PROSPECTUS

**Shares
Starwood Property Trust, Inc.**

Common Stock

Starwood Property Trust, Inc. is a newly organized Maryland corporation focused primarily on originating, investing in, financing and managing commercial mortgage loans and other commercial real estate debt investments, commercial mortgage-backed securities, and other commercial real estate-related debt investments. We may also invest in residential mortgage loans and residential mortgage-backed securities. We will be externally managed and advised by SPT Management, LLC, which is controlled by Barry Sternlicht, our chairman and chief executive officer. SPT Management, LLC is an affiliate of Starwood Capital Group, a privately-held private equity firm founded and controlled by Mr. Sternlicht.

This is our initial public offering and no public market currently exists for our common stock. We are offering shares of our common stock as described in this prospectus. We expect the initial public offering price of our common stock to be \$ per share. We have applied to list our common stock on the New York Stock Exchange under the symbol STWD.

At our request, the underwriters have reserved for sale, at the initial public offering price, up to % of the shares offered hereby for sale to our directors and officers as well as employees of, and other persons having relationships with Starwood Capital Group and its affiliates, including investors in private funds managed by affiliates of Starwood Capital Group. The number of shares available for sale to the general public will be reduced to the extent such persons purchase such reserved shares.

Concurrently with the completion of this offering, SPT Investment, LLC, an affiliate of Starwood Capital Group which is controlled by Mr. Sternlicht, will acquire \$ million of our common stock in a private placement at a price per share equal to the price per share in this offering.

We intend to elect and qualify to be taxed as a real estate investment trust, or REIT, for U.S. federal income tax purposes, commencing with our taxable year ending December 31, 2009. To assist us in qualifying as a real estate investment trust, stockholders are generally restricted from owning more than 9.8% by value or number of shares, whichever is more restrictive, of our outstanding shares of common or capital stock. Different ownership limits will apply to Starwood Capital Group and SPT Investment, LLC. In addition, our charter contains various other restrictions on the ownership and transfer of our common stock, see Description of Capital Stock Restrictions on Ownership and Transfer.

Investing in our common stock involves risks. See Risk Factors beginning on page 24 of this prospectus for a discussion of the following and other risks:

We have no operating history and may not be able to operate our business successfully or generate sufficient cash flow to make or sustain distributions to our stockholders.

We have not yet identified any specific investments that we may acquire with the net proceeds of this offering and the concurrent private placement.

There are various conflicts of interest in our relationship with Starwood Capital Group, which could result in decisions that are not in the best interest of our stockholders.

We are dependent on Starwood Capital Group and their key personnel who provide services to us through the management agreement, and we may not find a suitable replacement for our Manager if the management agreement is terminated, or for these key personnel if they leave Starwood Capital Group or otherwise become unavailable to us.

Our failure to qualify as a REIT in any taxable year would subject us to U.S. federal income tax and potentially state and local taxes, which would reduce the cash available for distribution to our stockholders.

Maintenance of our exemption from registration under the Investment Company Act of 1940 and our REIT qualification impose significant limits on our operations.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Share	Total
Public offering price	\$	\$
Underwriting discounts and commissions ⁽¹⁾	\$	\$
Proceeds, before expenses, to Starwood Property Trust, Inc.	\$	\$

⁽¹⁾ Shares sold to investors in private funds managed by affiliates of Starwood Capital Group through the directed share program described above will be purchased by the underwriters from us at \$ per share, representing a discount to the underwriters of \$ per share.

The underwriters may purchase up to an additional shares of our common stock from us at the initial public offering price, less the underwriting discount, within 30 days after the date of this prospectus to cover overallotments, if any.

The shares of common stock sold in this offering will be ready for delivery on or about , 2009.

You should rely only on the information contained in this prospectus, or in any free writing prospectus prepared by us. We have not, and the underwriters have not, authorized any other person to provide you with different or additional information. If anyone provides you with different or additional information, you should not rely on it. We are not, and the underwriters are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus and any free writing prospectus prepared by us is accurate only as of their respective dates or on the date or dates which are specified in these documents. Our business, financial condition, liquidity, results of operations and prospects may have changed since those dates.

Until _____, 2009 (25 days after the date of this prospectus), all dealers that effect transactions in our common stock, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers' obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

Table of Contents

SUMMARY

This summary highlights some of the information in this prospectus. It does not contain all of the information that you should consider before investing in our common stock. You should read carefully the more detailed information set forth under Risk Factors and the other information included in this prospectus. Except where the context suggests otherwise, the terms company, we, us, and our refer to Starwood Property Trust, Inc., a Maryland corporation, together with its consolidated subsidiaries; our Manager refers to SPT Management, LLC, a Delaware limited liability company, our external manager; and Starwood Capital Group refers to Starwood Capital Group Global, L.P. (and its predecessors), together with its affiliates, including our Manager and SPT Investment, LLC, other than us. Unless indicated otherwise, the information in this prospectus assumes (1) the common stock to be sold in this offering is sold at \$ per share, (2) a \$ million investment will be made by SPT Investment, LLC, an affiliate of Starwood Capital Group, in a private placement to be completed concurrently with the completion of this offering, and (3) the underwriters do not exercise their overallocation option to purchase up to an additional shares of our common stock. Shares sold to certain investors through the directed share program described under Underwriting Directed Share Program will be purchased by the underwriters from us at a reduced underwriting discount, but will be sold to such investors at the same price per share as all other investors in this offering. The information in this prospectus assumes that no shares sold in this offering will be purchased by these investors.

Our Company

Starwood Property Trust, Inc. is a newly organized Maryland corporation focused primarily on originating, investing in, financing and managing commercial mortgage loans and other commercial real estate debt investments, commercial mortgage-backed securities, or CMBS, and other commercial real estate-related debt investments. We may also invest in residential mortgage loans and residential mortgage-backed securities, or RMBS. We collectively refer to commercial mortgage loans, other commercial real estate debt investments, CMBS, other commercial real estate-related debt investments, residential mortgage loans, and RMBS as our target assets.

We will be externally managed and advised by SPT Management, LLC pursuant to the terms of a management agreement. SPT Management, LLC, or our Manager, is controlled by Barry Sternlicht, our chairman and chief executive officer. SPT Management, LLC is an affiliate of Starwood Capital Group, a privately-held private equity firm founded and controlled by Mr. Sternlicht. Since its inception in 1991, Starwood Capital Group (including Starwood Capital-named affiliates controlled by Mr. Sternlicht), has sponsored eleven co-mingled opportunistic funds, including two dedicated debt funds, two dedicated hotel funds and several standalone and co-investment partnerships. Pursuant to the investment opportunity allocation provisions applicable to three funds managed by affiliates of Starwood Capital Group, including Starwood Global Opportunity Fund VIII, a private fund that targets equity and debt investments in real estate, Starwood Capital Hospitality Fund II Global, a private fund that targets debt and equity investments related to hotels and other hospitality related properties, and Starwood Capital Debt Fund II-U, L.P., a private fund that targets debt investments, we will have the right to invest from 67.5% to 90% of the equity capital proposed to be invested by any investment vehicle managed by an entity controlled by Starwood Capital Group in real estate related debt investments, subject to certain limitations described under Conflicts of Interest and Related Policies. Our Manager and Starwood Capital Group have agreed that neither they nor any entity controlled by Starwood Capital Group will sponsor or manage an additional publicly traded or any other investment vehicle that may invest in any of our target assets for so long as the management agreement is in effect and our Manager and Starwood Capital Group are under common control, unless either (i) our Manager adopts a policy providing for the fair and equitable allocation of investment opportunities between all investment vehicles managed by an entity controlled by Starwood Capital Group that may invest in our target assets or (ii) our Manager provides us the right to co-invest with such vehicles, in each case subject to the suitability of each investment opportunity for the particular

investment vehicle and the availability of each vehicle's capital for investment.

Table of Contents

Our objective is to provide attractive risk adjusted returns to our investors over the long term, primarily through dividends and secondarily through capital appreciation. We intend to achieve this objective by selectively acquiring target assets to construct a diversified investment portfolio designed to produce attractive returns across a variety of market conditions and economic cycles. We intend to construct a diversified investment portfolio by focusing on asset selection and the relative value of various sectors within the debt market.

We will commence operations upon completion of this offering. We intend to elect and qualify to be taxed as a real estate investment trust, or REIT, for U.S. federal income tax purposes, commencing with our taxable year ending December 31, 2009. We generally will not be subject to U.S. federal income taxes on our taxable income to the extent that we annually distribute all of our taxable income to stockholders and maintain our intended qualification as a REIT. We also intend to operate our business in a manner that will permit us to maintain our exemption from registration under the Investment Company Act of 1940, or the 1940 Act.

Our Manager and Starwood Capital Group

We will be externally managed and advised by SPT Management, LLC, or our Manager. Pursuant to the terms of a management agreement between our Manager and us, our Manager will provide us with our management team and appropriate support personnel. Pursuant to an investment advisory agreement between our Manager and Starwood Capital Group Management, LLC, our Manager will have access to the personnel and resources of Starwood Capital Group necessary for the implementation and execution of our business strategy.

Our chief executive officer and president and our other officers (other than the persons or person who will serve as our chief financial officer and chief compliance officer) are executives of Starwood Capital Group. The persons (or person) who will serve as our chief financial officer and chief compliance officer will be employed directly by us. We do not expect to have any other employees. Starwood Capital Group is not obligated to dedicate any of its executives or other personnel exclusively to us. In addition, none of Starwood Capital Group, its executives and other personnel, including our executive officers supplied to us by Starwood Capital Group, is obligated to dedicate any specific portion of its or their time to our business. Our Manager will at all times be subject to the supervision and oversight of our board of directors and has only such functions and authority as we delegate to it.

Our Manager is an affiliate of Starwood Capital Group, a privately-held private equity firm founded and controlled by Mr. Sternlicht. Starwood Capital Group has invested in most major classes of real estate, directly and indirectly, through operating companies, portfolios of properties and single assets, including multifamily, office, retail, hotel, residential entitled land and communities, senior housing, mixed-use and golf courses. Starwood Capital Group invests at different levels of the capital structure, including equity, preferred equity, mezzanine debt and senior debt, depending on the asset risk profile and return expectation. Starwood Capital Group has invested \$6.5 billion of equity in most major sectors of real estate across the capital structure, representing approximately \$21.0 billion in assets since inception as of March 31, 2009. As of March 31, 2009, Starwood Capital Group had approximately \$11.6 billion of real estate assets and debt positions under management.

Our Manager will be able to draw upon the experience and expertise of Starwood Capital Group's team of approximately 130 professionals and support personnel operating in nine cities across six countries. Our Manager will also benefit from Starwood Capital Group's dedicated asset management group comprised of approximately 22 people operating in seven offices located in the United States and abroad. We also expect to benefit from Starwood Capital Group's portfolio management, finance and administration functions, which address legal, compliance, investor relations and operational matters, asset valuation, risk management and information technologies in connection with the performance of our Manager's duties.

Concurrently with the completion of this offering, SPT Investment, LLC, an affiliate of Starwood Capital Group which is controlled by Mr. Sternlicht, will acquire \$ million of our common stock in a private placement at a price per share equal to the price per share in this offering. Upon completion of this offering

Table of Contents

and the concurrent private placement, SPT Investment, LLC will beneficially own % of our outstanding common stock (or % if the underwriters fully exercise their overallotment option). Each of SPT Investment, LLC and our Manager, each of which is controlled by Mr. Sternlicht, will agree that, for a period of after the date of this prospectus, it will not without the prior written consent of the representatives of the underwriters, dispose of or hedge any shares of our common stock, subject to certain exceptions and extension in certain circumstances as described elsewhere in this prospectus.

Market Opportunities

We believe that the next five years will be one of the most attractive real estate investment periods in the past 50 years. In the last decade, real estate became significantly overpriced as values appreciated beyond underlying fundamentals. In the past two years, a significant price correction has been underway. Due to continuing uncertainty about market direction, a void has been created in the debt and equity capital available for real estate. Many banks, insurance companies, finance companies and fund managers face insolvency or have determined to reduce or discontinue investment in real estate. Market dislocations have already caused and we believe will continue to cause an over-correction in the repricing of real estate assets. We believe that there will be a significant supply of distressed investment opportunities from sellers and equity sponsors, including national and regional banks, investment banks, individuals, insurance companies, finance companies, fund managers and other institutions. We expect to capitalize on these market dislocations and capital void by acquiring real estate debt positions, and originating new loans and other real estate related debt investments with less competition than when the debt markets were more liquid and at prices discounted to replacement cost.

Commercial Mortgage Loans

In the near to medium term, we anticipate a significant opportunity to acquire discounted loans on high quality real estate at attractive yields from banks, investment banks and other forced sellers due to margin calls, redemptions, capital adequacy concerns or capital requirements. Further, we believe there may be attractive opportunities to acquire discounted loans from failed depository institutions through the Federal Deposit Insurance Corporation, or the FDIC. However, we believe this will be a relatively short term opportunity. Pricing of performing debt will likely improve as spreads tighten and liquidity returns to the market.

We anticipate a longer term opportunity to originate commercial real estate mortgage and mezzanine loans and other debt investments to proven sponsors on high-quality assets at attractive yields and reasonable loan to value levels. Originations will likely be a pillar of our strategy as the wave of commercial mortgage loans matures.

Commercial Real Estate Corporate Debt

We also anticipate attractive investment opportunities in the corporate debt of publicly-traded commercial real estate operating and finance companies. Debt maturities and deteriorating fundamentals will continue to plague both public and private real estate companies for some time. Corporate bank debt and secured and unsecured bonds are trading at significant discounts to face value, implying asset valuations at discounts to replacement cost.

Commercial Mortgage Backed Securities

During the next two years, we anticipate attractive opportunities to acquire select CMBS bonds at attractive yields. As a result of risk premium re-pricing and severe liquidity constraints, implied spreads have widened considerably over the last nine months. Even the most senior AAA-rated CMBS are trading at levels that imply credit losses much higher than historical levels. We expect that investor confidence will eventually return and that spreads will tighten and pricing will stabilize to more reasonable levels. This process may be hastened by the U.S. Government s

intervention through the TALF and PPIP, each of which is described under Our Financing Strategy, which we expect to provide leverage to investments in CMBS. We believe that our Manager can further create value through careful security selection and proprietary cash flow analysis.

Table of Contents

Residential Mortgage Loans

Residential mortgage loan pricing has fallen to historically low levels as a result of the housing market correction which began in late 2006 and the current liquidity crisis. Given favorable long-term demographics trends and recent significant U.S. Government initiatives to support the housing market in the United States, we expect housing to be the first major real estate asset class to recover. We believe that opportunities exist in the near term to earn attractive returns by purchasing distressed residential mortgage loans at significant discounts to their unpaid principal balances from sellers, including regional banks, investment banks, the FDIC, and other institutions.

Our Manager's Competitive Strengths

We will benefit from the deep experience and significant expertise of our Manager's executive team in real estate debt and equity investing. Headed by Barry Sternlicht, our chairman and chief executive officer, six members of our Manager's executive team have worked together for over 12 years. On behalf of Starwood Capital Group's eleven sponsored funds, this team has been responsible for investing \$6.5 billion of equity across the capital structure in most major sectors of real estate, representing approximately \$21.0 billion in assets since inception as of March 31, 2009. As of March 31, 2009, Starwood Capital Group had approximately \$11.6 billion of real estate assets and debt positions under management.

The team has a proven debt investment track record in distressed market conditions similar to the current market. In the 1990's, Starwood Capital Group's first fund invested primarily in assets sold by the Resolution Trust Corporation and two of its early funds capitalized on distressed debt opportunities. We believe the team's relevant experience in commercial real estate debt investing and its expertise in commercial real estate acquisition, ownership and operation across all major sectors will enable us to better identify and underwrite investment opportunities. This range of experience is applicable to all of our target asset classes.

We believe that our Manager's competitive strengths will enable us to generate attractive risk-adjusted returns for our stockholders. These strengths include the following:

Experienced and Well-Known Investment Team

On behalf of the eleven co-mingled opportunistic funds sponsored by Starwood Capital Group, our Manager's executive team has closed more than 300 transactions involving all major real estate classes, ownership structures and investment positions in the past 18 years throughout all stages of the real estate investment cycle. As former chairman and chief executive officer of Starwood Hotels & Resorts Worldwide, Inc., a Fortune 500 company, Mr. Sternlicht enjoys relationships with corporate leaders around the globe that provide a source of transaction flow not otherwise available to the general investment community. Additionally, his broad operating and investing experience in 80 countries gives him an ideal vantage point for steering our investment strategy.

Exceptional Domain Expertise

Our Manager's executive team's particular expertise structuring and investing in debt for Starwood Capital Group's other sponsored investment vehicles, including two dedicated debt funds, is well matched to the opportunities in the current volatile credit markets. As exemplified by Starwood Capital Group's creation of iStar Financial, Inc., this team has considerable expertise in the credit markets, including origination and lending of real estate debt, investing in and managing mortgages and executing effective value realization strategies.

Expertise in Real Estate Capital Markets, Corporate Acquisitions and Operations

Our Manager's executive team's real estate capital markets, corporate acquisition and operating experience sets it apart from most traditional real estate investors. Our Manager's executive team has executed large corporate and portfolio transactions, demonstrating a sophisticated structuring capability and an ability to execute complex capital markets transactions. On behalf of other funds sponsored by Starwood Capital Group,

Table of Contents

members of our Manager's executive team have created or taken public three successful companies, including *iStar Financial, Inc.* and *Starwood Hotels & Resorts Worldwide, Inc.* It also participated in the formation of *Equity Residential Properties Trust*. Affiliates of Starwood Capital Group have also privatized large public entities such as *National Golf Properties, Inc.* and *Société du Louvre*.

Focus on Capital Preservation and Diversification

On behalf of Starwood Capital Group's other funds, our Manager's executive team has placed a premium on protecting and preserving capital by performing a comprehensive risk-reward analysis on each investment, with a rigorous focus on relative values between each real estate asset sector and geographic market and its position in the capital structure. Starwood Capital Group utilizes appropriate leverage to enhance equity returns while avoiding unwarranted levels of debt or excessive interest rate or foreign currency exposure. Our Manager intends to employ a similar capital preservation strategy for us.

Dedicated Asset Management Team and In-House Operational and Professional Services

Attaining attractive returns from investing in real estate requires both wise investment decision making and prudent asset management. Starwood Capital Group has an in-house asset management team that employs approximately 22 people in seven offices located both domestically and internationally. This team is responsible for managing all of the investments made by Starwood Capital Group's sponsored funds. Through an investment advisory agreement between our Manager and Starwood Capital Group Management, LLC, our Manager will be able to utilize Starwood Capital Group's in-house asset management team and legal, accounting and tax capabilities on our behalf.

Alignment of Starwood Capital Group and Our Manager's Interests

Concurrently with the completion of this offering, SPT Investment, LLC, an affiliate of Starwood Capital Group which is controlled by Mr. Sternlicht, will acquire \$ million of our common stock in a private placement at a price per share equal to the price per share in this offering. Upon completion of this offering and the concurrent private placement, SPT Investment, LLC will beneficially own % of our outstanding common stock (or % if the underwriters fully exercise their overallotment option).

Concurrently with the closing of this offering, we will grant shares of restricted common stock, equal to % of the number of shares that we issue in this offering (without giving effect to any exercise by the underwriters of their overallotment option) to . These shares will vest ratably on a quarterly basis over a -year period beginning on the last day of the quarter in which we complete this offering.

Our Investment Strategy

We will seek to maximize returns for our stockholders by constructing and managing a diversified portfolio of our target assets. Our investment strategy may include, without limitation, the following:

- seeking to take advantage of pricing dislocations created by distressed sellers or distressed capital structures and pursuing investments with attractive risk-reward profiles;

- focusing on acquiring debt positions with implied basis at deep discounts to replacement costs;

- focusing on supply and demand fundamentals and pursuing investments in high population and job growth markets where demand for all real estate asset classes is most likely to be present;

targeting markets with barriers to entry other than capital;

structuring transactions with an amount of leverage that reflects the risk of the underlying asset's cash flow stream, attempting to match the rate and duration of the financing with the underlying asset's cash flow, and hedging speculative characteristics; and

seeking to take advantage of acquisition financing programs and subsidies provided by the U.S. Government.

Table of Contents

In order to capitalize on the changing sets of investment opportunities that may be present in the various points of an economic cycle, we may expand or refocus our investment strategy by emphasizing investments in different parts of the capital structure and different sectors of real estate. Our investment strategy may be amended from time to time, if recommended by our Manager and approved by our board of directors, but without the approval of our stockholders. However, we would only be able to expand our investment strategy to include equity investments in real estate after the expiration of the exclusivity provisions of certain Starwood private real estate funds (Starwood Global Opportunity Fund VIII and Starwood Capital Hospitality Fund II Global) which restrict other Starwood Capital Group sponsored investment vehicles from targeting such types of investments.

Our Target Assets

We intend to invest predominantly in the United States in target assets secured primarily by U.S. collateral. We intend to originate or acquire loans and other debt investments backed by commercial real estate, or CRE, where the realizable value of the underlying real estate collateral is deemed to be more than the price paid for the loans or securities, as applicable. We may also invest in residential mortgage loans and RMBS. We may invest in performing and non-performing mortgage loans and other real estate-related loans and debt investments, but we will not target any near term loan to own investments as described in Conflicts of Interest and Related Policies. Our Manager will target markets where it has a view on the expected cyclical recovery as well as expertise in the real estate collateral underlying the assets being acquired. We will seek situations where a lender or holder of a loan or security is in a compromised situation due to the relative size of its CRE portfolio, the magnitude of non-performing loans, or regulatory/rating agency issues driven by potential capital adequacy or concentration issues.

Based on prevailing market conditions, our current expectation is that our initial investment portfolio will consist of between 60% to 70% commercial mortgage and mezzanine loans, 10% to 20% commercial real estate corporate debt, 10% to 20% MBS (consisting primarily of CMBS and secondarily of RMBS), and the balance in our other target assets. However, there is no assurance that upon the completion of this offering we will not allocate the proceeds from this offering and the concurrent private placement in a different manner among our target assets. Our decisions will depend on prevailing market conditions and may change over time in response to opportunities available in different interest rate, economic and credit environments.

Our target assets will include the following types of loans and other debt investments with respect to commercial real estate:

whole mortgage loans: loans secured by a first mortgage lien on a commercial property which provide long-term mortgage financing to commercial property developers or owners generally having maturity dates ranging from three to ten years;

bridge loans: whole mortgage loans secured by a first mortgage lien on a commercial property which provide interim or bridge financing to borrowers seeking short-term capital typically for the acquisition of real estate;

B Notes: typically a privately negotiated loan that is secured by a first mortgage on a single large commercial property or group of related properties and subordinated to an A Note secured by the same first mortgage on the same property or group;

mezzanine loans: loans made to commercial property owners that are secured by pledges of the borrower's ownership interests in the property and/or the property owner, subordinate to whole mortgage loans secured by first or second mortgage liens on the property and senior to the borrower's equity in the property;

construction or rehabilitation loans: mortgage loans and mezzanine loans to finance the cost of construction or rehabilitation of a commercial property;

Table of Contents

CMBS: securities which are collateralized by commercial mortgage loans, including:

senior and subordinated investment grade CMBS, which are rated BBB- (or Baa3) or higher,

below investment grade CMBS, which are rated lower than BBB- (or Baa3), and

unrated CMBS;

corporate bank debt: term loans and revolving credit facilities of commercial real estate operating or finance companies, each of which are generally secured by the company's assets;

corporate bonds: debt securities issued by commercial real estate operating or finance companies which may or may not be secured by the company's assets, including:

investment grade corporate bonds, which are rated BBB- (or Baa3) or higher by at least one nationally recognized rating agency,

below investment grade corporate bonds, and

unrated bonds.

Our target assets may also include the following types of loans and debt investments relating to residential real estate:

residential mortgage loans: loans secured by a first mortgage lien on a residential property;

RMBS: securities collateralized by residential mortgage loans, including:

Agency RMBS: RMBS for which a U.S. Government agency or a federally chartered corporation guarantees payments of principal and interest on the securities, and

Non-Agency RMBS: RMBS that are not guaranteed by any U.S. Government agency or federally chartered corporation.

Our Financing Strategy

Subject to maintaining our qualification as a REIT for U.S. federal income tax purposes and our exemption from the 1940 Act, we initially expect to finance the acquisition of our target assets, to the extent available to us, through (i) investments in funds that have non-recourse term borrowing facilities and capital provided under the Public-Private Investment Program, or the PPIP, (ii) non-recourse loans provided under the Term Asset-Backed Securities Loan Facility, or the TALF, (iii) securitizations, and (iv) other sources of private financing, including warehouse and bank credit facilities. In the future, we may utilize other sources of financing to the extent available to us. If we are unable to obtain financing through U.S. Government programs and unable to invest in the asset classes expected to be financed through these programs at attractive rates of return on an unlevered basis, then we will either utilize other financing sources or we will not invest in these asset classes.

The sources of financing for our target assets are described below.

The Public-Private Investment Program (PPIP)

On March 23, 2009, the U.S. Treasury, in conjunction with the FDIC and the Federal Reserve, announced the creation of the PPIP. The PPIP is intended to encourage the transfer of certain illiquid legacy real estate-related assets off of the balance sheets of financial institutions, restarting the market for these assets and supporting the flow of credit and other capital into the broader economy. The PPIP is expected to be \$500 billion to \$1 trillion in size and, as announced, has two primary components: the Legacy Loans Program and the Legacy Securities Program. As currently proposed, public-private investment funds, or PPIFs, under the Legacy Loans Program, or Legacy Loans PPIFs, will be established to purchase troubled loans from insured depository institutions and PPIFs under the Legacy Securities Program, or Legacy Securities PPIFs, will be established to purchase from financial institutions legacy non-Agency RMBS and CMBS that were

Table of Contents

originally rated AAA. Legacy Loans PPIFs and Legacy Securities PPIFs are expected to have access to equity capital from the U.S. Treasury as well as debt financing provided or guaranteed by the U.S. Government. Announcements describing the Legacy Loans Program have stated that the U.S. Treasury will provide up to 50% of the equity capital for each Legacy Loans PPIF, with the remainder provided by private investors, and that the FDIC will guarantee the debt issued by each Legacy Loans PPIF up to a 6-to-1 debt-to-equity ratio. Under the Legacy Securities Program, the U.S. Treasury has announced that it will provide up to 50% of the equity capital for each Legacy Securities PPIF, with the remainder provided by private investors, and will provide senior debt up to 100% of the total equity capital of a Legacy Securities PPIF so long as the PPIF's private investors do not have voluntary withdrawal rights.

On June 3, 2009, the FDIC announced that the development of the Legacy Loans Program will continue, but that a previously planned pilot sale of assets by banks targeted for June 2009 will be postponed. In making the announcement, the FDIC noted that banks have been able to raise capital without having to sell assets through the Legacy Loans Program, which in the view of the FDIC reflects renewed investor confidence in our banking system. The FDIC also indicated that it will continue its work on the Legacy Loans Program and will be prepared to offer it in the future as what the FDIC characterized as an important tool to cleanse bank balance sheets and bolster their ability to support the credit needs of the economy, although no specific timeframe for the program was announced. As a next step, the FDIC will test the funding mechanism contemplated by the Legacy Loans Program in a sale of receivership assets this summer. This funding mechanism draws upon concepts successfully employed by the Resolution Trust Corporation in the 1990s, which routinely assisted in the financing of asset sales through responsible use of leverage. The FDIC expects to solicit bids for this sale of receivership assets in July. Neither the Legacy Loans Program nor the Legacy Securities Program have been finalized and their terms are subject to change. As a result, the attractiveness of these programs to us cannot be determined at this time.

We anticipate that we would participate as an equity investor in one or more Legacy Loans PPIFs, one or more of which may be managed by affiliates of Starwood Capital Group. Starwood Capital Group has applied to serve as one of the investment managers for the Legacy Securities Program, but there can be no assurance that it will be selected for this role. We anticipate that we would participate as an equity investor in one or more Legacy Securities PPIFs established and managed by Starwood Capital Group if its application to act as an investment manager for a Legacy Securities PPIF is approved. We may also invest in Legacy Securities PPIFs established by unaffiliated parties.

The Term Asset-Backed Securities Loan Facility (TALF)

On November 25, 2008, the U.S. Treasury and the Federal Reserve announced the creation of the TALF. Under the TALF, the Federal Reserve Bank of New York, or the FRBNY, will provide up to \$200 billion of non-recourse loans to borrowers to help fund their purchase of eligible assets, which initially included certain asset-backed securities, or ABS, but not CMBS or RMBS. On March 23, 2009, the U.S. Treasury announced preliminary plans to expand the TALF to include CMBS and certain highly-rated non-Agency RMBS. On May 1, 2009, the Federal Reserve provided more of the details as to how the TALF would be expanded to include CMBS and explained that beginning in June 2009, up to \$100 billion of TALF loans would be available to finance purchases of CMBS created on or after January 1, 2009. On May 19, 2009, the Federal Reserve announced that, starting in July 2009, it would expand the TALF to include certain high-quality CMBS created on or prior to January 1, 2009, or legacy CMBS, and announced additional criteria that would apply to TALF loans for legacy CMBS. The TALF program is scheduled to expire on December 31, 2009, but may be extended.

We believe that the expansion of the TALF to include highly rated CMBS and possibly non-Agency RMBS may provide us with attractively priced non-recourse term borrowing facilities that we could use to purchase CMBS and non-Agency RMBS that are eligible for funding under this program. However, many legacy CMBS have had their ratings downgraded, and at least one rating agency, Standard & Poor's Investors Services, Inc., or S&P, has announced that further downgrades are likely in the future as property values have declined. These downgrades may significantly

reduce the quantity of legacy CMBS that are TALF eligible. Further, the FRBNY is still assessing whether or not to include non-Agency RMBS as eligible assets that

Table of Contents

could be financed under the TALF and the feasibility and potential impact of such a program. There can be no assurance that the TALF will be expanded to include legacy CMBS and non-Agency RMBS, and if so expanded, that we will be able to utilize the TALF to finance the acquisition of legacy CMBS and non-Agency RMBS or that the financing terms will be attractive.

Securitizations

We intend to seek to enhance the returns on our commercial mortgage loan investments, especially loan originations, through securitizations that may be supported by the TALF. To the extent available, we intend to securitize the senior portion, expected to be equivalent to AAA-rated CMBS, while retaining the subordinate securities in our investment portfolio. In order to facilitate the securitization market, TALF is currently expected to provide financing to buyers of AAA-rated CMBS. Therefore, we expect to see interest in the credit markets for such financing at 50% to 60% of our cost basis in the relevant assets, and more importantly, at reasonable cost of fund levels that would generate a positive net spread and enhance returns for investors in such securitizations.

Other Potential Sources of Financing

In the future, we may also use other sources of financing to fund the acquisition of our target assets, including warehouse facilities, bank credit facilities (including term loans and revolving facilities) and other secured and unsecured forms of borrowing. We may also seek to raise further equity capital or issue debt securities in order to fund our future investments.

Leverage Policies

We intend to employ prudent leverage, to the extent available, to fund the acquisition of our target assets and to increase potential returns to our stockholders. Although we are not required to maintain any particular leverage ratio, the amount of leverage we will deploy for particular investments in our target assets will depend upon our Manager's assessment of a variety of factors, which may include the anticipated liquidity and price volatility of the assets in our investment portfolio, the potential for losses and extension risk in our portfolio, the gap between the duration of our assets and liabilities, including hedges, the availability and cost of financing the assets, our opinion of the creditworthiness of our financing counterparties, the health of the U.S. economy and commercial and residential mortgage markets, our outlook for the level, slope, and volatility of interest rates, the credit quality of our assets, the collateral underlying our assets, and our outlook for asset spreads relative to the LIBOR curve.

We expect, initially, that we may deploy leverage on our commercial mortgage loan assets, on a debt-to-equity basis, of up to 2-to-1. In addition, we do not expect under current market conditions to deploy leverage on any subordinated real estate debt investments, commercial real estate corporate debt, CMBS, or our other target assets except in conjunction with financings that may be available to us under programs established by the U.S. Government. To the extent that we invest in PPIFs that acquire commercial mortgage loans and/or CMBS by financings under the PPIP, we expect such PPIFs will deploy leverage on these assets, on a debt-to-equity basis, of up to 6-to-1. We consider these initial leverage ratios to be prudent for these asset classes.

Investment Guidelines

Our board of directors has adopted the following investment guidelines:

our investments will be in our target assets;

no investment shall be made that would cause us to fail to qualify as a REIT for federal income tax purposes;

no investment shall be made that would cause us to be regulated as an investment company under the 1940 Act;

Table of Contents

not more than 25% of our equity will be invested in any individual asset, including any equity investment by us in a Legacy Loans PPIF or Legacy Securities PPIF, without the consent of a majority of our independent directors;

until appropriate investments can be identified, our Manager may invest the proceeds of this and any future offerings in interest-bearing, short-term investments, including Agency RMBS, AAA-rated CMBS and money market accounts and/or funds, that are consistent with our intention to qualify as a REIT; and

any investment of up to \$25 million requires the approval of our chief executive officer; any investment from \$25 million to \$75 million requires the approval of our Manager's Investment Committee; any investment from \$75 million to \$150 million requires the approval of the Investment Committee of our board of directors and our Manager's Investment Committee; and any investment in excess of \$150 million requires the approval of our board of directors.

These investment guidelines may be changed from time to time by our board of directors without the approval of our stockholders. In addition, both of our Manager and our board of directors must approve any change in our investment guidelines that would modify or expand the types of assets in which we invest.

Investment Committee of Our Manager

Our Manager has an Investment Committee which will initially be comprised of Mr. Sternlicht, the chairman of the committee, and Jeffrey Dishner, Jerome Silvey, Marc Perrin and Christopher Graham. The Investment Committee will review our investment portfolio and its compliance with our investment guidelines described above at least on a quarterly basis or more frequently as necessary.

Risk Management

As part of our risk management strategy, our Manager will closely monitor our portfolio and actively manage the financing, interest rate, credit, prepayment and convexity (a measure of the sensitivity of the duration of a debt investment to changes in interest rates) risks associated with holding a portfolio of our target assets.

Asset Management

Starwood Capital Group has a dedicated, in-house asset management group that provides not only investment oversight, but also critical input to the acquisition process. Our asset management group creates value through careful asset specific and market surveillance, rigid enforcement of loan and security rights, and timely execution of disposition strategies.

Interest Rate Hedging

Subject to maintaining our qualification as a REIT, we intend to engage in a variety of interest rate management techniques that seek on the one hand to mitigate the economic effect of interest rate changes on the values of, and returns on, some of our assets, and on the other hand help us achieve our risk management objectives.

Market Risk Management

Because we will invest in CRE mortgage loans and other debt investments including CMBS, investment losses from prepayments, defaults, interest rate volatility or other risks can meaningfully reduce or eliminate funds available for

distribution to our stockholders. To minimize the risks to our portfolio, we will actively employ portfolio-wide and asset-specific risk measurement and management processes in our daily operations.

Table of Contents

Credit Risk

Through our investment strategy we will seek to limit our credit losses and reduce our financing costs. We seek to manage credit risk through our pre-acquisition due diligence process and through use of non-recourse financing, when and where available and appropriate. Our investment guidelines do not limit the amount of our equity that may be invested in any type of our target assets; however, not more than 25% of our equity may be invested in any individual asset, without the consent of a majority of our independent directors. Our investment decisions will depend on prevailing market conditions and may change over time in response to opportunities available in different interest rate, economic and credit environments. As a result, we cannot predict the percentage of our equity that will be invested in any of our target assets at any given time.

Summary Risk Factors

An investment in shares of our common stock involves various risks. You should consider carefully the risks discussed below and under the heading "Risk Factors" beginning on page 24 of this prospectus before purchasing our common stock. If any of these risks occur, our business, financial condition, liquidity, results of operations and prospects could be materially and adversely affected. In that case, the trading price of our common stock could decline, and you may lose some or all of your investment.

We have no operating history and may not be able to operate our business successfully or generate sufficient cash flow to make or sustain distributions to our stockholders.

We have not yet identified any specific investments that we may acquire with the net proceeds of this offering and the concurrent private placement.

The management agreement with our Manager was not negotiated on an arm's-length basis and may not be as favorable to us as if it had been negotiated with an unaffiliated third party and may be costly and difficult to terminate.

There are various conflicts of interest in our relationship with Starwood Capital Group, which could result in decisions that are not in the best interest of our stockholders.

We are dependent on Starwood Capital Group and their key personnel who provide services to us through the management agreement and the investment advisory agreement, and we may not find a suitable replacement for our Manager and Starwood Capital Group if the management agreement and the investment advisory agreement are terminated, or for these key personnel if they leave Starwood Capital Group or otherwise become unavailable to us. Our Manager is not required to make available any particular individual personnel to us.

Our board of directors will approve very broad investment guidelines for our Manager and will not approve each investment and financing decision made by our Manager unless required by our investment guidelines.

Our board of directors may change any of our investment strategy, financing strategy, investment guidelines or leverage policies without stockholder consent.

The incentive fee payable to our manager under the management agreement is paid quarterly and is based on our Core Earnings (as defined herein) and therefore, may cause our Manager to select investments in more risky assets to increase our short-term Core Earnings.

We expect to use leverage in executing our business strategy, which may adversely affect the return on our assets and may reduce cash available for distribution to our stockholders, as well as increase losses when economic conditions are unfavorable.

We may incur significant debt, which will subject us to increased risk of loss and may reduce cash available for distributions to our stockholders, and our governing documents contain no limitation on the amount of debt we may incur.

In order to acquire certain of our target assets, we will depend on various sources of financing, including, to the extent available to us, financing through various U.S. Government-sponsored programs,

Table of Contents

and our inability to access financing for our target assets on favorable terms could materially and adversely impact us.

There can be no assurance that the actions of the U.S. Government, U.S. Federal Reserve, U.S. Treasury and other governmental and regulatory bodies for the purpose of stabilizing the financial markets, including the establishment of the TALF and the PPIP, will achieve their intended effects, or that our business will benefit from these actions, and further government or market developments could materially and adversely impact us.

An increase in our borrowing costs relative to the interest we receive on investments in our target assets would adversely affect our profitability and our cash available for distribution to our stockholders.

Hedging against interest rate exposure may adversely affect our earnings and could reduce our cash available for distribution to our stockholders.

Our current investment strategy focuses, in part, on distressed opportunities, thereby involving an increased risk of loss, and certain investments such as our sub-performing or non-performing assets may have a particularly high risk of loss, and we cannot assure you that we will be able to generate attractive risk-adjusted returns.

The mortgage loans that we will acquire, and the mortgage and other loans underlying the CMBS and RMBS that we will acquire, are subject to defaults, foreclosure timeline extension, fraud and commercial and residential asset price declines, and unfavorable modification of loan principal amount, interest rate and amortization of principal, which could result in losses to us.

If our Manager overestimates the yields or incorrectly prices the risks of our investments, we may experience losses.

An increase in interest rates may cause a decrease in the volume of certain of our target assets, which could adversely affect our ability to acquire target assets that satisfy our investment objectives and generate sufficient cash flow to make distributions to our stockholders.

Prepayment rates may adversely affect the value of our investment portfolio.

Our failure to qualify as a REIT in any taxable year would subject us to U.S. federal income tax and potentially state and local taxes, which would reduce the cash available for distribution to our stockholders.

Complying with REIT requirements may cause us to forego otherwise attractive investment opportunities or financing or hedging strategies.

Maintenance of our exemption from registration under the 1940 Act imposes significant limits on our operations.

Table of Contents

Our Structure

We were organized as a Maryland corporation on May 26, 2009.

The following chart shows our structure after giving effect to this offering and the concurrent private placement to SPT Investment, LLC:

- (1) We expect SPT Real Estate Sub I, LLC to qualify for an exemption from registration under the 1940 Act as an investment company pursuant to Section 3(c)(5)(C) of the 1940 Act.
- (2) We expect SPT TALF Sub I, LLC to borrow under the TALF in order to acquire TALF-eligible assets. We may also organize additional special purpose subsidiaries that may borrow under the TALF. We anticipate that SPT TALF Sub I, LLC and some of these other special purpose subsidiaries may be organized to rely on the exemption from registration under the 1940 Act for certain structured financing vehicles under Rule 3a-7 of the 1940 Act. We intend to conduct our operations so that the value of our investment in SPT Real Estate Sub I, LLC, SPT TALF Sub I, LLC and other special purpose subsidiaries relying on the Rule 3a-7 exemption from registration under the 1940 Act, as well as other subsidiaries not relying on Section 3(c)(1) or Section 3(c)(7) of the 1940 Act, will at all times, on an unconsolidated basis, exceed 60% of our total assets. See Business Operating and Regulatory Structure 1940 Act Exemption.

Management Agreement

We will be externally managed and advised by our Manager. We expect to benefit from the personnel, relationships and experience of our Manager's executive team and other personnel of Starwood Capital Group. Our chief executive officer and president and our other officers (other than the persons (or person) who will serve as our chief financial officer and chief compliance officer) are executives of Starwood Capital Group. The persons (or person) who will serve as our chief financial officer and chief compliance officer will be employed directly by us. We do not expect to have any other employees. Starwood Capital Group is not obligated to dedicate any of its executives or other personnel exclusively to us. In addition, none of Starwood Capital Group, its executives and other personnel, including our executive officers supplied to us by Starwood Capital Group, is obligated to dedicate any specific portion of its or their time to our business.

We will enter into a management agreement with our Manager effective upon the closing of this offering. Pursuant to the management agreement, our Manager will implement our business strategy and perform certain services for us, subject to oversight by our board of directors. Our Manager will be responsible for, among other duties, (1) performing all of our day-to-day functions, (2) determining our investment strategy and guidelines in conjunction with our board of directors, (3) sourcing, analyzing and executing investments, asset sales and financings, and (4) performing asset management duties. In addition, our Manager has an Investment

Table of Contents

Committee that will oversee compliance with our investment strategy and guidelines, investment portfolio holdings and financing strategy.

The initial term of the management agreement will end three years after the closing of this offering, with automatic one-year renewal terms that end on the anniversary of the closing of this offering. Our independent directors will review our Manager's performance annually and, following the initial term, the management agreement may be terminated annually upon the affirmative vote of at least two-thirds of our independent directors based upon: (1) our Manager's unsatisfactory performance that is materially detrimental to us or (2) our determination that the management fees payable to our Manager are not fair, subject to our Manager's right to prevent termination based on unfair fees by accepting a reduction of management fees agreed to by at least two-thirds of our independent directors. We will provide our Manager with 180 days prior notice of such a termination. Upon such a termination, we will pay our Manager a termination fee equal to three times the average annual base management fee and incentive fee, each as described in the table below. We may also terminate the management agreement at any time, including during the initial term, for cause without payment of any termination fee. During the initial three-year term of the management agreement, we may not terminate the management agreement except for cause. Our Manager may terminate the management agreement if we become required to register as an investment company under the 1940 Act, with such termination deemed to occur immediately before such event, in which case we would not be required to pay a termination fee. Our Manager may also decline to renew the management agreement by providing us with 180 days written notice, in which case we would not be required to pay a termination fee. Our Manager is entitled to a termination fee upon termination of the management agreement by us without cause or by our Manager if we materially breach the management agreement.

The following table summarizes the fees and expense reimbursements that we will pay to our Manager:

Type	Description
Base management fee	1.5% of our stockholders' equity per annum and calculated and payable quarterly in arrears. For purposes of calculating the management fee, our stockholders' equity means: (a) the sum of (1) the net proceeds from all issuances of our equity securities since inception (allocated on a pro rata daily basis for such issuances during the fiscal quarter of any such issuance), plus (2) our retained earnings at the end of the most recently completed calendar quarter (without taking into account any non-cash equity compensation expense incurred in current or prior periods), less (b) any amount that we pay to repurchase our common stock since inception. It also excludes (1) any unrealized gains and losses and other non-cash items that have impacted stockholders' equity as reported in our financial statements prepared in accordance with accounting principles generally accepted in the United States (GAAP), and (2) one-time events pursuant to changes in GAAP, and certain non-cash items not otherwise described above, in each case after discussions between our Manager and our independent directors and approval by a majority of our independent directors. As a result, our stockholders' equity, for purposes of calculating the management fee, could be greater or less than the amount of stockholders' equity shown on our financial statements. The base management fee is payable quarterly in cash.
Incentive fee	Our Manager will be entitled to an incentive fee in an amount equal to 20% of the dollar amount by which Core Earnings (as defined below), on a rolling four-quarter basis and before the incentive fee for the current quarter,

exceeds the product of (1) the weighted average of the issue price per share of all of our public offerings multiplied by the weighted average number of common shares outstanding in such quarter and (2) 8%. Installments of the incentive fee are payable quarterly in arrears based on annualized Core Earnings.

Table of Contents

Type	Description
	<p>Core Earnings is a non-GAAP measure and is defined as GAAP net income (loss) excluding non-cash equity compensation expense, depreciation and amortization (to the extent that we foreclose on any properties underlying our target assets), any unrealized gains, losses or other non-cash items recorded in net income for the period, regardless of whether such items are included in other comprehensive income or loss, or in net income. The amount will be adjusted to exclude one-time events pursuant to changes in GAAP and certain other non-cash charges after discussions between our Manager and our independent directors and after approval by a majority of our independent directors.</p> <p>Any net loss incurred by us in a given quarter or quarters will be offset against any net income earned by us in future quarters for purposes of calculating the incentive fee in such future quarters. For example, if we experience a net loss of \$25.0 million in the fourth quarter of a fiscal year and a net loss of \$15.0 million in the first quarter of the following fiscal year (for a cumulative net loss of \$40.0 million in those two quarters), but then earn net income of \$30.0 million in the second quarter and \$40.0 million in the third quarter, then our \$30.0 million of net income in the second quarter would be reduced to zero, and no incentive fee would be payable for the second quarter, and our \$40.0 million of net income in the third quarter would be reduced by the remaining \$10.0 million of net loss to \$30.0 million for purposes of calculating the incentive fee for the third quarter.</p> <p>At the election of our Manager, up to % of each payment of the incentive fee may be paid in shares of our common stock, subject to the approval of a majority of our independent directors and compliance with our charter's stock ownership limit (after giving effect to any higher ownership limit that may be in effect for Starwood Capital Group and its affiliates, including our Manager), and any applicable securities laws and NYSE rules.</p>
Expense reimbursement	<p>We will be required to reimburse our Manager for operating expenses related to us that are incurred by our Manager, including expenses relating to legal, accounting, due diligence and other services. Our reimbursement obligation is not subject to any dollar limitation. Expenses will be reimbursed in cash on a monthly basis.</p>
Fee Reduction for Investments in any Affiliate Managed PPIF	<p>In our management agreement, our Manager has agreed to reduce the base management fee and incentive fee by the amount of any separate fees we may pay our Manager or its affiliates in respect of any equity investment we make in any Legacy Loans PPIF or Legacy Securities PPIF managed by it or any of its affiliates.</p>
Termination fee	<p>Termination fee equal to three times the sum of the average annual base management fee and incentive fee earned by our Manager during the 24-month period prior to such termination, calculated as of the end of the most recently completed fiscal quarter.</p> <p>The termination fee will be payable upon termination of the management agreement by us without cause or by our Manager if we materially breach the management agreement.</p>

Table of Contents

Type	Description
Incentive plan	Our equity incentive plan includes provisions for grants of restricted common stock and other equity based awards to our directors or officers or any personnel of our Manager or Starwood Capital Group who provide services to us. Concurrently with the closing of this offering, we will grant shares of restricted common stock, equal to % of the number of shares that we issue in this offering (without giving effect to any exercise by the underwriters of their overallotment option) to . These shares will vest ratably on a quarterly basis over a -year period beginning on the last day of the quarter in which we complete this offering.

Investment Advisory Agreement

Our Manager will enter into an investment advisory agreement with Starwood Capital Group Management, LLC effective upon the closing of this offering. Pursuant to this agreement, our Manager will be provided with access to, among other things, Starwood Capital Group's portfolio management, asset valuation, risk management and asset management services as well as administration services addressing legal, compliance, investor relations and information technologies necessary for the performance of our Manager's duties in exchange for a fee representing the Manager's allocable cost for these services. The fee paid by our Manager pursuant to this agreement shall not constitute a reimbursable expense under the management agreement.

Conflicts of Interest and Related Policies

Management. We are dependent on our Manager for our day-to-day management and do not have any independent officers or employees other than the persons (or person) who will serve as our chief financial officer and chief compliance officer. Each of our officers and three of our directors, Mr. Sternlicht, Mr. Dishner and are executives of Starwood Capital Group. Our management agreement with our Manager was negotiated between related parties and its terms, including fees and other amounts payable, may not be as favorable to us as if it had been negotiated at arm's length with an unaffiliated third party. In addition, the obligations of our Manager and its officers and personnel to engage in other business activities, including for Starwood Capital Group, may reduce the time that our Manager and its officers and personnel spend managing us.

Incentive Compensation. The management compensation structure that we have agreed to with our Manager may also cause our Manager to invest in high risk investments. In addition to its base management fee, our Manager is entitled to receive incentive compensation based in part upon our achievement of targeted levels of Core Earnings. In evaluating investments and other management strategies, the opportunity to earn incentive compensation based on Core Earnings may lead our Manager to place undue emphasis on the maximization of our short-term Core Earnings at the expense of other criteria, such as preservation of capital, in order to achieve a higher incentive fee. Investments with higher yield potential are generally riskier or more speculative. This could result in increased risk to the value of our investment portfolio.

Current Co-Investment Rights and Obligations. Our ability to make investments in our target assets is governed by the investment opportunity allocation provisions applicable to (i) Starwood Global Opportunity Fund VIII, a private fund currently managed by an entity controlled by Starwood Capital Group that targets equity and debt interests in real estate, or the Starwood Global Fund, (ii) Starwood Capital Hospitality Fund II Global, a private fund currently managed by an entity controlled by Starwood Capital Group that targets equity and debt interests related to hotels and other hospitality related properties, or the Starwood Hotel Fund, (iii) Starwood Capital Debt Fund II-U, L.P., or the

Starwood Unlevered Debt Fund, a private fund managed by Starwood Capital Group that invests in debt, including debt related to real estate, on an unlevered basis, and (iv) us. Pursuant to the investment opportunity allocation provisions applicable to the Starwood Global Fund and the Starwood Hotel Fund, or the Starwood Private Real Estate Funds, and us, (i) the Starwood Private Real Estate Funds collectively have the right to invest 25% of the equity capital proposed to be invested by

Table of Contents

any investment vehicle managed by an entity controlled by Starwood Capital Group in debt investments relating to real estate, and (ii) subject to the co-investment rights of the Starwood Unlevered Debt Fund as described below, we may invest the remaining 75%. Pursuant to the investment opportunity allocation provisions applicable to the Starwood Unlevered Debt Fund, it has the right to invest 10% of the equity capital proposed to be invested by any investment vehicle managed by an entity controlled by Starwood Capital Group in debt and we may invest the remaining 90% if the proposed debt investment is within one of our target asset classes, in each case subject to the Starwood Private Real Estate Funds' collective right to invest up to 25% of the capital required to make any debt investment related to real estate. If the Starwood Private Real Estate Funds exercise their collective co-investment rights in such case, we would only be entitled to invest up to 67.5% of the equity capital required to make the proposed investment and the Starwood Unlevered Debt Fund would be entitled to invest the remaining 7.5%. The ability of each of the Starwood Private Real Estate Funds and the Starwood Unlevered Debt Fund to exercise their co-investment rights is subject to (i) the availability of the fund's capital for investment, and (ii) the determination by the general partner of the fund, which is an affiliate of Starwood Capital Group, that the proposed investment is suitable for the fund. Our co-investment rights are subject to (i) the availability of our capital for investment, (ii) our Manager's determination that the proposed investments is consistent with, and would not violate any of our investment guidelines as described under Investment Guidelines, (iii) the determination by our Manager that the proposed investment is suitable for us, taking into account the composition of our portfolio at the time and any other relevant factors, and (iv) our Manager's sole discretion as to whether or not to exclude from our investment portfolio at any time any medium-term loan to own investment, which our Manager considers to be any mortgage loan or other real estate-related loan or debt investment where the proposed originator or acquiror of the investment has the intent and/or expectation of foreclosing on, or otherwise acquiring the real property securing the loan or investment at any time between 18 and 48 months of its origination or acquisition of the loan or investment. To the extent that any of these limitations on our co-investment rights apply to any particular investment opportunity, Starwood Capital Group would be permitted to provide the portion of the investment otherwise allocable to us to the Starwood Private Real Estate Funds and/or the Starwood Unlevered Debt Fund, as applicable. The co-investment rights of the Starwood Private Real Estate Funds are expected to be in effect for up to three years following this offering. The co-investment rights of the Starwood Unlevered Debt Fund are expected to be in effect through the end of September 2009. Our co-investment rights with the Starwood Private Real Estate Funds and the Starwood Unlevered Debt Fund will apply for the same time periods that these other funds have their co-investment rights as long as the management agreement is in effect and our Manager and Starwood Capital Group are under common control. Our independent directors will periodically review our Manager's and Starwood Capital Group's compliance with the co-investment provisions described above, but they will not approve each co-investment by any of the Starwood Private Real Estate Funds, the Starwood Unlevered Debt Fund and us unless the amount of capital we invest in the proposed co-investment otherwise requires the review and approval of our independent directors pursuant to our investment guidelines.

Investment Activities of Certain Starwood Capital Group Affiliates. Starwood Real Estate Securities, L.L.C., and its sponsored funds, or SRES, are generally long/short real estate securities hedge funds which invest in publicly traded equity securities globally and options thereon, and Starwood Energy Group Global, L.L.C., and its sponsored funds, or SEG, invest in energy, power, water and other natural resources related businesses and investment activities, including equity investments in these businesses. SRES and SEG have in the past and may in the future make investments in certain of our target asset classes. These funds are affiliates of Starwood Capital Group because they are indirectly controlled by Mr. Sternlicht. However, neither of these funds are controlled by Starwood Capital Group or are part of Starwood Capital Group's real estate investment business. None of the Starwood Private Real Estate Funds, the Starwood Unlevered Debt Fund or us have any co-investment rights with, nor co-investment obligations to, either of these funds. Neither our Manager nor its Investment Committee are or will be involved in the investment process for either of these funds. In addition, no individual responsible for the day to day management of either of these funds will be responsible for the day to day management of our business. However, the management team of each of these funds may periodically consult with Mr. Sternlicht on each fund's investment decisions.

Table of Contents

Future Investment Opportunity Allocation Provisions. Our Manager and Starwood Capital Group have agreed that for so long as the management agreement is in effect and our Manager and Starwood Capital Group are under common control no entity controlled by Starwood Capital Group will sponsor or manage another publicly traded or other investment vehicle that focuses on investing in our target assets, which we refer to as competing vehicles, unless Starwood Capital Group either (i) adopts a policy providing for the fair and equitable allocation of investment opportunities among all competing vehicles and us, or (ii) provides us the right to co-invest with the competing vehicles, in each case subject to the suitability of each investment opportunity for the particular competing vehicle and us and the competing vehicles and our availability of capital for investment.

Exclusivity Provisions. Pursuant to the exclusivity provisions of the Starwood Private Real Estate Funds, our investment strategy may not include (i) equity interests in real estate, or (ii) the origination or acquisition of any mortgage loans or other real estate-related loans or debt investments if we have the intent and/or expectation of foreclosing on, or otherwise acquiring the real property securing the loan or investment within 18 months of our origination or acquisition of the loan or investment, or near-term loan to own investments. These funds' exclusivity rights are expected to be in effect for up to three years following this offering. Therefore, our Manager and our board of directors would not have the flexibility to expand our investment strategy to include equity interests in real estate or near-term loan to own investments prior to the expiration of the exclusivity provisions of these Starwood private real estate funds.

Policy Regarding Investments Related to Properties Managed by Starwood Capital Group Affiliates. We expect our board of directors to adopt a policy permitting us to originate or acquire loans and investments with respect to properties owned by unaffiliated parties that may be managed by, or leased in whole or part to, an affiliate of Starwood Capital Group or with respect to which an unaffiliated owner may have engaged an affiliate of Starwood Capital Group to provide certain other services with respect to the property. In addition, we expect this policy to permit us to make loans and investments with respect to properties owned by unaffiliated parties for which an affiliate of Starwood Capital Group may concurrently be engaged by the property owner to manage it or provide other services with respect to the property or which may concurrently agree to lease such property to it in whole or in part. Furthermore, to the extent that we have rights as a lender pursuant to the terms of any of our loans or investments to consent to an unaffiliated property owner's engagement of a property manager or any other service provider, or to lease the property, this policy would permit us to provide a consent to such a property owner seeking to engage, or lease property to, an affiliate of Starwood Capital Group.

Transactions with Other Starwood Capital Group Funds. In order to avoid any actual or perceived conflicts of interest between our Manager, Starwood Capital Group, any of their affiliates or any investment vehicle sponsored or managed by Starwood Capital Group or any of its affiliates, which we refer to as the Starwood parties, and us, the approval of a majority of our independent directors will be required to approve (i) any purchase of our assets by any of the Starwood parties, and (ii) any purchase by us of any assets of any of the Starwood parties.

Limitations on Personal Investments. Shortly after the consummation of this offering, we expect our board of directors to adopt a policy with respect to any proposed investments by our directors or officers or the officers of our Manager, which we refer to as the covered persons, in any of our target asset classes. We expect this policy to provide that any proposed investment by a covered person for his or her own account in any of our target asset classes will be permitted if the capital required for the investment does not exceed the lesser of (x) \$5 million, or (y) 1% of our total stockholder's equity as of the most recent month end, or the personal investment limit. To the extent that a proposed investment exceeds the personal investment limit, we expect that our board of directors will only permit the covered person to make the investment (i) upon the approval of the disinterested directors, or (ii) if the proposed investment otherwise complies with terms of any other related party transaction policy our board of directors may adopt in the future.

Other Conflicts. To the extent that a conflict of interest arises with respect to the business of our Manager, Starwood Capital Group, any of their affiliates or us that is not currently addressed by the co-investment or exclusivity provisions of the funds described above, the independent members of our board of

Table of Contents

directors would consider the matter and, in certain circumstances, our Manager may need to adopt certain policies and procedures to address such matters in the future.

Operating and Regulatory Structure

REIT Qualification

We intend to elect to qualify as a REIT commencing with our taxable year ending on December 31, 2009. Our qualification as a REIT depends upon our ability to meet on a continuing basis, through actual investment and operating results, various complex requirements under the Internal Revenue Code relating to, among other things, the sources of our gross income, the composition and values of our assets, our distribution levels and the diversity of ownership of our shares. We believe that we have been organized in conformity with the requirements for qualification and taxation as a REIT under the Internal Revenue Code, and that our intended manner of operation will enable us to meet the requirements for qualification and taxation as a REIT.

So long as we qualify as a REIT, we generally will not be subject to U.S. federal income tax on our taxable income that we distribute currently to our stockholders. If we fail to qualify as a REIT in any taxable year and do not qualify for certain statutory relief provisions, we will be subject to U.S. federal income tax at regular corporate rates and may be precluded from qualifying as a REIT for the subsequent four taxable years following the year during which we lost our REIT qualification. Even if we qualify for taxation as a REIT, we may be subject to certain U.S. federal, state and local taxes on our income or property.

1940 Act Exemption

We intend to conduct our operations so that we are not required to register as an investment company under the 1940 Act. Section 3(a)(1)(A) of the 1940 Act defines an investment company as any issuer that is or holds itself out as being engaged primarily in the business of investing, reinvesting or trading in securities. Section 3(a)(1)(C) of the 1940 Act defines an investment company as any issuer that is engaged or proposes to engage in the business of investing, reinvesting, owning, holding or trading in securities and owns or proposes to acquire investment securities having a value exceeding 40% of the value of the issuer's total assets (exclusive of U.S. Government securities and cash items) on an unconsolidated basis. Excluded from the term investment securities, among other things, are U.S. Government securities and securities issued by majority-owned subsidiaries that are not themselves investment companies and are not relying on the exception from the definition of investment company set forth in Section 3(c)(1) or Section 3(c)(7) of the 1940 Act.

We are organized as a holding company that conducts its businesses primarily through wholly-owned subsidiaries. We intend to conduct our operations so that we do not come within the definition of an investment company because less than 40% of the value of our total assets on an unconsolidated basis will consist of investment securities. The securities issued by any wholly-owned or majority-owned subsidiaries that we may form in the future that are excepted from the definition of investment company based on Section 3(c)(1) or 3(c)(7) of the 1940 Act, together with any other investment securities we may own, may not have a value in excess of 40% of the value of our total assets on an unconsolidated basis. We will monitor our holdings to ensure continuing and ongoing compliance with this test. In addition, we believe we will not be considered an investment company under Section 3(a)(1)(A) of the 1940 Act because we will not engage primarily or hold ourselves out as being engaged primarily in the business of investing, reinvesting or trading in securities. Rather, through our wholly-owned subsidiaries, we will be primarily engaged in the non-investment company businesses of these subsidiaries.

If the value of securities issued by our subsidiaries that are excepted from the definition of investment company by Section 3(c)(1) or 3(c)(7) of the 1940 Act, together with any other investment securities we own, exceeds 40% of our

total assets on an unconsolidated basis, or if one or more of such subsidiaries fail to maintain an exception or exemption from the 1940 Act, we could, among other things, be required either (a) to substantially change the manner in which we conduct our operations to avoid being required to register as an investment company or (b) to register as an investment company under the 1940 Act, either of which could have an adverse effect on us and the market price of our securities. If we were required to register as an

Table of Contents

investment company under the 1940 Act, we would become subject to substantial regulation with respect to our capital structure (including our ability to use leverage), management, operations, transactions with affiliated persons (as defined in the 1940 Act), portfolio composition, including restrictions with respect to diversification and industry concentration, and other matters.

We expect SPT Real Estate Sub I, LLC to qualify for an exemption from registration under the 1940 Act as an investment company pursuant to Section 3(c)(5)(C) of the 1940 Act, which is available for entities primarily engaged in the business of purchasing or otherwise acquiring mortgages and other liens on and interests in real estate. In addition, certain other subsidiaries that we may form in the future also may qualify for the Section 3(c)(5)(C) exemption. This exemption generally requires that at least 55% of such subsidiaries' assets must be comprised of qualifying assets and at least 80% of each of their portfolios must be comprised of qualifying assets and real estate-related assets under the 1940 Act. Specifically, we expect each of our subsidiaries relying on Section 3(c)(5)(C) to invest at least 55% of its assets in mortgage loans, mortgage-backed securities, or MBS, that represent the entire ownership in a pool of mortgage loans and other interests in real estate that constitute qualifying assets in accordance with Securities and Exchange Commission (or the SEC) staff guidance and/or positions taken by other industry participants in public filings with the SEC and approximately an additional 25% of its assets in other types of mortgages, MBS, securities of REITs and other real estate-related assets. Although we intend to monitor our portfolio periodically and prior to each investment acquisition, there can be no assurance that we will be able to maintain this exemption from registration for these subsidiaries. Certain of our subsidiaries may rely on the exemption provided by Section 3(c)(6) to the extent that they hold mortgage assets through majority owned subsidiaries that rely on Section 3(c)(5)(C).

We have organized SPT TALF Sub I, LLC as a special purpose subsidiary for the purpose of borrowing under the TALF and we may in the future organize additional special purpose subsidiaries that would borrow under the TALF. We anticipate that some of these subsidiaries may be organized to rely on the 1940 Act exemption provided to certain structured financing vehicles by Rule 3a-7. To the extent that we organize subsidiaries that rely on Rule 3a-7 for an exemption from the 1940 Act, these subsidiaries will need to comply with the restrictions described in

Business Operating and Regulatory Structure 1940 Act Exemption. In addition, in certain circumstances, compliance with Rule 3a-7 may also require that the indenture governing the subsidiary include additional limitations on the types of assets the subsidiary may sell or acquire out of the proceeds of assets that mature, are refinanced or otherwise sold, on the period of time during which such transactions may occur, and on the level of transactions that may occur. In light of the requirements of Rule 3a-7, our ability to manage assets held in a special purpose subsidiary that complies with Rule 3a-7 will be limited and we may not be able to purchase or sell assets owned by that subsidiary when we would otherwise desire to do so, which could lead to losses.

Qualification for exemption from registration under the 1940 Act will limit our ability to make certain investments. For example, these restrictions will limit the ability of our subsidiaries that rely on 3(c)(5)(C) to invest directly in mortgage-backed securities that represent less than the entire ownership in a pool of mortgage loans, debt and equity tranches of securitizations and certain ABS and real estate companies or in assets not related to real estate. We expect that SPT Real Estate Sub I, LLC and most of our other majority-owned subsidiaries will not be relying on exemptions under either Section 3(c)(1) or 3(c)(7) of the 1940 Act. Consequently, we expect that our interests in these subsidiaries (which we expect will constitute a substantial majority of our assets) will not constitute investment securities and that we will be able to conduct our operations so that we are not required to register as an investment company under the 1940 Act.

Restrictions on Ownership of Our Common Stock

To assist us in complying with the limitations on the concentration of ownership of a REIT imposed by the Internal Revenue Code, our charter prohibits, with certain exceptions, any stockholder from beneficially or constructively

owning, applying certain attribution rules under the Internal Revenue Code, more than 9.8% by value or number of shares, whichever is more restrictive, of our outstanding shares of common stock, or 9.8% by value or number of shares, whichever is more restrictive, of our outstanding capital stock. Our board of directors may, in its sole discretion, waive the 9.8% ownership limit with respect to a particular stockholder if

Table of Contents

it is presented with evidence satisfactory to it that such ownership will not then or in the future jeopardize our qualification as a REIT. We expect our board of directors to waive this ownership limit in order to allow Starwood Capital Group and SPT Investment, LLC to collectively hold up to % of our common stock.

Our charter also prohibits any person from, among other things:

beneficially or constructively owning shares of our capital stock that would result in our being closely held under Section 856(h) of the Internal Revenue Code, or otherwise cause us to fail to qualify as a REIT; and

transferring shares of our capital stock if such transfer would result in our capital stock being owned by fewer than 100 persons.

In addition, our charter provides that any ownership or purported transfer of our capital stock in violation of the foregoing restrictions will result in the shares so owned or transferred being automatically transferred to a charitable trust for the benefit of a charitable beneficiary, and the purported owner or transferee acquiring no rights in such shares. If a transfer to a charitable trust would be ineffective for any reason to prevent a violation of the restriction, the transfer resulting in such violation will be void from the time of such purported transfer.

The Offering

Common stock offered by us

shares (plus up to an additional shares of our common stock that we may issue and sell upon the exercise of the underwriters overallotment option).

Common stock to be outstanding after this offering and concurrent private placement

shares.⁽¹⁾

Use of proceeds

We intend to invest the net proceeds of this offering and the concurrent private placement of common stock to SPT Investment, LLC in our target assets. We expect that our initial focus will be on purchasing commercial mortgage loans, other CRE and CRE-related debt investments and CMBS. Until appropriate investments can be identified, our Manager may invest these funds in interest-bearing short-term investments, including Agency RMBS, AAA-rated CMBS and money market accounts and/or funds, that are consistent with our intention to qualify as a REIT. These initial investments are expected to provide a lower net return than we will seek to achieve from investments in our target assets. See Use of Proceeds.

Distribution policy

We intend to make regular quarterly distributions to holders of our common stock. U.S. federal income tax law generally requires that a REIT distribute annually at least 90% of its taxable income, without regard to the deduction for dividends paid and excluding net capital gains, and that it pay tax at regular corporate rates to the extent that it annually distributes less than 100% of its taxable income. We generally intend over time to pay quarterly distributions in an amount equal to our taxable income. We plan to pay our first distribution in respect of the period from the closing of this offering through , 2009, which may be prior to the time that we have fully invested the net proceeds from this offering in investments in our target assets. Prior to the time we have fully used the net proceeds of this offering and the concurrent private placement to acquire our target assets, we may fund our quarterly distributions out of such net proceeds. Any distributions we make to our stockholders will be at the discretion of our board of directors and will depend upon, among other things, our actual results of operations and liquidity. These results and our ability to pay distributions will be affected by various factors, including the net interest and other income from our portfolio, our operating expenses and any other expenditures. For more information, see Distribution Policy.

Proposed NYSE symbol

STWD

Ownership and transfer restrictions

To assist us in complying with limitations on the concentration of ownership of a REIT imposed by the Internal Revenue Code and for other purposes, our charter generally prohibits, among other prohibitions, any stockholder from beneficially or constructively owning more than 9.8% by value or number of shares, whichever is more restrictive, of our outstanding shares of common stock, or 9.8%

by value or number of shares, whichever is more restrictive, of our outstanding capital stock. See Description of Capital Stock Restrictions on Ownership and Transfer.

Table of Contents

Risk factors

Investing in our common stock involves a high degree of risk. You should carefully read and consider the information set forth under the heading **Risk Factors** beginning on page 24 of this prospectus and all other information in this prospectus before investing in our common stock.

- (1) Includes _____ shares of our common stock granted under our equity incentive plan. Excludes shares of our common stock that we may issue and sell upon the exercise of the underwriters' overallotment option.

Our Corporate Information

Our principal executive offices are located at 591 West Putnam Avenue, Greenwich, Connecticut 06830. Our telephone number is (203) 422-7700. Our website is _____. The contents of our website are not a part of this prospectus. The information on our website is not intended to form a part of or be incorporated by reference into this prospectus.

Table of Contents

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the following risk factors and all other information contained in this prospectus before purchasing our common stock. If any of the following risks occur, our business, financial condition or results of operations could be materially and adversely affected. In that case, the trading price of our common stock could decline, and you may lose some or all of your investment.

Risks Related to Our Relationship with Our Manager

We are dependent on Starwood Capital Group, including our Manager, and their key personnel, especially Mr. Sternlicht, who provide services to us through the management agreement, and we may not find a suitable replacement for our Manager and Starwood Capital Group if the management agreement is terminated, or for these key personnel if they leave Starwood Capital Group or otherwise become unavailable to us.

We have no separate facilities and are completely reliant on our Manager. Our chief executive officer and our other officers (other than the persons (or person) who will serve as our chief financial officer and chief compliance officer) are executives of Starwood Capital Group. We do not expect to have any employees other than the persons (or person) who will serve as our chief financial officer and chief compliance officer. Our Manager has significant discretion as to the implementation of our investment and operating policies and strategies. Accordingly, we believe that our success will depend to a significant extent upon the efforts, experience, diligence, skill and network of business contacts of the officers and key personnel of our Manager. The officers and key personnel of our Manager will evaluate, negotiate, close and monitor our investments; therefore, our success will depend on their continued service. The departure of any of the officers or key personnel of our Manager could have a material adverse effect on our performance.

Our Manager is not obligated to dedicate any specific personnel exclusively to us. In addition, none of our officers (other than the persons (or person) who will serve as our chief financial officer and chief compliance officer) or the officers of our Manager are obligated to dedicate any specific portion of their time to our business. Each of them has significant responsibilities for the Starwood private real estate funds and other investment vehicles currently managed by affiliates of Starwood Capital Group. As a result, these individuals may not always be able to devote sufficient time to the management of our business. Further, when there are turbulent conditions in the real estate markets or distress in the credit markets, the attention of our Manager's personnel and our executive officers and the resources of Starwood Capital Group will also be required by the Starwood private real estate funds. In such situations, we may not receive the level of support and assistance that we may receive if we were internally managed.

In addition, we offer no assurance that our Manager will remain our investment manager or that we will continue to have access to our Manager's officers and key personnel. The initial term of our management agreement with our Manager, and the investment advisory agreement between our Manager and Starwood Capital Group Management, LLC only extends until the third anniversary of the closing of this offering, with automatic one-year renewals thereafter. If the management agreement and the investment advisory agreement are terminated and no suitable replacement is found to manage us, we may not be able to execute our business plan.

There are various conflicts of interest in our relationship with Starwood Capital Group, including our Manager, which could result in decisions that are not in the best interests of our stockholders.

We are subject to conflicts of interest arising out of our relationship with Starwood Capital Group, including our Manager. Specifically, Mr. Sternlicht, our chief executive officer, Mr. Dishner, one of our other directors, _____, another one of our directors, and certain of our other executive officers are executives of Starwood Capital Group. Our

Manager and executive officers may have conflicts between their duties to us and their duties to, and interests in, Starwood Capital Group and its other investment funds. The Starwood Private Real Estate Funds and the Starwood Unlevered Debt Fund collectively have the right to invest from 10% to 32.5% of the equity capital proposed to be invested by any investment vehicle managed by an entity controlled by Starwood Capital Group in debt interests relating to real estate. Our co-investment rights are subject to, among other things, (i) the determination by our Manager that the proposed investment is suitable for us, and (ii) our Manager's sole discretion as to whether or not to exclude from our investment portfolio at any time any

Table of Contents

medium-term loan to own investments. Since we are subject to the judgment of our Manager in the application of our co-investment rights, we may not always be allocated the above-described percentages of each co-investment opportunity in our target asset classes. The Starwood Private Real Estate Funds' co-investment rights are expected to be in effect for up to three years following this offering. The co-investment rights of the Starwood Unlevered Debt Fund are expected to be in effect through the end of September 2009. Our independent directors will periodically review our Manager's and Starwood Capital Group's compliance with the co-investment provisions described above, but they will not approve each co-investment by any of the Starwood Private Real Estate Funds and the Starwood Unlevered Debt Fund and us unless the amount of capital we invest in the proposed co-investment otherwise requires the review and approval of our independent directors pursuant to our investment guidelines. Pursuant to the exclusivity provisions of the Starwood Private Real Estate Funds, our investment strategy may not include (i) equity interests in real estate, or (ii) near-term loan to own investments. These funds' exclusivity rights are expected to be in effect for up to three years following this offering. Therefore, our board of directors would not have the flexibility to expand our investment strategy to include equity interests in real estate or near-term loan to own investments prior to the expiration of the exclusivity provisions of these Starwood private real estate funds. After the expiration of the co-investment rights of the Starwood Private Real Estate Funds, Starwood Capital Group and our Manager may either (i) provide us the right to co-invest with the competing vehicles, in each case subject to the suitability of each investment, or (ii) adopt a policy providing for the fair and equitable allocation of investment opportunities among all competing vehicles and us. To the extent that we have co-investment rights with competing vehicles in the future, there can be no assurance that these future rights will entitle us to a similar percentage allocation as we have with respect to the Starwood Private Real Estate Funds and the Starwood Unlevered Debt Fund. To the extent that our Manager and Starwood Capital Group adopt an investment allocation policy in the future, we may nonetheless compete with competing vehicles for investment opportunities sourced by our Manager and Starwood Capital Group. As a result, we may either not be presented with the opportunity, or may have to compete with the competing vehicles to acquire these investments. Some or all of our executive officers, the members of the Investment Committee of our Manager and other key personnel of our Manager would likely be responsible for selecting investments for competing vehicles and they may choose to allocate favorable investments to one or more competing vehicles instead of to us.

Shortly after the consummation of this offering, we expect our board of directors to adopt a policy with respect to any proposed investments by the covered persons in any of our target asset classes. We expect this policy to provide that any proposed investment by a covered person for his or her own account in any of our target asset classes will be permitted if the capital required for the investment does not exceed the personal investment limit. To the extent that a proposed investment exceeds the personal investment limit, we expect that our board of directors will only permit the covered person to make the investment (i) upon the approval of the disinterested directors, or (ii) if the proposed investment otherwise complies with terms of any other related party transaction policy our board of directors may adopt in the future. Subject to compliance with all applicable laws, these individuals may make investments for their own account in our target assets which may present certain conflicts of interest not addressed by our current policies.

We will pay our Manager substantial base management fees regardless of the performance of our portfolio. Our Manager's entitlement to a management fee, which is not based upon performance metrics or goals, might reduce its incentive to devote its time and effort to seeking investments that provide attractive risk-adjusted returns for our portfolio. This in turn could hurt both our ability to make distributions to our stockholders and the market price of our common stock.

Concurrently with the completion of this offering, SPT Investment, LLC will acquire \$ million of our common stock in a private placement at a price per share equal to the price per share in this offering. Upon completion of this offering and the concurrent private placement, SPT Investment, LLC will beneficially own % of our outstanding common stock (or % if the underwriters fully exercise their over-allotment option). Concurrently with the closing of this offering, we will grant shares of restricted common stock, equal to % of the number of shares that we issue in this offering (without giving effect to any exercise by the underwriters of their over-allotment option)

to . These shares will vest ratably on a quarterly basis over a -year period beginning on the last day of the quarter in which we complete this offering. Each

Table of Contents

of SPT Investment, LLC and our Manager, each of which is controlled by Mr. Sternlicht, will agree that, for a period of _____ after the date of this prospectus, it will not without the prior written consent of the representatives of the underwriters, dispose of or hedge any shares of our common stock, subject to certain exceptions and extension in certain circumstances. SPT Investment, LLC may sell the shares it purchases in the concurrent private placement at any time following the expiration of this lockup period. To the extent SPT Investment, LLC sells some of these shares, our Manager's interests may be less aligned with our interests.

The management agreement with our Manager was not negotiated on an arm's-length basis and may not be as favorable to us as if it had been negotiated with an unaffiliated third party and may be costly and difficult to terminate.

Our executive officers (other than the persons (or person) who will serve as our chief financial officer and chief compliance officer) and three of our seven directors are executives of Starwood Capital Group. Our management agreement with our Manager was negotiated between related parties and its terms, including fees payable, may not be as favorable to us as if it had been negotiated with an unaffiliated third party.

Termination of the management agreement with our Manager without cause is difficult and costly. Our independent directors will review our Manager's performance and the management fees annually and, following the initial three-year term, the management agreement may be terminated annually upon the affirmative vote of at least two-thirds of our independent directors based upon: (1) our Manager's unsatisfactory performance that is materially detrimental to us, or (2) a determination that the management fees payable to our Manager are not fair, subject to our Manager's right to prevent termination based on unfair fees by accepting a reduction of management fees agreed to by at least two-thirds of our independent directors. Our Manager will be provided 180 days prior notice of any such a termination. Additionally, upon such a termination, the management agreement provides that we will pay our Manager a termination fee equal to three times the sum of the average annual base management fee and incentive fee received by our Manager during the prior 24-month period before such termination, calculated as of the end of the most recently completed fiscal quarter. These provisions may increase the cost to us of terminating the management agreement and adversely affect our ability to terminate our Manager without cause.

During the initial three-year term of the management agreement, we may not terminate the management agreement except for cause.

Our Manager is only contractually committed to serve us until the third anniversary of the closing of this offering. Thereafter, the management agreement is renewable for one-year terms; provided, however, that our Manager may terminate the management agreement annually upon 180 days prior notice. If the management agreement is terminated and no suitable replacement is found to manage us, we may not be able to execute our business plan.

Pursuant to the management agreement, our Manager will not assume any responsibility other than to render the services called for thereunder and will not be responsible for any action of our board of directors in following or declining to follow its advice or recommendations. Our Manager maintains a contractual as opposed to a fiduciary relationship with us. Under the terms of the management agreement, our Manager, its officers, members, personnel, any person controlling or controlled by our Manager and any person providing sub-advisory services to our Manager will not be liable to us, any subsidiary of ours, our directors, our stockholders or any subsidiary's stockholders or partners for acts or omissions performed in accordance with and pursuant to the management agreement, except because of acts constituting bad faith, willful misconduct, gross negligence, or reckless disregard of their duties under the management agreement. In addition, we have agreed to indemnify our Manager, its officers, stockholders, members, managers, directors, personnel, any person controlling or controlled by our Manager and any person providing sub-advisory services to our Manager with respect to all expenses, losses, damages, liabilities, demands, charges and claims arising from acts of our Manager not constituting bad faith, willful misconduct, gross negligence,

or reckless disregard of duties, performed in good faith in accordance with and pursuant to the management agreement.

Table of Contents

The incentive fee payable to our Manager under the management agreement is payable quarterly and is based on our Core Earnings and therefore, may cause our Manager to select investments in more risky assets to increase our short-term Core Earnings.

Our Manager is entitled to receive incentive compensation based upon our achievement of targeted levels of Core Earnings. In evaluating investments and other management strategies, the opportunity to earn incentive compensation based on Core Earnings may lead our manager to place undue emphasis on the maximization of Core Earnings at the expense of other criteria, such as preservation of capital, in order to achieve higher incentive compensation. Investments with higher yield potential are generally riskier or more speculative. This could result in increased risk to the value of our investment portfolio.

The conflicts of interest policy we will adopt may not adequately address all of the conflicts of interest that may arise with respect to our investment activities and also may limit the allocation of investments to us.

In order to avoid any actual or perceived conflicts of interest with our Manager, Starwood Capital Group or any of the Starwood parties, we will adopt a conflicts of interest policy prior to the closing of this offering to specifically address some of the conflicts relating to our investment opportunities. Although under this policy the approval of a majority of our independent directors will be required to approve (i) any purchase of our assets by any of the Starwood parties and (ii) any purchase by us of any assets of any of the Starwood parties, there is no assurance that this policy will be adequate to address all of the conflicts that may arise or will address such conflicts in a manner that results in the allocation of a particular investment opportunity to us or is otherwise favorable to us. In addition, the Starwood Private Real Estate Funds and the Starwood Unlevered Debt Fund currently, and additional competing vehicles may in the future, participate in some of our investments, possibly at a more senior level in the capital structure of the underlying borrower and related real estate than our investment. Our interests in such investments may also conflict with the interests of these funds in the event of a default or restructuring of the investment. Participating investments will not be the result of arm's length negotiations and will involve potential conflicts between our interests and those of the other participating funds in obtaining favorable terms. Since our executives are also executives of Starwood Capital Group, the same personnel may determine the price and terms for the investments for both us and these funds and there can be no assurance that any procedural protections, such as obtaining market prices or other reliable indicators of fair market value, will prevent the consideration we pay for these investments from exceeding their fair market value or ensure that we receive terms for a particular investment opportunity that are as favorable as those available from an independent third party.

Our board of directors will approve very broad investment guidelines for our Manager and will not approve each investment and financing decision made by our Manager unless required by our investment guidelines.

Our Manager will be authorized to follow very broad investment guidelines. Our board of directors will periodically review our investment guidelines and our investment portfolio but will not, and will not be required to, review all of our proposed investments, except if the investment requires us to commit at least \$150 million of capital or 25% of our equity. In addition, in conducting periodic reviews, our board of directors may rely primarily on information provided to them by our Manager. Furthermore, our Manager may use complex strategies, and transactions entered into by our Manager may be costly, difficult or impossible to unwind by the time they are reviewed by our board of directors. Our Manager will have great latitude within the broad parameters of our investment guidelines in determining the types and amounts of target assets it may decide are attractive investments for us, which could result in investment returns that are substantially below expectations or that result in losses, which would materially and adversely affect our business operations and results. Further, decisions made and investments and financing arrangements entered into by our Manager may not fully reflect the best interests of our stockholders.

Table of Contents

Risks Related to Our Company

We have no operating history and may not be able to operate our business successfully or generate sufficient revenue to make or sustain distributions to our stockholders.

We were organized in May 2009 and have no operating history. We have no assets and will commence operations only upon completion of this offering. We cannot assure you that we will be able to operate our business successfully or implement our operating policies and strategies as described in this prospectus. The results of our operations depend on several factors, including the availability of opportunities for the acquisition of target assets, the level and volatility of interest rates, the availability of adequate short and long-term financing, conditions in the financial markets and economic conditions.

Our board of directors may change any of our investment strategy or guidelines, financing strategy or leverage policies without stockholder consent.

Our board of directors may change any of our investment strategy or guidelines, financing strategy or leverage policies with respect to investments, acquisitions, growth, operations, indebtedness, capitalization and distributions at any time without the consent of our stockholders, which could result in an investment portfolio with a different risk profile. A change in our investment strategy may increase our exposure to interest rate risk, default risk and real estate market fluctuations. Furthermore, a change in our asset allocation could result in our making investments in asset categories different from those described in this prospectus. These changes could adversely affect our financial condition, results of operations, the market price of our common stock and our ability to make distributions to our stockholders.

We are highly dependent on information systems and systems failures could significantly disrupt our business, which may, in turn, negatively affect the market price of our common stock and our ability to pay dividends.

Our business is highly dependent on communications and information systems of Starwood Capital Group. Any failure or interruption of Starwood Capital Group's systems could cause delays or other problems in our securities trading activities, which could have a material adverse effect on our operating results and negatively affect the market price of our common stock and our ability to pay dividends to our stockholders.

Terrorist attacks and other acts of violence or war may affect the real estate industry generally and our business, financial condition and results of operations.

The terrorist attacks on September 11, 2001 disrupted the U.S. financial markets, including the real estate capital markets, and negatively impacted the U.S. economy in general. Any future terrorist attacks, the anticipation of any such attacks, the consequences of any military or other response by the U.S. and its allies, and other armed conflicts could cause consumer confidence and spending to decrease or result in increased volatility in the U.S. and worldwide financial markets and economy. The economic impact of these events could also adversely affect the credit quality of some of our loans and investments and the properties underlying our interests.

We may suffer losses as a result of the adverse impact of any future attacks and these losses may adversely impact our performance and may cause the market value of our common shares to decline or be more volatile. A prolonged economic slowdown, a recession or declining real estate values could impair the performance of our investments and harm our financial condition and results of operations, increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us. We cannot predict the severity of the effect that potential future terrorist attacks would have on us. Losses resulting from these types of events may not be fully insurable.

In addition, the events of September 11th created significant uncertainty regarding the ability of real estate owners of high profile assets to obtain insurance coverage protecting against terrorist attacks at commercially reasonable rates, if at all. With the enactment of the Terrorism Risk Insurance Act of 2002, or the TRIA, and the subsequent enactment of the Terrorism Risk Insurance Program Reauthorization Act of

Table of Contents

2007, which extended the TRIA through the end of 2014, insurers must make terrorism insurance available under their property and casualty insurance policies, but this legislation does not regulate the pricing of such insurance. The absence of affordable insurance coverage may adversely affect the general real estate lending market, lending volume and the market's overall liquidity and may reduce the number of suitable investment opportunities available to us and the pace at which we are able to make investments. If the properties underlying our interests are unable to obtain affordable insurance coverage, the value of our interests could decline, and in the event of an uninsured loss, we could lose all or a portion of our investment.

Table of Contents

Risks Related to U.S. Government Programs

There can be no assurance that the actions of the U.S. Government, the Federal Reserve, including the U.S. Treasury and other governmental and regulatory bodies, for the purpose of stabilizing the financial markets, including the establishment of the TALF and the PPIP, will achieve the intended effect, or that our business will benefit from these actions, and further government or market developments could adversely impact us.

In response to the financial issues affecting the banking system and the financial markets and going concern threats to investment banks and other financial institutions, the Emergency Economic Stabilization Act of 2008, or the EESA, was enacted in October 2008. The EESA provides the U.S. Treasury Secretary with the authority to use up to \$700 billion to, among other things, inject capital into financial institutions and establish the Troubled Asset Relief Program, or the TARP, to purchase from financial institutions residential or commercial mortgage loans and any securities, obligations or other instruments that are based on or related to such mortgages, that were originated or issued on or before March 14, 2008, as well as any other financial instrument that the U.S. Treasury Secretary, after consultation with the Chairman of the Federal Reserve, determines necessary to promote financial stability. In addition, the U.S. Treasury Secretary has the authority to establish a program to guarantee, upon request of a financial institution, the timely payment of principal and interest on these financial assets.

The recent economic challenges in the residential mortgage markets have significantly affected Fannie Mae and Freddie Mac. The Housing and Economic Recovery Act of 2008, or the HERA, which established a new regulator for Fannie Mae and Freddie Mac, the FHFA, was signed into law on July 30, 2008. Under this plan, among other things, the FHFA has been appointed as conservator of both Fannie Mae and Freddie Mac, allowing the FHFA to direct and control the actions of Fannie Mae and Freddie Mac without forcing them to liquidate, which would occur if Fannie Mae and Freddie Mac were placed under receivership. Importantly, the primary focus of the plan is to increase the availability of mortgage finance by allowing these companies to continue to grow their guarantee business without limit, while limiting net purchases of RMBS to a modest amount through the end of 2009. Beginning in 2010, these companies will gradually start to reduce their portfolios.

In addition, in an effort to further stabilize the U.S. mortgage market, the U.S. Treasury took three additional actions. First, the U.S. Treasury entered into a preferred stock purchase agreement with each of Fannie Mae and Freddie Mac, pursuant to which \$100 billion will be available to each entity. Second, it established a new secured credit facility, the Government Sponsored Enterprise Credit Facility, or the GSECF, available to each of Fannie Mae and Freddie Mac (as well as Federal Home Loan Banks) through December 31, 2009, when other funding sources are unavailable. Third, it has established an Agency RMBS purchase program, under which the U.S. Treasury may purchase Agency RMBS in the open market. This latter program will also expire on December 31, 2009. Although the federal government has committed capital to Fannie Mae and Freddie Mac, there can be no assurance that these actions will be adequate for their needs. If these actions are inadequate, these entities could continue to suffer losses and could fail to honor their guarantees and other obligations which could materially adversely affect our business, operations and financial condition.

Furthermore, on November 25, 2008, the U.S. Treasury and the Federal Reserve announced the creation of the TALF. Under the TALF, the FRBNY will provide non-recourse loans to borrowers to help fund their purchase of eligible assets, which initially included ABS, but not CMBS or RMBS. On March 23, 2009, the U.S. Treasury announced preliminary plans to expand the TALF to include CMBS and certain highly-rated non-Agency RMBS. On May 1, 2009, the Federal Reserve provided more of the details as to how TALF would be expanded to include CMBS and explained that beginning in June 2009, up to \$100 billion of TALF loans would be available to finance purchases of CMBS created on or after January 1, 2009. On May 19, 2009, the Federal Reserve announced that, starting in July 2009 it would expand the TALF to include certain high-quality CMBS created on or prior to January 1, 2009, or legacy CMBS and announced additional criteria that would apply to TALF loans for legacy CMBS. However, many

legacy CMBS have had their ratings downgraded, and at least one rating agency, Standard & Poor's Investors Services, Inc., or S&P, has announced

Table of Contents

that further downgrades are likely in the future as property values have declined. These downgrades may significantly reduce the quantity of legacy CMBS that are TALF eligible. To date, neither the FRBNY nor the U.S. Treasury has announced any details on the manner in which the TALF will be expanded to cover non-Agency RMBS. On June 4, 2009, the FRBNY announced that it was still assessing whether or not to include non-Agency RMBS as eligible assets that could be financed under the TALF and the feasibility and potential impact of such a program.

On March 23, 2009, the U.S. Treasury, in conjunction with the FDIC and the Federal Reserve, announced the creation of the PPIP. The PPIP is intended to encourage the transfer of certain illiquid legacy real estate-related assets off of the balance sheets of certain financial institutions, restarting the market for these assets and supporting the flow of credit and other capital into the broader economy. Legacy Loans PPIFs will be established to purchase troubled loans from insured depository institutions and Legacy Securities PPIFs will be established to purchase from financial institutions legacy non-Agency RMBS and CMBS that were originally rated AAA. Legacy Loans PPIFs and Legacy Securities PPIFs are expected to have access to equity capital from the U.S. Treasury as well as debt financing provided or guaranteed by the U.S. Government. As announced, under the Legacy Loans Program, the U.S. Treasury will provide up to 50% of the equity capital for each Legacy Loans PPIF, with the remainder provided by private investors, and the FDIC will guarantee the debt issued by each Legacy Loans PPIF up to a 6-to-1 debt-to-equity ratio. Under the Legacy Securities Program, as announced, the U.S. Treasury will provide up to 50% of the equity capital of each Legacy Securities PPIF, with the remainder provided by private investors, and will provide senior debt up to 100% of the total equity capital of such a Legacy Securities PPIF so long as the PPIF's private investors do not have voluntary withdrawal rights.

There can be no assurance that the EESA, HERA, TALF, PPIP or other recent U.S. Government actions will have a beneficial impact on the financial markets, including on current extreme levels of volatility. To the extent the market does not respond favorably to these initiatives or these initiatives do not function as intended, our business may not receive the anticipated positive impact from the legislation. There can also be no assurance that we will be eligible to participate in any programs established by the U.S. Government such as the TALF or the PPIP or, if we are eligible, that we will be able to utilize them successfully or at all. In addition, because the programs are designed, in part, to restart the market for certain of our target assets, the establishment of these programs may result in increased competition for attractive opportunities in our target assets. It is also possible that our competitors may utilize the programs which would provide them with attractive debt and equity capital funding from the U.S. Government. In addition, the U.S. Government, the Federal Reserve, the U.S. Treasury and other governmental and regulatory bodies, have taken or are considering taking other actions to address the financial crisis. We cannot predict whether or when such actions may occur, and such actions could have an adverse impact on our business, results of operations and financial condition.

The terms and conditions of the PPIP have not been finalized and there is no assurance that the final terms will enable us to participate in the PPIP in a manner consistent with our investment strategy.

While the U.S. Treasury and the FDIC have released a summary of proposed terms and conditions for the PPIP, they have not released the final terms and conditions governing these programs. The Legacy Loans program portion of the PPIP has been delayed and it may not be established on the terms proposed or at all. The existing proposed terms and conditions do not address the specific terms and conditions relating to: (1) the guaranteed debt to be issued by participants in the Legacy Loans Program, (2) the debt financing from the U.S. Treasury in the Legacy Securities Program and (3) the warrants that the U.S. Treasury will receive under both programs. In addition, the U.S. Treasury and the FDIC have reserved the right to modify the proposed terms of the PPIP. When the final terms and conditions are released, there is no assurance that we will be able to participate in the PPIP in a manner acceptable to us consistent with our investment strategy.

Table of Contents

The PPIFs in which we may acquire interests will operate independently of us and outside of our control, and may have interests that conflict with our interests.

We may acquire interests in PPIFs which will be funded, operated and managed under arrangements that are separate from us and outside of our control. As a result, the PPIFs in which we may acquire interests may have higher risk tolerances or different risk assessments than what we or our stockholders might determine is reasonable. Decisions made by such PPIFs may be adverse to us and our stockholders.

We may not be able to withdraw our funds from the PPIFs in which we may acquire interests and such PPIFs may not make distributions to their holders, including us, when we expect, if at all, which may materially adversely affect our liquidity position and ability to make or sustain dividends to our stockholders.

In order to take advantage of certain aspects of the Legacy Securities Program, including certain financing opportunities available from the U.S. Treasury, PPIFs may not give private investors, such as us, voluntary withdrawal rights. If we have a need for additional liquidity or we otherwise determine to decrease our exposure to the assets held by the PPIFs in which we may acquire interests, we may not be able to withdraw funds from such PPIFs and may be forced to sell other assets at significantly depressed prices to maintain adequate liquidity or to adjust our asset allocations across our target asset classes, which could cause us to incur losses. In addition, since we may not be able to withdraw funds from the PPIFs, we will be dependent on distributions from the PPIFs and our other assets for liquidity.

The liquidity needs of the PPIFs in which we may acquire interests will be different than ours, and such PPIFs may not be in a position to make distributions to its holders, including us, when we expect or when we have a need for additional liquidity. We will not have any control over the timing and amount of distributions, if any, that the PPIFs make to its holders, including us. If such PPIFs do not make distributions or the distributions they do make are not consistent with our expectations, it could cause a material adverse effect on our results of operations, financial condition, business, liquidity and ability to make distributions to our stockholders. In addition, we may be forced to sell other assets at significantly depressed prices to maintain adequate liquidity if the PPIFs are unable or unwilling to make distributions, which could cause us to incur losses.

Certain of the PPIFs may require us to commit a certain amount of capital before allowing us to acquire interests. We may not have to provide such capital immediately to the PPIF, but the PPIF would have the right to call our capital at any time it deems appropriate. As a result, we may need to keep a certain amount of funds available for capital calls that could otherwise be used to acquire assets or we may be forced to sell assets at significantly depressed prices to fund our capital commitment. This could have a material adverse effect on our results of operations and ability to make distributions to our stockholders.

There is no assurance that we will be able to participate in or benefit from the PPIP or, if we are able to participate, that we will be able to do so in a manner that is consistent with our strategy or that will have a beneficial impact on us.

Investors in the Legacy Loans Program must be pre-qualified by the FDIC. It is likely that the FDIC will have broad discretion regarding the qualification of investors in the Legacy Loans Program and is under no obligation to approve our participation even if we meet all of the applicable criteria. While the U.S. Treasury and the FDIC have released a summary of preliminary terms and conditions for the PPIP, including the Legacy Loans Program, they have not released the final terms and conditions governing these programs. The preliminary terms and conditions do not address the specific terms and conditions relating to, among other things: the FDIC-guaranteed debt to be issued by participants in the Legacy Loans Program and the warrants that the U.S. Treasury will receive under the Legacy Loans

Program if it makes an equity investment in a PPIF. The FDIC has indicated that Legacy Loan PPIFs will be subject to government loan modification program requirements. In addition, the U.S. Treasury and FDIC have reserved the right to modify the proposed terms of the PPIF.

Table of Contents

On June 3, 2009, the FDIC announced that the development of the Legacy Loans Program will continue, but that a previously planned pilot sale of assets by banks targeted for June 2009 would be postponed. In making the announcement, the FDIC noted that banks have been able to raise capital without having to sell assets through the Legacy Loans Program, which in the view of the FDIC reflects renewed investor confidence in the U.S. banking system. Since the Legacy Loans Program is still in early stages of development and the details of the program are still emerging, it is not possible for us to predict how this program will impact our business. If and when the final terms and conditions are released, there is no assurance that we will be able to participate in the Legacy Loans Program in a manner that is consistent with our strategy or at all. In addition, requests for funding under the PPIP may surpass the amount of funding authorized by the U.S. Treasury, resulting in an early termination of the PPIP.

Under the terms of the Legacy Securities Program, the U.S. Treasury has the right to cease funding of committed but undrawn equity capital and debt financing to a specific fund participating in the Legacy Securities Program in its sole discretion. We may be unable to invest in PPIFs or otherwise obtain capital and debt financing on similar terms, which may adversely affect our ability to purchase eligible assets and may otherwise affect expected returns on our investments.

The terms and conditions of the TALF may change, which could adversely affect our investments.

The terms and conditions of the TALF, including asset and borrower eligibility, could be changed at any time. Any such modifications may adversely affect the market value of any of our assets financed through the TALF and otherwise or our ability to obtain additional TALF financing. The TALF is scheduled to expire on December 31, 2009, unless extended. If the TALF is prematurely discontinued or reduced while our assets financed through the TALF are still outstanding, there may be no market for these assets and the market value of these assets would be adversely affected. We intend to enhance the returns on our commercial mortgage loan investments, especially loan originations, by securitizing the senior portion, expected to be equivalent to AAA-rated CMBS, while retaining the subordinate securities in our investment portfolio to the extent that TALF financing would be available for buyers of these AAA-rated CMBS. The TALF eligible asset requirements have not been finalized. As a result, there can be no assurance that our intended securitizations would benefit from TALF financing for AAA-rated CMBS.

Termination of a customer agreement may adversely affect our related TALF borrowings.

In certain circumstances, a primary dealer may have the right to terminate its customer agreement with respect to any TALF loans made through such primary dealer and force us to find another primary dealer with respect to such loans, transfer the loan to another eligible borrower under the TALF, or to repay the loan or surrender the collateral to the FRBNY. In such circumstances, we may not realize our anticipated return on the assets used as collateral for such TALF loans.

We may be adversely affected if one of our investors has been previously rejected for the TALF.

We may be required to represent to the primary dealer under the customer agreement that neither we nor any person that holds an ownership interest in us has previously had a loan request under the TALF rejected by the FRBNY. We may not be able to determine if one of our investors has previously had a loan request under the TALF rejected by the FRBNY. A failure to comply with this representation may expose us to liability to the primary dealer. An inability to make this representation and warranty may prevent us from participating in the TALF.

Downgrades of legacy CMBS and/or changes in the rating methodology and assumptions for future CMBS issuances, may decrease the availability of the TALF to finance CMBS.

On May 26, 2009, Standard & Poor's Investors Service, Inc., or S&P, which rates a substantial majority of CMBS issuances, issued a request for comment regarding its proposed changes to its methodology and assumptions for rating CMBS, and in so doing indicated that the proposed changes would result in downgrades of a considerable amount of CMBS (including super-senior tranches). Specifically, S&P indicated that it is

Table of Contents

likely that the proposed changes, which represent a significant change to the criteria for rating high investment-grade classes, will prompt a considerable amount of downgrades in recently issued (2005-2008 vintage) CMBS. S&P noted that its preliminary findings indicate that approximately 25%, 60%, and 90% of the most senior tranches (by count) within the 2005, 2006, and 2007 vintages, respectively, may be downgraded. The current TALF guidelines issued by the FRBNY indicate that in order to be eligible for the TALF, legacy CMBS must not have a rating below the highest investment-grade rating category from any TALF CMBS-eligible rating agency, which includes S&P. Other rating agencies may take similar actions with regard to their ratings of CMBS. As a result, downgrades of legacy CMBS may limit substantially the availability of the TALF for legacy CMBS. Further, changes to the methodology and assumptions in rating CMBS by rating agencies, including S&P's proposed changes, may decrease the amount or availability of new issue CMBS rated in the highest investment-grade rating category.

There is no assurance that we will be able to obtain any TALF loans.

The TALF is to be operated by the FRBNY. The FRBNY has complete discretion regarding the extension of credit under the TALF and is under no obligation to make any loans to us even if we meet all of the applicable criteria. Requests for TALF loans may surpass the amount of funding authorized by the Federal Reserve and the U.S. Treasury, resulting in an early termination of the TALF. Depending on the demand for TALF loans and the general state of the credit markets, the Federal Reserve and the U.S. Treasury may decide to modify the terms and conditions of the TALF. Such actions may adversely affect our ability to obtain TALF loans and use the loan leverage to enhance returns, and may otherwise affect expected returns on our investments.

We could lose our eligibility as a TALF borrower, which would adversely affect our ability to fulfill our investment objectives.

Any U.S. company is permitted to participate in the TALF, provided that it maintains an account relationship with a primary dealer and enters into a TALF-specific customer agreement with such primary dealer. The definition of a U.S. company excludes certain entities that are controlled by a non-U.S. government or that are managed or controlled by a non-U.S. government or that are managed by an investment manager controlled by a non-U.S. government. For these purposes, an entity is considered to control a company if, among other things, such entity owns, controls, or holds with power to vote 25% or more of a class of voting securities, or total equity, of the company. The application of these rules under the TALF is not clear. For instance, it is uncertain how a change of control subsequent to a stockholder's purchase of shares of common stock which results in such shareholder being owned or controlled by a non-U.S. government will be treated for purposes of the 25% limitation. If for any reason we are deemed not to be eligible to participate in the TALF, all of our outstanding TALF loans will become immediately due and payable with full recourse and we will not be eligible to obtain future TALF loans.

We may not be able to acquire sufficient amounts of eligible assets to qualify for participation in the PPIP or the TALF consistent with our investment strategy.

Assets to be used as collateral for PPIP and TALF loans must meet strict eligibility criteria with respect to characteristics such as issuance date, maturity, and credit rating and with respect to the origination date of the underlying collateral. These restrictions may limit the availability of eligible assets, and we may be unable to acquire sufficient amounts of assets to obtain financing under the PPIP and TALF consistent with our investment strategy. As proposed in the Legacy Loans Program, eligible financial institutions must consult with the FDIC before offering an asset pool for sale and there is no assurance that a sufficient number of eligible financial institutions will be willing to participate as sellers in the Legacy Loans Program. Once an asset pool has been offered for sale by an eligible financial institution, the FDIC will determine the amount of leverage available to finance the purchase of the asset pool. There is no assurance that the amount of leverage available to finance the purchase of eligible assets will be acceptable to us. The asset pools will be purchased through a competitive auction conducted by the FDIC. The auction

process may increase the price of these eligible asset pools. Even if we submit the highest bid on an eligible asset pool at a price that is acceptable to us, the selling financial institution may refuse to sell us the eligible asset pool at that price. These factors may

Table of Contents

limit the availability of eligible assets, and we may be unable to acquire sufficient amounts of assets to obtain financing under the Legacy Loans Program consistent with our investment strategy.

Our ability to transfer any assets purchased using PPIP and TALF funding, to the extent available to us, is restricted.

Our assets purchased using TALF funding will be pledged to the FRBNY as collateral for the TALF loans. If we sell or transfer any of these assets, we must either repay the related TALF loan or obtain the consent of the FRBNY to assign our obligations under the related TALF loan to the applicable assignee. The FRBNY in its discretion may restrict or prevent us from assigning our loan obligations to a third party, including a third party that meets the criteria of an eligible borrower. In addition, the FRBNY will not consent to any assignments after the termination date for making new loans, which is December 31, 2009, unless extended by the Federal Reserve.

We would expect that any assets financed with PPIP funding would be pledged to the FDIC as collateral for its guarantee under the Legacy Loans Program and to the U.S. Treasury as collateral for debt financing under the Legacy Securities Program. If a Legacy Loans PPIF sells or transfers any of these assets, we would expect it would need to either repay the related loan or obtain the consent of the FDIC or the U.S. Treasury to assign its obligations to the applicable assignee. We would expect the FDIC or the U.S. Treasury, as applicable, each in its discretion, would restrict or prevent such a PPIF from assigning its obligations to a third party, including a third party that meets the criteria for participation in the PPIP.

These restrictions may limit our ability to trade or otherwise dispose of our investments, and may adversely affect our ability to take advantage of favorable market conditions and make distributions to stockholders.

We may need to surrender eligible TALF assets to repay TALF loans at maturity.

Each TALF loan must be repaid within three or five years, depending on its term. We intend to invest in CMBS that do not mature within the term of the TALF loan. If we do not have sufficient funds to repay interest and principal on the related TALF loan at maturity and if these assets cannot be sold for an amount equal to or greater than the amount owed on such loan, we must surrender the assets to the FRBNY in lieu of repayment. If we are forced to sell any assets to repay a TALF loan, we may not be able to obtain a favorable price. If we default on our obligation to pay a TALF loan or if other default events occur and the FRBNY elects to liquidate the assets used as collateral to secure such TALF loan, the proceeds from that sale will be applied, first, to any enforcement costs, second, to unpaid principal and, finally, to unpaid interest. Under the terms of the TALF, if assets are surrendered to the FRBNY in lieu of repayment, all assets that collateralize that loan must be surrendered. In these situations, we would forfeit any equity that we held in these assets.

Under the TALF, FRBNY consent is required to exercise our voting rights on the collateral.

As a requirement of the TALF, we must agree not to exercise or refrain from exercising any voting, consent or waiver rights in any collateral without the consent of the FRBNY.

In accessing the TALF, we will be dependent on the activities of our primary dealers.

To obtain TALF loans, we must execute a TALF-specific customer agreement with at least one primary dealer which will act on our behalf under the agreement with the FRBNY. The primary dealer will submit aggregate loan request amounts on behalf of its customers in the form and manner specified by the FRBNY. Each primary dealer is required to apply its internal customer identification program and due diligence procedures to each borrower and represent that each borrower is an eligible borrower for purposes of the TALF, and to provide the FRBNY with information

sufficient to describe the dealer's customer risk assessment methodology. These customer agreements may impose additional requirements that could affect our ability to obtain TALF loans or may impose unfavorable conditions or fees that could adversely affect our business. Each primary dealer is expected to have relationships with other TALF borrowers, and a primary dealer may allocate more resources toward assisting other borrowers with whom it has other business dealings. Primary dealers are also responsible for distributing principal and interest

Table of Contents

after receipt thereof from The Bank of New York Mellon, as custodian for the TALF. Once funds or collateral are transferred to a primary dealer or at the direction of a primary dealer, neither the custodian nor the FRBNY has any obligation to account for whether the funds or collateral are transferred to the borrower. We will therefore be exposed to bankruptcy risk of our primary dealers.

We will be subject to interest rate risk, which can adversely affect our net income.

All CMBS TALF loans must be fixed rate loans. We expect interest rates on fixed-rate TALF loans will be set at a premium over the then-current three-year or five-year LIBOR swap rate. As a result, we may be exposed to (1) timing risk between the dates on which payments are received on assets financed through the TALF and the dates on which interest payments are due on the TALF loans and (2) asset/liability repricing risk, due to differences in the dates and indices on which floating rates on the financed assets and on the related TALF loans are reset.

Our ability to receive the interest earnings may be limited.

Interest payments that are received from the assets that used as collateral for a TALF loan must be applied to pay interest on the related TALF loan before any interest payments can be distributed to us. To the extent there are interest payments from the collateral in excess of the required interest payment on the related TALF Loan, the amount of such excess interest that will be distributed to us will be limited. For example, for a five-year TALF loan, the excess of interest distributions from the collateral over the TALF loan interest payable will be remitted to us only until such excess equals 25% per annum of the haircut amount in the first three loan years, 10% in the fourth loan year, and 5% in the fifth loan year, and the remainder of such excess will be applied to the related TALF loan principal. Our inability to benefit from the excess interest could have a material adverse effect on our results of operations.

If the interest on the collateral pledged to support a TALF loan is not sufficient to cover the interest payment on such loan, we will have a grace period of 30 days to make the interest payment. If the loan remains delinquent after the grace period, the FRBNY will enforce its rights to the collateral. We may be required to use our earnings to make interest payments on the TALF loans to keep them current, which could reduce the cash available to make or sustain dividends to our stockholders.

To the extent that proceeds from our TALF assets are received by the TALF custodian prior to the monthly date on which they are distributed to the borrowers, such proceeds will be held by the custodian and all interest earned on such proceeds will be retained by the FRBNY. If such proceeds were immediately distributed to us, we would be able to invest such proceeds in short-term investments and the income from such investments would be available to distribute to stockholders.

Under certain conditions, we may be required to provide full recourse for TALF loans or to make indemnification payments.

To participate in the TALF, we must execute a TALF-specific customer agreement with a primary dealer authorizing it, among other things, to act as our agent under TALF and to act on our behalf under the agreement with the FRBNY and with The Bank of New York Mellon as administrator and as the FRBNY's custodian of the collateral. Under such agreements, we will be required to represent to the primary dealer and to the FRBNY that, among other things, we are an eligible borrower and that the collateral that we pledge meet the TALF eligibility criteria. The FRBNY will have full recourse to us for repayment of the loan for any breach of these representations. Further, the FRBNY may have full recourse to us for repayment of a TALF loan if the eligibility criteria for collateral under the TALF are considered continuing requirements and the pledged collateral no longer satisfies such criteria. In addition, we will be required to pay to our primary dealers fees under the customer agreements and to indemnify our primary dealers for certain breaches under the customer agreements and to indemnify the FRBNY and its custodian for certain breaches under the

agreement with the FRBNY. Payments made to satisfy such full recourse requirements and indemnities could have a material adverse effect on our net income and our distributions to our stockholders, including any proceeds of this offering that we have not yet invested in target assets or distributed to our stockholders.

Table of Contents

Risks Related to Private Sources of Financing

Our access to private sources of financing may be limited and thus our ability to maximize our returns may be adversely affected.

Initially, we expect to finance the acquisition of our target assets through borrowings under U.S. Government programs such as the TALF and the PPIP, in each case to the extent available to us, and securitizations. If and to the extent available in the future, our financing sources may include borrowings in the form of bank credit facilities (including term loans and revolving facilities), repurchase agreements, warehouse facilities, structured financing arrangements, public and private equity and debt issuances and derivative instruments, in addition to transaction or asset specific funding arrangements.

Our access to private sources of financing will depend upon a number of factors over which we have little or no control, including:

- general market conditions;
- the market's view of the quality of our assets;
- the market's perception of our growth potential;
- our eligibility to participate in and access capital from programs established by the U.S. Government;
- our current and potential future earnings and cash distributions; and
- the market price of the shares of our capital stock.

The current dislocation and weakness in the capital and credit markets could adversely affect one or more private lenders and could cause one or more of our private lenders to be unwilling or unable to provide us with financing or to increase the costs of that financing. In addition, if regulatory capital requirements imposed on our private lenders change, they may be required to limit, or increase the cost of, financing they provide to us. In general, this could potentially increase our financing costs and reduce our liquidity or require us to sell assets at an inopportune time or price.

Under current market conditions, structured financing arrangements are generally unavailable, which has also limited borrowings under warehouse and repurchase agreements that are intended to be refinanced by such financings. Consequently, depending on market conditions at the relevant time, we may have to rely more heavily on additional equity issuances, which may be dilutive to our shareholders, or on less efficient forms of debt financing that require a larger portion of our cash flow from operations, thereby reducing funds available for our operations, future business opportunities, cash distributions to our shareholders and other purposes. We cannot assure you that we will have access to such equity or debt capital on favorable terms (including, without limitation, cost and term) at the desired times, or at all, which may cause us to curtail our asset acquisition activities and/or dispose of assets, which could negatively affect our results of operations.

We may incur significant debt, which will subject us to increased risk of loss and may reduce cash available for distributions to our shareholders, and our governing documents contain no limitation on the amount of debt we may incur.

Subject to market conditions and availability, we may incur significant debt through bank credit facilities (including term loans and revolving facilities), repurchase agreements, warehouse facilities and structured financing arrangements, public and private debt issuances and derivative instruments, in addition to transaction or asset specific funding arrangements. The percentage of leverage we employ will vary depending on our available capital, our ability to obtain and access financing arrangements with lenders and the lenders' and rating agencies' estimate of the stability of our investment portfolio's cash flow. Our governing documents contain no limitation on the amount of debt we may incur. Initially, we anticipate utilizing a prudent amount of leverage as disclosed under Summary Leverage Policies. However, we may significantly increase the amount of leverage we utilize at any time without approval of our board of directors. In addition, we may

Table of Contents

leverage individual assets at substantially higher levels. Incurring substantial debt could subject us to many risks that, if realized, would materially and adversely affect us, including the risk that:

our cash flow from operations may be insufficient to make required payments of principal of and interest on the debt or we may fail to comply with all of the other covenants contained in the debt, which is likely to result in (i) acceleration of such debt (and any other debt containing a cross-default or cross-acceleration provision) that we may be unable to repay from internal funds or to refinance on favorable terms, or at all, (ii) our inability to borrow unused amounts under our financing arrangements, even if we are current in payments on borrowings under those arrangements and/or (iii) the loss of some or all of our assets to foreclosure or sale;

our debt may increase our vulnerability to adverse economic and industry conditions with no assurance that investment yields will increase with higher financing costs;

we may be required to dedicate a substantial portion of our cash flow from operations to payments on our debt, thereby reducing funds available for operations, future business opportunities, shareholder distributions or other purposes; and

we are not able to refinance debt that matures prior to the investment it was used to finance on favorable terms, or at all.

Interest rate fluctuations could significantly decrease our results of operations and cash flows and the market value of our investments.

Our primary interest rate exposures will relate to the yield on our investments and the financing cost of our debt, as well as our interest rate swaps that we utilize for hedging purposes. Changes in interest rates will affect our net interest income, which is the difference between the interest income we earn on our interest-earning investments and the interest expense we incur in financing these investments. Interest rate fluctuations resulting in our interest expense exceeding interest income would result in operating losses for us. Changes in the level of interest rates also may affect our ability to invest in investments, the value of our investments and our ability to realize gains from the disposition of assets. Changes in interest rates may also affect borrower default rates.

To the extent that our financing costs will be determined by reference to floating rates, such as LIBOR or a Treasury index, plus a margin, the amount of which will depend on a variety of factors, including, without limitation, (i) for collateralized debt, the value and liquidity of the collateral, and for non-collateralized debt, our credit, (ii) the level and movement of interest rates and (iii) general market conditions and liquidity. In a period of rising interest rates, our interest expense on floating rate debt would increase, while any additional interest income we earn on our floating rate investments may not compensate for such increase in interest expense, the interest income we earn on our fixed rate investments would not change, the duration and weighted average life of our fixed rate investments would increase and the market value of our fixed rate investments would decrease. Similarly, in a period of declining interest rates, our interest income on floating rate investments would decrease, while any decrease in the interest we are charged on our floating rate debt may not compensate for such decrease in interest income and interest we are charged on our fixed rate debt would not change. Any such scenario could materially and adversely affect us.

Our operating results will depend, in part, on differences between the income earned on our investments, net of credit losses, and our financing costs. For any period during which our investments are not match-funded, the income earned on such investments will respond more slowly to interest rate fluctuations than the cost of our borrowings. Consequently, changes in interest rates, particularly short-term interest rates, may immediately and significantly decrease our results of operations and cash flows and the market value of our investments.

collateral would reduce our liquidity and limit our ability to leverage our assets. If we cannot meet these requirements, the lender could accelerate our indebtedness, increase the interest rate on advanced funds and terminate our ability to borrow funds from them, which could

Table of Contents

materially and adversely affect our financial condition and ability to implement our business plan. In addition, in the event that the lender files for bankruptcy or becomes insolvent, our loans may become subject to bankruptcy or insolvency proceedings, thus depriving us, at least temporarily, of the benefit of these assets. Such an event could restrict our access to bank credit facilities and increase our cost of capital. The providers of repurchase agreement financing and bank credit facilities may also require us to maintain a certain amount of cash or set aside assets sufficient to maintain a specified liquidity position that would allow us to satisfy our collateral obligations. As a result, we may not be able to leverage our assets as fully as we would choose, which could reduce our return on assets. In the event that we are unable to meet these collateral obligations, our financial condition and prospects could deteriorate rapidly.

Currently, we have no repurchase agreements or bank credit facilities in place, and there can be no assurance that we will be able to obtain one or more such facilities on favorable terms, or at all.

Lenders may require us to enter into restrictive covenants relating to our operations.

If or when we obtain debt financing, lenders (especially in the case of bank credit facilities) may impose restrictions on us that would affect our ability to incur additional debt, make certain investments or acquisitions, reduce liquidity below certain levels, make distributions to our shareholders, redeem debt or equity securities and impact our flexibility to determine our operating policies and investment strategies. For example, our loan documents may contain negative covenants that limit, among other things, our ability to repurchase our common shares, distribute more than a certain amount of our net income or funds from operations to our shareholders, employ leverage beyond certain amounts, sell assets, engage in mergers or consolidations, grant liens, and enter into transactions with affiliates. If we fail to meet or satisfy any of these covenants, we would be in default under these agreements, and our lenders could elect to declare outstanding amounts due and payable, terminate their commitments, require the posting of additional collateral and enforce their interests against existing collateral. We may also be subject to cross-default and acceleration rights and, with respect to collateralized debt, the posting of additional collateral and foreclosure rights upon default. Further, this could also make it difficult for us to satisfy the qualification requirements necessary to maintain our status as a REIT for U.S. federal income tax purposes.

If one or more of our Manager's executive officers are no longer employed by our Manager, financial institutions providing any financing arrangements we may have may not provide future financing to us, which could materially and adversely affect us.

If financial institutions that we seek to finance our investments require that one or more of our Manager's executives continue to serve in such capacity and if one or more of our Manager's executives are no longer employed by our Manager, it may constitute an event of default and the financial institution providing the arrangement may have acceleration rights with respect to outstanding borrowings and termination rights with respect to our ability to finance our future investments with that institution. If we are unable to obtain financing for our accelerated borrowings and for our future investments under such circumstances, we could be materially and adversely affected.

Risks Related to Hedging

We may enter into hedging transactions that could expose us to contingent liabilities in the future.

Subject to maintaining our qualification as a REIT, part of our investment strategy will involve entering into hedging transactions that could require us to fund cash payments in certain circumstances (such as the early termination of the hedging instrument caused by an event of default or other early termination event, or the decision by a counterparty to request margin securities it is contractually owed under the terms of the hedging instrument). The amount due would be equal to the unrealized loss of the open swap positions with the respective counterparty and could also include

other fees and charges. These economic losses will be reflected in our results of operations, and our ability to fund these obligations will depend on the liquidity of

Table of Contents

our assets and access to capital at the time, and the need to fund these obligations could adversely impact our financial condition.

Hedging against interest rate exposure may adversely affect our earnings, which could reduce our cash available for distribution to our stockholders.

Subject to maintaining our qualification as a REIT, we intend to pursue various hedging strategies to seek to reduce our exposure to adverse changes in interest rates. Our hedging activity will vary in scope based on the level and volatility of interest rates, the type of assets held and other changing market conditions. Interest rate hedging may fail to protect or could adversely affect us because, among other things:

- interest rate hedging can be expensive, particularly during periods of rising and volatile interest rates;

- available interest rate hedges may not correspond directly with the interest rate risk for which protection is sought;

- due to a credit loss, the duration of the hedge may not match the duration of the related liability;

- the amount of income that a REIT may earn from hedging transactions (other than hedging transactions that satisfy certain requirements of the Internal Revenue Code or that are done through a TRS) to offset interest rate losses is limited by U.S. federal tax provisions governing REITs;

- the credit quality of the hedging counterparty owing money on the hedge may be downgraded to such an extent that it impairs our ability to sell or assign our side of the hedging transaction; and

- the hedging counterparty owing money in the hedging transaction may default on its obligation to pay.

In addition, we may fail to recalculate, readjust and execute hedges in an efficient manner.

Any hedging activity in which we engage may materially and adversely affect our results of operations and cash flows. Therefore, while we may enter into such transactions seeking to reduce interest rate risks, unanticipated changes in interest rates may result in poorer overall investment performance than if we had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio positions or liabilities being hedged may vary materially. Moreover, for a variety of reasons, we may not seek to establish a perfect correlation between such hedging instruments and the portfolio positions or liabilities being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge and expose us to risk of loss.

Hedging instruments often are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities and involve risks and costs that could result in material losses.

The cost of using hedging instruments increases as the period covered by the instrument increases and during periods of rising and volatile interest rates, we may increase our hedging activity and thus increase our hedging costs during periods when interest rates are volatile or rising and hedging costs have increased. In addition, hedging instruments involve risk since they often are not traded on regulated exchanges, guaranteed by an exchange or its clearing house, or regulated by any U.S. or foreign governmental authorities. Consequently, there are no requirements with respect to record keeping, financial responsibility or segregation of customer funds and positions. Furthermore, the enforceability of agreements underlying hedging transactions may depend on compliance with applicable statutory

and commodity and other regulatory requirements and, depending on the identity of the counterparty, applicable international requirements. The business failure of a hedging counterparty with whom we enter into a hedging transaction will most likely result in its default. Default by a party with whom we enter into a hedging transaction may result in the loss of unrealized profits and force us to cover our commitments, if any, at the then current market price. Although generally we will seek to reserve the right to terminate our hedging positions, it may not always be possible to dispose of or close out a hedging position without the consent of the hedging counterparty and we may not be able to enter into an offsetting contract in order to cover our risk. We cannot assure you that a liquid secondary market will

Table of Contents

exist for hedging instruments purchased or sold, and we may be required to maintain a position until exercise or expiration, which could result in significant losses.

We may fail to qualify for hedge accounting treatment.

We intend to record derivative and hedging transactions in accordance with Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*, or SFAS 133. Under these standards, we may fail to qualify for hedge accounting treatment for a number of reasons, including if we use instruments that do not meet the SFAS 133 definition of a derivative (such as short sales), we fail to satisfy SFAS 133 hedge documentation and hedge effectiveness assessment requirements or our instruments are not highly effective. If we fail to qualify for hedge accounting treatment, our operating results may suffer because losses on the derivatives that we enter into may not be offset by a change in the fair value of the related hedged transaction or item.

We may enter into derivative contracts that could expose us to contingent liabilities in the future.

Subject to maintaining our qualification as a REIT, we may enter into derivative contracts that could require us to fund cash payments in the future under certain circumstances (*e.g.*, the early termination of the derivative agreement caused by an event of default or other early termination event, or the decision by a counterparty to request margin securities it is contractually owed under the terms of the derivative contract). The amount due would be equal to the unrealized loss of the open swap positions with the respective counterparty and could also include other fees and charges. These economic losses may materially and adversely affect our results of operations and cash flows.

Risks Related to Our Investments

We have not yet identified any specific investments for our portfolio and therefore, we may allocate the net proceeds from this offering and the concurrent private placement to investments with which you may not agree.

We have not yet identified any specific investments for our portfolio and, thus, you will not be able to evaluate the manner in which the net proceeds of this offering and the concurrent private placement will be invested or the economic merit of our expected investments before purchasing our common stock. As a result, we may use the net proceeds from these offerings to invest in investments with which you may not agree. Additionally, our investments will be selected by our Manager and our stockholders will not have input into such investment decisions. Both of these factors will increase the uncertainty, and thus the risk, of investing in shares of our common stock. The failure of our Manager to apply these proceeds effectively or find investments that meet our investment criteria in sufficient time or on acceptable terms could result in unfavorable returns, could cause a material adverse effect on our business, financial condition, liquidity, results of operations and ability to make distributions to our stockholders, and could cause the value of our common stock to decline.

Until appropriate investments can be identified, our Manager may invest the net proceeds of this offering and the concurrent private offering in interest-bearing short-term investments, including Agency RMBS, AAA-rated CMBS and money market accounts and/or funds, that are consistent with our intention to qualify as a REIT. These investments are expected to provide a lower net return than we will seek to achieve from investments in our target assets. We expect to reallocate a portion of the net proceeds from these offerings into a portfolio of our target assets within three months, subject to the availability of appropriate investment opportunities. Our Manager intends to conduct due diligence with respect to each investment and suitable investment opportunities may not be immediately available. Even if opportunities are available, there can be no assurance that our Manager's due diligence processes will uncover all relevant facts or that any investment will be successful.

We cannot assure you that we will be able to identify assets that meet our investment objective, that we will be successful in consummating any investment opportunities we identify or that one or more investments

Table of Contents

we may make using the net proceeds of this offering will yield attractive risk-adjusted returns. Our inability to do any of the foregoing likely would materially and adversely affect our results of operations and cash flows and our ability to make distributions to our stockholders.

The lack of liquidity in our investments may adversely affect our business.

The illiquidity of our investments in real estate loans and investments other than certain of our investments in mortgage backed securities, or MBS, may make it difficult for us to sell such investments if the need or desire arises. Many of the securities we purchase will not be registered under the relevant securities laws, resulting in a prohibition against their transfer, sale, pledge or their disposition except in a transaction that is exempt from the registration requirements of, or otherwise in accordance with, those laws. In addition, certain investments such as B Notes, mezzanine loans and bridge and other loans are also particularly illiquid investments due to their short life, their potential unsuitability for securitization and the greater difficulty of recovery in the event of a borrower's default. As a result, we expect many of our investments will be illiquid and if we are required to liquidate all or a portion of our portfolio quickly, we may realize significantly less than the value at which we have previously recorded our investments. Further, we may face other restrictions on our ability to liquidate an investment in a business entity to the extent that we or our Manager has or could be attributed with material, non-public information regarding such business entity. As a result, our ability to vary our portfolio in response to changes in economic and other conditions may be relatively limited, which could adversely affect our results of operations and financial condition.

Our investments may be concentrated and will be subject to risk of default.

While we intend to diversify our portfolio of investments in the manner described in this prospectus, we are not required to observe specific diversification criteria, except as may be set forth in the investment guidelines adopted by our board of directors. Therefore, our investments in our target assets may at times be concentrated in certain property types that are subject to higher risk of foreclosure, or secured by properties concentrated in a limited number of geographic locations. To the extent that our portfolio is concentrated in any one region or type of asset, downturns relating generally to such region or type of asset may result in defaults on a number of our investments within a short time period, which may reduce our net income and the value of our common stock and accordingly reduce our ability to pay dividends to our stockholders.

Difficult conditions in the mortgage, commercial and residential real estate markets may cause us to experience market losses related to our holdings, and we do not expect these conditions to improve in the near future.

Our results of operations are materially affected by conditions in the real estate markets, the financial markets and the economy generally. Continuing concerns about the declining real estate market, as well as inflation, energy costs, geopolitical issues and the availability and cost of credit, have contributed to increased volatility and diminished expectations for the economy and markets going forward. The mortgage market has been severely affected by changes in the lending landscape and there is no assurance that these conditions have stabilized or that they will not worsen. The disruption in the mortgage market has an impact on new demand for homes, which will compress the home ownership rates and weigh heavily on future home price performance. There is a strong correlation between home price growth rates and mortgage loan delinquencies. The further deterioration of the real estate market may cause us to experience losses related to our assets and to sell assets at a loss. Declines in the market values of our investments may adversely affect our results of operations and credit availability, which may reduce earnings and, in turn, cash available for distribution to our stockholders.

We operate in a highly competitive market for investment opportunities and competition may limit our ability to acquire desirable investments in our target assets and could also affect the pricing of these securities.

We operate in a highly competitive market for investment opportunities. Our profitability depends, in large part, on our ability to acquire our target assets at attractive prices. In acquiring our target assets, we will

Table of Contents

compete with a variety of institutional investors, including other REITs, specialty finance companies, public and private funds (including other funds managed by Starwood Capital Group), commercial and investment banks, commercial finance and insurance companies and other financial institutions. Many of our competitors are substantially larger and have considerably greater financial, technical, marketing and other resources than we do. Several other REITs have recently raised, or are expected to raise, significant amounts of capital, and may have investment objectives that overlap with ours, which may create additional competition for investment opportunities. Some competitors may have a lower cost of funds and access to funding sources that may not be available to us, such as funding from the U.S. Government, if we are not eligible to participate in programs established by the U.S. Government. Many of our competitors are not subject to the operating constraints associated with REIT tax compliance or maintenance of an exemption from the 1940 Act. In addition, some of our competitors may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships than us. Furthermore, competition for investments in our target assets may lead to the price of such assets increasing, which may further limit our ability to generate desired returns. We cannot assure you that the competitive pressures we face will not have a material adverse effect on our business, financial condition and results of operations. Also, as a result of this competition, desirable investments in our target assets may be limited in the future and we may not be able to take advantage of attractive investment opportunities from time to time, as we can provide no assurance that we will be able to identify and make investments that are consistent with our investment objectives.

The commercial mortgage loans we expect to acquire and the mortgage loans underlying our CMBS investments will be subject to the ability of the commercial property owner to generate net income from operating the property as well as the risks of delinquency and foreclosure.

Commercial mortgage loans are secured by multifamily or commercial property and are subject to risks of delinquency and foreclosure, and risks of loss that may be greater than similar risks associated with loans made on the security of single-family residential property. The ability of a borrower to repay a loan secured by an income-producing property typically is dependent primarily upon the successful operation of such property rather than upon the existence of independent income or assets of the borrower. If the net operating income of the property is reduced, the borrower's ability to repay the loan may be impaired. Net operating income of an income-producing property can be adversely affected by, among other things,

- tenant mix;
- success of tenant businesses;
- property management decisions;
- property location, condition and design;
- competition from comparable types of properties;
- changes in laws that increase operating expenses or limit rents that may be charged;
- changes in national, regional or local economic conditions and/or specific industry segments, including the credit and securitization markets;
- declines in regional or local real estate values;
- declines in regional or local rental or occupancy rates;

increases in interest rates, real estate tax rates and other operating expenses;

costs of remediation and liabilities associated with environmental conditions;

the potential for uninsured or underinsured property losses;

changes in governmental laws and regulations, including fiscal policies, zoning ordinances and environmental legislation and the related costs of compliance; and

acts of God, terrorist attacks, social unrest and civil disturbances.

investing in real estate-related loans and securities, which may result in significant losses.

We may invest in corporate bank debt and debt securities of commercial real estate operating or finance companies. These investments will involve special risks relating to the particular company, including its

We may acquire B Notes. A B Note is a mortgage loan typically (1) secured by a first mortgage on a single large commercial property or group of related properties and (2) subordinated to an A Note secured by the same first mortgage on the same collateral. As a result, if a borrower defaults, there may not be sufficient funds remaining for B Note holders after payment to the A Note holders. However, because each transaction is privately negotiated, B Notes can vary in their structural characteristics and risks. For example, the rights of

acts of God, which may result in uninsured losses;

acts of war or terrorism, including the consequences of events;

adverse changes in national and local economic and market conditions;

Table of Contents

changes in governmental laws and regulations, including fiscal policies, zoning ordinances and environmental legislation and the related costs of compliance;

costs of remediation and liabilities associated with environmental conditions; and

the potential for uninsured or under-insured property losses.

We may acquire non-Agency RMBS, which are backed by residential real estate property but, in contrast to Agency RMBS, their principal and interest are not guaranteed by federally chartered entities such as Fannie Mae and Freddie Mac and, in the case of Ginnie Mae, the U.S. Government. Our investments in RMBS will be subject to the risks of defaults, foreclosure timeline extension, fraud, home price depreciation and unfavorable modification of loan principal amount, interest rate and amortization of principal, accompanying the underlying residential mortgage loans. In the event of defaults on the residential mortgage loans that underlie our investments in Agency RMBS and the exhaustion of any underlying or any additional credit support, we may not realize our anticipated return on our investments and we may incur a loss on these investments.

We may acquire subprime or Alt A residential mortgage loans, which are subject to increased risks.

We may acquire non-Agency RMBS backed by collateral pools of mortgage loans that have been originated using underwriting standards that are less restrictive than those used in underwriting prime mortgage loans. These lower standards include mortgage loans made to borrowers having imperfect or impaired credit histories, mortgage loans where the amount of the loan at origination is 80% or more of the value of the mortgage property, mortgage loans made to borrowers with low credit scores, mortgage loans made to borrowers who have other debt that represents a large portion of their income and mortgage loans made to borrowers whose income is not required to be disclosed or verified. Due to economic conditions, including increased interest rates and lower home prices, as well as aggressive lending practices, subprime mortgage loans have in recent periods experienced increased rates of delinquency, foreclosure, bankruptcy and loss, and they are likely to continue to experience delinquency, foreclosure, bankruptcy and loss rates that are higher, and that may be substantially higher, than those experienced by mortgage loans underwritten in a more traditional manner. Thus, because of the higher delinquency rates and losses associated with subprime mortgage loans and Alt A mortgage loans, the performance of non-Agency RMBS backed by subprime mortgage loans and Alt A mortgage loans that we may acquire could be correspondingly adversely affected, which could adversely impact our results of operations, financial condition and business.

Construction loans involve an increased risk of loss.

We may invest in construction loans. If we fail to fund our entire commitment on a construction loan or if a borrower otherwise fails to complete the construction of a project, there could be adverse consequences associated with the loan, including: a loss of the value of the property securing the loan, especially if the borrower is unable to raise funds to complete it from other sources; a borrower claim against us for failure to perform under the loan documents; increased costs to the borrower that the borrower is unable to pay; a bankruptcy filing by the borrower; and abandonment by the borrower of the collateral for the loan.

Risks of cost overruns and noncompletion of renovation of the properties underlying rehabilitation loans may result in significant losses.

The renovation, refurbishment or expansion by a borrower under a mortgaged property involves risks of cost overruns and noncompletion. Estimates of the costs of improvements to bring an acquired property up to standards established for the market position intended for that property may prove inaccurate. Other risks may include rehabilitation costs

exceeding original estimates, possibly making a project uneconomical, environmental risks and rehabilitation and subsequent leasing of the property not being completed on schedule. If such renovation is not completed in a timely manner, or if it costs more than expected, the borrower may experience a prolonged impairment of net operating income and may not be able to make payments on our investment, which could result in significant losses.

Table of Contents

Interest rate fluctuations could reduce our ability to generate income on our investments and may cause losses.

Changes in interest rates will affect our net interest income, which is the difference between the interest income we earn on our interest-earning investments and the interest expense we incur in financing these investments. Changes in the level of interest rates also may affect our ability to originate and acquire assets, the value of our assets and our ability to realize gains from the disposition of assets. Changes in interest rates may also affect borrower default rates. In a period of rising interest rates, our interest expense could increase, while the interest we earn on our fixed-rate debt investments would not change, adversely affecting our profitability. Our operating results depend in large part on differences between the income from our assets, net of credit losses, and our financing costs. We anticipate that for any period during which our assets are not match-funded, the income from such assets will respond more slowly to interest rate fluctuations than the cost of our borrowings. Consequently, changes in interest rates may significantly influence our net income. Increases in these rates will tend to decrease our net income and the market value of our fixed rate assets. Interest rate fluctuations resulting in our interest expense exceeding interest income would result in operating losses for us.

We may experience a decline in the fair value of our assets.

A decline in the fair market value of our assets may require us to recognize an other-than-temporary impairment against such assets under GAAP if we were to determine that, with respect to any assets in unrealized loss positions, we do not have the ability and intent to hold such assets to maturity or for a period of time sufficient to allow for recovery to the amortized cost of such assets. If such a determination were to be made, we would recognize unrealized losses through earnings and write down the amortized cost of such assets to a new cost basis, based on the fair value of such assets on the date they are considered to be other-than-temporarily impaired. Such impairment charges reflect non-cash losses at the time of recognition; subsequent disposition or sale of such assets could further affect our future losses or gains, as they are based on the difference between the sale price received and adjusted amortized cost of such assets at the time of sale.

Some of our portfolio investments will be recorded at fair value and, as a result, there will be uncertainty as to the value of these investments.

Some of our portfolio investments will be in the form of positions or securities that are not publicly traded. The fair value of securities and other investments that are not publicly traded may not be readily determinable. We will value these investments quarterly at fair value, as determined in accordance with SFAS No. 157, *Fair Value Measurements*, or SFAS 157, which may include unobservable inputs. Because such valuations are subjective, the fair value of certain of our assets may fluctuate over short periods of time and our determinations of fair value may differ materially from the values that would have been used if a ready market for these securities existed. The value of our common stock could be adversely affected if our determinations regarding the fair value of these investments were materially higher than the values that we ultimately realize upon their disposal.

An increase in prepayment rates could adversely affect yields on our investments.

The value of our assets may be affected by prepayment rates on mortgage loans. Prepayment rates on mortgage loans are influenced by changes in interest rates and a variety of economic, geographic and other factors beyond our control, and consequently, prepayment rates cannot be predicted with certainty. In periods of declining mortgage interest rates, prepayments on mortgage loans generally increase. If general interest rates decline as well, we are likely to reinvest the proceeds of prepayments received during these periods in assets yielding less than the mortgage loans that were prepaid. In addition, the market value of the mortgage loan assets may, because of the risk of prepayment, benefit less than other fixed-income securities from declining interest rates. Conversely, in periods of rising interest rates, prepayments on mortgage loans generally decrease, in which case we would not have the prepayment proceeds

available to invest in assets

Table of Contents

with higher yields. Under certain interest rate and prepayment scenarios, we may fail to recoup fully our cost of certain investments purchased at a premium to face value.

Liability relating to environmental matters may impact the value of properties that we may acquire upon foreclosure of the properties underlying our investments.

To the extent we foreclose on properties with respect to which we have extended mortgage loans, we may be subject to environmental liabilities arising from such foreclosed properties. Under various U.S. federal, state and local laws, an owner or operator of real property may become liable for the costs of removal of certain hazardous substances released on its property. These laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release of such hazardous substances.

The presence of hazardous substances may adversely affect an owner's ability to sell real estate or borrow using real estate as collateral. To the extent that an owner of a property underlying one of our debt investments becomes liable for removal costs, the ability of the owner to make payments to us may be reduced, which in turn may adversely affect the value of the relevant mortgage asset held by us and our ability to make distributions to our stockholders.

If we foreclose on any properties underlying our investments, the presence of hazardous substances on a property may adversely affect our ability to sell the property and we may incur substantial remediation costs, thus harming our financial condition. The discovery of material environmental liabilities attached to such properties could have a material adverse effect on our results of operations and financial condition and our ability to make distributions to our stockholders.

Mortgage loan modification programs and future legislative action may adversely affect the value of, and the returns on, the target assets in which we intend to invest.

The U.S. Government, through the Federal Reserve, the FHA and the FDIC, commenced implementation of programs designed to provide homeowners with assistance in avoiding residential mortgage loan foreclosures. The programs may involve, among other things, the modification of mortgage loans to reduce the principal amount of the loans or the rate of interest payable on the loans, or to extend the payment terms of the loans. For example, the Helping Families Save Their Homes Act of 2009, which was enacted on May 20, 2009, provides a safe harbor for servicers entering into qualified loss mitigation plans with respect to residential mortgages originated before the act was enacted. A servicer's duty to any investor or other party to maximize the net present value of any mortgage being modified will be construed to apply to all investors and other parties and will be deemed satisfied when the following criteria are met: (a) a default on the payment of the mortgage has occurred, is imminent, or is reasonably foreseeable, (b) the mortgagor occupies the property securing the mortgage as his or her principal residence and (c) the servicer reasonably determined that the application of such qualified loss mitigation plan will likely provide an anticipated recovery on the outstanding principal mortgage debt that will exceed the anticipated recovery through foreclosure. Any servicer that is deemed to be acting in the best interests of all investors and parties is relieved of liability to any party owed a duty as discussed above and shall not be subject to any injunction, stay or other equitable relief to such party based solely upon the implementation by the servicer of a qualified loss mitigation plan. The act further provides that any person, including a trustee, issuer and loan originator, shall not be liable for monetary damages or subject to an injunction, stay or other equitable relief based solely upon that person's cooperation with a servicer in implementing a qualified loss mitigation program that meets the criteria set forth above. By protecting servicers from such liabilities, this safe harbor may encourage loan modifications and reduce the likelihood that investors in securitizations will be paid on a timely basis or will be paid in full.

Members of Congress have indicated support for additional legislative relief for homeowners, including an amendment of the bankruptcy laws to permit the modification of mortgage loans in bankruptcy proceedings.

Loan modifications are more likely to be used when borrowers are less able to refinance or sell their homes due to market conditions, and when the potential recovery from a foreclosure is reduced due to lower property values. A significant number of loan modifications could result in a significant reduction in cash flows to the holders of the mortgage securities on an ongoing basis. These loan modification programs, as well

Table of Contents

as future legislative or regulatory actions, including amendments to the bankruptcy laws, that result in the modification of outstanding mortgage loans may adversely affect the value of, and the returns on, the target assets in which we intend to invest.

Risks Related to Our Common Stock

There is no public market for our common stock and a market may never develop, which could cause our common stock to trade at a discount and make it difficult for holders of our common stock to sell their shares.

Our shares of common stock are newly-issued securities for which there is no established trading market. We have applied to list our common stock on the NYSE under the trading symbol STWD. However, there can be no assurance that an active trading market for our common stock will develop, or if one develops, be maintained. Accordingly, no assurance can be given as to the ability of our stockholders to sell their common stock or the price that our stockholders may obtain for their common stock.

Some of the factors that could negatively affect the market price of our common stock include:

our actual or projected operating results, financial condition, cash flows and liquidity, or changes in business strategy or prospects;

actual or perceived conflicts of interest with our Manager or Starwood Capital Group and individuals, including our executives;

equity issuances by us, or share resales by our stockholders, or the perception that such issuances or resales may occur;

actual or anticipated accounting problems;

publication of research reports about us or the real estate industry;

changes in market valuations of similar companies;

adverse market reaction to any increased indebtedness we incur in the future;

additions to or departures of our Manager's or Starwood Capital Group's key personnel;

speculation in the press or investment community;

our failure to meet, or the lowering of, our earnings estimates or those of any securities analysts;

increases in market interest rates, which may lead investors to demand a higher distribution yield for our common stock, if we have begun to make distributions to our stockholders, and would result in increased interest expenses on our debt;

failure to maintain our REIT qualification or exemption from the 1940 Act;

price and volume fluctuations in the stock market generally; and

general market and economic conditions, including the current state of the credit and capital markets.

Market factors unrelated to our performance could also negatively impact the market price of our common stock. One of the factors that investors may consider in deciding whether to buy or sell our common stock is our distribution rate as a percentage of our stock price relative to market interest rates. If market interest rates increase, prospective investors may demand a higher distribution rate or seek alternative investments paying higher dividends or interest. As a result, interest rate fluctuations and conditions in the capital markets can affect the market value of our common stock. For instance, if interest rates rise, it is likely that the market price of our common stock will decrease as market rates on interest-bearing securities increase.

Table of Contents

Common stock eligible for future sale may have adverse effects on our share price.

We are offering _____ shares of our common stock as described in this prospectus. In addition, concurrently with this offering, SPT Investment, LLC, an affiliate of Starwood Capital Group which is controlled by Mr. Sternlicht, will acquire \$ _____ million of our common stock in a private placement at a price per share equal to the price per share in this offering. Our equity incentive plan provides for grants of restricted common stock and other equity-based awards up to an aggregate of _____ % of the issued and outstanding shares of our common stock (on a fully diluted basis) at the time of the award. Each of SPT Investment, LLC and our Manager, each of which is controlled by Mr. Sternlicht, will agree that, for a period of _____ after the date of this prospectus, it will not without the prior written consent of the representatives of the underwriters, dispose of or hedge any shares of our common stock, subject to certain exceptions and extension in certain circumstances as described elsewhere in this prospectus. Assuming no exercise of the underwriters' overallotment option to purchase additional shares, approximately _____ % of our shares of common stock are subject to lockup agreements. When the lockup periods expire, these shares of common stock will become eligible for sale, in some cases subject to the requirements of Rule 144 under the Securities Act of 1933, as amended (or the Securities Act), which are described under _____ Shares Eligible for Future Sale.

We cannot predict the effect, if any, of future sales of our common stock, or the availability of shares for future sales, on the market price of our common stock. The market price of our common stock may decline significantly when the restrictions on resale by certain of our stockholders lapse. Sales of substantial amounts of common stock or the perception that such sales could occur may adversely affect the prevailing market price for our common stock.

Also, we may issue additional shares in subsequent public offerings or private placements to make new investments or for other purposes. We are not required to offer any such shares to existing stockholders on a preemptive basis. Therefore, it may not be possible for existing stockholders to participate in such future share issuances, which may dilute the existing stockholders' interests in us.

We have not established a minimum distribution payment level and we cannot assure you of our ability to pay distributions in the future.

We are generally required to distribute to our shareholders at least 90% of our taxable income each year for us to qualify as a REIT under the Internal Revenue Code, which requirement we currently intend to satisfy through quarterly distributions of all or substantially all of our REIT taxable income in such year, subject to certain adjustments. We have not established a minimum distribution payment level and our ability to pay distributions may be adversely affected by a number of factors, including the risk factors described in this prospectus. All distributions will be made at the discretion of our board of directors and will depend on our earnings, our financial condition, debt covenants, maintenance of our REIT qualification and other factors as our board of directors may deem relevant from time to time. We believe that a change in any one of the following factors could adversely affect our results of operations and impair our ability to pay distributions to our stockholders:

the profitability of the investment of the net proceeds of this offering;

our ability to make profitable investments;

margin calls or other expenses that reduce our cash flow;

defaults in our asset portfolio or decreases in the value of our portfolio; and

the fact that anticipated operating expense levels may not prove accurate, as actual results may vary from estimates.

As a result, no assurance can be given that we will be able to make distributions to our stockholders at any time in the future or that the level of any distributions we do make to our stockholders will achieve a market yield or increase or even be maintained over time, any of which could materially and adversely affect us.

Table of Contents

In addition, distributions that we make to our stockholders will generally be taxable to our stockholders as ordinary income. However, a portion of our distributions may be designated by us as long-term capital gains to the extent that they are attributable to capital gain income recognized by us or may constitute a return of capital to the extent that they exceed our earnings and profits as determined for tax purposes. A return of capital is not taxable, but has the effect of reducing the basis of a shareholder's investment in our common shares.

We may use a portion of the net proceeds from this offering and the concurrent private placement to make quarterly distributions, which would, among other things, reduce our cash available for investing.

Prior to the time we have fully invested the net proceeds of this offering and the concurrent private placement, we may fund our quarterly distributions out of the net proceeds of these offerings, which would reduce the amount of cash we have available for investing and other purposes. The use of these net proceeds for distributions could be dilutive to our financial results. In addition, funding our distributions from our net proceeds may constitute a return of capital to our investors, which would have the effect of reducing each stockholder's basis in its shares of our common stock.

Investing in our common stock may involve a high degree of risk.

The investments that we make in accordance with our investment objectives may result in a high amount of risk when compared to alternative investment options and volatility or loss of principal. Our investments may be highly speculative and aggressive, and therefore an investment in our common stock may not be suitable for someone with lower risk tolerance.

Future offerings of debt or equity securities, which would rank senior to our common stock, may adversely affect the market price of our common stock.

If we decide to issue debt or equity securities in the future, which would rank senior to our common stock, it is likely that they will be governed by an indenture or other instrument containing covenants restricting our operating flexibility. Additionally, any convertible or exchangeable securities that we issue in the future may have rights, preferences and privileges more favorable than those of our common stock and may result in dilution to owners of our common stock. We and, indirectly, our stockholders, will bear the cost of issuing and servicing such securities. Because our decision to issue debt or equity securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus holders of our common stock will bear the risk of our future offerings reducing the market price of our common stock and diluting the value of their stock holdings in us.

Risks Related to Our Organization and Structure

Certain provisions of Maryland law could inhibit changes in control.

Certain provisions of the Maryland General Corporation Law, or the MGCL, may have the effect of deterring a third party from making a proposal to acquire us or of impeding a change in control under circumstances that otherwise could provide the holders of our common stock with the opportunity to realize a premium over the then-prevailing market price of our common stock. We are subject to the "business combination" provisions of the MGCL that, subject to limitations, prohibit certain business combinations (including a merger, consolidation, share exchange, or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities) between us and an "interested stockholder" (defined generally as any person who beneficially owns 10% or more of our then outstanding voting capital stock or an affiliate or associate of ours who, at any time within the two-year period prior to the date in question, was the beneficial owner of 10% or more of our then outstanding voting capital stock) or an affiliate thereof for five years after the most recent date on which the stockholder becomes an interested stockholder.

After the five-year prohibition, any business combination between us and an interested stockholder generally must be

securities issued by these subsidiaries that are excepted from the definition of investment company under Section 3(c)(1) or Section 3(c)(7) of the 1940 Act, together with any other investment

Table of Contents

securities we may own, may not have a combined value in excess of 40% of the value of our total assets on an unconsolidated basis. This requirement limits the types of businesses in which we may engage through our subsidiaries.

We expect SPT Real Estate Sub I, LLC and certain other subsidiaries that we may form in the future to rely upon the exemption from registration as an investment company under the 1940 Act pursuant to Section 3(c)(5)(C) of the 1940 Act, which is available for entities primarily engaged in the business of purchasing or otherwise acquiring mortgages and other liens on and interests in real estate. This exemption generally requires that at least 55% of these subsidiaries assets must be comprised of qualifying assets and at least 80% of each of their portfolios must be comprised of qualifying assets and real estate-related assets under the 1940 Act. Certain of our subsidiaries may rely on the exemption provided by Section 3(c)(6) to the extent that they hold mortgage assets through majority owned subsidiaries that rely on Section 3(c)(5)(C).

We have organized SPT TALF Sub I, LLC as a special purpose subsidiary for the purpose of borrowing under the TALF and we may in the future organize additional special purpose subsidiaries in the future that would borrow under the TALF. We anticipate that some of these subsidiaries may be organized to rely on the 1940 Act exemption provided to certain structured financing vehicles by Rule 3a-7. To the extent that we organize subsidiaries that rely on Rule 3a-7 for an exemption from the 1940 Act, these subsidiaries will need to comply with the restrictions described in Business Operating and Regulatory Structure 1940 Act Exemption. In general, Rule 3a-7 exempts from the 1940 Act issuers that limit their activities as follows:

the issuer issues securities the payment of which depends primarily on the cash flow from eligible assets, which include many of the types of assets that we expect to acquire in our TALF fundings, that by their terms convert into cash within a finite time period;

the securities sold are fixed income securities rated investment grade by at least one rating agency (fixed income securities which are unrated or rated below investment grade may be sold to institutional accredited investors and any securities may be sold to qualified institutional buyers and to persons involved in the organization or operation of the issuer);

the issuer acquires and disposes of eligible assets (1) only in accordance with the agreements pursuant to which the securities are issued and (2) so that the acquisition or disposition does not result in a downgrading of the issuer's fixed income securities and the eligible assets are not acquired or disposed of for the primary purpose of recognizing gains or decreasing losses resulting from market value changes; and

unless the issuer is issuing only commercial paper, the issuer appoints an independent trustee, takes reasonable steps to transfer to the trustee an ownership or perfected security interest in the eligible assets, and meets rating agency requirements for commingling of cash flows.

In addition, in certain circumstances, compliance with Rule 3a-7 may also require that the indenture governing the subsidiary include additional limitations on the types of assets the subsidiary may sell or acquire out of the proceeds of assets that mature, are refinanced or otherwise sold, on the period of time during which such transactions may occur, and on the level of transactions that may occur. In light of the requirements of Rule 3a-7, our ability to manage assets held in a special purpose subsidiary that complies with Rule 3a-7 will be limited and we may not be able to purchase or sell assets owned by that subsidiary when we would otherwise desire to do so, which could lead to losses.

There can be no assurance that the laws and regulations governing the 1940 Act status of REITs, including the Division of Investment Management of the SEC providing more specific or different guidance regarding these exemptions, will not change in a manner that adversely affects our operations. If we or our subsidiaries fail to

maintain an exception or exemption from the 1940 Act, we could, among other things, be required either to (a) change the manner in which we conduct our operations to avoid being required to register as an investment company, (b) effect sales of our assets in a manner that, or at a time when, we would not otherwise choose to do so, or (c) register as an investment company, any of which could negatively affect the value of our common stock, the sustainability of our business model, and our ability to make distributions which could have an adverse effect on our business and the market price for our shares of common stock.

Table of Contents

Rapid changes in the values of our other real estate-related investments may make it more difficult for us to maintain our qualification as a REIT or exemption from the 1940 Act.

If the market value or income potential of real estate-related investments declines as a result of increased interest rates, prepayment rates or other factors, we may need to increase our real estate investments and income and/or liquidate our non-qualifying assets in order to maintain our REIT qualification or exemption from the 1940 Act. If the decline in real estate asset values and/or income occurs quickly, this may be especially difficult to accomplish. This difficulty may be exacerbated by the illiquid nature of any non-qualifying assets that we may own. We may have to make investment decisions that we otherwise would not make absent the REIT and 1940 Act considerations.

Our rights and the rights of our stockholders to take action against our directors and officers are limited, which could limit your recourse in the event of actions not in your best interests.

Under Maryland law generally, a director's actions will be upheld if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. In addition, our charter limits the liability of our directors and officers to us and our stockholders for money damages, except for liability resulting from:

actual receipt of an improper benefit or profit in money, property or services; or

active and deliberate dishonesty by the director or officer that was established by a final judgment as being material to the cause of action adjudicated.

Our charter authorizes us to indemnify our directors and officers for actions taken by them in those capacities to the maximum extent permitted by Maryland law. Our bylaws require us to indemnify each director or officer, to the maximum extent permitted by Maryland law, in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service to us. In addition, we may be obligated to fund the defense costs incurred by our directors and officers. As a result, we and our stockholders may have more limited rights against our directors and officers than might otherwise exist absent the current provisions in our charter and bylaws or that might exist with other companies.

Our charter contains provisions that make removal of our directors difficult, which could make it difficult for our stockholders to effect changes to our management.

Our charter provides that a director may only be removed for cause upon the affirmative vote of holders of two-thirds of the votes entitled to be cast in the election of directors. Vacancies may be filled only by a majority of the remaining directors in office, even if less than a quorum. These requirements make it more difficult to change our management by removing and replacing directors and may prevent a change in control of our company that is in the best interests of our stockholders.

Ownership limitations may restrict change of control or business combination opportunities in which our stockholders might receive a premium for their shares.

In order for us to qualify as a REIT for each taxable year after 2009, no more than 50% in value of our outstanding capital stock may be owned, directly or indirectly, by five or fewer individuals during the last half of any calendar year. Individuals for this purpose include natural persons, private foundations, some employee benefit plans and trusts, and some charitable trusts. To preserve our REIT qualification, our charter generally prohibits any person from directly or indirectly owning more than 9.8% in value or in number of shares, whichever is more restrictive, of the outstanding shares of our capital stock or more than 9.8% in value or in number of shares, whichever is more

restrictive, of the outstanding shares of our common stock. This ownership limitation could have the effect of discouraging a takeover or other transaction in which holders of our common stock might receive a premium for their shares over the then prevailing market price or which holders might believe to be otherwise in their best interests. Our board of directors has waived this ownership

Table of Contents

limit in order to permit Starwood Capital Group and SPT Investment, LLC to collectively hold up to % of our common stock.

Risks Related to Our Taxation as a REIT

If we do not qualify as a REIT or fail to remain qualified as a REIT, we will be subject to tax as a regular corporation and could face a substantial tax liability, which would reduce the amount of cash available for distribution to our stockholders.

We intend to operate in a manner that will allow us to qualify as a REIT for federal income tax purposes. Although we do not intend to request a ruling from the Internal Revenue Service, or the IRS, as to our REIT qualification, we expect to receive an opinion of Skadden, Arps, Slate, Meagher & Flom LLP with respect to our qualification as a REIT in connection with this offering of common stock. Investors should be aware, however, that opinions of counsel are not binding on the IRS or any court. The opinion of Skadden, Arps, Slate, Meagher & Flom LLP will represent only the view of our counsel based on our counsel's review and analysis of existing law and on certain representations as to factual matters and covenants made by us and our Manager, including representations relating to the values of our assets and the sources of our income. The opinion will be expressed as of the date issued and will not cover subsequent periods. Skadden, Arps, Slate, Meagher & Flom LLP will have no obligation to advise us or the holders of our common stock of any subsequent change in the matters stated, represented or assumed, or of any subsequent change in applicable law. Furthermore, both the validity of the opinion of Skadden, Arps, Slate, Meagher & Flom LLP, and our qualification as a REIT will depend on our satisfaction of certain asset, income, organizational, distribution, stockholder ownership and other requirements on a continuing basis, the results of which will not be monitored by Skadden, Arps, Slate, Meagher & Flom LLP. Our ability to satisfy the asset tests depends upon our analysis of the characterization and fair market values of our assets, some of which are not susceptible to a precise determination, and for which we will not obtain independent appraisals. Our compliance with the REIT income and quarterly asset requirements also depends upon our ability to successfully manage the composition of our income and assets on an ongoing basis. Moreover, the proper classification of an instrument as debt or equity for federal income tax purposes may be uncertain in some circumstances, which could affect the application of the REIT qualification requirements as described below. Accordingly, there can be no assurance that the IRS will not contend that our interests in subsidiaries or in securities of other issuers will not cause a violation of the REIT requirements.

If we were to fail to qualify as a REIT in any taxable year, we would be subject to federal income tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates, and dividends paid to our stockholders would not be deductible by us in computing our taxable income. Any resulting corporate tax liability could be substantial and would reduce the amount of cash available for distribution to our stockholders, which in turn could have an adverse impact on the value of our common stock. Unless we were entitled to relief under certain Internal Revenue Code provisions, we also would be disqualified from taxation as a REIT for the four taxable years following the year in which we failed to qualify as a REIT.

Dividends payable by REITs do not qualify for the reduced tax rates available for some dividends.

The maximum tax rate applicable to income from qualified dividends payable to domestic stockholders that are individuals, trusts and estates has been reduced by legislation to 15% through the end of 2010. Dividends payable by REITs, however, generally are not eligible for the reduced rates. Although this legislation does not adversely affect the taxation of REITs or dividends payable by REITs, the more favorable rates applicable to regular corporate qualified dividends could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less attractive than investments in the stocks of non-REIT corporations that pay dividends, which could adversely affect the value of the stock of REITs, including our common stock.

Table of Contents

REIT distribution requirements could adversely affect our ability to execute our business plan.

We generally must distribute annually at least 90% of our taxable income, subject to certain adjustments and excluding any net capital gain, in order for federal corporate income tax not to apply to earnings that we distribute. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under federal tax laws. We intend to make distributions to our stockholders to comply with the REIT requirements of the Internal Revenue Code.

From time to time, we may generate taxable income greater than our income for financial reporting purposes prepared in accordance with GAAP, or differences in timing between the recognition of taxable income and the actual receipt of cash may occur. For example, we may be required to accrue income from mortgage loans, mortgage backed securities, and other types of debt securities or interests in debt securities before we receive any payments of interest or principal on such assets. We may also acquire distressed debt investments that are subsequently modified by agreement with the borrower either directly or pursuant to our involvement in the Legacy Loans Program or other similar programs recently announced by the federal government. If the amendments to the outstanding debt are significant modifications under the applicable Treasury regulations, the modified debt may be considered to have been reissued to us at a gain in a debt-for-debt exchange with the borrower, with gain recognized by us to the extent that the principal amount of the modified debt exceeds our cost of purchasing it prior to modification.

As a result, we may find it difficult or impossible to meet distribution requirements in certain circumstances. In particular, where we experience differences in timing between the recognition of taxable income and the actual receipt of cash, the requirement to distribute a substantial portion of our taxable income could cause us to: (i) sell assets in adverse market conditions, (ii) borrow on unfavorable terms, (iii) distribute amounts that would otherwise be invested in future acquisitions, capital expenditures or repayment of debt or (iv) make a taxable distribution of our shares as part of a distribution in which shareholders may elect to receive shares or (subject to a limit measured as a percentage of the total distribution) cash, in order to comply with REIT requirements. These alternatives could increase our costs or reduce our equity. Thus, compliance with the REIT requirements may hinder our ability to grow, which could adversely affect the value of our common stock.

The stock ownership limit imposed by the Internal Revenue Code for REITs and our charter may restrict our business combination opportunities.

In order for us to maintain our qualification as a REIT under the Internal Revenue Code, not more than 50% in value of our outstanding stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Internal Revenue Code to include certain entities) at any time during the last half of each taxable year following our first year. Our charter, with certain exceptions, authorizes our board of directors to take the actions that are necessary and desirable to preserve our qualification as a REIT. Unless exempted by our board of directors, no person may own more than 9.8% of the aggregate value of our outstanding capital stock. Our board may grant an exemption in its sole discretion, subject to such conditions, representations and undertakings as it may determine. The ownership limits imposed by the tax law are based upon direct or indirect ownership by individuals, but only during the last half of a tax year. The ownership limits contained in our charter key off of the ownership at any time by any person, which term includes entities. These ownership limitations in our charter are common in REIT charters and are intended to provide added assurance of compliance with the tax law requirements, and to minimize administrative burdens. However, these ownership limits might also delay or prevent a transaction or a change in our control that might involve a premium price for our common stock or otherwise be in the best interest of our stockholders.

Even if we remain qualified as a REIT, we may face other tax liabilities that reduce our cash flow.

Even if we remain qualified for taxation as a REIT, we may be subject to certain federal, state and local taxes on our income and assets, including taxes on any undistributed income, tax on income from some

Table of Contents

activities conducted as a result of a foreclosure, and state or local income, property and transfer taxes, such as mortgage recording taxes. See U.S. Federal Income Tax Considerations Taxation of Starwood Property Trust, Inc. Any of these taxes would decrease cash available for distribution to our stockholders. In addition, in order to meet the REIT qualification requirements, or to avert the imposition of a 100% tax that applies to certain gains derived by a REIT from dealer property or inventory, we intend to hold some of our assets through our TRS or other subsidiary corporations that will be subject to corporate-level income tax at regular rates. Any of these taxes would decrease cash available for distribution to our stockholders.

Complying with REIT requirements may cause us to forgo otherwise attractive opportunities.

To qualify as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts that we distribute to our stockholders and the ownership of our stock. We may be required to make distributions to stockholders at disadvantageous times or when we do not have funds readily available for distribution, and may be unable to pursue investments that would be otherwise advantageous to us in order to satisfy the source-of-income or asset-diversification requirements for qualifying as a REIT. Thus, compliance with the REIT requirements may hinder our ability to make certain attractive investments.

Complying with REIT requirements may force us to liquidate otherwise attractive investments.

To qualify as a REIT, we must ensure that at the end of each calendar quarter, at least 75% of the value of our assets consists of cash, cash items, government securities and qualified REIT real estate assets, including certain mortgage loans and certain kinds of MBS. The remainder of our investment in securities (other than government securities and qualified real estate assets) generally cannot include more than 10% of the outstanding voting securities of any one issuer or more than 10% of the total value of the outstanding securities of any one issuer. In addition, in general, no more than 5% of the value of our assets (other than government securities and qualified real estate assets) can consist of the securities of any one issuer, and no more than 25% of the value of our total securities can be represented by securities of one or more TRSs. See U.S. Federal Income Tax Considerations Taxation of Starwood Property Trust, Inc. If we fail to comply with these requirements at the end of any calendar quarter, we must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification and suffering adverse tax consequences. As a result, we may be required to liquidate from our portfolio otherwise attractive investments. These actions could have the effect of reducing our income and amounts available for distribution to our stockholders.

We may in the future choose to pay dividends in our own stock, in which case you may be required to pay income taxes in excess of the cash dividends you receive.

We may in the future distribute taxable dividends that are payable in cash and shares of our common stock at the election of each stockholder. Under IRS Revenue Procedure 2009-15, up to 90% of any such taxable dividend for 2009 could be payable in our stock. Taxable stockholders receiving such dividends will be required to include the full amount of the dividend as ordinary income to the extent of our current and accumulated earnings and profits for federal income tax purposes. As a result, stockholders may be required to pay income taxes with respect to such dividends in excess of the cash dividends received. If a U.S. stockholder sells the stock that it receives as a dividend in order to pay this tax, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our stock at the time of the sale. Furthermore, with respect to certain non-U.S. stockholders, we may be required to withhold U.S. tax with respect to such dividends, including in respect of all or a portion of such dividend that is payable in stock. In addition, if a significant number of our stockholders determine to sell shares of our common stock in order to pay taxes owed on dividends, it may put downward pressure on the trading price of our common stock.

Further, while Revenue Procedure 2009-15 applies only to taxable dividends payable in cash or stock in 2008 and 2009, it is unclear whether and to what extent we will be able to pay taxable dividends in cash and stock in later years. Moreover, various aspects of such a taxable cash/stock dividend are uncertain and have

Table of Contents

not yet been addressed by the IRS. No assurance can be given that the IRS will not impose additional requirements in the future with respect to taxable cash/stock dividends, including on a retroactive basis, or assert that the requirements for such taxable cash/stock dividends have not been met.

The failure of assets subject to repurchase agreements to qualify as real estate assets could adversely affect our ability to qualify as a REIT.

We intend to enter into financing arrangements that are structured as sale and repurchase agreements pursuant to which we would nominally sell certain of our assets to a counterparty and simultaneously enter into an agreement to repurchase these assets at a later date in exchange for a purchase price. Economically, these agreements are financings which are secured by the assets sold pursuant thereto. We believe that we would be treated for REIT asset and income test purposes as the owner of the assets that are the subject of any such sale and repurchase agreement notwithstanding that such agreements may transfer record ownership of the assets to the counterparty during the term of the agreement. It is possible, however, that the IRS could assert that we did not own the assets during the term of the sale and repurchase agreement, in which case we could fail to qualify as a REIT.

We may be required to report taxable income for certain investments in excess of the economic income we ultimately realize from them.

We may acquire debt instruments in the secondary market for less than their face amount. The discount at which such debt instruments are acquired may reflect doubts about their ultimate collectibility rather than current market interest rates. The amount of such discount will nevertheless generally be treated as market discount for U.S. federal income tax purposes. Accrued market discount is reported as income when, and to the extent that, any payment of principal of the debt instrument is made. Payments on residential mortgage loans are ordinarily made monthly, and consequently accrued market discount may have to be included in income each month as if the debt instrument were assured of ultimately being collected in full. If we collect less on the debt instrument than our purchase price plus the market discount we had previously reported as income, we may not be able to benefit from any offsetting loss deductions.

Similarly, some of the MBS that we acquire may have been issued with original issue discount. We will be required to report such original issue discount based on a constant yield method and will be taxed based on the assumption that all future projected payments due on such MBS will be made. If such MBS turns out not to be fully collectible, an offsetting loss deduction will become available only in the later year that uncollectibility is provable.

Finally, in the event that any debt instruments or MBS acquired by us are delinquent as to mandatory principal and interest payments, or in the event payments with respect to a particular debt instrument are not made when due, we may nonetheless be required to continue to recognize the unpaid interest as taxable income as it accrues, despite doubt as to its ultimate collectibility. Similarly, we may be required to accrue interest income with respect to subordinate MBS at its stated rate regardless of whether corresponding cash payments are received or are ultimately collectible. In each case, while we would in general ultimately have an offsetting loss deduction available to us when such interest was determined to be uncollectible, the utility of that deduction could depend on our having taxable income in that later year or thereafter.

The taxable mortgage pool rules may increase the taxes that we or our stockholders may incur, and may limit the manner in which we effect future securitizations.

Securitizations could result in the creation of taxable mortgage pools for federal income tax purposes. As a REIT, so long as we own 100% of the equity interests in a taxable mortgage pool, we generally would not be adversely affected by the characterization of the securitization as a taxable mortgage pool. Certain categories of stockholders, however, such as foreign stockholders eligible for treaty or other benefits, stockholders with net operating losses, and certain

tax-exempt stockholders that are subject to unrelated business income tax, could be subject to increased taxes on a portion of their dividend income from us that is

Table of Contents

attributable to the taxable mortgage pool. In addition, to the extent that our stock is owned by tax-exempt disqualified organizations, such as certain government-related entities and charitable remainder trusts that are not subject to tax on unrelated business income, we may incur a corporate level tax on a portion of our income from the taxable mortgage pool. In that case, we may reduce the amount of our distributions to any disqualified organization whose stock ownership gave rise to the tax. Moreover, we would be precluded from selling equity interests in these securitizations to outside investors, or selling any debt securities issued in connection with these securitizations that might be considered to be equity interests for tax purposes. These limitations may prevent us from using certain techniques to maximize our returns from securitization transactions.

The tax on prohibited transactions will limit our ability to engage in transactions, including certain methods of securitizing mortgage loans, which would be treated as sales for federal income tax purposes.

A REIT's net income from prohibited transactions is subject to a 100% tax. In general, prohibited transactions are sales or other dispositions of property, other than foreclosure property, but including mortgage loans, held primarily for sale to customers in the ordinary course of business. We might be subject to this tax if we were to dispose of or securitize loans in a manner that was treated as a sale of the loans for federal income tax purposes. Therefore, in order to avoid the prohibited transactions tax, we may choose not to engage in certain sales of loans at the REIT level, and may limit the structures we utilize for our securitization transactions, even though the sales or structures might otherwise be beneficial to us.

Our investments in construction loans will require us to make estimates about the fair market value of land improvements that may be challenged by the IRS.

We may invest in construction loans, the interest from which will be qualifying income for purposes of the REIT income tests, provided that the loan value of the real property securing the construction loan is equal to or greater than the highest outstanding principal amount of the construction loan during any taxable year. For purposes of construction loans, the loan value of the real property is the fair market value of the land plus the reasonably estimated cost of the improvements or developments (other than personal property) which will secure the loan and which are to be constructed from the proceeds of the loan. There can be no assurance that the IRS would not challenge our estimate of the loan value of the real property.

The failure of a mezzanine loan to qualify as a real estate asset could adversely affect our ability to qualify as a REIT.

We may acquire mezzanine loans, for which the IRS has provided a safe harbor but not rules of substantive law. Pursuant to the safe harbor, if a mezzanine loan meets certain requirements, it will be treated by the IRS as a real estate asset for purposes of the REIT asset tests, and interest derived from the mezzanine loan will be treated as qualifying mortgage interest for purposes of the REIT 75% income test. We may acquire mezzanine loans that do not meet all of the requirements of this safe harbor. In the event we own a mezzanine loan that does not meet the safe harbor, the IRS could challenge such loan's treatment as a real estate asset for purposes of the REIT asset and income tests and, if such a challenge were sustained, we could fail to qualify as a REIT.

Liquidation of assets may jeopardize our REIT qualification.

To qualify as a REIT, we must comply with requirements regarding our assets and our sources of income. If we are compelled to liquidate our investments to repay obligations to our lenders, we may be unable to comply with these requirements, ultimately jeopardizing our qualification as a REIT, or we may be subject to a 100% tax on any resultant gain if we sell assets that are treated as dealer property or inventory.

Table of Contents

Complying with REIT requirements may limit our ability to hedge effectively and may cause us to incur tax liabilities.

The REIT provisions of the Internal Revenue Code substantially limit our ability to hedge our liabilities. Any income from a hedging transaction we enter into to manage risk of interest rate changes with respect to borrowings made or to be made to acquire or carry real estate assets does not constitute gross income for purposes of the 75% or 95% gross income tests. To the extent that we enter into other types of hedging transactions, the income from those transactions is likely to be treated as non-qualifying income for purposes of both of the gross income tests. See Federal Income Tax Considerations Taxation of Starwood Property Trust, Inc. As a result of these rules, we intend to limit our use of advantageous hedging techniques or implement those hedges through a domestic TRS. This could increase the cost of our hedging activities because our TRS would be subject to tax on gains or expose us to greater risks associated with changes in interest rates than we would otherwise want to bear. In addition, losses in our TRS will generally not provide any tax benefit, except for being carried forward against future taxable income in the TRS.

Qualifying as a REIT involves highly technical and complex provisions of the Internal Revenue Code.

Qualification as a REIT involves the application of highly technical and complex Internal Revenue Code provisions for which only limited judicial and administrative authorities exist. Even a technical or inadvertent violation could jeopardize our REIT qualification. Our qualification as a REIT will depend on our satisfaction of certain asset, income, organizational, distribution, stockholder ownership and other requirements on a continuing basis. In addition, our ability to satisfy the requirements to qualify as a REIT depends in part on the actions of third parties over which we have no control or only limited influence, including in cases where we own an equity interest in an entity that is classified as a partnership for U.S. federal income tax purposes.

FORWARD-LOOKING STATEMENTS

We make forward-looking statements in this prospectus that are subject to risks and uncertainties. These forward-looking statements include information about possible or assumed future results of our business, financial condition, liquidity, results of operations, plans and objectives. When we use the words believe, expect, anticipate, estimate, plan, continue, intend, should, may or similar expressions, we intend to identify forward-looking statements. Statements regarding the following subjects, among others, may be forward-looking:

- use of proceeds of this offering;
- our business and investment strategy;
- our projected operating results;
- actions and initiatives of the U.S. Government and changes to U.S. Government policies;
- our ability to obtain financing arrangements;
- financing and advance rates for our target assets;
- our expected leverage;
- general volatility of the securities markets in which we invest;
- our expected investments;
- interest rate mismatches between our target assets and our borrowings used to fund such investments;
- changes in interest rates and the market value of our target assets;
- changes in prepayment rates on our target assets;
- effects of hedging instruments on our target assets;
- rates of default or decreased recovery rates on our target assets;
- the degree to which our hedging strategies may or may not protect us from interest rate volatility;
- changes in governmental regulations, tax law and rates, and similar matters;
- our ability to maintain our qualification as a REIT for U.S. federal income tax purposes;
- our ability to maintain our exemption from registration under the 1940 Act;
- availability of investment opportunities in mortgage-related and real estate-related investments and securities;
- availability of qualified personnel;

estimates relating to our ability to make distributions to our stockholders in the future;

our understanding of our competition; and

market trends in our industry, interest rates, real estate values, the debt securities markets or the general economy.

Table of Contents

The forward-looking statements are based on our beliefs, assumptions and expectations of our future performance, taking into account all information currently available to us. You should not place undue reliance on these forward-looking statements. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these factors are described in this prospectus under the headings Summary, Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations and Business. If a change occurs, our business, financial condition, liquidity and results of operations may vary materially from those expressed in our forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Contents

USE OF PROCEEDS

We are offering _____ shares of our common stock at the anticipated public offering price of \$ _____ per share. We estimate that the net proceeds we will receive from selling common stock in this offering will be approximately \$ _____ million, after deducting underwriting discounts and commissions and estimated offering expenses of approximately \$ _____ million (or, if the underwriters exercise their overallotment option in full, approximately \$ _____ million, after deducting underwriting discounts and commissions and estimated offering expenses of approximately \$ _____ million). Concurrently with the completion of this offering, SPT Investment, LLC will acquire \$ _____ million of our common stock in a private placement at a price per share equal to the price per share in this offering, yielding \$ _____ million of proceeds to us.

We plan to use all the net proceeds from this offering and the concurrent private placement as described above to acquire our target assets in accordance with our objectives and strategies described in this prospectus. See **Business Our Investment Strategy**. Based on prevailing market conditions, our current expectation is that our initial investment portfolio will consist of between 60% to 70% commercial mortgage and mezzanine loans, 10% to 20% commercial real estate corporate debt, 10% to 20% MBS (consisting primarily of CMBS and secondarily of RMBS), and the balance in our other target assets. However, there is no assurance that upon the completion of this offering we will not allocate the proceeds from this offering and the concurrent private placement in a different manner among our target assets. Our decisions will depend on prevailing market conditions and may change over time in response to opportunities available in different interest rate, economic and credit environments. Until appropriate assets can be identified, our Manager may invest the net proceeds from this offering and the concurrent private placement in interest-bearing short-term investments, including Agency RMBS, AAA-rated CMBS and money market accounts, that are consistent with our intention to qualify as a REIT. These investments are expected to provide a lower net return than we will seek to achieve from our target assets. Prior to the time we have fully used the net proceeds of this offering and the concurrent private placement to acquire our target assets, we may fund our quarterly distributions out of such net proceeds.

Table of Contents

DISTRIBUTION POLICY

We intend to make regular quarterly distributions to holders of our common stock. U.S. federal income tax law generally requires that a REIT distribute annually at least 90% of its REIT taxable income, without regard to the deduction for dividends paid and excluding net capital gains, and that it pay tax at regular corporate rates to the extent that it annually distributes less than 100% of its net taxable income. We generally intend over time to pay quarterly distributions in an amount equal to our taxable income. We plan to pay our first distribution in respect of the period from the closing of this offering and the concurrent private placement through September , 2009, which may be prior to the time when we have fully invested the net proceeds from this offering in our target assets.

To the extent that in respect of any calendar year, cash available for distribution is less than our taxable income, we could be required to sell assets or borrow funds to make cash distributions or make a portion of the required distribution in the form of a taxable stock distribution or distribution of debt securities. In addition, prior to the time we have fully invested the net proceeds of this offering and the concurrent private placement, we may fund our quarterly distributions out of such net proceeds, which would reduce the amount of cash we have available for investing and other purposes. The use of these net proceeds for distributions could be dilutive to our financial results. In addition, funding our distributions from our net proceeds may constitute a return of capital to our investors, which would have the effect of reducing each stockholder's basis in its shares of our common stock. We will generally not be required to make distributions with respect to activities conducted through any TRS that we form following the completion of this offering. For more information, see U.S. Federal Income Tax Considerations Taxation of Our Company in General.

To satisfy the requirements to qualify as a REIT and generally not be subject to U.S. federal income and excise tax, we intend to make regular quarterly distributions of all or substantially all of our taxable income to holders of our common stock out of assets legally available therefor. Any distributions we make to our stockholders will be at the discretion of our board of directors and will depend upon our earnings, financial condition, liquidity, debt covenants, funding or margin requirements under securitizations, warehouse facilities or other secured and unsecured borrowing agreements, maintenance of our REIT qualification, applicable provisions of the MGCL, and such other factors as our board of directors deems relevant. Our earnings, financial condition and liquidity will be affected by various factors, including the net interest and other income from our portfolio, our operating expenses and any other expenditures. See Risk Factors.

We anticipate that our distributions generally will be taxable as ordinary income to our stockholders, although a portion of the distributions may be designated by us as qualified dividend income or capital gain, or may constitute a return of capital. We will furnish annually to each of our stockholders a statement setting forth distributions paid during the preceding year and their characterization as ordinary income, return of capital, qualified dividend income or capital gain. For more information, see U.S. Federal Income Tax Considerations Taxation of Taxable U.S. Stockholders.

Table of Contents**CAPITALIZATION**

The following table sets forth (1) our actual capitalization at June 1, 2009 and (2) our capitalization as adjusted to reflect the effect of (i) the sale of _____ shares of our common stock in this offering at an assumed offering price of \$ _____ per share after deducting the underwriting discount and estimated organizational and offering expenses payable by us and (ii) the concurrent private placement to SPT Investment, LLC of _____ shares of our common stock at the assumed initial public offering price. You should read this table together with Use of Proceeds included elsewhere in this prospectus.

	As of June 1, 2009	
	Actual	As Adjusted (1)(2)
	(Unaudited)	
Stockholder s equity:		
Common stock, par value \$0.01 per share; _____ shares authorized, and 100 shares issued and outstanding, actual and _____ shares authorized, issued and outstanding, as adjusted	\$ 1	\$
Preferred Stock, par value \$0.01 per share; 0 shares authorized and 0 shares issued and outstanding, actual and _____ shares authorized and 0 shares issued and outstanding, as adjusted		
Additional paid in capital	999	
Total stockholder s equity	\$ 1,000	\$

(1) Does not include the underwriters overallotment option to purchase up to _____ additional shares.

(2) Shares sold to certain investors through the directed share program will be purchased by the underwriters from us at a reduced underwriting discount but will be sold to such investors at the same price per share as all other purchasers in this offering. This information assumes that no shares are purchased by such investors.

Table of Contents**SELECTED FINANCIAL INFORMATION**

The following table presents selected financial information as of June 1, 2009, that has been derived from our historical audited balance sheet as of such date and the related notes included elsewhere in this prospectus. We have no operating history and no investment portfolio.

The following selected financial information is only a summary and is qualified by reference to and should be read in conjunction with the Management's Discussion and Analysis of Financial Condition and Results of Operations and our audited balance sheet as of June 1, 2009 and the related notes thereto included elsewhere in this prospectus.

securities.

Changes in Market Interest Rates. With respect to our proposed business operations, increases in interest rates, in general, may over time cause:

the interest expense associated with our borrowings to increase;

Table of Contents

the value of our mortgage loans and mortgage-backed securities or MBS, to decline;

coupons on our mortgage loans to reset, although on a delayed basis, to higher interest rates;

to the extent applicable under the terms of our investments, prepayments on our mortgage loan portfolio and MBS to slow, thereby slowing the amortization of our purchase premiums and the accretion of our purchase discounts; and

to the extent we enter into interest rate swap agreements as part of our hedging strategy, the value of these agreements to increase.

Conversely, decreases in interest rates, in general, may over time cause:

to the extent applicable under the terms of our investments, prepayments on our mortgage loan and MBS portfolio to increase, thereby accelerating the amortization of our purchase premiums and the accretion of our purchase discounts;

the interest expense associated with our borrowings to decrease;

the value of our mortgage loan and MBS portfolio to increase;

to the extent we enter into interest rate swap agreements as part of our hedging strategy, the value of these agreements to decrease, and

coupons on our adjustable-rate mortgage loans and MBS to reset, although on a delayed basis, to lower interest rates.

Credit Risk. One of our strategic focuses is acquiring assets which we believe to be of high credit quality. We believe this strategy will generally keep our credit losses and financing costs low. Although we do not expect to encounter credit risk in our Agency RMBS, we do expect to be subject to varying degrees of credit risk in connection with our other target assets. Our Manager will seek to mitigate this risk by seeking to acquire high quality assets, at appropriate prices given anticipated and unanticipated losses and by deploying a comprehensive review and asset selection process and by careful ongoing monitoring of acquired assets. Nevertheless, unanticipated credit losses could occur which could adversely impact our operating results.

Size of Portfolio. The size of our portfolio of assets, as measured by the aggregate principal balance of our mortgage-related securities and the other assets we own is also a key revenue driver. Generally, as the size of our portfolio grows, the amount of interest income we receive increases. A larger portfolio, however, may result in increased expenses as we may incur additional interest expense to finance the purchase of our assets.

Market Conditions. We believe that our target assets currently present highly attractive risk-adjusted return profiles. In addition, we believe that current conditions in the financial markets present opportunities for us to acquire our target assets at significantly depressed prices. Beginning in the summer of 2007, adverse changes in the financial markets have resulted in a deleveraging of the entire global financial system and the forced sale of large quantities of mortgage-related and other financial assets. As a result of these conditions, many traditional mortgage investors have suffered severe losses in their loan and securities portfolios and several major market participants have failed or been impaired, resulting in a contraction in market liquidity for mortgage-related assets. This illiquidity has negatively affected both the terms and availability of financing for all mortgage-related assets, and has generally resulted in

mortgage-related assets trading at significantly lower prices compared to prior periods. The recent period has also been characterized by an almost across the board downward movement in loan and securities valuations, even though different mortgage pools have exhibited widely different default rate and performance characteristics. The lower asset prices have also been accompanied by correspondingly higher current yields on our universe of target assets. In an effort to stem the fallout from current market conditions, the United States and other nations have begun to inject unprecedented levels of liquidity into the financial system and take other actions designed to create a floor in financial asset valuations, restore stability to the financial sector and support the flow of credit and other capital into the broader economy.

flows discounted at the loan's contractual effective rate or the fair value of the collateral, if the loan is collateral dependent. Upon measurement of impairment, we will record an allowance to reduce the carrying value of the loan accordingly and record a corresponding charge to net income.

will determine the gain or loss on sale of mortgage loans by allocating the carrying value of the underlying mortgage between securities or loans sold and the interests retained based on their fair values. The gain or loss on sale is the difference between the cash proceeds from the sale and the amount allocated to the securities or loans sold. From time to time, we may securitize mortgage loans we hold if such financing is available. These transactions will be accounted for as either a sale and the loans will be removed from our balance sheet or as a financing and will be classified as securitized loans on our balance sheet, depending upon the structure of the securitization

Table of Contents

transaction. This may require us to exercise significant judgment in determining whether a transaction should be recorded as a sale or a financing.

Investment Consolidation

For each investment we make, we will evaluate the underlying entity that issued the securities we acquired or to which we make a loan to determine the appropriate accounting. A similar analysis will be performed for each entity with which we enter into an agreement for management, servicing or related services. GAAP addresses the application of consolidated Accounting Research Bulletin No 51, *Consolidated Financial Statements*, to certain entities in which voting rights are not effective in identifying an investor with a controlling financial interest. In variable interest entities, or VIEs, an entity is subject to consolidation if the investors either do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support, are unable to direct the entity's activities or are not exposed to the entity's losses or entitled to its residual returns. VIEs are required to be consolidated by their primary beneficiary. The primary beneficiary of a VIE is determined to be the party that absorbs a majority of the entity's expected losses, its expected returns, or both. This determination can sometimes involve complex and subjective analyses.

Interest Income Recognition

We expect that interest income on our mortgage loans and AAA rated MBS will be accrued based on the actual coupon rate and the outstanding principal balance of such assets. Premiums and discounts will be amortized or accreted into interest income over the lives of the assets using the effective yield method, as adjusted for actual prepayments.

For our securities rated below AAA, including unrated securities, cash flows from a security are estimated applying assumptions used to determine the fair value of such security and the excess of the future cash flows over the investment are recognized as interest income under the effective yield method. We will review and, if appropriate, make adjustments to our cash flow projections at least quarterly and monitor these projections based on input and analysis received from external sources, internal models, and our judgment about interest rates, prepayment rates, the timing and amount of credit losses, and other factors. Changes in cash flows from those originally projected, or from those estimated at the last evaluation, may result in a prospective change in interest income recognized on, or the carrying value of, such securities.

For whole loans purchased at a discount, GAAP limits the yield that may be accreted (accretable yield) to the excess of the investor's estimate of undiscounted expected principal, interest, and other cash flows (cash flows expected at acquisition to be collected) over the investor's initial investment in the loan. SOP 03-3 requires that the excess of contractual cash flows over cash flows expected to be collected (nonaccretable difference) not be recognized as an adjustment of yield, loss accrual, or valuation allowance. Subsequent increases in cash flows expected to be collected generally should be recognized prospectively through adjustment of the loan's yield over its remaining life. Decreases in cash flows expected to be collected should be recognized as impairment.

Hedging Instruments and Hedging Activities

GAAP requires an entity to recognize all derivatives as either assets or liabilities in the balance sheets and to measure those instruments at fair value. Additionally, the fair value adjustments will affect either other comprehensive income in stockholders' equity until the hedged item is recognized in earnings or net income depending on whether the derivative instrument qualifies as a hedge for accounting purposes and, if so, the nature of the hedging activity.

In the normal course of business, we may use a variety of derivative financial instruments to manage, or hedge, interest rate risk. These derivative financial instruments must be effective in reducing our interest rate risk exposure in order to qualify for hedge accounting. When the terms of an underlying transaction are modified, or when the underlying hedged item ceases to exist, all changes in the fair value of the instrument are marked-to-market with changes in value included in net income for each period until the derivative

investments for OTTI.

In January 2009, FSP EITF 99-20-1, *Amendments to the Impairment Guidance of EITF Issue 99-20* (FSP EITF 99-20-1), was issued in an effort to provide a more consistent determination on whether an

Announcements describing the Legacy Loans Program have stated that the U.S. Treasury will provide up to 50% of the equity capital for each Legacy Loans PPIF, with the remainder provided by private investors, and that the FDIC will guarantee the debt issued by each Legacy Loans PPIF up to a 6-to-1 debt-to-equity ratio. Under the Legacy

we could be required to pay under these indemnification obligations may be unlimited.

Our investment guidelines do not limit the amount of our equity that may be invested in any type of our target assets; however, not more than 25% of our equity may be invested in any individual asset, without the consent of a majority of our independent directors. Our investment decisions will depend on prevailing market conditions and may change over time in response to opportunities available in different interest rate, economic

index rate, such as the one-year Constant Maturity Treasury (or CMT) index, the Monthly Treasury Average (or MTA) index or the 11th District Cost of Funds Index (or COFI). Accordingly, any increase in LIBOR relative to one-year CMT rates, MTA or COFI will generally result in an increase in our borrowing costs that may not be matched by a corresponding increase in the interest earnings on these assets.

Table of Contents

Any such interest rate index mismatch could adversely affect our profitability, which may negatively impact distributions to our stockholders. To mitigate interest rate mismatches, we may utilize the hedging strategies discussed above.

Our analysis of risks is based on our Manager's experience, estimates, models and assumptions. These analyses rely on models which utilize estimates of fair value and interest rate sensitivity. Actual economic conditions or implementation of decisions by our management may produce results that differ significantly from the estimates and assumptions used in our models and the projected results shown in this prospectus.

Prepayment Risk

Prepayment risk is the risk that principal will be repaid at a different rate than anticipated, causing the return on an asset to be less than expected. As we receive prepayments of principal on our assets, premiums paid on such assets will be amortized against interest income. In general, an increase in prepayment rates will accelerate the amortization of purchase premiums, thereby reducing the interest income earned on the assets. Conversely, discounts on such assets are accreted into interest income. In general, an increase in prepayment rates will accelerate the accretion of purchase discounts, thereby increasing the interest income earned on the assets.

Extension Risk

Our Manager will compute the projected weighted-average life of our assets based on assumptions regarding the rate at which the borrowers will prepay the mortgages. If prepayment rates decrease in a rising interest rate environment, the life of the fixed-rate assets could extend beyond the term of the interest swap agreement or other hedging instrument. This could have a negative impact on our results from operations, as borrowing costs would no longer be fixed after the end of the hedging instrument while the income earned on the fixed-rate assets would remain fixed. In extreme situations, we may be forced to sell assets to maintain adequate liquidity, which could cause us to incur losses.

Market Risk

Market Value Risk. Our available-for-sale securities will be reflected at their estimated fair value, with the difference between amortized cost and estimated fair value reflected in accumulated other comprehensive income. The estimated fair value of these securities fluctuates primarily due to changes in interest rates and other factors. Generally, in a rising interest rate environment, the estimated fair value of these securities would be expected to decrease; conversely, in a decreasing interest rate environment, the estimated fair value of these securities would be expected to increase. As market volatility increases or liquidity decreases, the fair value of our assets may be adversely impacted. If we are unable to readily obtain independent pricing to validate our estimated fair value of the securities in our portfolio, the fair value gains or losses recorded in other comprehensive income may be adversely affected.

Real Estate Risk. Commercial and residential mortgage assets are subject to volatility and may be affected adversely by a number of factors, including, but not limited to, national, regional and local economic conditions (which may be adversely affected by industry slowdowns and other factors); local real estate conditions; changes or continued weakness in specific industry segments; construction quality, age and design; demographic factors; and retroactive changes to building or similar codes. In addition, decreases in property values reduce the value of the collateral and the potential proceeds available to a borrower to repay the underlying loans or loans, as the case may be, which could also cause us to suffer losses.

Table of Contents

Risk Management

To the extent consistent with maintaining our REIT qualification, we will seek to manage risk exposure to protect our portfolio of financial assets against the effects of major interest rate changes. We generally seek to manage this risk by:

attempting to structure our financing agreements to have a range of different maturities, terms, amortizations and interest rate adjustment periods;

using hedging instruments, primarily interest rate swap agreements but also financial futures, options, interest rate cap agreements, floors and forward sales to adjust the interest rate sensitivity of our investment portfolio and our borrowings; and

using securitization financing to better match the maturity of our financing with the duration of our assets.

target assets to construct a diversified investment portfolio designed to produce attractive returns across a variety of market conditions and economic cycles. We intend to construct a diversified investment portfolio by focusing on asset selection and the relative value of various sectors within the debt market.

will depend also on local market fundamentals and trends. Starwood Capital Group has an established joint venture land platform which has a national network, presence and knowledge of many key residential real estate markets. We expect that this will provide us with fundamental knowledge that will enable us to better underwrite our investments.

and are combined with Starwood Capital Group's real estate expertise to realize the underlying value of real estate collateral efficiently.

overallotment option) to . These shares will vest ratably on a quarterly basis over a -year period beginning on the last day of the quarter in which we complete this offering.

security is in a compromised situation due to the relative size of its CRE portfolio, the magnitude of non-performing loans, or regulatory/rating agency issues driven by potential capital adequacy or concentration issues.

Construction/Rehabilitation Mortgage Loans and Mezzanine Loans. We also may originate or acquire participations in construction or rehabilitation loans on commercial properties. These loans will generally provide 40% to 60% of financing on the total cost of the construction or rehabilitation project and will be secured by first mortgage liens on the property under construction or rehabilitation. Alternatively, we may make mezzanine loans to finance construction or rehabilitation of commercial properties. Investments in construction and rehabilitation loans would generally allow us to earn origination fees and may also entitle us

Under the Legacy Loans Program, as currently proposed, Legacy Loans PPIFs will be established to purchase troubled loans (including commercial and residential mortgage loans) from insured depository institutions. In the loan sales, assets will be priced through an auction process to be established under the program. For a bid to be considered in the auction process, the bid must be accompanied by a refundable cash deposit for 5% of the bid value. The Legacy Loans PPIF will be able to fund the asset purchase through the

In response to the severe dislocation in the credit markets, the U.S. Treasury and the Federal Reserve jointly announced the establishment of the TALF on November 25, 2008. The TALF's purpose is to increase

The CMBS must be issued on or after January 1, 2009 and the underlying mortgage loans must have been originated on or after July 1, 2008;

The underwriting for the CMBS must be prepared generally on the basis of then-current in-place, stabilized and recurring net operating income and then-current property appraisals;

The CMBS collateralizing the TALF borrowing must have a credit rating in the highest long-term investment-grade rating category, without the benefit of third party credit support, from at least two

The CMBS must bear interest at a pass-through rate that is fixed or based on the weighted average of the underlying fixed mortgage rates;

Upon issuance, the CMBS must not have been junior to other securities with claims on the same pool of loans;

Each TALF loan secured by CMBS will have a three-year maturity or five-year maturity, at the election of the borrower;

A three-year TALF loan will bear interest at a fixed rate per annum equal to 100 basis points over the three-year LIBOR swap rate. A five-year TALF loan is expected to bear interest at a fixed rate per annum equal to 100 basis points over the five-year LIBOR swap rate;

Table of Contents

The amount of the TALF loan for each legacy CMBS will be the lesser of the dollar purchase price on the trade date or the market price as of the loan subscription date less, in either case, the base dollar haircut (from par). The market price of any legacy CMBS shall not exceed 100%;

The base dollar haircut for each CMBS with an average life of five years or less will be 15%. For CMBS with average lives beyond five years, base dollar haircuts will increase by one percentage point for each additional year of average life beyond five years;

For a three-year TALF loan, the excess of collateral interest distributions over the TALF loan interest payable will be remitted to the borrower in each loan year until it equals 30% per annum of the haircut amount, with the remainder applied to TALF loan principal;

A TALF borrower must agree not to exercise or refrain from exercising any voting, consent or waiver rights under a CMBS without the consent of the FRBNY; and

The FRBNY will retain the right to reject any CMBS as TALF loan collateral based on its risk assessment and may limit the volume of TALF loans secured by legacy CMBS.

To date, neither the FRBNY nor the U.S. Treasury has announced how the TALF will be expanded to cover non-Agency RMBS. On June 4, 2009, William Dudley, president of the FRBNY, stated that the FRBNY was still assessing whether or not to include non-Agency RMBS as eligible assets to be financed under the TALF and was still in the process of assessing the feasibility and potential impact of such a program. If and when so expanded, the TALF may provide us with attractively priced non-recourse term borrowing facilities that we can use to purchase non-Agency RMBS. However, there can be no assurance that the TALF will be expanded to include non-Agency RMBS and, if so expanded, that we will be able to utilize it successfully or at all. The TALF is presently scheduled to run through December 31, 2009, unless the Federal Reserve agrees to extend it.

Securizations

We intend to seek to enhance the returns on our commercial mortgage loan investments, especially loan originations, through securizations, if available, that may be supported by the TALF. To the extent available, we intend to securitize the senior portion, expected to be equivalent to AAA-rated CMBS, while retaining the subordinate securities in our investment portfolio. In order to facilitate the securitization market, TALF is currently expected to provide financing to buyers of AAA-rated CMBS. Therefore, we expect to see interest in the credit markets for such financing at 50% to 60% of our cost basis in the relevant assets, and more importantly, at reasonable cost of fund levels that would generate a positive net spread and enhance returns for investors in such securizations.

Other Potential Sources of Financing

In the future, we may also use other sources of financing to fund the acquisition of our target assets, including warehouse facilities, bank credit facilities and other secured and unsecured forms of borrowing. Warehouse facilities are typically lines of credit from commercial and investment banks that can be drawn upon to fund the acquisition of assets. Warehouse facilities are typically collateralized loans made to investors who invest in loans and securities that in turn pledge the resulting loans and securities to the warehouse lender. Third party custodians, usually large banks, typically hold the loans and securities funded with the warehouse facility borrowings, including the loans, securities, notes, mortgages and other important loan documentation, for the benefit of the lender who is deemed to own the loans and securities and, if there is a default under the warehouse line, for the benefit of the warehouse lender. Financings through bank credit facilities (including term loans and revolving facilities) may be collateralized or

non-collateralized and may involve one or more lenders. Credit facilities typically have maturities ranging from two to five years and may accrue interest at either fixed or floating rates. We may also seek to raise further equity capital or issue debt securities in order to fund our future investments.

Table of Contents

Leverage Policies

We intend to employ prudent leverage, to the extent available, to fund the acquisition of our target assets and to increase potential returns to our stockholders. Although we are not required to maintain any particular leverage ratio, the amount of leverage we will deploy for particular investments in our target assets will depend upon our Manager's assessment of a variety of factors, which may include the anticipated liquidity and price volatility of the assets in our investment portfolio, the potential for losses and extension risk in our portfolio, the gap between the duration of our assets and liabilities, including hedges, the availability and cost of financing the assets, our opinion of the creditworthiness of our financing counterparties, the health of the U.S. economy and commercial and residential mortgage markets, our outlook for the level, slope, and volatility of interest rates, the credit quality of our assets, the collateral underlying our assets, and our outlook for asset spreads relative to the LIBOR curve.

We expect, initially, that we may deploy leverage on our commercial mortgage loan assets, on a debt-to-equity basis, of up to 2-to-1. In addition, we do not expect under current market conditions to deploy leverage on any subordinated real estate debt investments, commercial real estate corporate debt, MBS, or our other target assets except in conjunction with financings that may be available to us under programs established by the U.S. Government. To the extent that we invest in PPIFs that acquire commercial mortgage loans and/or CMBS under the PPIP, we expect such PPIFs will deploy leverage on these assets, on a debt-to-equity basis, of up to 6.0 to 1. We consider these initial leverage ratios to be prudent for these asset classes.

Investment Guidelines

Our board of directors has adopted the following investment guidelines:

our investments will be in our target assets;

no investment shall be made that would cause us to fail to qualify as a REIT for federal income tax purposes;

no investment shall be made that would cause us to be regulated as an investment company under the 1940 Act;

not more than 25% of our equity will be invested in any individual asset including any equity investment by us in a Legacy Loan PPIF or Legacy Securities PPIF, without the consent of a majority of our independent directors;

until appropriate investments can be identified, our Manager may invest the proceeds of this and any future offerings in interest-bearing, short-term investments, including Agency RMBS, AAA-rated CMBS and money market accounts and/or funds, that are consistent with our intention to qualify as a REIT; and

any investment of up to \$25 million requires the approval of our chief executive officer; any investment from \$25 million to \$75 million requires the approval of our Manager's Investment Committee; any investment from \$75 million to \$150 million requires the approval of the Investment Committee of our board of directors and our Manager's Investment Committee; and any investment in excess of \$150 million requires the approval of our board of directors.

These investment guidelines may be changed from time to time by our board of directors without the approval of our stockholders. In addition, both of our Manager and our board of directors must approve any change in our investment guidelines that would modify or expand the types of assets in which we invest.

Investment Committee of Our Manager

Our Manager has an Investment Committee which will initially be comprised of Mr. Sternlicht, the chairman of the committee, and Jeffrey Dishner, Jerome Silvey, Marc Perrin and Christopher Graham. Our Manager's Investment Committee will meet periodically, at least every quarter, to discuss investment

Table of Contents

opportunities. The Investment Committee will periodically review our investment portfolio and its compliance with our investment guidelines described above at least on a quarterly basis or more frequently as necessary.

Investment Process

Through our Manager's investment advisory agreement with Starwood Capital Group Management, LLC, our Manager has access to a dedicated acquisition team of experienced real estate professionals assisted by an associate/analyst pool. This team is responsible for underwriting the market, developing a financial model to test sensitivities, structuring transactions and leading the due diligence process. The acquisition team receives assistance from Starwood Capital Group's asset management group in developing market assumptions on rents, occupancies, lease-up, expenses, etc. They also receive technical support from Starwood Capital Group's construction, legal, tax and finance teams. These in-house functions align our interests with our investors in all aspects of the process, preserving accountability to drive performance. Our Manager's acquisition team will hold regular meetings where they share their observations on the market activities and policy changes, review our investment strategy and discuss transactions of potential interest and updates on our pipeline.

Our investment process will include sourcing and screening of investment opportunities, assessing investment suitability, conducting interest rate and prepayment analysis, evaluating cash flow and collateral performance, reviewing legal structure and servicer and originator information and investment structuring, as appropriate, to seek an attractive return commensurate with the risk we are bearing. Upon identification of an investment opportunity, the investment will be screened and monitored by our Manager to determine its impact on maintaining our REIT qualification and our exemption from registration under the 1940 Act. We will seek to make investments in sectors where our Manager has strong core competencies and where we believe market risk and expected performance can be reasonably quantified.

Our Manager evaluates each one of our investment opportunities based on its expected risk-adjusted return relative to the returns available from other, comparable investments. In addition, we evaluate new opportunities based on their relative expected returns compared to comparable positions held in our portfolio. The terms of any leverage available to us for use in funding an investment purchase are also taken into consideration, as are any risks posed by illiquidity or correlations with other securities in the portfolio. Our Manager also develops a macro outlook with respect to each target asset class by examining factors in the broader economy such as GDP, interest rates, unemployment rates and availability of credit, among other things. Our Manager also analyzes fundamental trends in the relevant target asset class sector to adjust/maintain its outlook for that particular target asset class. Our Manager conducts extensive diligence with respect to each target asset class by, among other things, examining and monitoring the capabilities and financial wherewithal of the parties responsible for the origination, administration and servicing of relevant target assets.

Risk Management

As part of our risk management strategy, our Manager will actively manage the financing, interest rate, credit, prepayment and convexity risks associated with holding a portfolio of our target assets.

Asset Management

We recognize the importance of active asset management in successful investing and Starwood Capital Group has a dedicated, in-house asset management group. These asset management professionals provide not only investment oversight, but also critical input to the acquisition process. This interactive process coordinates underwriting assumptions with direct knowledge of local market conditions and costs and revenue expectations. These critical assumptions then become the operational benchmarks by which the asset managers are guided and evaluated in their

on-going management responsibilities. For mortgage investments, annual budgets are reviewed and monitored quarterly for variance, and follow up and questions are directed by the asset manager back to the owner. For securities investments, monthly remittance reports are reviewed, and questions are prompted by the asset manager to the servicer and trustee to ensure strict adherence to the servicing standards set forth in the applicable pooling and servicing agreements. All materials are submitted to our chief

Table of Contents

financial officer for review on a quarterly basis. Our asset management group creates value through careful asset specific and market surveillance, rigid enforcement of loan and security rights, and timely sale of underperforming positions prior to potential for loss. One of the key components in the underwriting process is the evaluation of potential exit strategies. The asset management group monitors each investment and reviews the disposition strategy on a regular basis in order to realize appreciated values and maximize returns.

Interest Rate Hedging

Subject to maintaining our qualification as a REIT, we intend to engage in a variety of interest rate management techniques that seek on the one hand to mitigate the economic effect of interest rate changes on the values of, and returns on, some of our assets, and on the other hand help us achieve our risk management objectives. Under the U.S. federal income tax laws applicable to REITs, we generally will be able to enter into certain transactions to hedge indebtedness that we may incur, or plan to incur, to acquire or carry real estate assets, although our total gross income from interest rate hedges that do not meet this requirement and other non-qualifying income generally must not exceed 5% of our gross income.

Subject to maintaining our qualification as a REIT, we intend to engage in a variety of interest rate management techniques that seek on one hand to mitigate the influence of interest rate changes on the values of some of our assets and on the other hand help us achieve our management objective. We intend to utilize derivative financial instruments, including, among others, puts and calls on securities or indices of securities, interest rate swaps, interest rate caps, interest rate swaptions, exchange-traded derivatives, U.S. Treasury securities and options on U.S. Treasury securities and interest rate floors to hedge all or a portion of the interest rate risk associated with the financing of our portfolio. Specifically, we will seek to hedge our exposure to potential interest rate mismatches between the interest we earn on our investments and our borrowing costs caused by interest rate fluctuations. In utilizing leverage and interest rate hedges, our objectives will be to improve risk-adjusted returns and, where possible, to lock in, on a long-term basis, a favorable spread between the yield on our assets and the cost of our financing. We will rely on our Manager's expertise to manage these risks on our behalf.

The U.S. federal income tax rules applicable to REITs, may require us to implement certain of these techniques through a TRS that is fully subject to U.S. federal corporate income taxation.

Market Risk Management

Risk management is an integral component of our strategy to deliver returns to our stockholders. Because we will invest in CRE mortgage loans and other debt investments including CMBS, investment losses from prepayments, defaults, interest rate volatility or other risks can meaningfully reduce or eliminate funds available for distribution to our stockholders. In addition, because we will employ financial leverage in funding our portfolio, mismatches in the maturities of our assets and liabilities can create risk in the need to continually renew or otherwise refinance our liabilities. Our net interest margin will be dependent upon a positive spread between the returns on our asset portfolio and our overall cost of funding. To minimize the risks to our portfolio, we will actively employ portfolio-wide and asset-specific risk measurement and management processes in our daily operations. Our Manager's risk management tools include software and services licensed or purchased from third parties, in addition to proprietary analytical methods developed by Starwood Capital Group. There can be no guarantee that these tools will protect us from market risks.

Credit Risk

Through our investment strategy we will seek to limit our credit losses and reduce our financing costs. However, we retain the risk of potential credit losses on all of the commercial and residential mortgage loans, other real-estate

related debt investments, and the mortgage loans underlying the CMBS and RMBS we may acquire. We seek to manage credit risk through our pre-acquisition due diligence process and through use of non-recourse financing, when and where available and appropriate, on a risk adjusted basis which limits our exposure to credit losses to the specific pool of mortgages that are subject to the non-recourse financing. In addition, with respect to any particular target asset, our Manager's investment team evaluates, among other

Table of Contents

things, relative valuation, comparable analysis, supply and demand trends, shape of yield curves, prepayment rates, delinquency and default rates, recovery of various sectors and vintage of collateral.

Our investment guidelines do not limit the amount of our equity that may be invested in any type of our target assets; however, not more than 25% of our equity may be invested in any individual asset, without the consent of a majority of our independent directors. Our investment decisions will depend on prevailing market conditions and may change over time in response to opportunities available in different interest rate, economic and credit environments. As a result, we cannot predict the percentage of our equity that will be invested in any of our target assets at any given time.

Conflicts of Interest and Related Policies

Management. We are dependent on our Manager for our day-to-day management and do not have any independent officers or employees, other than the persons (or person) who will serve as our chief financial officer and chief compliance officer. Each of our officers and three of our directors, Mr. Sternlicht, Mr. Dishner and [redacted] are executives of Starwood Capital Group. Our management agreement with our Manager was negotiated between related parties and its terms, including fees and other amounts payable, may not be as favorable to us as if it had been negotiated at arm's length with an unaffiliated third party. In addition, the obligations of our Manager and its officers and personnel to engage in other business activities, including for Starwood Capital Group, may reduce the time our Manager and its officers and personnel spend managing us.

Incentive Compensation. The management compensation structure that we have agreed to with our Manager may also cause our Manager to invest in high risk investments. In addition to its base management fee, our Manager is entitled to receive incentive compensation based in part upon our achievement of targeted levels of Core Earnings. In evaluating investments and other management strategies, the opportunity to earn incentive compensation based on Core Earnings may lead our Manager to place undue emphasis on the maximization of our short-term Core Earnings at the expense of other criteria, such as preservation of capital, in order to earn a higher incentive fee. Investments with higher yield potential are generally riskier or more speculative. This could result in increased risk to the value of our investment portfolio.

Current Co-Investment Rights and Obligations. Our ability to make investments in our target assets is governed by the investment opportunity allocation provisions applicable to (i) Starwood Global Opportunity Fund VIII, a private fund currently managed by an entity controlled by Starwood Capital Group that targets equity and debt interests in real estate, or the Starwood Global Fund, (ii) Starwood Capital Hospitality Fund II Global, a private fund currently managed by an entity controlled by Starwood Capital Group that targets equity and debt interests related to hotels and other hospitality related properties, or the Starwood Hotel Fund, (iii) Starwood Capital Debt Fund II-U, L.P., or the Starwood Unlevered Debt Fund, a private fund managed by Starwood Capital Group that invests in debt, including debt related to real estate, on an unlevered basis, and (iv) us. Pursuant to the investment opportunity allocation provisions applicable to the Starwood Global Fund and the Starwood Hotel Fund, or the Starwood Private Real Estate Funds, and us, (i) the Starwood Private Real Estate Funds collectively have the right to invest 25% of the equity capital proposed to be invested by any investment vehicle managed by an entity controlled by Starwood Capital Group in debt investments relating to real estate, and (ii) subject to the co-investment rights of the Starwood Unlevered Debt Fund as described below, we may invest the remaining 75%. Pursuant to the investment opportunity allocation provisions applicable to the Starwood Unlevered Debt Fund, it has the right to invest 10% of the equity capital proposed to be invested by any investment vehicle managed by an entity controlled by Starwood Capital Group in debt and we may invest the remaining 90% if the proposed debt investment is within one of our target asset classes, in each case subject to the Starwood Private Real Estate Funds' collective right to invest up to 25% of the capital required to make any debt investment related to real estate. If the Starwood Private Real Estate Funds exercise their collective co-investment rights in such case, we would only be entitled to invest up to 67.5% of the equity capital required to

make the proposed investment and the Starwood Unlevered Debt Fund would be entitled to invest the remaining 7.5%. The ability of each of the Starwood Private Real Estate Funds and the Starwood Unlevered Debt Fund to exercise their co-investment rights is subject to (i) the availability of the fund's capital for investment, and (ii) the determination by the general partner of the fund, which is an affiliate of Starwood Capital Group, that the proposed investment is suitable for the fund. Our co-

Table of Contents

investment rights are subject to (i) the availability of our capital for investment, (ii) our Manager's determination that the proposed investment is consistent with, and would not violate any of our investment guidelines as described under Investment Guidelines, (iii) the determination by our Manager that the proposed investment is suitable for us, taking into account the composition of our portfolio at the time and any other relevant factors, and (iv) our Manager's sole discretion as to whether or not to exclude from our investment portfolio at any time any medium-term loan to own investment. To the extent that any of these limitations on our co-investment rights apply to any particular investment opportunity, Starwood Capital Group would be permitted to provide the portion of the investment otherwise allocable to us to the Starwood Private Real Estate Funds and/or the Starwood Unlevered Debt Fund, as applicable. For example, if making our allocable portion of a proposed investment would cause us to not comply with the asset tests applicable to maintaining our exemption from registration under the 1940 Act, we would not be entitled to our allocable portion of the investment opportunity. The co-investment rights of the Starwood Private Real Estate Funds are expected to be in effect for up to three years following this offering. The co-investment rights of the Starwood Unlevered Debt Fund are expected to be in effect through the end of September 2009. Our co-investment rights with the Starwood Private Real Estate Funds and the Starwood Unlevered Debt Fund will apply for the same time periods that these other funds have their co-investment rights as long as the management agreement is in effect and our Manager and Starwood Capital Group are under common control. Our independent directors will periodically review our Manager's and Starwood Capital Group's compliance with the co-investment provisions described above, but they will not approve each co-investment by any of the Starwood Private Real Estate Funds, the Starwood Unlevered Debt Fund and us unless the amount of capital we invest in the proposed co-investment otherwise requires the review and approval of our independent directors pursuant to our investment guidelines.

Under Our Manager and the Management Agreement Historical Performance, certain performance information is provided with respect to the Starwood Unlevered Debt Fund and Starwood Capital Debt Fund II, L.P., a private fund managed by Starwood Capital Group that invests in debt, including debt related to real estate, on either a levered or unlevered basis. As described therein, these two debt funds co-invested in certain debt investments for the periods presented. Since the capital of Starwood Capital Debt Fund II, L.P. is expected to be almost entirely invested prior to this offering, we do not expect to have any co-investment obligations to this fund.

Investment Activities of Certain Starwood Capital Group Affiliates. The private funds described in the following two paragraphs have in the past and may in the future make investments in certain of our target asset classes. These funds are affiliates of Starwood Capital Group because they are indirectly controlled by Mr. Sternlicht. However, neither of these funds are controlled by Starwood Capital Group or are part of Starwood Capital Group's real estate investment business. None of the Starwood Private Real Estate Funds, the Starwood Unlevered Debt Fund or us have any co-investment rights with, nor co-investment obligations to, either of these funds. Neither our Manager nor its Investment Committee are or will be involved in the investment process for either of these funds. In addition, no individual responsible for the day to day management of either of these funds will be responsible for the day to day management of our business. However, the management team of each of these funds may periodically consult with Mr. Sternlicht on each fund's investment decisions.

Starwood Real Estate Securities, L.L.C., and its sponsored funds, or SRES, are generally long/short real estate securities hedge funds which invest in publicly traded equity securities globally and options thereon. Although SRES is primarily an equity-focused hedge fund business, it may also buy preferred stock, convertible bonds and collateralized debt securities on listed equity securities. To the extent that SRES proposes to make any investment in publicly traded debt securities related to real estate, no entity controlled by Starwood Capital Group will have any obligation to allocate any portion of such proposed investment to us.

Starwood Energy Group Global, L.L.C., and its sponsored funds, or SEG, invest in energy, power, water and other natural resources related businesses and investment activities, including equity investments in these businesses. However, SEG may occasionally invest in debt interests in such energy, power, water and other natural resources

related projects and investments. To the extent that SEG proposes to make any debt investment related to real estate, no entity controlled by Starwood Capital Group will have any obligation to allocate any portion of such proposed investment to us.

Table of Contents

Future Investment Opportunity Allocation Provisions. Our Manager and Starwood Capital Group have agreed that for so long as the management agreement is in effect and our Manager and Starwood Capital Group are under common control no entity controlled by Starwood Capital Group will sponsor or manage any competing vehicles, unless Starwood Capital Group either (i) adopts a policy providing for the fair and equitable allocation of investment opportunities among all competing vehicles and us, or (ii) provides us the right to co-invest with the competing vehicles, in each case subject to the suitability of each investment opportunity for the particular competing vehicle and us and the competing vehicles and our availability of capital for investment.

Exclusivity Provisions. Pursuant to the exclusivity provisions of the Starwood Private Real Estate Funds, our investment strategy may not include (i) equity interests in real estate, or (ii) the origination or acquisition of any near-term loan to own investments. These funds' exclusivity rights are expected to be in effect for up to three years following this offering. Therefore, our board of director would not have the flexibility to expand our investment strategy to include equity interests in real estate or near-term loan to own investments prior to the expiration of the exclusivity provisions of these Starwood private real estate funds.

Policy Regarding Investments Related to Properties Managed by Starwood Capital Group Affiliates. We expect our board of directors to adopt a policy permitting us to originate or acquire loans and investments with respect to properties owned by unaffiliated parties that may be managed by, or leased in whole or part to, an affiliate of Starwood Capital Group or with respect to which an unaffiliated owner may have engaged an affiliate of Starwood Capital Group to provide certain other services with respect to the property. In addition, we expect this policy to permit us to make loans and investments with respect to properties owned by unaffiliated parties for which an affiliate of Starwood Capital Group may concurrently be engaged by the property owner to manage it or provide other services with respect to the property or which may concurrently agree to lease such property to it in whole or in part. Furthermore, to the extent that we have rights as a lender pursuant to the terms of any of our loans or investments to consent to an unaffiliated property owner's engagement of a property manager or any other service provider, or to lease the property, this policy would permit us to provide consent to such a property owner seeking to engage, or lease property to, an affiliate of Starwood Capital Group.

Transactions with Other Starwood Capital Group Funds. In order to avoid any actual or perceived conflicts of interest between the Starwood parties and us, the approval of a majority of our independent directors will be required to approve (i) any purchase of our assets by any of the Starwood parties, and (ii) any purchase by us of any assets of any of the Starwood parties.

Limitations on Personal Investments. Shortly after the consummation of this offering, we expect our board of directors to adopt a policy with respect to any proposed investments by any covered persons in any of our target asset classes. We expect this policy to provide that any proposed investment by a covered person for his or her own account in any of our target asset classes will be permitted if the capital required for the investment does not exceed the personal investment limit. To the extent that a proposed investment exceeds the personal investment limit, we expect that our board of directors will only permit the covered person to make the investment (i) upon the approval of the disinterested directors, or (ii) if the proposed investment otherwise complies with terms of any other related party transaction policy that our board of directors may adopt in the future.

Other Conflicts. To the extent that a conflict of interest arises with respect to the business of our Manager, Starwood Capital Group, any of their affiliates or us that is not currently addressed by the co-

Table of Contents

investment or exclusivity provisions of the funds described above, the independent members of our board of directors would consider the matter and, in certain circumstances, our Manager may need to adopt certain policies and procedures to address such matters in the future.

Policies With Respect to Certain Other Activities

If our board of directors determines that additional funding is required, we may raise such funds through additional offerings of equity or debt securities or the retention of cash flow (subject to provisions in the Internal Revenue Code concerning distribution requirements and the taxability of undistributed REIT taxable income) or a combination of these methods. In the event that our board of directors determines to raise additional equity capital, it has the authority, without stockholder approval, to issue additional common stock or preferred stock in any manner and on such terms and for such consideration as it deems appropriate, at any time.

In addition, to the extent available we intend to borrow money to finance the acquisition of our investments. We intend to use traditional forms of financing, including securitizations and other sources of private financing, including warehouse and bank credit facilities, as well as financing that may be available to us through the PPIP and TALF. We also may utilize structured financing techniques to create attractively priced non-recourse financing at an all-in borrowing cost that is lower than that provided by traditional sources of financing and that provide long-term, floating rate financing. Our investment guidelines and our portfolio and leverage are periodically reviewed by our board of directors as part of their oversight of our Manager.

As of the date of this prospectus, we do not intend to offer equity or debt securities in exchange for property.

We may invest in the debt securities of other REITs or other entities engaged in real estate operating or financing activities, but not for the purpose of exercising control over such entities.

Our board of directors may change any of these policies without prior notice to you or a vote of our stockholders.

Operating and Regulatory Structure

REIT Qualification

We intend to elect to qualify as a REIT commencing with our initial taxable year ending on December 31, 2009. Our qualification as a REIT depends upon our ability to meet on a continuing basis, through actual investment and operating results, various complex requirements under the Internal Revenue Code relating to, among other things, the sources of our gross income, the composition and values of our assets, our distribution levels and the diversity of ownership of our shares. We believe that we have been organized in conformity with the requirements for qualification and taxation as a REIT under the Internal Revenue Code, and that our intended manner of operation will enable us to meet the requirements for qualification and taxation as a REIT.

So long as we qualify as a REIT, we generally will not be subject to U.S. federal income tax on our REIT taxable income we distribute currently to our stockholders. If we fail to qualify as a REIT in any taxable year and do not qualify for certain statutory relief provisions, we will be subject to U.S. federal income tax at regular corporate rates and may be precluded from qualifying as a REIT for the subsequent four taxable years following the year during which we lost our REIT qualification. Even if we qualify for taxation as a REIT, we may be subject to certain U.S. federal, state and local taxes on our income or property.

1940 Act Exemption

We intend to conduct our operations so that we are not required to register as an investment company under the 1940 Act. Section 3(a)(1)(A) of the 1940 Act defines an investment company as any issuer that is or holds itself out as being engaged primarily in the business of investing, reinvesting or trading in securities. Section 3(a)(1)(C) of the 1940 Act defines an investment company as any issuer that is engaged or proposes to engage in the business of investing, reinvesting, owning, holding or trading in securities and owns or proposes to acquire investment securities having a value exceeding 40% of the value of the issuer's total assets (exclusive of U.S. Government securities and cash items) on an unconsolidated basis. Excluded from the term

Table of Contents

with the restrictions contained in this Rule. In general, Rule 3a-7 exempts from the 1940 Act issuers that limit their activities as follows:

the issuer issues securities the payment of which depends primarily on the cash flow from eligible assets, which include many of the types of assets that we expect to acquire in our TALF fundings, that by their terms convert into cash within a finite time period;

any securities sold to the public are fixed income securities rated investment grade by at least one rating agency (fixed income securities which are unrated or rated below investment grade may be sold to institutional accredited investors and any securities may be sold to qualified institutional buyers and to persons involved in the organization or operation of the issuer);

the issuer acquires and disposes of eligible assets (1) only in accordance with the agreements pursuant to which the securities are issued, (2) so that the acquisition or disposition does not result in a downgrading of the issuer's fixed income securities and (3) the eligible assets are not acquired or disposed of for the primary purpose of recognizing gains or decreasing losses resulting from market value changes; and

unless the issuer is issuing only commercial paper, the issuer appoints an independent trustee, takes reasonable steps to transfer to the trustee an ownership or perfected security interest in the eligible assets, and meets rating agency requirements for commingling of cash flows.

In addition, in certain circumstances, compliance with Rule 3a-7 may also require that the indenture governing the subsidiary include additional limitations on the types of assets the subsidiary may sell or acquire out of the proceeds of assets that mature, are refinanced or otherwise sold, on the period of time during which such transactions may occur, and on the level of transactions that may occur. In light of the requirements of Rule 3a-7, our ability to manage assets held in a special purpose subsidiary that complies with Rule 3a-7 will be limited and we may not be able to purchase or sell assets owned by that subsidiary when we would otherwise desire to do so, which could lead to losses.

Qualification for exemption from registration under the 1940 Act will limit our ability to make certain investments. For example, these restrictions will limit the ability of our subsidiaries that rely on 3(c)(5)(C) to invest directly in MBS that represent less than the entire ownership in a pool of mortgage loans, debt and equity tranches of securitizations and certain ABS and real estate companies or in assets not related to real estate. We expect that SPT Real Estate Sub I, LLC and most of our other majority-owned subsidiaries will not be relying on exemptions under either Section 3(c)(1) or 3(c)(7) of the 1940 Act. Consequently, we expect that our interests in these subsidiaries (which we expect will constitute a substantial majority of our assets) will not constitute investment securities and that we will be able to conduct our operations so that we are not required to register as an investment company under the 1940 Act.

Competition

Our net income will depend, in part, on our ability to acquire assets at favorable spreads over our borrowing costs. In acquiring our target assets, we will compete with other REITs, specialty finance companies, savings and loan associations, banks, mortgage bankers, insurance companies, mutual funds, institutional investors, investment banking firms, financial institutions, governmental bodies and other entities. See Management's Discussion and Analysis of Financial Condition and Results of Operations Market Conditions. In addition, there are numerous REITs with similar asset acquisition objectives, including a number that have been recently formed, and others may be organized in the future. These other REITs will increase competition for the available supply of mortgage assets suitable for purchase and origination. Many of our anticipated competitors are significantly larger than we are, have access to greater capital and other resources and may have other advantages over us. In addition, some of our competitors may have higher risk

tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships than we can. Current market conditions may attract more competitors, which may increase the competition for sources of financing. An increase in the competition for sources of funding could adversely affect the availability and cost of financing, and thereby adversely affect the market price of our common stock. See Management's Discussion and Analysis of Financial Condition and Results of Operations Market Conditions.

Table of Contents

In the face of this competition, we expect to have access to our Manager's professionals and their industry expertise, which may provide us with a competitive advantage and help us assess investment risks and determine appropriate pricing for certain potential investments. We expect that these relationships will enable us to compete more effectively for attractive investment opportunities. In addition, we believe that current market conditions may have adversely affected the financial condition of certain competitors. Thus, not having a legacy portfolio may also enable us to compete more effectively for attractive investment opportunities. However, we may not be able to achieve our business goals or expectations due to the competitive risks that we face. For additional information concerning these competitive risks, see **Risk Factors** **Risks Related to Our Investments**. We operate in a highly competitive market for investment opportunities and competition may limit our ability to acquire desirable investments in our target assets and could also affect the pricing of these securities.

Staffing

We will be externally managed by our Manager pursuant to the management agreement between our Manager and us. Our chief executive officers and each of our other executive officers (other than our chief financial officer and our chief compliance officer) are executives of Starwood Capital Group. Upon completion of this offering, we will have only two employees, our chief financial officer and our chief compliance officer. See **Our Manager and The Management Agreement** **Management Agreement**.

Legal Proceedings

Neither we nor, to our knowledge, our Manager is currently subject to any legal proceedings which we or our Manager consider to be material.

Table of Contents**MANAGEMENT****Our Directors, Director Nominees and Executive Officers**

Currently, Mr. Sternlicht and Mr. Dishner are our only directors. Upon completion of the offering, our board of directors is expected to be comprised of seven members, three of which will be executives of Starwood Capital Group. Our directors will each be elected to serve a term of one year. We expect our board of directors to determine that each of the four director nominees listed in the table below satisfy the listing standards for independence of the NYSE. Our Bylaws provide that a majority of the entire board of directors may at any time increase or decrease the number of directors. However, unless our Bylaws are amended, the number of directors may never be less than the minimum number required by the MGCL nor more than 15.

The following sets forth certain information with respect to our directors, director nominees, executive officers and other key personnel:

Name	Age	Position Held with Us
Barry S. Sternlicht	48	Chief Executive Officer, President and Chairman of the Board of Directors
Jeffrey G. Dishner	44	Director Director Director Nominee Director Nominee Director Nominee Director Nominee
Jerome C. Silvey	52	Chief Financial Officer, Treasurer, Executive Vice President
Ellis F. Rinaldi	47	General Counsel, Secretary, Executive Vice President

Set forth below is biographical information for our directors, director nominees and executive officers.

Directors and Director Nominees

Barry S. Sternlicht is the chairman of our board of directors and our chief executive officer and president. He also serves as the president of our Manager.

Mr. Sternlicht has been the President and Chief Executive Officer of Starwood Capital Group since its formation in 1991. Over the past 18 years, he has structured more than 300 investment transactions with an asset value of more than \$40 billion. He was the Chairman of Starwood Hotels & Resorts Worldwide, Inc., an NYSE-listed company, from September 1997 to May 2005 and the Chief Executive Officer of this company from January 1999 to October 2004. He was also the Chairman of Starwood Hotels & Resorts, a wholly-owned subsidiary of the NYSE-listed company, from January 1995 to May 2005 and the Chief Executive Officer of this subsidiary from January 1995 to October 2004. Founded by Mr. Sternlicht in 1995, Starwood Hotels is now one of the leading hotel and leisure companies in the world with more than 800 properties in 80 countries and more than 115,000 employees. Starwood Hotels is a fully integrated owner, operator and franchiser of hotels and resorts with seven internationally renowned

brands, including: The St. Regis, The Luxury Collection, W Hotels, Sheraton, Westin, Le Meridien and Four Points by Sheraton, as well as Starwood Vacation Ownership, Inc., a premier developer and operator of vacation ownership resorts.

Mr. Sternlicht is Chairman of the Board of Société du Louvre and Baccarat. He also serves on the Board of Directors of National Golf, The Estée Lauder Companies, the National Advisory Board of JPMorgan Chase and the Advisory Board of Eurohypo Bank. Mr. Sternlicht is a Trustee of Brown University. He serves on the boards of the Juvenile Diabetes Research Foundation's National Leadership Advocacy Program, Kids in Crisis, The Harvard Club, the Business Committee for the Arts and the Center for Christian-Jewish Understanding.

Table of Contents

He is a member of the Committee to Encourage Corporate Philanthropy, the Presidential Tourism & Travel Advisory Board, the Young Presidents Organization, the World Travel & Tourism Council and the Urban Land Institute.

Mr. Sternlicht received his BA, magna cum laude, with honors from Brown University. He later earned an MBA with distinction from Harvard Business School.

Jeffrey G. Dishner. Mr. Dishner is one of our directors. He is a Senior Managing Director of Starwood Capital Group and the Head of Real Estate Acquisitions at Starwood Capital Group. He is a member of the Executive and Investment Committees of Starwood Capital Group. Prior to joining Starwood Capital Group in 1994, Mr. Dishner was with the Commercial Mortgage Finance Group of J.P. Morgan & Co., where he focused on whole-loan dispositions and securitizations for various thrift institutions from 1993 to 1994. Prior to J.P. Morgan & Co., Mr. Dishner was a member of the Acquisitions Group at JMB Realty Corporation from 1987 to 1991.

Mr. Dishner received a BS degree in economics from the Wharton School of Finance at the University of Pennsylvania and an MBA from the Amos Tuck School at Dartmouth College.

Executive Officers

Jerome C. Silvey is our chief financial officer and treasurer and one of our executive vice presidents. He is also an executive vice president of our Manager. Mr. Silvey is an Executive Vice President and has been the Chief Financial Officer of Starwood Capital Group since 1993. He is a member of the Executive and Investment Committees of Starwood Capital Group. Mr. Silvey oversees all of partnership and property accounting, tax planning and compliance, investor relations, treasury operations and MIS systems for Starwood Capital Group. Mr. Silvey joined Starwood in 1993 after 13 years at Price Waterhouse, where he served a variety of clients, including IBM and Olympia & York. He is a member of the Board of Directors of Société du Louvre and Baccarat, as well as a member of the Editorial Board of Institutional Real Estate Investors, the Pension Real Estate Association, and the American Institute of CPAs.

Mr. Silvey received a BA in mathematical economics from Colgate University in Hamilton, New York. He earned his MBA from Rutgers Graduate School of Management.

Ellis F. Rinaldi is our general counsel and secretary and one of our executive vice presidents. He is also the general counsel and an executive vice president of our Manager. He is an Executive Vice President of Starwood Capital Group and has been one of its two Co-General Counsels since 1999. Mr. Rinaldi has represented Starwood Capital Group's legal interests since 1991. Mr. Rinaldi is actively involved in the legal aspects of all of Starwood Capital Group's business, including acquisitions, financing, asset management and strategic planning. Mr. Rinaldi became an officer of Starwood Capital Group and a member of Starwood Capital Group's Executive Committee in 1999. Mr. Rinaldi has been structuring, negotiating, documenting and closing complex real estate transactions since 1987. He was an associate at the law firm of Winthrop, Stimson, Putnam & Roberts and then Pircher, Nichols & Meeks prior to forming Rinaldi, Finkelstein & Franklin, L.L.C. (RFF), Starwood Capital Group's lead outside counsel. Mr. Rinaldi is currently the managing member of RFF and also serves on the board of directors of Baccarat.

Mr. Rinaldi received his JD from George Washington University, where he was a member of the GW Law Review, and his BBA degree, summa cum laude, in accounting from the University of Massachusetts at Amherst, Honors Program.

Corporate Governance Board of Directors and Committees

Our business is managed by our Manager, subject to the supervision and oversight of our board of directors, which has established investment guidelines described under Business Investment Guidelines for our Manager to follow in its day-to-day management of our business. A majority of our board of directors is independent, as determined by the requirements of the NYSE and the regulations of the SEC. Our directors keep informed about our business by attending meetings of our board of directors and its committees and

Table of Contents

through supplemental reports and communications. Our independent directors meet regularly in executive sessions without the presence of our corporate officers or non-independent directors.

Upon completion of this offering, our board of directors will form an audit committee, a compensation committee and a nominating and corporate governance committee and adopt charters for each of these committees. Each of these committees will have three directors and will be composed exclusively of independent directors, as defined by the listing standards of the NYSE. Moreover, the compensation committee will be composed exclusively of individuals intended to be, to the extent provided by Rule 16b-3 of the Exchange Act, non-employee directors and will, at such times as we are subject to Section 162(m) of the Internal Revenue Code, qualify as outside directors for purposes of Section 162(m) of the Internal Revenue Code.

Audit Committee

The audit committee will comprise , each of whom will be an independent director and financially literate under the rules of the NYSE. will chair our audit committee and serve as our audit committee financial expert, as that term is defined by the SEC.

The committee assists the board of directors in overseeing:

our financial reporting, auditing and internal control activities, including the integrity of our financial statements;

our compliance with legal and regulatory requirements;

the independent auditor's qualifications and independence; and

the performance of our internal audit function and independent auditor.

The audit committee is also responsible for engaging our independent registered public accounting firm, reviewing with the independent registered public accounting firm the plans and results of the audit engagement, approving professional services provided by the independent registered public accounting firm, reviewing the independence of the independent registered public accounting firm, considering the range of audit and non-audit fees and reviewing the adequacy of our internal accounting controls.

Compensation Committee

The compensation committee will comprise , each of whom will be an independent director. will chair our compensation committee.

The principal functions of the compensation committee will be to:

review and approve on an annual basis the corporate goals and objectives relevant to Chief Executive Officer compensation, if any, evaluate our Chief Executive Officer's performance in light of such goals and objectives and, either as a committee or together with our independent directors (as directed by the board of directors), determine and approve the remuneration of our Chief Executive Officer based on such evaluation;

review and oversee management's annual process, if any, is paid by us for evaluating the performance of our senior officers and review and approve on an annual basis the remuneration of our senior officers;

oversee our equity-based remuneration plans and programs;

assist the board of directors and the chairman in overseeing the development of executive succession plans; and

determine from time to time the remuneration for our non-executive directors (including the chairman).

Table of Contents

Nominating and Corporate Governance Committee

The nominating and corporate governance committee will comprise _____, each of whom will be an independent director. _____ will chair our nominating and corporate governance committee.

The nominating and corporate governance committee will be responsible for

providing counsel to the board of directors with respect to the organization, function and composition of the board of directors and its committees;

overseeing the self-evaluation of the board of directors and the board of director s evaluation of management;

periodically reviewing and, if appropriate, recommending to the board of directors changes to, our corporate governance policies and procedures; and

identifying and recommending to the board of directors potential director candidates for nomination. -

Executive and Director Compensation

Compensation of Directors

A member of our board of directors who is also an employee of Starwood Capital Group is referred to as an executive director. Executive directors will not receive compensation for serving on our board of directors. Each non-executive director will receive an annual base fee for his or her services of \$ _____, payable in cash, and an annual deferred director fee of \$ _____, payable in restricted shares of our common stock which may not be sold or transferred during the non-executive director s service on our board of directors. Both base and deferred director fees will be paid on a quarterly basis. We will also reimburse each of our directors for their travel expenses incurred in connection with their attendance at full board of directors and committee meetings. We have not made any payments to any of our directors or director nominees to date.

Executive Compensation

Because our management agreement provides that our Manager is responsible for managing our affairs, our chief executive officer and each of our other executive officers (other than our chief financial officer and chief compliance officer), each of whom is an executive of Starwood Capital Group, do not receive cash compensation from us for serving as our executive officers. Instead we will pay our Manager the management fees described in Our Manager and the Management Agreement Management Agreement Management Fees and Expense Reimbursements. The persons (or person) who will serve as our Chief Financial Officer and our Chief Compliance Officer will be directly employed by us. The annual base salary of our chief financial officer and chief compliance officer will be \$ _____ and \$ _____, respectively, and each are eligible to receive an annual bonus between _____ % and _____ % of their respective annual base salary. In their capacities as officers or personnel of Starwood Capital Group, persons other than our chief financial officer and chief compliance officer will devote such portion of their time to our affairs as is necessary to enable us to operate our business.

We will adopt an equity incentive plan for our officers, our non-employee directors, our Manager s personnel and other service providers to encourage their efforts toward our continued success, long-term growth and profitability and to attract, reward and retain key personnel. See Equity Incentive Plan for detailed description of our equity incentive plan. Concurrently with the closing of this offering, we will grant _____ shares of restricted common stock, equal

to % of the number of shares that we issue in this offering (without giving effect to any exercise by the underwriters of their overallotment option) to . These shares will vest ratably on a quarterly basis over a -year period beginning on the last day of the quarter in which we complete this offering.

Equity Incentive Plan

Prior to the completion of this offering, we will adopt an equity incentive plan to provide incentive compensation to attract and retain qualified directors, officers, advisors, consultants and other personnel,

Table of Contents

including our Manager and affiliates and personnel of our Manager and its affiliates, and any joint venture affiliates of ours. Unless terminated earlier, our equity incentive plan will terminate in 2019, but will continue to govern unexpired awards. Our equity incentive plan provides for grants of share options, restricted shares of common stock, phantom shares, dividend equivalent rights and other equity-based awards up to an aggregate of % of the issued and outstanding shares of our common stock (on a fully diluted basis) at the time of the award. In making awards under the plan, our board of directors or the compensation committee, as applicable, may consider the recommendations of our Manager as to the personnel who should receive awards and the amounts of the awards. Prior to the completion of this offering, we have not issued any equity-based compensation. Concurrently with the closing of this offering, we will grant shares of restricted common stock, equal to % of the number of shares that we issue in this offering (without giving effect to any exercise by the underwriters of their overallotment option) to . These shares will vest ratably on a quarterly basis over a -year period beginning on the last day of the quarter in which we complete this offering.

The equity incentive plan is administered by the compensation committee appointed for such purposes. The compensation committee, as appointed by our board of directors, has the full authority (1) to administer and interpret the equity incentive plan, (2) to authorize the granting of awards, (3) to determine the eligibility of directors, officers, advisors, consultants and other personnel, including our Manager and affiliates and personnel of our Manager and its affiliates, and any joint venture affiliates of ours, to receive an award, (4) to determine the number of shares of common stock to be covered by each award (subject to the individual participant limitations provided in the equity incentive plan), (5) to determine the terms, provisions and conditions of each award (which may not be inconsistent with the terms of the equity incentive plan), (6) to prescribe the form of instruments evidencing such awards and (7) to take any other actions and make all other determinations that it deems necessary or appropriate in connection with the equity incentive plan or the administration or interpretation thereof. In connection with this authority, the compensation committee may, among other things, establish performance goals that must be met in order for awards to be granted or to vest, or for the restrictions on any such awards to lapse. From and after the consummation of this offering, the compensation committee will consist solely of non-employee directors, each of whom is intended to be, to the extent required by Rule 16b-3 under the Exchange Act, a non-employee director and will, at such times as we are subject to Section 162(m) of the Internal Revenue Code, qualify as an outside director for purposes of Section 162(m) of the Internal Revenue Code, or, if no committee exists, the board of directors.

Code of Business Conduct and Ethics

Our board of directors has established a code of business conduct and ethics that applies to our officers and directors and to our Manager’s officers and any personnel of Starwood Capital Group when such individuals are acting for or on our behalf. Among other matters, our code of business conduct and ethics is designed to deter wrongdoing and to promote:

- honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- full, fair, accurate, timely and understandable disclosure in our SEC reports and other public communications;
- compliance with applicable governmental laws, rules and regulations;
- prompt internal reporting of violations of the code to appropriate persons identified in the code; and
- accountability for adherence to the code.

Any waiver of the code of business conduct and ethics for our executive officers or directors may be made only by our board of directors or one of our board committees and will be promptly disclosed as required by law or stock exchange regulations.

Table of Contents

Limitation of Liability and Indemnification

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from (1) actual receipt of an improper benefit or profit in money, property or services or (2) active and deliberate dishonesty established by a final judgment as being material to the cause of action. Our charter contains such a provision and limits the liability of our directors and officers to the maximum extent permitted by Maryland law.

Our charter authorizes us, to the maximum extent permitted by Maryland law, to indemnify and pay or reimburse reasonable expenses in advance of final disposition of a proceeding to (1) any present or former director or officer of our company or (2) any individual who, while serving as our director or officer and at our request, serves or has served another corporation, real estate investment trust, partnership, joint venture, trust, employee benefit plan or any other enterprise as a director, officer, partner or trustee of such corporation, REIT, partnership, joint venture, trust, employee benefit plan or other enterprise, from and against any claim or liability to which such person may become subject or which such person may incur by reason of his or her service in such capacity or capacities. Our Bylaws obligate us, to the maximum extent permitted by Maryland law, to indemnify and pay or reimburse reasonable expenses in advance of final disposition of a proceeding to (1) any present or former director or officer of our company who is made or threatened to be made a party to the proceeding by reason of his service in that capacity or (2) any individual who, while serving as our director or officer and at our request, serves or has served another corporation, REIT, partnership, joint venture, trust, employee benefit plan or any other enterprise as a director, officer, partner or trustee of such corporation, REIT, partnership, joint venture, trust, employee benefit plan or other enterprise, and who is made or threatened to be made a party to the proceeding by reason of his service in that capacity. Our charter and Bylaws also permit us to indemnify and advance expenses to any person who served any predecessor of our company in any of the capacities described above and to any personnel or agent of our company or of any predecessor.

The MGCL requires us (unless our charter provides otherwise, which our charter does not) to indemnify a director or officer who has been successful, on the merits or otherwise, in the defense of any proceeding to which he is made or threatened to be made a party by reason of his service in that capacity. The MGCL permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made or threatened to be made a party by reason of their service in those or other capacities unless it is established that (1) the act or omission of the director or officer was material to the matter giving rise to the proceeding and (A) was committed in bad faith or (B) was the result of active and deliberate dishonesty, (2) the director or officer actually received an improper personal benefit in money, property or services, or (3) in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful. However, under the MGCL, a Maryland corporation may not indemnify a director or officer in a suit by or in the right of the corporation in which the director or officer was adjudged liable on the basis that a personal benefit was improperly received. A court may order indemnification if it determines that the director or officer is fairly and reasonably entitled to indemnification, even though the director or officer did not meet the prescribed standard of conduct or was adjudged liable on the basis that personal benefit was improperly received. However, indemnification for an adverse judgment in a suit by us or in our right, or for a judgment of liability on the basis that personal benefit was improperly received, is limited to expenses. In addition, the MGCL permits a corporation to advance reasonable expenses to a director or officer upon the corporation's receipt of (1) a written affirmation by the director or officer of his good faith belief that he has met the standard of conduct necessary for indemnification by the corporation and (2) a written undertaking by him or on his behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the appropriate standard of conduct was not met.

Table of Contents

OUR MANAGER AND THE MANAGEMENT AGREEMENT

General

We will be externally managed and advised by our Manager. Each of our officers (other than the persons (or person) who will serve as our chief financial officer and chief compliance officers) is an executive of Starwood Capital Group. The executive offices of our Manager are located at 591 West Putnam Avenue, Greenwich, Connecticut 06830, and the telephone number of our Manager's executive offices is (203) 422-7700.

Officers of Our Manager

The following sets forth certain information with respect to each of the executive officers of our Manager:

Officer	Age	Position Held with Our Manager
Barry S. Sternlicht	48	President
Jeffrey G. Dishner	44	Executive Vice President
Jerome C. Silvey	52	Executive Vice President
Ellis F. Rinaldi	47	General Counsel and Executive Vice President
J. Marc Perrin	40	Executive Vice President
Christopher D. Graham	34	Executive Vice President

Set forth below is biographical information for the officers of our Manager.

See Management Our Directors, Director Nominees and Executive Officers for biographical information regarding Messrs. Sternlicht, Dishner, Silvey and Rinaldi.

J. Marc Perrin. Mr. Perrin is a Managing Director of Starwood Capital Group supervising its investments on the West Coast since 1999 and overseeing its Asia operations since 2006. He is also a member of Starwood Capital Group's Investment Committee. Mr. Perrin is responsible for originating, structuring, underwriting and closing investments in all property types. Prior to joining Starwood in 1997, Mr. Perrin was with Salomon Brothers Inc., where he worked on debt, equity and strategic advisory assignments for real estate industry clients from 1995 to 1997. From 1990 to 1993, Mr. Perrin was with Bramalea Limited, working in its Southern California land development and residential housing business. Mr. Perrin's responsibilities included land acquisitions and divestitures as well as entitlements.

Mr. Perrin received a BA degree in international political economy from the University of California at Berkeley, and an MBA from The Anderson School at UCLA.

Christopher D. Graham. Mr. Graham is a Managing Director of Starwood Capital Group in its Acquisitions Group since 2007. Mr. Graham is responsible for originating, structuring, underwriting and closing investments in all property types in the Eastern region of the United States. He is also a member of Starwood Capital Group's Investment Committee. Prior to joining Starwood Capital Group in 2002, Mr. Graham was with CB Richard Ellis in Washington, D.C., where he was Director of its Financial Consulting Group for the Eastern Region of the United States from 1999 to 2000. Prior to his role in the Financial Consulting Group, Mr. Graham was Associate Director,

Eastern Region, of CB Richard Ellis Investment Properties Group from 1998 to 1999. Mr. Graham also served as a consultant to Lincoln Property Company's Washington, D.C. office on various asset management, development and acquisition assignments in 2000.

Mr. Graham received a BBA in Finance from James Madison University and an MBA from the Harvard Business School.

Table of Contents

Investment Committee of Our Manager

Our Manager has an Investment Committee which will initially be comprised of Mr. Sternlicht, the chairman of the committee, and Jeffrey Dishner, Jerome Silvey, Marc Perrin and Christopher Graham. The role of the Investment Committee is to oversee our investment guidelines, our investment portfolio holdings and related compliance with our investment policies. The Investment Committee will meet as frequently as it believes is necessary.

Management Agreement

Upon completion of this offering, we will enter into a management agreement with our Manager pursuant to which it will provide for the day-to-day management of our operations. The management agreement will require our Manager to manage our business affairs in conformity with the investment guidelines and other policies that are approved and monitored by our board of directors. Our Manager's role as Manager will be under the supervision and direction of our board of directors.

Management Services

Our Manager will be responsible for (1) the selection, purchase and sale of our portfolio investments, (2) our financing activities, and (3) providing us with investment advisory services. Our Manager will be responsible for our day-to-day operations and will perform (or will cause to be performed) such services and activities relating to our assets and operations as may be appropriate, which may include, without limitation, the following:

- (i) serving as our consultant with respect to the periodic review of the investment guidelines and other parameters for our investments, financing activities and operations, any modification to which will be approved by a majority of our independent directors;
- (ii) investigating, analyzing and selecting possible investment opportunities and acquiring, financing, retaining, selling, restructuring or disposing of investments consistent with the investment guidelines;
- (iii) with respect to prospective purchases, sales or exchanges of investments, conducting negotiations on our behalf with sellers, purchasers and brokers and, if applicable, their respective agents and representatives;
- (iv) negotiating and entering into, on our behalf, repurchase agreements, interest rate swap agreements, agreements relating to borrowings under programs established by the U.S. Government and other agreements and instruments required for us to conduct our business;
- (v) engaging and supervising, on our behalf and at our expense, independent contractors that provide investment banking, securities brokerage, mortgage brokerage, other financial services, due diligence services, underwriting review services, legal and accounting services, and all other services (including transfer agent and registrar services) as may be required relating to our operations or investments (or potential investments);
- (vi) advising us on, preparing, negotiating and entering into, on our behalf, applications and agreements relating to programs established by the U.S. Government;
- (vii) coordinating and managing operations of any joint venture or co-investment interests held by us and conducting all matters with the joint venture or co-investment partners;

- (viii) providing executive and administrative personnel, office space and office services required in rendering services to us;
- (ix) administering the day-to-day operations and performing and supervising the performance of such other administrative functions necessary to our management as may be agreed upon by our Manager and our board of directors, including, without limitation, the collection of revenues and the payment of our debts and obligations and maintenance of appropriate computer services to perform such administrative functions;

(xxiii) handling and resolving all claims, disputes or controversies (including all litigation, arbitration, settlement or other proceedings or negotiations) in which we may be involved or to which we may be subject arising out of our day-to-day operations (other than with our Manager or its affiliates), subject to such limitations or parameters as may be imposed from time to time by the board of directors;

Table of Contents

(xxiv) using commercially reasonable efforts to cause expenses incurred by us or on our behalf to be commercially reasonable or commercially customary and within any budgeted parameters or expense guidelines set by the board of directors from time to time;

(xxv) advising us with respect to and structuring long-term financing vehicles for our portfolio of assets, and offering and selling securities publicly or privately in connection with any such structured financing;

(xxvi) forming the Investment Committee, which will propose investment guidelines to be approved by a majority of our independent directors;

(xxvii) serving as our consultant with respect to decisions regarding any of our financings, hedging activities or borrowings undertaken by us including (1) assisting us in developing criteria for debt and equity financing that is specifically tailored to our investment objectives, and (2) advising us with respect to obtaining appropriate financing for our investments;

(xxviii) providing us with portfolio management;

(xxix) arranging marketing materials, advertising, industry group activities (such as conference participations and industry organization memberships) and other promotional efforts designed to promote our business;

(xxx) performing such other services as may be required from time to time for management and other activities relating to our assets and business as our board of directors shall reasonably request or our Manager shall deem appropriate under the particular circumstances; and

(xxxi) using commercially reasonable efforts to cause us to comply with all applicable laws.

Liability and Indemnification

Pursuant to the management agreement, our Manager will not assume any responsibility other than to render the services called for thereunder and will not be responsible for any action of our board of directors in following or declining to follow its advice or recommendations. Our Manager maintains a contractual as opposed to a fiduciary relationship with us. Under the terms of the management agreement, our Manager, its officers, stockholders, members, managers, directors, personnel, any person controlling or controlled by our Manager and any person providing sub-advisory services to our Manager will not be liable to us, any subsidiary of ours, our directors, our stockholders or any subsidiary's stockholders or partners for acts or omissions performed in accordance with and pursuant to the management agreement, except because of acts constituting bad faith, willful misconduct, gross negligence, or reckless disregard of their duties under the management agreement, as determined by a final non-appealable order of a court of competent jurisdiction. We have agreed to indemnify our Manager, its officers, stockholders, members, managers, directors, personnel, any person controlling or controlled by our Manager and any person providing sub-advisory services to our Manager with respect to all expenses, losses, damages, liabilities, demands, charges and claims arising from acts of our Manager not constituting bad faith, willful misconduct, gross negligence, or reckless disregard of duties, performed in good faith in accordance with and pursuant to the management agreement. Our Manager has agreed to indemnify us, our directors and officers, personnel, agents and any persons controlling or controlled by us with respect to all expenses, losses, damages, liabilities, demands, charges and claims arising from acts of our Manager constituting bad faith, willful misconduct, gross negligence or reckless disregard of its duties under the management agreement or any claims by our Manager's personnel relating to the terms and conditions of their employment by our Manager. Our Manager will not be liable for trade errors that may result from ordinary negligence, such as errors in the investment decision making process (such as a transaction that was effected in violation of our investment guidelines) or in the trade process (such as a buy order that was entered instead of a sell

order, or the wrong purchase or sale of security, or a transaction in which a security was purchased or sold in an amount or at a price other than the correct amount or price). Notwithstanding the foregoing, our Manager will carry errors and omissions and other customary insurance upon the completion of this offering.

Table of Contents

Management Team

Pursuant to the terms of the management agreement, our Manager is required to provide us with our management team, including a chief executive officer and _____, along with appropriate support personnel, to provide the management services to be provided by our Manager to us. None of the officers or employees of our Manager will be dedicated exclusively to us, except for the persons (or person) who will serve as our chief financial officer and chief compliance officer who will be directly employed by us. Members of our management team will be required to devote such time as is necessary and appropriate commensurate with the level of our activity.

Our Manager is required to refrain from any action that, in its sole judgment made in good faith, (1) is not in compliance with the investment guidelines, (2) would adversely and materially affect our status as a REIT under the Internal Revenue Code or our status as an entity intended to be exempted or excluded from investment company status under the 1940 Act or (3) would violate any law, rule or regulation of any governmental body or agency having jurisdiction over us or that would otherwise not be permitted by our charter or Bylaws. If our Manager is ordered to take any action by our board of directors, our Manager will promptly notify the board of directors if it is our Manager's judgment that such action would adversely and materially affect such status or violate any such law, rule or regulation or our charter or Bylaws. Our Manager, its directors, members, officers, stockholders, managers, personnel, employees and any person controlling or controlled by our Manager and any person providing sub-advisory services to our Manager will not be liable to us, our board of directors, our stockholders, partners or members, for any act or omission by our Manager, its directors, officers, stockholders or employees except as provided in the management agreement.

Term and Termination

The management agreement may be amended or modified by agreement between us and our Manager. The initial term of the management agreement expires on the third anniversary of the closing of this offering and will be automatically renewed for a one-year term each anniversary date thereafter unless previously terminated as described below. Our independent directors will review our Manager's performance and the management fees annually and, following the initial term, the management agreement may be terminated annually upon the affirmative vote of at least two-thirds of our independent directors, based upon (1) unsatisfactory performance that is materially detrimental to us or (2) our determination that the management fees payable to our Manager are not fair, subject to our Manager's right to prevent such termination due to unfair fees by accepting a reduction of management fees agreed to by at least two-thirds of our independent directors. We must provide 180 days prior notice of any such termination. Unless terminated for cause, our Manager will be paid a termination fee equal to three times the sum of the average annual base management fee and incentive fee during the 24-month period immediately preceding such termination, calculated as of the end of the most recently completed fiscal quarter before the date of termination.

We may also terminate the management agreement at any time, including during the initial term, without the payment of any termination fee, with 30 days prior written notice from our board of directors for cause, which is defined as:

- our Manager's continued material breach of any provision of the management agreement following a period of 30 days after written notice thereof (or 45 days after written notice of such breach if our Manager, under certain circumstances, has taken steps to cure such breach within 30 days of the written notice);
- our Manager's fraud, misappropriation of funds, or embezzlement against us;
- our Manager's gross negligence of duties under the management agreement;

the occurrence of certain events with respect to the bankruptcy or insolvency of our Manager, including an order for relief in an involuntary bankruptcy case or our Manager authorizing or filing a voluntary bankruptcy petition;

Table of Contents

any change of control of our Manager which a majority of our independent directors determines is materially detrimental to us;

our Manager is convicted (including a plea of nolo contendere) of a felony; and

the dissolution of our Manager.

During the initial three-year term of the management agreement, we may not terminate the management agreement except for cause.

Our Manager may assign the agreement in its entirety or delegate certain of its duties under the management agreement to any of its affiliates without the approval of our independent directors if such assignment or delegation does not require our approval under the Investment Advisers Act of 1940.

Our Manager may terminate the management agreement if we become required to register as an investment company under the 1940 Act, with such termination deemed to occur immediately before such event, in which case we would not be required to pay a termination fee. Our Manager may decline to renew the management agreement by providing us with 180 days written notice, in which case we would not be required to pay a termination fee. In addition, if we default in the performance of any material term of the agreement and the default continues for a period of 30 days after written notice to us, our Manager may terminate the management agreement upon 60 days written notice. If the management agreement is terminated by our Manager upon our breach, we would be required to pay our Manager the termination fee described above.

We may not assign our rights or responsibilities under the management agreement without the prior written consent of our Manager, except in the case of assignment to another REIT or other organization which is our successor, in which case such successor organization will be bound under the management agreement and by the terms of such assignment in the same manner as we are bound under the management agreement.

Management Fees, Incentive Fees and Expense Reimbursements

We do not expect to maintain an office or directly employ personnel (other than the persons (or person) who will serve as our chief financial officer and chief compliance officer). Instead we rely on the facilities and resources of our Manager to manage our day-to-day operations.

Base Management Fee

We will pay our Manager a base management fee in an amount equal to 1.5% of our stockholders' equity, per annum, calculated and payable quarterly in arrears in cash. For purposes of calculating the base management fee, our stockholders' equity means: (a) the sum of (1) the net proceeds from all issuances of our equity securities since inception (allocated on a pro rata basis for such issuances during the fiscal quarter of any such issuance), plus (2) our retained earnings at the end of the most recently completed calendar quarter (without taking into account any non-cash equity compensation expense incurred in current or prior periods), less (b) any amount that we pay to repurchase our common stock since inception. It also excludes (1) any unrealized gains and losses and other non-cash items that have impacted stockholders' equity as reported in our financial statements prepared in accordance with GAAP, and (2) one-time events pursuant to changes in GAAP, and certain non-cash items not otherwise described above in each case, after discussions between our Manager and our independent directors and approval by a majority of our independent directors. As a result, our stockholders' equity, for purposes of calculating the management fee, could be greater or less than the amount of stockholders' equity shown on our financial statements. Our Manager uses the

proceeds from its management fee in part to pay compensation to its officers and personnel who, notwithstanding that certain of them also are our officers, receive no cash compensation directly from us. The management fee is payable independent of the performance of our portfolio.

The management fee of our Manager shall be calculated within 30 days after the end of each quarter and such calculation shall be promptly delivered to us. We are obligated to pay the management fee in cash within

Table of Contents

five business days after delivery to us of the written statement of our Manager setting forth the computation of the management fee for such quarter.

Incentive Fee

We will pay our Manager an incentive fee, calculated and payable quarterly in arrears, in an amount equal to 20% of the dollar amount by which Core Earnings (as defined below), on a rolling four-quarter basis and before the incentive fee for the current quarter, exceeds the product of (1) the weighted average of the issue price per share of all of our public offerings multiplied by the weighted average number of common shares outstanding in such quarter and (2) 8%. Installments of the incentive fee are payable quarterly in arrears based on annualized Core Earnings. For the initial four quarters following this offering, Core Earnings will be calculated on the basis of each of the previously completed quarters on an annualized basis. Core Earnings for the initial quarter will be calculated from the settlement date of this offering on an annualized basis. Core Earnings is a non-GAAP measure and is defined as GAAP net income (loss) excluding non-cash equity compensation expense, depreciation and amortization (to the extent that we foreclose on any properties underlying our target assets), any unrealized gains, losses or other non-cash items recorded in net income for the period, regardless of whether such items are included in other comprehensive income or loss, or in net income. The amount will be adjusted to exclude one-time events pursuant to changes in GAAP and certain other non-cash charges after discussions between our Manager and our independent directors and after approval by a majority of our independent directors.

Any net loss incurred by us in a given quarter or quarters will be offset against any net income earned by us in future quarters for purposes of calculating the incentive fee in such future quarters. For example, if we experience a net loss of \$25.0 million in the fourth quarter of a fiscal year and a net loss of \$15.0 million in the first quarter of the following fiscal year (for a cumulative net loss of \$40.0 million in those two quarters), but then earn net income of \$30.0 million in the second quarter and \$40.0 million in the third quarter, then our \$30.0 million of net income in the second quarter would be reduced to zero, and no incentive fee would be payable for the second quarter, and our \$40.0 million of net income in the third quarter would be reduced by the remaining \$10.0 million of net loss to \$30.0 million for purposes of calculating the incentive fee for the third quarter.

At the election of our Manager, up to % of each payment of the incentive fee may be paid in shares of our common stock, subject to the approval of a majority of our independent directors and compliance with our charter s stock ownership limit (after giving effect to any higher ownership limit that may be in effect for Starwood Capital Group and its affiliates, including our Manager), and any applicable securities laws and NYSE rules. We may provide for registration rights for shares of common stock used to pay our Manager s incentive fee. For purposes of determining the number of shares to be delivered in satisfaction of the portion of the incentive fee to be paid in shares of our common stock, we will value our shares at the average per share closing price based on the period of 20 days ending on and including the last day of the applicable fiscal quarter.

Fee Reduction for Investments in any Affiliate-Managed PPIF

We intend to invest in one or more Legacy Loans PPIFs or Legacy Securities PPIFs, one or more of which may be managed by affiliates of Starwood Capital Group if the application of Starwood Capital Group to serve as an investment manager for the Legacy Securities Program is accepted by the U.S. Treasury. In our management agreement, our Manager has agreed to reduce the base management fee and incentive fee by the amount of any separate fees we may pay our Manager or its affiliates in respect of any equity investment we make in a Legacy Loans PPIFs or Legacy Securities PPIF if managed by it or any of its affiliates. Any amounts in excess of the current quarter s fees will be applied against and reduce the fees in subsequent quarters.

Table of Contents

Reimbursement of Expenses

We will be required to reimburse our Manager for the expenses described below. Expense reimbursements to our Manager are made in cash on a monthly basis following the end of each month. Our reimbursement obligation is not subject to any dollar limitation. Because our Manager's personnel perform certain legal, accounting, due diligence tasks and other services that outside professionals or outside consultants otherwise would perform, our Manager is paid or reimbursed for the documented cost of performing such tasks, provided that such costs and reimbursements are in amounts which are no greater than those which would be payable to outside professionals or consultants engaged to perform such services pursuant to agreements negotiated on an arm's-length basis.

We also pay all operating expenses, except those specifically required to be borne by our Manager under the management agreement. The expenses required to be paid by us include, but are not limited to:

- expenses in connection with the issuance and transaction costs incident to the acquisition, disposition and financing of our investments;

- costs of legal, tax, accounting, consulting, auditing, administrative and other similar services rendered for us by providers retained by our Manager or, if provided by our Manager's personnel, in amounts which are no greater than those which would be payable to outside professionals or consultants engaged to perform such services pursuant to agreements negotiated on an arm's-length basis;

- the compensation and expenses of our directors and the cost of liability insurance to indemnify our directors and officers;

- costs associated with the establishment and maintenance of any of our credit facilities, other financing arrangements, or other indebtedness of ours (including commitment fees, accounting fees, legal fees, closing and other similar costs) or any of our securities offerings;

- expenses connected with communications to holders of our securities or of our subsidiaries and other bookkeeping and clerical work necessary in maintaining relations with holders of such securities and in complying with the continuous reporting and other requirements of governmental bodies or agencies, including, without limitation, all costs of preparing and filing required reports with the SEC, the costs payable by us to any transfer agent and registrar in connection with the listing and/or trading of our stock on any exchange, the fees payable by us to any such exchange in connection with its listing, costs of preparing, printing and mailing our annual report to our stockholders and proxy materials with respect to any meeting of our stockholders;

- costs associated with any computer software or hardware, electronic equipment or purchased information technology services from third-party vendors that is used for us;

- expenses incurred by managers, officers, personnel and agents of our Manager for travel on our behalf and other out-of-pocket expenses incurred by managers, officers, personnel and agents of our Manager in connection with the purchase, financing, refinancing, sale or other disposition of an investment or establishment and maintenance of any of our securitizations or any of our securities offerings;

- costs and expenses incurred with respect to market information systems and publications, research publications and materials, and settlement, clearing and custodial fees and expenses;

- compensation and expenses of our custodian and transfer agent, if any;

the costs of maintaining compliance with all federal, state and local rules and regulations or any other regulatory agency;

all taxes and license fees;

all insurance costs incurred in connection with the operation of our business except for the costs attributable to the insurance that our Manager elects to carry for itself and its personnel;

costs and expenses incurred in contracting with third parties;

Table of Contents

all other costs and expenses relating to our business and investment operations, including, without limitation, the costs and expenses of acquiring, owning, protecting, maintaining, developing and disposing of investments, including appraisal, reporting, audit and legal fees;

expenses relating to any office(s) or office facilities, including but not limited to disaster backup recovery sites and facilities, maintained for us or our investments separate from the office or offices of our Manager;

expenses connected with the payments of interest, dividends or distributions in cash or any other form authorized or caused to be made by the board of directors to or on account of holders of our securities or of our subsidiaries, including, without limitation, in connection with any dividend reinvestment plan;

any judgment or settlement of pending or threatened proceedings (whether civil, criminal or otherwise) against us or any subsidiary, or against any trustee, director, partner, member or officer of us or of any subsidiary in his capacity as such for which we or any subsidiary is required to indemnify such trustee, director, partner, member or officer by any court or governmental agency; and

all other expenses actually incurred by our Manager (except as described below) which are reasonably necessary for the performance by our Manager of its duties and functions under the management agreement.

We will not reimburse our Manager for the salaries and other compensation of its personnel. In addition, we may be required to pay our pro rata portion of rent, telephone, utilities, office furniture, equipment, machinery and other office, internal and overhead expenses of our Manager and its affiliates required for our operations.

Investment Advisory Agreement

Our Manager will enter into an investment advisory agreement with Starwood Capital Group Management, LLC effective upon the closing of this offering. Pursuant to this agreement, our Manager will be provided with access to, among other things, Starwood Capital Group's portfolio management, asset valuation, risk management and asset management services as well as administration services addressing legal, compliance, investor relations and information technologies necessary for the performance of our Manager's duties in exchange for a fee representing the Manager's allocable cost for these services. The fee paid by our Manager pursuant to this agreement shall not constitute a reimbursable expense under the management agreement.

Grants of Equity Compensation to Our Manager, Its Personnel and Its Affiliates

Under our equity incentive plan, our compensation committee (or our board of directors, if no such committee is designated by the board) is authorized to approve grants of equity-based awards to our officers or directors and to our Manager and its personnel and affiliates. Concurrently with the completion of this offering, we expect to grant _____ shares of our common stock to _____. Future equity awards may be made under our equity incentive plan. See Management Equity Incentive Plan.

Starwood License Agreement

Upon consummation of this offering, we will enter into a license agreement with Starwood Capital Group pursuant to which it will grant us a non-exclusive, royalty-free license to use the name and trademark "Starwood" and the logo for Starwood Capital Group. Under this agreement, we will have a right to use this name, trademark and logo for so long as Starwood Capital Group and SPT Management, LLC are under common control and SPT Management, LLC serves as our Manager pursuant to the management agreement. This license and trademark will terminate concurrently with

any termination of the management agreement or any change of control of SPT Management, LLC.

Table of Contents**Co-Investment and Allocation Agreement**

Pursuant to an agreement among our Manager, Starwood Capital Group and us, each of our Manager and Starwood Capital Group have agreed that we will be entitled to co-investment rights with the Starwood Private Real Estate Funds and the Starwood Unlevered Debt Fund as described under Business Conflicts of Interest and Related Policies, for so long as the management agreement is in effect and our Manager and Starwood Capital Group are under common control. In addition, our Manager and Starwood Capital Group have agreed that for so long as the management agreement is in effect and our Manager and Starwood Capital Group are under common control no entity controlled by Starwood Capital Group will sponsor or manage a competing vehicle, unless Starwood Capital Group either (i) adopts a policy providing for the fair and equitable allocation of investment opportunities among all competing vehicles and us, or (ii) provides us the right to co-invest with the competing vehicles, in each case subject to the suitability of each investment opportunity for the particular competing vehicle and us and the competing vehicles and our availability of capital for investment.

Historical Performance

Since its inception in 1991, Starwood Capital Group has been investing in real estate and real estate related activities through eleven opportunistic funds with capital raised from several institutional and high net worth investors. Since inception to date, affiliates of Starwood Capital Group have sponsored and managed three private funds that have, or have had, investment objectives similar to ours in that they primarily made, or make investments in certain or predominantly all of our target asset classes. Although the Starwood Private Real Estate Funds target both equity and debt investments in real estate, no less than two thirds of the amounts invested by each of these funds so far has been invested in equity positions (including equity- loan to own investments). Therefore, neither of their current investment portfolios reflects an investment strategy that is similar to ours. The three funds sponsored and managed by affiliates of Starwood Capital Group that have, or have had, investment objectives similar to ours are described below.

Starwood Mezzanine Investors, L.P. closed in November 1994 with a total of \$220 million of capital commitments. This fund's investment goal was to create a portfolio of high-yielding mezzanine investments with significant current cash flow. Through this fund, Starwood Capital Group created an operating platform that it took public at a premium to its asset values by contributing the assets of the fund to a NYSE-listed REIT which ultimately became *iStar Financial, Inc.* (NYSE: SFI).

Starwood Opportunity Fund IV, L.P. closed in February 1997 with a total of \$830 million of capital commitments. This fund's investment goal was to combine in a single fund Starwood Capital Group's experience in high-yielding mezzanine investments related to real estate with its real estate equity investment strategies. Two thirds of this fund's capital was required to be dedicated to mezzanine investments, with the remainder permitted to be invested in equity. This fund's debt investments were contributed to *iStar Financial, Inc.* concurrently with the contribution of all of the assets of Starwood Mezzanine Investors, LP, as described above.

Starwood Debt Fund II, L.P. and the Starwood Unlevered Debt Fund recently closed with an aggregate of \$641.5 million of capital commitments. These two funds target first mortgage and mezzanine investments with significant collateral value (due to subordination of other debt and/or equity in the capital stack) and strong debt service coverage. Starwood Debt Fund II, L.P. targets all such debt investments and utilizes leverage when available to enhance its returns. Pursuant to the investment opportunity allocation provisions of each of these funds, the Starwood Unlevered Debt Fund co-invests with Starwood Debt Fund II, L.P. in all debt, but does not utilize leverage. The capital of Starwood Debt Fund II, L.P. is almost entirely invested. Therefore, we do not expect to have co-investment rights

Table of Contents

with, or co-investment obligations, to this fund. Our co-investment rights with, and co-investment obligations to, the Starwood Unlevered Debt Fund are described under **Business Conflicts of Interest and Related Policies Current Co-Investment Rights and Obligations**.

Certain performance data of each of the funds described above is set forth in the following tables. This data is not a guarantee or prediction of the returns that we may achieve.

The table below sets forth certain performance data of Starwood Mezzanine Investors, L.P. and Starwood Opportunity Fund IV, L.P., the capital of both of which was invested during a prior period of distress in the real estate markets. Starwood Mezzanine Investors, L.P. has been fully liquidated and Starwood Opportunity Fund IV, L.P. has been almost entirely liquidated. The returns set forth below for each of these funds have been almost entirely or fully realized and distributed to the fund's investors.

Performance From Inception to March 31, 2009
(dollars in millions)

Fund	Fund Closing Date	Fund Termination Date	Fund Number of Investments	Total Capitalization (1)	Total Capital Raised (1)	Total Distributions (1)	Gross Internal Rate of Return (2)	Net Internal Rate of Return (2)	Management & Incentive Fees
Starwood Opportunity Fund IV, L.P. ⁽⁴⁾	1997	2011	44	\$ 1,980	\$ 830	\$ 1,969	21% ⁽³⁾	17% ⁽³⁾	\$ 291
Starwood Mezzanine Investors, L.P.	1994	2001	10	\$ 258	\$ 220	\$ 518	24%	20%	\$ 60

(1) Represents total historic costs incurred on 100% of underlying investments. If the ownership percentage was less than 50% of the underlying investment, then the percentage ownership was applied to the total historic cost of the investment.

(2) Gross Internal Rate of Return (IRR) is prior to deduction of the annual management fees or the incentive fees paid to the fund's general partner. The Net IRR is after deduction of the annual management fees and the incentive fees.

(3) IRR calculation assumes any unrealized portfolio at its fair market value at March 31, 2009. Gross IRR and Net IRR includes the fair market value of equity positions of \$50.6 million and \$40.5 million, respectively, at March 31, 2009. There can be no assurance that these investments will be realized at these amounts.

(4) This fund's investments were 96% realized, with \$84 million in fair value of unrealized investments remaining, as of March 31, 2009.

The following tables set forth certain performance data of the debt fund offering by Starwood Capital Group, consisting of Starwood Debt Fund II, L.P., which had a final closing date in January 2009 and the Starwood Unlevered Debt Fund, which had a final closing date in May 2008. The capital of both of these debt funds is in the process of being invested in the target assets of each fund. Pursuant to the investment opportunity allocation

provisions of each of these debt funds, they co-invested in debt investments for the periods presented in the tables below. Together, these funds have an aggregate capital commitment of \$641.5 million, of which \$174 million has been invested as of March 31, 2009.

Table I set forth below presents the amount of capital raised by each of these debt funds, the aggregate cash generated from each of these funds and the amount of investment advisory fees paid, as well as certain other information for the period from inception of each fund (April 28, 2008 for Starwood Debt Fund II, L.P. and May 30, 2008 for the Starwood Unlevered Debt Fund) through March 31, 2009.

Table II set forth below presents certain operating results of these debt funds, which have very limited operating histories. Since the time periods presented below represent only a portion of initial investment period for each of the funds, these results are not indicative of expected fund returns upon stabilization of operations following the completion of the funds' investment periods. During the initial year of a typical fund, it is common for operational cost to exceed income as investments are yet to be realized.

⁽¹⁾ Represents a mark to market adjustment resulting from market deterioration and changes resulting from foreign currency translation.

⁽²⁾ This amount is the aggregate management fees paid by the funds. Under the applicable management agreements, the management fee is calculated on the weighted average amount of the sum of capital contributions of the funds plus all amounts not yet called from the partners but borrowed under the working capital line secured by the capital commitments of the partners.

- (1) Starwood Capital Group Global, L.P. is the sole member of SPT Investment, LLC. Mr. Sternlicht is the controlling partner of Starwood Capital Group Global, L.P. SPT Investment, LLC purchased 100 shares of our common stock in connection with our initial capitalization on May 29, 2009. SPT Investment, LLC will purchase _____ shares of our common stock in a private placement to be completed concurrently with the closing of this offering.

- (2) Does not reflect any shares of common stock reserved for issuance upon exercise of the underwriters overallotment.

persons, in any of our target asset classes. We expect this policy to provide that any proposed investment by a covered person for his or her own account in any of our target asset classes will be permitted if the capital required for the investment does not exceed the personal investment limit. To the extent that a proposed investment exceeds the personal investment limit, we expect that our board of directors will only permit the covered person to make the investment (i) upon the approval of the disinterested directors, or (ii) if

the director or officer actually received an improper personal benefit in money, property or services; or

in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful.

We will enter into a registration rights agreement with regard to the common stock acquired by SPT Investment, LLC in the private placement occurring simultaneously with the completion of this offering and any shares of common stock that our Manager may elect to receive under the management agreement in the future, which we refer to as the registrable shares. Pursuant to the registration rights agreement, we will grant SPT Investment, LLC, our Manager and their direct and indirect transferees:

unlimited demand registration rights to have the registrable shares registered for resale; and

in certain circumstances, the right to piggy-back the registrable shares in registration statements we might file in connection with any future public offering so long as we retain our Manager as our Manager under the management agreement.

Under the MGCL, a Maryland corporation generally cannot dissolve, amend its charter, merge with another entity or engage in similar transactions outside the ordinary course of business unless approved by the affirmative vote of stockholders holding at least two-thirds of the votes entitled to be cast on the matter unless a lesser percentage (but not less than a majority of all of the votes entitled to be cast on the matter) is set forth in the corporation's charter. Our charter provides that these matters (other than certain amendments to the provisions of our charter related to the removal of directors and the restrictions on ownership and transfer of

entity would have been a record owner and beneficial owner or solely a beneficial owner of our shares of stock, or is referred to as a purported record transferee if, had the violative transfer been effective, the person or entity would have been solely a record owner of our shares of stock. We expect our board of directors to waive this ownership limit in

Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of our shares of stock that will or may violate any of the foregoing restrictions on transferability and ownership will be required to give at least 15 days prior written notice to us and provide us with such other information as we may request in order to determine the effect of such transfer on our qualification as a REIT. enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any shares of common stock whether any such swap or transaction is to be settled by delivery of shares of common stock or other securities, in cash or otherwise.

This lockup provision applies to shares of common stock and to securities convertible into or exchangeable or exercisable for or repayable with the shares of common stock. It also applies for a period of 180 days after the date of this prospectus to shares acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition.

Each restricted period will be automatically extended if (1) during the last 17 days of the restricted period, we issue an earnings release or material news or a material event relating to us occurs or (2) before the expiration of such restricted period, we announce that we will release earnings results or become aware that material news or a material event will occur during the 16 day period beginning on the last day of such restricted period, in which case the restrictions described above will continue to apply until the expiration of the 18 day period beginning on the issuance of the earnings release or the occurrence of the material news or material event, unless the representatives of the underwriters waive, in writing, such an extension.

There are no agreements between the representatives of the underwriters and any of our stockholders or affiliates releasing them from these lockup agreements prior to the expiration of the lockup periods described above.

shares and the consideration is received in cash or in the same form as previously paid by the interested stockholder for its shares. A person is not an interested stockholder under the statute if the board of directors approved in advance the transaction by which the person otherwise would have become an interested stockholder. Our board of directors may provide that its approval is subject to compliance with any terms and conditions determined by it.

Our Bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions by any person of our shares of stock. There is no assurance that such provision will not be amended or eliminated at any time in the future.

matter.

Advance Notice of Director Nominations and New Business

Our Bylaws provide that, with respect to an annual meeting of stockholders, nominations of individuals for election to our board of directors and the proposal of business to be considered by stockholders may be made only (1) pursuant to our notice of the meeting, (2) by or at the direction of our board of directors or (3) by a stockholder who is a stockholder of record both at the time of giving the notice required by our

was improperly received, is limited to expenses.

In addition, the MGCL permits a corporation to advance reasonable expenses to a director or officer upon the corporation's receipt of:

a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation; and

Table of Contents

a written undertaking by the director or officer or on the director's or officer's behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the director or officer did not meet the standard of conduct.

Our charter authorizes us to obligate ourselves and our Bylaws obligate us, to the fullest extent permitted by Maryland law in effect from time to time, to indemnify and, without requiring a preliminary determination of the ultimate entitlement to indemnification, pay or reimburse reasonable expenses in advance of final disposition of a proceeding to:

any present or former director or officer who is made or threatened to be made a party to the proceeding by reason of his or her service in that capacity; or

any individual who, while a director or officer of our company and at our request, serves or has served another corporation, REIT, partnership, joint venture, trust, employee benefit plan or any other enterprise as a director, officer, partner or trustee of such corporation, REIT, partnership, joint venture, trust, employee benefit plan or other enterprise and who is made or threatened to be made a party to the proceeding by reason of his or her service in that capacity.

Our charter and Bylaws also permit us to indemnify and advance expenses to any person who served a predecessor of ours in any of the capacities described above and to any personnel or agent of our company or a predecessor of our company.

Following completion of this offering, we may enter into indemnification agreements with each of our directors and executive officers that would provide for indemnification to the maximum extent permitted by Maryland law.

Insofar as the foregoing provisions permit indemnification of directors, officers or persons controlling us for liability arising under the Securities Act, we have been informed that, in the opinion of the SEC, this indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

REIT Qualification

Our charter provides that our board of directors may revoke or otherwise terminate our REIT election, without approval of our stockholders, if it determines that it is no longer in our best interests to continue to qualify as a REIT.

Table of Contents

U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the material United States federal income tax consequences of an investment in common stock of Starwood Property Trust, Inc. For purposes of this section under the heading U.S. Federal Income Tax Considerations, references to Starwood Property Trust, Inc., we, our and us mean only Starwood Property Trust, Inc. and not its subsidiaries or other lower-tier entities, except as otherwise indicated. This summary is based upon the Internal Revenue Code, the regulations promulgated by the U.S. Treasury Department, rulings and other administrative pronouncements issued by the IRS, and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. We have not sought and will not seek an advance ruling from the IRS regarding any matter discussed in this prospectus. The summary is also based upon the assumption that we will operate Starwood Property Trust, Inc. and its subsidiaries and affiliated entities in accordance with their applicable organizational documents or partnership agreements. This summary is for general information only and is not tax advice. It does not purport to discuss all aspects of U.S. federal income taxation that may be important to a particular investor in light of its investment or tax circumstances, or to investors subject to special tax rules, such as:

financial institutions;

insurance companies;

broker-dealers;

regulated investment companies;

partnerships and trusts;

persons who hold our stock on behalf of other persons as nominees;

persons who receive our stock through the exercise of employee stock options or otherwise as compensation;

persons holding our stock as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment; and

except to the extent discussed below, tax-exempt organizations and foreign investors.

This summary assumes that investors will hold their common stock as a capital asset, which generally means as property held for investment.

The federal income tax treatment of holders of our common stock depends in some instances on determinations of fact and interpretations of complex provisions of U.S. federal income tax law for which no clear precedent or authority may be available. In addition, the tax consequences to any particular stockholder of holding our common stock will depend on the stockholder's particular tax circumstances. For example, a stockholder that is a partnership or trust that has issued an equity interest to certain types of tax exempt organizations may be subject to a special entity-level tax if we make distributions attributable to excess inclusion income. See Taxation of Starwood Property Trust, Inc. Taxable Mortgage Pools and Excess Inclusion Income below. A similar tax may be payable by persons who hold our stock as nominees on behalf of tax exempt organizations.

You are urged to consult your tax advisor regarding the federal, state, local, and foreign income and other tax consequences to you in light of your particular investment or tax circumstances of acquiring, holding, exchanging, or otherwise disposing of our common stock.

Taxation of Starwood Property Trust, Inc.

We intend to elect to be taxed as a REIT, commencing with our initial taxable year ending December 31, 2009, upon the filing of our federal income tax return for such year. We believe that we have been organized, and expect to operate in such a manner as to qualify for taxation as a REIT.

Table of Contents

The law firm of Skadden, Arps, Slate, Meagher & Flom LLP has acted as our tax counsel in connection with our formation and election to be taxed as a REIT. In connection with this offering of our common stock, we expect to receive an opinion of Skadden, Arps, Slate, Meagher & Flom LLP to the effect that we have been organized in conformity with the requirements for qualification and taxation as a REIT under the Internal Revenue Code, and that our proposed method of operation will enable us to meet the requirements for qualification and taxation as a REIT, commencing with our initial taxable year ending December 31, 2009. It must be emphasized that the opinion of Skadden, Arps, Slate, Meagher & Flom LLP will be based on various assumptions relating to our organization and operation, and will be conditioned upon fact-based representations and covenants made by our management regarding our organization, assets, and income, and the present and future conduct of our business operations. While we intend to operate so that we will qualify as a REIT, given the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations, and the possibility of future changes in our circumstances, no assurance can be given by Skadden, Arps, Slate, Meagher & Flom LLP or by us that we will qualify as a REIT for any particular year. The opinion will be expressed as of the date issued, and will not cover subsequent periods. Skadden, Arps, Slate, Meagher & Flom LLP will have no obligation to advise us or our stockholders of any subsequent change in the matters stated, represented or assumed, or of any subsequent change in the applicable law. You should be aware that opinions of counsel are not binding on the IRS, and no assurance can be given that the IRS will not challenge the conclusions set forth in such opinions.

Qualification and taxation as a REIT depends on our ability to meet on a continuing basis, through actual operating results, distribution levels, and diversity of stock and asset ownership, various qualification requirements imposed upon REITs by the Internal Revenue Code, the compliance with which will not be reviewed by Skadden, Arps, Slate, Meagher & Flom LLP. Our ability to qualify as a REIT also requires that we satisfy certain asset tests, some of which depend upon the fair market values of assets that we own directly or indirectly. Such values may not be susceptible to a precise determination. Accordingly, no assurance can be given that the actual results of our operations for any taxable year will satisfy such requirements for qualification and taxation as a REIT.

Taxation of REITs in General

As indicated above, our qualification and taxation as a REIT depends upon our ability to meet, on a continuing basis, various qualification requirements imposed upon REITs by the Internal Revenue Code. The material qualification requirements are summarized below under **Requirements for Qualification General**. While we intend to operate so that we qualify as a REIT, no assurance can be given that the IRS will not challenge our qualification, or that we will be able to operate in accordance with the REIT requirements in the future. See **Failure to Qualify**.

Provided that we qualify as a REIT, generally we will be entitled to a deduction for dividends that we pay and therefore will not be subject to federal corporate income tax on our taxable income that is currently distributed to our stockholders. This treatment substantially eliminates the **double taxation** at the corporate and stockholder levels that generally results from investment in a corporation. In general, the income that we generate is taxed only at the stockholder level upon a distribution of dividends to our stockholders.

For tax years through 2010, most domestic stockholders that are individuals, trusts or estates are taxed on corporate dividends at a maximum rate of 15% (the same as long-term capital gains). With limited exceptions, however, dividends from us or from other entities that are taxed as REITs are generally not eligible for this rate and will continue to be taxed at rates applicable to ordinary income, which will be as high as 35% through 2010. See **Taxation of Stockholders Taxation of Taxable Domestic Stockholders Distributions**.

Any net operating losses, foreign tax credits and other tax attributes generally do not pass through to our stockholders, subject to special rules for certain items such as the capital gains that we recognize. See **Taxation of Stockholders**.

If we qualify as a REIT, we will nonetheless be subject to federal tax in the following circumstances:

We will be taxed at regular corporate rates on any undistributed taxable income, including undistributed net capital gains.

Table of Contents

We may be subject to the alternative minimum tax on our items of tax preference, including any deductions of net operating losses.

If we have net income from prohibited transactions, which are, in general, sales or other dispositions of inventory or property held primarily for sale to customers in the ordinary course of business, other than foreclosure property, such income will be subject to a 100% tax. See Prohibited Transactions, and Foreclosure Property, below.

If we elect to treat property that we acquire in connection with a foreclosure of a mortgage loan or certain leasehold terminations as foreclosure property, we may thereby avoid the 100% tax on gain from a resale of that property (if the sale would otherwise constitute a prohibited transaction), but the income from the sale or operation of the property may be subject to corporate income tax at the highest applicable rate (currently 35%).

If we derive excess inclusion income from an interest in certain mortgage loan securitization structures (i.e., a taxable mortgage pool or a residual interest in a real estate mortgage investment conduit, or REMIC), we could be subject to corporate level federal income tax at a 35% rate to the extent that such income is allocable to specified types of tax-exempt stockholders known as disqualified organizations that are not subject to unrelated business income tax. See Taxable Mortgage Pools and Excess Inclusion Income below.

If we fail to satisfy the 75% gross income test or the 95% gross income test, as discussed below, but nonetheless maintain our qualification as a REIT because we satisfy other requirements, we will be subject to a 100% tax on an amount based on the magnitude of the failure, as adjusted to reflect the profit margin associated with our gross income.

If we violate the asset tests (other than certain *de minimis* violations) or other requirements applicable to REITs, as described below, and yet maintain our qualification as a REIT because there is reasonable cause for the failure and other applicable requirements are met, we may be subject to a penalty tax. In that case, the amount of the penalty tax will be at least \$50,000 per failure, and, in the case of certain asset test failures, will be determined as the amount of net income generated by the assets in question multiplied by the highest corporate tax rate (currently 35%) if that amount exceeds \$50,000 per failure.

If we fail to distribute during each calendar year at least the sum of (a) 85% of our REIT ordinary income for such year, (b) 95% of our REIT capital gain net income for such year, and (c) any undistributed taxable income from prior periods, we would be subject to a non-deductible 4% excise tax on the excess of the required distribution over the sum of (i) the amounts that we actually distributed, and (ii) the amounts we retained and upon which we paid income tax at the corporate level.

We may be required to pay monetary penalties to the IRS in certain circumstances, including if we fail to meet record keeping requirements intended to monitor our compliance with rules relating to the composition of a REIT's stockholders, as described below in Requirements for Qualification General.

A 100% tax may be imposed on transactions between us and a TRS (as defined below) that do not reflect arm's length terms.

If we acquire appreciated assets from a corporation that is not a REIT (i.e., a corporation taxable under subchapter C of the Internal Revenue Code) in a transaction in which the adjusted tax basis of the assets in our hands is determined by reference to the adjusted tax basis of the assets in the hands of the subchapter C corporation, we may be subject to tax on such appreciation at the highest corporate income tax rate then

applicable if we subsequently recognize gain on a disposition of any such assets during the ten-year period following their acquisition from the subchapter C corporation.

The earnings of any subsidiaries that are subchapter C corporations, including any TRSs (as defined below), are subject to federal corporate income tax.

In addition, we and our subsidiaries may be subject to a variety of taxes, including payroll taxes and state, local, and foreign income, property and other taxes on our assets and operations. We could also be subject to tax in situations and on transactions not presently contemplated.

Table of Contents

Requirements for Qualification General

The Internal Revenue Code defines a REIT as a corporation, trust or association:

- (1) that is managed by one or more trustees or directors;
- (2) the beneficial ownership of which is evidenced by transferable shares, or by transferable certificates of beneficial interest;
- (3) that would be taxable as a domestic corporation but for the special Internal Revenue Code provisions applicable to REITs;
- (4) that is neither a financial institution nor an insurance company subject to specific provisions of the Internal Revenue Code;
- (5) the beneficial ownership of which is held by 100 or more persons;
- (6) in which, during the last half of each taxable year, not more than 50% in value of the outstanding stock is owned, directly or indirectly, by five or fewer individuals (as defined in the Internal Revenue Code to include specified tax-exempt entities); and
- (7) which meets other tests described below, including with respect to the nature of its income and assets.

The Internal Revenue Code provides that conditions (1) through (4) must be met during the entire taxable year, and that condition (5) must be met during at least 335 days of a taxable year of 12 months, or during a proportionate part of a shorter taxable year. Conditions (5) and (6) need not be met during a corporation's initial tax year as a REIT (which, in our case, will be 2009). Our charter provides restrictions regarding the ownership and transfers of our stock, which are intended to assist us in satisfying the stock ownership requirements described in conditions (5) and (6) above.

To monitor compliance with the stock ownership requirements, we generally are required to maintain records regarding the actual ownership of our stock. To do so, we must demand written statements each year from the record holders of significant percentages of our stock pursuant to which the record holders must disclose the actual owners of the stock (i.e., the persons required to include our dividends in their gross income). We must maintain a list of those persons failing or refusing to comply with this demand as part of our records. We could be subject to monetary penalties if we fail to comply with these record keeping requirements. If you fail or refuse to comply with the demands, you will be required by Treasury regulations to submit a statement with your tax return disclosing the actual ownership of our stock and other information.

In addition, a corporation generally may not elect to become a REIT unless its taxable year is the calendar year. We intend to adopt December 31 as our year end, and thereby satisfy this requirement.

The Internal Revenue Code provides relief from violations of the REIT gross income requirements, as described below under *Income Tests*, in cases where a violation is due to reasonable cause and not to willful neglect, and other requirements are met, including the payment of a penalty tax that is based upon the magnitude of the violation. In addition, certain provisions of the Internal Revenue Code extend similar relief in the case of certain violations of the REIT asset requirements (see *Asset Tests* below) and other REIT requirements, again provided that the violation is due to reasonable cause and not willful neglect, and other conditions are met, including the payment of a penalty tax. If we fail to satisfy any of the various REIT requirements, there can be no assurance that these relief provisions would

be available to enable us to maintain our qualification as a REIT, and, if such relief provisions are available, the amount of any resultant penalty tax could be substantial.

Effect of Subsidiary Entities

Ownership of Partnership Interests. If we are a partner in an entity that is treated as a partnership for federal income tax purposes, Treasury regulations provide that we are deemed to own our proportionate share of the partnership's assets, and to earn our proportionate share of the partnership's income, for purposes of the asset and gross income tests applicable to REITs. Our proportionate share of a partnership's assets and income is based on our capital interest in the partnership (except that for purposes of the 10% asset test, our proportionate share of the partnership's assets is based on our proportionate interest in the equity and certain

Table of Contents

debt securities issued by the partnership). In addition, the assets and gross income of the partnership are deemed to retain the same character in our hands. Thus, our proportionate share of the assets and items of income of any of our subsidiary partnerships will be treated as our assets and items of income for purposes of applying the REIT requirements.

Disregarded Subsidiaries. If we own a corporate subsidiary that is a qualified REIT subsidiary, that subsidiary is generally disregarded for federal income tax purposes, and all of the subsidiary's assets, liabilities and items of income, deduction and credit are treated as our assets, liabilities and items of income, deduction and credit, including for purposes of the gross income and asset tests applicable to REITs. A qualified REIT subsidiary is any corporation, other than a TRS (as described below) that is directly or indirectly wholly-owned by a REIT. Other entities that are wholly-owned by us, including single member limited liability companies that have not elected to be taxed as corporations for federal income tax purposes, are also generally disregarded as separate entities for federal income tax purposes, including for purposes of the REIT income and asset tests. Disregarded subsidiaries, along with any partnerships in which we hold an equity interest, are sometimes referred to herein as pass-through subsidiaries.

In the event that a disregarded subsidiary of ours ceases to be wholly-owned—for example, if any equity interest in the subsidiary is acquired by a person other than us or another disregarded subsidiary of ours—the subsidiary's separate existence would no longer be disregarded for federal income tax purposes. Instead, the subsidiary would have multiple owners and would be treated as either a partnership or a taxable corporation. Such an event could, depending on the circumstances, adversely affect our ability to satisfy the various asset and gross income requirements applicable to REITs, including the requirement that REITs generally may not own, directly or indirectly, more than 10% of the securities of another corporation. See *Asset Tests* and *Income Tests*.

Taxable Subsidiaries. In general, we may jointly elect with a subsidiary corporation, whether or not wholly-owned, to treat such subsidiary corporation as a taxable REIT subsidiary (TRS). We generally may not own more than 10% of the securities of a taxable corporation, as measured by voting power or value, unless we and such corporation elect to treat such corporation as a TRS. The separate existence of a TRS or other taxable corporation is not ignored for federal income tax purposes. Accordingly, a TRS or other taxable corporation generally would be subject to corporate income tax on its earnings, which may reduce the cash flow that we and our subsidiaries generate in the aggregate, and may reduce our ability to make distributions to our stockholders.

We are not treated as holding the assets of a TRS or other taxable subsidiary corporation or as receiving any income that the subsidiary earns. Rather, the stock issued by a taxable subsidiary to us is an asset in our hands, and we treat the dividends paid to us from such taxable subsidiary, if any, as income. This treatment can affect our income and asset test calculations, as described below. Because we do not include the assets and income of TRSs or other taxable subsidiary corporations in determining our compliance with the REIT requirements, we may use such entities to undertake indirectly activities that the REIT rules might otherwise preclude us from doing directly or through pass-through subsidiaries. For example, we may use TRSs or other taxable subsidiary corporations to conduct activities that give rise to certain categories of income such as management fees or to conduct activities that, if conducted by us directly, could be treated in our hands as prohibited transactions.

The TRS rules limit the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation. Further, the rules impose a 100% excise tax on transactions between a TRS and its parent REIT or the REIT's tenants that are not conducted on an arm's-length basis. We intend that all of our transactions with our TRSs, if any, will be conducted on an arm's-length basis.

We may hold a significant amount of assets in one or more TRSs, subject to the limitation that securities in TRSs may not represent more than 25% of our assets. In general, we intend that loans that we originate or buy with an intention of selling in a manner that might expose us to a 100% tax on prohibited transactions will be originated or sold by a

TRS. We anticipate that the TRS through which any such sales are made may be treated as a dealer for federal income tax purposes. As a dealer, the TRS may in general mark all the loans

Table of Contents

it holds on the last day of each taxable year to their market value, and may recognize ordinary income or loss on such loans with respect to such taxable year as if they had been sold for that value on that day. In addition, the TRS may further elect to be subject to the mark-to-market regime described above in the event that the TRS is properly classified as a trader as opposed to a dealer for U.S. federal income tax purposes.

Income Tests

In order to qualify as a REIT, we must satisfy two gross income requirements on an annual basis. First, at least 75% of our gross income for each taxable year, excluding gross income from sales of inventory or dealer property in prohibited transactions and certain hedging transactions, generally must be derived from investments relating to real property or mortgages on real property, including interest income derived from mortgage loans secured by real property (including certain types of mortgage-backed securities), rents from real property, dividends received from other REITs, and gains from the sale of real estate assets, as well as specified income from temporary investments. Second, at least 95% of our gross income in each taxable year, excluding gross income from prohibited transactions and certain hedging transactions, must be derived from some combination of income that qualifies under the 75% gross income test described above, as well as other dividends, interest, and gain from the sale or disposition of stock or securities, which need not have any relation to real property. Income and gain from certain hedging transactions will be excluded from both the numerator and the denominator for purposes of both the 75% and 95% gross income tests. See Derivatives and Hedging Transactions.

Interest income constitutes qualifying mortgage interest for purposes of the 75% gross income test (as described above) to the extent that the obligation upon which such interest is paid is secured by a mortgage on real property. If we receive interest income with respect to a mortgage loan that is secured by both real property and other property, and the highest principal amount of the loan outstanding during a taxable year exceeds the fair market value of the real property on the date that we acquired or originated the mortgage loan, the interest income will be apportioned between the real property and the other collateral, and our income from the arrangement will qualify for purposes of the 75% gross income test only to the extent that the interest is allocable to the real property. Even if a loan is not secured by real property, or is undersecured, the income that it generates may nonetheless qualify for purposes of the 95% gross income test.

To the extent that the terms of a loan provide for contingent interest that is based on the cash proceeds realized upon the sale of the property securing the loan (a shared appreciation provision), income attributable to the participation feature will be treated as gain from sale of the underlying property, which generally will be qualifying income for purposes of both the 75% and 95% gross income tests provided that the property is not held as inventory or dealer property. To the extent that we derive interest income from a mortgage loan, or income from the rental of real property where all or a portion of the amount of interest or rental income payable is contingent, such income generally will qualify for purposes of the gross income tests only if it is based upon the gross receipts or sales, and not the net income or profits, of the borrower or lessee. This limitation does not apply, however, where the borrower or lessee leases substantially all of its interest in the property to tenants or subtenants, to the extent that the rental income derived by the borrower or lessee, as the case may be, would qualify as rents from real property had we earned the income directly.

We intend to invest in CMBS, RMBS, and agency securities that are either pass-through certificates or collateralized mortgage obligations as well as mortgage loans and mezzanine loans. We expect that the CMBS, RMBS, and agency securities will be treated either as interests in a grantor trust or as interests in a REMIC for federal income tax purposes and that all interest income from our CMBS, RMBS, and agency securities will be qualifying income for the 95% gross income test. In the case of mortgage-backed securities treated as interests in grantor trusts, we would be treated as owning an undivided beneficial ownership interest in the mortgage loans held by the grantor trust. The interest on such mortgage loans would be qualifying income for purposes of the 75% gross income test to the extent

received as rent, however, generally will not be excluded from rents from real property solely by reason of being based on fixed percentages of gross receipts or sales. Moreover, for rents received to qualify as rents from real property, we generally must not operate or manage the property or furnish or render services to the tenants of such property, other than through an independent

Table of Contents

contractor from which we derive no revenue. We are permitted, however, to perform services that are usually or customarily rendered in connection with the rental of space for occupancy only and which are not otherwise considered rendered to the occupant of the property. In addition, we may directly or indirectly provide non-customary services to tenants of our properties without disqualifying all of the rent from the property if the payments for such services does not exceed 1% of the total gross income from the property. For purposes of this test, we are deemed to have received income from such non-customary services in an amount at least 150% of the direct cost of providing the services. Moreover, we are generally permitted to provide services to tenants or others through a TRS without disqualifying the rental income received from tenants for purposes of the income tests. Also, rental income will qualify as rents from real property only to the extent that we do not directly or constructively hold a 10% or greater interest, as measured by vote or value, in the lessee's equity.

We may directly or indirectly receive distributions from TRSs or other corporations that are not REITs or qualified REIT subsidiaries. These distributions generally are treated as dividend income to the extent of the earnings and profits of the distributing corporation. Such distributions will generally constitute qualifying income for purposes of the 95% gross income test, but not for purposes of the 75% gross income test. Any dividends that we receive from a REIT, however, will be qualifying income for purposes of both the 95% and 75% gross income tests.

Fees will generally be qualifying income for purposes of both the 75% and 95% gross income tests if they are received in consideration for entering into an agreement to make a loan secured by real property and the fees are not determined by income and profits. Other fees generally will not be qualifying income for purposes of either gross income test and will not be favorably counted for purposes of either gross income test. Any fees earned by a TRS will not be included for purposes of the gross income tests.

Any income or gain that we or our pass-through subsidiaries derive from instruments that hedge certain risks, such as the risk of changes in interest rates, will be excluded from gross income for purposes of the 75% and 95% gross income tests, provided that specified requirements are met, including the requirement that the instrument is entered into during the ordinary course of our business, the instrument hedges risks associated with indebtedness issued by us or our pass-through subsidiary that is incurred to acquire or carry real estate assets (as described below under Asset Tests), and the instrument is properly identified as a hedge along with the risk that it hedges within prescribed time periods. Income and gain from all other hedging transactions will not be qualifying income for either the 95% or 75% gross income test. See Derivatives and Hedging Transactions.

Certain foreign currency gains are excluded from gross income for purposes of one or both of the gross income tests.

Real estate foreign exchange gain will be excluded from gross income for purposes of the 75% gross income test. Real estate foreign exchange gain generally includes foreign currency gain attributable to any item of income or gain that is qualifying income for purposes of the 75% gross income test, foreign currency gain attributable to the acquisition or ownership of (or becoming or being the obligor under) obligations secured by mortgages on real property or on interest in real property and certain foreign currency gain attributable to certain qualified business units of a REIT.

Passive foreign exchange gain will be excluded from gross income for purposes of the 95% gross income test. Passive foreign exchange gain generally includes real estate foreign exchange gain as described above, and also includes foreign currency gain attributable to any item of income or gain that is qualifying income for purposes of the 95% gross income test and foreign currency gain attributable to the acquisition or ownership of (or becoming or being the obligor under) obligations. Because passive foreign exchange gain includes real estate foreign exchange gain, real estate foreign exchange gain is excluded from gross income for purposes of both the 75% and 95% gross income test. These exclusions for real estate foreign exchange gain and passive foreign exchange gain do not apply to foreign currency gain derived from dealing, or engaging in substantial and regular trading, in securities. Such gain is treated as non-qualifying income for purposes of both the 75% and 95% gross income tests.

If we fail to satisfy one or both of the 75% or 95% gross income tests for any taxable year, we may still qualify as a REIT for such year if we are entitled to relief under applicable provisions of the Internal Revenue Code. These relief provisions will be generally available if (1) our failure to meet these tests was due to reasonable cause and not due to willful neglect and (2) following our identification of the failure to meet the

Table of Contents

75% or 95% gross income test for any taxable year, we file a schedule with the IRS setting forth each item of our gross income for purposes of the 75% or 95% gross income test for such taxable year in accordance with Treasury regulations yet to be issued. It is not possible to state whether we would be entitled to the benefit of these relief provisions in all circumstances. If these relief provisions are inapplicable to a particular set of circumstances, we will not qualify as a REIT. As discussed above under Taxation of REITs in General, even where these relief provisions apply, the Internal Revenue Code imposes a tax based upon the amount by which we fail to satisfy the particular gross income test.

Under The Housing and Economic Recovery Tax Act of 2008, the Secretary of the Treasury has been given broad authority to determine whether particular items of gain or income recognized after July 30, 2008, qualify or not under the 75% and 95% gross income tests, or are to be excluded from the measure of gross income for such purposes.

Timing Differences Between Receipt of Cash and Recognition of Income

Due to the nature of the assets in which we will invest, we may be required to recognize taxable income from those assets in advance of our receipt of cash flow on or proceeds from disposition of such assets, and may be required to report taxable income in early periods that exceeds the economic income ultimately realized on such assets.

We may acquire debt instruments in the secondary market for less than their face amount. The discount at which such debt instruments are acquired may reflect doubts about their ultimate collectibility rather than current market interest rates. The amount of such discount will nevertheless generally be treated as market discount for U.S. federal income tax purposes. Accrued market discount is generally recognized as taxable income when and to the extent that any payment of principal is made on the debt instrument. Payments on residential mortgage loans are ordinarily made monthly, and consequently accrued market discount may have to be included in income each month as if the debt instrument were assured of ultimately being collected in full. If we collect less on the debt instrument than our purchase price plus the market discount we had previously reported as income, we may not be able to benefit from any offsetting loss deductions.

Some of the MBS that we acquire may have been issued with original issue discount. In general, we will be required to accrue original issue discount based on the constant yield to maturity of the MBS, and to treat it as taxable income in accordance with applicable U.S. federal income tax rules even though smaller or no cash payments are received on such debt instrument. As in the case of the market discount discussed in the preceding paragraph, the constant yield in question will be determined and we will be taxed based on the assumption that all future payments due on the MBS in question will be made, with consequences similar to those described in the previous paragraph if all payments on the MBS are not made.

In addition, pursuant to our investment strategy, we may acquire distressed debt investments that are subsequently modified by agreement with the borrower. If the amendments to the outstanding debt are significant modifications under the applicable Treasury regulations, the modified debt may be considered to have been reissued to us in a debt-for-debt exchange with the borrower. In that event, we may be required to recognize income to the extent the principal amount of the modified debt exceeds our adjusted tax basis in the unmodified debt, and would hold the modified loan with a cost basis equal to its principal amount for U.S. federal tax purposes.

In addition, in the event that any debt instruments or MBS acquired by us are delinquent as to mandatory principal and interest payments, or in the event payments with respect to a particular debt instrument are not made when due, we may nonetheless be required to continue to recognize the unpaid interest as taxable income. Similarly, we may be required to accrue interest income with respect to subordinate mortgage-backed securities at the stated rate regardless of whether corresponding cash payments are received.

Finally, we may be required under the terms of indebtedness that we incur, whether to private lenders or pursuant to the Legacy Loans Program, to use cash received from interest payments to make principal payments on that indebtedness, with the effect of recognizing income but not having a corresponding amount of cash available for distribution to our stockholders.

Table of Contents

Due to each of these potential timing differences between income recognition or expense deduction and cash receipts or disbursements, there is a significant risk that we may have substantial taxable income in excess of cash available for distribution. In that event, we may need to borrow funds or take other action to satisfy the REIT distribution requirements for the taxable year in which this phantom income is recognized. See Annual Distribution Requirements.

Asset Tests

At the close of each calendar quarter, we must also satisfy four tests relating to the nature of our assets. First, at least 75% of the value of our total assets must be represented by some combination of real estate assets, cash, cash items, U.S. government securities, and, under some circumstances, stock or debt instruments purchased with new capital. For this purpose, real estate assets include interests in real property, such as land, buildings, leasehold interests in real property, stock of other corporations that qualify as REITs, and some types of mortgage-backed securities and mortgage loans, as well as interests in real property and stock of other corporations that qualify as REITs. Assets that do not qualify for purposes of the 75% asset test are subject to the additional asset tests described below.

Second, the value of any one issuer's securities that we own may not exceed 5% of the value of our total assets. Third, we may not own more than 10% of any one issuer's outstanding securities, as measured by either voting power or value. The 5% and 10% asset tests do not apply to securities of TRSs and qualified REIT subsidiaries and the 10% asset test does not apply to straight debt having specified characteristics and to certain other securities described below. Solely for purposes of the 10% asset test, the determination of our interest in the assets of a partnership or limited liability company in which we own an interest will be based on our proportionate interest in any securities issued by the partnership or limited liability company, excluding for this purpose certain securities described in the Internal Revenue Code. Fourth, the aggregate value of all securities of TRSs that we hold may not exceed 25% of the value of our total assets.

Notwithstanding the general rule, as noted above, that for purposes of the REIT income and asset tests, we are treated as owning our proportionate share of the underlying assets of a subsidiary partnership, if we hold indebtedness issued by a partnership, the indebtedness will be subject to, and may cause a violation of, the asset tests unless the indebtedness is a qualifying mortgage asset, or other conditions are met. Similarly, although stock of another REIT is a qualifying asset for purposes of the REIT asset tests, any non-mortgage debt that is issued by another REIT may not so qualify (such debt, however, will not be treated as a security for purposes of the 10% asset test, as explained below).

Certain securities will not cause a violation of the 10% asset test described above. Such securities include instruments that constitute straight debt, which includes, among other things, securities having certain contingency features. A security does not qualify as straight debt where a REIT (or a controlled TRS of the REIT) owns other securities of the same issuer which do not qualify as straight debt, unless the value of those other securities constitute, in the aggregate, 1% or less of the total value of that issuer's outstanding securities. In addition to straight debt, the Internal Revenue Code provides that certain other securities will not violate the 10% asset test. Such securities include (a) any loan made to an individual or an estate, (b) certain rental agreements pursuant to which one or more payments are to be made in subsequent years (other than agreements between a REIT and certain persons related to the REIT under attribution rules), (c) any obligation to pay rents from real property, (d) securities issued by governmental entities that are not dependent in whole or in part on the profits of (or payments made by) a non-governmental entity, (e) any security (including debt securities) issued by another REIT, and (f) any debt instrument issued by a partnership if the partnership's income is of a nature that it would satisfy the 75% gross income test described above under Income Tests. In applying the 10% asset test, a debt security issued by a partnership is not taken into account to the extent, if any, of the REIT's proportionate interest in the equity and certain debt securities issued by that partnership.

We intend to invest in CMBS, RMBS, and agency securities that are either pass-through certificates or collateralized mortgage obligations as well as mortgage loans and mezzanine loans. We expect that the CMBS, RMBS, and agency securities will be treated either as interests in grantor trusts or as interests in REMICs for federal income tax purposes. In the case of mortgage-backed securities treated as interests in grantor trusts, we

Table of Contents

would be treated as owning an undivided beneficial ownership interest in the mortgage loans held by the grantor trust. Such mortgage loans will generally qualify as real estate assets to the extent that they are secured by real property. We expect that substantially all of our mortgage-backed securities treated as interests in grantor trust will qualify as real estate assets.

Any interests that we hold in a REMIC, including CMBS or RMBS that are structured as interests in REMICs, will generally qualify as real estate assets, and income derived from REMIC interests will generally be treated as qualifying income for purposes of the REIT income tests described above. If less than 95% of the assets of a REMIC are real estate assets, however, then only a proportionate part of our interest in the REMIC and income derived from the interest qualifies for purposes of the REIT asset and income tests. If we hold a residual interest in a REMIC from which we derive excess inclusion income, we will be required to either distribute the excess inclusion income or pay tax on it (or a combination of the two), even though we may not receive the income in cash. To the extent that distributed excess inclusion income is allocable to a particular stockholder, the income (1) would not be allowed to be offset by any net operating losses otherwise available to the stockholder, (2) would be subject to tax as unrelated business taxable income in the hands of most types of stockholders that are otherwise generally exempt from federal income tax, and (3) would result in the application of U.S. federal income tax withholding at the maximum rate (30%), without reduction pursuant to any otherwise applicable income tax treaty or other exemption, to the extent allocable to most types of foreign stockholders. Moreover, any excess inclusion income that we receive that is allocable to specified categories of tax-exempt investors which are not subject to unrelated business income tax, such as government entities or charitable remainder trusts, may be subject to corporate-level income tax in our hands, whether or not it is distributed. See *Taxable Mortgage Pools and Excess Inclusion Income*.

To the extent that we hold mortgage participations or mortgage-backed securities that do not represent REMIC interests, such assets may not qualify as real estate assets, and the income generated from them might not qualify for purposes of either or both of the REIT income requirements, depending upon the circumstances and the specific structure of the investment.

In addition, certain of our mezzanine loans may qualify for the safe harbor in Revenue Procedure 2003-65 pursuant to which certain loans secured by a first priority security interest in ownership interests in a partnership or limited liability company will be treated as qualifying assets for purposes of the 75% real estate asset test and the 10% vote or value test. See *Income Tests*. We may make some mezzanine loans that do not qualify for that safe harbor and that do not qualify as straight debt securities or for one of the other exclusions from the definition of securities for purposes of the 10% asset test. We intend to make such investments in such a manner as not to fail the asset tests described above.

We do not expect to obtain independent appraisals to support our conclusions as to the value of our total assets, or the value of any particular security or securities. Moreover, values of some assets, including instruments issued in securitization transactions, may not be susceptible to a precise determination, and values are subject to change in the future. Furthermore, the proper classification of an instrument as debt or equity for federal income tax purposes may be uncertain in some circumstances, which could affect the application of the REIT asset requirements. Accordingly, there can be no assurance that the IRS will not contend that our interests in our subsidiaries or in the securities of other issuers will not cause a violation of the REIT asset tests.

Certain relief provisions are available to allow REITs to satisfy the asset requirements, or to maintain REIT qualification notwithstanding certain violations of the asset and other requirements. One such provision allows a REIT which fails one or more of the asset test requirements to nevertheless maintain its REIT qualification if (1) the REIT provides the IRS with a description of each asset causing the failure, (2) the failure is due to reasonable cause and not willful neglect, (3) the REIT pays a tax equal to the greater of

Table of Contents

(a) \$50,000 per failure, and (b) the product of the net income generated by the assets that caused the failure multiplied by the highest applicable corporate tax rate (currently 35%), and (4) the REIT either disposes of the assets causing the failure within six months after the last day of the quarter in which it identifies the failure, or otherwise satisfies the relevant asset tests within that time frame. In the case of *de minimis* violations of the 10% and 5% asset tests, a REIT may maintain its qualification despite a violation of such requirements if (1) the value of the assets causing the violation does not exceed the lesser of 1% of the REIT's total assets, and \$10,000,000, and (2) the REIT either disposes of the assets causing the failure within six months after the last day of the quarter in which it identifies the failure, or the relevant tests are otherwise satisfied within that time frame.

If we fail to satisfy the asset tests at the end of a calendar quarter, such a failure would not cause us to lose our REIT qualification if we (1) satisfied the asset tests at the close of the preceding calendar quarter and (2) the discrepancy between the value of our assets and the asset requirements was not wholly or partly caused by an acquisition of non-qualifying assets, but instead arose from changes in the market value of our assets. If the condition described in (2) were not satisfied, we still could avoid disqualification by eliminating any discrepancy within 30 days after the close of the calendar quarter in which it arose or by making use of relief provisions described below.

Annual Distribution Requirements

In order to qualify as a REIT, we are required to distribute dividends, other than capital gain dividends, to our stockholders in an amount at least equal to:

(a) the sum of

(1) 90% of our REIT taxable income, computed without regard to our net capital gains and the deduction for dividends paid, and

(2) 90% of our net income, if any, (after tax) from foreclosure property (as described below), minus

(b) the sum of specified items of noncash income.

We generally must make these distributions in the taxable year to which they relate, or in the following taxable year if declared before we timely file our tax return for the year and if paid with or before the first regular dividend payment after such declaration. In order for distributions to be counted as satisfying the annual distribution requirements for REITs, and to provide us with a REIT-level tax deduction, the distributions must not be preferential dividends. A dividend is not a preferential dividend if the distribution is (1) pro rata among all outstanding shares of stock within a particular class, and (2) in accordance with the preferences among different classes of stock as set forth in our organizational documents.

To the extent that we distribute at least 90%, but less than 100%, of our REIT taxable income, as adjusted, we will be subject to tax at ordinary corporate tax rates on the retained portion. We may elect to retain, rather than distribute, our net long-term capital gains and pay tax on such gains. In this case, we could elect for our stockholders to include their proportionate shares of such undistributed long-term capital gains in income, and to receive a corresponding credit for their share of the tax that we paid. Our stockholders would then increase their adjusted basis of their stock by the difference between (a) the amounts of capital gain dividends that we designated and that they include in their taxable income, minus (b) the tax that we paid on their behalf with respect to that income.

To the extent that in the future we may have available net operating losses carried forward from prior tax years, such losses may reduce the amount of distributions that we must make in order to comply with the REIT distribution requirements. Such losses, however, will generally not affect the character, in the hands of our stockholders, of any

distributions that are actually made as ordinary dividends or capital gains. See Taxation of Stockholders Taxation of Taxable Domestic Stockholders Distributions.

If we fail to distribute during each calendar year at least the sum of (a) 85% of our REIT ordinary income for such year, (b) 95% of our REIT capital gain net income for such year, and (c) any undistributed taxable income from prior periods, we would be subject to a non-deductible 4% excise tax on the excess of such

Table of Contents

required distribution over the sum of (x) the amounts actually distributed, and (y) the amounts of income we retained and on which we paid corporate income tax.

It is possible that, from time to time, we may not have sufficient cash to meet the distribution requirements due to timing differences between our actual receipt of cash, including receipt of distributions from our subsidiaries and our inclusion of items in income for federal income tax purposes. Alternatively, we may declare a taxable dividend payable in cash or stock at the election of each stockholder, where the aggregate amount of cash to be distributed in such dividend may be subject to limitation. In such case, for federal income tax purposes, the amount of the dividend paid in stock will be equal to the amount of cash that could have been received instead of stock. Other potential sources of non-cash taxable income include:

residual interests in REMICs or taxable mortgage pools;

loans or mortgage-backed securities held as assets that are issued at a discount and require the accrual of taxable economic interest in advance of receipt in cash; and

loans on which the borrower is permitted to defer cash payments of interest, and distressed loans on which we may be required to accrue taxable interest income even though the borrower is unable to make current servicing payments in cash.

In the event that such timing differences occur, in order to meet the distribution requirements, it might be necessary for us to arrange for short-term, or possibly long-term, borrowings, or to pay dividends in the form of taxable in-kind distributions of property.

We may be able to rectify a failure to meet the distribution requirements for a year by paying deficiency dividends to stockholders in a later year, which may be included in our deduction for dividends paid for the earlier year. In this case, we may be able to avoid losing REIT qualification or being taxed on amounts distributed as deficiency dividends. We will be required to pay interest and a penalty based on the amount of any deduction taken for deficiency dividends.

Prohibited Transactions

Net income that we derive from a prohibited transaction is subject to a 100% tax. The term prohibited transaction generally includes a sale or other disposition of property (other than foreclosure property, as discussed below) that is held primarily for sale to customers in the ordinary course of a trade or business by us, or by a borrower that has issued a shared appreciation mortgage or similar debt instrument to us. We intend to conduct our operations so that no asset that we own (or are treated as owning) will be treated as, or as having been, held for sale to customers, and that a sale of any such asset will not be treated as having been in the ordinary course of our business. Whether property is held primarily for sale to customers in the ordinary course of a trade or business depends on the particular facts and circumstances. No assurance can be given that any property that we sell will not be treated as property held for sale to customers, or that we can comply with certain safe-harbor provisions of the Internal Revenue Code that would prevent such treatment. The 100% tax does not apply to gains from the sale of property that is held through a TRS or other taxable corporation, although such income will be subject to tax in the hands of the corporation at regular corporate rates. We intend to structure our activities to avoid transactions that are prohibited transactions.

Foreclosure Property

Foreclosure property is real property and any personal property incident to such real property (1) that we acquire as the result of having bid in the property at foreclosure, or having otherwise reduced the property to ownership or

possession by agreement or process of law, after a default (or upon imminent default) on a lease of the property or a mortgage loan held by us and secured by the property, (2) for which we acquired the related loan or lease at a time when default was not imminent or anticipated, and (3) with respect to which we made a proper election to treat the property as foreclosure property. We generally will be subject to tax at the maximum corporate rate (currently 35%) on any net income from foreclosure property, including any gain from the disposition of the foreclosure property, other than income that constitutes qualifying income for purposes of the 75% gross income test. Any gain from the sale of property for which a foreclosure property

Table of Contents

election has been made will not be subject to the 100% tax on gains from prohibited transactions described above, even if the property would otherwise constitute inventory or dealer property. To the extent that we receive any income from foreclosure property that does not qualify for purposes of the 75% gross income test, we intend to make an election to treat the related property as foreclosure property.

Foreign Investments

We and our subsidiaries may hold investments in and pay taxes to foreign countries. Taxes that we pay in foreign jurisdictions may not be passed through to, or used by, our stockholders as a foreign tax credit or otherwise. Our foreign investments might also generate foreign currency gains and losses. Certain foreign currency gains recognized after July 30, 2008 would be excluded from gross income for purposes of one or both of the gross income tests, as discussed above. See above under **Income Tests**.

Derivatives and Hedging Transactions

We and our subsidiaries may enter into hedging transactions with respect to interest rate exposure on one or more of our assets or liabilities. Any such hedging transactions could take a variety of forms, including the use of derivative instruments such as interest rate swap contracts, interest rate cap or floor contracts, futures or forward contracts, and options. Except to the extent provided by Treasury regulations, any income from a hedging transaction we enter into (1) in the normal course of our business primarily to manage risk of interest rate or price changes or currency fluctuations with respect to borrowings made or to be made, or ordinary obligations incurred or to be incurred, to acquire or carry real estate assets, which is clearly identified as specified in Treasury regulations before the close of the day on which it was acquired, originated, or entered into, including gain from the sale or disposition of such a transaction, and (2) primarily to manage risk of currency fluctuations with respect to any item of income or gain that would be qualifying income under the 75% or 95% income tests (or any asset that produces such income) which is clearly identified as such before the close of the day on which it was acquired, originated, or entered into, will not constitute gross income for purposes of the 75% or 95% gross income test. To the extent that we enter into other types of hedging transactions, the income from those transactions is likely to be treated as non-qualifying income for purposes of both of the 75% and 95% gross income tests. We intend to structure any hedging transactions in a manner that does not jeopardize our qualification as a REIT. We may conduct some or all of our hedging activities through a TRS or other corporate entity, the income from which may be subject to federal income tax, rather than by participating in the arrangements directly or through pass-through subsidiaries. No assurance can be given, however, that our hedging activities will not give rise to income that does not qualify for purposes of either or both of the REIT gross income tests, or that our hedging activities will not adversely affect our ability to satisfy the REIT qualification requirements.

Taxable Mortgage Pools and Excess Inclusion Income

An entity, or a portion of an entity, may be classified as a taxable mortgage pool (**TMP**) under the Internal Revenue Code if

- substantially all of its assets consist of debt obligations or interests in debt obligations,

- more than 50% of those debt obligations are real estate mortgages or interests in real estate mortgages as of specified testing dates,

- the entity has issued debt obligations (liabilities) that have two or more maturities, and

the payments required to be made by the entity on its debt obligations (liabilities) bear a relationship to the payments to be received by the entity on the debt obligations that it holds as assets.

Under regulations issued by the U.S. Treasury Department, if less than 80% of the assets of an entity (or a portion of an entity) consist of debt obligations, these debt obligations are considered not to comprise substantially all of its assets, and therefore the entity would not be treated as a TMP. Our financing and securitization arrangements may give rise to TMPs, with the consequences as described below.

Where an entity, or a portion of an entity, is classified as a TMP, it is generally treated as a taxable corporation for federal income tax purposes. In the case of a REIT, or a portion of a REIT, or a disregarded

Table of Contents

subsidiary of a REIT, that is a TMP, however, special rules apply. The TMP is not treated as a corporation that is subject to corporate income tax, and the TMP classification does not directly affect the tax status of the REIT. Rather, the consequences of the TMP classification would, in general, except as described below, be limited to the stockholders of the REIT.

A portion of the REIT's income from the TMP arrangement, which might be non-cash accrued income, could be treated as excess inclusion income. Under recently issued IRS guidance, the REIT's excess inclusion income, including any excess inclusion income from a residual interest in a REMIC, must be allocated among its stockholders in proportion to dividends paid. The REIT is required to notify stockholders of the amount of excess inclusion income allocated to them. A stockholder's share of excess inclusion income:

cannot be offset by any net operating losses otherwise available to the stockholder,

is subject to tax as unrelated business taxable income in the hands of most types of stockholders that are otherwise generally exempt from federal income tax, and

results in the application of U.S. federal income tax withholding at the maximum rate (30%), without reduction for any otherwise applicable income tax treaty or other exemption, to the extent allocable to most types of foreign stockholders.

See *Taxation of Stockholders*. Under recently issued IRS guidance, to the extent that excess inclusion income is allocated to a tax-exempt stockholder of a REIT that is not subject to unrelated business income tax (such as a government entity or charitable remainder trust), the REIT may be subject to tax on this income at the highest applicable corporate tax rate (currently 35%). In that case, the REIT could reduce distributions to such stockholders by the amount of such tax paid by the REIT attributable to such stockholder's ownership. Treasury regulations provide that such a reduction in distributions does not give rise to a preferential dividend that could adversely affect the REIT's compliance with its distribution requirements. See *Annual Distribution Requirements*. The manner in which excess inclusion income is calculated, or would be allocated to stockholders, including allocations among shares of different classes of stock, is not clear under current law. As required by IRS guidance, we intend to make such determinations using a reasonable method. Tax-exempt investors, foreign investors and taxpayers with net operating losses should carefully consider the tax consequences described above, and are urged to consult their tax advisors.

If a subsidiary partnership of ours that we do not wholly-own, directly or through one or more disregarded entities, were a TMP, the foregoing rules would not apply. Rather, the partnership that is a TMP would be treated as a corporation for federal income tax purposes, and potentially would be subject to corporate income tax or withholding tax. In addition, this characterization would alter our income and asset test calculations, and could adversely affect our compliance with those requirements. We intend to monitor the structure of any TMPs in which we have an interest to ensure that they will not adversely affect our status as a REIT.

Failure to Qualify

If we fail to satisfy one or more requirements for REIT qualification other than the income or asset tests, we could avoid disqualification if our failure is due to reasonable cause and not to willful neglect and we pay a penalty of \$50,000 for each such failure. Relief provisions are available for failures of the income tests and asset tests, as described above in *Income Tests* and *Asset Tests*.

If we fail to qualify for taxation as a REIT in any taxable year, and the relief provisions described above do not apply, we would be subject to tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates. We cannot deduct distributions to stockholders in any year in which we are not a REIT, nor would we

be required to make distributions in such a year. In this situation, to the extent of current and accumulated earnings and profits, distributions to domestic stockholders that are individuals, trusts and estates will generally be taxable at capital gains rates (through 2010). In addition, subject to the limitations of the Internal Revenue Code, corporate distributees may be eligible for the dividends received deduction. Unless we are entitled to relief under specific statutory provisions, we would also be disqualified from re-

Table of Contents

electing to be taxed as a REIT for the four taxable years following the year during which we lost qualification. It is not possible to state whether, in all circumstances, we would be entitled to this statutory relief.

Tax Aspects of Investments in Partnerships

General

We may hold investments through entities that are classified as partnerships for federal income tax purposes. In general, partnerships are pass-through entities that are not subject to federal income tax. Rather, partners are allocated their proportionate shares of the items of income, gain, loss, deduction and credit of a partnership, and are potentially subject to tax on these items, without regard to whether the partners receive a distribution from the partnership. We will include in our income our proportionate share of these partnership items for purposes of the various REIT income tests and in computation of our REIT taxable income. Moreover, for purposes of the REIT asset tests, we will include in our calculations our proportionate share of any assets held by subsidiary partnerships. Our proportionate share of a partnership's assets and income is based on our capital interest in the partnership (except that for purposes of the 10% asset test, our proportionate share is based on our proportionate interest in the equity and certain debt securities issued by the partnership). See *Taxation of Starwood Property Trust, Inc. Effect of Subsidiary Entities Ownership of Partnership Interests*.

Entity Classification

Any investment in partnerships involves special tax considerations, including the possibility of a challenge by the IRS of the status of any subsidiary partnership as a partnership, as opposed to an association taxable as a corporation, for federal income tax purposes. If any of these entities were treated as an association for federal income tax purposes, it would be taxable as a corporation and therefore could be subject to an entity-level tax on its income. In such a situation, the character of our assets and items of gross income would change and could preclude us from satisfying the REIT asset tests or the gross income tests as discussed in *Taxation of Starwood Property Trust, Inc. Asset Tests and Income Tests*, and in turn could prevent us from qualifying as a REIT, unless we are eligible for relief from the violation pursuant to relief provisions described above. See *Taxation of Starwood Property Trust, Inc. Asset Tests, Income Test and Failure to Qualify*, above, for discussion of the effect of failure to satisfy the REIT tests for a taxable year, and of the relief provisions. In addition, any change in the status of any subsidiary partnership for tax purposes might be treated as a taxable event, in which case we could have taxable income that is subject to the REIT distribution requirements without receiving any cash.

Tax Allocations with Respect to Partnership Properties

Under the Internal Revenue Code and the Treasury regulations, income, gain, loss and deduction attributable to appreciated or depreciated property that is contributed to a partnership in exchange for an interest in the partnership must be allocated for tax purposes so that the contributing partner is charged with, or benefits from, the unrealized gain or unrealized loss associated with the property at the time of the contribution. The amount of the unrealized gain or unrealized loss is generally equal to the difference between the fair market value of the contributed property at the time of contribution, and the adjusted tax basis of such property at the time of contribution (a book-tax difference). Such allocations are solely for federal income tax purposes and do not affect the book capital accounts or other economic or legal arrangements among the partners.

To the extent that any of our subsidiary partnerships acquires appreciated (or depreciated) properties by way of capital contributions from its partners, allocations would need to be made in a manner consistent with these requirements. Where a partner contributes cash to a partnership at a time that the partnership holds appreciated (or depreciated) property, the Treasury regulations provide for a similar allocation of these items to the other (i.e., non-contributing)

partners. These rules may apply to a contribution that we make to any subsidiary partnerships of the cash proceeds received in offerings of our stock. As a result, the partners of our subsidiary partnerships, including us, could be allocated greater or lesser amounts of depreciation and taxable income in respect of a partnership's properties than would be the case if all of the partnership's assets

Table of Contents

(including any contributed assets) had a tax basis equal to their fair market values at the time of any contributions to that partnership. This could cause us to recognize, over a period of time, taxable income in excess of cash flow from the partnership, which might adversely affect our ability to comply with the REIT distribution requirements discussed above.

Taxation of Stockholders

Taxation of Taxable Domestic Stockholders

Distributions. So long as we qualify as a REIT, the distributions that we make to our taxable domestic stockholders out of current or accumulated earnings and profits that we do not designate as capital gain dividends will generally be taken into account by stockholders as ordinary income and will not be eligible for the dividends received deduction for corporations. With limited exceptions, our dividends are not eligible for taxation at the preferential income tax rates (i.e., the 15% maximum federal rate through 2010) for qualified dividends received by domestic stockholders that are individuals, trusts and estates from taxable C corporations. Such stockholders, however, are taxed at the preferential rates on dividends designated by and received from REITs to the extent that the dividends are attributable to

income retained by the REIT in the prior taxable year on which the REIT was subject to corporate level income tax (less the amount of tax),

dividends received by the REIT from TRSs or other taxable C corporations, or

income in the prior taxable year from the sales of built-in gain property acquired by the REIT from C corporations in carryover basis transactions (less the amount of corporate tax on such income).

Distributions that we designate as capital gain dividends will generally be taxed to our stockholders as long-term capital gains, to the extent that such distributions do not exceed our actual net capital gain for the taxable year, without regard to the period for which the stockholder that receives such distribution has held its stock. We may elect to retain and pay taxes on some or all of our net long term capital gains, in which case provisions of the Internal Revenue Code will treat our stockholders as having received, solely for tax purposes, our undistributed capital gains, and the stockholders will receive a corresponding credit for taxes that we paid on such undistributed capital gains. See

Taxation of Starwood Property Trust, Inc. Annual Distribution Requirements. Corporate stockholders may be required to treat up to 20% of some capital gain dividends as ordinary income. Long-term capital gains are generally taxable at maximum federal rates of 15% (through 2010) in the case of stockholders that are individuals, trusts and estates, and 35% in the case of stockholders that are corporations. Capital gains attributable to the sale of depreciable real property held for more than 12 months are subject to a 25% maximum federal income tax rate for taxpayers who are taxed as individuals, to the extent of previously claimed depreciation deductions.

Distributions in excess of our current and accumulated earnings and profits will generally represent a return of capital and will not be taxable to a stockholder to the extent that the amount of such distributions does not exceed the adjusted basis of the stockholder's shares in respect of which the distributions were made. Rather, the distribution will reduce the adjusted basis of the stockholder's shares. To the extent that such distributions exceed the adjusted basis of a stockholder's shares, the stockholder generally must include such distributions in income as long-term capital gain, or short-term capital gain if the shares have been held for one year or less. In addition, any dividend that we declare in October, November or December of any year and that is payable to a stockholder of record on a specified date in any such month will be treated as both paid by us and received by the stockholder on December 31 of such year, provided that we actually pay the dividend before the end of January of the following calendar year.

To the extent that we have available net operating losses and capital losses carried forward from prior tax years, such losses may reduce the amount of distributions that we must make in order to comply with the REIT distribution requirements. See Taxation of Starwood Property Trust, Inc. Annual Distribution Requirements. Such losses, however, are not passed through to stockholders and do not offset income of stockholders from other sources, nor would such losses affect the character of any distributions that we make, which are generally subject to tax in the hands of stockholders to the extent that we have current or accumulated earnings and profits.

Table of Contents

If excess inclusion income from a taxable mortgage pool or REMIC residual interest is allocated to any stockholder, that income will be taxable in the hands of the stockholder and would not be offset by any net operating losses of the stockholder that would otherwise be available. See *Taxation of Starwood Property Trust, Inc. Taxable Mortgage Pools and Excess Inclusion Income*. As required by IRS guidance, we intend to notify our stockholders if a portion of a dividend paid by us is attributable to excess inclusion income.

Dispositions of Our Stock. In general, capital gains recognized by individuals, trusts and estates upon the sale or disposition of our stock will be subject to a maximum federal income tax rate of 15% (through 2010) if the stock is held for more than one year, and will be taxed at ordinary income rates (of up to 35% through 2010) if the stock is held for one year or less. Gains recognized by stockholders that are corporations are subject to federal income tax at a maximum rate of 35%, whether or not such gains are classified as long-term capital gains. Capital losses recognized by a stockholder upon the disposition of our stock that was held for more than one year at the time of disposition will be considered long-term capital losses, and are generally available only to offset capital gain income of the stockholder but not ordinary income (except in the case of individuals, who may offset up to \$3,000 of ordinary income each year). In addition, any loss upon a sale or exchange of shares of our stock by a stockholder who has held the shares for six months or less, after applying holding period rules, will be treated as a long-term capital loss to the extent of distributions that we make that are required to be treated by the stockholder as long-term capital gain.

If an investor recognizes a loss upon a subsequent disposition of our stock or other securities in an amount that exceeds a prescribed threshold, it is possible that the provisions of Treasury regulations involving reportable transactions could apply, with a resulting requirement to separately disclose the loss-generating transaction to the IRS. These regulations, though directed towards tax shelters, are broadly written, and apply to transactions that would not typically be considered tax shelters. The Internal Revenue Code imposes significant penalties for failure to comply with these requirements. You should consult your tax advisors concerning any possible disclosure obligation with respect to the receipt or disposition of our stock or securities, or transactions that we might undertake directly or indirectly. Moreover, you should be aware that we and other participants in the transactions in which we are involved (including their advisors) might be subject to disclosure or other requirements pursuant to these regulations.

Taxation of Foreign Stockholders

The following is a summary of certain U.S. federal income and estate tax consequences of the ownership and disposition of our stock applicable to non-U.S. holders. A non-U.S. holder is any person other than:

a citizen or resident of the United States,

a corporation (or entity treated as a corporation for U.S. federal income tax purposes) created or organized in the United States or under the laws of the United States, or of any state thereof, or the District of Columbia,

an estate, the income of which is includable in gross income for U.S. federal income tax purposes regardless of its source, or

a trust if a United States court is able to exercise primary supervision over the administration of such trust and one or more United States fiduciaries have the authority to control all substantial decisions of the trust.

If a partnership, including for this purpose any entity that is treated as a partnership for U.S. federal income tax purposes, holds our common stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. An investor that is a partnership and the partners in such partnership should consult their tax advisors about the U.S. federal income tax consequences of the acquisition, ownership and disposition of our common stock.

The following discussion is based on current law, and is for general information only. It addresses only selected, and not all, aspects of U.S. federal income and estate taxation.

In General. For most foreign investors, investment in a REIT that invests principally in mortgage loans and mortgage-backed securities is not the most tax-efficient way to invest in such assets. That is because

Table of Contents

receiving distributions of income derived from such assets in the form of REIT dividends subjects most foreign investors to withholding taxes that direct investment in those asset classes, and the direct receipt of interest and principal payments with respect to them, would not. The principal exceptions are foreign sovereigns and their agencies and instrumentalities, which may be exempt from withholding taxes on REIT dividends under the Internal Revenue Code, and certain foreign pension funds or similar entities able to claim an exemption from withholding taxes on REIT dividends under the terms of a bilateral tax treaty between their country of residence and the United States.

Ordinary Dividends. The portion of dividends received by non-U.S. holders that is (1) payable out of our earnings and profits, (2) not attributable to our capital gains and (3) not effectively connected with a U.S. trade or business of the non-U.S. holder, will be subject to U.S. withholding tax at the rate of 30%, unless reduced or eliminated by treaty. Reduced treaty rates and other exemptions are not available to the extent that income is attributable to excess inclusion income allocable to the foreign stockholder. Accordingly, we will withhold at a rate of 30% on any portion of a dividend that is paid to a non-U.S. holder and attributable to that holder's share of our excess inclusion income. See Taxation of Starwood Property Trust, Inc. Taxable Mortgage Pools and Excess Inclusion Income. As required by IRS guidance, we intend to notify our stockholders if a portion of a dividend paid by us is attributable to excess inclusion income.

In general, non-U.S. holders will not be considered to be engaged in a U.S. trade or business solely as a result of their ownership of our stock. In cases where the dividend income from a non-U.S. holder's investment in our stock is, or is treated as, effectively connected with the non-U.S. holder's conduct of a U.S. trade or business, the non-U.S. holder generally will be subject to U.S. federal income tax at graduated rates, in the same manner as domestic stockholders are taxed with respect to such dividends. Such income must generally be reported on a U.S. income tax return filed by or on behalf of the non-U.S. holder. The income may also be subject to the 30% branch profits tax in the case of a non-U.S. holder that is a corporation.

Non-Dividend Distributions. Unless our stock constitutes a U.S. real property interest (a USRPI), distributions that we make which are not dividends out of our earnings and profits will not be subject to U.S. income tax. If we cannot determine at the time a distribution is made whether or not the distribution will exceed current and accumulated earnings and profits, the distribution will be subject to withholding at the rate applicable to dividends. The non-U.S. holder may seek a refund from the IRS of any amounts withheld if it subsequently is determined that the distribution was, in fact, in excess of our current and accumulated earnings and profits. If our stock constitutes a USRPI, as described below, distributions that we make in excess of the sum of (a) the stockholder's proportionate share of our earnings and profits, and (b) the stockholder's basis in its stock, will be taxed under the Foreign Investment in Real Property Tax Act of 1980 (FIRPTA) at the rate of tax, including any applicable capital gains rates, that would apply to a domestic stockholder of the same type (e.g., an individual or a corporation, as the case may be), and the collection of the tax will be enforced by a refundable withholding tax at a rate of 10% of the amount by which the distribution exceeds the stockholder's share of our earnings and profits.

Capital Gain Dividends. Under FIRPTA, a distribution that we make to a non-U.S. holder, to the extent attributable to gains from dispositions of USRPIs that we held directly or through pass-through subsidiaries, or USRPI capital gains, will, except as described below, be considered effectively connected with a U.S. trade or business of the non-U.S. holder and will be subject to U.S. income tax at the rates applicable to U.S. individuals or corporations, without regard to whether we designate the distribution as a capital gain dividend. See above under Taxation of Foreign Stockholders Ordinary Dividends, for a discussion of the consequences of income that is effectively connected with a U.S. trade or business. In addition, we will be required to withhold tax equal to 35% of the maximum amount that could have been designated as USRPI capital gains dividends. Distributions subject to FIRPTA may also be subject to a 30% branch profits tax in the hands of a non-U.S. holder that is a corporation. A distribution is not a USRPI capital gain if we held an interest in the underlying asset solely as a creditor. Capital gain dividends received

by a non-U.S. holder that are attributable to dispositions of our assets other than USRPIs are not subject to U.S. federal income or withholding tax, unless (1) the gain is effectively connected with the non-U.S. holder's U.S. trade or business, in which case the non-U.S. holder would be subject to the same treatment as U.S. holders with respect to such gain, or (2) the non-U.S. holder is a nonresident alien individual who was present in the United States for 183 days or

Table of Contents

more during the taxable year and has a tax home in the United States, in which case the non-U.S. holder will incur a 30% tax on his or her capital gains.

A capital gain dividend that would otherwise have been treated as a USRPI capital gain will not be so treated or be subject to FIRPTA, and generally will not be treated as income that is effectively connected with a U.S. trade or business, and instead will be treated in the same manner as an ordinary dividend (see *Taxation of Foreign Stockholders Ordinary Dividends*), if (1) the capital gain dividend is received with respect to a class of stock that is regularly traded on an established securities market located in the United States, and (2) the recipient non-U.S. holder does not own more than 5% of that class of stock at any time during the year ending on the date on which the capital gain dividend is received. We anticipate that our common stock will be regularly traded on an established securities exchange following this offering.

Dispositions of Our Stock. Unless our stock constitutes a USRPI, a sale of our stock by a non-U.S. holder generally will not be subject to U.S. taxation under FIRPTA. Our stock will not be treated as a USRPI if less than 50% of our assets throughout a prescribed testing period consist of interests in real property located within the United States, excluding, for this purpose, interests in real property solely in a capacity as a creditor. It is not currently anticipated that our stock will constitute a USRPI. However, we cannot assure you that our stock will not become a USRPI.

Even if the foregoing 50% test is not met, our stock nonetheless will not constitute a USRPI if we are a domestically-controlled qualified investment entity. A domestically-controlled qualified investment entity includes a REIT, less than 50% of value of which is held directly or indirectly by non-U.S. holders at all times during a specified testing period. We believe that we are, and will be, a domestically-controlled qualified investment entity, and that a sale of our stock should not be subject to taxation under FIRPTA. However, no assurance can be given that we are or will remain a domestically-controlled qualified investment entity.

In the event that we are not a domestically-controlled qualified investment entity, but our stock is regularly traded, as defined by applicable Treasury regulations, on an established securities market, a non-U.S. holder's sale of our common stock nonetheless would not be subject to tax under FIRPTA as a sale of a USRPI, provided that the selling non-U.S. holder held 5% or less of our outstanding common stock at all times during the five-year period ending on the date of the sale. We expect that our common stock will be regularly traded on an established securities market following this offering.

If gain on the sale of our stock were subject to taxation under FIRPTA, the non-U.S. holder would be required to file a U.S. federal income tax return and would be subject to the same treatment as a U.S. stockholder with respect to such gain, subject to applicable alternative minimum tax and a special alternative minimum tax in the case of non-resident alien individuals, and the purchaser of the stock could be required to withhold 10% of the purchase price and remit such amount to the IRS.

Gain from the sale of our stock that would not otherwise be subject to FIRPTA will nonetheless be taxable in the United States to a non-U.S. holder in two cases: (1) if the non-U.S. holder's investment in our stock is effectively connected with a U.S. trade or business conducted by such non-U.S. holder, the non-U.S. holder will be subject to the same treatment as a U.S. stockholder with respect to such gain, or (2) if the non-U.S. holder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a tax home in the United States, the nonresident alien individual will be subject to a 30% tax on the individual's capital gain. In addition, even if we are a domestically controlled qualified investment entity, upon disposition of our stock (subject to the 5% exception applicable to regularly traded stock described above), a non-U.S. holder may be treated as having gain from the sale or exchange of a USRPI if the non-U.S. holder (1) disposes of our common stock within a 30-day period preceding the ex-dividend date of a distribution, any portion of which, but for the disposition, would have been treated as gain from the sale or exchange of a USRPI and (2) acquires, or enters into a contract or option to acquire,

other shares of our common stock within 30 days after such ex-dividend date.

Estate Tax. If our stock is owned or treated as owned by an individual who is not a citizen or resident (as specially defined for U.S. federal estate tax purposes) of the United States at the time of such individual's death, the stock will be includable in the individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise, and may therefore be subject to U.S. federal estate tax.

Table of Contents

Taxation of Tax-Exempt Stockholders

Tax-exempt entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, generally are exempt from federal income taxation. Such entities, however, may be subject to taxation on their unrelated business taxable income (UBTI). While some investments in real estate may generate UBTI, the IRS has ruled that dividend distributions from a REIT to a tax-exempt entity generally do not constitute UBTI. Based on that ruling, and provided that (1) a tax-exempt stockholder has not held our stock as debt financed property within the meaning of the Internal Revenue Code (i.e., where the acquisition or holding of the property is financed through a borrowing by the tax-exempt stockholder), and (2) our stock is not otherwise used in an unrelated trade or business, distributions that we make and income from the sale of our stock generally should not give rise to UBTI to a tax-exempt stockholder.

To the extent that we are (or a part of us, or a disregarded subsidiary of ours is) a TMP, or if we hold residual interests in a REMIC, a portion of the dividends paid to a tax-exempt stockholder that is allocable to excess inclusion income may be treated as UBTI. If, however, excess inclusion income is allocable to some categories of tax-exempt stockholders that are not subject to UBTI, we might be subject to corporate level tax on such income, and, in that case, may reduce the amount of distributions to those stockholders whose ownership gave rise to the tax. See *Taxation of Starwood Property Trust, Inc. Taxable Mortgage Pools and Excess Inclusion Income*. As required by IRS guidance, we intend to notify our stockholders if a portion of a dividend paid by us is attributable to excess inclusion income.

Tax-exempt stockholders that are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts, and qualified group legal services plans exempt from federal income taxation under sections 501(c)(7), (c)(9), (c)(17) and (c)(20) of the Internal Revenue Code are subject to different UBTI rules, which generally require such stockholders to characterize distributions that we make as UBTI.

In certain circumstances, a pension trust that owns more than 10% of our stock could be required to treat a percentage of the dividends as UBTI, if we are a pension-held REIT. We will not be a pension-held REIT unless (1) we are required to look through one or more of our pension trust stockholders in order to satisfy the REIT closely held test and (2) either (i) one pension trust owns more than 25% of the value of our stock, or (ii) one or more pension trusts, each individually holding more than 10% of the value of our stock, collectively owns more than 50% of the value of our stock. Certain restrictions on ownership and transfer of our stock generally should prevent a tax-exempt entity from owning more than 10% of the value of our stock, and generally should prevent us from becoming a pension-held REIT.

Table of Contents

Tax-exempt stockholders are urged to consult their tax advisors regarding the federal, state, local and foreign income and other tax consequences of owning our common stock.

Other Tax Considerations

Legislative or Other Actions Affecting REITs

The present federal income tax treatment of REITs may be modified, possibly with retroactive effect, by legislative, judicial or administrative action at any time. The REIT rules are constantly under review by persons involved in the legislative process and by the IRS and the U.S. Treasury Department which may result in statutory changes as well as revisions to regulations and interpretations. Changes to the federal tax laws and interpretations thereof could adversely affect an investment in our stock.

State, Local and Foreign Taxes

We and our subsidiaries and stockholders may be subject to state, local or foreign taxation in various jurisdictions, including those in which we or they transact business, own property or reside. We may own properties located in numerous jurisdictions, and may be required to file tax returns in some or all of those jurisdictions. Our state, local or foreign tax treatment and that of our stockholders may not conform to the federal income tax treatment discussed above. We may pay foreign property taxes, and dispositions of foreign property or operations involving, or investments in, foreign property may give rise to foreign income or other tax liability in amounts that could be substantial. Any foreign taxes that we incur do not pass through to stockholders as a credit against their U.S. federal income tax liability. Prospective investors should consult their tax advisors regarding the application and effect of state, local and foreign income and other tax laws on an investment in our stock.

Table of Contents

ERISA CONSIDERATIONS

A fiduciary of a pension, profit sharing, retirement or other employee benefit plan, or plan, subject to the Employee Retirement Income Security Act of 1974, as amended, or ERISA, should consider the fiduciary standards under ERISA in the context of the plan's particular circumstances before authorizing an investment of a portion of such plan's assets in the shares of common stock. Accordingly, such fiduciary should consider (i) whether the investment satisfies the diversification requirements of Section 404(a)(1)(C) of ERISA, (ii) whether the investment is in accordance with the documents and instruments governing the plan as required by Section 404(a)(1)(D) of ERISA, and (iii) whether the investment is prudent under ERISA. In addition to the imposition of general fiduciary standards of investment prudence and diversification, ERISA, and the corresponding provisions of the Internal Revenue Code, prohibit a wide range of transactions involving the assets of the plan and persons who have certain specified relationships to the plan (parties in interest within the meaning of ERISA, disqualified persons within the meaning of Internal Revenue Code). Thus, a plan fiduciary considering an investment in the shares of common stock also should consider whether the acquisition or the continued holding of the shares of common stock might constitute or give rise to a direct or indirect prohibited transaction that is not subject to an exemption issued by the Department of Labor, or the DOL.

The DOL, has issued final regulations, or the DOL Regulations, as to what constitutes assets of an employee benefit plan under ERISA. Under the DOL Regulations, if a plan acquires an equity interest in an entity, which interest is neither a publicly offered security nor a security issued by an investment company registered under the 1940 Act as amended, the plan's assets would include, for purposes of the fiduciary responsibility provision of ERISA, both the equity interest and an undivided interest in each of the entity's underlying assets unless certain specified exceptions apply. The DOL Regulations define a publicly offered security as a security that is widely held, freely transferable, and either part of a class of securities registered under the Exchange Act, or sold pursuant to an effective registration statement under the Securities Act (provided the securities are registered under the Exchange Act within 120 days after the end of the fiscal year of the issuer during which the public offering occurred). The shares of common stock are being sold in an offering registered under the Securities Act and will be registered under the Exchange Act.

The DOL Regulations provided that a security is widely held only if it is part of a class of securities that is owned by 100 or more investors independent of the issuer and of one another. A security will not fail to be widely held because the number of independent investors falls below 100 subsequent to the initial public offering as a result of events beyond the issuer's control. The company expects the common stock to be widely held upon completion of the initial public offering.

The DOL Regulations provide that whether a security is freely transferable is a factual question to be determined on the basis of all relevant facts and circumstances. The DOL Regulations further provide that when a security is part of an offering in which the minimum investment is \$10,000 or less, as is the case with this offering, certain restrictions ordinarily will not, alone or in combination, affect the finding that such securities are freely transferable. We believe that the restrictions imposed under our charter on the transfer of our common stock are limited to the restrictions on transfer generally permitted under the DOL Regulations are not likely to result in the failure of common stock to be freely transferable. The DOL Regulations only establish a presumption in favor of the finding of free transferability, and, therefore, no assurance can be given that the DOL will not reach a contrary conclusion.

Assuming that the common stock will be widely held and freely transferable, we believe that our common stock will be publicly offered securities for purposes of the DOL Regulations and that our assets will not be deemed to be plan assets of any plan that invests in our common stock.

Each holder of our common stock will be deemed to have represented and agreed that its purchase and holding of such common stock (or any interest therein) will not constitute or result in a non-exempt prohibited transaction under ERISA or Section 4975 of the Internal Revenue Code.

Table of Contents**UNDERWRITING**

We intend to offer the shares of common stock through the underwriters. Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc. are acting as the representatives of the underwriters named below. Subject to the terms and conditions described in a purchase agreement among us and the underwriters, we have agreed to sell to the underwriters, and the underwriters severally have agreed to purchase from us, the number of shares of common stock listed opposite their names below.

Underwriter	Number of Shares
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
Deutsche Bank Securities Inc.	
Total	

The underwriters have agreed to purchase all of the shares sold under the purchase agreement if any of these shares are purchased. If an underwriter defaults, the purchase agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the purchase agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the purchase agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the shares to the public at the public offering price on the cover page of this prospectus and to dealers at that price less a concession not in excess of \$ _____ per share. After the public offering, the public offering price and concession may be changed.

The following table shows the public offering price, underwriting discount and proceeds before expenses to us. The information assumes either no exercise or full exercise by the underwriters of their overallotment option.

	Per Share	Without Option	With Option
Public offering price	\$	\$	\$
Underwriting discount ⁽¹⁾	\$	\$	\$

Proceeds, before expenses, to us	\$	\$	\$
----------------------------------	----	----	----

(1) Shares sold to certain investors in the directed share program will be purchased from us at an underwriting discount of \$ per share. See Directed Share Program .

The expenses of this offering, not including the underwriting discount, are estimated at \$ and are payable by us.

Overallotment Option

We have granted to the underwriters an option to purchase up to additional shares at the same price per share as they are paying for the shares shown in the table above. The additional shares would cover sales by the underwriters which exceed the total number of shares of common stock shown in the table above.

Table of Contents

The underwriters may exercise this option for 30 days after the date of this prospectus solely to cover over-allotments. To the extent that the underwriters exercise this option, each underwriter will purchase additional shares from us in approximately the same proportions as it purchased the shares of common stock shown in the table above.

Directed Share Program

At our request, the underwriters have reserved for sale, at the initial public offering price, up to % of the shares offered hereby for sale to our directors and officers as well as employees of, and other persons having relationships with Starwood Capital Group and its affiliates, including investors in private funds managed by affiliates of Starwood Capital Group. The number of shares available for sale to the general public will be reduced to the extent such persons purchase such reserved shares. Shares sold to investors in private funds managed by affiliates of Starwood Capital Group will be purchased from us by the underwriters at a reduced underwriting discount of \$ per share, but will be sold to such investors at the same price as all other investors in this offering. Any reserved shares which are not so purchased will be offered by the underwriters to the general public on the same terms as the other shares offered hereby.

No Sales of Similar Securities

We, our Manager and each of our directors and executive officers have agreed not to sell or transfer any shares for 180 days after the date of this prospectus without first obtaining the written consent of the representatives. SPT Investment, LLC has agreed with the underwriters not to sell or otherwise dispose of the shares that it purchases in our concurrent offering for a period of after the date of this prospectus. Specifically, we, these other individuals and other investors have agreed not to directly or indirectly:

- offer, pledge, sell or contract to sell any shares,

- sell any option or contract to purchase any shares,

- purchase any option or contract to sell any shares,

- grant any option, right or warrant for the sale of any shares,

- otherwise dispose of or transfer any shares,

- request or demand that we file a registration statement related to the shares, or

- enter into any swap or other agreement that transfers, in whole or in part, the economic consequence of ownership of any shares of common stock whether any such swap or transaction is to be settled by delivery of shares of common stock or other securities, in cash or otherwise.

This lockup provision applies to shares of common stock and to securities convertible into or exchangeable or exercisable for or repayable with the shares of common stock. It also applies for a period of 180 days after the date of this prospectus to shares acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition.

Each restricted period will be automatically extended if (1) during the last 17 days of the restricted period, we issue an earnings release or material news or a material event relating to us occurs or (2) before the expiration of such restricted period, we announce that we will release earnings results or become aware that material news or a material event will occur during the 16 day period beginning on the last day of such restricted period, in which case the

restrictions described above will continue to apply until the expiration of the 18 day period beginning on the issuance of the earnings release or the occurrence of the material news or material event, unless the representatives of the underwriters waive, in writing, such an extension.

There are no agreements between the representatives of the underwriters and any of our stockholders or affiliates releasing them from these lockup agreements prior to the expiration of the lockup periods described above.

Table of Contents

New York Stock Exchange Listing

We have applied to list our common stock on the NYSE under the symbol STWD. In order to meet the requirements for listing on that exchange, the underwriters have undertaken to sell a minimum number of shares of our common stock to a minimum number of beneficial owners as required by that exchange.

Before this offering, there has been no public market for our common stock. The initial public offering price will be determined through negotiation between us and the representatives. In addition to prevailing market conditions, the factors to be considered in determining the initial public offering price are:

- the valuation multiples of publicly traded companies that the representatives believe to be comparable to us,
- our financial information,
- the history of, and the prospects for, our company and the industry in which we compete,
- an assessment of our officers, our Manager and Starwood Capital Group, their past and present operations, and the prospects for, and timing of, our future revenues,
- the present state of our development, and
- the above factors in relation to market values and various valuation measures of other companies engaged in activities similar to ours.

An active trading market for our common stock may not develop. It is also possible that after the offering the shares will not trade in the public market at or above the initial public offering price.

The underwriters do not expect to sell more than 5% of the shares in the aggregate to accounts over which they exercise discretionary authority.

Price Stabilization and Short Positions

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the representatives may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

If the underwriters create a short position in the common stock in connection with the offering, *i.e.*, if they sell more shares than are listed on the cover of this prospectus, the representatives may reduce that short position by purchasing shares in the open market. The representatives may also elect to reduce any short position by exercising all or part of the underwriters' option to purchase additional shares described above. Purchases of our common stock to stabilize its price or to reduce a short position may cause the price of our common stock to be higher than it might be in the absence of such purchases.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Neither we nor any of the underwriters makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor any of the underwriters makes any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

In connection with the offering, certain of the underwriters or securities dealers may distribute prospectuses by electronic means, such as e-mail. In addition, the representatives may facilitate Internet distribution for this offering to certain of its Internet subscription customers. The representatives may allocate a limited number of shares for sale to its online brokerage customers. An electronic prospectus is available on the

Table of Contents

Internet website maintained by the representatives. Other than the prospectus in electronic format, the information on the representatives' websites is not part of this prospectus.

Other Relationships

Certain of the underwriters or their affiliates have engaged in transactions with, and have performed underwriting, investment banking, lending and advisory services for Starwood Capital Group, our Manager and/or their respective affiliates in the ordinary course of their business and may do so for us as well as our Manager and Starwood Capital Group and their affiliates in the future. They have received or will receive customary fees and reimbursements of expenses for these transactions and services.

Affiliates of the representatives have provided investment banking and secondary market trading services to Starwood Capital Group and its subsidiaries in the past and/or may do so in the future. Such affiliates of the representatives receive customary fees and commissions for these services.

Notice to Prospective Investors in the EEA

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State) an offer to the public of any shares which are the subject of the offering contemplated by this prospectus may not be made in that Relevant Member State, except that an offer to the public in that Relevant Member State of any shares may be made at any time under the following exemptions under the Prospectus Directive, if they have been implemented in that Relevant Member State:

- (a) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than 43,000,000 and (3) an annual net turnover of more than 50,000,000, as shown in its last annual or consolidated accounts;
- (c) by the managers to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer; or
- (d) in any other circumstances falling within Article 3(2) of the Prospectus Directive;

provided that no such offer of shares shall result in a requirement for the publication by us or any underwriter of a prospectus pursuant to Article 3 of the Prospectus Directive.

Any person making or intending to make any offer within the EEA of shares which are the subject of the offering contemplated in this prospectus should only do so in circumstances in which no obligation arises for us or any of the underwriters to produce a prospectus for such offer. Neither we nor the underwriters have authorized, nor do they authorize, the making of any offer of shares through any financial intermediary, other than offers made by the underwriters which constitute the final offering of shares contemplated in this prospectus.

For the purposes of this provision, and the buyer's representation below, the expression an offer to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any shares to be offered so as to enable an investor to decide to purchase any shares, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive

2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Table of Contents

Each person in a Relevant Member State who receives any communication in respect of, or who acquires any shares under, the offers contemplated in this prospectus will be deemed to have represented, warranted and agreed to and with us and each underwriter that:

(a) it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive; and

(b) in the case of any shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, (i) the shares acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than qualified investors as defined in the Prospectus Directive, or in circumstances in which the prior consent of the representatives has been given to the offer or resale; or (ii) where shares have been acquired by it on behalf of persons in any Relevant Member State other than qualified investors, the offer of those shares to it is not treated under the Prospectus Directive as having been made to such persons.

Notice to Prospective Investors in Switzerland

This document, as well as any other material relating to the shares which are the subject of the offering contemplated by this prospectus, do not constitute an issue prospectus pursuant to Article 652a of the Swiss Code of Obligations. The shares will not be listed on the SWX Swiss Exchange and, therefore, the documents relating to the shares, including, but not limited to, this document, do not claim to comply with the disclosure standards of the listing rules of SWX Swiss Exchange and corresponding prospectus schemes annexed to the listing rules of the SWX Swiss Exchange. The shares are being offered in Switzerland by way of a private placement, i.e. to a small number of selected investors only, without any public offer and only to investors who do not purchase the shares with the intention to distribute them to the public. The investors will be individually approached by us from time to time. This document, as well as any other material relating to the shares, is personal and confidential and do not constitute an offer to any other person. This document may only be used by those investors to whom it has been handed out in connection with the offering described herein and may neither directly nor indirectly be distributed or made available to other persons without our express consent. It may not be used in connection with any other offer and shall in particular not be copied and/or distributed to the public in (or from) Switzerland.

Notice to Prospective Investors in the Dubai International Financial Centre

This document relates to an exempt offer in accordance with the Offered Securities Rules of the Dubai Financial Services Authority. This document is intended for distribution only to persons of a type specified in those rules. It must not be delivered to, or relied on by, any other person. The Dubai Financial Services Authority has no responsibility for reviewing or verifying any documents in connection with exempt offers. The Dubai Financial Services Authority has not approved this document nor taken steps to verify the information set out in it, and has no responsibility for it. The shares which are the subject of the offering contemplated by this prospectus may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the shares offered should conduct their own due diligence on the shares. If you do not understand the contents of this document you should consult an authorized financial adviser.

Table of Contents

LEGAL MATTERS

Certain legal matters relating to this offering will be passed upon for us by Skadden, Arps, Slate, Meagher & Flom LLP, New York, New York. In addition, the description of U.S. federal income tax consequences contained in the section of the prospectus entitled "U.S. Federal Income Tax Considerations" is based on the opinion of Skadden, Arps, Slate, Meagher & Flom LLP. Certain matters of Maryland law will be passed upon for us by DLA Piper LLP (US), Baltimore, Maryland. Sidley Austin LLP, New York, New York, will act as counsel to the underwriters.

EXPERTS

The balance sheet included in this prospectus has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report appearing herein. Such balance sheet is included in reliance upon the report of such firm given their authority as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a registration statement on Form S-11, including exhibits and schedules filed with the registration statement of which this prospectus is a part, under the Securities Act, with respect to the shares of common stock to be sold in this offering. This prospectus does not contain all of the information set forth in the registration statement and exhibits and schedules to the registration statement. For further information with respect to us and the shares of common stock to be sold in this offering, reference is made to the registration statement, including the exhibits and schedules to the registration statement. Copies of the registration statement, including the exhibits and schedules to the registration statement, may be examined without charge at the public reference room of the Securities and Exchange Commission, 100 F Street, N.E., Room 1580, Washington, D.C. 20549. Information about the operation of the public reference room may be obtained by calling the Securities and Exchange Commission at 1-800-SEC-0300. Copies of all or a portion of the registration statement may be obtained from the public reference room of the Securities and Exchange Commission upon payment of prescribed fees. Our Securities and Exchange Commission filings, including our registration statement, are also available to you, free of charge, on the SEC's website at www.sec.gov.

As a result of this offering, we will become subject to the information and reporting requirements of the Exchange Act and will file periodic reports, proxy statements and will make available to our stockholders annual reports containing audited financial information for each year and quarterly reports for the first three quarters of each fiscal year containing unaudited interim financial information.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of
Starwood Property Trust, Inc.
Greenwich, Connecticut

We have audited the accompanying balance sheet of Starwood Property Trust, Inc. (the Company) as of June 1, 2009. This balance sheet is the responsibility of the Company's management. Our responsibility is to express an opinion on this balance sheet based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the balance sheet, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall balance sheet presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such balance sheet presents fairly, in all material respects, the financial position of Starwood Property Trust, Inc. as of June 1, 2009, in conformity with accounting principles generally accepted in the United States of America.

Table of Contents

STARWOOD PROPERTY TRUST, INC.

NOTES TO BALANCE SHEET

June 1, 2009

1. Organization

Starwood Property Trust, Inc. (the Company) was organized in the state of Maryland on May 26, 2009. Under the Company's charter, the Company is authorized to issue up to 100,000,000 shares of common stock. The Company has not commenced operations.

2. Formation of the Company and Initial Public Offering

The Company intends to conduct an initial public offering of common stock (the IPO), which is anticipated to be finalized in 2009. Proceeds from the IPO will be used to invest in certain of the Company's target assets including commercial mortgage loans and other commercial real estate-related debt investments and commercial mortgage-backed securities. In the future, the Company may also invest in residential mortgage-backed securities and non-conforming residential mortgage loans.

The Company will be subject to the risks involved with real estate and real estate-related debt instruments. These include, among others, the risks normally associated with changes in the general economic climate, changes in the mortgage market, changes in tax laws, interest rate levels, and the availability of financing. The Company intends to qualify as a real estate investment trust (a REIT) under the Internal Revenue Code commencing with its taxable period ending on December 31, 2009. In order to maintain its tax status as a REIT, the Company plans to distribute at least 90% of its taxable income to its stockholders.

The sole stockholder of the Company is SPT Investment, LLC, a Delaware limited liability company. The sole member of SPT Investment, LLC is Starwood Capital Group Global, L.P. Barry S. Sternlicht, the Company's president and chief executive officer and the chairman of the Company's board of directors, is the controlling partner of Starwood Capital Group Global, L.P. On May 29, 2009, SPT Investment, LLC made a \$1,000 initial capital contribution to the Company.

The Company will be managed by SPT Management, LLC, a Delaware limited liability company which is controlled by Mr. Sternlicht.

3. Significant Accounting Policies

Use of Estimates

The preparation of the balance sheet in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet. Actual results could differ from those estimates.

Underwriting Commissions and Offering Costs

Underwriting commissions and offering costs to be incurred in connection with the Company's stock offerings will be reflected as a reduction of additional paid-in-capital. Costs incurred that are not directly associated with the completion of the IPO will be expensed as incurred.

As of June 1, 2009, an affiliate of SPT Management, LLC has incurred approximately \$0.3 million of costs related to this offering. Upon successful completion of the IPO, the Company will reimburse SPT Management, LLC for these amounts from the proceeds of the offering. Costs incurred that are not directly associated with the completion of this offering, such as organizational costs, will be expensed as incurred.

NYSE listing fee	*
Legal fees and expenses (including Blue Sky fees)	*
Accounting fees and expenses	*
Printing and engraving expenses	*
Transfer agent fees and expenses	*
Miscellaneous	*
 Total	 \$ *

* To be filed by amendment.

Item 32. *Sales to Special Parties.*

None.

Item 33. *Recent Sales of Unregistered Securities.*

On May 29, 2009, SPT Investment, LLC purchased 100 shares of our common stock for a purchase price of \$1,000 in a private offering. Such issuance was exempt from the registration requirements of the Securities Act pursuant to Section 4(2) thereof.

Simultaneously with the completion of the offering of our common stock pursuant to this registration statement, we will issue _____ shares of common stock to SPT Investment, LLC for an aggregate purchase price of \$ _____. Such issuance will be exempt from the requirements of the Securities Act pursuant to Section 4(2) thereof.

Item 34. *Indemnification of Directors and Officers.*

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from (1) actual receipt of an improper benefit or profit in money, property or services or (2) active and deliberate dishonesty established by a final judgment as being material to the cause of action. Our charter contains such a provision that eliminates such liability to the maximum extent permitted by Maryland law.

The MGCL requires us (unless our charter provides otherwise, which our charter does not) to indemnify a director or officer who has been successful, on the merits or otherwise, in the defense of any proceeding to which he is made or threatened to be made a party by reason of his service in that capacity. The MGCL permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made or threatened to be made a party by reason of their service in those or other capacities unless it is established that:

the act or omission of the director or officer was material to the matter giving rise to the proceeding and (1) was committed in bad faith or (2) was the result of active and deliberate dishonesty;

the director or officer actually received an improper personal benefit in money, property or services; or

II-1

Table of Contents

in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful.

However, under the MGCL, a Maryland corporation may not indemnify a director or officer in a suit by or in the right of the corporation in which the director or officer was adjudged liable on the basis that personal benefit was improperly received. A court may order indemnification if it determines that the director or officer is fairly and reasonably entitled to indemnification, even though the director or officer did not meet the prescribed standard of conduct or was adjudged liable on the basis that personal benefit was improperly received. However, indemnification for an adverse judgment in a suit by us or in our right, or for a judgment of liability on the basis that personal benefit was improperly received, is limited to expenses.

In addition, the MGCL permits a corporation to advance reasonable expenses to a director or officer upon the corporation's receipt of:

a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation; and

a written undertaking by the director or officer or on the director's or officer's behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the director or officer did not meet the standard of conduct.

Our charter authorizes us to obligate ourselves and our Bylaws obligate us, to the fullest extent permitted by Maryland law in effect from time to time, to indemnify and, without requiring a preliminary determination of the ultimate entitlement to indemnification, pay or reimburse reasonable expenses in advance of final disposition of a proceeding to:

any present or former director or officer who is made or threatened to be made a party to the proceeding by reason of his or her service in that capacity; or

any individual who, while a director or officer of our company and at our request, serves or has served another corporation, REIT, partnership, joint venture, trust, employee benefit plan or any other enterprise as a director, officer, partner or trustee of such corporation, REIT, partnership, joint venture, trust, employee benefit plan or other enterprise and who is made or threatened to be made a party to the proceeding by reason of his or her service in that capacity.

Our charter and Bylaws also permit us to indemnify and advance expenses to any person who served a predecessor of ours in any of the capacities described above and to any personnel or agent of our company or a predecessor of our company.

Following completion of this offering, we may enter into indemnification agreements with each of our directors and executive officers that would provide for indemnification to the maximum extent permitted by Maryland law.]

Insofar as the foregoing provisions permit indemnification of directors, officers or persons controlling us for liability arising under the Securities Act of 1933, as amended (or the Securities Act), we have been informed that, in the opinion of the Securities and Exchange Commission, or the SEC, this indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Item 35. *Treatment of Proceeds from Stock Being Registered.*

None of the proceeds will be credited to an account other than the appropriate capital share account.

Item 36. *Financial Statements and Exhibits.*

(a) *Financial Statements.* See page F-1 for an index to the financial statements included in the registration statement.

23.3	Consent of Deloitte & Touche LLP

* To be filed by amendment.

Item 37. *Undertakings.*

(a) The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreement, certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.

(b) Insofar as indemnification for liabilities arising under the Securities Act, may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(c) The undersigned registrant hereby further undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance under Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4), or 497(h) under the Securities Act shall be deemed to part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Table of Contents**SIGNATURES**

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-11 and has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the Town of Greenwich, State of Connecticut, on July 7, 2009.

Starwood Property Trust, Inc.

By: /s/ Barry S. Sternlicht

Barry S. Sternlicht
President and Chief Executive Officer

We, the undersigned officers and directors of Starwood Property Trust, Inc., hereby severally constitute and appoint Ellis F. Rinaldi and Barry S. Sternlicht, and each of them singly (with full power to each of them to act alone), our true and lawful attorneys-in-fact and agents, with full power of substitution and resubstitution in each of them for him and in his name, place and stead, and in any and all capacities, to sign any and all amendments (including post-effective amendments) to this Registration Statement, and any other registration statement for the same offering pursuant to Rule 462(b) under the Securities Act of 1933, and to file the same, with all exhibits thereto and other documents in connection therewith, with the Securities and Exchange Commission, granting unto said attorneys-in-fact and agents, and each of them, full power and authority to do and perform each and every act and thing requisite or necessary to be done in and about the premises, as full to all intents and purposes as he might or could do in person, hereby ratifying and confirming all that said attorneys-in-fact and agents or any of them, or their or his substitute or substitutes, may lawfully do or cause to be done by virtue hereof.

Pursuant to the requirements of the Securities Act of 1933, this Registration Statement has been signed below by the following persons in the capacities and on the date indicated.

Signatures	Title	Date
By: /s/ Barry S. Sternlicht Barry S. Sternlicht	Chairman of the Board of Directors, President and Chief Executive Officer (Principal Executive Officer)	July 7, 2009
