2 SEMI-ANNUAL REPORT FEBRUARY 28, 2010	

# Dear Shareholder

The past year marked a pivotal turning point for global markets as the Great Recession that started in December 2007 began to recede and give way to recov-

ery. The dramatic about-face could be attributed to a confluence of factors, most notably the extraordinary policy actions of global governments and central

banks, a resurgence in corporate profits and growing signs of stability and healing in world economies.

After reaching a trough in early March 2009, stocks galloped higher as investors were lured back into the markets by depressed valuations, desire for higher

yields and increasing confidence that all-out financial disaster had been averted. The result was a powerful upswing in global equities and other higher-risk

assets through the end of 2009. More recently, the combination of mixed economic data, lingering deflation issues (especially in Europe) and proposed fees

and levies on banks dampened investor conviction, resulting in a several-week bout of profit-taking. The selloff had a more pronounced negative effect on inter-

national and emerging market equities due primarily to concerns of higher interest rates in Asia and negative headlines out of Europe, particularly in Greece.

Generally speaking, investors renewed affinity for risk was notable in the fixed income markets as well, where non-Treasury assets made a robust recovery. One

of the major themes in 2009 was the reversal of the flight-to-quality trade. High yield, one of the most battered areas during the financial crisis, emerged as

the strongest-performing fixed income sector in both the taxable and tax-exempt space. Despite weak fundamentals, the municipal market produced solid

returns as technical conditions remained supportive of the asset class. Municipal bond mutual funds enjoyed strong inflows and tax-exempt issuance remained

low thanks to the ever-increasing popularity of the Build America Bond program. Nevertheless, state and local fiscal woes and bankruptcy fears remain firmly in

the spotlight, and bear close monitoring.

At the same time, yields on money market securities declined throughout the reporting period and remain near all-time lows, with the Federal Open Market

Committee reiterating that economic circumstances are likely to necessitate an accommodative interest rate stance for an extended period. Investor assets in

money market funds declined from the peak registered in early 2009, but remain above levels registered prior to the financial crisis that began in 2007.

Against this backdrop, the major market averages posted the following returns:

Total Returns as of February 28, 2010	6-month	12-month
US equities (S&P 500 Index)	9.32%	53.62%
Small cap US equities (Russell 2000 Index)	10.59	63.95
International equities (MSCI Europe, Australasia, Far East Index)	0.72	54.58
3-month Treasury bill (BofA Merrill Lynch 3-Month Treasury Bill Index)	0.07	0.20
US Treasury securities (BofA Merrill Lynch 10-Year US Treasury Index)	0.07	(1.54)
Taxable fixed income (Barclays Capital US Aggregate Bond Index)	3.19	9.32
Tax-exempt fixed income (Barclays Capital Municipal Bond Index)	4.13	9.98
High yield bonds (Barclays Capital US Corporate High Yield 2% Issuer Capped Index)	13.86	55.20

Past performance is no guarantee of future results. Index performance shown for illustrative purposes only. You cannot invest directly in an index.

The market continues to show signs of improvement, but questions about the strength and sustainability of the recovery abound. Through periods of uncer-

tainty, BlackRock s full resources are dedicated to the management of our clients assets. For additional market perspective and investment insight, visit

www.blackrock.com/shareholdermagazine, where you II find the most recent issue of our award-winnin@hareholder® magazine, as well as its quarterly com-

panion newsletter, Shareholder Perspectives. As always, we thank you for entrusting BlackRock with your investments, and we look forward to your continued

partnership in the months and years ahead.

THIS PAGE NOT PART OF YOUR FUND REPORT 3

# Trust Summary as of February 28, 2010 BlackRock Maryland Municipal Bond Trust

#### **Investment Objective**

BlackRock Maryland Municipal Bond Trust (BZM) (the Trusts) eks to provide current income exempt from regular federal income taxes and Maryland

personal income taxes. Under normal market conditions, the Trust will invest at least 80% of its managed assets in municipal bonds that are investment

grade quality, or determined by its investment advisor to be of equivalent credit quality at the time of purchase. The Trust may invest up to 20% of its total

assets in municipal bonds that are rated, at the time of investment, Ba/BB or B by Moody s Investors Services, Inc. ( Moody s ), Standard and Poor s

Corporation (S&P) or are unrated but judged to be of comparable quality by BlackRock.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned (1.96)% based on market price and 8.90% based on net asset value ( NAV ). For the

same period, the closed-end Lipper Other States Municipal Debt Funds category posted an average return of 7.90% on a market price basis and 7.08% on

a NAV basis. All returns reflect reinvestment of dividends. The Trust s premium to NAV, which narrowed during the period, accounts for the difference between

performance based on price and performance based on NAV. The Trust benefited from our effort to increase the portfolio weighting in interest-rate-sensitive

bonds as tax-exempt, thirty-year interest rates rallied 25 basis points (0.25%) lower for the six months. A greater weighting in the development district

sector also contributed to performance as credit spreads generally tightened during the period. Conversely, a low weighting in Maryland tax-backed bonds

detracted from performance. As available Maryland tax-exempt supply continues to wane, demand for specialty state paper, such as Maryland, has driven

the positive performance of this sector.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>&</sup>lt;sup>1</sup> Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. Past performance does not guarantee future results.

<sup>&</sup>lt;sup>2</sup> Tax equivalent yield assumes the maximum federal tax rate of 35%.

<sup>&</sup>lt;sup>3</sup> The Monthly Distribution per Common Share, declared on March 1, 2010, was increased to \$0.0704. The Yield on Closing Market Price, Current Monthly Distribution per Common Share and Current Annualized Distribution per Common Share do not reflect the new distribution rate. The new dis-

<sup>&</sup>lt;sup>4</sup> Represents Auction Market Preferred Shares ( Preferred Shares ) and tender option bond trusts ( TOBs ) as a percentage of total managed assets, which is the total assets of the Trust, including any assets attributable to Preferred Shares and TOBs, minus the sum of accrued liabilities. For a discussion of leveraging techniques utilized by the Trust, please see The Benefits and Risks of Leveraging on page 12.

#### Trust Summary as of February 28, 2010 BlackRock MuniHoldings New York Insured Fund, Inc.

#### **Investment Objective**

BlackRock MuniHoldings New York Insured Fund, Inc. (MHN) (the Trusts) eks to provide shareholders with current income exempt from federal income

taxes and New York State and New York City personal income taxes by investing primarily in a portfolio of long-term, investment grade municipal obligations,

the interest on which, in the opinion of bond counsel to the issuer, is exempt from federal income taxes and New York State and New York City personal

income taxes.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned 9.79% based on market price and 7.20% based on NAV. For the same period, the closed-

end Lipper Single-State Insured Municipal Debt Funds category posted an average return of 5.35% on a market price basis and 6.19% on a NAV basis. All

returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance

based on price and performance based on NAV. Concentrations in lower-rated bonds and a focus on bonds with longer-dated maturities benefited Trust per-

formance over the six months, as credit spreads continued to tighten and municipal rates declined across the yield curve. Within an overall context of being

neutral to slightly long duration, the Trust pursued opportunities to add positive convexity to the portfolio by adding discount-coupon bonds and greater

call protection. This, too, proved advantageous as these bonds afforded the portfolio slightly greater capital appreciation as the market rallied. On the other

hand, the Trust s positions in zero-coupon bonds hindered performance as these issues have underperformed the broader municipal market. Also negatively

affecting performance were the Trust s existing weighting in higher-coupon, cushion bonds, as well as its lack of exposure to tax-backed credits and essential

service credits.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

SEMI-ANNUAL REPORT FEBRUARY 28, 2010 5

# Trust Summary as of February 28, 2010 BlackRock New Jersey Municipal Bond Trust

#### **Investment Objective**

BlackRock New Jersey Municipal Bond Trust (BLJ) (the Trusts) eks to provide current income exempt from regular federal income taxes and New Jersey

gross income taxes. Under normal market conditions, the Trust will invest at least 80% of its managed assets in municipal bonds that are investment grade

quality, or determined by its investment advisor to be of equivalent credit quality at the time of purchase. The Trust may invest up to 20% of its total assets

in municipal bonds that are rated, at the time of investment, Ba/BB or B by Moody s, S&P or Fitch or that are unrated but judged to be of comparable

quality by BlackRock.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned 8.86% based on market price and 9.04% based on NAV. For the same period, the closed-

end Lipper New Jersey Municipal Debt Funds category posted an average return of 7.40% on a market price basis and 7.44% on a NAV basis. All returns

reflect reinvestment of dividends. The Trust s premium to NAV, which narrowed during the period, accounts for the difference between performance based on

price and performance based on NAV. The Trust held a higher concentration in health care and housing bonds with maturities of 20 years and longer, which

benefited performance as the municipal yield curve flattened during the last six months. The Trust s slightly higher concentration in zero-coupon bonds

detracted from performance during the period. The Trust s cash allocation also hampered results as cash equivalents are currently trading at record-low

yields and, consequently, detracted from income.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

8 SEMI-ANNUAL REPORT FEBRUARY 28, 2010

# Trust Summary as of February 28, 2010 BlackRock New York Municipal Income Trust II

#### **Investment Objective**

BlackRock New York Municipal Income Trust II (BFY) (the Trusts) eks to provide high current income exempt from regular federal income taxes and New

York State and New York City personal income taxes. Under normal market conditions, the Trust will invest at least 80% of its managed assets in municipal

bonds that are investment grade quality, or determined by its investment advisor to be of equivalent credit quality at the time of purchase. The Trust may invest

up to 20% of its total assets in municipal bonds that are rated, at the time of investment, Ba/BB or B by Moody s, S&P or Fitch or that are unrated but judged

to be of comparable quality by BlackRock.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned 6.69% based on market price and 7.49% based on NAV. For the same period, the closed-

end Lipper New York Municipal Debt Funds category posted an average return of 5.59% on a market price basis and 7.34% on a NAV basis. All returns

reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on

price and performance based on NAV. Concentrations in lower-rated bonds and a focus on bonds with longer-dated maturities benefited Trust performance

over the six months, as credit spreads continued to tighten and municipal rates declined across the yield curve. Within an overall context of being neutral to

slightly long duration, the Trust pursued opportunities to add positive convexity to the portfolio by adding discount-coupon bonds and greater call protection.

This, too, proved advantageous as these bonds afforded the portfolio slightly greater capital appreciation as the market rallied. On the other hand, the Trust s

positions in zero-coupon bonds hindered performance as these issues have underperformed the broader municipal market. Also negatively affecting per-

formance were the Trust s existing weighting in higher-coupon, cushion bonds, as well as its lack of exposure to tax-backed credits and essential service

credits.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

SEMI-ANNUAL REPORT FEBRUARY 28, 2010 9

# Trust Summary as of February 28, 2010 BlackRock Virginia Municipal Bond Trust

#### **Investment Objective**

BlackRock Virginia Municipal Bond Trust (BHV) (the Trusts\( \)eks to provide current income exempt from regular federal income taxes and Virginia per-

sonal income taxes. Under normal market conditions, the Trust will invest at least 80% of its managed assets in municipal bonds that are investment grade

quality, or determined by its investment advisor to be of equivalent credit quality at time of purchase. The Trust may invest up to 20% of its total assets in

municipal bonds that are rated, at the time of investment, Ba/BB or B by Moody s, S&P or Fitch or that are unrated but judged to be of comparable quality

by BlackRock.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned 14.56% based on market price and 6.64% based on NAV. For the same period, the

closed-end Lipper Other States Municipal Debt Funds category posted an average return of 7.90% on a market price basis and 7.08% on a NAV basis.

All returns reflect reinvestment of dividends. The Trust s premium to NAV, which widened during the period, accounts for the difference between perform-

ance based on price and performance based on NAV. The Trust benefited from our effort to increase the portfolio weighting in interest-rate-sensitive bonds

as tax-exempt, thirty-year interest rates rallied 25 basis points (0.25%) lower for the six months. A greater weighting in the transportation and corporate

municipal sectors also contributed to performance as credit spreads generally tightened in these sectors during the period. Conversely, a low weighting in

Virginia tax-backed bonds detracted from performance. As available Virginia tax-exempt supply continues to wane, demand for specialty state paper, such

as Virginia, has driven the positive performance of this sector.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

10 SEMI-ANNUAL REPORT FEBRUARY 28, 2010

# Trust Summary as of February 28, 2010 The Massachusetts Health & Education Tax-Exempt Trust

#### **Investment Objective**

The Massachusetts Health & Education Tax-Exempt Trust (MHE) (the Trusts) eks to provide shareholders with as high a level of current income exempt from

both regular federal income taxes and Massachusetts personal income taxes as is consistent with the preservation of shareholders capital. The Trust seeks to

achieve its investment objective by investing primarily in Massachusetts tax-exempt obligations issued on behalf of participating not-for-profit institutions. The

Trust will continue to invest primarily in investment-grade obligations. The Trust is intended to be a long-term investment and not a short-term trading vehicle.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the six months ended February 28, 2010, the Trust returned 10.05% based on market price and 7.66% based on NAV. For the same period, the closed-

end Lipper Other States Municipal Debt Funds category posted an average return of 7.90% on a market price basis and 7.08% on a NAV basis. All returns

reflect reinvestment of dividends. The Trust moved from a discount to NAV to a premium by period-end, which accounts for the difference between perform-

ance based on price and performance based on NAV. The Trust maintained a higher exposure to health care and education bonds with maturities of 20

years and longer, which benefited performance as the municipal yield curve flattened during the last six months. A lower concentration in housing bonds

detracted from the Trust s performance.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These

views are not intended to be a forecast of future events and are no guarantee of future results.

# The Benefits and Risks of Leveraging

The Trusts may utilize leverage to seek to enhance the yield and NAV of their Common Shares. However, these objectives cannot be achieved in all interest rate environments.

To leverage, the Trusts issue Preferred Shares, which pay dividends at prevailing short-term interest rates, and invest the proceeds in long-term municipal bonds. In general, the concept of leveraging is based on the premise that the cost of assets to be obtained from leverage will be based on short-term interest rates, which normally will be lower than the income earned by each Trust on its longer-term portfolio investments. To the extent that the total assets of each Trust (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Trust s Common Shareholders will benefit from the incremental net income.

To illustrate these concepts, assume a Trust s Common Shares capitalization is \$100 million and it issues Preferred Shares for an additional \$50 million, creating a total value of \$150 million available for investment in long-term municipal bonds. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Trust pays dividends on the \$50 million of Preferred Shares based on the lower short-term interest rates. At the same time, the securities purchased by the Trust with assets received from Preferred Shares issuance earn the income based on long-term interest rates. In this case, the dividends paid to Preferred Shareholders are significantly lower than the income earned on the Trust s long-term investments, and therefore the Common Shareholders are the beneficiaries of the incremental net income.

If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental net income pickup on the Common Shares will be reduced or eliminated completely. Furthermore, if prevailing short-term interest rates rise above long-term interest rates of 6%, the yield curve has a negative slope. In this case, the Trust pays dividends on the higher short-term interest rates whereas the Trust stotal portfolio earns income based on lower long-term interest rates.

Furthermore, the value of the Trusts portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the redemption value of the Trusts Preferred Shares does not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Trusts NAV positively or negatively in addition to the impact on Trust performance from leverage from Preferred Shares discussed above.

The Trusts may also leverage their assets through the use of tender option bond ( TOB ) programs, as described in Note 1 of the Notes to Financial Statements. TOB investments generally will provide the Trusts with economic benefits in periods of declining short-term interest rates, but expose the

Trusts to risks during periods of rising short-term interest rates similar to those associated with Preferred Shares issued by the Trusts, as described above. Additionally, fluctuations in the market value of municipal bonds deposited into the TOB trust may adversely affect each Trust s NAV per share.

The use of leverage may enhance opportunities for increased income to the Trusts and Common Shareholders, but as described above, it also creates risks as short- or long-term interest rates fluctuate. Leverage also will generally cause greater changes in the Trusts NAVs, market price and dividend rate than a comparable portfolio without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, the Trusts net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, the Trusts net income will be less than if leverage had not been used, and therefore the amount available for distribution to Common Shareholders will be reduced. Each Trust may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments, which may cause a Trust to incur losses. The use of leverage may limit each Trust s ability to invest in certain types of securities or use certain types of hedging strategies, such as in the case of certain restrictions imposed by ratings agencies that rate preferred shares issued by the Trusts. Each Trust will incur expenses in connection with the use of leverage, all of which are borne by Common Shareholders and may reduce income to the Common Shares.

Under the Investment Company Act of 1940, the Trusts are permitted to issue Preferred Shares in an amount of up to 50% of their total managed assets at the time of issuance. Under normal circumstances, each Trust anticipates that the total economic leverage from Preferred Shares and/or TOBs will not exceed 50% of its total managed assets at the time such leverage is incurred. As of February 28, 2010, the Trusts had economic leverage from Preferred Shares and/or TOBs as a percentage of their total managed assets as follows:

	Percent of
	Leverage
BZM	37%
MHN	42%
BLJ	37%
BSE	36%
BQH	36%
BFY	38%
BHV	35%
MHE	40%

12 SEMI-ANNUAL REPORT FEBRUARY 28, 2010

# **Derivative Financial Instruments**

The Trusts may invest in various derivative instruments, including financial futures contracts, as specified in Note 2 of the Notes to Financial Statements, which constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the counterparty to the transaction or illiquidity of the derivative instrument. The Trusts ability to successfully use a derivative

instrument depends on the investment advisor s ability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require a Trust to sell or purchase portfolio securities at inopportune times or for distressed values, may limit the amount of appreciation a Trust can realize on an investment or may cause a Trust to hold a security that it might otherwise sell. The Trusts investments in these instruments are discussed in detail in the Notes to Financial Statements.

February 28, 2010, as computed for federal income tax purposes, were as follows:

Aggregate cost \$45,051,304
Gross unrealized appreciation \$1,400,922
Gross unrealized depreciation (758,323)
Net unrealized appreciation \$642,599

- (a) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity, and is subject to mandatory redemption at maturity.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) US government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (d) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (e) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Net

AffiliateActivityIncomeFFI Institutional Tax-Exempt Fund\$(697,269)\$464

(f) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management.

This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, repayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3  $\,$  unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting

Trust s own assumptions used in determining the fair value of investments)

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

policies, please refer to the Note 1 of the Notes to Financial Statements.

#### Investments in Securities

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Long-Term Securities <sup>1</sup>		\$46,690,808		\$46,690,808
Short-Term Investment	\$ 503,095			503,095
Total	\$ 503,095	\$46,690,808		\$47,193,903

See above Schedule of Investments for values in each state or political subdivision.

* The cost and unrealized appreciation (depreciation) of investments as of		

February 28, 2010, as computed for federal income tax purposes, were as follows:

Aggregate cost \$674,275,891

Gross unrealized appreciation \$22,556,699

Gross unrealized depreciation (19,320,515)

Net unrealized appreciation \$3,236,184

- (a) US government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (b) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (c) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (d) Variable rate security. Rate shown is as of report date and maturity shown is the date the principal owed can be recovered through demand.
- (e) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Net

Affiliate Activity Income
CMA New York Municipal Money Fund \$262,642 \$1,307

(f) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, repayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust s own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

#### **Investments in Securities**

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Long-Term Investments <sup>1</sup>		\$743,537,212	\$743	3,537,212
Short-Term Securities	\$ 5,312,463	375,000	5,	687,463
Total	\$ 5,312,463	\$743,912,212	\$749,	224,675

See above Schedule of Investments for values in each state or political subdivision.

See Notes to Financial Statements.

* The cost and unrealized appreciation (depreciation) of investments as of		
February 28, 2010, as computed for federal income tax purposes, were as follows:		
Aggregate cost		\$ 51,524,075
Gross unrealized appreciation		\$ 2,378,236
Gross unrealized depreciation		(2,162,520)

Net unrealized appreciation \$215,716

- (a) US government securities, held in escrow, are used to pay interest on this security, as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (b) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (c) Security represents a beneficial interest in a trust. The collateral deposited into the trust is federally tax-exempt revenue bonds issued by various state or local governments, or their respective agencies or authorities. The security is subject to remarketing prior to its stated maturity, and is subject to mandatory redemption at maturity.
- (d) Security exempt from registration under Rule 144A of the Securities Act of 1933.
  These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (e) Securities represent bonds transferred to a tender option bond trust in exchange for which the Trust acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to tender option bond trusts.
- (f) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Net

Affiliate Activity Income
CMA New Jersey Municipal Money Fund \$1,208,770 \$185

(g) Represents the current yield as of report date.

For Trust compliance purposes, the Trust s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or ratings group indexes and/or as defined by Trust management.

This definition may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease.

See Notes to Financial Statements.

SEMI-ANNUAL REPORT FEBRUARY 28, 2010 21

#### Schedule of Investments (concluded) BlackRock New Jersey Municipal Bond Trust (BLJ)

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, repayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the

Trust s own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to the Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2010 in determining the fair valuation of the Trust s investments:

#### Investments in Securities

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Long-Term Securities <sup>1</sup>		\$50,300,203		\$50,300,203
Short-Term Investment	\$ 1,859,371			1,859,371
Total	\$ 1,859,371	\$50,300,203		\$52,159,574

See above Schedule of Investments for values in each state or political subdivision.

See Notes to Financial Statements.
