FRANKLIN TEMPLETON INVESTMENTS

GAIN FROM OUR PERSPECTIVE(R)

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups--Franklin, Templeton and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with offices in over 25 countries, Templeton offers investors a truly global perspective.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among what it believes are undervalued stocks, as well as arbitrage situations and distressed securities.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to different investment approaches, Franklin, Templeton and Mutual Series funds typically have distinct portfolios. That's why our funds can be used to build truly diversified allocation plans covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable, accurate and personal service that has helped us become one of the most trusted names in financial services.

WHAT IS A CURRENT ACCOUNT?

A current account is that part of the balance of payments where all of one country's international transactions in goods and services are recorded.

WHAT IS BALANCE OF PAYMENTS?

Balance of payments is a record of all of a country's exports and imports of goods and services, borrowing and lending with the rest of the world during a particular time period. It helps a country evaluate its competitive strengths and weaknesses and forecast the strength of its currency.

about the Board of Trustees' approval of the Fund's investment advisory contract in the past six months. It is designed to give you an understanding of several factors considered before the Board approved the Fund's contract with the Investment Manager. The disclosure is in the "Shareholder Information" section beginning on page 39.

PERFORMANCE OVERVIEW

For the period under review, Templeton Global Income Fund posted cumulative total returns of 10.61% based on market price and 10.03% based on net asset value. The Fund outperformed the J.P. Morgan (JPM) Government Bond Index (GBI) Global, which posted cumulative total returns of 6.16% in local currency terms and 6.55% in U.S. dollar terms for the same period.(1) You can find the Fund's long-term performance data in the Performance Summary on page 8.

ECONOMIC AND MARKET OVERVIEW

During the Fund's fiscal year, global economic growth remained positive, particularly in the U.S. and Asia. U.S. economic growth continued to be above long-term averages, with gross domestic product (GDP) expanding 3.3% annualized in the second quarter of 2005 compared with a year earlier.(2) Characteristic of above-average growth, the labor market tightened, high capacity utilization rates stimulated investment growth, consumption trends remained strong, and signs of increased inflationary pressures solidified. Consequently, the Federal Reserve Board increased the federal funds target rate 200 basis points (100 basis points equal one percentage point) to 3.50% during the reporting period. Consistent with strong economic growth, and in particular solid consumption trends, U.S. imports of foreign goods outpaced U.S. export growth, driving the U.S. trade balance to a \$58 billion monthly deficit level by July 2005.(3) While higher oil prices negatively impacted the deficit, the underlying trade balance (not including oil) also deteriorated, largely as a result of a widening trade deficit with the Pacific Rim region. For example, by July the U.S. trade deficit with the Pacific Rim increased 23% from a year earlier.(3) Furthermore, the U.S. current account deficit reached a record 6.5% of GDP in second quarter 2005.(3)

2 | Annual Report

As could be expected from the U.S. balance of payment figures, Asia's trade dynamics remained favorable. Chinese exports rose 33% compared with a year earlier, while Japan, South Korea and several other Asian countries generated significant current account surpluses.(4) Strong balance of payment conditions, in addition to less flexible currency strategies, particularly in China, continued to facilitate Asia's foreign reserve accumulation. The buildup of external imbalances, in addition to international political pressure, prompted the Chinese government to revalue the yuan 2.1% and move from its U.S. dollar peg to a managed-float exchange rate regime versus a basket of undisclosed global currencies. The announcement resulted in a drop in the U.S. dollar against the region's other major currencies. Malaysia's central bank also announced that it would abandon its fixed exchange rate regime in favor of a similar basket arrangement. While global demand for Asian products remained favorable for the region's growth, there were also signs of a pick-up in domestic growth drivers, particularly in Japan, Thailand and South Korea. In China, increased personal consumption and strong domestic growth conditions continued to benefit its regional trade partners through import demand. Commodity exporters, such as Australia and New Zealand, also experienced positive trade developments, benefiting their overall economic growth conditions. Largely as a result, Australia's central bank raised interest rates 25 basis points to 5.50%, and New Zealand's central bank increased rates 75 basis points to 6.75%. In addition, the central bank of Thailand raised rates 125 basis points during the period due to higher inflationary pressures.

In contrast to robust growth in the U.S. and Asia, the 12-country euro zone's economic activity was lackluster, driven by weak domestic demand. Euro-zone GDP for second quarter 2005 grew just 1.1% compared with a year earlier, and growth expectations declined during the period.(5) Inflation, however, generally remained stable, and by period-end the European Central Bank had left interest rates unchanged at 2.00% for the 27th consecutive month. Growth among other (non-euro) European economies, on the other hand, was generally more dynamic. In Norway, high oil prices benefited the business cycle, which is heavily dependent on oil exports, while consumption and investment trends supported strengthening GDP growth. This helped the country's economic growth outside the oil sector rise 4.2% in first quarter 2005.(6) Although inflation rates remained low, strong aggregate demand and rising capacity constraints prompted Norway's central bank to raise interest rates. Another example of higher economic growth in Europe outside the euro zone was Slovakia. Slovakia was on track to be the first of the four largest central

European economies to adopt the euro, due in part to the success of its fiscal reforms. Additionally, Slovakia continued to benefit from large-scale foreign direct investment projects, job creation and high growth rates relative to the euro zone. Positive foreign investment trends, tightening labor market conditions and increased private consumption boosted Slovakian GDP growth to 5.1% annualized in second quarter 2005.(7)

INVESTMENT STRATEGY

We invest selectively in bonds around the world to generate income for the Fund, seeking opportunities while monitoring changes in interest rates, currency rates and credit risk.

MANAGER'S DISCUSSION

The Fund's total return was influenced by various factors, including interest rate developments, currency movements and exposure to sovereign debt markets.

INTEREST RATE STRATEGY

During the fiscal year, international yield curves generally flattened and local bond markets performed well. The Fund's overall shorter duration positioning relative to the JPM GBI Global Index worked against Fund performance in certain bond markets, such as the U.S., where the U.S. subindex of the JPM GBI Global rose 4.41%.⁽¹⁾ Outside the U.S., we continued to find opportunities to take advantage of interest rate developments. For example, while Poland's medium-term economic growth prospects remained favorable similar to other central European Union (EU) countries, supported by improving trade dynamics, employment growth and foreign investment trends, Poland experienced cyclical slowing in the first half of 2005. Weaker-than-expected growth in first quarter 2005 combined with rapid disinflation as price shocks from European Monetary Union (EMU) entry faded, allowing Poland's central bank to reduce interest rates by 175 basis points to 4.75%, which in turn supported bond market returns of 17.98% in local currency terms.⁽¹⁾ Interest rate reductions in Sweden had a similar impact on its local market returns. Sweden's economic

growth lagged in the first half of 2005 given greater excess capacity, particularly in the labor market, and greater export sensitivity to euro-zone growth. Combined with low underlying inflationary pressures, Sweden's central bank reduced the interest rate 50 basis points to 1.50%. The Swedish yield curve shifted downward over the period and local bond markets rose 10.49%.⁽¹⁾

CURRENCY STRATEGY

Given global economic imbalances between the U.S. and Asia, we reduced the Fund's euro exposure and broadened the Fund's non-Japan Asian currency exposure, while maintaining limited U.S. dollar exposure given worsening balance of payment conditions. We undertook such moves seeking to position the Fund for potential appreciation of Asian currencies against the U.S. dollar largely due to greater flexibility in many Asian currency policies and implicitly less appreciation pressure on the euro versus the U.S. dollar. We have already seen some evidence of greater policy strides toward currency flexibility, notably in China, where the yuan's recent revaluation indirectly benefited other currencies in the region. Additionally, Asia's growth characteristics remained favorable with rising domestic demand in second quarter 2005 and a large regional savings pool, as indicated by a large stock of accumulated foreign reserves that could further promote domestic growth.

Within Asia, the Fund continued to hold a basket of non-Japan Asian currencies while avoiding exposure to the Japanese yen. This allocation generally outperformed the yen over the Fund's fiscal year, benefiting relative performance. For example, the South Korean won rose 10.70% against the U.S. dollar, bringing bond market returns in U.S. dollar terms to 13.26% according to the HSBC Asian Local Bond Index (ALBI).⁽⁸⁾ This contrasted to the Japanese bond market, which rose 1.09% in U.S. dollar terms over the period along with 1.25% yen depreciation against the U.S. dollar.⁽¹⁾ Fund positioning in Asian currencies over the 12-month period helped offset relatively mixed currency performance in Europe. For example, although the euro appreciated 1.20% against the U.S. dollar, it unwound significant gains made in the first half of the Fund's fiscal year. This unwinding was partly reflective of tepid western European growth conditions, but also political developments regarding failed

Finally, Indonesian bond markets underperformed and detracted from relative Fund performance on currency weakness, returning -2.80% following the rupiah's 8.98% decline against the U.S. dollar during the period.(1)

GLOBAL SOVEREIGN DEBT STRATEGY

The Fund also purchased investment-grade and sub-investment grade sovereign debt that typically compensates for greater credit risk by offering higher yields relative to U.S. and European benchmark treasury curves. Despite rising short-term U.S. interest rates, U.S. dollar-denominated emerging market debt continued to generate strong returns, rising 13.97% over the period, as measured by the JPM Emerging Markets Bond Index Global (EMBIG).(9) Sovereign interest rate spreads narrowed from 425 basis points greater than the U.S. Treasury market on August 31, 2004, to 281 basis points at period-end. Regionally, Latin American sovereign debt rose 14.62%, central and eastern Europe 16.54% and Asia 8.61%.(1) Euro-denominated markets also rose over the 12-month period, gaining 11.54% in euro terms as measured by the JPM Euro EMBIG.(10)

TEMPLETON GLOBAL INCOME FUND

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Templeton Global Income Fund (the Fund) is registered under the Investment Company Act of 1940 as a non-diversified, closed-end investment company.

The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Corporate debt securities and government securities generally trade in the over-the-counter market rather than on a securities exchange. The Fund may utilize independent pricing services, quotations from bond dealers and information with respect to bond and note transactions, to assist in determining a current market value for each security. The Fund's pricing services may use valuation models or matrix pricing which considers information with respect to comparable bond and note transactions, quotations from bond dealers, or by reference to other securities that are considered comparable in such characteristics as rating, interest rate and maturity date, option adjusted spread models, prepayment projections, interest rate spreads and yield curves, to determine current value.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Trustees.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. FOREIGN CURRENCY CONTRACTS

When the Fund purchases or sells foreign securities it may enter into foreign exchange contracts to minimize foreign exchange risk from the trade date to the settlement date of the transactions. A foreign exchange contract is an agreement between two parties to exchange different currencies at an agreed upon exchange rate on a specified date. Realized and unrealized gains and losses on these contracts are included in the Statement of Operations.

The risks of these contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the possible inability of the counterparties to fulfill their obligations under the contracts, which may be in excess of the amount reflected in the Statement of Assets and Liabilities.

D. INCOME TAXES

No provision has been made for U.S. income taxes because the Fund's policy is to continue to qualify as a regulated investment company under the Internal Revenue Code and to distribute to shareholders substantially all of its taxable income and net realized gains.

Foreign securities held by the Fund may be subject to foreign taxation. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Dividend income is recorded on the ex-dividend date. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with generally accepted accounting principles. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they will reverse in subsequent periods.

Inflation-index bonds provide an inflation hedge through periodic increases in the security's interest accruals and principal redemption value, by amounts corresponding to the current rate of inflation. Any such adjustments, including adjustments to principal redemption value, are recorded as interest income.

F. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expense during the reporting year. Actual results could differ from those estimates.

G. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and trustees are indemnified by the Fund against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

2. SHARES OF BENEFICIAL INTEREST

The Fund's Board of Trustees previously authorized an open-market share repurchase program pursuant to which the Fund may purchase, from time to time, Fund shares in open-market transactions, at the discretion of management. This authorization remains in effect. Through August 31, 2005, the Fund had repurchased a total of 11,210,400 shares. During the year ended August 31, 2005, there were no share repurchases.

2. SHARES OF BENEFICIAL INTEREST (CONTINUED)

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

At August 31, 2005, there were an unlimited number of shares authorized (without par value). During the year ended August 31, 2005, 266,641 shares were issued for \$2,550,011 from reinvested distributions. During the year ended August 31, 2004, 199,459 shares were issued for \$1,767,365 from reinvested distributions.

3. TRANSACTIONS WITH AFFILIATES

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

SUBSIDIARY	AFFILIATION
Franklin Advisers Inc. (Advisers)	Investment manager
Franklin Templeton Services, LLC (FT Services)	Administrative manager

A. MANAGEMENT FEES

The Fund pays an investment management fee to Advisers based on the average daily net assets of the Fund as follows:

ANNUALIZED FEE RATE	NET ASSETS
0.550%	Up to and including \$200 million
0.500%	Over \$200 million, up to and including \$1 billion
0.480%	Over \$1 billion, up to and including \$5 billion
0.460%	Over \$5 billion, up to and including \$10 billion
0.440%	Over \$10 billion, up to and including \$15 billion
0.420%	Over \$15 billion, up to and including \$20 billion
0.400%	In excess of \$20 billion

B. ADMINISTRATIVE FEES

The Fund pays an administrative fee to FT Services based on the Fund's average daily net assets as follows:

ANNUALIZED FEE RATE	NET ASSETS
0.150%	Up to and including \$200 million
0.135%	Over \$200 million, up to and including \$700 million
0.100%	In excess of \$700 million

4. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the year ended August 31, 2005, the custodian fees were reduced as noted in the Statement of Operations.

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

5. INCOME TAXES

At August 31, 2005, the Fund had tax basis capital losses which may be carried over to offset future capital gains, if any. During the year ended August 31, 2005, the Fund utilized \$7,625,842 of capital loss carryforwards. At August 31, 2005, the capital loss carryforwards were as follows:

Capital loss carryovers expiring in:	
2009	\$17,194,525
2010	27,371,582
2011	4,209,282

	\$48,775,389
	=====

The tax character of distributions paid during the years ended August 31, 2005 and 2004, was as follows:

	----- 2005	2004 -----
Distributions paid from - ordinary income	\$81,190,215	\$70,472,145

Net investment income differs for financial statement and tax purposes primarily due to differing treatments of foreign currency transactions, and bond discounts and premiums.

Net realized gains (losses) differ for financial statement and tax purposes primarily due to differing treatments of wash sales, foreign currency transactions, and bond discounts and premiums.

At August 31, 2005, the cost of investments, net unrealized appreciation (depreciation), and undistributed ordinary income for income tax purposes were as follows:

Cost of investments	\$ 1,044,216,030
	=====
Unrealized appreciation	\$ 119,114,376
Unrealized depreciation	(23,855,180)

Net unrealized appreciation (depreciation)	\$ 95,259,196
	=====
Distributable earnings = undistributed ordinary income	\$ 50,854,646
	=====

6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short-term securities) for the year ended August 31, 2005 aggregated \$485,609,847 and \$490,275,923, respectively.

Annual Report | 23

TEMPLETON GLOBAL INCOME FUND

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

7. CREDIT RISK

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

The Fund has 16.46% of its portfolio invested in below investment grade and comparable quality unrated high yield securities, which tend to be more sensitive to economic conditions than higher rated securities. The risk of loss due to default by the issuer may be significantly greater for the holders of high yielding securities because such securities are generally unsecured and are often subordinated to other creditors of the issuer.

8. CONCENTRATION OF RISK

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local and regional economic, political and social conditions, which may result in greater market volatility. In addition, certain foreign securities may not be as liquid as U.S. securities.

9. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Advisers. Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management fees paid by the Sweep Money Fund.

10. REGULATORY MATTERS

INVESTIGATIONS AND SETTLEMENTS

As part of various investigations by a number of federal, state, and foreign regulators and governmental entities, including the Securities and Exchange Commission ("SEC"), the California Attorney General's Office ("CAGO"), and the National Association of Securities Dealers, Inc. ("NASD"), relating to certain practices in the mutual fund industry, including late trading, market timing and marketing support payments to securities dealers who sell fund shares, Franklin Resources, Inc. and certain of its subsidiaries (as used in this section, together, the "Company"), as well as certain current or former executives and employees of the Company, provided documents and information in response to subpoenas and/or requests for documents, information and/or testimony. Beginning in August 2004, the Company entered into settlements with certain of the regulators and a governmental entity investigating the mutual fund industry practices noted above. The Company believes that settlement of each of the matters is in the best interest of the Company and shareholders of the Franklin, Templeton, and Mutual Series mutual funds (the "funds").

Two of the settlement agreements, those with the SEC and the CAGO concerning marketing support payments, provide that the distribution of settlement monies are to be made to the relevant funds, not to individual shareholders. The CAGO has approved the distribution plan

pertaining to the distribution of the monies owed under the CAGO settlement agreement and, in accordance with the terms and conditions of that settlement, the monies were disbursed to the participating funds. The Fund did not participate in the CAGO settlement. The SEC has not yet approved the distribution plan pertaining to the SEC settlement. When approved, disbursements of settlement monies under the SEC's settlement will be made promptly in accordance with the terms and conditions of that order.

OTHER LEGAL PROCEEDINGS

On April 12, 2005, the Attorney General of West Virginia filed a complaint in the Circuit Court of Marshall County, West Virginia against a number of companies engaged in the mutual fund industry, including Franklin Resources, Inc. and its subsidiary, Franklin Advisers, Inc., and certain other parties alleging violations of the West Virginia Consumer Credit and Protection Act and seeking, among other things, civil penalties and attorneys' fees and costs. Defendants have since removed the matter to the United States District Court for the Northern District of West Virginia. To the extent applicable to the Company, the complaint arises from activity that occurred in 2001 and duplicates, in whole or in part, the allegations asserted in the February 4, 2004 Massachusetts Administrative Complaint concerning one instance of market timing (the "Administrative Complaint") and the SEC's findings regarding market timing in its August 2, 2004 Order (the "SEC Order"), both of which matters were previously reported.

The Company, in addition to certain funds, and certain current and former officers, employees, and directors have been named in multiple lawsuits in different courts alleging violations of various federal securities and state laws and seeking, among other relief, monetary damages, restitution, removal of fund trustees, directors, advisers, administrators, and distributors, rescission of management contracts and 12b-1 plans, and/or attorneys' fees and costs. Specifically, the lawsuits claim breach of duty with respect to alleged arrangements to permit market timing and/or late trading activity, or breach of duty with respect to the valuation of the portfolio securities of certain Templeton funds managed by Franklin Resources, Inc. subsidiaries, allegedly resulting in market timing activity. The majority of these lawsuits duplicate, in whole or in part, the allegations asserted in the Administrative Complaint and the SEC's findings regarding market timing in the SEC Order. The lawsuits are styled as class actions, or derivative actions on behalf of either the named funds or Franklin Resources, Inc.

10. REGULATORY MATTERS (CONTINUED)

OTHER LEGAL PROCEEDINGS (CONTINUED)

The Company, in addition to certain funds, and certain current and former officers, employees, and directors have been named in multiple lawsuits alleging violations of various securities laws and pendent state law claims relating to the disclosure of marketing support payments and/or payment of allegedly excessive commissions and/or advisory or distribution fees, and seeking, among other relief, monetary damages, restitution, rescission of advisory contracts, including recovery of all fees paid pursuant to those contracts, an accounting

of all monies paid to the named advisers, declaratory relief, injunctive relief, and/or attorneys' fees and costs. These lawsuits are styled as class actions or derivative actions brought on behalf of the named funds.

The Company and fund management strongly believe that the claims made in each of the lawsuits described above are without merit and intend to defend against them vigorously. The Company cannot predict with certainty the eventual outcome of these lawsuits, nor whether they will have a material negative impact on the Company. Public trust and confidence are critical to the Company's business and any material loss of investor and/or client confidence could result in a significant decline in assets under management by the Company, which would have an adverse effect on future financial results. If it is determined that the Company bears responsibility for any unlawful or inappropriate conduct that caused losses to the Fund, it is committed to making the Fund or its shareholders whole, as appropriate. The Company is committed to taking all appropriate actions to protect the interests of its funds' shareholders.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF TEMPLETON GLOBAL INCOME FUND

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Templeton Global Income Fund (the "Fund") at August 31, 2005, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at August 31, 2005 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

TAX DESIGNATION (UNAUDITED)

At August 31, 2005, more than 50% of the Templeton Global Income Fund's total assets were invested in securities of foreign issuers. In most instances, foreign taxes were withheld from dividends paid to the Fund on these investments. As shown in the table below, the Fund designates to shareholders the foreign source income and foreign taxes paid, pursuant to Section 853 of the Internal Revenue Code. This designation will allow shareholders of record on August 17, 2005, to treat their proportionate share of foreign taxes paid by the Fund as having been paid directly by them. The shareholder shall consider these amounts as foreign taxes paid in the tax year in which they receive the Fund distribution.

The following table provides a detailed analysis, by country, of foreign tax paid, foreign source income, and foreign qualified dividends as designated by the Fund, to shareholders of record.

TEMPLETON GLOBAL INCOME FUND

TAX DESIGNATION (UNAUDITED) (CONTINUED)

Foreign Tax Paid per Share (Column 1) is the amount per share available to you, as a tax credit or deduction (assuming you held your shares in the Fund for a minimum of 16 days during the 30-day period beginning 15 days before the ex-dividend date of the Fund's distribution to which the foreign taxes relate).

Foreign Source Income per Share (Column 2) is the amount per share of income dividends paid to you that is attributable to foreign securities held by the Fund, plus any foreign taxes withheld on these dividends. The amounts reported include foreign source qualified dividends without adjustment for the lower U.S. tax rates.

Foreign Qualified Dividends per Share (Column 3) is the amount per share of foreign source qualified dividends the Fund paid to you, plus any foreign taxes withheld on these dividends. These amounts represent the portion of the Foreign Source Income reported to you in column 2 that were derived from qualified foreign securities held by the Fund. If you have foreign source qualified dividends, you may be required to make certain adjustments to those amounts before taking them into account on line 1 of Form 1116. However, you may qualify for an adjustment exception. Please see the instructions to Form 1116 for more information.

In January 2006, shareholders will receive Form 1099-DIV which will include their share of taxes paid and foreign source income distributed during the calendar year 2005. The Foreign Source Income reported on Form 1099-DIV has not been reduced to take into account the tax rate differential on foreign source qualified dividend income. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their 2005 individual income tax returns.

TEMPLETON GLOBAL INCOME FUND

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

Shareholders must affirmatively elect to participate in the Plan; share dividends and capital gains distributions will be reinvested automatically; Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938, will provide additional Plan information upon request.

Whenever the Fund declares dividends in either cash or shares of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in shares at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional cash payments to Mellon Bank, N.A. (the "Plan Administrator"), in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments shall be made by check or money order payable to "Mellon Bank, N.A." and sent to Mellon Investor Services, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attention: Templeton Global Income Fund. The Plan Administrator shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of Fund shares on the open market.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax that may be payable on dividends or

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

distributions.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested. The Plan Administrator's fees for a sale of shares through the Plan are \$15.00 per transaction plus a \$0.12 per share trading fee.

The participant may withdraw from the Plan without penalty at any time by written notice to the Plan Administrator sent to Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938. Upon withdrawal, the participant will receive, without charge, share certificates issued in the participant's name for all full shares held by the Plan Administrator; or, if the participant wishes, the Plan Administrator will sell the shares and send the proceeds, less a service charge of \$15.00 and less trading fees of \$0.12 per share, to the participant.

BOARD REVIEW OF INVESTMENT ADVISORY CONTRACT

At a meeting held May 11, 2005, the Board of Trustees ("Board"), including a majority of non-interested or independent Trustees, approved renewal of the investment advisory contract for the Fund. In reaching this decision, the Board took into account information furnished throughout the year at regular Board meetings, as well as information prepared specifically in connection with the annual renewal review process. Information furnished and discussed throughout the year included reports on the Fund, the share price premium or discount to net asset value, the results of investment performance and related financial information for the Fund, as well as periodic reports on legal, compliance, pricing, brokerage commissions and execution and other services provided by the Investment Manager ("Manager") and its affiliates. Information furnished specifically in connection with the renewal process included a report prepared by Lipper Financial Services ("Lipper"), an independent organization, as well as a Fund profitability analysis report prepared by management. The Lipper report

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

compared the Fund's investment performance and expenses with those of other funds deemed comparable to the Fund as selected by Lipper. The Fund profitability analysis report discussed the profitability to Franklin Templeton Investments from its overall U.S. fund operations, as well as on an individual fund-by-fund basis. Included with such profitability analysis report was information on a fund-by-fund basis listing portfolio managers and other accounts they manage, as well as information on management fees charged by the Manager including management's explanation of differences where relevant, and a three-year expense analysis with an explanation for any increase in expense ratios. Additional information accompanying such report was a memorandum prepared by management describing enhancements to the services provided to the Fund by the Franklin Templeton Investments organization, as well as a memorandum relating to economies of scale.

In considering such materials, the independent Trustees received assistance and advice from and met separately with independent counsel. In approving continuance of the investment advisory contract for the Fund, the Board, including a majority of independent Trustees, determined that the existing management fee structure was fair and reasonable and that continuance of the investment advisory contract was in the best interests of the Fund and its shareholders. While attention was given to all information furnished, the following discusses the primary factors relevant to the Board's decision.

NATURE, EXTENT AND QUALITY OF SERVICE. The Board was satisfied with the nature and quality of the overall services provided by the Manager and its affiliates to the Fund and its shareholders. In addition to investment performance and expenses discussed later, the Board's opinion was based, in part, upon periodic reports furnished them showing that the investment policies and restrictions for the Fund were consistently complied with as well as other reports periodically furnished the Board covering matters such as the compliance of portfolio managers and other management personnel with the code of ethics adopted throughout the Franklin Templeton fund complex, the adherence to fair value pricing procedures established by the

Board, and the accuracy of net asset value calculations. Favorable consideration was given to management's efforts and expenditures in establishing back-up systems and recovery procedures to function in the event of a natural disaster, it being noted by the Board that such systems and procedures had functioned smoothly during the hurricanes and blackout experienced last year in Florida. Other factors taken into account by the Board were the Manager's best execution trading policies, as well as the compliance procedures and qualifications of the Chief Compliance Officer established in accordance with recently adopted SEC requirements. Consideration was also given to the experience of the Fund's portfolio management team, the number of accounts managed and general method of compensation. In this latter respect, the Board noted that a primary factor in management's determination of the level of a portfolio manager's bonus compensation was the relative investment performance of the funds he or she managed so as to be aligned with the interest of Fund shareholders.

INVESTMENT PERFORMANCE. The Board placed significant emphasis on the investment performance of the Fund in view of its importance to shareholders. While

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

consideration was given to performance reports and discussions with portfolio managers at Board meetings during the year, particular attention in assessing performance was given to the Lipper reports furnished for the contract renewals. The Lipper report for the Fund showed its investment performance in respect to both a closed-end fund group, as well as an open-end performance universe for the one-year period ended February 28, 2005, as well as the previous ten years ended that date. Such report considered the Fund's income return and total return on a net asset basis without regard to market discounts or premiums in order to accurately reflect investment performance. The closed-end fund group selected by Lipper consisted of the Fund and two other non-leveraged closed-end global income funds. The Lipper report showed that the Fund's income return for the one-year period and each of the previous three-, five- and ten-year periods on an annualized basis was the lowest of such group, while its total return in each case was the highest of such group for each of the one-, three- and five-year periods, and in the middle for the ten-year period. The open-end performance universe consisted of the Fund and all open-end retail and institutional global income funds as selected by Lipper. The Lipper report showed the Fund's income return and total return to each be in the highest quintile of such performance universe for the one-year period and in the highest or second highest quintile of such universe for each of the previous three-, five- and ten-year periods on an annualized basis. The Board was satisfied with such comparative performance.

COMPARATIVE EXPENSES. Consideration was given to a comparative analysis of the management fee and total expense ratios of the Fund compared with a Lipper-selected expense group consisting of the Fund and the two other closed-end funds comprising the closed-end fund group referred to in the discussion of investment performance. Prior to making such comparison, the Board relied upon a survey showing that the scope of management advisory services covered under the Fund's investment advisory contract was similar to those provided by fund

managers to other fund groups which would be used as a basis of comparison in the Lipper report. In reviewing comparative costs, emphasis was given to the Fund's management fee in comparison with the effective management fee that would have been charged by the other two funds within the Lipper expense group assuming they were the same size as the Fund, as well as the actual total expenses of the Fund in comparison with those of the other two funds. The Lipper effective management fee analysis considers administrative fees to be part of management fees and the results of such expense comparison showed both the Fund's effective management fee rate and total actual expenses to be the lowest of such group. The Board was satisfied with the Fund's comparative management fee and expenses.

MANAGEMENT PROFITABILITY. The Board also considered the level of profits realized by the Manager and its affiliates in connection with the operation of the Fund. In this respect, the Board reviewed the fund profitability analysis that addresses the overall profitability of Franklin Templeton's U.S. fund business, as well as its profits in providing management and other services to each of the individual funds. The Board also considered the extent to which the Manager and its affiliates might derive ancillary benefits from fund operations,

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

as well as potential benefits resulting from allocation of fund brokerage and the use of "soft" commission dollars to pay for research. Specific attention was given to the methodology followed in allocating costs to the Fund, it being recognized that allocation methodologies are inherently subjective and various allocation methodologies may each be reasonable while producing different results. In this respect, the Board noted that the cost allocation methodology was consistent with that followed in profitability report presentations made in prior years and that it had engaged on a biennial basis the Fund's independent accountants to perform certain procedures specified by the Board solely for its purpose and use. It was also noted that legal costs and payments incurred by Franklin Templeton Investments in resolving various legal proceedings arising from its U.S. fund operations had not been allocated to the Fund for purposes of determining profitability. Included in the analysis were the revenue and related costs involved in managing the Fund, as well as its relative contribution to the profitability of the Manager's parent. In reviewing and discussing such analysis, management discussed with the Board its belief that costs incurred in establishing the infrastructure necessary to the type of fund operations conducted by the Manager and its corporate affiliates may not be fully reflected in the expenses allocated to the Fund in determining its profitability, as well as the fact that the level of profits, to a certain extent, reflected operational cost savings and efficiencies initiated by management. In addition, the Board considered a third-party study comparing the profitability of the Manager's parent on an overall basis as compared to other publicly held managers broken down to show profitability from management operations exclusive of distribution expenses, as well as profitability including distribution expenses. Based upon their consideration of all these factors, the Board determined that the level of profits realized by the Manager under its investment advisory contract with the Fund was not excessive in view of the nature, quality and extent of services provided.

ECONOMIES OF SCALE. The Board also considered whether the Manager realizes economies of scale as the Fund grows larger and the extent to which any such benefit is shared with the Fund and its shareholders. The Board believed that a manager's ability to realize economies of scale and the sharing of such benefit is a more relevant consideration in the case of an open-end fund whose size increases as a result of the continuous sale of its shares. A closed-end investment company such as the Fund does not continuously offer shares and growth following its initial public offering will primarily result from market appreciation, which benefits its shareholders. While believing economies of scale to be less of a factor in the context of a closed-end fund, the Board believes at some point an increase in size may lead to economies of scale that should be shared with the Fund and its shareholders. In this respect, the Board noted that as a result of breakpoints established during the previous year, the Fund was charged a management advisory fee and administrative fee at the combined rate of 0.70% on its first \$200 million of net assets; 0.635% on the next \$500 million of net assets; 0.60% on the next \$300 million of net assets; and 0.58% on the next \$4 billion of net assets with decreasing breakpoints continuing through the \$20 billion net asset level. The Fund's asset size at fiscal year-end was approximately \$1.25 billion and the Board believed that to the extent economies of scale may be realized by the Manager and its affiliates, that such fee schedule provides a sharing of benefits with the Fund and its

shareholders.

PROXY VOTING POLICIES AND PROCEDURES

The Fund has established Proxy Voting Policies and Procedures ("Policies") that the Fund uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Fund's complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at 1-954/847-2268 or by sending a written request to: Franklin Templeton Companies, LLC, 500 East Broward Boulevard, Suite 1500, Fort Lauderdale, FL 33394, Attention: Proxy Group. Copies of the Fund's proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission's website at sec.gov and reflect the most recent 12-month period ended June 30.

QUARTERLY STATEMENT OF INVESTMENTS

The Fund files a complete statement of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year on Form N-Q. Shareholders may view the filed Form N-Q by visiting the Commission's website at sec.gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The board of trustees of the Fund has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's manager Templeton Asset Management Limited in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the manager.

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

The manager has delegated its administrative duties with respect to the voting of proxies to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the manager's instructions and/or policies.

To assist it in analyzing proxies, the manager subscribes to Institutional Shareholder Services (ISS), an unaffiliated third party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, recordkeeping and vote disclosure services. In addition, the manager subscribes to Glass, Lewis & Co., LLC (Glass Lewis), an unaffiliated third party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies. Although ISS' and/or Glass Lewis' analyses are thoroughly reviewed and considered in making a final voting decision, the manager does not consider recommendations from ISS, Glass Lewis or any other third party to be determinative of the manager's ultimate decision. The manager votes proxies solely in the interests of the Fund and its shareholders. As a matter of policy, the officers, directors/trustees and employees of the Fund, the manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. All conflicts are resolved in the interests of the manager's clients. In situations where the manager perceives a material conflict of interest, the manager may: disclose the conflict to the Fund's board of trustees; defer to the voting recommendation of the Fund's board of trustees, ISS, Glass Lewis or those of another independent third party provider of proxy services; or take such other action in good faith (in consultation with counsel) which would protect the interests of the Fund and its shareholders.

The recommendation of management on any issue is a factor which the manager considers in determining how proxies should be voted, but is not determinative of the manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

MANAGER'S PROXY VOTING POLICIES AND PRINCIPLES The manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the manager cannot anticipate all future situations. In all cases, each proxy will be considered based on the relevant facts and circumstances.

BOARD OF DIRECTORS. The manager supports an independent board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The manager may withhold votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance.

RATIFICATION OF AUDITORS OF PORTFOLIO COMPANIES. In light of several high profile accounting scandals, the manager will closely scrutinize the role and performance of auditors. On a case-by-case basis, the manager will examine proposals relating to non-audit relationships and non-audit fees. The manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and

Edgar Filing: TEMPLETON GLOBAL INCOME FUND - Form N-CSR

compelling evidence of accounting irregularities or negligence.

MANAGEMENT AND DIRECTOR COMPENSATION. A company's equity-based compensation plan should be in alignment with its shareholders' long-term interests. The manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the manager will generally oppose "golden parachutes" that are considered to be excessive. The manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders. The manager will review on a case-by-case basis any shareholder proposals to adopt policies on expensing stock option plans.

ANTI-TAKEOVER MECHANISMS AND RELATED ISSUES. The manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. On occasion, the manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. The manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The manager generally supports "fair price" provisions and confidential voting.

CHANGES TO CAPITAL STRUCTURE. The manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase and proposals seeking preemptive rights. The manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable.

MERGERS AND CORPORATE RESTRUCTURING. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether each will be beneficial to shareholders. The manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring and reincorporation proposals are also subject to a thorough examination on a case-by-case basis.

SOCIAL AND CORPORATE POLICY ISSUES. The manager will generally give management discretion with regard to social, environmental and ethical issues, although the manager may vote in favor of those that are believed to have significant economic benefits or implications for the Fund and its shareholders.

GLOBAL CORPORATE GOVERNANCE. Many of the tenets discussed above are applied to proxy voting decisions for international companies. However, the manager must be more flexible in these instances and must be mindful of the varied market practices of each region.

The manager will attempt to process every proxy it receives for all domestic and foreign proxies. However, there may be situations in which the manager cannot process proxies, for example, where a meeting notice was received too late, or sell orders preclude the ability to vote. The manager may abstain from voting under certain circumstances or vote against items such as "Other Business" when the manager is not given adequate information from the company.

ITEM 10. SUBMISSION OF MATTERS OF A VOTE OF SECURITY HOLDERS.

There have been no changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that would require disclosure herein.

ITEM 11. CONTROLS AND PROCEDURES.

(a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSR, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(b) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Shareholder Report on Form N-CSR.
