o Yes x No

The number of shares of common stock of the registrant outstanding as of July 31, 2007 was 13,304,518.

#### EXPLANATORY NOTE

We are filing this Amendment No. 1 to our Quarterly Report on Form 10-Q/A for the quarter ended June 30, 2007, originally filed with the Securities and Exchange Commission (the "SEC") on August 8, 2007 (the "Original Filing"), to restate our consolidated financial statements as of June 30, 2007 and for the three and six months ended June 30, 2007. Please refer to Note 1 of our consolidated financial statements for additional information relating to the restatement of our consolidated financial statements.

On October 30, 2007, we announced that we identified accounting errors related to sales of certain held to maturity investment securities conducted in the second quarter of 2007. Based on our assessment of the provisions of Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Liabilities" ("SFAS No. 159"), on April 12, 2007 we had decided to implement early adoption of SFAS No. 159. In connection with this, we selected the fair value option for certain U.S. Government sponsored agency and mortgage-backed securities with lower coupons and slower prepayment characteristics in the held to maturity portfolio totaling approximately \$61.9 million. A portfolio restructuring plan was also undertaken to reduce interest rate risk and improve net interest margin, which included the sale of these securities. On Friday April 13, 2007 we executed sale trades for these held to maturity securities. At the time of the sales transactions the historical amortized cost basis of the sold securities exceeded the total sales price by \$1.7 million. On Monday April 16, 2007 additional information became available regarding clarifications of the interpretation of the application of SFAS No. 159 by applicable regulatory and accounting industry bodies that led us to conclude that the application of SFAS No. 159 to our transactions might be inconsistent with the intent and spirit of SFAS No. 159. Consequently, we decided not to early-adopt SFAS No. 159.

In connection with that decision, we were able to promptly execute purchase trade transactions for the identical securities prior to the sales settlement date for approximately \$49.9 million of the \$61.9 million total, with the intent that, in substance, the sale transaction would be offset for these securities. The reacquired securities were retained in the held to maturity portfolio at the original pre-sale amortized cost and a \$1.4 million loss on the sale of the reacquired securities was not recognized. The sale and reacquisition of the \$49.9 million in held to maturity securities as well as certain other investing and financing transactions conducted in connection with the portfolio restructuring strategy were similarly treated in an offset manner and these transaction amounts were incorrectly omitted from the consolidated statement of cash flows for the period ended June 30, 2007; the correction for these other investing and financing transactions had no effect on net income. For the reacquired securities, the reacquisition price exceeded the selling price by \$153 thousand and an expense of this amount was recognized in other noninterest expense in the second quarter of 2007. Also in the second quarter of 2007, a realized securities loss in the amount of \$261 thousand was recognized on the securities that were sold but not reacquired. We discussed the accounting treatment described above with KPMG LLP, our independent registered public accounting firm, in connection with its quarterly review process.

Based on a recent review of these transactions, in consultation with KPMG, we have determined that the offsetting of the April 13, 2007 sales and subsequent reacquisition of identical securities was incorrect and that the sale transactions should have been recognized with a \$1.4 million realized securities loss and corresponding reduction in the carrying value of the reacquired securities.

Also, we have determined that the remaining held to maturity portfolio should have been reclassified to the available for sale category. This reclassification has been recognized as of April 13, 2007. Accordingly, the effect on the June 30, 2007 consolidated balance sheet was to reclassify the portfolio of held to maturity securities to the available for sale category, which resulted in a \$1.6 million reduction in shareholders' equity. We will not be able to classify securities in the held to maturity category for a period of two years from the April 13, 2007 sales date as a result of this action.

The correction to reduce the cost basis of the reacquired securities results in a change to the accretion of discount for these securities, which is recognized in interest income until their maturity dates. The resulting additional amount of accretion income recognized on these securities was \$79 thousand in each of the quarters ended June 30, 2007 and September 30, 2007.

For the quarter ended June 30, 2007, the accounting corrections for these transactions, including recognition of the realized loss on the sales transactions and other related changes, result in an after-tax reduction in net income of

#### **Table of Contents**

\$828 thousand, or 6 cents per diluted share, from \$6.3 million, or 46 cents per diluted share, to \$5.5 million, or 40 cents per diluted share. For the six-month period ended June 30, 2007 the accounting corrections result in a reduction in net income from \$12.3 million, or 90 cents per diluted share, to \$11.5 million, or 84 cents per diluted share.

On October 24, 2007, management, in consultation with KPMG, concluded that the Corporation's interim financial statements for the period ended June 30, 2007 should be restated and that the Corporation's financial statements for the quarter ended June 30, 2007 should no longer be relied upon. The Audit Committee of our Board of Directors has thoroughly reviewed this matter and, on October 26, 2007, approved management's conclusion.

This Form 10-Q/A does not reflect events occurring after the filing of the Original Filing on August 8, 2007 or modify or update those disclosures affected by subsequent events or discoveries. Information not affected by this disclosure is unchanged and reflects the disclosures made at the time of the Original Filing on August 8, 2007. Accordingly, this Form 10-Q/A should be read in conjunction with our filings that we have made with the SEC subsequent to the filing of the Original Filing, which include our Current Reports on Form 8-K.

We have amended disclosures presented in the Original Filing as required to reflect the matters described above and accordingly, have amended only the following items:

- Part I—Item 1—Financial Statements
- Part I—Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations
  - Part I—Item 3—Quantitative and Qualitative Disclosures About Market Risk
    - Part II—Item 6—Exhibits

The other items of the Original Filing have not been amended and, accordingly, have not been repeated in this Form 10-Q/A.

In addition, in accordance with applicable SEC rules, this Form 10-Q/A includes updated certifications from our chief executive officer and chief financial officer as Exhibits 31.1, 31.2, 32.1 and 32.2.

## WASHINGTON TRUST BANCORP INC. AND SUBSIDIARIES CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### General

Washington Trust Bancorp, Inc. (the "Bancorp") is a publicly-owned registered bank holding company and financial holding company. The Bancorp owns all of the outstanding common stock of The Washington Trust Company (the "Bank"), a Rhode Island chartered commercial bank founded in 1800. Through its subsidiaries, the Bancorp offers a complete product line of financial services to individuals and businesses including commercial, residential and consumer lending, retail and commercial deposit products, and wealth management services through its branch offices in Rhode Island, Massachusetts and southeastern Connecticut, ATMs, and its Internet web site (www.washtrust.com).

#### (1) Basis of Presentation

The consolidated financial statements include the accounts of the Bancorp and its subsidiaries (collectively, the "Corporation" or "Washington Trust"). All significant intercompany transactions have been eliminated. Certain prior year amounts have been reclassified to conform to the current year classification. Such reclassifications have no effect on previously reported net income or shareholders' equity.

The accounting and reporting policies of the Corporation conform to U.S. generally accepted accounting principles ("GAAP") and to general practices of the banking industry. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to near-term change are the determination of the allowance for loan losses and tax estimates.

In the opinion of management, the accompanying consolidated financial statements reflect all adjustments (consisting of normal recurring adjustments) and disclosures necessary to present fairly the Corporation's financial position as of June 30, 2007 and December 31, 2006, respectively, and the results of operations and cash flows for the interim periods presented. Interim results are not necessarily reflective of the results of the entire year. The unaudited consolidated financial statements of the Corporation presented herein have been prepared pursuant to the rules of the Securities and Exchange Commission ("SEC") for quarterly reports on Form 10-Q and do not include all of the information and note disclosures required by GAAP. The accompanying consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in Washington Trust's Annual Report on Form 10-K for the year ended December 31, 2006.

In the Corporation's quarterly report on Form 10-Q for the quarter ended March 31, 2007, a \$6.7 million deferred acquisition obligation payment was misclassified as a financing activity, in the line item "Net increase in other borrowings," in the Consolidated Statements of Cash Flows. The Consolidated Statement of Cash Flows for the six months ended June 30, 2007 has been corrected to properly report this first quarter payment as an investing activity, in the line item "Payment of deferred acquisition obligation."

The following table presents the impact of the misclassification on the Consolidated Statements of Cash Flows for the three months ended March 31, 2007:

(Dollars in thousands)

## WASHINGTON TRUST BANCORP INC. AND SUBSIDIARIES (Continued) CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

On November 20, 2007, we filed an Amendment No. 1 to our Quarterly Report on Form 10-Q/A for the quarter ended June 30, 2007, originally filed with the SEC on August 8, 2007, to restate our consolidated financial statements as of June 30, 2007 and for the three and six months ended June 30, 2007.

On October 30, 2007, we announced that we identified accounting errors related to sales of certain held to maturity investment securities conducted in the second quarter of 2007. Based on our assessment of the provisions of SFAS No. 159, on April 12, 2007 we had decided to implement early adoption of SFAS No. 159. In connection with this, we selected the fair value option for certain U.S. Government sponsored agency and mortgage-backed securities with lower coupons and slower prepayment characteristics in the held to maturity portfolio totaling approximately \$61.9 million. A portfolio restructuring plan was also undertaken to reduce interest rate risk and improve net interest margin, which included the sale of these securities. On Friday April 13, 2007 we executed sale trades for these held to maturity securities. At the time of the sales transactions the historical amortized cost basis of the sold securities exceeded the total sales price by \$1.7 million. On Monday April 16, 2007 additional information became available regarding clarifications of the interpretation of the application of SFAS No. 159 by applicable regulatory and accounting industry bodies that led us to conclude that the application of SFAS No. 159 to our transactions might be inconsistent with the intent and spirit of SFAS No. 159. Consequently, we decided not to early-adopt SFAS No. 159.

In connection with that decision, we were able to promptly execute purchase trade transactions for the identical securities prior to the sales settlement date for approximately \$49.9 million of the \$61.9 million total, with the intent that, in substance, the sale transaction would be offset for these securities. The reacquired securities were retained in the held to maturity portfolio at the original pre-sale amortized cost and a \$1.4 million loss on the sale of the reacquired securities was not recognized. The sale and reacquisition of the \$49.9 million in held to maturity securities as well as certain other investing and financing transactions conducted in connection with the portfolio restructuring strategy were similarly treated in an offset manner and these transaction amounts were incorrectly omitted from the consolidated statement of cash flows for the period ended June 30, 2007; the correction for these other investing and financing transactions had no effect on net income. For the reacquired securities, the reacquisition price exceeded the selling price by \$153 thousand and an expense of this amount was recognized in other noninterest expense in the second quarter of 2007. Also in the second quarter of 2007, a realized securities loss in the amount of \$261 thousand was recognized on the securities that were sold but not reacquired. We discussed the accounting treatment described above with KPMG LLP, our independent registered public accounting firm, in connection with its quarterly review process.

Based on a recent review of these transactions, in consultation with KPMG, we have determined that the offsetting of the April 13, 2007 sales and subsequent reacquisition of identical securities was incorrect and that the sale transactions should have been recognized with a \$1.4 million realized securities loss and corresponding reduction in the carrying value of the reacquired securities.

Also, we have determined that the remaining held to maturity portfolio should have been reclassified to the available for sale category. This reclassification has been recognized as of April 13, 2007. Accordingly, the effect on the June 30, 2007 consolidated balance sheet was to reclassify the portfolio of held to maturity securities to the available for sale category, which resulted in a \$1.6 million reduction in shareholders' equity. We will not be able to classify securities in the held to maturity category for a period of two years from the April 13, 2007 sales date as a result of this action.

The correction to reduce the cost basis of the reacquired securities results in a change to the accretion of discount for these securities, which is recognized in interest income until their maturity dates. The resulting additional amount of accretion income recognized on these securities was \$79 thousand in each of the quarters ended June 30, 2007 and September 30, 2007.

For the quarter ended June 30, 2007, the accounting corrections for these transactions, including recognition of the realized loss on the sales transactions and other related changes, result in an after-tax reduction in net income of \$828 thousand, or 6 cents per diluted share, from \$6.3 million, or 46 cents per diluted share, to \$5.5 million, or 40 cents per diluted share. For the six-month period ended June 30, 2007 the accounting corrections result in a reduction in net income from \$12.3 million, or 90 cents per diluted share, to \$11.5 million, or 84 cents per diluted share.

## WASHINGTON TRUST BANCORP INC. AND SUBSIDIARIES CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

On October 24, 2007, management, in consultation with KPMG, concluded that the Corporation's interim financial statements for the period ended June 30, 2007 should be restated and that the Corporation's financial statements for the quarter ended June 30, 2007 should no longer be relied upon. The Audit Committee of our Board of Directors has thoroughly reviewed this matter and, on October 26, 2007, approved management's conclusion.

The following tables summarize the effect of the restatement adjustments on the consolidated financial statements as of and for the three and six months ended June 30, 2007:

## WASHINGTON TRUST BANCORP INC. AND SUBSIDIARIES (Continued) CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### (2) New Accounting Pronouncements

In February 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments - an amendment of FASB Statements No. 133 and 140," ("SFAS No. 155"). This Statement eliminates the exemption from applying SFAS No. 133 to interests in securitized financial assets so that similar instruments are accounted for similarly regardless of the form of the instruments. This Statement also allows a preparer to elect fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a remeasurement event, on an instrument-by-instrument basis, in cases in which a derivative would otherwise have to be bifurcated. SFAS No. 155 is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. Provisions of this Statement may be applied to instruments that an entity holds at the date of adoption on an instrument-by-instrument basis. Prior periods should not be restated. The adoption of SFAS No. 155 did not have a material impact on the Corporation's financial position or results of operations.

In March 2006, the FASB issued SFAS No. 156, "Accounting for Servicing of Financial Assets – an amendment of FASB Statement No. 140," ("SFAS No. 156"). This Statement requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value. SFAS No. 156 permits, but does not require, the subsequent measurement of servicing assets and servicing liabilities at fair value. An entity that used derivative instruments to mitigate the risks inherent in servicing assets and servicing liabilities is required to account for those derivative instruments at fair value. SFAS No. 156 is effective as of the beginning of the first fiscal year that begins after September 15, 2006. The adoption of SFAS No. 156 did not have a material impact on the Corporation's financial position or results of operations.

Effective January 1, 2007, the Corporation adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - An Interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109, "Accounting for Income Taxes." FIN 48 also prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. In addition, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. The adoption of FIN 48 did not have a material impact on the Corporation's financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS No. 157"). This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures of fair value measurements. SFAS No. 157 applies to the accounting principles that currently use fair value measurement, and does not require any new fair value measurements. The expanded disclosures focus on the inputs used to measure fair value as well as the effect of the fair value measurements on earnings. This Statement is effective as of the beginning of the first fiscal year beginning after November 15, 2007 and interim periods within that fiscal year. The Corporation believes the adoption of SFAS No. 157 will not have a material impact on the Corporation's financial position or results of operations.

In September 2006, the FASB issued SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Post Retirement Plans (an amendment of FASB Statements No. 87, 88, 106 and 132R)" ("SFAS No. 158"). The recognition and disclosure provisions of SFAS No. 158 were adopted by the Corporation for the fiscal year ended December 31, 2006. Upon adoption, the funded status of an employer's postretirement benefit plan was recognized in the statement of financial position and the changes in funded status of the defined benefit plan, including actuarial

gains and losses and prior service costs and credits were recognized in comprehensive income. The requirement to measure the plan' assets and obligations as of the employers fiscal year end is effective for fiscal years ending after December 15, 2008. The Corporation is currently evaluating the impact the measurement date provisions of SFAS No. 158 will have on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Liabilities – Including an amendment to FASB No. 115" ("SFAS No. 159"). This Statement permits entities to choose to measure eligible items at fair value at specified election dates. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings at each subsequent reporting date. The fair value option (i) may be applied instrument-by-instrument with certain exceptions, (ii) is irrevocable (unless a new election date occurs) and

-11-

## WASHINGTON TRUST BANCORP INC. AND SUBSIDIARIES (Continued) CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(iii) is applied only to entire instruments and not to portions of instruments. This Statement is effective as of the beginning of the first fiscal year that begins after November 15, 2007. Early adoption was permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elected to apply the provisions of SFAS No. 157, "Fair Value Instruments." Based on our assessment of the provisions of SFAS No. 159, on April 12, 2007 we had decided to implement early adoption of SFAS No. 159. In connection with this, we selected the fair value option for certain U.S. Government sponsored agency and mortgage-backed securities with lower coupons and slower prepayment characteristics in the held to maturity portfolio totaling approximately \$61.9 million. A portfolio restructuring plan was also undertaken to reduce interest rate risk and improve net interest margin, which included the sale of these securities. On Friday April 13, 2007 we executed sale trades for these held to maturity securities. At the time of the sales transactions the historical amortized cost basis of the sold securities exceeded the total sales price by \$1.7 million. On Monday April 16, 2007 additional information became available regarding clarifications of the interpretation of the application of SFAS No. 159 by applicable regulatory and accounting industry bodies that led us to conclude that the application of SFAS No. 159 to our transactions might be inconsistent with the intent and spirit of SFAS No. 159. Consequently, we decided not to early-adopt SFAS No. 159. See further discussion in the Explanatory Note and in Note 3.

#### (3) Securities

## WASHINGTON TRUST BANCORP INC. AND SUBSIDIARIES (Continued) CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In connection with a planned early adoption of SFAS No. 159, the Corporation sold twelve held to maturity debt securities with an amortized cost of \$61.9 million on April 13, 2007. The Corporation subsequently decided not to early-adopt SFAS No. 159 and realized securities losses of \$1.7 million were recognized in the second quarter of 2007 (as restated). In addition, the remaining held to maturity portfolio was reclassified to the available for sale category as of April 13, 2007. The Corporation will not be able to classify securities in the held to maturity category for a period of two years from the April 13, 2007 sales date as a result of this action. See additional discussion regarding the restatement in the Explanatory Note and Note 1 to the Consolidated Financial Statements.

Securities available for sale with a fair value of \$527.8 million and securities available for sale and held to maturity with a fair value of \$557.4 million were pledged in compliance with state regulations concerning trust powers and to secure Treasury Tax and Loan deposits, borrowings, and certain public deposits at June 30, 2007 and December 31, 2006, respectively. In addition, securities available for sale with a fair value of \$8.7 million and securities available for sale and held to maturity with a fair value of \$9.6 million were collateralized for the discount window at the Federal Reserve Bank at June 30, 2007 and December 31, 2006, respectively. There were no borrowings with the Federal Reserve Bank at either date. Securities available for sale with a fair value of \$2.0 million and \$2.1 million were designated in a rabbi trust for a nonqualified retirement plan at June 30, 2007 and December 31, 2006. As of June 30, 2007, securities available for sale with a fair value of \$20.8 million were pledged as collateral to secure securities sold under agreements to repurchase.

At June 30, 2007 and December 31, 2006, the securities portfolio included \$6.9 million (as restated) and \$1.7 million of net pretax unrealized losses, respectively. Included in these net amounts were gross unrealized losses amounting to \$11.1 million (as restated) and \$9.1 million at June 30, 2007 and December 31, 2006, respectively.

The following tables summarize, for all securities in an unrealized loss position at June 30, 2007 and December 31, 2006, respectively, the aggregate fair value and gross unrealized loss by length of time those securities have been continuously in an unrealized loss position.

For those debt securities whose amortized cost exceeds fair value, the primary cause is related to the movement of interest rates. The Corporation believes that the nature and duration of impairment on its debt security holdings are primarily a function of interest rate movements and changes in investment spreads, and does not consider full repayment of principal on the reported debt obligations to be at risk. The Corporation has the ability and intent to hold these investments to full recovery of the cost basis. The debt securities in an unrealized loss position at June 30, 2007 consisted of 223 debt security holdings. The largest loss percentage of any single holding was 6.28% of its amortized cost.

Causes of conditions whereby the fair value of corporate stock equity securities is less than cost include the timing of purchases and changes in valuation specific to individual industries or issuers. The relationship between the level of market interest rates and the dividend rates paid on individual equity securities may also be a contributing factor. The Corporation believes that the nature and duration of impairment on its equity securities holdings are considered to be a function of general financial market movements and industry conditions. The equity securities in an unrealized loss position at June 30, 2007 consisted of 10 holdings of financial and commercial entities.

Balance at June 30, 2007	\$	570	\$	11,325	\$	205	\$ 12,100

Amortization of intangible assets for the six months ended June 30, 2007 totaled \$716 thousand. Estimated annual amortization expense of current intangible assets with finite useful lives, absent any impairment or change in estimated useful lives, is summarized below.

#### (Dollars in thousands)

	Core		Advisory	Non-compete		
Estimated amortization expense:	Deposi	its	Contracts	Agreement	S	Total
2007 (full year)	\$	140	\$ 1,194	. \$	.9	\$ 1,383
2008		120	1,111	۷	.9	1,280
2009		120	1,040	) 4	.9	1,209
2010		120	922	,	.9	1,091
2011		120	768	3	3	921

The components of intangible assets at June 30, 2007 are as follows:

#### (Dollars in thousands)

	Core		A	Advisory Non-compete			
	De	posits	Co	ontracts	Agr	eements	Total
Gross carrying amount	\$	2,997	\$	13,657	\$	1,147	\$ 17,801
Accumulated amortization		2,427		2,332		942	5,701
Net amount	\$	570	\$	11,325	\$	205	\$ 12,100

#### (7) Income Taxes

Effective January 1, 2007, the Corporation adopted FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"). The adoption of FIN 48 did not result in any adjustment to retained earnings as of January 1, 2007.

As of the adoption date, the Corporation had gross tax affected unrecognized tax benefits of \$1.2 million. If recognized, this amount would be recorded as a component of income tax expense. There have been no significant changes to this during the six months ended June 30, 2007.

The Corporation recognizes potential accrued interest related to unrecognized tax benefits in income tax expense in the Consolidated Statements of Income. As of the adoption date of January 1, 2007, accrued interest amounted to

-16-

### WASHINGTON TRUST BANCORP INC. AND SUBSIDIARIES (Continued) CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

\$70 thousand. To the extent interest is not assessed with respect to uncertain tax positions, amounts accrued will be reduced and reflected as a reduction of the overall income tax provision. Penalties, if incurred, would be recognized as a component of income tax expense.

The Corporation files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. The Corporation is no longer subject to U.S. federal income tax examinations by tax authorities for years before 2003. With a few exceptions, the Corporation is no longer subject to state income tax examinations by tax authorities for years before 2000.

#### (8) Borrowings

#### Federal Home Loan Bank Advances

Advances payable to the Federal Home Loan Bank ("FHLB") are summarized as follows:

(Dollars in thousands)	June 30,	December 31,
	2007	2006
FHLB advances	\$ 468.827	\$ 474.561

During the first quarter of 2007, the Corporation prepaid \$26.5 million in advances payable to the FHLB resulting in a debt prepayment penalty charge, recorded in noninterest expense, of \$1.1 million. See additional discussion in Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," under the caption "Noninterest Expense."

In addition to outstanding advances, the Corporation also has access to an unused line of credit amounting to \$8.0 million at June 30, 2007. Under an agreement with the FHLB, the Corporation is required to maintain qualified collateral, free and clear of liens, pledges, or encumbrances that, based on certain percentages of book and market values, has a value equal to the aggregate amount of the line of credit and outstanding advances ("FHLB borrowings"). The FHLB maintains a security interest in various assets of the Corporation including, but not limited to, residential mortgages loans, U.S. government or agency securities, U.S. government-sponsored agency securities, and amounts maintained on deposit at the FHLB. The Corporation maintained qualified collateral in excess of the amount required to collateralize the line of credit and outstanding advances at June 30, 2007. Included in the collateral were securities available for sale with a fair value of \$403.0 million and securities available for sale and held to maturity with a fair value of \$451.5 million that were specifically pledged to secure FHLB borrowings at June 30, 2007 and December 31, 2006, respectively. Unless there is an event of default under the agreement with the FHLB, the Corporation may use, encumber or dispose of any portion of the collateral in excess of the amount required to secure FHLB borrowings, except for that collateral that has been specifically pledged.

#### **Other Borrowings**

The following is a summary of other borrowings:

			$\mathbf{D}$	ecember

Other	396	449
Other borrowings	\$ 27,574	\$ 14,684

In the first quarter of 2007, securities sold under repurchase agreements of \$19.5 million were executed. The securities sold under agreements to repurchase are callable at the issuer's option, at one time only, in one year and mature in five years. The securities underlying the agreements are held in safekeeping by the counterparty in the name of the Corporation and are repurchased when the agreement matures. Accordingly, these underlying securities are included in securities available for sale and the obligations to repurchase such securities are reflected as a liability.

# WASHINGTON TRUST BANCORP INC. AND SUBSIDIARIES CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Stock Purchase Agreement for the August 2005 acquisition of Weston Financial Group, Inc. ("Weston Financial") provides for the payment of contingent purchase price amounts based on operating results in each of the years in the three-year earn-out period ending December 31, 2008. Contingent payments are added to goodwill and recorded as deferred acquisition liabilities at the time the payments are determinable beyond a reasonable doubt. Deferred acquisition obligations amounted to \$3.8 million at June 30, 2007 compared to \$10.4 million at December 31, 2006. In the first quarter of 2007 the Corporation paid approximately \$6.7 million in earn-out payments.

### (9) Shareholders' Equity Stock Repurchase Plan:

Under the Corporation's 2006 Stock Repurchase Plan, 149,700 shares of stock were repurchased at a total cost of \$3.9 million during the six months ended June 30, 2007. In addition, 13,717 shares were acquired in the same period pursuant to the Nonqualified Deferred Compensation Plan.

#### **Regulatory Capital Requirements:**

The following table presents the Corporation's and the Bank's actual capital amounts and ratios at June 30, 2007 and December 31, 2006, as well as the corresponding minimum regulatory amounts and ratios:

(Dollars in thousands)	Actual
