The Commerce Group, Inc.
Announces 2004 First Quarter Results
and Comparison to 2003

WEBSTER, Mass., April 23, 2004 -- The Commerce Group, Inc. (NYSE:CGI) today reported 2004 first quarter results. Net earnings were \$51.0 million, or \$1.56 per diluted share, compared to net earnings of \$12.9 million or \$0.40 per diluted share for 2003.

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

During the first quarter of 2004, the Company had net realized investment gains of \$20.5 million or \$0.41 per diluted share compared to losses of \$5.8 million or \$0.19 per diluted share in the first quarter of 2003. A complete breakdown of this information is included in the attached tables.

Earned premiums were \$395.6 million for the first quarter of 2004 compared to \$338.0 million for 2003. A schedule of direct written premiums to earned premiums is included in the attached tables.

The first quarter GAAP consolidated operating combined ratio was 93.7% compared to 100.8% for 2003. The decrease in the combined ratio was the result of a decrease in the loss ratio, partially offset by an increase in the underwriting ratio. The Company's GAAP consolidated loss ratio for the first quarter of 2004 decreased to 71.3% from 81.2% during the same period last year. The improvement was the result of several factors, including: (1) an increase in average earned premium revenue per automobile; (2) a decline in the current year personal automobile physical damage claim frequency; and, (3) a decrease in the overall Commonwealth Automobile Reinsurers (C.A.R.) deficit. The Company's GAAP consolidated underwriting ratio increased to 22.4%, as compared to 19.6% for last year's first quarter, primarily as a net result of higher accrued contingent commissions offset by lower 2004 policy year mandated Massachusetts personal automobile commission rates.

A complete presentation of March 31, 2004 and 2003 financial statement information, including a breakdown of the components of the combined ratio and realized investment gains and losses, is included in the financial statements attached to this press release.

Additional supplemental financial information will be available on the Company's website at www.commerceinsurance.com, under the "Links" section of the "News and Investor Information" area.

At March 31, 2004, the Company had authority to purchase approximately 280,000 additional shares of common stock under the current Board of Directors' stock re-purchase authorization. During the first quarter, the Company purchased 294,665 shares of treasury stock at an average price of \$45.93 per share as a result of option exercises. The Company issued approximately 383,000 shares of common stock related to these option exercises.

Forward Looking Statements

This press release may contain statements that are not historical fact and constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act.

Statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as "anticipates," "estimates," "plans," "projects," "continuing," "ongoing," "expects," "may," "should," "management believes," "we believe," "we intend," and similar words or phrases. These statements may address, among other things, our strategy for growth, business development, regulatory approvals, market position, expenditures, financial results and reserves. Accordingly, these statements involve estimates, assumptions and uncertainties that could cause actual results to differ materially from those expressed in them. All forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this press release and in our Forms 10-K and 10-Q, and other documents filed with the SEC. Among the key factors that could cause actual results to differ materially from forward-looking statements:

- ? the possibility of severe weather and adverse catastrophe experiences;
- ? adverse trends in claim severity or frequency;
- ? adverse state and federal regulations and legislation;
- ? adverse judicial decisions;
- ? adverse changes to the laws, regulations and rules governing the residual market system in Massachusetts;
- ? interest rate risk;
- ? rate making decisions for private passenger automobile policies in Massachusetts;
- ? potential rate filings;
- ? heightened competition;
- ? concentration of business within Massachusetts;
- ? market disruption in Massachusetts, if competitors exited the market or become insolvent;
- ? dependence on our executive officers; and,
- ? the economic, market or regulatory conditions and risks associated with entry into new markets and diversification.

(1) GAAP consolidated operating ratios are calculated as in (2) below using the combined insurance

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

subsidiaries' loss and underwriting results, adding to them the expenses of the holding company (corporate expenses) in order to equal the loss and underwriting expense amounts on the income statement. For purposes of the U/W ratio, underwriting expenses are grossed-up for the incremental deferred acquisition costs of \$15,003 and \$14,312 for 2004 and 2003, respectively.

- (2) GAAP operating ratios for combined insurance subsidiaries are calculated as follows:
- (a) The loss ratio represents losses and LAE divided by earned premiums; and,
 - (b) The underwriting ratio represents underwriting expenses divided by net premiums written.
- No corporate expenses are included in the calculations.
