Cautionary Note Regarding Forward Looking Information

This Quarterly Report on Form 10-Q for the quarter ended December 31, 2018 (the “Form 10-Q”) contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, relating to our business and financial outlook, which are based on our current beliefs, assumptions, expectations, estimates, forecasts and projections about future events only as of the date of this Quarterly Report on Form 10-Q, and are not statements of historical fact. We make such forward-looking statements pursuant to the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995.

Many of our forward-looking statements include discussions of trends and anticipated developments under the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section of this Quarterly Report on Form 10-Q. In some cases, you can identify forward-looking statements by terminology such as the use of “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “projects,” “intends,” “predicts,” “potential” or similar expressions, or the negative of those expressions. These forward-looking statements include, among other things, our beliefs or expectations relating to our business strategy, growth strategy, market price, brand portfolio and product performance, the seasonality of our business, our results of operations and financial condition, enhancing internal controls and remediating material weaknesses. These forward-looking statements are not guarantees of our future performance and involve risks, uncertainties, estimates and assumptions that are difficult to predict. Therefore, our actual outcomes and results may differ materially from those expressed in these forward-looking statements. You should not place undue reliance on any of these forward-looking statements. Further, any forward-looking statement speaks only as of the date hereof, unless it is specifically otherwise stated to be made as of a different date. We undertake no obligation to further update any such statement to reflect new information, the occurrence of future events or circumstances or otherwise.

The forward-looking statements in this filing do not constitute guarantees or promises of future performance. Factors that could cause or contribute to such differences may include, but are not limited to, the impact of competitive products, changes to the competitive environment, changes to consumer preferences, our ability to manage our supply chain effectively, changes in raw materials, freight, commodity costs and fuel, consolidation of customers, reliance on independent distributors, general economic and financial market conditions, risks associated with our international sales and operations, our ability to execute and realize cost savings initiatives, including, but not limited to, cost reduction initiatives under Project Terra and stock-keeping unit (“SKU”) rationalization plans, the identification and remediation of material weaknesses in our internal controls over financial reporting, our ability to manage our financial reporting and internal control system processes, potential liabilities due to legal claims, government investigations and other regulatory enforcement actions, costs incurred due to pending and future litigation, the availability of key personnel and changes in management team, potential liability if our products cause illness or physical harm, impairments in the carrying value of goodwill or other intangible assets, our ability to identify and complete acquisitions or divestitures and integrate acquisitions, the availability of organic and natural ingredients, the reputation of our brands, risks relating to the protection of intellectual property, cybersecurity risks, unanticipated expenditures and other risks described in Part I, Item 1A of the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2018 under the heading “Risk Factors” and Part II, Item 1A, “Risk Factors” set forth herein, as well as in other reports that we file in the future.

The Company’s personal care products are marketed under the Alba Botanica®, Avalon Organics®, Earth’s Best®, JASON®, Live Clean® and Queen Helene® brands.

2. BASIS OF PRESENTATION

The Company’s unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP. The amounts as of and for the periods ended June 30, 2018 are derived from the Company’s audited annual financial statements. The unaudited consolidated financial statements reflect all normal recurring adjustments which, in management’s opinion, are necessary for a fair presentation for interim periods. Operating results for the three and six months ended December 31, 2018 are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2019. Please refer to the Notes to the Consolidated Financial Statements as of June 30, 2018 and for the fiscal year then ended included in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2018 (the “Form 10-K”) for information not included in these condensed notes.

The Company is presenting the operating results and cash flows of the Hain Pure Protein reportable segment within discontinued operations in the current and prior periods. The assets and liabilities of the Hain Pure Protein reportable segment are presented as assets and liabilities of discontinued operations in the Consolidated Balance Sheets for all periods presented.

All amounts in the unaudited consolidated financial statements, notes and tables have been rounded to the nearest thousand, except par values and per share amounts, unless otherwise indicated.

Newly Adopted Accounting Pronouncements

ASU 2014-09, Revenue from Contracts with Customers (Topic 606)

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, Revenue from Contracts with Customers (Topic 606). This guidance outlines a single, comprehensive model for accounting for revenue from contracts with customers, providing a single five-step model to be applied to all revenue transactions. The guidance also requires improved disclosures to assist users of the financial statements to better understand the nature, amount, timing and uncertainty of revenue that is recognized. Subsequent to the issuance of ASU 2014-09, the FASB issued various additional ASUs clarifying and amending this new revenue guidance. The Company adopted the new revenue standard on July 1, 2018 using the modified retrospective transition method. The adoption did not materially impact our results of operations or financial position, and, as a result, comparisons of revenues and operating profit between periods were not materially affected by the adoption of ASU 2014-09. The Company recorded a net increase to beginning retained earnings of \$163 on July 1, 2018 due to the cumulative impact of adopting ASU 2014-09. Additionally, as our products exhibit similar economic characteristics, are sold through similar channels to similar customers and are recognized at a point in time, we have concluded that the Company’s segment disclosures in Note 17, Segment Information, are indicative of the level of revenue disaggregation required under ASU 2014-09.

ASU 2016-01, Financial Instruments-Overall (Subtopic 825-10)

In January 2016, the FASB issued ASU 2016-01, Financial Instruments-Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 requires that most equity investments be measured at fair value, with subsequent changes in fair value recognized in net income. The pronouncement also impacts financial liabilities under the fair value option and the presentation and disclosure requirements for financial instruments. We adopted ASU 2016-01 in the three months ended September 30, 2018, which resulted in a net decrease to beginning retained earnings of \$348 on July 1, 2018, representing the accumulated unrealized losses (net of tax) reported in accumulated other comprehensive income (loss) for available for sale equity securities on June 30, 2018. We will no longer classify equity investments as trading or available for sale and will no longer recognize unrealized holding gains and losses on equity securities previously classified as available for sale in other comprehensive income (loss) as a result of adoption of ASU 2016-01.

ASU 2017-09, Compensation-Stock Compensation (Topic 718)

In May 2017, the FASB issued ASU 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting, which provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. The guidance is effective for annual periods beginning after December 15, 2017. The Company adopted the provisions of ASU 2017-09 as of July 1, 2018. There was no impact on the Company's consolidated financial statements resulting from the adoption of this guidance.

ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. The amendments in this update clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, goodwill and consolidation. The guidance is effective for annual periods beginning after December 15, 2017, including interim periods within those periods. The Company adopted this guidance on July 1, 2018. There was no impact on the Company's consolidated financial statements resulting from the adoption of this guidance.

ASU 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory

In October 2016, the FASB issued ASU 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory. U.S. GAAP historically prohibited recognizing current and deferred income tax consequences for an intra-entity asset transfer until the asset was sold to an outside party. ASU 2016-16 states that an entity should recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. The new standard is effective for public companies in fiscal years beginning after December 15, 2017. The amendments are required to be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. The Company adopted this guidance on July 1, 2018. There was no impact on the Company's consolidated financial statements resulting from the adoption of this guidance.

ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (A Consensus of the Emerging Issues Task Force)

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (A Consensus of the Emerging Issues Task Force). ASU 2016-15 provides guidance on the classification of certain cash receipts and payments in the statement of cash flows. The guidance must be applied retrospectively to all periods presented, but may be applied prospectively if retrospective application would be impracticable. The new standard is effective for public companies in fiscal years beginning after December 15, 2017. The Company adopted this guidance on July 1, 2018. There was no impact on the Company's consolidated financial statements resulting from the adoption of this guidance.

Recently Issued Accounting Pronouncements Not Yet Effective

In February 2016, the FASB issued ASU 2016-02, Leases (ASC 842). The amendments in this update replace most of the existing U.S. GAAP lease accounting guidance in order to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. The ASU is effective for annual periods beginning after December 15, 2018, and interim periods within those years, with early adoption permitted. The ASU requires lessees and lessors to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. In July 2018, the FASB approved amendments to create an optional transition method that will provide an option to use the effective date of ASC 842 as the date of initial application of the transition. Under the new transition method, a reporting entity would initially apply the new lease requirements at the effective date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption, continue to report comparative periods presented in the financial statements in the period of adoption in accordance with current U.S. GAAP (i.e., ASC 840, Leases) and provide the required disclosures under ASC 840 for all periods presented under current U.S. GAAP. We will adopt the standard effective July 1, 2019.

As part of the Company's assessment work to-date, the Company has formed an implementation work team to perform a comprehensive evaluation of the impact of the adoption of this guidance, which includes assessing the Company's lease portfolio, the impact to business processes and internal controls over financial reporting and the related disclosure requirements. Additionally, the Company is implementing lease accounting software to assist in the quantification of the expected impact on the Consolidated Balance Sheet and to facilitate the calculations of the related accounting entries and disclosures, as well as to facilitate accounting, presentation and disclosure for all leases after the initial date of application under the new standard.

While the Company is continuing to assess all potential impacts of the standard, the most significant impact relates to the recognition of new right-of-use assets and lease liabilities on the balance sheet for manufacturing, warehouse and office space operating leases. We believe that all of these leases will continue to be classified as operating leases under the new standard. We expect the accounting for capital leases to remain substantially unchanged.

Refer to Note 2, Summary of Significant Accounting Policies and Practices, in the Notes to the Consolidated Financial Statements as of June 30, 2018 and for the fiscal year then ended included in the Form 10-K for a detailed discussion on additional recently issued accounting pronouncements not yet adopted by the Company. There has been no change to the statements made in the Form 10-K as of the date of filing of this Form 10-Q.

3. CHIEF EXECUTIVE OFFICER SUCCESSION PLAN

On June 24, 2018, the Company entered into a Chief Executive Officer (“CEO”) Succession Agreement (the “Agreement”), whereby the the Company’s former CEO, Irwin D. Simon, agreed to terminate his employment with the Company upon the hiring of a new CEO.

On October 26, 2018, the Company’s Board of Directors appointed Mark L. Schiller as President and CEO, succeeding Mr. Simon. In connection with the appointment, on October 26, 2018, the Company and Mr. Schiller entered into an employment agreement, which was approved by the Board, with Mr. Schiller’s employment commencing on November 5, 2018. Accordingly, Mr. Simon’s employment with the Company terminated on November 4, 2018.

Table of Contents

Cash Separation Payments

The Agreement provides Mr. Simon with a cash separation payment of \$34,295 payable in a single lump sum and cash benefit continuation costs of \$208. These costs were recognized from June 24, 2018 through November 4, 2018. Expense recognized in connection with the agreement were \$9,080 and \$33,051 in the three and six months ended December 31, 2018, respectively, and are included in the Consolidated Statement of Operations as a component of “Chief Executive Officer Succession Plan expense, net.” As of December 31, 2018, the total cash separation payment was held in a rabbi trust, which has been classified as restricted cash and included in accrued expenses and other current liabilities in the Consolidated Balance Sheet. The cash separation payment will be paid during the current fiscal year.

Consulting Agreement

On October 26, 2018, the Company and Mr. Simon entered into a Consulting Agreement (the “Consulting Agreement”) in order to, among other things, assist Mr. Schiller with his transition as the Company’s incoming CEO. The term of the Consulting Agreement commenced on November 5, 2018 and continued until February 5, 2019. Mr. Simon is entitled to receive an aggregate consulting fee of \$975 as compensation for his services during the consulting term, of which \$650 was recognized in the Consolidated Statement of Operations as a component of “Chief Executive Officer Succession Plan expense, net” in the three and six months ended December 31, 2018.

4. EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted net (loss) earnings per share:

Diluted net (loss) income per common share	\$(0.64)	\$0.45	\$(1.00)	\$0.64

Basic net (loss) income per share excludes the dilutive effects of stock options, unvested restricted stock and unvested restricted share units. Due to our net loss in three and six months ended December 31, 2018, all common stock equivalents such as stock options and unvested restricted stock awards have been excluded from the computation of diluted net loss per share because the effect would have been anti-dilutive to the computations. Diluted earnings per share in the three and six months ended December 31, 2017 includes the dilutive effects of common stock equivalents such as stock options and unvested restricted stock awards.

Table of Contents

There were 1,152 and 567 stock-based awards excluded from our diluted earnings per share calculations for the three and six months ended December 31, 2018 and 2017, respectively, as such awards were contingently issuable based on market or performance conditions, and such conditions had not been achieved during the respective periods.

There were 388 restricted stock awards excluded from our diluted loss per share calculation for the three and six months ended December 31, 2018 as such awards were anti-dilutive. Anti-dilutive restricted stock awards excluded from our diluted earnings per share calculation for the three and six months ended December 31, 2017 were de minimis.

There were 111 potential shares of common stock issuable upon exercise of stock options excluded from diluted loss per share computations for the three and six months ended December 31, 2018, as they were anti-dilutive. No such awards were excluded for the three and six months ended December 31, 2017.

Share Repurchase Program

On June 21, 2017, the Company's Board of Directors authorized the repurchase of up to \$250,000 of the Company's issued and outstanding common stock. Repurchases may be made from time to time in the open market, pursuant to pre-set trading plans, in private transactions or otherwise. The authorization does not have a stated expiration date. The extent to which the Company repurchases its shares and the timing of such repurchases will depend upon market conditions and other corporate considerations, including the Company's historical strategy of pursuing accretive acquisitions. As of December 31, 2018, the Company had not repurchased any shares under this program and had \$250,000 of remaining capacity under the share repurchase program.

5. DISCONTINUED OPERATIONS

In March 2018, the Company's Board of Directors approved a plan to sell all of the operations of the Hain Pure Protein Corporation ("HPPC") and EK Holdings, Inc. ("Empire") operating segments, which are reported in the aggregate as the Hain Pure Protein reportable segment. Collectively, these planned dispositions represent a strategic shift that will have a major impact on the Company's operations and financial results and have been accounted for as discontinued operations. The Company is actively marketing the sale of Hain Pure Protein, and a sale is anticipated to occur within twelve months of the Board of Directors' approval, which occurred in March 2018.

The Company is presenting the operating results and cash flows of Hain Pure Protein within discontinued operations in the current and prior periods. The assets and liabilities of Hain Pure Protein are presented as assets and liabilities of discontinued operations in the Consolidated Balance Sheets for all periods presented.

The following table presents the major classes of Hain Pure Protein's line items constituting the "Net (loss) income from discontinued operations, net of tax" in our Consolidated Statements of Operations:

	Three Months Ended December 31,		Six Months Ended December 31,

(1) The assets and liabilities of Hain Pure Protein are classified as current on the December 31, 2018 and June 30, 2018 Consolidated Balance Sheets because it is probable that the sale will occur within twelve months of the Board of Directors' approval.

(2) In the three months ended June 30, 2018, results for HPPC (which comprises the Plainville Farms and FreeBird brands) were below our projections. The fourth quarter results, as well as negative market conditions in the sector, required the Company to reduce the internal projections for the business, which resulted in the Company lowering the projected long-term growth rate and profitability levels for HPPC. Accordingly, the updated projections indicated that the fair value of the HPPC business was below carrying value. As a result, in the three months ended June 30, 2018, the Company recorded a reserve of \$78,464 to adjust the carrying value of Hain Pure Protein to its fair value, less its cost to sell primarily related to the Plainville Farms business. In the first quarter of the current fiscal year, the Company increased the reserve to adjust the carrying value of Hain Pure Protein by an additional \$2,958. In the three months ended December 31, 2018, the Company recorded an additional reserve of \$54,946, primarily related to the Plainville Farms business, as well as unfavorable market conditions that continued to negatively impact the Hain Pure Protein reportable segment.

(3) The change in deferred taxes from June 30, 2018 to December 31, 2018 was the result of the reversal of the \$12,250 million deferred tax liability previously recorded related to Hain Pure Protein being classified as held for sale. In addition, deferred taxes were impacted by the tax effect of current period book losses as well as the deferred tax benefit arising from asset impairment charges.

6. ACQUISITIONS

The Company accounts for acquisitions in accordance with ASC 805, Business Combinations. The results of operations of the acquisitions have been included in the consolidated results from their respective dates of acquisition. The purchase price of each acquisition is allocated to the tangible assets, liabilities and identifiable intangible assets acquired based on their estimated fair values. Acquisitions may include contingent consideration, the fair value of which is estimated on the acquisition date as the present value of the expected contingent payments, determined using weighted probabilities of possible payments. The fair values assigned to identifiable intangible assets acquired were determined primarily by using an income approach which was based on assumptions and estimates made by management. Significant assumptions utilized in the income approach were based on Company-specific information and projections which are not observable in the market and are thus considered Level 3 measurements as

defined by authoritative guidance. The excess of the purchase price over the fair value of the identified assets and liabilities has been recorded as goodwill.

The costs related to all acquisitions have been expensed as incurred and are included in “Project Terra costs and other” in the Consolidated Statements of Operations. Acquisition-related costs for the three and six months ended December 31, 2018 were de minimis. Acquisition-related costs of \$215 and \$329 were expensed in the three and six months ended December 31, 2017, respectively. The expenses incurred primarily related to professional fees and other transaction-related costs associated with our recent acquisitions.

Fiscal 2019

There were no acquisitions completed in the six months ended December 31, 2018.

Fiscal 2018

On December 1, 2017, the Company acquired Clarks UK Limited, (“Clarks”), a leading maple syrup and natural sweetener brand in the United Kingdom. Clarks produces natural sweeteners under the Clarks™ brand, including maple syrup, honey and carob, date and agave syrups, which are sold in leading retailers and used by food service and industrial customers in the United Kingdom. Consideration for the transaction, inclusive of a subsequent working capital adjustment, consisted of cash, net of cash acquired, totaling £9,179 (approximately \$12,368 at the transaction date exchange rate). Additionally, contingent consideration of up to a maximum of £1,500 is payable based on the achievement of specified operating results over the 18-month period following completion of the acquisition. Clarks is included in our United Kingdom operating segment. Net sales and income before income taxes attributable to the Clarks acquisition included in our consolidated results represented less than 1% of our consolidated results.

7. INVENTORIES

Inventories consisted of the following:

	December 31, 2018	June 30, 2018
Finished goods	\$ 236,310	\$231,926
Raw materials, work-in-progress and packaging	166,414	159,599

Less: Accumulated depreciation and amortization	237,226	245,628
	\$ 320,036	\$ 310,172

Depreciation and amortization expense for the three months ended December 31, 2018 and 2017 was \$7,735 and \$8,083, respectively. Such expense for the six months ended December 31, 2018 and 2017 was \$16,184 and \$16,368, respectively.

Table of Contents

In the six months ended December 31, 2018, the Company recorded \$5,275 of non-cash impairment charges primarily related to the Company's decision to consolidate manufacturing of certain fruit-based products in the United Kingdom. Additionally, in the second quarter of fiscal 2019, the Company recorded a \$534 non-cash impairment charge to write down the value of certain machinery and equipment used to manufacture certain slow moving SKUs in the United States that were discontinued.

9. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

The following table shows the changes in the carrying amount of goodwill by business segment:

	United States	United Kingdom	Rest of World	Total
Balance as of June 30, 2018 ^(a)	\$552,814	\$377,163	\$94,159	\$1,024,136
Translation and other adjustments, net	—	(13,086)	(2,263)	(15,349)
Balance as of December 31, 2018 ^(a)	\$552,814	\$364,077	\$91,896	\$1,008,787

(a) The total carrying value of goodwill is reflected net of \$134,277 of accumulated impairment charges, of which \$97,358 related to the Company's United Kingdom operating segment, \$29,219 related to the Company's Europe operating segment and \$7,700 related to the Company's Hain Ventures operating segment (formerly known as the Cultivate Ventures operating segment).

Beginning in the third quarter of fiscal 2018, operations of Hain Pure Protein have been classified as discontinued operations as discussed in Note 5, Discontinued Operations. Therefore, goodwill associated with Hain Pure Protein is presented as assets of discontinued operations in the Consolidated Financial Statements.

The Company performs its annual test for goodwill and indefinite lived intangible asset impairment as of the first day of the fourth quarter of its fiscal year. In addition, if and when events or circumstances change that would more likely than not reduce the fair value of any of its reporting units or indefinite-life intangible assets below their carrying value, an interim test is performed.

During the three months ended December 31, 2018, the Company updated the forecasted operating results for each of its reporting units based on the most recent financial results. The updated forecasts reflected lower projected short-term revenue growth and profitability than previously expected, primarily in its United States segment. In connection with the preparation of the Consolidated Financial Statements for the period ended December 31, 2018, the Company assessed qualitative and quantitative factors, which included sensitivity analyses, and concluded that it is more likely than not that the fair value of its reporting units exceeds its carrying amount. The Company will continue to monitor impairment indicators and financial results in future periods.

Other Intangible Assets

The following table sets forth Consolidated Balance Sheet information for intangible assets, excluding goodwill, subject to amortization and intangible assets not subject to amortization:

	December 31, 2018	June 30, 2018
Non-amortized intangible assets:		
Trademarks and tradenames ^(a)	\$ 360,321	\$385,609
Amortized intangible assets:		
Other intangibles	232,997	239,323

Edgar Filing: HAIN CELESTIAL GROUP INC - Form 10-Q

Less: accumulated amortization	(119,784)	(114,545)
Net carrying amount	\$ 473,534	\$510,387

(a) The gross carrying value of trademarks and tradenames is reflected net of \$83,734 and \$65,834 of accumulated impairment charges at December 31, 2018 and at June 30, 2018, respectively.

Indefinite-lived intangible assets, which are not amortized, consist primarily of acquired tradenames and trademarks. Indefinite-lived intangible assets are evaluated on an annual basis in conjunction with the Company's evaluation of goodwill, or on an interim

Table of Contents

basis if and when events or circumstances change that would more likely than not reduce the fair value of any of its indefinite-life intangible assets below their carrying value. In assessing fair value, the Company utilizes a “relief from royalty” methodology. This approach involves two steps: (i) estimating the royalty rates for each trademark and (ii) applying these royalty rates to a projected net sales stream and discounting the resulting cash flows to determine fair value. If the carrying value of the indefinite-lived intangible asset exceeds the fair value of the asset, the carrying value is written down to fair value in the period identified. During the three months ended December 31, 2018, the Company determined that an indicator of impairment existed in certain of the Company’s indefinite-lived tradenames. The result of this assessment for the second quarter of fiscal 2019 indicated that the fair value of certain of the Company’s tradenames was below their carrying value, and therefore an impairment charge of \$17,900 was recognized (\$11,300 in the United States segment, \$2,787 in the United Kingdom segment, \$3,813 in the Rest of World). During the fiscal year ended June 30, 2018, an impairment charge of \$5,632 (\$5,100 in the Rest of World and \$532 in the United Kingdom segment) related to certain of the Company’s tradenames was recognized. Amortized intangible assets, which are deemed to have a finite life, primarily consist of customer relationships and are amortized over their estimated useful lives of 3 to 25 years. Amortization expense included in continuing operations was as follows:

	Three Months Ended December 31, 2018		Six Months Ended December 31, 2018	
Amortization of acquired intangibles	\$3,860	\$4,572	\$7,765	\$9,146

10. DEBT AND BORROWINGS

Debt and borrowings consisted of the following:

	December 31, 2018	June 30, 2018
Unsecured revolving credit facility	\$ 414,266	\$401,852
Term loan	288,750	296,250

Long-term debt, less current portion	\$ 692,128	\$687,501

Credit Agreement

On February 6, 2018, the Company entered into the Third Amended and Restated Credit Agreement (the “Credit Agreement”). The Credit Agreement provides for a \$1,000,000 unsecured revolving credit facility through February 6, 2023 and provides for a \$300,000 term loan. Under the Credit Agreement, the credit facility may be increased by an additional uncommitted \$400,000, provided certain conditions are met.

Borrowings under the Credit Agreement may be used to provide working capital, finance capital expenditures and permitted acquisitions, refinance certain existing indebtedness and for other lawful corporate purposes. The Credit Agreement provides for multicurrency borrowings in Euros, Pounds Sterling and Canadian Dollars as well as other currencies which may be designated. In addition, certain wholly-owned foreign subsidiaries of the Company may be designated as co-borrowers. The Credit Agreement contains restrictive covenants, which are usual and customary for facilities of its type, and include, with specified exceptions, limitations on the Company’s ability to engage in certain

business activities, incur debt, have liens, make capital expenditures, pay dividends or make other distributions, enter into affiliate transactions, consolidate, merge or acquire or dispose of assets, and make certain investments, acquisitions and loans. The Credit Agreement also requires the Company to satisfy certain financial covenants, such as maintaining a consolidated interest coverage ratio (as defined in the Credit Agreement) of no less than 4.0 to 1.0 and a consolidated leverage ratio (as defined in the Credit Agreement) of no more than 3.5 to 1.0. The consolidated leverage ratio is subject to a step-up to 4.0 to 1.0 for the four full fiscal quarters following an acquisition. Obligations under the Credit Agreement are guaranteed by certain existing and future domestic subsidiaries of the Company. As of December 31, 2018, there were \$414,266 and \$288,750 of borrowings outstanding under the unsecured revolving credit facility and term loan, respectively, and \$9,698 letters of credit outstanding under the Credit Agreement. On November 7, 2018, the Company amended the Credit Agreement to modify the calculation of the consolidated leverage ratio related to costs associated with CEO succession as well as the Project Terra cost reduction programs. On February 6, 2019 the Company entered into an amendment to the Credit Agreement,

Table of Contents

whereby its allowable consolidated leverage ratio increased to no more than 4.0 to 1.0 as of December 31, 2018 and no more than 3.75 to 1.0 as of March 31, 2019 and June 30, 2019. The consolidated leverage ratio returns to 3.5 to 1.0 beginning in the period ending September 30, 2019. As of December 31, 2018, \$576,036 is available under the Credit Agreement, and the Company was in compliance with all associated covenants, as amended.

The Credit Agreement provides that loans will bear interest at rates based on (a) the Eurocurrency Rate, as defined in the Credit Agreement, plus a rate ranging from 0.875% to 1.70% per annum; or (b) the Base Rate, as defined in the Credit Agreement, plus a rate ranging from 0.00% to 0.70% per annum, the relevant rate being the Applicable Rate. The Applicable Rate will be determined in accordance with a leverage-based pricing grid, as set forth in the Credit Agreement. Swing line loans and Global Swing Line loans denominated in U.S. dollars will bear interest at the Base Rate plus the Applicable Rate, and Global Swing Line loans denominated in foreign currencies shall bear interest based on the overnight Eurocurrency Rate for loans denominated in such currency plus the Applicable Rate. The weighted average interest rate on outstanding borrowings under the Credit Agreement at December 31, 2018 was 4.10%. Additionally, the Credit Agreement contains a Commitment Fee, as defined in the Credit Agreement, on the amount unused under the Credit Agreement ranging from 0.20% to 0.30% per annum, and such Commitment Fee is determined in accordance with a leverage-based pricing grid. The aforementioned February 6, 2019 amendment to the Credit Agreement also includes a provision whereby if the Company's consolidated leverage ratio equals or exceeds 3.5 as of December 31, 2018, March 31, 2019 or June 30, 2019, the loans will bear interest at rates based on (a) the Eurocurrency rate, as defined in the Credit Agreement, plus a rate of 1.90%; or (b) the Base Rate, as defined in the Credit Agreement, plus a rate of 0.90%, and will be subject to a 0.35% Commitment Fee on the unused amounts under the Credit Agreement.

The term loan has required installment payments due on the last day of each fiscal quarter commencing June 30, 2018 in an amount equal to \$3,750 and can be prepaid in whole or in part without premium or penalty.

Tilda Short-Term Borrowing Arrangements

Tilda, a component of our United Kingdom reportable segment, maintains short-term borrowing arrangements primarily used to fund the purchase of rice from India and other countries. The maximum borrowings permitted under all such arrangements are £52,000. Outstanding borrowings are collateralized by the current assets of Tilda, typically have six-month terms and bear interest at variable rates typically based on LIBOR plus a margin (weighted average interest rate of approximately 4.16% at December 31, 2018). As of December 31, 2018 and June 30, 2018, there were \$18,725 and \$9,338 of borrowings under these arrangements, respectively.

11. INCOME TAXES

In general, the Company uses an estimated annual effective tax rate, which is based on expected annual income and statutory tax rates in the various jurisdictions in which the Company operates, to determine its quarterly provision for income taxes. In the first quarter of fiscal 2019, the Company used an estimated annual effective tax rate to calculate its provision for income taxes. The Company calculated its effective tax rate on a discrete basis for the six months ended December 31, 2018 due to significant variations in the relationship between tax expense and projected pre-tax income. The Company's effective tax rate may change from period-to-period based on recurring and non-recurring factors including the geographical mix of earnings, enacted tax legislation, state and local income taxes and tax audit settlements.

On December 22, 2017, the U.S. government enacted comprehensive tax legislation pursuant to the Tax Cuts and Jobs Act (the "Tax Act"), which significantly revised the ongoing U.S. corporate income tax law by lowering the U.S. federal

corporate income tax rate from 35% to 21%, implementing a territorial tax system, imposing a one-time tax on foreign unremitted earnings and setting limitations on deductibility of certain costs (e.g., interest expense and executive compensation), among other things.

Due to the complexities involved in accounting for the Tax Act, the U.S. Securities and Exchange Commission's Staff Accounting Bulletin ("SAB") 118 required that the Company include in its financial statements a reasonable estimate of the impact of the Tax Act on earnings to the extent such reasonable estimate has been determined. Pursuant to SAB 118, the Company was allowed a measurement period of up to one year after the enactment date of the Tax Act to finalize the recording of the related tax impacts. As of December 31, 2018, the Company finalized its accounting for the income tax effects of the Tax Act and recorded an additional expense of \$8,205 related to its transition tax liability. The net increase in the transition tax was due to the finalization of our earnings and profits study for our foreign subsidiaries. The adjustment of the Company's provisional tax expense was recorded as a change in estimate in accordance with SAB No. 118. Despite the completion of the Company's accounting for the Tax Act under SAB 118, many aspects of the law remain unclear, and we expect ongoing guidance to be issued at both the federal and state levels. The Company will continue to monitor and assess the impact of any new developments.

Table of Contents

The Tax Act also includes a provision to tax global intangible low-taxed income (“GILTI”) of foreign subsidiaries. The FASB Staff Q&A Topic No. 5, Accounting for Global Intangible Low-Taxed Income, states that an entity can make an accounting policy election either to recognize deferred taxes for temporary differences that are expected to reverse as GILTI in future years or provide for the tax expense related to GILTI resulting from those items in the year the tax is incurred. We have elected to recognize the resulting tax on GILTI as a period expense in the period the tax is incurred. We have computed the impact on our effective tax rate on a discrete basis. The actual tax expense we record for GILTI may differ from this estimate.

The effective income tax rate from continuing operations was expense of 19.1% and a benefit of 70.1% for the three months ended December 31, 2018 and December 31, 2017, respectively. The effective income tax rate from continuing operations was a benefit of 8.4% and 19.9% for the six months ended December 31, 2018 and December 31, 2017, respectively. The effective income tax rate from continuing operations for the three and six months ended December 31, 2018 was impacted by provisions in the Tax Act including GILTI, finalization of the transition tax liability, and limitations on the deductibility of executive compensation. The effective income tax rate was also impacted by the geographical mix of earnings and state taxes. The effective rate for the three and six months ended December 31, 2017 was primarily impacted by the enactment of the Tax Act on December 22, 2017, specifically the revalue of net deferred tax liabilities to the enacted 21% tax rate, inclusion of the transition tax liability estimate and deductibility of executive officers’ compensation.

The income tax benefit from discontinued operations was \$22,452 and \$27,620 for the three and six months ended December 31, 2018, while the income tax expense from discontinued operations was \$1,321 and \$2,307 for the three and six months ended December 31, 2017. The benefit for income taxes for the three and six months ended December 31, 2018 includes the reversal of the \$12,250 deferred tax liability previously recorded related to Hain Pure Protein being classified as held for sale. In addition, the three and six month tax benefit is impacted by the tax effect of current period book losses as well as the deferred tax benefit arising from asset impairment charges.

12. ACCUMULATED OTHER COMPREHENSIVE (LOSS) INCOME

The following table presents the changes in accumulated other comprehensive (loss) income:

	Three Months Ended December 31,		Six Months Ended December 31,	
	2018	2017	2018	2017
Foreign currency translation adjustments:				
Other comprehensive (loss) income before reclassifications ⁽¹⁾	\$(27,948)	\$8,336	\$(41,467)	\$42,197
Deferred gains/(losses) on cash flow hedging instruments:

Net change in accumulated other comprehensive (loss) income	\$(27,948)	\$8,341	\$(41,467)	\$42,128

Foreign currency translation adjustments included intra-entity foreign currency transactions that were of a long-term investment nature and were a net loss of \$313 and a net gain of \$315 for the three months ended December 31, 2018 and 2017, respectively, and a net loss of \$472 and a net gain of \$1,066 for the six months ended December 31, 2018 and 2017, respectively.

(2) Amounts reclassified into income for deferred gains/(losses) on cash flow hedging instruments are recorded in “Cost of sales” in the Consolidated Statements of Operations and, before taxes, were \$132 for the six months ended

December 31, 2017. There were no amounts reclassified into income for deferred gains/(losses) on cash flow hedging instruments for the three and six months ended December 31, 2018 and for the three months ended December 31, 2017.

13. STOCK-BASED COMPENSATION AND INCENTIVE PERFORMANCE PLANS

The Company has two stockholder-approved plans, the Amended and Restated 2002 Long-Term Incentive and Stock Award Plan and the 2000 Directors Stock Plan, under which the Company's officers, senior management, other key employees, consultants and directors may be granted options to purchase the Company's common stock or other forms of equity-based awards.

Compensation cost and related income tax benefits recognized in the Consolidated Statements of Operations for stock-based compensation plans were as follows:

	Three Months Ended December 31, 2018		Six Months Ended December 31, 2017	
Selling, general and administrative expense	\$1,774	\$4,158	\$1,565	\$7,322
Chief Executive Officer Succession Plan expense, net	117	—	429	—
Discontinued operations	20	—	52	—
Total compensation cost recognized for stock-based compensation plans	\$1,911	\$4,158	\$2,046	\$7,322
Related income tax benefit	\$256	\$1,187	\$295	\$2,421

In the six months ended December 31, 2018, the Company recorded a benefit of \$1,867 related to the reversal of expense associated with the TSR Grant under the 2017-2019 LTIP, as defined and discussed further below.

Stock Options

A summary of the stock option activity for the six months ended December 31, 2018 is as follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Contractual Life (years)	Aggregate Intrinsic Value
Options outstanding and exercisable at June 30, 2018	122	\$ 2.26		
Exercised	—	—		
Options outstanding and exercisable at December 31, 2018	122	\$ 2.26	12.5	\$ 1,658

At December 31, 2018, there was no unrecognized compensation expense related to stock option awards.

Restricted Stock

A summary of the restricted stock and restricted share unit activity for the six months ended December 31, 2018 is as follows:

	Number of Shares and Units	Weighted Average Grant Date Fair Value (per share)
Non-vested restricted stock, restricted share units, and performance units at June 30, 2018	1,057	\$ 22.29
Granted ⁽¹⁾	1,147	\$ 8.79
Vested ⁽²⁾	(269)	\$ 25.80
Forfeited ⁽³⁾	(284)	\$ 16.73

Non-vested restricted stock, restricted share units, and performance units at December 31, 2018 1,651 \$ 13.29

(1) Includes 1,050 performance share units granted to Mr. Schiller in connection with his Inducement Award, as described further below, and 79 time-based restricted shares granted to Mr. Schiller that vest over three years.

(2) Includes the vesting of 172 shares associated with Irwin D. Simon, the Company's former CEO, 88 of which were accelerated in connection with the CEO Succession Agreement.

(3) Includes the cancellation of 223 shares of performance stock unit awards previously granted in connection with the 2016-2018 LTIP, as further discussed below.

Table of Contents

	Six Months Ended December 31,	
	2018	2017
Fair value of restricted stock and restricted share units granted	\$ 10,073	\$ 14,595
Fair value of shares vested	\$ 6,938	\$ 14,238
Tax benefit recognized from restricted shares vesting	\$ 2,561	\$ 4,887

At December 31, 2018, \$15,107 of unrecognized stock-based compensation expense, net of estimated forfeitures, related to non-vested restricted stock awards was expected to be recognized over a weighted-average period of approximately 2.7 years.

Long-Term Incentive Plan

The Company maintains a long-term incentive program (the “LTI Plan”). The LTI Plan currently consists of two performance-based long-term incentive plans (the “2016-2018 LTIP” and the “2017-2019 LTIP”) that provide for performance equity awards that can be earned over the respective three-year performance period. Participants in the LTI Plan include certain of the Company’s executive officers and other key executives.

The Compensation Committee administers the LTI Plan and is responsible for, among other items, selecting the specific performance measures for awards and setting the target performance required to receive an award after the completion of the performance period. The Compensation Committee determines the specific payout to the participants. Such awards may be paid in cash and/or unrestricted shares of the Company’s common stock at the discretion of the Compensation Committee, provided that any such stock-based awards shall be issued pursuant to and be subject to the terms and conditions of the Amended and Restated 2002 Long-Term Incentive and Stock Award Plan, as in effect and as amended from time-to-time.

2016-2018 and 2017-2019 LTIP

Upon adoption of the 2016-2018 LTIP and 2017-2019 LTIP, the Compensation Committee granted performance stock units to each participant, the achievement of which is dependent upon a defined calculation of relative total shareholder return over the period from July 1, 2015 to June 30, 2018 and from July 1, 2017 to June 30, 2019 (the “TSR Grant”), respectively. The grant date fair value for these awards was separately estimated based on a Monte Carlo simulation that calculated the likelihood of goal attainment. Each performance unit translates into one unit of common stock. The TSR Grant represents half of each participant’s target award. The other half of the 2016-2018 LTIP and 2017-2019 LTIP is based on the Company’s achievement of specified net sales growth targets over the respective three-year period. If the targets are achieved, the award in connection with the 2017-2019 LTIP may be paid only in unrestricted shares of the Company’s common stock.

During the six months ended December 31, 2018, in connection with the 2016-2018 LTIP, for the three-year performance period of July 1, 2015 through June 30, 2018, the Compensation Committee determined that the adjusted operating income goal required to be met for Section 162(m) funding was not achieved and determined that no awards would be paid or vested pursuant to the 2016-2018 LTIP. Accordingly, all performance stock unit awards previously granted in connection with the relative TSR portion of the award were forfeited, and amounts accrued relating to the net sales portion of the award were reversed. As such, in the six months ended December 31, 2018, the Company recorded a benefit of \$6,482 associated with the reversal of previously accrued amounts under the net sales portion of the 2016-2018 LTIP, of which \$5,065 was recorded in Chief Executive Officer Succession Plan expense, net on the Consolidated Statement of Operations.

In connection with the 2017-2019 LTIP, in the six months ended December 31, 2018, the Company determined that the achievement of the adjusted operating income goal required to be met for Section 162(m) funding was not probable. Accordingly, during the six months ended December 31, 2018, the Company recorded benefits of \$1,129 and \$1,867 associated with the reversal of previously accrued amounts under the portions of the 2017-2019 LTIP that were dependent on the achievement of pre-determined performance measures of net sales and relative TSR, respectively.

Inducement Grant

On November 6, 2018, Mr. Schiller received an award of 1,050 performance-stock units intended to represent the total three-year long-term incentive opportunity that would have been made in fiscal years 2019 – 2021 (the “PSUs”). The PSUs will vest pursuant to the achievement of pre-established three-year compound annual TSR levels. The number of shares actually issued will range from zero to 1,050. No PSUs will vest if the 3-Year compound annual TSR is below 15%.

Table of Contents

The number of PSUs expected to be earned, based upon the achievement of the TSR market condition, is factored into the grant date Monte Carlo valuation. Compensation expense is recognized on a straight-line basis over the three-year service period, regardless of the eventual number of PSUs that are earned based upon the market condition, provided Mr. Schiller remains an employee at the end of the three-year period. Compensation expense is reversed if at any time during the three-year service period Mr. Schiller is no longer an employee, subject to certain termination and change in control eligibility provisions. These PSUs are subject to a holding period of one year after the vesting date. As such, an illiquidity discount was applied to the grant date fair value. The total grant date fair value of the award was estimated to be \$7,571, or \$7.21 per share.

Total compensation cost related to this award recognized in the three and six months ended December 31, 2018 was \$386.

14. INVESTMENTS

Equity method investment

On October 27, 2015, the Company acquired a 14.9% interest in Chop't Creative Salad Company LLC ("Chop't"). Chop't develops and operates fast-casual, fresh salad restaurants in the Northeast and Mid-Atlantic United States. Chop't markets and sells certain of the Company's branded products and provides consumer insight and feedback. The investment is being accounted for as an equity method investment due to the Company's representation on the Board of Directors of Chop't. During fiscal 2018, the Company's ownership interest was reduced to 13.4% due to the distribution of additional ownership interests. Further ownership interest distributions could potentially dilute the Company's ownership interest to as low as 11.9%. At December 31, 2018 and June 30, 2018, the carrying value of the Company's investment in Chop't was \$15,000 and \$15,524, respectively, and is included in the Consolidated Balance Sheets as a component of "Investments and joint ventures."

15. FINANCIAL INSTRUMENTS MEASURED AT FAIR VALUE

The Company's financial assets and liabilities measured at fair value are required to be grouped in one of three levels. The levels prioritize the inputs used to measure the fair value of the assets or liabilities. These levels are:

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and
- Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The following table presents by level within the fair value hierarchy assets and liabilities measured at fair value on a recurring basis as of December 31, 2018:

	Total	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:				
Rabbi trust investments	\$34,304	\$34,304	\$ —	\$ —
Forward foreign currency contracts	429	—	429	—

Edgar Filing: HAIN CELESTIAL GROUP INC - Form 10-Q

Equity investment	599	599	—	—
Contingent consideration, current	1,623	—	—	1,623
Total	\$36,955	\$34,903	\$ 429	\$ 1,623
Liabilities:				
Forward foreign currency contracts	\$19	\$—	\$ 19	\$ —
Contingent consideration, non-current	265	—	—	265
Total	\$284	\$—	\$ 19	\$ 265

Table of Contents

The following table presents by level within the fair value hierarchy assets and liabilities measured at fair value on a recurring basis as of June 30, 2018:

	Total	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets:				
Cash equivalents	\$99	\$ 99	\$ —	\$ —
Forward foreign currency contracts	365	—	365	—
Equity investments	692	692	—	—
Total	\$1,156	\$ 791	\$ 365	\$ —
Liabilities:				
Forward foreign currency contracts	\$27	\$ —	\$ 27	\$ —
Contingent consideration, non-current	1,909	—	—	1,909
Total	\$1,936	\$ —	\$ 27	\$ 1,909

The rabbi trust investments consist of cash and mutual funds whose fair value is based on quoted prices in active markets for identical assets, and are designated as Level 1 within the valuation hierarchy. The equity investment consists of the Company's less than 1% investment in Yeo Hiap Seng Limited, a food and beverage manufacturer and distributor based in Singapore. Fair value is measured using the market approach based on quoted prices. The Company utilizes the income approach to measure fair value for its foreign currency forward contracts. The income approach uses pricing models that rely on market observable inputs such as yield curves, currency exchange rates and forward prices.

The Company estimates the original fair value of the contingent consideration as the present value of the expected contingent payments, determined using the weighted probabilities of the possible payments. The Company reassesses the fair value of contingent payments on a periodic basis. Although the Company believes its estimates and assumptions are reasonable, different assumptions, including those regarding the operating results of the respective businesses, or changes in the future may result in different estimated amounts.

The following table summarizes the Level 3 activity for the six months ended December 31, 2018.

Balance as of June 30, 2018	\$1,909
Contingent consideration adjustment ^(a)	48
Translation adjustment	(69)
Balance as of December 31, 2018	\$1,888

(a) The change in the fair value of contingent consideration is included in "Project Terra costs and other" in the Company's Consolidated Statements of Operations.

There were no transfers of financial instruments between the three levels of fair value hierarchy during the six months ended December 31, 2018 and December 31, 2017.

The carrying amount of cash and cash equivalents, accounts receivable, net, accounts payable and certain accrued expenses and other current liabilities approximate fair value due to the short-term maturities of these financial instruments. The Company's debt approximates fair value due to the debt bearing fluctuating market interest rates (See Note 10, Debt and Borrowings).

In addition to the instruments named above, the Company also makes fair value measurements in connection with its interim and annual goodwill and trade name impairment testing. These measurements fall into Level 3 of the fair value hierarchy (See Note 9, Goodwill and Other Intangible Assets).

Derivative Instruments

The Company primarily has exposure to changes in foreign currency exchange rates relating to certain anticipated cash flows and firm commitments from its international operations. The Company may enter into certain derivative financial instruments, when

Table of Contents

available on a cost-effective basis, to manage such risk. Derivative financial instruments are not used for speculative purposes. The fair value of these derivatives is included in prepaid expenses and other current assets and accrued expenses and other current liabilities in the Consolidated Balance Sheet. For derivative instruments that qualify as hedges of probable forecasted cash flows, the effective portion of changes in fair value is temporarily reported in accumulated other comprehensive income and recognized in earnings when the hedged item affects earnings. Fair value hedges and derivative instruments not designated as hedges are marked-to-market each reporting period with any unrealized gains or losses recognized in earnings.

Derivative instruments designated at inception as hedges are measured for effectiveness at the inception of the hedge and on a quarterly basis. These assessments determine whether derivatives designated as qualifying hedges continue to be highly effective in offsetting changes in the cash flows of hedged items. Any ineffective portion of change in fair value is not deferred in accumulated other comprehensive income and is included in current period results. The Company will discontinue cash flow hedge accounting when the forecasted transaction is no longer probable of occurring on the originally forecasted date or when the hedge is no longer effective. There were no discontinued foreign exchange hedges for the three and six months ended December 31, 2018 and December 31, 2017.

There were no cash flow hedges or fair value hedges outstanding as of December 31, 2018 and June 30, 2018.

The notional amounts of derivative foreign currency exchange contracts not designated as hedges at December 31, 2018 and June 30, 2018 were \$48,093 and \$20,986, respectively. The fair values of derivatives not designated as hedges at December 31, 2018 and June 30, 2018 were \$410 and \$338 of net assets, respectively.

Gains and losses related to both designated and non-designated foreign currency exchange contracts are recorded in the Company's Consolidated Statements of Operations based upon the nature of the underlying hedged transaction and were not material for the three and six months ended December 31, 2018 and December 31, 2017.

16. COMMITMENTS AND CONTINGENCIES

Securities Class Actions Filed in Federal Court

On August 17, 2016, three securities class action complaints were filed in the Eastern District of New York against the Company alleging violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934. The three complaints are: (1) *Flora v. The Hain Celestial Group, Inc., et al.* (the "Flora Complaint"); (2) *Lynn v. The Hain Celestial Group, Inc., et al.* (the "Lynn Complaint"); and (3) *Spadola v. The Hain Celestial Group, Inc., et al.* (the "Spadola Complaint" and, together with the Flora and Lynn Complaints, the "Securities Complaints"). On June 5, 2017, the court issued an order for consolidation, appointment of Co-Lead Plaintiffs and approval of selection of co-lead counsel. Pursuant to this order, the Securities Complaints were consolidated under the caption *In re The Hain Celestial Group, Inc. Securities Litigation* (the "Consolidated Securities Action"), and Rosewood Funeral Home and Salamon Gimpel were appointed as Co-Lead Plaintiffs. On June 21, 2017, the Company received notice that plaintiff Spadola voluntarily dismissed his claims without prejudice to his ability to participate in the Consolidated Securities Action as an absent class member. The Co-Lead Plaintiffs in the Consolidated Securities Action filed a Consolidated Amended Complaint on August 4, 2017 and a Corrected Consolidated Amended Complaint on September 7, 2017 on behalf of a purported class consisting of all persons who purchased or otherwise acquired Hain Celestial securities between November 5, 2013 and February 10, 2017 (the "Amended Complaint"). The Amended Complaint names as defendants the Company and certain of its current and former officers (collectively, the "Defendants") and asserts violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 based on allegedly materially false or misleading statements and omissions in public statements, press releases and SEC filings regarding the Company's

business, prospects, financial results and internal controls. Defendants filed a motion to dismiss on October 3, 2017. Co-Lead Plaintiffs filed an opposition on December 1, 2017, and Defendants filed the reply on January 16, 2018. On April 4, 2018, the Court requested additional briefing relating to certain aspects of Defendants' motion to dismiss. In accordance with this request, Lead Plaintiffs submitted their supplemental brief on April 18, 2018, and Defendants submitted an opposition on May 2, 2018. Lead Plaintiffs filed a reply brief on May 9, 2018, and Defendants submitted a sur-reply on May 16, 2018.

Stockholder Derivative Complaints Filed in State Court

On September 16, 2016, a stockholder derivative complaint, *Paperny v. Heyer, et al.* (the "Paperny Complaint"), was filed in New York State Supreme Court in Nassau County against the Board of Directors and certain officers of the Company alleging breach of fiduciary duty, unjust enrichment, lack of oversight and corporate waste. On December 2, 2016 and December 29, 2016, two additional stockholder derivative complaints were filed in New York State Supreme Court in Nassau County against the Board of Directors and certain officers under the captions *Scarola v. Simon* (the "Scarola Complaint") and *Shakir v. Simon* (the "Shakir Complaint" and, together with the Paperny Complaint and the Scarola Complaint, the "Derivative Complaints"), respectively.

Table of Contents

Both the Scarola Complaint and the Shakir Complaint allege breach of fiduciary duty, lack of oversight and unjust enrichment. On February 16, 2017, the parties for the Derivative Complaints entered into a stipulation consolidating the matters under the caption In re The Hain Celestial Group (the “Consolidated Derivative Action”) in New York State Supreme Court in Nassau County, ordering the Shakir Complaint as the operative complaint. On November 2, 2017, the parties agreed to stay the Consolidated Derivative Action until April 11, 2018. On April 6, 2018, the parties filed a proposed stipulation agreeing to stay the Consolidated Derivative Action until October 4, 2018, which the Court granted on May 3, 2018. On October 9, 2018, the Court further stayed this matter until December 4, 2018 and on December 4, 2018 further stayed the matter until January 14, 2019. On January 14, 2019, the Court held a status conference and granted Plaintiffs leave to file an amended complaint by March 7, 2019, while continuing the stay as to all other aspects of the case. The Court scheduled a status conference for March 13, 2019.

Additional Stockholder Class Action and Derivative Complaints Filed in Federal Court

On April 19, 2017 and April 26, 2017, two class action and stockholder derivative complaints were filed in the Eastern District of New York against the Board of Directors and certain officers of the Company under the captions Silva v. Simon, et al. (the “Silva Complaint”) and Barnes v. Simon, et al. (the “Barnes Complaint”), respectively. Both the Silva Complaint and the Barnes Complaint allege violation of securities law, breach of fiduciary duty, waste of corporate assets and unjust enrichment.

On May 23, 2017, an additional stockholder filed a complaint under seal in the Eastern District of New York against the Board of Directors and certain officers of the Company. The complaint alleges that the Company’s directors and certain officers made materially false and misleading statements in press releases and SEC filings regarding the Company’s business, prospects and financial results. The complaint also alleges that the Company violated its by-laws and Delaware law by failing to hold its 2016 Annual Stockholders Meeting and includes claims for breach of fiduciary duty, unjust enrichment and corporate waste. On August 9, 2017, the Court granted an order to unseal this case and reveal Gary Merenstein as the plaintiff (the “Merenstein Complaint”).

On August 10, 2017, the court granted the parties stipulation to consolidate the Barnes Complaint, the Silva Complaint and the Merenstein Complaint under the caption In re The Hain Celestial Group, Inc. Stockholder Class and Derivative Litigation (the “Consolidated Stockholder Class and Derivative Action”) and to appoint Robbins Arroyo LLP and Scott+Scott as Co-Lead Counsel, with the Law Offices of Thomas G. Amon as Liaison Counsel for Plaintiffs. On September 14, 2017, a related complaint was filed under the caption Oliver v. Berke, et al. (the “Oliver Complaint”), and on October 6, 2017, the Oliver Complaint was consolidated with the Consolidated Stockholder Class and Derivative Action. The Plaintiffs filed their consolidated amended complaint under seal on October 26, 2017. On December 20, 2017, the parties agreed to stay Defendants’ time to answer, move, or otherwise respond to the consolidated amended complaint through and including 30 days after a decision is rendered on the motion to dismiss the Amended Complaint in the consolidated Securities Class Actions, described above.

Center for Environmental Health v. Save Mart Supermarkets, et.al., Superior Court of the State of California, Alameda County

On August 19, 2015, the Center for Environmental Health (“CEH”), a private enforcer, filed a complaint under the California Safe Drinking Water and Toxic Enforcement Act (the “Enforcement Act”) (commonly referred to as “Proposition 65”), naming various defendants, including the Company. The complaint alleges that the Company is required to provide warnings for certain of its products for alleged exposure to the substance listed under the Enforcement Act as “acrylamide.” The other defendants named in the action are five retailers and one distributor, all of which are named for the Company’s products at issue. Acrylamide is a chemical that can form in some foods during high-temperature cooking processes, such as frying, roasting and baking. The complaint seeks injunctive relief, civil

penalties in the amount of \$2,500 per day (unrounded) for each alleged violation, and CEH's attorneys' fees and costs.

On October 16, 2018, following a mediation on October 3, 2018, CEH and the Company executed a proposed consent judgment ("Consent Judgment") to resolve the above-referenced action in its entirety. The Consent Judgment sets acrylamide standards for potato- and sweet-potato based fried or baked snack foods. The Consent Judgment requires the Company to pay total of \$588 in non-contingent settlement payments. In addition, the Consent Judgment sets a series of separate contingent payments if the Company exercises certain options in the future with respect to injunctive terms. On December 18, 2018, the Court approved the Consent Judgment. Accordingly, the Consent Judgment is now in effect and binding on the parties.

SEC Investigation

As previously disclosed, the Company voluntarily contacted the Securities and Exchange Commission (the "Commission") in August 2016 to advise it of the Company's delay in the filing of its periodic reports and the performance of the independent review conducted by the Audit Committee. On December 11, 2018, the Commission announced it had reached a settlement agreement with the Company and published its order instituting proceedings, which includes the settlement. The settlement fully resolves this matter, without any finding of intentional wrongdoing by the Company and without any monetary penalty, while noting the

Table of Contents

Company's cooperation and prompt remedial acts. The order and terms of the settlement relate to the Company's previously disclosed material weaknesses in internal controls over financial reporting.

Other

In addition to the litigation described above, the Company is and may be a defendant in lawsuits from time to time in the normal course of business. While the results of litigation and claims cannot be predicted with certainty, the Company believes the reasonably possible losses of such matters, individually and in the aggregate, are not material. Additionally, the Company believes the probable final outcome of such matters will not have a material adverse effect on the Company's consolidated results of operations, financial position, cash flows or liquidity.

17. SEGMENT INFORMATION

Beginning in the third quarter of fiscal 2018, the Hain Pure Protein operations were classified as discontinued operations as discussed in "Note 5, Discontinued Operations." Therefore, segment information presented excludes the results of Hain Pure Protein. As a result, the Company is now managed in seven operating segments: the United States, United Kingdom, Tilda, Ella's Kitchen UK, Europe, Canada and Hain Ventures (formerly known as Cultivate).

The prior period segment information contained below has been adjusted to reflect the Company's revised operating and reporting structure.

Net sales and operating income are the primary measures used by the Company's Chief Operating Decision Maker ("CODM") to evaluate segment operating performance and to decide how to allocate resources to segments. The CODM is the Company's Chief Executive Officer. Expenses related to certain centralized administration functions that are not specifically related to an operating segment are included in "Corporate and Other." Corporate and Other expenses are comprised mainly of the compensation and related expenses of certain of the Company's senior executive officers and other selected employees who perform duties related to the entire enterprise, as well as expenses for certain professional fees, facilities and other items which benefit the Company as a whole. Additionally, certain Project Terra costs are included in "Corporate and Other." Expenses that are managed centrally, but can be attributed to a segment, such as employee benefits and certain facility costs, are allocated based on reasonable allocation methods. Assets are reviewed by the CODM on a consolidated basis and therefore are not reported by operating segment.

The following tables set forth financial information about each of the Company's reportable segments. Transactions between reportable segments were insignificant for all periods presented.

The Company sells its products through specialty and natural food distributors, supermarkets, natural food stores, mass-market and e-commerce retailers, food service channels and club, drug and convenience stores in over 80 countries worldwide.

Appointment of New CEO

On October 26, 2018, the Company’s Board of Directors appointed Mark L. Schiller as President and Chief Executive Officer, succeeding Irwin D. Simon. In connection with the appointment, on October 26, 2018, the Company and Mr. Schiller entered into an employment agreement, which was approved by the Board, with Mr. Schiller’s employment commencing on November 5, 2018. See Note 3, Chief Executive Officer Succession Plan, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q for additional information.

Discontinued Operations

In March 2018, the Company’s Board of Directors approved a plan to sell all of the operations of the Hain Pure Protein Corporation (“HPPC”) and EK Holdings, Inc. (“Empire”) operating segments, which are reported in the aggregate as the Hain Pure Protein reportable segment. These dispositions are being undertaken to reduce complexity in the Company’s

operations and simplify the Company's brand portfolio, in addition to allowing additional flexibility to focus on opportunities for growth and innovation in the Company's more profitable core businesses.

Collectively, these dispositions represent a strategic shift that will have a major impact on the Company's operations and financial results and have been accounted for as discontinued operations. See Note 5, Discontinued Operations, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q for additional information on discontinued operations.

Project Terra

During fiscal 2016, the Company commenced a strategic review, referred to as "Project Terra," of which a key initiative is the identification of global cost savings, as well as removing complexities from the business. Under this plan, the Company aims to achieve \$350 million in global savings by fiscal 2020, a portion of which the Company intends to reinvest into its brands. This review includes streamlining the Company's manufacturing plants, co-packers, and supply chain, in addition to product rationalization initiatives which are aimed at eliminating slow moving stock keeping units ("SKUs").

Net Sales

Net sales for the three months ended December 31, 2018 were \$584.2 million, a decrease of \$32.1 million, or 5.2%, from net sales of \$616.2 million for the three months ended December 31, 2017. On a constant currency basis, net sales decreased approximately 3.6% from the prior year quarter. Net sales decreased across all three of our reportable segments. Further details of changes in net sales by segment are provided below.

Gross Profit

Gross profit for the three months ended December 31, 2018 was \$114.3 million, a decrease of \$19.7 million, or 14.7%, as compared to the prior year quarter. Gross profit margin was 19.6% of net sales, compared to 21.7% in the prior year quarter. Gross profit was unfavorably impacted by higher trade and promotional investments to drive future period growth and increased freight and commodity costs in the United States. These increased costs were partially offset by Project Terra cost savings.

Table of Contents

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$85.4 million for the three months ended December 31, 2018, a decrease of \$1.1 million, or 1.2%, from \$86.4 million for the prior year quarter. Selling, general and administrative expenses decreased primarily due to a decrease in stock-based compensation expense and Project Terra savings, offset in part by higher marketing investment costs in the Company's international businesses. Selling, general and administrative expenses as a percentage of net sales was 14.6% in the three months ended December 31, 2018 and 14.0% in the prior year quarter, reflecting an increase of 60 basis points primarily attributable to the aforementioned decrease in net sales.

Amortization of Acquired Intangibles

Amortization of acquired intangibles was \$3.9 million for the three months ended December 31, 2018, a decrease of \$0.7 million from \$4.6 million in the prior year quarter. The decrease was due to finite-lived intangibles from certain historical acquisitions becoming fully amortized subsequent to December 31, 2017.

Project Terra Costs and Other

Project Terra costs and other was \$9.9 million for the three months ended December 31, 2018, an increase of \$5.8 million from \$4.1 million in the prior year quarter. The increase was primarily due to increased consulting fees incurred in connection with the Company's Project Terra strategic review and increased severance costs for the three months ended December 31, 2018 as compared to the prior year period. Project Terra costs and other for the three months ended December 31, 2018 also included \$2.1 million in costs associated with the exit of a leased production facility in the United Kingdom.

Chief Executive Officer Succession Plan Expense, net

Net costs and expenses associated with the Company's Chief Executive Officer Succession Plan were \$10.1 million for the three months ended December 31, 2018. There were no comparable expenses in the three months ended December 31, 2017. See Note 3, Chief Executive Officer Succession Plan, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q for further discussion.

Accounting Review and Remediation Costs, net of Insurance Proceeds

Costs and expenses associated with the internal accounting review, remediation and other related matters were \$1.1 million for the three months ended December 31, 2018, compared to \$4.5 million in the prior year quarter. Included in accounting review and remediation costs for the three months ended December 31, 2018 were insurance proceeds of \$0.2 million related to the reimbursement of costs incurred as part of the internal accounting review and the independent review by the Audit Committee and other related matters. The net amount of accounting review costs for the three months ended December 31, 2018 was expense of \$0.9 million.

Long-lived Asset and Intangibles Impairment

In the second quarter of fiscal 2019, the Company recorded a pre-tax impairment charge of \$17.9 million (\$11.3 million in the United States, \$3.8 million related to Rest of World and \$2.8 million related to the United Kingdom segment) related to certain trade names of the Company. See Note 9, Goodwill and Other Intangible Assets, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q. Additionally, in the three months ended December 31, 2018, the Company recorded \$1.6 million of non-cash impairment charges primarily related to

the write down the value of certain machinery and equipment.

Operating (Loss) Income

Operating loss for the three months ended December 31, 2018 was \$15.4 million compared to operating income of \$31.0 million in the prior year quarter. The decrease in operating income resulted from the items described above.

Table of Contents

Interest and Other Financing Expense, net

Interest and other financing expense, net totaled \$8.8 million for the three months ended December 31, 2018, an increase of \$2.3 million, or 36.1%, from \$6.5 million in the prior year quarter. The increase in interest and other financing expense, net resulted primarily from higher interest expense related to our revolving credit facility as a result of higher variable interest rates on outstanding debt and other borrowings. See Note 10, Debt and Borrowings, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q.

Other Expense/(Income), net

Other expense, net totaled \$0.4 million for the three months ended December 31, 2018, compared to \$0.8 million of income in the prior year quarter. Included in other expense, net were net unrealized foreign currency losses, which were higher in the current quarter than the prior year quarter principally due to the effect of foreign currency movements on the remeasurement of foreign currency denominated loans.

(Loss) Income From Continuing Operations Before Income Taxes and Equity in Net Income of Equity-Method Investees

Loss before income taxes and equity in net income of our equity-method investees for the three months ended December 31, 2018 was \$24.6 million compared to income of \$25.2 million for the three months ended December 31, 2017. The decrease was due to the items discussed above.

Income Taxes

The provision for income taxes includes federal, foreign, state and local income taxes. For the three months ended December 31, 2018, the Company calculated its effective tax rate based on a discrete basis due to significant variations in the relationship between income tax expense and projected pre-tax income. As a result, the actual effective tax rate for the six months ended December 31, 2018 is being utilized. Our income tax expense from continuing operations was \$4.7 million for the three months ended December 31, 2018 compared to \$17.7 million of tax benefit in the prior year quarter.

The effective income tax rate from continuing operations was 19.1% for the three months ended December 31, 2018, compared to a benefit of 70.1% for the three months ended December 31, 2017. The effective income tax rate from continuing operations for the three months ended December 31, 2018 was impacted by the provisions in the Tax Act including global intangible low-taxed income, finalization of the transition tax liability and limitations on the deductibility of executive compensation. The effective income tax rate was also negatively impacted by the geographical mix of earnings and state taxes. For an additional discussion on the impact of the Tax Act, see Note 11, Income Taxes, in the Notes to the Consolidated Financial Statements included in Item 1 of this Form 10-Q.

The effective income tax rate from continuing operations for the three months ended December 31, 2017 was primarily impacted by the enactment of the Tax Act on December 22, 2017, specifically the revalue of net deferred tax liabilities to the enacted 21% tax rate, inclusion of the transition tax liability estimate and limitation on the deductibility of executive officers' compensation.

The income tax benefit from discontinued operations was \$22.5 million for the three months ended December 31, 2018, compared to income tax expense from discontinued operations was \$1.3 million for the three months ended December 31, 2017. The benefit for income taxes for the three months ended December 31, 2018 includes the reversal of the \$12.3 million deferred tax liability previously recorded related to Hain Pure Protein being classified as held for

sale. In addition, the three month tax benefit is impacted by the tax effect of current period book losses as well as the deferred tax benefit arising from asset impairment charges.

Our effective tax rate may change from period-to-period based on recurring and non-recurring factors including the geographical mix of earnings, enacted tax legislation, state and local income taxes and tax audit settlements.

Table of Contents

Equity in Net Loss (Income) of Equity-Method Investees

Our equity in net loss from our equity-method investments for the three months ended December 31, 2018 was essentially breakeven, compared to equity in net income of \$0.2 million in the three months ended December 31, 2017. See Note 14, Investments, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q.

Net (Loss) Income from Continuing Operations

Net loss from continuing operations for the three months ended December 31, 2018 was \$29.3 million compared to net income of \$43.1 million for the three months ended December 31, 2017. Net loss per diluted share was \$0.28 for the three months ended December 31, 2018 compared to net income per diluted share of \$0.41 in the prior year quarter. The decrease was attributable to the factors noted above.

Net (Loss) Income from Discontinued Operations

Net loss from discontinued operations for the three months ended December 31, 2018 was \$37.2 million compared to net income from discontinued operations for the three months ended December 31, 2017 of \$4.0 million, or \$0.36 net loss per diluted share and \$0.04 net income per diluted share, respectively. The decrease was attributable to asset impairment charges of \$54.9 million recorded in the three months ended December 31, 2018.

Net (Loss) Income

Net loss for the three months ended December 31, 2018 was \$66.5 million compared to net income of \$47.1 million in the prior year quarter. Net loss per diluted share was \$0.64 in the three months ended December 31, 2018 compared to net income per diluted share of \$0.45 in the three months ended December 31, 2017. The decrease was attributable to the factors noted above.

Adjusted EBITDA

Our Adjusted EBITDA was \$44.9 million and \$67.7 million for the three months ended December 31, 2018 and 2017, respectively, as a result of the factors discussed above and the adjustments described in the Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures presented following the discussion of our results of operations.

United States

Our net sales in the United States segment for the three months ended December 31, 2018 were \$259.2 million, a decrease of \$11.1 million, or 4.1%, from net sales of \$270.3 million for the three months ended December 31, 2017. The decrease in net sales was primarily driven by declines in our Pantry and Better-For-You-Baby platforms, partially offset by an increase in our Better-For-You-Snacks platform. In addition, the declines were also driven by the strategic decision to no longer support certain lower margin SKUs in order to reduce complexity and increase gross margins. Operating income in the United States for the three months ended December 31, 2018 was \$7.2 million, a decrease of \$14.7 million from operating income of \$21.9 million for the three months ended December 31, 2017. The decrease in operating income was the result of the aforementioned decrease in net sales, higher trade investments to drive future period growth and increased freight and commodity costs.

United Kingdom

Our net sales in the United Kingdom segment for the three months ended December 31, 2018 were \$225.3 million, a decrease of \$12.9 million, or 5.4%, from net sales of \$238.2 million for the three months ended December 31, 2017. On a constant currency basis, net sales decreased 2.4% from the prior year quarter. The net sales decrease was primarily due to declines in sales of the Company's Hartley®, Cully and Sully®, and New Covent Garden Soup Co.® brands and private label sales offset in part by growth from the Company's Tilda® business and Linda McCartney® brand. Operating income in the United Kingdom segment for the three months ended December 31, 2018 was \$14.7 million, an increase of \$1.1 million from \$13.6 million for the three months ended December 31, 2017. The increase in operating income was primarily due to operating efficiencies achieved at Hain Daniels driven by Project Terra.

Table of Contents

Rest of World

Our net sales in Rest of World were \$99.7 million for the three months ended December 31, 2018, a decrease of \$8.1 million, or 7.5%, from net sales of \$107.7 million for the three months ended December 31, 2017. On a constant currency basis, net sales decreased 4.7% from the prior year. The decrease in net sales was driven by declines in Canada from the Company's Europe's Best and Dream® brands and private label sales, offset in part by growth in our Yves Veggie Cuisine®, Live Clean® and Tilda® brands. Net sales in Europe were relatively flat driven by increased net sales from our Joya® brand and private label sales offset in part by declines in our Danival®, Lima® and Dream® brands. Hain Ventures (formerly known as Cultivate) net sales decreased from the prior year quarter, primarily driven by declines from the Blueprint®, Westsoy®, Sunspire® and DeBoles® brands, offset in part by growth from the Health Valley® and Yves Veggie Cuisine® brands. Operating income in the segment for the three months ended December 31, 2018 was \$8.4 million, a decrease of \$2.2 million, from \$10.5 million for the three months ended December 31, 2017. The decrease in operating income was primarily due to the aforementioned decrease in sales, start-up costs incurred in connection with a new manufacturing facility in Canada and higher trade investments to drive future growth.

Corporate and Other

Our Corporate and Other category consists of expenses related to the Company's centralized administrative functions, which do not specifically relate to an operating segment. Such Corporate and Other expenses are comprised mainly of the compensation and related expenses of certain of the Company's senior executive officers and other employees who perform duties related to our entire enterprise as well as expenses for certain professional fees, facilities, and other items which benefit the Company as a whole. Additionally, Chief Executive Officer Succession Plan expense, net, Project Terra costs and other and Accounting review and remediation costs, net are included in Corporate and Other and were \$10.1 million, \$5.5 million and \$0.9 million, respectively, for the three months ended December 31, 2018. Corporate and Other in the three months ended December 31, 2018 also includes tradename impairment charges of \$17.9 million.

Net Sales

Net sales for the six months ended December 31, 2018 were \$1.14 billion, a decrease of \$60.5 million, or 5.0%, from net sales of \$1.21 billion for the six months ended December 31, 2017. On a constant currency basis, net sales decreased approximately 3.9% from the prior year period. Net sales decreased across all three of our reportable segments. Further details of changes in net sales by segment are provided below.

Gross Profit

Gross profit for the six months ended December 31, 2018 was \$213.9 million, a decrease of \$43.5 million, or 16.9%, as compared to the prior year period. Gross profit margin was 18.7% of net sales, compared to 21.3% in the prior year period. Gross profit was unfavorably impacted by higher trade and promotional investments and increased freight and commodity costs primarily in the United States segment. These increased costs were partially offset by Project Terra cost savings.

Table of Contents

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$167.6 million for the six months ended December 31, 2018, a decrease of \$4.9 million, or 2.8%, from \$172.5 million for the prior year. Selling, general and administrative expenses decreased primarily due to a decrease of \$2.5 million associated with the reversal of previously accrued amounts under the net sales portion of the 2016-2018 and 2017-2019 LTIPs and a \$5.8 million decrease in stock-based compensation expense, which included the reversal of \$1.9 million of previously recognized stock-based compensation expense associated with the relative TSR portion of the 2017-2019 LTIP due to specified performance metrics not being attained. See Note 13, Stock-based Compensation and Incentive Performance Plans, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q for further discussion on the aforementioned reversals under the Company's LTIPs. This decrease was offset in part by higher marketing investment costs in the Company's international businesses. Selling, general and administrative expenses as a percentage of net sales was 14.6% in the six months ended December 31, 2018 and 14.3% in the prior year period, reflecting an increase of 30 basis points primarily attributable to the aforementioned decrease in net sales.

Amortization of Acquired Intangibles

Amortization of acquired intangibles was \$7.8 million for the six months ended December 31, 2018, a decrease of \$1.4 million from \$9.1 million in the prior year period. The decrease was due to finite-lived intangibles from certain historical acquisitions becoming fully amortized subsequent to December 31, 2017.

Project Terra Costs and Other

Project Terra costs and other was \$20.2 million for the six months ended December 31, 2018, an increase of \$11.3 million from \$8.9 million in the prior year period. The increase was primarily due to increased consulting fees incurred in connection with the Company's Project Terra strategic review for the six months ended December 31, 2018 as compared to the prior year period. Project Terra costs and other for the six months ended December 31, 2018 also included \$2.1 million in costs associated with the exit of a leased production facility in the United Kingdom.

Chief Executive Officer Succession Plan Expense, net

Net costs and expenses associated with the Company's Chief Executive Officer Succession Plan were \$29.7 million for the six months ended December 31, 2018. There were no comparable expenses in the six months ended December 31, 2017. See Note 3, Chief Executive Officer Succession Plan, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q for further discussion.

Accounting Review and Remediation Costs, net of Insurance Proceeds

Costs and expenses associated with the internal accounting review, remediation and other related matters were \$4.3 million for the six months ended December 31, 2018, compared to \$3.1 million in the prior year. Included in accounting review and remediation costs for the six months ended December 31, 2018 and 2017 were insurance proceeds of \$0.2 million and \$5.0 million, respectively, related to the reimbursement of costs incurred as part of the internal accounting review and the independent review by the Audit Committee and other related matters.

Long-lived Asset and Intangibles Impairment

In the six months ended December 31, 2018, the Company recorded a pre-tax impairment charge of \$17.9 million (\$11.3 million related to the United States, \$3.8 million related to Rest of World and \$2.8 million related to the United

Kingdom segment) related to certain tradenames of the Company. See Note 9, Goodwill and Other Intangible Assets, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q. Additionally, the Company recorded \$5.3 million of non-cash impairment charges primarily related to the Company's decision to consolidate manufacturing of certain fruit-based products in the United Kingdom

Operating (Loss) Income

Operating loss for the six months ended December 31, 2018 was \$39.5 million compared to operating income of \$60.2 million in the prior year period. The decrease in operating income resulted from the items described above.

Table of Contents

Interest and Other Financing Expense, net

Interest and other financing expense, net totaled \$16.5 million for the six months ended December 31, 2018, an increase of \$3.8 million, or 29.5%, from \$12.8 million in the prior year period. The increase in interest and other financing expense, net resulted primarily from higher interest expense related to our revolving credit facility as a result of higher variable interest rates on outstanding debt and other borrowings. See Note 10, Debt and Borrowings, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q.

Other Expense/(Income), net

Other expense, net totaled \$1.0 million for the six months ended December 31, 2018, compared to \$3.9 million of income in the prior year. Included in other expense, net were net unrealized foreign currency losses, which were higher in the six months ended December 31, 2018 than the prior year period principally due to the effect of foreign currency movements on the remeasurement of foreign currency denominated loans.

(Loss) Income From Continuing Operations Before Income Taxes and Equity in Net Income of Equity-Method Investees

Loss before income taxes and equity in net income of our equity-method investees for the six months ended December 31, 2018 was \$57.0 million compared to income of \$51.3 million for the six months ended December 31, 2017. The decrease was due to the items discussed above.

Income Taxes

The provision for income taxes includes federal, foreign, state and local income taxes. For the six months ended December 31, 2018, the Company calculated its effective tax rate based on a discrete basis due to significant variations in the relationship between income tax expense and projected pre-tax income. As a result, the actual effective tax rate for the six months ended December 31, 2018 is being utilized. Our income tax expense from continuing operations was a benefit of \$4.8 million for the six months ended December 31, 2018 compared to \$10.2 million of tax benefit in the prior year quarter.

The effective income tax rate from continuing operations was a benefit of 8.4% and 19.9% for the six months ended December 31, 2018 and December 31, 2017, respectively. The effective income tax rate from continuing operations for the six months ended December 31, 2018 was impacted by the provisions in the Tax Act including global intangible low-taxed income, finalization of the Transition Tax liability, and limitations on the deductibility of executive compensation. The effective income tax rate was also impacted by the geographical mix of earnings and state taxes. For an additional discussion on the impact of the Tax Act, see Note 11, Income Taxes, in the Notes to the Consolidated Financial Statements included in Item 1 of this Form 10-Q.

The effective income tax rate from continuing operations for the six months ended December 31, 2017 was primarily impacted by the enactment of the Tax Act on December 22, 2017, specifically related to the revalue of net deferred tax liabilities to the enacted 21% tax rate, inclusion of a transition tax liability estimate and the deductibility of executive officers' compensation.

The income tax benefit from discontinued operations was \$27.6 million for the six months ended December 31, 2018, compared to income tax expense from discontinued operations was \$2.3 million for the six months ended December 31, 2017. The benefit for income taxes for the six months ended December 31, 2018 includes the reversal of the \$12.3 million deferred tax liability previously recorded related to Hain Pure Protein being classified as held for sale. In

addition, the six month tax benefit is impacted by the tax effect of current period book losses as well as the deferred tax benefit arising from asset impairment charges.

Our effective tax rate may change from period-to-period based on recurring and non-recurring factors including the geographical mix of earnings, enacted tax legislation, state and local income taxes and tax audit settlements.

Equity in Net Loss (Income) of Equity-Method Investees

Our equity in net loss from our equity-method investments for the six months ended December 31, 2018 increased by \$0.4 million when compared to the six months ended December 31, 2017. See Note 14, Investments, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q.

Net (Loss) Income from Continuing Operations

Net loss from continuing operations for the six months ended December 31, 2018 was \$52.4 million compared to net income of \$61.7 million for the six months ended December 31, 2017. Net loss per diluted share was \$0.50 for the six months ended December 31, 2018 compared to net income per diluted share of \$0.59 in the prior year period. The net loss from continuing operations was attributable to the factors noted above.

Net (Loss) Income from Discontinued Operations

Net loss from discontinued operations for the six months ended December 31, 2018 was \$51.5 million compared to net income from discontinued operations for the six months ended December 31, 2017 of \$5.2 million, or \$0.50 net loss per diluted share and \$0.05 net income per diluted share, respectively. The decrease was primarily attributable to asset impairment charges of \$57.9 million recorded in the six months ended December 31, 2018.

Net (Loss) Income

Net loss for the six months ended December 31, 2018 was \$103.9 million compared to net income of \$66.9 million in the prior year. Net loss per diluted share was \$1.00 in the six months ended December 31, 2018 compared to net income per diluted share of \$0.64 in the six months ended December 31, 2017. The decrease was attributable to the factors noted above.

Adjusted EBITDA

Our Adjusted EBITDA was \$78.9 million and \$121.1 million for the six months ended December 31, 2018 and 2017, respectively, as a result of the factors discussed above and the adjustments described in the Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures presented following the discussion of our results of operations.

United States

Our net sales in the United States segment for the six months ended December 31, 2018 were \$503.1 million, a decrease of \$30.8 million, or 5.8%, from net sales of \$534.0 million for the six months ended December 31, 2017. The decrease in net sales was driven by declines in our Pantry, Better-For-You-Baby and Fresh Living platforms. In addition, the declines were also driven by the strategic decision to no longer support certain lower margin SKUs in order to reduce complexity and increase gross margins. Operating income in the United States for the six months ended December 31, 2018 was \$9.4 million, a decrease of \$33.4 million from operating income of \$42.7 million for the six months ended December 31, 2017. The decrease in operating income was the result of the aforementioned decrease in net sales, higher trade investments to drive future period growth and increased freight and logistics costs.

United Kingdom

Our net sales in the United Kingdom segment for the six months ended December 31, 2018 were \$443.9 million, a decrease of \$16.7 million, or 3.6%, from net sales of \$460.6 million for the six months ended December 31, 2017. On a constant currency basis, net sales decreased 1.8% from the prior year. The net sales decrease was primarily due to declines in sales of the Company's Hartley® and New Covent Garden Soup Co.® and private label sales, partially offset by growth in the Company's Tilda® business and Ella's Kitchen® and Linda McCartney® brands. Operating income in the United Kingdom segment for the six months ended December 31, 2018 was \$18.7 million, a decrease of \$4.5 million from \$23.2 million for the six months ended December 31, 2017. The decrease in operating income was primarily due to a \$4.3 million non-cash impairment charge associated with the consolidation of manufacturing of certain fruit-based products in the United Kingdom in the six months ended December 31, 2018, partially offset by operating efficiencies achieved at Hain Daniels.

Table of Contents

Rest of World

Our net sales in Rest of World were \$197.9 million for the six months ended December 31, 2018, a decrease of \$12.9 million, or 6.1%, from net sales of \$210.8 million for the six months ended December 31, 2017. On a constant currency basis, net sales decreased 3.6% from the prior year. The decrease in net sales was driven by declines in Canada from the Company's Europe's Best and Dream® brands and private label sales, offset by growth in our Yves Veggie Cuisine® and Live Clean® brands. Net sales in Europe were flat driven by strong performance from our Joya® and Natumi® brands offset in part by declines in our Danival® and Lima® brands. Hain Ventures (formerly known as Cultivate) net sales decreased from the prior year, primarily driven by declines from the Blueprint®, Westsoy®, Sunspire® and DeBoles® brands, offset in part by growth from the Yves Veggie Cuisine® brand and private label sales. Operating income in the segment for the six months ended December 31, 2018 was \$16.2 million, a decrease of \$3.3 million, from \$19.5 million for the six months ended December 31, 2017. The decrease in operating income was primarily due to the aforementioned decrease in sales, start-up costs incurred in connection with a new manufacturing facility in Canada and costs associated with the planned closure of a manufacturing facility in the United States due to the Company's decision to utilize a third-party manufacturer.

Corporate and Other

Our Corporate and Other category consists of expenses related to the Company's centralized administrative functions, which do not specifically relate to an operating segment. Such Corporate and Other expenses are comprised mainly of the compensation and related expenses of certain of the Company's senior executive officers and other employees who perform duties related to our entire enterprise, as well as expenses for certain professional fees, facilities, and other items which benefit the Company as a whole. Additionally, Chief Executive Officer Succession Plan expense, net, Project Terra costs and other and accounting review and remediation costs, net are included in Corporate and Other and were \$29.7 million, \$13.5 million and \$4.3 million, respectively, for the six months ended December 31, 2018. Corporate and Other in the six months ended December 31, 2018 also includes tradename impairment charges of \$17.9 million.

Refer to Note 17, Segment Information, in the Notes to Consolidated Financial Statements included in Item 1 of this Form 10-Q.

Liquidity and Capital Resources

We finance our operations and growth primarily with the cash flows we generate from our operations and from borrowings available to us under our Credit Agreement (defined below).

Our cash and cash equivalents balance decreased \$68.4 million at December 31, 2018 to \$38.2 million as compared to \$106.6 million at June 30, 2018. At December 31, 2018, our restricted cash balance was \$34.3 million which was associated with the cash separation payment provided by the Chief Executive Officer Succession Agreement, which will be paid during the current fiscal year. Our working capital from continuing operations was \$367.1 million at December 31, 2018, a decrease of \$71.1 million from \$438.1 million at the end of fiscal 2018.

Liquidity is affected by many factors, some of which are based on normal ongoing operations of the Company's business and some of which arise from fluctuations related to global economics and markets. Our cash balances are held in the United States, United Kingdom, Canada, Europe and India. As of December 31, 2018, approximately 90.7% (\$34.6 million) of the total cash balance from continuing operations was held outside of the United States. Our cash balance for discontinued operations was \$5.6 million and held in the United States at December 31, 2018. It is

our current intent to indefinitely reinvest our foreign earnings outside the United States. However, we intend to further study changes enacted by the Tax Cuts and Jobs Act, costs of repatriation and the current and future cash needs of foreign operations to determine whether there is an opportunity to repatriate foreign cash balances in the future on a tax-efficient basis.

Table of Contents

We maintain our cash and cash equivalents primarily in money market funds or their equivalent. As of December 31, 2018, all of our investments were expected to mature in less than three months. Accordingly, we do not believe that our investments have significant exposure to interest rate risk. Cash provided by (used in) operating, investing and financing activities is summarized below.

(amounts in thousands)	Six Months Ended December 31,		Change in	
	2018	2017	Dollars	Percentage

Net decrease in cash and cash equivalents	\$(34,975)	\$(7,776)	\$(27,199)	(350)%

Cash used in operating activities from continuing operations was \$1.0 million for the six months ended December 31, 2018, a decrease of \$29.4 million from \$28.4 million of cash provided by operating activities from continuing operations for the six months ended December 31, 2017. This decrease resulted primarily from a decrease of \$62.4 million in net loss adjusted for non-cash charges offset in part by \$33.0 million of cash provided by working capital accounts.

Cash used in investing activities from continuing operations was \$37.7 million for the six months ended December 31, 2018, a decrease of \$0.1 million from \$37.7 million of cash used in investing activities from continuing operations for the six months ended December 31, 2017. Capital expenditures in the six months ended December 31, 2018 and December 31, 2017 were \$41.5 million and \$24.7 million, respectively. In the six months ended December 31, 2017, cash used in investing activities included a \$13.1 million payment for the acquisition of Clarks UK Limited.

Cash provided by financing activities from continuing operations was \$6.6 million for the six months ended December 31, 2018, an increase of \$12.1 million from \$5.5 million of net cash used in financing activities from continuing operations for the six months ended December 31, 2017. The increase was due to net borrowings of \$13.9 million on our revolving credit facility and other debt for the six months ended December 31, 2017, compared with net borrowings of \$13.5 million for the six months ended December 31, 2018. Additionally, included in the six months ended December 31, 2018 was \$2.9 million related to stock repurchases to satisfy employee payroll tax withholdings and \$4.0 million to fund the operations of discontinued operations. Cash used in financing activities from continuing operations in the six months ended December 31, 2017 included \$6.7 million related to stock repurchases to satisfy employee payroll tax withholdings and \$12.8 million to fund operations of discontinued operations.

Operating Free Cash Flow from Continuing Operations

Our operating free cash flow from continuing operations was negative \$42.6 million for the six months ended December 31, 2018, a decrease of \$46.3 million from the six months ended December 31, 2017. This decrease resulted primarily from a decrease of \$62.4 million in net loss adjusted for non-cash charges and an increase of \$16.9 million in capital expenditures offset in part by \$33.0 million of cash provided by working capital accounts. We expect that our capital spending for fiscal 2019 will be approximately \$70-\$80 million, and we may incur additional costs in connection with Project Terra. We refer the reader to the Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures following the discussion of our results of operations for definitions and a

reconciliation from our net cash provided by operating activities from continuing operations to operating free cash flow from continuing operations.

Credit Agreement

On February 6, 2018, the Company entered into the Third Amended and Restated Credit Agreement (the “Credit Agreement”). The Credit Agreement provides for a \$1,000,000 unsecured revolving credit facility through February 6, 2023 and provides for a \$300,000 term loan. Under the Credit Agreement, the credit facility may be increased by an additional uncommitted \$400,000, provided certain conditions are met. Loans under the Credit Agreement bear interest at a Base Rate or a Eurocurrency Rate (both of which are defined in the Credit Agreement) plus an applicable margin, which is determined in accordance with a leverage-based pricing grid, as set forth in the Credit Agreement. Borrowings may be used to provide working capital, finance capital expenditures and permitted acquisitions, refinance certain existing indebtedness and for other general corporate purposes. As of

Table of Contents

December 31, 2018 and June 30, 2018, there were \$703.0 million and \$698.1 million of borrowings outstanding, respectively, under the Credit Agreement. The weighted average interest rate on outstanding borrowings under the Credit Agreement at December 31, 2018 was 4.10%.

The Credit Agreement is guaranteed by substantially all of our current and future direct and indirect domestic subsidiaries. We are required by the terms of the Credit Agreement to comply with financial and other customary affirmative and negative covenants for facilities of this nature. On February 6, 2019, the Company entered into an amendment of the Credit Agreement, whereby its allowable consolidated leverage ratio increased to no more than 4.0 to 1.0 as of December 31, 2018 and no more than 3.75 to 1.0 as of March 31, 2019 and June 30, 2019. The consolidated leverage ratio returns to 3.5 to 1.0 beginning in the period ending September 30, 2019. As of December 31, 2018 and June 30, 2018, the Company was in compliance with all associated covenants, as amended.

Tilda Short-Term Borrowing Arrangements

Tilda maintains short-term borrowing arrangements primarily used to fund the purchase of rice from India and other countries. The maximum borrowings permitted under all such arrangements are £52.0 million. Outstanding borrowings are collateralized by the current assets of Tilda, typically have six-month terms and bear interest at variable rates typically based on LIBOR plus a margin (weighted average interest rate of approximately 4.16% at December 31, 2018). As of December 31, 2018 and June 30, 2018, there were \$18.7 million and \$9.3 million of borrowings under these arrangements, respectively.

Reconciliation of Non-U.S. GAAP Financial Measures to U.S. GAAP Measures

We have included in this report measures of financial performance that are not defined by U.S. GAAP. We believe that these measures provide useful information to investors and include these measures in other communications to investors.

For each of these non-U.S. GAAP financial measures, we are providing below a reconciliation of the differences between the non-U.S. GAAP measure and the most directly comparable U.S. GAAP measure, an explanation of why our management and Board of Directors believes the non-U.S. GAAP measure provides useful information to investors and any additional purposes for which our management and Board of Directors uses the non-U.S. GAAP measures. These non-U.S. GAAP measures should be viewed in addition to, and not in lieu of, the comparable U.S. GAAP measures.

Constant Currency Presentation

We believe that this measure provides useful information to investors because it provides transparency to underlying performance in our consolidated net sales by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given the volatility in foreign currency exchange markets. To present this information for historical periods, current period net sales for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average monthly exchange rates in effect during the corresponding period of the prior fiscal year, rather than at the actual average monthly exchange rate in effect during the current period of the current fiscal year. As a result, the foreign currency impact is equal to the current year results in local currencies multiplied by the change in average foreign currency exchange rate between the current fiscal period and the corresponding period of the prior fiscal year.

Adjusted EBITDA

Adjusted EBITDA is defined as net (loss) income before income taxes, net interest expense, depreciation and amortization, impairment of long-lived and intangible assets, equity in the earnings of equity-method investees, stock-based compensation, Project Terra costs and other, and other non-recurring items. The Company's management believes that this presentation provides useful information to management, analysts and investors regarding certain additional financial and business trends relating to its results of operations and financial condition. In addition, management uses this measure for reviewing the financial results of the Company and as a component of performance-based executive compensation. Adjusted EBITDA is a non-U.S. GAAP measure and may not be comparable to similarly titled measures reported by other companies.

We do not consider Adjusted EBITDA in isolation or as an alternative to financial measures determined in accordance with U.S. GAAP. The principal limitation of Adjusted EBITDA is that it excludes certain expenses and income that are required by U.S. GAAP to be recorded in our consolidated financial statements. In addition, Adjusted EBITDA is subject to inherent limitations as this metric reflects the exercise of judgment by management about which expenses and income are excluded or included in determining Adjusted EBITDA. In order to compensate for these limitations, management presents Adjusted EBITDA in connection with U.S. GAAP results.

Operating Free Cash Flow from Continuing Operations				

In our internal evaluations, we use the non-U.S. GAAP financial measure “operating free cash flow from continuing operations”. The difference between operating free cash flow from continuing operations and cash flow provided by operating activities from continuing operations, which is the most comparable U.S. GAAP financial measure, is that operating free cash flow from continuing operations reflects the impact of capital expenditures. Since capital spending is essential to maintaining our operational capabilities, we believe that it is a recurring and necessary use of cash. As such, we believe investors should also consider capital spending when evaluating our cash provided by operating activities. We view operating free cash flow from continuing operations as an important measure because it is one factor in evaluating the amount of cash available for discretionary investments. We do not consider operating free cash flow from continuing operations in isolation or as an alternative to financial measures determined in accordance with U.S. GAAP.

Off Balance Sheet Arrangements

At December 31, 2018, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4) of Regulation S-K that have had, or are likely to have, a material current or future effect on our consolidated financial statements.

Critical Accounting Estimates

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States. The accounting principles we use require us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and amounts of income and expenses during the reporting periods presented. We believe in the quality and reasonableness of our critical accounting policies; however, materially different amounts may be reported under different conditions or using assumptions different from those that we have applied. The accounting policies that have been identified as critical to our business operations and to understanding the results of our operations pertain to revenue recognition, trade promotions and sales incentives, valuation of accounts and chargebacks receivable, accounting for acquisitions, valuation of long-lived assets, goodwill and intangible assets, stock based compensation, and valuation allowances for deferred tax assets. The application of each of these critical accounting policies and estimates is discussed in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended June 30, 2018.

Recent Accounting Pronouncements

Refer to Note 2, Basis of Presentation, in the Notes to Consolidated Financial Statements included in Part I, Item 1 of this Form 10-Q.

Seasonality

Certain of our product lines have seasonal fluctuations. Hot tea, baking products, hot cereal, hot-eating desserts and soup sales are stronger in colder months, while sales of snack foods, sunscreen and certain of our prepared food and personal care products are stronger in the warmer months. Additionally, due to the nature of our Tilda® business, our net sales and earnings may further fluctuate based on the timing of certain holidays throughout the year. As such, our results of operations and our cash flows for any particular quarter are not indicative of the results we expect for the full year, and our historical seasonality may not be indicative of future quarterly results of operations. In recent years, net sales and diluted earnings per share in the first fiscal quarter have typically been the lowest of our four quarters.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no significant changes in market risk for the three and six months ended December 31, 2018 from those addressed in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2018. See the information set forth in Part II, Item 7A, Quantitative and Qualitative Disclosures About Market Risk, of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2018.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), with the assistance of other members of management, have reviewed the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Our disclosure controls and procedures are intended to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is (1) recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms and (2) accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure. Based on this review, although the Company continues to work to remediate the material weakness in internal control over financial reporting as described in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018 and significant progress has been made to date, our CEO and CFO have concluded that the disclosure controls and procedures related to this material weakness were not effective as of December 31, 2018.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect every misstatement. An evaluation of effectiveness is subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may decrease over time.

Changes in Internal Control Over Financial Reporting

Under applicable SEC rules (Exchange Act Rules 13a-15(c) and 15d-15(c)), management is required to evaluate any change in internal control over financial reporting that occurred during each fiscal quarter that had materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

As explained in greater detail under Item 9A, Controls and Procedures, in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018, we have undertaken a broad range of remedial procedures prior to February 7, 2019, the filing date of this report, to address the material weakness in our internal control over financial reporting identified as of June 30, 2018. Our efforts to improve our internal controls are ongoing and focused on organizational enhancements, control design enhancements to rework certain internal control gaps and documentation and training practices. Therefore, while we determined, with the participation of our CEO and CFO, that there have been no changes in our internal control over financial reporting in the three months ended December 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, we continue to monitor the operation of these remedial measures through the date of this report.

For a more comprehensive discussion of the material weakness in internal control over financial reporting identified by management as of June 30, 2018, and the remedial measures undertaken to address this material weakness, investors are encouraged to review Item 9A, Controls and Procedures, in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

Securities Class Actions Filed in Federal Court

On August 17, 2016, three securities class action complaints were filed in the Eastern District of New York against the Company alleging violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934. The three complaints are: (1) Flora v. The Hain Celestial Group, Inc., et al. (the “Flora Complaint”); (2) Lynn v. The Hain Celestial Group, Inc., et al. (the “Lynn Complaint”); and (3) Spadola v. The Hain Celestial Group, Inc., et al. (the “Spadola Complaint” and, together with the Flora and Lynn Complaints, the “Securities Complaints”). On June 5, 2017, the court issued an order for consolidation, appointment of Co-Lead Plaintiffs and approval of selection of co-lead counsel. Pursuant to this order, the Securities Complaints were consolidated under the caption In re The Hain Celestial Group, Inc. Securities Litigation (the “Consolidated Securities Action”), and Rosewood Funeral Home and Salamon Gimpel were appointed as Co-Lead Plaintiffs. On June 21, 2017, the Company received notice that plaintiff Spadola voluntarily dismissed his claims without prejudice to his ability to participate in the Consolidated Securities Action as an absent class member. The Co-Lead Plaintiffs in the Consolidated Securities Action filed a Consolidated Amended Complaint on August 4, 2017 and a Corrected Consolidated Amended Complaint on September 7, 2017 on behalf of a purported class consisting of all persons who purchased or otherwise acquired Hain Celestial securities between November 5, 2013 and February 10, 2017 (the “Amended Complaint”). The Amended Complaint names as defendants the Company and certain of its current and former officers (collectively, the “Defendants”) and asserts violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 based on allegedly materially false or misleading statements and omissions in public statements, press releases and SEC filings regarding the Company’s business, prospects, financial results and internal controls. Defendants filed a motion to dismiss on October 3, 2017. Co-Lead Plaintiffs filed an opposition on December 1, 2017, and Defendants filed the reply on January 16, 2018. On April 4, 2018, the Court requested additional briefing relating to certain aspects of Defendants’ motion to dismiss. In accordance with this request, Lead Plaintiffs submitted their supplemental brief on April 18, 2018, and Defendants submitted an opposition on May 2, 2018. Lead Plaintiffs filed a reply brief on May 9, 2018, and Defendants submitted a sur-reply on May 16, 2018.

Stockholder Derivative Complaints Filed in State Court

On September 16, 2016, a stockholder derivative complaint, Paperny v. Heyer, et al. (the “Paperny Complaint”), was filed in New York State Supreme Court in Nassau County against the Board of Directors and certain officers of the Company alleging breach of fiduciary duty, unjust enrichment, lack of oversight and corporate waste. On December 2, 2016 and December 29, 2016, two additional stockholder derivative complaints were filed in New York State Supreme Court in Nassau County against the Board of Directors and certain officers under the captions Scarola v. Simon (the “Scarola Complaint”) and Shakir v. Simon (the “Shakir Complaint” and, together with the Paperny Complaint and the Scarola Complaint, the “Derivative Complaints”), respectively. Both the Scarola Complaint and the Shakir Complaint allege breach of fiduciary duty, lack of oversight and unjust enrichment. On February 16, 2017, the parties for the Derivative Complaints entered into a stipulation consolidating the matters under the caption In re The Hain Celestial Group (the “Consolidated Derivative Action”) in New York State Supreme Court in Nassau County, ordering the Shakir Complaint as the operative complaint. On November 2, 2017, the parties agreed to stay the Consolidated Derivative Action until April 11, 2018. On April 6, 2018, the parties filed a proposed stipulation agreeing to stay the Consolidated Derivative Action until October 4, 2018, which the Court granted on May 3, 2018. On October 9, 2018, the Court further stayed this matter until December 4, 2018 and on December 4, 2018 further stayed the matter until January 14, 2019. On January 14, 2019, the Court held a status conference and granted Plaintiffs leave to file an amended complaint by March 7, 2019, while continuing the stay as to all other aspects of the case. The Court

scheduled a status conference for March 13, 2019.

Additional Stockholder Class Action and Derivative Complaints Filed in Federal Court

On April 19, 2017 and April 26, 2017, two class action and stockholder derivative complaints were filed in the Eastern District of New York against the Board of Directors and certain officers of the Company under the captions *Silva v. Simon, et al.* (the “Silva Complaint”) and *Barnes v. Simon, et al.* (the “Barnes Complaint”), respectively. Both the Silva Complaint and the Barnes Complaint allege violation of securities law, breach of fiduciary duty, waste of corporate assets and unjust enrichment.

On May 23, 2017, an additional stockholder filed a complaint under seal in the Eastern District of New York against the Board of Directors and certain officers of the Company. The complaint alleges that the Company’s directors and certain officers made materially false and misleading statements in press releases and SEC filings regarding the Company’s business, prospects and financial results. The complaint also alleges that the Company violated its by-laws and Delaware law by failing to hold its 2016 Annual Stockholders Meeting and includes claims for breach of fiduciary duty, unjust enrichment and corporate waste.

Table of Contents

On August 9, 2017, the Court granted an order to unseal this case and reveal Gary Merenstein as the plaintiff (the “Merenstein Complaint”). On August 10, 2017, the court granted the parties stipulation to consolidate the Barnes Complaint, the Silva Complaint and the Merenstein Complaint under the caption In re The Hain Celestial Group, Inc. Stockholder Class and Derivative Litigation (the “Consolidated Stockholder Class and Derivative Action”) and to appoint Robbins Arroyo LLP and Scott+Scott as Co-Lead Counsel, with the Law Offices of Thomas G. Amon as Liaison Counsel for Plaintiffs. On September 14, 2017, a related complaint was filed under the caption Oliver v. Berke, et al. (the “Oliver Complaint”), and on October 6, 2017, the Oliver Complaint was consolidated with the Consolidated Stockholder Class and Derivative Action. The Plaintiffs filed their consolidated amended complaint under seal on October 26, 2017. On December 20, 2017, the parties agreed to stay Defendants’ time to answer, move, or otherwise respond to the consolidated amended complaint through and including 30 days after a decision is rendered on the motion to dismiss the Amended Complaint in the consolidated Securities Class Actions, described above.

Center for Environmental Health v. Save Mart Supermarkets, et.al., Superior Court of the State of California, Alameda County

On August 19, 2015, the Center for Environmental Health (“CEH”), a private enforcer, filed a complaint under the California Safe Drinking Water and Toxic Enforcement Act (the “Enforcement Act”) (commonly referred to as “Proposition 65”), naming various defendants, including the Company. The complaint alleges that the Company is required to provide warnings for certain of its products for alleged exposure to the substance listed under the Enforcement Act as “acrylamide.” The other defendants named in the action are five retailers and one distributor, all of which are named for the Company’s products at issue. Acrylamide is a chemical that can form in some foods during high-temperature cooking processes, such as frying, roasting and baking. The complaint seeks injunctive relief, civil penalties in the amount of \$2,500 per day (unrounded) for each alleged violation, and CEH’s attorneys’ fees and costs.

On October 16, 2018, following a mediation on October 3, 2018, CEH and the Company executed a proposed consent judgment (“Consent Judgment”) to resolve the above-referenced action in its entirety. The Consent Judgment sets acrylamide standards for potato- and sweet-potato based fried or baked snack foods. The Consent Judgment requires the Company to pay total of \$0.6 million in non-contingent settlement payments. In addition, the Consent Judgment sets a series of separate contingent payments if the Company exercises certain options in the future with respect to injunctive terms. On December 18, 2018, the Court approved the Consent Judgment. Accordingly, the Consent Judgment is now in effect and binding on the parties.

SEC Investigation

As previously disclosed, the Company voluntarily contacted the Securities and Exchange Commission (the “Commission”) in August 2016 to advise it of the Company’s delay in the filing of its periodic reports and the performance of the independent review conducted by the Audit Committee. On December 11, 2018, the Commission announced it had reached a settlement agreement with the Company and published its order instituting proceedings, which includes the settlement. The settlement fully resolves this matter, without any finding of intentional wrongdoing by the Company and without the imposition of any monetary penalty, while noting the Company’s cooperation and prompt remedial acts. The order and terms of the settlement relate to the Company’s previously disclosed material weaknesses in internal controls over financial reporting.

Other

In addition to the litigation described above, the Company is and may be a defendant in lawsuits from time to time in the normal course of business. While the results of litigation and claims cannot be predicted with certainty, the

Company believes the reasonably possible losses of such matters, individually and in the aggregate, are not material. Additionally, the Company believes the probable final outcome of such matters will not have a material adverse effect on the Company's consolidated results of operations, financial position, cash flows or liquidity.

Item 1A. Risk Factors

We have disclosed the risk factors affecting our business, results of operations and financial condition in the section entitled "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended June 30, 2018, filed with the SEC on August 29, 2018. There have been no material changes from the risk factors previously disclosed.
