PROXY STATEMENT

Meeting Information. This Proxy Statement and the accompanying Proxy are being sent to shareholders on or about March 30, 2007, for use in connection with the Annual Meeting of Shareholders of Glacier Bancorp, Inc. (the Company or Glacier) to be held on Wednesday, April 25, 2007. In this Proxy Statement, the term we and us refers to Glacier Bancorp, Inc.

Solicitation of Proxies. The Board of Directors is soliciting shareholder proxies, and we will pay the associated costs. Solicitation may be made by our directors and officers and by our banking subsidiaries:

Glacier Bank	Western Security Bank
Glacier Bank of Whitefish	Citizens Community Bank
First Security Bank of Missoula	First National Bank of Lewistown
Valley Bank of Helena	Western Bank of Chinook
Big Sky Western Bank	1 st Bank
Mountain West Bank	First National Bank of Morgan

It is not expected that we will engage an outside proxy solicitation firm to render proxy solicitation services. However, if we do, we will pay a fee for such services. Solicitation may be made through the mail, or by telephone, facsimile, or personal interview.

Record Date. If you were a shareholder on March 1, 2007, you are entitled to vote at the Annual Meeting. There were approximately 52,629,597 shares of common stock outstanding on the Record Date.

Quorum. The quorum requirement for holding the Annual Meeting and transacting business is a majority of the outstanding shares entitled to be voted. The shares may be present in person or represented by proxy at the Annual Meeting. Both abstentions and broker non-votes are counted as present for the purpose of determining the presence of a quorum.

Voting on Matters Presented

Election of Directors. The three nominees for election as directors at the Annual Meeting with three-year terms to expire in 2010 who receive the highest number of affirmative votes will be elected. Shareholders are not permitted to cumulate their votes for the election of directors. Votes may be *cast for* or *withheld from* each nominee. Votes that are withheld and broker non-votes will have no effect on the outcome of the election.

Voting of Proxies. Shares represented by properly executed proxies that are received in time and not revoked will be voted in accordance with the instructions indicated on the proxies. If no instructions are indicated, the persons named in the proxy will vote the shares represented by the proxy FOR the director nominees listed in this Proxy Statement. Any proxy given by a shareholder may be revoked before its exercise by (1) giving notice to us in writing, (2) delivering to us of a subsequently dated proxy, or (3) notifying us at the Annual Meeting before the shareholder vote is taken.

Table of Contents

Voting of Proxies by Shareholders of Record and by Beneficial Owners. A significant percentage of Glacier shareholders hold their shares through a stockbroker, bank or other nominee rather than directly in their own name. As summarized below, there are some differences between shares held of record and those owned beneficially.

Shareholders of Record. If your shares are registered directly in your name with Glacier's transfer agent, American Stock Transfer, you are considered, with respect to those shares, the shareholder of record, and these proxy materials are being sent to you directly by Glacier. As the shareholder of record, you have the right to grant your voting proxy directly to Glacier or to vote in person at the Annual Meeting. The Company has enclosed a proxy card for you to use.

Beneficial Owner. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you by your broker or nominee who is considered, with respect to those shares, the shareholder of record. As the beneficial owner, you have the right to direct your broker on how to vote. Your broker or nominee has enclosed a voting instruction card for you to use in directing your broker or nominee as to how to vote your shares. If you are a beneficial owner of Glacier shares and do not provide the shareholder of record with voting instructions, your beneficially owned shares may constitute broker non-votes.

Brokers cannot vote on behalf of beneficial owners on non-routine proposals. A broker non-vote occurs when shares held by a broker for a beneficial owner are not voted with respect to a particular proposal because (1) the proposal is not routine and the broker therefore lacks discretionary authority to vote the shares, and (2) the beneficial owner does not submit voting instructions to the broker. The election of directors is considered a routine proposal, and your brokerage firm can vote your shares in its discretion on this proposal.

Voting in Person at the Annual Meeting

Shareholders of Record. Shares held directly in your name as the shareholder of record may be voted in person at the Annual Meeting. If you choose to vote your shares in person at the Annual Meeting, please bring the enclosed proxy card or proof of identification. Even if you plan to attend the Annual Meeting, we recommend that you vote your shares in advance as described above so that your vote will be counted if you later decide not to attend the annual meeting.

Beneficial Owner. Shares held in street name may be voted in person by you only if you bring an account statement or letter from the nominee indicating that you were the beneficial owner of the shares on the record date.

Table of Contents

BUSINESS OF THE MEETING

The only matter that is being presented for consideration by our shareholders at the Annual Meeting is the election of directors.

Election of Directors

General

Our Articles of Incorporation and Bylaws allow the Board to set the number of directors on the Board within a range of seven to 17. The Articles also authorize the Board to fill vacancies that occur on the Board. Glacier's Board currently consists of nine directors, including Douglas J. McBride who was appointed to the Board in September 2006 in anticipation of the vacancy that would be caused by John MacMillan's retirement in December 2006. Accordingly, in connection with the Annual Meeting, the Board has set the number of directors at nine.

Directors are elected for terms of three years or until their successors are elected and qualified. So long as the Company has nine or more directors, our Articles of Incorporation provide for staggered terms, with approximately one-third of the directors elected each year. Montana law and our Articles of Incorporation require that our classes of directors be of as near-equal size as possible.

Accordingly, our Nominating/Corporate Governance Committee has recommended, and the Board has nominated James M. English, Jon W. Hippler and Douglas J. McBride for election as directors for three-year terms to expire in the year 2010. If any of the nominees should refuse or become unable to serve, your proxy will be voted for the person the Board designates to replace that nominee. We are not aware of any nominee who will be unable to or refuses to serve as a director.

In December 2005, John S. MacMillan retired as Chairman of the Board of Glacier, a position that he held for 13 years and in December 2006 he resigned as a director. Mr. MacMillan enjoyed a 31-year career with the Company prior to retiring from active management in June 1998, ending his career as President and CEO. We thank John for his many years of dedicated service to the Company.

Vote Required and Board Recommendation

The three nominees for election as directors at the Annual Meeting with three-year terms to expire in 2010 who receive the highest number of affirmative votes will be elected.

The Board of Directors unanimously recommends a vote **FOR** each of the nominees to the Board.

Table of Contents**INFORMATION WITH RESPECT TO NOMINEES
AND OTHER DIRECTORS**

The following table sets forth certain information with respect to the director nominees and the other continuing directors, including the number of shares beneficially held by each. Except as noted below, each holder has sole voting and investment power for all shares shown as beneficially owned. All share amounts have been adjusted for applicable stock splits and stock dividends.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board of Directors is committed to good business practices, transparency in financial reporting and the highest level of corporate governance. Glacier operates within a comprehensive plan of corporate governance for the purpose of defining responsibilities, setting high standards of professional and personal conduct and assuring compliance with such responsibilities and standards. We regularly monitor developments in the area of corporate governance. The Board periodically reviews Glacier's governance policies and practices against those suggested by various groups or authorities active in corporate governance and practices of other companies, as well as the requirements of the Sarbanes Oxley Act of 2002 (Sarbanes Act), related SEC rules and the listing standards of Nasdaq.

Code of Ethics

The Company adopted a Code of Ethics for Senior Financial Officers, which applies to its principal executive officer, principal financial officer, principal accounting officer or controller, and any persons performing similar functions.

You can access our current Code of Ethics for Senior Financial Officers, Audit, Compensation and Nominating/Corporate Governance Committee charters and Corporate Governance Policy by visiting the Company's Website and clicking on the *Corporate Governance* link on the Company's home page (www.glacierbancorp.com), or by writing to: Glacier Bancorp, Inc., c/o the Corporate Secretary, 49 Commons Loop, Kalispell, Montana, 59901.

Director Independence

The Board has analyzed the independence of each director and nominee in accordance with the Nasdaq rules and has determined that the following members of the Board meet the applicable laws and listing standards regarding independence required by Nasdaq, and that each such director is free of relationships that would interfere with the individual exercise of independent judgment. In determining the independence of each director, the Board considered many factors, including any lending with the directors, each of which were made on the same terms as comparable transactions made with other persons. Such arrangements are discussed in detail in the section entitled *Transactions with Management*.

Based on these standards, the Board determined that each of the following non-employee directors is independent and has no relationship with the Company, except as a director and shareholder:

James M. English
Allen J. Fetscher
Craig A. Langel
L. Peter Larson

Douglas J. McBride
John W. Murdoch
Everit A. Sliter

In addition, based on such standards, the Board determined that neither Michael J. Blodnick nor Jon W. Hippler are independent because each serve as an executive officer of the Company or one of its bank subsidiaries.

Table of Contents**Stock Ownership Guidelines**

The Board of Directors has approved stock ownership guidelines for its members, which are intended to help closely align the financial interests of the directors with those of Glacier's shareholders. Within two years from when they are first appointed or elected to the Board, directors are required to own shares of Glacier common stock with a market value of at least \$100,000. All of the current Glacier directors have exceeded this ownership requirement, except for Dr. McBride, who joined the Board in 2006.

Shareholder Communications with the Board of Directors

The Company and the Board of Directors welcome communication from shareholders and other interested parties. Communications may be made by writing to the Chairman of the Board, c/o the Corporate Secretary, Glacier Bancorp, Inc., 49 Commons Loop, Kalispell, Montana 59901. A copy of such written communication will also be sent to the Company's CEO. If the Chairman and the CEO determine that such communications are relevant to and consistent with the Company's operations and policies, such communications will be forwarded to the entire Board for review and consideration.

MEETINGS AND COMMITTEES OF THE BOARD OF DIRECTORS

The Board of Directors met 15 times during the fiscal year. Each director attended at least 75% of the meetings of the Board and of the committees on which he served. Glacier encourages, but does not require, the directors to attend annual shareholder meetings. Last year, all of our directors attended the annual shareholder meeting. The Board of Directors has established, among others, an Audit Committee, a Compensation Committee and a Nominating/Corporate Governance Committee.

The following table shows the membership of the various committees.

Audit Committee. The Audit Committee is comprised of six directors (including Dr. McBride who joined the committee in September 2006), each of whom are considered independent as defined by the Nasdaq listing standards. The Board has determined that both Mr. Langel and Mr. Sliter meet the definition of audit committee financial expert as defined by rules adopted by the SEC under the Sarbanes Act.

The Committee operates under a formal written charter adopted by the Board of Directors. As part of its periodic review of audit committee-related matters, the Audit Committee has received updates on the relevant requirements of the Sarbanes Act, the revised rules of the SEC and the corporate governance listing standards of Nasdaq.

The Audit Committee is responsible for the oversight of the quality and integrity of Glacier's financial statements, its compliance with legal and regulatory requirements, the qualifications and independence of its independent auditors, the performance of its internal audit function and independent auditors and other significant financial matters. In discharging its duties, the Audit Committee is expected to, among other things:

have the sole authority to appoint, retain, compensate, oversee, evaluate and replace the independent auditors;

review and approve the engagement of Glacier's independent auditors to perform audit and non-audit services and related fees;

meet independently with Glacier's internal auditing department, independent auditors and senior management;

review the integrity of Glacier's financial reporting process;

review Glacier's financial reports and disclosures submitted to Bank regulatory authorities;

maintain procedures for the receipt, retention and treatment of complaints regarding financial matters; and

reviews and approves related person transactions.

The Audit Committee held 14 meetings during the year.

Compensation Committee. The Compensation Committee is comprised of seven directors (including Dr. McBride who joined the committee in September 2006), each of whom are considered independent as defined by the Nasdaq listing standards. The Compensation Committee reviews the performance of the Company's Chief Executive Officer and other key employees and determines, approves and reports to the Board on the elements of their compensation and long-term equity based incentives. In determining the CEO's compensation, the Committee evaluated several performance factors, including the Company's financial results, levels of compensation of the Company's peers and the report of our compensation consultants, Watson-Wyatt. In 2005, the Committee independently retained Watson Wyatt Company to assist the Committee in its deliberations regarding executive compensation. The mandate of the consultant was to serve the Company and work for the Committee in its review of executive compensation practices, including designing our long-term incentive program. A complete description of the executive compensation process is described in the *Compensation Discussion and Analysis*.

Table of Contents

In addition, the Compensation Committee:

recommends, if appropriate, new employee benefit plans to the Board of Directors;

reviews all employee benefit plans;

makes determinations in connection with compensation matters as may be necessary or advisable; and

recommends, if appropriate, revisions to the compensation and benefit arrangements for directors.

The Compensation Committee operates under a formal written charter. The Compensation Committee met two times during the year for the purposes of reviewing salary and incentive compensation for the Chief Executive Officer and certain other executive officers, and reviewing and recommending to the full Board the grant of stock awards for executive officers.

Nominating/Corporate Governance Committee. The Nominating/Corporate Governance Committee (Nominating Committee) is comprised of seven directors (including Dr. McBride who joined the committee in September 2006), each of whom are considered independent as defined by the Nasdaq listing standards. The Committee is responsible for nominating a slate of directors for election at Glacier s annual meeting and appointing directors to fill vacancies as they occur. It is also responsible for (i) considering management succession plans, the appropriate Board size and committee structure and appointments; and (ii) developing and reviewing corporate governance principles applicable to Glacier and its subsidiaries. The Committee operates under a formal written charter approved by the Board of Directors. The Nominating Committee met 11 times during 2006.

The Nominating Committee will consider nominees recommended by shareholders, provided that the recommendations are made in accordance with the procedures described in this Proxy Statement under *Shareholder Proposals and Director Nominations*. The Committee evaluates all candidates, including shareholder-proposed candidates, using generally the same methods and criteria, although those methods and criteria are not standardized and may vary from time to time. The Nominating Committee is authorized to establish guidelines for the qualification, evaluation and selection of new directors to serve on the Board. We do not anticipate that the Committee will adopt specific minimum qualifications for Committee-recommended nominees, but that the Committee will instead evaluate each nominee on a case-by-case basis, including assessment of each nominee s business experience, involvement in the communities served by the Company, and special skills. The Nominating Committee will also evaluate whether the nominee s skills are complimentary to existing Board members skills, and the Board s need for operational, management, financial, technological or other expertise, as well as geographical representation of Glacier s market areas.

Report of Audit Committee

The Audit Committee of the Board of Directors makes the following report, which notwithstanding anything to the contrary set forth in any of our filings under the Securities Act of 1933 or the Securities Exchange Act of 1934, will not be incorporated by reference into any such filings and will not otherwise be deemed to be proxy soliciting materials or to be filed under such Acts.

The Audit Committee consists of the directors listed below. The Board of Directors has determined that (i) the current membership of the Audit Committee meets the independence requirements as defined under the Nasdaq listing standards; and (ii) Everit A. Sliter and Craig A. Langel each meet the audit committee financial expert qualifications, as required by the Sarbanes Act and the Nasdaq listing standards.

Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. The Audit Committee is responsible for overseeing Glacier's financial reporting processes on behalf of the Board of Directors.

The Audit Committee has met and held discussions with management and the Company's independent auditors. Management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, and the Committee has reviewed and discussed the audited consolidated financial statements with management and the independent auditors. The Committee discussed with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

Our independent auditors also provided to the Committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Committee discussed with the independent auditors that firm's independence.

Based on the Committee's review of the audited consolidated financial statements and the various discussions with management and the independent auditors noted above, the Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 filed with the SEC.

COMPENSATION OF DIRECTORS

Directors receive compensation in the form of cash and, as applicable, awards in the form of restricted stock or stock options. The Company does not pay directors who are also employees of the Company additional compensation for their service as directors.

The following table shows compensation paid or accrued for the last fiscal year to Glacier's non-employee directors. Neither Mr. Blodnick nor Mr. Hippler are included in the table as they are employees of the Company or a subsidiary, and thus, receive no compensation for their services as a director. The footnotes to the table describe the details of each form of compensation paid to directors.

Directors Stock Option Plan. The Board of Directors has adopted and the shareholders approved the Directors Stock Option Plan (Director Plan) for outside directors. From time to time, the Board and the shareholders have amended the Director Plan to increase the number of shares available for issuance to outside directors. Under the Director Plan, a set number of shares of common stock are reserved for issuance upon the exercise of nonqualified stock options granted to non-employee directors of the Company and each of the Company's subsidiary banks.

From time to time, Glacier authorizes the grant of nonqualified options to its directors of the Company and its subsidiary banks. These options allow the director to purchase shares of common stock at a price equal to the fair market value (closing price) of the common stock on the date of grant. Each option granted under the DSOP vests six months following the date of grant and expires upon the earlier of five years following the date of grant or three years following the date the optionee ceases to be a director, except in the event of death, in which case the period is one year from the date of death. As of the Record Date, an aggregate of 1,508,140 shares remained available for future grant (as adjusted for subsequent stock splits and stock dividends).

The Committee consists only of independent non-employee directors and operates under a written charter approved by the Board.

Executive Compensation Philosophy

The quality of our employees, including our executive team, is critical to executing on our community banking philosophy, emphasizing personalized service combined with the full resources of a larger banking organization. To meet our primary goal of attracting, retaining and incentivizing highly-qualified executives and employees within the context of our corporate culture, our compensation programs are designed with the following principles in mind:

We are committed to providing effective compensation and benefit programs that are competitive for both within our industry and with other relevant organizations with whom our banks compete for employees.

Our programs are designed to encourage and reward behaviors that ultimately contribute to the achievement of organizational goals.

Pay programs and practices reinforce our commitment to providing a work environment that promotes respect, teamwork, and individual growth opportunities.

Consistent with this overall philosophy, we have designed our compensation programs to be relatively straightforward and transparent to shareholders, while providing benefits attractive enough to attract, retain and motivate highly qualified employees. The principal components of our compensation package for executives are:

Base salary

Annual incentive bonus

Long-term incentives equity grants

Retirement, termination and change of control benefits

Other general employee benefits

The Committee designs our overall compensation program, and makes decisions regarding individual executive compensation, in the content of a total compensation policy that takes into account the overall package of compensation benefits provided to each executive. Except as described below, we have not adopted any specific policies or guidelines for allocating compensation between short-term and long-term incentives or between cash and non-cash compensation. However, our philosophy is to tie a greater percentage of an executive's compensation to the achievement of company financial and performance goals. Accordingly, base salaries are set at competitive levels, with an opportunity for each executive to be well-rewarded through the annual incentive bonus and stock option grants if the company meets its performance objectives.

Process for Determining Compensation

The Committee typically meets at least annually to perform a strategic review of our executive officers' overall compensation packages, including determination of awards for the past fiscal year based on satisfaction of previously established performance objectives, and adjustment of base salaries, establishment of target bonuses and performance objectives and granting of stock options for the current fiscal year. Our Chief Executive Officer performs an annual performance review of each executive officer, and provides a recommendation to the Committee regarding base salary and bonus targets for each other executive officer, which the Committee has discretion to

Table of Contents

approve or modify. The Committee then submits a recommendation regarding compensation for all executive officers to the Board for approval. The Committee meets separately on an annual basis with our Chief Executive Officer to determine his compensation.

In 2005, the Committee retained Watson-Wyatt, a multi-national employee benefits consulting firm, to have them help design a new long-term incentive program and to review compensation levels throughout the company. We did not re-engage Watson-Wyatt for 2006, but the Committee considered the recommendations made by Watson-Wyatt in 2005 in determining the compensation packages for executives in 2006. In addition, the Committee also compares executive compensation levels against a peer group of publicly-traded financial companies (the Compensation Peer Group). The Compensation Peer Group is periodically updated by the Committee and consists of companies which the Committee believes are comparable in size to the company and with whom we may compete against in limited geographic situations. The Compensation Peer Group for 2006 is identified below. The Committee believes that we compete with all of the Compensation Peer Group for the recruiting and retention of executives.

Discussion of Executive Compensation Components

Base Salary

We provide executives and other employees with a base salary to compensate them for services rendered during the year. Base salary ranges for executives are determined for each position based on market data. Base salary is designed so that the salary opportunities for a given position will be between 75% and 125% of the midpoint of the established range. In its review of base salaries for executives, the Committee considers:

Internal review of salary range based on available market data

Market data provided by consultants, when necessary

Internal review relative to others within the company

Individual performance

The experience and qualifications of each individual

Salary levels are reviewed annually as part of the Executive Performance Review. Promotion and other changes in job responsibility are reviewed at the time of change or promotion.

Annual Incentive Bonus

Performance-based bonuses comprise a significant component of the overall compensation package for each executive officer. The annual bonus of each executive officer, other than the Chief Executive Officer and Chief Financial Officer, is contingent upon satisfaction of both quantifiable and nonquantifiable performance measures established by the Committee, with the nonquantifiable component typically limited to no more than 10% of the overall bonus. The quantifiable measures are established at the beginning of each fiscal year and can be monitored by us and the executive throughout the year. These performance measures are tracked and evaluated as follows:

For each quantifiable performance measure selected, three levels of goals are defined to determine the amount of incentive that will be paid.

Table of Contents

- Acceptable At or below this level of performance, no incentive values are payable.
- Expected At this level of performance, 100% of target incentive values are payable.
- Outstanding At this level of performance, 200% of target incentive values are payable.

For each non-quantifiable performance measures, discretionary judgment is applied across a spectrum ranging from *minimally acceptable* to *clearly outstanding*.

The types of performance measures, the target performance measure levels and the weighting of each performance measure is predetermined at the beginning of each fiscal year with weights typically ranging from 10% to 30%. Performance measures include Return on Assets, Return on Equity, Deposit Growth, Asset Quality, Asset Growth, Loan Growth, Holding Company Performance, and others as needed, and are based on the performance of the bank at which each executive serves.

Chief Executive Officer. In setting compensation for the Chief Executive Officer the Committee relied heavily on the results of several performance factors. As demonstrated by the Watson-Wyatt report, the Chief Executive Officer's base salary is significantly below the compensation paid to executives in the Compensation Peer Group. Consistent with our performance-based philosophy, incentive compensation is a significant component in determining overall his total compensation. While other executive bonuses are based on formulas determined by the Committee, the bonus for the Chief Executive Officer is a separate process tied to subjective as well as objective factors.

To determine the compensation package for our Chief Executive Officer, the Committee considered our financial performance as compared to our Compensation Peer Group, as well as his achievement of individual objectives and accomplishments. In addition, the Committee considered other measures such as:

- Ø credit quality of the subsidiary banks, which remains strong;
- Ø effective communication of our overall goals and objectives to employees;
- Ø continued growth of the company through the successful acquisition in 2006 of First National Bank of Morgan and Citizens Development Corporation; and
- Ø continuation of good shareholder relations.

Chief Financial Officer. Our Chief Executive Officer typically makes a recommendation to the Committee with respect to the base salary and bonus for our Chief Financial Officer. This recommendation is based on a variety of objective and subjective factors, including the same company performance factors listed above for other Named Executive Officers as well as individual performance.

Table of Contents

Long-term Incentives Equity Grants

The compensation package of each executive includes a long-term incentive component in the form of annual equity grants. We believe stock ownership more closely aligns executive and company long-term goals, and in particular provides an incentive for executives to help build shareholder value. We also believe this program provides a retentive effect by enabling executives to share in the benefits of stock price appreciation. In 2005, the Board adopted, and our shareholders approved, a new Stock Incentive Plan. Each year, the Board establishes target levels of shares for executive officers, other management positions, and employees generally. Following each year, we award stock options at levels that are either below, at or above the target levels, based on company performance that is measured according to substantially the same criteria as the annual incentive bonus.

Retirement, Termination and Change of Control Benefits

As part of our total compensation policy, we offer executives the opportunity to participate in both a tax-deferred compensation plan and a supplemental executive retirement plan (SERP). The deferred compensation plan allows executives to defer a portion of their salary and bonus and thereby defer tax payable on that income. Members of the Board are also entitled to participate in the plan. The SERP is intended to supplement payments due to participants upon retirement under our other qualified plans. Participation in these plans is elective.

We also have entered into employment contracts with certain executive officers that allow for continuation of current base salary upon termination without cause, or upon termination following a change in control of the company. These agreements provide for payments ranging from one times annual base salary to 2.99 times annual base salary. These arrangements are intended to retain our executives that could have other job alternatives that may appear to them to be less risky absent these arrangements, particularly given the significant level of acquisition activity in the banking sector. All of our change in control arrangements are double trigger, meaning that benefits are not awarded upon a change of control unless the executive option holder's employment is terminated within a specified period of time following the transaction. We believe this structure strikes a balance between the incentives and the executive retention effects described above, without providing these benefits to executives who continue to enjoy employment with an acquiring company in the event of a change of control transaction.

The terms of these plans are described under the heading Post Employment and Termination Benefits beginning on page 24.

Other General Employee Benefits

Executive officers are eligible to participate in all employee benefit plans that are available to eligible employees generally, including health insurance, life and disability insurance, 401(k) matching contributions, and profit sharing.

2006 Executive Compensation

This year, as we have in past years (except for 2005, when we retained Watson-Wyatt), we compared our executive compensation levels against a Compensation Peer Group. The Compensation Peer Group for 2006 consisted of the following companies:

Table of Contents

U.S.B. Holding Co., Inc.	Oriental Financial Group, Inc.
Corus Bankshares, Inc.	Umpqua Holdings Corporation

Sterling Financial	Integra Bank Corporation
Community Bank Systems, Inc.	Heartland Financial USA, Inc.
Sterling Bancshares, Inc.	First Merchants Corporation
WesBanco, Inc.	Chemical Financial Corporation

2006 Base Salary

We increased the base salaries of Messrs. Blodnick, Strosahl, and Hippler by 5%, 21.9% and 17.3%, respectively. Our Chief Executive Officer declined a further increase in base salary. These raises were higher than the company-wide 3.75% pay raise guideline in response to our Watson-Wyatt salary review in 2005, and aligned our executive pay to be within the pay grades indicated by Watson-Wyatt's report, except that the base salary of our Chief Executive Officer remained at approximately 50% of the recommended level. Mr. Bouchee did not receive a raise since he transitioned to part-time status during 2006.

2006 Annual Incentive Bonuses

For 2006, we awarded a bonus to our Chief Executive Officer of \$200,000, or 66.7% of his base salary. This bonus was based on the Committee's determination that our Chief Executive Officer had met all of the performance measures for 2006 with an outstanding level of performance. Our financial results are evidenced by our performance relative to our Compensation Peer Group. In this group, Glacier Bancorp, Inc. was second in Return on Average Assets, third in Return of Average Equity and second in total return over the past three years. We maintained a strong level of credit quality through 2006, and the percentage of loans which were past due is substantially below our peer group. In addition, our Chief Executive Officer led acquisitions of a multi-bank holding company in Montana and a stand-alone bank in Utah during 2006. The Committee also considered our Chief Executive's efforts in helping to maintain strong shareholder relations, including several investment banking trips during the year. The Committee also recognized that the base salary of our Chief Executive Officer is 50% of the average base salary for chief executive officers among our peer group. As a result, his bonus comprised a higher percentage of his base salary due to this comparatively low base salary. The Committee recommended the highest bonus acceptable to our Chief Executive Officer of \$200,000.

Messrs. Hippler and Bouchee received bonuses equal to 48% and 13% of their base salaries, respectively. Mr. Hippler's bonus was based on the performance of his bank relative to pre-established performance targets as set by this Committee. Mr. Bouchee's bonus was calculated according to separate performance standard set by First Security Bank, and was also lower due in part to his part-time status during the latter part of 2006.

Table of Contents

In addition, Mr. Strosahl received a bonus of \$150,000, or 63% of his base salary. This bonus was based on the recommendation of our Chief Executive Officer to the Committee following Mr. Strosahl's annual performance review. The Committee concurred with the Chief Executive Officer's evaluation of the Chief Financial Officer's outstanding job performance. In addition to the strong results in return on average assets, return on average equity and average total return compared to our Compensation Peer Group as noted above, our net interest margin on average earning assets (tax equivalent) increased by 15 basis points from the prior year while much of the financial services industry was experiencing a reduction in net interest margin. Mr. Strosahl contributed significantly to the two acquisitions completed in 2006, and served as a director of four banking subsidiaries.

Long-term Incentives

The Committee established the following targets for option grants to our executive officers during 2006 (all figures have been adjusted to reflect stock splits and stock dividends to date):

Position	Shares
CEO	22,500
CFO	22,500
President, Subsidiary Banks >\$500 million	12,000

The Company's performance in 2006 was in line with our budget and expectations, and therefore our executives were awarded the targeted amount of stock options. During 2006, we granted stock options to purchase an aggregate of 1,001,313 shares overall, with 69,000 of these shares (or 6.9%) granted to Named Executive Officers.

Employee Stock Plans

The Company has previously maintained an employee stock option plan, including the 1995 Employee Stock Option Plan (1995 Plan), which was approved by the Board of Directors and the shareholders. The 1995 Plan provided for the grant of incentive and nonqualified stock options, had a term of 10 years, and expired in February of 2005. Although no options may be issued under the 1995 Plan, the plan has granted but unexercised options

outstanding.

At the 2005 Annual Meeting, shareholders of Glacier approved the 2005 Stock Incentive Plan (2005 Plan), the successor to the 1995 Plan. The 2005 Plan provides for awards of stock based incentive compensation to eligible employees, consultants, and directors of the Company or its affiliates. Shares of Glacier common stock are issuable under the 2005 Plan in the form of stock options, share appreciation rights, restricted shares, restricted share units and unrestricted shares, deferred share units, and performance awards.

The 2005 Plan is effective for ten years and limits the grant of shares to any one eligible individual to a maximum of 562,500 shares during the term of the 2005 Plan. The aggregate number of shares available for issuance under the 2005 Plan is 4,687,500, of which no more than 3,187,500 may be granted in a form other than stock options and stock appreciation rights. All share amounts have been adjusted for applicable stock splits and stock dividends.

(2) Earnings on amounts deferred under the Deferred Compensation Plan are credited at one-half of the Company's current year return-on-equity, or 8% in 2006.

Deferred Compensation Plan. Since December 1995, Glacier has maintained a non-qualified and non-funded deferred compensation plan (the "Deferred Plan") for directors and key employees. The Deferred Plan permits eligible directors and officers of the Company to defer certain income that would otherwise be taxable as earned and paid in the ordinary course. The Deferred Plan was subsequently amended principally in response to the recent enactment of Section 409A of Internal Revenue Code of 1986, and permit participants to elect cash-out distributions, and to make

new distribution elections on terms that conform with the restrictions set forth in Section 409A.

As amended and restated, the Plan permits a designated officer or key employee to annually defer up to 50% of his or her salary, as well as up to 100% of any cash bonuses. A non-employee director may elect to have any portion of his or her director's fees deferred into an account. The restated Deferred Plan also provides that the post-2004 rate of return on deferred compensation accounts will equal fifty percent (50%) of the Company's return-on-average-equity (whether positive or negative) as of December 31 for such year. This change is expected to limit the Company's future compensation expense while retaining the Deferred Plan's performance-based nature.

Supplemental Executive Retirement Plan. In December 1995, the Board adopted a nonqualified and nonfunded Supplemental Executive Retirement Plan (the SERP) for senior executive officers and entered into separate Supplemental Executive Retirement Agreements with the executives. The SERP is intended to supplement payments due to participants upon retirement under the Company's other qualified plans. In general, the SERP provides that Glacier will credit each participating executive's account on an annual basis, an amount equal to employer contributions that would have otherwise been allocated to the executive's account under the tax-qualified plans were it not for limitations imposed by the Internal Revenue Service, or participation in the Deferred Plan. Payments under the SERP will be made in five annual installments upon the executive leaving employment, the first of which will be paid on the first day of the second month upon retirement. In the event of a change in control, the amounts in the individual SERP accounts will be deposited into a trust, and the Company will continue to be obligated to provide for the benefits under the SERP. In the event the executive is terminated for Just Cause (as defined), no benefits will be payable to the executive under the SERP and all obligations of the Company with respect to the executive's SERP cease.

In 2005, the SERP was amended to principally mirror those changes described above for the Company's Deferred Plan, namely: permitting participants to make cash-out elections and new distribution elections, and providing that, for years after 2004, the account balance for each participant will be credited with a rate of return that is equal to fifty (50%) of the Company's return-on-average equity.

Employment Arrangements

Below are summaries of certain agreements between executive officers listed in the compensation table and the Company or its subsidiaries. These summaries are qualified in their entirety by the individual agreements.

Michael J. Blodnick Employment Agreement. During calendar year 2006, Mr. Blodnick's employment was governed by an employment agreement dated January 1, 2006. The Agreement terminated December 31, 2006 and a new agreement was entered into effective January 1, 2007. Mr. Blodnick's agreement provides for an annual salary (currently \$315,000), with subsequent increases subject to the recommendation of the Compensation Committee and the Board's review of Mr. Blodnick's compensation and performance. Incentive compensation is to be determined by the Board, as recommended by the Compensation Committee, and any bonus will be payable not later than January 31 of the year following the year in which the bonus is earned. If Mr. Blodnick's employment is terminated by the Company without cause (as defined) or by Mr. Blodnick for good reason (as defined) during the term of the agreement, Mr. Blodnick will receive, for the remainder of the term, the salary and other benefits he would have been entitled to if his employment had not terminated. Mr. Blodnick is prohibited from competing with the Company or its subsidiaries during the term of the agreement and for a three-year period following his termination of employment.

If Mr. Blodnick's employment is terminated by the Company within three years following a change of control (as defined), or in some circumstances following the announcement of a change of control that subsequently occurs, other than for cause, the agreement provides that Mr. Blodnick will be entitled to receive an amount equal to 2.99 times his then current annual salary, payable in 36 monthly installments, plus continued employment benefits for 2.99 years following termination. This amount (2.99 times annual salary plus continuation of benefits) would also be payable if Mr. Blodnick terminates his employment within three years of a change of control. The agreement provides that the payments to be received by Mr. Blodnick will be limited to less than the amount that would cause them to be an excess parachute payment within the meaning of Section 280G(b)(2)(A) of the Internal Revenue Code. In addition, the payments and benefits to be received by Mr. Blodnick

will be reduced by any compensation that he receives from the Company or its successor following a change in control.

TRANSACTIONS WITH MANAGEMENT

Certain Transactions

Transactions between Glacier or its affiliates and related persons (including directors and executive officers of the Company or their immediate family) must generally be approved by the Audit Committee (or a comparable committee of independent disinterested directors), in accordance with the policies and procedures set forth in the policy governing Related Persons Transactions adopted by the Board of Directors. Under the Related Persons Transaction Policy, a transaction between a related person shall be consummated only if the designated committee, or a majority of the disinterested independent members of the Board, approves or ratifies such transaction in accordance with the guidelines set forth in the policy and if the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party.

During 2006 certain directors and executive officers of Glacier and its subsidiaries, and their associates, were customers of one or more of Glacier's subsidiary banks, and it is anticipated that such individuals will continue to be customers in the future. All transactions between Glacier's subsidiary banks and Glacier's executive officers and directors, and their associates, were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and, in the opinion of management, did not involve more than the normal risk of collectability or present other unfavorable features.

Table of Contents**COMPLIANCE WITH SECTION 16(a) FILING REQUIREMENTS**

Section 16(a) of the Securities Exchange Act of 1934 requires that all of our executive officers and directors and all persons who beneficially own more than 10 percent of our common stock file reports with the SEC regarding beneficial ownership of Company stock. We have adopted procedures to assist our directors and executive officers in complying with the Section 16(a) filings.

Based solely on our review of the copies of the filings that we received for the fiscal year ended December 31, 2006, or written representations from certain reporting persons, we believe that all reporting persons made all filings required by Section 16(a) on a timely basis.

Table of Contents

Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

The services performed by BKD in 2006 were pre-approved in accordance with the pre-approval policy and procedures adopted by the Audit Committee. This policy describes the permitted audit, audit-related, tax, and other services (collectively, the Disclosure Categories) that BKD may perform. The policy requires that prior to the beginning of each fiscal year, a description of the services (the Service List) expected to be performed by BKD in each of the Disclosure Categories in the following fiscal year be presented to the Audit Committee for approval.

Services provided by BKD during the following year that are included in the Service List were pre-approved following the policies and procedures of the Audit Committee.

Any requests for audit, audit-related, tax, and other services not contemplated on the Service List must be submitted to the Audit Committee for specific pre-approval and cannot commence until such approval has been granted. Normally, pre-approval is provided at regularly scheduled meetings. However, the authority to grant specific pre-approval between meetings, as necessary, has been delegated to the Chairman of the Audit Committee. The Chairman must update the Audit Committee at the next regularly scheduled meeting of any services that were granted specific pre-approval.

In addition, although not required by the rules and regulations of the SEC, the Audit Committee generally requests a range of fees associated with each proposed service on the Service List and any services that were not originally included on the Service List. Providing a range of fees for a service incorporates appropriate oversight and control of the independent auditor relationship, while permitting the Company to receive immediate assistance from BKD when time is of the essence.

The Audit Committee reviews the status of services and fees incurred year-to-date against the original Service List and the forecast of remaining services and fees for the fiscal year.
