PART I

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Net income for the first nine months ended September 30, 2002, was down 26.6% from the same nine months in 2001, and net income for the quarter ended September 30, 2002, was down 32.5% when compared to the third quarter of 2001.

All sources of revenues were lower in 2002 both for the nine months as well as the third quarter when compared to the corresponding periods in 2001. Income for the nine months for oil and gas properties was down 19% compared to 2001, but down only 8.5% for the third quarter when compared to the third quarter of 2001. The primary source of oil and gas income in 2001 was the North English Bayou field which became depleted in 2002. The principle source in 2002 is from the Company's interest in the North Gordon field. This production is from one well which has a relatively short life.

Timber income for the nine months was down 44.9% from 2001 and agriculture income was down 18.7% from 2001. We do not project either our timber or our agriculture income to be as much in 2002 as in 2001. Oil and gas, agriculture and forestry expenses were all higher for the nine months ended September 30, 2002, compared to 2001 but they were more than offset by lower general and administrative expenses and depletion expense.

In September, 2001, the Company received an invoice from the National Pollution

Edgar Filing: CALCASIEU REAL ESTATE & OIL CO INC - Form 10-Q

Funds Center for cleanup of an old oil well site. The Company protested as an innocent landowner since the spill occurred long before the Company's ownership and the Company did not participate in the mineral production. We received no further communications until September, 2002, when another invoice was received for charges overlooked on the first bill. Our share of the costs is approximately \$100,000. Our legal counsel feels we have strong defenses and we are contesting the charges.

The Company is in the process of closing on the purchase of 280 acres of land at a cost of \$157,000 plus expenses.

The enclosed financial statements are unaudited with the exception of the Balance Sheet for December 31, 2001. The unaudited interim financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. All such adjustments are of a normal recurring nature.

Management believes that the Company's revenues will be sufficient to meet its existing needs and the needs for its anticipated future operations. Management does not presently anticipate that the Company will incur material additional liabilities in its future operations. The Company participates in no off-balance sheet entities.
