Item 1. Description of Business

As used herein, unless the context requires otherwise, the terms "we," the "Company," or "NCI" refer to News Communications, Inc. together with its subsidiaries.

Overview

News Communications, Inc. is a Nevada corporation formed in 1986. Through our subsidiaries, we publish and distribute advertiser-supported newspapers. We currently publish three newspapers and some related magazines through two offices. The principal source of our revenues is selling advertising space in our publications since the publications are principally distributed free of charge.

Sale of Community Papers

Consistent with our mission to focus on growing our profitable core properties, during 2002, we completed the sale of assets of subsidiaries that were cash flow negative. On November 11, 2002, we sold substantially all of the assets and liabilities of Tribco Incorporated, owner of the Queens Tribune and related publications, to an entity owned, in part, by Tribco's editor and publisher.

Present Publications

Our current Publications are as follows:

Dan's Papers

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

For the past 43 years Dan's Papers has been a favorite of all people who visit or live in the Hamptons. Dan's Papers focuses on the lifestyle, culture, arts, entertainment, politics and social issues of interest to the resort areas of the South and North Forks of Eastern Long Island, New York, particularly the wealthy Hamptons resort area. Its articles and columns include humor, news, celebrity profiles, reviews of art gallery shows, restaurants, concerts, nightclubs and movies, social satire, editorial cartoons and political issues, extensive entertainment listings, as well as special sections. Dan's Papers is published weekly in tabloid format, with a glossy cover. It is distributed primarily to retail locations on Eastern Long Island and estate home delivery. There is also a weekly distribution in Manhattan.

-2-

The staff at Dan's Papers also publishes the Montauk Pioneer, which has been designated by the Montauk Village Association as the official newspaper of the community of Montauk, New York. Dan's Papers and Montauk Pioneer are published out of offices in Bridgehampton, New York.

The Hill

The Company began publication of The Hill in September 1994. The Hill is a newspaper that is devoted to the coverage of the United States Congress. Until March 2003, the Hill was published weekly. Beginning on March 24, 2003, The Hill began twice weekly publication. It has become required reading for members of Congress, their staff, and those who follow Congress. The paper, which offers comprehensive coverage of every aspect of Congress and life on Capitol Hill, is distributed free of charge to members of Congress and their staffs, governmental agencies and others. Others who receive the publication include lobbyists, government relation departments of corporations and similar groups. The Hill derives the largest portion of its revenue from the sale of display advertising to companies wishing to get their message in front of the decision-makers in Congress. Additional revenues come from classified advertising and subscriptions from the sale of the paper. The Hill is printed on newsprint and is operated out of offices in Washington, D.C.

New Business Initiatives

Dan's Papers successfully introduced a new magazine, Dan's Magazine, for specific events such as The International Hamptons Film Festival and the Southampton Hospital. These two editions of Dan's Magazine were published in 2002 and an expanded publication schedule is planned for 2003.

Beginning in late March, the Company expanded publication of The Hill to twice weekly, on Tuesday and on Wednesday. Plans are being developed to expand to three times weekly.

The Company is developing a new publication, a glossy tabloid that will be devoted to homeland security products, systems and services. A mid-year 2003 premier issue is being planned. The magazine will be targeted to government buyers of security systems and products. The revenue will be generated primarily from the sale of advertising to manufacturers, retailers, and integrators of homeland security products and systems. The Company has committed to give the Publisher of the new publication an equity interest of up to 20% and is

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

considering several proposals from outside investors for investment into the new publication.

Printing and Production

Independent printing shops print each of our publications. We transmit electronic files to the printer for reproduction. In each case, the printer is able to provide all of the necessary materials, such as paper and ink, for printing, and bills the Company for its services and materials used. We believe that we obtain our printing services at competitive prices, and if the arrangements that we have with any of our printers should terminate, we believe that we can find similarly favorable arrangements with several other printing shops. We use several printers and are not overly reliant on any one vendor.

Advertisers and Readers; Marketing Activities

All publications are primarily controlled circulation. The Hill has paid circulation. The primary source of our revenue is selling advertising space in the publications. The advertising revenues for Dan's Papers are derived from a wide variety of businesses and individuals reflecting the various opportunities, tastes and demands of the residents of each of the targeted distribution areas. Advertisers in The Hill are primarily companies who wish to make views known to Congress and other entities that advertise employment positions. No one advertiser represents more than 5% of our advertising revenues. We employ sales representatives who are largely paid through incentive-based compensation packages.

-3-

Competition

We compete directly for advertising revenues with newspapers and magazines that are sold to readers or are distributed free, as well as other advertising media in the geographic and the vertical market in which we operate. We do not significantly compete, however, with publishers of newspapers or magazines for paid circulation revenues, as most of our publications are distributed primarily free of charge to readers.

During the months from May through September, Dan's Papers serves the same market as Hamptons Magazine, also a free circulation publication. Dan's Papers is aimed at the same market as the East Hampton Star and the Southampton Press, which are sold to readers and The Independent, a free weekly newspaper. Dan's Paper's other publication, the Montauk Pioneer, serves the community of Montauk and competes with the Montauk Sun and Montauk Life publications.

The Hill, which is the largest circulation paper on Capitol Hill, services the same market as Roll Call. The Hill also competes for advertising with two other publications, The National Journal and Congressional Quarterly.

We believe that our publications are the largest in each of our target areas.

Employees

As of December 31, 2002, we had 79 full-time and 4 part-time employees, of

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

whom 27 were editorial and production; 23 were display and classified advertising sales personnel; 7 were engaged in production; and 26 were in administrative and clerical activities. We also maintain a roster of free-lance contractors. We consider our relations with our employees to be satisfactory. No union represents any of our employees.

Seasonality

Dan's Papers and the Montauk Pioneer, which are resort area newspapers, have significant seasonal variations in revenues. This seasonality may cause operating results to vary significantly from quarter to quarter, with the third fiscal quarter being the most significant in terms of revenues and income. The Hill's revenues also vary throughout the year depending on whether or not Congress is in session.

Where You Can Find More Information

The Company files annual, quarterly and special reports, proxy statements and other information with the SEC. Item 2. Description of Properties

The Company operates out of three separate locations.

On November 3, 1999, we entered into a five-year lease at 2 Park Avenue in New York City. The 2,900 square feet of office space serves as our executive offices including the centralization of our finance and administrative staff. The annual base rent is approximately \$94,000 per year.

Dan's Papers leases 2,810 square feet of office space in a building on Montauk Highway, Bridgehampton, New York, at an annual rate of approximately \$76,000, plus cost-of-living increases, for a term of ten years terminating in October 2008. We have an option to renew this lease for an additional five-year term.

-4-

In 1999, Capital Hill Publishing Corp. renewed its lease for approximately 4,000 square feet of office space at 733 15th Street, N.W., Washington, D.C. for five years terminating July 31, 2004. The annual rent is approximately \$97,000. In 2003, the Company leased additional office space of approximately 700 square feet, also at 733 15th Street, N.W., Washington, D.C., for a term of seventeen months terminating July 31, 2004. The annual rent is approximately \$21,600.

We believe that our present space is adequate for current purposes and offers moderate expansion possibilities.

Item 6. Management's Discussion and Analysis or Plan of Operation

The following discussion and analysis provide information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read in conjunction with our audited consolidated financial statements and notes thereto.

NCI Critical Accounting Policies

The NCI discussion and analysis of its financial condition and operating results are based upon the consolidated financial statements of the Company, which have been prepared in accordance with generally accepted accounting principles in the United States of America. Our significant accounting policies are described in Note 2 to the consolidated financial statements included in Item 7 of this Form 10-KSB.

Revenue Recognition. We believe our most critical accounting policies include revenue recognition. Display advertising revenues are earned when the advertisements appear in our publications. Approximately 81% of revenues from operations are from display advertising sales and 15% are from classified advertising sales. Unearned revenues of approximately \$79,000 at December 31, 2002 represent future classified advertisement for which customers have paid in advance.

Allowance for Uncollectible Accounts Receivable. We record an allowance for doubtful accounts based on specifically identified amounts that we believe to be uncollectible. We also record additional allowance based on certain percentages of our aged receivables, which are determined based on historical experience and our assessment of the general financial conditions affecting our customer base. If our actual collections experience changes, revisions to our allowance may be required. We do not have customers with individually large amounts due at any given balance sheet date. After all attempts to collect a receivable have failed, the receivable is written off against the allowance. Our accounts receivable balance was approximately \$472,000, net of allowance for doubtful accounts of approximately \$359,000 at December 31, 2002.

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

Long-Lived Assets. Long-lived assets such as intangibles and property and equipment are amortized over their useful lives. Useful lives are based on management's estimates of the period that the assets will generate revenue. Intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Other than the loss on sales of subsidiaries as of December 31, 2001, no impairment losses have been necessary through December 31, 2002.

Income Taxes. We have a history of operating losses. These losses generated a sizeable federal tax net operating loss, or NOL carryforwards, of approximately \$16.8 million as of December 31, 2002. Generally accepted accounting principles in the United States of America require that we record a valuation allowance against the deferred tax asset associated with this NOL if it is "more likely than not" that we will not be able to utilize it to offset future taxes. We have provided a 100% valuation allowance on deferred tax assets resulting from the NOL. We currently provide for income taxes only to the extent that we expect to pay cash taxes (primarily state and local taxes) for current income. It is possible that the Company could become profitable and that a portion or all of the NOL carry forwards would be realized. Upon reaching that conclusion, the estimated net realizable value of the deferred tax asset would be recorded and a provision for income taxes would be established at the combined federal and state effective rates.

Year Ended December 31, 2002 Compared with Year Ended December 31, 2001

Revenue

Primarily due to the sale of Tribco, a wholly-owned subsidiary of the Company, revenues in 2002 decreased 17% to \$11,244,171 compared with \$13,581,542 in 2001. Excluding revenues from business units that were sold (Queens, Nassau and Manhattan newspapers that were sold in November 2002 and April and August 2001, respectively), overall revenues in 2002 increased by \$463,938, or 6%, compared with the prior year. Variances in specific revenue categories excluding revenues from business units which were sold are as follows: display advertising, which accounted for 86% of total sales in 2002, increased by \$145,271, or 2%, to \$7,267,536 for 2002 from \$7,122,265 for 2001; classified advertising increased by \$305,994, or 39%, to \$1,083,742 in 2002 from \$777,748 in 2001; and other revenue increased 11% from \$119,992 in 2001 to \$132,665 in 2002.

Among the individual continuing operating units, total revenues for Dan's Papers increased by \$378,139, or 8%, in 2002 compared to 2001, with gains of 48% in classified advertising. Revenues for The Hill increased by \$85,798, or 2%, for 2002 compared to 2001, with the gain in display advertising.

Operating Expenses

Operating expenses decreased by \$3,300,856, or 22%, to \$11,915,405 in 2002 compared to \$15,216,261 in 2001. This variance was due to the sale of business units that have historically lost money. Operating expenses excluding expenses from sold businesses (Queens, Nassau and Manhattan newspapers that were sold in November 2002 and April and August 2001, respectively) increased by \$168,166, or 2%, to \$9,283,424 in 2002 from \$9,115,258 in 2001.

Variances in specific expense categories excluding sold businesses are as follows: editorial expenses in 2002 increased by \$69,347, or 8%, reflecting our

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

continuing investment in the content side of our publications; production and distribution expenses in 2002 decreased \$185,124 or 8%, due to the reduced production schedule at Dan's Papers for glossy inserts; selling expenses in 2002 were up by \$402,385, or 23%, reflecting increased classified advertising commissions at Dan's Papers and The Hill; general and administrative expenses in 2002 decreased by approximately \$21,634, or 0.6%, due to reductions in bad debt expenses and corporate expenses that were largely offset by a one time charge in December 2002 of approximately \$207,000 related to the accrued bonus and the liquidation and cash-out of a phantom equity interest in a subsidiary by the former publisher of The Hill; and depreciation and amortization in 2002 decreased by \$96,808, or 31%, due to

-7-

the write off of intangible assets in connection with the sale of businesses in 2001 and also due to the adoption of SFAS No. 142, Goodwill and Other Intangibles, as of January 1, 2002.

Income

EBITDA (earnings before interest, taxes, depreciation and amortization) improved by \$742,420 for the year ended December 31, 2002 from a loss of \$1,301,442 for the year ended December 31, 2001 to a loss of \$559,022 for the year ended December 31, 2002. This variance was due in part to growth of advertising sales, production and distribution cost efficiencies, savings from the completion in 2001 of the sale of business units that have historically lost money, and the determination of the Company to concentrate on core publications.

Year ended December 31,	2002	2001
EBITDA (earnings before interest, taxes, amortization and depreciation)		
Loss from operations	\$(671,234)	\$(1,634,719)
Depreciation and amortization	233,712	374,277
Minority interest in income of subsidiary	(121,500)	(41,000)
EBITDA	\$(559,022)	\$(1,301,442)

Those sold businesses generated EBITDA losses for the year ended December 31, 2001 of \$455,801 while another business sold in 2002 generated a favorable EBITDA profit variance of \$167,998 for the year ended December 31, 2002.

EBITDA, a measure widely used among media related businesses, is used in this report because management believes that it is an effective way of monitoring the operating performance of the Company. EBITDA does not include gains or losses from the sale of subsidiaries.

EBITDA excluding the sold businesses, improved by \$118,464, or 14% to a loss of \$704,984, compared to a loss of \$823,448 for the same period in 2001. This is primarily attributed to revenue gains of \$463,938, a decrease in production and distribution costs of \$115,777, offset by increases in selling

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

expenses of \$402,385 due to higher commissions driven by advertising revenue growth and to marketing costs, and general and administrative costs of \$139,366. Minority interest expense declined by approximately \$80,500.

Net loss for the full year 2002 decreased by \$2,061,628 to a net loss of \$735,434 from a net loss of \$2,797,062 for the year 2001. In addition to the elements contributing to the EBITDA improvement, the decrease was largely attributed to an improvement of \$1,007,022 from a loss on sale of subsidiaries totaling \$917,696 in 2001 to a gain of \$89,326 on the sale of a subsidiary in 2002, a decrease in depreciation and amortization expense of approximately \$141,000, interest income of \$16,189 in 2002 compared to interest expense of \$40,648 in 2001, and a reduction in the provision for income taxes of \$114,784.

Sale of Subsidiaries

On November 11, 2002, NCI sold substantially all of the assets and liabilities of Tribco Incorporated to Tribco LLC, an entity owned, in part, by the management of Tribco Incorporated. Tribco was the publisher of three weekly newspapers in Queens, NY; two of which are published in nine editions. The newspapers have historically generated small operating profits and compete in a mature marketplace where growth potential was deemed as limited. Management believed that it was beneficial for the Company to sell the Queens newspapers and focus on growing its other properties. (See Note 15 of Notes to Consolidated Financial Statements).

-8-

Income Taxes

We currently have net operating loss (NOL) carryforwards for federal income tax purposes of approximately \$16.8 million, which is available to offset federal taxable income through the 2022 fiscal year. We have provided a 100% valuation allowance on deferred tax assets substantially resulting from the NOL carryforwards discussed above. We recorded a provision of approximately \$48,000 for state and local income taxes for the year ended December 31, 2002.

Effects of Inflation

We do not believe that inflation has had a significant impact on our financial position or the results of operations in the past three years.

Retirement of Outstanding Indebtedness

As of December 31, 2002, we have an 8% Convertible Note in the principal amount of \$200,000 that is due on the earlier of (a) January 1, 2004, or (b) upon the sale of the stock or assets of a subsidiary to the extent that the cash proceeds from such transactions equal or exceed \$1,000,000; a deferred purchase obligation in the principal amount of \$1,200,000, bearing interest at prime plus one percent, which is due in equal installments on November 24, 2003 and November 23, 2004; and an obligation of which the final terms are being negotiated that the Company estimates will be in the principal amount of approximately \$224,500 expected to be payable in three installments. Approximately \$112,250 may be payable in April and May 2002 and the final installment of approximately \$112,250 may be payable in May 2004. The final installment will bear interest at 8% per annum. (See Notes 5 and 6 in notes to

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

consolidated financial statements.)

Liquidity and Capital Resources

During 2002, the total cash provided from operations was \$315,750. This was primarily attributable to a decrease in receivables of \$437,918 and to the improvement from a loss on the sale of a subsidiary of \$917,696 in 2001 to a profit of \$89,326 from the sale of another subsidiary in 2002. The cash flow from operating activities improved from a net loss of \$2,797,062 to a net loss of \$735,434 and was largely offset by non-cash adjustments for depreciation and amortization and bad debt reserves.

Cash provided by investing activities totaled \$271,504 as capital expenditures of \$46,829 were offset by the \$318,333 in proceeds from the sale of substantially all of the assets and liabilities of Tribco Incorporated.

Cash used in financing activities in 2002 was \$631,283, and included \$400,000 paid to a minority shareholder of Dan's Papers on the acquisition by the Company of the minority interest. Also included was payment of \$300,000 for the purchase in December 2000 of 250,000 shares of common stock from the former President and CEO of the Company pursuant to a separation agreement. The Company received a scheduled \$50,000 payment on a note receivable in the amount of \$550,000, bearing an interest rate of 5%, issued to the Company in conjunction with the sale in 2001 of the stock of the Manhattan Publishing Group.

As of December 31, 2002, the Company had current assets of approximately \$1,417,219, including cash of approximately \$552,476. At December 31, 2002 we had an excess of current liabilities over current assets in the amount of approximately \$777,265. Included is a \$600,000 payment due to the former minority shareholder of Dan's Papers, which amount can be paid in 2004 without violating the terms of the Company's agreement with the minority shareholder, and approximately \$112,250 that the Company estimates will be payable in 2003 to the former publisher of The Hill upon finalization of terms of an agreement that is being negotiated for accrued vacation and bonus and to cash-out a phantom equity interest in Capital Hill. (See Note 5 and Note 6 in notes to consolidated financial statements.) During 2002, cash generated from operating activities was \$315,750 compared with cash used in operating activities of \$1,525,676 for the previous year.

-9-

Historically, in addition to cash from operations, the Company has relied on financing in the form of sales of equity securities, sales of convertible notes, and a \$1,000,000 Revolving Credit Facility extended by a shareholder to meet its working capital requirements. As previously discussed, the Company has sold subsidiaries that historically did not generate positive cash flow. The sale of these subsidiaries has also generated cash. Additionally, cash management techniques implemented by the Company in the fourth quarter of 2001 greatly improved cash flow during the year 2002. As discussed in Item 1 under New Business Initiatives, the Company is planning to grow the operations of its core publications, Dan's Papers and The Hill and to potentially launch a new publication mid-year which will require additional capital. Further, in 2002, the Company purchased the minority interest in Dan's Papers from its publisher for \$1,600,000, of which \$600,000 is scheduled to be paid in November of 2003, but can be paid in 2004 without violating the agreement with the minority

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

shareholder. The Company intends to finance these obligations from working capital, from investments from additional sales of equity securities, from the installment payments due to the Company from the sale of subsidiaries, from the sale of minority interests in its new publication or by a partial sale of assets. A total of \$100,000 has been received to date from the sale of the Company's common stock pursuant to Stock Subscription Agreements discussed in Part II, Item 6, Sale of Unregistered Securities. The Company believes that additional investment to fund the Company's obligations will be received during the course of 2003. Regardless of whether additional funds are received, the Company believes that it will have sufficient working capital to fund its operations through December 31, 2003. In the event that its working capital is not sufficient and the Company is not able to secure additional equity or debt investment, the Company can still continue to operate during 2003 in the ordinary course although it may have to reduce or terminate its expansion efforts and defer the \$600,000 payment due to publisher of Dan's Papers into 2004 as the agreement with the minority owner provides.

The Company believes that it may require additional capital in the long-term in order to satisfy all of its obligations, including the balance of the payments due to the former minority owner of Dan's Papers and the former publisher of The Hill. The exact amount of the required funding cannot be determined at this time with specificity. Accordingly, in the future the Company may need to seek additional financial partners to meet any long-term obligations.

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

On March 24, 2003, pursuant to a Subscription Agreement, Melvin A. Weiss purchased 50,000 shares of the Company's common stock at a purchase price of \$1.00 per share.

On March 17, 2003, pursuant to a Subscription Agreement, the President of the Company, James A. Finkelstein, acquired 50,000 shares of the Company's common stock at a purchase price of \$1.00 per share.

On November 27, 2002, pursuant to the terms of a Letter Agreement by and between Daniel Rattiner and News Communications, Inc., Mr. Rattiner exercised his option to require the Company to purchase shares of common stock of Dan's Papers, Inc (the "Put Shares") which the Company did not already own. The Company purchased the Put Shares for a total of \$1,600,000, of which \$400,000 was paid at closing on November 27, 2002. The balance of the purchase price is due, with interest at a rate of prime plus one percent, in two equal installments on the first and second anniversaries of the closing.

On June 4, 2001, pursuant to the terms of a Subscription Agreement, our President, James A. Finkelstein, acquired 750,000 shares of NCI's common stock at \$1.00 per share, of which 500,000 shares were purchased in June 2001 and the balance were purchased on July 31, 2001. The Company also issued to the President in consideration for his investment in NCI 250,000 additional shares of common stock. As further consideration for the investment by Mr. Finkelstein, the Company issued 5-year warrants to purchase 3,000,000 shares of common stock, of which 1,000,000 warrants have an initial exercise price of \$1.10 per share, 1,000,000 warrants have an initial exercise price of \$1.50 per share, and 1,000,000 warrants have an initial exercise price of \$2.00 per share. The warrants became exercisable on May 16, 2002.

On June 4, 2001, pursuant to a Subscription Agreement, D. H. Blair Investment Banking Corp purchased 250,000 shares of our common stock at a purchase price of \$1.00 per share. The shares purchased were immediately surrendered to the Company.

On June 4, 2001, pursuant to a Subscription Agreement, D.H. Blair Investment Banking Corp., converted \$150,000 of the Company's 8% Convertible Note plus accrued interest of \$7,595 into 157,594 shares of the Company's common stock at a purchase price of \$1.00 per share. At the same time, Rosalind Davidowitz converted \$1,000,000 of the Company's 8% Convertible Note plus accrued interest of \$38,575 into 1,038,575 shares of the Company's common stock at a purchase price of \$1.00 per share.

Also on June 4, 2001, in connection with the consummation of the transactions contemplated by the Letter Agreement with Mr. Finkelstein, the Company repaid D.H. Blair Investment Banking Corp., \$300,000 plus accrued interest representing outstanding advances under a certain Revolving Note dated March 30, 2001, and the corresponding revolving credit facility was terminated. Under terms of the revolving credit facility, the principal shareholders made available on a revolving basis from time to time up to \$1,000,000. An 8% revolving credit note evidenced the revolving credit advances. The aggregate amount of the Revolving Loans and interest were due on the earlier of (a) March 31, 2002, or (b) upon the next round of equity financing, or (c) receipt of proceeds (net of any anticipated costs or expenses associated therewith) from a sale of a subsidiary. The holders of the revolving note had the right to

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

convert the principal amount and accrued interest under the revolving note at a conversion price of \$1.00 per share at any time before the payment in full of such amounts due under the Loan. Upon payment in full of the revolving loans, in accordance with the terms of the agreement pursuant to which the loan was made, the Company issued 300,000 5-year warrants to D.H. Blair Investment Banking Corp. to purchase the Company's common stock at an exercise price of \$1.00 per share.

During March 2001, the Company borrowed \$200,000 from D.H. Blair Investment Banking Corp. which is evidenced by an amended 8% Convertible Note from principal shareholders of the Company. Principal and interest are due on the earlier of (a) January 1, 2004, or (b) upon the next round of equity financing. As of December 31, 2002, accrued interest was \$29,172. The Company believes that the transactions described above are on terms as favorable to NCI as those that could have been obtained from independent third parties and arms-length negotiations.

Notes to Consolidated Financial Statements

1. Organization and Industry Segment

Description of Business - News Communications, Inc., a Nevada corporation, through its subsidiaries, publishes and distributes advertiser-supported newspapers. The Company's publishing subsidiaries are Dan's Papers, Inc. ("DPI") and Capital Hill Publishing Corp. ("Capital Hill"). News Communications, Inc. and Subsidiaries ("NCI", or the "Company") function in one industry segment, which is the news publication business.

On November 11, 2002, NCI sold substantially all of the assets and liabilities of Tribco Incorporated. On August 3, 2001, NCI completed the sale of Manhattan Newspaper Group. On April 30, 2001, NCI sold substantially all of the assets and liabilities of the Nassau Community Newspaper Group, Inc. and South Shore Publisher, Inc. (see Note 15).

2. Summary of Significant Accounting Policies

Principles of Consolidation - The consolidated financial statements of the Company include the accounts of the parent company and its subsidiaries. All intercompany accounts and transactions have been eliminated. The ownership interest of non-controlling owners is reflected as minority interest.

Fair Value of Financial Instruments - The carrying amounts reported in the consolidated balance sheet for cash, accounts receivable and accounts payable approximate fair value because of the immediate or short-term maturity of these financial instruments. It is not practical to determine the fair value of the debt to related parties.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates have been made by management with respect to the Company's allowance for doubtful accounts, amortization relating to trade names, and other items. Actual results could differ from those amounts.

Allowance for Doubtful Accounts - Senior management reviews accounts receivable on a monthly basis to determine if any receivables will potentially be uncollectible. The Company includes any accounts receivable balances that are determined to be uncollectible, along with a general reserve based on certain percentages of the aged receivables, in the overall allowance for doubtful accounts. After all attempts to collect a receivable have failed, the receivable is written off against the allowance. Based on the information available, the Company believes that its allowance for doubtful accounts as of December 31, 2002 is adequate.

Property and Equipment - All expenditures for betterments and additions are capitalized. Expenditures for normal repairs and maintenance are charged against income as incurred. Depreciation and amortization are provided for financial reporting purposes on the basis of various estimated useful lives of the assets, using the straight-line method as follows:

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

News Communications, Inc. and Subsidiaries

	Years
Furniture, fixtures, and office equipment	5 - 10
Leasehold improvements	Shorter of useful life of asset or length of lease
Computer equipment	5
Distribution boxes	5

Intangibles - Intangibles represent acquisition costs in excess of the fair value of net tangible assets of businesses purchased and consist primarily of trade names and goodwill. Trade names are being amortized over twenty years on a straight-line basis. Prior to January 1, 2002, goodwill was amortized on a straight-line basis over twenty years. On January 1, 2002, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 142, Goodwill and Other Intangible Assets ("SFAS 142") and suspended the amortization of goodwill. Goodwill has not been amortized, but instead is now evaluated for impairment. See Notes 4 and 5 for the impact of the adoption of SFAS 142.

Long-Lived Assets - Long-lived assets, such as trade names and property and equipment, are evaluated for impairment when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable though the estimated undiscounted future cash flows form the use of these assets. When any such impairment exists, the related assets will be written down to fair value. Other than the loss on sale of subsidiaries in 2001, no impairment losses have been necessary through December 31, 2002.

Revenue Recognition - Advertising revenues are earned when advertisements appear in the various publications. Unearned revenues of \$78,849 at December 31, 2002, represent future advertisements that have been paid for by customers in advance.

Seasonality - One of the Company's publications (which generated approximately 43% of revenues for the year ended December 31, 2002 and approximately 32% for the year ended December 31, 2001) is a resort-area newspaper that earns a significant portion of its revenue during the summer months.

Shipping and Handling Costs - Shipping and handling costs billed to customers are recorded as revenue and are immaterial. The costs associated with shipping goods to customers are recorded as an operating expense.

Concentration of Customers - The majority of the Company's customers are located in the Washington, D.C. and Eastern Long Island areas.

Concentrations of Credit Risk - Financial instruments that potentially subject the Company to concentrations of credit risk are cash and accounts receivable arising from its normal business activities. The Company

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

routinely assesses the financial strength of its customers and, based upon factors surrounding the credit risk of its customers, establishes an allowance for uncollectible accounts and, as a consequence, believes that its accounts receivable credit risk exposure beyond such allowance is limited. The Company places its cash with high credit quality financial institutions. The Company has not experienced any losses with financial institutions. The amount on deposit in any one institution that exceeds federally insured limits is subject to

F-8

News Communications, Inc. and Subsidiaries

credit risk. As of December 31, 2002, the Company had no funds with financial institutions subject to a credit risk beyond the insured amount.

Loss Per Common Share - Basic loss per share includes no dilution and is computed by dividing loss available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted loss per share reflects the potential dilution from the assumed exercise of stock options, warrants and conversion of preferred stock. Common stock equivalents were not included in the calculations in 2002 or 2001 since their effects were anti-dilutive. Accordingly, basic and dilutive earnings per share did not differ for the years ended December 31, 2002 and December 31, 2001.

For the years ended December 31, 2002 and 2001, options to purchase 743,156 and 752,325 shares of common stock, warrants to purchase 3,315,873 and 3,432,222 shares of common stock, convertible preferred shares convertible into 752,045 and 752,645 shares of common stock, and convertible notes convertible into 229,172 and 213,172 shares of common stock, respectively, were not included in the computation of diluted loss per share because the effect would be anti-dilutive.

Income Taxes - Income taxes are calculated using the liability method specified by Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes." SFAS No. 109, requires a company to recognize deferred tax liabilities and assets for the expected future tax consequences of events that have been recognized in a company's financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between the financial statement carrying amounts and tax bases of assets and liabilities using enacted tax rates in effect in the years in which the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance to the extent realization is uncertain.

Accounting for Stock-Based Compensation - The Company has chosen to account for stock-based compensation to employees and non-employee members of the Board using the intrinsic value method prescribed by Accounting Principles Board Opinion ("APB") No. 25, Accounting for Stock Issued to Employees, and related interpretations. As required by SFAS No. 123, Accounting for Stock-Based Compensation, the Company has presented certain pro forma and other disclosures related to stock-based compensation plans. See Note 11 for disclosure of assumptions utilized in the calculation of fair value.

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

In accordance with SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure," the following table illustrates the effect on net loss and loss per share as if the Company had applied the fair value recognition provisions of SFAS No. 123, "Accounting for Stock-Based Compensation," to stock-based employee compensation:

News Communications, Inc. and Subsidiaries

In December 2002, the FASB issued SFAS No. 148 which provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, SFAS 148 amends the disclosure requirements of SFAS No. 123, Accounting for Stock-Based Compensation, to require disclosure in both interim and annual financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. SFAS No. 148 is effective for fiscal years ended after December 15, 2002 and for interim financial statements beginning after December 15, 2002. The Company plans to continue using the intrinsic value method for stock based compensation.

Major classes of property and equipment are as follows:

Depreciation expense for the years ended December 31, 2002 and 2001 amounted to \$173,758 and \$212,337, respectively.

4. Intangible Assets

Goodwill - As of January 1, 2002, the Company adopted SFAS 142 that requires, among other things, that companies no longer amortize goodwill, but instead test goodwill for impairment at least annually. In addition, SFAS 142 requires that the Company identify reporting units for the purposes of assessing potential future impairments of goodwill, reassess the useful lives of other existing recognized intangible assets, and cease amortization of intangible assets with an indefinite useful life.

The Company's previous business combinations were accounted for using the purchase method. As of December 31, 2002, the net carrying amount of goodwill is \$314,809. The Company recorded this goodwill in connection with the acquisition of minority interest in September 2002 (see Note 5). The Company completed its first fair value-based goodwill impairment test, which resulted in no impairment loss being recorded.

The impact of goodwill amortization on the year ended December 31, 2001 net loss and loss per common share was (\$59,805) and (\$0.006), respectively. Had the Company adopted SFAS 142

F-10

News Communications, Inc. and Subsidiaries

on January 1, 2001, the year ended December 31, 2001 net loss would have been (\$2,737,257) and the loss per common share would have been (\$0.28). Trade names - Trade names are amortized on a straight-line basis over 20 years. The Company recorded the trade names in connection with the acquisition of minority interest in September 2002 (see Note 5). Trade names and goodwill as of December 31, 2002 consisted of:

December 31, 2002

Trade names	\$521,253

Amortization expense of \$59,954 and \$102,135 was recognized for the years ended December 31, 2002 and December 31, 2001. Amortization expense for each of the five succeeding years is estimated to be approximately \$26,000 per year.

5. Acquisition of Minority Interest

On September 23, 2002 the minority shareholder, a related party, of DPI notified the Company of his intention to exercise an option to sell to NCI the 20% stock ownership that the party holds in Dan's at a purchase price of \$1,600,000. An amount of \$400,000 was paid on November 27, 2002 and the balance to be paid, with interest, at prime plus one percent in two equal installments (i.e. \$600,000 plus interest) on November 27, 2003 and 2004, which amounts may be paid in 2004 and 2005 without violating the terms of the Company's agreement with the minority shareholder.

The following unaudited pro forma information presents a summary of the results of operations of the Company assuming the acquisition of the minority interest occurred on January 1, 2001 and includes trade name amortization expense for 2002 and 2001 (see Note 15):

F-11

News Communications, Inc. and Subsidiaries

	Year Ended

Net loss	\$ (651,668)	\$ (2,782,125)
Net loss per share, basic and diluted	\$ (0.06)	\$ (0.29)

The acquisition of the minority interest was accounted for under the purchase method of accounting, applying the provisions of Statements of Financial Accounting Standards No. 141 and, as a result, the Company recorded the acquisition of the minority interest in the assets and liabilities of Dan's at their estimated fair values with the excess of the purchase price over these amounts being recorded as trade names (\$521,253) and goodwill (\$314,809) (see Note 4).

6. Related Parties

During the year 2000, the Company received \$1,150,000 in the form of 8%

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

Convertible Notes payable to principal shareholders of the Company. The notes and interest were due on December 31, 2001, or earlier, upon the next round of equity financing. On June 4, 2001 the principal shareholders consummated a Subscription Agreement pursuant to which the principal shareholders converted \$1,150,000 of the Company's 8% Convertible Notes plus accrued interest of \$46,169 into 1,196,169 shares of the Company's Common Stock at a price of \$1.00 per share (See Note 9).

As amended, Principal and interest are due on the earlier of (a) January 1, 2004, or (b) upon the next round of equity financing and have a stated interest rate of 8% per annum. As of December 31, 2002, accrued interest was \$29,172. Under terms of the agreement, the principal shareholder was willing to make available on a revolving basis from time to time an aggregate principal amount not to exceed \$1,000,000 at a stated interest rate of 8%. The aggregate amount of the Revolving Loans and interest were due on the earlier of (a) March 31, 2002, or (b) upon the next round of equity financing, or (c) receipt of proceeds (net of any anticipated costs or expenses associated therewith) from the sale of a subsidiary. 300,000 5-year warrants to purchase the Company's Common Stock at an exercise price of \$1.00 per share (see Note 12). The fair value of the 300,000 warrants was immaterial.

Pursuant to a Subscription Agreement, which was consummated on June 4, 2001, the principal shareholders purchased 250,000 shares of the Company's Common Stock at the price of \$1.00 per share. The shares purchased were immediately surrendered to the Company in order to allow the Company to issue the 250,000 shares to its President as described in Note 9.

During 2002 there was no conversion by holders of the Company's \$10 convertible preferred stock. In October 2001, holders of the Company's \$10 convertible preferred stock converted 5000 shares into 19,106 shares of common stock. As a result, common stock at par increased by \$191, additional paid in capital common stock increased by \$49,809, preferred stock at par decreased by \$5,000 and additional paid-in capital preferred stock decreased by \$45,000.

Dividends on the \$10 convertible preferred stock are noncumulative and are payable at a rate of five times the amount of dividends, if any, per share declared and paid by the Company on its common stock.

The holders of the \$10 convertible preferred stock may convert each share, at any time, into shares of common stock. The number of shares of common stock into which each share of the \$10 convertible preferred stock may be converted is obtained by dividing \$10 by a conversion price. The conversion price was initially set at \$6.00, and is subject to adjustments generally for dilution or decline in the market price below \$6.00. As a result of these adjustments, the current conversion price is \$3.82.

The holders of the \$10 convertible preferred stock have substantially the same voting rights as the holders of the Company's common stock; however, the vote of the holders of the \$10 convertible preferred stock, acting as a single class, is required for shareholder approval of certain corporate matters. Each holder of the \$10 convertible preferred stock is entitled to the number of votes that he or she would have had if each share of the \$10 convertible preferred stock had been converted into shares of common stock.

11. Stock-based Compensation

SFAS No. 123, "Accounting for Stock-Based Compensation," establishes financial accounting and reporting standards for employee stock-based compensation plans and to transactions in which an entity issues its equity instruments to acquire goods or services from non-employees. SFAS No. 123 encourages, but does not require, companies to record compensation cost for employee stock-based compensation plans at fair value. The Company has elected, as permitted by SFAS No. 123, to account for its employee plans using the intrinsic value based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, as described in Note 2. However, pro forma disclosures of net income and earnings per share must be made as if the SFAS No. 123 accounting standard had been adopted. The fair value of options for purposes of the SFAS No. 123 pro forma disclosures has been estimated using a Black-Scholes option-pricing model.

In July 1999, the Company entered into a stock option agreement with two directors for five-year options to purchase an aggregate of \$350,000 shares of common stock at an exercise price of \$2.25 per share. The options are

immediately exercisable.

Information regarding the Company's stock option plans is as follows:

The option price will be the fair market value (110%) of the fair market value for qualified incentive stock options granted to a holder of 10% or more of the Company's common stock) as defined by the Plan. Generally, options may be exercised commencing two years from the date of grant and terminating ten years from the date of grant. The following is a summary of transactions:

Options under the Discretionary Option Plan are nonqualified and non-incentive options for purposes of income taxation and are not intended to qualify under Section 422A of the Internal Revenue Code of 1986. No grants were made under the Discretionary

Option Plan during the fiscal years ended December 31, 2002 and 2001.

On August 17, 1993, the Board also adopted a Non Discretionary Directors Stock Option Plan (the "Non-Discretionary Option Plan") pursuant to which each director will be granted, on August 17, 1993 and each anniversary thereof on which he or she continues to be a director, a five year option to purchase 3,333 shares of common stock at the market price on the date of the grant. Under this plan, a maximum of 166,667 shares of common stock is available for issuance. The Non Discretionary Option Plan also provides that any person becoming a director within the six months after any August 17 will be granted options. On August 17, 2002, options to purchase 26,664 shares of common stock were granted at an exercise price of \$0.79 per share and a fair market value of \$0.47 per share. For purposes of pro forma disclosure, the estimated fair value of the options and warrants (see Note 12) are amortized to expense over the vesting period of the options and warrants. The fair value of these options and warrants was estimated at the date of grant using a Black-Scholes options pricing model with the following weighted average assumptions for 2002 and 2001, respectively: risk-free interest rate of 3.41% from 4.49% to 4.93%; volatility factor of the expected market price of the Company's common stock of 70.0%; and weighted average expected lives of 5 and 8.3 years (see Note 2).

12. Stock Warrants

At December 31, 2002, the Company has 3,315,873 shares of stock reserved for issuance upon exercise of warrants. Information regarding the Company's warrants outstanding is as follows:

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

At December 31, 2002 and 2001, 3,315,873 and 432,222 non-redeemable warrants were exercisable, respectively. Each warrant entitles the holder to purchase one share of the Company's common stock at an exercise price ranging from \$1.00 to \$2.00 per share. The warrants are exercisable and expire on the following dates:

Number of warrants	Grant date	Expiration date
15,873	January 11, 2000	January 11, 2005
300,000	June 4, 2001	June 4, 2006
3,000,000	June 4, 2001	April 19, 2006

There were no exercises of non-redeemable warrants during the years ended December 31, 2002 and 2001. During 2002, 116,349 non-redeemable warrants expired, unexercised.

All of the warrants that expire January 2005 were issued in connection with the conversion of 8% preferred stock to common stock (see Note 9). All of the warrants that expire June 2006 were issued to an affiliate of the principal shareholder of the Company in connection with a promissory note (see Note 6). All of the warrants that expire April 2006 were issued to the President of the Company, pursuant to a Letter Agreement, as additional consideration for his common stock investment (see Notes 6 and 9).

13. Income Taxes

The Company has a deferred tax asset amounting to approximately \$9 million at December 31, 2002, principally relating to cumulative net operating loss carry forward and a basis difference in the carrying amount of trade accounts receivable for financial reporting purposes and the amount used for income tax purposes. The Company recorded a valuation allowance amounting to the entire deferred tax asset balance due to the Company's financial condition, its lack of a history of consistent earnings, and possible limitations on the use of the operating loss carry forward giving rise to uncertainty as to whether the deferred tax asset is realizable

As of December 31, 2002, the Company had net operating loss income tax carryforwards of approximately \$16.8 million, which expire in the years 2007 through 2022. Current federal tax laws include substantial restrictions on the utilization of net operating losses and tax credits in the event of an "ownership change" of a corporation. The Company's ability to utilize net operating loss and tax credit carryforwards may be limited as a result of an ownership change. Such a limitation could result in the expiration of carryforwards before they are utilized.

The Company recorded provisions of approximately \$48,000 and \$163,000 for state and local income taxes for the years ended December 31, 2002 and 2001, respectively.

14. Recent Accounting Standards

In July 2002, the FASB issued Statement of Financial Accounting Standards No. 146, Accounting for Costs Associated with Exit or Disposal Activities ("SFAS 146"). SFAS 146 address financial accounting and reporting for costs associated with exit or disposal activities and nullifies Emerging Issues Task Force (EITF) Issue No. 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity

Edgar Filing: NEWS COMMUNICATIONS INC - Form 10KSB

(including Certain Costs Incurred in a Restructuring)." SFAS 146 requires that a company recognize a liability for a cost associated with an exit or disposal activity only when it meets the definition of liability (i.e., when the liability is

F-20

incurred). SFAS 146 also requires that the initial measurement of the liability be at its fair value. This statement is effective on a prospective basis for exit or disposal activities that are initiated after December 31, 2002, with early application encouraged. The Company is currently evaluating the provisions of this statement. The adoption of SFAS 146 is not expected to have a material impact on the Company's financial position or results of operations.
