Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the  
Republic Mortgage Insurance Company and Affiliated Companies Profit Sharing Plan

We have audited the accompanying statements of net assets available for benefits of the Republic Mortgage Insurance Company and Affiliated Companies Profit Sharing Plan (the "Plan") as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held (at end of year) as of December 31, 2012 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

1. Description of Plan

The following description of The Republic Mortgage Insurance Company and Affiliated Companies Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description or the Plan document for more complete information.

The Plan is a qualified defined contribution plan covering all employees of Republic Mortgage Insurance Company, RMIC Corporation, and Republic Mortgage Insurance Company of North Carolina (the "Sponsor"). Employees are eligible to participate in the Plan at the start of their employment and must elect to enroll in the plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and Internal Revenue Code ("IRC").

Contributions

The Sponsor makes contributions to the Plan at the discretion of the Sponsor's Board of Directors at a sum determined by the Board without regard to current and accumulated profits for the taxable year, for years ending with or within such Plan year. Contributions are allocated to eligible participants based on the participant's eligible compensation to total eligible compensation of all eligible participants.

Participants may contribute up to 25% of their compensation pre-tax and 25% after-tax for a combined maximum of 50% of compensation during any Plan year.

Participants may also make rollover contributions into the Plan from distributions from other qualified plans, as defined in the Plan.

Contributions are subject to certain limitations as prescribed by the Internal Revenue Service with contributions in excess of IRC limits returned to participants or sponsor when determined. There were no excess material contributions to be returned to participants based on qualification testing for the years ended December 31, 2012 and 2011, respectively.

Vesting

Participant account balances provided by Sponsor contributions and related allocated Plan earnings become 40% vested after one year of service. Vesting percentages increase by 10% for each of the next four years with full vesting after six years of service.

Participant account balances provided by participant contributions and allocated Plan earnings are always fully vested.

Participant Accounts

A separate account balance is maintained for each participant and is credited with participant contributions, participant rollover contributions from other qualified plans, and allocations of Sponsor contributions, Plan earnings, and forfeitures of terminated participants' non vested accounts. Allocations of Plan earnings are based on participants' daily account balances. Sponsor contributions and forfeitures of non vested accounts are allocated based on eligible annual compensation of participants. The benefit to which a participant is entitled is the participant's vested account.

Participants direct the investment of their account by electing among a variety of investment options offered by the Plan. Participants may change their investment designation with respect to their account balance and future contributions at any time.

The Republic Mortgage Insurance Company and Affiliated Companies  
Profit Sharing Plan  
Notes to Financial Statements

---

#### Forfeitures

If a participant terminates employment with the Sponsor prior to becoming fully vested, the non vested portion of the Sponsor contributions and allocated earnings thereon are forfeited and are reallocated to eligible participants when the terminated participant incurs a break-in-service. Forfeited amounts are reallocated to the active eligible participants based on eligible participant compensation, as defined in the Plan agreement. Unallocated forfeitures totaled \$28,867 and \$38,603 at December 31, 2012 and 2011, respectively. Of the December 31, 2012 total, \$28,867 will be allocated in 2013.

#### Payment of Benefits

In the event of retirement, disability, or death, accumulated benefits become vested and are distributed to participants or designated beneficiaries by lump-sum payment or through various annuity options.

In the event of termination of employment, participants have the option of receiving vested accumulated benefits through lump-sum distributions, leaving the vested value of their accounts in the Plan until retirement or transferring amounts into an individual retirement account.

Participants may withdraw after-tax voluntary contributions at any time. Participants may withdraw pre-tax voluntary contributions at age 59½ or for financial hardship purposes.

Participants may elect to take early withdrawals of employer contributions if they have participated in the Plan for at least five years and in-service distributions after attaining age 59½. Such early withdrawals will not result in suspension of Sponsor contribution allocations.

Net assets at December 31, 2012 and 2011, included funds totaling \$24,439,720 and \$14,080,130, respectively, which represent the account balance of retired and terminated participants who have elected to leave their funds in the Plan upon retirement or termination.

#### Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 from their accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants may have no more than two loans outstanding at one time. Loans plus interest must be repaid within five years through payroll deductions. These loans bear interest at the prevailing prime rate at the loan inception date. The loans are collateralized by the vested balance in the participant's account. Outstanding loans of terminated participants are repaid prior to distribution of the participant's account balance or the outstanding loans are repaid from the participant's account balance before distribution.

#### Partial Plan Termination

Beginning in September, 2011 and continuing into 2013, the Sponsor has experienced significant economic challenges. These issues have resulted in a series of large staff reductions at the Sponsor which have three major impacts on the Plan. In accordance with the rules and regulations of ERISA, the IRC, and Plan documents, these actions are considered a Partial Plan Termination. The Plan is impacted by (1) reduced number of active participants; (2) acceleration of the vesting schedule for those Participants that are involuntarily terminated by the Plan Sponsor; and (3) a market value adjustment to the Insurance Company Guaranteed Investment Account for those terminated Participants who were invested in that option. The Plan remains a viable qualified defined contribution plan for those participants remaining with the Sponsor.

## 2. Summary of Significant Accounting Policies

### Basis of Accounting

The Plan prepares its financial statements under accounting principles generally accepted in the United States.

### Investment Valuation and Income Recognition

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The Guaranteed Investment Contract is principally valued using a market value formula approach. The market value is determined to be the estimated liquidation value of the contract. The liquidation value is derived considering factors such as:

- (i) the observable interest rate being earned by investments underlying the contract
- (ii) the unobservable "assumed interest rate" obtainable by MassMutual on new investments where a proxy is the Barclays Capital U.S. Aggregate Index (excluding Treasuries) with an adjustment made to duration; and
- (iii) the unobservable comparison between investments supporting the contract and current market rates where historic investments are either at a premium or discount to current market rates, i.e. the "experience rate"

Net appreciation (depreciation) in fair value of investments includes unrealized and realized gains and losses. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

### Unit Values

Investments in the pooled separate accounts are valued on a net asset value per unit basis which approximates their fair value. The pooled separate accounts are credited with earnings on the underlying investments and charged for Plan benefits paid and deductions for investment expenses, risk, profit, and annual management fees. Redemptions may occur on a daily basis. The use of net asset value as fair value is deemed appropriate as the pooled separate accounts do not have a finite life, unfunded commitments relating to investments, or significant restrictions on redemptions.

### Benefits and Withdrawals

Benefits and withdrawals are recorded when paid. At December 31, 2012 and 2011, there were no significant amounts due but unpaid to participants.

The Republic Mortgage Insurance Company and Affiliated Companies  
Profit Sharing Plan  
Notes to Financial Statements

---

#### Income Tax Status

The Plan obtained its latest determination letter on May 11, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

#### Plan Expenses

Costs of administering the Plan are paid by the Sponsor except for investment management fees of individual fund investments which are charged to the respective investment and included in the net appreciation (depreciation) of the investment. Participating loan processing fees are charged as a reduction to the respective participant accounts.

#### Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### Subsequent Events Policy

Subsequent events have been evaluated through the date the financial statements were issued.

**New Accounting Pronouncements** - The following new accounting pronouncements were adopted during year ended December 31, 2012.

**Fair value measurements** – In May 2011, the Financial Accounting Standards Board (FASB) issued guidance requiring the categorization by level of items that are disclosed at fair value and information about transfers between Level 1 and Level 2. The guidance requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. Net assets available for benefits and changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

### 3. Investments

The Plan is invested in a group annuity contract with the Massachusetts Mutual Life Insurance Company (the "Trustee"). The contract allows for a participant-directed investment program in pooled separate accounts sponsored by the Trustee. Investment options include fixed income, asset allocation, domestic equity, and international equity subaccount options and a guaranteed investment account. In addition to the investment options offered through the Trustee, participants may also invest in common stock of the Sponsor's parent, Old Republic International ("ORI").

#### A. Summary of Investments

The following is a summary of investments held at December 31, 2012 and 2011.

The Republic Mortgage Insurance Company and Affiliated Companies  
Profit Sharing Plan  
Notes to Financial Statements

---

	2012		2011
Investments at fair value			
Insurance company pooled separate accounts:			
MM S&P 500 Index (Northern Trust)	\$ 1,360,694	\$	2,573,217 *
Select Large Cap Value (Columbia/Huber)	2,180,892 *		2,516,891 *
Other pooled separate accounts	11,475,928		14,304,791
	15,017,514		19,394,899
Insurance Company Guaranteed Investment Account (a)	24,747,029 *		28,552,278 *
Old Republic International Corporation common stock fund	1,919,491		2,887,727 *
	\$ 41,684,034	\$	50,834,904

\*Exceeds 5% of net Plan assets at December 31, 2012 and 2011.

(a) The contract value of the insurance company guaranteed investment account was \$21,935,550 and \$25,172,604 at December 31, 2012 and 2011, respectively.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Insurance company pooled separate accounts	\$ 2,461,400
Old Republic International Corporation common stock fund	219,361
Guaranteed Investment Account market value adjustment	1,102,867
	\$ 3,783,628

#### B. Fair Value Measurements

The Plan's investments are stated at fair value in the accompanying statements of net assets available for benefits. Fair value is defined as the estimated price that is likely to be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (an exit price) at the measurement date. A fair value hierarchy is established that prioritizes the sources ("inputs") used to measure fair value into three broad levels: inputs based on quoted prices in active markets (Level 1); observable inputs based on corroboration with available market data (Level 2); and unobservable inputs based on uncorroborated market data or a reporting entity's own assumptions (Level 3).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The valuation methodologies used for assets measured at fair value are discussed further in Note 2. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Securities include publicly traded common stocks.

Level

1

Level Securities include pooled separate accounts.

2

Level Securities include guaranteed investment contracts.

3

	\$ 2,887,727	\$ 19,394,899	\$ 28,552,278	\$ 50,834,904

The Republic Mortgage Insurance Company and Affiliated Companies  
Profit Sharing Plan  
Notes to Financial Statements

---

### Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012:

	Guaranteed Investment Account
Balance, beginning of year	\$ 28,552,277
Interest income	783,738
Contract to fair value adjustment	(568,194)
Purchases	2,419,795
Sales	(6,440,587)
Balance, end of year	\$ 24,747,029

The following table presents certain quantitative information about the significant unobservable inputs used in the Level 3 fair value measurements as of December 31, 2012:

Description	Fair Value	Principal Valuation Technique	Significant Unobservable inputs	Interest Rate
Guaranteed Investment Contract	\$24,747,029	Market value formula	Assumed Interest Rate Experience Rate	0.85% 3.31%

The fair value of the Guaranteed Investment Contract is sensitive to fluctuations in the level of assumed interest rates. As a general rule, rising interest rates typically lead to a reduction in the fair value of the contract. By contrast, a decline in such rates usually serves to increase the fair value of the contract. In addition, increases or decreases in the experience rates lead to corresponding increases or decreases in fair value.

### C. Guaranteed Investment Account

The Plan holds an investment contract with Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company maintains the contributions in a general investment account. The account is credited with earnings at the guaranteed crediting interest rates in affect for the six month period beginning April 1 and October 1 and is charged for participant withdrawals and administrative expenses. The guaranteed interest rates at April 1, 2012 and October 1, 2012 were 3.2% and 3.2%, respectively, and 3.4% and 3.4% at April 1, 2011 and October 1, 2011, respectively. The guaranteed investment account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment account. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct

the withdrawal or transfer of all or a portion of their investment at contract value.

The Republic Mortgage Insurance Company and Affiliated Companies  
Profit Sharing Plan  
Notes to Financial Statements

---

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on an interest rate agreed upon with the issuer, but it may not be less than three percent. Such interest rates are reviewed on a semiannual basis (April 1 and October 1) for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average 2012 2011  
Yields:  
Based on actual earnings 2.93% 2.98%  
Based on interest rate credited to participants 2.93% 2.98%

#### 4. Party In Interest Transactions

The Old Republic common stock fund consists of Old Republic International Corporation common stock, the parent of the Company.

Certain Plan investments are pooled separate accounts and a guaranteed investment account sponsored by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Sponsor on behalf of the Plan for the investment management services amounted to \$6,394 for the year ended December 31, 2012.

#### 5. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their employer accounts.

6. Risks and Uncertainties

The Plan offers investments in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
