Item 5      Other Information

SBA Communications Corporation ("SBA") reported that in the third quarter of 2001 it increased its tower portfolio by 210 towers to a total of 3,464 towers. Of the 210 towers added in the third quarter, 133 were newly built and 77 were existing towers acquired by SBA. The 77 towers were acquired for an aggregate price of \$23.8 million or approximately \$309,000 per tower. Based on tenant leases executed as of September 30, 2001, same tower revenue growth for the trailing twelve months on the 1,950 towers SBA owned as of September 30, 2000 was 26%. With respect to the 3,254 towers owned at the beginning of the third quarter, SBA added gross site leasing revenues at an annualized rate of .44 new tenants per tower on a broadband equivalent basis.

At September 30, 2001, SBA had agreements providing it with the right to acquire 270 additional existing towers for an aggregate purchase price of \$67.8 million, or approximately \$251,000 per tower. These acquisitions are expected to close within the next six months. The Company also stated that its previously

announced non-recurring developmental charge in the third quarter associated with the adjustment to the scale of its new tower construction operations would be \$24.4 million. Of that amount, approximately \$22 million reflects the write-down of new tower build projects carried on SBA's balance sheet as of June 30, 2001. SBA remains an active builder of new towers, and is currently involved in projects for over 1,100 tower builds for its ownership throughout the nation, consisting of approximately 600 build-to-suit mandates from wireless carriers and the remainder sites SBA is developing through its strategic siting efforts.

Item 7 Financial Statements and Exhibits

99.1 Press release dated October 11, 2001.
