The Annual Report to Stockholders is filed herewith.

SALOMON BROTHERS EMERGING MARKETS INCOME FUND INC.

Letter from the Chairman

DEAR SHAREHOLDER,

The philosopher Bertrand Russell famously remarked that, "Change is one thing, progress is another." You will notice in the following pages that we have begun to implement some changes to your shareholder report and we will be reflecting other changes in future reports. Our aim is to make meaningful improvements in reporting on the management of your Fund and its performance, not just to enact change for change's sake. Please bear with us during this transition period.

We know that you have questions about fund managers' decisions and plans, and we want to be sure that you have easy access to the information you need. Keeping investors informed is, and always will be, one of my top priorities as Chairman of your Fund. To that end, we encourage you to contact Investor Relations at 1-800-SALOMON. We have also included a separate Manager Commentary along with this report, which we hope will give you a better understanding of your Fund and its management.

As always, thank you for entrusting your assets to us. We look forward to helping you continue to meet your financial goals. Please read on to learn more about your Fund's performance and the Manager's strategy

Manager Overview

Performance Review

During the 12 months ended August 31, 2003, the Salomon Brothers Emerging Markets Income Fund Inc. ("Fund") distributed dividends to shareholders totaling \$1.65 per share. The table below shows the 12-month total return based on the Fund's August 31, 2003 net asset value ("NAV") per share and its New York Stock Exchange ("NYSE") closing price. i PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS.

PRICE PER SHARE	12-MONTH TOTAL RETURN ii
\$15.56 (NAV)	48.99%
\$16.80 (NYSE)	53.82%

Based on NAV, the Fund outperformed the average of its Lipper peer group of closed-end emerging markets debt funds, which returned 39.15%, as well as the unmanaged J.P. Morgan Emerging Markets Bond Index Plus ("EMBI+") iii, which returned 30.32% for the same period. The Fund has consistently generated solid returns and ranked #1 within its Lipper peer group by returning 18.46% on an annualized basis since the Fund's inception in October 1992, and it was one of the top-performing funds for one-, three-, five- and ten-year periods.

LIPPER RANKINGS FOR THE PERIOD ENDED AUGUST 31, 2003

PERIOD -----	FUND'S PERFORMANCE BASED ON NAV -----	FUND'S LIPPER RANKING -----	AVERAGE RETURN OF FUNDS IN THE LIPPER CLOSED-END EMERGING MARKET DEBT FUNDS CATEGORY -----
1-Year	48.99%	#3 of 12	39.15%
3-Year	17.35	#2 of 12	13.48
5-Year	33.58	#2 of 12	22.62
10-Year	16.27	#1 of 6	12.38
Since-inception (10/31/92)	18.46	#1 of 3	14.07

PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS. Lipper is a major independent mutual-fund tracking organization. Rankings are based on average annual total returns assuming reinvestment of dividends and capital gains, as of August 31, 2003. Each fund is ranked within a universe of funds similar in portfolio characteristics and capitalizations, as defined by Lipper, Inc. Rankings are based on performance that does not include commissions. Results would have been less favorable had commissions been included.

#### EMERGING MARKETS DEBT OVERVIEW

The Fund's fiscal year ended August 31, 2003, was a very strong period for emerging markets debt. Despite high volatility in global equity markets, military conflict in Iraq and uncertainty surrounding several high-profile elections in some emerging market countries, the markets started to rally last October. The spreads on sovereign debt, a common gauge of risk premium representing the difference between yield on emerging markets debt and U.S. Treasuries, tightened by 537 basis points iv since the end of last September and 382 basis points over the reporting period. Spreads on emerging market debt securities closed the fiscal year at 504 basis points over U.S. Treasuries.

The 10-month rally in emerging markets debt came to a halt in mid-June due to the sell-off in the U.S. Treasury market. The yield on 10-year U.S. Treasuries (which moves inversely to the securities' price) increased from 3.11% on June 13th, the lowest level in 45 years, to 4.41% by the end of July, closing the period at 4.47% on August 31st. As a result, in July the EMBI+ posted negative monthly returns for the first time since last September. Negative returns in a spread-tightening environment underscored the impact that the weakness in the U.S. Treasury market had on emerging markets debt.

Despite this recent setback, overall emerging market performance during the fiscal year was strong and all countries in the EMBI+ posted positive returns for the period. The returns were heavily influenced by returns in Latin American countries as markets welcomed ambitious political and economic reform programs introduced by the newly elected leaders of Brazil and Ecuador. During the period, Brazil and Ecuador posted impressive gains of 65.83% and 58.16%, respectively. The market rally was also supported by higher oil prices, which is an important source of revenues for many oil-exporting countries in the emerging markets.

#### Factors Impacting Fund Performance

The Fund's performance benefited from our barbell investment strategy of overweighting more stable credits, such as Panama and Bulgaria, with overweights in selective issuers which we believed had more spread-compression potential (e.g. Ecuador, Brazil and Colombia). The more stable credits did well during a volatile U.S. Treasury environment. Our more credit-sensitive overweights performed well during the market rally as their improving fundamentals drove spreads tighter. Our Brazil overweight in particular was a major contributor to the Fund's performance this year, both on an absolute and relative basis, as Brazil constitutes a large percentage of the EMBI+ Index (approximately 21%) and returned 65.83% during the period. The Fund's performance was positively impacted to a significant extent by the use of leverage. v

The information provided in this letter by the Manager is not intended to be a forecast of future events, a guarantee of future results or investment advice. Views expressed may differ from those of the firm as a whole.

Portfolio holdings and breakdowns are as of August 31, 2003 and are subject to change. Please refer to pages 5 through 8 for a list and percentage breakdown of the Fund's holdings.

- i NAV is a price that reflects the value of the Fund's underlying portfolio. However, the price at which an investor may buy or sell shares of the Fund is at the Fund's market price as determined by supply of and demand for the Fund's common shares.
- ii Total returns are based on changes in NAV or the market price, respectively. Total returns assume the reinvestment of all dividends and/or capital gains distributions in additional shares.
- iii The EMBI+ is a total return index that tracks the traded market for U.S. dollar-denominated Brady and other similar sovereign restructured bonds

Edgar Filing: SALOMON BROTHERS EMERGING MARKETS INCOME FUND INC - Form N-CSR

traded in the emerging markets. Please note that an investor cannot invest directly in an index.

- iv A basis point is one one-hundredth (1/100 or 0.01) of one percent.
- v Leverage will magnify gains and disproportionately increase losses in the Fund's portfolio.

Notes to Financial Statements

Note 1. Organization and Significant Accounting Policies

Salomon Brothers Emerging Markets Income Fund Inc. ("Fund"), formerly known as The Emerging Markets Income Fund Inc, was incorporated in Maryland on July 30, 1992 and is registered as a non-diversified, closed-end, management investment company under the Investment Company Act of 1940, as amended. The Board of Directors authorized 100 million shares of \$0.001 par value common stock. The Fund's primary investment objective is to seek high current income. As a secondary objective, the Fund seeks capital appreciation. In pursuit of these objectives, the Fund under normal conditions invests at least 80% of its net assets plus any borrowings for investment purposes in debt securities of governments and government-related issuers located in emerging market countries (including participations in loans between governments and financial institutions), and of entities organized to restructure outstanding debt of such issuers, and in debt securities of corporate issuers located in emerging market countries.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results may differ from those estimates.

(a) SECURITIES VALUATION. In valuing the Fund's assets, all securities and options for which market quotations are readily available are valued (i) at the last sale price prior to the time of determination if there was a sale on the date of determination, (ii) at the mean between the last current bid and asked price if there was no sales price on such date and bid and asked quotations are available, and (iii) at the bid price if there was no sales price on such date and only bid quotations are available. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the mean between the last current bid and asked price as of the close of business of that market. However, where the spread between bid and asked price exceeds five percent of the par value of the security, the security is valued at the bid price. Securities may also be valued by independent pricing services which use prices provided by market-makers or estimates of market values obtained from yield data relating to instruments or securities with similar characteristics. Short-term investments having a maturity of 60 days or less are valued at amortized cost, unless the Board of Directors determines that such valuation does not constitute fair value. Securities for which reliable quotations are not readily available and all other securities and assets are valued at fair value as determined in good faith by, or under procedures established by, the Board of Directors.

(b) SECURITIES TRANSACTIONS AND INVESTMENT INCOME. Securities transactions are

recorded on the trade date. Interest income is accrued on a daily basis. Discount and premium on securities purchased is accreted and amortized on an effective yield basis over the life of the security. The Fund uses the specific identification method for determining realized gain or loss on investments sold.

PAGE 13

Notes to Financial Statements (continued)

c) FOREIGN CURRENCY TRANSLATION. The books and records of the Fund are maintained in U.S. dollars. Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation using the 12:00 noon rate of exchange reported by Reuters. Purchases and sales of portfolio securities and income and expense items denominated in foreign currencies are translated into U.S. dollars at rates of exchange prevailing on the respective dates of such transactions. Net realized gains and losses on foreign currency transactions represent net gains and losses from sales and maturities of forward currency contracts, disposition of foreign currencies, currency gains and losses realized between the trade and settlement dates on securities transactions and the difference between the amount of income accrued and the U.S. dollar equivalent amount actually received. The Fund does not isolate that portion of gains and losses on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the securities. Such fluctuations are included with the net realized and unrealized gain or loss from investments. However, pursuant to U.S. Federal income tax regulations, certain net foreign exchange gains/losses included in realized gain/loss are included in or are a reduction of ordinary income for Federal income tax purposes.

(d) FEDERAL INCOME TAXES. It is the Fund's intention to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income and capital gains, if any, to its shareholders. Therefore, no Federal income tax or excise tax provision is required.

(e) REPURCHASE AGREEMENT. The Fund purchases, and the custodian takes possession of, U.S. government securities from securities dealers subject to agreements to resell the securities to the sellers at a future date (generally, the next business day) at an agreed-upon higher repurchase price. The Fund requires continual maintenance of the market value (plus accrued interest) of the collateral in amounts equal to the repurchase price.

(f) DISTRIBUTION OF INCOME AND GAINS. The Fund declares and pays dividends to shareholders quarterly from net investment income. Net realized gains, if any, in excess of loss carryovers are expected to be distributed annually. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized gains are determined in accordance with Federal income tax regulations, which may differ from GAAP due primarily to differences in the treatment of foreign currency gains/losses and deferral of wash sales and post-October losses incurred by the Fund. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their Federal income tax basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed net investment income

and net realized capital gains for tax purposes are reported as tax return of capital.

PAGE 14

Notes to Financial Statements (continued)

(g) CASH FLOW INFORMATION. The Fund invests in securities and distributes dividends from net investment income and net realized gains from investment transactions which are paid in cash. These activities are reported in the statement of changes in net assets. Additional information on cash receipts and cash payments is presented in the statement of cash flows.

(h) YEAR END TAX RECLASSIFICATIONS. The character of income and gains to be distributed is determined in accordance with income tax regulations which may differ from GAAP. At August 31, 2003, reclassifications were made to the capital accounts of the Fund to reflect permanent book/tax differences and income and gains available for distributions under income tax regulations. Net investment income, net realized loss and net assets were not affected by this change.

Note 2. Management and Advisory Fees and Other Transactions

For the period from September 1, 2002 through December 15, 2002, the Fund was a party to an investment advisory agreement with PIMCO Funds Advisors LLC ("PIMCO"), an indirect wholly-owned subsidiary of Allianz Dresdner Asset Management of America L.P., formerly known as PIMCO Advisors L.P., a wholly-owned subsidiary of Allianz AG, pursuant to which PIMCO, among other things, supervised the Fund's investment program, including advising and consulting with the Fund's investment manager regarding the Fund's overall investment strategy. During that same period, the Fund was also a party to a management and administration agreement with Salomon Brothers Asset Management Inc ("SBAM"), an indirect wholly-owned subsidiary of Citigroup Inc. ("Citigroup"), pursuant to which SBAM, among other things, was responsible for the day-to-day management of the Fund's portfolio, including making investment strategy decisions for the Fund and managing and investing the assets of the Fund in accordance with its stated policies. SBAM also provided administration and stockholder services for the Fund pursuant to the agreement.

Effective December 16, 2002, the Fund entered into a new investment advisory and administration agreement with SBAM. Under the terms of the new investment advisory and administration agreement, which was approved by shareholders at the Annual Meeting of Stockholders held on December 11, 2002, SBAM provides all management, advisory and administration services for the Fund. PIMCO has ceased to act as investment adviser for the Fund. SBAM has delegated certain administrative services to Smith Barney Fund Management LLC ("SBFM"), another indirect wholly-owned subsidiary of Citigroup and an affiliate of SBAM, pursuant to a Sub-Administration Agreement between SBAM and SBFM.

The Fund currently pays SBAM a monthly fee at an annual rate of 1.05% of the Fund's average weekly net assets for its services. Prior to December 16, 2002, the Fund paid PIMCO an advisory fee calculated at an annual rate of 0.50% of the Fund's average weekly net assets and paid SBAM a management fee calculated at an annual rate of 0.70% of the Fund's average weekly net assets.

At August 31, 2003, Citigroup Global Markets Inc., formerly known as Salomon SmithBarney Inc., another indirect wholly-owned subsidiary of Citigroup, held 10 shares of the Fund.

Certain officers and/or Directors of the Fund are officers and/or Directors of SBAM.

Note 3. Portfolio Activity

For the year ended August 31, 2003, the aggregate cost of purchases and proceeds from sales of investments (including maturities of long-term investments, but excluding short-term investments) were as follows:

Purchases .....	\$133,787,536
	=====
Sales .....	\$130,867,372
	=====

At August 31, 2003, the aggregate gross unrealized appreciation and depreciation of investments for Federal income tax purposes were as follows:

Gross unrealized appreciation .....	\$ 6,026,556
Gross unrealized depreciation .....	(457,201)
	-----
Gross unrealized depreciation .....	(457,201)
Net unrealized appreciation .....	\$ 5,569,355
	=====

Note 4. Loan

At August 31, 2003, the Fund had \$20,000,000 outstanding of an available \$23,000,000 loan pursuant to a revolving credit and security agreement with CXC LLC ("CXC"), an affiliate of Citigroup, a commercial paper conduit issuer for which Citicorp North America, Inc., an affiliate of SBAM, acts as the administrative agent. The loans generally bear interest at a variable rate based on the weighted average interest rates of the underlying commercial paper or LIBOR, plus any applicable margin. Securities held by the Fund are subject to a lien, granted to the lenders, to the extent of the borrowing outstanding and any additional expenses.

Note 5. Loan Participations/Assignments

The Fund invests in fixed and floating rate loans arranged through private negotiations between a foreign sovereign entity and one or more financial institutions ("lenders"). The Fund's investment in any such loan may be in the form of a participation in or an assignment of the loan. At August 31, 2003, the Fund held loan participations with a total cost of \$3,455,652 and with a total market value of \$3,595,443.

In connection with purchasing loan participations, the Fund generally will have no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loan, nor any rights of set-off against the borrower, and the Fund may not benefit directly from any collateral supporting the loan in which it has purchased the participation. As a result, the Fund will assume the credit risk of both the borrower and the lender that is selling the participation. In the event of the insolvency of the lender selling the

participation, the Fund may be treated as a general creditor of the lender and may not benefit from any set-off between the lender and the borrower.

When the Fund purchases assignments from lenders, the Fund will acquire direct rights against the borrower on the loan, except that under certain circumstances such rights may be more limited than those held by the assigning lender.

PAGE 16

SALOMON BROTHERS EMERGING MARKETS INCOME FUND INC.

Notes to Financial Statements (continued)

Note 6. Credit and Market Risk

The yields of emerging market debt obligations reflect, among other things, perceived credit risk. The Fund's investment in securities rated below investment grade typically involves risks not associated with higher rated securities including, among others, overall greater risk of timely and ultimate payment of interest and principal, greater market price volatility and less liquid secondary market trading. The consequences of political, social, economic or diplomatic changes may have disruptive effects on the market prices of investments held by the Fund. The Fund's investment in non-dollar-denominated securities may also result in foreign currency losses caused by devaluations and exchange rate fluctuations. At August 31, 2003, the Fund had a concentration of risk in sovereign debt of emerging market countries.

The net asset value and/or market value per share of the Fund could be negatively affected if the Fund were required to liquidate assets in other than an orderly manner and/or in adverse market conditions to repay any bank loans outstanding.

Note 7. Option Contracts

The Fund may from time to time enter into option contracts. Premiums paid when put or call options are purchased by the Fund, represent investments, which are marked-to-market daily. When a purchased option expires, the Fund will realize a loss in the amount of the premium paid. When the Fund enters into a closing sales transaction, the Fund will realize a gain or loss depending on whether the proceeds from the closing sales transaction are greater or less than the premium paid for the option. When the Fund exercises a put option, it will realize a gain or loss from the sale of the underlying security and the proceeds from such sale will be decreased by the premium originally paid. When the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

At August 31, 2003, the Fund did not hold any purchased call or put option contracts.

When the Fund writes a call or put option, an amount equal to the premium received by the Fund is recorded as a liability, the value of which is marked-to-market daily. When a written option expires, the Fund realizes a gain equal to the amount of the premium received.

When the Fund enters into a closing purchase transaction, the Fund realizes a gain or loss depending upon whether the cost of the closing transaction is greater or less than the premium originally received, without regard to any unrealized gain or loss on the underlying security, and the liability related to such option is eliminated. When a written call option is exercised the proceeds

of the security sold will be increased by the premium originally received. When a written put option is exercised, the amount of the premium originally received will reduce the cost of the security which the Fund purchased upon exercise. When written index options are exercised, settlement is made in cash.

PAGE 17

SALOMON BROTHERS EMERGING MARKETS INCOME FUND INC.

Notes to Financial Statements (continued)

The Fund enters into options for hedging purposes. The risk associated with purchasing options is limited to the premium originally paid. The risk in writing a covered call option is that the Fund gives up the opportunity to participate in any increase in the price of the underlying security beyond the exercise price. The risk in writing a put option is that the Fund is exposed to the risk of loss if the market price of the underlying security declines. The risk in writing a call option is that the Fund is exposed to the risk of loss if the market price of the underlying security increases.

For the year ended August 31, 2003, the Fund did not enter into any written covered call or put option contracts.

Note 8. Forward Foreign Currency Contracts

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The contract is marked-to-market to reflect the change in the currency exchange rate. The change in market value is recorded by the Fund as an unrealized gain or loss. The Fund records a realized gain or loss on delivery of the currency or at the time the forward foreign currency contract is extinguished (compensated) by entering into a closing transaction prior to delivery. This gain or loss, if any, is included in net realized gain (loss) on foreign currency transactions.

The Fund enters into forward foreign currency contracts to facilitate settlement of foreign currency denominated portfolio transactions or to manage foreign currency exposure associated with foreign currency denominated securities. Forward foreign currency contracts involve elements of market risk in excess of the amount reflected in the statement of assets and liabilities. The Fund bears the risk of an unfavorable change in the foreign exchange rate underlying the forward foreign currency contract. Risks may also arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts. The Fund bears the market risk that arises from changes in foreign currency exchange rates.

At August 31, 2003, the Fund did not have any open forward foreign currency contracts.

Note 9. Dividend Subsequent to August 31, 2003

On July 17, 2003, the Board of Directors of the Fund declared a common stock dividend of \$0.4125 per share from net investment income. The dividend is payable on September 26, 2003 to shareholders of record on September 16, 2003.

Note 10. Capital Loss Carryforward

The Fund had \$2,902,487 of capital losses realized after October 31, 2002, which were deferred for tax purposes to the first day of the following fiscal year.

PAGE 18

Note 11. Income Tax Information and Distributions to Shareholders

At August 31, 2003, the tax basis components of distributable earnings were:

Undistributed ordinary income .....	\$4,404,340
	=====
Unrealized appreciation .....	\$5,569,355
	=====

The difference between book basis and tax basis unrealized appreciation is attributable primarily to the tax treatment of discounts, amortization of premiums and wash sales.

The tax character of distributions paid during the year ended August 31, 2003 was:

Ordinary income .....	\$6,737,049
	=====

- (1) Per share amounts have been calculated using the monthly average shares method.
- (2) Effective September 1, 2001, the Fund adopted a change in the accounting method that requires the Fund to amortize premiums and accrete all discounts. Without the adoption of this change, for the year ended August 31, 2002, the net investment income, net realized and unrealized loss and the ratio of net investment income to average net assets would have been \$1.68, \$1.14 and 13.29%, respectively. Per share information, ratios and supplemental data for the periods prior to September 1, 2001 have not been restated to reflect this change in presentation.
- (3) For the purpose of this calculation, dividends are assumed to be reinvested at prices obtained under the Fund's dividend reinvestment plan and the broker commissions paid to purchase or sell a share is excluded.

Report of Independent Auditors

TO THE BOARD OF DIRECTORS AND SHAREHOLDERS OF  
SALOMON BROTHERS EMERGING MARKETS INCOME FUND INC.

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations, of changes in net assets and of cash flows and the financial highlights present fairly, in all material respects, the financial position of SalomonBrothers

Edgar Filing: SALOMON BROTHERS EMERGING MARKETS INCOME FUND INC - Form N-CSR

Emerging Markets Income Fund Inc. ("Fund") at August 31, 2003, the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at August 31, 2003 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

FORM OF TERMS AND CONDITIONS OF AMENDED AND RESTATED DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (UNAUDITED)

Pursuant to certain rules of the Securities and Exchange Commission, the following additional disclosure is provided.

Each shareholder holding shares of common stock ("Shares") of Salomon Brothers Emerging Markets Income Fund Inc. ("Fund"), formerly known as The Emerging Markets Income Fund Inc, will be deemed to have elected to be a participant in the Amended and Restated Dividend Reinvestment and Cash Purchase Plan ("Plan"), unless the shareholder specifically elects in writing (addressed to the Agent at the address below or to any nominee who holds Shares for the shareholder in its name) to receive all income dividends and distributions of capital gains in cash, paid by check, mailed directly to the record holder by or under the direction of American Stock Transfer & Trust Company as the Fund's dividend-paying agent ("Agent"). A shareholder whose Shares are held in the name of a broker or nominee who does not provide an automatic reinvestment service may be required to take such Shares out of "street name" and register such

Shares in the shareholder's name in order to participate, otherwise dividends and distributions will be paid in cash to such shareholder by the broker or nominee. Each participant in the Plan is referred to herein as a "Participant." The Agent will act as Agent for each Participant, and will open accounts for each Participant under the Plan in the same name as their Shares are registered.

Unless the Fund declares a dividend or distribution payable only in the form of cash, the Agent will apply all dividends and distributions in the manner set forth below.

If, on the determination date, the market price per Share equals or exceeds the net asset value per Share on that date (such condition, a "market premium"), the Agent will receive the dividend or distribution in newly issued Shares of the Fund on behalf of Participants. If, on the determination date, the net asset value per Share exceeds the market price per Share (such condition, a "market discount"), the Agent will purchase Shares in the open-market. The determination date will be the fourth New York Stock Exchange trading day (a New York Stock Exchange trading day being referred to herein as a "Trading Day") preceding the payment date for the dividend or distribution. For purposes herein, "market price" will mean the average of the highest and lowest prices at which the Shares sell on the New York Stock Exchange on the particular date, or if there is no sale on that date, the average of the closing bid and asked quotations.

Purchases made by the Agent will be made as soon as practicable commencing on the Trading Day following the determination date and terminating no later than 30 days after the dividend or distribution payment date except where temporary curtailment or suspension of purchase is necessary to comply with applicable provisions of federal securities law; provided, however, that such purchases will, in any event, terminate on the earlier of (i) 60 days after the dividend or distribution payment date and (ii) the Trading Day prior to the "ex-dividend" date next succeeding the dividend or distribution payment date.

FORM OF TERMS AND CONDITIONS OF AMENDED AND RESTATED DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN (UNAUDITED) (CONTINUED)

If (i) the Agent has not invested the full dividend amount in open-market purchases by the date specified in paragraph 4 above as the date on which such purchases must terminate or (ii) a market discount shifts to a market premium during the purchase period, then the Agent will cease making open-market purchases and will receive the uninvested portion of the dividend amount in newly issued Shares (x) in the case of (i) above, at the close of business on the date the Agent is required to terminate making open-market purchases as specified in paragraph 4 above or (y) in the case of (ii) above, at the close of business on the date such shift occurs; but in no event prior to the payment date for the dividend or distribution.

In the event that all or part of a dividend or distribution amount is to be paid in newly issued Shares, such Shares will be issued to Participants in accordance with the following formula: (i) if, on the valuation date, the net asset value per Share is less than or equal to the market price per Share, then the newly issued Shares will be valued at net asset value per Share on the valuation date; provided, however, that if the net asset value is less than 95% of the market price on the valuation date, then such Shares will be issued at 95% of the

market price and (ii) if, on the valuation date, the net asset value per Share is greater than the market price per Share, then the newly issued Shares will be issued at the market price on the valuation date. The valuation date will be the dividend or distribution payment date, except that with respect to Shares issued pursuant to paragraph 5 above, the valuation date will be the date such Shares are issued. If a date that would otherwise be a valuation date is not a Trading Day, the valuation date will be the next preceding Trading Day.

Participants have the option of making additional cash payments to the Agent, monthly, in a minimum amount of \$250, for investment in Shares. The Agent will use all such funds received from Participants to purchase Shares in the open market on or about the first business day of each month. To avoid unnecessary cash accumulations, and also to allow ample time for receipt and processing by the Agent, Participants should send in voluntary cash payments to be received by the Agent approximately 10 days before an applicable purchase date specified above. A Participant may withdraw a voluntary cash payment by written notice, if the notice is received by the Agent not less than 48 hours before such payment is to be invested.

Purchases by the Agent pursuant to paragraphs 4 and 7 above may be made on any securities exchange on which the Shares are traded, in the over-the-counter market or in negotiated transactions, and may be on such terms as to price, delivery and otherwise as the Agent shall determine. Funds held by the Agent uninvested will not bear interest, and it is understood that, in any event, the Agent shall have no liability in connection with any inability to purchase Shares within the time periods herein provided, or with the timing of any purchases effected. The Agent shall have no responsibility as to the value of the Shares acquired for the Participant's account. The Agent may commingle amounts of all Participants to be used for open-market purchases of Shares and

the price per Share allocable to each Participant in connection with such purchases shall be the average price (including brokerage commissions) of all Shares purchased by the Agent.

The Agent will maintain all Participants' accounts in the Plan and will furnish written confirmations of all transactions in each account, including information needed by Participants for personal and tax records. The Agent will hold Shares acquired pursuant to the Plan in noncertificated form in the Participant's name or that of its nominee, and each Participant's proxy will include those Shares purchased pursuant to the Plan. The Agent will forward to Participants any proxy solicitation material and will vote any Shares so held for Participants only in accordance with the proxy returned by Participants to the Fund. Upon written request, the Agent will deliver to Participants, without charge, a certificate or certificates for the full Shares.

The Agent will confirm to Participants each acquisition made for their respective accounts as soon as practicable but not later than 60 days after the date thereof. Although Participants may from time to time have an undivided fractional interest (computed to three decimal places) in a Share of the Fund, no certificates for fractional shares will be issued. Dividends and distributions on fractional shares will be credited to each Participant's

account. In the event of termination of a Participant's account under the Plan, the Agent will adjust for any such undivided fractional interest in cash at the market value of the Fund's Shares at the time of termination less the pro rata expense of any sale required to make such an adjustment.

Any share dividends or split shares distributed by the Fund on Shares held by the Agent for Participants will be credited to their respective accounts. In the event that the Fund makes available to Participants rights to purchase additional Shares or other securities, the Shares held for Participants under the Plan will be added to other Shares held by the Participants in calculating the number of rights to be issued to Participants.

The Agent's service fee for handling capital gains distributions or income dividends will be paid by the Fund. Participants will be charged a pro rata share of brokerage commissions on all open-market purchases.

Participants may terminate their accounts under the Plan by notifying the Agent in writing. Such termination will be effective immediately if notice is received by the Agent not less than 10 days prior to any dividend or distribution record date; otherwise such termination will be effective on the first Trading Day after the payment date for such dividend or distribution with respect to any subsequent dividend or distribution. The Plan may be amended or terminated by

the Fund as applied to any voluntary cash payments made and any income dividend or capital gains distribution paid subsequent to written notice of the change or termination sent to Participants at least 30 days prior to the record date for the income dividend or capital gains distribution. The Plan may be amended or terminated by the Agent, with the Fund's prior written consent, on at least 30 days' written notice to Participants. Notwithstanding the preceding two sentences, the Agent or the Fund may amend or supplement the Plan at any time or times when necessary or appropriate to comply with applicable law or rules or policies of the Securities and Exchange Commission or any other regulatory authority. Upon any termination, the Agent will cause a certificate or certificates for the full Shares held by each Participant under the Plan and cash adjustment for any fraction to be delivered to each Participant without charge. If the Participant elects by notice to the Agent in writing in advance of such termination to have the Agent sell part or all of a Participant's Shares and remit the proceeds to the Participant, the Agent is authorized to deduct a \$2.50 fee plus brokerage commission for this transaction from the proceeds.

Any amendment or supplement shall be deemed to be accepted by each Participant unless, prior to the effective date thereof, the Agent receives written notice of the termination of the Participant's account under the Plan. Any such amendment may include an appointment by the Agent in its place and stead of a successor Agent under these terms and conditions, with full power and authority to perform all or any of the acts to be performed by the Agent under these terms and conditions. Upon any such appointment of an Agent for the purpose of receiving dividends and distributions, the Fund will be authorized to pay to such successor Agent, for each Participant's account, all dividends and distributions payable on Shares of the Fund held in each Participant's name or under the Plan for retention or application by such successor Agent as provided in these terms and conditions.

In the case of Participants, such as banks, broker-dealers or other nominees, which hold Shares for others who are beneficial owners ("Nominee Holders"), the Agent will administer the Plan on the basis of the number of Shares certified from time to time by each Nominee Holder as representing the total amount registered in the Nominee Holder's name and held for the account of beneficial owners who are to participate in the Plan.

The Agent shall at all times act in good faith and use its best efforts within reasonable limits to insure the accuracy of all services performed under this Agreement and to comply with applicable law, but assumes no responsibility and shall not be liable for loss or damage due to errors unless such error is caused by its negligence, bad faith, or willful misconduct or that of its employees.

All correspondence concerning the Plan should be directed to the Agent at 59 Maiden Lane, New York, New York 10038.

ITEM 2. CODE OF ETHICS.

The registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The fund does not currently have an audit committee financial expert ("ACFE") serving on its Audit Committee. The Board of Directors of the fund has, however, nominated a new member to the Board, whom the Audit Committee of the Board has determined will qualify as an ACFE. The aforementioned nominee has previously been elected to the Boards of Directors of the majority of the funds comprising the Salomon Brothers Funds

Fund Complex and currently serves as the ACFE on each of the Audit Committees of these Boards. The Board of Directors of the fund is unable to currently appoint any new members to the Board, prior to election by shareholders, due to the restrictions imposed by section 16 of the Investment Company Act of 1940. The proposal to elect this nominee (William R. Hutchinson) will be presented to the fund's shareholders at their annual meeting on December 11, 2003 and a proxy statement will be filed with the Securities and Exchange Commission, on the behalf of the fund's Board of Directors, to solicit approval of this proposal. The fund, its Board of Directors and its Audit Committee have previously resolved that William R. Hutchinson's appointment as ACFE is to be effective immediately upon the approval of his election to the fund's Board of Directors by shareholders.
