Chairman's
LETTER TO SHAREHOLDERS

[PHOTO OF ROBERT P. BREMNER] | Robert P. Bremner | Chairman of the Board

Dear Shareholders,

I write this letter in a time of continued uncertainty about the current state of the U.S. financial system and pessimism about the future of the global economy. Many have observed that the conditions that led to the crisis have built up over time and will complicate and extend the course of recovery. At the same time, government officials in the U.S. and abroad have implemented a wide range of programs to restore stability to the financial system and encourage economic recovery. It is believed that these efforts will moderate the extent of the downturn and hasten the inevitable recovery, even though it is hard to envision that outcome in the current environment.

As you will read in this report, the continuing financial and economic problems are weighing heavily on the values of equities and fixed-income assets and unfortunately the performance of your Nuveen Fund has been similarly affected. In addition to the financial statements, I hope that you will carefully review the Portfolio Manager's Comments, the Common Share Dividend and Share Price Information and the Performance Overview sections of this report and please note this is a six month annual report. During the current fiscal period, the Board of Directors approved a change in the Funds' fiscal and tax year end from August 31 to February 28/29. These comments highlight the manager's pursuit of investment strategies that depend on thoroughly researched securities, diversified portfolio holdings and well established investment disciplines to achieve your Fund's investment goals. The Fund Board believes that a consistent focus on long-term investment goals provides the basis for successful investment over time and we monitor your Fund with that objective in mind.

Nuveen continues to work on resolving the issues related to the auction rate preferred shares situation, but the unsettled conditions in the credit markets have slowed progress. Nuveen is actively pursuing a number of solutions, all with the goal of providing liquidity for preferred shareholders while preserving the potential benefits of leverage for common shareholders. We appreciate the patience you have shown as we work through the many issues involved. Please consult the Nuveen website: www.nuveen.com, for the most recent information.

On behalf of myself and the other members of your Fund's Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Robert P. Bremner

-----

Robert P. Bremner Chairman of the Nuveen Fund Board April 20, 2009

Portfolio Manager's COMMENTS

Nuveen Investments Municipal Closed-End Funds | NCA, NCP, NCO, NQC, NVC, NUC

During the current fiscal period, the Board of Directors approved a change in the Funds' fiscal and tax year end from August 31 to February 28/29.

Portfolio manager Scott Romans reviews economic and municipal market conditions at both the national and state levels, key investment strategies, and the six-month performance of the Nuveen California Municipal Funds. Scott, who joined Nuveen in 2000, has managed these six Funds since 2003.

WHAT FACTORS AFFECTED THE U.S. ECONOMIC AND MUNICIPAL MARKET ENVIRONMENTS DURING THE SIX-MONTH PERIOD ENDED FEBRUARY 28, 2009?

During this period, downward pressure on the economy continued and stress in the financial and credit markets led to increased price volatility for most securities, reduced liquidity and a general flight to quality. In an effort to improve overall economic conditions, the Federal Reserve (Fed) cut the fed funds target interest rate in December 2008 to between zero and 0.25%, its lowest level on record. (On March 18, 2009, following the end of this reporting period, the Fed announced that, in addition to maintaining the fed funds rate at its 0-0.25% level, it would buy \$300 billion in Treasury securities over the next six months in an effort to improve conditions in private credit markets and up to an additional \$750 billion of agency mortgage-backed securities to bolster the housing market.)

After declining at an annual rate of 0.5% in the third quarter of 2008, Gross domestic product (GDP) -- a measure of national economic output -- contracted at an annual rate of 6.2% in the fourth quarter of 2008, the weakest performance since 1982. Signs of a deepening housing recession continued to trouble the economy, with the price of a single-family home falling a record 18.2% in 2008. In the labor markets, February 2009 marked the fourteenth consecutive month of job losses and the third straight month employment losses topped 600,000, the first such occurrence since records began in 1939. The national unemployment rate for February 2009 was 8.1%, its highest point in more than 25 years. At the same time, inflation remained subdued. The Consumer Price Index (CPI), reflecting large drops in energy and transportation prices, registered a 0.2% year-over-year gain in February 2009, while the core CPI (which excludes food and energy) rose 1.8%. Both numbers were within the Fed's unofficial objective of 2.0% or lower.

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio manager as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

4

Beginning in October, the nation's financial institutions and financial markets — including the municipal bond market—experienced significant turmoil. Reductions in demand decreased valuations of municipal bonds across all credit ratings. The municipal market is one in which dealer firms make markets in bonds on a principal basis using their proprietary capital, and during the recent market turmoil these firms' capital was severely constrained. As a result, some firms were unwilling to commit their capital to purchase and to serve as a dealer for municipal bonds. This reduction in dealer involvement in the market

was accompanied by significant net selling pressure by investors, particularly with respect to lower-rated municipal bonds, as institutional investors generally removed money from the municipal bond market, at least in part because of their need to reduce the leveraging of their municipal investments. This deleveraging was in part driven by the overall reduction in the amount of financing available for such leverage, the increased costs of such leverage financing, and the need to reduce leverage levels that had recently increased due to the decline in municipal bond prices.

Municipal bond prices were further negatively impacted by concerns that the need for further deleveraging and a supply overhang (a large amount of new issues that were postponed) would cause selling pressure to persist for a period of time. In addition to falling prices, the following market conditions resulted in greater price volatility of municipal bonds - wider credit spreads (i.e., lower quality bonds fell in price more than higher quality bonds); significantly reduced liquidity (i.e., the ability to sell bonds at a price close to their carrying value), particularly for lower quality bonds; and a lack of price transparency (i.e., the ability to accurately determine the price at which a bond would likely trade). Reduced liquidity was most pronounced in mid-October, although it improved considerably after that period.

Municipal bond market performance over this period also was significantly impacted by concerns about the credit markets, downgrades of municipal bond insurers, and institutional investors' need to unwind various leveraging strategies. These events created surges of selling pressure, as many municipal bond owners tried to sell holdings of longer-maturity bonds into a market already experiencing a lack of liquidity. Combined with the Fed rate cuts, this produced a steepening of the municipal yield curve. In this environment, bonds with shorter maturities generally outperformed longer maturity bonds, and higher quality bonds tended to outperform lower quality credits.

Over the six months ended February 28, 2009, municipal bond issuance nationwide totaled \$139.5 billion, a drop of 22% compared with the twelve-month period ended February 29, 2008. While market conditions during this period impacted the demand for municipal bonds, we continued to see demand from investors attracted by higher interest rates and yields relative to taxable bonds.

5

HOW WERE THE ECONOMIC AND MARKET ENVIRONMENTS IN CALIFORNIA DURING THIS PERIOD?

Employment declines, especially in the construction, finance and manufacturing sectors, far outpaced the modest gains reported in education/health services, government, and leisure and hospitality, the only sectors to report positive growth. As of February 2009, California's unemployment rate had risen to 10.5%, its highest level since April 1983, up from 6.2% in February 2008. On the positive side, the state's economy remained relatively diverse, with technology providing some recent economic support, especially in the areas of renewable energy and medical equipment. Because of its exposure to riskier, non-traditional mortgage products, the state's housing market was hit hard by the sub-prime mortgage crisis as well as the downturn in the housing sector. Foreclosures in California, which reached a rate twice the U.S. average, have driven reductions in home prices throughout the state. According to the Standard & Poor's (S&P)/Case-Shiller home price index of 20 major metropolitan areas, housing prices in San Francisco, Los Angeles and San Diego fell 32.4%, 25.8% and 24.9%, respectively, between January 2008 and January 2009, compared with an average decrease of 19.0% nationwide. The severe decline in California's housing industry had ramifications far beyond the significant job losses in construction, impacting sellers of building supplies and home furnishings, mortgage lenders, real estate agents, and finance companies, among others.

Declining home values also contributed to a sharp downturn in both consumer spending and government tax revenues, with weaker tax collections forcing downward revisions to revenue estimates from state and local governments.

The California legislature adopted a revised 2009-2010 state budget closing the gap with \$15 billion in spending cuts, \$11.4 billion in new borrowing, \$12.8 billion in new taxes and \$2 billion from federal stimulus funds. The spending cuts were spread across a number of budget categories, with the brunt being borne by K-14 education (\$8.4 billion), health and human services, and state payrolls. Tax increases included a one-percent increase in the state sales tax, increased vehicle license fees, a 0.5% surcharge on personal income taxes, and a reduction in the dependent tax credit. However, final approval of several elements of the budget remain subject to voter approval, with a special election scheduled for May 19, 2009. In addition, the delay in passing the state budget for fiscal 2009-2010 exacerbated California's ongoing cash-flow problems, limiting the state's ability to borrow in the short-term markets to smooth out uneven cashflows and meet priority payments, including debt service on bonds. In March 2009, following the end of this reporting period, the California legislative analyst's office announced that a new gap of \$8 billion had opened in the state budget.

As of February 2009, Moody's, S&P and Fitch listed their ratings on California's general obligation (GOs) bonds at A1, A, and A+, respectively. This reflected S&P's rating down-

6

grade from A+ on February 3, 2009. (In March 2009, following the end of this reporting period, Moody's and Fitch also lowered their ratings on California GOs to A2 and A, respectively.) For the six months ended February 28, 2009, municipal issuance in California totaled \$12.4 billion, a decrease of 46% from the previous twelve months.

WHAT KEY STRATEGIES WERE USED TO MANAGE THE CALIFORNIA FUNDS DURING THIS REPORTING PERIOD?

During this period, as the municipal market was pressured by price volatility and lack of liquidity, we continued to focus on finding bonds that offered relative value, preserving liquidity and investing for the long term.

Our investment activity during this period was largely driven by opportunities created by the market turmoil and market conditions resulting from that stress. This was true in both the new issuance municipal bond market and the secondary markets. In the new issuance (or primary) market, we were able to purchase bonds with better structures (e.g., higher coupons, longer call protection) than we have seen in a long time, as market conditions required issuers to enhance offerings to make them more attractive to buyers. In the secondary markets, we found bonds, especially lower-rated bonds, at extremely discounted prices as the result of selling by some municipal market participants, particularly in November and December 2008. In both cases, we were focused on using a fundamental approach to discover undervalued sectors and individual credits with the potential to perform well over the long term. Many of the opportunities we found during this period were in health care, a sector we follow closely and know well. One example of a bond we added to all of these Funds was a BBB rated credit issued by Loma Linda University Medical Center, which offered a coupon of 8.25% with a maturity date of 2039.

During this period, a number of bond calls provided some of the capital necessary for purchases. We also monitored the types of credits and bond structures that were attractive to the retail market and took advantage of

strong bids to sell bonds where we believe we had extracted the performance potential into relatively consistent retail demand. In addition, we lightened our positions in California general obligation bonds, due to their exposure to the state's ongoing economic problems, as well as in a variety of Puerto Rico issues.

As a key dimension of risk management, a disciplined approach to duration(1) positioning remained an important component of our management strategies. As part of this approach, we continued to use inverse floating rate securities(2) in all six of these Funds. Inverse floaters typically provide the dual benefit of bringing the Funds' durations closer to our strategic target and enhancing their income-generation capabilities. As of February 28, 2009, the inverse floaters remained in place in all of the Funds.

\_\_\_\_\_

- (1) Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.
- (2) An inverse floating rate security, also know as inverse floaters, is a financial instrument designed to pay long-term tax-exempt interest at a rate that varies inversely with a short-term tax-exempt interest rate index. For the Nuveen Funds, the index typically used is the Securities Industry and Financial Markets (SIFM) Municipal Swap Index (previously referred to as the Bond Market Association Index or BMA). Inverse floaters, including those inverse floating rate securities in which the Funds invested during the reporting period, are further defined within the Notes to Financial Statements and Glossary of Terms Used in this Report sections of this shareholder report.

7

#### HOW DID THE FUNDS PERFORM?

Individual results for these Nuveen California Funds, as well as relevant index and peer group information, are presented in the accompanying table.

Average Annual Total Returns on Common Share Net Asset Value\* For periods ended 2/28/09

	Six-month	1-Year	5-Year	10-Year
NCA(3)	-4.73%	-0.30%	2.16%	3.81%
NCP	-7.75%	-1.94%	1.15%	3.88%
NCO	-6.85%	-0.27%	1.32%	3.83%
NQC	-7.70%	-2.02%	1.24%	3.88%
NVC	-7.09%	-0.87%	1.60%	4.20%
NUC	-5.94%	0.60%	2.32%	4.31%
Lipper CA				
Municipal Debt				
Funds Average(4)	-11.72%	-5.61%	0.54%	3.57%
Barclays Capital				
CA Municipal				
Bond Index (5)	-1.36%	3.93%	3.02%	4.42%
S&P CA Municipal				
Bond Index(6)	-3.34%	3.07%	2.85%	4.34%

For the six months ended February 28, 2009, the total returns on common share net asset value (NAV) for NCA, NCP, NCO, NQC, NVC and NUC exceeded the average return for the Lipper California Municipal Debt Funds Average. All of the Funds

under-performed the unleveraged Barclays Capital California Municipal Bond Index and the S&P California Municipal Bond Index.

Key management factors that influenced the Funds' returns during this period included duration and yield curve positioning, the use of derivatives, (7) credit exposure, and sector allocations. In addition, the use of leverage had a generally detrimental effect on the Funds' performances (with the exception of NCA, which is unleveraged) over this period. The impact of leverage is discussed in more detail on page 9.

Over the course of this reporting period, the yield curve remained steep, as interest rates at the short end of the curve declined and longer rates rose. Given this interest rate environment, bonds in the Barclays Capital California Municipal Bond Index with maturities between two and eight years benefited the most, with bonds maturing in approximately five years performing the best. Because they were less price sensitive to interest rate changes, these bonds generally outperformed credits with longer maturities, as bonds with the longest maturities (20 years and longer) posted a loss for the period. In general, these six Funds tended to have relatively less exposure to the outperforming shorter end of the yield curve and comparatively heavier exposure to the underperforming longest part of the curve. Overall, NUC had the most advantageous

\_\_\_\_\_

 $\operatorname{Six-month}$  returns are cumulative. One-, five- and ten year returns are annualized.

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the individual Performance Overview for your Fund in this report.

- (3) NCA is an unleveraged Fund; the remaining five Funds in this report are leveraged.
- (4) The Lipper California Municipal Debt Funds Average is calculated using the returns of all closed-end funds in this category for each period as follows: 1 year, 24 funds; 5 years, 24 funds; and 10 years, 12 funds. Fund and Lipper returns assume reinvestment of dividends.
- (5) The Barclays Capital (formerly Lehman Brothers) California Municipal Bond Index is an unleveraged, unmanaged index comprising a broad range of investment-grade California municipal bonds. Results for the Barclays Capital index do not reflect any expenses.
- (6) The Standard & Poor's (S&P) California Municipal Bond Index is an unleveraged, market value-weighted index designed to measure the performance of the investment-grade California municipal bond market.
- (7) Each Fund may invest in derivatives instruments such as forwards, futures, option and swap transactions. For additional information on derivative instruments in which each Fund was invested during and at the end of the reporting period, see the Portfolio of Investments, Financial Statements and Notes to Financial Statements sections of this shareholder report

8

duration positioning for the municipal market environment of this six-month

period, that is, it was more heavily weighted in the areas of the yield curve that performed well.

As mentioned earlier, all of these Funds used inverse floaters. During this period, these inverse floaters generally had a negative impact on performance. This resulted from the fact that the inverse floaters effectively increased the Funds' exposures to longer maturity bonds at a time when shorter maturities were in favor in the market.

Credit exposure was also an important factor in performance during these six months. Because risk-averse investors generally sought higher quality investments as disruptions in the financial markets deepened, bonds with higher credit quality typically performed very well. At the same time, securities rated BBB or below and non-rated bonds generally posted poor returns. Overall, NCA, NCP and NQC were the most negatively impacted by their exposure to bonds rated BBB and non-rated bonds.

During this period, pre-refunded(8) bonds, which are backed by U.S. Treasury securities, were one of the top performing segments of the market, due primarily to their shorter effective maturities, higher credit quality, and perceived safety. NUC, NCA and NVC had heavier weightings of pre-refunded bonds than the other three Funds in this report, while NCP was severely underweighted in this category. Additional sectors of the market that generally contributed to the Funds' returns included general obligation and other tax-backed bonds, water and sewer and education credits.

Holdings that generally detracted from the Funds' performances included transportation and industrial development revenue (IDR) bonds, which performed very poorly during this period. The health care revenue sector also underperformed the overall municipal market. Alongside current coupon bonds in these sectors, zero coupon bonds were among the worst performing categories in the municipal market, as were lower-rated bonds backed by the 1998 master tobacco settlement agreement, which comprised approximately 2.5% to 3.6% of these Funds' portfolios as of February 28, 2009.

IMPACT OF THE FUNDS' CAPITAL STRUCTURES AND LEVERAGE STRATEGIES ON PERFORMANCE

In addition to the factors previously discussed, another factor impacting the six-month returns of NCP, NCO, NQC, NVC and NUC relative to those of the unleveraged Barclays Capital California Municipal Bond Index and S&P California Municipal Bond Index was these Funds' use of financial leverage. (NCA is unleveraged.) While leverage offers opportunities to generate additional income and total returns for common shareholders, the benefits provided by leveraging are influenced by the price movements of the bonds in each Fund's portfolio. During this period, declining valuations had a negative effect on performance that was magnified by the use of leverage.

9

RECENT DEVELOPMENTS REGARDING BOND INSURANCE COMPANIES

Another factor that had an impact on the performance of these Funds was their position in bonds backed by municipal bond insurers that experienced downgrades in their credit ratings. During the period covered by this report, ACA, AGC,

<sup>(8)</sup> Pre-refundings, also known as advance refundings or refinancings, occur when an issuer sells new bonds and uses the proceeds to fund principal and interest payments of older existing bonds. This process often results in lower borrowing costs for bond issuers.

AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA (formerly XLCA) experienced one or more rating reductions by at least one or more rating agencies. At the time this report was prepared, at least one rating agency has placed each of these insurers except AGC on "negative credit watch," "credit outlook developing" or "rating withdrawn," which may presage one or more rating reductions for such insurer or insurers in the future. As concern increased about the balance sheets of these insurers, prices on bonds insured by these companies - especially those bonds with weaker underlying credits -declined, detracting from the Funds' performance. By the end of this period, most insured bonds were being valued according to their fundamentals as if they were uninsured. On the whole, the holdings of all of our Funds continued to be well diversified not only between insured and uninsured bonds, but also within the insured bond category. It is important to note that municipal bonds historically have had a very low rate of default.

#### RECENT DEVELOPMENTS IN THE AUCTION RATE PREFERRED SECURITIES MARKETS

As noted in the last shareholder report, beginning in February 2008, more shares were submitted for sale in the regularly scheduled auctions for the auction rate preferred shares issued by these Funds than there were offers to buy. This meant that these auctions "failed to clear," and that many or all of the Funds' auction rate preferred shareholders who wanted to sell their shares in these auctions were unable to do so. This decline in liquidity in auction rate preferred shares did not lower the credit quality of these shares, and auction rate preferred shareholders unable to sell their shares received distributions at the "maximum rate" applicable to failed auctions, as calculated in accordance with the pre-established terms of the auction rate preferred shares.

These developments generally have not affected the portfolio management or investment policies of these Funds. However, one continuing implication for common shareholders of these auction failures is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future common share earnings may be lower than they otherwise might have been. As noted in the last shareholder report, the Funds' Board of Directors authorized a plan to use tender option bonds (TOBs), also known as floating rate securities, to refinance a portion of the Funds' outstanding auction rate preferred shares.

On January 8, 2009, thirty-five Nuveen closed-end municipal funds called for redemption at par a portion of their outstanding auction rate preferred securities. This series of redemptions collectively totaled \$250.1 million. This new series of redemptions

10

brings the total amount of Nuveen's municipal closed-end funds' auction rate preferred share redemptions to nearly \$2 billion of the original \$11 billion outstanding.

As of February 28, 2009, the cumulative amount of auction rate preferred securities redeemed by the Funds are as shown in the accompanying table:

	Auction Rate	% of Original
	Preferred Shares	Auction Rate
Fund	Redeemed	Preferred Shares
NCP	\$14,825,000	14.0%
NCO	\$ 9,100,000	13.4%
NQC	\$17,075,000	15.2%

NVC	\$27,850,000	14.5%
NUC	\$19,975,000	10.8%

While the Funds' Board of Directors and management continue to work to resolve this situation, the Funds cannot provide any assurance on when the remaining outstanding auction rate preferred shares might be redeemed.

On March 30, 2009, subsequent to the reporting period, thirty-four Nuveen closed-end municipal funds (none of which are included in this shareholder report) called for redemption at par a portion of their outstanding auction-rate preferred shares. This series of redemptions will collectively total more than \$287 million. Each of the funds will be using TOBs to finance the partial redemption of its auction rate preferred shares.

For up-to-date information, please visit the Nuveen CEF Auction Rate Preferred Resource Center at:

http://www.nuveen.com/ResourceCenter/AuctionRatePreferred.aspx.

11

Common Share Dividend and Share Price INFORMATION

During the six-month reporting period ended February 28, 2009, all six of the California Funds dividends remained stable throughout the reporting period.

Due to capital gains generated by normal portfolio activity, common shareholders of these Funds received capital gains and net ordinary income distributions at the end of December 2008 as follows:

	Long-Term Capital Gains	Short-Term Capital Gains and/or Ordinary Income
	(per share)	(per share)
NCA	\$0.0709	\$0.0581
NCP	\$0.0870	
NCO	\$0.0342	\$0.0122
NQC	\$0.1602	\$0.0257
NVC	\$0.0750	\$0.1015
NUC	\$0.0986	\$0.0660

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of February 28, 2009, all of the California Funds in this shareholder report had positive UNII balances for both tax purposes and financial statement purposes.

12

On July 30, 2008, the Funds' Board of Directors approved an open-market share repurchase program under which each Fund may repurchase up to 10% of its outstanding common shares. As of February 28, 2009, the Funds repurchased common shares as shown in the accompanying table:

Fund	Common Shares Repurchased	% of Outstanding Common Shares
NCP	14,500	0.1%
NCO	6,600	0.1%
NVC	20,200	0.1%
NUC	17,900	0.1%

Since the inception of this program, common shares were repurchased at a weighted average price and a weighted average discount per common share as shown in the accompanying table:

Fund	Weighted Average Price Per Share Repurchased	Weighted Average Discount Per Share Repurchased
NCP	\$10.06	20.96%
NCO	\$10.11	22.69%
NVC	\$ 9.89	22.81%
NUC	\$10.40	22.38%

As of February 28, 2009, the Funds' common share prices were trading at discounts to their common share NAVs as shown in the accompanying table:

	2/28/09 Discount	Six-Month Average Discount
NCA	-5.41%	- 3.25%
NCP	-13.94%	- 18.21%
NCO	-16.64%	- 18.29%
NQC	-12.33%	- 16.23%
NVC	-15.25%	- 17.51%
NUC	-15.65%	- 17.21%

13

(1) The percentages shown in the foregoing chart may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of February 28, 2009. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes

to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (2) Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 34.9%. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.
- (3) The Fund paid shareholders capital gains and net ordinary income distributions in December 2008 of \$0.1290 per share.

- (1) The percentages shown in the foregoing chart may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of February 28, 2009. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
- (2) Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 34.9%. When comparing this Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.
- (3) The Fund paid shareholders capital gains and net ordinary income distributions in December 2008 of \$0.1646 per share.

#### NCA NCP NCO | Shareholder MEETING REPORT

Total

The annual meeting of shareholders was held in the offices of Nuveen Investments on November 18, 2008; at this NCO meeting the shareholders were asked to vote on the election of Board Members, the elimination of Fundamental Investment Policies and the approval of new Fundamental Investment Policies. The meetings for NCP, NCO, NQC, NVC and NUC were subsequently adjourned to January 13, 2009, and additionally adjourned to March 17, 2009.

#### Report of INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

THE BOARDS OF DIRECTORS AND SHAREHOLDERS
NUVEEN CALIFORNIA MUNICIPAL VALUE FUND, INC.
NUVEEN CALIFORNIA PERFORMANCE PLUS MUNICIPAL FUND, INC.
NUVEEN CALIFORNIA MUNICIPAL MARKET OPPORTUNITY FUND, INC.
NUVEEN CALIFORNIA INVESTMENT QUALITY MUNICIPAL FUND, INC.
NUVEEN CALIFORNIA SELECT QUALITY MUNICIPAL FUND, INC.
NUVEEN CALIFORNIA QUALITY INCOME MUNICIPAL FUND, INC.

We have audited the accompanying statements of assets and liabilities, including the portfolios of investments, of Nuveen California Municipal Value Fund, Inc., Nuveen California Performance Plus Municipal Fund, Inc., Nuveen California Municipal Market Opportunity Fund, Inc., Nuveen California Investment Quality Municipal Fund, Inc., Nuveen California Select Quality Municipal Fund, Inc. and Nuveen California Quality Income Municipal Fund, Inc. (the "Funds"), as of February 28, 2009, and the related statements of operations, changes in net assets and the financial highlights for each of periods indicated therein. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Funds' internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial

statements and financial highlights, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of February 28, 2009, by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial positions of Nuveen California Municipal Value Fund, Inc., Nuveen California Performance Plus Municipal Fund, Inc., Nuveen California Municipal Market Opportunity Fund, Inc., Nuveen California Investment Quality Municipal Fund, Inc., Nuveen California Select Quality Municipal Fund, Inc. and Nuveen California Quality Income Municipal Fund, Inc. at February 28, 2009, the results of their operations, the changes in their net assets and the financial highlights for each of the periods indicated therein in conformity with US generally accepted accounting principles.

\$ 268,240	Total Investments (cost \$230,481,378) - 99.0%	
 ==	Floating Rate Obligations - (0.6)%	
	Other Assets Less Liabilities - 1.6%	

Net Assets Applicable to Common Shares - 100%

\_\_\_\_\_\_

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common Shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of February 28, 2009. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- This debt has been restructured to accommodate capital maintenance at the facility. Major highlights of the debt restructuring include the following: (1) the principal balance outstanding on and after December 1, 2007, shall accrue interest at a rate of 6.500% per annum commencing December 1, 2007; (2) the interest shall accrue but not be payable on June 1, 2008 or December 1, 2008, but shall instead be deferred and paid by the end of calendar year 2011; (3) no principal component shall be pre-payable from the Minimum Sinking Fund Account during calendar years 2008 and 2009 but such pre-payments shall recommence beginning in calendar year 2010 according to a revised schedule. Management believes that the restructuring is in the best interest of Fund shareholders and that it is more-likely-than-not that the borrower will fulfill its obligation. Consequently, the Fund continues to accrue interest on this obligation.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

		Other Assets Less Liabilities - 2.0%	
		Preferred Shares, at Liquidation Value - (55.7)% (6)	
		Net Assets Applicable to Common Shares - 100%	

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds

insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of February 28, 2009. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5)This debt has been restructured to accommodate capital maintenance at the facility. Major highlights of the debt restructuring include the following: (1) the principal balance outstanding on and after December 1, 2007, shall accrue interest at a rate of 6.500% per annum commencing December 1, 2007; (2) the interest shall accrue but not be payable on June 1, 2008 or December 1, 2008, but shall instead be deferred and paid by the end of calendar year 2011; (3) no principal component shall be pre-payable from the Minimum Sinking Fund Account during calendar years 2008 and 2009 but such pre-payments shall recommence beginning in calendar year 2010 according to a revised schedule. Management believes that the restructuring is in the best interest of Fund shareholders and that it is more-likely-than-not that the borrower will fulfill its obligation. Consequently, the Fund continues to accrue interest on this obligation.
- Preferred Shares, at Liquidation Value as a percentage of Total (6) Investments is 35.7%.
- N/R Not rated.

- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

	Floating Rate Obligations - (1.5)%		
	Other Assets Less Liabilities - 3.0%		
	Preferred Shares, at Liquidation Value - (55.8)% (6)		
	Net Assets Applicable to Common Shares - 100%		

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of February 28, 2009. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of

12/11 at 1

the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- This debt has been restructured to accommodate capital maintenance at the facility. Major highlights of the debt restructuring include the following: (1) the principal balance outstanding on and after December 1, 2007, shall accrue interest at a rate of 6.500% per annum commencing December 1, 2007; (2) the interest shall accrue but not be payable on June 1, 2008 or December 1, 2008, but shall instead be deferred and paid by the end of calendar year 2011; (3) no principal component shall be pre-payable from the Minimum Sinking Fund Account during calendar years 2008 and 2009 but such pre-payments shall recommence beginning in calendar year 2010 according to a revised schedule. Management believes that the restructuring is in the best interest of Fund shareholders and that it is more-likely-than-not that the borrower will fulfill its obligation. Consequently, the Fund continues to accrue interest on this obligation.
- (6) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 36.2%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

Net Assets Applicable to Common Shares - 100%

\_\_\_\_\_

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.

The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of February 28, 2009. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 34.7%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
  - The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of February 28, 2009. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Investment has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.

- (6) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 35.4%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

Series 2008B, 0.440%, 7//01/25 (5)

==========

\$ 9,000 California Health Facilities Financing Authority, Revenue Bonds,

Catholic Healthcare West, Variable Rate Demand Obligations,

Total Investments (cost \$474,884,360) - 158.0%
Floating Rate Obligations - (3.4)%
Other Assets Less Liabilities - 1.8%
Preferred Shares, at Liquidation Value - (56.4)% (6)
Net Assets Applicable to Common Shares - 100%

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions (not covered by the report of independent registered public accounting firm): Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
- (3) Ratings (not covered by the report of independent registered public accounting firm): Using the higher of Standard & Poor's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") rating. Ratings below BBB by Standard & Poor's or Baa by Moody's are considered to be below investment grade.
  - The Portfolio of Investments may reflect the ratings on certain bonds insured by ACA, AGC, AMBAC, FGIC, FSA, MBIA, RAAI and SYNCORA as of February 28, 2009. Please see the Portfolio Manager's Commentary for an expanded discussion of the affect on the Fund of changes to the ratings of certain bonds in the portfolio resulting from changes to the ratings of the underlying insurers both during the period and after period end.
- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Investment has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index
- (6) Preferred Shares, at Liquidation Value as a percentage of Total Investments is 35.7%.
- N/R Not rated.
- (ETM) Escrowed to maturity.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction pursuant to the provisions of SFAS No. 140.

See accompanying notes to financial statements.

#### | Notes to FINANCIAL STATEMENTS

#### 1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The funds covered in this report and their corresponding Common share New York Stock Exchange symbols are Nuveen California Municipal Value Fund, Inc. (NCA), Nuveen California Performance Plus Municipal Fund, Inc. (NCP), Nuveen California Municipal Market Opportunity Fund, Inc. (NCO), Nuveen California Investment Quality Municipal Fund, Inc. (NQC), Nuveen California Select Quality Municipal Fund, Inc. (NVC) and Nuveen California Quality Income Municipal Fund, Inc. (NUC) (collectively, the "Funds"). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and California state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within the state of California or certain U.S. territories.

During the current fiscal period, the Board of Directors of the Funds approved a change in the Funds' fiscal and tax years end from August 31 to February 28/29.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with US generally accepted accounting principles.

#### Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors. Prices of forward swap contracts are also provided by an independent pricing service approved by each Fund's Board of Directors. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service or, in the absence of a pricing service for a particular investment or derivative instrument, the Board of Directors of the Fund, or its designee, may establish fair value using a wide variety of market data including yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates value.

#### Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At February 28, 2009, there were no such outstanding purchase commitments in any of the Funds.

#### Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

68

#### Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and California state income taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from US generally accepted accounting principles.

#### Preferred Shares

California Value (NCA) is not authorized to issue Preferred shares. The Funds below have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in more than one Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. As of February 28, 2009, the number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

CALIFORNIA PERFORMANCE PLUS (NCP)	CALIFORNIA OPPORTUNITY (NCO)	CALIFORNIA INVESTMENT QUALITY (NQC)	CALIFORNIA SELECT QUALITY (NVC)	CALIFORNI QUALIT INCOM (NU
				,
		3,051		1,24
1,548			2,051	_
551	1,905	746	1,437	2,67
			3,078	_!
1,548	451			2,67
3,647	2,356	3,797	6,566	6,60
	PERFORMANCE PLUS (NCP)  1,548 551 1,548	PERFORMANCE CALIFORNIA PLUS OPPORTUNITY (NCP) (NCO)  1,548 551 1,905 1,548 451	PERFORMANCE CALIFORNIA INVESTMENT PLUS OPPORTUNITY QUALITY (NCP) (NCO) (NQC)  3,051  1,548 551 1,905 746 1,548 451	PERFORMANCE CALIFORNIA INVESTMENT SELECT PLUS OPPORTUNITY QUALITY QUALITY (NCP) (NCO) (NQC) (NVC)  3,051 1,548 2,051 551 1,905 746 1,437 3,078 1,548 451

Beginning in February 2008, more shares for sale were submitted in the regularly scheduled auctions for the Preferred shares issued by the Funds than there were offers to buy. This meant that these auctions "failed to clear," and that many Preferred shareholders who wanted to sell their shares in these auctions were unable to do so. Preferred shareholders unable to sell their shares received distributions at the "maximum rate" applicable to failed auctions as calculated in accordance with the pre-established terms of the Preferred shares.

These developments generally do not affect the management or investment policies of the Funds. However, one implication of these auction failures for Common shareholders is that the Funds' cost of leverage will likely be higher, at least temporarily, than it otherwise would have been had the auctions continued to be successful. As a result, the Funds' future Common share earnings may be lower than they otherwise would have been.

| Notes to FINANCIAL STATEMENTS (continued)

As of February 28, 2009, California Performance Plus (NCP), California Opportunity (NCO), California Investment Quality (NQC), California Select Quality (NVC) and California Quality Income (NUC) redeemed \$14,825,000, \$9,100,000, \$17,075,000, \$27,850,000 and \$19,975,000 of their outstanding Preferred shares, respectively, at liquidation value. There were no Preferred share redemptions in any of the other Funds.

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an "externally-deposited inverse floater"), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a "self-deposited inverse floater"). The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as "(IF) - Inverse floating rate investment." An investment in a self-deposited inverse floater is accounted for as a financing transaction in accordance with Statement of Financial Accounting Standards No. 140 (SFAS No. 140) "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities." In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as "(UB) - Underlying bond of an inverse floating rate trust," with the Fund accounting for the short-term floating rate certificates issued by the trust as "Floating rate obligations" on the Statement of Assets and Liabilities. In addition, the Fund reflects in "Investment Income" the entire earnings of the underlying bond and the related interest paid to the holders of the short-term floating rate certificates is recognized as a "Interest expense on floating rate obligations" on the Statement of Operations.

During the six months ended February 28, 2009, each Fund invested in externally deposited inverse floaters and/or self-deposited inverse floaters.

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a "recourse trust" or "credit recovery swap") (such agreements referred to herein as "Recourse Trusts") with a broker-dealer by which a Fund

agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund's potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund's inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as "Unrealized depreciation on Recourse Trusts" on the Statement of Assets and Liabilities.

70

At February 28, 2009, none of the Funds were invested in any externally-deposited Recourse Trusts.

	(NCA)	(NCP)	(NCO)	(N
Average floating rate obligations	\$ 1,778,276	\$ 4,129,994	\$ 1,961,646	\$ 12,290,1
Average annual interest rate and fees	2.47%	2.34%	2.33%	2.

#### Forward Swap Transactions

Each Fund is authorized to invest in forward interest rate swap transactions. Each Fund's use of forward interest rate swap transactions is intended to help the Fund manage its overall interest rate sensitivity, either shorter or longer, generally to more closely align the Fund's interest rate sensitivity with that of the broader municipal market. Forward interest rate swap transactions involve each Fund's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Fund a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of the Fund's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for bonds having a maturity of the

swap's termination date increases or decreases. The Funds may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Each Fund intends, but is not obligated, to terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. None of the Funds invested in forward interest rate swap transactions during the six months ended February 28, 2009.

#### Market and Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (credit risk). Similar to credit risk, each Fund may be exposed to counterparty risk, or the risk that an institution or other entity with which the Fund has unsettled or open transactions will default. The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to credit risk, consist principally of cash due from counterparties on forward, option and swap transactions. The extent of each Fund's exposure to credit and counterparty risks in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities.

Each Fund helps manage credit risk by entering into agreements only with counterparties Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments Inc. ("Nuveen") believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the predetermined threshold amount.

#### Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. Such securities are included in the Portfolios of Investments with a 0.000% coupon rate in their description. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

71

#### | Notes to FINANCIAL STATEMENTS (continued)

### Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian

fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

#### Indemnifications

Under the Funds' organizational documents, their Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

#### Use of Estimates

The preparation of financial statements in conformity with US generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

#### 2. FAIR VALUE MEASUREMENTS

During the current fiscal period, the Funds adopted the provisions of Statement of Financial Accounting Standards No. 157 (SFAS No. 157) "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosure about fair value measurements. In determining the value of each Fund's investments various inputs are used. These inputs are summarized in the three broad levels listed below:

- Level 1 Quoted prices in active markets for identical securities.
- Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

The following is a summary of each Fund's fair value measurements as of February 28, 2009:

CALIFORNIA VALUE (NCA)	 LEVEL 1	LEVEL 2	
Investments	\$ 	\$ 221,709,908	\$

#### 4. INVESTMENT TRANSACTIONS

Purchases and sales (including maturities but excluding short-term investments and derivative transactions) during the six months ended February 28, 2009, were as follows:

	 CALIFORNIA VALUE (NCA)	 CALIFORNIA PERFORMANCE PLUS (NCP)	 CALIFORNIA OPPORTUNITY (NCO)	CALIFORNIA INVESTMENT QUALITY (NQC)	
Purchases Sales and maturities	\$ 27,894,481 40,934,417	\$ 14,102,778 24,639,034	\$ 7,206,022 15,558,359	\$ 17,126,666 26,988,903	\$

#### 5. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investment transactions and the treatment of investments in inverse floating rate transactions subject to SFAS No. 140, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts on the Statement of Assets and Liabilities presented in the annual report, based on their federal tax basis treatment; temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At February 28, 2009, the cost of investments was as follows:

	CALIFORNIA VALUE (NCA)	CALIFORNIA PERFORMANCE PLUS (NCP)	CALIFORNIA OPPORTUNITY (NCO)	CALIFORNIA INVESTMENT QUALITY (NQC)
Cost of investments	\$ 229,300,067	\$ 267,031,940	\$ 168,698,711	\$279,450,567

Gross unrealized appreciation and gross unrealized depreciation of investments at February 28, 2009, were as follows:

	 CALIFORNIA VALUE (NCA)	 CALIFORNIA PERFORMANCE PLUS (NCP)	 CALIFORNIA OPPORTUNITY (NCO)	CALIFORNIA INVESTMENT QUALITY (NQC)
Gross unrealized: Appreciation Depreciation	\$ 11,013,769 (19,853,940)	\$ 6,180,884 (21,667,496)	\$ 6,533,339 (14,117,846)	\$ 8,883,614 (24,131,411)
Net unrealized appreciation (depreciation) of investments	\$ (8,840,171)	\$ (15, 486, 612)	\$ (7,584,507)	\$(15,247,797)

75

### | Notes to FINANCIAL STATEMENTS (continued)

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains at February 28, 2009, the Funds' tax year end, were as follows:

	CALIFORNIA VALUE (NCA)	CALIFORNIA PERFORMANCE PLUS (NCP)	CALIFORNIA OPPORTUNITY (NCO)	CALIFO INVEST QUA
Undistributed net tax-exempt income * \$ Undistributed net ordinary income **	1,462,541 \$	1,568,569 \$ 	1,055,091 \$ 	1,688 83
Undistributed net long-term capital gains		81,057		515

- \* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on February 3, 2009, paid on March 2, 2009.
- \*\* Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the six months ended February 28, 2009, and during the tax years ended August 31, 2008 and August 31, 2007, was designated for purposes of the dividends paid deduction as follows:

CALIFO

<sup>\*\*</sup> Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

<sup>\*\*\*</sup> The Funds hereby designate these amounts paid during the six months ended February 28, 2009, as Exempt Interest Dividends.

<sup>\*\*\*\*</sup> The Funds designated as a long-term capital gain dividend, pursuant to the Internal Revenue Code Section 852(b)(3), the amount necessary to reduce

earnings and profits of the Funds related to net capital gain to zero for the six months ended February 28, 2009.

76

At February 28, 2009, the Funds' tax year end, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

	CALIFORNIA VALUE (NCA)	CALIFORNIA ERFORMANCE PLUS (NCP)	CALIFORNIA OPPORTUNITY (NCO)	CALIFC INVEST QUA
Expiration: February 28, 2017	\$ 4,394,352	\$ 399,209	\$ 442,824	\$ 518

The Funds have elected to defer net realized losses from investments incurred from November 1, 2008 through February 28, 2009, the Funds' tax year end, ("post-October losses") in accordance with federal income tax regulations. Post-October losses are treated as having arisen on the first day of the following fiscal year:

	CALIFORNIA VALUE (NCA)	CALIFORNIA PERFORMANCE PLUS (NCP)	CALIFORNIA OPPORTUNITY (NCO)	CALIFO INVEST QUA
Post-October capital losses	\$ 1,269,016	\$ 2,345,602	\$ 838,400	\$ 3,307

#### 6. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into two components — a complex—level component, based on the aggregate amount of all fund assets managed by the Adviser, and a specific fund—level component, based only on the amount of assets within each individual Fund, and for California Value (NCA) a gross interest income component. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex—wide assets managed by the Adviser.

California Value (NCA) pays an annual fund-level fee, payable monthly, of .15% of the average daily net assets of the Fund, as well as 4.125% of the gross interest income (excluding interest on bonds underlying a "self-deposited inverse floater" trust that is attributed to the Fund over and above the net interest earned on the inverse floater itself) of the Fund.

The annual fund-level fee, payable monthly, for each Fund (excluding California Value (NCA)) is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

AVERAGE DAILY NET ASSETS (INCLUDING NET

ASSETS ATTRIBUTABLE TO PREFERRED SHARES)

For the first \$125 million

For the next \$125 million

For the next \$250 million

For the next \$500 million

For the next \$500 million

For the next \$1000

For the next \$10000

For the next \$10000

For the next \$10000

For the next \$10000

For

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the following table. As of February 28, 2009, the complex level fee rate was .2000%.

77

#### | Notes to FINANCIAL STATEMENTS (continued)

The complex-level fee schedule is as follows:

COMPLEX-LEVEL ASSET	BREAKPOINT	LEVEL	(1)	EFFECTIVE	RATE A	T BREAKPOINT	LEVEL
\$55 billion							.2000%
\$56 billion							.1996
\$57 billion							.1989
\$60 billion							.1961
\$63 billion							.1931
\$66 billion							.1900
\$71 billion							.1851
\$76 billion							.1806
\$80 billion							.1773
\$91 billion							.1691
\$125 billion							.1599
\$200 billion							.1505
\$250 billion							.1469
\$300 billion							.1445

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate daily managed assets of all Nuveen funds, with such daily managed assets defined separately for each fund in its management agreement, but which generally includes assets attributable to preferred stock issued by or borrowings (including the issuance of commercial paper or notes) by such fund, but excludes assets attributable to investments in other Nuveen funds.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors who are affiliated with the Adviser or to its Officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors has adopted a deferred compensation plan for independent Directors that enables Directors to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

#### 7. NEW ACCOUNTING PRONOUNCEMENTS

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 161 (SFAS No. 161) In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities." This standard is intended to enhance financial statement disclosures for derivative instruments and hedging activities and enable investors to understand: a) how and why a fund uses derivative instruments, b) how derivative instruments and related hedge items are accounted for, and c) how derivative instruments and related hedge items affect a fund's financial position, results of operations and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. As of February 28, 2009, management does not believe the adoption of SFAS No. 161 will impact the financial statement amounts; however, additional footnote disclosures may be required about the use of derivative instruments and hedging items.

78

#### 8. SUBSEQUENT EVENTS

Distributions to Common Shareholders

The Funds declared Common share dividend distributions from their tax-exempt net investment income which were paid on April 1, 2009, to shareholders of record on March 15, 2009, as follows:

	CALIFORNIA VALUE (NCA)	CALIFORNIA PERFORMANCE PLUS (NCP)	OPPORTUNITY	QUA
Dividend per share	\$ .0380	\$ .0600	\$ .0615	\$.

N/A Fund is not authorized to issue Preferred shares.

- Annualized.
- Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value,

if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

- \*\*\* After custodian fee credit, where applicable.
- + The amounts shown are based on Common share equivalents.
- ++ Ratios do not reflect the effect of dividend payments to Preferred shareholders; income ratios reflect income earned on assets attributable to Preferred shares.
- (a) Interest expense arises from the application of SFAS No. 140 to certain inverse floating rate transactions entered into by the Fund as more fully described in Footnote 1 - Inverse Floating Rate Securities.
- (b) For the six months ended February 28, 2009.

See accompanying notes to financial statements.

- \* Annualized.
- \*\* Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Common Share Net Asset Value is the combination of changes in Common share net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

- \*\*\* After custodian fee credit, where applicable.
- \*\*\*\* Rounds to less than \$.01 per share.
- + The amounts shown are based on Common share equivalents.

### Board Members & Officers

The management of the Funds, including general supervision of the duties performed for the Funds by the Adviser, is the responsibility of the Board Members of the Funds. The number of board members of the Fund is currently set at nine. None of the board members who are not "interested" persons of the Funds (referred to herein as "independent board members") has ever been a director or

employee of, or consultant to, Nuveen or its affiliates. The names and business addresses of the board members and officers of the Funds, their principal occupations and other affiliations during the past five years, the number of portfolios each oversees and other directorships they hold are set forth below.

- (1) Board Members serve a one year term to serve until the next annual meeting or until their successors shall have been duly elected and qualified. The first year elected or appointed represents the year in which the board member was first elected or appointed to any fund in the Nuveen Complex.
- (2) Mr. Amboian is an interested trustee because of his position with Nuveen Investments, Inc. and certain of its subsidiaries, which are affiliates of the Nuveen Funds.
- (3) Nuveen Advisory Corp. and Nuveen Institutional Advisory Corp. were reorganized into Nuveen Asset Management, effective January 1, 2005.
- (4) Officers serve one year terms through July of each year. The year first elected or appointed represents the year in which the Officer was first elected or appointed to any fund in the Nuveen Complex.

Reinvest Automatically EASILY and CONVENIENTLY

NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

#### EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

#### HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day

immediately prior to the purchase date. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

91

#### FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

CALL TODAY TO START REINVESTING DIVIDENDS AND/OR DISTRIBUTIONS

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

NOTES

93

#### Glossary of TERMS USED in this REPORT

- O AUCTION RATE BOND: An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have "failed", with current holders receiving a formula-based interest rate until the next scheduled auction.
- O AVERAGE ANNUAL TOTAL RETURN: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year

to equal the investment's actual cumulative performance (including change in common share NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

- AVERAGE EFFECTIVE MATURITY: The average of the number of years to maturity of the bonds in a Fund's portfolio, computed by weighting each bond's time to maturity (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions unless an escrow account has been established to redeem the bond before maturity. The market value weighting for an investment in an inverse floating rate security is the value of the portfolio's residual interest in the inverse floating rate trust, and does not include the value of the floating rate securities issued by the trust.
- INVERSE FLOATERS: Inverse floating rate securities are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond's par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an "inverse floater") to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond's downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond's value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.
- O LEVERAGE-ADJUSTED DURATION: Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.
- o MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD): An investment's current annualized dividend divided by its current market price.
- o NET ASSET VALUE (NAV): A Fund's NAV per common share is calculated by subtracting the liabilities of the Fund (including any Preferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of common shares outstanding. Fund NAVs are calculated at the end of each business day.
- O TAXABLE-EQUIVALENT YIELD: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
- o ZERO COUPON BOND: A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Tax-exempt income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.

#### Other Useful INFORMATION

#### OUARTERLY PORTFOLIO OF INVESTMENTS AND PROXY VOTING INFORMATION

You may obtain (i) each Fund's quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the twelve-month period ended June 30, 2008, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission ("SEC"). The SEC may charge a copying fee for this information. Visit the SEC on-line at http://www.sec.gov or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at (202) 942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public References Section at 100 F Street NE, Washington, D.C. 20549.

#### CEO CERTIFICATION DISCLOSURE

Each Fund's Chief Executive Officer has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the Securities and Exchange Commission the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

#### COMMON AND PREFERRED SHARE INFORMATION

Each Fund intends to repurchase and/or redeem shares of its own common or preferred stock in the future at such times and in such amounts as is deemed advisable. During the period covered by this report, the Funds repurchased and/or redeemed shares of their common and/or preferred stock as shown in the accompanying table:

	COMMON SHARES	PREFERRED SHARED
FUND	REPURCHASED	REDEEMED
NCP	14,500	350
NCO	6,600	364
NVC	20,200	205
NUC	17,900	

Any future repurchases and/or redemptions will be reported to shareholders in the next annual or semi-annual report.

#### SERVING INVESTORS FOR GENERATIONS

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions. For the past century, Nuveen Investments has adhered to the belief that the best approach to investing is to apply conservative risk-management principles to help minimize volatility. Building on this tradition, we today offer a range of high quality equity and fixed-income solutions that are integral to a well-diversified core portfolio. Our clients have come to appreciate this diversity, as well as our continued adherence to proven, long-term investing principles.

We offer many different investing solutions for our clients' different needs.

Nuveen Investments is a global investment management firm that seeks to help secure the long-term goals of institutions and high net worth investors as well as the consultants and financial advisors who serve them. Nuveen Investments markets its growing range of specialized investment solutions under the high-quality brands of HydePark, NWQ, Nuveen, Santa Barbara, Symphony, Tradewinds and Winslow Capital. In total, the Company managed \$119 billion of assets on December 31, 2008.

Find out how we can help you reach your financial goals.

To learn more about the products and services Nuveen Investments offers, talk to your financial advisor, or call us at (800) 257-8787. Please read the information provided carefully before you invest. Be sure to obtain a prospectus, where applicable. Investors should consider the investment objective and policies, risk considerations, charges and expenses of the Fund carefully before investing. The prospectus contains this and other information relevant to an investment in the Fund. For a prospectus, please contact your securities

representative or Nuveen Investments, 333 W. Wacker Dr., Chicago, IL 60606. Please read the prospectus carefully before you invest or send money.

ITEM 2. CODE OF ETHICS.

As of the end of the period covered by this report, the registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. There were no amendments to or waivers from the Code during the period covered by this report. The registrant has posted the code of ethics on its website at www.nuveen.com/CEF/Info/Shareholder. (To view the code, click on Fund Governance and then click on Code of Conduct.)

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The registrant's Board of Directors or Trustees ("Board") determined that the registrant has at least one "audit committee financial expert" (as defined in Item 3 of Form N-CSR) serving on its Audit Committee. The registrant's audit committee financial expert is Jack B. Evans, who is "independent" for purposes of Item 3 of Form N-CSR.

Mr. Evans was formerly President and Chief Operating Officer of SCI Financial Group, Inc., a full service registered broker-dealer and registered investment adviser ("SCI"). As part of his role as President and Chief Operating Officer, Mr. Evans actively supervised the Chief Financial Officer (the "CFO") and actively supervised the CFO's preparation of financial statements and other filings with various regulatory authorities. In such capacity, Mr. Evans was actively involved in the preparation of SCI's financial statements and the resolution of issues raised in connection therewith. Mr. Evans has also served on the audit committee of various reporting companies. At such companies, Mr. Evans was involved in the oversight of audits, audit plans, and the preparation of financial statements. Mr. Evans also formerly chaired the audit committee of the Federal Reserve Bank of Chicago.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Nuveen California Municipal Value Fund, Inc.

The following tables show the amount of fees that Ernst & Young LLP, the Fund's auditor, billed to the Fund during the Fund's last two full fiscal years. For engagements with Ernst & Young LLP the Audit Committee approved in advance all audit services and non-audit services that Ernst & Young LLP provided to the Fund, except for those non-audit services that were subject to the pre-approval exception under Rule 2-01 of Regulation S-X (the "pre-approval exception"). The pre-approval exception for services provided directly to the Fund waives the pre-approval requirement for services other than audit, review or attest services if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid by the Fund to its accountant during the fiscal year in which the services are provided; (B) the Fund did not recognize the services as non-audit services at the time of the

engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the audit is completed.

The Audit Committee has delegated certain pre-approval responsibilities to its Chairman (or, in his absence, any other member of the Audit Committee).

SERVICES THAT THE FUND'S AUDITOR BILLED TO THE FUND

FISCAL YEAR ENDED	AUDIT FEES BILLED TO FUND (1)	AUDIT-RELATED FEES BILLED TO FUND (2)	T BILLE
February 28, 2009(4)	\$ 14,994	\$ 0	
Percentage approved pursuant to pre-approval exception	0%	0%	
August 31, 2008	\$ 14,840	\$ 0	
Percentage approved pursuant to pre-approval exception	0%	0%	

- (1) "Audit Fees" are the aggregate fees billed for professional services for the audit of the Fund's annual financial statements and services provided in connection with statutory and regulatory filings or engagements.
- (2) "Audit Related Fees" are the aggregate fees billed for assurance and related services reasonably related to the performance of the audit or review of financial statements and are not reported under "Audit Fees."
- (3) "Tax Fees" are the aggregate fees billed for professional services for tax advice, tax compliance, and tax planning.
- (4) Fund changed fiscal year from August to February starting in 2009.

# SERVICES THAT THE FUND'S AUDITOR BILLED TO THE ADVISER AND AFFILIATED FUND SERVICE PROVIDERS

The following tables show the amount of fees billed by Ernst & Young LLP to Nuveen Asset Management ("NAM" or the "Adviser"), and any entity controlling, controlled by or under common control with NAM that provides ongoing services to the Fund ("Affiliated Fund Service Provider"), for engagements directly related to the Fund's operations and financial reporting, during the Fund's last two full fiscal years.

The tables also show the percentage of fees subject to the pre-approval exception. The pre-approval exception for services provided to the Adviser and any Affiliated Fund Service Provider (other than audit, review or attest services) waives the pre-approval requirement if: (A) the aggregate amount of all such services provided constitutes no more than 5% of the total amount of revenues paid to Ernst & Young LLP by the Fund, the Adviser and Affiliated Fund Service Providers during the fiscal year in which the services are provided that

would have to be pre-approved by the Audit Committee; (B) the Fund did not recognize the services as non-audit services at the time of the engagement; and (C) the services are promptly brought to the Audit Committee's attention, and the Committee (or its delegate) approves the services before the Fund's audit is completed.

FISCAL YEAR ENDED		ADVISER AND AFFILIATED FUND SERVICE PROVIDERS	
February 28, 2009(1)	\$ 0	\$ 0	
Percentage approved pursuant to pre-approval exception	0%	0%	
August 31, 2008	\$ 0	\$ 0	
Percentage approved pursuant to pre-approval exception	0%	0%	

(1) Fund changed fiscal year from August to February starting in 2009.

### NON-AUDIT SERVICES

The following table shows the amount of fees that Ernst & Young LLP billed during the Fund's last two full fiscal years for non-audit services. The Audit Committee is required to pre-approve non-audit services that Ernst & Young LLP provides to the Adviser and any Affiliated Fund Services Provider, if the engagement related directly to the Fund's operations and financial reporting (except for those subject to the pre-approval exception described above). The Audit Committee requested and received information from Ernst & Young LLP about any non-audit services that Ernst & Young LLP rendered during the Fund's last fiscal year to the Adviser and any Affiliated Fund Service Provider. The Committee considered this information in evaluating Ernst & Young LLP's independence.

FISCAL YEAR ENDED		TOTAL NON-AUDIT FEES BILLED TO ADVISER AND	
		AFFILIATED FUND SERVICE	TOTAL
		PROVIDERS (ENGAGEMENTS	BILLED
		RELATED DIRECTLY TO THE	AFFILIA
	TOTAL NON-AUDIT FEES	OPERATIONS AND FINANCIAL	PROVI
	BILLED TO FUND	REPORTING OF THE FUND)	E
February 28, 2009(1)	\$ 0	\$ 0	
August 31, 2008	\$ 0	\$ 0	

"Non-Audit Fees billed to Adviser" for both fiscal year ends represent "Tax Fees" billed to Adviser in their respective amounts from the previous table.

(1) Fund changed fiscal year from August to February starting in 2009.

Audit Committee Pre-Approval Policies and Procedures. Generally, the Audit Committee must approve (i) all non-audit services to be performed for the Fund by the Fund's independent accountants and (ii) all audit and non-audit services to be performed by the Fund's independent accountants for the Affiliated Fund Service Providers with respect to operations and financial reporting of the Fund. Regarding tax and research projects conducted by the independent accountants for the Fund and Affiliated Fund Service Providers (with respect to operations and financial reports of the Fund) such engagements will be (i) pre-approved by the Audit Committee if they are expected to be for amounts greater than \$10,000; (ii) reported to the Audit Committee chairman for his verbal approval prior to engagement if they are expected to be for amounts under \$10,000 but greater than \$5,000; and (iii) reported to the Audit Committee at the next Audit Committee meeting if they are expected to be for an amount under \$5,000.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The registrant's Board has a separately designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78c(a)(58)(A)). The members of the audit committee are Robert P. Bremner, Jack B. Evans, Terence J. Toth, William J. Schneider and David J. Kundert.

ITEM 6. SCHEDULE OF INVESTMENTS.

See Portfolio of Investments in Item 1.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The registrant invests its assets primarily in municipal bonds and cash management securities. On rare occasions the registrant may acquire, directly or through a special purpose vehicle, equity securities of a municipal bond issuer whose bonds the registrant already owns when such bonds have deteriorated or are expected shortly to deteriorate significantly in credit quality. The purpose of acquiring equity securities generally will be to acquire control of the municipal bond issuer and to seek to prevent the credit deterioration or facilitate the liquidation or other workout of the distressed issuer's credit problem. In the course of exercising control of a distressed municipal issuer, NAM may pursue the registrant's interests in a variety of ways, which may entail negotiating and executing consents, agreements and other arrangements, and otherwise influencing the management of the issuer. NAM does not consider such activities proxy voting for purposes of Rule 206(4)-6 under the 1940 Act, but nevertheless provides reports to the registrant's Board on its control activities on a quarterly basis.

In the rare event that a municipal issuer were to issue a proxy or that the registrant were to receive a proxy issued by a cash management security, NAM would either engage an independent third party to determine how the proxy should be voted or vote the proxy with the consent, or based on the instructions, of the registrant's Board or its representative. A member of NAM's legal department would oversee the administration of the voting, and ensure that records were maintained in accordance with Rule 206(4)-6, reports were filed with the SEC on Form N-PX, and the results provided to the registrant's Board and made available to shareholders as required by applicable rules.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

THE PORTFOLIO MANAGER

The following individual has primary responsibility for the day-to-day implementation of the registrant's investment strategies:

NAME FUND

Scott R. Romans Nuveen California Municipal Value Fund, Inc.

Other Accounts Managed. In addition to managing the registrant, the portfolio manager is also primarily responsible for the day-to-day portfolio management of the following accounts:

PORTFOLIO MANAGER	TYPE OF ACCOUNT MANAGED	ACCOUNTS	NUMBER OF ASSETS*
Scott R. Romans	Registered Investment Company Other Pooled Investment Vehicles Other Accounts	28 0 3	\$5.128 billion \$0 \$.381 million

\* Assets are as of February 28, 2009. None of the assets in these accounts are subject to an advisory fee based on performance.

Compensation. Each portfolio manager's compensation consists of three basic elements--base salary, cash bonus and long-term incentive compensation. The compensation strategy is to annually compare overall compensation to the market in order to create a compensation structure that is competitive and consistent with similar financial services companies. As discussed below, several factors are considered in determining each portfolio manager's total compensation. In any year these factors may include, among others, the effectiveness of the investment strategies recommended by the portfolio manager's investment team, the investment performance of the accounts managed by the portfolio manager, and the overall performance of Nuveen Investments, Inc. (the parent company of NAM). Although investment performance is a factor in determining the portfolio manager's compensation, it is not necessarily a decisive factor. The portfolio manager's performance is evaluated in part by comparing the manager's performance against a specified investment benchmark. This fund-specific benchmark is a customized subset (limited to bonds in each Fund's specific state and with certain maturity parameters) of the S&P/Investortools Municipal Bond index, an index comprised of bonds held by managed municipal bond fund customers of Standard & Poor's Securities Pricing, Inc. that are priced daily and whose fund holdings aggregate at least \$2 million. As of February 28, 2009, the S&P/Investortools Municipal Bond index was comprised of 51,571 securities with an aggregate current market value of \$1,024 billion.

Base salary. Each portfolio manager is paid a base salary that is set at a level determined by NAM in accordance with its overall compensation strategy discussed above. NAM is not under any current contractual obligation to increase a portfolio manager's base salary.

Cash bonus. Each portfolio manager is also eligible to receive an annual cash bonus. The level of this bonus is based upon evaluations and determinations made by each portfolio manager's supervisors, along with reviews submitted by his peers. These reviews and evaluations often take into account a number of factors, including the effectiveness of the investment strategies recommended to the NAM's investment team, the performance of the accounts for which he serves as portfolio manager relative to any benchmarks established for those accounts, his effectiveness in communicating investment performance to stockholders and their representatives, and his contribution to the NAM's investment process and to the execution of investment strategies. The cash bonus component is also impacted by the overall performance of Nuveen Investments, Inc. in achieving its

business objectives.

Long-term incentive compensation. In connection with the acquisition of Nuveen Investments, Inc., by a group of investors led by Madison Dearborn Partners in November 2007, certain employees, including portfolio managers, received profit interests in Nuveen's parent. These profit interests entitle the holders to participate in the appreciation in the value of Nuveen beyond the issue date and vest over five to seven years, or earlier in the case of a liquidity event.

Material Conflicts of Interest. Each portfolio manager's simultaneous management of the registrant and the other accounts noted above may present actual or apparent conflicts of interest with respect to the allocation and aggregation of securities orders placed on behalf of the registrant and the other account. NAM, however, believes that such potential conflicts are mitigated by the fact that the NAM has adopted several policies that address potential conflicts of interest, including best execution and trade allocation policies that are designed to ensure (1) that portfolio management is seeking the best price for portfolio securities under the circumstances, (2) fair and equitable allocation of investment opportunities among accounts over time and (3) compliance with applicable regulatory requirements. All accounts are to be treated in a non-preferential manner, such that allocations are not based upon account performance, fee structure or preference of the portfolio manager. In addition, NAM has adopted a Code of Conduct that sets forth policies regarding conflicts of interest.

Beneficial Ownership of Securities. As of February 28, 2009, the portfolio manager beneficially owned the following dollar range of equity securities issued by the registrant and other Nuveen Funds managed by NAM's municipal investment team.

NAME OF PORTFOLIO
MANAGER FUND

Scott R. Romans Nuveen California Municipal Value Fund, Inc.

### PORTFOLIO MANAGER BIO:

Scott R. Romans, PhD, joined Nuveen Investments in 2000 as a senior analyst in the education sector. In 2003, he was assigned management responsibility for several closed— and open—ended municipal bond funds most of which are state funds covering California and other western states. He has been Vice President of NAM since 2004, Portfolio Manager since 2003, and was, formerly, Assistant Vice President (2003—2004) and Senior Analyst (2000—2003). Currently, he manages investments for 29 Nuveen—sponsored investment companies. He holds an undergraduate degree from the University of Pennsylvania and an MA and PhD from the University of Chicago.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board implemented after the registrant last provided disclosure in response to this item.

#### ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

#### ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

- (a) (1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable because the code is posted on registrant's website at www.nuveen.com/CEF/Info/Shareholder and there were no amendments during the period covered by this report. (To view the code, click on Fund Governance and then Code of Conduct.)
- (a) (2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: Ex-99.CERT Attached hereto.
- (a) (3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons. Not applicable.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by

reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference. Ex-99.906 CERT attached hereto.

#### SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Date: May 8, 2009
