PROXY STATEMENT

We are furnishing this Proxy Statement to our stockholders in connection with the solicitation of proxies by and on behalf of the Board of Directors (the Board of Directors or the Board) of SCP Pool Corporation (the Company) for use at the 2001 annual meeting of our stockholders to be held on May 9, 2001, at 9:00 a.m., local time at 109 Northpark Boulevard, Suite 400, Covington, Louisiana (the Meeting).

Record Date; Voting Procedure

Only holders of record of the Company's common stock, \$0.001 par value per share (Common Stock), at the close of business on March 12, 2001 are entitled to notice of and to vote at the Meeting. On that date, we had outstanding 17,070,588 shares of Common Stock, each of which is entitled to one vote.

The holders of a majority of the shares of Common Stock issued and outstanding, present in person or represented by proxy, will constitute a quorum at the Meeting. If a quorum is present, (1) directors will be elected by a plurality vote, (2) each of the proposed amendments to the Restated Certificate of Incorporation will require the affirmative vote of the holders of a majority of the outstanding shares of Common Stock, and (3) the ratification of the retention of the independent auditors will require the affirmative vote of the holders of a majority of the shares of Common Stock present in person or by proxy at the Meeting.

Abstentions will be treated as present both for purposes of determining a quorum and with respect to each proposal other than the election of directors. If brokers do not receive instructions from beneficial owners as to the granting or withholding of proxies, and may not or do not exercise discretionary power to grant a proxy with respect to such shares (a broker non-vote), then shares not voted on such proposal, other than the election of directors, as a result will be counted as not present and not cast with respect to such proposal. Accordingly, abstentions will have no effect on the election of directors, but will have the effect of a vote against the other proposals, and broker non-votes will have no effect on the election of directors or the ratification of the independent auditors, but will have the effect of a vote against the amendments to the Restated Certificate of Incorporation.

Proxy Solicitation; Revocation of Proxies

This Proxy Statement is first being mailed to stockholders on or about April 4, 2001. The cost of soliciting proxies hereunder will be borne by the Company. Banks, brokerage houses and other nominees or fiduciaries will be

requested to forward the soliciting materials to their principals and to obtain authorization for the execution of proxies. The Company will, upon request, reimburse them for their expenses in so acting. Certain employees of the Company, who will receive no additional compensation for their services, may also solicit proxies by telephone, telegram, telex, telecopy or personal interview.

The enclosed proxy may be revoked at any time prior to its exercise by filing with the Secretary of the Company a written revocation or duly executed proxy bearing a later date. The proxy will also be deemed revoked with respect to any matter on which the stockholder votes in person at the Meeting. Attendance at the Meeting will not in and of itself constitute a revocation of a proxy. Unless otherwise marked, properly executed proxies in the form of the accompanying proxy card will be voted in favor of the proposals. Management is not aware of any matters to be presented at the Meeting other than those described herein. If, however, any other matters properly come before the Meeting, the persons named as proxies in the enclosed form of proxy intend to vote in accordance with their judgment on the matters presented.

ELECTION OF DIRECTORS

General

If any nominee should decline or be unable to serve for any reason, votes will instead be cast for a substitute nominee designated by the Board. After consideration of the Committee's recommendations, the entire Board reviews and approves the salaries, bonuses and benefit program for the Company's executive officers, except that the Committee approves all stock or stock option grants, which are then ratified by the Board.

Compensation Philosophy

The compensation philosophy of the Company is to link executive compensation to continuous improvements in corporate performance and increases in stockholder value. The goals of the Company's executive compensation

program are as follows:

- to establish pay levels that are necessary to retain and attract highly qualified executives in light of the overall competitiveness of the market for high quality executive talent;
- to recognize superior individual performance, new responsibilities and new positions within the Company;
- to balance short-term and long-term compensation to complement the Company's annual and long-term business objectives and strategy and encourage executive performance in furtherance of the fulfillment of those objectives;
- to provide variable compensation opportunities based on the Company's performance;
- to encourage stock ownership by executives; and
- to align executive remuneration with the interests of the stockholders.

Compensation Program Components

The Committee regularly reviews the Company's executive compensation program to ensure that pay levels and incentive opportunities are competitive with similar positions in the regional market and reflect the performance of the Company. Each element of the compensation program for executive officers is further explained below.

Base Salary

. Base salary levels for Messrs. Sexton and Perez de la Mesa are provided in their employment agreements. See Executive Compensation -- Executive Employment Agreements. The base salary levels for all of the other executive officers are set based upon the officer's level of responsibility, experience, past performance and the competitive market for executive talent.

Annual Incentive Bonus.

The annual cash bonuses paid to the executive officers are paid according to formulas that are based almost entirely on objective performance criteria with a small component being discretionary. The objective performance measures used to calculate the bonuses of Messrs. Sexton and Perez de la Mesa for 2000 were earnings per share, return on total assets and cash flow from operations. The objective portion of the bonuses of the other executive officers was based upon earnings per share and various other performance measures pertinent to the officer's area of responsibility. The Company utilizes annual bonuses to focus corporate behavior on the achievement of goals for growth, financial performance and other specific annual objectives.

Stock Options

. The Committee believes that it can closely align executive interests with the longer term interests of stockholders by encouraging equity participation in the Company. The individual option grant levels for all of the executive officers for 2000, other than Mr. Perez de la Mesa, were based upon the officer's level of responsibility. The options granted to Mr. Perez de la Mesa in 2000 were negotiated at the time that he joined the Company in 1999 and were granted as provided in his employment agreement. See Executive Compensation -- Executive Employment Agreements.

Certain Tax Considerations

Section 162(m) of the Internal Revenue Code limits the deductibility by the Company of annual compensation over \$1 million paid to any of the Named Executive Officers, unless the compensation is performance-based. The Company's policy with respect to Section 162(m) is to make reasonable efforts to ensure that compensation is deductible without limiting the Company's ability to attract and retain qualified executives.

Summary

After its review of all existing programs, the Committee believes that the total compensation program for executives of the Company is focused on increasing values for stockholders and enhancing corporate performance. The Committee currently believes that a significant portion of compensation of executive officers is properly tied to stock appreciation through stock options or stock ownership. The Committee believes that executive compensation levels at the Company are extremely competitive with the compensation programs provided by other corporations with which the Company competes for executive talent.

Compensation Committee Interlocks and Insider Participation

During the last fiscal year, none of the members of the Compensation Committee were officers or employees of the Company or any of its subsidiaries. No executive officer of the Company served in the last fiscal year as a director or member of the compensation committee of another entity, one of whose executive officers served as a director or member of the Compensation Committee of the Company.

The Company is a party to the following transactions with members of Frank J. St. Romain's family:

Kenneth St. Romain is a general manager for the Company in the East Central Division. In 2000, Kenneth St. Romain received approximately \$165,000 in salary and bonus and the Company expects that his salary and bonus for 2001 will equal or exceed the amount paid in 2000. Kenneth St. Romain is the son of Frank J. St. Romain, who, until January 1999, was President and Chief Executive Officer of the Company and who remains a director of the Company. The compensation formula pursuant to which Kenneth St. Romain is paid is identical to that by which the Company's other general managers are paid and includes a fixed salary and a bonus based on earnings per share, division profitability and specific objectives for which such managers are responsible. The actual amount of compensation paid to each general manager varies as a result of the application of the bonus formula as well as such manager's seniority and other objective factors.

In November 1991, the Company entered into a lease agreement (the "Trust Lease") with the St. Romain Children's Trust with respect to a service center (the "Trust Facility") in Baton Rouge, Louisiana. The Trust Lease, which expired on December 31, 2000 and was not renewed, had net monthly rental rates of approximately \$1,600. In March 1997, space constraints forced the Company to relocate its Baton Rouge service center from the Trust Facility to another Baton Rouge facility which it rents pursuant to a lease agreement (the "St. Romain Lease") with Kenneth St. Romain. The St. Romain Lease has a term of five years commencing on March 1, 1997, and provides for rental payments of \$9,646 per month. The Company believes that both the Trust Lease and the St. Romain Lease reflect fair market rates as of the respective dates thereof.

AUDIT COMMITTEE REPORT

The Audit Committee performs the functions described in its charter, which is attached to this Proxy Statement as

Exhibit A. These functions include:

- recommending to the Board the appointment of the independent auditors;
- approving the scope of audits and other services to be performed by the independent and internal auditors; and
- reviewing the results of internal and external audits, the accounting principles applied in financial reporting and the adequacy of financial and operational controls.

The Audit Committee reviews the Company's financial reporting process on behalf of our Board. Management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls.

In this context, the Audit Committee has met and held discussions with management and the Company's internal and independent auditors. Management represented to the Audit Committee that the Company's audited financial statements were prepared in accordance with generally accepted accounting principles. The Audit Committee has reviewed and discussed the audited financial statements with management and the independent auditors. The Audit Committee discussed with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61 (Communication With Audit Committees).

In addition, the Audit Committee has discussed with the independent auditors the auditor's independence from the Company and management, including matters in the written disclosures provided by the independent auditors to the Audit Committee as required by the Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees).

The Audit Committee has discussed with the Company's internal and independent auditors the overall scope and plans for their respective audits. The Audit Committee has met with the internal and independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2000, for filing with the SEC. The Committee and the Board also have recommended, subject to stockholder approval, the selection of the Company's independent auditors.

Aggregate fees and costs billed to the Company by Ernst and Young LLP, the Company's principal accountant, for the fiscal year ended December 31, 2000, were as follows for the referenced services:

- \$161,300 for professional services rendered for the audit of the Company's financial statements for the fiscal year ended December 31, 2000 and for reviewing the financial statements included in the Company's Form 10-Qs for the fiscal year ended December 31, 2000.
- \$234,800 for all services rendered other than audit and financial information systems design and implementation services.
- Ernst & Young did not provide any professional services described in Paragraph (c)(4)(ii) of Rule 2-01 of Regulation S-X (financial information systems design and implementation).

The Audit Committee has considered the compatibility of the provision of services covered by the two preceding paragraphs with the maintenance of the principal accountant's independence from the Company.

PERFORMANCE GRAPH

The graph below compares the total stockholder return on the Company's Common Stock for the last five fiscal years with the total return on the Nasdaq National Market Composite Index and the S&P SmallCap 600 Index for the same period, in each case assuming the investment of \$100 on December 31, 1995 and the reinvestment of all dividends. The Company has chosen S&P SmallCap 600 Index for comparison because the Company does not believe that it can reasonably identify a peer group or a published industry or line-of-business index that contains companies in a similar line of business and because the S&P SmallCap 600 Index includes companies of similar capitalization to the Company.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In October 1999, the Company entered into a lease agreement with S&C Development, LLC with respect to a service center in Mandeville, Louisiana. The sole member of S&C Development, LLC is A. David Cook. The lease has a term of seven years commencing on February 1, 2000. The net monthly rental rates are approximately \$6,500, which the Company believes reflects fair market rates.

The Company is also a party to certain relationships and related transactions described herein under Compensation Committee Interlocks and Insider Participation.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and 10% stockholders to file with the SEC reports of ownership and changes in ownership of equity securities of the Company. Based solely on a review of copies of such forms furnished to the Company, or written representations that no filings were required, we believe that all such required reports were filed on a timely basis during fiscal year 2000.

PROPOSALS TO AMEND THE RESTATED CERTIFICATE OF INCORPORATION TO INCREASE AUTHORIZED SHARES

Proposal to Amend the Restated Certificate of Incorporation to Authorize Additional Shares of Common Stock

In February 2001, the Board of Directors approved amendments to the Company's Restated Certificate of Incorporation increasing the number of authorized shares of Common Stock from 20,000,000 to 40,000,000 (the Common Stock Amendment), and recommends its approval by the stockholders. The text of Common Stock Amendment is attached hereto as Exhibit B and is incorporated herein by reference.

The Company is presently authorized to issue 20,000,000 shares of Common Stock. As of March 12, 2001 there were 17,070,588 shares of Common Stock issued and outstanding and 2,826,694 shares of Common Stock reserved for issuance under the Company's stock option plans.

Proposal to Amend the Restated Certificate of Incorporation to Authorize Additional Shares of Preferred Stock

In February 2001, the Board of Directors approved an amendment to the Company's Restated Certificate of Incorporation increasing the number of authorized shares of preferred stock, \$0.01 par value per share (the Preferred Stock) from 100,000 to 1,000,000 (the Preferred Stock Amendment, and together with the Common Stock Amendment, the Amendments), and recommends its approval by the stockholders. The text of the Preferred Stock Amendment is attached hereto as Exhibit B and is incorporated herein by reference.

The Company is presently authorized to issue 100,000 shares of Preferred Stock. The Restated Certificate of Incorporation authorizes the Board of Directors to fix the preferences, limitations and relative rights as between the Common Stock and Preferred Stock, and to fix the variations in the preferences, limitations and relative rights as between different series of Preferred Stock. As of March 12, 2001 there were no shares of Preferred Stock issued and outstanding or reserved for issuance.

Purposes and Effects of the Proposed Amendments

The Board recommends that the Amendments be adopted because it believes that the number of shares of Common Stock and Preferred Stock available for issuance does not provide the Company with adequate flexibility to meet future business opportunities, including possible stock splits or other transactions, and opportunities to raise additional equity capital, to finance acquisitions and to issue additional capital stock in connection with current or future

employee benefit plans. Given the limited number of shares currently available for issuance, the Company may not be able in the future to effect certain of these transactions without obtaining stockholder approval for an increase in the number of authorized shares of Common Stock or Preferred Stock. The cost, prior notice requirements and delay involved in obtaining stockholder approval at the time that corporate action may become desirable could eliminate the opportunity to effect the action or reduce the anticipated benefits.

The additional shares of Common Stock and Preferred Stock proposed to be authorized, together with existing authorized and unissued shares, generally will be available for issuance without any requirement for further stockholder approval, unless stockholder action is required by applicable law or by the rules of the Nasdaq National Market or of any stock exchange on which the Company's securities may then be listed. Although the Board will authorize the issuance of additional shares only when it considers doing so to be in the best interest of stockholders, the issuance of additional shares of Common Stock and Preferred Stock may, among other things, have a dilutive effect on earnings per share of the Common Stock and on the voting rights of holders of shares of Common Stock. The Company's stockholders do not have any preemptive rights to subscribe for additional shares of Common Stock that may be issued. In addition, although the Board has no current plans to do so, shares of Common Stock and Preferred Stock could be issued in various other transactions that would make a change in control of the Company more difficult or costly and, therefore, less likely. For example, shares of Common Stock could be sold privately to purchasers who might support the Board in a control contest or to dilute the voting or other rights of a person seeking to obtain control. The proposed Amendments are not the result of any specific effort to obtain control of the Company by a tender offer, proxy contest, or otherwise, and the Company has no present intention to use the increased shares of authorized Common Stock or Preferred Stock for anti-takeover purposes.

An affirmative vote of the holders of a majority of the shares of Common Stock outstanding is required for approval of the Common Stock Amendment and the Preferred Stock Amendment. Each Amendment will be voted upon separately, and the approval of one is not required for the approval of the other.

The Board of Directors recommends a vote **FOR** both Amendments.

PROPOSAL TO RATIFY THE RETENTION OF INDEPENDENT AUDITORS

Upon the recommendation of the Audit Committee, the Board of Directors has approved the retention of Ernst & Young LLP (E&Y) as the Company's independent auditors for the fiscal year ending December 31, 2000 and recommends the ratification of such retention by the stockholders. If the stockholders do not ratify the selection of E&Y by the affirmative vote of a majority of the voting power present, in person or by proxy, at the Meeting, the selection will be reconsidered by the Board.

Representatives of E&Y are expected to be present at the Meeting, with the opportunity to make any statement they desire at that time, and will be available to respond to appropriate questions.

An affirmative vote of the holders of a majority of the shares of Common Stock present in person or by proxy at the Meeting is required for ratification of the retention of E&Y as the Company's independent auditors.

The Board of Directors recommends a vote **FOR** the ratification of the retention of E&Y as the Company's independent auditors.

STOCKHOLDER PROPOSALS AND BOARD NOMINATIONS

In order to be considered for inclusion in the proxy materials related to the Company's 2002 annual meeting of stockholders, the Company must receive stockholder proposals no later than December 5, 2001. If such proposal is in compliance with all of the requirements of Rule 14a-8 under the Exchange Act, it will be included in the proxy statement and set forth on the form of proxy issued for such annual meeting of stockholders.

The Company's By-laws also require that any stockholder who desires to nominate a director or present a proposal before the 2002 annual meeting must notify the Secretary of the Company no earlier than July 8, 2001 and no later than December 5, 2001.

AUDIT COMMITTEE CHARTER

Organization

This charter governs the operations of the audit committee. The committee shall review and reassess the charter at least annually and obtain the approval of the board of directors. The committee shall be appointed by the board of directors and shall comprise at least three directors, each of whom are independent of management and the Company. Members of the committee shall be considered independent if they have no relationship that may interfere with the exercise of their independence from management and the Company. All committee members shall be financially literate, or shall become financially literate within a reasonable period of time after appointment to the committee, and at least one member shall have accounting or related financial management expertise.

Statement of Policy

The audit committee shall provide assistance to the board of directors in fulfilling their oversight responsibility to the shareholders, potential shareholders, the investment community, and others relating to the Company's financial statements and the financial reporting process, the systems of internal accounting and financial controls, the internal audit function, the annual independent audit of the Company's financial statements, and the legal compliance and ethics programs as established by management and the board. In so doing, it is the responsibility of the committee to maintain free and open communication between the committee, independent auditors, the internal auditors and management of the Company. In discharging its oversight role, the committee is empowered to investigate any matter brought to its attention with full access to all books, records, facilities, and personnel of the Company and the power to retain outside counsel, or other experts for this purpose.

Responsibilities and Processes

The primary responsibility of the audit committee is to oversee the Company's financial reporting process on behalf of the board and report the results of their activities to the board. Management is responsible for preparing the Company's

financial statements, and the independent auditors are responsible for auditing those financial statements. The committee in carrying out its responsibilities believes its policies and procedures should remain flexible, in order to best react to changing conditions and circumstances. The committee should take the appropriate actions to set the overall corporate tone for quality financial reporting, sound business risk practices, and ethical behavior.

The following shall be the principal recurring processes of the audit committee in carrying out its oversight responsibilities. The processes are set forth as a guide with the understanding that the committee may supplement them as appropriate.

- The committee shall have a clear understanding with management and the independent auditors that the independent auditors are ultimately accountable to the board and the audit committee, as representatives of the Company's shareholders. The committee shall have the ultimate authority and responsibility to evaluate and, where appropriate, replace the independent auditors. The committee shall discuss with the auditors their independence from management and the Company and the matters included in the written disclosures required by the Independence Standards Board. Annually, the committee shall review and recommend to the board the selection of the Company's independent auditors, subject to shareholders' approval.
- The committee shall discuss with the internal auditors and the independent auditors the overall scope and plans for their respective audits including the adequacy of staffing and compensation. Also, the committee shall discuss with management, the internal auditors, and the independent auditors the adequacy and effectiveness of the accounting and financial controls, including the Company's system to monitor and manage business risk, and legal and ethical compliance programs. Further, the committee shall meet separately with the internal auditors and the independent auditors, with and without management present, to discuss the results of their examinations.
- The committee shall review the interim financial statements with management and the independent auditors prior to the filing of the Company's Quarterly Report on Form 10-Q. Also, the committee shall discuss the results of the quarterly review and any other matters required to be communicated to the committee by the independent auditors under generally accepted auditing standards. The chair of the committee may represent the entire committee for the purposes of this review.
- The committee shall review with management and the independent auditors the financial statements to be included in the Company's Annual Report on Form 10-K (or the annual report to shareholders if distributed prior to the filing of Form 10-K), including their judgment about the quality, not just acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements. Also, the committee shall discuss the results of the annual audit and any other matters required to be communicated to the committee by the independent auditors under generally accepted auditing standards.

Exhibit B

Amendments to Restated Certificate of Incorporation

The Board of Directors of SCP Pool Corporation (the Corporation), at a meeting on February 22, 2001, did duly adopt resolutions setting forth two proposed amendments to Part A of Article Four of the Restated Certificate of Incorporation of the Corporation, declaring said amendments to be advisable and directing that each of the proposed amendments be submitted to a vote of the Corporation's stockholders. The first proposed amendment would increase the number of authorized shares of Common Stock of the Corporation from 20,000,000 to 40,000,000. The second proposed amendment would increase the number of authorized shares of Preferred Stock of the Corporation from 100,000 to 1,000,000.

If both proposed amendments are approved by the Corporation's stockholders, the first sentence of Part A of Article Four of the Restated Certificate of Incorporation would be revised to read as follows:

The total number of shares of stock which the Corporation has authority to issue is 41,000,000, consisting of: (i) 1,000,000 shares of Preferred Stock, par value \$.01 per share (the Preferred Stock), and (ii) 40,000,000 shares of Common Stock, par value \$.001 per share (the Common Stock).
