FORWARD-LOOKING STATEMENTS

This Quarterly Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical fact included in this report, including, without limitation, statements regarding our financial position, business strategy and other plans and objectives for our future operations, are forward-looking statements. These statements include declarations regarding our management's beliefs and current expectations. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could", "intend," "consider," "expect," "plan," "anticipate," "believe," "estimate," "predict" or "continue" or the negative of such terms or other comparable terminology. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Forward-looking statements involve a number of assumptions, risks and uncertainties that could cause actual results to differ materially from those suggested by such statements. Accordingly, you should not place undue reliance on any forward-looking statement. Important factors that could cause actual results to differ include, but are not limited to, the risks discussed in "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014 and the following:

- adverse effects on our business as a result of recent regulatory settlements;
- reactions to the announcement of such settlements by key counterparties;
- increased regulatory scrutiny and media attention, due to rumors or otherwise;
- uncertainty related to claims, litigation and investigations brought by government agencies and private parties regarding our servicing, foreclosure, modification and other practices;
- any adverse developments in existing legal proceedings or the initiation of new legal proceedings;
- our ability to effectively manage our regulatory and contractual compliance obligations;
- the adequacy of our financial resources, including our sources of liquidity and ability to fund and recover advances, repay borrowings and comply with our debt agreements;
- our servicer and credit ratings as well as other actions from various rating agencies, including the impact of recent downgrades of our servicer and credit ratings;
- volatility in our stock price;
- the characteristics of our servicing portfolio, including prepayment speeds along with delinquency and advance rates;
- our ability to contain and reduce our operating costs;
- our ability to successfully modify delinquent loans, manage foreclosures and sell foreclosed properties;
- uncertainty related to legislation, regulations, regulatory agency actions, regulatory examinations, government programs and policies, industry initiatives and evolving best servicing practices;
- our dependence on New Residential Investment Corp. (NRZ) for a substantial portion of our advance funding for non-agency mortgage servicing rights;
- uncertainties related to our long-term relationship with NRZ;
- the loss of the services of our senior managers;
- uncertainty related to general economic and market conditions, delinquency rates, home prices and disposition timelines on foreclosed properties;
- uncertainty related to the actions of loan owners and guarantors, including mortgage-backed securities investors, trustees and government sponsored entities (GSEs), regarding loan put-backs, penalties and legal actions;
- our ability to comply with our servicing agreements, including our ability to comply with our seller/servicer agreements with GSEs and maintain our status as an approved seller/servicer;
- uncertainty related to the GSEs substantially curtailing or ceasing to purchase our conforming loan originations;
- uncertainty related to the processes for judicial and non-judicial foreclosure proceedings, including potential additional costs or delays or moratoria in the future or claims pertaining to past practices;
- our reserves, valuations, provisions and anticipated realization on assets;
- our ability to execute on our strategy to reduce the size of our agency portfolio;
- uncertainty related to the ability of third-party obligors and financing sources to fund servicing advances on a timely basis on loans serviced by us;
- uncertainty related to the ability of our technology vendors to adequately maintain and support our systems, including our servicing systems, loan originations and financial reporting systems;

- our ability to effectively manage our exposure to interest rate changes and foreign exchange fluctuations;
- uncertainty related to our ability to adapt and grow our business;
- our ability to integrate the systems, procedures and personnel of acquired assets and businesses;
- our ability to maintain our technology systems and our ability to adapt such systems for future operating environments;
- failure of our internal security measures or breach of our privacy protections;
- and
- uncertainty related to the political or economic stability of foreign countries in which we have operations.

Further information on the risks specific to our business is detailed within this report and our other reports and filings with the Securities and Exchange Commission (SEC) including our Annual Report on Form 10-K for the year ended December 31, 2014 and our Current Reports on Form 8-K. Forward-looking statements speak only as of the date they were made and except for our ongoing obligations under the U.S. federal securities laws, we undertake no obligation to update or revise forward-looking statements whether as a result of new information, future events or otherwise.

OCWEN FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2015

(Dollars in thousands, except per share data and unless otherwise indicated)

Note 1 – Description of Business and Basis of Presentation

Organization

Ocwen Financial Corporation (NYSE: OCN) (Ocwen, we, us and our) is a financial services holding company which, through its subsidiaries, is engaged in the servicing and origination of mortgage loans. Ocwen is headquartered in Atlanta, Georgia with offices throughout the United States (U.S.) and in the United States Virgin Islands (USVI) with support operations in India and the Philippines. Ocwen is a Florida corporation organized in February 1988.

Ocwen owns all of the common stock of its primary operating subsidiary, Ocwen Mortgage Servicing, Inc. (OMS), and directly or indirectly owns all of the outstanding stock of its other primary operating subsidiaries: Ocwen Loan Servicing, LLC (OLS), Ocwen Financial Solutions Private Limited, Homeward Residential, Inc. (Homeward), and Liberty Home Equity Solutions, Inc. (Liberty).

We perform primary and master servicer activities on behalf of investors and other servicers, including the Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac) (collectively, the GSEs), the Government National Mortgage Association (Ginnie Mae) and private-label securitizations (non-Agency). As primary servicer, we may be required to make certain payments of property taxes and insurance premiums, default and property maintenance payments, as well as advances of principal and interest payments before collecting them from borrowers. As master servicer, we collect mortgage payments from primary servicers and distribute the funds to investors in the mortgage-backed securities. To the extent the primary servicer does not advance the scheduled principal and interest, as master servicer we are responsible for advancing the shortfall subject to certain limitations.

We originate, purchase, sell and securitize conventional (conforming to the underwriting standards of Fannie Mae or Freddie Mac; collectively referred to as Agency loans) and government insured (Federal Housing Authority (FHA) or Department of Veterans Affairs (VA) forward and reverse mortgages. The GSEs or Ginnie Mae guarantee these securitizations.

Note 1A — Business Environment and Other Uncertainties

We are facing certain challenges and uncertainties that could have significant adverse effects on our business, liquidity and financing activities. We may be adversely impacted by the following, among other things:

- Failure to maintain sufficient liquidity to operate our servicing and lending businesses;
- Failure to comply with covenants;
- Downgrades in our third-party servicer ratings;
- Regulatory actions against us; or
- Our relationship with Home Loan Servicing Solutions, Ltd. (HLSS).

Liquidity

Our ability to finance servicing advances is a significant factor that affects our liquidity. Our use of advance financing facilities is integral to our servicing advance financing strategy, as these advance financing facilities are necessary for us to meet our daily advance funding obligations under our servicing agreements. Our advance funding facilities have a 364-day term and the revolving periods for all of our advance funding facilities end in 2015. At March 31, 2015, we had \$2.0 billion outstanding under these facilities. In the event we are unable to renew, replace or extend one or more of these advance funding facilities, repayment of the outstanding balance must begin at the end of the respective revolving period. In addition, we use mortgage loan warehouse facilities to fund newly originated loans on a short-term basis until they are sold to secondary market investors, including GSEs or other third-party investors. All of our master repurchase and participation agreements for financing new loan originations have 364-day terms and mature in 2015 under the same construct of 364-day facilities that are typically renewed annually. At March 31, 2015, we had \$373.0 million outstanding under these financing arrangements.

We currently plan to renew, replace or extend all of these debt agreements consistent with our historical experience. We currently are in negotiations with our lenders for the renewal, replacement or extension of our debt arrangements that mature or begin amortization in 2015. We may also consider other capital markets transactions including, but not limited to, the sale and financing of advance receivables in the event we do not renew, replace or extend a portion or all of our existing advance financing facilities. We have entered into commitment letters to refinance certain of our debt agreements and extended certain facilities ahead of their scheduled maturity, as detailed below under "Recent Actions." Our lenders' obligations to fund under these commitment letters are subject to conditions precedent, some of which are outside our control. In the event we are unable

to renew, replace or extend all of these debt agreements, we may not have adequate sources of funding for our business. Due to the significant level of cash requirements related to servicing advances, we may not have sufficient levels of liquidity to fund the operations without our advance financing facilities. We typically require significantly more liquidity to meet our advance funding obligations than our available cash on hand.

Covenants

Under the terms of our existing debt agreements, we are subject to various qualitative and quantitative covenants.

These covenants include:

Financial covenants;

Covenants to operate in material compliance with applicable laws;

Restrictions on our ability to engage in various activities, including but not limited to incurring additional debt, paying dividends, repurchasing or redeeming capital stock, transferring assets or making loans, investments or acquisitions;

Monitoring and reporting of various specified transactions or events, including specific reporting on defined events affecting collateral underlying certain debt agreements; and

Requirements to provide audited financial statements within specified timeframes, including a requirement under our SSTL that Ocwen's financial statements and the related audit report be unqualified as to going concern.

Financial covenants in our debt agreements require that we maintain, among other things:

a specified interest coverage ratio, which is defined under our SSTL as the ratio of trailing four quarter adjusted EBITDA to trailing four quarter interest expense (each as defined therein);

a specified corporate leverage ratio, which is defined under our SSTL as consolidated debt to trailing four quarter adjusted EBITDA (each as defined therein);

a specified consolidated total debt to consolidated tangible net worth ratio;

a specified loan to value ratio, as defined under our SSTL; and

specified levels of consolidated tangible net worth, liquidity and, at the OLS level, net operating income.

As a result of the covenants to which we are subject, we may be limited in the manner in which we conduct our business and may be limited in our ability to engage in favorable business activities or raise additional capital to finance future operations or satisfy future liquidity needs. In addition, breaches or events that may result in a default under our debt agreements include, among other things, noncompliance with our covenants, nonpayment of principal or interest, material misrepresentations, the occurrence of material adverse change, insolvency, bankruptcy, certain material judgments and changes of control. Covenants and defaults of this type are commonly found in debt agreements such as ours. Certain of these covenants and defaults are open to subjective interpretation and, if our interpretation were contested by a lender, a court may ultimately be required to determine compliance or lack thereof. In addition, our debt agreements generally include cross default provisions such that a default under one agreement could trigger defaults under other agreements. If we fail to comply with our debt agreements and are unable to avoid, remedy or secure a waiver of any resulting default, we may be subject to adverse action by our lenders, including termination of further funding, acceleration of outstanding obligations, enforcement of liens against the assets securing or otherwise supporting our obligations, and other legal remedies. Our lenders can waive their contractual rights in the event of a default.

OLS, Homeward and Liberty are parties to seller/servicer agreements and/or subject to guidelines and regulations (collectively, seller/servicer obligations) with one or more of the GSEs, the Department of Housing and Urban Development (HUD), FHA, VA and Ginnie Mae. These seller/servicer obligations include financial covenants that include capital requirements related to tangible net worth, as defined by the applicable agency, an obligation to provide audited consolidated financial statements within 90 days of the applicable entity's fiscal year end as well as extensive requirements regarding servicing, selling and other matters. To the extent that these requirements are not met or waived, the applicable agency may, at its option, utilize a variety of remedies including, requirements to deposit funds as security for our obligations, sanctions, suspension or even termination of approved seller/servicer status, which would prohibit future originations or securitizations of forward or reverse mortgage loans or servicing for the applicable agency. To date, none of these agencies has communicated any material sanction, suspension or prohibition in connection with our seller/servicer obligations. We believe we were in compliance with the related net worth requirements at March 31, 2015. Our non-Agency servicing agreements also contain requirements regarding

servicing practices and other matters, and a failure to comply with these requirements could have an adverse impact on our business.

Servicer Ratings

Standard & Poor's (S&P), Moody's Investors Service (Moody's), Fitch Ratings Inc. (Fitch) and Morningstar, Inc. (Morningstar) rate us as a mortgage servicer. Each of these rating agencies has downgraded our servicer rating within the last nine months. Additionally, three of these rating agencies currently have our ratings outlook as 'negative' or 'on review for downgrade.' Maintaining minimum ratings from these agencies are important to the conduct of our loan servicing and lending

businesses. Further downgrades in servicer ratings could adversely affect our ability to finance servicing advances and maintain our status as an approved servicer by Fannie Mae and Freddie Mac. The servicer rating requirements of Fannie Mae do not necessarily require or imply immediate action, as Fannie Mae has discretion with respect to whether we are in compliance with their requirements and what actions it deems appropriate under the circumstances in the event that we fall below their desired servicer ratings.

In addition, out of approximately 4,100 non-Agency servicing agreements, approximately 700 with approximately \$45.0 billion of UPB as of March 31, 2015 have minimum servicer ratings criteria. As a result of downgrades in our servicer ratings, termination rights have been triggered in approximately 400 of these non-Agency servicing agreements. This represents approximately \$25.0 billion in UPB as of March 31, 2015, or approximately 12% of our total non-Agency servicing portfolio. We recently received notices terminating us as the servicer under four of our non-Agency servicing agreements due to rating downgrades. Pursuant to our servicing agreements, generally we are entitled to payment of accrued and unpaid servicing fees through termination as well as all advances and certain other previously unreimbursed amounts, although we lose the future servicing fee revenue. While the financial impact of the termination of servicing under these four servicing agreements, which represent 0.15% of our overall servicing portfolio as of March 31, 2015, is immaterial to our overall financial condition, we could be subject to further terminations, either as a result of recent servicer ratings downgrades or future adverse actions by rating agencies, which could have an adverse effect on our business, financing activities, financial condition and results of operations. Under one of its advance financing agreements, OLS must maintain certain minimum servicer ratings assigned by S&P, Moody's and Fitch. If any of these rating agencies withdraws its rating or if the assigned ratings falls below the minimum ratings established in the lending agreement, an early amortization event occurs under the lending agreement if the lender's agent notifies the indenture trustee that an early amortization event has occurred. As a result of downgrades in our servicer ratings, the lender has the right to deliver such notice at any time. The lender has agreed not to deliver such a notice to the indenture trustee subject to its ongoing monthly review. If an early amortization event occurs and is not waived by the lender, no new advances can be funded under the facility, all collections on advances funded through the facility must be used to pay interest and principal on currently outstanding borrowings under the facility, minimum facility balance repayments would be instituted, and the interest rate margin on 1-month LIBOR would increase. At March 31, 2015, we had \$348.3 million of borrowings outstanding under this facility out of a maximum borrowing capacity of \$400.0 million. The scheduled date to begin amortization of this facility is June 2015. As described below under "Recent Actions," one of our commitment letters provides for replacement financing should the existing lender seek not to renew or extend the revolving period upon its completion in June 2015. Downgrades in our servicer ratings could also affect the terms and availability of debt financing facilities that we may seek in the future.

Our failure to maintain minimum or specified ratings could adversely affect our dealings with contractual counterparties, including GSEs, and regulators, any of which could have a material adverse effect on our business, financing activities, financial condition and results of operations.

Regulatory Uncertainties

As a result of the current regulatory environment, we have faced, and expect to continue to face, increased regulatory and public scrutiny as well as stricter and more comprehensive regulation of our business. We have recently entered into a number of regulatory settlements which have significantly impacted our ability to grow our servicing portfolio and which subject us to ongoing monitoring or reporting. See Note 18 - Regulatory Requirements and Note 20 - Contingencies for further information regarding regulatory requirements, our recent regulatory settlements and regulatory-related contingencies.

To the extent that an examination or other regulatory engagement reveals a failure by us to comply with applicable law, regulation or licensing requirement, or if we fail to comply with the commitments we have made under our regulatory settlements or if other regulatory actions are taken in the future against us of a similar or different nature, this could lead to (i) loss of our licenses and approvals to engage in our servicing and lending businesses, (ii) governmental investigations and enforcement actions, (iii) administrative fines and penalties and litigation, (iv) civil and criminal liability, including class action lawsuits, (v) breaches of covenants and representations under our servicing, debt or other agreements, (vi) inability to raise capital and (vii) inability to execute on our business strategy.

Any of these occurrences could increase our operating expenses and reduce our revenues, hamper our ability to grow or otherwise materially and adversely affect our business, reputation, financial condition and results of operations.

Our Relationship with HLSS

We have sold rights to receive servicing fees, excluding ancillary income, with respect to certain non-Agency MSR (Rights to MSR), together with the related servicing advances, to HLSS. As of March 31, 2015 and through the date of HLSS' sale transaction with New Residential Investment Corp. (NRZ) on April 6, 2015, we were dependent upon HLSS for financing

of servicing advance obligations for loans underlying Rights to MSR where we are the servicer but HLSS assumed this obligation under the terms of our agreements with HLSS. HLSS, in turn, was dependent upon its advance financing facilities in order to fund a substantial portion of the servicing advances that it was contractually obligated to make pursuant to our agreements with HLSS. As of March 31, 2015, we were the servicer on Rights to MSRs pertaining to approximately \$156.3 billion in UPB and the associated outstanding servicing advances as of such date were approximately \$5.8 billion.

HLSS' advance funding facilities had a 364-day term and the revolving periods for a significant portion of their advance funding facilities were scheduled to end in 2015. We are contractually required under our servicing agreements to make the relevant servicing advances even if HLSS did not, or was unable to, perform in accordance with its contractual obligations to fund those advances. If an event of default were to be determined, HLSS' advance financing facilities revolving periods would terminate and the facilities would begin amortization. There were no provisions under which Ocwen would have been obligated to repay the HLSS advance financing facilities upon an event of default by HLSS. Instead, Ocwen, as servicer, would have been immediately responsible for all new advances. We do not have any committed or executed financial arrangements to provide for this need should it arise, and we cannot provide any assurances that such financing would be available, or if available, could be obtained at terms and conditions acceptable to us.

On April 6, 2015, HLSS closed on the sale of substantially all of its assets to NRZ. Following the sale, NRZ, is the owner of the Rights to MSRs and related advances and has assumed HLSS' rights and obligations under the associated agreements. NRZ is a public company listed on the New York Stock Exchange, whose business is focused on investing in, and actively managing, investments related to residential real estate, including MSRs. NRZ is externally managed and advised by an affiliate of Fortress Investment Group LLC, a global investment management organization.

Recent Actions

To address the uncertainties set forth above, we have proactively engaged with our lenders to address our maturing debt agreements. Recent financing developments include the following:

On April 17, 2015, we entered into an agreement with a lender to provide, subject to a definitive master repurchase agreement and other funding conditions, up to \$125.0 million of backup financing for new loan originations should existing facilities not renew at their maturity date.

On April 17, 2015, we entered into an amendment to the SSTL facility agreement. Effective as of April 20, 2015, the amendment, among other things (1) removed, with respect to the 2014 fiscal year, the requirement that our financial statements and the related audit report must be unqualified as to going concern; and (2) extended the required time period for delivery of the 2014 audited financial statements to May 29, 2015.

On May 11, 2015, we entered into an agreement with a global financial institution to refinance, subject to definitive documentation, the maintenance of our current servicer ratings with Standard & Poor's Ratings Services, and other funding conditions, \$500.0 million of commitments under an existing \$1.8 billion servicing advance financing facility and to extend the applicable revolving period to or beyond March 31, 2016.

Prior to the issuance of these unaudited consolidated financial statements, we entered into amendments or obtained waivers from each lender, to the extent necessary, extending the contractually required time period for delivery of audited financial statements for fiscal year 2014 to May 29, 2015.

On April 6, 2015, we entered into an amendment to certain of the agreements governing our relationship with HLSS. In consideration of our consent to the assignment by HLSS to NRZ of all HLSS' right, title and interest in, to and under our arrangements with HLSS (including the Rights to MSRs), the amendment, among other things:

extended the term during which we are scheduled to be the servicer on loans underlying the Rights to MSRs (along with the associated economic benefits) for two additional years or until April 30, 2020, whichever is earlier, which would depend on the sale date for the applicable Rights to MSRs (existing terms ranged from February 2018 through October 2019 prior to the amendment);

provided that such extension will not apply with respect to any servicing agreement that, as of the date that it was scheduled to terminate under our original agreements, is affected by an uncured termination event due to a downgrade of our servicer rating to "Below Average" or lower by S&P or to "SQ4" or lower by Moody's;

provided that the parties will commence negotiating in good faith for an extension of the contract term and the servicing fees payable to us no later than six months prior to the end of the applicable term as extended pursuant to the amendment; and

imposed a two-year standstill (until April 6, 2017 and subject to certain conditions) on the rights of NRZ to replace us as servicer.

In the event there is a future downgrade of our S&P servicer rating below our current rating of "Average," we have also agreed to compensate NRZ, as successor to HLSS, for certain increased costs associated with its servicing advance financing facilities, including increased costs of funding, to the extent such costs are the direct result of such downgrade. The amendment provided that any such compensation, if required, shall not exceed \$3.0 million for any calendar month or \$36.0 million in the

aggregate. In such an event, NRZ has agreed to use commercially reasonable efforts to assist us in curing any potential cost increases by obtaining amendments to the relevant financing agreements.

Consistent with our strategic plan to sell a significant portion of our Agency MSR, we have announced or completed a number of asset sales, including the following:

On March 2, 2015, we signed a letter of intent with JPMorgan Chase & Co. for the sale of MSR on a portfolio consisting of approximately 250,000 performing Agency loans owned by Fannie Mae with a total UPB of approximately \$42.0 billion. On May 13, 2015, we signed a definitive agreement having obtained all necessary approvals. This transaction is scheduled to close on June 1, 2015. In connection with this transaction, on April 17, 2015, we entered into a letter agreement with Fannie Mae pursuant to which we will designate a portion of the expected proceeds as prepayments to secure against certain future obligations. These future obligations include repurchases, indemnifications and various fees. The total cash pre-payments are \$15.4 million, including \$3.2 million paid on April 27, 2015 with the remainder to be paid on June 1, 2015. Another \$37.5 million of escrowed collateral will be set aside on June 1, 2015 to secure potential future obligations not covered by the prepaid amount.

On March 18, 2015, OLS and Green Tree Loan Servicing, a subsidiary of Walter Investment Management Corp. (collectively Walter), signed an agreement in principle for the sale of residential MSR on a portfolio consisting of approximately 54,000 largely performing loans owned by Freddie Mac with a total UPB of approximately \$9.2 billion. We executed a definitive agreement on April 29, 2015 and initial funding occurred on April 30, 2015. We expect that servicing will begin to transfer on or around June 16, 2015.

On March 24, 2015, we announced that OLS and Nationstar Mortgage LLC, an indirectly held, wholly owned subsidiary of Nationstar Mortgage Holdings Inc. (collectively, "Nationstar"), have agreed in principle to the sale of residential MSR on a portfolio consisting of approximately 140,000 loans owned by Freddie Mac and Fannie Mae with a total UPB of approximately \$24.9 billion. We closed on the sale of a portion of these MSR, with a total UPB of approximately \$2.7 billion, on April 30, 2015. The sale of the remaining MSR, subject to a definitive agreement, approvals by Fannie Mae and FHFA and other customary conditions, is expected to close in June 2015.

On March 31, 2015, OLS closed on a sale agreement with Nationstar for the sale of residential MSR on a portfolio consisting of 76,000 performing loans owned by Freddie Mac with a UPB of \$9.1 billion. Servicing was successfully transferred on April 16, 2015.

We currently expect to receive approximately \$860.0 million of proceeds from the above described transactions, subject in each case to necessary approvals and the satisfaction of closing conditions. We expect that the majority of such proceeds will be used for prepayments under our SSTL. In addition, on April 30, 2015, we announced agreements with Fannie Mae and Freddie Mac to sell portfolios of non-performing loan servicing. We expect these transactions to close over the coming months, with the first transfer having occurred on May 1, 2015. These transactions will include payments to the GSEs to assume the delinquent servicing and may, in some cases, include settlements of certain indemnification obligations. We expect these transactions to be cash flow positive as we will be reimbursed for outstanding advances.

We have been, and continue to, engage in communications with the ratings agencies and key stakeholders, including the GSEs, in connection with recent and planned future actions and developments, including the uncertainties identified above.

We also continue to work with our regulators, including the CFPB and state regulators and attorneys general, on enhancing our risk and compliance management systems and remediating deficiencies. We are currently unaware of any significant unresolved issues with state agencies and not aware of, nor anticipating, any material regulatory fines, penalties or settlements. We are not aware of any pending or threatened actions to suspend or revoke any state licenses.

There can be no assurances that management's recent and future actions will be successful in mitigating the above risks and uncertainties in our business.

Note 1B - Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in conformity with the instructions of the Securities and Exchange Commission (SEC) to Form 10-Q and SEC Regulation S-X, Article 10, Rule 10-01 for interim financial statements. Accordingly, they do not include all of the information and footnotes required by

accounting principles generally accepted in the United States of America (GAAP) for complete financial statements. In our opinion, the accompanying unaudited consolidated financial statements contain all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation. The results of operations and other data for the three months ended March 31, 2015 are not necessarily indicative of the results that may be expected for any other interim period or for the year ending December 31, 2015. The unaudited consolidated financial statements presented herein should be read in conjunction with the audited consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2014.

Reclassifications

Within the Other income (expense) section of the unaudited Consolidated Statement of Operations for the three months ended March 31, 2014, we reclassified Interest income from Other, net to a separate line item to conform to the current year presentation.

Certain insignificant amounts in the unaudited Consolidated Statement of Cash Flows for the three months ended March 31, 2014 have been reclassified to conform to the current year presentation. These reclassifications had no impact on our consolidated cash flows from operating, investing or financing activities.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amounts of revenues and expenses during the reporting period and the related disclosures in the accompanying notes. Such estimates and assumptions include, but are not limited to, those that relate to fair value measurements, the provision for potential losses that may arise from litigation proceedings, and representation and warranty and other indemnification obligations. In developing estimates and assumptions, management uses all available information; however, actual results could materially differ because of uncertainties associated with estimating the amounts, timing and likelihood of possible outcomes.

Note 2 – Securitizations and Variable Interest Entities

We securitize, sell and service forward and reverse residential mortgage loans and regularly transfer financial assets in connection with asset-backed financing arrangements. We have aggregated these securitizations and asset-backed financing arrangements into two groups: (1) securitizations of residential mortgage loans and (2) financings of advances on loans serviced for others.

We have determined that the special purpose entities (SPEs) created in connection with our match funded advance financing facilities are variable interest entities (VIEs) for which we are the primary beneficiary.

Securitizations of Residential Mortgage Loans

Currently, we securitize forward and reverse residential mortgage loans involving the GSEs and Ginnie Mae and loans insured by the FHA or VA. We retain the right to service these loans and receive servicing fees based upon the securitized loan balances and certain ancillary fees, all of which are reported in Servicing and subservicing fees on the unaudited Consolidated Statements of Operations.

Transfers of Forward Loans

We sell or securitize forward loans that we originate or that we purchase from third parties, generally in the form of mortgage-backed securities guaranteed by the GSEs or Ginnie Mae. Securitization usually occurs within 30 days of loan closing or purchase. We retain the servicing rights associated with the transferred loans and receive a servicing fee for services provided. We act only as a fiduciary and do not have a variable interest in the securitization trusts. As a result, we account for these transactions as sales upon transfer.

We report the gain or loss on the transfer of the loans held for sale in Gain on loans held for sale, net in the unaudited Consolidated Statements of Operations along with the changes in fair value of the loans and the gain or loss on any related derivatives. We include all changes in loans held for sale and related derivative balances in operating activities in the unaudited Consolidated Statements of Cash Flows.

The following table presents a summary of cash flows received from and paid to securitization trusts related to transfers accounted for as sales that were outstanding during the three months ended March 31:

	2015	2014
Proceeds received from securitizations	\$1,070,772	\$1,534,251
Servicing fees collected	347	5,194
Purchases of previously transferred assets, net of claims reimbursed	500	—
	\$1,071,619	\$1,539,445

In connection with these transfers, we retained MSRs of \$8.5 million and \$11.6 million during the three months ended March 31, 2015 and 2014, respectively. We initially record the MSRs at fair value and subsequently account for them at amortized cost.

Certain obligations arise from the agreements associated with our transfers of loans. Under these agreements, we may be obligated to repurchase the loans, or otherwise indemnify or reimburse the investor or insurer for losses incurred due to material breach of contractual representations and warranties.

The following table presents the carrying amounts of our assets that relate to our continuing involvement with forward loans that we have transferred with servicing rights retained as well as our maximum exposure to loss including the unpaid principal balance (UPB) of the transferred loans at the dates indicated:

	March 31, 2015	December 31, 2014
Carrying value of assets:		
Mortgage servicing rights, at amortized cost	\$85,215	\$82,542
Mortgage servicing rights, at fair value	2,656	2,840
Advances and match funded advances	481	1,236
UPB of loans transferred (1)	10,345,586	9,353,187
Maximum exposure to loss	\$10,433,938	\$9,439,805

(1) The UPB of the loans transferred is the maximum exposure to loss under our standard representations and warranties obligations.

At March 31, 2015 and December 31, 2014, 4.9% and 5.1%, respectively, of the transferred residential loans that we service were 60 days or more past due. During the three months ended March 31, 2015, there were no charge-offs, net of recoveries, associated with these transferred loans.

Transfers of Reverse Mortgages

We are an approved issuer of Ginnie Mae Home Equity Conversion Mortgage-Backed Securities (HMBS) that are guaranteed by Ginnie Mae. We originate Home Equity Conversion Mortgages (HECMs, or reverse mortgages) that are insured by the FHA. We then pool the loans into HMBS that we sell into the secondary market with servicing rights retained. We have determined that loan transfers in the HMBS program do not meet the definition of a participating interest because of the servicing requirements in the product that require the issuer/servicer to absorb some level of interest rate risk, cash flow timing risk and incidental credit risk. As a result, the transfers of the HECMs do not qualify for sale accounting, and therefore, we account for these transfers as financings. Under this accounting treatment, the HECMs are classified as Loans held for investment - reverse mortgages, at fair value, on our unaudited Consolidated Balance Sheets. We record the proceeds from the transfer of assets as secured borrowings (HMBS-related borrowings) in Financing liabilities and recognize no gain or loss on the transfer. Holders of participating interests in the HMBS have no recourse against the assets of Ocwen, except for standard representations and warranties and our contractual obligation to service the HECMs and the HMBS.

We have elected to measure the HECMs and HMBS-related borrowings at fair value. The changes in fair value of the HECMs and HMBS-related borrowings are included in Other revenues in our unaudited Consolidated Statements of Operations. Included in net fair value gains on the HECMs and related HMBS borrowings are the interest income that we expect to be collected on the HECMs and the interest expense that we expect to be paid on the HMBS-related borrowings. We report originations and collections of HECMs in investing activities in the unaudited Consolidated Statements of Cash Flows. We report net fair value gains on HECMs and the related HMBS borrowings as an adjustment to the net cash provided by or used in operating activities in the unaudited Consolidated Statements of Cash Flows. Proceeds from securitizations of HECMs and payments on HMBS-related borrowings are included in financing activities in the unaudited Consolidated Statements of Cash Flows.

At March 31, 2015 and December 31, 2014, we had HMBS-related borrowings of \$1.7 billion and \$1.4 billion and HECMs pledged as collateral to the pools of \$1.8 billion and \$1.6 billion, respectively.

Financings of Advances on Loans Serviced for Others

Match funded advances on loans serviced for others result from our transfers of residential loan servicing advances to SPEs in exchange for cash. We consolidate these SPEs because we have determined that Ocwen is the primary beneficiary of the SPE. These SPEs issue debt supported by collections on the transferred advances.

We make the transfers to these SPEs under the terms of our advance financing facility agreements. We classify the transferred advances on our unaudited Consolidated Balance Sheets as Match funded advances and the related

liabilities as Match funded liabilities. The SPEs use collections of the pledged advances to repay principal and interest and to pay the expenses of the SPE. Holders of the debt issued by these entities can look only to the assets of the SPE for satisfaction of the debt and have no recourse against Ocwen. The assets and liabilities of the advance financing SPEs are comprised solely of

15

Match funded advances, Debt service accounts, Match funded liabilities and amounts due to affiliates. Amounts due to affiliates are eliminated in consolidation in our unaudited Consolidated Balance Sheets.

Note 3 – Fair Value

Fair value is estimated based on a hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels whereby the highest priority is given to Level 1 inputs and the lowest to Level 3 inputs.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

We classify assets in their entirety based on the lowest level of input that is significant to the fair value measurement.

Edgar Filing: OCWEN FINANCIAL CORP - Form 10-Q

The carrying amounts and the estimated fair values of our financial instruments and certain of our nonfinancial assets measured at fair value on a recurring or non-recurring basis or disclosed, but not carried, at fair value are as follows at the dates indicated:

	Level	March 31, 2015		December 31, 2014	
		Carrying Value	Fair Value	Carrying Value	Fair Value
Financial assets:					
Loans held for sale:					
Loans held for sale, at fair value (a)	2	\$339,508	\$339,508	\$401,120	\$401,120
Loans held for sale, at lower of cost or fair value (b)	3	68,489	68,489	87,492	87,492
Total Loans held for sale		\$407,997	\$407,997	\$488,612	\$488,612
Loans held for investment - Reverse mortgages, at fair value (a)	3	\$1,808,141	\$1,808,141	\$1,550,141	\$1,550,141
Advances and match funded advances (c)	3	3,195,505	3,195,505	3,303,356	3,303,356
Receivables, net (c)	3	299,836	299,836	270,596	270,596
Mortgage-backed securities, at fair value (a)	3	7,701	7,701	7,335	7,335
Financial liabilities:					
Match funded liabilities (c)	3	\$2,000,676	\$2,000,676	\$2,090,247	\$2,090,247
Financing liabilities:					
HMBS-related borrowings, at fair value (a)	3	\$1,702,397	\$1,702,397	\$1,444,252	\$1,444,252
Financing liability - MSR's pledged (a)	3	594,495	594,495	614,441	614,441
Other (c)	3	191,715	172,610	199,948	189,648

Forward MBS trades	1	(5,249)	(5,249)	(2,854)	(2,854)
Interest rate caps	3	203	203	567	567
MSR's:					
MSR's, at fair value (a)	3	\$897,797	\$897,797	\$93,901	\$93,901
MSR's, at amortized cost (c) (d)	3	922,854	1,064,134	1,820,091	2,237,703
Total MSR's		\$1,820,651	\$1,961,931	\$1,913,992	\$2,331,604

(a) Measured at fair value on a recurring basis.

(b) Measured at fair value on a non-recurring basis.

(c) Disclosed, but not carried, at fair value.

The balance at March 31, 2015 includes our impaired government-insured stratum of amortization method MSR's, (d) which is measured at fair value on a non-recurring basis. The carrying value of this stratum at March 31, 2015 was \$127.1 million, net of a valuation allowance of \$17.8 million.

The following tables present a reconciliation of the changes in fair value of Level 3 assets and liabilities that we measure at fair value on a recurring basis.

	Loans Held for Investment - Reverse Mortgages	HMBS-Related Borrowings	Mortgage-Backed Securities	Financing Liability - MSRs Pledged	Derivatives	MSRs	Total
Three months ended March 31, 2015							
Beginning balance	\$1,550,141	\$ (1,444,252)	\$ 7,335	\$(614,441)	\$567	\$93,901	\$(406,749)
Purchases, issuances, sales and settlements:							
Purchases	—	—	—	—	—	—	—
Issuances	235,271	(238,615)	—	—	—	(1,169)	(4,513)
Transfer from MSRs, at amortized cost	—	—	—	—	—	839,157	839,157

(1) In the event of a transfer of servicing to another party related to Rights to MSR sold to HLSS, and now NRZ, we are required to reimburse HLSS, and now NRZ, at predetermined contractual rates for the loss of servicing revenues. Settlements for Financing liability - MSR pledged for the three months ended March 31, 2015 includes \$2.2 million of such reimbursements.

(2) Total losses attributable to derivative financial instruments still held at March 31, 2015 were \$0.4 million for the three months ended March 31, 2015.

The methodologies that we use and key assumptions that we make to estimate the fair value of financial instruments and other assets and liabilities measured at fair value on a recurring or non-recurring basis and those disclosed, but not carried, at fair value are described below.

Loans Held for Sale

We originate and purchase residential mortgage loans that we intend to sell to the GSEs. We also own residential mortgage loans that are not eligible to be sold to the GSEs due to delinquency or other factors. Residential forward and reverse mortgage loans that we intend to sell to the GSEs are carried at fair value as a result of a fair value election. Such loans are subject to changes in fair value due to fluctuations in interest rates from the closing date through the date of the sale of the loan into the secondary market. These loans are classified within Level 2 of the valuation hierarchy because the primary component of the price is obtained from observable values of mortgage forwards for loans of similar terms and characteristics. We have the ability to access this market, and it is the market into which conventional and government-insured mortgage loans are typically sold.

We repurchase certain loans from Ginnie Mae guaranteed securitizations in connection with loan modifications and loan resolution activity as part of our contractual obligations as the servicer of the loans. These loans are classified as loans held for sale at the lower of cost or fair value, in the case of modified loans, as we expect to redeliver (sell) the loans to new Ginnie Mae guaranteed securitizations. The fair value of these loans is estimated using published forward Ginnie Mae prices. Loans repurchased in connection with loan resolution activities are modified or otherwise remediated through loss mitigation activities or are reclassified to receivables. Because these loans are insured or guaranteed by the FHA or VA, the fair value of these loans represents the net recovery value taking into consideration the insured or guaranteed claim.

For all other loans held for sale, which we report at the lower of cost or fair value, market illiquidity has reduced the availability of observable pricing data. When we enter into an agreement to sell a loan or pool of loans to an investor at a set price, we value the loan or loans at the commitment price. We base the fair value of uncommitted loans on the expected future cash flows discounted at a rate commensurate with the risk of the estimated cash flows.

Loans Held for Investment – Reverse Mortgages

We have elected to measure these loans at fair value. For transferred reverse mortgage loans that do not qualify as sales for accounting purposes, we base the fair value on the expected future cash flows discounted over the expected life of the loans at a rate commensurate with the risk of the estimated cash flows. Significant assumptions include expected prepayment and delinquency rates and cumulative loss curves. The discount rate assumption for these assets is primarily based on an assessment of current market yields on newly originated reverse mortgage loans, expected duration of the asset and current market interest rates.

The more significant assumptions used in the March 31, 2015 valuation include:

- Life in years ranging from 6.47 to 10.48 (weighted average of 6.96);
- Conditional repayment rate ranging from 4.81% to 53.75% (weighted average of 19.25%); and
- Discount rate of 2.80%.

Significant increases or decreases in any of these assumptions in isolation could result in a significantly lower or higher fair value, respectively. The effects of changes in the assumptions used to value the loans held for investment are largely offset by the effects of changes in the assumptions used to value the HMBS-Related Borrowings that are associated with these loans.

Mortgage Servicing Rights

The significant components of the estimated future cash inflows for MSR's include servicing fees, late fees, float earnings and other ancillary fees. Significant cash outflows include the cost of servicing, the cost of financing servicing advances and compensating interest payments.

Third-party valuation experts generally utilize: (a) transactions involving instruments with similar collateral and risk profiles, adjusted as necessary based on specific characteristics of the asset or liability being valued; and/or (b) industry-standard modeling, such as a discounted cash flow model, in arriving at their estimate of fair value. The prices provided by the valuation experts reflect their observations and assumptions related to market activity, including risk premiums and liquidity adjustments. The models and related assumptions used by the valuation experts are owned and managed by them and, in many cases, the significant inputs used in the valuation techniques are not reasonably available to us. However, we have an internal understanding of the processes and assumptions used to develop the prices based on our ongoing due diligence, which includes regular discussions with the valuation experts. We believe that the procedures executed by the valuation experts, supported by our internal verification and analytical procedures, provide assurance that the prices used in our Consolidated Financial Statements comply with the accounting guidance for fair value measurements and disclosures and reflect the assumptions that a market participant would use.

We evaluate the reasonableness of our third party experts' assumptions using historical experience adjusted for prevailing market conditions. Assumptions used in the valuation of MSR's include:

- | | |
|------------------------------|---|
| • Mortgage prepayment speeds | • Interest rate used for computing the cost of financing servicing advances |
| • Cost of servicing | • Interest rate used for computing float earnings |
| • Discount rate | • Compensating interest expense |
| • Delinquency rates | • Collection rate of other ancillary fees |

Amortized Cost MSR's

We estimate the fair value of MSR's carried at amortized cost using a process that involves either actual sale prices obtained or the use of third-party valuation experts, supported by commercially available discounted cash flow models and analysis of current market data. To provide greater price transparency to investors, we disclose actual Ocwen sale prices for orderly transactions where available in lieu of third-party valuations.

The more significant assumptions used in the March 31, 2015 valuation include:

Weighted average prepayment speed	12.57	%
Weighted average delinquency rate	10.81	%
Advance financing cost	5-year swap	
Interest rate for computing float earnings	5-year swap	
Weighted average discount rate	9.38	%
Weighted average cost to service (in dollars)	\$86	

We perform an impairment analysis based on the difference between the carrying amount and fair value after grouping the underlying loans into the applicable strata. In response to the significant change in the composition of our MSR portfolio as a result of recent acquisitions, our strata are defined as conventional and government-insured.

Fair Value MSRs

MSRs carried at fair value are classified within Level 3 of the valuation hierarchy. The fair value is equal to the mid-point of the range of prices provided by third-party valuation experts, without adjustment, except in the event we have a potential or completed Ocwen sale, including transactions where we have executed letters of intent, in which case the fair value of the MSRs is carried at the estimated sale price. Fair value reflects actual Ocwen sale prices for orderly transactions where available in lieu of independent third-party valuations. Our valuation process includes discussions of bid pricing with the third-party valuation experts and presumably are contemplated along with other market-based transactions for their model validation.

A change in the valuation inputs utilized by the valuation experts might result in a significantly higher or lower fair value measurement. Changes in market interest rates tend to impact the fair value for Agency MSRs via prepayment speeds by altering the borrower refinance incentive, and for Non-Agency MSRs via a market rate indexed cost of advance funding. Other key assumptions used in the valuation of these MSRs include delinquency rates and discount rates.

The primary assumptions used in the March 31, 2015 valuation include:

	Agency		Non Agency	
Weighted average prepayment speed	10.47	%	17.28	%
Weighted average delinquency rate	0.86	%	30.02	%
Advance financing cost	5-year swap		1ML plus 3.5%	
Interest rate for computing float earnings	5-year swap		1ML	
Weighted average discount rate	9.01	%	14.95	%
Weighted average cost to service (in dollars)	\$69		\$339	

Advances

We value advances at their net realizable value, which generally approximates fair value, because advances have no stated maturity, are generally realized within a relatively short period of time and do not bear interest.

Receivables

The carrying value of receivables generally approximates fair value because of the relatively short period of time between their origination and realization.

Mortgage-Backed Securities

Our subordinate and residual securities are not actively traded, and therefore, we estimate the fair value of these securities based on the present value of expected future cash flows from the underlying mortgage pools. We use our best estimate of the key assumptions we believe are used by market participants. We calibrate our internally developed discounted cash flow models for trading activity when appropriate to do so in light of market liquidity levels. Key inputs include expected prepayment rates, delinquency and cumulative loss curves and discount rates commensurate with the risks. Where possible, we use observable inputs in the valuation of our securities. However, the subordinate and residual securities in which we have invested trade infrequently and therefore have few or no observable inputs and little price transparency. Additionally, during periods of market dislocation, the observability of inputs is further reduced.

Discount rates for the subordinate and residual securities are determined based upon an assessment of prevailing market conditions and prices for similar assets. We project the delinquency, loss and prepayment assumptions based on a comparison to actual historical performance curves adjusted for prevailing market conditions.

Match Funded Liabilities

For match funded liabilities that bear interest at a rate that is adjusted regularly based on a market index, the carrying value approximates fair value. For match funded liabilities that bear interest at a fixed rate, we determine fair value by discounting the future principal and interest repayments at a market rate commensurate with the risk of the estimated cash flows. We estimate principal repayments of match funded liabilities during the amortization period based on our historical advance collection rates and taking into consideration any plans to refinance the notes. At March 31, 2015 and December 31, 2014, the interest on all borrowings under match funded facilities was based on a variable rate adjusted regularly using a market index, and therefore, the carrying value approximates fair value.

Financing Liabilities

HMBS-Related Borrowings

We have elected to measure these borrowings at fair value. We recognize the proceeds from the transfer of reverse mortgages as a secured borrowing that we account for at fair value. These borrowings are not actively traded, and therefore, quoted market prices are not available. We determine fair value by discounting the future principal and interest repayments over the estimated life of the borrowing at a market rate commensurate with the risk of the estimated cash flows. Significant assumptions include prepayments, discount rate and borrower mortality rates for reverse mortgages. The discount rate assumption for these liabilities is based on an assessment of current market yields for newly issued HMBS, expected duration and current market interest rates.

The more significant assumptions used in the March 31, 2015 valuation include:

- Life in years ranging from 4.90 to 10.48 (weighted average of 5.61);
- Conditional repayment rate ranging from 4.81% to 53.75% (weighted average of 19.25%); and
- Discount rate of 2.05%.

Significant increases or decreases in any of these assumptions in isolation would result in a significantly higher or lower fair value.

MSRs Pledged

We periodically sell Rights to MSRs. Because we have retained legal title to the MSRs, the sales of Rights to MSRs are accounted for as financings. We initially establish the value of the Financing Liability - MSRs Pledged based on the price at which the Rights to MSRs are sold. Thereafter, the carrying value of the Financing Liability - MSRs pledged is adjusted to fair value at each reporting date. We determine fair value by applying the price of the underlying MSRs to the remaining principal balance related to the underlying MSRs. Since we have elected fair value for our portfolio of private-label MSRs, future fair value changes in the Financing Liability - MSRs Pledged will be largely offset by changes in the fair value of the related MSRs.

The more significant assumptions used in determination of the price of the underlying MSRs at March 31, 2015 include:

Weighted average prepayment speed	17.83	%
Weighted average delinquency rate	31.00	%
Advance financing cost	1ML plus 3.5%	
Interest rate for computing float earnings	1ML	
Weighted average discount rate	15.22	%
Weighted average cost to service (in dollars)	\$345	

Significant increases or decreases in these assumptions in isolation would result in a significantly higher or lower fair value

Secured Notes

We issued Ocwen Asset Servicing Income Series (OASIS), Series 2014-1 Notes secured by Ocwen-owned MSRs relating to Freddie Mac mortgages. We accounted for this transaction as a financing. We determine the fair value based on bid prices provided by third parties involved in the issuance and placement of the notes.

Other Secured Borrowings

The carrying value of secured borrowings that bear interest at a rate that is adjusted regularly based on a market index approximates fair value. For other secured borrowings that bear interest at a fixed rate, we determine fair value by discounting the future principal and interest repayments at a market rate commensurate with the risk of the estimated cash flows. For the SSTL, we based the fair values at March 31, 2015 and December 31, 2014 on quoted prices in a market with limited trading activity.

Senior Unsecured Notes

We base the fair value on quoted prices in a market with limited trading activity.

Derivative Financial Instruments

IRLCs represent an agreement to purchase loans from a third-party originator or an agreement to extend credit to a mortgage applicant (locked pipeline), whereby the interest rate is set prior to funding. IRLCs are classified within Level 2 of the valuation hierarchy as the primary component of the price is obtained from observable values of mortgage forwards for loans of similar terms and characteristics. Fair value amounts of IRLCs are adjusted for expected “fallout” (locked pipeline loans not expected to close) using models that consider cumulative historical fallout rates and other factors.

We enter into forward mortgage-backed securities (MBS) trades to provide an economic hedge against changes in fair value of residential forward and reverse mortgage loans held for sale that we carry at fair value. Forward MBS trades are primarily used to fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market. Forward contracts are actively traded in the market and we obtained unadjusted market quotes for these derivatives, thus they are classified within Level 1 of the valuation hierarchy.

In addition, we may use interest rate caps to minimize future interest rate exposures on variable rate debt issued on servicing advance financing facilities from increases in one-month LIBOR interest rates. The fair value for interest rate caps is based on counterparty market prices and adjusted for counterparty credit risk.

Note 4 — Sales of Advances and MSR to HLSS

In order to efficiently finance our assets and operations and to create liquidity, we periodically sell MSRs, Rights to MSRs and servicing advances to market participants, including HLSS. We typically retain the right to subservice loans when we sell MSRs and we remain the servicer on the Rights to MSRs sold to HLSS. Counterparties may also acquire advance financing SPEs and the related match funded liabilities. In connection with sales of Rights to MSRs, we retain legal ownership of the MSRs and continue to service the related mortgage loans until such time as all necessary consents are received. We are obligated to transfer legal ownership of the MSRs to NRZ, upon it obtaining all required third-party consents and licenses.

On April 6, 2015, HLSS MSR-EBO Acquisition, LLC, a subsidiary of NRZ, entered into a transaction to acquire substantially all of the assets of HLSS, including HLSS Holdings, LLC, and Ocwen entered into a consent to this transfer and amendment of its agreements with NRZ. NRZ, through its subsidiaries, is now the owner of the Rights to MSRs and has assumed HLSS’ rights and obligations under the associated agreements.

Pursuant to our agreements, HLSS and now NRZ, assumed the obligation to fund new servicing advances with respect to the Rights to MSRs. However, because we remain the servicer on the loans for which the Rights to MSRs have been sold to HLSS, in the event HLSS, and now NRZ, were to fail to fulfill its advance funding obligations, as the servicer under our servicing agreements, we would be contractually obligated to fund such advances. At March 31, 2015, HLSS had outstanding advances of approximately \$5.8 billion in connection with the Rights to MSRs. On April 6, 2015, we entered into an amendment to the various purchase and sale supplement agreements with NRZ.

As it relates to the sale of Rights to MSRs to HLSS (together with the sale of the related servicing advances, the HLSS Transactions), if and when such transfer of legal ownership occurs, OLS will subservice the loans pursuant to a subservicing agreement, as amended, with NRZ. There were no sales to HLSS during the first quarter of either 2015 or 2014.

We have also, and in the future may, sell MSRs in transactions accounted for as sales. We may retain subservicing in connection with the transactions.

To the extent we retain legal title to the MSRs, the sales of Rights to MSRs are accounted for as financings. Upon receipt of third-party consents, we would derecognize the related MSRs. Upon derecognition, any resulting gain or

loss is deferred and amortized over the expected life of the related subservicing agreement. Until derecognition, we continue to recognize the full amount of servicing revenue and amortization of the MSRs. The sales of the related advances generally meet the requirements for sale accounting, and the advances are derecognized from our financial statements at the time of the sale.

In 2014, Ocwen sold advances related to certain FHA-insured mortgage loans to subsidiaries of HLSS, now subsidiaries of NRZ. These advance sales did not qualify for sales treatment and were accounted for as financings.

Note 5 – Loans Held for Sale

Loans Held for Sale - Fair Value

Loans held for sale, at fair value, represent residential mortgage loans originated or purchased and held until sold to secondary market investors, such as the GSEs or other third parties. The following table summarizes the activity in the balance during the three months ended March 31:

	2015	2014
Beginning balance	\$401,120	\$503,753
Originations and purchases	922,254	1,416,797
Proceeds from sales	(990,634)	(1,481,403)
Transfers to loans held for investment - reverse mortgages	—	(110,874)
Gain on sale of loans	15,265	12,863
Other	(8,497)	(2,908)
Ending balance	\$339,508	\$338,228

At March 31, 2015, loans held for sale, at fair value with a UPB of \$311.0 million were pledged to secure warehouse lines of credit in our Lending segment.

Loans Held for Sale - Lower of Cost or Fair Value

Loans held for sale, at lower of cost or fair value, include residential loans that we do not intend to hold to maturity.

The following table summarizes the activity in the balance during the three months ended March 31:

	2015	2014
Beginning balance	\$87,492	\$62,907
Purchases	113,896	959,756
Proceeds from sales	(140,948)	(835,786)
Principal collections	(13,863)	(96,300)
Transfers to accounts receivable	(16,572)	(66,187)
Transfers to real estate owned	(2,296)	(648)
Gain on sale of loans	17,271	23,031
Decrease (increase) in valuation allowance	19,728	(4,163)
Other	3,781	2,865
Ending balance (1) (2)	\$68,489	\$45,475

The balances at March 31, 2015 and March 31, 2014 are net of valuation allowances of \$29.9 million and \$36.0 million, respectively. The decrease in the valuation allowance for the three months ended March 31, 2015 resulted principally from the reversal of \$22.5 million of the allowance that was associated with loans that were sold to an unrelated third party in March 2015. This decrease was partly offset by an increase of \$0.9 million in the allowance resulting from transfers from the liability for indemnification obligations for the initial valuation adjustment that we recognized on certain loans that we repurchased from Fannie Mae and Freddie Mac guaranteed securitizations. For the three months ended March 31, 2014 the increase in the allowance was principally the result of \$5.4 million of such transfers from the liability for indemnification obligations.

The balances at March 31, 2015 and March 31, 2014 include \$43.9 million and \$6.1 million, respectively, of loans that we were required to repurchase from Ginnie Mae guaranteed securitizations as part of our servicing obligations. Repurchased loans are modified or otherwise remediated through loss mitigation activities or are reclassified to receivables.

At March 31, 2015, Loans held for sale, at lower of cost or fair value with a UPB of \$33.1 million were pledged to secure a warehouse line of credit in our Servicing segment.

In March 2014, we purchased delinquent FHA-insured loans with a UPB of \$549.4 million out of Ginnie Mae guaranteed securitizations under the terms of a conditional repurchase option whereby as servicer we have the right, but not the obligation,

to repurchase delinquent loans at par plus delinquent interest (the Ginnie Mae early buy-out (EBO) program). Immediately after their purchase, we sold the loans (the Ginnie Mae EBO Loans) and related advances to HLSS Mortgage for \$612.3 million (\$556.6 million for the Ginnie Mae EBO Loans and \$55.7 million for the related servicing advances). We recognized a gain of \$7.2 million on the sale of the loans.

The sales of advances to HLSS Mortgage did not qualify for sales treatment and were accounted for as a financing. We refer to the purchase and sale of the Ginnie Mae EBO Loans and the sale of the related advances to HLSS Mortgage as the Ginnie Mae EBO Transactions.

In March 2015, we recognized a gain of \$12.9 million on sales of loans with a total UPB of \$42.7 million to an unrelated third party. We had repurchased these loans under the representation, warranty and indemnification provisions of our contractual obligations to the GSEs as primary servicer of the loans.

Gain on Loans Held for Sale, Net

The following table summarizes the activity in Gain on loans held for sale, net, during the three months ended March 31:

	2015	2014
Gain on sales of loans	\$51,400	\$54,993
Change in fair value of IRLCs	(2,233) 986
Change in fair value of loans held for sale	(4,008) 1,800
Loss on economic hedge instruments	(427) (13,610
Other	(228) (182
	\$44,504	\$43,987

Gains on loans held for sale, net include \$8.5 million and \$11.6 million for the three months ended March 31, 2015 and 2014, respectively, representing the value assigned to MSR's retained on transfers of forward loans.

Also included in Gains on loans held for sale, net are gains of \$4.3 million and \$22.8 million recorded during the three months ended March 31, 2015 and 2014, respectively, on sales of repurchased Ginnie Mae loans, which are carried at the lower of cost or fair value.

Fair value gains recognized in connection with sales of reverse mortgages into Ginnie Mae guaranteed securitizations are also included in Gains on loans held for sale, net and amounted to \$25.6 million and \$16.1 million for the three months ended March 31, 2015 and 2014, respectively.

Note 6 – Advances

Advances, net, representing payments made on behalf of borrowers or on foreclosed properties, consisted of the following at the dates indicated:

	March 31, 2015	December 31, 2014
Servicing:		
Principal and interest	\$137,929	\$128,217
Taxes and insurance	467,716	467,891
Foreclosures, bankruptcy and other (1)	332,829	293,340
	938,474	889,448
Corporate Items and Other	4,064	4,466
	\$942,538	\$893,914

(1) The balances at March 31, 2015 and December 31, 2014 are net of an allowance for losses of \$71.9 million and \$70.0 million, respectively.

The following table summarizes the activity in advances for the three months ended March 31:

	2015	2014
Beginning balance	\$893,914	\$890,832
Acquisitions	—	98,875
Transfers to match funded advances	—	(10,156)
Sales of advances	(1,765)	—
New advances (collections of advances), net and other	50,389	(41,625)
Ending balance	\$942,538	\$937,926

Note 7 – Match Funded Advances

Match funded advances on residential loans we service for others are comprised of the following at the dates indicated:

	March 31, 2015	December 31, 2014
Principal and interest	\$1,249,364	\$1,349,048
Taxes and insurance	807,267	847,064
Foreclosures, bankruptcy, real estate and other	196,336	213,330
	\$2,252,967	\$2,409,442

The following table summarizes the activity in match funded advances for the three months ended March 31:

	2015	2014
Beginning balance	\$2,409,442	\$2,552,383
Acquisitions	—	85,521
Transfers from advances	—	10,156
New advances (collections of pledged advances), net and other	(156,475)	7,794
Ending balance	\$2,252,967	\$2,655,854

Note 8 – Mortgage Servicing

Mortgage Servicing Rights – Amortization Method

The following table summarizes the activity in the carrying value of amortization method servicing assets for the three months ended March 31. Amortization of mortgage servicing rights is reported net of the amortization of any servicing liabilities and includes the amount of charges we recognized to increase servicing liability obligations, if any.

	2015	2014
Beginning balance	\$1,820,091	\$1,953,352
Fair value election - transfer to MSR's carried at fair value (1)	(787,142)	—
Additions recognized in connection with business acquisitions	—	20,324
Additions recognized in connection with asset acquisitions	3,267	6,697
Additions recognized on the sale of mortgage loans	8,528	11,614
Sales (2)	(65,627)	—
Servicing transfers and adjustments	—	(364)
	979,117	1,991,623
Amortization	(38,494)	(62,094)
Impairment (3)	(17,769)	—
Ending balance	\$922,854	\$1,929,529

Estimated fair value at end of period \$1,064,134 \$2,774,910

Effective January 1, 2015, we elected fair value accounting for a newly-created class of non-Agency MSR's, which (1) were previously accounted for using the amortization method. This irrevocable election applies to all subsequently acquired or

originated servicing assets and liabilities that have characteristics consistent with this class. We recorded a cumulative-effect adjustment of \$52.0 million (before deferred income taxes of \$9.2 million) to retained earnings as of January 1, 2015 to reflect the excess of the fair value of these MSR's over their carrying amount. At December 31, 2014, the UPB of the non-Agency MSR's for which the fair value election was made was \$195.3 billion.

On March 31, 2015, we closed on the sale of Agency MSR's on a portfolio consisting of 76,000 performing loans (2) owned by Freddie Mac with a total UPB of \$9.1 billion. We completed the transfer of the loan servicing on April 16, 2015.

We established a \$17.8 million valuation allowance related to impairment on our government-insured MSR's, as the fair value for this stratum was less than its carrying value. This impairment was primarily due to the FHA reducing the mortgage insurance premium rate by 50 basis points during the quarter, which created a significantly lower (3) interest rate for existing FHA borrowers and in turn, generated higher projected prepayment speed and shorter asset life inputs used to value these MSR's. The impairment charge is recognized in Servicing and origination expense in the unaudited Consolidated Statements of Operations.

Mortgage Servicing Rights—Fair Value Measurement Method

This portfolio comprises servicing rights for which we elected the fair value option and includes Agency residential mortgage loans for which we previously hedged the related market risks and a new class of non-Agency residential mortgage loans for which we elected fair value as of January 1, 2015.

The following table summarizes the activity related to fair value servicing assets for the three months ended March 31:

	2015			2014	
	Agency	Non-Agency	Total		
Beginning balance	\$93,901	\$—	\$93,901	\$116,029	
Fair value election - transfer from MSR's carried at amortized cost	—	787,142	787,142	—	
Cumulative effect of fair value election	—	52,015	52,015		
Sales	—	(947)	(947)) —	
Servicing transfers and adjustments	—	(1,139)	(1,139)) —	
Changes in fair value (1):					
Changes in valuation inputs or other assumptions	(6,110))—	(6,110)) (3,155))
Realization of expected future cash flows and other changes	(3,276)) (23,789)) (27,065)) (2,048))
Ending balance	\$84,515	\$813,282	\$897,797	\$110,826	

(1) Changes in fair value are recognized in Servicing and origination expense in the unaudited Consolidated Statements of Operations.

Because the mortgages underlying these MSR's permit the borrowers to prepay the loans, the value of the MSR's generally tends to diminish in periods of declining interest rates (as prepayments increase) and increase in periods of rising interest rates (as prepayments decrease). The following table summarizes the estimated change in the value of the MSR's that we carry at fair value as of March 31, 2015 given hypothetical instantaneous parallel shifts in the yield curve:

	Adverse change in fair value	
	10%	20%
Weighted average prepayment speeds	\$(40,557)) \$(101,371)
Discount rate (option-adjusted spread)	\$(22,770)) \$(44,842)

The sensitivity analysis measures the potential impact on fair values based on hypothetical changes (increases and decreases) in interest rates.

Portfolio of Assets Serviced

The following table presents the composition of our primary servicing and subservicing portfolios by type of property serviced as measured by UPB. The servicing portfolio represents loans for which we own the MSR while subservicing represents all other loans. The UPB of assets serviced for others are not included on our unaudited Consolidated Balance Sheets.

	Residential	Commercial	Total
UPB at March 31, 2015			
Servicing (1)	\$337,125,187	\$—	\$337,125,187
Subservicing	45,088,815	161,887	45,250,702
	\$382,214,002	\$161,887	\$382,375,889
UPB at December 31, 2014			
Servicing (1)	\$361,288,281	\$—	\$361,288,281
Subservicing	37,439,446	149,737	37,589,183
	\$398,727,727	\$149,737	\$398,877,464
UPB at March 31, 2014			
Servicing (1)	\$391,701,237	\$—	\$391,701,237
Subservicing	57,869,359	318,507	58,187,866
	\$449,570,596	\$318,507	\$449,889,103

(1) Includes primary servicing UPB of \$156.3 billion, \$160.8 billion and \$170.8 billion at March 31, 2015, December 31, 2014 and March 31, 2014, respectively, for which the Rights to MSRs have been sold to HLSS. Residential assets serviced includes foreclosed real estate. Residential assets serviced also includes small-balance commercial assets with a UPB of \$2.1 billion, \$2.3 billion and \$2.5 billion at March 31, 2015, December 31, 2014 and March 31, 2014, respectively. Commercial assets consist of large-balance foreclosed real estate.

A significant portion of the servicing agreements for our non-Agency servicing portfolio contain provisions where we could be terminated as servicer without compensation upon the failure of the serviced loans to meet certain portfolio delinquency or cumulative loss thresholds or in the event we fail to maintain required servicer ratings, among other provisions. As a result of the economic downturn of recent years, the portfolio delinquency and/or cumulative loss threshold provisions have been breached by many private-label securitizations in our non-Agency servicing portfolio. Terminations as servicer as a result of a breach of any of these provisions have been minimal. In the event we are terminated as servicer and the Rights to MSRs were sold to HLSS, now owned by NRZ, we are obligated to compensate NRZ. As a result of the transfer of servicing to another party during the three months ended March 31, 2015 related to Rights to MSRs sold to HLSS, we were required to reimburse HLSS \$2.2 million for a percentage of the purchase price for the related Rights to MSRs in accordance with our agreements.

Servicing Revenue

The following table presents the components of servicing and subservicing fees for the three months ended March 31:

	2015	2014
Loan servicing and subservicing fees:		
Servicing	\$320,085	\$351,823
Subservicing	30,457	33,725
	350,542	385,548
Home Affordable Modification Program (HAMP) fees	35,176	36,699
Late charges	24,122	36,835
Loan collection fees	9,563	8,294
Custodial accounts (float earnings)	1,896	1,721
Other	25,242	21,362
	\$446,541	\$490,459

Float balances (balances in custodial accounts, which represent collections of principal and interest that we receive from borrowers, are held in escrow by an unaffiliated bank and are excluded from our balance sheet) amounted to \$4.0 billion and \$3.5 billion at March 31, 2015 and March 31, 2014, respectively.

Note 9 – Receivables

Receivables consisted of the following at the dates indicated:

	March 31, 2015	December 31, 2014
Servicing:		
Government-insured loan claims (1)	\$64,637	\$52,955
Due from custodial accounts	45,355	11,627
Reimbursable expenses	29,160	32,387
Other servicing receivables	93,138	29,516
	232,290	126,485
Income taxes receivable	63,948	68,322
Due from related parties	15,846	58,892
Other receivables (2)	14,758	43,690
	326,842	297,389
Allowance for losses (1)	(27,006)	(26,793)
	\$299,836	\$270,596

The total allowance for losses at March 31, 2015 and December 31, 2014 includes \$27.0 million and \$26.8 million, respectively, related to receivables of our Servicing business. Allowance for losses related to defaulted FHA or VA insured loans repurchased from Ginnie Mae guaranteed securitizations (government-insured loan claims) at March 31, 2015 and December 31, 2014 were \$11.8 million and \$10.0 million, respectively.

The balance at December 31, 2014 includes \$28.8 million related to losses to be indemnified under the terms of the Homeward merger agreement. On March 19, 2015, we reached an agreement with the former owner of Homeward for the final settlement of all indemnification claims under the merger agreement and received \$38.1 million in cash.

Note 10 – Other Assets

Other assets consisted of the following at the dates indicated:

	March 31, 2015	December 31, 2014
Contingent loan repurchase asset (1)	\$283,900	\$274,265
Debt service accounts (2)	86,437	91,974
Prepaid lender fees and debt issuance costs, net	41,025	31,337
Real estate	23,145	16,720
Prepaid expenses	15,782	17,957
Prepaid income taxes	15,274	16,450
Derivatives, at fair value	9,545	6,065
Mortgage backed securities	7,701	7,335
Other	17,850	28,708
	\$500,659	\$490,811

In connection with the Ginnie Mae EBO Transactions, our agreements provide either that: (a) we have the right, but not the obligation, to repurchase previously transferred mortgage loans under certain conditions, including the mortgage loans becoming eligible for pooling under a program sponsored by Ginnie Mae or (b) we have the obligation to repurchase previously transferred mortgage loans that have been subject to a successful trial modification before any permanent modification is made. Once these conditions are met, we have effectively regained control over the mortgage loan(s), and under GAAP, must re-recognize the loan on our consolidated balance sheets and establish a corresponding repurchase liability. With respect to those loans that we have the right, but not the obligation, to repurchase under the applicable agreement, this requirement applies regardless of whether we have any intention to repurchase the loan. We re-recognized mortgage loans in Other assets and the corresponding liability in Other liabilities.

(2)

Under our advance funding financing facilities, we are contractually required to remit collections on pledged advances to the trustee within two days of receipt. The collected funds are not applied to reduce the related match funded debt until the payment dates specified in the indenture. The balances also include amounts that have been set aside from the proceeds of our match funded advance facilities and certain of our warehouse facilities to provide for possible shortfalls

in the funds available to pay certain expenses and interest. The funds related to match funded facilities are held in interest earning accounts in the name of the SPE created in connection with the facility.

Note 11 – Borrowings

Match Funded Liabilities

Match funded liabilities are comprised of the following at the dates indicated:

Borrowing Type	Interest Rate	Maturity (1)	Amortization Date (1)	Available Borrowing Capacity (2)	March 31, 2015	December 31, 2014	
Advance Receivable Backed Notes Series 2012-ADV1 (3)	1ML (3) + 175 bps	Jun. 2017	Jun. 2015	\$51,658	\$348,342	\$373,080	
Advance Receivable Backed Note (4)	1ML + 300 bps	Dec. 2015	Dec. 2014	—	—	494	
Advance Receivables Backed Notes, Series 2013-VF2, Class A	1ML + 167 bps (5)	Oct. 2045	Oct. 2015	68,214	495,786	519,634	
Advance Receivables Backed Notes, Series 2013-VF2, Class B	1ML + 300 bps (6)	Oct. 2045	Oct. 2015	4,584	31,416	32,919	
Advance Receivables Backed Notes - Series 2014-VF3, Class A	1ML + 175 bps (7)	Oct. 2045	Oct. 2015	72,799	527,201	552,553	
Advance Receivables Backed Notes - Series 2014-VF4	1ML + 175 bps (8)	Oct. 2045	Oct. 2015	72,799	527,201	552,553	
Advance Receivables Backed Notes, Series 2014-VF1, Class A (9)	Cost of Funds + 275 bps	Dec. 2045	Dec. 2015	54,270	25,673	21,192

Advance Receivables Backed Notes, Series 2014-VF1, Class D (9)	Cost of Funds + 470 bps	Dec. 2045	Dec. 2015	—	16,548	14,000	
				\$324,324	\$2,000,676	\$2,090,247	
Weighted average interest rate					1.99	% 1.97	%

(1)The amortization date of our advance financing facilities is the date on which the revolving period ends under each advance financing facility note and repayment of the outstanding balance must begin if the note is not renewed or extended. The maturity date is the date on which all outstanding balances must be repaid. In two advance facilities,

there are multiple notes outstanding. For each note, after the amortization date, all collections that represent the repayment of advances pledged to the facility must be applied to reduce the balance of the note outstanding, and any new advances are ineligible to be financed.

Borrowing capacity is available to us provided that we have additional eligible collateral to pledge. Collateral may (2) only be pledged to one facility. At March 31, 2015, none of the available borrowing capacity could be used based on the amount of eligible collateral that had been pledged

(3) 1-Month LIBOR (1ML) was 0.18% and 0.17% at March 31, 2015 and December 31, 2014, respectively.

(4) We voluntarily terminated this facility on January 15, 2015.

(5) The interest margin on this note is scheduled to increase to 191 bps on July 15, 2015, to 215 bps on August 15, 2015 and to 239 bps on September 15, 2015.

(6) The interest margin on this note is scheduled to increase to 343 bps on July 15, 2015, to 386 bps on August 15, 2015 and to 429 bps on September 15, 2015.

(7) The interest margin on this note is scheduled to increase to 200 bps on July 15, 2015, to 225 bps on August 15, 2015 and to 250 bps on September 15, 2015.

(8) The interest margin on this note is scheduled to increase to 200 bps on July 15, 2015, to 212 bps on August 15, 2015 and to 250 bps on September 15, 2015.

(9) Beginning April 23, 2015, the maximum borrowing under this facility will decrease by \$6.3 million per month until it is reduced to \$75.0 million.

Financing Liabilities

Financing liabilities are comprised of the following at the dates indicated:

Borrowings	Collateral	Interest Rate	Maturity	March 31, 2015	December 31, 2014
Servicing:					
Financing liability – MSR's pledged	MSR's	(1)	(1)	\$594,495	\$614,441
Secured Notes, Ocwen Asset Servicing Income Series, Series 2014-1 (2)	MSR's	(2)	Feb. 2028	107,408	111,459
Financing Liability – Advances Pledged (3)	Advances on loans	(3)	(3)	84,307	88,489
				786,210	814,389
Lending:					
HMBS-related borrowings (4)	Loans held for investment (LHFI)	1ML + 245 bps	(4)	1,702,397	1,444,252
				\$2,488,607	\$2,258,641

This financing liability arose in connection with the HLSS Transaction financing liabilities and has no contractual (1) maturity. The balance of the liability is adjusted each reporting period to its fair value based on the present value of the estimated future cash flows underlying the related MSR's.

OASIS noteholders are entitled to receive a monthly payment amount equal to the sum of: (a) the designated servicing fee amount (21 basis points of the UPB of the reference pool of Freddie Mac mortgages); (b) any termination payment amounts; (c) any excess refinance amounts; and (d) the note redemption amounts, each as (2) defined in the indenture supplement for the notes. The notes have a final stated maturity of February 2028. We accounted for this transaction as a financing. Monthly amortization of the liability is estimated using the proportion of monthly projected service fees on the underlying MSR's as a percentage of lifetime projected fees, adjusted for the term of the security.

(3) Certain sales of advances in 2014 did not qualify for sales accounting treatment and were accounted for as a financing.

(4) Represents amounts due to the holders of beneficial interests in Ginnie Mae guaranteed HMBS. The beneficial interests have no maturity dates, and the borrowings mature as the related loans are repaid.

Other Secured Borrowings

Other secured borrowings are comprised of the following at the dates indicated:

Borrowings	Collateral	Interest Rate	Maturity	Available Borrowing Capacity	March 31, 2015	December 31, 2014
SSTL (1)	(1)	1-Month Euro-dollar rate + 375 bps with a	Feb. 2018	\$—	\$1,200,174	\$1,277,250

		Eurodollar floor of 125 bps (1)				
Repurchase agreement (2)	Loans held for sale (LHFS)	1ML + 200 - 345 bps	Jun. 2015	15,747	34,253	32,018
				15,747	1,234,427	1,309,268

Edgar Filing: OCWEN FINANCIAL CORP - Form 10-Q

Borrowings	Collateral	Interest Rate	Maturity	Available Borrowing Capacity	March 31, 2015	December 31, 2014
Lending:						
Master repurchase agreement (3)	LHFS	1ML + 175 bps	Jun. 2015	—	192,222	208,010
Participation agreement (4)	LHFS	N/A	Apr. 2016	—	13,548	41,646
Participation agreement (5)	LHFS	N/A	Apr. 2016	—	38,717	196
Master repurchase agreement (6)	LHFS	1ML + 175 - 275 bps	Jul. 2015	19,508	55,492	102,073
Master repurchase agreement (7)	LHFI	1ML + 275bps	Jul. 2015	—	39,463	52,678
Mortgage warehouse agreement (8)	LHFI	1ML + 275 bps; floor of 350 bps	May 2015	—	33,513	23,851
				19,508	372,955	428,454
				35,255	1,607,382	1,737,722
Discount (1)				—	(3,675)	(4,031)
				\$35,255	\$1,603,707	\$1,733,691

Weighted average interest rate 4.37 % 4.33 %

(1) On March 2, 2015, we entered into an amendment to the SSTL facility agreement. Among other things, the amendment:

eliminates the dollar cap on the general asset sale basket and requires Ocwen to use 75% of the net cash proceeds from permitted asset sales under such general asset basket to prepay the loans under the SSTL and, subject to certain conditions, permits Ocwen to use up to 25% of such net cash proceeds to reinvest in assets used in the business of OLS and its subsidiaries within 120 days of receipt thereof (subject to an extension of up to 90 days if a binding agreement is entered into within such 120 days); and

increases the quarterly covenant levels of the corporate leverage ratio to 3.5-to-1 for the fiscal quarter ended March 31, 2015 and thereafter.

(2) Under this repurchase agreement, the lender provides financing on a committed basis for \$50.0 million and, at the discretion of the lender, on an uncommitted basis for an additional \$50.0 million.

(3) Under this repurchase agreement, the lender provides financing on a committed basis for \$150.0 million and, at the discretion of the lender, on an uncommitted basis for an additional \$150.0 million.

(4) Under this participation agreement, the lender provides financing on an uncommitted basis for \$50.0 million at the discretion of the lender. The participation agreement allows the lender to acquire a 100% beneficial interest in the underlying mortgage loans. The transaction does not qualify for sale accounting treatment and is accounted for as a secured borrowing. The lender earns the stated interest rate of the underlying mortgage loans while the loans are financed under the participation agreement. On April 16, 2015, the maximum borrowing capacity was increased to \$100.0 million.

(5) Under this participation agreement, the lender provides financing on an uncommitted basis for \$150.0 million at the discretion of the lender. The participation agreement allows the lender to acquire a 100% beneficial interest in the underlying mortgage loans. The transaction does not qualify for sale accounting treatment and is accounted for as a secured borrowing. The lender earns the stated interest rate of the underlying mortgage loans while the loans are financed under the participation agreement.

(6) Under this repurchase agreement, the lender provides financing on a committed basis for \$75.0 million and, at the discretion of the lender, on an uncommitted basis for an additional \$75.0 million. On April 16, 2015, this facility

was terminated.

(7) On April 16, 2015, the maximum borrowing capacity under this agreement was reduced to \$37.5 million all of which is on a committed basis.

(8) Borrowing capacity of \$60.0 million under this facility is available on an uncommitted basis at the discretion of the lender.

Senior Unsecured Notes

On May 12, 2014, Ocwen completed the issuance and sale of \$350.0 million of its 6.625% Senior Notes due 2019 (the Senior Unsecured Notes) in a private offering. The Senior Unsecured Notes are general senior unsecured obligations of Ocwen

and will mature on May 15, 2019. Interest is payable semi-annually on May 15th and November 15th. The Senior Unsecured Notes are not guaranteed by any of Ocwen's subsidiaries.

Ocwen entered into a Registration Rights Agreement under which it agreed for the benefit of the initial purchasers of the Senior Unsecured Notes to use commercially reasonable efforts to file a registration statement and to have the registration statement become effective on or prior to 270 days after the closing of the offering. Because the exchange offer was not completed on or before 270 days after the closing of the offering, additional interest accrues on the principal amount of the notes at a rate of 0.25% per annum (which rate will be increased by an additional 0.25% per annum for each subsequent 90-day period that such additional interest continues to accrue to a maximum of 1.0% per annum) until the exchange offer is completed or the shelf registration statement, if required, is declared effective. In connection with our issuance of the Senior Unsecured Notes, we incurred certain costs that we capitalized and are amortizing over the period from the date of issuance to May 15, 2019. The unamortized balance of these issuance costs was \$5.5 million at March 31, 2015.

Covenants

Under the terms of our debt agreements, we are subject to various qualitative and quantitative covenants. Collectively, these covenants include:

Financial covenants;

Covenants to operate in material compliance with applicable laws;

Restrictions on our ability to engage in various activities, including but not limited to incurring additional debt, paying dividends, repurchasing or redeeming capital stock, transferring assets or making loans, investments or acquisitions;

Monitoring and reporting of various specified transactions or events, including specific reporting on defined events affecting collateral underlying certain debt agreements; and

Requirements to provide audited financial statements within specified timeframes, including a requirement under our SSTL that Ocwen's financial statements and the related audit report be unqualified as to going concern.

Financial covenants in our debt agreements require that we maintain, among other things:

a specified interest coverage ratio, which is defined under our SSTL as the ratio of trailing four quarter adjusted EBITDA to trailing four quarter interest expense (each as defined therein);

a specified corporate leverage ratio, which is defined under our SSTL as consolidated debt to trailing four quarter adjusted EBITDA (each as defined therein);

a specified consolidated total debt to consolidated tangible net worth ratio;

a specified loan to value ratio, as defined under our SSTL; and

specified levels of consolidated tangible net worth, liquidity and at the OLS level, net operating income.

As of March 31, 2015, the most restrictive consolidated tangible net worth requirement was \$630.0 million plus 65% of quarterly net income, without adjustment for quarterly net losses, beginning with the three months ended December 31, 2012. The required consolidated tangible net worth in connection with this agreement was \$979.4 million at March 31, 2015.

As a result of the covenants to which we are subject, we may be limited in the manner in which we conduct our business and may be limited in our ability to engage in favorable business activities or raise additional capital to finance future operations or satisfy future liquidity needs. In addition, breaches or events that may result in a default under our debt agreements include, among other things, noncompliance with our covenants, nonpayment of principal or interest, material misrepresentations, the occurrence of a material adverse change, insolvency, bankruptcy, certain material judgments and changes of control. Covenants and defaults of this type are commonly found in debt agreements such as ours. Certain of these covenants and defaults are open to subjective interpretation and, if our interpretation were contested by a lender, a court may ultimately be required to determine compliance or lack thereof. In addition, our debt agreements generally include cross default provisions such that a default under one agreement could trigger defaults under other agreements. If we fail to comply with our debt agreements and are unable to avoid, remedy or secure a waiver of any resulting default, we may be subject to adverse action by our lenders, including termination of further funding, acceleration of outstanding obligations, enforcement of liens against the assets securing or otherwise supporting our obligations and other legal remedies. Our lenders can waive their contractual rights in the event of a default.

Under one of its advance financing agreements, OLS must maintain certain minimum servicer ratings assigned by Moody's, S&P and Fitch Ratings. If any of these rating agencies withdraws its rating or if the assigned ratings fall below the minimum ratings established in the lending agreement, an early amortization event occurs under the lending agreement if the lender's agent notifies the indenture trustee that an early amortization event shall occur. As a result of downgrades in our servicer ratings, the lender has the right to deliver such notice at any time. The lender has agreed not to deliver such a notice to the indenture trustee subject to ongoing monthly review. If an early amortization event occurs and is not waived by the lender, no new advances can be funded under the facility, all collections on advances funded through the facility must be used to pay

interest and principal on currently outstanding borrowings under the facility, and additionally, the interest rate margin on 1-month LIBOR would increase. At March 31, 2015, we had \$348.3 million of borrowings outstanding under this facility out of a maximum borrowing capacity of \$400.0 million. The scheduled date to begin amortization of this facility is June 2015. As described in Note 1A — Business Environment and Other Uncertainties, we have entered into a commitment letter providing for replacement financing should the existing lender under this facility seek not to renew or extend the revolving period upon its completion in June 2015. Our lender's obligation to fund under this commitment letter is subject to conditions precedent, some of which are outside our control.

We believe that we are in compliance with all of the qualitative and quantitative covenants in our debt agreements as of the date of these financial statements.

Note 12 – Other Liabilities

Other liabilities were comprised of the following at the dates indicated:

	March 31, 2015	December 31, 2014
Contingent loan repurchase liability (1)	\$283,900	\$274,265
Accrued expenses	135,482	142,592
Liability for indemnification obligations	119,182	132,918
Due to related parties	114,980	55,585
Payable to loan servicing and subservicing investors	35,246	67,722
Liability for selected tax items	29,161	28,436
Checks held for escheat	16,420	18,513
Other	87,873	73,503
	\$822,244	\$793,534

(1) In connection with the Ginnie Mae EBO Transactions, we have re-recognized certain loans on our consolidated balance sheets and establish a corresponding repurchase liability regardless of our intention to repurchase the loan.

Note 13 – Derivative Financial Instruments and Hedging Activities

Because many of our current derivative agreements are not exchange-traded, we are exposed to credit loss in the event of nonperformance by the counterparty to the agreements. We control this risk through credit monitoring procedures including financial analysis, dollar limits and other monitoring procedures. The notional amount of our contracts does not represent our exposure to credit loss.

The following table summarizes the changes in the notional balances of our holdings of derivatives during the three months ended March 31, 2015:

	IRLCs	Forward MBS Trades	Interest Rate Caps	Interest Rate Swaps
Beginning notional balance	\$239,406	\$703,725	\$1,729,000	\$—
Additions	1,288,957	2,481,134		450,000
Amortization		69,773	(102,000))—
Maturities	(964,465)) (1,121,701)		—
Terminations	(144,390)) (1,349,218)		(450,000)
Ending notional balance	\$419,508	\$783,713	\$1,627,000	\$—
Fair value of derivative assets (liabilities) at:				
March 31, 2015	\$9,516	\$(5,249)	\$203	\$—
December 31, 2014	\$6,065	\$(2,854)	\$567	\$—
Maturity	Apr. 2015 - Jun. 2015	May 2015 - June 2015	Nov. 2016 - Oct. 2017	N/A

(1) As loans are originated and sold or as loan commitments expire, our forward MBS trade positions mature and are replaced by new positions based upon new loan commitments and originations and expected time to sell.

Foreign Currency Exchange Rate Risk Management

We periodically enter into foreign exchange forward contracts to hedge against the effect of changes in the value of the India Rupee on amounts payable to our India subsidiaries. Our operations in the Philippines also expose us to foreign currency exchange rate risk, but we currently consider this risk to be insignificant.

Interest Rate Management

Match Funded Liabilities

As required by certain of our advance financing arrangements, we have purchased interest rate caps to minimize future interest rate exposure from increases in one-month LIBOR interest rates.

Loans Held for Sale, at Fair Value

The mortgage loans held for sale that we carry at fair value are subject to interest rate and price risk from the loan funding date until the date the loan is sold into the secondary market. Generally, the fair value of a loan will decline in value when interest rates increase and will rise in value when interest rates decrease. To mitigate this risk, we enter into forward MBS trades to provide an economic hedge against those changes in fair value on mortgage loans held for sale. Forward MBS trades are primarily used to fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market.

Interest Rate Lock Commitments

A loan commitment binds us (subject to the loan approval process) to fund the loan at the specified rate, regardless of whether interest rates have changed between the commitment date and the loan funding date. As such, outstanding IRLCs are subject to interest rate risk and related price risk during the period from the date of the commitment through the loan funding date or expiration date. The borrower is not obligated to obtain the loan, thus we are subject to fallout risk related to IRLCs, which is realized if approved borrowers choose not to close on the loans within the terms of the IRLCs. Our interest rate exposure on these derivative loan commitments is hedged with freestanding derivatives such as forward contracts. We enter into forward contracts with respect to fixed and variable rate loan commitments.

The following summarizes our open derivative positions at March 31, 2015 and the gains (losses) on all derivatives used in each of the identified hedging programs for the year to date period then ended. None of the derivatives was designated as a hedge for accounting purposes at March 31, 2015:

Purpose	Expiration Date	Notional Amount	Fair Value (1)	Gains / (Losses)	Consolidated Statements of Operations Caption
Hedge the effect of changes in interest rates on interest expense on borrowings					
Interest rate caps					
Hedge the effect of changes in 1ML on advance funding facilities	Nov. 2016 - Oct. 2017	\$1,627,000	\$203	\$(364)	Other, net
Interest rate risk of mortgage loans held for sale and of IRLCs					
Forward MBS trades	May 2015 - June 2015	783,713	(5,249)	(427)	Gain on loans held for sale, net
IRLCs	April 2015 - June 2015	419,508	9,516	(2,233)	Gain on loans held for sale, net
Total derivatives			\$4,470	\$(3,024)	

(1) Derivatives are reported at fair value in Receivables, Other assets or in Other liabilities on our unaudited Consolidated Balance Sheets.

Included in AOCL at March 31, 2015 and 2014, respectively, were \$8.3 million and \$10.0 million of deferred unrealized losses, before taxes of \$0.5 million and \$0.6 million, respectively, on interest rate swaps that we designated as cash flow hedges. Changes in AOCL during the three months ended March 31 were as follows:

	2015	2014
Beginning balance	\$8,413	\$10,151
Losses on terminated hedging relationships amortized to earnings	(443) (779
Decrease in deferred taxes on accumulated losses on cash flow hedges	25	171
Decrease in accumulated losses on cash flow hedges, net of taxes	(418) (608
Other, net of taxes	—	(1
Ending balance	\$7,995	\$9,542

As of March 31, 2015, amortization of accumulated losses on cash flow hedges from AOCL to Other income (expense), net is projected to be \$1.9 million during the next twelve months. To the extent we sell the MSRs to which the accumulated losses on cash flow hedges applied, a proportionate amount of the remaining unamortized accumulated losses associated with the MSRs sold will be recognized in earnings at that time.

Other income (expense), net, includes the following related to derivative financial instruments for the three months ended March 31:

	2015	2014
Losses on economic hedges	\$(710) \$(141
Write-off of losses in AOCL for a discontinued hedge relationship	(443) (779
	\$(1,153) \$(920

Note 14 – Interest Expense

The following table presents the components of interest expense for the three months ended March 31:

	2015	2014
Financing liabilities (1) (2)	\$73,824	\$100,230
Other secured borrowings	22,916	21,284
Match funded liabilities	14,280	16,318
6.625% Senior unsecured notes	6,129	—
Other	2,247	2,041
	\$119,396	\$139,873

(1) Includes interest expense related to financing liabilities recorded in connection with the HLSS Transactions as indicated in the table below.

	2015	2014
Servicing fees collected on behalf of HLSS	\$180,297	\$189,157
Less: Subservicing fee retained by Ocwen	91,214	90,161
Net servicing fees remitted to HLSS	89,083	98,996
Less: Reduction in financing liability	17,723	—
Interest expense on HLSS financing liability	\$71,360	\$98,996

(2) Interest expense that we expect to be paid on the HMBS-related borrowings is included with net fair value gains in Other revenues.

Note 15 – Basic and Diluted Earnings per Share

Basic earnings per share excludes common stock equivalents and is calculated by dividing net income attributable to Ocwen common stockholders by the weighted average number of common shares outstanding during the year. We calculate

diluted earnings per share by dividing net income attributable to Ocwen, as adjusted to add back any preferred stock dividends, by the weighted average number of common shares outstanding including the potential dilutive common shares related to outstanding stock options, restricted stock awards and preferred stock. The following is a reconciliation of the calculation of basic earnings per share to diluted earnings per share for the three months ended March 31:

	2015	2014
Basic earnings per share:		
Net income attributable to Ocwen common stockholders	\$34,355	\$59,504
Weighted average shares of common stock	125,272,228	135,227,067
Basic earnings per share	\$0.27	\$0.44
Diluted earnings per share:		
Net income attributable to Ocwen common stockholders	\$34,355	\$59,504
Preferred stock dividends (1)	—	997
Adjusted net income attributable to Ocwen	\$34,355	\$60,501
Weighted average shares of common stock	125,272,228	135,227,067
Effect of dilutive elements:		
Preferred stock (1)	—	1,950,298
Stock options	1,725,280	3,908,333
Common stock awards	2,154	3,757
Dilutive weighted average shares of common stock	126,999,662	141,089,455
Diluted earnings per share	\$0.27	\$0.43
Stock options and common stock awards excluded from the computation of diluted earnings per share:		
Anti-dilutive (2)	2,010,902	—
Market-based (3)	851,263	547,500

Prior to the conversion of our remaining preferred stock into common stock in July 2014, we computed the effect (1) on diluted earnings per share using the if-converted method. For purposes of computing diluted earnings per share, we assume the conversion of the preferred stock into shares of common stock unless the effect is anti-dilutive.

(2) These options were anti-dilutive because their exercise price was greater than the average market price of our stock.

(3) Shares that are issuable upon the achievement of certain performance criteria related to Ocwen's stock price and an annualized rate of return to investors.

Note 16 – Business Segment Reporting

Our business segments reflect the internal reporting that we use to evaluate operating performance of services and to assess the allocation of our resources. A brief description of our current business segments is as follows:

Servicing. This segment is primarily comprised of our core residential servicing business. We provide residential and commercial mortgage loan servicing, special servicing and asset management services. We earn fees for providing these services to owners of the mortgage loans and foreclosed real estate. In most cases, we provide these services either because we purchased the MSR from the owner of the mortgage, retained the MSR on the sale of residential mortgage loans or because we entered into a subservicing or special servicing agreement with the entity that owns the MSR. Our residential servicing portfolio includes conventional, government insured and non-Agency loans.

Non-Agency loans include subprime loans, which represent residential loans that generally did not qualify under GSE

guidelines or have subsequently become delinquent.

Lending. The Lending segment is focused on originating and purchasing conventional and government insured residential forward and reverse mortgage loans mainly through our correspondent lending arrangements, broker relationships and directly

37

with mortgage customers. The loans are typically sold shortly after origination into a liquid market on a servicing retained basis.

Corporate Items and Other. Corporate Items and Other includes revenues and expenses that are not directly related to other reportable segments, business activities that are individually insignificant, interest income on short-term investments of cash, interest expense on corporate debt and certain corporate expenses. Business activities not currently considered to be of continuing significance include residential subprime non-Agency loans held for sale (at lower of cost or fair value), investments in residential mortgage-backed securities, investments in unconsolidated entities and affordable housing investment activities.

We allocate interest income and expense to each business segment for funds raised or for funding of investments made, including interest earned on cash balances and short-term investments and interest incurred on corporate debt. We also allocate expenses generated by corporate support services to each business segment.

Financial information for our segments is as follows:

	Servicing	Lending	Corporate Items and Other	Corporate Eliminations	Business Segments Consolidated
Results of Operations					
Three months ended March 31, 2015					
Revenue (1)	\$471,125	\$37,746	\$1,608	\$(35)) \$510,444

Amortization of debt discount	330	—	—	330
Amortization of debt issuance costs	1,087	—	—	1,087

Note 17 – Related Party Transactions

Relationship with Former Executive Chairman of the Board of Directors

Ocwen's former Executive Chairman, William C. Erbey, also formerly served as chairman of the boards of Altisource, HLSS, Altisource Residential Corporation (Residential) and Altisource Asset Management Corporation (AAMC). As a result, he had obligations to Ocwen as well as to Altisource, HLSS, Residential and AAMC. Effective January 16, 2015, Mr. Erbey resigned as an officer and director of Ocwen. Effective on that same date, Mr. Erbey also resigned from the boards of Altisource, HLSS, Altisource Residential and AAMC.

Mr. Erbey's decision to resign as a director was not due to any disagreements with Ocwen on any matter relating to its operations, policies or practices. On January 16, 2015, the Compensation Committee of the Board approved, and the Board ratified, a Retirement Agreement by and between Ocwen Financial Corporation, OMS and Mr. Erbey (the Retirement Agreement). The Compensation Committee of the Board retained an independent compensation consultant to provide advice in connection with the Retirement Agreement.

The Retirement Agreement provides for Mr. Erbey's separation from Ocwen and its affiliates. The Retirement Agreement contains certain provisions in favor of Ocwen such as releases in our favor and covenants regarding confidentiality, non-competition and non-solicitation of our employees, customers, vendors, suppliers, licensors, lessors, joint venturers, associates, consultants, agents and partners. The Retirement Agreement also contains certain provisions in Mr. Erbey's favor such as retirement payment provisions, continued medical coverage for Mr. Erbey and his spouse, provisions addressing Mr. Erbey's options and registration rights for Mr. Erbey in certain circumstances.

Relationship with Altisource

Ocwen and OMS are parties to a Services Agreement, a Technology Products Services Agreement, an Intellectual Property Agreement and a Data Center and Disaster Recovery Services Agreement with Altisource. Under the Services Agreements, Altisource provides various business process outsourcing services, such as valuation services and property preservation and inspection services, among other things. Altisource provides certain technology products and support services under the Technology Products Services Agreements and the Data Center and Disaster Recovery Services Agreements. These agreements expire August 31, 2025. Ocwen and Altisource have also entered into a master services agreement pursuant to which Altisource provides certain loan origination services to Homeward and Liberty, and a general referral fee agreement pursuant to which Ocwen receives referral fees which are paid out the commission that would otherwise be paid to Altisource as the selling broker in connection with real estate sales services provided by Altisource. A Data Access and Services Agreement under which we agreed to make available to Altisource certain data from Ocwen's servicing portfolio in exchange for a per asset fee was terminated on March 31, 2015.

Our business is currently dependent on many of the services and products provided by Altisource under long-term agreements, many of which include renewal provisions. Our servicing platform runs on an information technology system that we license from Altisource. If Altisource were to fail to fulfill its contractual obligations to us, including through a failure to provide services at the required level to maintain and support our systems, or if Altisource were to become unable to fulfill such

obligations (for example, because it entered bankruptcy), our business and operations would suffer. In addition, if Altisource fails to develop and maintain its technology so as to provide us with a competitive platform, our business could suffer.

Certain services provided by Altisource under these agreements are charged to the borrower and/or mortgage loan investor. Accordingly, such services, while derived from our loan servicing portfolio, are not reported as expenses by Ocwen. These services include residential property valuation, residential property preservation and inspection services, title services and real estate sales.

We have also entered into Support Services Agreements with Altisource setting forth certain services that Altisource and Ocwen may provide to each other in such areas as human resources, corporate services, Six Sigma, quality assurance, quantitative analytics, treasury, accounting, tax matters and strategic planning. These Support Services Agreements run through October 2017 and September 2018, respectively, with automatic one-year renewals thereafter. Beginning April 1, 2015, the only services that will regularly be provided under these Support Services Agreements are corporate services such as facilities management and mailroom support services and vendor procurement for information technology and facilities.

Relationship with HLSS

Prior to the sale of substantially all of its assets on April 6, 2015, HLSS acquired Rights to MSR's and related servicing advances from us and assumed the obligation to fund new servicing advances in respect of the Rights to MSR's. The servicing fees payable under the servicing agreements underlying the Rights to MSR's were apportioned between us and HLSS as provided in our agreements with HLSS. HLSS retained a fee based on the UPB of the loans serviced, and OLS received certain fees, including a performance fee based on servicing fees actually paid less an amount calculated based on the amount of servicing advances and cost of financing those advances. After the earlier of April 30, 2020 or eight years after the closing date of the initial sale of each tranche of Rights to MSR's, the apportionment of these fees with respect to such tranche was subject to re-negotiation. On April 6, 2015, a subsidiary of NRZ entered into a transaction to acquire substantially all of the assets of HLSS, including HLSS Holdings, LLC, and Ocwen entered into a consent to this transfer and an amendment of its agreements with HLSS. Following the sale, NRZ, through its subsidiaries, is the owner of the Rights to MSR's and has assumed HLSS' rights and obligations under all of the above referenced agreements.

Beginning April 7, 2017, NRZ, as successor to HLSS, has a general right to direct us to transfer servicing of the servicing agreements underlying the Rights to MSR's that we have previously sold provided that the transfer is subject to our continued right to be paid the servicing fees and other amounts payable under our agreements. An exception to the requirement that the transfer is subject to our continued right to payment under the transferred servicing agreement exists in circumstances where a termination event (as defined in our agreements with NRZ, as successor to HLSS) occurs. In these circumstances, NRZ may direct us to use commercially reasonable efforts to transfer servicing under the affected servicing agreement and, following the transfer, we would no longer be entitled to receive future servicing fee revenue with respect to the transferred servicing agreement. Regarding NRZ's rights upon a termination event resulting from an uncured servicer rating downgrade, NRZ has agreed to a standstill until April 7, 2017 unless they determine in good faith that a trustee intends to terminate servicing under an affected servicing agreement. In these circumstances, NRZ may direct us to use commercially reasonable efforts to transfer servicing under the affected servicing agreement and, following the transfer, we would no longer be entitled to receive future servicing fee revenue. All required third party consents would need to be obtained in connection with any servicing transfer.

To the extent that servicing agreements underlying Rights to MSR's are terminated as a result of a termination event, NRZ is entitled to payment of an amount equal to a percentage of the purchase price for the related Rights to MSR's. Prior to the sale of substantially all of its assets to NRZ, pursuant to our agreements with HLSS, HLSS had assumed the obligation to fund new servicing advances with respect to the Rights to MSR's. We were dependent upon HLSS for financing of the servicing advance obligations for MSR's where we were the servicer. HLSS, in turn, was dependent upon its advance financing facilities in order to fund a substantial portion of the servicing advances that it was

contractually obligated to make pursuant to our agreements with HLSS. As of March 31, 2015, we were the servicer on Rights to MSRs pertaining to approximately \$156.3 billion in UPB and the associated outstanding servicing advances as of such date were approximately \$5.8 billion.

HLSS' advance funding facilities had a 364-day term and the revolving periods for a significant portion of their advance funding facilities were scheduled to end in 2015. In the event of a default, HLSS' advance facilities revolving periods would have terminated and the facilities would have begun amortization. There were no provisions under which Ocwen would have been obligated to repay the HLSS advance facilities upon an event of default by HLSS. Instead, Ocwen, as servicer, would have been immediately responsible for all new advances. Thus, as of December 31, 2014 and through the date of the asset sale, we were subject to liquidity risk in the event that HLSS' advance financing facilities failed to perform as envisaged or HLSS was otherwise unable to meet its advance financing obligations.

Although we were not an obligor or guarantor under NRZ's advance financing facilities (which have been assumed by NRZ from HLSS pursuant to the asset sale), we are a party to certain of the facility documents as the servicer of the underlying

loans on which advances are being financed. A purported owner of notes issued by one of the advance financing facilities recently asserted that events of default have occurred under the indenture governing those notes based on alleged failures by us to comply with applicable laws and regulations and the terms of the servicing agreement to which the applicable servicing advances relate. While we have vigorously defended ourselves against these allegations, we have consented to an arrangement between NRZ, as successor to HLSS, and the indenture trustee for those notes that provides for a standstill for the indenture trustee to investigate the allegations of default during which the indenture trustee will not initiate a court proceeding. If the eventual outcome of this matter were to involve an event of default being declared under this advance financing facility, NRZ may not be able to perform under its agreements with us. As a result, our liquidity, financial condition and business could be materially and adversely affected. In addition, it is possible that NRZ might seek to take actions against us alleging that we bear responsibility for such outcomes, which could also materially and adversely affect us.

The supplements pertaining to NRZ's variable funding notes under this advance financing facility have been amended to extend the revolving periods and increase the aggregate commitments thereunder and to clarify, among other things, that the variable noteholders will not consider a violation of law or relevant servicing agreements to constitute an event of default with respect to those notes unless they result in a material adverse effect on the collectability, timing of collection or value of the advance receivables. The amendments also provide that the variable noteholders will not consider the allegations made by the purported owner of the notes to constitute a violation of funding conditions, and have agreed to continue to fund draws on the facility including, if necessary, to refinance the outstanding term notes under the facility. In addition, if the outstanding term notes are refinanced the variable noteholders have agreed that they shall not consider the allegations made by the purported owner of the notes to constitute an event of default.

Ocwen and HLSS were parties to a Professional Services Agreement under which they provided each other certain professional services including valuation analysis of potential MSR acquisitions, treasury management services and other similar services, licensing and regulatory compliance support services and risk management services. No services are currently provided under this agreement.

On March 3, 2014, in the first Ginnie Mae EBO Transaction, Ocwen sold Ginnie Mae EBO Loans and transferred the related servicing advances to HLSS Mortgage for \$612.3 million. On May 2, 2014, in connection with the second Ginnie Mae EBO Transaction, we transferred \$20.2 million of advances to HLSS SEZ LP. At March 31, 2015, Ocwen serviced EBO Loans with a UPB of approximately \$425.7 million for HLSS.

Relationship with Residential

On December 21, 2012, we entered into a 15-year servicing agreement with Altisource Residential, L.P., the operating partnership of Residential, pursuant to which Ocwen will service residential mortgage loans acquired by Residential and provide loan modification, assisted deed-in-lieu, assisted deed-for-lease and other loss mitigation programs. At March 31, 2015, we serviced loans with a UPB of approximately \$3.2 billion under this agreement.

Relationship with AAMC

On December 31, 2013, we entered into a support services agreement with AAMC pursuant to which we will provide business development, analytical and consulting and administrative services to AAMC. The support services agreement may be terminated by either party with a month's prior notice.

As a result of Mr. Erbey's position as our Executive Chairman and as chairman of each of Altisource, HLSS, Residential and AAMC during the first sixteen days of the first quarter of 2015, combined with his share ownership during that period, we have reported transactions with these companies during the first quarter of 2015 as related party transactions. Following his retirement, effective as of January 16, 2015, Mr. Erbey has no directorial, management, oversight, consulting or any other role at Ocwen and we are expressly prohibited from providing any non-public information about Ocwen to Mr. Erbey pursuant to our settlement with the NY DFS.

The following table summarizes revenues and expenses related to our agreements with Altisource, HLSS (prior to the sale of its assets to NRZ), AAMC and Residential (and, as applicable, their subsidiaries) for the three months ended March 31 and net amounts receivable or payable at the dates indicated.

	2015	2014
Revenues and Expenses:		
Altisource:		
Revenues	\$13,404	\$8,499
Expenses	29,026	17,364
HLSS:		
Revenues	\$166	\$165
Expenses	34	462
AAMC		
Revenues	\$84	\$384
Residential		
Revenues	\$2,508	\$2,148
	March 31,	December 31,
	2015	2014

Altisource	\$(9,501) \$(4,909
HLSS	(89,678) 7,884
AAMC	46	232
Residential	—	100
	\$(99,133) \$3,307

Note 18 – Regulatory Requirements

Our business is subject to extensive regulation by federal, state and local governmental authorities, including the Consumer Financial Protection Bureau (CFPB), HUD, the SEC and various state agencies that license, audit and conduct examinations of our mortgage servicing, origination and collection activities. In addition, we operate under a number of regulatory settlements that subject us to ongoing monitoring or reporting. From time to time, we also receive requests from federal, state and local agencies for records, documents and information relating to the policies, procedures and practices of our mortgage servicing, origination and collection activities. The GSEs and their conservator, the Federal Housing Finance Authority (FHFA), Ginnie Mae, the United States Treasury Department, various investors, non-Agency securitization trustees and others also subject us to periodic reviews and audits. As a result of the current regulatory environment, we have faced and expect to continue to face increased regulatory and public scrutiny as well as stricter and more comprehensive regulation of our business. We continue to work diligently to assess and understand the implications of the regulatory environment in which we operate and to meet the requirements of the changing environment in which we operate. We devote substantial resources to regulatory compliance, while, at the same time, striving to meet the needs and expectations of our customers, clients and other stakeholders. Our failure to comply with applicable federal, state and local laws, regulations and licensing requirements could lead to any of the following (i) loss of our licenses and approvals to engage in our servicing and lending businesses, (ii) governmental investigations and enforcement actions, (iii) administrative fines and penalties and litigation, (iv) civil and criminal liability, including class action lawsuits, (v) breaches of covenants and representations under our servicing, debt or other agreements, (vi) inability to raise capital or (vii) inability to execute on our business strategy.

We must comply with a large number of federal, state and local consumer protection laws including, among others, the Gramm-Leach-Bliley Act, the Fair Debt Collection Practices Act, the Real Estate Settlement Procedures Act (RESPA), the Truth in Lending Act (TILA), the Fair Credit Reporting Act, the Servicemembers Civil Relief Act, the Homeowners Protection Act, the Federal Trade Commission Act, the Equal Credit Opportunity Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) and state foreclosure laws. These statutes apply to loan origination, debt collection, use of credit reports, safeguarding of non-public personally identifiable

information about our customers, foreclosure and claims handling, investment of and interest payments on escrow balances and escrow payment features, and mandate certain disclosures and notices to borrowers. These requirements can and do change as statutes and regulations are enacted,

41

promulgated, amended, interpreted and enforced. The recent trend among federal, state and local lawmakers and regulators has been toward increasing laws, regulations and investigative proceedings with regard to residential real estate lenders and servicers.

The CFPB directly affects the regulation of residential mortgage servicing in a number of ways. First, the CFPB has rule making authority with respect to many of the federal consumer protection laws applicable to mortgage servicers, including TILA and RESPA, as reflected in the new rules for servicing and origination that went into effect in 2014. Second, the CFPB has supervision, examination and enforcement authority over consumer financial products and services offered by certain non-depository institutions and large insured depository institutions. The CFPB's jurisdiction includes those persons originating, brokering or servicing residential mortgage loans and those persons performing loan modification or foreclosure relief services in connection with such loans. Accordingly, we are subject to supervision, examination and enforcement by the CFPB.

We expect to continue to invest significantly in our operational platform and risk and compliance management systems in order to comply with these laws and regulations. Furthermore, there may be additional federal or state laws enacted that place additional obligations on servicers and originators of residential mortgage loans.

Our OLS, Homeward and Liberty subsidiaries are licensed to originate and/or service forward and reverse mortgage loans in the jurisdictions in which they operate. Our licensed entities are required to renew their licenses, typically on an annual basis, and to do so they must satisfy the license renewal requirements of each jurisdiction, which in some cases include the requirement to provide audited financial statements as well as other financial and non-financial requirements. Our licensed entities are also subject to minimum net worth requirements in connection with these licenses. These minimum net worth requirements are unique to each state and type of license. Failure to meet these minimum capital requirements or to satisfy any of the other requirements to which our licensed subsidiaries are subject could result in a variety of regulatory actions ranging from a fine, a directive requiring a certain step to be taken, a suspension or ultimately a revocation of a license, any of which could have an adverse impact on our results of operations and financial condition. The most restrictive of these requirements is based on the outstanding UPB of our owned and subserviced portfolio and was \$789.6 million at March 31, 2015. We believe our licensed subsidiaries are currently in compliance with all of their capital requirements.

OLS, Homeward and Liberty are also parties to seller/servicer agreements and/or subject to guidelines and regulations (collectively, seller/servicer obligations) with one or more of the GSEs, HUD, FHA, VA and Ginnie Mae. These seller/servicer obligations include financial covenants that include capital requirements related to tangible net worth, as defined by the applicable agency, an obligation to provide audited consolidated financial statements within 90 days of the applicable entity's fiscal year end as well as extensive requirements regarding servicing, selling and other matters. To the extent that these requirements are not met or waived, the applicable agency may, at its option, utilize a variety of remedies including requirements to deposit funds as security for our obligations, sanctions, suspension or even termination of approved seller/servicer status, which would prohibit future originations or securitizations of forward or reverse mortgage loans or servicing for the applicable agency. To date, none of these counterparties has communicated any material sanction, suspension or prohibition in connection with our seller/servicer obligations. We believe we were in compliance with the related net worth requirements at March 31, 2015. Our non-Agency servicing agreements also contain requirements regarding servicing practices and other matters, and a failure to comply with these requirements could have an adverse impact on our business.

Transfers of mortgage servicing are subject to regulation under federal consumer finance laws, including CFPB rules implementing RESPA that require servicers to, among other things, maintain policies and procedures that are reasonably designed to facilitate the transfer of accurate information and documents during mortgage servicing transfers and properly evaluate loss mitigation applications that are in process at the time of transfer. The CFPB has advised mortgage servicers that its examiners will be carefully reviewing servicers' compliance with these and other regulations applicable to servicing transfers, and state mortgage regulators have supervisory power over any licensed institutions involved in a transaction. Accordingly, we will be required to devote time and resources to ensuring compliance and engaging with such regulators in connection with any future transfers of mortgage servicing, including in connection with our announced asset sales.

There are a number of foreign laws and regulations that are applicable to our operations in India and the Philippines, including acts that govern licensing, employment, safety, taxes, insurance and the laws and regulations that govern the creation, continuation and the winding up of companies as well as the relationships between shareholders, our corporate entities, the public and the government in these countries. Non-compliance with the laws and regulations of India or the Philippines could result in (i) restrictions on our operations in these countries, (ii) fines, penalties or sanctions or (iii) reputational damage.

Note 19 — Commitments

Unfunded Lending Commitments

We have originated floating-rate reverse mortgage loans under which the borrowers have additional borrowing capacity of \$685.0 million at March 31, 2015. This additional borrowing capacity is available on a scheduled or unscheduled payment

basis. We also had short-term commitments to lend \$412.2 million and \$12.8 million in connection with our forward and reverse interest rate lock commitments outstanding at March 31, 2015.

Note 20 – Contingencies

When we become aware of a matter involving uncertainty for which we may incur a loss, we assess the likelihood of any loss. If a loss contingency is probable and the amount of the loss can be reasonably estimated, we record an accrual for the loss. In such cases, there may be an exposure to potential loss in excess of the amount accrued. Where a loss is not probable but is reasonably possible or where a loss in excess of the amount accrued is reasonably possible, we disclose an estimate of the amount of the loss or range of possible losses for the claim if a reasonable estimate can be made, unless the amount of such reasonably possible loss is not material to our financial position, results of operations or cash flows. If a reasonable estimate of loss cannot be made, we do not accrue for any loss or disclose any estimate of exposure to potential loss. An assessment regarding the ultimate outcome of any such matter involves judgments about future events, actions and circumstances that are inherently uncertain. The actual outcome could differ materially. Where we have retained external legal counsel or other professional advisors, such advisors assist us in making such assessments.

Litigation

In the ordinary course of business, we are routinely a defendant in, or a party or potential party to, many threatened and pending legal proceedings, including proceedings brought on behalf of various classes of claimants and those brought derivatively on behalf of Ocwen against certain current or former officers and directors.

These proceedings are generally based on alleged violations of federal, state and local laws and regulations governing our mortgage servicing and lending activities, including wrongful foreclosure and eviction actions, allegations of wrongdoing in connection with lender-placed insurance arrangements, claims relating to our pre-foreclosure property preservation activities and claims related to our payment and other processing operations. In some of these proceedings, claims for substantial monetary damages are asserted against us. To address the claims in the small number of proceedings brought derivatively by purported shareholders, the independent directors of the Board have established a Special Litigation Committee to investigate the shareholders' allegations. In our opinion, the resolution of the vast majority of these proceedings will not have a material effect on our financial condition, results of operations or cash flows.

In view of the inherent difficulty of predicting the outcome of any threatened or pending legal proceedings, particularly where the claimants seek very large or indeterminate damages or where the matters present novel legal theories or involve a large number of parties, we generally cannot predict what the eventual outcome of such proceedings will be, what the timing of the ultimate resolution will be, or what the eventual loss, if any, will be.

Where we determine that a loss contingency is probable in connection with a pending or threatened legal proceeding and the amount of our losses can be reasonably estimated, we record an accrual for the losses. Excluding expenses of internal or external legal counsel, we have accrued \$16.0 million as of March 31, 2015 for losses relating to threatened and pending litigation pertaining to our mortgage servicing practices that we believe are probable and reasonably estimable based on current information regarding these matters. Where we determine that a loss is not probable but is reasonably possible or where a loss in excess of the amount accrued is reasonably possible, we disclose an estimate of the amount of the loss or range of possible losses for the claim if a reasonable estimate can be made, unless the amount of such reasonably possible loss is not material to our financial position, results of operations or cash flows. It is possible that we will incur losses relating to threatened and pending litigation pertaining to our mortgage servicing practices that materially exceed the amount accrued. We cannot currently estimate the amount, if any, of reasonably possible losses above amounts that have been recorded at March 31, 2015.

Following our announcement on August 12, 2014 that we intended to restate our financial statements for the fiscal year ended December 31, 2013 and the quarter ended March 31, 2014, and amend our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014, putative securities fraud class action lawsuits have been filed against Ocwen and certain of its officers and directors regarding such restatements and amendments. Those lawsuits have been consolidated and are pending in federal court in Florida. After Ocwen signed a Consent Order with the NYDFS on December 22, 2014, the consolidated class action complaint was amended to include allegations relating to that Consent Order and other

matters. In January 2015, Ocwen was named as a defendant in a separate consolidated securities fraud class action that has been brought on behalf of a putative class of Altisource Portfolio Solutions, S.A. shareholders. Ocwen and the other defendants intend to vigorously defend against these lawsuits. Additional lawsuits may be filed and, at this time, Ocwen is unable to predict the outcome of these lawsuits, the possible loss or range of loss, if any, associated with the resolution of these lawsuits or any potential impact they may have on us or our operations. If our efforts to defend these lawsuits are not successful, our business, financial condition and results of operations could be adversely affected.

In several recent court actions, mortgage loan sellers against whom repurchase claims have been asserted based on alleged breaches of representations and warranties are defending on various grounds including the expiration of statutes of limitation,

lack of notice and opportunity to cure, and vitiation of the obligation to repurchase as a result of foreclosure or charge-off of the loan. We have entered into tolling agreements with respect to our role as servicer for a very small number of securitizations and may enter into additional tolling agreements in the future. Other court actions have been filed against certain RMBS trustees alleging that the trustees breached their contractual and statutory duties by, among other things, failing to require the loan servicers to abide by the servicers' obligations and failing to declare that certain alleged servicing events of default under the applicable contracts occurred.

Ocwen is a third-party defendant in one of these actions, is the servicer for certain securitizations involved in other such actions and is the servicer for other securitizations as to which actions have been threatened by certificate holders. We intend to vigorously defend ourselves in the lawsuit to which we have been named a party. Should Ocwen be made a party to other similar actions or should Ocwen be asked to indemnify any parties to such actions, we may need to defend allegations that we failed to service loans in accordance with applicable agreements and that such failures prejudiced the rights of repurchase claimants against loan sellers or otherwise diminished the value of the trust collateral. We believe that any such allegations would be without merit and, if necessary, would vigorously defend against them. At this time, we are unable to predict the ultimate outcome of these lawsuits, the possible loss or range of loss, if any, associated with the resolution of these lawsuits or any potential impact they may have on us or our operations. If, however, we were required to compensate claimants for losses related to the alleged loan servicing breaches, then our business, financial condition and results of operations could be adversely affected.

In addition, a number of RMBS trustees have received notices of default alleging material failures by servicers to comply with applicable servicing agreements. For example, certain investors claiming to hold at least 25% ownership interest in 119 RMBS trusts serviced by Ocwen have submitted to the respective trustees of those trusts a Notice of Non-Performance, alleging that we have materially breached our obligations under the servicing agreements in those trusts. The Notice further alleged that our conduct, if not timely cured, would give rise to events of default under the applicable servicing agreements, on the basis of which we could potentially be terminated as servicer for the 119 Trusts. Ocwen denies the allegations in the Notice and intends to vigorously rebut them. Since the Notice was issued, Ocwen has been directed by the trustee for two of the trusts to transfer its servicing to another loan servicing company based on ratings downgrades. There is a risk that Ocwen could be replaced as servicer on the remaining trusts at issue in the Notice, that the Trustees could take legal action on behalf of the trust certificateholders, or, under certain circumstances, that the investors who issued the Notice could seek to press their allegations against Ocwen, independent of the trustees. We are unable at this time to predict what, if any, actions the trustees will take in response to the Notice, nor can we predict at this time the potential loss or range of loss, if any, associated with the resolution of the Notice or the potential impact on our operations. If Ocwen were to be terminated as servicer, or other related legal actions were pursued against Ocwen, it could have an adverse effect on Ocwen's business, financing activities, financial condition and results of operations.

Regulatory

We are subject to a number of ongoing federal and state regulatory examinations, inquiries, requests for information and other actions.

New York Department of Financial Services

Effective December 19, 2014, Ocwen reached a settlement with the NY DFS related to these matters and entered into a consent order (the NY Consent Order) with the NY DFS to reflect such settlement. The settlement included monetary and non-monetary provisions including the payment of a civil monetary penalty of \$100.0 million and restitution in the amount of \$50.0 million to certain New York borrowers. Non-monetary provisions include: the appointment of an independent Operations Monitor who will among other responsibilities, review and assess the adequacy and effectiveness of our operations, including providing periodic reporting on findings and progress, and review transactions with ASPS, HLSS, AAMC and RESI (NYDFS Related Companies); the appointment of two additional independent directors to the Board of Directors; the resignation of William C. Erbey as an officer and director, as of January 16, 2015, as well as from the boards of the NYDFS Related Companies; and restrictions on the ability and/or timing of any future MSR acquisitions which effectively prohibit any such future acquisitions until we have satisfied certain specified conditions.

National Mortgage Settlement

In February 2014, the Ocwen National Mortgage Settlement involving the CFPB and various state attorneys general and other state agencies that regulate the mortgage servicing industry (NMS Regulators) was memorialized by a consent order entered by the United States District Court for the District of Columbia.

We are tested on a quarterly basis on various metrics to ensure compliance with the Ocwen National Mortgage Settlement. These metrics relate to various aspects of our servicing business, and each has a proscribed error threshold. These metrics are tested by a dedicated group of Ocwen employees who do not report to the servicing business and are referred to as the Internal Review Group (IRG). The IRG tests these metrics, and reports their findings to the professional firms employed by the Office

of Mortgage Settlement Oversight (OMSO). OMISO has ultimate authority to accept or reject the IRG's findings, and OMISO reports its findings to the District Court.

Exceeding the metric error rate threshold for the first time does not result in a violation of the settlement, but rather it is deemed a "potential violation" which then is subject to a cure period. Any potential violation requires us to submit a corrective action plan (CAP) to OMISO for approval and review, and all testing for that metric is suspended until the CAP is completed. Following the completion of the CAP, testing on that metric resumes by the IRG and any further fails in the cure period or the quarter following that cure period would subject us to financial penalties. These penalties start at an amount of not more than \$1.0 million for the first uncured violation and increase to an amount of not more than \$5.0 million for the second uncured violation. It is also possible that if we are found to have caused borrower harm, we would be subject to costs to remediate that harm. In addition, in the event that there were widespread metric failures, it is possible that OMISO and/or the District Court could determine that we were generally violating the settlement and seek to impose a broader range of financial or injunctive penalties on us.

In December 2014, OMISO identified two issues involving Ocwen's compliance with the Ocwen National Mortgage Settlement. The first concerned the adequacy and independence of our IRG, which is responsible for reporting on Ocwen's compliance with the settlement. The second issue concerned the letter dating issues raised by the NY DFS. OMISO's report identified the steps that Ocwen had taken to remediate these issues, and acknowledged Ocwen's cooperation.

In May 2015, OMISO issued another compliance report following up on that of December 2014. This report detailed additional changes that Ocwen had made to its IRG and described the work performed by OMISO to retest certain metrics previously tested by the Ocwen IRG for the first quarter of 2014. OMISO's report indicated that the various steps taken by Ocwen in connection with its IRG demonstrated "measurable improvement" since the December 2014 report. OMISO further reported that its retesting of metrics for the first quarter of 2014 revealed that it only disagreed with the Ocwen IRG's assessment for one out of the nine metrics subject to retesting. Ocwen has not objected to the determination on that one metric and will develop a corrective action plan for that potential violation.

We continue to work cooperatively with OMISO on resolving these issues, and the letter dating issues are currently under a CAP. While, to date, these issues have not resulted in financial penalties, if we do not comply with the Ocwen National Mortgage Settlement, we could become subject to financial penalties or other regulatory action could be taken against us.

Securities and Exchange Commission

On April 28, 2014, we received a letter from the staff of the New York Regional Office of the SEC (the Staff) informing us that it was conducting an investigation relating to Ocwen and making a request for voluntary production of documents and information relating to the April 22, 2014 surrender of certain options to purchase our common stock by Mr. Erbey, our former Executive Chairman, including the 2007 Equity Incentive Plan and the related option grant and surrender documents. On June 12, 2014, we received a subpoena from the SEC requesting production of various documents relating to our business dealings with Altisource, HLSS, AAMC and Residential and the interests of our directors and executive officers in these companies. Following the announcement on August 12, 2014 that we intended to amend our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2014, we received an additional subpoena on September 11, 2014 in relation to such amendments. In addition, we received a further subpoena on November 20, 2014 requesting certain documents related to Ocwen's agreement with Southwest Business Corporation, and related to Mr. Erbey's approvals for specifically enumerated board actions. On February 10, 2015, we received a letter from the Staff informing us that it was conducting an investigation relating to mortgage loan servicer use of collection agents, and it made a request for the voluntary production of documents and information. We believe that the February 10, 2015 letter was also sent to other companies in the industry. We are cooperating with the Staff on these matters.

California Department of Business Oversight

Effective January 23, 2015, OLS reached an agreement with the CA DBO relating to Ocwen's failure to produce certain information and documents during a routine licensing examination, which resulted in the CA DBO withdrawing its notice of hearing to suspend OLS' license in California. OLS and the CA DBO entered into a Consent Order pursuant to the California Residential Mortgage Lending Act (the CA Consent Order) with the CA DBO to

reflect such settlement. The CA Consent Order addresses and resolves the examination disputes between the CA DBO and OLS, and does not involve any accusation or admission of wrongdoing with regard to OLS' servicing practices. Under the terms of the CA Consent Order, OLS paid the CA DBO a penalty of \$2.5 million plus costs associated with the examination. We accrued the \$2.5 million penalty as of December 31, 2014. OLS also agreed to cease acquiring any additional MSRs for loans secured in California until the CA DBO is satisfied that OLS can satisfactorily respond to the requests for information and documentation made in the course of a regulatory exam.

In addition, the CA DBO will select an independent third-party auditor (the CA Auditor) to assess OLS' compliance with laws and regulations impacting California borrowers for an initial term of two years, extendable at the discretion of the CA

DBO. OLS will pay all reasonable and necessary costs of the CA Auditor. The CA Auditor will report periodically on its findings and progress and OLS will submit to the CA DBO a written plan to address and implement corrective measures and address any deficiencies identified by the CA Auditor.

General

In addition to the above matters, our mortgage origination and servicing businesses require one or more licenses in the various jurisdictions where properties secured by mortgages are located. Our licensed entities are required to renew their licenses, typically on an annual basis, and to do so they must satisfy the license renewal requirements of each jurisdiction, which in some cases include the requirement to provide audited financial statements. The same agencies that issue licenses to us engage in regular supervisory examinations of the licensable activities. As of April 24, 2015, we were aware of 25 pending examinations in 19 states. In addition, we are subject to supervision by the CFPB at the federal level, and it similarly has the authority to conduct regulatory examinations, in addition to its enforcement and investigatory powers. These examinations are part of our ordinary course business activities, and the mere existence of an examination is not typically indicative of anything unusual or material as to that business. In addition, we also receive information requests and other inquiries, both formal and informal in nature, from these agencies as part of their general regulatory oversight of our origination and servicing businesses.

We also have regular engagements with not only our state financial regulators, but also the attorneys general in the various states and the CFPB to address individual borrower complaints that they bring to our attention, or to respond to information requests and other inquiries. Many of these matters are brought to our attention as a complaint that the entity is investigating, although some are formal investigations or proceedings.

To the extent that an examination or other regulatory engagement reveals a failure by us to comply with applicable law, regulation or licensing requirement, or if we fail to comply with the commitments we have made with respect to the foregoing regulatory actions or if other regulatory actions of a similar or different nature are taken in the future against us, this could lead to (i) loss of our licenses and approvals to engage in our servicing and lending businesses, (ii) governmental investigations and enforcement actions, (iii) administrative fines and penalties and litigation, (iv) civil and criminal liability, including class action lawsuits, (v) breaches of covenants and representations under our servicing, debt or other agreements, (vi) inability to raise capital and (vii) inability to execute on our business strategy. Any of these occurrences could increase our operating expenses and reduce our revenues, hamper our ability to grow or otherwise materially and adversely affect our business, reputation, financial condition and results of operations.

Loan Put-Back and Related Contingencies

We have exposure to origination representation, warranty and indemnification obligations because of our lending, sales and securitization activities and our acquisitions to the extent we assume one or more of these obligations and in connection with our servicing practices. At March 31, 2015 and 2014, we had provided or assumed representation and warranty obligations in connection with \$77.5 billion and \$87.9 billion of UPB, respectively, covering both forward and reverse mortgage loans. At March 31, 2015, we had outstanding representation and warranty repurchase demands of \$134.6 million UPB (696 loans). At March 31, 2014, the outstanding UPB of representation and warranty repurchase demands was \$138.7 million (701 loans). We review each demand and monitor through resolution, primarily through rescission, loan repurchase or make-whole payment.

The following table presents the changes in our liability for representation and warranty obligations, compensatory fees for foreclosures that may ultimately exceed investor timelines and related indemnification obligations for the three months ended March 31:

	2015	2014
Beginning balance	\$132,918	\$192,716
Provision for representation and warranty obligations	(3,975) 7,266
New production reserves	228	—
Obligations assumed in connection with MSR and servicing business acquisitions	—	182
Charge-offs and other (1)	(9,989) (30,929
Ending balance	\$119,182	\$169,235

(1) Includes principal and interest losses realized in connection with repurchased loans, make-whole, indemnification and fee payments and settlements net of recoveries, if any.

We believe that it is reasonably possible that losses beyond amounts currently recorded for potential representation and warranty obligations and other claims described above could occur, and such losses could have an adverse impact on our results of operations, financial condition or cash flows. However, based on currently available information, we are unable to estimate a range of reasonably possible losses above amounts that have been recorded at March 31, 2015.

46

Note 21 – Subsequent Events

On April 6, 2015, OLS entered into Amendment No. 2 to Master Servicing Rights Purchase Agreement and Sale Supplements (the Amendment) with HLSS Holdings, LLC (Holdings), HLSS and MSR-EBO Acquisition LLC, a wholly-owned subsidiary of NRZ (Buyer), which Amendment became effective upon the consummation and closing of the purchase by the Buyer, directly and through HLSS Advances Acquisition Corp., of substantially all of the assets of HLSS. The Amendment revised terms of (i) the Master Servicing Rights Purchase Agreement, dated as of October 1, 2012, as amended by Amendment No. 1 to Master Servicing Rights Purchase Agreement and Sale Supplements, dated as of December 26, 2012 (as so amended, the MSR Purchase Agreement) and (ii) certain sale supplements to the MSR Purchase Agreement (as heretofore amended, supplemented and modified from time to time, the Sale Supplements and, together with the MSR Purchase Agreement, the Original Agreements). In consideration of OLS' consent to the assignment by HLSS to the Buyer of all HLSS' right, title and interest in, to and under the Original Agreements, the Amendment, among other things:

extended the term during which OLS is, subject to the provisions of the amended Original Agreements, entitled to be the servicer on loans for which Rights to MSRs have been sold to NRZ (along with the associated economic benefits) for two additional years or until April 30, 2020, whichever is earlier, which would depend on the sale date for the applicable Rights to MSRs (existing terms ranged from February 2018 through October 2019 prior to the Amendment);

provided that such extension will not apply with respect to any servicing agreement that, as of the date that it was scheduled to terminate under the Original Agreements, is affected by an uncured Termination Event (as defined in the Sale Supplements) due to a downgrade of OLS' servicer rating to "Below Average" or lower by S&P or to "SQ4" or lower by Moody's;

provided that the parties will commence negotiating in good faith for an extension of the contract term and the servicing fees payable to OLS no later than six months prior to the end of the applicable term as extended pursuant to the Amendment; and

imposed a two-year standstill (until April 6, 2017 and subject to certain conditions) on the rights of NRZ to replace OLS as servicer.

The Amendment also provides that OLS will sell to NRZ, on an exclusive and "as is" basis, all economic beneficial rights to the clean-up call rights OLS is entitled to pursuant to servicing agreements that underlie Rights to MSRs owned by NRZ, for a payment upon exercise of 0.50% of the UPB of all performing mortgage loans (mortgage loans that are current or 30 days or less delinquent) associated with the applicable clean up-call.

In the event there is a future downgrade of OLS' S&P servicer rating below its current rating of "Average," OLS has also agreed to compensate NRZ for certain increased costs associated with its servicing advance financing facilities, including increased costs of funding, to the extent such costs are the direct result of such downgrade. The Amendment provides that any such compensation, if required, shall not exceed \$3.0 million for any calendar month or \$36.0 million in the aggregate. In such an event, NRZ has agreed to use commercially reasonable efforts to assist OLS in curing any potential cost increases by obtaining amendments to the relevant financing agreements.

On April 17, 2015, we entered into an amendment to the SSTL facility agreement. Effective as of April 20, 2015, the amendment, among other things:

removed, with respect to the 2014 fiscal year, the requirement that our financial statements and the related audit report must be unqualified as to going concern; and

extended the required time period for delivery of the 2014 audited financial statements to May 29, 2015.

On April 30, 2015, we announced agreements with Fannie Mae and Freddie Mac to sell portfolios of non-performing loan servicing. We expect these transactions to close over the coming months, with the first transfer on May 1, 2015. These transactions will include payments to the GSEs to assume the delinquent servicing and may, in some cases, include settlements of certain indemnification obligations. We expect these transactions to be cash flow positive as we will be reimbursed for outstanding advances.

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS (Dollars in thousands, except per share amounts and unless otherwise indicated)

The following Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as other portions of this Form 10-Q, may contain certain statements that constitute forward-looking statements within the meaning of the federal securities laws. You can identify forward-looking statements by terminology such as "may," "will," "should," "could," "intend," "consider," "expect," "plan," "anticipate," "believe," "estimate," "predict" or "continue" or the ne terms or other comparable terminology. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Forward-looking statements involve a number of assumptions, risks and uncertainties that could cause actual results to differ materially from those suggested by such statements. You should not place undue reliance on any forward-looking statement, and you should consider all uncertainties and risks discussed or referenced in this report, including those under "Forward-Looking Statements" and Item 1A, Risk Factors, as well as those discussed under Part I to our Annual Report on Form 10-K for the year ended December 31, 2014 or in any subsequent SEC filings.

OVERVIEW

Ocwen is a leader in the servicing industry in foreclosure prevention and loss mitigation that helps families stay in their homes and improves financial outcomes for investors. Our leadership in the industry is evidenced by our high cure rate for delinquent loans and above average rate of continuing performance by borrowers whose loans we have modified. Ocwen has completed over 584,000 loan modifications since January 2008. We are also an innovator in the industry, as evidenced by our SAM program, which incorporates principal reductions and lower payments for borrowers while providing a net present value for mortgage loan investors that is superior to that of foreclosure, including the ability to recoup principal reductions if property values increase over time. This program was developed in 2012, and was expanded in 2013 to all states where the program is permitted. Through March 31, 2015, we have completed nearly 51,000 modifications under the SAM program.

Ocwen has been a leader in HAMP modifications since its inception in 2009. Ocwen has completed 20% of all HAMP-sponsored modifications, 45% more than the next highest servicer, according to data published by MHA in December 2014. Ocwen achieved 3-star ratings, the highest score, on all seven compliance categories in the same report.

Our recent regulatory settlements have significantly impacted our ability to grow our servicing portfolio because we have agreed to restrictions in our consent orders with the NY DFS and CA DBO that effectively prohibit future acquisitions of servicing until we have satisfied the respective conditions in those consent orders. Under the NY DFS consent order, we may acquire MSR's upon (a) meeting benchmarks specified by Goldin Associates, our newly appointed Operations Monitor, relating to our boarding process for newly acquired MSR's and our ability to adequately service newly acquired MSR's and our existing loan portfolio, and (b) the NY DFS's approval, not to be unreasonably withheld. Under the CA DBO consent order, we agreed to cease acquiring any additional MSR's for loans secured in California until the CA DBO is satisfied that OLS can satisfactorily respond to the requests for information and documentation made in the course of a regulatory exam. If we are unable to satisfy these conditions, we will be unable to grow our servicing portfolio through acquisitions.

As a result of the current regulatory environment, we have faced, and expect to continue to face, increased regulatory and public scrutiny as well as stricter and more comprehensive regulation of our business. We continue to work diligently to assess the implications of the regulatory environment in which we operate and to meet the requirements of the current environment. We devote substantial resources to regulatory compliance, while, at the same time, striving to meet the needs and expectations of our customers, clients and other stakeholders.

We are actively executing on our strategy to sell certain of our Agency MSR's with the intent of reducing our exposure to interest rate movements, monetizing significant unrealized value and generating significant liquidity. In addition to proceeds received or paid in connection with the Agency MSR sales, we are reimbursed for servicing advances in connection with non-performing loans upon transfer and will no longer be obligated to make servicing advances in connection with these MSR's upon completion of the sale. We expect that reducing the size of our Agency servicing portfolio will help simplify our operations and help improve our margins over time. We have completed or announced sales of \$9.1 billion and \$84.2 billion UPB, respectively, as of March 31, 2015. Sales that have been announced but

not yet closed remain subject, in each case, to necessary approvals and the satisfaction of closing conditions. The UPB of our residential servicing portfolio declined from \$398.7 billion as of December 31, 2014 to \$382.2 billion as of March 31, 2015 primarily as a result of runoff and transfers.

In addition to our efforts to optimize our servicing business, we continue to invest in our mortgage lending businesses. Ocwen provides forward and reverse mortgages directly, through call-center-based operations, and indirectly, through brokers, correspondents and relationships with lending partners. We believe the reverse mortgage business is a substantially under-developed market relative to its potential, and that it provides a potential source of long-term growth for Ocwen. We are investing in our forward lending business to build competitive advantages around processes and technology, leveraging the analytical foundations of our servicing business and the differentiated technology platform of our reverse mortgage business.

Several factors suggest that the demand for alternative credit products to support homeownership is growing. We believe that a large percentage of American households would be unable to qualify for a new mortgage in the current environment. This compares to a pre-financial crisis estimate that 70% of households could obtain mortgage loan financing in either the prime or non-prime lending market. Expanding access to credit has been solidly supported by community groups with whom we are in close contact. We expect innovative Qualified Mortgage products will be developed to access this underserved market in the future. In most cases, these products will require a flexible servicing platform that can manage the risks associated with non-prime or credit-impaired servicing, an area in which we believe we have strong competitive advantages. Through our Homeward and Liberty lending operations, we purchased or originated 4,724 and 1,823 forward and reverse mortgage loans with a UPB of \$920.5 million and \$191.8 million, respectively, during the first quarter of 2015.

We will continue to evaluate new adjacent market opportunities that are consistent with our strategic goals where we can capture competitive advantages and achieve attractive returns for our shareholders. These would include sustainable new opportunities that align with long-term macro trends; opportunities that can contribute meaningfully to our long-term growth and return on equity; and, generally, businesses where we feel we can capture and maintain a long-term competitive advantage (i.e., advantage related to our operating efficiencies, our cost of capital or our tax structure). We prefer businesses that can be structured efficiently around repetitive processes where we can utilize our operational expertise and innovation to create best-in-class practices.

On April 6, 2015, we amended our Master Servicing Rights Purchase Agreement and Sale Supplements (the Amendment) with NRZ in consideration of OLS' consent to the assignment by HLSS to NRZ of all HLSS' right, title and interest in, to and under the agreements. The Amendment extends and, we believe, strengthens our relationship with NRZ. Most notably, the Amendment extends the term of the agreements by two years or until April 30, 2020, whichever is earlier subject to maintaining or improving our servicer ratings and limits NRZ's ability to transfer the servicing of any or all of the servicing agreements underlying the Rights to MSR until April 6, 2017 even if further OLS servicer rating downgrades were to occur. We were also able to secure the future monetization of certain clean-up call rights we own. The Amendment provides that we will sell to NRZ, on an exclusive and "as is" basis, all economic beneficial rights to the clean-up call rights we are entitled to pursuant to servicing agreements that underlie Rights to MSR owned by NRZ, for a payment upon exercise of 0.50% of the UPB of all performing mortgage loans (mortgage loans that are current or 30 days or less delinquent) associated with the applicable clean up-call.

In the event there is a future downgrade of OLS' S&P servicer rating below its current rating of "Average," OLS has agreed to compensate NRZ for certain increased costs associated with its servicing advance financing facilities, including increased costs of funding, to the extent such costs are the direct result of such downgrade. The Amendment provides that any such compensation, if required, shall not exceed \$3.0 million for any calendar month or \$36.0 million in the aggregate. In such an event, NRZ has agreed to use commercially reasonable efforts to assist OLS in curing any potential cost increases by obtaining amendments to the relevant financing agreements.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and the related notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q and with our consolidated financial statements and notes thereto and management's discussion and analysis of financial condition and results of operation appearing in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Operations Summary

n/m: not meaningful

Three Months Ended March 31, 2015 versus 2014

Servicing and subservicing fees for the first quarter of 2015 were lower than the first quarter of 2014 due to a decline in the total average UPB of the residential servicing portfolio and a decline in total completed modifications, offset in part by an improvement in delinquencies.

Expenses increased during the first quarter of 2015 as compared to the first quarter of 2014:

• We recognized an impairment charge of \$17.8 million in the first quarter of 2015 on our government-insured stratum of amortization method MSR's due to a decline in fair value below carrying value.

• Professional services were \$35.5 million higher for the three months ended March 31, 2015. Higher costs related primarily to litigation, regulatory monitoring and compliance.

• Provisions for bad debts and other charges in connection with non-recoverable advances and receivables and servicing-related outsourcing expenses decreased \$17.2 million and \$7.1 million, respectively, as we have completed

the transition of loans to the REALServicing® platform and as we have made progress integrating our servicing operations.

Interest expense for the first quarter of 2015 decreased as compared to the first quarter of 2014 largely due to a decrease in interest expense on the NRZ financing liabilities offset in part by interest expense on the \$350.0 million Senior Unsecured Notes we issued in May 2014. Interest expense on the NRZ financing liability was higher in the first quarter of 2014 as a result of an increase in the fair value of the underlying MSR's as a result of market driven changes in certain assumptions, including the estimated cost to finance advances. The cumulative effect of these assumption updates was an increase in the fair value of the NRZ financing liability, which is recorded as interest expense. There were no changes in fair value in the first quarter of 2015 related to assumption updates.

Other income for the first quarter of 2015 includes a gain of \$26.9 million recognized on the sale of a \$9.1 billion portfolio of Agency MSR's on March 31, 2015. Proceeds from the sale were \$95.6 million, of which \$49.5 million was received during the first quarter of 2015 and the remainder in April 2015. Proceeds amounts should not be construed as necessarily indicative of contractual sale prices, as these amounts exclude holdbacks, deal expenses and other amounts.

Financial Condition Summary

The following table summarizes our consolidated balance sheets at the dates indicated.

	March 31, 2015	December 31, 2014	\$ Change	% Change	
Cash	\$242,332	\$129,473	\$112,859	87	%

	\$7,265,234	\$7,226,113	\$39,121	1	%

n/m: not meaningful

MSRs decreased primarily as a result of amortization of \$38.5 million, sales of \$65.6 million, a \$33.2 million decline in fair value and an impairment charge of \$17.8 million. These declines were offset in part by new capitalization MSRs of \$8.5 million generated from our lending platform.

Effective January 1, 2015, we elected fair value for a newly-created class of non-Agency MSRs, which were previously accounted for using the amortization method. We recorded a cumulative-effect adjustment of \$42.8 million, net of deferred income taxes, to retained earnings as of January 1, 2015 to reflect the excess of the fair value of these MSRs over their carrying amount.

Loans held for investment and financing liabilities increased as a result of our reverse mortgage securitizations accounted for as secured financings. Other secured borrowings declined due to a reduction in borrowings under our mortgage loan warehouse facilities, consistent with the decline in the balance of loans held for sale, and a \$73.8 million prepayment due as a result of the MSR sale on March 31, 2015.

SEGMENT RESULTS OF OPERATIONS

Our activities are organized into two reportable business segments - Servicing and Lending, as well as a Corporate Items and Other segment.

Servicing

Our Servicing business is primarily comprised of our core residential mortgage servicing business and currently accounts for the majority of our total revenues. Our servicing clients include non-Agency residential mortgage-backed securities (RMBS) trusts and some of the largest financial institutions in the U.S., including Fannie Mae, Freddie Mac and Ginnie Mae.

Servicing primarily involves the collection and remittance of principal and interest payments received from borrowers, the administration of mortgage escrow accounts and the collection of insurance claims. Servicing also involves the management of loans that are delinquent, including those in foreclosure or bankruptcy, making servicing advances, evaluating loans for modification and other loss mitigation activities and, if necessary, foreclosure referrals and REO sales on behalf of investors or other servicers. Master servicing involves the collection of payments from servicers and the distribution of funds to investors in mortgage and asset-backed securities and whole loan packages. We earn contractual monthly servicing fees pursuant to servicing agreements (which are typically payable as a percentage of UPB) as well as ancillary fees in connection with owned MSRs. We also earn fees under both subservicing and special servicing arrangements with banks and other institutions that own the MSRs.

We recognize servicing fees as revenue when the fees are earned, which is generally when the borrower makes a payment or when a delinquent loan is resolved through modification, repayment plan, payoff or through the sale of the underlying mortgaged property following foreclosure. Therefore, our revenue recognition is generally a function of UPB, the number of payments received and delinquent loans that resolve. Servicing fee revenue from subservicing and special servicing arrangements may be earned on a per loan basis, which is typically dependent on delinquency status. When a loan becomes current via our non-HAMP modification process, deferred servicing fees and late fees are considered earned and are recognized as revenue. However, if any debt is forgiven as part of a non-HAMP modification, no late fees are collected or earned. When a loan becomes current via the HAMP modification process, deferred servicing fees are earned and recognized as revenue. However, late fees are forfeited. Initial HAMP fees are also recognized as revenue at that time. In addition, under HAMP, if a modified loan remains less than 90 days delinquent, we earn HAMP success fees at the first, second and third anniversaries of the start of the trial modification.

HUD, Freddie Mac, Fannie Mae and Ginnie Mae have approved OLS as a loan servicer. We are also the subject of mortgage servicer ratings issued and revised from time to time by rating agencies including Moody's Investors Services, Inc. (Moody's), Morningstar, Inc. (Morningstar), Standard & Poor's Rating Services (S&P) and Fitch Ratings Inc. (Fitch). Favorable ratings from these agencies are important to the conduct of our loan servicing and lending businesses.

The following table summarizes our key ratings by these rating agencies:

	Moody's	Morningstar	S&P	Fitch
Residential Prime Servicer	—	MOR RS3	Average	RPS4
Residential Subprime Servicer	SQ3-	MOR RS3 (1)	Average	RPS4
Residential Special Servicer	SQ3-	MOR RS3	Average	RSS4
Residential Second/Subordinate Lien Servicer	—	—	Average	RPS4
Residential Home Equity Servicer	—	—	—	RPS4
Residential Alt A Servicer	—	—	—	RPS4
Master Servicing	—	—	Above Average	RMS4

Date of last action January 29, 2015 February 6, 2015 October 28, 2014 February 4, 2015
(1) Residential non-prime servicer rating.

Each of these rating agencies has downgraded our servicer rating within the last nine months. In addition to ratings, each of the rating agencies will from time to time assign an outlook (or a ratings watch such as Moody's review status) to a mortgage

52

servicer's rating status. A negative outlook is generally used to indicate that a ranking "may be lowered." Each of S&P and Morningstar has assigned us a negative outlook, while Moody's has placed us on review for downgrade. Fitch has assigned us a stable outlook. Downgrades in our servicer ratings could affect the terms and availability of debt financing facilities that we may seek in the future, and could impair our ability to consummate future servicing transactions or adversely affect our dealings with contractual counterparties and regulators, including our ability to maintain our status as an approved servicer by Fannie Mae and Freddie Mac. In addition, some of our servicing agreements require that we maintain specified servicer ratings.

Certain of our servicing agreements require that we maintain specified servicer ratings. Out of approximately 4,100 non-Agency servicing agreements, approximately 700 with approximately \$45.0 billion of UPB as of March 31, 2015 have minimum servicer ratings criteria. As a result of downgrades in our servicer ratings, termination rights have been triggered in approximately 400 of these non-Agency servicing agreements. This represents approximately \$25.0 billion in UPB as of March 31, 2015, or approximately 12% of our total non-Agency servicing portfolio. We received notices terminating us as the servicer under four of our non-Agency servicing agreements due to rating downgrades in the first quarter of 2015. Pursuant to our servicing agreements, we are generally entitled to payment of accrued and unpaid servicing fees through termination as well as all advances and certain other previously unreimbursed amounts, although we lose the future servicing fee revenue. The financial impact of the termination of servicing under these four servicing agreements, which represent only 0.15% of our overall servicing portfolio as of March 31, 2015, are immaterial to our overall financial condition. We could be subject to further terminations, either as a result of recent servicer ratings downgrades or future adverse actions by rating agencies, which could have an adverse effect on our business, financing activities, financial condition and results of operations.

--	---------------	---------------	---	---

Performing loans include those loans that are current (less than 90 days past due) and those loans for which (1) borrowers are making scheduled payments under loan modification, forbearance or bankruptcy plans. We consider all other loans to be non-performing.

(2) Includes 702,948 and 786,900 subprime loans with a UPB of \$117.1 billion and \$135.6 billion at March 31, 2015 and March 31, 2014, respectively.

(3) Includes 228,799 and 271,838 prime loans with a UPB of \$46.6 billion and \$59.8 billion at March 31, 2015 and March 31, 2014, respectively, that we service or subservice.

(4) Excludes Freddie Mac loans serviced under special servicing agreements where we have no obligation to advance.

(5) The effective average interest rate on the financing liability that we recognized in connection with the sales of rights to MSR to NRZ is 46.95% and 61.39% for the three months ended March 31, 2015 and 2014, respectively.

The following table provides information regarding the changes in our portfolio of residential assets serviced:

	Amount of UPB		Count	
	2015	2014	2015	2014
Portfolio at January 1	\$398,727,727	\$464,651,332	2,486,038	2,861,918
Additions	2,246,103	4,507,762	10,864	28,972
Sales (1)	—	—	—	—
Servicing transfers	(3,267,861)	(6,001,718)	(27,980)	(51,907)
Runoff	(15,491,967)	(13,586,780)	(78,148)	(75,596)
Portfolio at March 31	\$382,214,002	\$449,570,596	2,390,774	2,763,387

On March 31, 2015, we completed the sale of Agency MSR on a portfolio consisting of 76,000 loans with a UPB (1) of \$9.1 billion. We continued to subservice these loans until the servicing transfer was completed on April 16, 2015. See Note 8 – Mortgage Servicing to the unaudited Consolidated Financial Statements.

Three Months Ended March 31, 2015 versus 2014

Total residential servicing and subservicing fees for the first quarter of 2015 were \$443.9 million, a 9% decrease as compared to the first quarter of 2014. This decline is primarily due to a 14% decline in the average UPB of assets serviced and a decline in total completed modifications. Annualized loan servicing and subservicing fees as a percentage of UPB increased to 0.36% of average UPB in the first quarter of 2015 as compared to 0.34% in the first quarter of 2014 as a result of an improvement in our delinquency rates. Overall, the non-performing delinquency rate based on UPB dropped from 14% at March 31, 2014 to 13% at March 31, 2015.

We recognized servicing fee, late fee and HAMP fee revenue of \$64.4 million and \$70.1 million during the first quarter of 2015 and 2014, respectively, in connection with loan modifications.

We estimate the balance of deferred servicing fees related to delinquent borrower payments was \$511.4 million at March 31, 2015 compared to \$580.4 million at March 31, 2014. The net decrease is primarily due to collections and resolutions of delinquent loans through modification, payoff or through the sale of the underlying mortgaged property following foreclosure and reflects an improvement in our delinquency rates. We are required to remit all deferred servicing fees collected in connection with MSR underlying the sales of rights to MSR to NRZ. We are entitled to base servicing and performance fees that increase to the extent we collect deferred servicing fees. As such, the majority of the deferred servicing fees collected are recognized by us as revenue and a reduction of NRZ related interest expense.

Gain on loans held for sale, net includes \$17.0 million and \$21.2 million of gains on the sale of modified FHA and VA insured loans for first quarter of 2015 and 2014, respectively. These gains include \$12.9 million and \$7.2 million during the first quarter of 2015 and 2014 in connection with the sale of \$42.7 million UPB of loans repurchased as a

result of indemnification obligations and \$549.4 million UPB Ginnie Mae EBO Loans, respectively.

57

Expenses increased by \$30.0 million in the first quarter of 2015, or 10%, as compared to the first quarter of 2014 primarily due to MSR valuation related impacts and higher professional services expenses offset, in part, by the benefits of the platform integration completed in 2014.

MSR valuation related impacts: On January 1, 2015, we elected to account for a newly-created class of non-Agency MSRs at fair value. This class is generally insensitive to changes in interest rates. As a result, this class is similar to the amount of amortization expense we would have otherwise recognized had we not elected fair value. Changes in our fair value Agency class are driven primarily by changes in interest rates. Runoff of our MSRs at fair value accounted for approximately \$6.1 million and \$3.2 million of expense and the change in fair value due to changes in interest rates and other assumptions were approximately \$27.1 million and \$2.0 million of expense in the first quarter of 2015 and 2014, respectively. We recognized an impairment charge of \$17.8 million in the first quarter of 2015 on our government-insured stratum of amortization method MSRs due to a decline in fair value below carrying value. This decline was driven by changes in FHA and VA insurance rates and a decline in interest rates, both of which resulted in decreases in the estimated fair value of this MSR stratum.

Professional Services: Professional services expense, both direct and indirect through overhead allocations, increased by \$20.7 million and \$33.9 million, respectively, due to higher legal, risk, compliance and audit costs.

Platform Integration: We completed the transition of loans to the REALServicing® platform in October 2014 and have made significant progress integrating our servicing operations. In the first quarter of 2015, we are beginning to realize the benefits on the integration. Compensation and benefits decreased by \$10.9 million, primarily as a result of platform integration that reduced the average U.S. based headcount by 21%, offset in part by a 46% increase in average India based and other headcount.

Charge-offs and provisions in connection with non-recoverable advances and receivables decreased \$17.2 million million and servicing-related outsourcing expenses declined \$7.6 million.

Interest expense declined by \$25.8 million, or 19%, in the first quarter of 2015 due principally to a \$27.6 million decrease in interest on the NRZ financing liabilities as the average outstanding balance declined by 6%. Interest expense on the NRZ financing liability was higher in the first quarter of 2014 as a result of an increase in the fair value of the underlying MSRs as a result of market driven changes in certain assumptions, including the estimated cost to finance advances. The cumulative effect of these assumption updates was an increase in the fair value of the NRZ financing liability, which is recorded as interest expense. There were no changes in fair value in the first quarter of 2015 related to assumption updates.

Other income for the first quarter of 2015 includes a gain of \$26.9 million recognized on the sale of a \$9.1 billion portfolio of Agency MSRs on March 31, 2015.

Lending

We originate and purchase conventional and government-insured forward mortgage loans through our Homeward lending operations. Loans are acquired through three primary channels: correspondent lender relationships, broker relationships and directly with mortgage customers. Per-loan gross and net margin varies by channel, with correspondent typically being the lowest and direct the highest. After origination, we package and sell the loans in the secondary mortgage market, through GSE securitizations and whole loan transactions. We typically retain the associated MSRs as a low cost means to acquire MSRs with good return profiles. Lending revenues include interest income earned for the period the loans are on our balance sheet, gain on sale income representing the difference between the origination value and the sale value of the loan, and fee income earned at origination.

Reverse mortgages are originated and purchased through our Liberty lending operations under the guidelines of the HECM reverse mortgage insurance program of HUD. Loans originated under this program are guaranteed by the FHA, which provides investors with protection against risk of borrower default. We retain the servicing rights to reverse loans securitized through the Ginnie Mae HMBS program. We have originated variable rate HECM loans under which the borrowers have additional borrowing capacity of \$685.0 million at March 31, 2015. These draws are funded by the servicer and can be subsequently securitized or sold (Future Value). We do not incur any substantive underwriting, marketing or compensation costs in connection with these future draws. We recognize this Future Value over time as future draws are securitized or sold. At March 31, 2015, Future Value is estimated to be \$55.6 million. We use a third-party valuation expert to determine Future Value based on the net present value of the estimated future

cash flows of the loans and utilizing a discount rate of 12% and projected performance assumptions in line with historical experience and industry benchmarks.

n/m: not meaningful

Three Months Ended March 31, 2015 versus 2014

In the first quarter of 2015, Homeward forward lending revenues increased by \$2.3 million, or 11%, from first quarter of 2014 levels to a total of \$24.4 million. This increase occurred despite a decline in mortgage originations to \$920.5 million, which was \$220.2 million, or 19%, less than originations in the first quarter of 2014. Forward lending operations, in the first quarter of 2015, generated \$14.7 million of pre-tax income, which was an increase of \$7.8 million, or 113%, from first quarter of 2014 earnings. This improvement occurred in part due to a shift in channel business mix from the lower margin

correspondent channel to the higher margin direct channel, which has resulted in better margin rates. Forward lending expenses of \$11.3 million represented a decrease of \$7.1 million, or 38%, from first quarter of 2014, principally because of declines in compensation and benefit expenses related to reduced headcount as well as lower vendor loan expenses related to lower funded volumes in the correspondent channel.

In the first quarter of 2015, Liberty reverse lending revenues of \$13.3 million increased by \$6.6 million, or 99%, and funded reverse mortgage volume of \$191.8 million increased \$28.6 million, or 18%, from the first quarter of 2014. Reverse lending operations generated pre-tax income of \$1.2 million as compared to a pre-tax loss of \$6.3 million in the first quarter of 2014. Aggressive cost reduction efforts and higher margins have contributed to the improvement in earnings. The HECM program changes instituted by HUD in 2013 resulted in the reverse mortgage market shifting from one that consisted primarily of fixed rate products to one where variable rate products predominated, which resulted in a consequent decrease in volumes and a lower loan size at origination for the industry and for Liberty. The lower day one loan size in turn resulted in a lower gain on sale when the loans were securitized. Over time, however, the loan balances on these variable rate loans should increase through subsequent draws by the borrowers. As these additional draws are securitized, we expect to recognize additional gain on sale at a minimal incremental cost. Expenses related to the Homeward and Liberty platforms are driven largely by production volume, with direct acquisition costs offset by origination fee income that is included in Other revenue.

Interest income consists primarily of interest earned on newly originated and purchased loans prior to sale to investors. Interest income is offset by interest expense incurred to finance the mortgage loans. We finance originated and purchased forward and reverse mortgage loans with repurchase and participation agreements, commonly referred to as warehouse lines. The decrease in new forward lending production drove the declines in interest income and expense.

As part of forward lending, we have, from time to time, sold MSR's for certain forward loans that may qualify for refinancing under the HARP program to an unrelated third party. We account for these transactions as secured financings. We recognize gains on the retirement of the related financing liabilities upon repurchase of those MSR's related to loans that were successfully refinanced. During the first quarter of 2014, we recognized gains of \$2.3 million on the retirement of the related financing liabilities upon repurchase of MSR's related to loans that were successfully refinanced through HARP.

Corporate Items and Other

Corporate Items and Other includes revenues and expenses that are not directly related to other reportable segments, business activities that are individually insignificant, interest income on short-term investments of cash, interest expense on unsecured corporate debt and certain corporate expenses. Our cash balances are included in Corporate Items and Other.

Business activities that are not considered to be of continuing significance include subprime non-Agency loans held for sale (at lower of cost or fair value), investments in mortgage-backed securities, affordable housing investment activities and investments in unconsolidated entities.

Portions of interest income and interest expense are allocated to the Servicing and Lending segments, including interest earned on cash balances and short-term investments and interest incurred on corporate debt. Operating expenses incurred by corporate support services are also allocated to the Servicing and Lending segments.

The following table presents selected results of operations of Corporate Items and Other for the three months ended March 31. The amounts presented are before the elimination of balances and transactions with our other segments:

	2015	2014
Revenue	\$1,608	\$1,711
Expenses	16,697	9,837
Other income (expense), net	(4,787) 2,627
Loss before income taxes	\$(19,876) \$(5,499

Three Months Ended March 31, 2015 versus 2014. Operating expenses increased by \$6.9 million primarily as a result of costs to maintain the legacy ResCap servicing platform for post-integration audit and compliance purposes of \$3.4 million. In addition, we incurred certain non-recurring regulatory monitoring costs, which have not been allocated to the business segments. Other income (expense), net for the three months ended March 31, 2015 includes \$6.1 million of interest expense on the \$350.0 million Senior Unsecured Notes that we issued on May 12, 2014.

LIQUIDITY AND CAPITAL RESOURCES

Overview. At March 31, 2015, our cash position was \$242.3 million compared to \$129.5 million at December 31, 2014. We invest cash that is in excess of our immediate operating needs primarily in money market deposit accounts. Our priorities for deployment of excess cash are: (1) supporting our core servicing and lending businesses, (2) remaining safe and secure by ensuring successful refinancing of our maturing servicing advance financing facilities and/or reducing corporate leverage, and (3) expanding into similar or complimentary businesses that meet our return on capital requirements.

Our primary sources of funds for near-term liquidity are:

• Collections of servicing fees and ancillary revenues;

• Proceeds from match funded liabilities;

• Proceeds from other borrowings, including warehouse facilities;

• Proceeds from sales of MSRs and related advances; and

• Proceeds from sales of originated loans and repurchased loans.

Our ability to finance servicing advances is a significant factor that affects our liquidity. Our use of advance financing facilities is integral to our servicing advance financing strategy. Consistent with industry practice, our advance funding facilities have a 364-day term and the revolving periods for all of our advance funding facilities end in 2015. Similarly, all of our master repurchase and participation agreements for financing new loan originations have 364-day terms and mature in 2015.

Advances and match funded advances comprised 38% of total assets at March 31, 2015. Our borrowings under our advance funding facilities are secured by pledges of servicing advances. Maximum borrowing capacity for match funded advances at March 31, 2015 decreased by \$100.0 million from \$2.4 billion at December 31, 2014 to \$2.3 billion at March 31, 2015, because of our voluntary termination of a \$50.0 million facility in January 2015 and the scheduled \$50.0 million reduction in the capacity under another facility in February 2015. Our unused advance borrowing capacity decreased by \$10.4 million to \$324.3 million at March 31, 2015 principally because of a decrease in borrowing, as total advances and match funded advances declined by \$107.9 million during the quarter. Our ability to continue to pledge collateral under each advance financing facility depends on the performance of the collateral. At March 31, 2015, \$324.3 million of the total maximum borrowing capacity under our servicing advance financing facilities of \$2.3 billion remained available. However, none of the available capacity could be used based on the amount of available collateral.

We use mortgage loan warehouse facilities to fund newly originated loans on a short-term basis until they are sold to secondary market investors, including GSEs or other third-party investors. The majority of these warehouse facilities are structured as repurchase agreements under which ownership of the loans is temporarily transferred to a lender. The loans are transferred at a discount or “haircut” which serves as the primary credit enhancement for the lender. The funds are repaid using the proceeds from the sale of the loans to the secondary market investors, usually within 30-45 days. At March 31, 2015, \$19.5 million of the borrowing capacity extended on a committed basis was available under our lending warehouse facilities, including our warehouse facilities for reverse mortgages. An additional \$522.5 million of borrowing capacity was available on an uncommitted basis at the discretion of the lenders. See Note 11 – Borrowings to the unaudited Consolidated Financial Statements for additional details.

We also rely on the secondary mortgage market as a source of long-term capital to support our lending operations. Substantially all of the mortgage loans that we produce are sold in the secondary mortgage market in the form of residential mortgage backed securities guaranteed by Fannie Mae or Freddie Mac or, in the case of mortgage backed securities guaranteed by Ginnie Mae, are mortgage loans insured or guaranteed by the FHA or VA.

Our debt agreements contain various qualitative and quantitative covenants including financial covenants, covenants to operate in material compliance with applicable laws, monitoring and reporting obligations and restrictions on our ability to engage in various activities, including but not limited to incurring additional debt, paying dividends, repurchasing or redeeming capital stock, transferring assets or making loans, investments or acquisitions. As a result of the covenants to which we are subject, we may be limited in the manner in which we conduct our business and may be limited in our ability to engage in favorable business activities or raise additional capital to finance future

operations or satisfy future liquidity needs. In addition, breaches or events that may result in a default under our debt agreements include noncompliance with our covenants, nonpayment of principal or interest, material misrepresentations, the occurrence of a material adverse change, insolvency, bankruptcy, certain material judgments and changes of control. Covenants and defaults of this type are commonly found in debt agreements such as ours. Certain of these covenants and defaults are open to subjective interpretation and, if our interpretation were contested by a lender, a court may ultimately be required to determine compliance or lack thereof. In addition, our debt agreements generally include cross default provisions such that a default under one agreement could trigger defaults under other agreements. If we fail to comply with our debt agreements and are unable to avoid, remedy or secure a waiver of any resulting default, we may be subject to adverse action by our lenders, including termination of further funding, acceleration of

outstanding obligations, enforcement of liens against the assets securing or otherwise supporting our obligations, and other legal remedies.

Our primary uses of funds are:

• Payments for advances in excess of collections on existing servicing portfolios;

• Payment of interest and operating costs;

• Funding of originated loans; and

• Repayments of borrowings, including match funded liabilities and warehouse facilities.

Under the terms of our SSTL facility agreement we are required to use 75% of the net cash proceeds from certain permitted asset sales (which generally include our announced Agency MSR sales) to prepay the SSTL. Subject to certain conditions, we may be able to reinvest up to 25% of such net cash proceeds within 120 days of receipt thereof (subject to an extension of up to 90 days if a binding agreement is entered into within such 120 days).

On October 31, 2013, we announced that our board of directors had authorized a share repurchase program for an aggregate of up to \$500.0 million of our issued and outstanding shares of common stock. As of March 31, 2015, the approximate remaining value of shares that may be repurchased under the plan was \$129.7 million. On February 5, 2015, we announced that we have suspended this stock repurchase program. We may restart the stock repurchase program in the future, and unless we amend the share repurchase program or repurchase the full \$500.0 million amount by an earlier date, the share repurchase program will continue through July 2016. During the three months ended March 31, 2015, we did not repurchase any shares of common stock under this program.

Outlook. We closely monitor our liquidity position and ongoing funding requirements, and we regularly monitor and project cash flow by period to minimize liquidity risk.

In assessing our liquidity outlook, our primary focus is on four measures:

• Business financial projections for revenues, costs and net income;

• Requirements for maturing liabilities compared to amounts generated from maturing assets and operating cash flow;

• Projected future sales of MSRs and servicing advances; and

• The change in advances and match funded advances compared to the change in match funded liabilities and available borrowing capacity.

We have considered the impact of financial projections on our liquidity analysis and have evaluated the appropriateness of the key assumptions in our forecast such as revenues, costs and sales of MSRs and other assets. We have analyzed our cash requirements and financial obligations. Based upon these evaluations and analyses, we believe that we have ample liquidity to meet our obligations through 2015.

Our advance funding facilities have a 364-day term and the revolving periods for all of our advance funding facilities end in 2015. At March 31, 2015, we had \$2.0 billion outstanding under these facilities. In the event we are unable to renew, replace or extend one or more of these advance funding facilities, repayment of the outstanding balance must begin at the end of the respective 364-day revolving period. Similarly, all of our warehouse lines for financing new loan originations have 364-day terms and mature in 2015. At March 31, 2015, we had \$2.0 billion outstanding under these financing arrangements. We currently expect that we will be able to renew, replace or extend all of these debt agreements consistent with our historical experience. We anticipate that as we renew, replace or extend our various facilities throughout 2015, we will incur substantially increased ongoing interest costs. We have already entered into commitment letters to refinance certain of our debt agreements and extended certain facilities ahead of their scheduled maturity. Our lenders' obligations to fund under these commitment letters are subject to conditions precedent, some of which are outside our control.

We remain actively engaged with our lenders, and recent financing developments include the following:

• On April 17, 2015, we received a commitment for \$125.0 million of additional mortgage loan financing with a maturity of April 30, 2016.

• On April 16, 2015, we negotiated an increase in the capacity of an existing warehouse line from \$50.0 million to \$100.0 million.

• On April 16, 2015, we agreed to a reduction of \$37.5 million in the uncommitted borrowing capacity under one of our existing warehouse lines.

Many aspects of our liquidity forecast process require the use of judgment and estimates on the part of management and include factors that may be beyond our control. Additionally our actual results could differ materially from our estimates. If our results fall below our expectations, we may take additional actions that would be outside the normal course of our operations to generate additional liquidity. These actions may include, but are not limited to: (1) reducing our ongoing operating expenses, including employee headcount, (2) raising additional capital by issuing debt or equity, or (3) selling certain assets, operations or

subsidiaries. Challenges to our liquidity position could have a material adverse effect on our operating results and financial condition. In 2015, we have engaged financial and legal advisors to advise us regarding potential adjustments to our capital structure, as appropriate, and to help us explore our strategic options, and we expect to incur significant professional services expenses in 2015 in connection with these initiatives.

Credit Ratings. Credit ratings are intended to be an indicator of the creditworthiness of a particular company, security or obligation. Lower ratings result in higher borrowing costs and reduced access to capital markets. The following table summarizes our current ratings and outlook by the respective nationally recognized rating agencies.

Rating Agency	Short-term	Long-term	Senior Unsecured Notes	Review Status / Outlook	Date of last action
Moody's	na	B3	Caal	Negative	January 27, 2015
S&P	na	B	CCC+	Credit Watch Negative	April 21, 2015
Fitch	B	B-	CC	Negative	December 23, 2014

As indicated above, a number of our credit ratings have recently been lowered. The credit rating agencies have generally cited uncertainty regarding the impact of the regulatory scrutiny and possible regulatory actions against us as the primary basis for their actions. At this time, we do not believe that such actions have had a material impact on our liquidity or funding position. It is possible that additional actions by credit rating agencies could have a material adverse impact on our liquidity and funding position, including materially changing the terms on which we may be able to borrow money.

Cash Flows

Our operating cash flow is primarily impacted by the level of new loan production and timing of sales and securitizations of forward mortgage loans and changes in our servicing advance balances. To the extent we sell MSRs related to delinquent loans, we accelerate the recovery of the related advances. We also receive any outstanding deferred servicing fees.

Cash flows for the three months ended March 31, 2015. Our operating activities provided \$325.0 million of cash largely due to net income adjusted for MSR amortization and valuation-related losses and other non-cash items, \$104.3 million of net collections of servicing advances and \$106.1 million of net proceeds from sales and collections of loans held for sale.

Our investing activities used \$164.8 million of cash. Investing activities include cash outflows in connection with our reverse mortgage originations of \$235.3 million. Cash inflows for the first quarter of 2015 include the receipt of \$49.5 million of the \$95.6 million proceeds from the sale of Agency MSRs on March 31, 2015, and \$26.2 million of collections on reverse mortgages.

Our financing activities used \$47.4 million of cash. Cash outflows were primarily comprised of \$89.6 million of net repayments on match funded liabilities from net advance recoveries, \$77.1 million of repayments on the SSTL, including a \$73.8 million prepayment in connection with MSR sales, and a \$55.5 million net reduction in borrowings under mortgage warehouse facilities used to fund originated forward loans, which declined during the period. Cash outflows for the first quarter of 2015 also include \$12.6 million of costs incurred in connection with amendments to the SSTL. These cash outflows were offset in large part by \$238.6 million received in connection with our reverse mortgage securitizations, which are accounted for as secured financings.

Cash flows for the three months ended March 31, 2014. Our operating activities provided \$195.8 million of cash largely due to net income adjusted for MSR amortization and other non-cash items, \$13.4 million of collections of servicing advances, and \$36.6 million of net proceeds from sales and collections of loans held for sale.

Our investing activities used \$378.2 million of cash. Investing activities include cash outflows in connection with our reverse mortgage originations of \$176.7 million. In addition, we paid \$152.7 million in connection with asset and business acquisitions completed during the first quarter of 2014 and \$60.5 million to purchase advances in connection with the Ginnie Mae EBO Transaction.

Our financing activities provided \$246.3 million of cash. Cash provided by our financing activities includes \$226.6 million in connection with our reverse mortgage securitizations accounted for as secured financings. Financing activities also include cash received in connection with the \$123.6 million OASIS transaction involving the sale of

Freddie Mac MSR, which we accounted for as a financing. In addition, we received \$55.7 million of proceeds from the sale of advances to NRZ acquired in connection with the Ginnie Mae EBO Transaction. These cash inflows were partially offset by a net reduction in borrowings under mortgage warehouse facilities used to fund originated forward loans as sales exceeded originations during the quarter. Also, we completed the repurchase of 60,000 shares of common stock under the stock repurchase program we announced in October 2013, paying \$2.3 million in connection with these repurchases.

CONTRACTUAL OBLIGATIONS AND OFF BALANCE SHEET ARRANGEMENTS

Contractual Obligations

We believe that we have adequate resources to fund all unfunded commitments to the extent required and meet all contractual obligations as they come due. At March 31, 2015, such contractual obligations were primarily comprised of secured and unsecured borrowings, interest payments, operating leases and commitments to originate or purchase loans. There were no significant changes to our contractual obligations during the three months ended March 31, 2015.

Off-Balance Sheet Arrangements

In the normal course of business, we engage in transactions with a variety of financial institutions and other companies that are not reflected on our balance sheet. We are subject to potential financial loss if the counterparties to our off-balance sheet transactions are unable to complete an agreed upon transaction. We seek to limit counterparty risk through financial analysis, dollar limits and other monitoring procedures. We have also entered into non-cancelable operating leases principally for our office facilities.

Derivatives. We record all derivative transactions at fair value on our consolidated balance sheets. We use these derivatives primarily to manage our interest rate risk. The notional amounts of our derivative contracts do not reflect our exposure to credit loss. See Note 13 – Derivative Financial Instruments and Hedging Activities to the unaudited Consolidated Financial Statements for additional information.

Involvement with SPEs. We use SPEs for a variety of purposes but principally in the financing of our servicing advances and in the securitization of mortgage loans. We consolidate the servicing advance financing SPEs. The holders of the debt of these SPEs can look only to the assets of the SPEs for satisfaction of the debt and have no recourse against Ocwen. See Note 2 – Securitizations and Variable Interest Entities to the unaudited Consolidated Financial Statements for additional information.

VIEs. If we determine that we are the primary beneficiary of a VIE, we include the VIE in our consolidated financial statements. We have interests in VIEs that we do not consolidate because we have determined that we are not the primary beneficiary of the VIEs. In addition, we have transferred forward and reverse mortgage loans in transactions accounted for as sales or as secured borrowings for which we retain the obligation for servicing and for standard representations and warranties on the loans. See Note 2 – Securitizations and Variable Interest Entities to the unaudited Consolidated Financial Statements for additional information.

Mortgage Loan Repurchase and Indemnification Liabilities. We have exposure to representation, warranty and indemnification obligations in our capacity as a loan originator and servicer. See Note 2 – Securitizations and Variable Interest Entities, Note 12 – Other Liabilities and Note 20 – Contingencies to the unaudited Consolidated Financial Statements for additional information.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES (Dollars in thousands, except per share amounts and unless otherwise indicated)

Our ability to measure and report our financial position and operating results is influenced by the need to estimate the impact or outcome of future events on the basis of information available at the time of the financial statements. An accounting estimate is considered critical if it requires that management make assumptions about matters that were highly uncertain at the time the accounting estimate was made. If actual results differ from our judgments and assumptions, then it may have an adverse impact on the results of operations and cash flows. Management has processes in place to monitor these judgments and assumptions, including with the Audit Committee of the Board of Directors. Our significant accounting policies and critical accounting estimates are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014 in Note 1B to the Consolidated Financial Statements and in Management's Discussion and Analysis of Financial Condition and Results of Operations under "Critical Accounting Policies and Estimates."

Valuation and Amortization of MSRs

Effective January 1, 2015, we elected fair value accounting for a newly-created class of non-Agency MSR, which were previously accounted for using the amortization method. This irrevocable election applies to all subsequently acquired or originated servicing assets and liabilities that have characteristics consistent with this class. We recorded a cumulative-effect adjustment of \$52.0 million (before deferred income taxes of \$9.2 million) to retained earnings as of January 1, 2015 to reflect the excess of the fair value of these MSRs over their carrying amount. At December 31, 2014, the UPB and carrying value of the non-Agency MSR for which the fair value election was made was \$195.3 billion and \$787.1 million, respectively.

For MSRs accounted for using the amortization measurement method, we assess servicing assets or liabilities for impairment or increased obligation based on fair value on a quarterly basis. We group our MSRs by stratum for impairment testing based on the predominant risk characteristics of the underlying mortgage loans. During the first quarter of 2015, we

recognized a \$17.8 million impairment charge on our government-insured MSR, as the fair value for this stratum was less than its carrying value. This impairment was primarily due to the FHA reducing the mortgage insurance premium rate by 50 basis points during the quarter, which created a significantly lower interest rate for existing FHA borrowers and in turn, generated higher projected prepayment speed and shorter asset life inputs used to value these MSRs. The impairment charge is recognized in Servicing and origination expense in the unaudited Consolidated Statements of Operations. The carrying value of this stratum at March 31, 2015 was \$127.1 million, net of the valuation allowance of \$17.8 million.

Fair Value Measurements

The following table summarizes assets and liabilities measured at fair value on a recurring and nonrecurring basis and the amounts measured using Level 3 inputs at the dates indicated:

	March 31, 2015	December 31, 2014	
Loans held for sale	\$407,997	\$488,612	
Loans held for investment - reverse mortgages	1,808,141	1,550,141	
MSRs - recurring basis	897,797	93,901	
MSRs- non recurring basis (1)	127,052	—	
Derivative assets	9,719	6,632	
Mortgage-backed securities	7,701	7,335	
Assets at fair value	\$3,258,407	\$2,146,621	
As a percentage of total assets	37	% 26	%
Financing liabilities	\$2,296,892	\$2,058,693	
Derivative liabilities	5,249	2,854	
Liabilities at fair value	\$2,302,141	\$2,061,547	
As a percentage of total liabilities	32	% 29	%
Assets at fair value using Level 3 inputs	\$2,782,331	\$1,739,436	
As a percentage of assets at fair value	89	% 81	%
Liabilities at fair value using Level 3 inputs	\$2,296,892	\$2,058,693	
As a percentage of liabilities at fair value	100	% 100	%

The balance at March 31, 2015 represents our impaired government-insured stratum of amortization method MSR (1) which is measured at fair value on a non-recurring basis. The \$127.1 million carrying value of this stratum is net of a valuation allowance of \$17.8 million.

Assets at fair value using Level 3 inputs increased during the three months ended March 31, 2015 primarily due to our election on January 1, 2015 to account for a newly-created class of non-Agency MSRs at fair value. Reverse mortgage originations also contributed to the increase in Level 3 assets at fair value. Liabilities at fair value using Level 3 inputs increased primarily in connection with reverse mortgage securitizations, which we account for as secured financings. Our net economic exposure to Loans held for investment - reverse mortgages and the related Financing liabilities (HMBS-related borrowings) is limited to the residual value we retain. Changes in inputs used to value the loans held for investment are largely offset by offsetting changes in the value of the related secured financing.

Refer to Note 3 – Fair Value to the unaudited Consolidated Financial Statements for descriptions of valuation methodologies used to measure significant assets and liabilities at fair value and details of the valuation models, key inputs to those models, and significant assumptions utilized.

RECENT ACCOUNTING DEVELOPMENTS

Recent Accounting Pronouncements

Listed below are new accounting pronouncements that we adopted on January 1, 2015. None of these pronouncements had a material impact on our unaudited Consolidated Financial Statements.

• Investments—Equity Method and Joint Ventures: Accounting for Investments in Qualified Affordable Housing Projects (ASU 2014-01)

• Receivables—Troubled Debt Restructurings by Creditors: Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure (ASU 2014-04)

• Presentation of Financial Statements and Property, Plant, and Equipment: Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity (ASU 2014-08)

• Transfers and Servicing: Repurchase-to-Maturity Transactions, Repurchase Financings and Disclosures (ASU 2014-11)

• Compensation—Stock Compensation: Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period (ASU 2014-12)

• Receivables—Troubled Debt Restructurings by Creditors: Classification of Certain Government-Guaranteed Mortgage Loans upon Foreclosure (ASU 2014-14)

We are also evaluating the impact of recently issued accounting standards not yet adopted that are not effective for us until on or after January 1, 2016. We do not anticipate that our adoption of these standards will have a material impact on our consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK (Dollars in thousands unless otherwise indicated)

Our principal market exposure is to interest rate risk due to the impact on our mortgage-related assets and commitments, including mortgage loans held for sale, IRLCs and MSR. Changes in interest rates could materially and adversely affect our volume of mortgage loan originations or reduce the value of our MSR. We also have exposure to the effects of changes in interest rates on our borrowings under advance financing facilities.

Interest rate risk is a function of (i) the timing of re-pricing and (ii) the dollar amount of assets and liabilities that re-price at various times. We are exposed to interest rate risk to the extent that our interest rate sensitive liabilities mature or re-price at different speeds, or on different bases, than interest-earning assets.

Match Funded Liabilities

We monitor the effect of increases in interest rates on the interest paid on our variable rate advance financing debt. Earnings on cash and float balances are a partial offset to our exposure to changes in interest expense. Due to the growth in our Servicing business, float balances increased significantly to levels in excess of our variable rate debt. To the extent the projected excess of our variable debt over cash and float balances require, we would consider hedging this exposure with interest rate swaps or other derivative instruments. We may purchase interest rate caps as economic hedges (not designated as a hedge for accounting purposes) as required by certain of our advance financing arrangements.

Loans Held for Sale and Interest Rate Lock Commitments

IRLCs represent an agreement to purchase loans from a third-party originator or an agreement to extend credit to a mortgage loan applicant, whereby the interest rate on the loan is set prior to funding. In our Lending business, mortgage loans held for sale and IRLCs are subject to the effects of changes in mortgage interest rates from the date of the commitment through the sale of the loan into the secondary market. As a result, we are exposed to interest rate risk and related price risk during the period from the date of the lock commitment through (i) the lock commitment cancellation or expiration date or (ii) through the date of sale of the resulting loan into the secondary mortgage market. Loan commitments generally range from 15 to 60 days; and our holding period of the mortgage loan from funding to sale is typically less than 30 days.

For loans held for sale that we have elected to carry at fair value, we manage the associated interest rate risk through an active hedging program overseen by our Investment Committee. Our hedging policy determines the hedging instruments to be used in the mortgage loan hedging program, which include forward sales of agency “to be announced” securities (TBAs), whole loan forward sales, Eurodollar futures and interest rate options. Forward mortgage backed securities (MBS) trades are primarily used to fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market. Our hedging policy also stipulates the hedge ratio we must maintain in managing this interest rate risk, which is also monitored by our Investment Committee.

Fair Value MSR

We have elected to account for two classes of MSR at fair value. The first is a class of Agency MSR originated on or before December 31, 2012 for which we hedged the interest rate risk because the mortgage notes underlying the MSR permit the borrowers to prepay the loans. Effective April 1, 2013, we modified our strategy for managing the

risks of the underlying loan portfolio and closed out the remaining economic hedge positions associated with this class of fair value MSR. We terminated these hedges because we determined that they were ineffective for large movements in interest rates and only assured losses in substantial increasing-rate environments. On January 1, 2015, we elected fair value for a newly created class of non-Agency MSRs, which were previously accounted for using the amortization method.

65

Interest Rate Sensitive Financial Instruments

The tables below present the notional amounts of our financial instruments that are sensitive to changes in interest rates and the related fair value of these instruments at March 31, 2015 and December 31, 2014. We use certain assumptions to estimate the fair value of these instruments. See Note 3 – Fair Value to the unaudited Consolidated Financial Statements for additional financial instrument fair value information.

	March 31, 2015		December 31, 2014	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Rate-Sensitive Assets:				
Interest-earning cash	\$75,348	\$75,348	\$75,101	\$75,101
Loans held for sale, at fair value	339,508	339,508	401,120	401,120
Loans held for sale, at lower of cost or fair value (1)	68,489	68,489	87,492	87,492
Loans held for investment - reverse mortgages	1,808,141	1,808,141	1,550,141	1,550,141
Interest-earning collateral and debt service accounts	86,437	86,437	97,029	97,029
Total rate-sensitive assets	\$2,377,923	\$2,377,923	\$2,210,883	\$2,210,883
Rate-Sensitive Liabilities:				
Match funded liabilities	\$2,000,676	\$2,000,676	\$2,090,247	\$2,090,247
Financing liabilities	2,488,607	2,469,502	2,258,641	2,248,341
Other secured borrowings	1,603,707	1,562,375	1,733,691	1,658,699
Senior unsecured notes	350,000	304,500	350,000	321,563
Total rate-sensitive liabilities	\$6,442,990	\$6,337,053	\$6,432,579	\$6,318,850
	Notional	Fair	Notional	Fair
	Balance	Value	Balance	Value
Rate-Sensitive Derivative Financial Instruments:

Interest rate caps	\$1,627,000	\$203	\$1,729,000	\$567
IRLCs	419,508	9,516	239,406	6,065
Forward MBS trades	783,713	(5,249) 703,725	(2,854
Derivatives, net		\$4,470		\$3,778

(1) Net of market valuation allowances and including non-performing loans.

Sensitivity Analysis

Fair Value MSR, Loans Held for Sale and Related Derivatives

The following table summarizes the estimated change in the fair value of our MSR and loans held for sale that we have elected to carry at fair value as well as any related derivatives at March 31, 2015, given hypothetical instantaneous parallel shifts in the yield curve. We used March 31, 2015 market rates to perform the sensitivity analysis. The estimates are based on the market risk sensitive portfolios described in the preceding paragraphs and assume instantaneous, parallel shifts in interest rate yield curves. These sensitivities are hypothetical and presented for illustrative purposes only. Changes in fair value based on variations in assumptions generally cannot be extrapolated because the relationship of the change in fair value may not be linear.

	Change in Fair Value	
	Down 25 bps	Up 25 bps
Loans held for sale	\$4,790	\$(5,607)
Forward MBS trades	(4,515)) 5,642
Total loans held for sale and related derivatives	275	35
Fair value MSR	7,743	(8,970)
MSRs, embedded in pipeline	(330)) 297
Total fair value MSRs	7,413	(8,673)
Total, net	\$7,688	\$(8,638)

Borrowings

The debt used to finance much of our operations is exposed to interest rate fluctuations. We may purchase interest rate swaps and interest rate caps to minimize future interest rate exposure from increases in one-month LIBOR interest rates.

Based on March 31, 2015 balances, if interest rates were to increase by 1% on our variable rate debt and interest earning cash and float balances, we estimate a net positive impact of \$18.3 million resulting from an increase of \$41.9 million in annual interest income and an increase of \$23.6 million in annual interest expense.

ITEM 4. CONTROLS AND PROCEDURES

Management, under the supervision of and with the participation of our Chief Executive Officer and our Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act), as of March 31, 2015.

Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2015, our disclosure controls and procedures (1) were designed and functioning effectively to ensure that material information relating to Ocwen, including its consolidated subsidiaries, is made known to our Chief Executive Officer and Chief Financial Officer by others within those entities, particularly during the period in which this report was being prepared and (2) were operating effectively in that they provided reasonable assurance that information required to be disclosed by Ocwen in the reports that it files or submits under the Securities Exchange Act of 1934 (i) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to management, including the Chief Executive Officer or Chief Financial Officer, as appropriate, to allow timely decisions regarding disclosure.

There has been no change in our internal control over financial reporting during the fiscal quarter ended March 31, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 20 – Contingencies to the unaudited Consolidated Financial Statements. That information is incorporated into this item by reference.

ITEM 1A. RISK FACTORS

An investment in our common stock involves significant risks that are inherent to our business. We describe the principal risks and uncertainties that management believes affect or could affect us under Part I to our Annual Report on Form 10-K for the year ended December 31, 2014. The risks and uncertainties described therein are not the only ones facing us. You should carefully read and consider the risks and uncertainties described therein together with all of the other information included or incorporated by reference in such Annual Report before you make any decision regarding an investment in our common stock. If any of the risks actually occur, our business, financial condition and

results of operations could be materially and adversely affected. If this were to happen, the value of our common stock could significantly decline, and you could lose some or all of your investment.
