FOR IMMEDIATE RELEASE

ManTech Reports Record Third Quarter 2003 Results

FAIRFAX, Virginia, October 29, 2003 ManTech International Corporation (NASDAQ: MANT), a leading provider of information technology and technical services solutions to the Department of Defense and the intelligence community, today announced record operating results for the third quarter of 2003. ManTech's revenue for the third quarter 2003 increased year-over-year 39% to \$181.6 million, operating income increased 48% to \$16.2 million and fully diluted Earnings Per Share (EPS) rose 21% to \$0.29.

ManTech's third quarter results reflect our success at positioning the company to play a meaningful role in the market for national security. We have gained traction across the entire spectrum of our defense, intelligence and homeland security markets as evidenced by the fact that now approximately 93% of our revenue for the quarter was derived from our contracts with the Department of Defense and intelligence community, stated George J. Pedersen, Chairman of the Board, CEO and President of ManTech International Corporation. Strong budget trends for our markets, our solid balance sheet, and improving operating results will allow us to capitalize on the momentum created from our fully integrated, uniform business platform.

ManTech International Corporation reported revenue for the quarter ending September 30, 2003 of \$181.6 million, up from \$130.4 million for the same period in 2002, an increase of 39%. The results reflect an organic growth rate of over 12% from the \$161.5 million in pro forma revenue for the comparable period in 2002, which includes the revenue for each period of the companies acquired by ManTech since that time. This revenue growth was primarily attributable to new business supporting national security programs for the Department of Defense and intelligence community.

Operating income for the quarter was \$16.2 million, an increase of 48% over 2002. Operating margin for the quarter expanded to 8.9% compared with 8.4% for the same period in 2002. The margin expansion in the quarter is attributable both to higher margin contributions from acquired companies and to operating efficiencies. Net income for the quarter rose 47% to \$9.2 million from \$6.3 million in 2002, while fully diluted EPS were \$0.29, up from \$0.24 in 2002.

ManTech recently received contract awards and contract expansions with an estimated value in excess of \$260 million, including previously unannounced contract awards and existing contract expansions totaling approximately \$160 million. Of particular note, ManTech won several significant blanket purchase agreements (BPAs) during the quarter. ManTech was selected as one of three prime contractors by the Department of Justice, under a BPA that is estimated to be approximately \$100 million per fiscal year, according to the solicitation, to support the Justice Consolidated Office Network (JCON) Program. ManTech also won a GSA-based BPA contract with the Marine Corps Systems Command to provide a wide variety of technical support services, including specialized IT services and engineering support, software development, test and evaluation support and C4I systems integration. Further, the company won a multi-year contract with the National Security Agency to provide full life cycle engineering, operations, and maintenance support for several NSA mission-related systems.

ManTech reported backlog of \$1.5 billion as of September 30, 2003, compared with \$1.2 billion on the same date in 2002. Funded backlog as of September 30, 2003 was \$410.8 million, an increase of 81% over the same date in 2002. At the end of the third quarter, ManTech had approximately \$1.3 billion in proposals under evaluation and a pipeline of qualified opportunities over \$4.5 billion.

ManTech derived about 90% of its revenue during the quarter ended September 30, 2003 from prime contracts, and approximately 44% of its revenue for the period came from work under GSA schedule contracts. Revenue from the Department of Defense and the intelligence community accounted for approximately 93% of revenue for the third quarter ending September 30, 2003. Revenue from work in secure systems and information technology solutions increased to 85% of revenue in the third quarter 2003 from 78% in 2002.

Company Guidance:

Based on recent business trends and the expectation of continuing strength in our national security markets, ManTech reaffirms the following guidance for 2003:

	<u>4th Quarter 2003</u>	<u>Full Year 2003</u>
Revenue	\$188 million - \$198 million	\$695 million - \$705 million
Diluted Earnings Per Share	\$0.29 - \$0.31	\$1.07 - \$1.09
Weighted Average Common Shares Outstanding	32,385,918	32,163,476

Regarding 2004 guidance, all current indications suggest top-line growth to be in the range of 13% to 15%, with consistent, or slightly better, growth in earnings for next year.

Conference Call:

ManTech has scheduled a conference call for 5:00 p.m., EST October 29, 2003, during which executive management will discuss third quarter results and respond to questions. Interested parties may access the call by dialing (800) 915-4836 (domestic) or (973) 317-5319 (international). The conference call will be Webcast (listen only) simultaneously via the Internet at www.mantech.com. Interested parties should dial in or log on approximately ten minutes prior to the start time of the call.

A replay of the call will also be available beginning at 9:00 p.m. on October 29, 2003, and will remain available through midnight on November 11, 2003. To access the replay, call (800) 428-6051 (domestic) or (973) 709-2089 (international). The confirmation code for the replay is 307876. A replay will also be available on ManTech's Website approximately two hours after the conclusion of the call.

About ManTech International Corporation:

Headquartered in Fairfax, Virginia, ManTech International Corporation delivers a broad array of information technology and technical services solutions to U.S. federal government customers, focusing primarily on critical national defense programs for the intelligence community and Department of Defense. ManTech designs, develops, procures, implements, operates, tests and maintains mission-critical, enterprise information technology and communication systems and infrastructures for federal government customers in the United States and over 30 countries worldwide. Additional information can be found at www.mantech.com.

Cautionary Statement About Forward-Looking Statements:

This press release contains forward-looking statements that involve substantial risks and uncertainties. You can identify these statements by forward-looking words such as may, will, expect, intend, anticipate, believe, estimate, continue and other similar words. You should read these statements carefully because they discuss the Company's future expectations, make projections of the company's future results of operations or financial condition or state other forward-looking information. Examples of such forward-looking statements include the company's expected future earnings as suggested by backlog estimates, updated guidance projections, and the company's belief that there will be increased defense and intelligence spending in the future. Such statements are subject to factors that could cause actual results to differ materially from anticipated results. The factors that could cause actual results to differ materially from those anticipated include, but are not limited to the following: failure of government customers to exercise options under contracts; funding decisions of U.S. Government projects; government contract procurement (such as bid protest) and termination risks; competitive factors such as pricing pressures and/or competition to hire and retain employees; the company's ability to identify, execute or effectively integrate future acquisitions; the company's ability to successfully raise additional capital; changes to the tax laws relating to the treatment and deductibility of goodwill or any change in tax rates; additional costs related to compliance with the Sarbanes-Oxley Act of 2002, any revised NASDAQ listing standards, SEC rule changes or other corporate governance issues; failure to experience continued positive defense and intelligence budget and spending trends; material changes in laws or regulations applicable to the company's businesses and other risk factors discussed in the company's filings with the Securities and Exchange Commission. The statements in this press release are made as of October 29, 2003, and the company undertakes no obligation to update any of the forward-looking statements made herein, whether as a result of new information, future events, changes in expectations or otherwise.

NOTE: EBITDA is defined as net income plus the loss from discontinued operations, interest expense, income taxes, depreciation and amortization, other expense, minority interest, and minus other income.

EBITDA as calculated by us may be calculated differently than EBITDA for other companies. We have provided EBITDA because we believe it is a commonly used measure of financial performance in comparable companies and is provided to help investors evaluate companies on a consistent basis, as well as to enhance an understanding of our operating results. EBITDA should not be construed as either an alternative to net income as an indicator of our operating performance or as an alternative to cash flows as a measure of liquidity.
