thereof. Unless otherwise specified in the proxy, shares represented by proxies will be voted (i) for the election of the nominee for director listed below, (ii) for the ratification of the selection of the independent auditors, and (iii) for adoption of the proposed amendment to the Company's 1998 Stock Option Plan. The cost of proxy solicitations will be borne by the Company. In addition to solicitations of proxies by use of the mails, some officers or employees of the Company, without additional remuneration, may solicit proxies personally or by telephone. The Company will also request brokers, dealers, banks and their nominees to solicit proxies from their clients, where appropriate, and will reimburse them for reasonable expenses related thereto.

The Company's executive offices are located at 240 Crossways Park Drive, Woodbury, New York 11797-2033. On or about April 30, 2003 this Proxy Statement and the accompanying form of proxy together with a copy of the Annual Report of the Company for the year ended December 31, 2002, including financial statements, are to be mailed to each stockholder of record at the close of business on April 21, 2003.

### VOTING SECURITIES

Each share of Common Stock entitles the holder thereof to one vote. The majority of all the outstanding shares of Common Stock will constitute a quorum at the meeting. A shareholder voting either in person or through a proxy who abstains with respect to a matter being voted upon is considered to be present and entitled to vote on such matter at the meeting, and is in effect a negative vote upon such matter, but a shareholder (including a broker) who does not give authority to a proxy to vote, or withholds authority to vote, on a matter shall not be considered present and entitled to vote on the matter.

Company in March 2002, except that compensation information listed below covers Mr. LaPointe's compensation for the entire 2002 fiscal year.

The Board of Directors recommends a vote FOR election of the nominee listed above and it is intended that proxies not marked to the contrary will be so voted. Election of such nominee requires the affirmative vote of the holders of a plurality of the shares of the Company's Common Stock present, or represented, and entitled to vote at the Annual Meeting.

### INDEPENDENT PUBLIC ACCOUNTANTS (Item 2)

The Audit Committee has selected the firm of KPMG LLP to serve as our independent accountants for the fiscal year ending December 31, 2003. KPMG LLP has served as the Company's independent auditors for many years and is considered by management to be well-qualified. We expect that representatives of KPMG LLP will attend the meeting, have the opportunity to make a statement if they so desire, and be available to respond to appropriate questions.

#### Audit and Other Fees

The following table presents fees paid or accrued for professional audit services rendered by KPMG LLP for the audit of our annual financial statements for the years ended December 31, 2002 and 2001, and fees billed to us for other services rendered by KPMG during those periods:

	2002	2001
Audit fees (1)	\$ 52,000	\$ 49,000
Audit related fees	0	0
Tax fees (2)	12,500	11,750
All other fees	0	0
Total	\$ 64,500	\$ 60,750

- (1) Audit fees includes the audit of Research Frontiers Incorporated annual financial statements, review of financial statements included in Research Frontiers Incorporated's Form 10-Q Quarterly Reports and services that are normally provided by the independent auditors in connection with regulatory filings for those fiscal years.
- (2) Tax fees include fees for all services performed by the independent auditor's tax personnel except those services specifically related to the audit of the financial statements, and includes fees for tax compliance and tax advice.

The Audit Committee has considered whether the provision of the non-audit services described above is compatible with maintaining KPMG LLPs' independence and has determined that the provision of such services is compatible with maintaining KPMG LLPs' independence.

The Board of Directors unanimously recommends a vote FOR

## Edgar Filing: RESEARCH FRONTIERS INC - Form DEF 14A

ratification of the selection of the accounting firm of KPMG LLP as independent auditors of the Company for the fiscal year ending December 31, 2003. The ratification requires a majority vote of those shares of Common Stock represented and eligible to vote at the 2003 Annual Meeting of Stockholders.

### Audit Committee Report

The following Audit Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

During fiscal 2000, the Audit Committee of the Board of Directors developed a written charter for the Committee that was approved by the Board of Directors. The complete text of the charter is reproduced in the appendix to the Company's April 30, 2001 Proxy Statement.

The Audit Committee of the Board is responsible for providing independent, objective oversight of the Company's accounting functions and internal controls. Management is responsible for the Company's internal controls and financial reporting process. The independent accountants are responsible for performing an independent audit of the Company's financial statements in accordance with generally accepted auditing standards and to issue a report thereon. As set forth in more detail in the charter, the Audit Committee's responsibility is to monitor and oversee the processes.

In connection with these responsibilities, the Audit Committee met with management and the Company's independent auditors, KPMG LLP, to review and discuss all financial statements included in the Company's quarterly and annual reports for the fiscal year ended December 31, 2002 (the "Financial Statements") prior to their issuance and to discuss significant accounting issues. Management has advised us that the Financial Statements were prepared in accordance with generally accepted accounting principles, and the Committee discussed the Financial Statements with both management and the independent auditors. Our review included discussions with the independent auditors of matters required to be discussed by the Statement on Auditing Standards No. 61 (communication with Audit Committees).

The Audit Committee also received written disclosures from the independent accountants required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Audit Committee discussed with the independent accountants that firm's independence.

Finally, the Audit Committee continued to monitor the integrity of the Company's financial reporting processes and its internal procedures and controls.

Based upon the Audit Committee's discussions with management and the independent accountants and the Audit Committee's review of the representations of management and the independent accountants, the Audit Committee recommended to the Board of Directors that the Company's audited financial

## Edgar Filing: RESEARCH FRONTIERS INC - Form DEF 14A

statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2002, for filing with the Securities and Exchange Commission.

### ADOPTION OF AMENDMENT TO 1998 STOCK OPTION PLAN (Item 3)

On June 11, 1998, the stockholders of the Company adopted a stock option plan entitled the "1998 Stock Option Plan" (the "1998 Plan") which provides for the granting of both incentive stock options at the fair market value at the date of grant and nonqualified stock options at or below the fair market value at the date of grant to employees or non-employees who, in the determination of the Board of Directors, have made or may make significant contributions to the Company in the future. The terms of these options are specified in more detail in the "Report on Executive Compensation" included later on in this Proxy Statement. To date, only options with an exercise price at or above the market price of the Company's common stock on the date of grant have been awarded. The Company may also award stock appreciation rights or restricted stock under this plan. The purpose of the 1998 Plan is to afford an incentive to executive officers, other employees and non-employee directors and consultants of the Company to acquire a proprietary interest in the Company, to continue as employees or non-employee directors (as the case may be), to increase their efforts on behalf of the Company and to promote the success of the Company's business. To further such purposes, stock options, stock appreciation rights and restricted stock may be granted pursuant to the 1998 Plan. The Board of Directors believes that the granting of stock options under the 1998 Plan will promote continuity of management, help attract new employees, and encourage employees, directors and officers, to increase their stock ownership in the Company and give an increased incentive and personal interest in the welfare of the Company by those who are or may become primarily responsible for shaping and carrying out the long range plans of the Company and securing its continued growth, development and financial success. Currently the Company's 13 full-time employees, three non-employee independent directors, as well as part-time employees and consultants are eligible to receive grants under the 1998 Plan. Awards under the 1998 Plan are made by the Company's Stock Option Committee consisting of the Company's three independent non-employee directors, and amounts to be awarded in the future under the 1998 Plan are discretionary and not determinable at this time.

Currently awards for only 28,322 shares of common stock (having an underlying market value of \$176,729 as of April 21, 2003) were available for issuance under the Company's stock option plans. Additional shares of Common Stock must be available for issuance under the 1998 Plan if the 1998 Plan is going to continue to be a meaningful way to attract and retain key personnel of the Company and accomplish the other purposes set forth above. The proposed amendment to the 1998 Plan would add an additional 600,000 shares of common stock (having an underlying market value of \$3,744,000 as of April 21, 2003) to the

## Edgar Filing: RESEARCH FRONTIERS INC - Form DEF 14A

1998 Plan, which represents less than 5% of the outstanding common stock as of the record date. Promptly after stockholder approval of this amendment to the 1998 Stock Option Plan, the Company intends to file an amendment to its current registration statement on Form S-8 covering awards issued under the 1998 Stock Option Plan to cover these additional shares.

### FEDERAL INCOME TAX ASPECTS OF AWARDS UNDER THE 1998 PLAN

The following is a brief summary of the federal income tax consequences of awards made under the 1998 Plan based upon the federal income tax laws in effect on the date hereof. This summary is not intended to be exhaustive, and does not describe state or local tax consequences.

**Incentive Stock Options.** No regular taxable income is realized by the participant upon the grant or exercise of an incentive stock option ("ISO"). However, a tax preference item under the Alternative Minimum Tax would be generated upon exercise of the ISO. If a participant does not sell the stock received upon the exercise of an ISO ("ISO Shares") for at least two years from the date of grant and within one year from the date of exercise, when the shares are sold any gain (loss) realized will be long term or short term capital gain (loss) depending upon the actual holding period. In such circumstances, no deduction will be allowed to the Company for federal income tax purposes. If ISO Shares are disposed of prior to the expiration of either of the holding periods described above, the participant generally will realize ordinary income at that time equal to the excess, if any, of the fair market value of the shares at exercise (or, if less, the amount realized on the disposition of the shares) over the price paid for such ISO Shares. The Company will be entitled to deduct any such recognized amount. Any further gain or loss realized by the participant will be taxed as short term or long term capital gain or loss. Subject to certain exceptions for disability or death, if an ISO is exercised more than three months following the termination of the participant's employment, the option will generally be taxed as a non-qualified stock option.

**Non-Qualified Stock Options.** No income is realized by the participant at the time a non-qualified stock option is granted. Generally upon exercise of a non-qualified stock option, the participant will realize ordinary income in an amount equal to the difference between the price paid for the shares and the fair market value of the shares on the date of exercise. The Company will be entitled to a tax deduction in the same amount. Any appreciation (or depreciation) after the date of exercise will be either short term or long term capital gain (or loss), depending upon the length of time that the participant has held the shares.

**Stock Appreciation Rights.** No income will be realized by a participant in connection with the grant of an SAR. When the SAR is exercised, the participant will generally be required to include as taxable ordinary income in the year of exercise an amount equal to the amount of cash and/or the fair market value of any shares received. The Company will be entitled to a deduction at the time and in the amount included in the participant's income by reason of the exercise. If the participant receives common stock upon exercise of an SAR, the post-exercise appreciation or depreciation will be treated in the same manner discussed above under Non-Qualified Stock Options.

## Edgar Filing: RESEARCH FRONTIERS INC - Form DEF 14A

Restricted Stock. A participant receiving restricted stock generally will recognize ordinary income in the amount of the fair market value of the restricted stock at the time the stock is no longer subject to restriction or forfeiture, less any consideration paid for the stock. The Company will be entitled to a deduction at the same time and in the same amount. The holding period to determine whether the participant has long term or short term capital gain or loss on a subsequent sale generally begins when the stock is no longer subject to forfeiture, and the participant's tax basis for such shares will generally equal the fair market value of such shares on such date. However, a participant may elect, under Section 83(b) of the Internal Revenue Code, within 30 days of the grant of the stock, to recognize taxable ordinary income on the date of grant equal to the excess of the fair market value of the shares of restricted stock (determined without regard to the restrictions) over the purchase price of the restricted stock. By reason of such an election, the participant's holding period will commence on the date of grant and the participant's tax basis will be equal to the fair market value of the shares on that date (determined without regard to restrictions). Likewise, the Company generally will be entitled to a deduction at that time in the amount that is taxable as ordinary income to the participant. If shares are forfeited after making such an election, the participant will be entitled to a deduction, refund, or loss for tax purposes only in an amount equal to the purchase price of the forfeited shares regardless of whether he made a Section 83(b) election.

The Board of Directors recommends a vote FOR approval of the amendment to the 1998 Plan and it is intended that proxies not marked to the contrary will be so voted. Approval of the amendment to the 1998 Plan requires the affirmative vote of the holders of a majority of the shares of the Company's Common Stock present, or represented, and entitled to vote at the Annual Meeting.

### EXECUTIVE COMPENSATION

### Report on Executive Compensation

The compensation of executive officers of the Company,

including the Company's chief executive officer, is determined by the Company's entire Board of Directors whose names are listed below at the end of this report. The salaries of all executive officers are reviewed at least twice annually by the Board. Numerous factors are reviewed in determining compensation levels. These factors include: the compensation levels of executive officers with comparable experience and qualifications, compensation levels at comparable companies, individual and Company performance, past compensation levels, years of service, performance of the Company's stock, and other relevant considerations. The Company's goal is to set salary levels somewhat below those received by executives at other companies with comparable experience and qualifications, and to supplement such compensation with the grant of stock options and performance-based bonuses. This approach is designed to more closely align total executive compensation with the long-term performance of the Company and enable all employees of the Company to participate in the Company's growth. Through ownership of stock options, the executive is rewarded if the Company's stockholders receive the benefit of appreciation of the price of the Company's Common Stock. Because the Company believes that its success is dependent upon the coordinated efforts of all of its employees, and that teamwork is essential in further developing the Company's technology and meeting the expectations of the Company's licensees and stockholders, all current employees of the Company were granted stock options since the beginning of the past fiscal year.

In December 2000, the Company's Board of Directors approved a performance bonus plan (which was terminated in 2002 as discussed below) which provided for a bonus to be paid on or after July 2, 2001 and on or after January 2, 2002 equal to 1% of the increase, if any, in the Company's market value during the first and second halves of 2001. Bonuses were capped at a recipient's salary in the case of employees of the Company, and were capped at \$60,000 in the case of non-employee directors and certain employees of the Company. The Company's Board of Directors approved a similar bonus plan for 2002 but with higher thresholds to be met before a bonus is payable under such plan. In addition to the payment caps described above, under the 2002 bonus plan, in order to insure that bonuses were not paid based upon temporary fluctuations in the market value of the Company, bonuses under the 2002 bonus plan would only be paid to the various participants under this plan if and when the market value of the Company exceeded \$280,489,009 (and in the case of any bonus paid to Robert L. Saxe, if and when the market value of the Company exceeded \$304,207,362). The Company recorded \$785,500 and \$755,000 of expenses in connection with these plans for the years ended December 31, 2001 and 2000, respectively. No bonuses were paid in 2002 in connection with these plans, and on November 6, 2002, the Company's Board of Directors voted to terminate this bonus plan with respect to 2003 and replace it with a general bonus plan under which bonuses are awarded to employees of the Company for outstanding achievement including technical accomplishments, sales and revenue growth, and other performance milestones. All employees of the Company are eligible to receive bonuses under this plan and the bonuses shall not exceed \$300,000 in the aggregate for 2003.

The Board of Directors and the stockholders have adopted a stock option plan which remains in effect. The purpose of this stock option plan is to attract key employees, officers and directors

and to encourage their continued employment and services and their increased stock ownership in the Company. The Board of Directors believes that the granting of stock options under this stock option plan will promote continuity of management, and will result in the increased incentive and personal interest in the welfare of the Company by those who are or may become primarily responsible for shaping and carrying out the long range plans of the Company and securing its continued growth, development and financial success. Currently awards for 28,322 shares of common stock were available for issuance under the Company's stock option plan. If any options expire or terminate for any reason without having been exercised in full, the unpurchased shares subject thereto will again be available for issuance under this stock option plan.

The Company's stock option plan is administered by a committee of at least two directors who are not officers and employees of the Company (the "Administrators"). Currently the Administrators consist of Mr. Budin, Mr. Keen and Dr. Malvino, who serve as members of the Company's Stock Option Committee. Options which qualify as Incentive Stock Options ("ISO's") under the Internal Revenue Code of 1986, as amended (the "Code"), and non-qualifying options ("NQSO's") may be issued under the Company's 1998 Stock Option Plan. Also stock appreciation rights and restricted stock may be awarded under the Company's 1998 Stock Option Plan, although there have been no awards of stock appreciation rights and restricted stock under such plan to date. The number of options to be granted under these stock option plans are determined by the Administrators in their discretion.

The purchase price of Common Stock subject to each option issued under this stock option plan will be determined by the Board of Directors or the Administrators, as the case may be, but in the case of an ISO may not be less than (i) the fair market value of the Common Stock subject to the option on the date of grant or (ii) in the case of an option granted to an employee who, at the time the option is granted, owns (within the meaning of the Code) more than 10% of the total combined voting power of all classes of stock of the Company, 110% of the fair market value of the Common Stock subject to the option on the date of grant. Options under this stock option plan may be exercised in the manner and at such times fixed by the Board of Directors, but may not be exercised for a term of more than 10 years, or for a term of five years in the case of an employee who, at the time an ISO is granted, owns (within the meaning of the Code) more than 10% of the total combined voting power of all classes of stock of the Company. In no event may ISO's exercisable for stock having an aggregate fair market value determined on the date of grant of \$100,000 (together with all ISO's granted under any other stock option) be granted which first become exercisable in any one calendar year. Options are not transferable except by will or intestacy on the death of the optionee. In general, ISOs terminate when an optionee ceases to be employed by the Company or within a specified period after the termination of such employment depending upon the reason for such termination.

### Employment Arrangements

The Company entered into an employment agreement with Mr. Robert L. Saxe which automatically renews itself for successive one-year terms unless either the Company or Mr. Saxe gives the other at least 90 days prior written notice of the intention not to renew the employment agreement. Pursuant to that agreement, Mr. Saxe received an annual base salary from the Company of \$404,051 during 2002 and will receive an annual base salary of \$420,000 through December 31, 2003. The Board of Directors may, in its discretion, authorize a higher salary for Mr. Saxe. Pursuant to his employment agreement, Mr. Saxe has agreed not to compete with the Company for a period of two years following the termination of his employment thereunder. The Company maintains key-man life insurance on the life of Mr. Saxe in the amount of \$500,000.

### Stock Options Granted in 2002

The following table sets forth information regarding all grants of options to the individuals named in the executive compensation table appearing on page 10 during the fiscal year ended December 31, 2002, and the potential realizable value of such options using a 5% and 10% assumed annual rate of appreciation in the price of the Company's Common Stock.
