Item 2.02 - Results of Operations and Financial Condition.

On July 27, 2015, Park National Corporation (“Park”) issued a news release (the “Financial Results News Release”) announcing financial results for the three and six months ended June 30, 2015. A copy of this Financial Results News Release is included as Exhibit 99.1 to this Current Report on Form 8-K and incorporated by reference herein.

Park's management uses certain non-GAAP (generally accepted accounting principles) financial measures to evaluate Park's performance. Specifically, management reviews return on average tangible equity, return on average tangible assets, tangible equity to tangible assets and tangible book value per common share. Management has included in the Financial Results News Release information relating to the return on average tangible equity, return on average tangible assets, tangible equity to tangible assets and tangible book value per common share for the three and six months ended June 30, 2015 and 2014. For purposes of calculating the return on average tangible equity, a non-GAAP financial measure, net income for each period is divided by average tangible equity during the period. Average tangible equity equals average shareholders' equity during the applicable period less average goodwill and other intangible assets during the applicable period. For the purpose of calculating the return on average tangible assets, a non-GAAP financial measure, net income for each period is divided by average tangible assets during the period. Average tangible assets equals average assets during the applicable period less average goodwill and other intangible assets during the applicable period. For the purpose of calculating tangible equity to tangible assets, a non-GAAP financial measure, tangible equity is divided by tangible assets. Tangible equity equals shareholders' equity less goodwill and intangible assets, in each case at period end. Tangible assets equals total assets less goodwill and intangible assets, in each case at period end. For the purpose of calculating tangible book value per common share, a non-GAAP financial measure, tangible equity is divided by common shares outstanding at period end. Management believes that the disclosure of return on average tangible equity, return on average tangible assets, tangible equity to tangible assets and tangible book value per common share presents additional information to the reader of the consolidated financial statements, which, when read in conjunction with the consolidated financial statements prepared in accordance with GAAP, assists in analyzing Park's operating performance and ensures comparability of operating performance from period to period, and facilitates comparisons with the performance of Park's peer financial holding companies and bank holding companies, while eliminating certain non-operational effects of acquisitions. In the Financial Results News Release, Park has provided a reconciliation of average tangible equity to average shareholders' equity, average tangible assets to average assets, tangible equity to shareholders' equity and tangible assets to total assets solely for the purpose of complying with SEC Regulation G and not as an indication that return on average tangible equity, return on average tangible assets, tangible equity to tangible assets and tangible book value per common share are substitutes for return on average equity, return on average assets, shareholders' equity to total assets and book value per common share, respectively, as determined by GAAP.

The discussion below provides some additional information regarding the segments that make up the "Ongoing operations", followed by additional information regarding SEPH.

During the first quarter of 2015, Park adopted ASU 2014-01, Accounting for Investments in Qualified Affordable Housing Projects, and elected the proportional amortization method with amortization expense and tax benefits recognized through the provision for income taxes. Previously, these investments were accounted for under the cost method of accounting with amortization of the investment being recorded in miscellaneous other expense and tax benefits recognized in the provision for income taxes. This ASU is required to be applied retrospectively to all periods presented. As a result of the adoption of this ASU, all prior periods have been recast to reflect amortization under the proportional amortization method.

Prior period results included interest expense related to the \$35.25 million of subordinated notes issued by Park to accredited investors on December 23, 2009. Park paid in full the \$35.25 million outstanding principal amount of the 10% Subordinated Notes due December 23, 2019, plus accrued interest, on December 24, 2014, the earliest redemption date allowable under the related note purchase agreement dated December 23, 2009.

SEPH holds the remaining assets and liabilities of those retained by Vision subsequent to the sale of the Vision business on February 16, 2012. Prior to holding the remaining Vision assets, SEPH held OREO assets that were transferred from Vision to SEPH. This segment represents a run-off portfolio of the legacy Vision assets.

SEPH's financial results for the six months ended June 30, 2015 included net recoveries of \$2.3 million. The net recoveries during 2015 consisted of charge-offs of \$44,000, offset by recoveries from loans previously charged off of \$2.3 million. Other income for the six months ended June 30, 2015 at SEPH of \$1.1 million was largely related to net

gains on the sale of loans of \$722,000, net gains on sale of OREO of \$276,000 and non-yield loan fee income of \$165,000, offset by OREO devaluations of \$94,000. The \$2.5 million decline in other expense for the six months ended June 30, 2015 compared to the same period in 2014 was primarily the result of declines in legal fees of \$2.4 million, management and consulting fees of \$240,000 and other OREO expense of \$281,000 offset by a \$694,000 increase in reserves established for potential loan repurchases.

On February 16, 2012, when Vision merged with and into SEPH, the loans then held by Vision were transferred to SEPH by operation of law at their fair value and no allowance for loan loss is carried at SEPH. The loans included in both the performing and nonperforming portfolios have been charged down to their fair value. The table below provides additional information for SEPH regarding charge-offs as a percentage of the unpaid principal balance, as of June 30, 2015.
