DIANA SHIPPING INC. REPORTS FINANCIAL RESULTS  
FOR THE FIRST QUARTER ENDED MARCH 31, 2010

BOARD OF DIRECTORS REAUTHORIZES THE SHARE REPURCHASE PROGRAM

ATHENS, GREECE, May 26, 2010, – Diana Shipping Inc. (NYSE: DSX), a global shipping company specializing in the transportation of dry bulk cargoes, today reported net income of \$28.8 million for the first quarter of 2010. This compared to net income of \$34.8 million reported in the first quarter of 2009.

Voyage and time charter revenues were \$62.2 million for the first quarter of 2010, compared to \$62.7 million for the same period of 2009, due to a decrease in prevailing time charter rates, which was partly offset by increased revenues due to the addition to our fleet of the vessels Houston, delivered in October 2009, Melite, acquired in January 2010, and New York, delivered in March 2010.

Reauthorization of Stock Buyback Plan

The Company has further announced that the Board of Directors has reauthorized the share repurchase program announced on November 12, 2008 for up to U.S. \$100 million of the Company's common shares which may be repurchased from time to time until December 31, 2011.

The plan allows for the repurchase of Common Stock to be made in open market or privately negotiated transactions in compliance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended, subject to market and business conditions, applicable legal requirements and other factors. The plan will be implemented by the Company's management at its discretion. The plan calls for the repurchased shares to be retired as soon as practicable following the repurchase. The plan does not oblige the Company to purchase any particular number of shares, and may be suspended at any time at the Company's discretion in accordance with Rule 10b-18. The Company noted that it has not repurchased any shares under the prior buyback authorization.

Chairman and Chief Executive Officer's Comments

Simeon Palios, Chairman and CEO of Diana Shipping Inc., said, "Diana Shipping Inc. once again delivered positive net income that we believe is a result of our well-designed strategy to manage our fleet productively, in a consistent

and transparent manner that is responsive to market conditions and opportunities. Furthermore, we have made progress toward our previously announced investment plan. We have increased our fleet to 22 vessels, plus another two on order, and at the same time we have maintained a strong balance sheet and liquidity to support further expansion in the future."

Mr. Palios further stated, "In this volatile financial and shipping environment we have renewed the stock repurchase program. We continue to believe, as we have stated in the past, that the most productive use of our capital is to invest in the long-term growth of our fleet. However, we have the capacity to step in with the buyback program for the benefit of our shareholders if we determine that this is the most appropriate action based on market conditions."

<b>AVERAGE DAILY RESULTS</b>		
Time charter equivalent (TCE) rate (1)	\$31,982	\$34,898
Daily vessel operating expenses (2)	\$6,606	\$5,521

(1) Time charter equivalent rates, or TCE rates, are defined as our voyage and time charter revenues less voyage expenses during a period divided by the number of our available days during the period, which is consistent with industry standards. Voyage expenses include port charges, bunker (fuel) expenses, canal charges and commissions. TCE is a non-GAAP measure. TCE rate is a standard shipping industry performance measure used primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charter hire rates for vessels on voyage charters are generally not expressed in per day amounts while charter hire rates for vessels on time charters are generally expressed in such amounts.

(2) Daily vessel operating expenses, which include crew wages and related costs, the cost of insurance, expenses relating to repairs and maintenance, the costs of spares and consumable stores, tonnage taxes and other miscellaneous expenses, are calculated by dividing vessel operating expenses by ownership days for the relevant period.

#### Cautionary Statement Regarding Forward-Looking Statements

Matters discussed in this press release may constitute forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. The words "believe," "anticipate," "intends," "estimate," "forecast," "project," "plan," "potential," "may," "should," "expect," "pending" and similar expressions identify forward-looking statements.

The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections.

In addition to these important factors, other important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, changes in demand for dry bulk shipping capacity, changes in our operating expenses, including bunker prices, drydocking and insurance costs, the market for our vessels, availability of financing and refinancing, changes in governmental rules and regulations or actions taken by regulatory authorities, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, vessels breakdowns and instances of off-hires and other factors. Please see our filings with the Securities and Exchange Commission for a more complete discussion of these and other risks and uncertainties.
