Item 2.02 Results of Operations and Financial Condition

On April 26, 2016, we issued a press release reporting our financial results for the three months ended March 31, 2016 (the Press Release). We also hosted a conference call and webcast on April 26, 2016 during which we made a presentation on our financial results for the three months ended March 31, 2016 (the Presentation). The Press Release and the Presentation are available on our website at <http://investors.ryder.com>.

The Press Release and Presentation include information regarding the following non-GAAP financial measures as defined by SEC regulations:

Comparable earnings measures. We use comparable earnings from continuing operations, comparable earnings per share from continuing operations, comparable earnings before income tax and comparable tax rate, for both the first quarter of 2016 and 2015, and comparable earnings per share from continuing operations forecast for both second quarter and full year 2016. These "comparable" measures exclude from our GAAP earnings from continuing operations, earnings per share from continuing operations, earnings before income tax, tax rate and earnings per share from continuing operations forecast, as applicable, professional fees (first quarter 2015). We exclude this item because it is unrelated to our ongoing business operations. Additionally, we exclude non-operating pension costs from our GAAP earnings measures because these costs are primarily impacted by financial market performance and are outside of the operational performance of the business. We believe that these non-GAAP financial measures provide useful information to investors and allow for better year-over-year comparison of operating performance.

Operating revenue growth excluding foreign exchange. Ryder's period-over-period operating revenue growth excluding foreign exchange excludes the effects of changes in foreign currency exchange rates from our operating revenue financial measure. Due to the variability of foreign exchange rates from period to period, we use operating revenue growth excluding foreign exchange to evaluate period-over-period operating performance. Operating revenue growth excluding foreign exchange is calculated by dividing the results for the current and prior year periods by the exchange rates in effect on March 31, 2015, which was the last day of the prior year period, rather than the actual exchange rates in effect as of March 31, 2016.

Additional information regarding non-GAAP financial measures can be found in the Press Release, the Presentation and our reports filed with the SEC.

The information in this Report, including Exhibits 99.1 and 99.2, is being furnished pursuant to Item 2.02 of Form 8-K and General Instruction B.2 thereunder and shall not be deemed to be incorporated by reference in any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except as expressly set forth by specific reference to such filing.
