QUMU CORPORATION AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

(1)Basis of Presentation and Nature of Business

The consolidated financial statements include the accounts of Qumu Corporation, its subsidiaries, collectively hereinafter referred to as “Qumu” or the “Company.” All references to Qumu, Inc. shall mean the Company's wholly-owned subsidiary acquired in October 2011. All intercompany accounts and transactions have been eliminated in consolidation.

The Company previously conducted its operations through two businesses consisting of 1) its enterprise video content management software business and 2) its disc publishing business. As further described in Note 3, on June 27, 2014, the Company's shareholders approved the sale of the disc publishing assets and on July 1, 2014, the sale was completed. As a result, effective June 27, 2014, the disc publishing business was classified as held for sale and qualified for presentation as discontinued operations effective with the reporting of the Company's financial results for the second quarter of 2014. Accordingly, effective June 27, 2014, the Company has one remaining reportable segment, the enterprise video content management software business. The operational results of the disc publishing business are presented in the “Net income (loss) from discontinued operations, net of tax” line item on the Condensed Consolidated Statements of Operations. All remaining amounts presented in the accompanying condensed consolidated financial statements and notes reflect the financial results and financial position of the Company's continuing enterprise video content management software business, other than consolidated amounts reflecting operating results and balances for both the continuing and discontinued operations.

Qumu's enterprise video content management software business provides the tools businesses need to create, manage, secure, deliver and measure the success of their videos. Qumu helps organizations around the world realize the greatest possible value from video and other rich content they create and publish. The Company markets its products to customers in North America, Europe and Asia.

The accompanying condensed consolidated financial statements are unaudited and have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America for interim financial information, pursuant to the rules and regulations of the Securities and Exchange Commission. Pursuant to such rules and regulations, certain financial information and footnote disclosures normally included in a complete set of financial statements have been condensed or omitted. However, in the opinion of management, the financial statements include all adjustments, consisting of normal recurring accruals, necessary for a fair presentation of the financial position and results of operations and cash flows of the interim periods presented. Operating results for these interim periods are not necessarily indicative of results to be expected for the entire year, due to seasonal, operating and other factors. In accordance with ASC 205-20, the operating results for the three and six months ended June 30, 2015 and 2014 and the financial position as of June 30, 2015 and December 31, 2014 reflect the Company's disc publishing business as discontinued operations. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K as of and for the year ended December 31, 2014.

These condensed consolidated financial statements reflect an immaterial correction to the amounts reported for the three and six months ended June 30, 2014 which resulted in a decrease to income tax expense from continuing operations and an offsetting decrease to net income from discontinued operations, net of tax, in the amount of \$1.5 million, which was previously disclosed in the Company's Form 10-Q for the quarter ended September 30, 2014. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from estimates on items such as asset impairment charges, deferred tax asset valuation allowances and accruals for uncertain tax positions. These estimates and assumptions are based on management's best judgment. Management evaluates estimates and assumptions on an ongoing basis using its

technical knowledge, historical experience and other factors, including consideration of the impact of the current economic environment. Management believes its assumptions are reasonable and adjusts such estimates and assumptions when facts and circumstances change. Illiquid credit markets, volatile equity, foreign currency and energy markets, and declines in business and consumer spending have combined to increase the uncertainty inherent in such estimates and assumptions. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Any required changes in those estimates will be reflected in the financial statements in future periods.

Table of Contents

2) Acquisition of Kulu Valley, Ltd.

On October 3, 2014, the Company entered into Share Purchase Agreements to acquire 100% of the outstanding shares (the "Share Purchase Transaction") of Kulu Valley Ltd., a private limited company incorporated in England and Wales ("Kulu"). The acquisition was made to expand Qumu's addressable market through the offering of Kulu Valley's best-in-class video content creation capabilities and easy-to-deploy pure cloud solution, and provides Kulu's customers with access to industry leading video content management and delivery capability.

After inclusion of working capital and other adjustments required under the Share Purchase Agreements, the aggregate net purchase price totaled approximately \$14,591,000 consisting of a cash outlay of approximately \$11,556,000, net of cash acquired in the transaction of \$2,466,000, and approximately 275,000 shares of Qumu Corporation's common stock valued at the closing price per share of \$12.95 on the date of acquisition. For purposes of calculating the purchase price attributable to the 275,000 shares of Company common stock issuable in the Share Purchase Transaction, the parties agreed upon a value of \$13.75 per share. All of the shares of the Company's common stock issued in the Share Purchase Transaction were issued to shareholders of Kulu who are also employees of Kulu. Pursuant to the terms of a lock-up letter agreement, the shares issued in the Share Purchase Transaction will be restricted from transfer, subject to certain exceptions. The restrictions will lapse for all of the shares issued at 365 days following the closing of the Share Purchase Transaction. Following the acquisition, Kulu's liabilities consisted of trade payables, accrued expenses, deferred tax liabilities and deferred revenue related primarily to active software subscription agreements. Of the cash amounts payable in the acquisition, \$2,000,000 was subject to escrow for a fifteen-month period to secure certain warranty and indemnification obligations to the Company. The acquisition was funded through the use of cash held by the Company at the acquisition date and the Company's common stock. The acquisition was accounted for under the provisions of ASC 805, Business Combinations. The results of operations of Kulu are included in the Company's Consolidated Statements of Operations since October 3, 2014, the date of the acquisition. The impact of applying fair value purchase accounting adjustments resulted in a \$1.1 million reduction in the carrying value of deferred revenues. The acquisition of Kulu's assets and liabilities does not constitute a material business combination and, accordingly, pro forma results have not been included.

The following table summarizes the purchase accounting allocation of the total purchase price to Kulu's net tangible and intangible assets, with the residual allocated to goodwill (in thousands):

Aggregate purchase price, net of cash acquired	\$ 15,118	
Less: discount applied to Qumu Corporation stock for trade restrictions	(527)
Net transaction consideration	\$ 14,591	
Current assets	\$ 1,494	
Property and equipment	140	
Intangible assets	6,663	
Goodwill	8,795	
Current liabilities	(1,170)
Net deferred tax liabilities	(1,331)
Total net assets acquired	\$ 14,591	

The Company is not aware of further adjustments required in the purchase price allocation.

The aggregate purchase price was allocated to the fair values of the tangible and intangible assets acquired and liabilities assumed. The fair values assigned to intangible assets were determined through the use of forecasted cash inflows and outflows, primarily applying a relief-from royalty and a multi-period excess earnings method. These valuation methods were based on management's estimates as of the acquisition date of October 3, 2014. The excess of the purchase price over the net tangible and identifiable intangible assets acquired was recorded as goodwill, which is non-deductible for tax purposes. Transaction costs of approximately \$245,000 were expensed as incurred and were included in the Company's selling, general and administrative expenses for the period ending December 31, 2014. The guidance under ASC 805 provides that intangible assets with finite lives be amortized over their estimated remaining useful lives, while goodwill and other intangible assets with indefinite lives will not be amortized, but rather tested for impairment on at least an annual basis. Useful lives for intangible assets were determined based upon the remaining useful economic lives of the intangible assets that are expected to contribute directly or indirectly to

future cash flows.

8

Table of Contents

In the aggregate, the identifiable intangible assets were valued at \$6,663,000, of which \$4,233,000 was allocated to developed technology, \$2,315,000 was allocated to customer relationships, \$74,000 was allocated to trade name and \$41,000 was allocated to covenant not-to-compete agreements. The acquired intangible assets will be amortized based on estimated expected future cash flows for a period ranging from fifteen months to nine years. Amortization expense related to the acquired intangibles is reflected in cost of service revenues and operating expenses – amortization of purchased intangibles in the Condensed Consolidated Statements of Operations. See Note 7, "Intangible Assets and Goodwill" for a rollforward of the carrying value of intangible assets and goodwill.

As part of the opening balance sheet purchase accounting, the Company established a net deferred tax liability of \$1.3 million. This consisted of a deferred tax liability of approximately \$1.5 million for the estimated future impact of the difference in the U.S. book versus U.K. statutory and tax basis of the purchased intangible assets, deferred revenues and accrued compensation. Partially offsetting this was the impact of the establishment of deferred tax assets amounting to approximately \$0.2 million for the future benefit of utilization of acquired net operating losses and the impact of cumulative temporary U.S. book to tax differences.

(3) Divestiture of Disc Publishing Business

On April 24, 2014, the Company entered into an asset purchase agreement (the "asset purchase agreement") with Equus Holdings, Inc. and Redwood Acquisition, Inc. (now known as Rimage Corporation, "Buyer"). Under the terms of the asset purchase agreement, the Company agreed to sell to Buyer all of the assets primarily used or primarily held for use in connection with its disc publishing business. Buyer also agreed to assume on the closing date certain agreements and liabilities relating to the disc publishing business and the acquired assets.

At a special meeting of the Company's shareholders held on June 27, 2014, the Company's shareholders approved the sale of the disc publishing assets as contemplated by the asset purchase agreement. As a result, effective June 27, 2014, the disc publishing business was classified as held for sale and qualified for discontinued operations presentation in the Company's consolidated financial statements. In accordance with ASC 205-20, the results of the discontinued disc publishing business have been presented as discontinued operations effective with the reporting of financial results for the second quarter 2014. As such, financial results for the three and six months ended June 30, 2015 and 2014 have been reported on this basis.

On July 1, 2014, the Company's sale of the disc publishing business was completed. The Company also entered into a mutual transition services agreement with Buyer and entered into a lease agreement with Buyer for the lease from Buyer of a portion of the property located at 7725 Washington Avenue South, Minneapolis, MN 55439.

The adjusted purchase price paid to the Company was \$22.0 million, of which \$2.3 million was placed in an escrow account to support the Company's indemnification obligations under the asset purchase agreement for a fifteen-month escrow period. The \$2.3 million escrow is classified as restricted cash in current assets on the Condensed Consolidated Balance Sheets as of June 30, 2015. In the third quarter of 2014, the Company recorded a gain on sale of the disc publishing business of \$16.2 million, exclusive of the impact of transaction related expenses recorded through September 30, 2014. The gain on sale attributable to the U.S. is offset for federal income tax purposes by current or prior-year tax losses but is subject to applicable state income taxes.

The operational results of the disc publishing business are presented in the "Net income (loss) from discontinued operations, net of tax" line item on the Condensed Consolidated Statements of Operations. The assets and liabilities of the discontinued business are presented on the Condensed Consolidated Balance Sheets as assets and liabilities from discontinued operations.

Other than consolidated amounts reflecting operating results and balances for both the continuing and discontinued operations, all remaining amounts presented in the accompanying condensed consolidated financial statements and notes reflect the financial results and financial position of the Company's continuing enterprise video content management software business.

Revenue, operating income, income tax expense and net income (loss) from discontinued operations were as follows (in thousands):

Net income (loss) from discontinued operations, net of tax	\$(22)	\$562	\$(89)	\$2,806

9

Table of Contents

The major classes of assets and liabilities from discontinued operations were as follows (in thousands):

	June 30, 2015	December 31, 2014
Current assets from discontinued operations	\$945	\$1,026
Accrued compensation	\$—	\$31
Other current liabilities	50	417
Current liabilities from discontinued operations	\$50	\$448

(4) Stock-Based Compensation

The Company granted the following stock-based awards:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Stock options	130,000	47,500	140,000	47,500
Restricted stock awards and restricted stock units	143,468	87,500	150,218	87,500

With the exception of the awards described in the following paragraph, the stock options, restricted stock awards and restricted stock units granted during the three and six months ended June 30, 2015 were granted under the Company's Second Amended and Restated 2007 Stock Incentive Plan (the "2007 Plan"), a shareholder approved plan.

In addition to awards granted under the 2007 Plan, the Company granted an award of non-qualified options to purchase 130,000 shares of its common stock to a newly hired executive management level employee on May 18, 2015. The options were granted outside of any shareholder-approved plan as an inducement to accept employment with the Company. The options have an exercise price equal to the closing price of the Company's common stock as reported by the Nasdaq Stock Market on the first day of employment, vest in four equal installments on each of the first four anniversaries of the date of grant and have a term of seven years. In other respects, the options were structured to mirror the terms of the options granted under the 2007 Plan and are subject to a stock option agreement between the Company and the employee.

Included in the grant of restricted stock awards and restricted stock units during the three months ended June 30, 2015 were 25,251 performance-based restricted stock awards granted to executive management level employees for which no expense was recognized for the three and six months ended June 30, 2015 as the performance criteria are not currently expected to be met.

The Company recognized the following amounts related to its share-based payment arrangements (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Stock-based compensation cost, before income tax benefit:				
Stock options	\$158	\$207	\$373	\$415

Total stock-based compensation	\$500	\$435	\$1,068	\$784

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Stock-based compensation cost included in:				
Cost of revenues	\$39	\$11	\$75	\$18
Operating expenses	461	424	993	766
Total stock-based compensation	\$500	\$435	\$1,068	\$784

Table of Contents

(5) Income Taxes

As of June 30, 2015 and December 31, 2014, the Company's liability for gross unrecognized tax benefits totaled \$909,000 and \$900,000, respectively (excluding interest and penalties). Total accrued interest and penalties relating to unrecognized tax benefits amounted to \$4,000 and \$1,000 on a gross basis at June 30, 2015 and December 31, 2014, respectively. The change in the liability for gross unrecognized tax benefits reflects an increase in reserves established for state research and development credits. The Company does not currently expect significant changes in the amount of unrecognized tax benefits during the next twelve months.

(6) Marketable Securities

Marketable securities consisted of the following (in thousands):

	June 30, 2015			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Certificates of deposit	\$14,750	\$3	\$—	\$14,753
Total marketable securities	\$14,750	\$3	\$—	\$14,753
	December 31, 2014			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Certificates of deposit	\$23,500	\$—	\$(14)	\$23,486
Total marketable securities	\$23,500	\$—	\$(14)	\$23,486

Marketable securities are classified as either short-term or long-term in the condensed consolidated balance sheet based on their effective maturity date. All marketable securities as of June 30, 2015 and December 31, 2014 have original maturities ranging from three to 12 months and are classified as available-for-sale. Available-for-sale securities are recorded at fair value and any unrealized holding gains and losses, net of the related tax effect, are excluded from earnings and are reported as a separate component of accumulated other comprehensive income (loss) until realized. See Note 9, "Fair Value Measurements," for a discussion of inputs used to measure the fair value of the Company's available-for-sale securities.

(7) Intangible Assets and Goodwill

Changes in the Company's amortizable intangible assets consisted of the following (in thousands):

	June 30, 2015				
	Customer Relationships	Developed Technology	Trademarks / Trade-Names	Covenants Not to Compete	Total
Original cost	\$5,267	\$8,792	\$2,194	\$40	\$16,293
Accumulated amortization	(887)	(2,561)	(433)	(11)	(3,892)
Net identifiable intangible assets	\$4,380	6,231	1,761	29	\$12,401
Weighted-average useful lives (years)	10	6	15	2	9
	December 31, 2014				
	Customer Relationships	Developed Technology	Trademarks / Trade-Names	Covenants Not to Compete	Total
Original cost	\$5,226	\$8,770	\$2,193	\$40	\$16,229
Accumulated amortization	(671)	(1,832)	(334)	(8)	(2,845)
Net identifiable intangible assets	\$4,555	6,938	1,859	32	\$13,384
Weighted-average useful lives (years)	10	6	15	2	9

Table of Contents

Changes to the carrying amount of net amortizable intangible assets for the six months ended June 30, 2015 consisted of the following (in thousands):

	Six Months Ended June 30, 2015
Balance, beginning of period	\$13,384
Amortization expense	(1,032)
Currency translation	49
Balance, end of period	\$12,401

Amortization expense associated with the developed technology included in cost of service revenues was \$317,000 and \$140,000 for the three months ended June 30, 2015 and 2014, respectively, and \$633,000 and \$280,000 for the six months ended June 30, 2015 and 2014, respectively. Amortization expense associated with other acquired intangible assets included in operating expenses as "Amortization of purchased intangibles" was \$200,000 and \$156,000 for the three months ended June 30, 2015 and 2014, respectively, and \$399,000 and \$313,000 for the six months ended June 30, 2015 and 2014, respectively.

Changes to the carrying amount of goodwill for the six months ended June 30, 2015 consisted of the following (in thousands):

	Six Months Ended June 30, 2015
Balance, beginning of period	\$8,525
Currency translation	84
Balance, end of period	\$8,609

(8) Financing Obligations

During the six months ended June 30, 2015, the Company acquired \$411,000 in computer and network equipment through the issuance of capital leases. Balances for assets acquired under capital lease obligations were as follows (in thousands):

	June 30, 2015	December 31, 2014
Computer and network equipment	\$411	\$—
Accumulated depreciation	(23)	—
Assets acquired under capital lease obligations, net	\$388	\$—

As of June 30, 2015, the future minimum payments under capital leases with initial terms of one year or more are as follows (in thousands):

Periods ending December 31,	
2015	\$91
2016	181
2017	181
2018	61
Total minimum lease payments	514
Less amount representing interest	(36)
Present value of net minimum lease payments	478
Less current portion	(163)
Balance, end of period	\$315

Table of Contents

(9) Fair Value Measurements

A hierarchy for inputs used in measuring fair value is in place that distinguishes market data between observable independent market inputs and unobservable market assumptions by the reporting entity.

The hierarchy is intended to maximize the use of observable inputs and minimize the use of unobservable inputs by requiring that the most observable inputs be used when available. Three levels within the hierarchy may be used to measure fair value:

Level 1: Inputs are unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2: Inputs include data points that are observable such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) such as interest rates and yield curves that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs are generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect an entity's own estimates of assumptions that market participants would use in pricing the asset or liability.

The Company's assets and liabilities measured at fair value on a recurring basis and the fair value hierarchy utilized to determine such fair values is as follows at June 30, 2015 and December 31, 2014, respectively (in thousands):

	Fair Value Measurements Using			
	Total Fair Value at June 30, 2015	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Certificates of deposit	\$14,753	\$14,753	\$—	\$—
Total assets	\$14,753	\$14,753	\$—	\$—
	Fair Value Measurements Using			
	Total Fair Value at December 31, 2014	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Certificates of deposit	\$23,486	\$23,486	\$—	\$—
Total assets	\$23,486	\$23,486	\$—	\$—

Certificates of deposit are classified as Level 1 in the above table and are carried at fair value based on quoted market prices. The Company uses quoted market prices as all of the certificates of deposit have maturity dates within one year from the Company's date of purchase and trade in active markets.

(10) Computation of Net Loss From Continuing Operations Per Share of Common Stock

Basic net loss from continuing operations per common share is determined by dividing net loss from continuing operations by the basic weighted average number of shares of common stock outstanding. Diluted net loss per common share includes the potentially dilutive effect of common shares issued in connection with outstanding stock options using the treasury stock method and the dilutive impact of restricted stock units. Stock options and restricted stock units to acquire weighted average common shares of 1,632,000 and 1,647,000 for the three and six months ended June 30, 2015, respectively, have been excluded from the computation of diluted weighted average common shares as their effect is anti-dilutive. Stock options and restricted stock units to acquire weighted average common shares of 1,755,000 and 1,768,000 for the three and six months ended June 30, 2014, respectively, have been excluded from the computation of diluted weighted average common shares as their effect is anti-dilutive.

The Company calculates net loss per share pursuant to the two-class method, which requires all outstanding unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or

unpaid) to be

13

Table of Contents

considered participating securities and included in the computation of basic and diluted earnings per share using the two-class method. The Company included in its computation of weighted average shares outstanding approximately 196,000 and 174,000 weighted average outstanding shares of unvested restricted stock deemed to be participating securities for the three and six months ended June 30, 2015, respectively. The Company included in its computation of weighted average shares outstanding approximately 89,000 and 78,000 weighted average outstanding shares of unvested restricted stock deemed to be participating securities for the three and six months ended June 30, 2014, respectively. The following table identifies the components of net loss per basic and diluted share (in thousands, except for per share data):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Shares outstanding at end of period	9,254	8,755	9,254	8,755
Basic weighted average shares outstanding	9,243	8,748	9,206	8,724
Dilutive effect of stock options and restricted stock units	—	—	—	—
Total diluted weighted average shares outstanding	9,243	8,748	9,206	8,724
Net loss from continuing operations	\$(6,927)	\$(5,379)	\$(16,801)	\$(11,552)
Net loss from continuing operations per basic and diluted share	\$(0.75)	\$(0.61)	\$(1.83)	\$(1.32)

(11) Contingencies

The Company is exposed to a number of asserted and unasserted claims encountered in the normal course of business. Legal costs related to loss contingencies are expensed as incurred. In the opinion of management, the resolution of these matters will not have a material adverse effect on the Company's financial position or results of operations.

The Company's standard arrangements include provisions indemnifying customers against liabilities if the Company's products infringe a third-party's intellectual property rights. The Company has not incurred any costs in its continuing operations as a result of such indemnifications and has not accrued any liabilities related to such contingent obligations in the accompanying condensed consolidated financial statements.

(12) Investment in Software Company

At June 30, 2015 and December 31, 2014, Qumu held an investment totaling \$3.1 million in convertible preferred stock of Briefcam, Ltd. ("Briefcam"), a privately-held Israeli company that develops video synopsis technology to augment security and surveillance systems to facilitate review of surveillance video. The investment is included in other non-current assets in the Condensed Consolidated Balance Sheets.

Because Qumu's ownership interest is less than 20% and it has no other rights or privileges that enable it to exercise significant influence over the operating and financial policies of BriefCam, Qumu accounts for this equity investment using the cost method. Qumu monitors BriefCam's results of operations, business plan and capital raising activities and is not aware of any events or circumstances that would indicate a decline in the carrying value of its investment.

(13) Recently Issued Accounting Standards

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers," which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. In July 2015, the FASB voted to amend ASU 2014-09 by approving a one-year deferral of the effective date as well as providing the option to early adopt the standard on the original effective date. The new standard is effective for the Company on January 1, 2018 but may be early adopted effective January 1, 2017. The standard permits the use of either the retrospective or cumulative effect transition method. The Company is currently evaluating the timing of its adoption and the effect that ASU 2014-09 will have on its consolidated financial statements and related disclosures. The Company has not yet selected a transition method nor has it determined the effect of the standard on its ongoing financial reporting.

In April 2015, the FASB issued ASU 2015-05, "Customer's Accounting for Fees Paid in a Cloud Computing Arrangement," which provides guidance to customers about whether a cloud computing arrangement includes software. If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing

arrangement does not include a software license, the customer should account for the arrangement as a service contract. The new guidance does not change the accounting for a customer's accounting for service contracts. ASU 2015-05 is effective for the Company on January 1, 2016,

Table of Contents

with early adoption permitted using either of two methods: (i) prospective to all arrangements entered into or materially modified after the effective date and represent a change in accounting principle; or (ii) retrospectively. The Company is currently evaluating the impact of the standard on its consolidated financial statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following table sets forth, for the periods indicated, selected items from the Company’s Condensed Consolidated Statements of Operations.

	Percentage (%) of Revenues Three Months Ended June 30,		Percentage (%) of Revenues Six Months Ended June 30,	
	2015	2014	2015	2014
Revenues	100.0	% 100.0	% 100.0	% 100.0
Cost of revenues	(51.3) (50.5) (56.1) (55.0
Gross profit	48.7	49.5	43.9	45.0

Net income (loss) from discontinued operations, net of tax	(0.3) 6.7	(0.6) 22.8
Net loss	(79.3) (57.3) (114.6) (70.9

Overview

The Company previously conducted its operations through two businesses consisting of 1) its enterprise video content management software business and 2) its disc publishing business. On April 24, 2014, the Company entered into an asset purchase agreement (the “asset purchase agreement”) with Equus Holdings, Inc. and Redwood Acquisition, Inc. (now known as Rimage Corporation, “Buyer”). Under the terms of the asset purchase agreement, the Company agreed to sell to Buyer all of the assets primarily used or primarily held for use in connection with its disc publishing business. Buyer also agreed to assume on the closing date certain agreements and liabilities relating to the disc publishing business and the acquired assets.

At a special meeting of the Company's shareholders held on June 27, 2014, the Company's shareholders approved the sale of the disc publishing assets as contemplated by the asset purchase agreement, and on July 1, 2014, the sale was completed. As a result, effective June 27, 2014, the disc publishing business was classified as held for sale and qualified for presentation as discontinued operations effective with the reporting of the Company's financial results for the second quarter of 2014. The transactions described in the asset purchase agreement are referred to in this section as the “Asset Sale Transaction.”

For additional information on the asset purchase agreement and the Asset Sale Transaction, please see the Company’s Current Reports on Form 8-K dated April 24, 2014 and July 1, 2014 and Note 3, “Divestiture of Disc Publishing Business.”

On October 3, 2014, the Company entered into Share Purchase Agreements to acquire 100% of the outstanding shares of Kulu Valley Ltd., a private limited company incorporated in England and Wales (“Kulu”). The acquisition was made to expand Qumu’s addressable market through the offering of Kulu Valley’s best-in-class video content creation capabilities and easy-to-deploy pure cloud solution, and provides Kulu’s customers with access to industry leading video content management and delivery capability. As a result of the transaction, Kulu is a wholly-owned subsidiary of the Company. For additional information on the acquisition transaction, please see Note 2 to the condensed

consolidated financial statements.

15

Table of Contents

As a result of the sale of its disc publishing business in the Asset Sale Transaction and expansion of its video content management business with the acquisition of Kulu, the Company has one reportable segment, the enterprise video content management software business.

In accordance with ASC 205-20, the results of the discontinued disc publishing business and associated financial impacts from the sale of this business have been presented as discontinued operations for the three and six months ended June 30, 2015 and 2014. In accordance with ASC 205-20, no general corporate charges were allocated to the discontinued business. The assets and liabilities of the discontinued business are presented on the Condensed Consolidated Balance Sheets as assets and liabilities from discontinued operations as of June 30, 2015 and December 31, 2014. Other than consolidated amounts reflecting operating results and balances for both the continuing and discontinued operations, all remaining amounts presented in the accompanying condensed consolidated financial statements reflect the financial results and financial position of the Company's continuing enterprise video content management software business.

The following discussion of period-to-period changes and trends in financial statement results under "Management's Discussion and Analysis of Financial Condition and Results of Operations" aligns with the financial statement presentation described above.

In this "Management's Discussion and Analysis of Financial Condition and Results of Operations" section, the Company provides certain information relating to trends in, and factors affecting, future revenue, gross profit margins, operating expense and liquidity and capital resources. This information is "forward-looking" and subject to the risks and uncertainties identified in "Cautionary Note Regarding Forward-Looking Statements" below and these important factors could cause the Company's future results to differ materially from the trends or results anticipated or planned by the Company, or the trends or results expressed or implied by any forward-looking statements.

Results of Operations

Qumu provides the tools businesses need to create, manage, secure, deliver and measure the success of their videos. Qumu helps thousands of organizations around the world enhance the way they communicate and realize the greatest possible value from video and other rich content they create and publish. Qumu's video platform supports both live and on-demand streaming, and also incorporates secure download capabilities. The Company markets its products to customers in North America, Europe and Asia.

The Company's enterprise video content management software products are deployed primarily through the sale of software licenses, software on a server appliance, software-enabled devices and a cloud-based Software-as-a-Service (SaaS) platform. Software maintenance contracts, professional services and managed services are also sold with these solutions. Software license and appliance revenues on the accompanying Condensed Consolidated Statements of Operations include the Company's sale of appliances, software-enabled devices and software licenses. Service revenues on the Condensed Consolidated Statements of Operations include revenues from maintenance contracts, software and maintenance subscription and cloud-based SaaS arrangements, managed services and professional services. Qumu does not require significant capital investment as it outsources to third-party vendors the required fabrication of its hardware-related products.

Revenues. The table below describes Qumu's revenues by product category (in thousands):

	Three Months Ended				Inc (Dec)		Six Months Ended				Inc (Dec)	
	June 30,		2014		Between		June 30,		2014		Between	
	\$	%	\$	%	\$	%	\$	%	\$	%	\$	%
Software												
licenses and appliances	\$2,719	31 %	\$4,714	56 %	\$(1,995)	(42 %)	\$3,703	25 %	\$5,910	48 %	\$(2,207)	(37 %)
Service	6,045	69 %	3,690	44 %	2,355	64 %	11,030	75 %	6,423	52 %	4,607	72 %
Total revenues	\$8,764	100 %	\$8,404	100 %	\$360	4 %	\$14,733	100 %	\$12,333	100 %	\$2,400	19 %

Total revenues increased \$0.4 million, or 4%, and \$2.4 million, or 19%, for the three and six months ended June 30, 2015, respectively, compared to the same prior-year periods. Service revenues rose \$2.4 million and \$4.6 million, while revenues from software licenses and appliances decreased \$2.0 million and \$2.2 million for the three and six

months ended June 30, 2015, respectively, compared to the same periods in 2014.

The increase in service revenues during the three and six months ended June 30, 2015 was driven by the generation of cloud-based SaaS revenues contributed from Kulu Valley (acquired effective October 3, 2014), initiation of revenue recognition in the second quarter of new cloud-based subscription arrangements and recognition in 2015 of full versus partial periods of revenue from a large term-based arrangement closed in the first quarter of 2014 for which revenue is being recognized over the three-

Table of Contents

year term of the contract. Also contributing significantly to the increase in service revenues was continued growth of maintenance support revenues, stemming primarily from expansion of the customer base and strong maintenance renewal rates, and higher professional services revenues as Qumu assists its customers in the deployment of its growing base of enterprise video solutions.

The decrease in software license and appliance revenues in the current-year periods was largely impacted by the recognition in the second quarter of 2014 of \$2.2 million of revenue for a perpetual license for software and appliances closed in connection with the large term-based arrangement described above. Revenues can vary quarter to quarter based on the type of contract the Company enters into with each customer. Contracts for perpetual software licenses generally result in revenue recognized closer to the contract commitment date while contracts for term-based software licenses and cloud-based SaaS arrangements result in most of the revenue being recognized over the period of the contract.

Contracted commitment backlog aggregated \$33.4 million as of June 30, 2015, compared to \$31.6 million as of December 31, 2014 and \$26.0 million as of June 30, 2014. The Company defines contracted commitments as the dollar value of signed non-cancellable customer purchase commitments.

Future consolidated revenues will be dependent upon many factors, including the rate of adoption of the Company's software solutions in its targeted markets and whether software license arrangements with customers are structured as term or perpetual licenses, which impacts the timing of revenue recognition. Other factors that will influence future consolidated revenues include the timing of customer orders, the impact of changes in economic conditions and the impact of foreign currency exchange rate fluctuations, as well as the impact of incremental revenues expected to be generated as a result of the Company's expansion of its video content management software product offering with its acquisition effective October 3, 2014 of Kulu Valley.

Gross Profit. Gross profit as a percentage of total revenues was 48.7% and 43.9% for the three and six months ended June 30, 2015 compared to 49.5% and 45.0% for the same periods in 2014. The decreases in gross margin for the second quarter and year-to-date period in 2015 compared to the same prior-year periods were primarily the result of a lower volume and mix of perpetual software license and appliances revenues, which generally have higher margins than service revenues, and a higher mix of lower margin professional services revenue. Partially offsetting the impact of the change in product mix was an overall growth in revenue volume in the current-year periods providing greater economies of scale for increased investments in customer support and professional services costs required to support growth in the customer base, deployment of a growing base of software contracts and expansion of service offerings. Gross margins are inclusive of the impact of amortization expense associated with intangible assets of \$0.3 million and \$0.6 million for the three and six months ended June 30, 2015, respectively, and \$0.2 million and \$0.3 million for the three and six months ended June 30, 2014, respectively. Amortization expense for both the current-year and prior-year periods related to intangible assets acquired as a result of the acquisition of Qumu, Inc. in the fourth quarter of 2011 and, also for the current-year periods, intangible assets acquired as a result of the acquisition of Kulu Valley in the fourth quarter of 2014. Cost of service revenues in 2015 are expected to include approximately \$1.3 million of amortization expense for purchased intangibles.

Future gross profit margins will fluctuate quarter to quarter and will be impacted by the rate of growth of the Company's software revenues, the proportion of perpetual license revenue relative to term or subscription-based license revenue recognized in a period, the amount of hardware and third-party products included in the sales mix, the growth rate of service-related revenues relative to associated service support costs and foreign currency exchange rate fluctuations.

Operating Expenses. Total operating expenses were \$11.4 million and \$23.5 million for the three and six months ended June 30, 2015, respectively, compared to \$9.8 million and \$18.5 million for the respective prior-year periods. The increase in operating expenses in the current-year periods occurred across all major functional areas, and reflects expense growth from personnel added as part of the acquisition of Kulu Valley in October 2014 as well as the addition of employees to support growth of Qumu's operations on a global basis.

Research and development expenses totaled \$2.9 million and \$5.7 million for the three and six months ended June 30, 2015, respectively, compared to \$2.3 million and \$4.3 million for the respective prior-year periods. The primary contributor to the increase in expenses in the current-year periods was the addition of software engineering personnel

as part of the acquisition of Kulu Valley in October 2014 and the addition of employees to support development of expanded software functionality and quality assurance activities.

Selling, general and administrative expenses totaled \$8.3 million and \$17.5 million for the three and six months ended June 30, 2015, respectively, compared to \$7.4 million and \$13.9 million for the respective periods in 2014. The rise in expenses in the current-year periods was driven primarily by additional employee costs from the acquisition of Kulu Valley, an increase in sales personnel to support growth in global sales and increased general and administrative staffing costs. Also contributing to the

Table of Contents

increase in selling, general and administrative expenses in the current year-to-date period were non-recurring audit, legal and outside service costs associated with transition and reorganization activities resulting from the divestiture in 2014 of the Company's disc publishing business.

Amortization of Purchased Intangibles. Operating expenses for the three and six months ended June 30, 2015 include \$0.2 million and \$0.4 million for the amortization of intangible assets acquired as part of the acquisition of Qumu, Inc. in October 2011 and Kulu Valley in October 2014, compared to \$0.2 million and \$0.3 million for the respective prior-year periods, which included amortization of intangible assets acquired as part of the Company's acquisition of Qumu, Inc. Operating expenses in 2015 are expected to include approximately \$0.8 million of amortization expense associated with purchased intangibles, exclusive of the portion classified in cost of revenue.

Other Income (Expense), Net. For the three and six months ended June 30, 2015, the Company recognized interest income on cash and marketable securities of \$15,000 and \$31,000, respectively, compared to \$10,000 and \$22,000 in the comparable prior-year periods. Other income (expense) also included net losses on foreign currency transactions of \$4,000 and \$68,000 for the three and six months ended June 30, 2015, respectively, compared to net losses on foreign currency transactions of \$6,000 and \$23,000 for the respective prior-year periods.

Income Taxes. The provision for income taxes represents federal, state, and foreign income taxes or income tax benefit on income or loss. The Company recorded an income tax benefit of \$0.1 million and \$0.3 million for the three and six months ended June 30, 2015, respectively, compared to an income tax benefit of \$0.3 million and \$1.4 million in the respective prior-year periods. The tax benefit recorded in the current-year periods primarily reflects a tax benefit for losses incurred by the Company's newly acquired Kulu Valley subsidiary, based in the United Kingdom. The tax benefit recorded for the prior-year periods primarily reflects the realization of income tax benefits on losses from continuing operations as a result of income generated from discontinued operations. Income tax benefits realized in continuing operations on this basis were offset by a corresponding allocation of income tax expense to discontinued operations.

Liquidity and Capital Resources

The Company expects it will be able to maintain current operations and anticipated capital expenditure requirements for the foreseeable future through its cash reserves as well as any cash flows that may be generated from current operations. At June 30, 2015, the Company had aggregate working capital of \$18.2 million, down \$15.2 million from working capital of \$33.4 million at December 31, 2014. The primary contributors to the decrease in working capital were the generation of a net loss adjusted for non-cash items during the six months ended June 30, 2015 of \$14.4 million, purchases of property and equipment of \$0.4 million and principal payments on capital lease obligations of \$0.2 million. Qumu does not require significant capital investment for its ongoing operations.

The Company's primary source of cash from operating activities has been cash collections from sales of products and services to customers. The Company expects cash inflows from operating activities to be affected by increases or decreases in sales and timing of collections. The Company's primary use of cash for operating activities has been for personnel costs, payment of royalties associated with third-party software licenses and purchases of equipment to fulfill customer orders. The Company expects cash flows from operating activities to be affected by fluctuations in revenues, personnel costs and the amount and timing of royalty payments and equipment purchases as the Company continues to support the growth of the business. The amount of cash, cash equivalents and marketable securities held by the Company's international subsidiaries that is not available to fund domestic operations unless repatriated was \$2.6 million as of June 30, 2015. The Company does not currently intend to repatriate the cash and related balances held by its international subsidiaries.

Net cash used in operating activities totaled, in the aggregate, \$15.2 million and \$10.7 million for the six months ended June 30, 2015 and 2014, respectively. The \$4.5 million increase in cash used in operating activities in the first six months of 2015 relative to the same period in 2014 resulted from a \$6.4 million unfavorable change in cash from discontinued operations as a result of a net use of cash of \$0.4 million in the current-year period compared to generation of \$6.0 million of cash in the comparable prior-year period. The Company sold its discontinued disc publishing business effective July 1, 2014. Continuing operating activities used \$1.9 million less cash in the first six months of 2015 compared to the same prior-year period, partially offsetting the discontinued operations impact on cash. The \$1.9 million reduction in cash used for continuing operating activities was driven by a \$5.0 million

favorable change in operating assets and liabilities, partially offset by a \$3.1 million increase in net loss adjusted for the impact of non-cash and non-operating items. Primarily contributing to the change in operating assets and liabilities compared to the prior year were favorable changes of \$8.8 million in receivables, partially offset by unfavorable changes of \$1.3 million in trade accounts payable and other accrued liabilities, \$0.7 million in deferred revenue, \$0.6 million in prepaid income taxes, \$0.6 million in accrued compensation and \$0.5 million in prepaid expenses and other assets.

The favorable change in accounts receivable compared to the prior year was primarily due to a \$2.4 million increase in revenues in the first half of 2015 compared to the same period in 2014, the collection during the current year-to-date period of a

Table of Contents

larger proportion of the revenues generated during the first half of the year and also the collection of a significant portion of fourth quarter 2014 sales in early 2015. The unfavorable change in deferred revenue occurred as a result of a larger rise in revenue deferrals during the six months ended June 30, 2014 compared to the same period in 2015, stemming primarily from a higher mix of new term-based software arrangements and maintenance renewals in the 2014 year-to-date period. The unfavorable change in trade accounts payable was primarily due to the timing of payments and the unfavorable change in prepaid income taxes was primarily due to the receipt of state income tax refunds in the first quarter of 2014. The unfavorable change in prepaid expenses and other current assets was primarily due to an increase in and related deferral of software royalty and license costs, a portion of which are associated with revenues that have not been recognized as of June 30, 2015.

Net cash provided by investing activities totaled, in the aggregate, \$8.3 million for the six months ended June 30, 2015 compared to net cash used of \$11.6 million in the comparable prior-year period. Primarily driving the generation of cash in the current-year period were maturities of marketable securities, net of related purchases, of \$8.7 million, partially offset by purchases of property and equipment of \$0.4 million. The \$11.6 million use of cash in the first six months of 2014 resulted from purchases of marketable securities, net of related maturities, of \$11.3 million and purchases of property and equipment of \$0.4 million.

Financing activities used net cash of \$0.1 million during the first half of 2015 and provided cash of \$0.1 million for the comparable period in 2014. Primarily impacting the current period use of cash were principal payments on financing obligations of \$0.2 million, partially offset by \$0.1 million in proceeds from employee stock plans.

Financing activities in the first half of 2014 consisted primarily of proceeds from employee stock plans.

Since October 2010, the Company's Board of Directors has approved common stock repurchases of up to 3,500,000 shares. Shares may be purchased at prevailing market prices in the open market or in private transactions, subject to market conditions, share price, trading volume and other factors. The repurchase program has been funded to date using cash on hand and may be discontinued at any time. The Company did not repurchase any shares of its common stock during the six months ended June 30, 2015 and 2014, respectively. As of June 30, 2015, the Company had 778,365 shares available for repurchase under the authorizations.

The Company did not declare or pay any dividends during the six months ended June 30, 2015 and 2014.

Critical Accounting Policies

Management utilizes its technical knowledge, cumulative business experience, judgment and other factors in the selection and application of the Company's accounting policies. The accounting policies considered by management to be the most critical to the presentation of the condensed consolidated financial statements because they require the most difficult, subjective and complex judgments include revenue recognition, deferred tax asset valuation allowances, accruals for uncertain tax positions, stock-based compensation, impairment of long-lived assets and investment in nonconsolidated company. These accounting policies are discussed in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of the Company's Annual Report on Form 10-K for the year ended December 31, 2014. Management made no significant changes to the Company's critical accounting policies during the six months ended June 30, 2015.

In applying its critical accounting policies, management reassesses its estimates each reporting period based on available information. Changes in such estimates did not have a significant impact on the Company's condensed consolidated financial statements for the six months ended June 30, 2015.

Cautionary Note Regarding Forward-Looking Statements

This report contains forward-looking statements that involve risks and uncertainties. For this purpose, any statements contained in this report that are not statements of historical fact may be deemed to be forward-looking statements.

Without limiting the foregoing, words such as "may," "will," "expect," "believe," "anticipate," "estimate" or "continue" or comparable terminology are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties. The Company's actual results could differ significantly from those discussed in the forward-looking statements.

Factors that could cause or contribute to such differences include, but are not limited to, the following, as well as other factors not now identified: the Company's ability to successfully implement its growth strategy; the economic health

of the markets from which Qumu derives its sales; the Company's ability to keep pace with changes in technology in the Company's targeted markets; increasing competition and the ability of the Company's products to successfully compete with products of competitors; the ability of the Company's newly developed products to gain acceptance and compete against products in their markets; the return on the Company's investment in strategic initiatives may be lower or develop more slowly than expected; the significance of the Company's international operations and the risks associated with international operations including currency fluctuations, local economic health and management of these operations over long distances; the Company's ability to

Table of Contents

protect its intellectual property and to defend claims of others relating to its intellectual property; risks related to open source software incorporated into the Company's products; the Company's ability to effectively market its products and serve customers through its sales force, resellers and strategic partners; the ability of the Company's products to deliver fast, efficient and reliable service; the effect of U.S. and international regulation; fluctuations in the Company's operating results; the Company's dependence upon its key personnel; the volatility of the price of the Company's common stock; the negative effect on the Company's common stock price of future sales of common stock; provisions governing the Company relating to a change of control, compliance with corporate governance and securities disclosures rules and other risks; and the potential operating difficulties or other negative consequences relating to our acquisition of Kulu Valley, Ltd., including those set forth in the Company's reports filed with the Securities and Exchange Commission, including Item 1A of Part I of the Company's Annual Report on Form 10-K for the year ended December 31, 2014. These forward-looking statements are made as of the date of this report and the Company assumes no obligation to update such forward-looking statements, or to update the reasons why actual results could differ materially from those anticipated in such forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Foreign Currency Translation. As of June 30, 2015, the Company is exposed to market risk primarily from foreign exchange rate fluctuations of the British Pound Sterling, Japanese Yen, Singapore Dollar and Emirati Dirham to the U.S. dollar as the financial position and operating results of the Company's foreign subsidiaries are translated into U.S. dollars for consolidation. Resulting translation adjustments are recorded as a separate component of stockholders' equity.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). The Company's management has evaluated, with the participation of its Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered in this Quarterly Report on Form 10-Q. The material weakness in internal control over financial reporting identified in connection with the Company's consolidated financial statements for the year ended December 31, 2014 and described in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 was not effectively remediated as of June 30, 2015 due to the fact that an insufficient period of time has passed for management to thoroughly test and document the operation of the additional, enhanced or otherwise affected internal controls. Accordingly, based upon their evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were not effective as of June 30, 2015.

Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal controls over financial reporting that occurred during the quarter ended June 30, 2015 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting, except for the on-going remediation efforts to address the material weakness in internal control over financial reporting described in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

Table of Contents

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

The Company is exposed to a number of asserted and unasserted legal claims encountered in the ordinary course of its business. Although the outcome of any such legal actions cannot be predicted, management believes that there are no pending legal proceedings against or involving the Company for which the outcome is likely to have a material adverse effect upon its financial position or results of operations.

Item 1A. Risk Factors

Not Applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The Company's Board of Directors has approved common stock repurchases of up to 3,500,000 shares of the Company's common stock. Shares may be purchased at prevailing market prices in the open market or in private transactions, subject to market conditions, share price, trading volume and other factors. The repurchase program may be discontinued at any time. The repurchase program has been funded to date using cash on hand. During the three months ended June 30, 2015, no repurchases were made under the repurchase program.

In addition to shares purchased under the Board authorization, the Company purchases shares of common stock held by employees who wish to tender owned shares to satisfy the exercise price or tax withholding on stock option exercises or vesting of restricted awards. All of the share repurchase activity included in the table below for the three months ended June 30, 2015 was associated with satisfaction of employee's exercise price and tax withholding requirements on stock option exercises.

Information on the Company's repurchases of its common stock during each month of the second quarter ended June 30, 2015, is as follows:

Monthly Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as part of Publicly Announced Plans or Programs	Maximum Number of Shares that may yet be Purchased under the Plans or Programs (at end of period) ⁽¹⁾
April 2015	—	\$—	—	778,365
May 2015	4,776	\$9.48	—	778,365
June 2015	—	\$—	—	778,365

⁽¹⁾ Represents shares authorized for repurchase under the Board approved repurchase program discussed above.

Item 3. Defaults Upon Senior Securities

Not Applicable.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

The Company recorded a reclassification adjustment which resulted in a \$1.25 million decrease to cash and an offsetting increase to marketable securities as of June 30, 2015, with a corresponding increase to cash used for purchases of marketable securities for the six months ended June 30, 2015, subsequent to furnishing such amounts in its Exhibit 99.1 to Form 8-K dated August 7, 2015. The corrected amounts are reported in the accompanying condensed consolidated financial statements.
