BlackRock Insured Municipal 2008 Term Trust Inc.

- Effective January 1, 2008, the BlackRock Insured Municipal 2008 Term Trust Inc. (the <code>[Trust]]</code> adopted FASB Statement of Financial Accounting Standards No. 157, <code>[Fair Value Measurements]</code> (<code>[FAS 157]</code>). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:
 - Level 1 [] price quotations in active markets/exchanges for identical securities
 - Level 2 □ other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market□corroborated inputs)
 - Level 3 \square unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust \square s own assumptions used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust□s policy regarding valuation of investments and other significant accounting policies, please refer to the Trust□s most recent financial statements as contained in its annual report.

The following table summarizes the inputs used as of March 31, 2008 in determining the fair valuation of the Trust \square s investments:

Valuation	In	vestments in		
Inputs	Securities			
Level 1		0		
Level 2	\$	412,456,417		
Level 3		0		
Total	\$	412,456,417
