NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Amounts in thousands, except share, per share and per tonne data)

1.

BASIS OF PRESENTATION

Management has prepared the accompanying unaudited condensed consolidated financial statements for the three-month and six-month periods ended June 30, 2011, and these operating results are not necessarily indicative of the results that may be expected for the year ending December 31, 2011.

The condensed consolidated balance sheets at December 31, 2010 has been derived from the audited consolidated financial statements at that date but does not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 20-F for the year ended December 31, 2010.

The consolidated financial statements include the accounts of China Natural Resources, Inc. and those subsidiaries in which the Company has direct and indirect controlling interest (collectively referred to as the Company). The Company's subsidiaries as of December 31, 2010, are as described in the Company's Form 20-F for the year ended December 31, 2010.

As of June 30, 2011, the Company has a working capital deficiency of CNY241,638 (US\$37,383). As of June 30, 2011, Feishang Group Limited, the Company's controlling shareholder (the Shareholder) has confirmed to the Company continuous financial support to the Company. The Company is undertaking renewal negotiations with the banks in due course and has, at this stage, not sought any written commitment that the loan facilities will be renewed. However, the Company has held discussion with its bankers about its future borrowing needs and no matters have been drawn to its attention to suggest that renewal may not be forthcoming on acceptable terms. Subsequent to June 30, 2011, the Company has secured additional bank loans amounting to CNY140,000 (US\$21,659) for the purpose of mine improvement projects and working capital. The Company's internal forecasts and projections, taking account of reasonably possible changes in operating performance as well as capital expenditure, additional borrowing capacity, continuous Shareholder's support and availability of bank facilities, show that the Company should be able to operate within the level of its current capacity.

In view of these, the Company expects it will have sufficient liquidity to finance its operations for the next twelve months. Therefore, the unaudited interim consolidated financial information has been prepared on a going concern basis. The going concern basis assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

7 / 20

For the convenience of readers, amounts in Renminbi, the Chinese currency (CNY), have been translated into United States dollars (US\$) at the applicable rate of US\$1.00 = CNY6.4639 as quoted by Bloomberg Finance L.P. as of June 30, 2011, except as disclosed otherwise. No representation is made that the CNY amounts could have been, or could be, converted into US\$ at that rate, or at all.

2.

EARNINGS (LOSS) PER SHARE

Basic earnings per share amounts are calculated using the weighted average number of common shares outstanding during the period. Diluted earnings per share assumes the conversion, exercise or issuance of all potential common stock instruments, such as options or warrants, unless the effect is to reduce a loss or increase earnings per share and is calculated using the treasury stock method. With respect to outstanding warrants, the weighted average number of shares of 373,772 and 441,869 shares for the three-month and six-month periods ended June 30, 2011 were not included in the dilutive calculation for those respective periods, as the effect would be anti-dilutive.

SALES AND GROSS PROFIT

Sales for the six months ended June 30, 2011 totaled CNY70.13 million (US\$10.85 million), an 108.59% increase over the same period of 2010. The increase was mainly comprised of (i) the new anthracite trading amounting to CNY24.22 million (US\$3.75 million) during the period; (ii) an approximately 58% higher production volume of anthracite during the six months period this year, compared to only three months of anthracite mining operations during the period ended June 30, 2010; and (iii) an increase in the average selling price per tonne of iron concentrates from CNY928 (US\$144) in the first half of 2010 to CNY1,250 (US\$193) for the same period of 2011, as well as approximately 14% rise in sales volume of iron concentrates, partly offset by the decrease in sales volume of zinc concentrates.

Sales for the second quarter of 2011 totaled CNY61.81 million (US\$9.56 million), an 148.73% rise over the same period last year. This increase was mainly attributable to (i) the anthracite trading; and (ii) an approximately 298% increase in the sales volume of iron concentrates, partly offset by the decrease in sales volume of zinc concentrates.

The overall gross profit margin slightly decreased from 35.38% for the six months ended June 30, 2010 to 34.29% for the same period of 2011. This decrease is mainly caused by the relatively low 19.55% gross profit margin from anthracite trading business, partly offset by the rise in the average selling price of iron concentrates by metal segment.

The slight drop in gross profit margin for the second quarter of 2011, from 36.70% to 35.47%, was caused by the same factors.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses decreased by CNY2.43 million (US\$0.38 million) or 6.40% to CNY35.45 million (US\$5.48 million) for the six months ended June 30, 2011 from CNY37.88 million (US\$5.86 million) for the same period of 2010. The slight decrease was mainly due to the decrease of share-based compensation amounting to CNY13.01 million (US\$2.01 million), partly offset by increase in salary, entertainment, travelling expense and office expense attributable to newly acquired Wealthy Year amounting to CNY11.00 million (US\$1.70 million).

Selling, general and administrative expenses decreased by CNY6.71 million (US\$1.04 million) or 26.90% to CNY18.23 million (US\$2.82 million) for the second quarter of 2011 from CNY24.94 million (US\$3.86 million) for the same quarter of 2010. The decrease was mainly due to the decrease of share-based compensation amounting to CNY6.50 million (US\$1.01 million).

FINANCE COST

Finance cost increased to CNY6.56 million (US\$1.02 million) and CNY11.83 million (US\$1.83 million) for the three and six months ended June 30, 2011, respectively, from CNY0.44 million (US\$0.07 million) and CNY0.44 million (US\$0.07 million) for the same periods in 2010. This increase was mainly caused by the (i) the rise in base lending rate as stipulated by the People's Bank of China, from 5.31% as of June 30, 2010 to 6.31% as of June 30, 2011 for a one-year loan; and (ii) the increase in bank borrowing for the three and six months ended June 30, 2011, as compared to the same period of 2010.

INTEREST INCOME

Interest income decreased by CNY0.40 million (US\$0.06 million) or 51.81% to CNY0.37 million (US\$0.06 million) for the six months ended June 30, 2011 from CNY0.77 million (US\$0.12 million) for the same period in 2010. This decreased was caused by the drop in average bank balance. The same factor contributed to the decrease of interest income for the second quarter of 2011 by CNY0.04 million (US\$0.01 million) or 16.04%, to CNY0.25 million (US\$0.04 million) from CNY0.29 million (US\$0.05 million) for the same quarter in 2010.

GAIN FROM BARGAIN PURCHASE OF A SUBSIDIARY

Gain from bargain purchase of a subsidiary of CNY624.15 million (US\$96.56 million) in 2010 was derived from the acquisition of Guizhou Puxin and its subsidiaries other than Guizhou Yongfu and Bijie Feishang in March 2010. The difference between the fair value recognized by the Shareholder (from whom we acquired the entities) of CNY774.15 million (US\$119.77 million) and the purchase price paid to unrelated third parties by the Shareholder of CNY150 million (US\$23.21 million) was recognized as gain from bargain purchase of a subsidiary in 2010. This gain did not recur in 2011.

INCOME TAXES

Management believes that the Company is not subject to US taxes.

Under the current laws of the BVI, dividends and capital gains arising from the Company's investments in the BVI are not subject to income taxes and no withholding tax is imposed on payments of dividends to the Company.

All PRC subsidiaries of the Company are subject to income tax at a rate of 25% except Baiping Mining, Gouchang Coal, Linjiaao Coal, Xinsong Coal and Dayuan Coal, of Guizhou Puxin. The operating subsidiaries are currently paying income tax at a rate of CNY9.50 to CNY32 (US\$1.47 to US\$4.95) per tonne of sales, or 7.5% of sales, as required by the respective local tax bureau.

The net income (loss) attributable to CHNR shareholders dropped by CNY625.29 million (US\$96.73 million) from a net income of CNY596.88 million (US\$92.34 million) for the six months ended June 30, 2010 to a net loss of CNY28.41 million (US\$4.39 million) for the six months ended June 30, 2011. The decrease was mainly caused by (i) a bargain purchase gain amounting to CNY624.15 million (US\$91.43 million at the historical exchange rate of US\$1.00=CNY6.8262) on the acquisition of Guizhou Puxin in 2010, which did not recur in 2011; (ii) the CNY7.27 million (US\$1.12 million) gain on the disposal of Guangdong Longchuan Jinshi Mining Development Co. Limited in February 2010, which did not recur in 2011; (iii) the increase in interest expense of short-term bank loan amounting to CNY11.40 million (US\$1.76 million) in 2011; and (iv) the increase in salary, entertainment, travelling expense and office expense attributable to newly acquired Wealthy Year amounting to CNY11.00 million (US\$1.70 million) in March 2010, partly offset by (i) the decrease of share-based compensation amounting to CNY13.01 million (US\$2.01 million); (ii) the gross profit increase of metal segment and coal segment amounting to CNY4.99 million (US\$0.77 million) and CNY7.16 million (US\$1.11 million) respectively, attributable to the increase in the average selling price of iron concentrates and the sales volume increase of coal anthracite trading business.

The net loss attributable to CHNR shareholders decreased by CNY14.73 million (US\$2.28 million) from CNY21.57 million (US\$3.34 million) for the three months ended June 30, 2010 to CNY6.84 million (US\$1.06 million) for the three months ended June 30, 2011. The decrease in loss was mainly attributable to (i) the increase in gross profit of coal segment and metal segment amounting to CNY12.80 million (US\$1.98 million); (ii) the decrease of share-based compensation amounting to CNY6.50 million (US\$1.01 million), partly offset by the increase in interest expense of the coal segment amounting to CNY5.28 million (US\$0.82 million).

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary liquidity needs are to fund operating expenses, capital expenditures and acquisitions. To date, the Company has financed its working capital requirements primarily through internally generated cash and bank borrowings.

Net cash used for operating activities for the six months ended June 30, 2011 was approximately CNY56.36 million (US\$8.72 million), as compared to net cash from operating activities of CNY45.52 million (US\$7.04 million) for the corresponding period in 2010. The decrease in net cash inflow was mainly due to the operating loss of and the increase in trade receivable and prepayment of the coal business.

The following summarizes the Company's financial condition and liquidity at the dates indicated:

	December 31,	June 30,
	2010	2011
	CNY	CNY
		(Unaudited)
Current ratio	0.54x	0.48x
Working capital	(151,547,000)	(241,638,000)
Ratio of interest-bearing debt to total shareholders' equity	1.06x	1.29x

Net cash used in investing activities for the six months ended June 30, 2011 was CNY250.54 million (US\$38.76 million), as compared with CNY87.93 million (US\$13.60 million) in the corresponding period of 2010. This consisted of (i) payment for the acquisition of property and equipment amounting to CNY222.90 million (US\$34.48 million); (ii) partial payment on the acquisition of Wealthy Year and subsidiaries amounting to CNY20.64 million (US\$3.19 million); and (iii) payment for financial instruments amounting to CNY7 million (US\$1.08 million).

Net cash provided in financing activities for the six months ended June 30, 2011 was CNY285.36 million (US\$44.15 million), as compared with CNY48.33 million (US\$7.48 million) net cash used in the corresponding period of 2010. This was primarily attributable to (i) the receipt of CNY24.31 million (US\$1.50 million at the historical exchange rate of US\$1.00=CNY6.4926 and US\$2.25 million at the historical exchange rate of US\$1.00=CNY6.4750) on the exercise of warrants; and (ii) the loan proceeds of CNY170 million (US\$26.30 million) comprised of: CNY70 million (US\$10.82 million) by Guizhou Yongfu on long-term bank loan drawdown; CNY50 million (US\$7.74 million) by Xinsong Coal on long-term bank loan drawdown; and CNY50 million (US\$7.74 million) by Guizhou Puxin on short-term bank loan drawdown, and (iii) a net advances of CNY121.05 million (US\$18.73 million) from affiliates, partly offset by bank loan repayment of CNY30 million (US\$4.64 million) of Guizhou Puxin.

Capital commitments in respect of coal mine development and others as at June 30, 2011 amounted to CNY106.25 million (US\$16.44 million).

As of June 30, 2011, the Company has a working capital deficiency of CNY241.64 million (US\$37.38 million). The Shareholder has confirmed to the Company continuous financial support to the Company. The Company is undertaking renewal negotiations with the banks in due course and has, at this stage, not sought any written commitment that the loan facilities will be renewed. However, the Company has held discussion with its bankers about its future borrowing needs and no matters have been drawn to its attention to suggest that renewal may not be forthcoming on acceptable terms. Subsequent to June 30, 2011, the Company has secured additional bank loans amounting to CNY140 million (US\$21.66 million) for the purpose of mine improvement projects and working capital. The Company's internal forecasts and projections, taking account of reasonably possible changes in operating performance as well as capital expenditure, additional borrowing capacity, continuous Shareholder's support and availability of bank facilities, show that the Company should be able to operate within the level of its current capacity.

Except as disclosed above, there have been no significant changes in financial condition and liquidity for the period ended June 30, 2011. The Company believes that internally generated funds and/ or equity/ debt financing will be sufficient to satisfy its anticipated working capital needs for at least the next twelve months.

In the event that our operating plans change due to changes in our strategic plans, lower-than-expected revenues, unanticipated expenses, increased competition, unfavorable economic conditions or other unforeseen circumstances, including the continued turmoil and tightening of the credit markets, and further weakening of consumer confidence and spending, our liquidity may be negatively impacted. If so, we could be required to adjust our expenditures for the remainder of 2011 and for 2012 to conserve working capital, or raise additional capital, possibly including debt or equity financing, to fund operations and our growth strategy.

OFF BALANCE SHEET ARRANGEMENTS

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.
