PUBLIX SUPER MARKETS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1)Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Publix Super Markets, Inc. and subsidiaries (the Company) have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and the rules and regulations of the Securities and Exchange Commission (SEC) for interim financial reporting. Accordingly, the accompanying statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, these statements include all adjustments that are of a normal and recurring nature necessary to present fairly the Company's financial position and results of operations. Due to the seasonal nature of the Company's business, the results of operations for the three and six months ended June 25, 2016 are not necessarily indicative of the results for the entire 2016 fiscal year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 26, 2015. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2)Recently Issued Accounting Standards

In June 2016, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) requiring companies to change the methodology used to measure credit losses on financial instruments. The ASU is effective for reporting periods beginning after December 15, 2019 with early adoption permitted only for reporting periods beginning after December 15, 2018. The Company does not expect the adoption of the ASU to have a material effect on the Company's financial condition or results of operations. The adoption of the ASU will have no effect on the Company's cash flows.

In February 2016, the FASB issued an ASU on lease accounting. The ASU requires the lease rights and obligations arising from lease contracts, including existing and new arrangements, to be recognized as assets and liabilities on the balance sheet. The ASU is effective for reporting periods beginning after December 15, 2018 with early adoption permitted. While the Company is still evaluating the ASU, the Company expects the adoption of the ASU to have a material effect on the Company's financial condition due to the recognition of the lease rights and obligations as assets and liabilities on the Consolidated Balance Sheets. The Company does not expect the adoption of the ASU to have a material effect on the Company's results of operations. The adoption of the ASU will have no effect on the Company's cash flows.

In January 2016, the FASB issued an ASU requiring companies to measure equity securities at fair value with changes in fair value recognized in net earnings as opposed to other comprehensive earnings. The ASU is effective for reporting periods beginning after December 15, 2017. The adoption of the ASU will have an effect on the Company's results of operations. The extent of the effect on results of operations will vary with the changes in the fair value of equity securities. The adoption of the ASU will have no effect on the Company's financial condition or cash flows.

In November 2015, the FASB issued an ASU requiring companies to classify deferred tax assets and liabilities in the noncurrent section of the balance sheet. The ASU is effective for reporting periods beginning after December 15, 2016 with early adoption permitted. The adoption of the ASU will not have a material effect on the Company's financial condition and will have no effect on the Company's results of operations or cash flows.

In May 2014, the FASB issued an ASU on the recognition of revenue from contracts with customers. The ASU requires additional disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. The ASU is effective for reporting periods beginning after December 15, 2017 with early adoption permitted only for reporting periods beginning after December 15, 2016. The Company does not expect the adoption of the ASU to have a material effect on the Company's financial condition, results of operations or cash

flows.

(3) Fair Value of Financial Instruments

The fair value of certain of the Company's financial instruments, including cash and cash equivalents, trade receivables and accounts payable, approximates their respective carrying amounts due to their short-term maturity.

The fair value of available-for-sale (AFS) securities is based on market prices using the following measurement categories:

Level 1 – Fair value is determined by using quoted prices in active markets for identical investments. AFS securities that are included in this category are primarily mutual funds, exchange traded funds and equity securities.

Level 2 – Fair value is determined by using other than quoted prices. By using observable inputs (for example, benchmark yields, interest rates, reported trades and broker dealer quotes), the fair value is determined through processes such as benchmark curves, benchmarking of like securities and matrix pricing of corporate, state and municipal bonds by using pricing of similar bonds based on coupons, ratings and maturities. AFS securities that are included in this category are primarily debt securities (tax exempt and taxable bonds).

Level 3 – Fair value is determined by using other than observable inputs. Fair value is determined by using the best information available in the circumstances and requires significant management judgment or estimation. No AFS securities are currently included in this category.

Following is a summary of fair value measurements for AFS securities as of June 25, 2016 and December 26, 2015:

	Fair Value	Level 1	Level 2	Level 3
	(Amounts are in thousands)			
June 25, 2016	\$6,997,117	1,122,708	5,874,409	—
December 26, 2015	6,602,934	1,049,791	5,553,143	—

(4) Investments

Debt and equity securities are classified as AFS and are carried at fair value. The Company evaluates whether AFS securities are other-than-temporarily impaired (OTTI) based on criteria that include the extent to which cost exceeds market value, the duration of the market value decline, the credit rating of the issuer or security, the failure of the issuer to make scheduled principal or interest payments and the financial health and prospects of the issuer or security.

Declines in the value of AFS securities determined to be OTTI are recognized in earnings and reported as OTTI losses. Debt securities with unrealized losses are considered OTTI if the Company intends to sell the debt security or if the Company will be required to sell the debt security prior to any anticipated recovery. If the Company determines that a debt security is OTTI under these circumstances, the impairment recognized in earnings is measured as the difference between the amortized cost and the current fair value. A debt security is also determined to be OTTI if the Company does not expect to recover the amortized cost of the debt security. However, in this circumstance, if the Company does not intend to sell the debt security and will not be required to sell the debt security, the impairment recognized in earnings equals the estimated credit loss as measured by the difference between the present value of expected cash flows and the amortized cost of the debt security. Expected cash flows are discounted using the debt security's effective interest rate. An equity security is determined to be OTTI if the Company does not expect to recover the cost of the equity security. Declines in the value of AFS securities determined to be temporary are reported net of income taxes as other comprehensive losses and included as a component of stockholders' equity.

Interest and dividend income, amortization of premiums, accretion of discounts and realized gains and losses on AFS securities are included in investment income. Interest income is accrued as earned. Dividend income is recognized as income on the ex-dividend date of the equity security. The cost of AFS securities sold is based on the first-in, first-out method.

There are 167 AFS securities contributing to the total unrealized loss of \$30,905,000 as of June 25, 2016. Unrealized losses related to debt securities are primarily due to interest rate volatility impacting the market value of certain bonds. The Company continues to receive scheduled principal and interest payments on these debt securities. Unrealized losses related to equity securities are primarily due to temporary equity market fluctuations that are expected to recover.

(5) Consolidation of Joint Ventures and Long-Term Debt

From time to time, the Company enters into Joint Ventures (JV), in the legal form of limited liability companies, with certain real estate developers to partner in the development of shopping centers with the Company as the anchor tenant. The Company consolidates certain of these JVs in which it has a controlling financial interest. The Company is considered to have a controlling financial interest in a JV when it has (1) the power to direct the activities of the JV that most significantly impact the JV's economic performance and (2) the obligation to absorb losses or the right to receive benefits from the JV that could potentially be significant to such JV.

The Company evaluates a JV using specific criteria to determine whether the Company has a controlling financial interest and is the primary beneficiary of the JV. Factors considered in determining whether the Company is the primary beneficiary include risk and reward sharing, experience and financial condition of the other JV members, voting rights, involvement in routine capital and operating decisions and each member's influence over the JV owned shopping center's economic performance.

Generally, most major JV decision making is shared between all members. In particular, the use and sale of JV assets, business plans and budgets are generally required to be approved by all members. However, the Company, through its anchor tenant operating lease agreement, has the power to direct the activities that most significantly influence the economic performance of the JV owned shopping center. Additionally, through its member equity interest in the JV, the Company will receive a significant portion of the JV's benefits or is obligated to absorb a significant portion of the JV's losses.

As of June 25, 2016, the carrying amounts of the assets and liabilities of the consolidated JVs were \$141,484,000 and \$65,355,000, respectively. As of December 26, 2015, the carrying amounts of the assets and liabilities of the consolidated JVs were \$141,355,000 and \$64,928,000, respectively. The assets are owned by and the liabilities are

obligations of the JVs, not the Company, except for a portion of the long-term debt of certain JVs guaranteed by the Company. The JVs are financed with capital contributions from the members, loans and/or the cash flows generated by the JV owned shopping centers once in operation. Total earnings attributable to noncontrolling interests for 2016 and 2015 were immaterial. The Company's involvement with these JVs does not have a significant effect on the Company's financial condition, results of operations or cash flows.

 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The Company's long-term debt results primarily from the consolidation of loans of certain JVs and loans assumed in connection with the acquisition of certain shopping centers with the Company as the anchor tenant. The Company assumed loans totaling \$23,491,000 during the six months ended June 25, 2016. The Company assumed loans totaling \$31,759,000 during the six months ended June 27, 2015. Maturities of JV loans range from July 2016 through June 2017 and have variable interest rates based on a LIBOR index plus 175 to 250 basis points. Maturities of assumed shopping center loans range from August 2016 through January 2027 and have fixed interest rates ranging from 4.0% to 7.5%.

(6) Retirement Plan

The Company has a trustee, noncontributory Employee Stock Ownership Plan (ESOP) for the benefit of eligible employees. Since the Company's common stock is not traded on an established securities market, the ESOP includes a put option for shares of the Company's common stock distributed from the ESOP. Shares are distributed from the ESOP primarily to separated vested participants and certain eligible participants who elect to diversify their account balances. Under the Company's administration of the ESOP's put option, if the owners of distributed shares desire to sell their shares, the Company is required to purchase the shares at fair value for a specified time period after distribution of the shares from the ESOP. The fair value of distributed shares subject to the put option totaled \$500,161,000 and \$427,226,000 as of June 25, 2016 and December 26, 2015, respectively. The cost of the shares held by the ESOP totaled \$2,717,334,000 and \$2,526,652,000 as of June 25, 2016 and December 26, 2015, respectively. Due to the Company's obligation under the put option, the distributed shares subject to the put option and the shares held by the ESOP are classified as temporary equity in the mezzanine section of the condensed consolidated balance sheets and totaled \$3,217,495,000 and \$2,953,878,000 as of June 25, 2016 and December 26, 2015, respectively. The fair value of the shares held by the ESOP totaled \$9,418,580,000 and \$9,201,171,000 as of June 25, 2016 and December 26, 2015, respectively.

On July 1, 2016, the Company declared a quarterly dividend on its common stock of \$0.2225 per share or \$171,200,000, payable August 1, 2016 to stockholders of record as of the close of business July 15, 2016.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company is engaged in the retail food industry, operating supermarkets in Florida, Georgia, Alabama, South Carolina, Tennessee and North Carolina. The Company plans to expand its retail operations into Virginia in 2017. As of June 25, 2016, the Company operated 1,116 supermarkets. For the six months ended June 25, 2016, seven supermarkets were opened (including one replacement supermarket) and 80 supermarkets were remodeled. Five supermarkets were closed during the period. The replacement supermarket that opened during the six months ended June 25, 2016 replaced two of the supermarkets closed during the same period. The three remaining supermarkets closed during the six months ended June 25, 2016 will be replaced on site in subsequent periods. In the normal course of operations, the Company replaces supermarkets and closes supermarkets that are not meeting performance expectations. The impact of future supermarket closings is not expected to be material.

Results of Operations

Sales

Sales for the three months ended June 25, 2016 were \$8.1 billion as compared with \$8.0 billion for the three months ended June 27, 2015, an increase of \$169.7 million or 2.1%. The increase in sales for the three months ended June 25, 2016 as compared with the three months ended June 27, 2015 was primarily due to a 1.1% increase in comparable store sales (supermarkets open for the same weeks in both periods, including replacement supermarkets). Sales for supermarkets that are replaced on site are classified as new supermarket sales since the replacement period for the supermarket is generally 9 to 12 months. The Company estimates that sales for the three months ended June 25, 2016 were negatively impacted by \$100 million or 1.2% due to the effect of the Easter holiday being in the first quarter in 2016. In 2015, the effect of the Easter holiday was in the second quarter. Comparable store sales for the three months ended June 25, 2016 increased primarily due to product cost inflation and increased customer counts, partially offset by the effect of the early Easter holiday. Sales for the six months ended June 25, 2016 were \$16.8 billion as compared with \$16.3 billion for the six months ended June 27, 2015, an increase of \$542.6 million or 3.3%. The increase in sales for the six months ended June 25, 2016 as compared with the six months ended June 27, 2015 was primarily due to a 2.2% increase in comparable store sales. Comparable store sales for the six months ended June 25, 2016 increased primarily due to product cost inflation and increased customer counts.

Gross profit

Gross profit (sales less cost of merchandise sold) as a percentage of sales was 27.6% and 28.1% for the three months ended June 25, 2016 and June 27, 2015, respectively. Gross profit as a percentage of sales was 27.9% and 28.1% for the six months ended June 25, 2016 and June 27, 2015, respectively. The decrease in gross profit as a percentage of sales for the three and six months ended June 25, 2016 as compared with the three and six months ended June 27, 2015 was primarily due to changes in promotional activities and pricing strategies.

Operating and administrative expenses

Operating and administrative expenses as a percentage of sales were 20.3% and 20.5% for the three months ended June 25, 2016 and June 27, 2015, respectively. Operating and administrative expenses as a percentage of sales were 19.8% and 20.0% for the six months ended June 25, 2016 and June 27, 2015, respectively. The decrease in operating and administrative expenses as a percentage of sales for the three and six months ended June 25, 2016 as compared with the three and six months ended June 27, 2015 was primarily due to a decrease in rent as a percentage of sales due to the acquisition of shopping centers with the Company as the anchor tenant and a decrease in utilities expense as a percentage of sales.

Investment income

Investment income was \$25.4 million and \$45.4 million for the three months ended June 25, 2016 and June 27, 2015, respectively. Investment income was \$53.2 million and \$81.2 million for the six months ended June 25, 2016 and June 27, 2015, respectively. The decrease in investment income for the three and six months ended June 25, 2016 as compared with the three and six months ended June 27, 2015 was primarily due to a decrease in realized gains on the sale of equity securities.

Income tax expense

The effective income tax rate was 31.6% and 33.2% for the three months ended June 25, 2016 and June 27, 2015, respectively. The effective income tax rate was 32.3% and 33.0% for the six months ended June 25, 2016 and June 27, 2015, respectively. The decrease in the effective income tax rate for the three and six months ended June 25, 2016 as compared with the three and six months ended June 27, 2015 was primarily due to an increase in investment related tax credits.

Net earnings

Net earnings were \$478.2 million or \$0.62 per share and \$482.7 million or \$0.62 per share for the three months ended June 25, 2016 and June 27, 2015, respectively. Net earnings as a percentage of sales were 5.9% and 6.1% for the three months ended June 25, 2016 and June 27, 2015, respectively. The decrease in net earnings as a percentage of sales for the three months ended June 25, 2016 as compared with the three months ended June 27, 2015 was primarily due to the decrease in gross profit as a percentage of sales, as noted above. Net earnings were \$1,060.1 million or \$1.37 per share and \$1,031.7 million or \$1.33 per share for the six months ended June 25, 2016 and June 27, 2015, respectively. Net earnings as a percentage of sales were 6.3% for the six months ended June 25, 2016 and June 27, 2015.

Liquidity and Capital Resources

Cash and cash equivalents, short-term investments and long-term investments totaled \$7,301.9 million as of June 25, 2016, as compared with \$6,955.1 million as of December 26, 2015 and \$7,124.9 million as of June 27, 2015. The increase from the second quarter of 2015 to the second quarter of 2016 was primarily due to the Company generating cash in excess of the amount needed for operations, capital expenditures, common stock repurchases and dividend payments.

Net cash provided by operating activities

Net cash provided by operating activities was \$1,815.4 million and \$1,678.4 million for the six months ended June 25, 2016 and June 27, 2015, respectively. The increase in net cash provided by operating activities for the six months ended June 25, 2016 as compared with the six months ended June 27, 2015 was primarily due to increases in net earnings and non-cash expenses.

Net cash used in investing activities

Net cash used in investing activities was \$1,165.5 million and \$1,163.6 million for the six months ended June 25, 2016 and June 27, 2015, respectively. The primary use of net cash in investing activities for the six months ended June 25, 2016 was funding capital expenditures and net increases in investment securities. Capital expenditures totaled \$730.7 million. These expenditures were incurred in connection with the opening of seven new supermarkets (including one replacement supermarket) and remodeling 80 supermarkets. Expenditures were also incurred for supermarkets and remodels in progress, new or enhanced information technology hardware and applications and the acquisition of shopping centers with the Company as the anchor tenant. For the six months ended June 25, 2016, the payment for investments, net of the proceeds from the sale and maturity of such investments, was \$437.9 million.

Net cash used in financing activities

Net cash used in financing activities was \$697.4 million and \$645.1 million for the six months ended June 25, 2016 and June 27, 2015, respectively. The increase in net cash used in financing activities for the six months ended June 25, 2016 as compared with the six months ended June 27, 2015 was due to increases in net common stock repurchases and dividend payments. Net common stock repurchases totaled \$350.9 million and \$321.7 million for the six months ended June 25, 2016 and June 27, 2015, respectively. The Company currently repurchases common stock at the stockholders' request in accordance with the terms of the Employee Stock Purchase Plan (ESPP), Non-Employee Directors Stock Purchase Plan (Directors Plan), 401(k) Plan and ESOP. The amount of common stock offered to the Company for repurchase is not within the control of the Company, but is at the discretion of the stockholders. The Company expects to continue to repurchase its common stock, as offered by its stockholders from time to time, at its then current value for amounts similar to those in prior years. However, with the exception of certain shares distributed from the ESOP, such purchases are not required and the Company retains the right to discontinue them at any time.

Capital expenditures projection

Capital expenditures for the remainder of 2016 are expected to be approximately \$770 million, primarily consisting of new supermarkets, remodeling existing supermarkets, remodeling and equipping warehouses, new or enhanced information technology hardware and applications and the acquisition of shopping centers with the Company as the anchor tenant. The shopping center acquisitions are financed with internally generated funds and assumed debt, if prepayment penalties for the debt are determined to be significant. This capital program is subject to continuing change and review.

Cash requirements

In 2016, the cash requirements for operations, capital expenditures, common stock repurchases and dividend payments are expected to be financed by internally generated funds or liquid assets. Based on the Company's financial position, it is expected that short-term and long-term borrowings would be available to support the Company's liquidity requirements, if needed.
