incorporated under the laws of the Province of British Columbia on July 15, 1974. The Company manufactures and designs log homes, wood windows and doors.

The statements of retained earnings, loss and cash flows are audited for the period of April 1, 2003 to August 29, 2003, as this period is inclusive of the earliest date from which opening inventory could be independently verified to the effective date of sale of the outstanding shares of the Company.

The most recent fiscal year of the Company ended on June 30, 2003. The unaudited balance sheet as at June 30, 2003 and unaudited statements of retained earnings, loss and cash flows for the year ended June 30, 2003 are presented for information purposes.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Company have been prepared in accordance with Canadian generally accepted accounting principles. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgement.

The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework

Edgar Filing: LINCOLN LOGS LTD - Form 8-K

of the accounting policies summarized below:

(a) Functional currency

The functional currency of the Company is Canadian dollars.

(b) Property, plant and equipment

Property, plant and equipment are recorded at cost. Amortization is provided annually at rates calculated to write off the assets over their estimated useful lives as follows:

	Rate	Basis
Buildings	4%	diminishing balance
Computer equipment	30%	diminishing balance
Manufacturing equipment	20%	diminishing balance
Furniture and fixtures	20%	diminishing balance
Automotive and forklift equipment	20%	diminishing balance
Leasehold improvements	5-10 years	straight line

In the year of acquisition, these rates are reduced by one-half.

(c) Inventory and work-in-progress

Inventory has been stated at the lower of cost or estimated replacement cost on a first-in, first-out basis.

Work-in-progress relates to products that were in the process of being manufactured at the end of the period. Work-in-progress includes all costs for labour, materials and overhead and is stated at the lower of cost or recoverable amount.

HART & SON INDUSTRIES LTD.
NOTES TO THE FINANCIAL STATEMENTS, Continued
(Cdn\$)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

(d) Revenue recognition

Revenue is recognized when products are shipped from the manufacturing facility.

Deposits received in advance are reflected in current liabilities until the sale is completed.

(e) Translation of foreign currencies

Monetary assets and liabilities denominated in foreign currencies have been translated into Canadian dollars at the rate of exchange prevailing at the end of the period. Revenue and expense items are translated at the average rate of exchange for the period.

(f) Financial instruments

The Company's financial instruments consist of: accounts receivable; goods and sales tax receivable; income taxes recoverable; loan receivable, related party; bank loan payable; trade accounts payable;

Edgar Filing: LINCOLN LOGS LTD - Form 8-K

accrued payroll, related taxes and withholdings; accrued expenses; loans payable, shareholders; customer deposits; capital lease obligation; and loan payable, related party.

Management is of the opinion that the Company is not subject to significant interest, currency or credit risks on the financial instruments included in these financial statements, except as noted. The fair market values of these financial instruments approximate their carrying values. Included in cash is \$1,782 denominated in US dollars.

(g) Future income taxes

Future income taxes represent the estimated taxes payable on the difference between the values of assets and liabilities recorded for accounting purposes and the values that would be used for the calculation of income taxes.

Effective July 1, 2002, the Company adopted Section 3465 of the Canadian Institute of Chartered Accountants Handbook, "Accounting for Income Taxes" which requires an asset and liability approach to financial accounting and reporting for income taxes. Future income tax assets and future income tax liabilities are computed annually for differences between the financial statement values and tax values, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income.

(h) Cash and cash equivalents

The Company's cash and cash equivalents consist of cash on hand and bank indebtedness. Foreign currencies are converted to Canadian dollars at the exchange rate in effect at the balance sheet date.

(i) Warranties

The Company sells housing kits with warranties against manufacturer's defects. The Company has reviewed the history of warranty claims and has determined that the incidence and value of previous claims have not been material.

Based on the claims experience, the Company has not provided for such claims and will treat any costs relating to manufacturer's defects as a period cost.

NOTES TO THE FINANCIAL STATEMENTS

1. NATURE OF BUSINESS

The Company was incorporated under the laws of the Province of British Columbia on March 14, 1972. The Company rents manufacturing equipment to a related corporation.

The balance sheet as at August 29, 2003 and the statements of income and deficit and cash flows for the period April 1, 2003 to August 29, 2003 are audited to be consistent with the period being audited for a related company, Hart & Son Industries Ltd.

The most recent fiscal year of the Company ended on June 30, 2003. The unaudited balance sheet as at June 30, 2003 and unaudited statements of income and deficit and cash flows for the year ended June 30, 2003 are presented for information purposes.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Company have been prepared in accordance with Canadian generally accepted accounting principles. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgement.

The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the accounting policies summarized below:

(a) Functional currency

The functional currency of the Company is Canadian dollars.

(b) Property, plant and equipment

Property, plant and equipment are recorded at cost. Amortization is provided annually at rates calculated to write off the assets over their estimated useful lives as follows:

	Rate	Basis
Manufacturing equipment	20%	diminishing balance

In the year of acquisition, these rates are reduced by one-half.

(c) Revenue recognition

Revenue is recognized in accordance with the rental agreement

Edgar Filing: LINCOLN LOGS LTD - Form 8-K

established with the related corporation.

(d) Financial instruments

The Company's financial instruments consist of cash and loan payable, related party.

Management is of the opinion that the Company is not subject to significant interest, currency or credit risks on the financial instruments included in these financial statements. The fair market values of these financial instruments approximate their carrying values.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

(e) Future income taxes

Future income taxes represent the estimated taxes payable on the difference between the values of assets and liabilities recorded for accounting purposes and the values that would be used for the calculation of income taxes.

Effective July 1, 2002, the Company has adopted Section 3465 of the Canadian Institute of Chartered Accountants Handbook, "Accounting for Income Taxes" which requires an asset and liability approach to financial accounting and reporting for income taxes. Future income tax assets and future income tax liabilities are computed annually for differences between the financial statement values and tax values, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income.

(f) United States generally accepted accounting principles

No material differences exist between these financial statements as presented and the financial statements if prepared in accordance with United States generally accepted accounting principles.

(g) Cash and cash equivalents

The Company's cash and cash equivalents consist of cash on hand and bank indebtedness. Foreign currencies are converted to Canadian dollars at the exchange rate in effect at the balance sheet date.

The combined purchase had an aggregate consideration of approximately Cdn\$2,865,000, and consisted of a combination of cash, promissory notes and common stock.

The unaudited pro forma consolidated balance sheet was prepared as if the acquisition had occurred on July 31, 2003. For purposes of consolidating the unaudited balances of Lincoln Logs and the acquired businesses as of July 31, 2003, the unaudited balance sheets of the acquired businesses as of June 30, 2003 have been used to approximate the acquired businesses' financial position as of July 31, 2003.

The unaudited pro forma consolidated statements of operations for the year ended January 31, 2003 and for the six months ended July 31, 2003 were prepared as if the acquisition had taken place as of February 1, 2002. Due to the poor condition of the acquired businesses' historical financial information, it is not practicable to bring the acquired businesses' statements of operations to within 93 days of Lincoln Logs' fiscal year end, as prescribed by Article 11 of Regulation S-X. For purposes of consolidating the unaudited statement of operations of Lincoln Logs and the acquired businesses for the year ended January 31, 2003, the unaudited statements of operations of the acquired businesses for the year ended June 30, 2003 have been used to approximate the results of their operations as of January 31, 2003. For purposes of consolidating the unaudited statements of operations of Lincoln Logs and the acquired businesses for the six months ended July 31, 2003, the unaudited statements of operations of the acquired businesses for the six months ended June 30, 2003 have been used to approximate the results of their operations as of July 31, 2003.

For the purpose of presenting pro forma financial information, all transactions between Lincoln Logs, Hart & Son and True-Craft have been eliminated as if the acquisition had been consummated on the assumed effective date. The pro forma financial information reflects other adjustments that are directly attributable to the acquisition as described in the accompanying notes.

For the purposes of this presentation, certain pro forma adjustments have been made to the balance sheet and results of operations to provide information as to how the acquisition might have affected the financial position and statements of operations. This unaudited pro forma financial information does not purport to be indicative of the results of operations that would have been obtained if the operations had been combined as of the beginning of the period presented, and is not intended to be a projection of future results.
