Item 3

AU Optronics Corp.
March 17, 2015
English Language Summary

Subject: The Board resolved to issue new common shares for cash to sponsor the DR Offering and/or issue new common shares for cash in public offering

Regulation: Published pursuant to Article 4-11 of the Taiwan Stock Exchange's Operating Procedures for the Publication of Material Information by Listed Companies

Date of Events: 2015/03/17

Contents:

1. Date of the board of directors resolution: 2015/03/17

2. Source of capital increase funds:

Issuance of new common shares for cash to sponsor the DR Offering and/or issuance of new common shares for cash in public offering

3. Number of shares issued:

It will be proposed that the shareholders meeting to authorize the Board, within the limit of 950,000,000 common shares, depending on the market conditions and the Company's capital needs, to choose appropriate timing and fund raising method(s), to issue new common shares for cash to sponsor DR Offering and/or issue new common shares for cash in public offering and/or issue Private Placement Shares and/or issue Private Placement CB, in accordance with the applicable laws and regulations and the following fund raising method principles. For issuance of Private Placement CB, the number of common shares can be converted within the limit of 950,000,000 common shares shall be calculated in accordance with the conversion price determined at the time of issuance of Private Placement CB.

4. Par value per share: NTD 10

5. Total monetary amount of the issue: To be determined

6. Issue price: To be determined

7. Number of shares subscribed by or allotted to employees:

10%-15% of the new common shares shall be allocated for the employees' subscription

8. Number of shares publicly sold: To be determined

9. Ratio of shares subscribed by or allotted as stock dividends to existing shareholders:

(1) Issuance of new common shares for cash to sponsor the DR Offering:

Except for 10% -15% of the new common shares shall be allocated for the employees' subscription in accordance with the applicable law, rights to subscribe to the remaining shares shall be waived by the shareholders and such remaining shares should be offered to the public under Article 28-1 of the Securities and Exchange Law as the underlying shares of the global depository shares to be sold in the DR Offering.

(2)It is proposed to authorize the Board to choose either of the following methods to sell the new shares in the public offering through the underwriter(s):

a.Except for 10% to 15% of the new shares must be offered to employees in accordance with Article 267, Paragraph I of the Company Law, it is proposed that the pre-emptive rights to subscribe to the remaining shares to be waived by the shareholders in accordance with Article 28-1 of the Securities and Exchange Law and such remaining shares will be offered to the public via book building.

b.Except for 10% to 15% of the new shares must be offered to employees in accordance with Article 267, Paragraph I of the Company Law, it is proposed that 10% of the new shares to be sold to the public through the underwriter(s) and the remaining shares will be subscribed to by the existing shareholders of the Company in accordance with their shareholding.

10.Method of handling fractional shares and shares unsubscribed by the deadline:

(1)Issuance of new common shares for cash to sponsor the DR Offering:

Any new common shares not subscribed by employees of the Company shall be determined by the Chairman, depending on the market needs, to be allocated as underlying shares of the global depository shares or to be subscribed by the designated person(s).

(2)Issuance of new common shares for cash in public offering:

It is proposed that any new common shares not subscribed by employees and shareholders of the Company will be sold to the person(s) designated by the chairman of the Company at the issue price.

11.Rights and obligations of the newly issued shares:

The new common shares will have the same rights and obligations as the Company's existing issued and outstanding common shares.

12.Utilization of the funds from the capital increase:

To invest in equipment and technology of high-level product (e.g. Ultra HD Curved Wide Color Gamut), enrich working capital, have sound financial structure and/or support the company's long term development funding needs and plans.

13.Any other matters that need to be specified:

The reason for the situation where the issue price of the new common shares to be issued to sponsor the DR Offering, the new common shares to be issued in public offering, Private Placement Shares and the conversion price for the Private Placement CB is set as a price less than the par value due to change of the market change and the reason for the Company not adopt other fund raising method and the reasonableness for such determination:

This is mainly based on considerations of the sound operation of the Company and the security of financial structure and issuing equity related securities for fund raising is more appropriate than issuing the pure debt type securities. If

the Company decides to use the fund raising methods, such as issuing new shares for cash to sponsor the DR Offering, issuing new shares for cash in public offering, and issuing Private Placement Shares, etc. the Company would not incur any interest of the debt in such case not only the Company's financial risk could be reduced, the Company's financial structure could be improved and the flexibility of the Company's fund dispatch would also be increased. For issuance of Private Placement CB, if investor converts Private Placement CB into the common shares, such would improve the Company's financial structure and would benefit the Company's long term development. Thus, it should be reasonable for the Company to issue the equity related securities. If the issue price and the conversion price is less than the par value, such would be expected to cause decrease of the Company's capital surplus and retained earnings in which case the Company will, depending on the actual operating conditions in the future, make up for the losses. As the issue price will be determined in accordance with the relevant regulations, thus, after appearance of the effectiveness of the capital increase, the Company's financial structure will be effectively improved which would be favorable to the Company's long-term development and would not have adverse impact on the rights and benefits of the shareholders.

The Private Placement Shares and the new common shares to be issued upon conversion of Private Placement CB will have the same rights and obligations as the Company's existing issued and outstanding common shares.

14.The record date for share conversion, if conversion, exchange, or subscription rights are attached:NA

15.Possible dilution of equity, if conversion, exchange, or subscription rights are attached:NA

16.Possible influence of change in shareholding, if conversion or subscription rights are fully attached:NA

17.Countermeasures of the aforesaid estimate change in shareholding:NA

18.Any other matters that need to be specified:

The reason for the situation where the issue price of the new common shares to be issued to sponsor the DR Offering, the new common shares to be issued in public offering, Private Placement Shares and the conversion price for the Private Placement CB is set as a price less than the par value due to change of the market change and the reason for the Company not adopt other fund raising method and the reasonableness for such determination:
