ITEM 7.01 REGULATION FD DISCLOSURE

The ATWOOD HUNTER completed the drilling program for Noble Energy, Inc. offshore Israel on July 15, 2009 at which time, it was moved to sheltered water to undergo required classification inspections which have now been completed. The rig incurred approximately ten days of zero rate for these required inspections. The rig is currently being mobilized to Ghana at a dayrate of \$460,000 and upon arrival estimated in early September, will commence drilling for Kosmos Energy Ghana under its joint contract with Noble and Kosmos which extends into late 2012 at an operating dayrate around the mid-\$500,000's.

The SEAHAWK is in the process of being relocated to a new drilling site under its contract for Amerada Hess Equatorial Guinea, Inc. During the relocation period (estimated to take 30 days to complete), the rig's dayrate will be reduced from around \$87,000 to around \$67,000. The ATWOOD FALCON will complete its current contract commitment with Sarawak Shell Berhad ("Shell") offshore Malaysia on August 19, 2009 and immediately, on August 20, 2009, commence a new two year contract commitment with Shell at a dayrate of \$425,000.

The ATWOOD SOUTHERN CROSS and the RICHMOND remain idle in West Africa and the U.S. Gulf of Mexico, respectively. Contract opportunities are currently being pursued for all three rigs; however, there are no guarantees that these rigs will not have idle time for the remainder of fiscal year 2009 and into fiscal year 2010.
