Notes to Financial Statements

March 31, 2003

(1) Organization and Business Purpose

Renaissance Capital Growth & Income Fund III, Inc. (the Fund), a Texas corporation, was formed on January 20, 1994. The Fund seeks to achieve current income and capital appreciation potential by investing primarily in unregistered equity investments and convertible issues of small and medium size companies which are in need of capital and which Renaissance Capital Group, Inc. (Investment Adviser) believes offers the opportunity for growth. The Fund is a non-diversified closed-end investment company and has elected to be treated as a business development company under the Investment Company Act of 1940, as amended (1940 Act).

(2) Summary of Significant Accounting Policies

(a) Valuation of Investments

Portfolio investments are stated at quoted market or fair value as determined by the Investment Adviser (Note 6). The securities held by the Fund are primarily unregistered and their value does not necessarily represent the amounts that may be realized from their immediate sale or disposition.

(b) Other

The Fund records security transactions on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on the accrual basis.

(c) Cash and Cash Equivalents

The Fund considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

(d) Federal Income Taxes

The Fund has elected the special income tax treatment available to "regulated investment companies" ("RIC") under Subchapter M of the Internal Revenue Code (IRC) in order to be relieved of federal income tax on that part of its net investment income and realized capital gains that it pays out to its shareholders. The Fund's policy is to comply with the requirements of the IRC that are applicable to regulated investment companies. Such requirements include, but are not limited to certain qualifying income tests, asset diversification tests and distribution of substantially all of the Fund's taxable investment income to its shareholders. It is the intent of management to comply with all IRC requirements as they pertain to a RIC and to distribute all of the Fund's taxable investment income and long-term capital gains within the defined period under the IRC to qualify as a RIC. Failure to qualify as a RIC would subject the Fund to federal income tax as if the Fund were an ordinary corporation, which could result in a substantial reduction in the Fund's net assets as well as the amount of income available for distribution to shareholders.

(e) Net Income per Share

Net income per share is based on the weighted average of shares outstanding of 4,351,718 during the period.

(f) Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(3) Due to Broker

The Fund conducts business with one prime broker for its investment activities. The clearing and depository operations for the investment activities are performed pursuant to agreements with this prime broker. Due to broker represents a margin loan payable to the prime broker, which is secured by investments in securities maintained with the prime broker. Cash and cash equivalents related to the margin loan payable are held by the prime broker as collateral for the margin loan. The Fund is subject to credit risk to the extent the prime broker is unable to deliver cash balances or securities, or clear security transactions on the Fund's behalf. The Investment Adviser actively monitors the Fund's exposure to the broker and believes the likelihood of loss under those circumstances is remote.

(4) Management and Organization Fees

The Investment Adviser for the Fund is registered as an investment adviser under the Investment Advisers Act of 1940. Pursuant to an Investment Advisory Agreement (the Agreement), the Investment Adviser performs certain services, including certain management, investment advisory and administrative services necessary for the operation of the Fund. In addition, under the Agreement, the Investment Adviser is reimbursed by the Fund for certain administrative expenses. A summary of fees and reimbursements paid by the Fund under the Agreement, the prospectus and the original offering document are as follows:

- o The Investment Adviser receives a management fee equal to a quarterly rate of 0.4375% (1.75% annually) of the Fund's Net Assets, as determined at the end of such quarter with each such payment to be due as of the last day of the calendar quarter. The Fund incurred \$162,977 and \$244,481 for management fees during the quarter ended March 31, 2003, and March 31, 2002, respectively. Amounts payable for such fees at March 31, 2003, and March 31, 2002, were \$162,977 and \$244,481, respectively, and are included in Accounts payable - affiliate.
- o The Investment Adviser receives an incentive fee in an amount equal to 20% of the Fund's realized capital gains in excess of realized capital losses of the Fund after allowance for any unrealized capital losses in excess of unrealized capital gains on the portfolio investments of the Fund. The incentive fee is calculated, accrued, and paid on a quarterly basis. The Fund incurred \$166,163 during the quarter ended March 31, 2003, for such incentive fees and are included in Accounts payable - affiliate. The Fund did not incur any incentive fees for the quarter ended March 31, 2002.
- o The Investment Adviser was reimbursed by the Fund for administrative expenses paid by the Investment Adviser on behalf of the Fund. Such reimbursements were \$11,293 and \$13,244 during the quarter ended March 31, 2003, and March 31, 2002, respectively, and are included in general and administrative expenses in the accompanying statements of operations.

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.
Notes to Financial Statements
March 31, 2003

(5) Eligible Portfolio Companies and Investments

(a) Eligible Portfolio Companies.

The Fund invests primarily in convertible securities and equity investments of companies that qualify as Eligible Portfolio Companies as defined in Section 2(a)(46) of the 1940 Act or in securities that otherwise qualify for investment as permitted in Section 55(a)(1) through (5). Under the provisions of the 1940 Act at least 70% of the fund's assets, as defined under the 1940 Act, must be invested in Eligible Portfolio Companies. In the event the Fund has less than 70% of its assets invested in eligible portfolio investments, then it will

be prohibited from making non-eligible investments until such time as the percentage of eligible investments again exceeds the 70% threshold.

(b) Investments.

Investments are carried in the statements of assets and liabilities as of December 31, 2002, and March 31, 2003, at fair value, as determined in good faith by the Investment Adviser. The convertible debt securities held by the Fund generally have maturities between five and seven years and are convertible into the common stock of the issuer at a set conversion price at the discretion of the fund. The common stock underlying these securities is generally unregistered and thinly to moderately traded but is not otherwise restricted. Generally, the Fund may register and sell such securities at any time with the Fund paying the costs of registration. Interest on convertible securities are generally payable monthly. The convertible debt securities generally contain embedded call options giving the issuer the right to call the underlying issue. In these instances, the Fund has the right of redemption or conversion. The embedded call option will generally not vest until certain conditions are achieved by the issuer. Such conditions may require that minimum thresholds be met relating to underlying market prices, liquidity, and other factors.

(6) Valuation of Investments

On a quarterly basis, Renaissance Group prepares a valuation of the assets of the Fund subject to the approval of the Board of Directors. The valuation principles are as follows:

- o Generally, the guiding principle for valuation is the application of objective standards. The objective standards for determining market prices and applying valuation methodologies will govern in all situations except where a debt issuer is in default.

22

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.
Notes to Financial Statements
March 31, 2003

- o Generally, the fair value of debt securities and preferred securities convertible into common stock is the sum of (a) the value of such securities without regard to the conversion feature, and (b) the value, if any, of the conversion feature. The fair value of debt securities without regard to conversion features is determined on the basis of the terms of the debt security, the interest yield, and the financial condition of the issuer. The fair value of preferred securities without regard to conversion features is determined on the basis of the terms of the preferred security, its dividend, and its liquidation and redemption rights and absent special circumstances will typically be equal to the lower of cost or 120% of the value of the underlying common stock. The fair value of the conversion features of a security, if any, are based on fair values of the derivative securities as of the relevant date less an allowance, as appropriate, for costs of registration, if any, and selling expenses.
- o Portfolio investments for which market quotations are readily

available and which are freely transferable are valued as follows: (i) securities traded on a securities exchange or the Nasdaq or in the over-the-counter market are valued at the closing price on, or the last trading day prior to, the date of valuation, and (ii) securities traded in the over-the-counter market that do not have a closing price on, or the last trading day prior to, the date of valuation are valued at the average of the closing bid and ask price for the last trading day on, or prior to, the date of valuation. Securities for which market quotations are readily available but are restricted from free trading in the public securities markets (such as Rule 144 stock) are valued by discounting the value for the last trading day on, or prior to, the date of valuation to reflect the liquidity caused by such restriction, but taking into consideration the existence, or lack thereof, of any contractual right to have the securities registered and freed from such trading restrictions.

- o Because there is no independent and objective pricing authority (i.e. a public market) for investments in privately held entities, the latest sale of equity securities by the entity governs the value of the enterprise. This valuation method causes the Fund's initial investment in the private entity to be valued at cost. Thereafter, new issuances of equity or equity-linked securities by a portfolio company will be used to determine enterprise value as they will provide the most objective and independent basis for determining the worth of the issuer.

There can be no assurance that stated market fair values for private equities will stay constant, or that future equity raises will value the portfolio company at levels equal to or greater than the prior equity financing for the issuer. As a result, the Fund's valuation of a privately held portfolio company may be subject to downward

23

RENAISSANCE CAPITAL GROWTH & INCOME FUND III, INC.
Notes to Financial Statements
March 31, 2003

adjustment that would directly impact the Fund's net asset value and which could result in a substantial reduction in the fund's net assets.

- o Where a portfolio company is in default on a debt instrument held by the Fund, and no market exists for that instrument, the fair value for the investment is determined on the basis of appraisal procedures established in good faith by the Investment Adviser. This type of fair value determination is based upon numerous factors such as the portfolio company's earnings and net worth, market prices for comparative investments (similar securities in the market place), the terms of the Fund's investment, and a detailed assessment of the portfolio company's future financial prospects. In the event of unsuccessful operations by a portfolio company, the appraisal may be based upon an estimated net realizable value when that investment is liquidated

As of March 31, 2003, and December 31, 2002, the net unrealized appreciation associated with investments held by the Fund was \$479,705, and \$6,540,900, respectively. For the periods ended March 31, 2003, and December 31, 2002, the Fund had gross unrealized gains

Edgar Filing: RENAISSANCE CAPITAL GROWTH & INCOME FUND III INC - Form 10-Q

of \$12,819,424 and \$13,970,011, respectively, and gross unrealized losses of (\$12,339,719) and (\$7,429,111), respectively.

(7) Restricted Securities

As indicated on the statement of investments as of March 31, 2003, and December 31, 2002, the Fund holds investments in shares of common stock, the sale of which is restricted. These securities have been valued by the Investment Adviser after considering certain pertinent factors relevant to the individual securities (note 5).

(8) Purchase of Additional Shares

In accordance with Fund guidelines, certain shareholders reinvested their dividends in the Fund. The Fund issued no shares during the periods ended March 31, 2003, and December 31, 2002, under the dividend reinvestment plan.

(9) Distributions to Shareholders

During the periods ended March 31, 2003, and December 31, 2002, the Fund distributed \$435,172 and \$435,172, respectively. During the period ended March 31, 2002, the Fund made no cash distributions. At March 31, 2003, the Fund had net investment income in excess of the amount of the cash distribution; however, the final tax characteristics of this distribution cannot be determined at this time. The cash distribution made in 2002

represented a tax return of capital. The capital loss carryover of (\$3,429,593) as of December 31, 2002, will expire in 2010. The tax cost of securities is identical to the book cost.

Results of Operations for the Quarter Ended March 31, 2003

For the quarter ended March 31, 2003, the Fund had net investment income of \$894,155 compared to net investment loss of (\$316,406) for the first quarter of 2002. This change was due in large part to an increase in investment income from \$111,185 for the first quarter of 2002 to \$1,366,541 for the comparable period of 2003. This increase was primarily attributable to the accrual of dividends receivable from eOriginal Holdings, Inc., as a result of its reorganization and from Integrated Security Systems, Inc., on its Series F and G Convertible Preferred Stock. In addition, interest income increased due to the reversal of reserves against accrued interest income from eOriginal as part of the reorganization mentioned previously.

The increase in investment income was partially offset by an increase in investment expenses from \$427,591 for the first period of 2002 to \$472,386 for the first quarter of 2003. General and administrative expenses decreased for the first quarter of 2003 to \$75,048 from \$87,323 for the first quarter of 2002, a decrease of 14.06%. Interest expense decreased 66.17% from \$29,656 for the first quarter of 2002 to \$10,033 for the comparable period of 2003. Legal and professional fees decreased from \$66,131 for the first quarter of 2002 to \$58,165 for the first quarter of 2003, a decrease of 12.05%. Management fees decreased 33.33% from \$244,481 for the first quarter of 2002 to \$162,977 for the comparable period of 2003 as a result of lower market values for portfolio investments during the period. These increases in expenses were offset by the incentive fee on capital gains accrued in the first quarter of 2003. There was no incentive fee in the first quarter of 2002 because there were no capital gains in that period.

Liquidity and Capital Resources

For the three months ended March 31, 2003, net assets decreased 11.56% from \$41,259,065 at December 31, 2002, to \$36,487,669 at March 31, 2003. This decrease is primarily attributable to a decrease in the net unrealized appreciation of investments from \$6,540,900 at December 31, 2002, to \$479,705 at March 31, 2003, and the cash distribution to shareholders of \$435,172 paid during the first quarter of 2003. This decrease was partially offset by the net investment income discussed previously and a realized gain in the amount of \$830,818 on the disposition of a portion of the Fund's position in Bentley Pharmaceuticals.

At the end of the first quarter of 2003, the Fund had net cash and cash equivalents of \$1,181,514 versus net cash and cash equivalents of \$1,966,838 at December 31, 2002. The Fund's interest and dividends receivable increased from \$28,409 at December 31, 2002, to \$418,407 at March 31, 2003, primarily due to the dividend accrued on Integrated Security Systems Series F & G Preferred Stock. Prepaid expenses decreased 46.15% from \$40,069 at December 31, 2002, to \$21,575 at March 31, 2003, primarily attributable to quarterly charges against prepaid insurance amounts.

Accounts payable increased from \$12,107 at December 31, 2002, to \$20,932 at March 31, 2003, a 72.89%, primarily due to the first quarter accrual of custodial, auditing, and legal fees. Finally, accounts payable to affiliate increased 66.60% from \$223,386 at December 31, 2002, to \$372,169 at March 31, 2003, due to the accrual of a first quarter incentive fee payable to the investment adviser offset partially by a reduction in management fees also payable to the investment adviser.

Pending investment in portfolio investments, funds are invested in temporary cash accounts and in government securities. Government securities used as cash equivalents will typically consist of U. S. Treasury securities or other U. S. Government and Agency obligations having slightly higher yields and maturity dates of three months or less. These investments qualify for investment as permitted in Section 55(a)(1) through (5) of the 1940 Act.
