PROXY STATEMENT

**2011 ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD ON MAY 25, 2011**

The Board of Directors of Image Sensing Systems, Inc. (the Company) is soliciting proxies for use at our annual meeting of shareholders to be held on May 25, 2011, and at any adjournment of the meeting. This proxy statement and the enclosed proxy card are first being mailed or given to shareholders on or about April 28, 2011.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND VOTING

What is the purpose of the meeting?

At our annual meeting, shareholders will act upon the matters described in the Notice of Annual Meeting of Shareholders. These consist of the election of directors and the ratification of the appointment of our independent registered public accounting firm. Also, management will report on our performance during the last fiscal year and respond to questions from shareholders.

Who is entitled to vote at the meeting?

The Board of Directors has set March 28, 2011 as the record date for the annual meeting. If you were a shareholder of record at the close of business on March 28, 2011, you are entitled to notice of and to vote at the annual meeting.

As of the record date, 4,880,819 shares of common stock, par value \$.01 per share, were issued and outstanding and, therefore, eligible to vote at the annual meeting.

What are my voting rights?

Holders of our common stock are entitled to one vote per share. Therefore, a total of 4,880,819 votes are entitled to be cast at the meeting. There is no cumulative voting for directors.

How many shares must be present to hold the meeting?

In accordance with our bylaws, shares equal to at least a majority of the voting power of the outstanding shares of our common stock as of the record date must be present at the meeting in order to hold the meeting and conduct business. This is called a quorum. Shares are counted as present at the meeting if:

you are present and vote them in person at the meeting; or

you have properly submitted a proxy by mail.

How do I vote my shares?

If you are a shareholder of record, you can give a proxy to be voted at the meeting by completing, signing and mailing the enclosed proxy card. If you properly execute, duly return and do not revoke your proxy, it will be voted in the manner you specify.

Can I vote my shares in person at the meeting?

If you are a shareholder of record, you may vote your shares in person at the meeting by completing a ballot at the meeting. Even if you currently plan to attend the meeting, we recommend that you also submit your proxy as described above so that your vote will be counted if you later decide not to attend the meeting.

Table of Contents

What vote is required for the election of directors or for a proposal to be approved?

In accordance with Minnesota law, if a quorum is present, the nominees for election as directors will be elected by a plurality of the votes cast at the annual meeting. This means that because shareholders will be electing seven directors, the seven nominees receiving the highest number of votes will be elected. The affirmative vote of a majority of the shares of our common stock present in person or by proxy and entitled to vote at the annual meeting is required to approve the other proposal (provided that a quorum is present at the meeting).

How are votes counted?

You may either vote **FOR** or **WITHHOLD AUTHORITY** to vote for each nominee for the Board of Directors. You may vote **FOR**, **AGAINST** or **ABSTAIN** on the other proposal.

If you submit your proxy but abstain from voting or withhold authority to vote on one or more matters, your shares will be counted as present at the meeting for the purpose of determining a quorum. Your shares also will be counted as present at the meeting for the purpose of calculating the vote on the particular matter with respect to which you abstained from voting or withheld authority to vote.

If you withhold authority to vote for one or more of the directors, this has no effect on the election of those directors. If you abstain from voting on a proposal, your abstention has the same effect as a vote against that proposal.

If you hold your shares in **street name** and do not provide voting instructions to your broker, your shares will be considered to be **broker non-votes** and will not be voted on any proposal on which your broker does not have discretionary authority to vote. Shares that constitute broker non-votes will be counted as present at the meeting for the purpose of determining a quorum but will not be represented at the meeting for purposes of calculating the vote with respect to such matter or matters. This effectively reduces the number of shares needed to approve such matter or matters.

What is the difference between a **shareholder of record and a shareholder who holds stock in **street name** ?**

If you hold our shares directly in your name with our transfer agent, Continental Transfer and Trust Company, you are a **shareholder of record** (also known as a **registered shareholder**). The Notice of Annual Meeting, Proxy Statement, 2010 Annual Report to Shareholders, and proxy card have been sent directly to you by us or our representative.

If you own your shares indirectly through a broker, bank, or other financial institution, your shares are said to be held in **street name**. Technically, the bank or broker is the shareholder of record with respect to those shares. In this case, the Notice of Annual Meeting, Proxy Statement, Annual Report to Shareholders, and a voting instruction form have been forwarded to you by your broker, bank or other financial institution or their designated representative. Through this process, your bank or broker collects the voting instructions from all of their respective customers who hold our shares and then submits those votes to us.

Because of a change in the rules of The NASDAQ Stock Market (NASDAQ) effective in 2010, your broker will NOT be able to vote your shares with respect to the election of directors unless you provide voting instructions to it. We strongly encourage you to return your voting instruction form and exercise your right to vote.

What is a broker non-vote?

A broker non-vote occurs when a broker's or bank's customer does not provide the broker or bank with voting instructions on **non-routine** matters for shares owned by the customer (sometimes referred to as the **beneficial owner**) but held in the name of the broker or bank. For such matters, the broker or bank cannot vote on behalf of the beneficial owner and reports the number of such shares as **non-votes**. By contrast, if a proposal is considered **routine**, the broker or bank, in its discretion, may vote any shares as to which it has not received specific instructions from its customer. Each bank or broker has its own policies that control whether or not it casts votes for routine matters.

Table of Contents

Whether the proposal is non-routine or routine is governed by NASDAQ rules. The election of directors (Proposal 1 on the Notice of Annual Meeting) is considered non-routine by NASDAQ; the ratification of our independent registered public accounting firm (Proposal 2) is considered routine.

What is the effect of not casting my vote?

Changes in NASDAQ regulations in 2010 eliminated the ability of your bank or broker to vote your uninstructed shares in the election of directors on a discretionary basis. Therefore, if you hold your shares in street name and you do not instruct your bank or broker how to vote in the election of directors (Proposal 1), no votes will be cast on your behalf. In the past, if you held your shares in street name and you did not indicate how you wanted your shares voted in the election of directors, your bank or broker was allowed to vote those shares on your behalf in the election of directors as it felt appropriate.

Your bank or broker will, however, continue to have discretion to vote any uninstructed shares on the ratification of the appointment of the Company's independent registered public accounting firm (Proposal 2). If you are a shareholder of record and you do not cast your vote, no votes will be cast on your behalf on any proposals at the Annual Meeting.

How does the Board of Directors recommend that I vote?

The Board of Directors recommends a vote:

FOR all of the nominees for director; and

FOR the ratification of the appointment of Grant Thornton LLP as our independent registered public accounting firm for the 2011 fiscal year.

What if I do not specify how I want my shares voted?

If you submit a signed proxy card and do not specify how you want to vote your shares, we will vote your shares:

FOR all of the nominees for director;

FOR the ratification of the appointment of Grant Thornton LLP as our independent registered public accounting firm for the 2011 fiscal year; and

in the discretion of the persons named in the proxy on any other proposals that properly come before the meeting and as to which we did not receive notice before March 17, 2011.

Can I change my vote after submitting my proxy or voting instructions?

Yes. You may revoke your proxy at any time before the proxy vote is cast at the annual meeting in any of the following ways:

by giving written notice of revocation to Gregory R. L. Smith, our Chief Financial Officer and Corporate Secretary;

by submitting a later-dated proxy; or

by voting in person at the meeting.

Table of Contents

Who pays for the cost of proxy preparation and solicitation?

We pay for the cost of proxy preparation and solicitation.

We are soliciting proxies primarily by mail. In addition, some of our officers, directors and regular employees may solicit the return of proxies by telephone, facsimile or personally. These individuals will receive no additional compensation for these services.

How can I communicate with the Board of Directors?

Shareholders may communicate with our Board of Directors by sending a letter addressed to the Board of Directors or specified individual directors to:

The Office of the Corporate Secretary
Image Sensing Systems, Inc.
500 Spruce Tree Centre
1600 University Avenue West
St. Paul, MN 55104

Our Corporate Secretary will deliver such letters to a director that can address the matter, or to a specified director if so addressed.

CORPORATE GOVERNANCE

Our Board of Directors and management are dedicated to exemplary corporate governance. In 2004, we adopted a Code of Ethics and Business Conduct. This Code is a statement of our high standards for ethical behavior and legal compliance, and it governs the manner in which we conduct our business. A copy of our Code of Ethics and Business Conduct can be found on our website at www.imagesensing.com by clicking on Investor Relations and then on Corporate Code of Ethics and Business Conduct.

Board Composition and Meetings

Our Board of Directors has determined that five of our seven directors are independent directors as defined under the applicable rules of the SEC and NASDAQ. The five independent directors are James W. Bracke, Michael G. Eleftheriou, James Murdakes, Panos G. Michalopoulos and Sven A. Wehrwein. Each of the Committees of the Board is composed of only independent directors. In making the independence determinations, we reviewed all of our directors' relationships with us based primarily on a review of the responses of the directors to questions regarding employment, business, familial, compensation and other relationships with us and our management.

We believe our Board of Directors, taken as a whole, possesses an appropriate combination of skills and experiences. The majority of our Board members have experience in operating and advising high-growth technology-based businesses. Individually, our directors have varied experiences in small and large publicly-held companies, in the operational areas of engineering, sales, marketing and finance and in academic and applied settings within the traffic industry.

The Board of Directors held nine meetings during 2010 in addition to Board Committee meetings. Each director attended at least 75% of the total meetings of the Board and Board Committees on which the director served during 2010.

Board Leadership Structure

We separate the roles of Chief Executive Officer and Chairman of the Board of Directors. The Company believes that such a separation benefits the Company by enhancing the opportunities for checks and balances between the Company's strategies and its objectives and ensuring that a wider selection of alternative measures are considered. Our current Chairman, James Murdakes, has served in that role since February 2002, and our current Chief Executive Officer, Kenneth R. Aubrey, has served in that role since May 2007.

Risk Oversight

The Board of Directors, in conjunction with management, has identified and prioritized various enterprise risks, and each prioritized risk is assigned to a Board Committee or the full Board for oversight. For example, financial risks are overseen by the Audit Committee; compensation risks are overseen by the Compensation and Stock Option Committee; Chief Executive Officer succession planning is overseen by the Governance and Nominating Committee; and strategic, legal and compliance risks are typically overseen by the full Board. Management regularly reports on each such risk to the relevant Committee or the Board, and material risks identified by a relevant Committee are then presented to the full Board. Additional review or reporting on enterprise risks is conducted as needed or as requested by the Board or Committee. Coordination of management's review of risks is performed by the Chief Financial Officer, who reports to the Chief Executive Officer.

Table of Contents**Board Committees**

Our Board of Directors conducts its business through meetings of the Board and the following three Committees: Audit Committee, Compensation and Stock Option Committee, and Nominating and Corporate Governance Committee. Each of these Committees has adopted and operates under a written charter. Copies of the charters are posted on our website at www.imagesensingsystems.com. The current membership of the Committees is described below.

Audit Committee	Compensation and Stock Option Committee	Nominating and Corporate Governance Committee
Sven A. Wehrwein (Chair)	Michael G. Eleftheriou (Chair)	Panos G. Michalopoulos (Chair)
James W. Bracke	Panos G. Michalopoulos	James W. Bracke
Michael G. Eleftheriou	Sven A. Wehrwein	Sven A. Wehrwein

Audit Committee

The Audit Committee is responsible for the selection and compensation of the independent registered public accounting firm, and it reviews with the independent registered public accounting firm the scope of the annual audit, matters of internal control and procedure and the adequacy thereof, the audit results and reports and other general matters relating to our accounts, records, controls and financial reporting. The Audit Committee members meet the requirements for financial literacy under the applicable rules and regulations of the SEC and NASDAQ. Our Board of Directors has identified James W. Bracke, Michael G. Eleftheriou and Sven A. Wehrwein to be audit committee financial experts as defined in the applicable rules of the SEC. Each member of our Audit Committee possesses the financial qualifications required of audit committee members set forth in the rules and regulations of NASDAQ and under the Securities Exchange Act of 1934. During 2010, the Audit Committee held seven meetings.

Compensation and Stock Option Committee

The Compensation and Stock Option Committee reviews and recommends to the Board of Directors the compensation guidelines and stock option grants for executive officers and other key personnel. During 2010, the Compensation and Stock Option Committee held five meetings. The Committee's primary responsibilities include:

annually reviewing and approving corporate goals and objectives relevant to the compensation of the Company's named executive officers, including its Chief Executive Officer and Chief Financial Officer, evaluating their performances in light of those goals and objectives, and subsequently determining their incentive compensation levels based on this evaluation and other factors deemed relevant and appropriate by the Committee;

annually reviewing and determining for our named executive officers, including our Chief Executive Officer and Chief Financial Officer, their annual base salary level, their annual incentive opportunity levels, employment agreements, severance arrangements and change of control agreements/provisions, and special or supplemental benefits, if any; and

reviewing and making recommendations to the Board of Directors with respect to compensation programs and policies, including incentive compensation plans and equity-based plans.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee recommends new director nominees to the Board and recommends policy guidelines on corporate governance issues. During 2010, the Nominating and Corporate Governance Committee held two meetings.

Compensation Committee Interlocks and Insider Participation

No executive officer serves as a member of the board of directors or compensation committee of any entity that has any of its executive officers serving as a member of our Board of Directors or Compensation Committee.

Executive Sessions of the Board

At least twice annually, our independent directors meet in executive session without any director who does not meet the independence requirements of the listing standards of NASDAQ being present. During 2010, our independent directors met more than two times in executive session.

Board Nomination Process

The Nominating and Corporate Governance Committee determines the required selection criteria and qualifications of director nominees based upon our needs at the time nominees are considered. Directors should possess the highest personal and professional ethics, integrity and values and be committed to representing the long-term interests of our shareholders. In evaluating a candidate for nomination as a director of Image Sensing Systems, Inc., the Nominating and Corporate Governance Committee considers criteria including business and financial expertise; where the director resides; experience as a director of a public company; diversity of background and experience on the Board; and general criteria such as ethical standards, independent thought, practical wisdom and mature judgment. The Nominating and Corporate Governance Committee will consider these criteria for nominees identified by the Nominating and Corporate Governance Committee, by shareholders, or through some other source. The Nominating and Corporate Governance Committee does not have a policy that specifically addresses diversity in its nominating process.

The Nominating and Corporate Governance Committee will consider qualified candidates for possible nomination that are submitted by our shareholders. Shareholders wishing to make such a submission may do so by sending the following information to the Nominating and Corporate Governance Committee, c/o Corporate Secretary, at the address indicated on the Notice of Annual Meeting of Shareholders: (1) name of the candidate and a brief biographical sketch and resume; (2) contact information for the candidate and a document evidencing the candidate's willingness to serve as a director if elected; and (3) a signed statement as to the submitting shareholder's current status as a shareholder and the number of shares currently held.

The Nominating and Corporate Governance Committee conducts a process of making a preliminary assessment of each proposed nominee based upon the resume and biographical information, an indication of the individual's willingness to serve and other background information. This information is evaluated against the criteria set forth above and our specific needs at that time. Based upon a preliminary assessment of the candidate(s), those who appear best suited to meet our needs may be invited to participate in a series of interviews, which are used as a further means of evaluating potential candidates. On the basis of information learned during this process, the Nominating and Corporate Governance Committee determines which nominee(s) to recommend to the Board to submit for election at the next annual meeting. The Nominating and Corporate Governance Committee uses the same process for evaluating all nominees, regardless of the original source of the nomination.

No candidates for director nominations were submitted by any shareholder in connection with the 2010 annual meeting.

Policy Regarding Attendance at Annual Meetings

We encourage, but do not require, our Board members to attend the annual meeting of shareholders. Last year, all of our directors attended the annual shareholders meeting.

Non-Employee Director Compensation

During 2010, each of our non-employee directors received a \$12,000 annual retainer, \$1,000 for each regular Board meeting attended, \$750 for each Committee meeting attended and \$500 for each special Board meeting attended. The Chairman of the Board received an additional \$5,000 annual retainer. The Committee chairs received the following additional annual retainers: Audit Committee - \$4,000; Compensation and Stock Option Committee - \$3,000; and Nominating and Corporation Governance Committee - \$3,000. Special Committees

formed by the Board received \$750 for each special Committee meeting attended, with the Chair receiving an additional \$750 for each special Committee meeting attended. We have kept the director compensation program the same for 2011.

In connection with their initial appointment or election to the Board, non-employee directors are granted a non-incentive stock option to purchase shares of our common stock, the number of which is negotiated with each director, at an exercise price equal to the closing price on the most recent business day before the grant date. The option shares become exercisable in three equal installments on each of the first, second and third anniversary of the date of grant. Additionally, annual option awards of 4,000 shares are granted to non-employee directors who have not received an initial option grant within the previous year. All of these grants are made under our 2005 Stock Incentive Plan.

The following table provides information regarding the compensation earned by the members of the Board of Directors in 2010, other than Mr. Aubrey, who receives no compensation for being a director, and Mr. Doyle, who did not become a director until April 2011:

EXECUTIVE COMPENSATION**Compensation Discussion and Analysis****Overview**

This compensation discussion describes the material elements of compensation awarded to, earned by or paid to each of our named executive officers. During 2010, our named executive officers were Kenneth R. Aubrey, our President and Chief Executive Officer; Gregory R. L. Smith, our Chief Financial Officer; and Dan Manor, the Managing Director of ISS Image Sensing Systems Canada Ltd. Mr. Manor retired from the Company in December 2010. The Board has determined that Mr. Daniel W. Skites, our Vice President of Sales and Marketing who began employment in November 2010, is a reporting person under Section 16(a) of the Securities and Exchange Act of 1934.

Table of Contents***Objectives of the Compensation Program***

The Compensation and Stock Option Committee sets the compensation programs for Messrs. Aubrey and Smith. The independent members of our Board approves their compensation. Mr. Dan Manor was compensated as provided under his employment agreement, which was approved by our Board of Directors in connection with our purchase of the EIS assets in December 2007.

The primary objective of our various compensation programs is to attract, motivate and retain key executives and align their compensation with our overall performance. Our Compensation and Stock Option Committee believes that incentive, performance-based compensation can be a key factor in motivating executive performance to maximize shareholder value and align executive performance with our corporate objectives and shareholder interests. To this end, the Committee has established a compensation philosophy that includes the following considerations:

an emphasis on performance-based compensation that differentiates compensation results based upon varying elements of company and individual performance;

a recognition of both quantitative and qualitative performance objectives based upon an executive officer's responsibilities; and

a mix of short-term cash and long-term equity-based compensation.

The Committee believes it is important, when making its compensation-related decisions, to be informed as to current practices of similarly situated companies, but the Committee does not rely on any specific comparator group in making compensation decisions. The Committee does not engage in benchmarking compensation against comparator groups, and it has not established targeted percentile rankings with respect to total compensation or the specific elements of compensation for the Company's named executive officers. Members of our Board of Directors and members of the Committee are experienced in compensation matters and leverage such experience in addressing compensation matters and practices.

Design of the Compensation Program for the Chief Executive and Chief Financial Officers

The Committee has designed the compensation program for the Chief Executive Officer and Chief Financial Officer to achieve the objectives described above, to ensure market competitiveness and to assure satisfaction of our objective of providing total executive pay that achieves an appropriate balance of variable pay-for-performance and at-risk compensation. The compensation program will reward the officer based upon corporate performance as well as the performance of that officer.

The compensation program includes consideration for the following elements: base salary, annual cash incentives, stock option grants and other benefits. We characterize the annual cash incentives and the stock options that are granted to our named executive officers as performance-based compensation. Our executive compensation policy provides that a significant portion of the total compensation payable to our named executive officers will be in the form of performance-based compensation. Although we do not have a target for each element of compensation relative to total compensation, the following table shows actual bonus payment amounts relative to total compensation paid for 2010 and 2009 to Messrs. Aubrey and Smith.

Named Executive Officer	Year	Actual Total Compensation	Actual Bonus Paid	Actual Bonus Paid as % of Total Compensation
Kenneth R. Aubrey	2010	\$ 506,000	\$ 76,000	15.0%
	2009	\$ 404,175	\$ 49,000	12.1%
Gregory R. L. Smith	2010	\$ 279,000	\$ 39,000	14.0%
	2009	\$ 244,260	\$ 24,000	9.8%

Table of Contents

The elements of our compensation program are described below:

Base Salaries. Base salary is an important element of executive compensation because it provides executives with a fixed level of regular periodic income. In determining base salaries for our named executive officers, the Committee considers historic individual and corporate performance, level of responsibility and market and competitive data. The Committee establishes base salaries at a level such that a significant portion of the total compensation that a named executive officer can earn is performance-based cash incentives and equity awards.

Annual Cash Incentive. As part of our executive compensation program, our executive officers may receive annual cash incentive awards pursuant to our annual cash bonus program. Targeted bonus amounts are designed to provide competitive incentive pay and reflect our pay-for-performance philosophy. For 2010, Messrs. Aubrey and Smith received bonuses of \$76,000 and \$39,000, respectively, which amounts represent approximately 70% and 72% of each executive officer's maximum potential bonus. The Committee historically has reviewed target bonus amounts annually.

Performance objectives intended to focus attention on achieving key goals are established at the beginning of each fiscal year. The primary quantitative objective is achievement of revenue and net income targets set forth in our annual operating plan established by the Board of Directors. Specifically, these include metrics such as revenue and net profit (after tax) and international operations revenue and operating profit. Additionally, each named executive officer's performance is judged on success in achieving certain strategic and operational initiatives. In evaluating an executive's performance, the Committee may consider other factors in awarding bonuses and may, in its discretion, award as a discretionary bonus a portion of any bonus amount that is not earned based upon achievement of the financial metrics described above. The Committee reviews the individual incentive components of Messrs. Aubrey's and Smith's employment agreements, described below, and evaluates the objective portions relative to our performance. The Committee also evaluates the subjective, individual performance goals in determining the total amount of bonus to be awarded, and has the ability to exercise discretion with respect to this portion. For Messrs. Aubrey and Smith, up to one-third of the bonus calculation may be associated with strategic and operational initiatives and, as such, is considered to be discretionary.

Stock Option Grants. Our executive officers also may receive equity-based incentive compensation under our 2005 Stock Incentive Plan. Grants under the 2005 Stock Incentive Plan are designed to align a significant portion of the executive compensation package with the long-term interests of our shareholders. All stock options granted by the Committee in 2010 to executive officers vest 25% on each anniversary of the grant date, beginning on the first anniversary date of the date of grant. This vesting schedule is intended to require long-term focus on performance for the executive to realize value from the exercise of stock options. In addition, stock options are generally granted with an exercise price equal to the closing sale price of the stock the day before the grant, and they provide no cash benefit if the price of the stock does not exceed the grant price during the option's term. Therefore, for any value to be derived from an option grant, our performance needs to result in increased stock price performance and shareholder value over a multi-year period.

Individual equity awards historically have been recommended by the Committee based on an officer's current performance, potential for future contribution and responsibility and market competitiveness. Messrs. Aubrey and Smith received option grants in 2010 of 30,000 and 10,000 shares, respectively.

Retirement Plans. We generally expect executives to plan for and fund their own retirement. We maintain a 401(k) plan that permits eligible employees, including our named executive officers, to defer a limited portion of salary and bonus into any of several investment alternatives. We make matching contributions equal to 50% of the first 6% of compensation deferred by employees subject to a maximum annual match of \$5,000 and maximums established under the Internal Revenue Code of 1986. We may also make discretionary contributions to the 401(k) plan as profit sharing. Payments made to named executive officers for matching contributions and profit sharing are included in the Summary Compensation Table below. We do not maintain defined benefit retirement or senior executive retirement plans or provide post-retirement medical benefits for our executive officers.

Table of Contents

Other Benefits and Perquisites. Our executive compensation program also includes other benefits and perquisites. The named executive officers participate in company-sponsored group benefit plans such as health, life and disability insurance plans available to all employees. In addition, executive officers may upon joining the company receive assistance in relocating. For more detailed information regarding benefits and perquisites provided to our executive officers, see the Summary Compensation Table included elsewhere in this proxy statement.

2011 Compensation Program. For 2011, the Compensation and Stock Option Committee set base salaries of \$260,000 and \$180,000 for Messrs. Aubrey and Smith, respectively. The annual cash incentive tiers for Messrs. Aubrey and Smith for threshold/target/superior performance are \$40,000/\$80,000/\$120,000 and \$20,000/\$40,000/\$60,000, respectively. The annual cash incentive program components are similar in nature to previous years. The Committee determines stock option grants, if any, after the year has concluded and does not have a predetermined formula for making such awards.

Named Executive Officers Role in Compensation Decisions

The Committee recommends to the Board of Directors the actual and targeted compensation of our named executive officers. The Board, with the non-independent members abstaining, approves the compensation of our executive officers. The Committee determines its recommendations regarding each named executive officer's compensation plan based on major goals and objectives established by the Board of Directors. The Committee also receives input from our Chief Executive Officer regarding an executive officer's leadership capabilities, past performance and potential for future contributions when making its recommendations on actual and targeted compensation amounts for named executive officers.

Other Considerations

Although the Committee considers tax and accounting issues in connection with its compensation decisions, those have not become material factors in the Committee's compensation decisions to date.

Outstanding Equity Awards at Fiscal Year-End 2010

In February 1995, we adopted the 1995 Long-Term Incentive and Stock Option Plan, and in April 2005, we adopted the 2005 Stock Incentive Plan, which provide for the granting of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock awards and performance awards to our officers, directors, employees, consultants and independent contractors. The 1995 plan expired in February 2005, although its expiration did not affect the options then outstanding under the plan. Only incentive stock options and non-qualified stock options have been granted to date under the 1995 plan and the 2005 plan. Options granted to employees under the plans generally vest over three to five years based on service and have a contractual term of six to ten years. As of December 31, 2010, there were options outstanding under the plans to purchase 463,433 shares with a weighted average exercise price per share of \$9.11.

On May 10, 2010, Mr. Gregory R. L. Smith exercised an option to purchase 500 shares of our common stock at an exercise price of \$9.22 per share when the market price of our common stock was \$12.86 per share, realizing an aggregate dollar amount of \$1,820. There were no other stock options exercised by the named executive officers in 2010. We currently do not have programs involving direct or restricted stock grants.

Stock Options

Under the terms of our stock incentive plans, if a participant's employment with us terminates by reason of the participant's death or disability, then, to the extent a stock option held by the participant is vested as of the date of death or disability, the stock option may be exercised by the participant, the legal representative of the participant's estate, the legatee of the participant under the will of the participant, or the distributee of the participant's estate, whichever is applicable, for a period of one year from the date of death or disability or until the expiration of the stated term of the stock option, whichever period is shorter. Any options that are not vested as of the date of death or termination due to disability will immediately lapse and be of no further force or effect.

If a participant's employment with us terminates for any reason other than death or disability or other than for cause, then, to the extent any stock option held by the participant is vested as of the date of termination, the stock option may be exercised for a period of 90 days from the date of termination or until the expiration of the stated term of the stock option, whichever period is shorter. Any options that are not vested as of the date of termination will immediately lapse and be of no further force or effect. Upon the termination of the participant's employment by us

for cause, any and all unexercised stock options granted to the participant will immediately lapse and be of no further force or effect.

In the event of a change in control of our company, all stock options held by executive officers then outstanding and not fully vested will become fully vested and exercisable in accordance with their terms. For purposes of the stock option plans under which there are outstanding and not fully vested stock options, a change in control means the happening of one of the following:

a public announcement that any entity has acquired or has the right to acquire beneficial ownership of 51% or more of the then outstanding shares of common stock of our company;

the commencement of or public announcement of an intention to make a tender or exchange offer for 51% or more of the then outstanding shares of the common stock of our company;

a sale of all or substantially all of the assets of our company; or

the Board of Directors, in its sole discretion, determines that there has been a sufficient change in the stock ownership of our company to constitute a change in control.

Employment Agreements

Kenneth R. Aubrey

On December 12, 2006, we entered into an employment agreement with Kenneth R. Under the asset purchase agreement for our EIS asset purchase in December 2007, the sellers of the EIS assets, consisting of Dan Manor and EIS (which is now known as Mendon Faydan, Inc. and is controlled by Mr. Manor), had an earn-out arrangement over approximately three years. The earn-out was based on earnings from sales of the RTMS line of products that we bought from EIS, less related cost of revenue and operating expenses, depreciation and amortization, and it was calculated annually. The earn-out is complete as of December 31, 2010. Based on the 2008, 2009 and 2010 results for RTMS, Mr. Manor and Mendon Faydan, Inc. were entitled to receive \$1.2 million, \$1.5 million and \$1.7 million in earn-out payments, respectively, each of which we paid to them in March of the following year. The EIS asset purchase agreement was approved by our Board of Directors.

Michael C. Doyle was appointed to the Company's Board of Directors on April 5, 2011. Mr. Doyle is the Chairman of the Board and Chief Executive Officer and owns, directly or indirectly, substantially all of the equity interest of Econolite Group, Inc., a traffic control equipment manufacturer and distributor and the parent company to Econolite Control Products, Inc. (Econolite). The Company has granted to Econolite the exclusive right to manufacture, market and distribute the Company's Autoscope® system in North America, Latin and the Caribbean under the Manufacturing, Distributing and Technology License Agreement dated June 11, 1991 by and between the Company and Econolite, as amended (the Econolite Agreement), which expires in 2028. Under the Econolite Agreement, Econolite pays the Company a royalty on the revenue derived from its sales of the Company's Autoscope system. During the year ended December 31, 2010, Econolite paid \$12.5 million in royalties to the Company, which represented 40% of the Company's 2010 revenue. The Econolite Agreement was negotiated and entered into before Mr. Doyle was appointed to the Company's Board.
