PROXY STATEMENT
Annual Meeting of Shareholders
May 9, 2001

This Proxy Statement and accompanying proxy are being sent to shareholders on or about April 5, 2001 in connection with the solicitation by the Board of Directors of ITT Educational Services, Inc. ("ESI," "we" or "us") of proxies to be voted at the 2000 Annual Meeting of Shareholders to be held at 10:00 a.m., local time, Wednesday, May 9, 2001, at The Jefferson Hotel, 1200 16th Street, NW, Washington, DC 20036, for the purposes set forth in the accompanying Notice.

The accompanying proxy represents all of the shares of ESI common stock, \$0.01 par value per share (the "ESI Common Stock"), you are entitled to vote at the meeting. Each of the shares of ESI Common Stock outstanding at the close of business on March 12, 2001, the record date for the meeting, are entitled to one vote at the meeting. Shareholders holding a majority of such shares must be present at the meeting, whether in person or by proxy, in order to constitute a quorum for the transaction of business. As of February 27, 2001, 23,574,830 shares of ESI Common Stock were issued and outstanding.

If you execute and return the enclosed form of proxy, you may revoke it at any time before it is exercised. You can revoke your proxy by giving us written notice of revocation, executing a subsequently dated proxy and delivering it to us, or attending the meeting and voting in person. Unless revoked, your proxy will be voted at the meeting in accordance with your instructions specified on the proxy. If your proxy does not contain any instructions, your proxy will be voted at the meeting for the election as Directors of the nominees listed under the caption "Election of Directors." The election of Directors will be determined by the vote of the holders of a plurality of the shares voting on such election. A proxy may indicate that all or a portion of the shares represented by such proxy are not being voted with respect to a specific proposal. This could occur, for example, when a broker is not permitted to vote shares held in street name on certain proposals in the absence of instructions from the beneficial owner. Shares that are not voted with respect to a specific proposal will be considered as not present and entitled to vote on such proposal, even though such shares will be considered present for purposes of determining a quorum and voting on other proposals. Abstentions on a specific proposal will be considered as present, but not as voting in favor of such proposal. As a result, neither broker non-votes nor abstentions will affect the determination of whether a nominee will be elected.

Our Board of Directors is not aware of any matters, other than those described below, which are to be voted on at the meeting. If any other matters are properly raised at the meeting, however, the persons named in the enclosed form of proxy intend to vote the proxy in accordance with their judgment on such matters.

Officers, Directors and other employees of ESI may solicit proxies by telephone, electronic mail, facsimile or mail, or by meetings with shareholders or their representatives. We will reimburse brokers, banks or other custodians, nominees and fiduciaries for their charges and expenses in forwarding proxy material to beneficial owners. We will pay all expenses of solicitation of proxies. In addition, we have

retained Corporate Investor Communications, Inc. to assist us in the solicitation of proxies for a fee of approximately \$6,000, plus reimbursement for its out-of-pocket expenses and for payments made to brokers and other nominees for their expenses in forwarding soliciting material. Corporate Investor Communications, Inc. will perform a broker search, distribute proxy materials to beneficial owners and solicit voted proxies from banks, brokers, nominees and intermediaries.

ELECTION OF DIRECTORS

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form DEF 14A

Our Board of Directors currently consists of eight Directors divided into three classes. The first and third classes contain three Directors each and the second class contains two Directors. The term of one class expires each year. Generally, each Director serves until the annual meeting of shareholders held in the year that is three years after the Director's election and thereafter until the Director's successor is elected and has qualified.

At the meeting, three Directors are to be elected to hold office for a three-year term to expire at the 2004 Annual Meeting of Shareholders and until their successors are elected and have qualified. The persons named in the accompanying proxy intend to vote such proxy for the election to the Board of Directors of Rene R. Champagne, James D. Fowler, Jr. and Harris N. Miller, the current Directors whose terms expire this year, unless you direct them to vote otherwise.

Each of the nominees has consented to serve as a Director. If for any reason a nominee should become unable or unwilling to accept nomination or election, the persons named in the accompanying proxy intend to vote the proxy for the election of such other person as our Board may recommend. Alternatively, our Board may reduce the number of Directors to eliminate the vacancy.

A brief summary of each Director's principal occupation, business affiliations and other information follows. INDEPENDENT PUBLIC ACCOUNTANTS

Audit and Corporate Governance Committee Report

The Committee oversees ESI's financial reporting process on behalf of the Board of Directors. ESI management has the primary responsibility for ESI's financial statements and the reporting process, including the system of internal controls. PricewaterhouseCoopers LLP ("PWC"), who is ESI's independent auditor, is responsible for expressing an opinion on the conformity of ESI's audited financial statements with generally accepted accounting principles. In this context, the Committee has reviewed and discussed with ESI management and PWC the audited financial statements for ESI's 2000 fiscal year.

In 2000, the Committee discussed with PWC the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees). This discussion involved certain information relating to PWC's judgments about the quality, not just the acceptability, of ESI's accounting principles and included such other matters as are required to be discussed with the Committee under generally accepted auditing standards.

The Committee also received the written disclosures and the letter from PWC required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and discussed with PWC its independence from ESI and ESI's management. In addition, the

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form DEF 14A

Committee considered whether PWC's provision of information technology or other non-audit services to ESI is compatible with PWC's independence.

In reliance on the review and discussions referred to above, the Committee recommended to the ESI Board of Directors, and the Board has approved, that the audited financial statements for ESI's 2000 fiscal year be included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2000 for filing with the Securities and Exchange Commission ("SEC").

Notwithstanding anything to the contrary set forth in any of our previous filings under the Securities Act of 1933, as amended (the "1933 Act") or the 1934 Act that may incorporate future filings (including this Proxy Statement, in whole or in part), the preceding Audit and Corporate Governance Committee Report shall not be incorporated by reference in any such filings.

Audit Fees

In aggregate, PWC's fees were \$236,000 for the professional services rendered by PWC in auditing our annual consolidated financial statements for our 2000 fiscal year and reviewing our financial statements included in our 2000 quarterly reports on Form 10-Q which were filed with the SEC.

Financial Information Systems Design and Implementation Fees

PWC did not render any information technology services to us in 2000 relating to: (a) the operation of our information systems or the management of our local area network; or (b) the design or implementation of a hardware or software system that aggregates data underlying the financial statements or otherwise generates information significant to our financial statements.

5

All Other Fees

In aggregate, PWC billed us \$293,263 in fees for all non-audit and non-financial information systems design and implementation services rendered by PWC in 2000, including, without limitation, \$56,850 related to audits of the ESI 401(k) Plan.

Reappointment

In accordance with the recommendation of the Audit and Corporate Governance Committee, the Board of Directors has reappointed PWC as our independent auditors for 2001. A PWC representative is not expected to attend the meeting. Our Board of Directors reserves the right to replace the auditors at any time upon the recommendation of the Audit and Corporate Governance Committee.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended (the "1934 Act") requires our executive officers and Directors, and persons who own more than 10% of ESI Common Stock, to file reports of ownership with the SEC. These persons also are required to furnish us with copies of all Section 16(a) forms they file.

Based solely on our review of copies of such forms received by us, or written representations from certain reporting persons that no Forms 5 were required for those persons, we believe that, during 2000, all of our executive officers, Directors and greater than 10% shareholders complied with all applicable filing requirements.

Compensation of Directors

We do not compensate any Director who is an employee of ESI for service as a member of our Board of Directors or any standing committee of our Board of Directors. Compensation for non-employee Directors consists of:

an annual retainer of \$18,000;

a \$1,000 fee for each Board meeting attended in person;

a \$500 fee for each Board meeting attended telephonically, unless the meeting is a telephonic meeting in which case the fee is \$1,000;

a \$500 fee for each standing committee meeting attended in person; and

a \$250 fee for each standing committee meeting attended telephonically, unless the meeting is a telephonic meeting in which case the fee is \$500.

We reimburse Directors for reasonable, out-of-pocket travel expenses incurred on behalf of ESI.

ESI Non-Employee Directors Deferred Compensation Plan. On October 1, 1999, we established the ESI Non-Employee Directors Deferred Compensation Plan ("Directors Deferred Compensation Plan") covering all of our non-employee Directors. The Directors Deferred Compensation Plan provides that each non-employee Director may elect to receive payment of the annual retainer in cash or in shares of ESI Common Stock, in increments of 25% each. A non-employee Director who elects payment in shares of ESI Common Stock will receive that number of shares equal to the number obtained by dividing the dollar amount of the portion of the annual retainer to be paid in shares of ESI Common Stock by the fair market value of one share of ESI Common Stock determined as of the payment date. The value of any fractional share resulting from this calculation will be paid to the Director in cash.

The Directors Deferred Compensation Plan also provides that each non-employee Director may elect to defer payment of all or a portion of the annual retainer. The deferral of payment of cash or shares of ESI Common Stock can only be made in increments of 25%. Any deferred cash amounts will accrue interest at the rate of 6% compounded annually. Any deferred shares of ESI Common Stock

will be credited with any cash dividends on those shares and, on a semi-annual basis, those cash dividends will be converted to shares of ESI Common Stock based on its fair market value at the time of the conversion.

No cash or shares of ESI Common Stock deferred by a non-employee Director under the Directors Deferred Compensation Plan will be paid to the non-employee Director until he or she is no longer a Director.

1999 Outside Directors Stock Option Plan. On July 28, 1999, we established the 1999 Outside Directors Stock Option Plan ("1999 Directors Stock Plan"), which provides for awards of nonqualified stock options to non-employee Directors. An aggregate of 250,000 shares of ESI Common Stock are reserved for issuance for option awards under the 1999 Directors Stock Plan (subject to adjustment in certain events).

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form DEF 14A

The 1999 Directors Stock Plan is administered by the Board. Under the plan, each non-employee Director automatically receives a stock option to purchase 2,000 shares of ESI Common Stock on the tenth business day following the annual meeting of shareholders, provided that such non-employee Director served in that capacity both before and after the annual meeting. In addition, the 1999 Directors Stock Plan permits the Board, at its discretion, to make special awards of stock options to non-employee Directors. The automatic stock option grant and any special awards are subject to the limitations set forth in the 1999 Directors Stock Plan.

The number of shares of ESI Common Stock reserved for issuance and the number of shares subject to options under the 1999 Directors Stock Plan are subject to adjustment in certain events.

The exercise price of a stock option awarded under the 1999 Directors Stock Plan may not be less than 100% of the fair market value of the ESI Common Stock on the date of the award. No option may be exercised prior to one year after the award date (except for special awards of stock options by the Board as permitted under the plan). Stock options granted under the 1999 Directors Stock Plan will expire within three months following the end of the non-employee Director's service on the Board for reasons other than death, disability or retirement. Notwithstanding the foregoing, the Board has the authority to establish different terms and conditions relating to the exercise of an option after the end of a non-employee Director's service on the Board. Stock options awarded under the 1999 Directors Stock Plan are not transferable other than by will or pursuant to the laws of descent and distribution. The maximum term of a stock option awarded under the 1999 Directors Stock Plan is ten years from the date of the award. The shares of ESI Common Stock issued upon the exercise of a stock option under the 1999 Directors Stock Plan may be made available from treasury shares or authorized but unissued shares. The option price may be paid (a) by check, (b) in ESI Common Stock, (c) through a simultaneous sale through a broker of ESI Common Stock acquired upon the exercise of the stock option or (d) by any combination of the foregoing.

During 2000, an automatic award of nonqualified stock options was made under the 1999 Directors Stock Plan to seven non-employee Directors to purchase an aggregate of 14,000 shares of ESI Common Stock at an exercise price of \$16.063. Each of the seven non-employee Directors received a stock option to purchase 2,000 shares of ESI Common Stock, and each of those options become exercisable one year after the date of the award.

Employee Stock Options

1994 Stock Plan. On December 27, 1994, the ITT Educational Services, Inc. 1994 Stock Option Plan (the "1994 Stock Plan") became effective, which provides for awards of nonqualified stock options to our key employees. An aggregate of 405,000 shares of ESI Common Stock are reserved for issuance for option awards under the 1994 Stock Plan. The 1994 Stock Plan expires on December 29, 2004.

9

The 1994 Stock Plan is administered by the Compensation Committee. Subject to the limitations set forth in the 1994 Stock Plan, the Compensation Committee has the authority to select the persons to whom awards will be made, to designate the number of shares to be covered by each award, to establish vesting schedules and, subject to certain restrictions, to specify other terms of the awards, including the status of awards subsequent to the termination of a participant's employment with us. Awards of options as to which restrictions have not lapsed are not transferable other than by will or pursuant to the laws of descent and distribution.

The exercise price of a stock option awarded under the 1994 Stock Plan may not be less than 100% of the fair market value of the ESI Common Stock on the date of the award. No option may be exercised prior to one year after the award date. Subject to the discretion of the Compensation Committee, stock options granted under the 1994 Stock Plan will generally expire upon the termination of an employee's employment for reasons other than death, disability or retirement. Notwithstanding the foregoing, the Compensation Committee has the authority to establish different terms and conditions relating to the exercise of an option subsequent to the termination of a participant's employment. The maximum term of a stock option awarded under the 1994 Stock Plan will be ten years and two days from the date of the award. The shares of ESI Common Stock issued upon the exercise of a stock option under the 1994 Stock Plan may be made available from treasury shares or authorized but unissued shares.

No individual may receive options for more than 67,500 shares of ESI Common Stock under the 1994 Stock Plan in any given calendar year. The option price may be paid (a) by check, (b) in ESI Common Stock, (c) through a simultaneous sale through a broker of ESI Common Stock acquired upon the exercise of the stock option or (d) by any combination of the foregoing.

During 2000, the Compensation Committee did not grant any stock options under the 1994 Stock Plan.

1997 Stock Plan. On May 13, 1997, the 1997 ITT Educational Services, Inc. Incentive Stock Plan (the "1997 Stock Plan") became effective, which provides for the grant of stock options that are intended to qualify as "incentive stock options" under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"). It also provides for the grant of nonqualified stock options, SARs, performance shares and restricted

stock, or any combination of the foregoing, as the Compensation Committee may determine, as well as substitute stock options, stock appreciation rights and restricted stock (collectively, including incentive stock options, "Awards"). The 1997 Stock Plan will expire on May 15, 2007.

Recipients of Awards under the 1997 Stock Plan must be, or have been at the time of grant, key employees (including any officer or director who is also an employee) whose responsibilities and decisions directly affect our performance or the performance of any of our subsidiaries or other affiliates. We presently have approximately 150 employees who fall within the category of key employees and may be considered for Awards under the 1997 Stock Plan.

The 1997 Stock Plan contains a formula for establishing an annual limit on the number of shares which may be awarded (or with respect to which non-stock Awards may be made) in any given calendar year (the "Annual Limit"). The Annual Limit formula is expressed as a percentage of the total issued and outstanding ESI Common Stock as of the year end immediately preceding the year of the Awards (the "Plan Year"). Under the Annual Limit formula, the maximum number of shares of ESI Common Stock for which Awards may be granted in each Plan Year shall be 1.5% of the total of the issued and outstanding shares of ESI Common Stock as reported in our Annual Report on Form 10-K for the fiscal year ending immediately prior to any Plan Year. Any unused portion of the Annual Limit for any Plan Year shall be carried forward and be made available for Awards in succeeding Plan Years. In addition, in no event shall more than 4,050,000 shares of ESI Common Stock be cumulatively available for Awards of incentive stock options under the 1997 Stock Plan (subject to adjustments in certain

10

events), and provided further, that no more than 20% of the total number of shares available on a cumulative basis shall be available for restricted stock and performance share Awards. For any Plan Year, no individual employee may receive stock options for more than 67,500 shares. Subject to the above limitations, shares of ESI Common Stock issued under the 1997 Stock Plan may be made available from the authorized but unissued ESI Common Stock, from treasury stock or from shares purchased on the open market.

The Compensation Committee administers the 1997 Stock Plan and makes determinations with respect to the designation of those employees who shall receive Awards, the number of shares to be covered by options, SARs and restricted stock awards, the exercise price of options (which may not be less than 100% of the fair market value of ESI Common Stock on the date of grant), other option terms and conditions and the number of performance shares to be granted and the applicable performance objectives. The Compensation Committee may impose such additional terms and conditions on an Award as it deems advisable.

Incentive stock options and related SARs under the 1997 Stock Plan must expire within ten years after grant; nonqualified stock options and related SARs will expire not more than ten years and two days after grant. The aggregate fair market value (determined on the date of grant) of the shares subject to incentive stock options that become exercisable for the first time by an employee in any calendar year may not exceed \$100,000. No SAR may be exercised until at least six months after it is granted. The exercise price for options and SARs must be at least equal to the fair market value of the ESI Common Stock on the date of grant. The exercise price for options must be paid to us at the time of exercise and, in the discretion of the Compensation Committee, may be paid in the form of cash or already-owned shares of ESI Common Stock or a combination thereof. During the lifetime of an employee, an option may be exercised only by the individual (or his or her estate or designated beneficiary), no later than three months after his or her termination of employment (or for longer periods as determined by the Compensation Committee if termination is caused by retirement, total disability or death, but in no event later than the expiration of the original term of the option). If an optionee voluntarily resigns or is terminated for cause, the options and SARs are canceled immediately.

Performance shares under the 1997 Stock Plan are contingent rights to receive future payments based on the achievement of individual or company performance objectives as prescribed by the Compensation Committee. The maximum number of performance shares that may be granted to any individual employee in any given year is 100,000. The amounts paid will be based on actual performance over a period from two to five years, as determined by the Compensation Committee, using one or more of the following objective criteria, as it deems appropriate: our earnings per share, return on equity, cash flow or total shareholder return. Payments may be made in the form of shares of ESI Common Stock, cash or a combination of ESI Common Stock and cash. The ultimate payments are determined by the number of shares earned and the price of ESI Common Stock at the end of the performance period. In the event an employee terminates employment during such a performance period, the employee will forfeit any right to payment. In the case of retirement, total disability, death or cases of special circumstances, however, the employee may, in the discretion of the Compensation Committee, be entitled to an Award prorated for the portion of the performance period during which he or she was employed by us.

Restricted shares of ESI Common Stock awarded under the 1997 Stock Plan will be issued subject to a restriction period set by the Compensation Committee during which time the shares may not be sold, transferred, assigned or pledged. In the event an employee terminates employment during a restriction period, all such shares still subject to restrictions will be forfeited by the employee and reacquired by us. The Compensation Committee may provide for the lapse of restrictions in installments where deemed appropriate and it may also require the achievement of predetermined performance objectives in order for such shares to vest. The recipient, as owner of the awarded shares, shall have all other rights of a shareholder, including the right to vote the shares and receive dividends

and other distributions during the restriction period. The restrictions may be waived, in the discretion of the Compensation Committee, in the event of the awardee's retirement, total disability, death or in cases of special circumstances.

During 2000, the Compensation Committee granted nonqualified stock options under the 1997 Stock Plan to purchase an aggregate of 169,500 shares of ESI Common Stock to the Named Executive Officers at an exercise price of \$13.50 per share. Nonqualified stock options to purchase a total of 320,000 shares of ESI Common Stock were granted to other ESI employees in 1999 under the 1997 Stock Plan at an exercise price of \$13.50 per share. No other Awards were made in 2000 under the 1997 Stock Plan.

Option Grants in Last Fiscal Year. The following table sets forth information with respect to stock options granted by ESI under the 1997 Stock Plan to the named Executive Officers during 2000. No stock options were granted under the 1994 Stock Plan during 2000.

Edward G. Hartigan	12,000	2.45%	\$ 13.50	1/9/10	101,880	258,192

(1) Numbers shown represent nonqualified stock options to purchase ESI Common Stock.

(2) Nonqualified stock options granted at 100% of the fair market value of ESI Common Stock on the date of grant. The options granted are exercisable in thirds on January 7 of each of the years 2001, 2002 and 2003.

(3) The amounts shown are the result of calculations at the 5% and 10% rates set by the SEC and, therefore, are not intended to forecast possible future appreciation, if any, of our stock price. We did not use an alternative formula for a grant date valuation, as we are not aware of any formula which will determine with reasonable accuracy a present value based on future unknown or volatile factors. At the end of the term of the options granted on January 7, 2000, the projected price per share of ESI Common Stock would be \$21.990 at an assumed annual appreciation rate of 5% and \$35.016 at an assumed annual appreciation rate of 10%.

Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Option Values. The following table sets forth information with respect to the exercise of options to purchase ESI Common Stock by the Named Executive Officers during 2000.

(1) The closing price for ESI Common Stock on the New York Stock Exchange on December 29, 2000 was \$22.00. Value is calculated on the basis of the difference between the option exercise price and \$22.00, multiplied by the number of "In-the-Money" shares of ESI Common Stock underlying the option.

Severance Pay Plan

We have not entered into an employment contract with any of the Named Executive Officers.

Rene R. Champagne is the sole participant in ESI's Senior Executive Severance Pay Plan (the "Severance Plan"). Under this plan, Mr. Champagne will be entitled to severance benefits, unless his employment is terminated by us: (a) for cause; (b) on or after his normal retirement date; or (c) as a result of acceptance of employment, or refusal of comparable employment, with a purchaser of ESI, voluntary resignation, voluntary retirement, failure to return from an approved leave of absence (including a medical leave of absence), death or disability.

The severance benefits include: (a) severance pay in an amount equal to the lower of 24 months' base salary, base salary for the number of months remaining between the termination of employment and his normal retirement date, or two times his total annual compensation during the year immediately preceding his termination; and (b) continued participation in our employee benefit plans (except for any short-term or long-term disability plans, the business travel accident plan or any new employee benefit plan adopted by us after his termination) during the period he receives severance pay.

The Severance Plan includes offset provisions for other compensation from us and requirements on the part of Mr. Champagne with respect to non-competition and compliance with our Code of Corporate Conduct. While severance payments would ordinarily be made monthly over the scheduled term of such payments, we have the option to make such payments in the form of a single lump-sum payment discounted to present value.

Pension Plan

ITT Pension Plan. From December 15, 1995 to June 10, 1998, we participated in the Retirement Plan for Salaried Employees of ITT Corporation (the "ITT Pension Plan"), a non-contributory defined benefit pension plan that covered substantially all of our eligible salaried employees, including our executive officers. We paid the entire cost of the ITT Pension Plan with respect to our employees. Annual amounts of normal retirement pension commencing at age 65 based on average final compensation and benefit service, but before Social Security reductions and subject to the offset described below, are illustrated in the following table.

The annual pension amounts to 2% of a member's average final compensation (as defined below) for each of the first 25 years of benefit service prior to June 10, 1998, plus 1.5% of a member's average final compensation for each of the next 15 years of benefit service prior to June 10, 1998, reduced by 1.25% of the member's primary Social Security benefit for each year of benefit service to a maximum of 40 years; provided that no more than 50% of the member's primary Social Security benefit is used for such reduction. A member's average final compensation (including salary plus approved bonus payments) is defined under the ITT Pension Plan as the total of (a) a member's average annual base salary for the five calendar years of the last 120 consecutive calendar months of eligibility service affording the highest such average, plus (b) a member's average annual compensation not including base salary for the five calendar years of the member's last 120 consecutive calendar months of eligibility service affording the highest such average. The amounts shown under "Salary" and "Bonus" in the Summary Compensation Table are the components of the compensation that is used for purposes of determining "average final compensation" under the ITT Pension Plan, but annual compensation in excess of \$160,000 and compensation accrued after June 9, 1998 are not taken into account. The ITT Pension Plan also provides for undiscounted early retirement pensions for members who retire at or after age 60 following completion of 15 years of eligibility service. A member is vested in benefits accrued under the ITT Pension Plan upon completion of five years of eligibility service. Prior to December 19, 1995, we participated in the Retirement Plan for Salaried Employees of Old ITT (the "Old Pension Plan"). The terms of the Old Pension Plan were substantially identical to the terms of the ITT Pension Plan. Old ITT is responsible for administering the benefits under the Old Pension Plan with respect to its own employees as well as our retirees and Old ITT will be responsible for all benefits accrued thereunder. The ITT Pension Plan recognizes service with other companies that were part of Old ITT prior to December 19, 1995 for eligibility, vesting and benefit accrual purposes and further provides for an offset of any benefit payable from any retirement plan of such companies covering the same period of service.

Respective years of benefit service under the ITT Pension Plan, through June 9, 1998, are as follows: Mr. Baugh 20.589; Mr. Champagne 12.692; Mr. Hartigan 11.375; Mr. Lauer 29.442; and Mr. Waddles 0.000.

ESI Pension Plan. On June 9, 1998, we established the ESI Pension Plan covering substantially all of our eligible salaried employees, including our executive officers. Prior to that time, we participated in certain pension plans of ITT and Old ITT. See "ITT Pension Plan." The ESI Pension Plan is a cash balance defined benefit plan, which provides a set benefit to participating employees at their retirement that is not affected by the amount of our contributions to the ESI Pension Plan trust or the investment gains or losses with respect to such contributions. At the end of each plan year (*i.e.*, January 1 through December 31, except for the first plan year of June 9, 1998 through December 31, 1998), the ESI Pension Plan credits a bookkeeping account associated with each participating employee with (a) an amount based on the employee's compensation, age and years of benefit service (the "Pay Credit") and (b) interest on the balance in the bookkeeping account at the fixed rate of 8%, compounded annually. At retirement, the participating employee will receive a benefit equal to the

value of the bookkeeping account associated with such employee. We pay the entire cost of the ESI Pension Plan. The Pay Credit equals a percentage of the participating employee's compensation (including base pay, overtime pay, bonuses and certain commissions) for the plan year and is determined under the following schedule according to points based on the participating employee's age and years of benefit service:

Points	Standard Schedule Allocation Percentage
1-29	2.0
30-34	2.5
35-39	3.0
40-44	3.5
45-49	4.0
50-54	4.5
55-59	5.5
60-64	6.5
65-69	7.5
70-74	9.0
75-79	10.5

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form DEF 14A

Points	Standard Schedule Allocation Percentage
80+	12.0

Participating employees who meet certain age and service requirements receive Pay Credits under the following "Transition Schedule" which is more generous at the higher point levels:

Points	Transition Schedule Allocation Percentage
1-29	2.0
30-34	2.5
35-39	3.0
40-44	3.5
45-49	4.0
50-54	4.5
55-59	5.5
60-64	7.0
65-69	8.5
70-74	10.5
75-79	13.0
80+	16.0

Mr. Waddles receives Pay Credits under the "Standard Schedule," and Messrs. Champagne, Lauer, Baugh and Hartigan receive Pay Credits under the "Transition Schedule."

The participating employee's points for a plan year equal the sum of the employee's age and years of benefit service as of the last day of the plan year. Any benefit service and vesting service with ITT or any of its affiliated companies that was credited to the participating employee under the ITT Pension Plan as of June 9, 1998 is treated as benefit service and vesting service, respectively, with us under the ESI Pension Plan. A participating employee who has completed five or more years of vesting service (or his or her beneficiary) is eligible to receive a distribution from the ESI Pension Plan upon the participating employee's retirement on or after age 55, disability, death or after the employee has both terminated employment and reached age 55. The form and timing of the distribution may vary. Respective years of benefit service under the ESI Pension Plan, through December 31, 2000, are as follows: Mr. Baugh 23; Mr. Champagne 15; Mr. Hartigan 14; Mr. Lauer 32; and Mr. Waddles 2. The estimated annual benefits payable upon retirement at age 65 (assuming an annual 4.5% increase in

15

compensation and that the form of distribution is an annuity) for each of the Named Executive Officers is as follows:

Executive Officer	Estimated Annual Benefit
Mr. Champagne	\$ 25,972
Mr. Waddles	78,788
Mr. Lauer	61,792
Mr. Baugh	33,509
Mr. Hartigan	17,948

ESI Excess Pension Plan

On June 9, 1998, we established the ESI Excess Pension Plan, an unfunded, non-qualified retirement plan for a select group of our management and highly compensated employees. The purpose of the ESI Excess Pension Plan is to restore benefits earned, but not available, to eligible employees under the ESI Pension Plan due to federal limitations on the amount of benefits that can be paid and compensation that may be recognized under a tax-qualified retirement plan. The practical effect of the ESI Excess Pension Plan is to continue the calculation of retirement benefits to all employees on a uniform basis. The form and timing of an eligible employee's benefits under the ESI Excess Pension Plan are the same form and timing of that eligible employee's benefits under the ESI Pension Plan, except that those benefits will be immediately payable in the form of a single discounted lump sum payment upon the occurrence of a change in corporate control (as defined in the ESI Excess Pension Plan). An eligible employee's benefits under the ESI Excess Pension Plan will generally be paid directly by us.

ESI 401(k) Plan

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form DEF 14A

On May 16, 1998, we established the ESI 401(k) Plan, a defined contribution plan. The ESI 401(k) Plan is designed to provide all of our employees with a tax-deferred, long-term savings vehicle. We make a non-matching contribution equal to 1% of an employee's salary, and we make matching contributions in an amount equal to 50% of the employee's contribution, up to a maximum of 2.5% of the employee's salary. All of our matching and non-matching contributions are in the form of ESI Common Stock. Employees can elect to contribute from 2% to 16% of their salaries, and they have a choice of 12 investment funds in which to invest their contributions. Employee contributions and our non-matching contribution vest immediately, while our matching contributions vest 20% for each full year that the employee is employed by us.

ESI Excess Savings Plan

On June 9, 1998, we established the ESI Excess Savings Plan, an unfunded, non-qualified deferred compensation plan for a select group of our management and highly compensated employees. The ESI Excess Savings Plan offers eligible employees, who are precluded by federal limitations from fully participating in the ESI 401(k) Plan, a means for (a) restoring the eligible employees' contributions lost under the ESI 401(k) Plan due to the federal limitations, (b) restoring our matching and non-matching contributions lost under the ESI 401(k) Plan due to the federal limitations and (c) providing eligible employees an opportunity to defer a portion of their salaries equal to either 5% or the same deferral percentage that they elected under the ESI 401(k) Plan. Any deferral of an eligible employee's salary under the ESI Excess Savings Plan applies only with respect to the salary that exceeds the federal limitations.

We make a non-matching contribution under the ESI Excess Savings Plan equal to the difference between 1% of the eligible employee's salary and our non-matching contribution made for that eligible

16

employee under the ESI 401(k) Plan. We make matching contributions under the ESI Excess Savings Plan equal to 50% of the eligible employee's salary deferred under the ESI Excess Savings Plan up to a maximum of 2.5% of the eligible employee's salary. Any amounts credited to an eligible employee under the ESI Excess Savings Plan will accrue interest at the rate of 8% compounded monthly. An eligible employee's salary deferrals and our non-matching contribution vest immediately, while our matching contributions vest 20% for each full year that the employee is employed by us. The payment of the eligible employee's salary deferrals, our non-matching contribution, our vested matching contributions and the attributable interest accrued thereon is made in a single lump sum cash payment as soon as practicable following the earlier of the eligible employee's termination of employment or death.

ESI Executive Deferred Bonus Compensation Plan

On March 15, 2000, we established the ESI Executive Deferred Bonus Compensation Plan ("Deferred Bonus Plan"), an unfunded, non-qualified deferred compensation plan for a select group of our management and highly compensated employees. The Deferred Bonus Plan provides that each eligible employee may elect to defer payment of all or a portion of his or her annual bonus compensation in the form of cash and/or shares of ESI Common Stock. The deferral of payment of cash or shares of ESI Common Stock can only be made in increments of 25%. Any deferred cash amounts will accrue interest at the rate of 6% compounded annually. Any deferred shares of ESI Common Stock will be credited with any cash dividends on those shares and, on a semi-annual basis, those cash dividends will be converted to shares of ESI Common Stock, based on its fair market value at the time of the conversion.

An eligible employee under the Deferred Bonus Plan may elect to receive payment of the deferred portion of his or her annual bonus compensation (a) upon termination of his or her employment with us or (b) in January of any calendar year that is no earlier than the second calendar year after the year in which the deferred bonus compensation was determined.

Compensation Committee Interlocks and Insider Participation

Since May 11, 1999, the members of the Compensation Committee have been James D. Fowler, Jr., Daniel P. Weadock and Vin Weber. Except for James D. Fowler, Jr., none of the Committee members during 2000 were involved in a relationship requiring disclosure as an interlocking executive officer/director or under Item 404 of Regulation S-K or as an officer or employee of ESI. Mr. Fowler is an executive officer of ITT Industries, Inc. A subsidiary of ITT Industries, Inc. is a party to an agreement with ESI covering the use of the "ITT" name. See "Certain Transactions."

Compensation Committee Report on Executive Compensation

This report sets forth the executive compensation policies of the Committee with respect to ESI executive officers in general and the rationale for the specific decisions affecting the 2000 compensation of Mr. Champagne, ESI's Chief Executive Officer. This report also discusses the relationship between the compensation of ESI's four other most highly compensated executive officers and the performance of ESI.

The Committee reviewed the compensation policies adopted and followed by the Committee with respect to all of ESI's executive officers and confirmed the guiding principles contained therein that executive officer compensation must be related to ESI's performance and must emphasize increasing shareholder value. The Committee also determined that the general components of the compensation policies pertaining to ESI executive officers (*i.e.*, salaries, bonuses, long-term incentives and employee benefits) are sufficiently tied to ESI's performance.

The Committee determined that ESI's continued success is due in part to its skilled executives. In setting and administering ESI's compensation policies and programs, the Committee attempts to target compensation to the median of the range of compensation provided to executives of corporations similar to ESI in terms of assets, sales, revenues and earnings. ESI's executive compensation programs are designed to attract, reward and retain skilled executives and to provide incentives which vary upon the attainment of short-term operating performance objectives and long-term performance goals. The main objective is to provide ESI executives with incentives directly linked to the creation of shareholder value.

The Committee's Role. The Committee is responsible for the administration of the executive compensation program and reviews all proposed new or amended employee benefit plans. The Committee is composed of three Directors, James D. Fowler, Jr., Daniel P. Weadock and Vin Weber, all of whom participated in the deliberations concerning compensation reported in 2000.

The Committee may select consultants from nationally recognized independent compensation and benefits consulting firms to provide expert advice on any aspect of the ESI executive compensation program. The Committee may request written reports or hold private meetings with such consultants in order to obtain independent opinions on compensation proposals. The Committee has met, and will continue to meet, in executive sessions which are not attended by any ESI executives or managers. The Committee regularly reports its activities to the Board of Directors.

Performance Evaluation. The Committee met in executive session in January 2001 to review the overall performance of the Chief Executive Officer, particularly with respect to ESI's long range strategies and the achievement of both financial and non-financial objectives. Consideration was given to the Chief Executive Officer's role in building shareholder value and improving the return on the shareholders' investment.

The Compensation Program. The compensation program for ESI executives presently consists of base salary, annual incentive bonus, long-term incentives and employee benefits. It remains the intent of the Committee that incentives based on long-term performance should be the major component in the pay package for senior executives. The Committee believes that the use of ESI Common Stock in the payment of these incentives will enhance the ESI executives' commitment to the company's long-term performance. Discussed below is each element of the compensation program.

Base Salary. Salaries are set and administered to reflect the value of the job in the marketplace and individual contribution and performance. Salaries provide a necessary element of stability in the total pay program and, as such, are not subject to significant variability. Salary increases are based primarily on merit. During 2000, ESI executive salaries were evaluated in relation to a competitive annualized merit increase guideline of 4.5% for expected levels of individual performance. Actual increases can vary from the guideline depending primarily on individual performance.

The Committee authorized a salary increase for Mr. Champagne effective January 1, 2001 of \$21,200, bringing his annual salary to \$388,000. This merit increase, which followed a 12-month interval since his last salary review, was equivalent to 5.8% on an annualized basis and was based on an evaluation of his performance during the measurement period and a comparison of the base salaries of the chief executive officers of companies similar in size to ESI in terms of assets, sales, revenues and earnings.

Among the other named executive officers, Mr. Waddles' annual salary was increased effective April 1, 2000 to \$214,400, an increase of \$14,400 or 7.2% after 12 months; Mr. Lauer's annual salary was increased effective May 1, 2000 to \$192,300, an increase of \$9,500 or 5.2% after 12 months. Mr. Baugh's annual salary was increased effective September 1, 2000 to \$185,400, an increase of \$9,500 or 5.4% after 12 months. Mr. Hartigan's annual salary was increased effective February 1, 2000 to \$164,500, an increase of \$6,800 or 4.3% after 12 months.

Annual Incentive Bonus. The amounts of annual bonus awards are based on corporate financial performance for the year compared to an annual performance goal established at the beginning of the year. For 2000, such performance goal was 2000 earnings per share compared to 1999 earnings per share. The annual bonus awards are paid in components of cash and shares of ESI Common Stock. The percentage of each component depends on the value of the executive's holdings of ESI Common Stock prior to the payment of the bonus award.

Edgar Filing: ITT EDUCATIONAL SERVICES INC - Form DEF 14A

Stock Option Awards. Stock option awards provide long-term incentives which are directly related to the performance of ESI Common Stock. Options generally have ten-year terms and closely align the executive's interests with those of other shareholders.

In order to create performance incentives and promote equity ownership in ESI by certain officers, stock options were granted under the 1997 Stock Plan on January 7, 2000 to 149 employees of ESI at an option exercise price of \$13.50 per share.

Employee Benefits. Executives also participate in ESI's broad-based employee benefits program which includes a pension program, an investment and savings plan, group medical and dental coverage and other benefit plans.

Discussion of the Committee's Policy Regarding Qualifying Compensation for Deductibility Under Section 162(m) of the Internal Revenue Code. Tax legislation known as the Omnibus Budget Reconciliation Act of 1993 ("OBRA") created a new Code subsection 162(m), under which the allowable deduction for compensation paid or accrued with respect to the chief executive officer and each of the four most highly compensated executive officers of a publicly held corporation is limited to no more than \$1 million per year for taxable years on or after January 1, 1994. Certain types of compensation are exempted from this deduction limitation, including payments subject to: (a) the attainment of an objective performance goal or goals; (b) an outside director requirement; and (c) a shareholder approval requirement.

It is the policy of the Committee to establish a competitive executive compensation program and to design and administer incentive plans which relate rewards directly to ESI's overall performance and the individual executive's specific contribution.

In light of OBRA, it is the policy of the Committee to modify where necessary the executive compensation plans so as to maximize the tax deductibility of compensation paid to its executive officers, and the Committee does not anticipate paying any compensation in 2000 that is not fully tax deductible. Accordingly, the 1997 Stock Plan includes a fixed limit on the number of options that may be granted to any individual in any given year. Any future gains that may be realized upon the exercise of stock options granted under the 1997 Stock Plan will qualify as "performance-based compensation" and will be fully deductible by ESI.

Performance Graph

The performance graph set forth below compares the cumulative total shareholder return on ESI Common Stock with the S&P 500 Index and an Industry Group Index for the period from December 29, 1995 through December 31, 2000. The industry group consists of the following companies selected on the basis of the similar nature of their business: Apollo Group, Inc., Argosy Education Group, Inc., Career Education Corp., Computer Learning Centers, Inc., Corinthian Colleges, Inc., DeVry, Inc., Education Management Corp., Strayer Education, Inc., Sylvan Learning Systems, Inc. and Whitman Education Group, Inc. (the "Industry Group"). We believe that, including us, the Industry Group represents a significant portion of the market value of publicly traded companies whose primary business is classroom education. The number of publicly traded companies involved in education has increased over the past few years, making the composition of the Industry Group more representative of our industry than the peer issuers previously included in our industry group index. The Industry Group includes all of the peer issuers in the former industry group, except that Argosy Education Group, Inc. and Strayer Education, Inc. have been added to replace Quest Education Corporation and Edutrek International, Inc. which are no longer publicly traded companies (the "Former Industry Group").
