UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF  
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2013

Commission file number 0-24000

ERIE INDEMNITY COMPANY  
(Exact name of registrant as specified in its charter)

PENNSYLVANIA (State or other jurisdiction of incorporation or organization)	25-0466020 (I.R.S. Employer Identification No.)
---	---

100 Erie Insurance Place, Erie, Pennsylvania (Address of principal executive offices)	16530 (Zip Code)
--	---------------------

(814) 870-2000  
(Registrant's telephone number, including area code)

Not applicable  
(Former name, former address and former fiscal year, if changed since last  
report)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.  
Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.  
Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).  
Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer  Accelerated Filer  Non-Accelerated Filer  Smaller Reporting Company

Edgar Filing: ERIE INDEMNITY CO - Form 10-Q

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes      No    X

The number of shares outstanding of the registrant's Class A Common Stock as of the latest practicable date, with no par value and a stated value of \$0.0292 per share, was 46,697,008 at April 19, 2013.

The number of shares outstanding of the registrant's Class B Common Stock as of the latest practicable date, with no par value and a stated value of \$70 per share, was 2,542 at April 19, 2013.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1. Nature of Operations

Erie Indemnity Company (“Indemnity”) is a publicly held Pennsylvania business corporation that has been the managing attorney-in-fact for the subscribers (policyholders) at the Erie Insurance Exchange (“Exchange”) since 1925. The Exchange is a subscriber-owned, Pennsylvania-domiciled reciprocal insurer that writes property and casualty insurance.

Indemnity’s primary function is to perform certain services for the Exchange relating to the sales, underwriting and issuance of policies on behalf of the Exchange. This is done in accordance with a subscriber’s agreement (a limited power of attorney) executed by each subscriber (policyholder), which appoints Indemnity as their common attorney-in-fact to transact business on their behalf and to manage the affairs of the Exchange. Pursuant to the subscriber’s agreement and for its services as attorney-in-fact, Indemnity earns a management fee calculated as a percentage of the direct premiums written by the Exchange and the other members of the Property and Casualty Group (defined below), which are assumed by the Exchange under an intercompany pooling arrangement.

Indemnity has the power to direct the activities of the Exchange that most significantly impact the Exchange’s economic performance by acting as the common attorney-in-fact and decision maker for the subscribers (policyholders) at the Exchange.

The Exchange, together with its wholly owned subsidiaries, Erie Insurance Company (“EIC”), Erie Insurance Company of New York (“ENY”), Erie Insurance Property and Casualty Company (“EPC”), and Flagship City Insurance Company (“Flagship”), operate as a property and casualty insurer and are collectively referred to as the “Property and Casualty Group”. The Property and Casualty Group operates in 11 Midwestern, Mid-Atlantic and Southeastern states and the District of Columbia.

Erie Family Life Insurance Company (“EFL”), a wholly owned subsidiary of the Exchange, operates as a life insurer that underwrites and sells individual and group life insurance policies and fixed annuities.

All property and casualty and life insurance operations are owned by the Exchange, and Indemnity functions solely as the management company.

The consolidated financial statements of Erie Indemnity Company reflect the results of Indemnity and its variable interest entity, the Exchange, which we refer to collectively as the “Erie Insurance Group” (“we,” “us,” “our”).

“Indemnity shareholder interest” refers to the interest in Erie Indemnity Company owned by the Class A and Class B shareholders. “Noncontrolling interest” refers to the interest in the Erie Insurance Exchange held for the subscribers (policyholders).

Note 2. Significant Accounting Policies

Basis of presentation

The accompanying consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles (“GAAP”) and include the accounts of Indemnity together with its affiliate companies in which Indemnity holds a majority voting or economic interest.

Use of estimates

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of our financial position, results of operations and cash flows for the interim periods have been included. Operating results for the three month period ended March 31, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. The accompanying consolidated financial statements and notes should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2012 as filed with the Securities and Exchange Commission on February 26, 2013.

## Table of Contents

### Principles of consolidation

We consolidate the Exchange as a variable interest entity for which Indemnity is the primary beneficiary. All intercompany accounts and transactions have been eliminated in consolidation. The required presentation of noncontrolling interests is reflected in the consolidated financial statements. Noncontrolling interests represent the ownership interests of the Exchange, all of which is held by parties other than Indemnity (i.e. the Exchange's subscribers (policyholders)). Noncontrolling interests also include the Exchange subscribers' ownership interest in EFL.

**Presentation of assets and liabilities** – While the assets of the Exchange are presented separately in the Consolidated Statements of Financial Position, the Exchange's assets can only be used to satisfy the Exchange's liabilities or for other unrestricted activities. Accounting Standards Codification ("ASC") 810, Consolidation, does not require separate presentation of the Exchange's assets; however, because the shareholders of Indemnity have no rights to the assets of the Exchange and, conversely, the Exchange has no rights to the assets of Indemnity, we have presented the invested assets of the Exchange separately on the Consolidated Statements of Financial Position along with the remaining consolidated assets reflecting the Exchange's portion parenthetically. Liabilities are required under ASC 810, Consolidation, to be presented separately for the Exchange on the Consolidated Statements of Financial Position as the Exchange's creditors do not have recourse to the general credit of Indemnity.

**Rights of shareholders of Indemnity and subscribers (policyholders) of the Exchange** – The shareholders of Indemnity, through the management fee, have a controlling financial interest in the Exchange; however, they have no other rights to or obligations arising from assets and liabilities of the Exchange. The shareholders of Indemnity own its equity but have no rights or interest in the Exchange's (noncontrolling interest) income or equity. The noncontrolling interest equity represents the Exchange's equity held for the interest of its subscribers (policyholders), who have no rights or interest in the Indemnity shareholder interest income or equity.

All intercompany assets, liabilities, revenues and expenses between Indemnity and the Exchange have been eliminated in the Consolidated Financial Statements.

### Adopted accounting pronouncements

In February 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-02, Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. The amendments in this ASU require an entity to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the line items affected by the reclassification. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other related disclosures for additional information. ASU 2013-02 is effective prospectively for interim and annual periods beginning after December 15, 2012. We have elected to present amounts reclassified out of accumulated other comprehensive income by component and the respective line items of net income in the notes to our consolidated financial statements. See Note 12. "Indemnity's Accumulated Other Comprehensive Loss".

### Pending accounting pronouncements

In February 2013, the FASB issued ASU 2013-04, Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date. The amendments in this ASU provide guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date, except for obligations addressed within existing guidance in GAAP. ASU 2013-04 is effective for interim and annual periods beginning after December 15, 2013, with early adoption permitted. We do not expect the adoption of this new guidance to have a material impact on our consolidated financial statements.

Table of Contents

## Note 3. Indemnity Earnings Per Share

Class A and Class B basic earnings per share and Class B diluted earnings per share are calculated under the two-class method. The two-class method allocates earnings to each class of stock based upon its dividend rights. Class B shares are convertible into Class A shares at a conversion ratio of 2,400 to 1.

Class A diluted earnings per share are calculated under the if-converted method, which reflects the conversion of Class B shares to Class A shares. Diluted earnings per share calculations include the effect of any potential common shares. Potential common shares include outstanding vested and not yet vested awards related to our outside directors' stock compensation plan and any employee stock based awards.

In the first quarter of 2012, two shares of Class B common stock were converted into 4,800 shares of Class A common stock. See Note 11. "Indemnity Capital Stock".

A reconciliation of the numerators and denominators used in the basic and diluted per-share computations is presented as follows for each class of Indemnity common stock:

(dollars in millions, except per share data)	Indemnity Shareholder Interest					
	Three months ended March 31,					
	2013			2012		
	Allocated net income (numerator)	Weighted shares (denominator)	Per-share amount	Allocated net income (numerator)	Weighted shares (denominator)	Per- share amount
Class A – Basic EPS:						
Income available to Class A stockholders	\$36	46,774,968	\$0.78	\$36	47,749,799	\$0.76
Dilutive effect of stock-based awards	0	84,397	—	0	72,245	—
Assumed conversion of Class B shares	1	6,100,800	—	0	6,108,000	—
Class A – Diluted EPS:						
Income available to Class A stockholders on Class A equivalent shares	\$37	52,960,165	\$0.69	\$36	53,930,044	\$0.67
Class B – Basic and diluted EPS:						
Income available to Class B stockholders	\$0	2,542	\$117	\$0	2,545	\$114

Table of Contents

Note 4. Variable Interest Entity

Erie Insurance Exchange

The Exchange is a reciprocal insurance exchange domiciled in Pennsylvania, for which Indemnity serves as attorney-in-fact. Indemnity holds a variable interest in the Exchange due to the absence of decision-making capabilities by the equity owners (subscribers/policyholders) of the Exchange and due to the significance of the management fee the Exchange pays to Indemnity as its decision maker. As a result, Indemnity is deemed to have a controlling financial interest in the Exchange and is considered to be its primary beneficiary.

Consolidation of the Exchange's financial results is required given the significance of the management fee to the Exchange and because Indemnity has the power to direct the activities of the Exchange that most significantly impact the Exchange's economic performance. The Exchange's anticipated economic performance is the product of its underwriting results combined with its investment results. The fees paid to Indemnity under the subscriber's agreement impact the anticipated economic performance attributable to the Exchange's results. Indemnity earns a management fee from the Exchange for the services it provides as attorney-in-fact. Indemnity's management fee revenues are based on all premiums written or assumed by the Exchange. Indemnity's Board of Directors determines the management fee rate to be paid by the Exchange to Indemnity. This rate cannot exceed 25% of the direct and assumed written premiums of the Exchange, as defined by the subscriber's agreement signed by each policyholder. Management fee revenues and management fee expenses are eliminated upon consolidation.

The shareholders of Indemnity have no rights to the assets of the Exchange and no obligations arising from the liabilities of the Exchange. Indemnity has no obligation related to any underwriting and/or investment losses experienced by the Exchange. Indemnity would, however, be adversely impacted if the Exchange incurred significant underwriting and/or investment losses. If the surplus of the Exchange were to decline significantly from its current level, its financial strength ratings could be reduced and, as a consequence, the Exchange could find it more difficult to retain its existing business and attract new business. A decline in the business of the Exchange would have an adverse effect on the amount of the management fees Indemnity receives. In addition, a decline in the surplus of the Exchange from its current level may impact the management fee rate received by Indemnity. Indemnity also has an exposure to a concentration of credit risk related to the unsecured receivables due from the Exchange for its management fee. If any of these events occurred, Indemnity's financial position, financial performance and/or cash flows could be adversely impacted.

All property and casualty and life insurance operations are owned by the Exchange, and Indemnity functions solely as the management company.

Indemnity has not provided financial or other support to the Exchange for any the reporting periods presented. At March 31, 2013, there are no explicit or implicit arrangements that would require Indemnity to provide future financial support to the Exchange. Indemnity is not liable if the Exchange was to be in violation of its debt covenants or was unable to meet its obligation for unfunded commitments to limited partnerships.

Table of Contents

Note 5. Segment Information

Our reportable segments include management operations, property and casualty insurance operations, life insurance operations and investment operations. Accounting policies for segments are the same as those described in the summary of significant accounting policies. See Item 8. "Financial Statements and Supplementary Data, Note 2. Significant Accounting Policies," in our Annual Report on Form 10-K for the year ended December 31, 2012 as filed with the Securities and Exchange Commission on February 26, 2013. Assets are not allocated to the segments, but rather, are reviewed in total for purposes of decision-making. No single customer or agent provides 10% or more of revenues.

Management operations

Our management operations segment consists of Indemnity serving as attorney-in-fact for the Exchange. Indemnity operates in this capacity solely for the Exchange. We evaluate profitability of our management operations segment principally on the gross margin from management operations. Indemnity earns a management fee from the Exchange for providing sales, underwriting and policy issuance services. Management fee revenue, which is eliminated upon consolidation, is calculated as a percentage not to exceed 25% of all the direct premiums written by the Exchange and the other members of the Property and Casualty Group, which are assumed by the Exchange under an intercompany pooling arrangement. The Property and Casualty Group issues policies with annual terms only. Management fees are recorded upon policy issuance or renewal, as substantially all of the services required to be performed by Indemnity have been satisfied at that time. Certain activities are performed and related costs are incurred by us subsequent to policy issuance in connection with the services provided to the Exchange; however, these activities are inconsequential and perfunctory. Although these management fee revenues and expenses are eliminated upon consolidation, the amount of the fee directly impacts the allocation of our consolidated net income between the noncontrolling interest, which bears the management fee expense and represents the interests of the Exchange subscribers (policyholders), and Indemnity's interest, which earns the management fee revenue and represents the Indemnity shareholder interest in net income.

Property and casualty insurance operations

Our property and casualty insurance operations segment includes personal and commercial lines. Personal lines consist primarily of personal auto and homeowners and are marketed to individuals. Commercial lines consist primarily of commercial multi-peril, commercial auto and workers compensation and are marketed to small- and medium-sized businesses. Our property and casualty policies are sold by independent agents. Our property and casualty insurance underwriting operations are conducted through the Exchange and its subsidiaries and include assumed voluntary reinsurance from nonaffiliated domestic and foreign sources, assumed involuntary and ceded reinsurance business. The Exchange exited the assumed voluntary reinsurance business effective December 31, 2003, and therefore unaffiliated reinsurance includes only run-off activity of the previously assumed voluntary reinsurance business. We evaluate profitability of the property and casualty insurance operations principally based upon net underwriting results represented by the combined ratio.

Life insurance operations

Our life insurance operations segment includes traditional and universal life insurance products and fixed annuities marketed to individuals using the same independent agency force utilized by our property and casualty insurance operations. We evaluate profitability of the life insurance segment principally based upon segment net income, including investments, which for segment purposes are reflected in the investment operations segment. At the same time, we recognize that investment-related income is integral to the evaluation of the life insurance segment because of the long duration of life products. For the first quarters of 2013 and 2012, investment activities on life insurance related assets generated revenues of \$26 million and \$24 million, respectively, resulting in EFL reporting income before income taxes of \$11 million and \$9 million, respectively, before intercompany eliminations.

Investment operations

The investment operations segment performance is evaluated based upon appreciation of assets, rate of return and overall return. Investment related income for the life operations is included in the investment segment results.

Table of Contents

Note 6. Fair Value

Our available-for-sale and trading securities are recorded at fair value, which is the price that would be received to sell the asset in an orderly transaction between willing market participants as of the measurement date.

Valuation techniques used to derive the fair value of our available-for-sale and trading securities are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources. Unobservable inputs reflect our own assumptions regarding fair market value for these securities. Although the majority of our prices are obtained from third party sources, we also perform an internal pricing review for securities with low trading volumes in the current market conditions. Financial instruments are categorized based upon the following characteristics or inputs to the valuation techniques:

• Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

• Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

• Level 3 – Unobservable inputs for the asset or liability.

Estimates of fair values for our investment portfolio are obtained primarily from a nationally recognized pricing service. Our Level 1 category includes those securities valued using an exchange traded price provided by the pricing service. The methodologies used by the pricing service that support a Level 2 classification of a financial instrument include multiple verifiable, observable inputs including benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. Pricing service valuations for Level 3 securities are based upon proprietary models and are used when observable inputs are not available or in illiquid markets.

In limited circumstances we adjust the price received from the pricing service when, in our judgment, a better reflection of fair value is available based upon corroborating information and our knowledge and monitoring of market conditions such as a disparity in price of comparable securities and/or non-binding broker quotes. In other circumstances, certain securities are internally priced because prices are not provided by the pricing service.

We perform continuous reviews of the prices obtained from the pricing service. This includes evaluating the methodology and inputs used by the pricing service to ensure that we determine the proper classification level of the financial instrument. Price variances, including large periodic changes, are investigated and corroborated by market data. We have reviewed the pricing methodologies of our pricing service as well as other observable inputs, such as data, and transaction volumes and believe that their prices adequately consider market activity in determining fair value. Our review process continues to evolve based upon accounting guidance and requirements.

When a price from the pricing service is not available, values are determined by obtaining non-binding broker quotes and/or market comparables. When available, we obtain multiple quotes for the same security. The ultimate value for these securities is determined based upon our best estimate of fair value using corroborating market information. Our evaluation includes the consideration of benchmark yields, reported trades, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data.

For certain structured securities in an illiquid market, there may be no prices available from a pricing service and no comparable market quotes available. In these situations, we value the security using an internally-developed, risk-adjusted discounted cash flow model.

Table of Contents

The following table represents our consolidated fair value measurements on a recurring basis by asset class and level of input at March 31, 2013:

(in millions)	Erie Insurance Group March 31, 2013 Fair value measurements using:

Total – Erie Insurance Group	\$12,098	\$3,231	\$8,636	\$231

(1) Other investments measured at fair value represent four real estate funds included on the balance sheet as limited partnership investments that are reported under the fair value option. These investments can never be redeemed with the funds. Instead, distributions are received when liquidation of the underlying assets of the funds occur. It is estimated that the underlying assets will generally be liquidated between 5 and 10 years from the inception of the funds. The fair value of these investments is based on the net asset value (NAV) information provided by the

general partner. Fair value is based on our proportionate share of the NAV based on the most recent partners' capital statements received from the general partners, which is generally one quarter prior to our balance sheet date. These values are then analyzed to determine if they represent the NAV at our balance sheet date, with adjustment being made where appropriate. We consider observable market data and perform a review validating the appropriateness of the NAV at each balance sheet date. It is likely that all of the investments will be redeemed at a future date for an amount different than the NAV of our ownership interest in partners' capital as of March 31, 2013. During the quarter ended March 31, 2013, Indemnity made no contributions and received no distributions, and the Exchange made no contributions and received distributions totaling \$0.8 million for these investments. As of March 31, 2013, the amount of unfunded commitments related to the investments was \$1.5 million for Indemnity and \$4.5 million for the Exchange.

Total Level 3 assets – Erie Insurance Group	\$206	\$3	\$ 5	\$ 4	\$(13 )	\$26	\$231

These amounts are reported in the Consolidated Statement of Operations. There is \$2 million of losses included in (1) net realized investment gains (losses) and \$5 million of earnings included in equity in earnings of limited partnerships for the three months ended March 31, 2013 on Level 3 securities.

Transfers in and out of Level 3 are attributable to changes in the availability of market observable information for (2) individual securities within the respective categories. Transfers in and out of levels are recognized at the start of the period.

We review the fair value hierarchy classifications each reporting period. Transfers between hierarchy levels may occur due to changes in the available market observable inputs. Transfers in and out of level classifications are reported as having occurred at the beginning of the quarter in which the transfers occurred.

For Indemnity, there were no Level 1 to Level 2 transfers for the three months ended March 31, 2013. Level 2 to Level 1 transfers totaled \$1 million, due to trading activity levels related to one preferred stock holding, and there were no transfers between Levels 2 and 3.

Edgar Filing: ERIE INDEMNITY CO - Form 10-Q

For the Exchange, Level 1 to Level 2 transfers totaled \$6 million and Level 2 to Level 1 transfers totaled \$51 million due to trading activity levels related to one preferred stock holding and five preferred stock holdings, respectively, for the three months ended March 31, 2013. Level 2 to Level 3 transfers totaled \$39 million related to seven fixed maturity holdings and one preferred stock holding. Level 3 to Level 2 transfers totaled \$13 million for one fixed maturity holding. These transfers in and out of Level 3 were primarily the result of using non-binding and binding broker quotes, respectively, to determine the fair value at March 31, 2013.

				Comparable transaction EBITDA multiples	6.7 - 17.1x	8.0x
Common stock	7	3	Market approach	Discount for lack of marketability	5 - 30%	30%
Total Level 3 assets – Exchange	\$96	24				
Total Level 3 assets – Erie Insurance Group	\$99	27				

Securities valued using unobservable inputs shown above totaled \$99 million at March 31, 2013. Other investments representing certain limited partnerships recorded at fair value of \$132 million are also included in Level 3 within our consolidated fair value measurements. These values are based upon net asset value (NAV) information provided by the general partner. In total, Level 3 assets represent less than 1.9% of the assets measured at fair value on a recurring basis for the Erie Insurance Group.

Collateralized-debt-obligation securities – The unobservable inputs used in the fair value measurement of certain collateralized-debt-obligation securities are the repayment at maturity of underlying collateral available to pay note holders, the projected maturity of the underlying security, an expectation that the London Inter-Bank Offer Rates (“LIBOR”) do not change until maturity and a discount rate appropriate for the security. Significant changes in any of those inputs in isolation would result in a significantly higher or lower fair value measurement. Generally, a change in the assumption used for the performance of the underlying collateral is accompanied by an opposite change in the maturity and a directionally opposite change in the discount rate used to value the security. LIBOR assumptions are independent of collateral performance.

Corporate debt securities, Commercial mortgage-backed securities and Nonredeemable preferred stock – When a non-binding broker quote was the only input available, it was considered unobservable.

Table of Contents

Corporate debt securities – The unobservable input used in the fair value measurement of certain corporate debt securities is the likelihood of repayment by the underlying entity when there is no market for trading these securities. When available, we obtain non-binding broker quotes to value such securities.

Common stock investments, Nonredeemable preferred stock and Corporate debt securities – The unobservable inputs used in the fair value measurement of direct private equity common stock investments, certain corporate debt securities and certain nonredeemable preferred securities are comparable private transaction earnings before interest, taxes, depreciation and amortization (“EBITDA”) multiples, the average EBITDA multiple for comparable publicly traded companies and the amount of discount applied to the price due to the illiquidity of the securities being valued. Significant changes in any of those inputs in isolation could result in a significantly higher or lower fair value measurement.

These amounts are reported in the Consolidated Statement of Operations. There is \$2 million of earnings included (1) in net realized investment gains (losses) and \$1 million of earnings included in equity in earnings of limited partnerships for the three months ended March 31, 2012 on Level 3 securities.

Transfers in and out of Level 3 are attributable to changes in the availability of market observable information for (2) individual securities within the respective categories. Transfers in and out of levels are recognized at the start of the period.

The other investments reported as Level 3 assets represent four real estate funds which were previously presented (3) with our limited partnerships reported under the equity method of accounting and therefore were not included in our fair value measurements table. This table has been adjusted to reflect the appropriate fair value of these assets during the first quarter of 2012.

We review the fair value hierarchy classifications each reporting period. Transfers between hierarchy levels may occur due to changes in the available market observable inputs. Transfers in and out of level classifications are reported as having occurred at the beginning of the quarter in which the transfers occurred.

For Indemnity, there were no transfers between Levels 1 and 2 for the three months ended March 31, 2012. Level 2 to Level 3 transfers totaled \$1 million related to one fixed maturity holding, primarily as the result of using non-binding broker quotes to determine the fair value at March 31, 2012, and there were no Level 3 to Level 2 transfers.

For the Exchange, there were no transfers between Levels 1 and 2 for the three months ended March 31, 2012. Level 2 to Level 3 transfers totaled \$16 million related to five fixed maturity holdings, primarily as the result of using non-binding broker quotes to determine the fair value at March 31, 2012, and there were no Level 3 to Level 2 transfers.

Total – Erie Insurance Group	\$12,098	\$3,231	\$8,636	\$231

(1)

All broker quotes obtained for securities were non-binding. When a non-binding broker quote was the only price available, the security was classified as Level 3.

Other investments measured at fair value represent four real estate funds included on the balance sheet as limited (2) partnership investments that are reported under the fair value option. The fair value of these investments is based on the net asset value (NAV) information provided by the general partner.

There were no assets measured at fair value on a nonrecurring basis during the three months ended March 31, 2013.

The amortized cost and estimated fair value of fixed maturities at March 31, 2013 are shown below by remaining contractual term to maturity. Mortgage-backed securities are allocated based upon their stated maturity dates. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

The above securities for Indemnity and the Exchange have been evaluated and determined to be temporary impairments for which we expect to recover our entire principal plus interest. The primary components of this analysis include a general review of market conditions and financial performance of the issuer along with the extent and duration at which fair value is less than cost. Any debt securities that we intend to sell or will more likely than not be required to sell before recovery are included in other-than-temporary impairments with the impairment charges recognized in earnings.

(1) The fair value on our common stock portfolio is based upon exchange traded prices provided by a nationally recognized pricing service.

Table of Contents

There were no impairment losses for Indemnity in the first quarter of 2013 and 2012. The Exchange recorded impairment losses of \$0.4 million in the first quarter of 2013, compared to \$0.1 million for the first quarter of 2012.

In considering if fixed maturity securities were credit-impaired, some of the factors considered include: potential for the default of interest and/or principal, level of subordination, collateral of the issue, compliance with financial covenants, credit ratings and industry conditions. We have the intent to sell all credit-impaired fixed maturity securities, therefore the entire amount of the impairment charges were included in earnings and no non-credit impairments were recognized in other comprehensive income.

Limited partnerships

Limited partnership investments, excluding certain real estate limited partnerships recorded at fair value, are generally reported on a one-quarter lag, therefore our year-to-date limited partnership results through March 31, 2013 are comprised of partnership financial results for the fourth quarter of 2012. Given the lag in reporting, our limited partnership results do not reflect the market conditions of the first quarter of 2013. Cash contributions made to and distributions received from the partnerships are recorded in the period in which the transaction occurs.

We have provided summarized financial information in the following table for the three months ended March 31, 2013 and for the year ended December 31, 2012. Amounts provided in the table are presented using the latest available financial statements received from the partnerships. Limited partnership financial information has been presented based upon the investment percentage in the partnerships for the Erie Insurance Group consistent with how management evaluates the investments.

Table of Contents

As these investments are generally reported on a one-quarter lag, our limited partnership results through March 31, 2013 include partnership financial results for the fourth quarter of 2012.

<b>Total limited partnerships – Erie Insurance Group</b>		<b>\$1,217</b>	<b>\$32</b>	<b>\$99</b>

Per the limited partnership financial statements, total partnership assets were \$53 billion and total partnership liabilities were \$6 billion at December 31, 2012 (as recorded in the September 30, 2012 limited partnership financial statements). For the twelve month period comparable to that presented in the preceding table (fourth quarter of 2011 and first three quarters of 2012), total partnership valuation adjustment gains were \$2 billion and total partnership net income was \$5 billion.

See also Note 14. "Commitments and Contingencies," for investment commitments related to limited partnerships.

Table of Contents

## Note 8. Bank Line of Credit

As of March 31, 2013, Indemnity has available a \$100 million bank revolving line of credit that expires on November 3, 2016. There were no borrowings outstanding on the line of credit as of March 31, 2013. Bonds with a fair value of \$110 million were pledged as collateral on the line at March 31, 2013.

As of March 31, 2013, the Exchange has available a \$300 million bank revolving line of credit that expires on October 28, 2016. There were no borrowings outstanding on the line of credit as of March 31, 2013. Bonds with a fair value of \$326 million were pledged as collateral on the line at March 31, 2013.

Securities pledged as collateral on both lines have no trading restrictions and are reported as available-for-sale fixed maturities in the Consolidated Statements of Financial Position as of March 31, 2013. The banks require compliance with certain covenants, which include minimum net worth and leverage ratios for Indemnity's line of credit and statutory surplus and risk based capital ratios for the Exchange's line of credit. We are in compliance with all covenants at March 31, 2013.

## Note 9. Income Taxes

Deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been included in the financial statements or tax returns. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

At March 31, 2013, we recorded a net deferred tax liability of \$371 million on our Consolidated Statements of Financial Position. Of this amount, \$39 million is a net deferred tax asset attributable to Indemnity and \$410 million is a net deferred tax liability attributable to the Exchange. There was no deferred tax valuation allowance recorded at March 31, 2013. Our effective tax rate is calculated after consideration of permanent differences related to our investment revenues. Given that these amounts represent over 98% of the total permanent differences, the effective tax rate is approximately 35% for both Indemnity and the Exchange when the investment related permanent differences are excluded.

## Note 10. Postretirement Benefits

The liabilities for the postretirement plans described in this note are presented in total for all employees of the Erie Insurance Group. The gross liability for postretirement benefits is presented in the Consolidated Statements of Financial Position as part of other liabilities. A portion of annual expenses related to our postretirement benefit plans is allocated to related entities within the Erie Insurance Group.

We offer a noncontributory defined benefit pension plan that covers substantially all employees. This is the largest postretirement benefit plan we offer. We also offer an unfunded supplemental employee retirement plan ("SERP") for certain members of executive and senior management of the Erie Insurance Group.

The cost of our pension plans are as follows:

(in millions)	Erie Insurance Group	
	Three months ended March 31, 2013	2012
Service cost for benefits earned	\$7	\$5

Edgar Filing: ERIE INDEMNITY CO - Form 10-Q

## Note 11. Indemnity Capital Stock

## Class A and B common stock

Holders of Class B shares may, at their option, convert their shares into Class A shares at the rate of 2,400 Class A shares per Class B share. There were no share conversions in the first quarter of 2013. In the first quarter of 2012, two shares of Class B common stock were converted into 4,800 shares of Class A common stock. There is no provision for conversion of Class A shares to Class B shares, and, Class B shares surrendered for conversion cannot be reissued.

## Stock repurchase program

In October 2011, our Board of Directors approved a continuation of the current stock repurchase program for a total of \$150 million, with no time limitation. Indemnity had approximately \$55 million of repurchase authority remaining under this program at March 31, 2013.

## Note 12. Indemnity Accumulated Other Comprehensive Loss

Changes in Indemnity's accumulated other comprehensive loss by component attributable to the Indemnity shareholder interest is presented as follows for the three months ended March 31, 2013:

(in millions)	Indemnity Shareholder Interest		
	Unrealized holding gains (losses) on available-for-sale securities	Postretirement plans <sup>(2)</sup>	Total
Balance at December 31, 2012	\$13	\$(146)	\$(133)

Class A \$0.5925 per share	(28	) —	(28
Class B \$88.875 per share	0	—	0
Balance at March 31, 2013	\$636	\$6,381	\$7,017

## Note 14. Commitments and Contingencies

Indemnity has contractual commitments to invest up to \$36 million related to its limited partnership investments at March 31, 2013. These commitments are split between private equity securities of \$13 million, mezzanine debt securities of \$10 million, and real estate activities of \$13 million. These commitments will be funded as required by the partnership agreements.

The Exchange, including EFL, has contractual commitments to invest up to \$374 million related to its limited partnership investments at March 31, 2013. These commitments are split between private equity securities of \$143 million, mezzanine debt securities of \$145 million, and real estate activities of \$86 million. These commitments will be funded as required by the partnership agreements.

We are involved in litigation arising in the ordinary course of conducting business. In accordance with current accounting standards for loss contingencies and based upon information currently known to us, we establish reserves for litigation when it is probable that a loss associated with a claim or proceeding has been incurred and the amount of the loss or range of loss can be reasonably estimated. When no amount within the range of loss is a better estimate than any other amount, we accrue the minimum amount of the estimable loss. To the extent that such litigation against us may have an exposure to a loss in excess of the amount we have accrued, we believe that such excess would not be material to our consolidated financial condition, operations or cash flows. Legal fees are expensed as incurred.

We believe that our accruals for legal proceedings are appropriate and, individually and in the aggregate, are not expected to be material to our consolidated financial condition, operations or cash flows.

We review all litigation on an ongoing basis when making accrual and disclosure decisions. For certain legal proceedings, we cannot reasonably estimate losses or a range of loss, if any, particularly for proceedings that are in their early stages of development or where the plaintiffs seek indeterminate damages. Various factors, including, but not limited to, the outcome of potentially lengthy discovery and the resolution of important factual questions, may need to be determined before probability can be established or before a loss or range of loss can be reasonably estimated. If the loss contingency in question is not both probable and reasonably estimable, we do not establish an accrual and the matter will continue to be monitored for any developments that would make the loss contingency both probable and reasonably estimable. In the event that a legal proceeding results in a substantial judgment against, or settlement by, us, there can be no assurance that any resulting liability or financial commitment would not have a material adverse effect on the financial condition, results of operations or cash flows of the Indemnity shareholder interest or the consolidated financial statements of Erie Indemnity Company.

Table of Contents

We are subject to escheatment laws and regulations requiring the identification, reporting and payment to the state of unclaimed or abandoned funds of our policyholders, annuitants, claimants and shareholders. We are also subject to audit and examination for compliance with these requirements.

In August 2012, we were notified that we will be subject to an audit of our compliance with the unclaimed property laws of a number of jurisdictions both within and outside our operating territory. Additionally, EFL has been named in a lawsuit filed by the State Treasurer of West Virginia. The Complaint alleges that EFL has failed to comply with the West Virginia Uniform Unclaimed Property Act.

It is probable that ongoing inquiries, audits, and other regulatory activity will result in the payment of additional death claims and escheatment of funds, as well as possible fines. EFL will incur expenses to identify death claims, confirm that benefits are due and notify the beneficiaries. At this time, we are not able to reasonably estimate the possible loss or range of loss related to this issue due to the early stage of development.

Receivables from the Exchange and EFL and concentrations of credit risk – Financial instruments could potentially expose Indemnity to concentrations of credit risk, including unsecured receivables from the Exchange. A majority of Indemnity's revenue and receivables are from the Exchange and affiliates. See also Note 4, "Variable Interest Entity."

Management fees and expense allocation amounts due from the Exchange were \$283 million and \$278 million at March 31, 2013 and December 31, 2012, respectively. The receivable from EFL for expense allocations and interest on the surplus note totaled \$4 million and \$3 million at March 31, 2013 and December 31, 2012, respectively.

Note receivable from EFL – Indemnity is due \$25 million from EFL in the form of a surplus note that was issued in 2003. The note may be repaid only out of unassigned surplus of EFL. Both principal and interest payments are subject to prior approval by the Pennsylvania Insurance Commissioner. The note bears an annual interest rate of 6.7% and will be payable on demand on or after December 31, 2018, with interest scheduled to be paid semi-annually, subject to prior approval by the Pennsylvania Insurance Commissioner. For both of the three month periods ended March 31, 2013 and 2012, Indemnity recognized interest income on the note of \$0.4 million.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of financial condition and results of operations highlights significant factors influencing the Erie Insurance Group ("we," "us," "our"). This discussion should be read in conjunction with the historical financial statements and the related notes thereto included in Item 1. "Financial Statements" of this Quarterly Report on Form 10-Q, and with Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" for the year ended December 31, 2012, as contained in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 26, 2013.

## CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995:

Statements contained herein that are not historical fact are forward-looking statements and, as such, are subject to risks and uncertainties that could cause actual events and results to differ, perhaps materially, from those discussed herein. Forward-looking statements relate to future trends, events or results and include, without limitation, statements and assumptions on which such statements are based that are related to our plans, strategies, objectives, expectations, intentions and adequacy of resources. Examples of forward-looking statements are discussions relating to premium and investment income, expenses, operating results, agency relationships, and compliance with contractual and regulatory requirements. Forward-looking statements are not guarantees of future performance and involve risks and uncertainties that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. Among the risks and uncertainties, in addition to those set forth in our filings with the Securities and Exchange Commission, that could cause actual results and future events to differ from those set forth or contemplated in the forward-looking statements include the following:

Risk factors related to the Erie Indemnity Company ("Indemnity") shareholder interest:

- dependence upon Indemnity's relationship with the Exchange and the management fee under the agreement with the subscribers at the Exchange;

- costs of providing services to the Exchange under the subscriber's agreement;
- ability to attract and retain talented management and employees;
- ability to maintain uninterrupted business operations, including information technology systems;
- factors affecting the quality and liquidity of Indemnity's investment portfolio;
- credit risk from the Exchange;
- Indemnity's ability to meet liquidity needs and access capital; and
- outcome of pending and potential litigation against Indemnity.

Table of Contents

Risk factors related to the non-controlling interest owned by the Erie Insurance Exchange (“Exchange”), which includes the Property and Casualty Group and Erie Family Life Insurance Company:

- general business and economic conditions;
- dependence upon the independent agency system;
  - ability to maintain our reputation for customer service;
- factors affecting insurance industry competition;
- changes in government regulation of the insurance industry;
- premium rates and reserves must be established from forecasts of ultimate costs;
- emerging claims, coverage issues in the industry, and changes in reserve estimates related to the property and casualty business;
- changes in reserve estimates related to the life business;
- severe weather conditions or other catastrophic losses, including terrorism;
- the Exchange’s ability to acquire reinsurance coverage and collectability from reinsurers;
- factors affecting the quality and liquidity of the Exchange’s investment portfolio;
- the Exchange’s ability to meet liquidity needs and access capital;
- the Exchange’s ability to maintain an acceptable financial strength rating;
- outcome of pending and potential litigation against the Exchange; and
- dependence upon the service provided by Indemnity.

A forward-looking statement speaks only as of the date on which it is made and reflects our analysis only as of that date. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, changes in assumptions, or otherwise.

**RECENT ACCOUNTING PRONOUNCEMENTS**

See Item 1. “Financial Statements - Note 2. Significant Accounting Policies,” contained within this report for a discussion of adopted and/or pending accounting pronouncements, none of which are expected to have a material impact on our future financial condition, results of operations or cash flows.

OPERATING OVERVIEW

Overview

The Erie Insurance Group represents the consolidated results of Indemnity and the results of its variable interest entity, the Exchange. The Erie Insurance Group operates predominantly as a property and casualty insurer through its regional insurance carriers that write a broad range of personal and commercial coverages. Our property and casualty insurance companies include the Exchange and its wholly owned subsidiaries, Erie Insurance Company (“EIC”), Erie Insurance Company of New York (“ENY”), Erie Insurance Property and Casualty Company (“EPC”), and Flagship City Insurance Company (“Flagship”). These entities operate collectively as the “Property and Casualty Group.” The Erie Insurance Group also operates as a life insurer through the Exchange’s wholly owned subsidiary, Erie Family Life Insurance Company (“EFL”), which underwrites and sells individual and group life insurance policies and fixed annuities.

The Exchange is a reciprocal insurance exchange organized under Article X of Pennsylvania's Insurance Company Law of 1921 under which individuals, partnerships and corporations are authorized to exchange reciprocal or inter-insurance contracts with each other, or with individuals, partnerships, and corporations of other states and countries, providing indemnity among themselves from any loss which may be insured against under any provision of the insurance laws except life insurance. Each applicant for insurance to the Exchange signs a subscriber’s agreement, which contains an appointment of Indemnity as their attorney-in-fact to transact the business of the Exchange on their behalf.

Pursuant to the subscriber’s agreement and for its services as attorney-in-fact, Indemnity earns a management fee calculated as a percentage of the direct premiums written by the Exchange and the other members of the Property and Casualty Group, which are assumed by the Exchange under an intercompany pooling arrangement.

The Indemnity shareholder interest includes Indemnity’s equity and income, but not the equity or income of the Exchange. The Exchange’s equity, which is comprised of its retained earnings and accumulated other comprehensive income, is held for the interest of its subscribers (policyholders) and meets the definition of a noncontrolling interest, which is reflected as such in our consolidated financial statements.

“Indemnity shareholder interest” refers to the interest in Erie Indemnity Company owned by the Class A and Class B shareholders. “Noncontrolling interest” refers to the interest in the Erie Insurance Exchange held for the interest of the subscribers (policyholders).

The Indemnity shareholder interest in income comprises:

- a management fee of up to 25% of all property and casualty insurance premiums written or assumed by the Exchange, less the costs associated with the sales, underwriting and issuance of these policies;
- net investment income and results on investments that belong to Indemnity; and
- other income and expenses, including income taxes, that are the responsibility of Indemnity.

The Exchange’s or the noncontrolling interest in income comprises:

- 100% interest in the net underwriting results of the property and casualty insurance operations;
- 100% interest in the net earnings of EFL's life insurance operations;

net investment income and results on investments that belong to the Exchange and its subsidiaries; and  
other income and expenses, including income taxes, that are the responsibility of the Exchange and its subsidiaries.

Net income	\$ 37	\$ 36	\$ 253	\$ 318	\$—	\$—		\$ 290	\$ 354

Earnings on life insurance related invested assets are integral to the evaluation of the life insurance operations because of the long duration of life products. On that basis, for presentation purposes, the life insurance operations (1) in the table above include life insurance related investment results. However, the life insurance investment results are included in the investment operations segment discussion as part of the Exchange's investment results.

Net income in the first quarter of 2013 was primarily impacted by increased losses from our property and casualty insurance operations and lower earnings from our investment operations, compared to the first quarter of 2012. The Exchange's property and casualty insurance operations experienced an 8.2% increase in earned premium, driven by increases in policies in force and the average premium per policy. Losses from the Exchange's property and casualty insurance operations increased as the first quarter of 2012 experienced a lower volume of non-catastrophe weather related claims resulting from mild winter weather, combined with the first quarter of 2013 experiencing slightly adverse development on prior accident year loss reserves, compared to favorable development in the first quarter of 2012. Our investment operations generated lower levels of net realized gains on investments, offset somewhat by increased equity in earnings of limited partnerships, compared to the first quarter of 2012.

Table of Contents

## Reconciliation of Operating Income to Net Income (Unaudited)

We disclose operating income, a non-GAAP financial measure, to enhance our investors' understanding of our performance related to the Indemnity shareholder interest. Our method of calculating this measure may differ from those used by other companies, and therefore comparability may be limited.

Indemnity defines operating income as net income excluding realized capital gains and losses, impairment losses and related federal income taxes.

Indemnity uses operating income to evaluate the results of its operations. It reveals trends that may be obscured by the net effects of realized capital gains and losses including impairment losses. Realized capital gains and losses, including impairment losses, may vary significantly between periods and are generally driven by business decisions and economic developments such as capital market conditions which are not related to our ongoing operations. We are aware that the price to earnings multiple commonly used by investors as a forward-looking valuation technique uses operating income as the denominator. Operating income should not be considered as a substitute for net income prepared in accordance with U.S. generally accepted accounting principles ("GAAP") and does not reflect Indemnity's overall profitability.

The following table reconciles operating income and net income for the Indemnity shareholder interest:

(in millions, except per share data)	Indemnity Shareholder Interest	
	Three months ended March 31,	
	2013	2012
	(Unaudited)	
Operating income attributable to Indemnity	\$37	\$34
Net realized gains and impairments on investments	0	3
Income tax expense	0	(1 )
Realized gains and impairments, net of income taxes	0	2
Net income attributable to Indemnity	\$37	\$36
Per Indemnity Class A common share-diluted:		
Operating income attributable to Indemnity	\$0.69	\$0.64
Net realized gains and impairments on investments	0.00	0.05
Income tax expense	0.00	(0.02 )
Realized gains and impairments, net of income taxes	0.00	0.03
Net income attributable to Indemnity	\$0.69	\$0.67

## Summary of Results – Indemnity Shareholder Interest

## Three months ended March 31, 2013

Net income attributable to Indemnity per share-diluted was \$0.69 per share in the first quarter of 2013, compared to \$0.67 per share in the first quarter of 2012.

Operating income attributable to Indemnity per share-diluted (excluding net realized gains or losses, impairments on investments and related taxes) was \$0.69 per share in the first quarter of 2013, compared to \$0.64 per share in the first quarter of 2012.

## Table of Contents

### Operating Segments

Our reportable segments include management operations, property and casualty insurance operations, life insurance operations and investment operations.

### Management operations

Management operations generate internal management fee revenue, which accrues to the Indemnity shareholder interest, as Indemnity provides services relating to the sales, underwriting and issuance of policies on behalf of the Exchange. Management fee revenue is based upon all premiums written or assumed by the Exchange and the management fee rate, which is not to exceed 25%. Our Board of Directors establishes the management fee rate at least annually, generally in December for the following year, and considers factors such as the relative financial strength of Indemnity and the Exchange and projected revenue streams. The management fee rate was set at 25% for both 2013 and 2012. Management fee revenue is eliminated upon consolidation.

### Property and casualty insurance operations

The property and casualty insurance business is driven by premium growth, the combined ratio and investment returns. The property and casualty insurance industry is cyclical, with periods of rising premium rates and shortages of underwriting capacity followed by periods of substantial price competition and excess capacity. The cyclical nature of the insurance industry has a direct impact on the direct written premium of the Property and Casualty Group.

The property and casualty insurance operation's premium growth strategy focuses on growth by expansion of existing operations including a careful agency selection process and increased market penetration in existing operating territories. Expanding the size of our existing agency force of nearly 2,200 independent agencies, with almost 10,400 licensed property and casualty representatives, will contribute to future growth as new agents build their books of business with the Property and Casualty Group.

The property and casualty insurance operations insure preferred and standard risks while maintaining a disciplined underwriting approach. Based upon direct written premium in 2012, 45% of our premiums were derived from personal auto, 26% from homeowners and 29% from commercial lines. Pennsylvania, Maryland and Virginia made up 62% of the property and casualty lines insurance business 2012 direct written premium.

Members of the Property and Casualty Group pool their underwriting results under an intercompany pooling agreement. Under the pooling agreement, the Exchange retains a 94.5% interest in the net underwriting results of the Property and Casualty Group, while EIC retains a 5.0% interest and ENY retains a 0.5% interest.

The key measure of underwriting profitability traditionally used in the property and casualty insurance industry is the combined ratio, which is expressed as a percentage. It is the sum of the ratio of losses and loss expenses to premiums earned (loss ratio) plus the ratio of policy acquisition and other underwriting expenses to premiums earned (expense ratio). When the combined ratio is less than 100%, underwriting results are generally considered profitable; when the combined ratio is greater than 100%, underwriting results are generally considered unprofitable.

Factors affecting losses and loss expenses include the frequency and severity of losses, the nature and severity of catastrophic losses, the quality of risks underwritten and underlying claims and settlement expenses.

Investments held by the Property and Casualty Group are reported in the investment operations segment, separate from the underwriting business.

### Life insurance operations

EFL generates revenues through the sale of its individual and group life insurance policies and fixed annuities. These products provide our property and casualty agency force an opportunity to cross-sell both personal and commercial

accounts. EFL's profitability depends principally on the ability to develop, price and distribute insurance products, attract and retain deposit funds, generate investment returns and manage expenses. Other drivers include mortality and morbidity experience, persistency experience to enable the recovery of acquisition costs, maintenance of interest spreads over the amounts credited to deposit funds and the maintenance of strong ratings from rating agencies.

Earnings on life insurance related invested assets are integral to the evaluation of the life insurance operations because of the long duration of life products. On that basis, for presentation purposes, the life insurance operations segment discussion includes the life insurance related investment results. However, also for presentation purposes, the segment footnote and the investment operations segment discussion also include the life insurance investment results as part of the Exchange's investment results.

Table of Contents

Investment operations

We generate revenues from our fixed maturity, equity security and limited partnership investment portfolios to support our underwriting business. The portfolios are managed with the objective of maximizing after-tax returns on a risk-adjusted basis. Management actively evaluates the portfolios for impairments. We record impairment writedowns on investments in instances where the fair value of the investment is substantially below cost, and we conclude that the decline in fair value is other-than-temporary.

Earnings from our investment operations decreased modestly in the first quarter of 2013, compared to the first quarter of 2012, but results in both periods reflected favorable market conditions. Net realized gains totaled \$249 million in the first quarter of 2013, compared to gains of \$296 million in the prior year quarter, primarily reflecting strong performance from our common stock portfolio during both periods. Net investment income totaled \$103 million in the first quarter of 2013, compared to \$108 million in the first quarter of 2012. Equity in earnings of limited partnerships was \$36 million in the first quarter of 2013, compared to \$21 million in the first quarter of 2012. The results from our limited partnerships are based upon financial statements received from our general partners, which are generally received on a quarter lag. As a result, our first quarter 2013 partnership earnings reflect the market conditions experienced in the fourth quarter of 2012 and not in the first quarter of 2013.

General Conditions and Trends Affecting Our Business

Economic conditions

Unfavorable changes in economic conditions, including declining consumer confidence, inflation, high unemployment and the threat of recession, among others, may lead the Property and Casualty Group's customers to modify coverage, not renew policies, or even cancel policies, which could adversely affect the premium revenue of the Property and Casualty Group, and consequently Indemnity's management fee. These conditions could also impair the ability of customers to pay premiums when due, and as a result, the Property and Casualty Group's bad debt write-offs could increase. Our key challenge is to generate profitable revenue growth in a highly competitive market that continues to experience the effects of uncertain economic conditions.

Financial market volatility

Our portfolio of fixed income, preferred and common stocks, and limited partnerships are subject to market volatility especially in periods of instability in the worldwide financial markets. Over time, net investment income could also be impacted by volatility and by the general level of interest rates, which impact reinvested cash flow from the portfolio and business operations. Depending upon market conditions, which are unpredictable and remain uncertain, considerable fluctuation could exist in our reported total investment income, which could have an adverse impact on our financial condition, results of operations and cash flows.

Table of Contents

## RESULTS OF OPERATIONS

The information that follows is presented on a segment basis prior to eliminations.

## Management Operations

Management fee revenue is earned by Indemnity from services relating to the sales, underwriting and issuance of policies on behalf of the Exchange as a result of its attorney-in-fact relationship, and is eliminated upon consolidation. A summary of the results of our management operations is as follows:

(dollars in millions)	Indemnity Shareholder Interest Three months ended March 31, 2013      2012      % Change (Unaudited)		
	Management fee revenue, net	\$296	\$269
Service agreement revenue	7	7	(0.9 )
Total revenue from management operations	303	276	9.8
Cost of management operations	254	230	10.8
Income from management operations – Indemnity <sup>(1)</sup>	\$49	\$46	5.0 %
Gross margin	16.1	% 16.8	% (0.7 ) pts.

(1) The Indemnity shareholder interest retains 100% of the income from the management operations.

## Management fee revenue

Management fee revenue is based upon all premiums written or assumed by the Exchange and the management fee rate, which is determined by our Board of Directors at least annually. Management fee revenue is calculated by multiplying the management fee rate by the direct premiums written by the Exchange and the other members of the Property and Casualty Group, which are assumed by the Exchange under an intercompany pooling agreement. The following table presents the calculation of management fee revenue:

(dollars in millions)	Indemnity Shareholder Interest Three months ended March 31, 2013      2012      % Change (Unaudited)		
	Property and Casualty Group direct written premium	\$1,187	\$1,078
Management fee rate	25	% 25	%
Management fee revenue, gross	297	270	10.1
Change in allowance for management fee returned on cancelled policies <sup>(1)</sup>	(1 )	(1 )	NM
Management fee revenue, net of allowance	\$296	\$269	10.2 %

NM = not meaningful

(1) Management fees are returned to the Exchange when policies are cancelled mid-term and unearned premiums are refunded. We record an estimated allowance for management fees returned on mid-term policy cancellations.

Direct written premium of the Property and Casualty Group increased 10.1% in the first quarter of 2013, compared to the first quarter of 2012, due to a 4.3% increase in policies in force and a 4.7% increase in the year-over-year average premium per policy for all lines of business. The year-over-year policy retention ratio was 91.0% at March 31, 2013,

compared to 90.9% at December 31, 2012, and 90.7% at March 31, 2012. See the “Property and Casualty Insurance Operations” segment that follows for a complete discussion of property and casualty direct written premium, which has a direct bearing on Indemnity’s management fee.

The management fee rate was set at 25%, the maximum rate, for both 2013 and 2012. Changes in the management fee rate can affect the Indemnity shareholder interest's revenue and net income from this segment significantly.

Table of Contents

## Service agreement revenue

Service agreement revenue includes service charges Indemnity collects from policyholders for providing extended payment terms on policies written by the Property and Casualty Group and late payment and policy reinstatement fees. The service charges are fixed dollar amounts per billed installment. Service agreement revenue declined 0.9%, totaling \$7 million in both the first quarters of 2013 and 2012. The slight decrease in service agreement revenue resulted from a continued shift in policies to the monthly direct debit payment plan, which does not incur service charges, and the no-fee single payment plan, which offers a premium discount. The shift to these plans is driven by the consumers' desire to avoid paying service charges and to take advantage of the discount in pricing offered for paid-in-full policies.

## Cost of management operations

(in millions)	Indemnity Shareholder Interest Three months ended March 31, 2013      2012      % Change			
	(Unaudited)			
Commissions	\$164	\$149	10.2	%
Non-commission expense	90	81	12.0	
Total cost of management operations	\$254	\$230	10.8	%

Commissions – Commissions increased \$15 million in the first quarter of 2013, compared to the same respective period in 2012, primarily as a result of the 10.1% increase in direct written premium of the Property and Casualty Group.

Non-commission expense – Non-commission expense increased \$9 million in the first quarter of 2013, compared to the first quarter of 2012. Sales, policy issuance, advertising, and underwriting costs increased \$2 million. Personnel costs increased \$5 million as a result of a \$1 million increase in salaries, a \$2 million increase in pension and medical costs, and a \$2 million increase in the estimate for incentive plan compensation related to growth and underwriting performance. All other operating costs increased \$2 million, which included a \$1 million increase related to professional fees.

## Gross margin

The gross margin in the first quarter of 2013 was 16.1%, compared to 16.8% in the first quarter of 2012, as a result of expense increases outpacing revenue growth.

NM = not meaningful

(1) The Exchange retains 100% of the income from the property and casualty insurance operations.

We measure profit or loss from our property and casualty insurance segment based upon its underwriting results, which are represented by net premiums earned less losses and loss expenses and policy acquisition and other underwriting expenses on a pre-tax basis. The loss and loss expense ratio and combined ratio are key performance indicators that we use to assess business trends and to make comparisons to industry results. The investment results related to our property and casualty insurance operations are included in our investment operations segment discussion.

## Premiums

Direct written premium – Direct written premium of the Property and Casualty Group increased 10.1% to \$1.2 billion in the first quarter of 2013, from \$1.1 billion in the first quarter of 2012, driven by an increase in policies in force and increases in average premium per policy. Year-over-year policies in force for all lines of business increased by 4.3%

in the first quarter of 2013 as the result of continuing strong policyholder retention and an increase in new policies written, compared to an increase of 2.6% in the first quarter of 2012. The year-over-year average premium per policy for all lines of business increased 4.7% at March 31, 2013, compared to 3.3% at March 31, 2012. The combined impact of these increases was seen primarily in our renewal and personal lines new business premiums.

Premiums generated from new business increased 17.3% to \$151 million in the first quarter of 2013, compared to an increase of 16.5% to \$129 million in the first quarter of 2012. Underlying the trend in new business premiums was a 14.6% increase in new business policies written in the first quarter of 2013, compared to 8.8% in the first quarter of 2012, while the year-over-year average premium per policy on new business increased 6.8% at March 31, 2013, compared to 5.9% at March 31, 2012.

Table of Contents

Premiums generated from renewal business increased 9.1% to \$1.0 billion in the first quarter of 2013, compared to an increase of 5.8% to \$949 million in the first quarter of 2012. Underlying the trend in renewal business premiums were increases in average premium per policy and steady policy retention trends. The renewal business year-over-year average premium per policy increased 4.5% at March 31, 2013, compared to 3.0% at March 31, 2012. The Property and Casualty Group's year-over-year policy retention ratio was 91.0% at March 31, 2013, 90.9% at December 31, 2012, and 90.7% at March 31, 2012.

Personal lines – Total personal lines premiums written increased 8.5% to \$810 million in the first quarter of 2013, from \$746 million in the first quarter of 2012, driven by an increase of 4.2% in the total personal lines policies in force and an increase of 3.7% in the total personal lines year-over-year average premium per policy.

New business premiums written on personal lines increased 20.4% in the first quarter of 2013, compared to 15.6% in the first quarter of 2012, driven by increases in new business policies written and average premium per policy. Personal lines new business policies written increased 16.9% in the first quarter of 2013, compared to 10.2% in the first quarter of 2012, while the year-over-year average premium per policy on personal lines new business increased 4.8% at March 31, 2013, compared to 4.7% at March 31, 2012.

Private passenger auto new business premiums written increased 18.5% in the first quarter of 2013, compared to 13.1% in the first quarter of 2012. New business policies written for private passenger auto increased 15.6% in the first quarter of 2013, compared to 9.1% in the first quarter of 2012, while the new business year-over-year average premium per policy for private passenger auto increased 3.6% at March 31, 2013, compared to 2.3% at March 31, 2012.

Homeowners new business premiums written increased 23.7% in the first quarter of 2013, compared to 20.9% in the first quarter of 2012. New business policies written for homeowners increased 17.4% in the first quarter of 2013, compared to 11.8% in the first quarter of 2012. The new business year-over-year average premium per policy for homeowners increased 9.7% at March 31, 2013, compared to 6.7% at March 31, 2012.

Renewal premiums written on personal lines increased 7.1% in the first quarter of 2013, compared to 5.2% in the first quarter of 2012, driven by increases in average premium per policy and steady policy retention trends. The year-over-year average premium per policy on personal lines renewal business increased 3.7% at March 31, 2013, compared to 2.2% at March 31, 2012. The personal lines year-over-year policy retention ratio was 91.6% at March 31, 2013 and December 31, 2012, and 91.4% at March 31, 2012.

Private passenger auto renewal premiums written increased 4.3% in the first quarter of 2013, compared to 2.7% in the first quarter of 2012. The year-over-year average premium per policy on private passenger auto renewal business increased 1.2% at March 31, 2013, compared to 0.3% at March 31, 2012. The private passenger auto year-over-year policy retention ratio was 92.2% at March 31, 2013, 92.1% at December 31, 2012 and 91.7% at March 31, 2012.

Homeowners renewal premiums written increased 13.1% in the first quarter of 2013, compared to 11.2% in the first quarter of 2012. The year-over-year average premium per policy on homeowners renewal business increased 8.9% at March 31, 2013, compared to 7.4% at March 31, 2012. The homeowners year-over-year policyholder retention ratio was 90.8% at March 31, 2013, and 90.9% at December 31, 2012 and March 31, 2012.

Commercial lines – Total commercial lines premiums written increased 13.6% to \$377 million in the first quarter of 2013, from \$332 million in the first quarter of 2012, driven by a 4.9% increase in the total commercial lines policies in force and a 7.0% increase in the total commercial lines year-over-year average premium per policy.

New business premiums written on commercial lines increased 12.0% in the first quarter of 2013, compared to 18.3% in the first quarter of 2012, driven by increases in new business policies written and average premium per policy. The combined impact of these increases was seen primarily in the commercial multi-peril and commercial auto lines of business. Commercial lines new business policies written increased 5.2% in the first quarter of 2013, compared to 3.3% in the first quarter of 2012, while the year-over-year average premium per policy on commercial lines new business increased 15.6% at March 31, 2013, compared to 7.2% at March 31, 2012.

Renewal premiums for commercial lines increased 13.9% in the first quarter of 2013, compared to an increase of 7.0% in the first quarter of 2012, driven by increases in average premium per policy and steady policy retention trends. The combined impact of these increases was seen primarily in the commercial multi-peril and workers compensation lines of business. The year-over-year average premium per policy on commercial lines renewal business increased 5.5% at March 31, 2013, compared to 4.4% at March 31, 2012. The year-over-year policy retention ratio for commercial lines was 86.7% at March 31, 2013, 86.2% at December 31, 2012 and 85.9% at March 31, 2012.

Table of Contents

Future trends — premium revenue – We plan to continue our efforts to grow Property and Casualty Group premiums and improve our competitive position in the marketplace. Expanding the size of our agency force through a careful agency selection process and increased market penetration in our existing operating territories will contribute to future growth as existing and new agents build their books of business with the Property and Casualty Group. At March 31, 2013, we had nearly 2,200 agencies with almost 10,400 licensed property and casualty representatives.

Changes in premium levels attributable to the growth in policies in force and rate changes directly affect the profitability of the Property and Casualty Group and have a direct bearing on Indemnity's management fee. Our continued focus on underwriting discipline and the maturing of our pricing sophistication models have contributed to the Property and Casualty Group's growth in new policies in force and steady policy retention ratios.

## Losses and loss expenses

Current accident year, excluding catastrophe losses – The current accident year loss and loss expense ratio for all lines of business, excluding catastrophe losses, was 67.7% in the first quarter of 2013, compared to 64.2% in the first quarter of 2012. The lower ratio for the first quarter of 2012 was driven primarily by a lower volume of non-catastrophe weather related claims resulting from mild winter weather compared to the first quarter of 2013.

Current accident year catastrophe losses – Catastrophic events, destructive weather patterns, or changes in climate conditions are an inherent risk of the property and casualty insurance business and can have a material impact on our property and casualty insurance underwriting results. In addressing this risk, we employ what we believe are reasonable underwriting standards and monitor our exposure by geographic region. The Property and Casualty Group's definition of catastrophes includes those weather-related or other loss events that we consider significant to our geographic footprint which, individually or in the aggregate, may not reach the level of a national catastrophe as defined by the Property Claim Service ("PCS"). The Property and Casualty Group maintains property catastrophe reinsurance coverage from unaffiliated reinsurers to mitigate future potential catastrophe loss exposures and no longer participates in the voluntary assumed reinsurance business, which lowers the variability of the Property and Casualty Group's underwriting results.

Catastrophe losses for the current accident year, as defined by the Property and Casualty Group, totaled \$27 million in the first quarter of 2013, compared to \$25 million in the first quarter of 2012, and contributed 2.3 points to the loss ratios in both periods.

Prior accident years, including prior accident year catastrophe losses – The following table provides a breakout of our property and casualty insurance operation's prior year loss reserve development, including prior accident year catastrophe loss reserves, by type of business:

(in millions)	Property and Casualty Group Three months ended March 31, 2013                      2012 (Unaudited)	
Direct business, including reserves for catastrophe losses and salvage and subrogation	\$9	\$(20)
Assumed reinsurance business	(1)	) 3
Ceded reinsurance business	(1)	) (2)
Total prior year loss development	\$7	\$(19)

Negative amounts represent a redundancy (decrease in reserves), while positive amounts represent a deficiency (increase in reserves).

Direct business, including reserves for catastrophe losses and salvage and subrogation – In the first quarter of 2013, the Property and Casualty Group experienced adverse development on direct prior accident year loss reserves of \$9 million which contributed 0.8 points to the combined ratio, compared to favorable development of \$20 million in the first quarter of 2012 that improved the combined ratio by 1.8 points.

The adverse development in the first quarter of 2013 was primarily impacted by increased reserves related to two massive injury lifetime medical claims in the workers compensation line of business, offset by favorable development in the commercial multi-peril and homeowners lines of business resulting from better than expected severity trends on property claims. In the first quarter of 2012, the favorable development was primarily driven by better than expected trends on liability claims in the personal auto and homeowners lines of business and better than expected trends on liability and property claims in the commercial multi-peril line of business, offset somewhat by adverse development in the workers compensation line of business resulting from increased severity trends.

Table of Contents

Assumed reinsurance – The Property and Casualty Group experienced favorable development on prior accident year loss reserves for its assumed reinsurance business totaling \$1 million in the first quarter of 2013, compared to adverse development of \$3 million in the first quarter of 2012. The favorable development in the first three months of 2013 was due to less than anticipated growth in involuntary reinsurance, whereas the adverse development in the first three months of 2012 was due to growth in involuntary reinsurance.

Ceded reinsurance – The Property and Casualty Group’s ceded reinsurance reserve recoveries increased \$1 million the first quarter of 2013, compared to \$2 million in the first quarter of 2012. The increase in ceded recoveries is reflected as favorable loss development as it represents an increase in recoveries resulting from adverse development on our direct loss reserves. In the first three months of 2013, the increase in ceded recoveries was primarily due to adverse development in the commercial multi-peril and workers compensation lines of business, whereas the increase in the first three months of 2012 was primarily due to adverse development in our other commercial lines of business.

Policy acquisition and other underwriting expenses – Our policy acquisition and other underwriting expense ratio remained relatively flat, increasing only 0.1 points to 28.4% in the first quarter of 2013, compared to 28.3% in the first quarter of 2012. The management fee rate was 25% for the periods ending March 31, 2013 and 2012.

NM = not meaningful

(1) The Exchange retains 100% of the income from the life insurance operations.

## Policy revenue

Gross policy revenues increased 4.3% to \$29 million in the first quarter 2013, from \$28 million in the first quarter of 2012. EFL uses, and has used, a variety of reinsurance programs to reduce claims volatility and for other financial benefits. While the amount of risk that EFL retains can vary based upon the type of policy issued and the year it was issued, EFL generally does not retain more than \$1 million of risk on any individual life. Ceded reinsurance premiums totaled \$9 million in the first quarter of 2013, compared to \$10 million in the first quarter of 2012.

Premiums received on annuity and universal life products totaled \$21 million and \$20 million in the first quarters of 2013 and 2012, respectively. Of these amounts, annuity and universal life premiums, which are recorded as deposits and therefore not reflected in revenue on the Consolidated Statements of Operations, totaled \$16 million in both the first quarters of 2013 and 2012.

## Investment revenue

EFL's investment revenue in the first quarter of 2013 was primarily impacted by an increase in net realized gains on investments, as a result of having gains on the disposal of a previously impaired security and increased call activity, offset by a slight decrease in net investment income, compared to the first quarter of 2012. See the discussion of investments in the "Investment Operations" segment that follows for further information.

## Benefits and expenses

Total benefits and expenses increased slightly in the first quarter of 2013, impacted by a slight increase in benefits and other changes in policy reserves compared to the first quarter of 2012.

Table of Contents

## Investment Operations

The investment results related to our life insurance operations are included in the investment operations segment discussion as part of the Exchange's investment results. A summary of the results of our investment operations is as follows:

(in millions)	Erie Insurance Group		
	2013	2012	% Change
	Three months ended March 31, (Unaudited)		
Indemnity			
Net investment income	\$4	\$4	(9.4)%
Net realized gains on investments	0	3	(98.5)%
Net impairment losses recognized in earnings	0	0	NM
Equity in earnings of limited partnerships	3	1	NM
Net revenue from investment operations – Indemnity	\$7	\$8	(20.5)%
Exchange			
Net investment income	\$102	\$107	(4.4)%
Net realized gains on investments	249	293	(15.0)%
Net impairment losses recognized in earnings	0	0	NM
Equity in earnings of limited partnerships	33	20	65.8%
Net revenue from investment operations – Exchange <sup>(1)</sup>	\$384	\$420	(8.6)%

NM = not meaningful

- (1) The Exchange's investment results for the first quarter of 2013 and 2012 include net investment revenues from EFL's operations of \$26 million and \$24 million, respectively.

## Net investment income

Net investment income primarily includes interest and dividends on our fixed maturity and equity security portfolios net of investment expenses. Indemnity's net investment income was unchanged in the first quarter of 2013, compared to the first quarter of 2012, while the Exchange's net investment income decreased \$5 million during the same period. The decrease in net investment income for the Exchange in the first quarter of 2013 was due to lower investment yields, which more than offset higher invested balances.

## Net realized gains on investments

Net realized gains and losses on investments include the changes in fair value of common stocks designated as trading securities, and gains and losses resulting from the actual sales of all security categories. Indemnity generated net realized gains of less than \$0.1 million in the first quarter of 2013, compared to gains of \$3 million in the first quarter of 2012, while the Exchange generated net realized gains of \$249 million, compared to gains of \$293 million during the same periods. Net realized gains for the Exchange decreased in the first quarter of 2013 primarily due to lower increases in fair value on common stocks compared to the same period in 2012. Indemnity recorded no changes in fair value on common stock in the first quarter of 2013 due to the sale of its common stock portfolio classified as trading securities in the fourth quarter of 2012.

## Net impairment losses recognized in earnings

There were no net impairment losses recorded in earnings for Indemnity for the first quarter of 2013 and 2012. Net impairment losses for the Exchange were \$0.4 million in the first quarter of 2013, compared to net impairment losses of \$0.1 million in the first quarter of 2012.

## Equity in earnings of limited partnerships

Indemnity's equity in earnings of limited partnerships increased \$2 million in the first quarter of 2013, compared to the first quarter of 2012, while the Exchange's equity in earnings of limited partnerships increased \$13 million during the same period. The increase in earnings for both Indemnity and the Exchange during the first quarter of 2013 was primarily due to higher earnings from real estate investments which were partially offset by lower earnings from private equity and mezzanine debt.

Table of Contents

A breakdown of our net realized gains (losses) on investments is as follows:

(in millions)	Erie Insurance Group	
	Three months ended March 31, 2013	2012
	(Unaudited)	
Indemnity		
Securities sold:		
Fixed maturities	\$0	\$0
Preferred stock equity securities	0	0
Common stock equity securities	0	1
Common stock increases in fair value <sup>(1)</sup>	0	2
Total net realized gains – Indemnity <sup>(2)</sup>	\$0	\$3
Exchange		
Securities sold:		
Fixed maturities	\$13	\$6
Preferred stock equity securities	2	1
Common stock equity securities	90	29
Common stock increases in fair value <sup>(1)</sup>	144	257
Total net realized gains – Exchange <sup>(2)</sup> <sup>(3)</sup>	\$249	\$293

(1) The fair value on our common stock portfolio is based upon exchange traded prices provided by a nationally recognized pricing service.

(2) See Item 1. “Financial Statements – Note 7. Investments,” contained within this report for additional disclosures regarding net realized gains (losses) on investments.

(3) The Exchange’s results for the first quarter of 2013 and 2012 include net realized gains from EFL’s operations of \$3 million and \$0 million, respectively.

The components of equity in earnings (losses) of limited partnerships are as follows:

(in millions)	Erie Insurance Group		
	Three months ended March 31, 2013	2012	
	(Unaudited)		
Indemnity			
Private equity	\$(1	) \$1	
Mezzanine debt	1	2	
Real estate	3	(2	)
Total equity in earnings of limited partnerships – Indemnity	\$3	\$1	
Exchange			
Private equity	\$10	\$14	
Mezzanine debt	7	10	
Real estate	16	(4	)
Total equity in earnings of limited partnerships – Exchange <sup>(1)</sup>	\$33	\$20	

(1) The Exchange’s results include equity in earnings (losses) of limited partnerships from EFL of \$0.4 million for the first quarter of 2013 and (\$0.4) million for the first quarter of 2012.

Limited partnership earnings pertain to investments in U.S. and foreign private equity, mezzanine debt and real estate partnerships. Valuation adjustments are recorded to reflect the changes in fair value of the underlying investments held by the limited partnerships. These adjustments are recorded as a component of equity in earnings of limited partnerships in the Consolidated Statements of Operations.

Limited partnership earnings tend to be cyclical based upon market conditions, the age of the partnership, and the nature of the investments. Generally, limited partnership earnings are recorded on a quarter lag from financial statements we receive from our general partners. As a consequence, earnings from limited partnerships reported at March 31, 2013 reflect investment valuation changes resulting from the financial markets and the economy in the fourth quarter of 2012.

We continually review our investment portfolio to evaluate positions that might incur other-than-temporary declines in value. For all investment holdings, general economic conditions and/or conditions specifically affecting the underlying issuer or its industry, including downgrades by the major rating agencies, are considered in evaluating impairment in value. In addition to specific factors, other factors considered in our review of investment valuation are the length of time the fair value is below cost and the amount the fair value is below cost.

We individually analyze all positions with emphasis on those that have, in management's opinion, declined significantly below cost. In compliance with impairment guidance for debt securities, we perform further analysis to determine if a credit-related impairment has occurred. Some of the factors considered in determining whether a debt

security is credit impaired include potential for the default of interest and/or principal, level of subordination, collateral of the issue, compliance with financial covenants, credit ratings and industry conditions. We have the intent to sell all credit-impaired debt securities, therefore the entire amount of the impairment charges are included in earnings and no credit impairments are recorded in other comprehensive income. For available-for-sale equity securities, a charge is recorded in the Consolidated Statements of Operations for positions that have experienced other-than-temporary impairments due to credit quality or other factors. (See the "Investment Operations" section herein for further information.) Management believes its investment valuation philosophy and accounting practices result in appropriate and timely measurement of value and recognition of impairment.

Table of Contents

## Fixed maturities

Under our investment strategy, we maintain a fixed maturity portfolio that is of high quality and well diversified within each market sector. This investment strategy also achieves a balanced maturity schedule. Our fixed maturity portfolio is managed with the goal of achieving reasonable returns while limiting exposure to risk. Our municipal bond portfolio accounts for \$176 million, or 42%, of the total fixed maturity portfolio for Indemnity and \$1.3 billion, or 16%, of the fixed maturity portfolio for the Exchange at March 31, 2013. The overall credit rating of the municipal portfolio without consideration of the underlying insurance is AA.

Fixed maturities classified as available-for-sale are carried at fair value with unrealized gains and losses, net of deferred taxes, included in shareholders' equity. Indemnity's net unrealized gains on fixed maturities, net of deferred taxes, amounted to \$9 million at March 31, 2013, compared to \$10 million at December 31, 2012. At March 31, 2013, the Exchange had net unrealized gains on fixed maturities of \$422 million, compared to \$449 million at December 31, 2012.

The following table presents a breakdown of the fair value of our fixed maturities portfolio by sector and rating for Indemnity and the Exchange, respectively:

## Equity securities

Our equity securities consist of common stock and nonredeemable preferred stock. Investment characteristics of common stock and non-redeemable preferred stock differ from one another. Our nonredeemable preferred stock portfolio provides a source of current income that is competitive with investment-grade bonds.

The following table presents an analysis of the fair value of our preferred and common stock securities by sector for Indemnity and Exchange, respectively:

(in millions)	Erie Insurance Group			
	Fair value at:		December 31, 2012	
	March 31, 2013

Utilities	101	38	118	38
Total – Exchange	\$631	\$2,974	\$631	\$2,731

Includes certain exchange traded funds with underlying holdings of fixed maturity securities totaling \$26 million for Indemnity and \$312 million for the Exchange at March 31, 2013, and \$26 million for Indemnity and \$314 (1) million for the Exchange at December 31, 2012. These securities meet the criteria of a common stock under U.S. GAAP, and are included on the balance sheet as available-for-sale equity securities. Remaining common stock investments are classified as trading securities.

Equity securities classified as available-for-sale include preferred and certain common stock securities, and are carried at fair value on the Consolidated Statements of Financial Position with all changes in unrealized gains and losses reflected in other comprehensive income. At March 31, 2013, the unrealized gain on equity securities classified as available-for-sale, net of deferred taxes, amounted to \$1 million for Indemnity and \$56 million for the Exchange, compared to \$1 million for Indemnity and \$48 million for the Exchange at December 31, 2012.

Our common stocks classified as trading securities are measured at fair value with all changes in unrealized gains and losses reflected in the Consolidated Statements of Operations.

Table of Contents

## Limited partnerships

In the first quarter of 2013, investments in limited partnerships decreased modestly for Indemnity and the Exchange from the investment levels at December 31, 2012. Changes in partnership values are a function of contributions and distributions, adjusted for market value changes in the underlying investments. The decrease in limited partnership investments was due to net distributions received from the partnerships which were partially offset by partnership earnings. The results from our limited partnerships are based upon financial statements received from our general partners, which are generally received on a quarter lag. As a result, the market values and earnings recorded during the first quarter of 2013 reflect the partnership activity experienced in the fourth quarter of 2012.

The components of limited partnership investments are as follows:

(in millions)	Erie Insurance Group	
	At March 31, 2013 (Unaudited)	At December 31, 2012
Indemnity		
Private equity	\$68	\$73
Mezzanine debt	24	27
Real estate	75	80
Total limited partnerships – Indemnity	\$167	\$180
Exchange		
Private equity	\$476	\$482
Mezzanine debt	185	196
Real estate	343	359
Total limited partnerships – Exchange	\$1,004	\$1,037

Table of Contents

## Liabilities

## Property and casualty losses and loss expense reserves

Loss reserves are established to account for the estimated ultimate costs of losses and loss expenses for claims that have been reported but not yet settled and claims that have been incurred but not reported. While we exercise professional diligence to establish reserves at the end of each period that are fully reflective of the ultimate value of all claims incurred, these reserves are, by their nature, only estimates and cannot be established with absolute certainty.

The factors which may potentially cause the greatest variation between current reserve estimates and the actual future paid amounts include unforeseen changes in statutory or case law altering the amounts to be paid on existing claim obligations, new medical procedures and/or drugs with costs significantly different from those seen in the past, and claims patterns on current business that differ significantly from historical claims patterns.

Losses and loss expense reserves are presented on the Consolidated Statements of Financial Position on a gross basis. The following table represents the direct and assumed losses and loss expense reserves by major line of business for our property and casualty insurance operations. The reinsurance recoverable amount represents the related ceded amounts which results in the net liability attributable to the Property and Casualty Group.

(in millions)	Property and Casualty Group At March 31,      At December 2013                      31, 2012 (Unaudited)	
Gross reserve liability <sup>(1)</sup> :		
Personal auto	\$1,153	\$1,169
Automobile massive injury	350	351
Homeowners	311	299
Workers compensation	532	512
Workers compensation massive injury	101	99
Commercial auto	341	340
Commercial multi-peril	557	557
All other lines of business	178	166
Assumed reinsurance	105	105
Gross reserves	3,628	3,598
Reinsurance recoverable	153	154
Net reserve liability — Exchange	\$3,475	\$3,444

Loss reserves are set at full expected cost, except for workers compensation loss reserves which have been (1) discounted using an interest rate of 2.5%. This discounting reduced unpaid losses and loss expenses by \$83 million at March 31, 2013 and \$85 million at December 31, 2012.

The reserves that have the greatest potential for variation are the massive injury lifetime medical claim reserves. The Property and Casualty Group is currently reserving for 268 claimants requiring lifetime medical care, of which 110 involve massive injuries. The reserve carried by the Property and Casualty Group for the massive injury claimants, which includes automobile massive injury and workers compensation massive injury reserves, totaled \$306 million at March 31, 2013, which is net of \$145 million of anticipated reinsurance recoverables, compared to \$305 million at December 31, 2012, which is net of \$145 million of anticipated reinsurance recoverables.

## Life insurance reserves

EFL's primary commitment is its obligation to pay future policy benefits under the terms of its life insurance and annuity contracts. To meet these future obligations, EFL establishes life insurance reserves based upon the type of policy, the age, gender and risk class of the insured and the number of years the policy has been in force. EFL also establishes annuity and universal life reserves based upon the amount of policyholder deposits (less applicable insurance and expense charges) plus interest earned on those deposits. Life insurance and annuity reserves are supported primarily by EFL's long-term, fixed income investments as the underlying policy reserves are generally also of a long-term nature.

Table of Contents

## IMPACT OF INFLATION

Property and casualty insurance premiums are established before losses occur and before loss expenses are incurred, and therefore, before the extent to which inflation may impact such costs is known. Consequently, in establishing premium rates, we attempt to anticipate the potential impact of inflation, including medical cost inflation, construction and auto repair cost inflation and tort issues. Medical costs are a broad element of inflation that impacts personal and commercial auto, general liability, workers compensation and commercial multi-peril lines of insurance written by the Property and Casualty Group. Inflation assumptions take the form of explicit numerical values in the survival ratio, individual claim, and massive injury lifetime medical reserving methods. Inflation assumptions are implicitly derived through the selection of applicable loss development patterns for all other reserving methods. Occasionally, unusual aberrations in loss development patterns are caused by external and internal factors such as changes in claim reporting, settlement patterns, unusually large losses, process changes, legal or regulatory changes, and other influences. In these instances, analyses of alternate development factor selections are performed to evaluate the effect of these factors and actuarial judgment is applied to make appropriate assumptions needed to develop a best estimate of ultimate losses.

## LIQUIDITY AND CAPITAL RESOURCES

## Sources and Uses of Cash

Liquidity is a measure of a company's ability to generate sufficient cash flows to meet the short- and long-term cash requirements of its business operations and growth needs. Our liquidity requirements have been met primarily by funds generated from premiums collected and income from investments. Our insurance operations provide liquidity in that premiums are collected in advance of paying losses under the policies purchased with those premiums. Cash outflows for the property and casualty insurance business are generally variable since settlement dates for liabilities for unpaid losses and the potential for large losses, whether individual or in the aggregate, cannot be predicted with absolute certainty. Accordingly, after satisfying our operating cash requirements, excess cash flows are used to build our investment operation's portfolios in order to increase future investment income, which then may be used as a source of liquidity if cash from our insurance operations would not be sufficient to meet our obligations. Cash provided from these sources is used primarily to fund losses and policyholder benefits, fund the costs of our management operations including commissions, salaries and wages, pension plans, share repurchases, dividends to shareholders and the purchase and development of information technology. We expect that our operating cash needs will be met by funds generated from operations.

Volatility in the financial markets presents challenges to us as we do occasionally access our investment portfolio as a source of cash. Some of our fixed income investments, despite being publicly traded, are illiquid. Volatility in these markets could impair our ability to sell certain of our fixed income securities or cause such securities to sell at deep discounts. Additionally, our limited partnership investments are significantly less liquid. We believe we have sufficient liquidity to meet our needs from other sources even if market volatility persists throughout 2013.

## Cash flow activities — Erie Insurance Group

The following table provides condensed consolidated cash flow information for the three months ended March 31:

(in millions)	Erie Insurance Group	
	2013	2012
Net cash provided by operating activities	\$127	\$72
Net cash used in investing activities	(133	) (22
Net cash used in financing activities	(6	) (36
Net (decrease) increase in cash and cash equivalents	\$(12	) \$14

Net cash provided by operating activities totaled \$127 million and \$72 million for the first three months of 2013 and 2012, respectively. Increased cash from operating activities for the first three months of 2013 was driven primarily by an increase in premiums collected by the Exchange driven by the increase in premiums written, a decrease in income taxes paid, and an increase in limited partnership distributions received. Somewhat offsetting this increase in cash were increases in losses and loss expenses paid and other underwriting and acquisition costs paid compared to the first three months of 2012.

At March 31, 2013, we recorded a net deferred tax asset of \$39 million attributable to Indemnity and a net deferred tax liability of \$410 million attributable to the Exchange. There was no deferred tax valuation allowance recorded at March 31, 2013. Our capital gain and loss strategies take into consideration our ability to offset gains and losses in future periods, carry-back of

Table of Contents

capital loss opportunities to the three preceding years, and capital loss carry-forward opportunities to apply against future capital gains over the next five years.

Net cash used in investing activities totaled \$133 million and \$22 million for the first three months of 2013 and 2012, respectively. The first three months of 2013, investing activities primarily included increased cash used to purchase certain common stocks and fixed maturity securities, offset somewhat by increased cash generated from the sale of other common and preferred stocks and fixed maturity securities compared to the first three months of 2012. At March 31, 2013, we had contractual commitments to invest up to \$410 million related to our limited partnership investments to be funded as required by the partnerships' agreements. Of this amount, the total remaining commitment to fund limited partnerships that invest in private equity securities was \$156 million, mezzanine debt securities was \$155 million, and real estate activities was \$99 million.

For a discussion of net cash used in financing activities, see the following "Cash flow activities — Indemnity," for the primary drivers of financing cash flows related to Indemnity.

## Cash flow activities — Indemnity

The following table is a summary of cash flows for Indemnity for the three months ended March 31:

(in millions)	Indemnity Shareholder Interest		
	2013	2012	
Net cash (used in) provided by operating activities	\$(1	) \$9	
Net cash provided by investing activities	45	53	
Net cash used in financing activities	(15	) (45	)
Net increase in cash and cash equivalents	\$29	\$17	

See Item 1. "Financial Statements - Note 15. Indemnity Supplemental Information," contained within this report for more detail on Indemnity's cash flows.

Net cash used in Indemnity's operating activities totaled \$1 million for the first three months of 2013, compared to cash provided of \$9 million for the first three months of 2012. Decreased cash from operating activities for the first three months of 2013 was primarily due to an increase in commissions paid to agents, general operating expenses paid, and cash paid for salaries and wages. Offsetting this decrease was an increase in management fee revenue received. Management fee revenues were higher reflecting the increase in the premiums written or assumed by the Exchange. Cash paid for agent commissions and bonuses increased to \$197 million in the first three months of 2013, compared to \$180 million for the first three months of 2012, as a result of an increase in cash paid for ordinary commissions. Indemnity made a \$17 million contribution to its pension plan in the first quarter of 2013, compared to \$16 million in the first quarter of 2012. Indemnity's policy for funding its pension plan is generally to contribute an amount equal to the greater of the IRS minimum required contribution or the target normal cost for the year plus interest to the date the contribution is made. Indemnity is generally reimbursed approximately 57% of the net periodic benefit cost of the pension plan from its affiliates, which represents pension benefits for Indemnity employees performing claims and life functions.

At March 31, 2013, Indemnity recorded a net deferred tax asset of \$39 million. There was no deferred tax valuation allowance recorded at March 31, 2013.

Net cash provided by Indemnity's investing activities totaled \$45 million for the first three months of 2013, compared to \$53 million for the first three months of 2012. Indemnity's first three months of 2013 investing activities primarily included decreased cash generated from the sales of fixed maturity securities, offset somewhat by a slight increase in

cash generated from the sales of preferred stocks and limited partnerships and a slight increase in cash used to purchase other fixed maturity securities, compared to the first three months of 2012. Also impacting Indemnity future investing activities are limited partnership commitments, which totaled \$36 million at March 31, 2013, and will be funded as required by the partnerships' agreements. Of this amount, the total remaining commitment to fund limited partnerships that invest in private equity securities was \$13 million, mezzanine debt securities was \$10 million, and real estate activities was \$13 million.

Net cash used in Indemnity's financing activities totaled \$15 million for the first three months of 2013, compared to \$45 million for the first three months of 2012. The decrease in cash used in financing activities for the first three months of 2013 was driven primarily by a decrease in the cash outlay for dividends paid to shareholders. There were no dividends paid to shareholders for the first three months of 2013, compared to \$27 million for the first three months of 2012. Normally, a regular

## Table of Contents

quarterly dividend is declared by the Board at its December meeting of the previous year and paid in January, as in the first three months of 2012. In the first three months of 2013, the payment of the regular dividend normally made in January was accelerated and paid in December 2012 due to the potential significant increases in tax rates on 2013 dividend income pending at the time of declaration. Indemnity increased both its Class A and Class B shareholder quarterly dividends by 7.2% for 2013, compared to 2012. There are no regulatory restrictions on the payment of dividends to Indemnity's shareholders.

Indemnity repurchased 0.2 million shares of its Class A nonvoting common stock in conjunction with its stock repurchase program at a total cost of \$15 million in the first quarter of 2013, based upon settlement date. In the first three months of 2012, shares repurchased under this program also totaled 0.2 million at a total cost of \$18 million. In October 2011, our Board of Directors approved a continuation of the current stock repurchase program for a total of \$150 million with no time limitation. This repurchase authority includes, and is not in addition to, any unspent amounts remaining under the prior authorization. Indemnity had approximately \$55 million of repurchase authority remaining under this program at March 31, 2013, based upon trade date.

The month of January 2013 includes repurchases of 444 shares of our outstanding Class A nonvoting common stock outside of our publicly announced share repurchase program at a total cost of \$30,927, or \$69.65 per share, to settle a payment due to a retired senior vice president under our long-term incentive plan. These shares were delivered to the plan participant in January 2013. In January 2012, Indemnity also purchased 669 shares of our outstanding Class A nonvoting common stock outside of our publicly announced share repurchase program at a total cost of \$50,724, or \$75.82 per share, to settle a payment due to a retired senior vice president under our long-term incentive plan. These shares were delivered to the plan participant in January 2012.

### Capital Outlook

We regularly prepare forecasts evaluating the current and future cash requirements of Indemnity and the Exchange for both normal and extreme risk events. Should an extreme risk event result in a cash requirement exceeding normal cash flows, we have the ability to meet our future funding requirements through various alternatives available to us.

### Indemnity

Outside of Indemnity's normal operating and investing cash activities, future funding requirements could be met through: 1) Indemnity's cash and cash equivalents, which total approximately \$41 million at March 31, 2013, 2) a \$100 million bank revolving line of credit held by Indemnity, and 3) liquidation of assets held in Indemnity's investment portfolio, including common stock, preferred stock and investment grade bonds which totaled approximately \$350 million at March 31, 2013. Volatility in the financial markets could impair Indemnity's ability to sell certain of its fixed income securities or cause such securities to sell at deep discounts. Additionally, Indemnity has the ability to curtail or modify discretionary cash outlays such as those related to shareholder dividends and share repurchase activities.

Indemnity had no borrowings under its line of credit at March 31, 2013. At March 31, 2013, bonds with fair values of \$110 million were pledged as collateral. These securities have no trading restrictions. The bank requires compliance with certain covenants, which include minimum net worth and leverage ratios. Indemnity was in compliance with its bank covenants at March 31, 2013.

### Exchange

Outside of the Exchange's normal operating and investing cash activities, future funding requirements could be met through: 1) the Exchange's cash and cash equivalents, which total approximately \$347 million at March 31, 2013, 2) a \$300 million bank revolving line of credit held by the Exchange, and 3) liquidation of assets held in the Exchange's investment portfolio, including common stock, preferred stock and investment grade bonds which totaled approximately \$10.9 billion at March 31, 2013. Volatility in the financial markets could impair the Exchange's ability

to sell certain of its fixed income securities or cause such securities to sell at deep discounts.

The Exchange had no borrowings under its line of credit at March 31, 2013. At March 31, 2013, bonds with fair values of \$326 million were pledged as collateral. These securities have no trading restrictions. The bank requires compliance with certain covenants, which include statutory surplus and risk based capital ratios. The Exchange was in compliance with its bank covenants at March 31, 2013.

Indemnity has no rights to the assets, capital, or line of credit of the Exchange and, conversely, the Exchange has no rights to the assets, capital, or line of credit of Indemnity. We believe we have the funding sources available to us to support our cash flow requirements in 2013.

Table of Contents

Off-Balance Sheet Arrangements

Off-balance sheet arrangements include those with unconsolidated entities that may have a material current or future effect on our financial condition or results of operations, including material variable interests in unconsolidated entities that conduct certain activities. We have no material off-balance sheet obligations or guarantees, other than limited partnership investment commitments.

Surplus Notes

Indemnity holds a surplus note for \$25 million from EFL that is payable on demand on or after December 31, 2018; however, no principal or interest payments may be made without prior approval of the Pennsylvania Insurance Commissioner. Interest payments are scheduled to be paid semi-annually. For the three month period ended March 31, 2013 and 2012, Indemnity recognized interest income on the note of \$0.4 million.

The Exchange holds a surplus note for \$20 million from EFL that is payable on demand on or after December 31, 2025; however, no principal or interest payments may be made without prior approval of the Pennsylvania Insurance Commissioner. Interest payments are scheduled to be paid semi-annually. For the three month period ended March 31, 2013 and 2012, the Exchange recognized interest income on the note of \$0.3 million.

CRITICAL ACCOUNTING ESTIMATES

We make estimates and assumptions that have a significant effect on the amounts and disclosures reported in the financial statements. The most significant estimates relate to the property and casualty insurance losses and loss expense reserves, life insurance and annuity policy reserves, investment valuation, deferred acquisition costs related to life insurance and investment-type contracts, deferred taxes and retirement benefit plans for employees. While management believes its estimates are appropriate, the ultimate amounts may differ from estimates provided. Our most critical accounting estimates are described in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations," for the year ended December 31, 2012 of our Annual Report on Form 10-K as filed with the Securities and Exchange Commission on February 26, 2013. See Item 1. "Financial Statements - Note 6. Fair Value," contained within this report for additional information on our valuation of investments.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk is primarily related to fluctuations in prices and interest rates. Quantitative and qualitative disclosures about market risk resulting from changes in prices and interest rates for the year ended December 31, 2012 are included in Item 7A. “Quantitative and Qualitative Disclosures About Market Risk,” of our Annual Report on Form 10-K as filed with the Securities and Exchange Commission on February 26, 2013.

There have been no material changes that impact our portfolio or reshape our periodic investment reviews of asset allocations during the three months ended March 31, 2013. For a recent discussion of conditions surrounding our investment portfolio, see the “Operating Overview,” “Investment Operations,” and “Financial Condition, Investments” discussions contained in Item 2. “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” within this report.

ITEM 4. CONTROLS AND PROCEDURES

We carried out an evaluation, with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (pursuant to Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

Our management evaluated, with the participation of the Chief Executive Officer and Chief Financial Officer, any change in our internal control over financial reporting and determined there has been no change in our internal control over financial reporting during the three months ended March 31, 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

State Court Lawsuit Against Erie Indemnity Company

Erie Indemnity Company (“Indemnity”) was named as a defendant in a complaint filed on August 1, 2012, by alleged subscribers of the Erie Insurance Exchange (the “Exchange”) in the Court of Common Pleas Civil Division of Fayette County, Pennsylvania captioned Erie Insurance Exchange, an unincorporated association, by Joseph S. Sullivan and Anita Sullivan, Patricia R. Beltz, and Jenna L. DeBord, trustees ad litem v. Erie Indemnity Co. (the “Sullivan” lawsuit).

As subsequently amended, the complaint alleges that, beginning on September 1, 1997, Indemnity retained “Service Charges” (installment fees) and “Added Service Charges” (late fees and policy reinstatement charges) on policies written by the Exchange and its insurance subsidiaries, which allegedly should have been paid to the Exchange, in the amount of approximately \$308 million. In addition to their claim for monetary relief on behalf of the Exchange, the plaintiffs seek an accounting of all so-called intercompany transactions between Indemnity and the Exchange from 1996 to date. Plaintiffs allege that Indemnity breached its contractual, fiduciary, and equitable duties by retaining Service Charges and Added Service Charges that should have been retained by the Exchange. Plaintiffs bring these same claims under three separate derivative-type theories. First, plaintiffs purport to bring suit as members of the Exchange on behalf of the Exchange. Second, plaintiffs purport to bring suit as trustees ad litem on behalf of the Exchange. Third, plaintiffs purport to bring suit on behalf of the Exchange pursuant to Rule 1506 of the Pennsylvania Rules of Civil Procedure, which allows shareholders to bring suit derivatively on behalf of a corporation or similar entity.

Indemnity removed the case from state court to the United States District Court for the Western District of Pennsylvania on the basis that it was a class action subject to removal under the Federal Class Action Fairness Act. In October 2012, the federal court remanded the case to state court. Indemnity has appealed the remand order, the United States Court of Appeals for the Third Circuit heard the appeal in March 2013, and a decision has not yet been rendered. Indemnity has requested that the state court stay all proceedings in the Sullivan action pending the outcome of the appeal.

Indemnity filed a motion in the state court in November 2012 seeking dismissal of the lawsuit. A hearing on that motion was held by the state court in February 2013, but a decision has not yet been rendered.

Discovery is in its early stages. Indemnity believes that it has meritorious legal and factual defenses and intends to vigorously defend against all allegations and requests for relief in the lawsuit.

Federal Court Lawsuit Against Directors

On February 6, 2013, a lawsuit was filed in the United States District Court for the Western District of Pennsylvania, captioned Erie Insurance Exchange, an unincorporated association, by members Patricia R. Beltz, Joseph S. Sullivan and Anita Sullivan, and Patricia R. Beltz, on behalf of herself and others similarly situated v. Richard L. Stover; J. Ralph Borneman, Jr; Terrence W. Cavanaugh; Jonathan Hirt Hagen; Susan Hirt Hagen; Thomas B. Hagen; C. Scott Hartz; Claude C. Lilly, III; Lucian L. Morrison; Thomas W. Palmer; Martin P. Sheffield; Elizabeth H. Vorscheck; and Robert C. Wilburn (the “Beltz” lawsuit), by alleged policyholders of the Exchange who are also the plaintiffs in the Sullivan lawsuit. The individuals named as defendants in the Beltz lawsuit are the current Directors of Indemnity. Indemnity is not a party in the Beltz lawsuit.

The Beltz lawsuit asserts many of the same allegations and claims for monetary relief as in the Sullivan lawsuit. Plaintiffs purport to sue on behalf of all policyholders of the Exchange, or, alternatively, on behalf of the Exchange itself.

The defendants have advised Indemnity that they intend to vigorously defend against the claims in the Beltz lawsuit and have sought indemnification and advancement of expenses from the Company in connection with the Beltz lawsuit.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012 as filed with the Securities and Exchange Commission on February 26, 2013.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

## Issuer Purchases of Equity Securities

The following table summarizes Indemnity's Class A common stock repurchased each month, based upon trade date, during the quarter ended March 31, 2013:

(dollars in millions, except per share data)	Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares that May Yet be Purchased Under the Program
	January 1 – 31, 2013	92,129	\$69.91	91,685	\$62
	February 1 – 28, 2013	70,842	73.47	70,842	57
	March 1 – 31, 2013	27,036	74.30	27,036	55
	Total	190,007		189,563	

In October 2011, our Board of Directors approved a continuation of the current stock repurchase program, authorizing repurchases for a total of \$150 million with no time limitation. This repurchase authority included, and was not in addition to, any unspent amounts remaining under the prior authorization.

The month of January 2013 includes repurchases of 444 shares of our outstanding Class A nonvoting common stock outside of our publicly announced share repurchase program at a total cost of \$30,927, or \$69.65 per share, to settle a payment due to a retired senior vice president under our long-term incentive plan. These shares were delivered to the plan participant in January 2013.
