Table of Contents

Unless otherwise indicated, Delta Air Lines, Inc. and our wholly-owned subsidiaries are collectively referred to as Delta, we, us, and our. Prior to October 30, 2008, these references do not include Northwest Airlines Corporation and its wholly-owned subsidiaries, including Northwest Airlines, Inc.

FORWARD-LOOKING STATEMENTS

Statements in this Form 10-Q (or otherwise made by us or on our behalf) that are not historical facts, including statements about our estimates, expectations, beliefs, intentions, projections or strategies for the future, may be forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from historical experience or our present expectations. For examples of such risks and uncertainties, please see the cautionary statements contained in Item 1A. Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 (Form 10-K) and Part II, Item 1A. Risk Factors in the Form 10-Q. All forward-looking statements speak only as of the date made, and we undertake no obligation to publicly update or revise any forward-looking statements to reflect events or circumstances that may arise after the date of this report.

DELTA AIR LINES, INC.
Notes to the Condensed Consolidated Financial Statements
June 30, 2009
(Unaudited)

NOTE 1. BASIS OF PRESENTATION

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information. Consistent with these requirements, this Form 10-Q does not include all the information required by GAAP for complete financial statements. As a result, this Form 10-Q should be read in conjunction with the Consolidated Financial Statements and accompanying Notes in our Form 10-K.

On October 29, 2008 (the Closing Date), a wholly-owned subsidiary of Delta merged (the Merger) with and into Northwest Airlines Corporation. On the Closing Date, (1) Northwest Airlines Corporation and its wholly-owned subsidiaries, including Northwest Airlines, Inc. (collectively, Northwest), became wholly-owned subsidiaries of Delta and (2) each share of Northwest common stock outstanding on the Closing Date or issuable under Northwest s Plan of Reorganization (as defined in Note 9) was converted into the right to receive 1.25 shares of Delta common stock.

Our Condensed Consolidated Financial Statements include the accounts of Delta Air Lines, Inc. and our wholly-owned subsidiaries. As a result of the Merger, the accounts of Northwest are included for all periods subsequent to the Closing Date.

Management believes that the accompanying unaudited Condensed Consolidated Financial Statements reflect all adjustments, including adjustments required by purchase accounting, normal recurring items and restructuring and merger-related items, considered necessary for a fair statement of results for the interim periods presented.

Due to seasonal variations in the demand for air travel, the volatility of aircraft fuel prices, changes in global economic conditions and other factors, operating results for the three and six months ended June 30, 2009 are not necessarily indicative of operating results for the entire year.

We have reclassified certain prior period amounts in our Condensed Consolidated Financial Statements to be consistent with our current period presentation.

We have evaluated the financial statements for subsequent events through the date of the filing of this Form 10-Q.

New Accounting Standards

In March 2008, the Financial Accounting Standards Board (the FASB) issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment to FASB Statement No. 133 (SFAS 161). SFAS 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (1) how and why an entity uses derivative instruments, (2) how derivative instruments and related hedged items are accounted for under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133), and (3) how derivative instruments and related hedged items affect an entity s financial position, financial performance and cash flows. SFAS 161 is effective for fiscal years and interim periods. We adopted SFAS 161 on January 1, 2009.

In April 2009, the FASB issued FASB Staff Position (FSP) 107-1 and Accounting Principles Board (APB) Opinion No. 28-1, Interim Disclosures about Fair Value of Financial Instruments (FSP 107-1 and APB 28-1). FSP 107-1 and APB 28-1 amend FASB Statement No. 107, Disclosures about Fair Values of Financial Instruments, to require disclosures about the fair value of financial instruments in interim financial statements as well as in annual financial statements. It also amends APB Opinion No. 28, Interim Financial Reporting, to require those disclosures in all interim financial statements. We adopted FSP 107-1 and APB 28-1 effective April 1, 2009.

Table of Contents**NOTE 2. FAIR VALUE MEASUREMENTS**

SFAS No. 157, Fair Value Measurements (SFAS 157), defines fair value, establishes a consistent framework for measuring fair value and expands disclosure for each major asset and liability category measured at fair value on either a recurring or nonrecurring basis. SFAS 157 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Accordingly, fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, SFAS 157 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1. Observable inputs such as quoted prices in active markets;

Level 2. Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

(in millions)	June 30, 2009	Quoted Prices in Active Markets (Level 1)	Significant	
			Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash equivalents	\$4,583	\$ 4,583	\$	\$
Short-term investments	91			91
Restricted cash equivalents	338	338		
Long-term investments	128			128
Hedge derivatives asset, net	196		79	117

We record our cash equivalents and short-term investments at estimated fair value. The estimated fair values of other financial instruments, including derivative instruments, have been determined using available market information and valuation methodologies, primarily discounted cash flow analyses and an option-pricing model.

Valuation techniques for assets and liabilities in the Level 3 fair value hierarchy are based on the income approach using (1) a discounted cash flow model for investments and (2) an option-pricing model for fuel hedge option contracts. In addition, interest rate cash flow hedges are valued using a market and income approach using a discounted cash flow model.

Assets and Liabilities Measured at Fair Value on a Recurring Basis Using Significant Unobservable Inputs (Level 3)

(in millions)	Hedge Derivatives Asset, Net
Balance at December 31, 2008	\$ (1,091)
Change in fair value included in earnings	(920)
Change in fair value included in other comprehensive income	929
Purchases and settlements, net	1,199
Balance at June 30, 2009	\$ 117

(Losses) gains included in earnings above for the six months ended June 30, 2009 are recorded on our Consolidated Statement of Operations as follows:

(in millions)	Fuel Expense and Related Taxes	Other (Expense) Income
Total (losses) gains included in earnings	\$ (940)	\$ 20
Change in unrealized gains relating to assets and liabilities still held at June 30, 2009	\$	\$ 17

Table of Contents***Fair Value of Debt***

Market risk associated with our fixed and variable rate long-term debt relates to the potential reduction in fair value and negative impact to future earnings, respectively, from an increase in interest rates. The following table presents information about our debt at June 30, 2009 and December 31, 2008:

(in millions)	June 30, 2009	December 31, 2008
Carrying amount	\$ 16,078	\$ 16,006
Fair value ⁽¹⁾	\$ 14,953	\$ 12,695

(1) The aggregate fair value of debt was based primarily on reported market values and recently completed market transactions.

NOTE 3. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS***Aircraft Fuel Price Risk***

Our results of operations are materially impacted by changes in aircraft fuel prices, interest rates and foreign currency exchange rates. In an effort to manage our exposure to these risks, we periodically enter into various derivative instruments, including fuel, interest rate and foreign currency hedges. In accordance with SFAS 133, we are required to recognize all derivative instruments as either assets or liabilities at fair value on our Consolidated Balance Sheets and to recognize certain changes in the fair value of derivative instruments on our Consolidated Statements of Operations.

We perform, at least quarterly, both a prospective and retrospective assessment of the effectiveness of our hedge contracts, including assessing the possibility of counterparty default. If we determine that a derivative is no longer expected to be highly effective, we discontinue hedge accounting prospectively and recognize subsequent changes in the fair value of the hedge in earnings. As a result of our effectiveness assessment at June 30, 2009, we believe our hedge contracts will continue to be highly effective in offsetting changes in cash flow or fair value attributable to the hedged risk.

Cash flow hedges

For derivative instruments that are designated and qualify as cash flow hedges under SFAS 133, the effective portion of the gain or loss on the derivative is reported as a component of accumulated other comprehensive income and reclassified into earnings in the same period during which the hedged transaction affects earnings. The effective portion of the derivative represents the change in fair value of the hedge that offsets the change in fair value of the hedged item. To the extent the change in the fair value of the hedge does not perfectly offset the change in the fair value of the hedged item, the ineffective portion of the hedge is immediately recognized in other (expense) income on our Consolidated Statements of Operations. The following table summarizes the accounting treatment and classification of our cash flow hedges on our Condensed Consolidated Financial Statements:

Impact of Unrealized Gains and Losses	Consolidated	Consolidated
--	---------------------	---------------------

Derivative Instrument⁽¹⁾	Hedged Risk	Balance Sheets Effective Portion	Income Statements Ineffective Portion
Designated under SFAS 133:			
Fuel hedges consisting of crude oil, heating oil, and jet fuel swaps, collars and call options ⁽²⁾	Volatility in jet fuel prices	Effective portion of hedge is recorded in accumulated other comprehensive income	Excess, if any, over effective portion of hedge is recorded in other (expense) income
Interest rate swaps and call options	Changes in interest rates	Entire hedge is recorded in accumulated other comprehensive income	Expect hedge to fully offset hedged risk; no ineffectiveness recorded
Foreign currency forwards and collars	Fluctuations in foreign currency exchange rates	Entire hedge is recorded in accumulated other comprehensive income	Expect hedge to fully offset hedged risk; no ineffectiveness recorded

Not qualifying or not designated under SFAS 133:

Fuel hedges consisting of crude oil, heating oil and jet fuel extendable swaps and three-way collars	Volatility in jet fuel prices	Entire amount of change in fair value of hedge is recorded in aircraft fuel expense and related taxes	
--	-------------------------------	---	--

(1) In the Merger, we assumed Northwest's outstanding hedge contracts, which include fuel, interest rate and foreign currency cash flow hedges. On the Closing Date, we designated certain of these contracts as hedges in accordance with SFAS 133. The remaining Northwest

derivative contracts that were not designated under SFAS 133 did not qualify for hedge accounting. All contracts assumed in the Merger that did not qualify for hedge accounting settled as of June 30, 2009.

- (2) Ineffectiveness on our fuel hedge option contracts is calculated using a perfectly effective hypothetical derivative, which acts as a proxy for the fair value of the change in expected cash flows from the purchase of aircraft fuel.

Table of Contents*Fair value hedges*

For derivative instruments that are designated and qualify as a fair value hedge under SFAS 133, the gain or loss on the derivative and the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in current earnings. We include the gain or loss on the hedged item in the same account as the offsetting loss or gain on the related derivative instrument, resulting in no impact to our Consolidated Statements of Operations. The following table summarizes the accounting treatment and classification of our fair value hedges on our Condensed Consolidated Financial Statements:

Derivative Instrument	Hedged Risk	Impact of Unrealized Gains and Losses	
		Consolidated Balance Sheets Effective Portion	Consolidated Income Statements Ineffective Portion
Designated under SFAS 133:			
Interest rate swaps	Changes in interest rates	Entire fair value of hedge is recorded in long-term debt and capital leases	Expect hedge to be perfectly effective at offsetting changes in fair value of the related debt; no ineffectiveness recorded

During the June 2009 quarter, we terminated our interest rate swaps designated as fair value hedges, resulting in \$65 million in cash proceeds from counterparties. As a result of the termination, we have a deferred \$44 million gain, which will be amortized over the remaining life of the debt using an effective-interest method and recorded to interest expense.

Hedge Position

The following tables reflect the estimated fair value gain (loss) position of our hedge contracts at June 30, 2009 and December 31, 2008:

(in millions, unless otherwise stated)	June 30, 2009							
	Notional Balance	Maturity Date	Prepaid Expenses and Other Assets	Other Noncurrent Assets	Accounts Payable	Hedge Derivatives Liability	Other Noncurrent Liabilities	Hedge Margin Payable ⁽²⁾
Fuel hedge swaps, collars and call options	1.2 billion gallons - crude oil, heating oil, jet fuel	July 2009 - December 2010	\$ 243	\$ 8	\$ (89)	\$ (89)	\$	
			\$ 1,700			(36)	(14)	

Interest rate swaps and caps designated as cash flow hedges ⁽¹⁾	December 2009 - May 2019						
	79.8 billion Japanese Yen, 61.0 million	July 2009 - April 2012					
Foreign currency exchange caps and collars	Canadian Dollars		4	5	(11)	(5)	
Total designated under SFAS 133			247	14	(89)	(136)	(19)
Not designated under SFAS 133							
Fuel hedge swaps and collars ⁽¹⁾					(17)	(14)	
Total not designated under SFAS 133					(17)	(14)	
Total derivative instruments			\$ 247	\$ 14	\$ (106)	\$ (150)	\$ (19) \$ (11)

(1) Represents derivative contracts assumed from Northwest in the Merger.

(2) Amounts are recorded in accounts payable on our Consolidated Balance Sheet.

Table of Contents

(in millions, unless otherwise stated)	Notional Balance	Maturity Date	December 31, 2008				Hedge Liability	Other Liabilities	Hedge Margin Receivable
			Prepaid Expenses and Other Assets	Other Noncurrent Assets	Account Payable	Derivatives Liability			
Designated under SFAS 133									
Fuel hedge swaps, collars and call options ⁽¹⁾	1.9 billion gallons - crude oil, heating oil, jet fuel	January 2009 - December 2010	\$ 8	\$ 18	\$ (66)	\$ (849)	\$		
Interest rate swaps designated as fair value hedges ⁽²⁾	\$ 1,000	September 2011 - July 2012	91						
Interest rate swaps and call options designated as cash flow hedges ⁽³⁾	\$ 1,700	December 2009 - May 2019				(32)	(63)		
Foreign currency exchange forwards and collars ⁽³⁾	45.0 billion Japanese Yen	January - December 2009				(48)			
Total designated under SFAS 133			99	18	(66)	(929)	(63)		
Not designated under SFAS 133									
Fuel hedge swaps and collars ⁽³⁾	180 million gallons - crude oil, heating oil, jet fuel	January - June 2009			(119)	(318)			
Total not designated under SFAS 133					(119)	(318)			
Total derivative instruments			\$ 99	\$ 18	\$ (185)	\$ (1,247)	\$ (63)	\$ 1,139	

- (1) Includes \$163 million in hedges assumed from Northwest in the Merger.
- (2) Includes \$17 million in accrued interest receivable related to these interest rate swaps. In accordance with fair value hedge accounting, the carrying value of our long-term debt at December 31, 2008 included \$74 million of fair value adjustments.
- (3) Represents derivative contracts assumed from Northwest in the Merger.

As of June 30, 2009, our open fuel hedge gain position, excluding contracts we terminated early, for the six months ending December 31, 2009 and the year ending December 31, 2010 is as follows:

(in millions, unless otherwise stated)	Percentage of Projected Fuel Requirements Hedged	Contract Fair Value at June 30, 2009
Six months ending December 31, 2009	45%	\$ 140
2010	9	110
Total	21%	\$ 250

Table of Contents**Hedge Gains (Losses)**

Gains (losses) recorded on our Condensed Consolidated Financial Statements for the three months ended June 30, 2009 and 2008 related to our hedge contracts designated under SFAS 133 are as follows:

(in millions)	Effective Portion Recognized in Other Comprehensive Loss Three Months Ended June 30,		Effective Portion Reclassified from Accumulated Other Comprehensive Loss to Earnings Three Months Ended June 30,		Ineffective Portion Recognized in Other (Expense) Income Three Months Ended June 30,	
	2009	2008	2009	2008	2009	2008
Designated under SFAS 133						
Fuel hedge swaps, collars and call options ⁽¹⁾	\$ 668	\$ 804	\$ (398)	\$ 313	\$ 46	\$ 31
Interest rate swaps and call options designated as cash flow hedges ⁽²⁾	35		(1)			
Foreign currency exchange forwards and collars ⁽³⁾	(19)		(2)			
Total designated under SFAS 133	\$ 684	\$ 804	\$ (401)	\$ 313	\$ 46	\$ 31

(1) Gains and losses on fuel hedge contracts reclassified from accumulated other comprehensive loss are recorded in aircraft fuel and related taxes.

(2) Losses on interest rate swaps and call options reclassified from accumulated other

comprehensive
loss are
recorded in
interest expense.

- (3) Losses on

We recorded a gain of \$8 million and a loss of \$15 million to aircraft fuel and related taxes on our Consolidated Statements of Operations for the three and six months ended June 30, 2009 related to Northwest derivative contracts that were not designated as hedges under SFAS 133. As of June 30, 2009, we recorded in accumulated other comprehensive loss on our Consolidated Balance Sheet \$216 million of net losses on our hedge contracts scheduled to settle in the next 12 months.

Table of Contents***Credit Risk***

To manage credit risk associated with our aircraft fuel price and interest rate hedging programs, we select counterparties based on their credit ratings and limit our exposure to any one counterparty. We also monitor the market position of these programs and our relative market position with each counterparty.

In accordance with our hedge agreements, (1) we may require counterparties to fund the margin associated with our gain position on hedge contracts and (2) counterparties may require us to fund the margin associated with our loss position on these contracts. The amount of the margin, if any, is periodically adjusted based on the fair value of the hedge contracts. The margin requirements are intended to mitigate a party's exposure to market volatility and the associated contracting party risk. We do not offset margin funded to counterparties or margin funded to us by counterparties against fair value amounts recorded for our hedge contracts.

The hedge margin we receive from counterparties is recorded, as appropriate, in cash and cash equivalents or restricted cash, with the offsetting obligation in accounts payable on our Consolidated Balance Sheets. The margin we provide to counterparties is recorded in hedge margin receivable or restricted cash on our Consolidated Balance Sheets. All cash flows associated with purchasing and settling fuel hedge contracts are classified as operating cash flows on our Condensed Consolidated Statements of Cash Flows.

In accordance with our interest rate swap and call option agreements, which qualify as cash flow hedges, the respective counterparties are not required to fund margin to us and we are not required to fund margin to them.

Our accounts receivable are generated largely from the sale of passenger airline tickets and cargo transportation services. The majority of these sales are processed through major credit card companies, resulting in accounts receivable that may be subject to certain holdbacks by the credit card processors.

We also have receivables from the sale of mileage credits under our SkyMiles and WorldPerks Programs to participating airlines and non-airline businesses such as credit card companies, hotels and car rental agencies. We believe the credit risk associated with these receivables is minimal and that the allowance for uncollectible accounts that we have provided is appropriate.

NOTE 4. DEBT***Northwest Credit Facilities***

Northwest is a party to a \$904 million senior corporate credit facility (the Bank Credit Facility) and a \$500 million revolving credit facility (the \$500 Million Revolving Credit Facility). The Bank Credit Facility was fully drawn at June 30, 2009 and December 31, 2008. Northwest did not have any outstanding borrowings under the \$500 Million Revolving Credit Facility at June 30, 2009 or December 31, 2008.

The final maturity date for borrowings under the Bank Credit Facility and the \$500 Million Revolving Credit Facility is the earlier of (1) the date that Northwest Airlines, Inc. is no longer a separate legal entity, including when it is merged with and into Delta Air Lines, Inc.; or (2) December 31, 2010 for the Bank Credit Facility, and October 29, 2009 and October 29, 2011 for the \$300 million and \$200 million tranches, respectively, under the \$500 Million Revolving Credit Facility.

To integrate the operations of Delta and Northwest Airlines, Inc., we must obtain a single operating certificate for the two airlines from the Federal Aviation Administration. When Northwest Airlines, Inc. is no longer a certificated carrier, key assets of the two companies would be combined into a single entity by merging Northwest Airlines, Inc. with and into Delta Air Lines, Inc. Because this merger could occur within the next 12 months, we classified borrowings under the Bank Credit Facility as short-term on our Consolidated Balance Sheet at June 30, 2009. In March 2009, we shortened the amortization period from December 2010 to March 2010 of the fair value adjustment (debt discount) recorded during purchase accounting on this debt.

Covenants

We were in compliance with all covenants in our financing agreements at June 30, 2009.

Table of Contents**NOTE 5. PURCHASE COMMITMENTS AND CONTINGENCIES*****Aircraft Order Commitments***

Future commitments for aircraft on firm order as of June 30, 2009 are estimated to be approximately \$1.8 billion. The following table shows the timing of these commitments:

Year Ending December 31, (in millions)	Amount
Six months ending December 31, 2009	\$ 460
2010	1,010
2011	10
2012	100
2013	70
After 2013	110
Total	\$1,760

Our aircraft order commitments as of June 30, 2009 consist of firm orders to purchase two B-777-200LR aircraft, three B-737-700 aircraft, 29 B-737-800 aircraft, two A320-200 aircraft, five A319-100 aircraft and two MD-90 aircraft.

We have excluded from the table above our order for 18 B-787-8 aircraft. The Boeing Company (Boeing) has informed us that Boeing will be unable to meet the contractual delivery schedule for these aircraft. We are in discussions with Boeing regarding this situation.

Our firm orders to purchase 29 B-737-800 aircraft include 27 B-737-800 aircraft for which we have entered into definitive agreements to sell to third parties immediately following delivery of these aircraft to us by the manufacturer. We have not received any notice that these parties have defaulted on their purchase obligations. These sales will reduce our future commitments by approximately \$1.1 billion, including \$290 million for the six months ending December 31, 2009 and \$760 million for 2010.

We have financing commitments from third parties, cancellation rights or, with respect to the 27 B-737-800 aircraft referred to above, definitive agreements to sell, all aircraft on firm order as of June 30, 2009. Under these financing commitments, third parties have agreed to finance, on a long-term basis, a substantial portion of the purchase price of the covered aircraft.

Contract Carrier Agreements

During the six months ended June 30, 2009, we had Contract Carrier agreements with ten Contract Carriers, including our wholly-owned subsidiaries Comair, Inc., Compass Airlines, Inc., and Mesaba Aviation, Inc. For additional information about our Contract Carrier agreements, see Note 8 of the Notes to the Consolidated Financial Statements in our Form 10-K.

Contingencies Related to Termination of Contract Carrier Agreements

We may terminate the Chautauqua Airlines, Inc. (Chautauqua) and Shuttle America Corporation (Shuttle America) agreements without cause at any time after May 2010 and January 2016, respectively, by providing certain advance notice. If we terminate either the Chautauqua or Shuttle America agreements without cause, Chautauqua or Shuttle America, respectively, has the right to (1) assign to us leased aircraft that the airline operates for us, provided we are able to continue the leases on the same terms the airline had prior to the assignment and (2) require us to purchase or lease any of the aircraft that the airline owns and operates for us at the time of the termination. If we are required to purchase aircraft owned by Chautauqua or Shuttle America, the purchase price would be equal to the amount necessary to (1) reimburse Chautauqua or Shuttle America for the equity it provided to purchase the aircraft and (2) repay in full any debt outstanding at such time that is not being assumed in connection with such purchase. If we are required to lease aircraft owned by Chautauqua or Shuttle America, the lease would have (1) a rate equal to the debt payments of Chautauqua or Shuttle America for the debt financing of the aircraft calculated as if 90% of the

aircraft was debt financed by Chautauqua or Shuttle America and (2) other specified terms and conditions.

We estimate that the total fair values, determined as of June 30, 2009, of the aircraft that Chautauqua or Shuttle America could assign to us or require that we purchase if we terminate without cause our Contract Carrier agreements with those airlines (the Put Right) are approximately \$251 million and \$473 million, respectively. The actual amount that we may be required to pay in these circumstances may be materially different from these estimates. If the Chautauqua or Shuttle America Put Right is exercised, we must also pay to the exercising carrier 10% interest (compounded monthly) on the equity the carrier provided when it purchased the put aircraft. These equity amounts for Chautauqua and Shuttle America total \$25 million and \$52 million, respectively.

Table of Contents

Legal Contingencies

We are involved in various legal proceedings relating to employment practices, environmental issues, bankruptcy matters, antitrust matters and other matters concerning our business. We cannot reasonably estimate the potential loss for certain legal proceedings because, for example, the litigation is in its early stages or the plaintiff does not specify the damages being sought.

Cincinnati Airport Settlement

On April 24, 2007, the U.S. Bankruptcy Court for the Southern District of New York (the Bankruptcy Court) approved our settlement agreement (the Cincinnati Airport Settlement Agreement) with the Kenton County Airport Board (KCAB) and UMB Bank, N.A., the trustee (the Bond Trustee) for the Series 1992 Bonds (as defined below), to restructure certain of our lease and other obligations at the Cincinnati-Northern Kentucky International Airport (the Cincinnati Airport). The Series 1992 Bonds include: (1) the \$419 million Kenton County Airport Board Special Facilities Revenue Bonds, 1992 Series A (Delta Air Lines, Inc. Project), \$397 million of which were then outstanding; and (2) the \$19 million Kenton County Airport Board Special Facilities Revenue Bonds, 1992 Series B (Delta Air Lines, Inc. Project), \$16 million of which were then outstanding.

The Cincinnati Airport Settlement Agreement, among other things:

provides for agreements under which we will continue to use certain facilities at the Cincinnati Airport at substantially reduced costs;

settles all disputes among us, the KCAB, the Bond Trustee and the former, present and future holders of the Series 1992 Bonds (the 1992 Bondholders);

gives the Bond Trustee, on behalf of the 1992 Bondholders, a \$260 million allowed general, unsecured claim in our bankruptcy proceedings; and

provides for our issuance of \$66 million principal amount of senior unsecured notes to the Bond Trustee on behalf of the 1992 Bondholders.

On May 3, 2007, the parties to the Cincinnati Airport Settlement Agreement implemented that agreement in accordance with its terms. A small group of bondholders (the Objecting Bondholders) challenged the settlement in the U.S. District Court for the Southern District of New York (the District Court). In August 2007, the District Court affirmed the Bankruptcy Court 's order approving the settlement. The Objecting Bondholders appealed to the U.S. Court of Appeals for the Second Circuit, which in February 2009 upheld the District Court 's decision and subsequently denied the Objecting Bondholders ' petition for a rehearing en banc. The Objecting Bondholders have filed a petition for a writ of certiorari with the U.S. Supreme Court.

Credit Card Processing Agreements

Visa/MasterCard Processing Agreement

In August 2008, we entered into an amendment to our Visa/MasterCard credit card processing agreement (the Amended Processing Agreement) that, among other things, extended the term of the agreement to December 31, 2011. The Amended Processing Agreement provides that no cash reserve (Reserve) is required except in certain circumstances, including in which we do not maintain a required level of unrestricted cash.

In those circumstances where the processor can establish a Reserve, the amount of the Reserve would be equal to the potential liability of the credit card processor for tickets purchased with Visa or MasterCard that had not yet been used for travel. There was no Reserve as of June 30, 2009 or December 31, 2008.

American Express

In December 2008, we amended our American Express credit card processing agreement (the Amended Card Service Agreement). The Amended Card Service Agreement provides that no withholding of our receivables will occur except in certain circumstances, including in which we do not maintain a required level of unrestricted cash. In those circumstances where American Express is permitted to withhold our receivables, the amount that can be withheld is an amount up to American Express ' potential liability for tickets purchased with the American Express credit card that had not yet been used for travel. No amounts were withheld as of June 30, 2009 or December 31,

2008.

Table of Contents***Other Contingencies******General Indemnifications***

We are the lessee under many commercial real estate leases. It is common in these transactions for us, as the lessee, to agree to indemnify the lessor and the lessor's related parties for tort, environmental and other liabilities that arise out of or relate to our use or occupancy of the leased premises. This type of indemnity would typically make us responsible to indemnified parties for liabilities arising out of the conduct of, among others, contractors, licensees and invitees at, or in connection with, the use or occupancy of the leased premises. This indemnity often extends to related liabilities arising from the negligence of the indemnified parties, but usually excludes any liabilities caused by either their sole or gross negligence and their willful misconduct.

Our aircraft and other equipment lease and financing agreements typically contain provisions requiring us, as the lessee or obligor, to indemnify the other parties to those agreements, including certain of those parties' related persons, against virtually any liabilities that might arise from the condition, use or operation of the aircraft or such other equipment.

We believe that our insurance would cover most of our exposure to such liabilities and related indemnities associated with the types of lease and financing agreements described above, including real estate leases. However, our insurance does not typically cover environmental liabilities, although we have certain policies in place to meet the requirements of applicable environmental laws.

Certain of our aircraft and other financing transactions include provisions, which require us to make payments to preserve an expected economic return to the lenders if that economic return is diminished due to certain changes in law or regulations. In certain of these financing transactions, we also bear the risk of certain changes in tax laws that would subject payments to non-U.S. lenders to withholding taxes.

We cannot reasonably estimate our potential future payments under the indemnities and related provisions described above because we cannot predict (1) when and under what circumstances these provisions may be triggered and (2) the amount that would be payable if the provisions were triggered because the amounts would be based on facts and circumstances existing at such time.

Employees Under Collective Bargaining Agreements

At June 30, 2009, we had 82,968 full-time equivalent employees. Approximately 40% of these employees, including all of our pilots, Northwest Airlines' airport employees and other categories of ground employees and Northwest Airlines' flight attendants, are represented by labor unions.

War-Risk Insurance Contingency

As a result of the terrorist attacks on September 11, 2001, aviation insurers significantly reduced the maximum amount of insurance coverage available to commercial air carriers for liability to persons (other than employees or passengers) for claims resulting from acts of terrorism, war or similar events. At the same time, aviation insurers significantly increased the premiums for such coverage and for aviation insurance in general. Since September 24, 2001, the U.S. government has been providing U.S. airlines with war-risk insurance to cover losses, including those resulting from terrorism, to passengers, third parties (ground damage) and the aircraft hull. The U.S. Secretary of Transportation has extended coverage through August 31, 2009 and we expect the coverage to be further extended. The withdrawal of government support of airline war-risk insurance would require us to obtain war-risk insurance coverage commercially, if available. Such commercial insurance could have substantially less desirable coverage than currently provided by the U.S. government, may not be adequate to protect our risk of loss from future acts of terrorism, may result in a material increase to our operating expense or may not be obtainable at all, resulting in an interruption to our operations.

Other

We have certain contracts for goods and services that require us to pay a penalty, acquire inventory specific to us or purchase contract specific equipment, as defined by each respective contract, if we terminate the contract without cause prior to its expiration date. Because these obligations are contingent on our termination of the contract without cause prior to its expiration date, no obligation would exist unless such a termination occurs.

Table of Contents**NOTE 6. EMPLOYEE BENEFIT PLANS***Net Periodic Benefit Cost*

Net periodic cost for the three months ended June 30, 2009 and 2008 includes the following components:

(in millions)	Pension Benefits		Other Postretirement Benefits		Other Postemployment Benefits	
	Three Months Ended		Three Months Ended		Three Months Ended	
	June 30,		June 30,		June 30,

15

Table of Contents**NOTE 8. RESTRUCTURING AND MERGER-RELATED ITEMS**

The following table shows charges recorded in restructuring and merger-related items on our Consolidated Statements of Operations for the three and six months ended June 30, 2009 and 2008:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Severance and related costs	\$	\$ 96	\$ 50	\$112
Facilities and other		6		6
Merger-related items	58	2	107	2
Total restructuring and merger-related items	\$58	\$104	\$157	\$120

Severance and related costs primarily relates to voluntary workforce reduction programs for U.S. non-pilot employees announced in March and December 2008 in which approximately 4,200 and 2,500 employees, respectively, elected to participate. During the six months ended June 30, 2009, we recorded a \$50 million charge associated with the December 2008 workforce reduction program, including \$6 million of special termination benefits related to retiree healthcare. We expect any additional charges to be incurred in connection with these programs will be immaterial. During the three and six months ended June 30, 2008, we recorded \$96 million and \$112 million, respectively, associated with the March 2008 workforce reduction programs.

Merger-related items relate to costs associated with integrating the operations of Northwest into Delta, including costs related to information technology, employee relocation and training, and re-branding of aircraft and stations.

The following table shows the balances for these restructuring charges as of June 30, 2009, and the activity for the six months then ended. The table also shows the balances for the restructuring charges assumed in the Merger as of June 30, 2009, and the activity for the six months then ended.

(in millions)	Liability				Liability
	Balance at December 31, 2008	Additional Costs and Expenses	Purchase Accounting Adjustments	Payments	Balance at June 30, 2009
Severance and related cost ⁽¹⁾	\$ 50	\$ 44	\$	\$(49)	\$ 45
Facilities and other ⁽¹⁾	54		(2)	(1)	51
Total	\$ 104	\$ 44	\$ (2)	\$(50)	\$ 96

⁽¹⁾ The liability balance at December 31, 2008 includes liabilities assumed in the Merger of \$47 million in severance and

related costs and
\$32 million in
restructuring of
facility leases
and other
charges.

We acquired a B-747-200F dedicated cargo freighter fleet in our Merger with Northwest and recorded the fair value of the fleet at the Closing Date. We decided to ground the entire fleet by December 31, 2009 due to its age and inefficiency. As a result, we reviewed the fleet and related spare engines for impairment during the six months ended June 30, 2009 and concluded that no impairment existed.

NOTE 9. BANKRUPTCY CLAIMS RESOLUTION

In September 2005, we and substantially all of our subsidiaries (the Delta Debtors) filed voluntary petitions for reorganization under Chapter 11 of the U.S. Bankruptcy Code (the Bankruptcy Code). On April 30, 2007, the Delta Debtors emerged from bankruptcy. Under the Delta Debtors Joint Plan of Reorganization (Delta s Plan of Reorganization), most holders of allowed general, unsecured claims against the Delta Debtors received or will receive Delta common stock in satisfaction of their claims. Delta s Plan of Reorganization contemplates the distribution of 400 million shares of common stock, consisting of 386 million shares to holders of allowed general, unsecured claims and 14 million shares to eligible non-contract, non-management employees. As of June 30, 2009, under Delta s Plan of Reorganization, we have (1) distributed 327 million shares of common stock to holders of \$13.7 billion of allowed general, unsecured claims, (2) issued 14 million shares of common stock to eligible non-contract, non-management employees and (3) reserved 59 million shares of common stock for future issuance to holders of allowed general, unsecured claims.

Table of Contents

In September 2005, Northwest and substantially all of its subsidiaries (the Northwest Debtors) filed voluntary petitions for reorganization under Chapter 11 of the Bankruptcy Code. On May 31, 2007, the Northwest Debtors emerged from bankruptcy. The Northwest Debtors' First Amended Joint and Consolidated Plan of Reorganization (Northwest's Plan of Reorganization) generally provides for the distribution of Northwest common stock to the Northwest Debtors' creditors, employees and others in satisfaction of allowed general, unsecured claims. Pursuant to the Merger Agreement, each outstanding share of Northwest common stock (including shares issuable pursuant to Northwest's Plan of Reorganization) was converted into the right to receive 1.25 shares of Delta common stock. As of June 30, 2009, seven million shares of Delta common stock were reserved for issuance in exchange for shares of Northwest common stock that, but for the Merger, would have been issued under Northwest's Plan of Reorganization.

The Delta Debtors and the Northwest Debtors will continue to settle claims and file objections with the bankruptcy courts regarding claims. In light of the substantial number and amount of claims filed, we expect the claims resolution process will take considerable time to complete. We believe there will be no further material impact to the Consolidated Statements of Operations from the settlement of claims because the holders of such claims will receive under Delta's and Northwest's Plan of Reorganization, as the case may be, only their pro rata share of the distributions of common stock contemplated by the applicable Plan of Reorganization.

NOTE 10. LOSS PER SHARE

We calculate basic loss per share by dividing the net loss attributable to common stockholders by the weighted average number of common shares outstanding. Shares issuable upon the satisfaction of certain conditions are considered outstanding and included in the computation of basic loss per share. Accordingly, the calculation of basic loss per share for the three and six months ended June 30, 2009 and 2008, respectively, assumes there was outstanding at the beginning of each of these periods all 386 million shares contemplated by Delta's Plan of Reorganization to be distributed to holders of allowed general, unsecured claims. Similarly, the calculation of basic loss per share for the three and six months ended June 30, 2009 also assumes there was outstanding at the beginning of each of these periods the following shares in connection with the Merger: (1) 50 million shares of Delta common stock we agreed to issue on behalf of Delta and Northwest pilots and (2) nine million shares of Delta common stock reserved for issuance in exchange for shares of Northwest common stock that, but for the Merger, would have been issued under Northwest's Plan of Reorganization.

The following table shows the reconciliation of actual shares issued and outstanding to those considered outstanding for purposes of the calculation of basic loss per share as of June 30, 2009:

(in millions)	Shares ⁽¹⁾
Common stock issued and outstanding	778
Less:	
Unvested restricted stock	(17)
Add:	
Shares reserved for future issuance under Delta's Plan of Reorganization	59
Shares reserved for future issuance relating to Northwest's Plan of Reorganization, after giving effect to the 1.25 exchange ratio	7
Shares issuable to Delta and Northwest pilots in connection with the Merger	1
Common stock considered outstanding for purposes of loss per share calculation	828

⁽¹⁾ These shares have not been weighted to reflect the period of time

they were
considered
outstanding.

The following table shows our computation of basic and diluted loss per share for the three and six months ended June 30, 2009 and 2008:

(in millions, except per share data)	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2008	2009	2008
Basic and diluted:				
Net loss	\$ (257)	\$(1,044)	\$(1,051)	\$(7,434)
Weighted average shares outstanding ⁽¹⁾	827	396	826	396
Basic and diluted loss per share	\$(0.31)	\$ (2.64)	\$ (1.27)	\$(18.79)

(1) For the three and six months ended June 30, 2009 and 2008, we excluded from our loss per share calculation all common stock equivalents because their effect was anti-dilutive. These common stock equivalents totaled 40 million shares and 10 million shares for the three months and six months ended June 30, 2009 and 2008, respectively.

Table of Contents**ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**
General Information

We provide scheduled air transportation for passengers and cargo throughout the United States (U.S.) and around the world. On October 29, 2008 (the Closing Date), we completed our merger (the Merger) with Northwest, creating the world's largest airline. The Merger better positions us to manage through economic cycles and volatile oil prices, invest in our fleet, improve services for customers and achieve our strategic objectives.

Our Consolidated Financial Statements are prepared in accordance with accounting principles generally accepted in the U.S. (GAAP). In accordance with GAAP, our financial results include the results of Northwest for periods after the Closing Date, but not for periods before the Closing Date. Accordingly, our financial results under GAAP for the three and six months ended June 30, 2009 include the results of Northwest. In contrast, our financial results under GAAP for the three and six months ended June 30, 2008, do not include the results of Northwest. This impacts the comparability of our financial results under GAAP for the three and six months ended June 30, 2009 and 2008.

In the accompanying June Quarter Financial Highlights 2009 Compared to 2008 Combined analysis of financial information, we sometimes use information that is derived from our Consolidated Financial Statements, but that is not presented in accordance with GAAP. Certain of this information is considered non-GAAP financial measures under the U.S. Securities and Exchange Commission rules. These non-GAAP financial measures include financial information for the three and six months ended June 30, 2008 presented on a combined basis, which means the financial results for Delta and Northwest are combined as if the Merger had occurred on January 1, 2008. See

Supplemental Information below for the reasons we use combined and other non-GAAP financial measures, as well as for a reconciliation to the corresponding financial measures under GAAP.

June Quarter Financial Highlights 2009 Compared to 2008 Combined

For the June 2009 quarter, we reported a net loss of \$257 million. These results reflect significant weakness in the airline revenue environment due to the global recession and the impact of the H1N1 virus. Our loss for the quarter also includes \$390 million in fuel hedge losses and \$58 million in merger-related items.

Total operating revenue declined \$2.1 billion, or 23%, in the June 2009 quarter on a 7% decrease in system capacity, compared with the June 2008 quarter on a combined basis. Passenger revenue accounted for \$2.0 billion of the decrease. Passenger revenue per available seat mile (PRASM) declined 20%, as a result of a 19% decrease in passenger mile yield. The decrease in passenger mile yield reflects significantly reduced demand, particularly in international markets, a reduction in business demand, and competitive pricing pressures.

Volatile fuel prices continue to represent a significant risk to our business and the airline industry as a whole. While our fuel cost per gallon during the June 2009 quarter declined 39% year-over-year contributing to \$1.6 billion in lower fuel expense, crude oil prices have risen 57% from December 31, 2008 to June 30, 2009. Fuel expense includes \$390 million in losses from our fuel hedging program, specifically from hedges purchased in 2008 during the period fuel prices reached record highs. We expect fuel hedge losses to be significantly less in the second half of 2009; although, we will recognize losses of \$256 million for the September 2009 quarter and \$87 million for the December 2009 quarter associated with contracts we terminated early and unamortized premiums on fuel hedge call option contracts.

We continue to focus on disciplined spending, productivity initiatives and accelerating merger synergies. Our consolidated operating cost per available seat mile (CASM) excluding special items (as defined in Supplemental Information below) and fuel expense increased 2% in the June 2009 quarter, compared to the June 2008 quarter on a combined basis, on 7% lower capacity. The increase is primarily due to an increase in pension expense from a decrease in value in pension trust assets as a result of declines in the financial markets.

At June 30, 2009, we had \$4.9 billion in cash, cash equivalents and short-term investments. In addition, we had \$500 million in an undrawn revolving credit facility. For the six month period ending June 30, 2009, we reported \$1.5 billion in operating cash flow.

Response to Global Economic Recession

In an effort to lessen the impact of the global recession, we continue to implement initiatives to reduce costs, increase revenues and preserve liquidity. As previously announced, we will reduce international capacity by 15%, compared to the prior year on a combined basis, beginning in September 2009 to align our capacity with declining

demand in the marketplace. At the same time, we remain committed to diversifying our international network and have added more than 20 new international markets this year.

Table of Contents

To reduce fleet costs, we plan to remove 30-40 Mainline passenger aircraft from the fleet during 2009. In addition, we will retire our entire fleet of B-747-200F freighter aircraft by the end of 2009 due to that fleet's age and inefficiency. Furthermore, we anticipate removing over 30 regional jets from our network over the next 18 months. We believe we have flexibility in our network and fleet to remove additional capacity if the environment warrants.

At June 30, 2009, our combined workforce was 10% lower year-over-year, reflecting reductions from normal attrition, as well as voluntary workforce reduction programs offered to align our workforce with reduced capacity.

Merger Synergies

As a result of the Merger, we targeted at least \$500 million in synergy benefits in 2009 and \$2 billion in total annual synergy benefits by 2012. Our ability to fully realize the targeted synergies is dependent on achievement of three main goals: (1) receipt of a single operating certificate from the Federal Aviation Administration, which we expect to achieve by the end of 2009, (2) a successful integration of technologies of the two airlines, which we expect to occur in the first half of 2010 and (3) resolution of labor representation issues. Two unions, the Association of Flight Attendants, which represents Northwest's flight attendants, and the International Association of Machinists and Aerospace Workers, which represents Northwest's airport employees and other categories of ground employees, have not announced when they will seek to resolve those issues.

Outlook

The ongoing global recession, the impact of the H1N1 virus and volatile fuel prices are placing significant pressure on the airline industry, including Delta. We are not planning for any meaningful recovery in the revenue environment in 2009. We expect our revenue decline in 2009 to exceed the benefits we expect to receive in that year from lower year-over-year fuel prices, capacity reductions and merger synergies. As a result, we now expect to record a net loss for the full year 2009.

Results of Operations June 2009 and 2008 Quarters**Operating Revenue**

(in millions)	Three Months Ended		Increase	Increase due	Increase (Decrease)
	2009	2008		to	Excluding
	June 30,			Northwest	Northwest
	2009	2008		Operations	Operations
Operating Revenue:					
Passenger:					
Mainline	\$ 4,564	\$ 3,627	\$ 937	\$ 1,802	\$ (865)
Regional carriers	1,339	1,143	196	462	(266)
Total passenger revenue	5,903	4,770	1,133	2,264	(1,131)
Cargo	173	160	13	84	(71)
Other, net	924	569	355	274	81
Total operating revenue	\$ 7,000	\$ 5,499	\$ 1,501	\$ 2,622	\$ (1,121)

Northwest Operations. As a result of the Merger, our results of operations for the June 2009 quarter include Northwest's operations. The addition of Northwest to our operations increased operating revenue \$2.6 billion and available seat miles (ASMs), or capacity, 59% for the June 2009 quarter. Northwest's operations are not included in our results of operations for the June 2008 quarter.

Table of Contents

(in millions)	Three Months Ended June 30, 2009	Increase (Decrease) vs. Three Months Ended June 30, 2008		
		Passenger Mile Yield	PRASM	Load Factor
Passenger Revenue:				
Domestic	\$ 2,723	(13)%	(13)%	0.7 pts
Atlantic	1,131	(27)%	(26)%	0.8 pts
Latin America	287	(17)%	(19)%	(2.7)pts
Pacific	423	(16)%	(15)%	0.8 pts
Total Mainline	4,564	(18)%	(18)%	0.1 pts
Regional carriers	1,339	(17)%	(19)%	(1.9)pts
Total passenger revenue	\$ 5,903	(19)%	(19)%	(0.2)pts

Mainline Passenger Revenue. Mainline passenger revenue increased in the June 2009 quarter due to the inclusion of Northwest's operations, partially offset by weakened demand for air travel from the global recession, the effects of the H1N1 virus and related capacity reductions. Passenger mile yield and PRASM both declined 18%.

Domestic Passenger Revenue. Domestic passenger revenue increased 53% due to the inclusion of Northwest's operations. Domestic PRASM decreased 13% as a result of a 13% decrease in passenger mile yield. The decrease in passenger mile yield reflects (1) a reduction in business demand due to the global recession, (2) an overall decrease in average fares due to competitive pricing pressures and (3) lower fuel surcharges due to the year-over-year decline in fuel prices. Excluding Northwest's operations, we reduced capacity by 8% for the June 2009 quarter compared to the June 2008 quarter, while load factor increased 1.0 point.

International Passenger Revenue. International passenger revenue increased 45% due to the inclusion of Northwest's operations. International PRASM decreased 25% as a result of a 25% decrease in passenger mile yield. The decrease in passenger mile yield reflects (1) significantly reduced demand for international travel, (2) competitive pricing pressures (especially in the Atlantic market, which has seen a decrease of 27% in passenger mile yield), primarily reflecting a significant decrease in business demand due to the global recession and (3) the impact of the H1N1 virus, most notably in the Pacific and Latin American markets. Also contributing to the decrease in passenger mile yield in the Atlantic market were unfavorable foreign currency exchange rates and lower fuel surcharges due to the year-over-year decline in fuel prices. Excluding Northwest's operations, we reduced international capacity by 4% for the June 2009 quarter compared to the June 2008 quarter.

Regional carriers. Passenger revenue of regional carriers increased due to the inclusion of Northwest's operations, including its Compass Airlines, Inc. and Mesaba Aviation, Inc. subsidiaries. Excluding Northwest's operations, regional carriers' revenue declined \$266 million primarily as a result of a 16% decrease in passenger mile yield and 9% decrease in traffic on an 8% decrease in capacity.

Cargo. Cargo revenue increased due to the inclusion of Northwest's operations, partially offset by the effects of capacity reductions, significantly reduced cargo yields, decreased international volume and lower fuel surcharges due to the year-over-year decline in fuel prices. During the June 2009 quarter, we grounded one dedicated freighter B-747-200F aircraft as part of our plan to retire that fleet by December 31, 2009.

Other, net. Other, net revenue increased primarily due to the inclusion of Northwest's operations. Excluding Northwest's operations, other, net revenue increased \$81 million primarily due to new or increased administrative

service charges and baggage handling fees and higher SkyMiles program revenue.

Table of Contents**Operating Expense**

(in millions)	Three Months Ended		Increase (Decrease)	Increase (Decrease) due to:	
	2009	2008		Northwest Operations	Other
Operating Expense:					
Salaries and related costs	\$ 1,891	\$ 1,092	\$ 799	\$ 733	\$ 66

Restructuring and merger-related items ⁽¹⁾	58	104	(46)		(46)
Other	198	102	96	104	(8)
Total operating expense	\$ 6,999	\$ 6,586	\$ 413	\$ 2,458	\$(2,045)

(1) Includes \$31 million in the June 2009 quarter for merger-related charges related to Northwest.

Northwest Operations. As a result of the Merger, our results of operations for the June 2009 quarter include Northwest's operations. The addition of Northwest to our operations increased operating expense \$2.5 billion and capacity 59% for the June 2009 quarter. Northwest's operations are not included in our results of operations for the June 2008 quarter.

The operating expenses discussed below do not include the impact of Northwest's operations for the June 2009 quarter.

Salaries and related costs. The \$66 million increase in salaries and related costs is due to (1) higher pension expense from a decline in the value of our defined benefit plan assets as a result of market conditions, (2) Delta airline tickets awarded to employees as a part of an employee recognition program, and (3) pay increases for pilot and non-pilot frontline employees. This increase was partially offset by an 8% average decrease in headcount primarily related to workforce reduction programs in connection with our capacity reductions.

Aircraft fuel and related taxes. Aircraft fuel and related taxes decreased \$465 million primarily due to decreases of (1) \$1.0 billion associated with lower average fuel prices and (2) \$135 million from a 7% decline in fuel consumption

due to capacity reductions. These decreases were partially offset by \$379 million in fuel hedge losses for the June 2009 quarter, compared to \$313 million in fuel hedge gains for the June 2008 quarter.

Contract carrier arrangements. Contract carrier arrangements expense decreased \$224 million primarily due to decreases of (1) \$194 million associated with lower average fuel prices and (2) \$30 million from an 8% decline in fuel consumption due to capacity reductions.

Aircraft maintenance materials and outside repairs. Aircraft maintenance materials and outside repairs decreased \$56 million as a result of capacity reductions.

Depreciation and amortization. In December 2008, we announced a multi-year extension of our co-brand credit card relationship with American Express (the American Express Agreement). Accordingly, we extended the useful life of the American Express Agreement intangible asset to the date the contract expires, which caused a \$34 million decrease in depreciation and amortization expense.

Passenger commissions and other selling expenses. Passenger commissions and other selling expenses decreased \$43 million in connection with the decrease in passenger revenue.

Impairment of goodwill and other intangible assets. During the March 2008 quarter, we experienced a significant decline in market capitalization driven primarily by record high fuel prices and overall airline industry conditions. In addition, the announcement of our intention to merge with Northwest established a stock exchange ratio based on the relative valuation of Delta and Northwest. As a result of these indicators, we determined goodwill was impaired and recorded a non-cash charge of \$6.1 billion based on a preliminary assessment. During the June 2008 quarter, we finalized the impairment test and recorded an additional non-cash charge of \$839 million. During the June 2008 quarter, we also recorded a non-cash charge of \$357 million to reduce the carrying value of certain intangible assets based on their revised estimated fair values.

Table of Contents

Restructuring and merger-related items. Restructuring and merger-related items decreased \$46 million, due to the following:

During the June 2009 quarter, we recorded \$58 million in merger-related charges associated with integrating the operations of Northwest into Delta, including costs related to information technology, employee relocation and training, and re-branding of aircraft and stations. We expect to incur total cash costs of approximately \$500 million over approximately three years to integrate the two airlines.

In March 2008, we announced two voluntary workforce reduction programs for U.S. non-pilot employees. We recorded \$96 million in restructuring and related charges for the June 2008 quarter in connection with these programs. In addition, we recorded \$8 million in charges related to the closure of certain facilities and merger-related expenses.

Other (Expense) Income

Other expense, net for the June 2009 quarter was \$254 million, compared to \$76 million for the June 2008 quarter. This change is primarily attributable to (1) a \$183 million increase in interest expense primarily due to a higher level of debt outstanding, including Northwest debt, for the June 2009 quarter and the borrowing in 2008 of the entire amount of our \$1.0 billion revolving credit facility (the Revolving Facility), (2) a \$16 million decrease in interest income primarily from significantly reduced short-term interest rates and (3) \$21 million increase in miscellaneous, net expense primarily due to the inclusion of Northwest non-operating expense for the June 2009 quarter.

Income Taxes

We recorded an income tax expense of \$4 million for the June 2009 quarter, primarily related to international and state income taxes. We did not record an income tax benefit as a result of our loss for the June 2009 quarter. The deferred tax asset resulting from such a net operating loss is fully reserved by a valuation allowance.

We recorded an income tax benefit of \$119 million for the June 2008 quarter as a result of the impairment of our indefinite-lived intangible assets. The impairment of goodwill did not result in an income tax benefit as goodwill is not deductible for income tax purposes. We did not record an income tax benefit for the remainder of our June 2008 quarter loss. The deferred tax asset resulting from such a net operating loss is fully reserved by a valuation allowance.

Results of Operations Six Months Ended June 30, 2009 and 2008**Operating Revenue**

Northwest Operations. As a result of the Merger, our results of operations for the six months ended June 30, 2009 include Northwest's operations. The addition of Northwest to our operations increased operating revenue \$5.2 billion and capacity 59% for the six months ended June 30, 2009. Northwest's operations are not included in our results of operations for the six months ended June 30, 2008.

Table of Contents

(in millions)	Six Months Ended June 30, 2009	Increase (Decrease) vs.		
		Six Months Ended June 30, 2008 Passenger Mile Yield	PRASM	Load Factor
Passenger Revenue:				
Domestic	\$ 5,371	(11)%	(10)%	1.0 pts
Atlantic	1,974	(21)%	(24)%	(2.3)pts
Latin America	608	(10)%	(15)%	(4.5)pts
Pacific	978	(11)%	(7)%	3.5 pts
Total Mainline	8,931	(14)%	(14)%	(0.4)pts
Regional carriers	2,573	(13)%	(16)%	(2.7)pts
Total passenger revenue	\$ 11,504	(15)%	(15)%	(0.7)pts

Mainline Passenger Revenue. Mainline passenger revenue increased in the six months ended June 30, 2009 due to the inclusion of Northwest's operations, partially offset by weakened demand for air travel from the global recession, the effects of the H1N1 virus and related capacity reductions. Passenger mile yield and PRASM both declined 14%.

Domestic Passenger Revenue. Domestic passenger revenue increased 55% due to the inclusion of Northwest's operations. Domestic PRASM decreased 10% as a result of an 11% decrease in passenger mile yield. The decrease in passenger mile yield reflects (1) a reduction in business demand due to the global recession, (2) an overall decrease in average fares due to competitive pricing pressures and (3) lower fuel surcharges due to the year-over-year decline in fuel prices. Excluding Northwest's operations, we reduced capacity by 9% for the six months ended June 30, 2009 compared to the six months ended June 30, 2008, while load factor increased 0.5 points.

International Passenger Revenue. International passenger revenue increased 52% due to the inclusion of Northwest's operations. International PRASM decreased 20% as a result of a 1.8 point decrease in load factor and 18% decrease in passenger mile yield. The decrease in passenger mile yield reflects (1) significantly reduced demand for international travel, (2) competitive pricing pressures (especially in the Atlantic market, which has seen a decrease of 21% in passenger mile yield), primarily reflecting a significant decrease in business demand due to the global recession and (3) the impact of the H1N1 virus, most notably in the Pacific and Latin American markets. Also contributing to the decrease in passenger mile yield in the Atlantic market were unfavorable foreign currency exchange rates and lower fuel surcharges due to the year-over-year decline in fuel prices.

Regional carriers. Passenger revenue of regional carriers increased due to the inclusion of Northwest's operations, including its Compass Airlines, Inc. and Mesaba Aviation, Inc. subsidiaries. Excluding Northwest's operations, regional carriers' revenue declined \$514 million primarily as a result of a 12% decrease in passenger mile yield and 13% decrease in traffic on an 11% decrease in capacity due to the slowing economy.

Cargo. Cargo revenue increased due to the inclusion of Northwest's operations, partially offset by the effects of capacity reductions, significantly reduced cargo yields, decreased international volume and lower fuel surcharges due to the year-over-year decline in fuel prices. During the six months ended June 30, 2009, we grounded four dedicated freighter B-747-200F aircraft as part of our plan to retire that fleet by December 31, 2009.

Other, net. Other, net revenue increased primarily due to the inclusion of Northwest's operations. Excluding Northwest's operations, other, net revenue increased \$178 million primarily due to new or increased administrative

service charges and baggage handling fees and higher SkyMiles program revenue.

(1) Includes \$84 million for the six months ended June 30, 2009 for merger-related charges related to Northwest.

Northwest Operations. As a result of the Merger, our results of operations for the six months ended June 30, 2009 include Northwest's operations. The addition of Northwest to our operations increased operating expense \$5.0 billion and capacity 59% for the six months ended June 30, 2009. Northwest's operations are not included in our results of operations for the six months ended June 30, 2008.

The operating expenses discussed below do not include the impact of Northwest's operations for the six months ended June 30, 2009.

Salaries and related costs. The \$94 million increase in salaries and related costs reflects (1) higher pension expense from a decline in the value of our defined benefit plan assets as a result of market conditions, (2) Delta airline tickets awarded to employees as part of an employee recognition program and (3) pay increases for pilot and non-pilot frontline employees. These increases were partially offset by an 8% average decrease in headcount primarily related to workforce reduction programs in connection with our capacity reductions.

Aircraft fuel and related taxes. Aircraft fuel and related taxes decreased \$580 million primarily due to (1) \$1.7 billion associated with lower average fuel prices and (2) \$224 million from a 6% decline in fuel consumption due

to capacity reductions. These decreases were partially offset by \$973 million in fuel hedge losses for the six months ended June 30, 2009, compared to \$354 million in fuel hedge gains for the six months ended June 30, 2008.

Contract carrier arrangements. Contract carrier arrangements expense decreased \$434 million primarily due to decreases of (1) \$328 million associated with lower average fuel prices and (2) \$71 million from a 10% decline in fuel consumption due to capacity reductions.

Aircraft maintenance materials and outside repairs. Aircraft maintenance materials and outside repairs decreased \$55 million as a result of capacity reductions.

Depreciation and amortization. In December 2008, we announced a multi-year extension of our American Express Agreement. Accordingly, we extended the useful life of the American Express Agreement intangible asset to the date the contract expires, which caused a \$68 million decrease in depreciation and amortization expense.

Passenger commissions and other selling expenses. Passenger commissions and other selling expenses decreased \$87 million in connection with the decrease in passenger revenue.

Table of Contents

Impairment of goodwill and other intangible assets. During the March 2008 quarter, we experienced a significant decline in market capitalization driven primarily by record high fuel prices and overall airline industry conditions. In addition, the announcement of our intention to merge with Northwest established a stock exchange ratio based on the relative valuation of Delta and Northwest. As a result of these indicators, we determined goodwill was impaired and recorded a non-cash charge of \$6.1 billion based on a preliminary assessment. During the June 2008 quarter, we finalized the impairment test and recorded an additional non-cash charge of \$839 million. During the June 2008 quarter, we also recorded a non-cash charge of \$357 million to reduce the carrying value of certain intangible assets based on their revised estimated fair values.

Restructuring and merger-related items. Restructuring and merger-related items increased \$37 million, due to the following:

For the six months ended June 30, 2009, we recorded \$107 million in merger-related charges associated with integrating the operations of Northwest into Delta, including costs related to information technology, employee relocation and training, and re-branding of aircraft and stations. We expect to incur total cash costs of approximately \$500 million over approximately three years to integrate the two airlines.

For the six months ended June 30, 2009, we also recorded \$50 million in restructuring and related charges primarily in connection with voluntary workforce reduction programs for U.S. non-pilot employees announced in December 2008.

In March 2008, we announced two voluntary workforce reduction programs for U.S. non-pilot employees. We recorded \$112 million in restructuring and related charges for the six months ended June 30, 2008 in connection with these programs. In addition, we recorded \$8 million in charges related to the closure of certain facilities and merger-related expenses.

Other (Expense) Income

Other expense, net for the six months ended June 30, 2009 was \$565 million, compared to \$205 million for the six months ended June 30, 2008. This change is primarily attributable to (1) a \$344 million increase in interest expense primarily due to a higher level of debt outstanding, including Northwest debt, for the six months ended June 30, 2009 and the borrowing in 2008 of the entire amount of our \$1.0 billion Revolving Facility, (2) a \$33 million decrease in interest income primarily from significantly reduced short-term interest rates and (3) \$17 million increase in miscellaneous, net expense primarily due to the inclusion of Northwest non-operating expense for the six months ended June 30, 2009.

Income Taxes

We recorded an income tax expense of \$4 million for the six months ended June 30, 2009, primarily related to international and state income taxes. We did not record an income tax benefit as a result of our loss for the six months ended June 30, 2009. The deferred tax asset resulting from such a net operating loss is fully reserved by a valuation allowance.

We recorded an income tax benefit of \$119 million for the six months ended June 30, 2008 as a result of the impairment of our indefinite-lived intangible assets. The impairment of goodwill did not result in an income tax benefit as goodwill is not deductible for income tax purposes. We did not record an income tax benefit for the remainder of our loss for the six months ended June 30, 2008. The deferred tax asset resulting from such a net operating loss is fully reserved by a valuation allowance.

Table of Contents**Operating Statistics**

The following table sets forth our operating statistics for the three months ended June 30, 2009 and 2008:

	Consolidated	2009 Delta	Northwest	2008 Delta
Consolidated:				
Revenue passenger miles (RPMs) (millions)	49,053	30,200	18,853	32,269

(1) Includes 27 aircraft that we

have entered into definitive agreements to sell to third parties immediately following delivery of these aircraft to us by the manufacturer.

- (2) Excludes our order of 18 B-787-8 aircraft. The Boeing Company (Boeing) has informed us that Boeing will be unable to meet the contractual delivery schedule for these aircraft. We are in discussions with Boeing regarding this situation.
- (3) Aircraft options have scheduled delivery slots, while rolling options replace options and are assigned delivery slots as options expire or are exercised.

Table of Contents

The above table:

Excludes all grounded aircraft, including three B-757-200, two B-767-300, one DC-9, one CRJ-100, and four B-747-200F aircraft, which were grounded during the six months ended June 30, 2009; and

Excludes 154 CRJ-200, 12 CRJ-700, and 10 CRJ-900 aircraft, which we own or lease but are operated by our third party contract carriers.

During the six months ended June 30, 2009, we accepted delivery of eight CRJ-900, six B-777-200LR, four B-737-800, two B-737-700, and one MD-90 aircraft. The four B-737-800 aircraft were immediately sold to third parties. All eight CRJ-900 aircraft are being flown by a third party contract carrier. In addition, we sold 10 B-757-200 and one DC-9 aircraft during the six months ended June 30, 2009.

The following table summarizes the aircraft fleet operated by third party contract carriers on our behalf at June 30, 2009:

Carrier	Fleet Type						Total
	CRJ-200	CRJ-700	CRJ-900	EMB-145	EMB-170	EMB-175

Total	288	51	47	46	2	16	450

Financial Condition and Liquidity

We expect to meet our cash needs for the next twelve months from cash flows from operations, cash and cash equivalents, short-term investments and financing arrangements. Our cash and cash equivalents and short-term investments were \$4.9 billion at June 30, 2009. In addition, we have an undrawn \$500 million revolving credit facility (the \$500 Million Revolving Credit Facility). With respect to our aircraft order commitments at June 30, 2009, we have financing commitments from third parties, cancellation rights or definitive agreements to sell certain aircraft to third parties immediately following delivery of those aircraft to us by the manufacturer.

Northwest is a party to a \$904 million senior corporate credit facility (the Bank Credit Facility). The Bank Credit Facility was fully drawn at June 30, 2009. The final maturity date for borrowings under the Bank Credit Facility and the \$500 Million Revolving Credit Facility is the earlier of (1) the date that Northwest Airlines, Inc. is no longer a separate legal entity, including when it is merged with and into Delta Air Lines, Inc.; or (2) December 31, 2010 for the Bank Credit Facility, and October 29, 2009 and October 29, 2011 for the \$300 million and \$200 million tranches, respectively, under the \$500 Million Revolving Credit Facility.

To integrate the operations of Delta and Northwest Airlines, Inc., we must obtain a single operating certificate for the two airlines from the Federal Aviation Administration. When Northwest Airlines, Inc. is no longer a certificated carrier, key assets of the two companies would be combined into a single entity by merging Northwest Airlines, Inc. with and into Delta Air Lines, Inc. Because this merger could occur within the next 12 months, we classified borrowings under the Bank Credit Facility as short-term on our Consolidated Balance Sheet at June 30, 2009. In March 2009, we shortened the amortization period from December 2010 to March 2010 of the fair value adjustment (debt discount) recorded during purchase accounting on this debt.

We intend to refinance the total amounts of both the Bank Credit Facility and \$500 Million Revolving Credit Facility prior to, or at the time of, the final maturity date of those facilities. There can be no assurance, however, that we will be able to refinance these facilities in light of current credit market conditions or for other reasons. In the event that we are not able to refinance these facilities, we believe that we have sufficient liquidity to fund the

maturities.

The continued credit crisis and related turmoil in the global financial system may restrict our ability to access the credit markets. In addition, our ability to obtain additional financing on acceptable terms for future needs could be affected by the fact that substantially all of our assets are subject to liens.

Table of Contents**Sources and Uses of Cash***Cash flows from operating activities*

Cash provided by operating activities totaled \$1.5 billion for the six months ended June 30, 2009, reflecting (1) the return from counterparties of \$1.1 billion of hedge margin primarily used to settle hedge losses during the period and (2) a \$537 million increase in advance ticket sales for summer travel. Cash provided by operating activities for the six months ended June 30, 2009 was partially offset by operating losses.

Cash provided by operating activities was \$1.3 billion for the six months ended June 30, 2008, primarily reflecting a \$1.1 billion increase in advance ticket sales and \$671 million of unrestricted fuel hedge margin we received from counterparties related to open fuel hedge contracts. These increases were partially offset by (1) an increase in fuel payments from the impact of record high fuel prices, (2) a \$352 million increase in accounts receivable associated with advance ticket sales and the timing of settlements of these receivables, (3) the payment of \$175 million in premiums for fuel hedge derivatives entered into during 2008 and (4) the payment of \$158 million under our broad-based employee profit sharing plan.

Cash flows from investing activities

Cash used in investing activities totaled \$404 million for the six months ended June 30, 2009, primarily reflecting net investments of \$498 million for flight equipment and advanced payments for aircraft order commitments and \$113 million for ground property and equipment, partially offset by (1) a \$121 million distribution of our investment in The Reserve Primary Fund and (2) \$76 million of proceeds from our sale of flight equipment.

Cash used in investing activities totaled \$809 million for the six months ended June 30, 2008, primarily reflecting investments of \$793 million for flight equipment and advanced payments for aircraft order commitments and \$113 million for ground property and equipment, partially offset by \$83 million of proceeds from our sale of flight equipment.

Cash flows from financing activities

Cash used in financing activities totaled \$477 million for the six months ended June 30, 2009, primarily reflecting the repayment of \$853 million in long-term debt and capital lease obligations, partially offset by \$390 million in proceeds primarily from long-term aircraft financing.

Cash provided by financing activities totaled \$128 million for the six months ended June 30, 2008, primarily reflecting \$848 million in proceeds from aircraft financing, partially offset by the repayment of \$712 million in long-term debt and other scheduled principal payments on long-term debt and capital lease obligations.

Application of Critical Accounting Policies***Recent Accounting Pronouncements***

In March 2008, the Financial Accounting Standards Board (the FASB) issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* an amendment to FASB Statement No. 133 (SFAS 161). SFAS 161 changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (1) how and why an entity uses derivative instruments, (2) how derivative instruments and related hedged items are accounted for under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and (3) how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. SFAS 161 is effective for fiscal years and interim periods. We adopted SFAS 161 on January 1, 2009.

In April 2009, the FASB issued FASB Staff Position (FSP) 107-1 and Accounting Principles Board (APB) Opinion No. 28-1, *Interim Disclosures about Fair Value of Financial Instruments* (FSP 107-1 and APB 28-1). FSP 107-1 and APB 28-1 amend FASB Statement No. 107, *Disclosures about Fair Values of Financial Instruments*, to require disclosures about the fair value of financial instruments in interim financial statements as well as in annual financial statements. It also amends APB Opinion No. 28, *Interim Financial Reporting*, to require those disclosures in all interim financial statements. We adopted FSP 107-1 and APB 28-1 effective April 1, 2009.

Critical Accounting Estimates

For information regarding our Critical Accounting Estimates, see the *Application of Critical Accounting Policies* section of *Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations* in our Form 10-K.

Table of Contents**Supplemental Information**

Under GAAP, we do not include in our Consolidated Financial Statements the results of Northwest prior to the completion of the Merger. Accordingly, our financial results under GAAP for the three and six months ended June 30, 2008, do not include the results of Northwest for that period. This impacts the comparability of our financial statements under GAAP for the three and six months ended June 30, 2009 and 2008. Financial results on a combined basis for the three and six months ended June 30, 2008 include the financial results for both Delta and Northwest as if the Merger had occurred on January 1, 2008. We believe presenting this financial information on a combined basis provides useful information for comparing our year-over-year financial performance.

The following table shows the combined total passenger and operating revenue for June 2008 quarter:

(in millions)	Delta Three Months Ended June 30, 2008	Northwest Three Months Ended June 30, 2008	Combined Three Months Ended June 30, 2008
Passenger and operating revenue			
Total passenger revenue	\$ 4,770	\$ 3,144	\$ 7,914
Cargo	160	213	373
Other, net	569	232	801
Total operating revenue	\$ 5,499	\$ 3,589	\$ 9,088

(in millions, except per cent data)	June 2009 Quarter vs. June 2008 Quarter
June 2009 quarter PRASM	10.00¢
June 2008 quarter combined ASMs	63,399
June 2008 quarter combined PRASM	12.48¢
Change year-over-year in PRASM	(20)%

(in millions, except per cent data)	June 2009 Quarter vs. June 2008 Quarter
June 2009 quarter passenger mile yield	12.04¢
June 2008 quarter combined revenue passenger miles	53,237
June 2008 quarter combined passenger mile yield	14.87¢
Change year-over-year in combined passenger mile yield	(19)%

Table of Contents

We present CASM excluding fuel expense and related taxes because management believes the volatility in fuel prices impacts the comparability of year-over-year financial performance. In addition, we exclude special items because management believes the exclusion of these items is helpful to investors to evaluate the company's recurring operational performance.

CASM and Combined CASM exclude ancillary businesses as these businesses are not associated with the generation of a seat mile. These businesses include expenses related to providing maintenance services, staffing services and dedicated freighter operations, as well as our vacation wholesale operations.

	Consolidated Three Months Ended June 30, 2009	Combined Three Months Ended June 30, 2008
CASM	11.86 ¢	16.52 ¢
Ancillary businesses	(0.31)	(0.53)
CASM excluding items not related to generation of a seat mile	11.55 ¢	15.99 ¢
Items excluded:		
Impairment of goodwill and other assets		(2.75)
Restructuring and merger-related items	(0.10)	(0.21)
Mark-to-market adjustments to fuel hedges settling in future periods		0.40
CASM excluding special items	11.45 ¢	13.43 ¢
Fuel expense and related taxes	(3.39)	(5.55)
CASM excluding fuel expense and related taxes and special items	8.06 ¢	7.88 ¢

	Delta Three Months Ended June 30, 2009	Northwest Three Months Ended June 30, 2009	Consolidated Three Months Ended June 30, 2009	Delta Three Months Ended June 30, 2008
Consolidated operating expense	\$ 4,510	\$ 2,489	\$ 6,999	\$ 6,586
Less regional carriers operating expense	(982)	(470)	(1,452)	(1,344)
Mainline operating expense	\$ 3,528	\$ 2,019	\$ 5,547	\$ 5,242

	Delta Six Months Ended June 30, 2009	Northwest Six Months Ended June 30, 2009	Consolidated Six Months Ended June 30, 2009	Delta Six Months Ended June 30, 2008
Consolidated operating expense	\$ 9,059	\$ 5,107	\$ 14,166	\$ 17,613
Less regional carriers operating expense	(1,936)	(884)	(2,820)	(2,651)
Mainline operating expense	\$ 7,123	\$ 4,223	\$ 11,346	\$ 14,962

Table of Contents**ITEM 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes in market risk from the information provided in Item 7A. Quantitative and Qualitative Disclosures About Market Risk in our Form 10-K, other than those discussed below.

The following sensitivity analyses do not consider the effects of a change in demand for air travel, the economy as a whole or actions we may take to seek to mitigate our exposure to a particular risk. For these and other reasons, the actual results of changes in these prices or rates may differ materially from the following hypothetical results.

Aircraft Fuel Price Risk

Our results of operations are materially impacted by changes in the price of aircraft fuel. We periodically use derivative instruments designated as cash flow hedges, which are comprised of crude oil, heating oil and jet fuel swap, collar and call option contracts, in an effort to manage our exposure to changes in aircraft fuel prices.

As of June 30, 2009, our open fuel hedging position for the six months ending December 31, 2009 and the year ending December 31, 2010 is as follows:

	Weighted Average Contract Strike Price per Gallon	Percentage of Projected Fuel Requirements Hedged	Contract Fair Value at June 30, 2009 Based Upon \$70 per Barrel of Crude Oil
(in millions, unless otherwise stated)			
2009			
<i>Heating oil</i>			
Call options	\$ 1.90	5%	\$ 14
<i>Crude Oil</i>			
Call options	1.88	20%	41
<i>Jet Fuel</i>			
Swaps	1.69	20%	85
Total		45%	\$ 140
2010			
<i>Crude oil</i>			
Call options	\$ 1.71	9%	\$ 110
Total		9%	\$ 110

Aircraft fuel and related taxes, including our contract carriers, accounted for \$4.1 billion, or 29%, of total operating expense, including \$1.1 billion of fuel hedge losses, for the six months ended June 30, 2009. The following table shows the projected impact to aircraft fuel expense and fuel hedge margin for the six months ending December 31, 2009 based on the impact of our open fuel hedge contracts at June 30, 2009 assuming the following per barrel of crude oil sensitivities for 2009:

(Increase) Decrease	Fuel Hedge Margin Received
--------------------------------	---

(in millions)	to Fuel Expense⁽¹⁾	Hedge Gain (Loss)⁽²⁾	Net impact	from (Posted to) Counterparties⁽³⁾
\$40 / barrel	\$ 1,461	\$ (196)	\$1,265	\$ (141)
\$60 / barrel	523	(3)	520	(6)
\$80 / barrel	(414)	259	(155)	207
\$100 / barrel	(1,352)	649	(703)	635

(1) Projection based upon the (increase) decrease to fuel expense as compared to the estimated crude price per barrel of \$68 and estimated aircraft fuel consumption of 2.0 billion gallons for the six months ending December 31, 2009.

(2) Projection based upon average futures prices per gallon by contract settlement month.

(3) Projection based on total fuel hedge portfolio, which includes our open positions for 2010.

Table of Contents

ITEM 4. Controls and Procedures

Management, including the Chief Executive Officer and the Chief Financial Officer, performed an evaluation of our disclosure controls and procedures, which have been designed to effectively identify and timely disclose important information. Management, including the Chief Executive Officer and the Chief Financial Officer, concluded that the controls and procedures were effective as of June 30, 2009 to ensure that material information was accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Except as set forth below, during the three months ended June 30, 2009, we made no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

On October 29, 2008 we completed our Merger with Northwest. We are currently integrating policies, processes, people, technology and operations for the combined company. Management will continue to evaluate our internal control over financial reporting as we execute Merger integration activities.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Delta Air Lines, Inc.

We have reviewed the condensed consolidated balance sheet of Delta Air Lines, Inc. (the Company) as of June 30, 2009, and the related condensed consolidated statements of operations for the three-month and six-month periods ended June 30, 2009 and 2008, and the condensed consolidated statements of cash flows for the six-month periods ended June 30, 2009 and 2008. These financial statements are the responsibility of the Company's management. We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Delta Air Lines, Inc. as of December 31, 2008 and the related consolidated statements of operations, stockholders' equity (deficit), and cash flows for the year ended December 31, 2008 and in our report dated March 1, 2009, we expressed an unqualified opinion on those consolidated financial statements.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

First Bag Fee Antitrust Litigation

In May, June and July, 2009, a number of purported class action antitrust lawsuits were filed in the U.S. District Courts for the Northern District of Georgia, the U.S. District Court for the Middle District of Florida, and the District of Nevada against Delta and AirTran Airways (AirTran).

In these cases, the plaintiffs allege that Delta and AirTran engaged in collusive behavior in violation of Section 1 of the Sherman Act in November 2008 based upon certain public statements made in October 2008 by AirTran s CEO at an analyst conference concerning fees for the first checked bag, Delta s imposition of a fee for the first checked bag on November 4, 2008 and AirTran s imposition of a similar fee on November 12, 2008. The plaintiffs seek to assert claims on behalf of an alleged class consisting of passengers who paid the first bag fee after December 5, 2008 and seek injunctive relief and unspecified treble damages.

We believe the claims in all of these cases are without merit and are vigorously defending these lawsuits. Motions are pending to transfer and consolidate all pending cases in the Northern District of Georgia.

Cincinnati Airport Settlement

On April 24, 2007, the U.S. Bankruptcy Court for the Southern District of New York (the Bankruptcy Court) approved our settlement agreement (the Cincinnati Airport Settlement Agreement) with the Kenton County Airport Board (KCAB) and UMB Bank, N.A., the trustee (the Bond Trustee) for the Series 1992 Bonds (as defined below), to restructure certain of our lease and other obligations at the Cincinnati-Northern Kentucky International Airport (the Cincinnati Airport). The Series 1992 Bonds include: (1) the \$419 million Kenton County Airport Board Special Facilities Revenue Bonds, 1992 Series A (Delta Air Lines, Inc. Project), \$397 million of which were then outstanding; and (2) the \$19 million Kenton County Airport Board Special Facilities Revenue Bonds, 1992 Series B (Delta Air Lines, Inc. Project), \$16 million of which were then outstanding.

The Cincinnati Airport Settlement Agreement, among other things:

provides for agreements under which we will continue to use certain facilities at the Cincinnati Airport at substantially reduced costs;

settles all disputes among us, the KCAB, the Bond Trustee and the former, present and future holders of the Series 1992 Bonds (the 1992 Bondholders);

gives the Bond Trustee, on behalf of the 1992 Bondholders, a \$260 million allowed general, unsecured claim in our bankruptcy proceedings; and

provides for our issuance of \$66 million principal amount of senior unsecured notes to the Bond Trustee on behalf of the 1992 Bondholders.

On May 3, 2007, the parties to the Cincinnati Airport Settlement Agreement implemented that agreement in accordance with its terms. A small group of bondholders (the Objecting Bondholders) challenged the settlement in the U.S. District Court for the Southern District of New York (the District Court). In August 2007, the District Court affirmed the Bankruptcy Court s order approving the settlement. The Objecting Bondholders appealed to the U.S. Court of Appeals for the Second Circuit, which in February 2009 upheld the District Court s decision, and subsequently denied the Objecting Bondholders petition for a rehearing en banc. The Objecting Bondholders have filed a petition for a writ of certiorari with the U.S. Supreme Court.

Item 3. Legal Proceedings of our Form 10-K includes a discussion of other legal proceedings.

Table of Contents**ITEM 1A. Risk Factors**

Item 1A. Risk Factors of our Form 10-K includes a discussion of our risk factors. The information presented below updates, and should be read in conjunction with, the risk factors and information disclosed in our Form 10-K. Except as presented below, there have been no material changes from the risk factors described in our Form 10-K.

Risk Factors Relating to Delta

The global economic recession has resulted in weaker demand for air travel and may create challenges for us that could have a material adverse effect on our business and results of operations.

As the effects of the global economic recession have been felt in our domestic and international markets, we are experiencing weaker demand for air travel. Our demand began to slow during the December 2008 quarter and global economic conditions in 2009 are substantially reducing U.S. airline industry revenues in 2009 compared to 2008. As a result, we are reducing our consolidated capacity by 7-9% in 2009 compared to 2008 on a combined basis (which reflects planned domestic capacity reductions of 8-10% and international capacity reductions of 7-9%). Demand for air travel could remain weak or even continue to fall if the global economic recession continues for an extended period, and overall demand could fall lower than we are able prudently to reduce capacity. The weakness in the United States and international economies is having a significant negative impact on our results of operations and could continue to have a significant negative impact on our future results of operations.

Certain of our credit facilities include financial and other covenants that impose restrictions on our financial and business operations.

The exit facility financing credit agreements of Delta and Northwest and the liquidity facility credit agreement of Northwest each contain financial covenants that require Delta or Northwest, respectively, to maintain a minimum fixed charge coverage ratio, minimum unrestricted cash reserves and minimum collateral coverage ratios. The value of the collateral that has been pledged in each facility may change over time, including due to factors that are not under our control, resulting in a situation where we may not be able to maintain the collateral coverage ratio. In addition, each of the credit facilities contains other negative covenants customary for such financings. These covenants may have a material adverse impact on our operations. Moreover, if we fail to comply with the covenants in any credit facility and are unable to obtain a waiver or amendment, an event of default would result under that facility.

Each of the credit facilities also contains other events of default customary for such financings. If an event of default were to occur, the lenders could, among other things, declare outstanding borrowings under the respective credit facilities immediately due and payable, and our cash may become restricted. We cannot provide assurance that we would have sufficient liquidity to repay or refinance borrowings under any of the credit facilities if such borrowings were accelerated upon an event of default. In addition, an event of default or declaration of acceleration under any of the credit facilities could also result in an event of default under other financing agreements of Delta and Northwest.

Our ability to use certain net operating loss carryforwards to offset future taxable income for U.S. federal income tax purposes is subject to limitation.

In general, under Section 382 of the Internal Revenue Code of 1986, as amended, a corporation that undergoes an ownership change is subject to limitations on its ability to utilize its pre-change net operating losses (NOLs), to offset future taxable income. In general, an ownership change occurs if the aggregate stock ownership of certain stockholders increases by more than 50 percentage points over such stockholders' lowest percentage ownership during the testing period (generally three years).

As of June 30, 2009, Delta reported a consolidated federal and state NOL carryforward of approximately \$16.0 billion. Both Delta and Northwest experienced an ownership change in 2007 as a result of their respective plans of reorganization under Chapter 11 of the U.S. Bankruptcy Code. As a result of the merger, Northwest experienced a subsequent ownership change. Delta also experienced a subsequent ownership change on December 17, 2008 as a result of the merger, the issuance of equity to employees in connection with the merger and other transactions involving the sale of our common stock within the testing period.

The Delta and Northwest ownership changes resulting from the merger could limit the ability to utilize pre-change NOLs that were not subject to limitation, and could further limit the ability to utilize NOLs that were already subject to limitation. Limitations imposed on the ability to use NOLs to offset future taxable income could cause U.S. federal

income taxes to be paid earlier than otherwise would be paid if such limitations were not in effect and could cause such NOLs to expire unused, in each case reducing or eliminating the benefit of such NOLs. Similar rules and limitations may apply for state income tax purposes. NOLs generated subsequent to December 17, 2008 are not limited.

Risk Factors Relating to the Airline Industry

The rapid spread of contagious illnesses can have a material adverse effect on our business and results of operations.

The rapid spread of a contagious illness, such as the H1N1 flu virus beginning in March 2009, can have a material adverse effect on the demand for worldwide air travel and therefore have a material adverse effect on our business and results of operations. Further acceleration of the spread of H1N1 during the flu season in the Northern Hemisphere could have a significant adverse impact on our financial results in addition to the impact that we have already experienced during the spring of 2009. Moreover, our operations could be negatively affected if employees are quarantined as the result of exposure to a contagious illness. Similarly, travel restrictions or operational problems resulting from the rapid spread of contagious illnesses in any part of the world in which we operate may materially impact our operations and adversely affect our results of operations.

The airline industry is highly competitive and, if we cannot successfully compete in the marketplace, our business, financial condition and operating results will be materially adversely affected.

We face significant competition with respect to routes, services and fares. Our domestic routes are subject to competition from both new and established carriers, some of which have lower costs than we do and provide service at low fares to destinations served by us. In particular, we face significant competition at our hub airports in Atlanta, Cincinnati, Detroit, Memphis, Minneapolis/St. Paul, New York-JFK, Salt Lake City, Paris-Charles de Gaulle, Amsterdam and Tokyo-Narita either directly at those airports or at the hubs

Table of Contents

of other airlines that are located in close proximity to our hubs. We also face competition in smaller to medium-sized markets from regional jet operators.

Low-cost carriers, including Southwest, AirTran and JetBlue, in the U.S. have placed significant competitive pressure on us and other network carriers in the domestic market. In addition, other network carriers have also significantly reduced their costs over the last several years. Our ability to compete effectively depends, in part, on our ability to maintain a competitive cost structure. If we cannot maintain our costs at a competitive level, then our business, financial condition and operating results could be materially adversely affected. In light of increased jet fuel costs and other issues in recent years, we expect consolidation to occur in the airline industry. As a result of consolidation, we may face significant competition from larger carriers that may be able to generate higher amounts of revenue and compete more efficiently.

In addition, we compete with foreign carriers, both on interior U.S. routes, due to marketing and codesharing arrangements, and in international markets. Through marketing and codesharing arrangements with U.S. carriers, foreign carriers have obtained access to interior U.S. passenger traffic. Similarly, U.S. carriers have increased their ability to sell international transportation, such as transatlantic services to and beyond European cities, through alliances with international carriers. International marketing alliances formed by domestic and foreign carriers, including the Star Alliance (among United Airlines, Lufthansa German Airlines and others and which Continental has announced its intention to join in October 2009) and the oneworld Alliance (among American Airlines, British Airways and others) have also significantly increased competition in international markets. In addition, the adoption of liberalized Open Skies Aviation Agreements with an increasing number of countries around the world, including in particular the Open Skies agreement between the U.S. and the Member States of the European Union, has accelerated this trend. Negotiations are under way between the United States and other countries, such as Japan, regarding similar agreements with countries, which, if effectuated, could significantly increase competition in these markets.

ITEM 2. Issuer Purchases of Equity Securities

We withheld the following shares of Delta common stock to satisfy tax withholding obligations during the June 2009 quarter from the distributions described below. These shares may be deemed to be issuer purchases of shares that are required to be disclosed pursuant to this Item.

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Maximum Number (or Approximate Dollar Value) of Shares That May Yet Be Purchased Under the Plan or Programs
April 1-30, 2009	49,793	\$6.67	49,793	(1)
May 1-31, 2009	1,249,803	\$6.42	1,249,803	(1)
June 1-30, 2009	106,804	\$6.51	106,804	(1)
Total	1,406,400		1,406,400	

(1) Shares were withheld from

employees to satisfy certain tax withholding obligations due in connection with grants of stock under our 2007

Performance Compensation Plan and in connection with bankruptcy claims. The 2007

Performance Compensation Plan and Delta's Plan of Reorganization both provide for the withholding of shares to satisfy tax obligations. Neither specify a maximum number of shares that can be withheld for this purpose.

Table of Contents**ITEM 4. Submission of Matters to a Vote of Security Holders**

Delta's Annual Meeting of Stockholders was held on June 22, 2009 in New York City, New York (Annual Meeting). At the Annual Meeting, the holders of common stock took the following actions:

1. Elected the persons named below to our Board of Directors by the following vote:

NOMINEES	FOR	AGAINST	ABSTENTIONS
Richard H. Anderson	531,727,863	118,311,886	2,170,310
Roy J. Bostock	488,936,271	159,022,082	4,251,706
John S. Brinzo	529,981,027	117,284,613	4,944,420
Daniel A. Carp	529,986,132	117,393,125	4,830,802
John M. Engler	529,715,855	118,151,763	4,342,442
Mickey P. Foret	510,707,316	138,163,560	3,339,183
David R. Goode	530,445,964	117,126,387	4,637,708
Paula Rosput Reynolds	528,085,987	119,928,693	4,185,380
Kenneth C. Rogers	531,028,316	116,780,870	4,390,873
Rodney E. Slater	529,583,392	118,515,347	4,101,320
Douglas M. Steenland	515,556,788	134,334,122	2,319,149
Kenneth B. Woodrow	530,162,044	117,435,517	4,612,498

There were no broker non-votes on this matter.

2. Ratified the appointment of Ernst & Young as independent auditors for the year ending December 31, 2009 by a vote of:

FOR	AGAINST	ABSTENTIONS
640,367,524	9,320,583	2,521,952

There were no broker non-votes on this matter.

3. Defeated the stockholder proposal regarding cumulative voting in the election of directors by a vote of:

FOR	AGAINST	ABSTENTIONS
137,892,524	391,796,114	1,859,819

There were 120,661,602 broker non-votes.

(GSCP), as administrative agent and as collateral agent, GSCP and Merrill Lynch Commercial Finance Corp., as co-lead arrangers and joint bookrunners, Barclays Capital, as syndication agent and as joint bookrunner, and Credit Suisse Securities (USA) LLC and C.I.T. Leasing Corporation, as co-documentation agents.*
- 10.2 Form of Offer of Employment dated October 31, 2008 between Delta Air Lines, Inc. and Michael J. Becker and Richard B. Hirst, respectively.*
- 15 Letter from Ernst & Young LLP regarding unaudited interim financial information
- 31.1 Certification by Delta's Chief Executive Officer with respect to Delta's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009
- 31.2 Certification by Delta's Senior Vice President and Chief Financial Officer with respect to Delta's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009
- 32 Certification pursuant to Section 1350 of Chapter 63 of Title 18 of the United States Code by Delta's Chief Executive Officer and Senior Vice President and Chief Financial Officer with respect to Delta's Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2009

* The agreement has been filed previously with the SEC on a prior report of the Registrant. The agreement is being filed with this Form 10-Q to include exhibits and schedules to the agreement that were not included in the prior filing. Any representations and warranties of a party set forth in the agreement (including all exhibits and schedules thereto) have been made solely for the benefit of the other party to the agreement. Some of those representations and warranties were made only as of the date of the agreement or such other date as specified in the agreement, may be subject to a contractual standard of materiality different from what may be viewed as material to stockholders, or may have been used for the purpose of allocating risk between the parties rather than establishing matters as facts. The agreement is included with this filing only to provide investors with information regarding the terms of the agreement, and not to provide investors with any other factual or disclosure information regarding the registrant or its business.
