Spread			----- 2.09%	----- 2.14%	----- 2.0

* Incremental Deposits represent gross deposits reduced by transfers from other Lincoln Retirement products.

** For the annuity products spread, the yield on earning assets is calculated as net investment income on fixed product investment portfolios divided by average earning assets. The average crediting rate is calculated using interest credited on annuity products less bonus credits and excess DCA interest, divided by average fixed account values net of co-insured account values. Fixed account values reinsured under modified co-insurance agreements are included in account values for this calculation since assets (and therefore margin) are retained under these agreements.

* Rating based on affiliation with Lincoln Life

[1] Stock prices shown above include 2-for-1 splits in June 1993, and June 1999

[2] Indicated dividend divided by net income

[3] Indicated dividend divided by the closing price

[4] Equity used in calculation assumes securities at cost. Minority interest-preferred securities subsidiary companies (hybrid securities) are considered 50% debt and 50% equity.

Return on Equity/Return on Capital: In order to accommodate the various perspectives, LNC presents two separate Return on Equity numbers on pages 2, 5 and 6 of this Statistical Report. "Net Income Divided by Average Shareholders' Equity" tends to fluctuate from period to period due to the realization of gains and losses on investments or sale of subsidiaries. "Income from Operations

Edgar Filing: LINCOLN NATIONAL CORP - Form 8-K

Divided by Average Shareholders' Equity" is less volatile but leaves out an important element earnings for a company that has a long-term goal of enhancing shareholder value by realizing investment gains.

Return on capital measures the effectiveness of LNC's use of its total capital, which is made equity, debt and hybrid securities. Return on capital is calculated by dividing income from operations (after adding back after-tax interest expense) by average capital. The difference return on capital and return on equity presents the effect of leveraging on LNC's consolidated results.
