NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Unless the context requires otherwise, we, us or our refers to Stericycle, Inc. and its subsidiaries on a consolidated basis.

NOTE 1 BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations; but the Company believes the disclosures in the accompanying condensed consolidated financial statements are adequate to make the information presented not misleading. In our opinion, all adjustments necessary for a fair presentation for the periods presented have been reflected and are of a normal recurring nature. These condensed consolidated financial statements should be read in conjunction with the Consolidated Financial Statements and notes thereto for the year ended December 31, 2007, as filed with our Annual Report on Form 10-K for the year ended December 31, 2007. The results of operations for the three months ended March 31, 2008 are not necessarily indicative of the results that may be achieved for the entire year ending December 31, 2008.

NOTE 2 ACQUISITIONS AND DIVESTITURE

During the quarter ended March 31, 2008, we completed two acquisitions. We acquired selected assets of a domestic medical waste business and all the stock of a regulated waste business in Canada.

The aggregate net purchase price of our acquisitions, including adjustments for purchase accounting, during the quarter ended March 31, 2008 was approximately \$14.8 million, of which \$7.8 million was paid in cash and \$7.0 million was paid by the issuance of promissory notes. For financial reporting purposes these acquisition transactions were accounted for using the purchase method of accounting. The purchase prices of these acquisitions, in excess of acquired tangible assets, have been primarily allocated to goodwill and are preliminary pending completion of certain intangible asset valuations. The results of operations of these acquired businesses have been included in the consolidated statements of income from the dates of acquisition. These acquisitions resulted in recognition of

goodwill in our financial statements reflecting the complementary strategic fit that the acquired businesses brought to us.

Effective for the month ending March 31, 2008, we dissolved our relationship in a United Kingdom joint venture, White Rose Sharpsmart Limited that was formed in October 2001 prior to our acquisition of White Rose Environmental Limited in June

2004. This joint venture was previously consolidated in our financial statements. Please see Note 14 Subsequent Events for additional information.

NOTE 3 INCOME TAXES

We and our subsidiaries file U.S. federal income tax returns and income tax returns in various states and foreign jurisdictions. With a few exceptions, we are no longer subject to U.S. federal, state, local, or non-U.S. income tax examinations by tax authorities for years before 2001. Tax years 2005 and 2006 remain open and subject to examination by the IRS, and our subsidiaries in foreign countries have tax years open ranging from 2002 through 2007.

The total amount of unrecognized tax benefit reserve as of March 31, 2008 is \$3.7 million, which includes immaterial amounts of interest and penalties and is reflected as a liability on the balance sheet. The amount of unrecognized tax benefit reserve that, if recognized, would affect the effective tax rate is approximately \$3.7 million. We do not expect a significant increase or decrease to these balances over the next twelve months. We recognize interest and penalties accrued related to income tax reserves in income tax expense. This method of accounting is consistent with the prior year.

NOTE 4 STOCK BASED COMPENSATION

At March 31, 2008 we had stock options outstanding under the following plans:

(i)

the 2005 Incentive Stock Plan, which our stockholders approved in April 2005;

(ii)

the 2000 Nonstatutory Stock Option Plan, which our Board of Directors adopted in February 2000;

(iii)

the 1997 Stock Option Plan, which expired in January 2007;

(iv)

the Directors Stock Option Plan, which expired in May 2006;

(v)

the 1995 Incentive Compensation Plan, which expired in July 2005;

(vi)

and our Employee Stock Purchase Plan, which our stockholders approved in May 2001.

The following table sets forth the expense related to stock compensation:

	Three Months Ended March 31,	
	2008	2007
Stock options	\$ 2,929	\$ 2,355
Employee stock purchase program	135	95

	2008	2007
Tax benefit recognized in income statement	\$ 1,211	\$ 937
Excess tax benefit realized	(23)	576

The Black-Scholes option-pricing model is used in determining the fair value of each option grant using the assumptions noted in the table below. The expected term of options granted is based on historical experience and represents the period of time that awards granted are expected to be outstanding. Expected volatility is based upon historical volatility of the company's stock. The expected dividend yield is zero. The risk-free interest rate is based upon the U.S. Treasury yield rates of a comparable period.

The assumptions that we used in the Black-Scholes model are as follows:

	Three Months Ended March 31,	
	2008	2007
Expected term (in years)	5.5	5.0
Expected volatility	26.45%	27.47%
Expected dividend yield	0.00%	0.00%
Risk free interest rate	2.58%	4.53%

The weighted average grant date fair value of the stock options granted during the three months ended March 31, 2008 and 2007 was \$13.00 and \$11.00, respectively.

Stock option activity for the three months ended March 31, 2008, was as follows:

Number of Options	Weighted Average Exercise Price per Share	Weighted Average Remaining Contractual Life (in years)	Aggregate Intrinsic Value
----------------------	---	---	---------------------------------

Edgar Filing: STERICYCLE INC - Form 10-Q

Outstanding at December 31, 2007	7,258,795	\$	25.41		
Granted	973,712		53.26		
Exercised	(167,338)		15.03

Outstanding at March 31, 2008	7,982,151	\$	29.00	6.97	\$ 181,434,131
Exercisable at March 31, 2008	4,240,868	\$	21.50	5.67	\$ 127,438,240
Vested and expected to vest in the future					
at March 31, 2008	6,675,122	\$	27.36	6.68	\$ 162,465,061

The total intrinsic value of options exercised for the three months ended March 31, 2008 and 2007 was \$6.4 million and \$3.7 million, respectively. Intrinsic value is measured using the fair market value at the date of the exercise (for options exercised) or at March 31, 2008 (for outstanding options), less the applicable exercise price.

As of March 31, 2008, there was \$28.1 million of total unrecognized compensation expense, related to non-vested stock options, which is expected to be recognized over a weighted-average period of 2.08 years.

NOTE 5 COMMON STOCK

During the quarter ended March 31, 2008, we repurchased on the open market, and subsequently cancelled, 1,482,185 shares of common stock. The weighted average repurchase price was \$53.56 per share.

NOTE 6 NET INCOME PER COMMON SHARE

NOTE 8 GUARANTEE

We have guaranteed a loan to JPMorganChase Bank N.A. on behalf of Shiraishi-Sogyo Co. Ltd (Shiraishi). Shiraishi is a customer in Japan that is expanding their medical waste management business and has a six month loan with a current balance of \$4.8 million with JPMorganChase Bank N.A. that expires in May 2008. The loan with JPMorganChase and our associated guarantee will be extended until May 2009.

NOTE 9 GOODWILL

We have two geographical reporting segments, United States and Foreign Countries, both of which have goodwill. The changes in the carrying amount of goodwill, net of amortization, for the three months ended March 31, 2008 were as follows:

In thousands

	United States	Foreign Countries	Total
Balance as of January 1, 2008	\$ 842,978	\$ 190,355	\$ 1,033,333
Changes due to currency fluctuation	--	1,843	1,843

Changes in goodwill on 2007 acquisitions	(1,240)	1,828	588
Goodwill on 2008 acquisitions	--	12,758	12,758
Balance as of September 30, 2007	\$ 841,738	\$ 206,784	\$ 1,048,522

NOTE 10 LEGAL PROCEEDINGS

We operate in a highly regulated industry and must deal with regulatory inquiries or investigations from time to time that may be instituted for a variety of reasons. We are also involved in a variety of civil litigation from time to time.

As more fully discussed in Note 14 Subsequent Events, on April 19, 2008 Stericycle entered into a settlement that resulted in a total pre-tax expense of \$5.4 million, or an after-tax expense of \$3.3 million, in the first quarter of 2008.

NOTE 11 NEW ACCOUNTING STANDARDS

Effective January 1, 2008, we adopted Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, for all financial assets and liabilities and for nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. Financial Accounting Standards Board (FASB) Staff Position (FSP) No. 157-2 delayed the adoption date for nonfinancial assets and liabilities that are measured at fair value on a non-recurring basis, such as goodwill and identifiable intangible assets until January 1, 2009. We do not believe the adoption of SFAS No. 157 for our non-financial assets and liabilities, effective January 1, 2009, will have a material impact on our consolidated financial statements. Our adoption of SFAS No. 157 did not require a cumulative effect adjustment to the opening balance of our retained earnings. See Note 13 - Fair Value Measurements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115" (SFAS No. 159). SFAS No. 159 allows measurement at fair value of eligible financial assets and liabilities that are not otherwise measured at fair value. If the fair value option for an eligible item is elected, unrealized gains and losses for that item are reported in current earnings at each subsequent reporting date. SFAS No. 159 also establishes presentation and disclosure requirements designed to draw comparisons between the different measurement attributes that we elect for similar types of assets and liabilities. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. We do not have any financial assets or liabilities for which we elect the fair value option under SFAS No. 159.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007), *Business Combinations* (SFAS No. 141(R)). SFAS No. 141(R) replaces SFAS No. 141, *Business Combinations*. SFAS No. 141(R) requires the acquiring entity in a business combination to recognize the full fair value of assets acquired and liabilities assumed in the transaction; requires certain contingent assets and liabilities acquired to be recognized at their fair values on the acquisition date; requires contingent consideration to be recognized at its fair value on the acquisition date and changes in the fair value to be recognized in earnings until settled; requires the expensing of most transaction and restructuring costs; and generally requires the reversals of valuation allowances related to acquired deferred tax assets and changes to acquired income tax uncertainties to also be recognized in earnings. This accounting standard is effective for financial statements issued for fiscal years beginning after December 15, 2008. We are currently evaluating the provisions of SFAS No. 141(R) to determine the potential impact, if any, the adoption will have on our financial position and results of operations.

NOTE 12 GEOGRAPHIC INFORMATION

Management has determined that we have two reportable segments, United States and Foreign Countries based on our consideration of the criteria detailed in SFAS No.

131, Disclosures about Segments of an Enterprise and Related Information. Revenues are attributed to countries based on the location of customers. Inter-company revenues recorded by the United States for work performed in Canada, which are immaterial, are eliminated prior to reporting United States revenues. The same accounting principles and critical accounting policies are used in the preparation of the financial statements for both reporting segments.

Detailed information for our United States reporting segment is as follows:

In thousands

	Three Months Ended March 31,

NOTE 13 FAIR VALUE MEASUREMENTS

We adopted SFAS No. 157 on January 1, 2008, which clarifies that fair value refers to the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts. Under SFAS No. 157, fair value should be based on the assumptions market participants would use when pricing the asset or liability and establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of our company. Unobservable inputs are those that reflect the company's assumptions about what market participants would use in pricing the asset or liability developed based on the best information

available in the circumstances. The three levels of the fair value hierarchy defined by SFAS No. 157 are as follows:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 Valuations based on quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets or liabilities.

Level 3 Valuations based on inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

As required by SFAS No. 157, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Our assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of assets and liabilities and their placement within the fair value hierarchy levels. The impact of our creditworthiness has been considered in the fair value measurements noted below. In addition, under SFAS No. 157, the fair value measurement of a liability must reflect the nonperformance risk of an entity.

We have \$11.2 million in cash and cash equivalents, and \$0.2 million of short term investments that we carry on our books at fair value using Level 1 inputs. We have a cash flow hedge with an objective to offset foreign currency exchange risk to the U.S. dollar equivalent cash inflows on the settlement of a GBP denominated intercompany loan. The fair value of the hedge was calculated using Level 2 inputs and was recorded as a liability of \$2.3 million as of March 31, 2008.

NOTE 14 SUBSEQUENT EVENTS

On April 19, 2008 Stericycle and Daniels Corporation (UK) Limited (Daniels UK), a subsidiary of Daniels Sharpsmart Pty Limited (Daniels), and certain affiliated companies entered into a settlement of arbitration proceedings in the United Kingdom prior to any award by the arbitrator. These arbitration proceedings, which Daniels UK initiated in February 2007 under the Chartered Institute of Arbitrators Arbitration Rules, related to claims that our United Kingdom subsidiary, White Rose Environmental Limited (White Rose), had breached obligations that it owed to a joint venture that it had formed with Daniels UK for the sale of Daniels reusable sharps containers. This joint venture, White Rose Sharpsmart Limited, was formed in October 2001 prior to our acquisition of White Rose in June 2004.

At the same time as the settlement of the arbitration proceedings, we entered into settlements with other subsidiaries of Daniels resolving various disputes and received a full release of all claims. In addition, we finalized the payment of the legal fees that SteriCorp Limited had been awarded under the arbitrator's award that we have previously

reported. In connection with these net settlements, we recognized a total pre-tax expense of \$5.4 million, or an after-tax expense of \$3.3 million that was recorded as of March 31, 2008.

On April 15, 2008, we entered into a note purchase agreement with nine institutional purchasers pursuant to which we issued and sold to the purchasers \$100 million of our 5.64% senior notes due April 15, 2015 (the Notes). The notes bear interest at the fixed rate of 5.64% per annum. Interest is payable in arrears semi-annually on April 15 and October 15 beginning on October 15, 2008, and principal is payable at the maturity of the notes on April 15, 2015.

The Notes are unsecured obligations and rank pari passu with our obligations under our senior unsecured credit facility pursuant to our credit agreement with Bank of America, N.A. and the other lenders party to the credit agreement. We applied the proceeds from the sale of the Notes to reduce our borrowings under our senior unsecured credit facility. The Notes contain customary events of default, including our failure to pay any principal, interest or other amount when due, our violation of our affirmative or negative covenants or a breach of our representations and warranties. Upon the occurrence of an event of default, payment of the Notes may be accelerated by the holders of the notes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We were incorporated in 1989 and presently serve a very diverse customer base of approximately 397,200 customers throughout the United States, United Kingdom, Mexico, Canada, Ireland, Argentina, and Puerto Rico. We have fully integrated networks including processing centers and transfer and collection sites. We use these networks to provide a broad range of services to our customers including regulated medical waste management services and regulated return management services. Regulated medical waste management services include servicing a variety of customers to remove and process waste while regulated return management services are physical services provided to companies and individual businesses that assist with the handling of products that are being removed from the supply chain due to recalls and expiration. These services also include advanced notification technology that is used to communicate specific instructions to the users of the product. Our waste treatment technologies include autoclaving, incineration, chemical treatment and our proprietary electro-thermal-deactivation system. In addition, we have technology licensing agreements with companies located in Japan, Brazil, and South Africa.

Other than the adoption of SFAS No. 157 (see Note-13 Fair Value Measurements), there were no material changes in the Company's critical accounting policies since the filing of its 2007 Form 10-K. As discussed in the 2007 Form 10-K, the preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial

statements and revenues and expenses during the periods reported. Actual results may differ from those estimates.

Revenues: Our revenues increased \$43.7 million, or 20.7%, to \$254.8 million in 2008 from \$211.0 million in 2007. Domestic revenues increased \$31.2 million, or 19.1%, to \$194.3 million from \$163.1 million in 2007 as internal revenue growth for domestic small account customers increased by approximately \$12.4 million, or 13.6%, and internal revenue growth for large quantity customers increased by approximately \$5.3 million, or 9.5%. Internal revenue growth for returns management was \$0.9 million, and domestic acquisitions less than one year old contributed approximately \$12.6 million to the increase in domestic revenues.

International revenues increased \$12.5 million to \$60.5 million, or 26.1%, from \$47.9 million in 2007. Internal growth in the international segment contributed \$5.3 million, or 11.6% in increased revenues, before taking into consideration the effect of exchange rates, acquisitions, and divestitures. The effect of exchange rate fluctuations favorably impacted international revenues approximately \$2.3 million while acquisitions less than one year old contributed an additional \$6.8 million in international revenues. The divestiture of selected STG plants in the first quarter of 2007 negatively impacted the comparison to 2008 by \$1.9 million.

Cost of Revenues: Our cost of revenues increased \$24.4 million, or 20.9%, to \$141.2 million during 2008 from \$116.8 million during 2007. Our domestic cost of revenues increased \$16.9 million, or 20.1%, to \$101.3 million from \$84.4 million in 2007

as a result of costs related to a proportional increase in revenues from acquisitions and internal growth. Our international cost of revenues increased \$7.5 million, or 23.0% to \$39.9 million from \$32.4 million in 2007 as a result of costs related to proportional increase in revenues from acquisitions and internal revenue growth. Our gross margin percentage slightly decreased to 44.6% during 2008 from 44.7% during 2007 due to an increase in fuel and energy costs.

Selling, General and Administrative Expenses: Selling, general and administrative expenses, including acquisition related costs, increased \$9.8 million, or 25.1%, to \$48.8 million, for the quarter ended March 31, 2008 from \$39.0 million for the comparable quarter in 2007. As a percentage of revenue, these costs increased by 0.6% for the quarter ended March 31, 2008 compared to the same period in 2007 with 0.5% of the increase related to overhead expenses. The increase was primarily due to higher revenues from acquisitions and the related higher SG&A expenses.

Income from Operations: Income from operations increased to \$59.5 million for the quarter ended March 31, 2008 from \$55.4 million for the comparable quarter in 2007, an increase of 7.3%. During 2008, we recognized business dispute settlement and related costs of \$5.4 million. During the quarter ended March 31, 2007 we recognized a gain on sale of assets of \$0.8 million, offset by \$0.7 million in idled assets write-offs, \$0.2 million of which were related to disposal of an incinerator in Mexico.

Net Interest Expense: Net interest expense increased to \$7.7 million during the quarter ended March 31, 2008 from \$7.3 million during the comparable quarter in 2007 due to increased borrowings related to stock repurchases and acquisitions.

Income Tax Expense: Income tax expense increased to \$19.7 million for the quarter ended March 31, 2008 from \$18.7 million for the comparable quarter in 2007. The increase was due to higher taxable income. The effective tax rates for the quarters ended March 31, 2008 and 2007 were 38.3% and 38.9%, respectively.

LIQUIDITY AND CAPITAL RESOURCES

Our senior credit facility of \$850.0 million maturing in August 2012 requires us to comply with various financial, reporting and other covenants and restrictions, including a restriction on dividend payments. At March 31, 2008, we were in compliance with all of our financial debt covenants. At March 31, 2008 the margin for interest rates on borrowings under our new credit facility was 0.0% on base rate loans (at higher of (i) the federal funds rate plus 0.5% or (ii) the prime rate) and 0.75% on LIBOR loans.

As of March 31, 2008, we had \$495.1 million of borrowings outstanding under our senior unsecured credit facility, which includes foreign currency borrowings of \$12.5 million. In addition, we had \$144.8 million committed to outstanding letters of credit. The weighted average rate of interest on the unsecured revolving credit facility was 3.53% per annum. At March 31, 2008 we had \$177.2 million in other debt outstanding, which includes promissory notes issued in connection with acquisitions during 2004 through 2008, other foreign subsidiary bank debt and \$1.6 million in capital leases.

On April 15, 2008, we entered into a note purchase agreement (the note purchase agreement) with nine institutional purchasers pursuant to which we issued and sold to the purchasers \$100,000,000 of our 5.64% senior notes due April 15, 2015 (the notes). The notes bear interest at the fixed rate of 5.64% per annum. Interest is payable in arrears semi-annually on April 15 and October 15 beginning on October 15, 2008, and principal is payable at the maturity of the notes on April 15, 2015.

The notes are unsecured obligations and rank pari passu with our obligations under our senior unsecured credit facility pursuant to our credit agreement with Bank of America, N.A. and the other lenders party to the credit agreement. We applied the proceeds from the sale of the notes to reduce our borrowings under our revolving credit facility under our senior unsecured credit facility. The notes contain customary events of default, including our failure to pay any principal, interest or other amount when due, our violation of our affirmative or negative covenants or a breach of our representations and warranties. Upon the occurrence of an event of default, payment of the notes may be accelerated by the holders of the notes.

Working Capital: At March 31, 2008, our working capital decreased \$15.1 million to \$45.5 million compared to \$60.6 million at December 31, 2007. Of the decrease in working capital, \$14.3 million related an increase in accrued income tax payable related to the timing of tax payments. An additional \$4.8 million decrease is attributable to additional accrued amounts related to the Daniels settlement discussed in Note 10 Legal Proceedings. Our deferred revenues increased \$4.1 million which is primarily related to prepayments on customer contracts in the United Kingdom. Partially offsetting those decreases to working capital was a decrease in our accounts payable of \$12.2 million that was due to the timing of vendor payments.

Net Cash Provided or Used: Net cash provided by operating activities increased \$10.7 million, or 20.3%, to \$63.6 million during the quarter ended March 31, 2008 compared to \$52.9 million for the comparable period in 2007. The increase in operating cash was primarily due to collections on higher revenues, which increased 20.7%.

Net cash used in investing activities for the quarter ended March 31, 2008 was \$18.0 million compared to cash provided of \$2.2 million in the comparable period in 2007. The difference is due to \$26.5 million received from the divestiture of selected plants in the United Kingdom completed in February 2007, partially offset by \$6.9 million less paid for acquisitions in 2008.

At March 31, 2008 we had approximately 9% of our treatment capacity in North America in incineration and approximately 91% in non-incineration technologies, such as autoclaving, and our proprietary patented ETD technology. The implementation of our commitment to move away from incineration in North America may result in a write-down of the incineration equipment as and when we close incinerators that we are currently operating. The net book value of our North American incinerators is approximately \$6.9 million, or 0.4% of our total assets. Our commitment to move away from incineration in North America is in the nature of a goal to be accomplished over an undetermined number of years. Because of uncertainties relating, among other things, to customer education and acceptance and legal requirements to incinerate portions of the

medical waste, we do not have a timetable for this transition or specific plans to close any of our existing incinerators.

Net cash used in financing activities was \$48.0 million during the quarter ended March 31, 2008 compared to \$47.9 million for the comparable period in 2007. An increase of \$33.3 million for the repurchase and cancellation of common stock over the prior year period was offset by a \$15.9 million decrease in repayment of long-term debt and an \$18.4 million increase of borrowings under our senior unsecured credit facility.

Guarantees: We have guaranteed a loan to JPMorganChase Bank N.A. on behalf of Shiraishi-Sogyo Co. Ltd (Shiraishi). Shiraishi is a customer in Japan that is expanding their medical waste management business and has a six month loan with a current balance of \$4.8 million with JPMorganChase Bank N.A. that expires in May 2008. The loan with JPMorganChase and our associated guarantee will be extended until May 2009.

ITEM 3. QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to market risks arising from changes in interest rates. Our potential additional interest expense over one year that would result from a hypothetical, instantaneous and unfavorable change of 100 basis points in the interest rate on all of our variable rate obligations would be approximately \$5.3 million on a pre-tax basis.

We have exposure to currency exchange rate fluctuations between the U.S. dollar and U.K. pound sterling (GBP) related to an 11 million GBP inter-company loan to Stericycle International, Ltd., the parent company of White Rose Environmental. We use cash flow hedge accounting treatment on our forward contracts. The forward contracts are marked to market at the end of each reporting period and the impact on the balances is recorded on the balance sheet to other comprehensive income.

We have exposure to commodity pricing for gas and diesel fuel for our trucks and for the purchase of containers and boxes. We do not hedge these items to manage the exposure.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our President and Chief Executive Officer and our Chief Financial Officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter covered by this Report. On the basis of this evaluation, our President and Chief Executive Officer and our Chief Financial Officer each concluded that our disclosure controls and procedures were effective.

The term disclosure controls and procedures is defined in Rule 13a-14(e) of the Securities Exchange Act of 1934 as controls and other procedures designed to ensure that information required to be disclosed by the issuer in the reports, files or submits under the Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Our disclosure controls and procedures are designed to ensure that material information relating to us and our consolidated subsidiaries is accumulated and communicated to our management, including our President and Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding our required disclosures.

Internal Control Over Financial Reporting

During the quarter ended March 31, 2008, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely materially to affect, our internal controls over financial reporting.

FROM TIME TO TIME WE ISSUE FORWARD-LOOKING STATEMENTS RELATING TO SUCH THINGS AS ANTICIPATED FINANCIAL PERFORMANCE, BUSINESS PROSPECTS, ACQUISITION ACTIVITIES AND SIMILAR MATTERS.

THESE FORWARD-LOOKING STATEMENTS MAY INVOLVE RISKS AND UNCERTAINTIES, SOME OF WHICH ARE BEYOND OUR CONTROL (FOR EXAMPLE, GENERAL ECONOMIC CONDITIONS). OUR ACTUAL RESULTS COULD DIFFER SIGNIFICANTLY FROM THE RESULTS DESCRIBED IN THE FORWARD-LOOKING STATEMENTS. FACTORS THAT COULD CAUSE SUCH DIFFERENCES INCLUDE DIFFICULTIES IN COMPLETING THE INTEGRATION OF ACQUIRED BUSINESSES, CHANGES IN GOVERNMENTAL REGULATION OF MEDICAL WASTE COLLECTION AND TREATMENT, AND INCREASES IN TRANSPORTATION AND OTHER OPERATING COSTS, AS WELL AS VARIOUS OTHER FACTORS.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 10, Legal Proceedings, in the Notes to the Condensed Consolidated Financial Statements (Item 1 of Part I).

ITEM 2. CHANGES IN SECURITIES, USES OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES

In May 2002 our Board of Directors authorized the Company to repurchase up to 6,000,000 shares of our common stock, in the open market or through privately negotiated transactions, at times and in amounts in the Company's discretion.

In February 2005, at a time when we had purchased a total of 2,956,860 shares, the Board authorized us to purchase an additional 2,956,860 shares.

In February 2007, at a time when we had purchased an additional 3,142,080 shares since the prior increase in authorization, the Board authorized us to purchase up to an additional 3,142,080 shares.

In May 2007, at a time when we had purchased an additional 1,187,142 shares since the prior increase in authorization, the Board authorized us to purchase up to an additional 1,187,142 shares, thereby again giving the Company the authority to purchase up to a total of 6,000,000 additional shares.

The following table provides information about our purchases during the three months ended March 31, 2008 of shares of our common stock.
