ABOUT NEOTHERAPEUTICS

NeoTherapeutics, Inc. is a development-stage pharmaceutical company engaged in the pharmaceutical business and the functional genomics business. Our pharmaceutical business historically engaged in discovering and developing novel technology platforms for the discovery and development, co-development and out-licensing of therapeutic drugs for neurological diseases and conditions, such as memory deficits associated with aging, spinal cord injuries, Parkinson's disease, other degenerative diseases that affect the nervous system and psychiatric diseases, and in the in-licensing and development, co-development and out-licensing of late-stage cancer drugs. We have shifted our strategic focus from discovery and development of neurology drugs to discovery and strategic alliances for these drug candidates. Our oncology program will continue to seek in-licensing of drug candidates for the treatment of cancer and the further development and strategic alliances for these drug candidates. Our functional genomics business engages in discovering how genes function in the body and validating novel molecular targets for innovative drug development. We conduct our pharmaceutical activities at NeoTherapeutics, Inc. and NeoOncoRx, Inc., and our functional genomics activities at NeoGene, Inc. Unless otherwise specified or required by context, references in this prospectus supplement to we, us, our and NeoTherapeutics refer to NeoTherapeutics, Inc. and its subsidiaries on a consolidated basis.

We currently have no marketable products, and do not expect to have any products commercially available for at least one year, if at all. We have incurred substantial losses since our inception, and expect our losses to continue for at least the next several years. The pharmaceutical marketplace in which we operate is highly competitive, and includes many large, well-established companies pursuing treatments for the applications we are pursuing. See Risk Factors on page 19 of our Annual Report on Form 10-K and on page 24 of our Quarterly

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein, contain forward-looking statements that are based on current expectations, estimates and projections about our industry, management's beliefs, and assumptions made by management. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," and variations of such and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict; therefore, actual results may differ materially from those expressed or forecasted in any forward-looking statements. The risks and uncertainties include those noted in "Risk Factors" in our Annual Report and Quarterly Report referenced above, those in the accompanying prospectus and those in the documents incorporated by reference herein and therein.

We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent that we are required to do so by law or regulations. We also may make additional disclosures in our Annual Report on Form 10-K, our definitive proxy statement filed in connection with our Annual Meeting of Stockholders, our Quarterly Reports on Form 10-Q and our Current Reports on Form 8-K that we may file from time to time with the Securities and Exchange Commission, or SEC. USE OF PROCEEDS

If we were to sell 1,000,000 shares of our common stock pursuant to this offering, the net proceeds to us from this offering, before deducting the estimated finder fees and our estimated offering expenses, will be approximately \$350,000 based upon the public offering price of \$0.35 per share. Any finder associated with this offering is working solely on a "best efforts" basis and therefore, we may not sell the entire amount of shares of our common stock offered pursuant to this prospectus. We plan to use the net proceeds we raise for general corporate purposes, including:

Working capital

Capital expenditures

Research and development

General and administrative expenses

Net proceeds from the sale of the offered securities initially may be temporarily invested in short-term interest-bearing securities.

Table of Contents**DILUTION**

The net tangible book value of our common stock on March 31, 2002 was \$6,362,410, or approximately \$0.237 per share. Net tangible book value per share represents the amount of our total tangible assets, less our total liabilities, divided by the total number of shares of our common stock outstanding. Dilution in net tangible book value per share to new investors represents the difference between the amount per share paid by purchasers of shares of our common stock in this offering and the net tangible book value per share of our common stock immediately afterwards. Without taking into account any other changes in net tangible book value after March 31, 2002, other than to give effect to the sale of 1,000,000 shares of common stock offered by us at a price of \$0.35 per share and after deducting the estimated finders fees and estimated offering expenses payable by us, our net tangible book value would have been \$6,691,410, or approximately \$0.240 per share. This represents an immediate increase in net tangible book value of \$0.003 per share to existing stockholders and an immediate dilution in net tangible book value of \$0.110 per share to new investors.

PLAN OF DISTRIBUTION

Our common stock is traded on the Nasdaq National Market under the symbol NEOT.

This prospectus supplement relates to an offering by us on a best efforts basis of up to 1,000,000 shares of our common stock at a purchase price of \$0.35 per share and a warrant to purchase up to 250,000 shares of our common stock at an exercise price of \$0.45 per share, to an institutional investor for aggregate proceeds of approximately \$350,000. In connection with this offering, we may pay fees and issue warrants to purchase up to 3,500 shares of our common stock at an exercise price of \$0.45 per share to Brighton Capital, Ltd. (Brighton) and Atwood Capital, Ltd. (Atwood) as finders. Any finder associated with this offering is working solely on a best efforts basis and therefore, we may not sell the entire amount of shares of our common stock offered pursuant to this prospectus. See the descriptions of such arrangements described below.

Brighton and Atwood may be deemed to be underwriters within the meaning of Section 2(a)(11) of the Securities Act, and any commissions received by Brighton and Atwood and any profit realized on the resale of the securities sold by them while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. As underwriters they would be required to comply with the requirements of the Securities Act and the Securities Exchange Act of 1934, as amended, or the Exchange Act, including, without limitation, Rule 415(a)(4) under the Securities Act and Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of shares of common stock by Distribution Participants. Under these rules and regulations, Distribution Participants:

may not engage in any stabilization activity in connection with our securities; and

may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until such Distribution Participant has completed its participation in the distribution.

On March 11, 2002, we entered into an agreement with Brighton pursuant to which Brighton shall act as a non-exclusive finder for purchasers of our securities. Pursuant to the agreement, we shall pay Brighton at each closing a cash fee equal to 6% of all cash proceeds received by us from investors introduced to us by Brighton and warrants to purchase 10,000 shares of our common stock for every \$1,000,000 in proceeds received by us from such investors. The warrants shall have the same terms and conditions as the warrants issued to the investors. We shall pay one-half of the fees and warrants each to Brighton and Atwood.

Table of Contents

In addition, we estimate that our share of the total expenses of this offering, excluding the finder fees and expense reimbursements, will be approximately \$20,000.

We have also agreed to indemnify Brighton against certain liabilities arising from any transaction in which Brighton acts as a finder.

DESCRIPTION OF COMMON STOCK

The following summary of the terms of our common stock does not purport to be complete and is subject to and qualified in its entirety by reference to our Charter and Bylaws, copies of which are on file with the Commission. See Where You Can Find More Information.

We have authority to issue 50,000,000 shares of common stock, \$.001 par value per share. As of June 5, 2002, we had 26,911,951 shares of common stock outstanding, held of record by approximately 364 stockholders.

Terms

Holders of our common stock are entitled to one vote per share on all matters to be voted upon by the stockholders. The holders of common stock are not entitled to cumulative voting rights with respect to election of directors, and as a consequence, minority stockholders will not be able to elect directors on the basis of their shares alone. Our board of directors is divided into three classes, with the term of each class expiring every third year at the annual meeting of stockholders. The number of directors is distributed equally between the three classes. Subject to the preferences that may be applicable to the holders of outstanding shares of preferred stock, if any, the holders of our common stock are entitled to receive ratably such lawful dividends as may be declared by the Board of Directors. In the event of liquidation, dissolution or winding up of NeoTherapeutics, and subject to the rights of the holders of outstanding shares of preferred stock, if any, the holders of shares of our common stock shall be entitled to receive pro rata all of our remaining assets available for distribution to our stockholders. Our common stock has no preemptive or conversion rights, other subscription rights, or redemption or sinking fund provisions. All outstanding shares of our common stock are fully paid and nonassessable. The rights, powers, preferences and privileges of holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock, if any.

Stockholder Rights Plan

On December 13, 2000, we adopted a Stockholder Rights Plan pursuant to which we have distributed rights to purchase units of our capital Series B Junior Participating Preferred Stock. The rights become exercisable upon the earlier of ten days after a person or group of affiliated or associated persons has acquired 20% or more of the outstanding shares of our common stock or ten business days after a tender offer has commenced that would result in a person or group beneficially owning 20% or more of our outstanding common stock. The description and terms of the rights are set forth in a Rights Agreement between us and U.S. Stock Transfer Corporation, as rights agent, filed with the Securities and Exchange Commission on December 26, 2000, as Exhibit 4.1 to our Form 8-A.

Certain Provisions of Delaware Law and of the Company's Charter and Bylaws

The following paragraphs summarize certain provisions of the Delaware General Corporation Law and the Company's Charter and Bylaws. The summary does not purport to be complete and is subject to and qualified in its entirety by reference to the DGCL and to the Company's Charter and Bylaws, copies of which are on file with the Commission. See Where You Can Find More Information.

Our Certificate of Incorporation and Bylaws contain provisions that, together with the ownership position of the officers, directors and their affiliates, could discourage potential takeover attempts and make it more difficult for stockholders to change management, which could adversely affect the market place of our common stock.

Our Certificate of Incorporation limits the personal liability of our directors to NeoTherapeutics and our stockholders to the fullest extent permitted by the Delaware General Corporation Law, or DGCL. The inclusion of this provision in our Certificate of Incorporation may reduce the likelihood of derivative litigation against directors

Table of Contents

and may discourage or deter stockholders or management from bringing a lawsuit against directors for breach of their duty of care.

Our Bylaws provide that special meetings of stockholders can be called only by the Board of Directors, the Chairman of the Board of Directors or the Chief Executive Officer. Stockholders are not permitted to call a special meeting and cannot require the Board of Directors to call a special meeting. There is no right of stockholders to act by written consent without a meeting, unless the consent is unanimous. Any vacancy on the Board of Directors resulting from death, resignation, removal or otherwise or newly created directorships may be filled only by vote of the majority of directors then in office, or by a sole remaining director. Our Bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, except for nominations made by or at the direction of the board of directors or a committee of the board. Our Bylaws also provide for a classified board. See **Terms** above.

We are subject to the **business combination** statute of the DGCL, an anti-takeover law enacted in 1988. In general, Section 203 of the DGCL prohibits a publicly-held Delaware corporation from engaging in a **business combination** with an **interested stockholder**, for a period of three years after the date of the transaction in which a person became an **interested stockholder**, unless:

prior to such date the board of directors of the corporation approved either the **business combination** or the transaction which resulted in the stockholder becoming an **interested stockholder**,

upon consummation of the transaction which resulted in the stockholder becoming an **interested stockholder**, the **interested stockholder** owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding those shares owned (1) by persons who are directors and also officers and (2) employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer, or

at or subsequent to such time the **business combination** is approved by the board of directors and authorized at an annual or special meeting of stockholders, and not be written consent, by the affirmative vote of a least 66-2/3% of the outstanding voting stock which is not owned by the **interested stockholder**.

A **business combination** includes mergers, stock or asset sales and other transactions resulting in a financial benefit to the **interested stockholders**. An **interested stockholder** is a person who, together with affiliates and associates, owns (or within three years, did own) 15% or more of the corporation's voting stock. Although Section 203 permits us to elect not to be governed by its provisions, we have not made this election. As a result of the application of Section 203, potential acquirers of NeoTherapeutics may be discouraged from attempting to effect an acquisition transaction with us, thereby possibly depriving holders of our securities of certain opportunities to sell or otherwise dispose of such securities at above-market prices pursuant to such transactions.

Transfer Agent and Registrar

The transfer agent and registrar for the common stock is U.S. Stock Transfer Corporation.

DESCRIPTION OF WARRANTS

As of June 5, 2002, we had warrants to purchase 6,905,847 shares of our common stock outstanding at a weighted average exercise price of \$21.24 per share (other than options issued under our stock option plans and non-qualified options issued to our employees and consultants outside of our stock option plans).

This prospectus supplement relates to the issuance of warrants to purchase up to 253,500 shares of our common stock and the issuance of the shares of common stock upon exercise of the warrants. The warrants will have an exercise price of \$0.45 per share and are immediately exercisable. The warrants will expire if not exercised within five years of their date of issuance. The shares of common stock underlying the warrants, when issued upon exercise of the warrants, will be fully paid and nonassessable, and we will pay any transfer tax incurred as a result of the issuance of the underlying common stock except for any tax payable in respect of any transfer in a name other than the holders.

Table of Contents

The warrants contain provisions that protect the holders against dilution by adjustment of the exercise price and the number of shares issuable. Such adjustments will occur in the event, among others, of a:

merger,

stock split or reverse stock split,

stock dividend,

sale or transfer of all or substantially all of assets,

recapitalization, or

distribution of assets (other than a liquidation).

We are not required to issue fractional shares upon the exercise of the warrants. The holders of the warrants will not possess any rights as shareholders of NeoTherapeutics until such holders exercise the warrants.

Each warrant may be exercised upon surrender of the warrant on or before the expiration date of the warrant at our offices with the Form of Election to Purchase attached to the warrant completed and executed as indicated, accompany by payment of the exercise price in immediately available funds, by certified or bank draft or by wire transfer to an account designated by us, for the number of shares with respect to which the warrant is being exercised. We will promptly deliver certificates representing the purchased shares to the registered holder of the warrant, registered in the name specified in the Form of Election to Purchase. The warrants do not contain provisions for cashless exercise and there is no minimum or maximum amount which may be exercised at any one time.

The warrants may not be transferred or assigned without our prior written consent except in certain limited circumstances. We shall register the transfer or assignment of any portion of a warrant in the warrant register upon surrender of the warrant at our offices with the Form of Assignment attached to the warrant completed and executed as indicated. Upon any such transfer or assignment, a new warrant evidencing the portion transferred shall be issued to the transferee, and a new warrant evidencing the remaining portion not transferred shall be issued to the transferor. Each warrant is exchangeable, upon surrender of the warrant at our offices, for one or more new warrants, evidencing in the aggregate the right to purchase the number of shares of our common stock which may then be purchased pursuant to the warrant.

For the life of the warrants, the holders of the warrants have the opportunity to profit from a rise in the market price of our common stock without assuming the risk of ownership of the shares of the underlying common stock. The warrant holders may be expected to exercise the warrants at a time when we would, in all likelihood, be able to obtain any needed capital by an offering of our common stock on terms more favorable than those provided for by the warrants. Furthermore, the terms on which we obtain additional capital during the life of the warrants may be adversely affected.

The warrants will not be listed on any exchange or quotation system. We will act as warrant agent under the warrants.
