These preliminary estimates consider information currently available to the Company regarding the factors that affect loan losses, such as changes in the Company's loan quality and the components of the loan portfolio, the Bank's historical loan loss experience, changes in the Company's lending policies and procedures, and current economic conditions as well as other factors. However, there can be no assurance that those estimates will not change

considering the current economic uncertainty and its potential impact on the Company's loan portfolio, or that additional provisions for loan losses will not be required in the future.
